

PREFACE

Top motion pictures, as all great art forms, reflect the times and spirit of the people and the major events in their history, as well as the universal qualities of all mankind throughout the ages. And so, the American Society of Composers, Authors and Publishers is proud to present this special ASCAP Program Guide "30 Years of Motion Picture Music."

This booklet, prepared in response to the requests of radio and television program men, lists recordings of the big Hollywood hit tunes which were presented to the public in motion pictures from 1928 to 1958. Here program directors will find a wealth of material in the wide spectrum of the musical colors of the American people. The compositions in this guide of course represent only a small portion of the repertory which the Society makes available through its license.

For ready reference the works in the guide have been arranged chronologically by year, and alphabetically in the title index.

Please refer to your license agreement with the Society for a statement of the use which you may make of the musical compositions contained in this list.

A handwritten signature in cursive script that reads "Paul Cunningham". The signature is written in dark ink and is positioned above the printed name and title.

Paul Cunningham
President
