News/Talk **KLIF/Dallas** issued a press release claiming it's the first radio station to make all of its audio programming available via the Internet.

KLIF moved onto the 'net on September 2, one day before **KOA/Denver** began cybercasting its programming. (Incidentally, KLIF's Web site is www.pic.net/klif/index.html).

Look for new Alternative convert **WXR/B Pittsburgh PD Tommy Nyce** to exit in two weeks to pursue other opportunities.

KYJC-AM & FM/Medford, OR GM Richard Barney has been fired for what station owner **Fred Danz** told ST was "inappropriate behavior."

Although Danz would not elaborate, former station PD/OM/News Dir. **Michael Perry** told ST the termination followed Barney's sexual harassment of a female nighttimer. Perry claims he'd been complaining for a year about Barney's harassment of other female staffers as well as Perry's own wife.

When pressed about Perry's allegations, Barney said, "There's no scandal. I got terminated, just like hundreds of GMs do in all kinds of businesses across the country."

WXKS (Kiss 108)/Boston late-nighter **Kid David** got a lotta local press lately for pulling a woman and her dog out of a burning car — mere seconds before it exploded on a nearby highway!

David was driving to work when he saw the woman climbing out of a smoking car, and pulled over to offer assistance. After a few more good samaritans and the fire department arrived on the scene, Kid jumped back in his car and headed off to work.

Giant Records expanded its domestic distribution deal with the **Warner Music Group** to the year 2001, ending speculation that the label might leave the **Time Warner** family.

Elektra celebrated the Wednesday (9/20) release of **AC/DC's** "Ballbreaker" album by debuting the disc at listening parties held in 12 major market movie theatres — packed by lucky listeners to local Rock stations, who awarded the tix. The band's **Angus Young** and **Brian Johnson** answered questions from fans in each market *live!* via satellite from London.

• **KHTY/Santa Barbara, CA MD/night slammer Damlon Young** picks up PD stripes and moves to afternoons, replacing **John Fredricks**, who'll remain as an in-house consultant. The station will maintain its Pop Alternative musical lean.

Meanwhile, look for **KMGQ/Santa Barbara, CA PD Nancy Newcomer** (an 11-year station vet) to exit the Hot AC at the end of the month and help select her successor.

• **KEKB/Grand Junction, CO PD Ed Chandler** segues to PD of sister **KOOL-FM**. Owner/GM **Dick Maynard** takes the **KEKB** programming reins.

• **KOEL-FM/Waterloo, IA OM Wes McShay** adds those duties for Classic Rock sister **KCRR-FM**.
