Auto Lease Bill Could Net Radio \$50 Million

Car leasing ads, scarce on radio because of wordy but necessary legalese, soon should make a comeback on the airwaves thanks to legislation making its way through Congress.

The Radio Ad Leasing Disclosure Act cleared a House-Senate conference committee last week. Although it still has several more hurdles to overcome — including approval from the House, the Senate, and President Clinton - NAB said its chances look good.

'NAB will work to assure that these [passages] take place as soon as possible to assure quick access to these new revenue opportunities," NAB President/CEO Eddie Fritts said. He pre-

NAB Declares GATT Victory

Congress confirms spectrum tax out of treaty

ou will be pleased to learn that the Clinton administration has decided not to propose a tax on the use of radio spectrum to help finance [the GATT trade agreement]." With that written confirmation from acting House Ways and Means Committee Chairman Rep. Sam Gibbons (D-FL), NAB finally declared victory last week (7/20) in its war with the administration over a proposed \$4.8 billion spectrum tax to help fund GATT.

"We are delighted to say we

now feel confident that the administration has dropped its proposal to impose a spectrum tax on broadcasters to help pay for the implementation of GATT,' NAB President/CEO Eddie Fritts said.

Several key senators met Friday (7/22) with President Clinton to discuss last-minute wrinkles in the financing of the treaty. After the meeting, they said they were close to agreeing on the funding and expected to settle the issue this week.

Spring '94 Arbitron Response Rates Climb

Response rates among Arbitron diarykeepers rose 12% between Spring '93 and Spring '94 to reach 41% — the best rate in years

Arbitron credits two new procedures initiated this year for the increased rates: It reduced the maximum amount of time from four weeks to two - between listeners' recruitment and the receipt of their diaries, and it implemented a program for households with three or more eligible listeners, featuring specially packaged diaries mailed in a brightly colored box.

VP/Operations & Research David Lapovsky said Arbitron

Atlantic Appropriates Airwaves

In a record label fantasy come to life, Atlantic is using a lowpower transmitter and an open AM frequency (1510) to broad-cast selected tracks to traffic-snarled commuters on the Jersey side of the Holland Tunnel. Here, Atlantic's Jon Nardachone (top), VP/Promotion Danny Buch (center), and Sr. VP Andrea Ganis don sandwich boards outside the tunnel during morning rush hour alerting drivers — a potential 90,000 of 'em daily, according to transit authorities — to tune in to the first track aired, B-Tribe's "You Won't See Me Cry." And the radio takeover has only just begun: Atlantic plans to start broadcasting from the NYC side of the tunnel, erect permanent signs advertising the service near both entrances, tie in with local music retailers, launch a sweepstakes for listeners, and secure transmitters outside of other tunnels and bridges to wrap up the Apple's vast captive commuter audience

Broadcasters Divided On Construction Policy

Some seek changes in comparative criteria, others favor status quo

Broadcasters are split on how the FCC should compare proposed permits for construction of new facilities, according to comments filed at the Commission as it re-examines its policy statement on comparative broadcast hearings.

Since 1965, the FCC has looked favorably upon an "integration policy" in which builders are both owner and manager. In 1993, Bechtel (an applicant) successfully sued the FCC, stating that this criterion was "arbitrary and capricious." The Commission is now seeking comments on how to judge broadcast construction applications fairly.

Under the integration policy, prime consideration is given to minority ownership, localism, and participation in civic activities by the local station. The federal court questioned that criteria as well.

NAB Points To Renewal Applications

The League of United Latin American Citizens, the Rio Grande Broadcasting Co., and Caldwell Broadcasting say all previous criteria considered under the integration policy — with the exclusion of actual integration of owners and managers - should be upheld.

On the other hand, NAB said the Commission should regulate new construction permits, but said the solution lies within renewal applications rather than in new permits:

"The Commission should separate renewal proceedings from comparisons among applications for new broadcast facilities and follow the model it developed for cellular renewal applications, permitting only consideration of the renewal application until the Commission determines whether to award a renewal expectancy.'

The deadline for all replies for the proposed rulemaking is August 8.

When It Comes To Building Radio Brands...

We Wrote The Book.

The NAB knows the importance of branding in today's multi-media world. To help broadcasters survive in this fiercely competitive environment, they decided to publish a definitive handbook on building radio brands -- a book that would be an invaluable resource to every manager today, as well as in the future. The NAB turned to Stratford Research, the recognized authority on branding, to write the book that represents the <u>next</u> generation in strategic thinking for radio.

THE FRANCHI\$E is a must-read for all managers who are interested in rising above the pack and competing on the next level -- as a branded market franchise. You can order your copy from the NAB at 800-368-5644.

KACE Sale Injunction Overturned

I Dorado Communications lost its bid to extend last week's temporary injunction blocking All-Pro Broadcasting's proposed sale of KACE/Inglewood (Los Angeles) to Cox Broadcasting.

A permanent injunction would have frozen All-Pro's assets until the resolution of El Dorado President Tom Castro's breach of contract lawsuit against All-Pro. However, a Los Angeles County Superior Court judge Tuesday (7/26) decided against extending the injunction that prohibited All-Pro from selling KACE or entering the station into an LMA.

"Ultimately, the courts will decide the owners of KACE," said Castro. All-Pro President Willie Davis was unavailable for comment at R&R's deadline.

RIAA Testifies At Copyright Hearing

he RIAA was expected to testify in Washington Wednesday (7/27) at a National Information Infrastructure hearing on the importance of establishing stronger copyright laws to protect sound recordings.

In a statement released prior to the hearing, RIAA Chairman/CEO Jay Berman said the U.S. needs to develop the "legal constructs for the development of rights in the digital domain ... that give practical effect to the copyright owner's exclusive rights."

Earlier this month, an NII task force released a report that favored passing a performance rights bills which would grant protection to performers and record companies. H.R. 2576, authored by Rep. William Hughes (D-NJ), is stuck in his Intellectual Property Subcommittee while members disagree on the content and the bill's uncertain impact on broadcasters

However, a Senate version of the bill may offer hope to broadcasters, according to Senate Judiciary Committee Counsel Darrell Panethiere. He says it's probable the bill will be rewritten to favor broadcasters, but the Senate is waiting to see what the House comes up with. A staffer with Hughes's subcommittee said she's sure the performance rights bill will come up before the August

"They Really Tune Into Our Needs."

-Julie E. Roberts, Marketing Director WMAQ, Chicago

"What I appreciate most about Communication Graphics is how they're able to tune into our programming needs. Not many suppliers can understand something as complex as that."

"CG also solves problems for us we didn't know we had. It's a true partnership, and I guess that's because their focus is on total customer support."

"We recently had a truckers' strike, and there was no way to get our stickers to our client's distribution center. But CG held our hand and helped us solve the problem quickly. When it comes to sticker production, they're head and shoulders above the rest."

"It's Simple. Better Stickers, More Cars."

-Gene Romano, Program Director WDVE, Pittsburgh

"This whole business is about getting, keeping and motivating listeners. A key part of our top-of-mind awareness strategy is stickers. Our listeners won't put just anything on their cars. I won't either. That's why we go to Communication Graphics."

"The bottom line is how many decals get on cars. We've tried others, and our listeners just wouldn't pick them up."

"The quality, and the overall look and feel of a Communication Graphics sticker makes the difference. It has a lot more appeal. When we use CG, our stickers get on more cars."

QUARTERLY UPDATE

Big Group Deals Fuel 73% Second-Quarter Trading Surge

■ \$198 million Summit auction and AMG sale dominate April-June dealing

wo large group deals helped propel second-quarter station trading to \$715 million — a 73% gain from \$412 million in the April-June period of 1993.

The two-part liquidation of the Summit Communications radio group accounted for \$198 million of the quarter's total and provided its second- and third-largest transactions. Herb McCord's KKR-backed Granum Communications claimed most of the Summit group — acquiring WAOK & WVEE/Atlanta, WCAO & WXYV/Baltimore, and KHVN & KJMZ/Dallas for \$130 million — while Jeff Smulyan's publicly traded Emmis Broadcasting scored the Big Apple's first FM duopoly with a \$68 million bid for WRKS/New York.

The quarter's largest single transaction, however, was the \$150 million sale of the 11-station American Media Group to Chancellor Communications and MBD Broadcasting, both headed by Steve Dinetz with financial backing by Hicks, Muse, Tate & Furst.

Despite the significantly higher dollar volume, the 327 stations that

changed hands in the second quarter actually represented a slight decrease from the 356 traded a year ago. The difference this year was a larger number of deals involving high-priced major market properties. Duopoly deals were also up sharply in the second quarter, rising to 83 (plus 11 deals involving existing duopolies) from 55 in the same period last year.

Wall Street investment banking firm Morgan Stanley & Co., which handled the \$198 million Summit auction, claimed top brokerage honors for the quarter.

Among companies whose primary business is brokering radio stations, Star Media Group's \$179.3 million tally paced the second-quarter field, and its \$210 million in 1994 sales gives it the year-to-date lead as well. Blackburn & Co. posted \$42 million in sales for the quarter (\$109.3 million YTD), followed by Gary Stevens & Co. at \$32.8 million (\$79.4 million) and Americom Radio Brokers at \$26 million (\$100.3 million).

Texas, with 27 stations changing hands, was the most active trading state. California was next at 25, followed by Georgia at 20 and Florida with 19.

DISCOVER THE POWER

WAIA/Jacksonville **Goes Progressive**

Classic Rock WAIA/Jacksonville has become the newest Progressive convert, calling itself "Just Rock 'N' Roll." Mark Bradley, who joined the Paxson Communications station five months ago (R&R 5/6), remains PD.

WAIA VP/GM Linda Byrd said, "We envision 'AIA's new format to be as successful as our sister station, WHPT/Tampa's.'

Bradley told R&R, "We knew we needed to make a change when [crosstown] WFYV was bought by Evergreen and basically became a Classic Rock station. The market has a horrible turnover ratio, and we had one of the lowest PI percent-

"We felt there were enough adults here to do a Progressive format. We're trying to build and cultivate an audience of our own.

Response Rates

Continued from Page 1 a whopping 62.9%; West Palm Beach earned the largest spring-tospring response rate increase 45%; and San Diego's 21% response rate gain was among the largest major market gains.

EXECUTIVE ACTION

McGraw Takes KFMS/Las Vegas PD Post

Two-year KEYV/Las Vegas PD/afternoon personality Charlie McGraw has been named PD at former duopoly sisters KFMS-AM & FM, which were recently purchased by Regent Communications.

Prior to joining KEYV, McGraw had spent two years programming Gold KUDA/Las Vegas. He was also PD at CHR KLUC/Las Vegas and Promotion Director for CHR WNCI/Columbus.

In other station news, Doug Shane has left KFMS after 18 years, the last four as GM; Regent President Terry Jacobs is acting GM. KFMS OM Ted Brown has exited as well, and PD Eric Patrick is now Asst. PD.

