KYTE BOOSTS BALD EGOS—Contrary to apparent visual evidence, the above photo does not depict a trio of walking thumbs, or an alien race of intelligent potatoes. The three numb skulls pictured are the finalists in KYTE/Portland's "Bald Is Beautiful" contest. The station persuaded the city's Mayor to declare June 1 "Bald Is Beautiful Day." The original idea for the contest sprang from the unadorned skull of KYTE morning man Don Wright.

NAB Asks Radio Input On Royalties

The NAB has asked its members to submit "factual material" on the topic of promoting record sales via radio to be included in Copyrights Register Barbara Ringer's upcoming performance royalty report. Although the NAB memo to members maintained that Ringer's report to Congress would favor performance royalty proposals, it stressed the importance of including broadcasters' opin-

ions and evidence of how stations influence record sales. Statements from retailers, and reports from stations on methods used by record company promotion people in soliciting airplay on new records were cited by the NAB as examples of the type of material desired from broadcasters.

In calling for industry participation, the NAB delivered a stern warning on the issue, stating

"NAB's efforts to prevent establishment of a performance right in sound recordings was successful in the last Congress, but we cannot relax our efforts." Continuing, the memo raised the prospect of broadcasters having to pay out "nearly \$15,000,000 in addition to the fees already paid to ASCAP and BMI and other music listening societies."

CBS Convention Biggest Ever

The recently concluded CBS Records Convention was the company's largest in history, with over 1300 participating in a wide range of events taking place at London's Grosvenor House from July 25 to the 31st. Attendees heard addresses from CBS' top executives, including CBS Records Group President Walter Yetnikoff, CBS Records Division President Bruce Lundvall, and CBS Records International President Dick Asher. Also featured were numerous departmental seminars, workshops, and meetings covering all phases of the company's operations. New and upcoming product was previewed, intracompany awards were bestow-

ed, and the late Goddard Lieberson, former CBS Records President, was honored. The convention was highlighted by musical performances from label stars including Boz Scaggs and James Taylor (Columbia), Heart (Portrait), Patti Labelle (Epic), Teddy Pendergrass (Philadelphia International), and the Beach Boys (Caribou).

Labor Board Rules CKLW Innocent

CKLW/Detroit-Windsor has been exonerated of all charges brought by **NABET** regarding unfair labor practices, according to a **Canadian Labor Board** ruling. In a 55-page opinion, the Board implied that any unfair practices may have been on NABET's side. The union had been striking against CKLW

for the past five months. Following the Labor Board's decision, the strike continued, but 10 of the original 32 striking employees have returned to work. CKLW PD Dick Bozzi told R&R: "Now that these charges have been dismissed, we will most likely return to the bargaining table."

Y100 & KEZK-FM Sold

Y100/Miami (WHYI) and Beautiful Music formatted KEZK-FM/St. Louis have been sold to Norman Wain and Bob Weiss for a reported \$6.1 million by the Heftel chain pending FCC approval. Wain and Weiss, who currently own KOAX/Dallas, will assume ownership at the beginning of 1978.

NABET Rewrites Strike Offers

As the NABET strike against the ABC network passed the 11-week mark, union officials were rewriting their proposals in preparation for a meeting with ABC in the Federal Mediation Service offices in Washington D.C. ABC officials

delivered a "new package" of offers recently as well, according to a NABET source, indicating a degree of willingness on both sides to bring an end to the extended strike.

FCC Surveys Media On Blackout

FCC Commissioner Margita White is surveying news services and networks to measure the recent New York City blackout's effect on national communications. The survey asked networks how long they were out and how long they can run on auxiliary power, as well as querying about plans for future power emergen-

Following the 1965 Northeast power blackout, an FCC formal inquiry impelled a number of stations to state they were planning strong precautionary action against future incidents, but prior to the present survey the Commission has never determined whether such action was taken. "We're hoping this survey will enable us to find out," said Ray Seddon, Chief of the FCC's Emergency Communications Division. Said Mrs. White, "If we find weaknesses in several areas, it might be looked into to see how the problems could be avoided in the future.'

