NAB Turns Up The Heat On Spectrum Royalty

■ **Opposition to GATT treaty pledged if \$4.8 billion user fee isn't eliminated**

Fresh from an apparent victory over the alcohol advertising bill (see story, right), NAB is rallying its troops for another full-scale lobbying effort on Capitol Hill. Its aim: Kill the Clinton administration's proposal to tax broadcasters for most of the shortfall resulting from the GATT international trade agreement.

VP/Government Relations **Jim May** called the spectrum royalty plan an "ill-conceived and unfair tax on broadcasters." He warned, "Unless this proposal is dropped out of the implementation package for GATT, we will have little alternative but to oppose ratification of the treaty itself."

ABC Moving More Of HQ To Dallas

ABC Radio Networks will be moving dozens more staffers out of its New York headquarters, effectively completing the shift of a majority of its operations to its Dallas offices that began several years ago.

Network execs were mum pending an official announcement, but sources told R&R that much of the company's MIS, finance, and research departments will be moved South. Some sales and affiliate functions will remain in New York, but their offices will be moved to midtown Manhattan.

The sources stressed that no positions were being eliminated as a result of the reorganization, and all affected employees have been given the opportunity to relocate to Dallas.

Thurmond Tables Alcohol Bill

■ **Senate committee was set to kill proposal**

Sen. **Strom Thurmond** (R-SC), sensing imminent defeat for his alcohol warning bill at the hands of the Senate Commerce Committee, withdrew the bill from consideration Friday (5/13). The legislation, which had been scheduled for a Tuesday (5/17) vote, would have required health warnings on all radio and television ads for beer and wine.

"There are not enough votes to move the bill at this time," said Thurmond, who indicated a similar measure may be introduced in a future session of Congress. "I will continue to work with my colleagues and concerned parties, and I believe we will be able to craft a bill that will best serve the public interest."

"We are pleased that Senator Thurmond has pulled his beer

and wine ad warning legislation from the congressional agenda for this year," NAB President **Eddie Fritts** commented. "Broadcasters did an outstanding job in alerting their senators to the problems with this legislation."

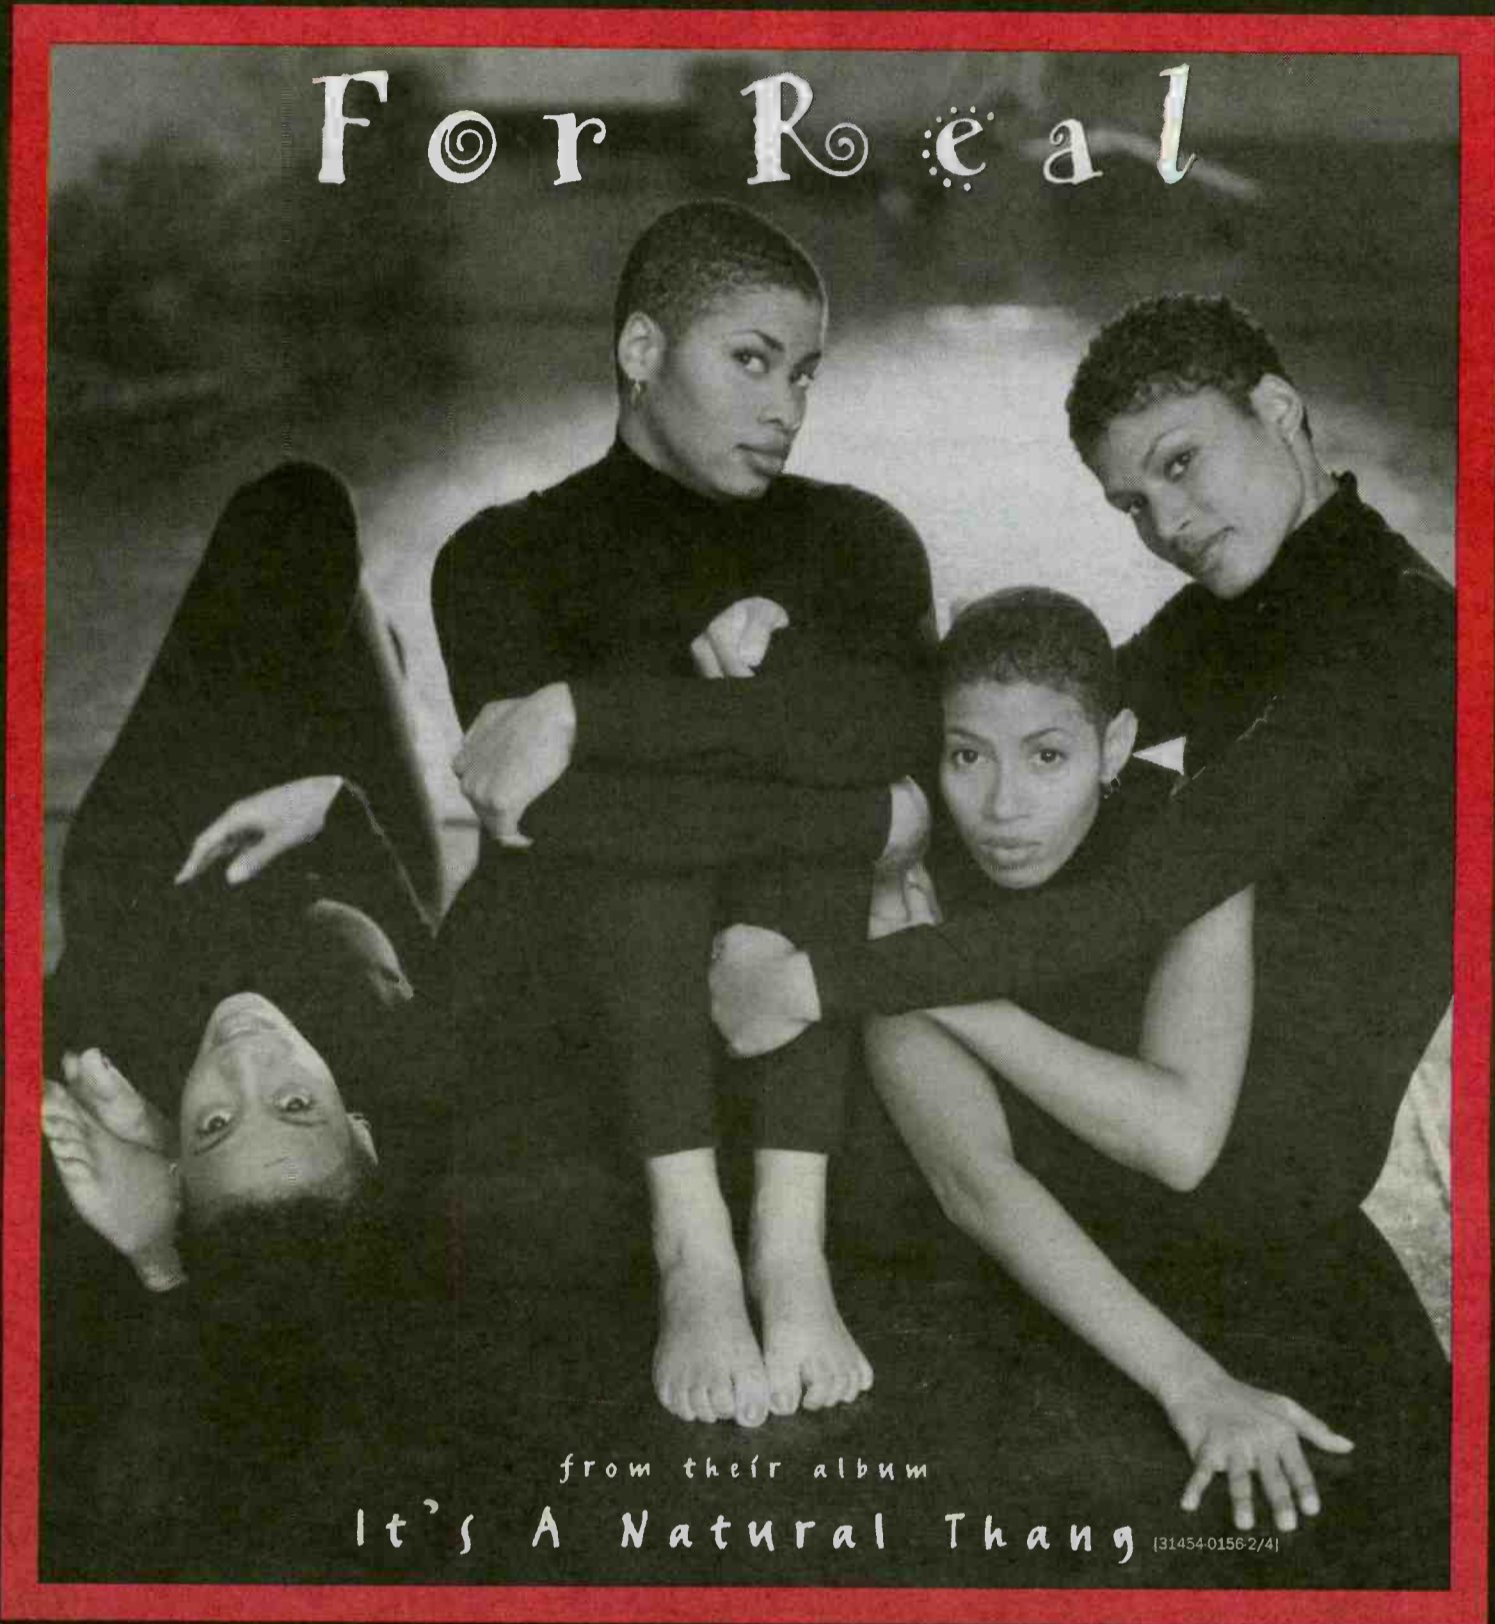

NAB estimated the bill could have cost broadcasters an estimated \$800 million in annual advertising revenue.

Braving 60-below-zero temperatures and a serious wind chill factor, WCKW/New Orleans night slammer **Tommy B.** was one of 80 international skydivers who jumped out of a jumbo jet 10,000 feet above the North Pole, whereupon he proudly staked out the 222 Corporation Classic Rock station's claim to the ADI (that's Arctic Dominant Influence).

WHYI/Miami programmer **Rob Roberts** has resigned from the CHR after two years to become PD at **KDMX/Dallas**. He'll succeed **Pat McMahon** at the **Nationwide Hot AC**.

Roberts told **R&R**, "My family and I think this is the right thing for me right now. **KDMX** will stay hot and get even hotter. We want the station to get more competitive. The competition is terrific — there's no shabby radio. It's an exciting opportunity, and I'm majorly revved to do it. I now have a new definition for 'gut-wrenching.'"

"There are four or five stations in **San Jose** and **San Francisco** playing some form of **Jimi Hendrix**, **Lynyrd Skynyrd**, **Rolling Stones**, **Pink Floyd**, **Led Zeppelin**, etc., ad nauseam. These guys are old hat. There's a tremendous amount of

new material with the same kind of energy.

"We're still a rock station. [U2 lead singer] **Bono's** statement at the **Grammys** — 'After all these years, it's nice that **Alternative** has become mainstream' — kind of sums it up."