Greenlaw New Multimedia President/COO

Douglas Greenlaw has been appointed President/COO of Multimedia Inc.

"In Doug Greenlaw, we have a proven executive who understands equally ... programming and sales," commented Multimedia Chalman/CEO Don Sbarra. "Doug's leadership roles in leading-edge media ventures and his broad experience with marketing partnerships and other strategic alliances make him ideally suited [for this position]"

"I'm delighted to join Multimedia," sald Greenlaw. "The environment in which we compete will consist of an ever-increasing array of revolutionary technologies and complex strategic alliances. Mul-

timedia is healthy and ready to pursue new opportunities." Greenlaw was previously Chairman/CEO of Whittle Communications Inc.'s Ventures Division and spent four years as Exec. VP of MTV Networks. Greenlaw started his career in radio station sales for ABC

and Heftel Broadcasting. Multimedia's holdings include five radio stations.

Riseman Now Metro Mid-Atlantic VP/GM

Metro Networks Mid-Atlantic Regional Director/Marketing Benson Riseman has been elevated to VP/GM of the region. In his new post, Riseman will oversee the company's offices in Norfolk, Richmond, Baltimore, and Washington, DC.

President David Saperstein said, "Benson has a terrific understanding of the broadcast industry, which allows him to provide clever solutions for both our clients and affiliates."

Riseman joined Metro in October from Paxson Broadcasting, where he served as Group NSM. His experience also includes sales management positions at WSTF/Orlando, WBZ/Boston, and WMJX & WMEX/Boston and sales rep posts at CBS Radio, WCAU-FM/Philadelphia, and WRKO/Boston.

Mercer

Continued from Page 1

Mercer told R&R, "This opportunity allows me to continue to implement all that I've learned from Rick over the last three years as MD. Change is important to the format

and to Power 106, and we're constantly reinventing ourselves. While I'm not one to lean on being a female PD as a battle cry, I feel it's an important step in the industry and hopefully the start of a new trend."

Prior to joining Emmis, Mercer was MD at WBMX/Boston.

Paragon

Continued from Page 1

Among the in-car listeners who tune away during commercials:

- 33% tune out immediately
- ► 51% will stay through one or two spots
- ► 12% listen through four commercials
- 4% would tolerate six spots.

Why do listeners behave this way? Paragon's Mike Henry speculates that listeners in cars are more likely to switch because car radios are just an arm's length away and are likely to have presets that make the change easier. On the other hand, at-work listeners often don't have easy access to the radio, and offices usually choose stations by consensus anyway.

Respondents who answered "does not apply" do not use radio in the given circumstances.

Leasing Ads

Continued from Page 1

dicted the changes could mean \$20 million-\$50 million in additional revenue annually from auto companies and dealers.

Legalese Roadblocks

"About 50% of new car sales are leases," explained RAB spokeswoman Laura Morandin. She said advertisers have simply chosen not to buy radio ads because the necessary legalese took up about half of the ad airtime. "It was robbing the radio industry of millions of dollars in potential revenue.'

The new bill, which should be implemented in several months. would allow lease ads to use alternative off-air means (such as tollfree telephone numbers) to provide consumers with the required disclosure information, including lease terms and down payments.

ZINESCENE

Playing The 'Stock Market!

he original Woodstock may have been "a validation of the fringe culture," as Atlantic President Danny Goldberg says in Rolling Stone, but this year's encore is a product of mar-ket research. **PGD** President **John** Scher says he commissioned market research on who to book, partly to have a polite way to blow off older acts like CS&N. Those guys "tested great," however, and made the cut. On the other hand, the two acts most desired by 16-24s - Pearl Jam and the Grateful Dead — both declined. The Stone has plenty more on the business of peace 'n' love.

Both Sides Now

"A lot of today's music is too calculated," opines ex-Journey singer Steve Perry. "It's hard to tell if they're selling Chevy trucks or writing a hit single. I can't stand that. It's so commercially predictable, it's pap. Journey never fell into any of that" (Entertainment Week/v).

David Byrne says he went to see Pink Floyd recently; it was his first modern stadium show. It was "really kind of amazing. It was kind of the same as the music, it tends to just be the soundtrack for the light show" (Rolling Stone).

MJ + Lisa Marie

he Globe says the Scientologists urged Lisa Marie Preslev to marry Michael Jackson to give the Church access to his millions. She didn't tell her mom, Priscilla, about the wedding, for fear of an argument. The couple will move to a "6000-acre love nest" in rural Sommerville, NJ built by the late tobacco heiress Doris Duke, who had her own private zoo and hyperbaric chamber.

The Star says Jackson is shelling out \$40 million for an Atlanta mansion for Lisa Marie and the kids, and he's even considering converting to her religion (Star).

Schools Of Hard Knocks

Rolling Stone reports that after he lost his court case against Sony, George Michael's answering machine message featured him singing, "I'm never going to sing again. Bastards! Bastards! to the tune of "Careless Whisper"

Jimmy Scott says he heard Madonna said he's the only singer who can make her cry (a waiter at NYC's Tavern On The Green told him). Would Mr. Scott do Lollapalooza? "Sure I would! For kicks, babe, for kicks. Fortunately, I have experience in traveling in the rough. I learned early on how to collaborate with all kinds of people and music. It's a great enjoy ment for me, and I'd love to work with Madonna" (Interview).

Evolutionary Acts

MCA

Beastie Boys member MCA (aka Adam Yauch) talks about his Buddhism in Interview (he's had an audience with the Dalai Lama!) In the B-Boys' Rolling Stone

cover story, he says he's "a little closer to leaving this dimension," and observes, "A while ago I looked back [at the band's rnid-'80s antics] and cringed. These days I just look back and laugh. The bottom line is that it's all part of the learning curve."

Bandmate Ad-Rock (aka Adam Horovitz) lists his dog (along with Bob Marley and Fugazi's lan McKaye) as one of his role models: "He's just the cool-out king." He doesn't perceive much difference between his NYC childhood and his Tinseltown present: "I just see myself as a little kid, listening to [W]ABC radio playing all those hits from the '70s . . . Nothing's changed."

Maybe not for him . . . but what about Wynton Marsalis, that expensively tailored jazz purist? As a teen he did time in older brother Branford's funk band, the Creators. The bandleader chuckles at the memory: "He had to do dance steps, wear stupid uniforms, and he had a huge afro" (TV Guide).

Watching Jaybirds

While birdwatching in the English countryside, Paul McCartney stumbled into a nudist colony, where he was escorted out by a security guard (National Enquirer).

Who TV?

Pete Townshend tells TV Guide he watches a lot of TV, and his favorite show is "Sesame Street." What's a "standout TV moment"? "It was fun to be the first kids on our block to throw a TV set out the window."

Kurt — Bearly There

Read Nirvana bassist Krist No-voselic's angry letter to Rolling Stone in the current issue.

Courtney Love keeps Kurt Cobain's ashes in a teddy bear. She even took the stuffed fuzzball to bed with Evan Dando, who the National Enquirer calls "her new man." A "close friend" claimed Love carries the bear everywhere and sometimes sits and talks to it because, as she's explained. "Kurt is with me all the time he's alive in the bear!"

SALES & MARKETING

Maximizing Political Advertising Dollars

By Shane Fox

he forthcoming political season represents some interesting challenges for management. General market advertising is in high demand; depending on the seasonal period coinciding with your state's political window, a proactive look at the characteristic of overall demand and the potential represented by political advertising is necessary to maximize revenues.

Total Market Demand

This year, most markets are experiencing above-average demand for advertising. In fact, some properties might find themselves oversold even without political advertising

If the forecast for above-normal to strong general market demand for advertising overlaps with the political season, the possibility exists that political advertising could "displace" higher-priced general market customers - causing revenue displacement from oversell and pre-

A key question in this regard: What's the possibility (and to what

To develop a game plan, it's necessary to look at some history on political advertising and forecast this political season's general market demand.

degree) might lower-priced political business be accepted at the exclusion of higher-priced general market

If the answer is unknown — or if your intuition says the likelihood of such an occurrence is high - now is the time to determine how much potential is represented by political business and which specific political availability will be accepted.

Conduct Research Now

To develop a game plan, it's necessary to look at some history on political advertising and forecast this political season's general market de-

First, attempt to ascertain the overall potential of political advertising for your property from an inventory standpoint. Ask yourself, "If my property were to accept every political avail that comes along, what would that represent in terms of inventory utilized?" Some might say this is impossible to determine. With some focus, however, you can cal-

INVENTORY FORECAST

Avoid Oversell & Displacement

he following inventory forecast will help you determine when oversell and revenue displacement are likely during the political advertising season.

In this example, the property runs the definite risk of oversell and revenue displacement beginning the week of October 3. Beginning the week of October 17, the chance of oversell and revenue displacement is almost certain, prompting the need for some proactive decisions as to which races to accept.

Sample solution: This station should limit the number of political ads it accepts from October 3 to November 7 by limiting political business by 1000 units.

	9/19	9/26	10/3	10/10	10/17	10/24	10/31	11/7
Federal	250	250	250	250	500	500	500	500
State	250	250	250	250	250	250	250	250
Price-Insensitive Customers	750	750	1000	1000	1250	1250	1250	1250
Total Units Needed	1250	1250	1500	1500	2000	2000	2000	2000
Total Units Available	1500	1500	1500	1500	1500	1500	1500	1500
Inventory Remaining	+250	+250	0	0	-500	-500	-500	-500

culate a conservative estimate. Here's how:

Look at the number of political races (state and national) and the window associated with each race. From historical data, estimate expenditure levels by race.

Using the pricing standards set for your national races, calculate inventory utilized by race. Note: If a particular race has little expenditure history, use expenditure levels for a similar race.

Total the political ads used weekly by race. This represents a forecast as to inventory utilized from political business. Next, estimate your property's general market demand for advertising during those weeks when political advertising is likely to run.

'Price-Insensitive' Clients

Determine how many ads your property is likely to need for its most 'price-insensitive" customers, using current market information, trends, and historical information. Your property may be like many, in that it will have an overlap in some highly demanded seasonal periods with political ads.

Now take the total units available for sale and compare that weekly total with the amount of inventory needed to accommodate your political advertisers and your most priceinsensitive advertisers.

Certain weeks may show that you need more inventory to accommodate all business. Without some action now, customer dissatisfaction and ill will may occur. Make some proactive decisions now to avoid revenue displacement, oversell, preemptions, and the subsequent customer fallout and dissatisfaction. (See "Avoid Oversell & Displacement" for a sample analysis).

Proactive Decisions

While your property is required by law to accept certain political races, acceptance of other races is left to station management. The above analysis not only will show which weeks carry potential for customer dissatisfaction owing to oversell, it also will provide a guide as to whether a political race should be accepted and, if so, to what extent.

Depending on your state's rules, varying the number of ads accepted by race as well as the time segments allowed for sale provides some protection against oversell and revenue displacement.