CBS Sets Fellowship In Lieberson's Memory

WLS air personality Bob Strott became "wrapped up" in Chicago's "King Tut

Fever" outbreak recently. The ongoing exhibition of the treasures of Egyptian

Pharoah Tutankhamun will attrack an estimated 2 million visitors during its run,

and Sirott decided to capitalize on the trend by becoming the first "radio

coffin in the window of a Michigan Avenue I. Magnin store. WLS also gave

away Bob Sirott King Tut T-shirts during the same weekend. Sirott recommends

the promotion for other stations as the King Tut exhibition moves to other cities;

as he told R&R, "Imitation is the most sincere form of plaglarism."

CBS Records has established a \$300,000 fellowship for advanced music students in memory of the late Goddard Lieberson, former President of the company. Walter Yetnikoff, Lieberson's successor as CBS Records President, expressed

the hope that other organizations and individuals with past associations with Lieberson might wish to make further contributions. Details will be announced in the fall. with the first Lieberson fellows to be chosen in 1978.

Ode To Epic

Lou Adler's Ode Records will be distributed by CBS's Epic label, in a return to its original situation when the company was founded in 1967. During that first CBS era, lasting two years, Ode had hits with Scott McKenzie and Spirit After switching to A&M distribution in 1969, the label hit with Carole King (including the multimillion selling "Tapestry" album) and Cheech & Chong, selling 30 million records in eight years. A&M began a six-month selloff period on existing product August

Under the new Epic pact, Adler will serve as a consultant to the label. Epic acquires the bulk of the Ode catalog, including Carole King's Ode albums plus a neverreleased LP recorded in fall 1976. The Cheech & Chong Ode albums were also acquired by Epic, who signed the comedy duo to a separate contract at the same time. AM Stereo, FM Quadraphonic **Questions Set By FCC**

The FCC has published its list of inquiries for broadcasters and the general public on the question of AM stereo and FM quadrophonic broadcasting standards. Comments on the AM Stereo inquiry are due October 15, reply comments by November 15; for the FM Quadrophonic inquiry, September 15 and October 17.

Summarized, the main questions on the subject of AM stereo

- 1. What is the actual public interest and need for AM stereo?
- 2. To what extent are the broadcast industry and manufacturers of home and automobile receivers interested in meeting the public's interest in AM stereo?
- 3. What is the impact of AM stereo likely to be on FM's continuing development?
- 4. What will be the cost impact for the public for AM stereo receivers and for broadcasters for equipment?
- 5. To what extent should the FCC regulate AM stereo performance?
- 6. What is the possibility of a 'standard'' response characteristic for AM radio receivers to avoid the current problem in AM broadcasting where stations use special processing of their audio signals to overcome limitations in many receivers?

For FM Quadraphonic, the questions are:

1. Is the broadcasting industry interested in spending the money necessary for quadraphonic transmissions?

- 2. Are enough listeners willing to spend the money for quadraphonic processing equipment?
- 3. What are the merits of each of the three proposed systems?
- 4. Will sufficient program material for quadraphonic broadcasting be available?
- 5. What will the impact of FM quadraphonic standards be on subsidiary communications authorizations (SCA's), changes in station coverage, studio transmitter interconnections and transmission equipment?
- 6. Will current monophonic and stereophonic receivers be able to function normally with quadraphonic transmissions?
- 7. Can existing receivers be modified or adapted for quadraphonic, and how much more will quadraphonic receivers cost for each of the proposed systems?

The above questions and additional technical inquiries are raised in the FCC's notice of inquiry for July 6, 1977 (Docket No. 21310; Mimeo No. 70341). Copies of the complete inquiry are available from the Consumer Assistance Office, Federal Communications Commission, 1919 M St. N.W., Washington, D.C. 20554. Comments should be sent to Secretary, FCC, at the same address. For comments to be received as a "formal filing," an original and five copies must be submitted; informal filings require just one copy. The Docket No. above should be noted on all comments.

Listerine Must Retract Ads

The U.S. Circuit Court of Appeals upheld an order stating that future advertisements for **Listerine** Mouthwash must state that the product "will not help prevent colds or sore throats." The ads will not have to include the phrase "contrary to prior advertising" which had been ordered by the **Federal Trade Commission**. The court felt this phrase would only serve to humiliate the manufacturer.