Trip Reeb and **Kevin Weatherly**, **GM** and **PD**, respectively, at co-owned **KROQ/Los Angeles**, assisted with the station's transition and will act as consultants. The station will retain **Howard Stern's** syndicated show for mornings, with the remainder of the dayparts currently running jockless.

Performance Rights Bill In Limbo

A House subcommittee was scheduled to take action on performance rights legislation Wednesday (5/18). But at R&R's Tuesday deadline, that vote appeared unlikely.

Intellectual Property Subcommittee Chairman William Hughes (D-NJ) had been expected to introduce a revised version of his bill, which would grant performance rights protection (and possible royalty payments) to performers and record companies for music transmitted by digital means. But by late Tuesday the new version hadn't gone out to other subcommittee members.

Hughes's rewrite is expected to be patterned largely on revised

language proposed by the RIAA, along with ASCAP, BMI, and the National Music Publishers' Assn. Their compromise would ensure that any royalties paid to record companies and artists would not be at the expense of composers and publishers who already receive royalties.

Broadcasters Excluded?

Broadcasters, though, have been left out of the compromise. In fact, where language dealing with DAB

should go, the RIAA's version simply states "to be inserted."

The NAB has vowed to oppose any bill that doesn't exempt broadcasters and allow DAB the same music rights requirements as current analog broadcasts.

Although the RIAA has insisted performance rights won't necessarily mean performance royalties, NAB officials fear DAB broadcasters may be required to pay 3% of their revenues to record companies and performers — in addition to the 3% or so already paid to ASCAP and BMI.

When It Comes To Building Radio Brands...

We Wrote The Book.

The NAB knows the importance of branding in today's multi-media world. To help broadcasters survive in this fiercely competitive environment, they decided to publish a definitive handbook on building radio brands -- a book that would be an invaluable resource to every manager today, as well as in the future. The NAB turned to Stratford Research, the recognized authority on branding, to write the book that represents the next generation in strategic thinking for radio.

THE FRANCHISE is a must-read for all managers who are interested in rising above the pack and competing on the next level -- as a branded market franchise. You can order your copy from the NAB at 800-368-5644.

Interrep Spotlights 'Power Of Urban Radio'

African-Americans represent \$300 billion in annual spending power, advertisers and ad agency executives were told Tuesday (5/17) at Interrep's "Power Of Urban Radio" seminar.

Panelists at the all-day event in New York advised advertising executives not to overlook that power. "Your depictions of us help define our image to others and ourselves," said Alexander & Associates VP Janet Hill. "The importance of your role cannot be underestimated," added the consultant.

Panels investigated myths surrounding the Urban format, its power, and national advertising. The session, which drew 350 people, included live music and a luncheon presentation by Whitney Houston, who said, "Urban music provides opportunities for the black community as a showcase for performers who might not otherwise be given a chance to show their talents."

"Fifty million people listened to Urban radio this morning," said WTLC-AM & FM/Indianapolis Station Manager Amos Brown. During his panel presentation, Brown pointed out that African-Americans listen to Urban radio five times more than any other format.

NAB Endorses Tower Hike

Legislation to more than double broadcast tower site fees on federal land has been endorsed by the NAB, which calls the bill preferable to other measures likely to raise fees by more than 8000%.

The bill (S. 2106) was introduced by Sen. Larry Craig (R-ID) and co-sponsored by 12 other senators. Sen. Conrad Burns (R-MT) — a former broadcaster — said, "All sides recognize that increases in rental fees for these federal sites are appropriate."

He added that the increases had to be held down because of "the vital, free public service" provided by broadcasters.

FCC Slates Fee Due Dates

New FCC user fees for FM stations will be due July 18-20 and AM payments will be due August 8-12 under a schedule proposed by the Commission.

The fees were included in the budget bill signed last August by President Clinton. Along with other FCC licenses, broadcasters are expected to pay fees totaling \$82 million to offset part of the cost of running the Commission.

Under the fee schedule adopted by Congress and approved by the President, AMs will pay \$200-\$900 and FMs will kick in \$600-\$900, depending on their class of license.

Lease Firm Targets Radio

Veteran station broker Norman Fischer, banker F. Hagen McMahon Jr., and leasing executive Hal Hayden have teamed up as **Priority Broadcast Leasing**. The venture will lease equipment to radio stations.

"Many broadcasters feel they cannot get financing for deals of \$15,000 or less," asserted the trio's announcement. The Austin-based company will offer leasing agreements ranging from \$5000-\$1 million.

PBL is promoting leasing as a "no interest" way to finance equipment upgrades, since the entire rental payment can usually be written off as a business expense. The company can be reached at (512) 476-9457.

"Tom's administrative strengths generated important benefits during his productive stay in the Epic promotion department," said VP/Finance & Administration Marty Greenfield. "Now we can look forward to seeing those same results throughout the entire label."

Genetti joined the company as a college representative in 1973, becoming an account service rep two years later. He has also served as sales rep, Local Promotion Manager, and Director/National Promotion.

Sr. VP/GM Bruce Kirkland commented, "The marketing umbrella at Capitol is a fairly complex apparatus. Tom's experience and broad range of skills are the perfect complement to assist me in the management of this company's marketing efforts."

Before joining Capitol, Corson was VP/Marketing at A&M, which he joined after a four-year hitch at IRS.

Hot AC KXL-FM/Portland has recruited WWKY & WVEZ/Louisville programmer Chuck Tyler as its new PD, effective May 30. He succeeds Dennis Kelly, who will continue to program sister Kaye Smith News outlet KXL (AM).

Station Manager Tim McNamara said, "We're extremely pleased to have someone of Chuck's caliber on board. His AC and CHR background will put us in a peak position to win Portland's 18-49 target demo."

Tyler previously programmed WLAC-FM/Nashville and WUMX/Tallahassee and worked on-air at KFI/Los Angeles.

McHugh To PD At WKZL/Greensboro
 ■ Three-year veteran moves up from APD

Spectrum Royalty Decision-Makers

The Clinton administration's spectrum royalty proposal, which could tax broadcasters up to 5% of gross revenues, may be attached to the GATT international trade agreement. If so, the measure will go to the Senate Finance Committee and the House Ways and Means Committee.

NAB has already written to all of the members of the two committees, urging them to drop the spectrum tax.

Individual broadcasters who wish to voice their opposition should contact their local members of Congress. In addition, they may wish to write to the members of these key committees.

Expose yourself with a minimum of risk.

Today's level of fierce competition demands that you prominently display your name every chance you get (location broadcasts, concerts, station sponsored autograph sessions, etc.). With theft, vandalism and loss, it becomes a costly proposition to continuously replace expensive signs and banners costing hundreds of dollars.

Roll-A-Sign™ offers a better way. You get up to four vibrant colors printed on durable, high quality 4 or 6 mil plastic film to display your logo and message brilliantly for an economical price. Now you can afford to display a bright new sign at every public event. They even make great cost-effective promotional give-aways. Just roll off what you need and cut.

- ⊗ Durable banners for a throw-away price.
- ⊗ UV stabilized plastic won't fade indoors or outdoors.
- ⊗ Simply FAX your logo and color separation information for a free price quote.

The main ingredient used in most other research company claims.

You've heard it all before. "Buy our research and you'll be #1 in the next book." The problem with the claims made by many research companies is they *just aren't true*. Too many research companies spend their time on packaging, gimmicks, selling formats, working across the street and ignoring the real role of research: providing information that gives station teams an advantage.

Research is a powerful tool. When used properly, research helps stations understand what listeners want and plays an important role in crafting winning strategies and tactics. Research, by itself,

doesn't make numbers go up. It's time that research companies *stop taking undeserved credit* when the numbers go up, unless they want to take the blame when the numbers go down. It's time for a new attitude: no baloney.

Straight talk about research. We're a *new* research company. We believe in quality research, respect for station teams, and the integrity of market exclusivity.

Radio is a very simple business — the goal is to get the highest numbers. In our experience this happens only when a station team, led by a good General

Manager and Program Director, maximizes their available resources.

At The Eagle Group we develop a new approach for every client, every time. We start by listening. That's how we understand your unique situation.

To discuss your situation in confidence and learn how The Eagle Group may be able to help you, call Roger Wimmer or Matt Hudson at (303) 980-1888 today.

Ace Of Base — Swede Emotion!

She never fantasized about pop stardom, **Ace Of Base's Linn Berggren** tells *Details*. What she really wanted was to be either "a French princess or a flying ape."

Also in *Details*, her brother, **Jonas**, explains how he writes those million-selling pop songs: "If you play the melody, and the highest and the lowest tone is more than one octave, it can work in the whole world." Learn about the Berggren family's stalker problem in *People*.

Forbes Vs. BMG

"[Clive] Davis is cherubic, balding, and runs his record company from a dark and cluttered office several blocks away from BMG headquarters," says *Forbes* in a three-page article on **Bertelsmann's** business mishaps in the U.S. The magazine contrasts **RCA Records** with Davis's **Arista**, which is successful despite disobedience to the firm's dominant — but allegedly limiting — management principle of "*Betriebsgegnis*" ("return on assets").

BMG CEO **Michael Domemmann** sniffs, "Synergy is a contradiction to focus." *Forbes* also praises **Sony** for its synergistic efforts, while observing, "BMG has succeeded mostly in losing market share."

Plat With A Gat

Dr. Dre denies he has the Midas touch. "Midas only turned things into gold. I turn them into platinum." He also defends carrying a gun: "If everybody on the street has one and you don't, you automatically lose the chess match. Checkmate. I'd rather be judged by 12 than carried by six" (*People*).

Clothes Make The Fan

The **Eagles** were rehearsing for their tour when cops busted in, looking to serve a warrant on the studio's owner. **Don Henley** wanted one of their raid jackets, but he wouldn't trade concert tickets (*Globe*).

Talking in *Details* about X-Large, the store he co-founded, **Mike D** — seen on the cover with the other **Beastie Boys** — says, "The appealing thing about fashion these days is that it's made by self-starter kids who seven years ago would have started a rap label."

Patti LaBelle owns 3000+ pairs of shoes (*Star*).

Safety In Numbers

"You miss the insulation and strength of a group, because when you're solo you can be very vulnerable to the pitfalls of A&R control. In a group it's less so — you can just say, 'We play what we play, sound how we sound, and if you don't like it, that's too bad'" — **Steve Winwood** explains **Traffic's** return in *Q*.

Ghost & The Machine

"Normaler people that aren't as fucked up try and play more normaler music, and it's not as interesting to, like, normal people who want to get real fucked-up music by fucked-up people" — **Soundgarden's Chris Cornell** tries to explain the appeal of grunge (*Us*).

Brown Out

Upon finding **Bobby Brown** curled up on a couch with a "sexy teen," **Whitney Houston** declared, "As of now, we're separated." (*Star*, *Globe*, *National Enquirer*). Also in the *Star*: **Brown** saw **Magic Johnson** at an L.A. club and asked, "Do you still have that famous little black book of yours?"

The *Star* adds that he was in L.A. to re-form **New Edition**, who are asking **MCA** for \$10 million upfront, a label, a PPV special, and part-ownership of the tour.

Assessing Success In Broadcast Pricing

■ Combine average rate, sellout percentage to calculate REV PAD

By Shane Fox

What's the best way to measure success in broadcast pricing? Is it average rate? Sellout percentage? Or is there a better standard to measure the success of your broadcast pricing practices in relation to revenue?