One recommendation — especially if there's a chance that some of your price-insensitive customers can't be accommodated during the political window - is to decline some political advertising altogether. Properties measuring success by selling out all inventory are sure to experience massive oversell because of political advertising and strong overall market demand.

On the other hand, those properties taking the time to adopt the approach outlined here will be more likely to have inventory remaining during the political season, maximizing their revenues as a result.

Spears: Losing The Point

recious nanoseconds prior to presstime, ST heard word that programming veteran Michael

Spears was no longer PD of Century Hot AC WPNT/Chicago. MD Lynne Murray is serving as interim PD.

Crummey Supports Due Process

KMPC/L.A. yakmeister Joe Crummey formally apologized on-air last week for earlier remarks about O.J. Simpson.
Crummey allegedly told a caller, "I say we go downtown and string him up right now. He's guilty as sin and you know it." NAACP officials still plan to ask the FCC to check out the incident.

After meeting Tuesday (7/26) in St. Petersburg, Russia (site of the Goodwill Games), Turner Broadcasting System (TBS) shareholders had "no comment" regarding a possible purchase of CBS Inc. Federal regulations would force large TBS shareholders — such as Time Warner Inc. and Tele-Communications Inc. — to reduce their stakes if a broadcast network were acquired.

The Florida Citrus Commission decided not to renew its million-dollar contract with Rush Limbaugh — which expires in mid-August. The "FCC" maintained the decision wasn't influenced by a number of protests against the Orotund Rotundity's OJ sponsorship. Commission Exec. Dir. Daniel Santangelo issued a statement praising Limbaugh and other radio talk hosts Larry King and Dr. Dean Edell for their "excellent marketing support."

Peso Life Slows Down

Dallas-based syndicated radio talk host **Thomas Michael Donahue** was found guilty last week of running a peso exchange scheme in violation of federal laws. He was convicted on 36 counts of conspiracy, money-laundering, and other charges.

The Justice Department is investigating Warner Music Group, Sony Music, EMI Music, PolyGram, and

Rumors

- Will Z100/NY APD/MD Frankie Blue become Dir/Programming at the Box?
- Could those long-rumored PD changes at KTFM/San Antonio take place this week?
- Will KC101/New Haven PD Kid Kelly concentrate all his efforts on his United "Backtrax" syndication project?
- Will ex-WSNX/Muskegon-Grand Rapids PD
 Jim Richards surface as crosstown CHR WGRD
 PD? Or is he bidding for the PD gig at Jacor CHR
 WWST/Knoxville?

Ticketmaster Corp. for possible "anticompetitive behavior" that may arise from their planned musicvid cable channel.

Alternative Phoenix Rises Again

KUKQ/Phoenix will break its simulcast with Rock sister KUPD around September 1 to embrace Alternative again. (KUKQ abandoned the format last summer.) Indie promoter/format pioneer Jonathan L. Rosen returns for his third stint as PD; crosstown KZRX

Jonathan L. Rosen

MD Larry Mac cops the MD slot.

FCC Commissioners Andrew Barrett, Rachelle Chong, and Susan Ness will participate in an October 14 panel at the NAB Radio Show in L.A. Since Chairman Reed Hundt is already set to be a featured speaker the previous day, it looks as if the only commissioner to skip the confab will be (drum roll, please . . .) former radio broadcaster Jim Quello.

Radio Equity Partners bought Rock WARQ/Columbia, SC from Clayton Radio for \$1.9 million this week, and intends to pair it with UC WWDM.

Federal regulators attempting to recover more than \$10 million lost in a bank failure are suing Luci Baines
Johnson-Turpin, daughter of the late
President Lyndon Johnson. She's a director and Chairman of the Bank of the Hills, which the suit claims loaned funds to insiders, family, friends, and business associates. Also named is KLBJ/Austin DJ Richard "Cactus" Pryor. Founded by LBJ, the station is still owned by the Johnson family.

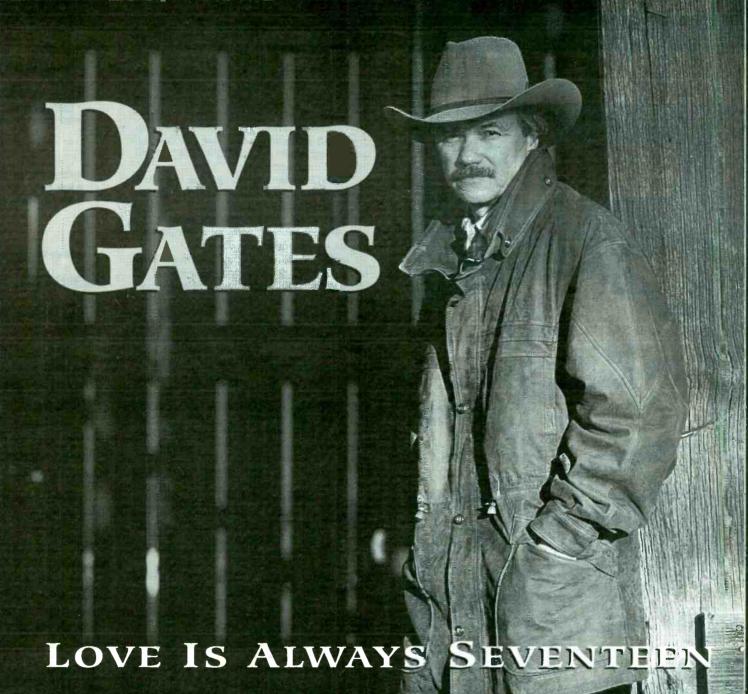

L.A. radio legend the Real Don Steele is slated to receive his own star on the Hollywood Walk of Fame next year.

The Real Don Steele

Apparently some of **Howard Stern**'s private parts are too private. The multi-city morning manster has sued the NY Ethics Commission in an attempt to strike down the state law that requires him to disclose his personal finances in order to run for governor. Unless he wins the court battle, Stern has to file the financial disclosure documents required to put his Libertarian Party line on the ballot by August 30.

From If to Everything I Own to Diary to Goodbye Girl and now Love Is ALWAYS SEVENTEEN, David Gates once again touches our hearts.

Exploring Interactive Database Marketing

Getting up-close & personal with your listeners

What new methods have you explored recently to promote and market your station? If you haven't investigated interactive database marketing — and apparently most CHR stations haven't — you could be overlooking a valuable tool.

According to interactive database consultants/vendors Fairwest and Media Gallery, Country and News/Talk stations are on the leading edge of this form of marketing. They've followed the lead of airlines, credit card companies, and many others who've been converting casual users of their products into loyal customers for years.

But CHR isn't without its interactive database proponents — WXKS (Kiss 108)/Boston, WBBM-FM/ Chicago, KIIS/Los Angeles, WBZZ (B94)/Pittsburgh, and KMEL/San Francisco are among those that have embraced the concept. Kiss 108 and Pyramid VP/Programming Steve Rivers has been using this technology for several years, while KMEL PD Dave Shakes is a relative newcomer to this technique. Both share their experiences.

Dave Shakes

Making Your Database Work

How can you make your venture into interactive

database marketing more productive? Two experts offer

successfully collected names and personal data - addresses, phone numbers, demography - from more than 35,000 core listeners. "With this data," Shakes explains, "we can analyze our listeners and begin to market to their specific interests in a very personal way.

"Database marketing is like throwing a party - but instead of hanging a note in the office lunchroom, we send out personalized invitations telling each person what types of beer and food we'll be serving, listing their particular favorites. It's a much more powerful way of reaching listeners and telling them that you care about them.'

KMEL's system, with 24 incoming lines, is driven by a state-of-theart PC loaded with customized database software running on a highcapacity hard disk drive. After listeners call 415-981-KMEL, morning stars Bill Lee & Reynel guide them through a menu that collects their personal data. At the end of the call, the system generates a "KMEL Loyal Listener" PIN (Personal Identification Number) unique to each person in the database, and the station follows up by sending a card with the listener's PIN.

Micromarketing Plans

KMEL has been using the data it obtains in a variety of ways. The first is a simple contest. When listeners call in to register, Shakes says they're told to listen for their name on the air. "They've got an hour to call in and win that hour's prize,

Reg Johns

Ruth Presslaff

has been slow to pick up on database marketing. "CHR does one huge, outrageous promotion after another. So database marketing may seem too subtle and is wrongly perceived as not being visible enough — especially when you're asking stations to put dollars into relationship marketing vs. the quick bang of a typical CHR promotion."

Once you establish a database, Presslaff suggests you start

- Birthday cards to listeners
- Direct mail campaigns

which may be cash, trips, or tickets to the KMEL Summer Jam. We're giving our loyal listeners the first shot at these tickets. The hit ratio has averaged between 50%-75% winners. It's like a family and friends contest where people hearing friends' names are alerting them to call in."

Initially, KMEL promoted the database by putting registration instructions on the backs of its bumper stickers. "That way," Shakes notes, 'we had a handle on who was behind the wheel. Now we're mentioning the number on the air as well, and we're going to do mailings in the future to clients and their customers. We now have an army of loyal listeners that we can alert to special KMEL events. It's like micromarketing - we can invite hundreds of KMEL partisans in a set of ZIP codes to a grand opening or KMEL appearance. We're also exploring the addition of features that will invite listeners to call the system on a regular basis.'

Pyramid Direct Brings In The Bucks

This is really cutting-edge stuff," gushes Joe Anastasi, Sales Manager for Pyramid Direct, a marketing company set up by Pyramid designed to take maximum advantage of WXKS (Kiss 108)/Boston's interactive database marketing program.

"This integrated target market database program has generated thousands of dollars in non-spot revenue without additional on-air clutter and opened the doorway into accounts like American Express and Pizza Hut. Additionally, we're training listeners to tune in four times daily for specials and discounts. We've got plans to create a Kiss Club newsletter that highlights the Kiss City Line features and offers marketing opportunities for specific vendors and advertisers. We've been at this for several years now, but we're still just scratching the surface."

Shakes also sees database marketing as a way of researching music for KMEL and record labels. "We can reach the prime fans of specific artists and divide the audience into preference sectors. This would be valuable data for labels. We can also use this to personally invite specific fans of an artist to a listening party for that artist.

"We've taken the data and matched it with our known Arbitron hot ZIP codes, and the geographic distribution of callers matches up with KMEL's ethnic diversity, so we know we're on target."

Steve Rivers

Interactive database marketing is "the most efficient way of communicating with the station's core audience," according to Rivers. "Since

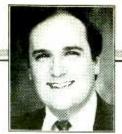

The Kiss Money Machine offers \$10,000 cash on the spot.

they deliver the bulk of the quarterhours, we formed the 'Kiss Club,' which is now over 100,000 cardcarrying members strong. The card is good to win up to \$10,000 on the spot when they swipe it through the 'Kiss Money Machine,' which we take to all our appearances. The Money Machine also spits out customized coupons good for discounts at the advertiser we're visiting and specials at clients mentioned on-air. When they swipe the card through the machine, we can cross-reference by demo and ZIP code who our active listeners are.