Citizen Groups May Receive Notice On Station Deals

The **FCC** has issued a notice of inquiry as to whether or not the public should be notified in advance of broadcast station buys and sells, thus giving them the opportunity to challenge the negotiations and voice their feelings. The proposal was initially put forth by **Benjamin Hooks**, FCC Commissioner, allowing citizens groups 45 days notice in advance of contract signatures.

FCC Revokes License at WLLE-AM/Raleigh, N.C. The FCC has revoked the radio broadcast license of WLLE-AM/Raleigh, N.C., for fraudulent billing

The **FCC** has revoked the radio broadcast license of **WLLE-AM/Raleigh**, N.C., for fraudulent billing practices. One year ago an FCC administrative law judge imposed a \$10,000 fine against the station, not taking their license due to "mitigating factors." At that time, the station offered restitution to all advertisers who had been overbilled, and would take steps to prevent further fraud. However, the FCC ruled these weren't sufficient mitigating factors and that the station only took these steps when it faced possibly loss of it's license. Evidence showed that between 1971 and 1973 the station overbilled its advertisers by \$68,000. It was also discovered that Gulf Oil was billed \$33,000 for advertising worth approximately \$9,000 and that a Gulf employee and station official worked together on that fraud.

New Grants For The World Press Freedom Committee

The Knight Foundation, Scripps-Howard Foundation and the Robert R. McCormick Charitable Trust foundations have all contributed \$50,000 to the World Press Freedom Committee, aimed at preserving an independent media in the third world. The committee is dedicated to the 'free flow of international news' without government interference. These grants will be used to aid the print and broadcast media of the developing nations in the form of on-the-job training, seminars, fellowships and a manpower tool of technicians and teachers.

A trio of Washington D.C. businessmen currently in the process of purchasing **WAVA AM & FM** for some \$3,000,000, are now planning to spin-off the AM for a yet undisclosed figure. The 50,000 watt WAVA-FM will presumably switch from its current All-News format, with the AM receiving new call letters

Dinner For Two

A survey by the **National Restaurant Association** revealed that married couples dine out alone (without children) an average of twice a month, spending \$14.75 each time. The survey also revealed that 49% of the couples consider the recommendation of a friend in choosing a restaurant, while 32% prefer to consult newspaper restaurant reviewers.

Stations Denied FCC Fine Appeals

The **U.S.** Court of Appeals terminated suits by two radio stations that were appealing fines imposed on them by the **FCC.** KILJ-FM/Mt. Pleasant, Iowa received a \$500 fine for violating transmitter rules. **WIYN-AM/Rome**, Georgia was fined \$1000 for personal attack rule violations. The court said the 1934 Communications Act "vests exclusive jurisdiction in the district courts to review, in the first instance, license challenges to forfeiting orders."

Reconsideration Of Noninterference Policy.In Broadcast Formats Denied

The Commission has denied the requests of five parties for reconsideration of its July 28, 1976 order that station entertainment formats were within the discretion of licensees and that it would not interfere in broadcasters' decisions to change their programming.

Those seeking review were Frank Kahn of Dobbs Ferry, N.Y., the Office of Communications of the United Church of Christ, the Action Alliance of Senior Citizens of Greater Philadelphia, the WNCN Listeners' Guild, New York City, and Classical Music Supporters, Inc.

On December 22, 1975, the Commission began in inquiry on what role, if any, it should play in examining proposed changes in station entertainment formats.

The inquiry resulted from a policy mandated by the U.S. Court of Appeals for the District of Columbia Circuit in several recent format change cases (among them, WEFM-FM/Chicago) that required the Commission to more closely scrutinize proposed format changes.

The WEFM case involved the 1972 application by the Zenith Radio Corp to assign its license of that station to GCC Communications of Chicago, Inc., and GCC's accompanying proposal to change the format from Classical music to Rock. The court reversed FCC approval of this application and remanded it to the Commission for further action. The Commission put the application in hearing.

In reaching its non-interference decision, and in considering the requests for reconsideration of it, the FCC noted it was the intention of Congress in the Communications Act of 1934 that broadcasting be conducted on a competitive basis and said government regulations of formats was contrary to such an intent.

The Commission found the procedure required by the Court imposed "common carrier-like" obligations on broadcasters by requiring them to obtain governmental approval before discontinuing service. It said competition had been effective in producing wide diversity in entertainment programming.