Sellout Vs. Rate

Some managers use the sellout percentage point of view to measure broadcast pricing success. To these managers, "sold out" — with little or no regard to rate and with no inventory remaining for sale — means success. They believe good pricing practices must have been used because no inventory remains for sale.

Other managers' measurement is average rate. To these managers, achieving high rates above all else signifies success. They believe good pricing practices must have been used because of all the high rates obtained.

REV PAD is calculated by dividing the total revenues for a given seasonal period by the total number of commercials available for sale in the same seasonal period.

But do either of these points of view *really* measure success in broadcast pricing as it relates to total revenues generated by the station?

Lost Opportunities

What if a station turned away thousands of dollars in business be-

cause it was oversold? How successful was that station's pricing? Sure, it sold out all of its inventory, but does that truly translate into pricing success?

What if a station turned away thousands of dollars in business because it was oversold? How successful was that station's pricing?

In reality, "sellout" measures just that: sellout levels. It falls woefully short as a measurement to determine successful broadcast pricing.

Likewise, what if a station turned away thousands of dollars in business because its rates were too high, with 20%-40% of its inventory left unsold? How successful was that station's pricing? Its average rate was high, but does that relate to pricing success?

Since "average rate" only measures rate, it, too, falls woefully short in determining successful broadcast pricing.

REV PAD Review

More and more managers are ascertaining their levels of success in broadcast pricing through a different point of view: REV PAD (Revenue Per Available Ad).

REV PAD is calculated by dividing the total revenues for a given seasonal period by the total number

of commercials available for sale in the same seasonal period.

Here's an example: A station has a total of 180 commercial availabilities per day between 6am-midnight. For the week, approximately 1250 commercials are available for sale, translating to about 5000 for a four-week month.

Now let's say the station generated \$1 million in total revenue for this four-week seasonal period. Total revenues (\$1 million) divided by total commercial availabilities (5000) equals \$200.

A 'Better' Way?

What sellout percentages and average rate levels correspond to the

The REV PAD point of view suggests pricing success is measured not by inventory sellout levels or average rate alone, but by a combination of both.

REV PAD example above? Actually, a number of sellout and average rate combinations might fit: 90% sold out at a \$222 average rate, 70% sold out at a \$285 average rate, or 40% sold out at a \$500 average rate.

THREE TIPS

How REV PAD Can Work For You

Here are three ways to put REV PAD (Revenue Per Available Ad) in motion at your station:

- ① Develop a chart showing REV PAD levels by month. This will help you understand REV PAD more clearly and provide the proper percent sellout-to-average rate ratio necessary by seasonal period. Future pricing-level accuracy then should improve, reducing the frequency of over-sell and inventory spoilage.
- ② Multiply your REV PAD calculations from last year by market and product growth factors, and use those REV PAD levels as targets. Each month when your REV PAD is calculated, measure your achievement percentages against your targets to determine how well pricing was done by season.
- ③ Structure incentives based on REV PAD. The closer you get to a REV PAD target, the more money you make. *Remember:* REV PAD is limitless — the goal always is to increase it.

But which of these combinations is better in terms of measuring pricing success? From a sellout point of view, 90% sold out at a \$222 average rate would be better. From an average rate point of view, 40% sold out at a \$500 average rate is better.

Still, the revenue generated from all of these scenarios is the *same* — how could one be "better" than the other? The REV PAD point of view suggests pricing success is measured not by inventory sellout levels or average rate alone, but by a combination of both.

pricing strategies (i.e., raising or lowering rates) for different customers at different times.

Remember: Knowing when to change rates, by how much, and for which customers are yield management issues. Your pricing and rate forecasting systems should help you in this regard to maximize your REV PAD for a particular seasonal period. If it doesn't, you must reexamine your pricing process.

If your station keeps historical data on sellouts, average rate, total revenue, and total inventory available for sale, review the last couple of years using REV PAD for comparisons.

Keep Raising Revenue

Your goal always is to increase the REV PAD number, not just average rate or inventory sellout levels. Sometimes this calls for different

Corcoran Files \$2.2 Million Suit

WFXB/St. Louis personality J.C. Corcoran filed a \$2.2 million lawsuit for damages against crosstown WKBQ morning cohost D.C. Chymes, station intern Tim Melton, and owner Zimco last week, according to the *St. Louis Post-Dispatch*.

Corcoran's suit charges that Chymes and Melton damaged Corcoran's reputation when Melton claimed Corcoran elbowed, punched, kicked, and knocked him down outside the hotel where Corcoran was working on a Cerebral Palsy Association special about a month ago (4/22). Corcoran maintains Melton deliberately ran into him, fell down, and faked injuries.

The legal action also alleges that Melton and Chymes filed a fake police report and disrupted Corcoran's broadcast in the process. A peace disturbance charge filed by Melton against Corcoran was dismissed last week.

Corcoran's attorney, Jeff Gershman, told ST: "This scheme went beyond radio competition. The suit alleges that it was a setup to get him arrested, which he was. But once the prosecutors looked at the facts and interviewed independent witnesses present, they dismissed the charges. The witnesses corroborated Corcoran's account of the incident."

WKBQ GM Bill Viands told ST the station had not been formally served with the lawsuit, but added, "Corcoran's account of things is very different from ours. Melton had facial cuts, bruised ribs, a twisted ankle, and spent four hours at the hospital. This all happened while Melton tried to interview Corcoran. If these are false charges in a false police report, why haven't the police

Rumors

- Is it true — as prevalent Space City rumor has it — that KILT-AM & FM-KIKK-AM & FM/Houston OM Rick Candea has landed the station's GM post, soon to be vacated by the retiring Dickie Rosenfeld?

- With KBCO/Denver PD Doug Clifton exiting — as speculated last week — and the *Denver Post* floating rumors that a new Progressive station will hit the market in June or July, will Clifton and other KBCO staffers be part of the new start-up?

- After Mancow's segue from Wild 107/SF to Evergreen's WWBZ/Chicago, are the Wild One-Oh-Sevens lookin' for payback in the form of some Evergreen personalities — namely crosstown KMEL afternooner Rick Chase and KKBT/LA. morning man John London?

- Could the early contenders for the just-announced Y100/Miami PD post vacancy be (*drum-roll, please...*) former Hot 97/NY PD Joel Salkowitz, Star 101.5/Seattle PD Casey Keating, ex-Kiss/Columbus PD Rob Morris, and former Y100 PD Mark Shands?

- Will WEBN/Cincy PD Marc Chase play a bigger role at Jacor LMA WWZZ (Star 93.1)/Knoxville ... perhaps moving it back to CHR from Hot AC?

- Is Giant Promo/Mtng. honcho John Brodey checkin' his options?

LATEST ARBITRENDS

NY/L.A. Leaders WLTW, KLAX Rise

The top cats in New York and L.A. are sitting prettier in the just-released February/March/April Arbitrends. AC WLTW, which took over the NY lead in the Winter '94 book, climbed from 4.7 at that time to 5.0, opening a .7 lead over new runner-up WCBS-FM. WHTZ (4.0-4.2) inched past WQHT (flat at 4.1) in the CHR race. WBLS whipped UC competitor WRKS for the first time in years, albeit by a .3 margin. Along with WLTW, new Rocker WAXQ had the biggest gain (1.6-1.9).

Spanish KLAX improved 5.6-5.9, but its L.A. lead was cut slightly — thanks to a 4.7-5.1 gain by runner-up Rhythmic CHR KPWR. Talk KFI's lead over rival KABC was cut in half to .3, perhaps owing in part to KABC's Dodgers 'casts. Gold KRTH (3.5-3.6) widened its margin over Arrow KCBS-FM (3.2-2.9), and Country KZLA jumped 2.3-2.6.

Morning Stars

Howard Stern (8.3-7.6) was dethroned for the month in NY by the WINS news team (8.0-8.1), with WOR's John R. Gambling registering the biggest gain (4.7-5.2). In L.A., Stern (holding at 5.5) kept a slim lead over KABC's Ken & Barkley (5.1-5.4), KIIS's Rick Dees (4.8-5.2), and KLAX's Juan Carlos & El Peladillo (4.9-5.2).

talked to our people? We find it very interesting that this is taking place right in the middle of the spring book."

Veteran Greenville Morning Man Charged

Longtime WESC/Greenville, SC morning personality Bob Hooper was charged last week with three counts of lewd acts on a minor in alleged incidents involving three young girls. Hooper — a 29-year station vet (the last 20 in mornings) — has denied the charges.

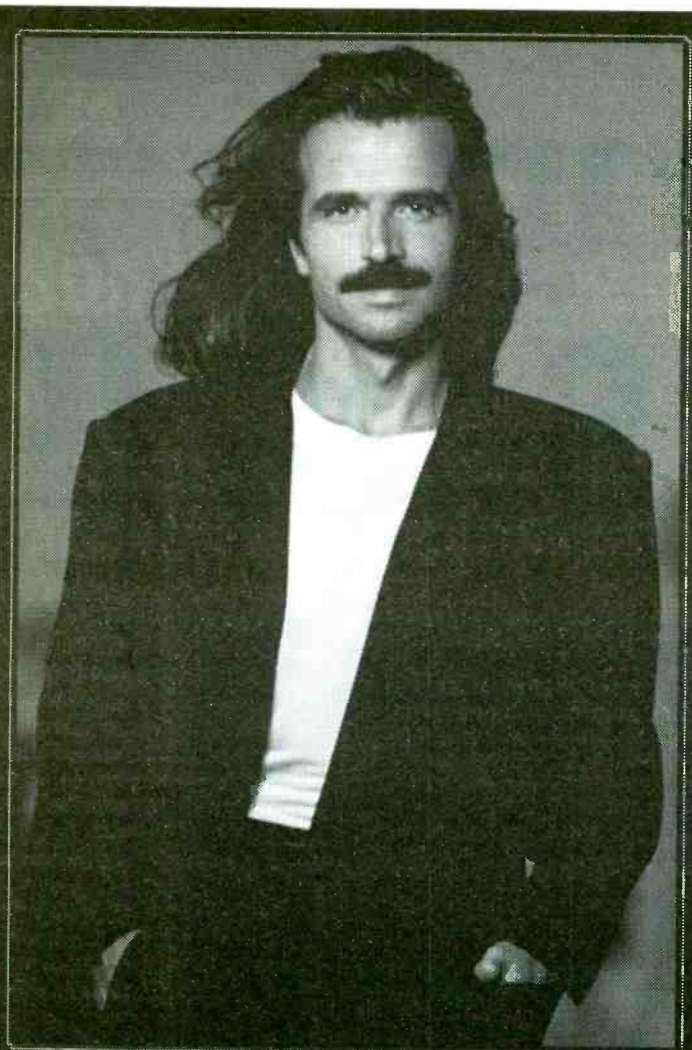

The incidents allegedly took place in the station van at a remote broadcast attended by hundreds of people. Warrants state the breasts and buttocks of two girls, ages 12 and 11, were fondled. The third count involved the alleged fondling of a minor under 14 in the breast and pelvic areas.

VP/GM Allen Power said, "We're saddened that such a long and exemplary record of public service has been marred by the recent allegations made against him — allegations that we're convinced will, in time, be proven false."