Rivers markets the Kiss Club through the "Kiss City Line" (617-395-KISS), which offers lottery results, forecasts, sports updates, a golf line, dining tips, concert listings, soap opera updates, comedy, new music releases, listener feedback service, and contest rules. Four times each day — at 8:20am, 10:20am, 3:20pm, and 7:20pm -Kiss 108 solicits callers to the City Line and announces the name of a Kiss Club member, who then has 20 minutes to call back. Winners get money and qualify for larger prizes, such as a recently awarded trip to

Can something like this work for a medium- or small-market station? Rivers notes, "If you have the ability to promote it, can give the listener a reason to participate, and can have someone on staff to handle the data upkeep on a PC using an off-theshelf program like Paradox, it can be done. It can pay for itself when you get sales involved.

"The idea is to directly market your station to the people already listening. I don't think there s a better way to begin the process than with database marketing.'

Alternative Marketing

TV, sweepstakes, remotes play a big part in station promotion

Besides the music they play, stations in a particular format often have nothing else in common — least of all marketing strategies. This week, I'll compare two heritage ACs in unique geographical areas. I'll also show you a pair of small market outlets that effectively utililize station newsletters.

"We all seem to

feel that our regu-

lar television cam-

paigns have the

most impact in

communicating our message," remarks five-month WRAL/Raleigh PD Todd Fisher. "For its size, Ra-

Todd Fisher leigh is a fairly ex-

pensive television market and we're probably the heaviest TV user [among radio stations]. We definitely buy [network affiliates] and independents. Selected prime and prime access shows are the strongest buys a radio station can make."

66

TV spots don't have to be cute, entertaining, or win any awards. Our spot simply tells the audience what we do.

99

Selling its image is the focal point of WRAL's TV campaign. "[The spot] doesn't have to be cute, entertaining, or win any awards," Fisher explains. "Our spot is bare-boned and simply tells the audience what we do."

Promotion Partner

Having CBS affiliate WRAL-TV literally down the road certainly helps, says Fisher. "We joined forces with them this spring for a two-month-long \$100,000 sweepstakes. Both stations did cash giveaways during the day, and we cross-promoted each other. [WRAL-TV] had a huge May book; we look forward to doing more promotions with them.

"This [relationship] is very similar to the one I had with WKTI/Milwaukee and [co-owned] WTMJ-TV. As it should be, both stations look out for each other. However, I've also been involved in situations where there wasn't a good association with [a sister] television station."

While WRAL presently relies on an outside TV production supplier, Fisher is open to using a local resource. "It would help to have more spontaneous spots. If we want to promote the morning show on location, it would be nice to have [WRAL-TV] cut something for us. We can do our own 'home grown' contesting and have it produced at less cost."

Embracing Listeners

WRAL also emphasizes its oneon-one audience relationship. "There's more community involvement here than any other station I've ever worked at — we're [connected with] everything," boasts Fisher. "WRAL gets out into the community and embraces its listeners.

"We have two fulltime promotion people, including Promotion Director Mary Fogle. The morning show sits in on our weekly promotion meeting. We brainstorm ideas and come up with a blueprint and Mary runs with it."

One complication local stations deal with is the market's regional complexion. "Our monster signal covers Raleigh, Durham, Chapel Hill, and several towns outside the immediate metro," Fisher points out. "Undoubtedly, Raleigh is the metro's dominant city, but it's also important that we get out and touch as many people as we can in our county's 12 municipalities.

RALEIGH TOGETHER — WRAL/ Raleigh teams with TV sister for big-bucks promotion.

"We just staged a 101-hour radiothon to benefit [Duke University's] Children's Hospital. The goal was \$25,000 — and we raised \$125,000."

Cashing In

Like WALK/Long Island (see separate story below), WRAL doesn't utilize much print in its marketing mix. "Raleigh has its own paper, as does Durham. It's very hard to cover all the bases."

Attempting to keep on-air contest prizes timely, Fisher says, "Cash is always a no-brainer. Cars are great if it's something hot, like the new Mustang convertible everybody's talking about.

"We gave away trips from American Airlines' Raleigh hub to Gatwick, because the new route [to England] received lots of coverage. It's important to give away topical prizes. But people will never argue with the default prize — cash."

News You Can Use

onthly or quarterly newsletters can be excellent marketing enhancements. Although they're usually associated with big cities, I've come across two good representations in smaller markets.

In Frederick, MD — the birthplace of Francis Scott Key ("Star-Spangled Banner" writer) — WAFY's four-page "Key Notes" offers a well-balanced combination of the station's latest sales and programming information. Musicrelated trivia, info on upcoming releases, and background on station employees are among the elements included.

"Once we get people to turn in their assignments, the process of putting things together doesn't take too long," comments GM Barbara Marmet, who now has six issues under her belt.

Postage costs — which Marmet estimates at \$650 per quarterly mailing — are the newsletter's biggest expense. "We're the only station in town doing anything like it. It's part of our promotion budget. People look forward to seeing pictures of our staff and listeners," she says.

Client Perks

The newsletter's "Business Briefs" section keeps readers up to date on happenings involving area merchants. "[Mentioned businesses] all advertise with us," Marmet notes. "It's an extra unexpected service perk that seems to please them."

The publication is sent to WAFY's entire Key Listener Club membership, about 3500 strong. "We're trying to tie in our advertisers with our listeners. It's very attractive to advertisers that ["Key Notes"] is sent to all Key Club listeners."

A quick way WAFY conducts music research is by having newsletter readers complete a form asking for year of birth, sex, city of residence, and favorite singers/songs/oldies. "People have to put a stamp on an envelope and mail us their response,"

Marmet explains. "That may be why we're getting more by fax. Since it's been so well-received, we plan to keep doing it."

'Inside' Scoop

Located approximately halfway between San Francisco and Sacramento, KUIC/Vacaville, CA publishes a quarterly six-page newsletter ("Inside 95.3") jammed with photos and station-geared tidbits.

This summer's piece, for instance, introduces readers to KUIC's news trio. The station's complete news schedule is also listed. In addition to the current on-air roster, a mini-profile on midday personality **Tim Metros** — complete with "likes," "dislikes," and "favorite foods" — also appears.

Underscored throughout the newsletter, mailed to approximately 5000 homes, is a list of upcoming community events; a feature on boating safety tips; an ad for the station's "Club Wear" (\$12.95 for T-shirts/\$19.95 for sweatshirts) a subtle listing of special weekend programming, including Dick Clark's "Countdown America"; and a reader questionnaire. The latter attempts to pinpoint specific dayparts of listenership and other stations with which KUIC shares audience.

KUIC scores big points by offering discount coupons ("In\$ider \$aving\$") at area merchants, including Blockbuster Video, a bicycle store, and an amusement park. "We had done the newsletter for about a year before including coupons," notes KUIC President/GM Andy Santamaria. "The advertising provides us with another revenue stream. It's not big, but it helps.

"[The newsletter] keeps listeners from forgetting about us."

WALKing Through The Neighborhood

Fresh from its best-ever 12+ spring finish, WALK/Long Island proves a station can structure a marketing plan to take advantage of some challenging conditions.

Low-powered UHFs provide Long Island (Nassau-Suffolk) with its only local television. "New York City television is pretty inefficient for us, so we tend not to deal with it," notes GM Bill Ed-

Bill Edwards

wards. "We're a community station, and our biggest thrust is being on the street. We hand out lots of goodies and shake lots of hands at every Long Island event. WALK has three vans; on a summer weekend, it's not unusual for us to be at 10 different places."

Sales-Driven Remotes

According to PD-turned-GM Edwards, the station has boosted its number of remotes. "There's at least one per weekend. We enjoy doing them from major street festivals, but there are some cutaway situations from advertisers. Each time we do a cutaway, [the announcer] is responsible for coming up with a 'hook' that makes the break entertaining.

"Many of our remotes are salesdriven; [PD] Gene Michaels is a very sales-oriented programmer. He spends lots of time in announcer meetings [reviewing] ways to make remotes win/win situations for advertisers and listeners. Remotes need to entice listeners to respond, and our salespeople educate clients on ways to accomplish that."

One of WALK's current promotions is "Cruisin' With Susan," a sales-oriented Alaska cruise on which listeners can accompany News Director Susan Murphy.

Print — much like TV — doesn't factor greatly into WALK's promotion plans. "We run a [barter] *Newsday* schedule, but it's nothing major."

Vacation Station

Commenting that WALK is a foreground station, Edwards relies on many on-air contests. "We just gave away a Blazer, and there were a lot of cash-qualifying prizes tied in with it. Our audience is very interactive with us."