The FCC said format allocation by market forces enabled consumers to give a rough expression of whether their preference for diversity within a given format outweighed the desire for diversity among different formats. It noted this proposition was supported by an FCC staff study that found radio audience ratings tended to differ nearly as much for stations programming similar types of music as for those with markedly different types.

Government regulation of formats was contrary to the public interest, the Commission said.

It said the guidelines suggested by the court would result in numerous administrative hearings on both renewal and assignment applications, creating an administrative hardship, with no real assurance that the public would be better off. It also found a "constitutionally chilling" aspect to government regulation of entertainment formats. It said many stations might consider the risks of starting innovative or novel programming unacceptable in view of the costs they might face in justifying their actions in a hearing.

The Commission also noted the practical problem of deciding exactly what a station's entertainment format was, and after once doing so, whether it had changed.

The Commission said it remained convinced that program regulation was extremely complex and unwise. Nevertheless, it said, it recognized that its conclusions were subject to judicial review and, for that reason, it continued the stay of implementation of the new policy until court review had been completed.

Action by the Commission July 27, 1977, by Memorandum Opinion and Order. Commissioners Wiley (Chairman), Lee, Quello, Washburn and White with Commissioner Fogarty concurring and issuing a statement and Commissioner Hooks dissenting.

Anything that would float was permitted for the race, except for gas or electrically powered rafts. The station awarded cash prizes and trophies to crews of rafts which were declared winners in varying categories, covering both commercial and noncommercial entires. Gary Michaels, MD, dressed up as "Gary Gizzards" stood outside the eatery waving customers in for the special dinners while PD Scott Kerr broadcast from the site. The response was so great, local authorities were called in to direct traffic.

Attention PD's Who Work For Cheap SOB's:

It's a bitch ain't it. KHJ has "Zork" and WMAQ is "gonna make you rich". Meanwhile you sit with salt and pepper sets, the good tradeouts are being used by the salesmen and everytime you tighten up the playlist, the record companies tighten up the free-bies. Plus, the fall books are coming and your competition will spend more money in days then they have in months and pretend they're not in months and pretend they're not trying to hype the ratings. Ho Ho. FACT OF LIFE: PD's survive by the rating books and GM's by the accountant's books. Many stations that turn a healthy profit are dogs in the ARB. It's possible that they're not cheap, just good businessmen. LOOK, I've got something for both of you, It's a promotion that's been though the not compared sollers. known to net some very good dollars and be a strong audience builder at the same time. It's THE MUSIC GAMES. . . Country and now a new Rock version, SUPERSTARS. There's a long list of stations that run it and love it. WHOO, WINN, KGA, WAME, KSO, KRZY, and dozens more. THE MUSIC GAMES are simple, no clutter, no tune-out factors, great quarter hour maintenance, good re-cycling, and remember it makes money. The last one alone is reason enough to run it. Surprise you-know-who, make him think you're interested in the bottom line. Sure it's a sneaky way to get a great promotion on the air, but you gotta do something. Call me, write me, send me a smoke signal, better yet send me some stuff and I'll make my own smoke signal. Every Contemporary and country PD and G should be aware of this promotion. DONALD CLARK OSMOND

WANTS THE SHIRT OFF YOUR BACK!

Polydor Records and Donald Clark Osmond would like to take the shirt off your back! So if you send us a T-shirt with your logo on it, we will send you back an 8x10 with Donald wearing your shirt (Photos by Jimmy Osmond). Perfect for radio station playlists and promotions. You'd better hurry, though before Donald's new single "YOU'VE GOT ME DANGLING ON A STRING" gets to the top of the playlist before your photo does.

All T-shirts must be in by August 30.

Try A Smile

CASH BOX

CLIFF RICHARD (Rocket/MCA 40771)

Try A Smile (3:06) (Colgems-EMI — ASCAP) (Perry)

A strong Beatle influence pervades this latest single from "Every Face Tells A Story," from its childlike harmonies to the decidedly Harrison-esque lead guitar embellishments. Richard's androgynous vocal could melt hearts at the top 40 level.