Hooper, who originally was granted a leave of absence by the station, was off-air for only the day after the charges were filed. He returned on Friday (5/13).

million. Blend claims Limbaugh offered on the air to pay the cash if he ever made an anti-Semitic remark. Blend says he heard such a remark — and has a tape to prove it.

"This is very serious business with me. I'm not a crank," Blend told ST. He insisted his motivations were not political — although he concedes he doesn't think much of Limbaugh's right-leaning views — but strictly financial. "Absolutely, it's a breach of contract."

Limbaugh and syndicator **EFM Media** thus far have ignored Blend and won't comment on the suit.

The final pieces of the **PLG** puzzle are poppin' into place, with all the principals winging their way to Vancouver, BC for meetings.

Money's on **Rick Dobbis** to become President/**PolyGram Europe** and **Johnny Barbis** to become **Island** President. Look for everyone from the **PLG** promo and marketing

departments to switch logos to **Island** immediately, too.

And ... as soon as his release from **Island** is finalized, expect **Andy Allen** to take a lofty post at **WEA's** indie distribution arm, **ADA**, based in NY.

ST's crystal ball is still cloudy as to **Polydor** Prez **Davitt Sigerson's** future and if there's any truth to the matter in all that curb chatter about him segueing to **Charles Koppelman's EMI-North America A&R** department. While we're on the subject of **EMI** ... look for that acronym to supplant **ERG** soon, real soon.

Discriminating Programming?

Former **WWRC/DC** PD **Peter Lauffer** has filed a discrimination complaint against the **Talk** outlet, claiming he was fired for refusing to fire an African-American weekend talk host, according to the *Washington Post*. **GM Bob Longwell** told the *Post* the complaint was "totally fictitious."

Meanwhile, **WWRC** pink-slipped its only fulltime African-American talk host, **Leonard Birdsong**, whose 2-5:30am slot will be filled with syndicated material. **Birdsong** — who also has a fulltime gig as a lawyer — told ST he's looking for another on-air slot in the **DC** or **Baltimore** markets. No word from **Longwell** at presstime.

KING's Ransom For Bonneville

Bonneville is buying **KING (AM)/Seattle** for an as-of-yet-undisclosed price and intends to pair the **Talk** outlet with crosstown **KIRO-AM-FM & TV**. **Bonneville** also will handle sales for **Classical KING-FM**, which the **Bullitt** sisters (whose family **Seattle** media empire goes back 47 years) will donate to a nonprofit foundation.

Don't look for this deal to close anytime soon, since combining the **AM** with an existing **TV** station will require an **FCC** waiver (much like the one recently granted for **KOMO-AM & TV/Seattle** to acquire **KVI & KPLZ**).

Last week **B96/Chicago** dismissed controversy-beset morning jocks **Joe Bohannon (JoBo) & Ed Volkman** for prematurely disclosing to a local reporter the million-dollar settlement of a defamation suit filed by **TV** news anchor **Joan Esposito**. To fill the vacancy, PD **Todd Cavanah** has rehired — on a temporary basis — ex-**B96** afternoon personality **Gary Spears**, who'll be teamed with current co-host **Karen Hand**.

Spears, while on one hand actively seeking the position, is also on hand with **Hand** to host open auditions from air talents local and nationwide. **Cavanah** assures ST that "names will be changed to protect the working." Listeners will vote on the auditions using **B96's** interactive phone system.

Biggest hats in the ring for the **KHKS/Dallas** PD derby belong to **Q102/Cincy** PD **Jimmy Steal**, **KKRZ/Portland** PD **Ken Benson**, and **KFMB-FM/SD** OM **Tracy Johnson**. **Gannett** Pres. **Gerry DeFrancesco** says, "No one is as yet in serious consideration," noting that **KHKS** GM **Brenda Adriance** has been on vacation since late last week.

Atlantic Names Two New VPs

Anderson to Sales; Ferrando to Video/Media

Atlantic Records has hired former Sony Music Branch Manager **Pete Anderson** as VP/Sales and promoted Sr. Director/Video Promotion and Media Development **Linda Ferrando** to VP of her department; both are based in the label's New York offices.

"In the six months he's been on board, Pete has bolstered Atlantic's preeminence in the marketplace," said Exec. VP/GM **Val Azzoli**. He added that Anderson is "overseeing our daily operations at both the national and regional levels . . . re-evaluating and redefining the interaction between sales and other areas of the company, particularly marketing and promotion."

Atlantic Group Chairman/CEO **Doug Morris** called Ferrando "one of the most talented and hard-working members of our staff," adding, "Linda has everything we look for in an executive." Azzoli noted, "Linda's drive and versatility have

Anderson Ferrando

enabled her to play a central role in turning baby bands into major stars."

An 18-year veteran of what's now known as Sony Music, Anderson was also Epic's VP/Sales from 1988-91. Ferrando joined Atlantic in 1985 after prior stints with PolyGram and WKTU/New York. She was named National Video Promotion Coordinator in 1987, upped to Manager the next year, to Director a year later, and to Sr. Director in 1992.

Spectrum

to May's letters. "Many radio stations and TV stations lost money last year, and a tax on gross receipts will put many of those stations out of business," NAB said. It also noted that broadcasters already pay millions of dollars in business taxes and FCC fees and already "pay" for spectrum with their public service obligations.

New taxes — the largest of which is the \$4.8 billion spectrum royalty — have been attached to GATT because the treaty is projected to reduce U.S. tax revenues in its early years, although it is expected to eventually increase payments to the Treasury. NAB initially said a tax rising incrementally over five years from 1% to 5% of broadcasters' gross revenues was planned, but the Administration more recently said it would range from 1% to 4%.

NAB is urging broadcasters to contact members of Congress directly to oppose the spectrum royalty fees. A list of addresses for key committee members appears on Page 12.

GATT Hearings Begin

The House Subcommittee on Trade held its first hearing on the GATT treaty Monday (5/16), but the thorny issue of taxes was reserved for later consideration by the full Ways and Means Committee, chaired by Rep. **Dan Rostenkowski** (D-IL).

York; Exec. VP **David Kantor** will continue to supervise ad and affiliate sales, programming, and marketing while commuting weekly between New York and Dallas; and co-Exec. VP **Bart Catalane**, who oversees the company's business and engineering functions, will adopt Kantor's routine.

The reorganization means the network will vacate its seventh-floor office space in a Capital Cities/ABC building on the East bank of the Hudson River. ABC Radio's news operations are unaffected by the changes and will continue to occupy

That didn't stop subcommittee Chairman Rep. **Sam Gibbons** (D-FL) from expressing his opinion that Congress should pass a waiver exempting the GATT treaty from budget constraints. "It makes no sense at all to levy taxes to offset a piece of legislation that will raise far more than that over the life of the pact," he noted.

The Clinton Administration would prefer to go the waiver route, but has found opposition to the idea from key members of Congress, including Sen. **Ernest Hollings** (D-SC). Some observers have speculated that by targeting a powerful lobbying group like broadcasters, the Administration really hopes to break down opposition to a waiver.

Hollings Opposed

Hollings told R&R Tuesday (5/17) he believes the Administration means business when it comes to the new tax on broadcasters: "I think they're serious about it, but I'm opposed to it."

Although the Finance Committee, chaired by Sen. **Daniel Patrick Moynihan** (D-NY), has control of the GATT treaty in the Senate, Hollings believes the spectrum royalty idea will still be sent to his Commerce Committee, which controls most broadcasting-related legislation, for consideration. Hollings said there was "no way" his panel would approve additional fees for broadcasters.

the sixth floor of that building.

ABC is reportedly seeking real estate in Dallas for its new headquarters, which will house its offices and SMN's studios.

His knowledge of the music, his people skills, and his passion for the format are well suited for our future."

Before joining KOAI, Miller served as Programming Operations Director for two-and-a-half years at **Digital Planet**, a Los Angeles-based digital music service for cable.

The Doctor Is In

SMI Broadcasting announced its plans to syndicate KFI/Los Angeles's "Dr. Laura Schlessinger Show" a call-in talk program which Schlessinger (seated) says is "based on moral standards, values, and good sense." Making good sense of the deal are (l-r) KFI PD David Hall and SMI President/GM Alan Fuller, exec. producer Carolyn Holt, and CEO John Shanahan.

"Fred will be overseeing all daily operations of both stations, including on-air, production, and the programming/production staff."

"We have an excellent management team and terrific airstaff with a lot of tenure in the market," noted Buc.

Buc, whose Nashville radio career spans two decades, joined RLT nearly two years ago. His previous Music City experience includes stints as PD at WKDA and Asst. PD/MD at WKDF.

KUBE Reshapes For Pop Music Mix

■ Rhythmic outlet creates own Seattle sound with Alternative crossovers

Why take a winning station like Rhythmic CHR KUBE/Seattle — which jumped 5.9-6.4 in the Winter '94 Arbitron to place third in the market — and begin to add pop-alternative titles?

The Retail Picture

"For more than two years, KUBE was a very consistent-sounding, rhythmic station with a product and sound our listeners could rely on," says PD **Bob Case**. "It was backed by solid promotion and marketing, not to mention a heritage morning show with *Charlie & Ty*. Our 'KUBE 93 Jams' and 'Stopless Music' positioners were ingrained in everyone's heads, and we used promos to show the variety within the rhythmic music. We have the hardest working jocks in show biz and built a huge response to the 'KUBE Summer Jam' concert."

Bob Case

The retail sellout of M.C. Luscious's "Boom! I Got Your Boyfriend" — without any in-market airplay — originally led KUBE to a rhythmic direction. "The music was coming up from the streets and selling. At the time, most Top 10 sellers

were rhythmic. We realized the rhythmic trend wasn't just a splinter group, it was the new mainstream sound of the market and rapidly overtaking the Hot AC/Adult CHR sound we'd had in Seattle.

"We committed to being the current-based, popular music station, whatever the music was. For more than two years, that music has been rhythmic in nature. Exceptions included *Eric Clapton's 'Tears In Heaven,' Adams/Stewart/Sting's 'All For One,' Red Hot Chili Peppers' 'Under The Bridge,'* and *Guns N' Roses' 'November Rain,'* once they became overwhelmingly mass-appeal hits.

"Despite our success as a Rhythmic CHR, we always were open to evolution. More than two years ago, we rode a trend as the music leader. But the market's mass-appeal sound has moved again. It now includes more *Ace of Base, Counting Crows, Enigma, Crash Test Dummies, Gin Blossoms, Pearl Jam,* and *Nirvana* mixed with rhythmic records like *Domino, Snoop Doggy Dogg,* and *R. Kelly,* which are the biggest hits. KUBE must ride the

wave of popular music. If it now includes some non-rhythmic records, so be it."

Putting Hit Records Together

As CHR became more splintered and stations adopted more focused sounds, PDs spoke in terms of musical "train wrecks" when divergent songs were played back-to-back. "We still can have those train wrecks. But if you talk to researchers, you'll find the audience is more forgiving than we give them credit for. We want KUBE to have

flow and a vibe, so playing *Salt-N-Pepa f/En Vogue's 'Whatta Man'* followed by the *Proclaimers' 'I'm Gonna Be (500 Miles)'* isn't a train wreck — hit records go together."

Case admits that if former cross-town CHR/current Hot AC *KPLZ* was still in the format, KUBE's tran-

Four Format Cornerstones

KUBE/Seattle now promotes itself as "the new music revolution" with promos and imaging that ...