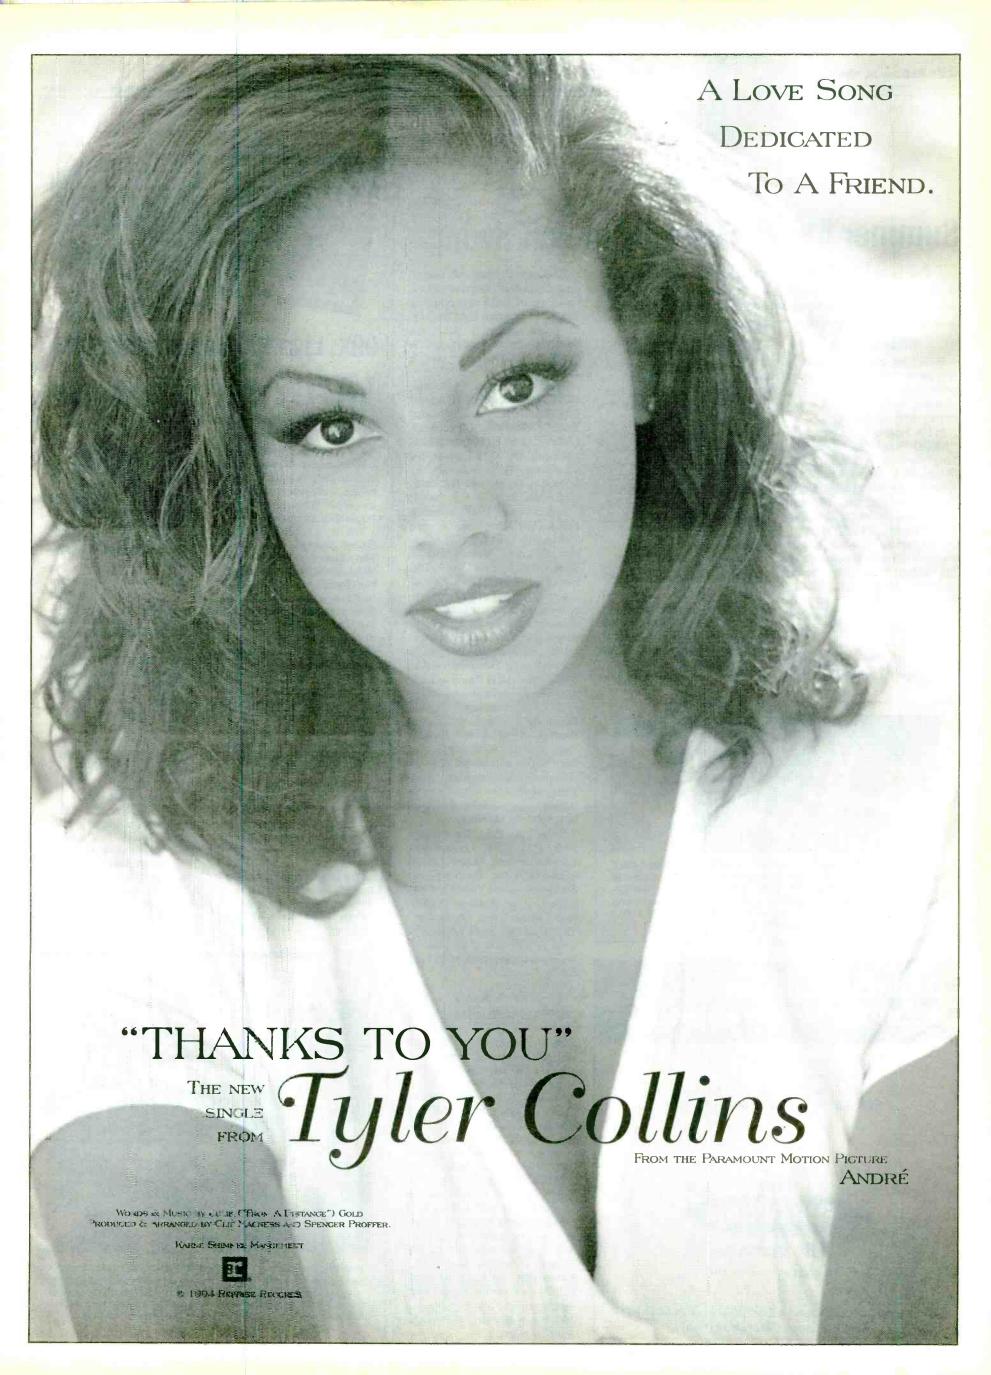

Cash appears to be a Long Island crowd-pleaser. "Our research constantly indicates that," Edwards states. "In addition, our audience loves vacations."

There are few available local bill-boards, and as Edwards points out, WALK's boards tout it as "the vacation station": "We give away quite a few trips throughout the year to Hawaii, Disney World, and exotic destinations."

Another fun piece of WALK's promotion puzzle is mascot "Walkie The Bear," introduced in 1987. Edwards says, "It's held up like an evergreen through the years. We have three 15-foot bears that can go to any WALK event.

"There's also a walkaround version. We put an intern inside it and make sure he doesn't die on hot summer days. We also give away miniature bears during holidays. We're a family station; kids love coming out to see the big Walkie

Summer Music Festivals In Full Swing

One of the biggest summer promotions at Alternative radio is the station-hosted music festival. Over the last few months, several stations have stamped their names on what have become annual benefit or free summer concerts.

Benefits Shows

WHFS/Washington-Baltimore's fifth annual "HFStival" recently was profiled on these pages (R&R 6/10). Here's a rundown of some other charity-driven concerts:

In Los Angeles, the second annual 'KROQ Weenie Roast & Sing-A-Long" showcased 13 bands: Afghan Whigs, Beck, Boingo, Candlebox, Counting Crows, Frente!, Green Day, James, Offspring, Pavement, Pretenders, Rollins Band, and Violent Femmes. The 17.000 attending the daylong event also enjoyed such side activities as bungee jumping, velcro walls, virtual reality games, an online network, and CD-ROM demonstrations. Proceeds from the \$25 tickets will be donated to Heal The Bay and AIDS Project Los Angeles.

WENZ/Cleveland packed in 4400 people for "The End's Second

Annual Anniversary Concert." For \$7 a pop, listeners were treated to Buffalo Tom, the Church, the Clarks, Denzel, Eve's Plum, Frente!, Grant Lee Buffalo, Sister Psychic, and Slackjaw. The net proceeds were divided equally among the Cleveland Food Bank, Project Homeless, Earth Day Coalition, the Center For Prevention Of Domestic Violence, and the AIDS Task Force/Greater Cleveland. Incidentally, 'ENZ will host a second summer concert - "Endfest" - on

Billed as "B.F.D.," KITS/San Francisco's show attracted 20,000 listeners to see the Alley Boys, Beck, Boingo, Frente!, Green Day, James, the Knack, Pretenders, Rollins Band, Toad The Wet Sprocket, and Violent Femmes. Live 105 not only broadcast the entire concert live, it also arranged such activities as a mountain climbing wall, bungee runs, interactive computer games, virtual reality, and a tattoo/piercing booth. Net proceeds from the \$20-\$25 tickets benefited the Wilderness Society, an environmental organization dedicated to preserving wildlife and wilderness.

Benefiting Cystic Fibrosis, KDGE/Dallas's "Second Annual Edge 10th Birthday Bash" featured Danielle Brisebois, Channel 69, Clutch, Course Of Empire, Material Issue, MC 900 FT. Jesus, and the Nixons. Tying in the station's frequency, tickets sold for \$9.45; 4000 attended.

Approximately 16,000 celebrated KTCL (The Adventure)/Denver's 25th birthday at its first "Big Adventure Concert," where Michael Been, Candlebox, the Church, Dig, Eve's Plum, Frente!, Paw, Pretenders, and Violent Femmes performed on the main stage (a second stage showcased 10 local bands). Tickets ranged from \$9.33 (station frequencv) for general admission to \$12 for reserved seats. Donations went to the Colorado AIDS Project and Safe Summer, which helps area youth.

Beck, Material Issue, Possum Dixon, Rollins Band, and Violent Femmes played at the "KRZQ Ball," held for 4000 people. The Reno station will donate proceeds from the \$17.50 ticket price and \$14 T-shirt sales to the Care Chest Of Nevada, which distributes medical equipment for the needy.

Better Than Ezra, Dig, Deadeye Dick, Eve's Plum, Lemonheads, Lucy's Fur Coat, Material Issue, Milla, Offspring, Possum Dixon, Smithereens, and Violent Femmes performed for 18,000 at WZRH/ New Orleans's first "Zephyrfest." Tickets sold for \$10.61 (station frequency); a portion of the proceeds benefited the Pediatric AIDS foun-

Free Shows

CIMX/Detroit arranged a free show - the "89X Third Birthday Bash" - through a local promoter, who was reimbursed through concession sales. The station invited listeners to a city park to watch performances by the Afghan Whigs, Beck, the Odds, Polvo, Scrawl, Sponge, Superchunk, and Truman's Water. Since attendance was restricted to 12,000, 89X turned away at least 2000 people.

WWDX/Lansing, MI's asked listeners to bring canned goods for free admittance to its first annual "Edge Birthday Bash." More than 900 lbs. were collected for the Lansing Area Foodbank. On the bill: Danielle Brisebois, Eve's Plum. Greenberry Woods, Lotion, Material Issue, Overwhelming Colorfast, and Syn. The capacity was 800, but more than 1000 people lined up to get in.

99X, Live 105 Benefit With CDs

NNX (99X)/Atlanta and KITS (Live 105)/San Francisco raise awareness and funds for charity by marketing station CDs.

Live X For Humanity

Most of the cuts on 99X's "Live X For Humanity" CD were culled from the station's popular "Live X" feature — acoustic concerts held for only 30 listeners at Atlanta's Purple Dragon Studios.

The disc's 11 songs: Bodeans' "Idaho." Cracker's "Low." Crash Test Dummies' "MMM MMM MMM MMM" and "Superman," Evan Dando's "It's A Shame About Ray," Indigo Girls' "Down By The River," Jayhawks' "Waiting For The Sun," Lenny Kravitz's "Believe," Radiohead's "Creep," Adam Schmitt's "Felt So Good," and Matthew Sweet's "Divine Intervention."

Net proceeds from the \$9.99 CD benefit Habitant For Humanity In Atlanta, a non-profit organization that builds new homes for the working poor with every \$40,000 donated. All homeowner payments are reinvested into additional construction.

99X Marketing Director Amy Henry notes, "This organization isn't charity. New homeowners work on building their homes and pay a monthly mortgage. It gives people a chance to help them-

The cover art was donated by Georgia folk artist Rev. Howard Finster, who also designed the Talking Heads' "Little Creatures'

SF. Local Bands

To nurture Bay Area talent and raise funds for charity, Live 105 has released a CD entitled "SF. Local Bands." After sifting through more than 400 tapes, Live 105 based its choices on originality, production, quality, and compatibility with the station's sound.

In all, 17 bands - ranging from ska to guitar-rock to industrial acts - made the cut: Krinkles, Ted 302. Those Dam Accordians!, Otto, the Nuns, Square Roots, the Alley Boys, Handsome Poets, Honeypot, Family Pets, Divine Art, the S.L.A., Blister, Hoodlum Empire, D'Cuckoo, Friendly Ghosts, and Synaptic Montage. Incidentally, Live 105 is hosting concerts spotlighting the local scene throughout the summer.

The CD is available at most Bay Area record stores for \$5.99; net proceeds will go to the Wilderness Society. "This society was [chosen] by our corporate office, because they're flexible and understand how we work," notes KITS Director/Marketing & Promotions Gabrielle Medecki, "They're a very easy partnership. A lot of different environmental organizations get into political things and have issues with some of our sponsors."

Backstage at KROQ/L.A.'s "Second Annual Weenie Roast & Sing-A-Long"

are (l-r) middayer Richard Blade, Afghan Whigs Rick McCollum and Steve Earl, specialty show host Rodney Bingenheimer, tour manager

David Steed, Afghan Whigs John Curley and Greg Dulli, morning

news anchor Doc, specialty show host Wayne Jobsen, Elektra's John Kohl, and KROQ APD Gene Sandbloom.

Trip includes:

- Latest Pan-European hits.
- Interviews with today's top artists.

How To Attract Advertisers To A New Station

Two sales execs cite ways to attract buyers during a station's infancy

Anytime station ownership considers a format change, one key challenge is how to survive financially in the first months prior to ratings results. Two sales executives explain how their respective sales departments handled a drastic format change with their clients, and how they attracted new buyers.

GAF's WAXQ/New York changed from Classical to Rock on December 18, 1993. LSM Tammy Kinzer says, "The format change was set for midnight, so the whole day leading up to it was spent primarily dealing with advertisers determining what each wanted to do with the rest of their schedules. At 10am we sent a marketwide fax announcing the change. We developed a sign on presentation that explained what the [new] format was about and what we learned from the research. We also defined the station, positioned it in the marketplace, showed how there was a hole for it, and projected our ratings for the winter and spring books, and backed it up with rating-point guarantees in certain demos.'