CLIFF RICHARD—Rocket 40771 (MCA)

TRY A SMILE (prod. by Bruce Welch) (writer: John Perry) (Colgems-EMI, ASCAP) (3:06)

The guitar figure that sets off the chorus is the most potent hook in an enjoyable pop song, well-suited to Richard's talents and a good prospect.

Lifestyles...The New Demographics?

As we rapidly approach the end of this decade, the increasing emergence of AOR radio stations in just about every nook of the nation is influencing new attitudes and directions of energy flow among the style's participants. In addition, other aspects and styles of music broadcasting are changing respectively.

No longer are AOR ratings and/or image battles easily pidgeon-holed into simplistic categories based upon the internal goals of the form's participants, in terms of what "this kind of radio" means to them. With most of the sociological/artistic attitudes of the style's amazingly organic formative years laid to respectable rest and reference in the history books, coupled with Top 40 radio's increasingly open attitude toward new configuration/sources of musical "hits" and a late 70's environmental posture, the dimensions and boundaries of the music radio playing board are changing.

The people are changing and according to so many of our history lessons there's nothing unusual about that. The general mass mood of the 60's was marked by the overwhelming outward expression of feelings coupled with the effort of finding peer group identity. "Individualism" became the motto, even though we hardly became a society marked by individualism. The 70's have brought an ironic reversal of that syndrome. The mass expression of feelings has taken an inward direction. The concept of individualism is no longer in the public spotlight, but, on the whole, people are probably more individualistic than they were 10 years ago. This is particularly evident among the ranks of the enormous "post-war babies" chunk of the population. The "money-book" target is getting older.

The people are becoming moody. In many ways, they are beginning to perceive radio as a public utility as opposed to its being their link with identity. This leads us to the hypothesis that consumers of radio programming in 1977 listen mainly to what sounds good to them at the moment and devote the main attention of their interests to other isolated aspects of their lives. Mood is gaining control of taste. If this is indeed true, demographics, which a mere decade ago were a fairly accurate stereotypecaster, have become a less-than-accurate thumbnail mathematical approach to determining lifestyles which know no easily defined age/sex bracketing.

It is therefore no great surprise that there are a variety of stories being told by the recent Arbitron as the books continue to come in from around the nation with no single format or style success pattern emerging. Even automation (which not that long ago could only hope for a decent showing at best in Rock programming) is winning big over live radio in more markets than can be ignored. In addition, those broadcasters who firmly believe that the masses are devoted to one style of radio or another (for the sake of identifying with their chosen style) are hard pressed to come up with an explanation for the "seesaw" ratings battles emerging not only between AOR's of diverse ilks, but between AOR and Top 40 radio.

Yes, AOR radio is continuing to gain momentum, however, since achieving both industry and consumer recognition as a mainstream media form, the style's spread is far more significant to the immediate future of broadcasting than its growth. Also of great importance is the evolution of that which we call Top 40 radio. Putting all labels aside for the moment, it is fairly logical to assume that as long as radio plays the commercially consumed "art form" music, there will continue to be both markets for outlets that provide repetition of the favorites and those that provide variety from the base.

Since radio is a form of media, it must not only be concerned with the evolution of its own inner workings, but with its position within the rapidly changing structure of media in general. Radio will be forced to consider new flight plans as we approach the 1980's turbulance of new forms of electronic home and car entertainment as well as adjusting to the availability of new options in studio operational technology.

Perhaps we are approaching the gateway to a new era. If so, there's a great lesson to be learned from the past. Had the founding fathers of both AOR and Top 40 radio been afraid to play their role in creating the obvious future, there would be no AOR today. Being truly progressive in commercial broadcasting (as opposed to hanging your hat on a hook labeled "progressive") means being able to locate and capitalize upon that pinpoint spot at which the past, present, and future merge in a manner that amplifies the real meaning of the present and facilitates its representation. As Gordon McLendon said at the last R&R Convention: "The more things change, the more they remain the same." The new mechanics are here; old, current, and new music will always be available; and as is usually the case during periods of social factionalization, the public seems extremely vulnerable to temptation.