- Represent the lifestyle and tastes of listeners 12-34.
- Highlight the active pop and rhythmic music listeners are passionate about in terms of requests/sales.
- Avoid patently AC or fringe artists.
- Showcase artist/entertainment information.

sition would have been more difficult and not as dramatic. "KUBE kicked in the noticeable music changes at the end of March, and our hardcore hip-hop and R&B fans reacted immediately — they didn't feel good about it. In the end, those fans will be more accepting of the hit alternative sound than the core alternative listeners will be of the hip-hop we still play. The effect on our book has yet to be seen, but I believe the cume will go up; we may lose some TSL initially. [Given] this market's competitive scenario, I believe the timing is right.

"It's risky, but the guy who bought 1000 shares of Microsoft in the beginning was a risk-taker and today is considered a genius. I don't know if you should fix something that's not broken, but I believe in changing my car's oil before I have engine problems.

"I don't think this will fail. We've researched the music. We won't make a stupid move as long as we add hit alternative crossovers. The music must be mass-appeal and compelling, much like the music on MTV. We'll get in trouble if we stray too far from real hit records, so we made few changes in the library — those still are the recent hits for Seattle. Our rotations and overall jock presentation have stayed pretty much the same — just the mix is different. As far as I'm concerned, KUBE's the new Top 40 for Seattle."

According to Case, the transition isn't a lifestyle change from hip-hop to grunge. "It's simply playing hit records of different types together — a philosophy [consultant] *Mike Joseph* has talked about for years. Consultant *Jerry Clifton* has been

☞ **Constantly examine what your audience is buying, requesting, and dancing to — we've found it's always changing.** ☞

a wonderful sounding board for this change; he recently spent several days here to get a feel for what we're doing. He became a fan, but I don't know if he'll apply it to his other markets.

"This year's Summer Jam should be more like 'Lollapalooza.' I can envision groups as diverse as *Counting Crows* and *Crash Test Dummies* playing with *Snoop Doggy Dogg* and *Salt-N-Pepa*. I don't know if this will work everywhere, but in Seattle it was time to change. Constantly examine what your audience is buying, requesting, and dancing to — we've found it's always changing."

Pushing The Envelope: How Far Is Too Far?

■ Three PDs explore what is and what isn't good taste on the air

We've all heard the expression "pushing the envelope." And, being in the radio business, we've all heard — or perhaps even taken part in — at least one on-air discussion that probably could be deemed irresponsible.

Of course, those air personalities who say or do tasteless things must take responsibility for their actions. Station management must also accept responsibility for such rogue conduct. But how far should management allow talent to go? What are the limits? Are there even limits, or does anything go these days?

Skip Cheatham

"Because I'm there and I have control, I know what kind of bits we're going to do and what might raise some eyebrows, so we don't have those problems. I think every radio station has a responsibility to the community. Every community's norms are different; if you're in touch, you know what's acceptable and what's not. I'm very demanding of the jocks. I expect them to know [the difference between] a risqué joke and something totally tasteless being passed off as humor."

Cheatham agrees with the unwrit-

ten rule that Urban stations have a certain morality standard dictated by those in the black community — a standard that's not expected of broadcasters in other formats. "There are things non-Black radio stations can say and do on the air not just once, but on a regular basis — like use profanities — and it's no problem for them," he says. "They can do that and get away with it."

"On the other hand, because we have become such an integral part

Great Expectations

WJLB/Detroit PD Steve Hegwood says, "Social value in our broadcasting approach is designed by our audience. We've done lifestyle surveys and perceptual studies to find out what our audience will and will not tolerate from this radio station. We've tested several words to see just how far we can push the envelope on the audience."

Steve Hegwood

"Frankly, the expectation level of this radio station is great; they really believe and respect us. We are the family radio station, the one mom can turn on with the kids and enjoy the music, the contests, and all the fun-loving things we do. They don't expect to hear anything raunchy, nasty, or vulgar, and we adhere to their expectations by being very discreet."

"We have trouble with lyrical content in some songs, commercials, and comedy shows. For example, we have a problem with some of the artists who perform on the 'HBO Def Comedy Jam.' Some listeners and ministers call in and complain that the commercials are a bit risqué."

"GUESS" WHO'S IN ROCHESTER? — WB duo Guesss, Darryl "DG" Derdine and Deron "Cheezy" Irons, stopped by WDKX/Rochester, NY to chat with personality Brian Lewis.

"We have developed a mission for our morning show: it's to never be nasty. It's not to be like Howard Stern or Rush Limbaugh. Instead,

and never get into anything personal. All of our jocks know this because we've talked with them about it. We often allow our listeners to comment

"We have developed a mission for our morning show: It's to never be nasty. It's to be like the person who lives next door."

— Steve Hegwood

Every community's norms are different; if you're in touch, you know what's acceptable and what's not.

— Skip Cheatham

WBLX/Mobile PD/morning personality Skip Cheatham (who started as KKDA-FM/Dallas PD on May 17) says, "Our organization has very high standards, and we expect our air personalities to exhibit the same high standards on and off the air. I'm in a very fortunate position [as a PD] in that I do the morning show with J.B. Louis, so I don't get calls from my VP/GM saying, 'Did you hear what was just said on the morning show?'"

ten rule that Urban stations have a certain morality standard dictated by those in the black community — a standard that's not expected of broadcasters in other formats. "There are things non-Black radio stations can say and do on the air not just once, but on a regular basis — like use profanities — and it's no problem for them," he says. "They can do that and get away with it."

"On the other hand, because we have become such an integral part

it's to be more like the person who lives next door. [Morning talent] Mason is loved in this market because he embraces the audience and because most of these people grew up listening to him. If they were 15 when he came on the air, they're 25 now. They don't expect to hear him say anything vulgar now because he didn't do it 10 years ago."

"We all talk about the station's mission in our meetings. The mission for every announcer is that we are the nice people in the city, working for the city, pulling for the city. We're the community station, the good guys on the block. That's how we position ourselves all the time, 24 hours a day. Sometimes that works to our benefit, but sometimes it's a negative because we can't push that envelope to the end and go all the way to the edge."

Playing The Game

KIPR (Power 92 FM)/Little Rock PD/morning talent Joe Booker says his market is unique in that it's President Bill Clinton's hometown. "I'm sure [everyone's] heard about his alleged affairs and things like that. At our station those kinds of things were off limits when he was governor. Now that he's the president, those things are deemed to be in bad taste with our audience, mainly because most of the listeners are strong Democrats and heavy supporters of his."

"We have discussed some negative things on-air, but we never take sides

about things on the air; that's part of our formative appeal in this area. People like that about us."

"And this way we're still doing our part in the community by giving people a forum to be heard. We tackle a lot of community issues during what we call our 'Power People Poll Question Of The Day.' But our air personalities don't offer any opinions themselves. We let the listeners give their opinions, pro or con."

When you have the family station you have to make sure you do family programming, which is tasteful programming.

— Joe Booker

Sharing what it's like to program in the Bible Belt, Booker notes, "At one time our GM thought we were getting too newsworthy or too personal with our on-air conversations. When black people want to hear the news, they expect to hear it on the Black radio station in town. And the Black station here is the family station — the young kids listen to it, and so do the parents and grandparents. So when you have the family station you have to make sure you do family programming, which is tasteful programming. And that's what we do here."

THE GOSPEL TRUTH — A reception was held in Los Angeles for Qwest artist Andrae' Crouch (5th from left). On hand to congratulate him on his live performance were (l-r) Crouch's manager Ramone Hervey, WB VP/Sales Earl Jordan, Qwest VP/A&R Mike Stradford, WGOK/Mobile GM & NBPC President Irene Ware, WB's VP/Black Music Promotion Hank Spann and Sr. VP/Black Music Promotion Ray Harris, and Qwest President Jim Swindel.

Buying Time On Television

■ Three pros explain how to make the most of the medium

Cost often prohibits stations from using outside advertising. Or they develop a routine of using only one medium, like billboards or bus boards. Worse yet, if they try another medium and aren't successful, they fall back on the old refrain, "We tried TV/newspaper/direct mail/skywriting, but it didn't work."

David Gariano

To help programmers better understand the art of buying TV, three experts offer suggestions on how to approach this sometimes intimidating medium. SuperSpots President/CEO David Gariano says, "You first need to decide on a budget, then you need to determine your objective and choose your message."

Right Spot Length

Gariano says more stations are looking into the "split-15 concept," in which a 15-second station spot opens and closes the TV station break. "It's a double reinforcement, and we're seeing more stations doing it in the Classic Rock and NAC formats. It's more expensive because of the fixed placement, but it's very effective. However, 30-second spots are still the standard, because they give you a better chance to tell your whole story.

"Ten-second spots are a shadow version of the original :30; once you've established the :30 on air, you place the :10s. Viewers think they're still watching the :30s. That's an effective way to stretch your budget after you've ingrained the full :30 in the market."

"Your TV commercial tells who you are, what you play, and what you sound like. You can't get that from driving by a billboard at 55mph."

— David Gariano

While Rock stations are typically dominant outdoors, Gariano says, "The thing that TV can offer that billboards can't is a solid product sample. Your TV commercial tells who you are, what you play, and what you sound like. You can't get that from driving by a billboard at 55mph."

Intangible Results

Gariano says, "Buying TV is a great statement for radio to make for its own internal purposes: The staff feels good about management's support, which ups morale. It also proves to the advertising community that the station practices what it preaches. Radio AEs always tell clients that advertising generates more revenue and success. But radio often views advertising and promotion for

itself as a luxury instead of a necessity."

He suggests TV isn't the "end-all" for your campaign. "There are other ways to dominate your market: cable networks [especially male-dominated programs like ESPN], movie theaters, and clubs. Here in Chicago, Q101 has a spot running in clubs all over town between videos. So if you don't have a lot of money to spend, there are other ways to get in front of your audience."

Traps To Avoid

Film House VP/Marketing Wayne Campbell outlines some pitfalls of buying TV. "The number one mistake is not buying enough time. In the last five years, radio has done a wonderful job selling the concept of Optimum Efficient Scheduling [O.E.S.] That has helped both radio and its advertisers improve the size of media buys and their effectiveness.

"Unfortunately, many stations lose sight of that fact when buying time for themselves. O.E.S. is just

"Who dabbles in direct mail, sending out only 200 pieces? Who prints up 100 bumper stickers? Yet a lot of people think they can buy a little TV."

— Wayne Campbell

as big a factor in television as in radio. There's a moment of critical mass that happens, and if you don't reach it, you're probably wasting money.

"Just as advertisers who dabble in radio buys are generally not very successful, the same is true when radio uses outside media. Who dabbles in direct mail, sending out only 200 pieces? Who prints up 100 bumper stickers? Yet a lot of people think they can buy a little TV. Success requires a conscientiously applied program of marketing. Some people use a rule of thumb that your production budget should be 15%-20% of your media buy. So if you don't have four or five times as much money to run the spot as you're spending to create it, maybe you shouldn't be on TV.

Wayne Campbell

What It Takes To Tame TV

Buying TV time requires three key ingredients, according to SuperSpots President/CEO David Gariano. "When people say their TV campaign didn't work, it's because one of those three items wasn't right," he says. The keys are:

- A great spot that communicates your station's exact essence
- Targeting the spot to reach the people who can do you the most good
- Ensuring your on-air product backs up the essence of the spot.