Rating-Point Guarantees

"Basically the rating point guarantee allowed us to give the advertisers the confidence and protection to make an early decision to buy the station," she explains. "By going from one end of the demo spectrum to the other, we knew we'd have to start all over with new clients.

'The rating-point guarantees were primarily in our target demos of

adults 18-34 and 18-49, and men 18-34, 25-49, and 18-49. We projected the AQH ratings and shares and backed it up with this guarantee: If we fell short of our ratings projections we'd make up the points with a bonus weight. It was a norisk proposition - if we underdelivered we'd make it good, if we overdelivered we wouldn't charge

"The reaction was excellent. It gave the buyers something to go on instead of just guessing how we'd do. Being in New York we deal with a lot of agencies and that was the

reason for the rating-point guarantee.

Inside The Buyer Mind

Knowing how buyers operate is important. "You have to understand how a media buyer works at an agency," Kinzer emphasizes. "They deal with cost per point, which determines whether or not they're doing a good job for their client. We had to give them something to work with, otherwise they'd just wait until the book came out. With the rating-point guarantee, they felt like we were in it with them and that they were in a no-lose situation. It was easier for them to justify putting a new station on a buy that didn't have a book, so it was a very low-risk decision

"At the time of the format change buyers were making their decisions for 1994 expenditures. We didn't want to wait for the first book to come out because you have to make a choice: Do you wait for the first book knowing that you're going to lose a lot of buys? or Do you do something that'll help stimulate a decision to buy your station and lower the risk factor?

"Now after two books the buyers and clients are real happy with us. Overall the acceptance in the marketplace has been phenomenal. We helped the buyers understand the reasoning behind the format change. It wasn't just a gut feeling or that we just wanted to change the format. The credibility and good reputation of the people involved with the station also had a lot to do with the acceptance of the buyers'

Morning Magic

Rhoades

AC to Rock. "When we started WJRR last April 15, [1993] we were in a unique situation in which our morning show, Ron & Ron, had previously been number one in this market. So we knew we'd get immediate response from the Orlando rock 'n' roll listeners for bringing them back. But even though they were a known entity, many of the buyers still wanted to wait and see what would happen in the book.

"So we went in with good, hard selling. We didn't guarantee points. We sold the product and why we were doing it. We talked about the research and where our niche was in the market. Frankly, it was very logical. There was a glaring niche for the type of rock we're doing. We weren't as hard as the rock competitor and we weren't as soft as the soft rock station. We were right in the middle and buyers could understand that "

It worked. "They bought us at a lower rate than what we get today obviously, but we got them on the station. Then as the trends and books came out we raised the rates

Our morning show was the catalyst to spring the station to great success in a very short period of time. We didn't keep many previous clients on WJRR's 101.1 frequency but were able to move some of them to our soft AC station, Magic 107.7.

Holder and Krista.

"Some clients stayed on the air with us through our change, but after a couple of months they dropped off. However, at the same time a new clientele was coming to us.

Also, we hired salespeople with rock and roll contacts and background and the new relationships developed quickly. We've more than doubled our revenue in the last 12 months, giving us the highest revenue the frequency has ever had."

Buy On The Come

"Radio is very hot again," says Rhoades. "Year-to-date our market growth rate is up 13.6%. When you have that kind of growth - rock and roll is fun, exciting, and very visible - it's easy to create a lot of enthusiasm and excitement. A lot of buyers - especially those with established relationships -- are going to buy on the come and give it a try. As your trends continue to grow they'll stay.

"Our biggest problem was after six months the rates had doubled and tripled. It's very hard to raise your rates with the same clients that quickly, but it's a supply-anddemand business. You're not going to walk away from solid rates just because you gave a lower rate when you were only a month old. You just have to go back and resell.

"Although the agencies didn't necessarily want to pay the higher rate, the station was so hot and pulling in good results that clients told the agencies to just pay the higher rate. The clients felt that they had to be on the station so they made the agencies buy us."

Rhoades cites two factors for the stations's early success. "Number one: Our morning show was already established and had proven to the clients they could bring in number one ratings. Number two: We had a seasoned group of salespeople with established client relationships.

"What's unique about our duopoly is our soft AC station is number one as well. According to Arbitron, in the winter book we were the only duopoly in the country with a station that had number one men 25-54 total week and number one women 25-54 total week. Anything we do on WJRR doesn't affect Magic because it's a whole different ballgame. I like it when duopoly works that way because we're not robbing Peter to pay Paul."

Nest Marketing: The Latest Database Weapon

Trademarked tool converts at-work listeners into station advocates

TV, billboards, bus sides, and bumper stickers are traditional marketing tools that get listeners to try your station. But now there's a new implement in the toolbox, one designed to build listener loyalty in a way never before attempted.

Michael Albi

"Nest Marketing" - a term trademarked by Critical Mass Media — targets listeners where they gather and turns them and their peers into station advocates. According to CMM Exec. VP/Market-

ing Michael Albl, Nest Marketing allows a station/company to tailor its marketing to the individuals who'll offer the greatest rewards.

'Maximedia' Faults

"Stations must stop spending a lot of money on maximedia that have little impact and start talking to people who will hang around the station longer than anybody," says Albl, who contends Nest Marketing is on the verge of replacing "branding" as

CRITICAL MASS MEDIA

a method of creating product loyalty. "Branding is fading because there's very little loyalty left for anything, particularly radio stations. As the number of choices increase, listeners regard radio more as a utility or commodity - resulting in disbelief of brand imaging. Like any other product, a radio station must go beyond branding itself as 'Oldies' or Today's Hot Country.' It must endear itself to listeners.

Albl says these endearment attempts often fail because most marketing is done in time of need.

Stations must stop spending a lot of money on maximedia that have little impact and start talking to people who will hang around the station longer than anybody.

"Managers then grab onto the latest hot marketing item for a quick fix. They usually run to TV — it's the easiest way to achieve universal awareness and great as a mass-appeal, top-of-mind cume builder.

"Stay away from billboards and bus sides - the recall is low and effectiveness is difficult to measure. Consumers are bombarded by 20,000 messages a day, and only a few cut through the clutter. The average person must see a message eight times before achieving the 'Triple A': awareness, acceptance, and

"Broadcasters also throw a lot of money at people with contests. In an age when people can buy a \$1 lottery ticket that offers a chance to win millions, asking them to sit around and listen for hours for a chance to win \$100 just doesn't work anymore as a tool to build cume or TSL."

Group Efforts

So why Nest Marketing? Albl responds, "It recognizes that individuals form collective groups that [unite] based on interests, attitudes, and opinions. As a group, they tend to emulate or mirror one another and adopt similar behavior traits to fit into the group. They have a strong sense of loyalty to that group, which can be as small as a family unit or as large as a social club or compa-

Albl says nests can be transient (short-term gatherings with no set location) or rooted (those with a foundation such as an office); rooted nests are much easier to track than either transient nests or individuals. 'It's easier to market to 50 people at one location than 50 people at 50 different locations. You spend less and maximize every available limited marketing dollar.

"We market to offices and find people we call 'gatekeepers' - those who will advocate your station to others. We also seek referrals, asking them to recommend the station to friends. Gatekeepers act as entry

every available limited marketing dollar.

Building The Perfect Nest

ritical Mass Media Exec. VP/Marketing Michael AlbI offers a step-by-step guide to Nest Marketing:

- Secure business names, addresses, and phone and fax numbers.
- Cultivate the nest through interactivity to avoid a one-way relationship.
- Implement and maintain an ongoing impact, reach, and frequency program with the targeted at-work nests.
- Use gatekeepers to advocate the station.
- Infiltrate the nest through additional gatekeepers.
- Recontact the nests in order to cultivate further relationships.
- Expand the number of nests continually.

decide which radio station to turn on. It's important to reach them at these times, because once they become engrossed in their work, radio becomes secondary. At-work telemarketing is very effective in reaching these folks and affecting their decision?

Albl says marketing to the database is very efficient. "It allows you to approach gatekeepers as individuals. The most cost-effective marketing is done to an individual who wants or needs a product and is ready or able to buy it. Being able to isolate that individual enables you to maximize those limited marketing dollars'

'What's in it for me?" Says Albl, "How - and how often - does a station answer that question? It rarely answers in listener terms. Managers and programmers have a bad habit of not doing perceptual research to find out what listeners want. Instead, they go by what they read in the trades or do what their mentors taught them.

"If we can endear the station to listeners and make them dependent on it for entertainment, information, and other things of value, chances are they'll keep coming back. That's how we create co-dependency. We're their friends all the time, not just in times of need. We don't just stop by when we need something."

And when it comes to "stopping

by," friends get a much warmer welcome than strangers. "When personalities visit a nest - whether to deliver lunch or say hello - they ask for gatekeepers by name and personally thank them for being part of the station's network. Asking for them by name creates a big impression on them and their co-workers." Gatekeepers also are rewarded with invitations to special station events by mail or fax — sent to the office, of

points into that office. One listener becomes two, then four, and so on. We go back to them again and again, in a variety of ways, and sell the station to them. It's a pyramid, like Amway — they sell it to other folks."

The lasting effects of that loyalty is critical, says Albl. "Imagine a competing station trying to come into an office where we've recruited a number of gatekeepers. It's very difficult to get them to switch over."

Work Vs. Drive Times

CMM targets at-work listeners for ratings reasons. Albl explains, "The four prime hours of daily drive time two AM and two PM - yield 80 available quarter hours. The hours from 8am-4pm offer 160 available quarter hours. No matter what you do in morning or afternoon drive, if you don't win those 160, you can't make it up with the 80 from the drives.'

Nest Marketing targets people at specific times of day, aiming to maximize listening during those daytime quarter-hour availabilities. Notes Albl, "People treat the first 20 minutes in the morning and just after lpm - right after lunch - as 'personal time.' They're preparing for the workday or planning the remainder of the afternoon. We try to reach them then because they're about to

Albl adds that marketing to people at work is also highly efficient because they're "captured" there for more than 160 quarter hours a week. Because you know where and when they're at work - as opposed to guessing when they might be home — it's easier to reach them. In addition, he says there's a 25% turnover in residences, making it difficult to track individuals in their homes. Once you've made numerous contacts within a workplace, a 25% yearly database turnover won't drastically damage your efforts there usually are a number of folks remaining to carry the message.

Create, Cultivate, Superserve

Albl outlines Nest Marketing's strategies:

1. To create and form a long-term integrated direct response marketing program designed to influence listener behavior at point of decision (when they get to work) and time of tune-in (when they decide what they're going to listen to).