Radio—News Notes

From Canada comes a little chuckle to get us started this week. This was featured in the music information sheet from CFGM's MD JOE LEFRESNE: "Have you heard about the great medical breakthrough? Doctors have finally learned how to determine the sex of a chromosome. Just pull down its genes!" By the way, CFGM is located in Richmond Hill, Ontario...DAVE DONAHUE has been appointed Director of Programming for Communica tions Property, Inc. He will oversee the programming of their various stations. Dave, who is based at KHAK/Cedar Rapids, Iowa, has selected BARRY BURKS as Assistant PD at the station. Also, congratulations to DD on his recent engagement to KHAK evening personality, DEBBIE CONNER. No date is set...GARY PERKINS, whom I worked with for about four years at KSON/San Diego and former PD of KSON and Z-104, is returning to El Paso. He was PD of KHEY for many years, prior to joining KSON. Perkins will take over as PD of K-102 (KLOZ-FM) the first of next week. The station has been programming AOC (Album-Oriented Country). Gary told me he plans to drop that format and go head on against K-HEY. The station needs service on old and new records. Please help if you can: Koger Bldg., 444 Executive Center Blvd., El Paso 79902. Phone (915) 544-3500... STEVE LEADER is resigning his post as Music Director of KNEW/Oakland-San Francisco. He will continue his afternoon drive airshift for the station. He will remain MD until August 31. Steve said he wanted to devote more time to his air show...KLAC/Los Angeles has withdrawn from the "Staion of the Year" competition for the Hollywood-based "Academy of Country Music." General Manager BILL WARD stated, "Elimination of KLAC in this category was in the best interest of the Country music industry on the West Coast." KLAC has dominated the award for the past seven years, since its inception in 1970... JOHN HARPER, from WSOC-FM/Charlotte has taken over as PD of WAME in the same market. JACK MARVIN has departed to WSPA/Spartenburg, S.C.....After only a month at KIKK/Houston, BOBBY BUTLER has returned to his morning drive show at KJJJ/Phoenix. It was reported he just got homesick for Phoenix...KSO/Des Moines held a reception for the grand opening of their new "Broadcast Park," the station's new facilities. The Governor of lowa was present for the festivities...JOHN SMITH has been moved up to Music Director of WLAS/Jacksonville, N.C. He reports the station needs LP service: WLAS, Bell Fork Road, 28540...August 2, WITL/Lansing, Michigan, celebrated the first anniversary of their "Country Gold" format on AM. The FM provides the market with more current musical programming...JIM HOWIE, formerly with WAME/Charlotte is the new mid-day jock at WIRK-FM, West Palm Beach, Fl...RON FERRISE, from WDEE/Detroit is the new morning man at KHOS/Tucson...September 1, WHBF/Rock Island will go to 24 hours a day broadcast. CHARLIE RAYE, who had been working part-time at the station, will assume the all night show. PD DICK STUART has taken himself off the air. CRAIG TIFFANEY, from WFMB/Springfield, Illinois takes over his afternoon drive shift....

Promotions, Contests & Concerts

KLLL/Lubbock, Texas, ran an ad in the local newspaper that read: "This Man Has Been Replaced." Below the words was a picture of morning man JERRY "Bo" COLEMAN. Coleman had gone on vacation for a week and the station decided to tie-in a promotion. In the ad, the station then listed the names of prominent community leaders who were used to "replace" Coleman during his vacation. Good response was reported...WKKN/Rockford, Illinois, ran a "It's A Gas Weekend." Station jocks went to a self-service gas station and pumped gas for one hundred of their listeners, each got a dollars worth. As an extra bonus, the customers got their windows washed by the air staff...WDAF/Kansas City presents CONWAY TWITTY at the Worlds Of Fun amusement center this month...WOKO/Albany ran a "D.J. Derby" as a tie-in promotion with the Saratoga Race Track. Listeners called in and guessed which WOKO personality would win that hour's fabricated horse race...KXRB/Sioux Falls, S.D., currently has the "Lucky Lady Sweepstakes" on the air. Participants are asked to send in a card or letter. Each hour someone is called and are asked to guess which jock will come up on the rotating cart. Incorrect guessers get an album, winners get appliances, plus 10 dollars. Winners are then eligible for the grand prize, shopping spree...WXCL/Peoria will be doing remote broadcasts at the "Heart Of Illinois" fair. CHARLIE RICH, LARRY GATLIN, MERLE HAGGARD and ROY CLARK are set to perform...KFTN/Provo, Utah, gave listeners, with KFTN's bumper sticker on their vehicle, a free concert, featuring RAY GRIFF, as well as, a free movie at the local drive-in...August 22, WMAQ/Chicago will air a live CRYSTAL GAYLE concert from the Ivanhoe Theatre...WHOO/Orlando has installed the "WHOO Music Machine" which is a request line. PD MIKE BURGERS says they are working on getting demographic information from their listeners who request songs...You may think this next promotion is a bunch of BS, but actually it is a bunch of ES. KCUB/Tucson gave pachyderm powdered poo." It was a promotion sponsored in cooperation with the Ringling Bros. & Barnum & Balley Circus and some elephants. Contestants phoned the station at the sound of the elephant's trumpeting. Winners received their sack with the KCUB and circus logo on it. At the end of the circus shows, the winners were told where to claim their winnings. Each were given a 'super-duper-pooper-scooper" to get the job done. (Most listeners said they thought the contest really stunk!)