"Something else to watch out for: I've seen a lot of good TV campaigns pulled because people at the station are tired of them and think the public must be tired of them too. But radio people are very sensitized viewers of media. We tend to see spots — particularly our own — more often and with more recall than typical users. Real viewers don't have a personal stake, so they don't watch commercials the same way.

"Usually, when a station is tired of its own campaign, the public is just starting to get it. You've heard that same dynamic applied to music. Middayers are almost always totally burnt on records by the time the public just starts to hear them."

Critical Mass Appeal

Campbell compares buying TV to buying radio: "Our criterion for critical mass in television is very similar to most people's criterion for radio: Your media buy should reach over 70% of your target demo three to four times per week. You'll need to calculate reach and frequency to determine how many times to run your spot to reach that goal. There are other creative things to do to maximize your exposure if you have a real world budget vs. a perfect world budget. For example, if you can't own the medium all week, you can still own one or two nights."

He cautions, "Radio people often try to place their own TV buys. But with duopoly and all the other pressures on operators, management already has a full plate. Paying somebody a small percentage to place and monitor the media buy may be a very wise expenditure.

"Stations that do tactical advertising — for contests, for instance — have to watch to get 'make-goods' in a period when they'll be useful. Many managers don't have time to track the buy each day. They'll find out a month later that they're owed some make-goods — but by then the contest is over and they've missed the exposure needed for the contest. What's more, they may not have the creative that still works a month later."

Placing The Buy

Effective Media Services uses extensive research to develop a station's demographic and lifestyle profile. The results are compared against raw TV diaries to determine which shows deliver the correct audience for the market.

VP/Director of Sales Ed Marshak says, "After establishing what TV programs to use, we optimize a schedule based on the principles of O.E.S. By knowing where to concentrate commercials, you can avoid random demo buying, which is prohibitively expensive. Also, focusing only on programs that reach listeners and potential listeners builds top-of-mind awareness.

"Some TV schedules overdeliver reach and underdeliver frequency.

Ed Marshak

"TV advertising generates results the same way any other medium does — through a consistently repeated message directed at a carefully targeted group of consumers."

— Ed Marshak

TV naturally builds reach very quickly, which confuses some buyers into thinking that's the main reason TV works. The truth is: TV advertising generates results the same way any other medium does — through a consistently repeated message directed at a carefully targeted group of consumers. Our goal is to hit approximately 50% or more of the schedule's weekly reach three or more times."

Marshak points out some buzzwords to learn when buying TV:

- **Geodemographics:** Geographic/demographic lifestyle targeting used for effective frequency planning
- **Lifestyle cluster targeting:** The use of Donnelly cluster to determine the lifestyle profile of a station's audience and/or a TV show's audience
- **Effective frequency scheduling:** The theory you have to hit somebody at least three times per week to motivate them to move in the direction you want; i.e., sampling the station.

Format Keeps Going & Going . . .

■ Most stations maintained or improved on Fall '93 12+ numbers

The recently released Winter '94 Arbitron results constitute the fifth consecutive positive book for the format.

Overall, 64% of surveyed stations maintained or improved their Fall '93 12+ numbers over the winter book. Total shares increased 70.1-105.1 from last winter. However, the format's median 12+ slipped from 3.0-2.9 because of heavy erosion by KEDG/Las Vegas and the exclusion of highly rated Progressives WKOC/Norfolk and WVG0/Richmond (they'll be included in a separate Progressive analysis).

Four stations debuted this book: WJZX/Dayton, WQNF/Louisville, WRXQ/Memphis, and KEGE/Minneapolis. Four folded: KBAC/Albuquerque, WLAV (AM)/Grand Rapids, KMBY (AM)/Monterey, and WLZR (AM)/Milwaukee.

Dissecting 18-34s

In 18-24, 22 stations (67%) are among the Top 5 rankers.

18-34 Dominators

Nearly 50% of Alternative stations increased in persons 18-34.

Here are the top rankers:

	Fa '93	Wi '94
KPOI/Honolulu	#8	#2
KROQ/Los Angeles	#1(tie)#2(tie)	
KWOD/Sacramento	#4	#2
KNDD/Seattle	#5	#2(tie)

36% down	4 debuts
12+ Scores (Winter '93 vs. Winter '94)

KNDD/Seattle is the sole station to finish No. 1 (KEDG, KROQ/Los Angeles, and WMAD/Madison, WI accomplished the feat in the fall survey). WMAD and WHFS/Washington finished as runners-up.

This survey marks the debut of persons 25-34. Along with 18-24s, it provides a complete picture of the format's bread-and-butter 18-34 demo. Nearly 50% of stations earned Top 5 status among 25-34s; KWOD/Sacramento is the only station to rank No. 1 in that demo.

Highlight Reel

"We're more focused on the 25-34 demo," states KWOD PD/MD Alex Cosper, who guided his station to one of the best overall winter books.

"In this market, there are a lot more people in this demo. Plus, it allows us to be more mass-appeal — it's an overlap of young and older demos.

"I tightened up the music but not the rotations. It was a matter of making sure we weren't putting marginal songs in our strong categories. We focused on the format's proven hits and added flavor with songs that sound strong but maybe didn't get enough airplay. We're nurturing these songs so they'll become staples for our station.

"I made sure the music was familiar by bringing back older songs, especially on weekends. We began the 'Modern Evolution Weekend,' when we play three songs from the '70s, '80s, and '90s. Our weekend numbers went up a lot, which helped us overall.

"We took some of [crosstown Rocker] KRRX's audience because a lot of modern rock fits both formats. I'm more likely to play an artist that crosses [Rock] and modern rock than an artist just happening at modern rock. We'll still play

WENZ Wins

WENZ/Cleveland "went up across the board, but took an incredible jump 25-54," notes PD Rick Michaels. "We went for a more familiar, palatable sound during the day. We're not banging all the brand new music during the early hours. By 4pm, we get more aggressive by playing things like Nine Inch Nails and Rollins Band.

"We've focused on selling the music. We're big on educating — not only artist and title but something about the artist, especially newer ones. Whenever we put a new band in, the jocks follow up with where it came from and what it's all about."

Coping With '70s-Based Stations

As '70s-based oldies stations continue to materialize, more and more AC decision-makers will have to decide how — or if — they should respond.

"The only thing ACs can do is serve their core audience properly. In many cases, there's not much an AC can do" to counter-program '70s oldies stations, comments Jack Taddeo, Communications President

Jack Taddeo

Jack Taddeo. "That's an answer many managers don't want to hear, but the smartest thing to do is revisit your market research immediately and make sure you haven't missed something."

Stay The Course

Stations that have done their homework and know that what they're doing is right for their target should stick to their guns, says Taddeo. "It's a different story if you haven't done a market study in three years. If there are questions about what you're doing, you'd better get information before you make any decisions. It's very frightening to see how some people are reacting to this format. Some reactions are very subtle, but you can tell there's been discussion inside the station regarding how to react."

He cautions, "Programmers who add some '70s oldies elements may blow up their own station. To [haphazardly] add '70s music to a Hot AC or Soft AC to try to protect against a '70s-driven oldies station is a mistake."

Adding or maintaining special weekend shows, though, is an exception. "If the market is right, I happen to believe very strongly in

Programmers who haphazardly add '70s oldies elements may blow up their own stations.

things like Saturday night dance shows," comments Taddeo. "But '80s/'90s-driven stations that suddenly feel a great need to play '70s songs that don't fit the rest of the station will be in trouble. In many cases, that move directly opposes the station's marketing and strategic studies. They do it literally in reaction to a new format."

"Nobody should react based on what they see happening in another market. There's lots of talk about

[KCBS-FM/Los Angeles] because it's been very successful, but there are other places where there's been much less impact. This should be dealt with as a totally new and separate format. It really is a flanker, and many people believe it's the great new bandwagon format."

Research Importance

Taddeo differentiates between two primary approaches to the '70s oldies revolution. "Cox stations play artists like Lionel Richie and are more pop-oriented, while CBS's 'Arrow'

and its clones are more rock-oriented and have a relatively consistent tempo.

"It will be interesting to see how many operators execute the format properly, do market research, test the music regularly, and properly market the station. I'm not entirely sure all these stations have done all the necessary research. Some stations think they're taking [KCBS-FM's] playbook and transporting it into their market, but they're in for a rude awakening."

Philly's WBEB Buzzes Past Format Foes

Last winter, WBEB ("B 101") was the third of three ACs among Philadelphia's 25-54s, trailing Hot AC WYXR ("Star") and Mainstream AC WMGK ("Magic"). Its solid book this winter, however, vaulted B 101 ahead of its format rivals.

Mark Hamlin

"The music's definitely the reason for our gain," comments two-year PD Mark Hamlin. "We're very consistent 24 hours a day, and our [personalities] are bright and keep things moving. There's lots of talk

in this market — especially in the morning and even on the ACs. We stay true to our 'most music in the morning' marketing statement."

Softer To Brighter

B 101, which has an '80s/'90s flavor and targets a 30-44 female core, has become a bit brighter. Hamlin explains, "For years, 'Easy 101' [formerly WEAZ] was very soft and mellow. The station played Neil Diamond, Barry Manilow, and Bar-

bra Streisand. We've eliminated those artists and the soft '60s music and become more contemporary.

"We probably lean a little more toward Star than toward Magic, but we're not 'Hot.' Our [prime] artists today are Michael Bolton, Mariah Carey, Whitney Houston, and Billy Joel."

B 101 focused nearly all of its marketing efforts on television. "Our spot involved real people do-

ing on-the-street interviews. It sold our 'all music/all day' image. The marketing matched the product. Star did some telemarketing for their 'Listen At Work Network,' but [nearly all other stations] stuck with TV."

More Music Position

At rival Star, Matt Alan — who formerly worked for CHRs KIIS/Los Angeles and WHITZ/New York — is the new morning man. Magic's wake-up show is anchored by Harvey In The Morning. Hamlin's assessment: "[Alan's] a Rick Dees-type personality, certainly more high-profile than the station had been [previously]. Harvey plays three or four songs an hour and is also more of a talk personality."

"Howard Stern is also in the market [on Classic Rock WYSP]. We saw the advantage of playing more music in the morning and went for it. On the average, we play 10-12 songs an hour in morning drive."

Philadelphia's AC demo race this winter is extremely tight: A mere 0.8 separates the three outlets. Hamlin asserts, "B 101 has remained on

Shielding Yourself From Fad Formats

With so many all-'70s outlets popping up, one could appear any day now in Bakersfield. If it did, Buckley Broadcasting Mainstream AC KLLY/Bakersfield wouldn't make many major playlist modifications.

PD/MD Russ Davidson says, "We're already playing the cream of the '70s cream, so we wouldn't react at all. Since our music comes from the '70s, '80s, and '90s, we have three arms — not one."

Russ Davidson

He would take a few steps back to reevaluate the situation, however. "Most likely, we'd stay focused on what we're doing and continue with it to the best of our ability. We'd try to make our station as bullet-proof as possible. People expect certain things from KLLY, and we don't want to violate those expectations. Reacting to another station can sometimes be death."

Right Time & Place?

Bakersfield is a market in transition: KMMX flipped to Spanish, and Classic Rock KKBB ("B Rock") and AC KCHT both recently went dark. The latter has just been purchased and will reportedly resurface with a Spanish format.