2. To cultivate listeners in order to develop a mutually beneficial, codependent relationship.

3. To superserve the core, expand cume, and convert present cume to core and ratings to revenue.

These strategies are carried out to answer the listener's usual question:

If we can endear the station to listeners and make them dependent on it for entertainment, information, and other things of value,

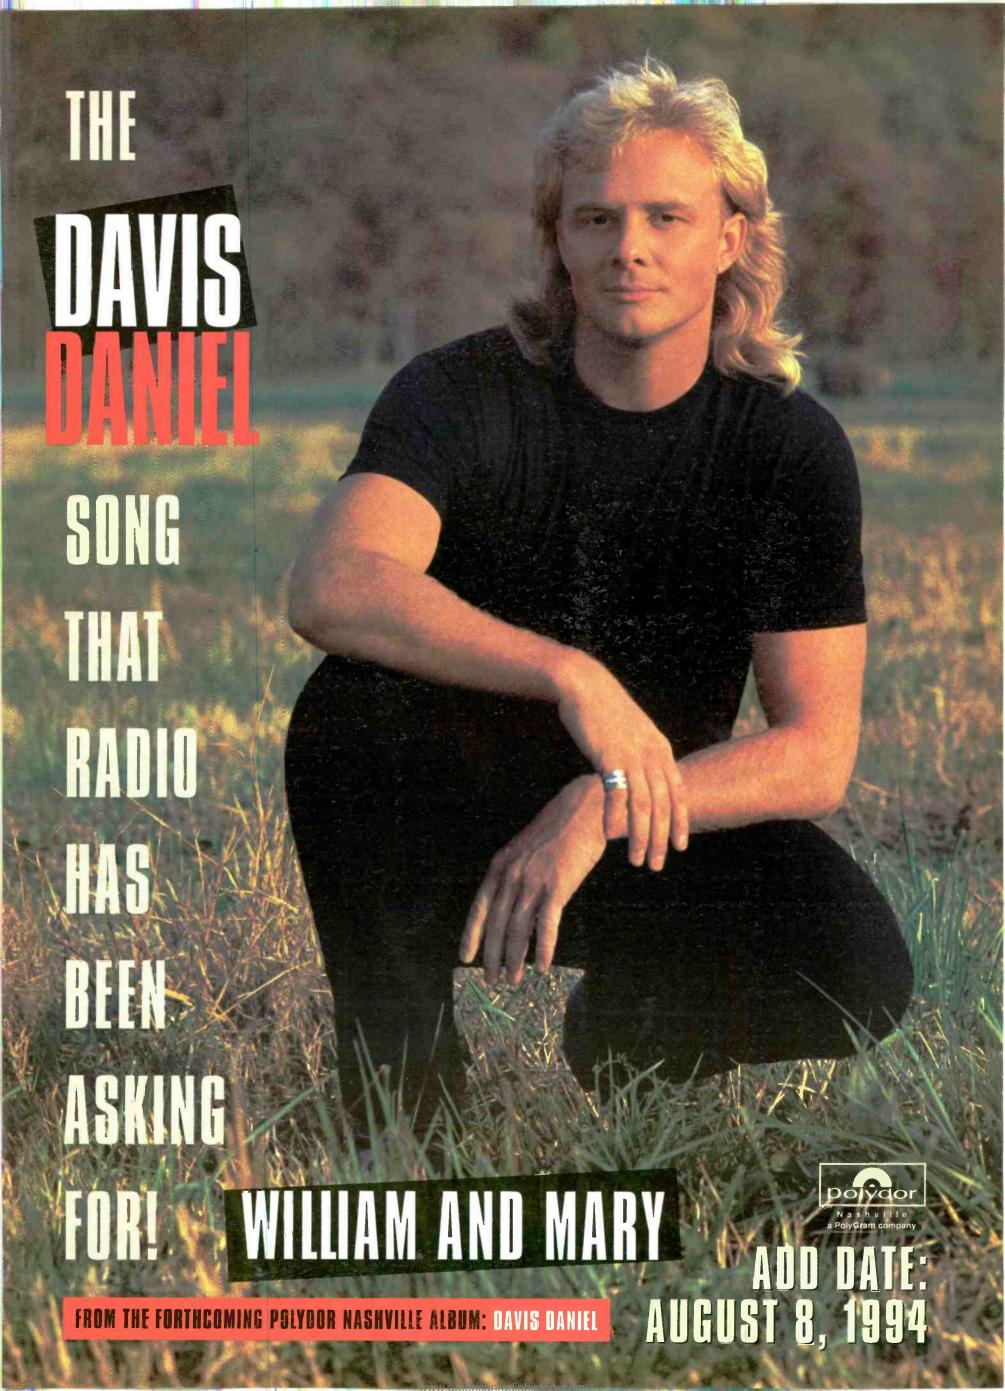

chances are they'll

keep coming back.

Nest Marketing can also play a key role for a station's sales department. Albl suggests sales people use the database when targeting an advertiser to see if any key contacts are already in place within the business. "If a nest is active with listeners, the potential advertiser will be more inclined to accept the sales message especially if the station has done something nice for the people in the business. Each potential advertiser not only is a possible revenue source, but also a potential diarykeeper.

Vegas gambles on fans for festival's success

With the advent of a new country music fan festival and a huge country-themed hotel and casino, Las Vegas may become a popular new hotspot for country fans around the globe.

In the wake of country music's growing popularity, Fan Fair — the original country fan "lovefest" — has given birth to several offspring around the country. The first Fan Fest (the Los Angeles version of Nashville's Fan Fair) kicked off this April, and plans for the Las Vegas Country Music Fan Festival are now under way.

The three-day event, scheduled during the National Finals Rodeo week in early December, will be hosted by the new MGM Grand Hotel, casino, and theme park. Event promoters Steve Kirk and Sonny Porter decided to put the festival together after watching the city's recent tourism boom. "There are so many exciting things going on there right now," explains Kirk. "The town is booming with new resorts and spectacular hotels; it's just a natural place for special events. And [during] those 10 days when the National Finals Rodeo is there, the streets are packed with cowboys and country fans.'

Kirk, who served as consultant on the two Fan Jam events in Dallas, believes one of the big differences about this festival is its venue. Concerts will be held at the MGM Grand Gardens arena, which seats 15,000 and will accommodate 10 acts a day. The Grand Gardens also offers four huge TV screens around the arena for enhanced viewing, and a dance floor will be set up for those feeling inclined to two-step during performances.

Charity To Benefit

Concourses in the hotel and areas in the theme park will hold booths for autograph signings and meetand-greets, and a small amphitheatre will stage label showcases off and on during the event. Cost for a one-day festival ticket is \$20, and a three-day pass is available for \$50. Some proceeds from the event will go toward the Children's Miracle Network and the University Medical Center in Las Vegas.

Kirk reports that 20 radio stations in the West Coast area already have signed on to promote the event, along with the local NBC-TV affiliate. And although he's still hammering out contract details with talent, he says plenty of mainstream country artists, as well as other specialty/entertainment acts, are set to participate.

According to Kirk, his job during these months before the event includes the task of distinguishing this festival from the others. But he believes there is enough room (and fans) for all of them. "I wouldn't say that this is competition for the other

ones — what's happening in Vegas is happening anyway. Our audience is already in town. They're totally available to us . . . we're not trying to draw them anywhere. And it'll be hard for them to miss us, because there's such a high curiosity factor about the hotel anyway, and it's located in such a high-traffic area of the city."

The project is yet another example of the city's commitment to broadening its family entertainment opportunities.

FM 101.9: Building An Audience

New L.A. station set to begin extensive marketing

It's been about a month since Golden West flipped KLIT/Los Angeles from AC to Progressive under the moniker "FM 101.9." Marketing Director Robert Lyles details how the station is getting the word out.

Lyles took advantage of free publicity for phase one of the marketing. "It's important to get as much publicity as possible — it's the best form of advertising, since you don't have to pay for it. I got a

press release out explaining we're L.A.'s first Adult Album Alternative station. We're an exclusive format in this market, featuring a lot of music that hasn't been heard here before. "I called the TV stations, too. The [KTLA-TV] Channel 5 morning news covered us the day we signed on. Our [PD] Mike Morrison and [air personality] Nicole Sandler went over and talked about the new format and brought over CDs and T-shirts for the staff. They even brought Peter Himmelman — one of the artists heard on 101.9 — who brought his guitar and did a song. It was great exposure. Channel 5 and Channel 13 [KCOP] were at our studios when we signed on, and they did stories during their evening news."

Extensive Ad Campaign

Phase two: FM 101.9's extensive advertising campaign begins in August. "We wanted to make sure everything was working before we invited everybody to listen," says Lyles. "We'll be doing transit ads, phone kiosks, billboards, TV, and print advertising. We're trying to do as much of a blitz as possible. We want to stamp FM 101.9 on everybody's forehead with this campaign. We need all these elements, because there are 80-some stations here.

"We need to make ourselves known and to be as ubiquitous as possible. The best way to get the word out is by doing a campaign with continuity. We wanted an attitude that reflects the station's image. We didn't want to just list artists—you need to catch people's attention. We'll have two, maybe three different messages, like 'Get Off

out.

The Beaten Track' and 'Music You

Didn't Know You Didn't Know." FM 101.9 is in the process of swapping transit and kiosk ads left over from the previous format's contracts, which run through next year. "We'll have more than 600 transit ads with a 50% showing and more than 100 phone kiosks along the beaches," says Lyles. "With transit advertising, you have to remember your message is moving, so you can only use a few words. You have about four or five seconds to catch their attention and say what it is, what it means, and where it is.

"The colors are important, too — they need to catch your attention right away. We chose a two-color campaign — bright yellow and black, which are great colors for outdoor. The yellow stands out and really catches the eye.

"We'll be running ads on network, independent, and cable TV for about four to six weeks. I'm also working on a print campaign with the *L.A. Weekly*. It's a great vehicle for us, because it targets our demographic."

Although KLIT is in the process of obtaining new call letters, Lyles says the marketing will focus on the station's dial position. "The dial position is one of the most important things. The call letters will be secondary — they won't be on any advertising. **Arbitron** diaries show dial positions more than they do call letters."

Building Core Database

Lyles spoke with several successful Progressive stations to learn

about the format's audience. "I found out how they do promotions, what works and what doesn't. Every market is different, but the bottom line is understanding who you're targeting. We're trying to reach adults 25-49. Typical listeners are proactive, aware, young-thinking, enjoy life, consider themselves intelligent, and enjoy good music.

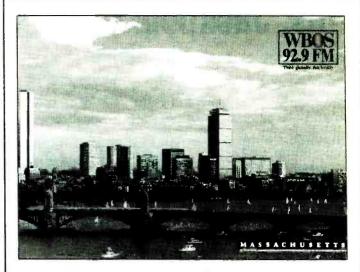

"We're getting a lot of faxes and phone calls saying, 'We love your station, please don't change.' Many say, 'What can I do to make sure you guys stick around?' There's a grassroots thing going on with our listeners. This is the start of my database—these are the Pl core listeners. We plan to send them product as a thank-you."

We won't do cash giveaways or things you hear on other stations. The idea is to focus on the listener lifestyle events.

