COMMITTEES OF THE SPECIALIZED GROUPS

Techniques originally developed for radio communications are being adapted and developed for an increasing variety of applications many of which are nowadays termed "electronics".

Proposals for Groups to cover other specializations are under consideration by the Council.

Computer Group Committee

- Chairman: A. D. BOOTH, D.Sc., Ph.D., (M)
- R. P. BUDGEN, (A.M.)
- K. D. F. CHISHOLM, (A.M.)
- G. S. EVANS, (A.M.) A. S. FINLAYSON, (A.M.)
- D. Hogg, (A.M.)
- A. ST. JOHNSTON, B.Sc., (M)
- S. MORLEIGH, (A.M.)
- C. H. NICHOLSON, (A.M.)
- W. RENWICK, B.Sc., (M)
- K. H. SIMPKIN, (A.M.)

A. H. BABB, (A.M.) R. BRENNAND, (A.M.)

J. I. BROWN, (A.M.)

K. COPELAND, (A.M.)

E. W. MARSDEN, (A.M.)

T. L. SQUIRES, (A.M.)

P. E. TOOKE, (A)

Chairman: W. J. PERKINS, (M)

DR. C. A. F. JOSLIN, M.B., B.S., (A.M.)

C. W. MILLER, D.Sc., M.Sc., (M)

TERMS OF REFERENCE!

- (a) To promote Institution activity in the field of electronic computers, control systems and associated equipment.
- (b) To disseminate knowledge by arranging meetings in the fields of electronic computers, control systems and associated equipment in collaboration with the Programme and Papers Committee, and by arranging for publication of papers in the Journal of the Institution.
- (c) To advance knowledge in the field of electronic computers, control systems and associated equipment by collaboration with other interested bodies.
- (d) To work towards the preparation and acceptance of standards in the design and performance of electronic computers, control systems and associated equipment.

Medical and Biological Electronics Group Committee

TERMS OF REFERENCE:

- (a) To keep under review the radio and electronic techniques which are applicable to all branches of medical and biological sciences.
- (b) To promote Institution activity in this field and to disseminate knowledge by arranging meetings in collaboration with the Programme and Papers Committee.
- (c) To advance knowledge in medical electronics by co-operation with other interested bodies.
- (d) To work towards the preparation and acceptance of standards in the design and performance of electronic instruments for use in medical science

Radar and Navigational Aids Committee

TERMS OF REFERENCE:

To promote Institution activity in radio techniques associated with radar and navigational aids by:

- (a) Disseminating knowledge by arranging meetings in collaboration with the Programme and Papers Committee.
- (b) Advancing knowledge in these techniques by collaboration with other interested bodies and committees.
- (c) And otherwise by collaboration in the preparation and acceptance of engineering standards in the design of radar and navigational aids equipment.

Electro-Acoustics Group Committee

TERMS OF REFERENCE:

The Electro-Acoustics Group specializes in those aspects of radio and electronic engineering which are associated with the propagation, conduction, generation, perception, measurements, reproduction and control of all kinds of material vibrations. The objects of the Group are:

- (a) To promote Institution activity in those techniques and to disseminate knowledge by arranging meetings in collaboration with the Programme and Papers Committee.
- (b) To advance knowledge in this field by collaboration with other bodies and to work towards the preparation and acceptance of standards in this field of engineering.

Television Group Committee

TERMS OF REFERENCE:

To promote Institution activity and to disseminate knowledge in the field of television engineering and for these purposes to:

- (a) Arrange meetings in collaboration with the Programme and Papers Committee and to procure the publication of papers.
- (b) Promote the preparation and acceptance of standards and codes of practice for television systems and equipment.
- (c) Collaborate with other interested bodies.