According to Davidson, a '70s-based station "might be just right for this market right now. There's no Classic Rocker, and KERN-FM — the only Gold station — leans on music from the late '60s."

He's convinced there's enough product to support a '70s-exclusive format. "With music from groups like Argent and the Hollies, the first three years of the '70s still had a '60s feel. People

rag a lot about '70s music, but they shouldn't. In a way, disco gave people an impression that the '70s was weak musically."

Life Expectancy

The audience for a '70s-intensive station would come from a variety of sources. "They'd take a little from Gold, Classic Rock, and AC," Davidson notes. "It's a mixed

bag, but I'd hate to try to program a station like that without tons of research and money, because it could sound very schizophrenic."

He's also skeptical about such a format's lifespan. "This '70s thing is experimental and seems to be something that needs [considerable] marketing. Its stations constantly need to explain what they're doing."

"There are many talented people in our business who are always trying to reinvent the wheel. This, however, is a flash-in-the-pan impact format, and I don't see it being around very long. It's not a mainstream format, and it's not a format people will be able to bank on."

track. When we changed from WEAZ to B 101 a year ago, we believed it would take this much time to get where we are today. Star and Magic are basically the same stations they were a year ago. Magic,

though, may be leaning a little softer and older."

On B 101's spring performance, he says cautiously, "It should be an exciting book for us, but predicting Arbitron is impossible."

Philly's New Demo Leader

WBEB — this winter's 25-54 and 35-64 victor in Philadelphia's three-way AC race — attributes its win to a more-music approach.

Fans 'Jam' Ft. Worth For Festival

Sandwiched between the newly created West Coast Fanfest and Nashville's ever-popular International Country Music Fan Fair, the third annual Country Music Fan Jam will take place this weekend in Ft. Worth.

The Fan Jam bill includes perennial Texas favorite Jerry Jeff Walker, John Michael Montgomery, Martina McBride, Blackhawk, Neal McCoy, Daron Norwood, Brother Phelps, and Doug Supernaw. Once again, artists will be on hand for autographs and photo opportunities as well as performances.

Sponsored by American Airlines, Budweiser, Radio Shack, Incredible Universe, Chevrolet, and Dairy Queen, the two-day event is expected to draw around 30,000 people to the Ft. Worth Stockyards area, the festival's new location. (Last year's event was held in downtown Dallas, but was relocated owing to construction in the area.)

Event proceeds will be donated to St. Jude's Children's Research Hospital in Memphis. Last year's Fan Jam raised more than \$35,000 for the hospital.

NEW ARTIST FACT FILE

Label: Reprise

Single/Album: "Cry Wolf"/"In Full View"

Management: Barron-Sanjek Entertainment

Influences: Billy Joel, Elton John, James Taylor, Joni Mitchell

Background

Music was such an integral part of Victoria Shaw's family life that "my mother just assumed I'd learn to play the piano just like I'd learn how to read and write." Growing up in California around the business (her mother was a singer), Shaw decided early to pursue a singing career. "The first cassettes I owned were by Tom Jones and Elvis Presley."

• At 12 she formed her first band and began writing songs, inspired by Billy Joel, Elton John, and others. "I learned so much from those artists. I'd sit in my room listening to them for hours with my headphones on, then give the concert of my life in front of my mirror."

• The mirror concerts gave way to real audiences when Shaw headed to New York to pursue her dream. She was hired at a piano bar and embarked upon a 10-year adventure. "Moving there was scary. [But] I love New York and got a great education about music."

• Shaw would leave her piano gig for months at a time to pursue opportunities in Nashville. "I figured the best way to get a deal would be to write hits for other people. And — although it took me longer than most of my peers — when it hit, it hit real big. It's funny . . . I took the long way from California to New York to Nashville. But I've never taken a shortcut anywhere. I always seem to take a different route than most people, and it seems to come out all right."

Victoria Shaw

Signing

Shaw fulfilled her dream when a WB/Nashville staffer saw her at a guitar pull and took her tape to label head Jim Ed Norman. Norman offered her a development deal, which later led to a recording contract. It didn't hurt that she had already written hit songs for Garth Brooks and Doug Stone.

Songs

Shaw, who wrote the hits "Too Busy Being In Love" and "The River," says she writes what she'd like to hear on the radio. "I like clever lyrics, ones that can make me laugh, smile, or think."

• She penned nine songs on her debut LP, co-writing the first single with her former roommate and current guitar player, Jess Leary. "She's like my sister — we used to sit around dreaming about the day we'd be on the road performing. And now we are!"

• Shaw says she was shocked to win the Academy of Country Music's Song of the Year award recently. "I'd told everyone I wasn't winning, and I was so sure I wouldn't win that I wasn't even nervous. That was probably the first time my friends have seen me almost speechless!"

A Question Of Gold — And Balance

A recent column detailing KJJO/Minneapolis's flip from Thunder to Classic Country (R&R 4/29) prompted numerous calls and letters. Respondents debated the balance of currents and oldies on today's Country stations — and what percentage of the pie they'll consume in the future.

A letter from WHMQ/Findlay, OH PD Todd Mitchell typifies the comments received:

Todd Mitchell

"Certainly going up against big guns owned by Shamrock and Colfax [KEEY and WBOB-FM, respectively], there would not seem to be room for three Hot Country stations in the Twin Cities. When KJJO first went to the Thunder approach, KEEY had the game to itself. Shares were there for the stealing. But Colfax bought a then-Religious noncommercial FM, upgraded the facilities, and became a new player with WBOB. Suddenly, it was no longer a matter of siphoning off a few shares from a giant that had them all to itself.

"However, the article makes reference to only two large market FMs having tried the format before:

KKYX-FM/San Antonio and KSNN/Dallas-Ft. Worth. KKYX never got the shares to stick with the format, and KSNN slipped to a 2.1 in the Winter '94 Arbitron. One has to begin to question the validity of the format, with such results in two

Mitchell continues, "Another question: If a 'sprinkling' of older country was what pushed KJJO's numbers down, how is a complete, full dose of it going to bring them back up? One would think that a fan of older country would rather sit through a few Alan Jackson and

Feed The Children also collected its own donation of over 40,000 pounds of blankets, nonperishable food, and bottled water and delivered it to the Salvation Army in one of the towns. By the way, the first 500 KPLX listeners who made donations received a cassette featuring various Liberty artists.

Road Warrior's Reader

The summer travel season is almost upon us, and many country fans will be hitting the nation's highways and byways in everything from custom Harleys to feature-packed motor homes. But who wants to deal with trying to find a Country station in every city?

Toward that end, an essential item to pack is the new edition of the *Traveler's Country Music Radio Atlas*. Published by Hanalei Publishing of Port Hueneme, CA, this handy-dandy guide lists virtually all of the nation's Country radio outlets (arranged by state).

It also includes maps, making it easy for long-haul road warriors to plot their journeys and tune to the nearest station along their routes. The higher-powered stations are shown on the maps, while other local signals are listed alphabetically by city. There's even a "Nite Rider Centerfold" listing all

the big sticks that play Country overnight. The guide was compiled by Henry Stuebaker, a Navy engineer and self-described country aficionado who became a frustrated traveler while searching for Country stations.

They're available for \$4.95 plus \$1.25 for shipping and handling. Ordering 11-24 gets the cost down to \$3.75 (plus 35 cents each for S & H). Stuebaker says volume discounts and customized covers for station promotions also are available. The address is P.O. Box 369, Port Hueneme, CA 93044-0369.

WLS: Riding High In The Windy City

■ Positioning, focus, and patience mark station's journey to the Top Five

It's been nearly five years since legendary WLS (AM)/Chicago dropped AC in favor of a format that promised live, locally oriented, issues-driven Talk 24 hours a day. At the time skeptics wondered aloud whether the Capital Cities/ABC outlet would last a year — and with good reason.

In Fall 1989, its first full Arbitron book, WLS managed to claim a mere 1.2 12+ share while Tribune's crosstown Talk powerhouse, WGN, scored a 10.7. The next few reports weren't much better.

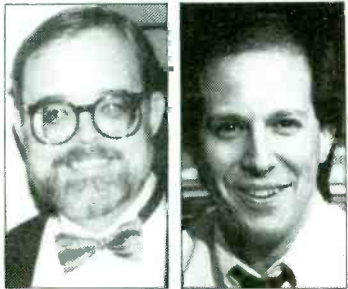

Positioning Power

But that was then, and this is now. In the Winter '94 Arbitron, a simulcast WLS-AM & FM drew a 5.1 12+ share, good enough for fifth place in that beauty contest. In 25-54, the station scored in the low fours and tied for seventh place.

WLS executives clearly believe their station has arrived — and they're more than proud to talk about the trip. According to President/GM Tom Tradup and OM Drew Hayes, WLS's success is attributable largely to positioning, focus, and patience.

"We knew we had to be about something," recalls Hayes. "WGN was the friendly, helpful station and [Evergreen's] WLUP (AM) was the zany, slightly blue station. We weren't going to win by trying to beat either one of them at what they do. So we decided to be the issues-oriented station, and we've stayed true to that."

Adds Tradup: "You have to tell people what you are and stick to it. We tell people, 'If you want to discuss issues 24 hours a day, come to 890 AM or 94.7 FM.'"

Tom Tradup Drew Hayes

Revamped Lineup

If Chicagoans heard that message during the station's first two years, they ignored it — causing consternation and prompting regular rumors of a format change. But WLS was always granted more time to make things work. For that invaluable contribution, Tradup thanks Capital Cities/ABC Radio Group II President Norm Schrutt: "He was the one who had to wear the flak jacket when we weren't an overnight success."

WLS used the gift of time to overhaul its troubled first offering and give the new lineup plenty of time to bond with the audience. "Time is vital when you're building a Talk station," observes Hayes. "Especially in a market as big and traditional as Chicago. This is the place where legendary broadcasters take time to catch on. Howard Stern went nowhere after a year. [WLUP person-

ality] Jonathon Brandmeier was here two years before he could get arrested in Chicago."

The WLS lineup that has since grown on Chicagoans features the morning team of Don Wade and Roma; thirtysomething moderate Roe Conn, who is heard both before and after Rush Limbaugh; and the PM drive team of former Chicago City Council firebrand Eddie Vrdolyak and veteran African-American talker Ty Wansley. Evenings belong to former WLS news anchor Catherine Johns.

While he acknowledges that Limbaugh has contributed mightily to WLS's success, Hayes refuses to characterize him as the tail that wags the dog. True, Limbaugh gives the station its highest-rated hours. But the other dayparts aren't lagging sig-

“We used to be the station that just kept you informed. Now we're the station that makes you thinner, richer, and gives you a better sex life.”

nificantly behind: "We've done a good job of building on what Rush gives us."

But would WLS be where it is today without Limbaugh? Says Hayes: "If Rush Limbaugh did not exist,

Time is vital when you're building a Talk station. This is the place where legendary broadcasters take time to catch on. [WLUP personality] Jonathon Brandmeier was here two years before he could get arrested in Chicago.

yes. If we were competing against him, I don't know."

Broadening Base

Limbaugh's high-grade mix of entertainment and information has also served as a model for WLS while its programming matures. Although WLS continues to position itself as the market's serious issues-driven station, it has lightened up somewhat in both topic selection and promotions.