...and Records

WESLEY ROSE, President of Hickory Records has announced the appointment of DON POWELL as Director of National Promotion for the label...After only five weeks on the market, WAYLON JENNINGS' LP "O!" Waylon" has been certified gold by RIAA. CMA Arbitron Study Available

A comprehensive Arbitron Study of Country music radio listeners is available to Country Music Association Organizational members. The kit is a valuable sales tool for Country radio stations. The study, which was conducted in 26 markets, analyzes income, household and buying characteristics of those persons who listen to Country radio. If your station is interested in this excellent study, contact KATHY HOOPER of CMA at (615) 244-2840.

FIRST LADY MEETS FIRST COUNTRY—Epic recording artist Tammy Wynette is pictured with WHN's Lee Arnold, right, and PD Ed Salamon, left, at a recent live radio broadcast of a Wynette concert. The concert was held in New York's Central Park as part of WHN's "Summer Festival of Live Music."

Inside Nashville

BUSINESS UNUSUAL: "Yes it is"—"No it isn't," depending upon whom you are talking with. Nashville Banner columnist BILL HANC stirred up a hornet's nest in the music community by saying that "economy woes play sad songs on Music Row" citing the firing of JACK PARKER at MCA's office here, and the dismissal of several other staffers; then Capitol's housecleaning left only a skeleton crew; and a day or so later, RCA announced

the closing of Sunbury-Dunbar, its publishing office here. Observers say Parker left MCA because of personality conflicts with LORETTA and CONWAY: that the loss of such big selling artists as MERLE HAGGARD, SONNY JAMES and BUCK OWENS was a prime factor in the Capitol pull out in Music City and that RCA is in the record business, not the publishing business, so that was a "pencil" move.

Music Row executives' positive rebuttal came from BMI's FRANCIS PRESTON, ASCAP'S ED SHEA, TREE MUSIC's JACK STAPP, UA's LYNN SHULTS, and APRIL-BLACKWOOD PUBLISHING's new Nashville head, CHARLIE MONK, who contend these changes are normal adjustments and the timing is coincidental. On the other hand, WESLEY ROSE, head of the giant Acuff-Rose Publishing complex expressed his concern about new people coming to Nashville hopeful of changing it from "Country" Music City to "Pop" Music City and that has not been a healthy influence on the personal enthusiasm which as permeated the Nashville scene through the years injecting creative excitement in the life and growth of "Tin Pan Valley.

FACTS AND FIGURES: LYNN ANDERSON will tape an hour long pilot for TV in September. Lynn, an unnamed Country star, and EN-GELBERT HUMPERDINCK will perform on the special. Lynn will host what she calls a "new concept." She wouldn't say which network is bank rolling the pilot...RUSS CARTER brought a couple of busloads to Music City from WIRE Indianapolis for the weekend...Vice-President WALTER MONDALE came off well on his Opry debut when he surprise-visited while here for a fundraiser. Republican stalwart ROY ACUFF made a beautiful democratic introduction to the Vice-President. Mondale said "Nashville is one place where more strings are pulled than Washington."...JERRY CLOWER said he felt kinda funny. Clower had "hosted" President Carter in his home town of Yazoo, Mississippi the week before and this was a "come-down"...the CARTER FA-MILY (not Jimmy's) and JIMMIE RODGERS made their first record-

ing session the same day in the same empty office building in Bristo, Tennessee 50 years ago last week. Is that an important date? (Did Columbus discover America?).

BILL ANDERSON wrote me this note last week: "Since i told you at FANFARE that I have never seen my name in your R&R column, I've seen it twice! Now, if I can just make it on your radio show!".

FERLIN HUSKY's open heart surgery was a success according to Doctor's at Miller-St. Luke's hospital in St. Paul. He'll recuperate there, they say, for five weeks. Coronary bypass was performed last Tuesday during the nine hour operation to relieve blockage in three heart arteries. Actually, Ferlin checked into the hospital for treatment of a growth on his wrist which hampered his guitar playing, and to visit relatives of his wife, Mavis. After he complained of 'blacking-out" at a recent concert he was encouraged to have tests run. Tests showed the artery blockage and immediate surgery was schedul-

REALLY: Ex-KDA morning man TONY GEORGE 'one of the best I ever heard on his good days) moved to KRZE/Farmington, New Mexico with my old friend BOYD WHITNEY. Boyd's looking for more ...BOB LOCKWOOD ex-morning man at WKDA/Nashville (high mortality rate?) dealing with the new "honeyradio" WHNE/Norfolk to replace JACK GAYLE...One-eyed Jack (WMAY/ Springfield, Illinois) told me that CBS promo man told him that BOBBY BARE signed with CBS...Con Brio's JEANINE and BILL WALKER and JEFF WALKER flew to London for international distribution deal discussion...WSM Music Director MARY CATHERINE MURPHY has been recuperating from an auto accident. WSM's "Opry Stars Spotlight" host HARIL HENSLEY is now syndicating a "hit's" parade for national distribution...

POP/ADULT MIKE KASABO

First of all, thanks to all those (and there were many) who responded to this column several weeks ago concerning our adding some new reporting stations for the Pop/Adult section. The information you've sent is on file here and before the end of summer we'll review each one carefully in order to beef up our input.

We note a great example of not giving up on a record...ABC released the follow-up to Stephen Bishop's "Save It For A Rainy Day" about five months ago. It was received with only mild reaction from many Pop/ Adult programmers...but persistant promotion and a deep belief in the record by ABC proved the winning combination. "On And On" jumps into the number eleven slot on this week's P/A 40. It also was one of two "Breakers" on last week's Back Page.

The Brothers Johnson had a very healthy airplay week with P/A stations

Dave & Sugar building with two more key adds this week...WIOD,

Crystal Gayle's "Don't It Make My Brown Eyes Blue" continues to look strong in many areas...see New & Active for latest play. Response was so big in Wichita that KAKE put it on at number 22!

The charity event featured championship bike races, a celebrity challenge race, 135 mph stock car rides and door prizes.

K.C. & The Sunshine Band has been a big Rock act for some time now, but never really pushed through in a large way with Pop/Adult radio. However, the new release "Keep It Coming Love" on T.K. is off to a very fast start...see above for latest play.

Al Martino's "Kentucky Mornin' " picked up some good new play at WSB, WHAM and WHOK.

Ronnie Milsap's "It Was Almost Like A Song" appears to be a solid entry wherever it's played...check out these moves...14-7 WSM, 9-5 WSIX, 11-6 KRMG, 25-18 KRKK, 15-10 KAKE.

"Star Wars" Theme on 20th showing almost immediate hot action at many stations. Among them...WJNO, WNEW, WIOD, WLVA, WSBA, KEX, WSM, WSIX, WIBW, WATR.

Jim Weatherly showing his strongest airplay in a long time..."All That Keeps Me Going" is already in hot rotation at Milwaukee powerhouse WTMJ.

One of the most remarkable things to achieve in the radio business is longevity in any given position. Some have maintained quite well... for example Dick Whittinghill has been the morning man at KMPC/ Los Angeles for twenty-seven years...and there are others around the country who've achieved that length of time and some who've passed it. Which brings me to my point, Charlie Allen, who is retiring in September, has been the Music Director at WGN/Chicago for an astounding forty-nine years. Now that's some achievement.