Last week, Conn devoted a segment of his show to how silly men look in sandals. When parts of the downtown Loop area were flooded in 1992, he dressed in scuba gear and did his show from the disaster site. Earlier this month, Don Wade staged a "Gacy Day Parade" to mark the execution of mass murderer John Wayne Gacy. Some 3000 people showed up for the event.

"As we built a solid base with the issues, we felt we could broaden that base by doing things that are a little funny, zany, even dangerous," Hayes explains. "We used to be the station that just kept you informed. Now we're the station that makes you thinner, richer, and gives you a better sex life."

WLS's offbeat promotions, highly visible hosts, and newsworthy on-air programming have generated an endless stream of valuable publicity for the station. According to Hayes, the secret to maximizing station exposure is to be proactive. "Early on we built a strong rapport with the television stations and the

newspaper reporters/columnists. When we had something that would be of interest to them, we let them know about it as soon as possible — and we delivered on it."

Attracting FM Audience

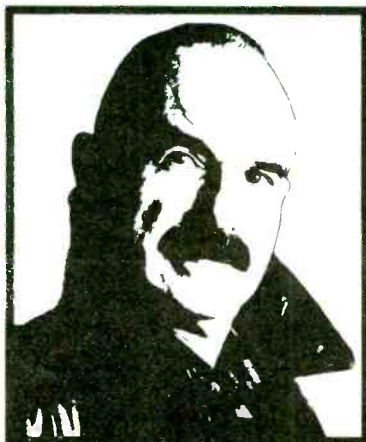

Hayes also feels WLS has benefited from changes and problems its competitors have experienced, including WGN's efforts to halt its slumping numbers, staff turmoil at WLUP, and Evergreen's decision to take WLUP (AM) all-Sports and move its Talk programming to WLUP-FM. "We've benefited, but I also think we caused some of it," says Hayes. "Our [1991] decision to simulcast our Talk on our FM forced other stations to start thinking about attracting that [FM] audience."

According to Hayes, the recent rumors that WLS plans to end its simulcast and do a "young talk" format on FM are the result of its determination not to be outflanked in return by its Talk competitors. "It's something we've talked about since the simulcast began. We have to look at protecting the Talk franchise at all costs."

But for now, Tradup and Hayes see nothing but blue skies in WLS's future. Tradup won't reveal numbers but says 1994 will be the outlet's first profitable year as a Talk facility.

And Hayes has some grand visions of his own: "Anything is possible now. When I told people in 1989 that we could overtake WGN, I'm not sure I really believed it. Now I do."

USERS' GUIDE TO A CHANGING WORLD

The most timely, detailed, and easy-to-use airplay information. All formats in one publication!

PLAY RANK – Ranks all songs on the chart by number of plays, no weighting system used.

POINTS – Each station's total plays of a song times the station's individual weight.
Total Points – All stations/points on song added together.

GR: GROWTH RANK – A qualitative analysis that ranks the songs that showed the most growth over the previous week in airplay and audience impact.

MOST ADDED - You can see both the **quantity** (number of stations adding a song) and **quality** (Add Factor) of adds.

CHART BULLETS – Given to any song that shows airplay growth (increase in points over previous week).

MOST INCREASED PLAY
 A quantitative analysis that ranks songs that showed the most increase in the total number of plays over the previous week.

AF: ADD FACTOR
 Measures the quality of the adds by combining the total weights of stations adding a song.

Insight Into Who's Adding A Song
 The *Add Factor* gives you a quick analysis of the audience size of stations adding a song. In a situation with the same or similar number of stations adding a song...the one with the higher AF has the stations with larger audiences adding it.

R&R WEIGHTING FORMULA

Each station earns its own weight in points, based on the size of its audience and how effectively it reaches that audience. The base elements of the formula include: AQH, cume, and the station's turnover. We process these raw numbers through simple reduction and limiting formulas to bring the large numbers down to a manageable size, and keep any single station from having a weight increase greater than the average of the ten stations preceding it.

QUANTITATIVE

The most heard song may not always be the song with the most plays. Pure airplay is one important evaluator... it shows the number of stations and their commitment to it.

QUALITATIVE

The *qualitative* level of evaluation brings each station's audience reach into the airplay picture. You can quickly determine the audience size of stations playing songs by comparing the *qualitative* chart position and Total Points to the *quantitative* Play Rank and number of stations.

Soundgarden's "Black Hole Sun" is a good example, #20 on the chart, but 31 in Play Rank, with only 62 stations.

Quick conclusion: Most of the stations on it have significant size audiences and the larger markets are playing it heavily.

(Examination of the actual song stats confirms that stations in L.A., Boston, Chicago, and Seattle are playing it 30-39 times each, with most other large markets playing it 20-29 times.)

• **Points** reflect the size of markets and audience of the stations (Qualitative)

• **Plays** reflect the number of plays each station gave a song (Quantitative)

ADD FACTOR INSIGHT INTO WHO'S ADDING A SONG

More than just the
quantity of stations

The *Add Factor* gives you a quick analysis of the audience size of stations adding a song. In a situation with the same or similar number of stations adding a song, the one with the higher AF has the stations with larger audiences adding it.

MOST ADDED®

AEROSMITH	"Crazy"	61 (AF: 15)
TOAD THE WET	"Fall"	39 (AF: 15)
LIVE	"Selling"	29 (AF: 8)
ZZ TOP	"Girl"	29 (AF: 5)
GREAT WHITE	"Sail"	28 (AF: 6)
ALLMAN BROTHERS	"Run"	26 (AF: 7)
SASS JORDAN	"Down"	25 (AF: 8)
ALICE IN CHAINS	"I Stay"	25 (AF: 6)
PINK FLOYD	"Take"	22 (AF: 8)

A song becomes an add the first time a station reports it.

Toad the Wet Sprocket, with only 39 stations, has the same AF as Aerosmith with 61 stations. **Quick conclusion:** Toad has much larger market stations with significantly larger audiences adding it this week.

Pink Floyd with less stations earns the same AF as Sass Jordan. **Quick conclusion:** Larger markets added the Pink Floyd.

AQH and Cume Persons expressed in hundreds (00's).

AUDIENCE IMPACT: A station's turnover figure is used to determine the approximate number of weekly plays a song needs on a station to be exposed to the average quarter-hour persons a minimum of one time.

R&R WEIGHTING FORMULA: Each station earns its own weight in points, based on the size of its audience and how effectively it reaches that audience. The base elements of the formula include: AQH, cume, and the station's turnover. We process these raw numbers through simple reduction and limiting formulas to bring the large numbers down to a manageable size and keep any single station from having a weight increase greater than the average of ten stations preceding it.

ELTON, JIM BRICKMAN, MELLENCAMP WITH ME'SHELL.

PSSST.... a TRUE story. Once there was a TOP 40 radio station in the coal minning hills of Bowling Green, Kentucky. They picked the calls WHHT and a soft spoken gentleman for a Program Director named Rex Holiday. OK so maybe not THAT soft spoken, but after all he did an airshift and we're talking CHR here. Anyway, getting back to the story. On a Tuesday night not long ago, May 10th, 1994 to be exact, Rex and his Music Director Paul Kelly have a problem. They need an album for their nightly spotlight segment and nothing comes to mind. Then they remember that independent promo man Howard Rosen sent them this release called "ONE A.D." They are wondering WHY they were sent **ONE A.D.** because after all WHHT is a TOP 40 station and this seems a little, shall we say "different," than the usual same old major label stuff. Some have even called it a BREATH OF FRESH AIR, but that's ANOTHER story. It came from this new independent label called "WAVEFORM," in a sparkly purple package, but again, Rex and Paul are just wondering WHY they ever received it! And about now they're desperate! It's just a few minutes before ten and they still don't know what album to spotlight. Rex thinks, "Hell let's play that **ONE A.D.** thing and when it doesn't get any response, I can tell Howard Rosen that I KNEW it wasn't right for us." So he tells Paul to track it and says he'll check with him later. Paul, looking forward to the time he'll have away from the board while the album tracks (there's ALWAYS more production to do) follows Rex's wishes and tracks **ONE A.D.** So....what do you THINK happened? Well by the third song all hell is breaking loose in the control room. Specifically the phones are lighting up like Christmas trees! "What is that? Where can I get it? When will it be available?" Caller after caller wants to know and damn it Paul can't even get up to relieve himself, let alone catch up on production! Next day, Rex Holiday is on the phone with Dave Sholin and us here at WAVEFORM, telling this story. GREAT Rex, how about a quote? Rex says tell them, "This damn thing is dangerous and I'm gonna HAVE to play it. Only all request hours generate more phones and we tested this as FILLER! Call me at (502) 651-6050 and I'll tell you the story myself." Then we all started thinking, hmmm, if **ONE A.D.** generates this kind of response in a small blue collar town in Kentucky, where the local university is not even in session, you don't have to be a rocket scientist to IMAGINE what the reaction would be in a big market like NYC or L.A.!! So forget about drowning in ballads and not having enough good crossover material. That's our story so far...leaving the next chapter up to you. The single is called "SOMA HOLIDAY" by G.O.L. with all lyrics from Huxley's "BRAVE NEW WORLD." It sounds a lot like the first ENIGMA album which in case you didn't know has sold over SEVEN MILLION COPIES. So, **ONE A.D.** already has a HUGE built-in audience! And it's SAFE, because after all, this IS a TRUE story.

QUANTITATIVE

The most heard song may not always be the song with the most plays. Pure airplay is one important evaluator... it shows the number of stations and their commitment to it.

QUALITATIVE

The qualitative level of evaluation brings each station's audience reach into the airplay picture. You can quickly determine the audience size of stations playing songs by comparing the qualitative chart position and Total Points to the quantitative Play Rank and number of stations.

A good example is the Warren G. song, #16 on the chart but 42 in Play Rank, with only 54 stations. Quick conclusion: Must have several large market stations playing it heavily.

(Examination of the actual song stats confirms that several major market stations are playing it 65 to 75 times a week.)

- Points reflect the size of markets and audience of the stations (Qualitative)
- Plays reflect the number of plays each station gave a song (Quantitative)

ADD FACTOR

INSIGHT INTO WHO'S ADDING A SONG

More than just the quantity of stations

The Add Factor gives you a quick analysis of the audience size of stations adding a song. In a situation with the same or similar number of stations adding a song, the one with the higher AF has the stations with larger audiences adding it.

MOST ADDED®

AEROSMITH	"Crazy"	58 (AF: 8)
ACE OF BASE	"Don't"	52 (AF: 12)
ATLANTIC STARR	"I'll"	33 (AF: 6)
M PEOPLE	"Moving"	25 (AF: 4)
ZHANE'	"Sending"	24 (AF: 6)
KATHY TROCCOLI	"Tell"	22 (AF: 5)
GIN BLOSSOMS	"Until"	22 (AF: 3)
JON SECADA	"If"	21 (AF: 3)
TOM PETTY & HB	"American"	19 (AF: 3)
ALL-4-ONE	"Swear"	16 (AF: 5)

Aerosmith has 6 more stations than Ace of Base but a much lower AF. Quick conclusion: Ace of Base was added on stations with larger audiences in larger markets.

All three have the same AF. Tom Petty, with less stations, is reaching a larger audience with its station mix.