FM 101.9 has a new van and plans to be visible at least three weekends per month. "We'll be doing field promotions — kind of like in politics, where you go out in the community and campaign — to let everybody know all about our station," says Lyles. "We'll be out at a lot of events, like the Pasadena Swap Meet, L.A. County Fair, Orange County Fair, the beaches, etc., to help build the cume.

"We won't do cash giveaways or things you hear on other stations. I don't think a lot of people get involv-

"Everything we do promotionally has some sort of environmental theme," notes Creative Services Director **Adam Klein**. "We do a lot of things stations traditionally don't do. When he took over two years ago, PD **Jim Herron** recognized the environment is the issue of the '90s, and that our listeners would embrace this issue and want to learn. We work on several projects with a 'green' business consultant in Boston called Eco-Logical Solutions."

Sponsoring Environmental Map

WBOS sponsored "Boston Naturally" — the city's first-ever "eco-map." Klein explains, "Eco-Logical Solutions started looking last fall for like-minded businesses that care about the environment. This project took about eight or nine months to come to fruition. Conceptually, we helped design the map. We wanted it to include parks, bike paths, museums, water spaces, etc. The group of businesses then hired a mapmaker, and we helped fund it. Having partners involved certainly made it more feasible financially.

"The maps are being distributed at no charge. It's not about making money. These businesses aren't buying [station] advertising schedules. They're just businesses that came together to fund this map."

WBOS is distributing 80,000 of the 200,000 maps. "We paid an additional fee to cover the expenses of getting our logo on the cover," explains Klein. "I felt we needed the extra logo on the front if it were to serve as a premium item and a service to our listeners. We're promoting the map on-air and giving it away at our concerts and events. It serves as an imaging piece, and it's educational and useful."

Exposing The Music

On a regular basis, FM 101.9 will host live in-studio acoustic performances. "We have a music room set up for bands to come in and play," explains Lyles. "We're thinking about doing some intimate things, like inviting about a dozen listeners to see an artist perform."

The station's first promotion was an exclusive in-store at Tower Records featuring DGC act the Wild Colonials. "We invited 300 listeners and did a live broadcast. We gave away tickets on-air and had point-of-purchase displays with our logo at four Tower locations, where people could win tickets to this private concert. All winners were notified by telephone.

"We plan to do a lot of club tieins. My phone hasn't stopped ringing with clubs wanting to do promotions. The labels are thrilled too, because it gives them exposure they hadn't been getting. We're playing records listeners haven't heard, and they're going to the store and buying them"

FLIGHT ROCK — FM 101.9 and A&M Records teamed up to do aerial advertising over the beaches on July 4 weekend. The station received numerous faxes and calls from people saying they'd discovered FM 101.9 because of the Sheryl Crow banner.

KIFM heightens awareness and ratings with anniversary festival

Measured by any standard, KIFM/San Diego serves as a model of NAC success. President/GM Bruce Walton and PD Bob O'Connor outline the marketing strategy that has paid off in Top 5 adults 25-54 ratings for the past 12 books.

"We personify 'yuppie radio,' and we wear that mantle proudly," says Walton. "For KIFM, NAC is the format that wouldn't die. KIFM has been NAC, in some form, since March 1982. We began by programming one hour of 'Lites Out Jazz' a week, expanding to overnight hours, then all day Sunday, and finally going fulltime NAC in mid-1986."

'We've Got A Hit!'

"Art Good, the persona behind that first 'Lites Out' programming, noted the show's first anniversary on the air and asked his listeners to meet him at Halligan's 4 Fish to celebrate. So he wouldn't feel lonely, the sales and programming departments decided to attend this little bash. To our astonishment, a crowd of several hundred was spilling out onto the boardwalk. We said, 'Oh my God, we've got a hit here!' "

Walton believes KIFM's audience of young, upscale professionals are "time-poor" and so busy with their careers that it's difficult to engage their attention. The party's surprise success made him recognize the role event marketing could play to complement programming.

"One of the reasons for our early success was our cooperative relationship with the promoters at Humphrey's, a beautiful outdoor venue on the water at Mission Bay, with

whom we co-sponsored events. We brought then-unknown artists into an intimate setting with the listeners. Over the years, KIFM's music events have evolved from bars and restaurants to unfinished skyscrapers, complete with concrete floors and exposed ducting, to amusement parks — venues of ever-increasing size to accommodate our growing crowds."

Inspired by their burgeoning success, Walton was eager to expand the event into an annual affair and use it as a sales tool. "Sixty percent of the reason we continue our annual signature marketing event — the 'KIFM Anniversary Festival' — is to expose existing and potential listeners to the music, and 40% of the reason is to expose the clients to the listeners."

VP/Programming Bob O'Connor, who joined KIFM in 1989, gained familiarity with high-exposure events at his last job, programming WNUA/Chicago. His expertise complemented Walton's marketing ideas for the anniversary event. 'At KIFM, we wanted to present the NAC version of WXKS-FM/Boston's hugely successful event to support the Genesis Project, which always drew more than 30,000 people and was a real Who's Who of CHR superstars," he recalls. "Not being party planners, we knew we needed a professional promotion director to mount events of this scale; Leslie O'Neal was the best person to accomplish this goal."

Cross-Marketing Counts

"Our national rep, CBS Radio Representatives, does a great job of helping us showcase the Anniversary Festival with our clients. 700 of whom attended this year," says Walton. "The sales team in general, both local and national, generates non-spot revenue through sponsorships — this year, Toyota underwrote the event. They were eager to market their product to our affluent audience, and we felt confident we could deliver. For the Saturday night event, 7000 free tickets were distributed through eight area dealerships, creating heavy foot traffic. KIFM's banners were up in Toyota's showrooms, and their cars and signage were displayed at our event.

'Larger Than Life'

"The 1990 event was the result of pooling our combined experience to create a party that expanded the event to the next level," O'Connor explains. "Using our clout, we asked GRP for an all-star show and got Patti Austin, Dave Grusin, and Lee Ritenour. The new La Jolla Hyatt Regency provided an ideal venue: an intimate and sexy setting for the multistage event we envisioned.

"We showcased up-and-coming local acts on peripheral stages and big stars on the main stage. The par-

ty presented countless media opportunities, all of which made us appear larger than life. Its success inspired us to approve a larger budget for 1991, when we presented **Kenny G.**"

Walton continues, "In 1992, we decided to expand to two days, one at the Convention Center and the

over hopes were realized when the Simply Red fans returned for the second day.

'We felt self-imposed pressure to top that success by adding more days and even bigger artists in 1993. Our resolve was tested when we presented the third day's event, a fundraising cocktail party at \$100 a ticket to benefit the Magic Johnson Foundation. Attendees heard a great lineup, including Yanni, Bobby Caldwell, Richard Elliot, and Jan Hammer, all of whom donated their time. The \$25,000 we raised was eventually allocated to three local AIDS organizations. The other two days were an incredible success, too, with 15,000 attending.

"Even though we had a tremendous talent lineup in 1994, no five-star headliner was available. To keep the event sexy, we moved one night's activities to the Gaslamp District—a very hip, historic part of town that feels like Bourbon Street. Working with city officials, we blocked off several streets and created our main stage.

stage.

"What made the plan so special is that Bob and Leslie crafted a plan to involve 20 restaurants and clubs in the immediate area. With artists like Willie & Lobo or Dotsero in each venue, we worked consciously to keep the music and activity in such a constant flow that people felt they never missed a thing in a seven-block radius.

"As part of our ever-evolving modus operandi, TV plays an important role in the picture. Our TV partnerships work very effectively for both parties. When we bring them in on the anniversary event, their talking heads appear on our stage, they run our promos, and vice-versa.

"The work involved in producing this event is mind-boggling," he admits. "Our staff doubles in size for three weeks leading up to it. We use more than 450 hotel rooms for artists and managers. Coordinating all the details is horrific, a monumental task. It is quite simply so stressful and exhausting that every year we agree we'll never, ever do it again. But somehow we forget the pain, remembering the fun and the incredible sense of accomplishment. Then we agree we've got to go on with it."

Promotions & Marketing

How they help you and the listeners, and where the field is going

Just because you have a good product doesn't mean anyone knows about it. How do you promote and market your station? This week, two women who head stations' promotion and marketing efforts discuss how they heighten awareness while helping their communities.

Integrated Solutions

Peggy Miles, an industry vet of 17 years, has spent the last nine months at WKYS/Washington, where she's Director/Creative Services. "Promotion and marketing has to be a one-to-one communication with a listener," she says. "What you're looking for is to be able to touch them emotionally and make them feel good about your product. You're also looking to influence them to buy some of your advertisers' products.

"I'm a firm believer in the 'integrated marketing solution,' a concept developed by Don Schultz of Northwestern University. It requires a comprehensive view of everything you do in promotion and marketing, from how the sales department communicates with clients to how you communicate with listeners - onair, on the streets, at events, through direct mail and database marketing. and even how the receptionist answers the phone.'

Miles explains how WKYS is using database marketing: "We just completed mailing a piece and promoting it on the air. It's for the 'Ultimate Family Reunion' — a contest to win a family reunion for a hundred of your friends and relatives. with transportation and meals included.

We did it in conjunction with a supermarket chain, and the benefit of that, in terms of the database, is that we're getting real information on our consumers: We can actually look at their buying habits. That's the next step for database marketing. in the long term. What that means is that we may no longer need some

WKYS tied in with Safeway and boosted its database with an "Ultimate Family Reunion" contest.

of our current forms of research, because we'll have records of actual purchasing behavior.

'This station also uses the 'KYS Connection,' an interactive phone line that receives more than 50,000 calls a month. It offers direct CD sales through the 'Nobody Beats The Wiz Line,' as well as various contesting features. We also have a listener survey on the line that we use to keep track of listening and consumption habits, as well as some other information our clients might need. I could give you a list [of KYS Connection features] that would go off into space.'

Future Directions

"If you look at where the industry is headed and how the technology is changing, you'll see a greater emphasis on marketing, especially innovative marketing," asserts Miles. "Radio will be looking for qualified professionals from other industries, like direct marketing or advertising, and especially for people who might have been marketing or brand managers. There's nothing wrong with the current marketing and promotion people, but some of them have not been given the same status as other department heads in a radio station.

'Luckily, some of the most innovative stations in the country have very creative people working in this area. A good promotions/marketing person should demonstrate perseverance, dedication, creativity, imagination, and an ability to put concepts together. He should combine these with in-depth knowledge about sales and a well-rounded knowledge of the industry."

Miles concluded with a few words about WKYS's volunteer promotions staff. "We have about 25-40 local people whom we interviewed and checked references on before we allowed them into our group. They come to classes to learn about promotion and marketing, and then they help us implement our ideas on a weekly basis.

"This volunteer help allows us to do more than 270 events a year effectively. It's run like a real organization, with officers and monthly meetings, and they get training about promotion and marketing which teaches them how to deal with the consumers as listeners. We couldn't do it without 'em.'

her current position since February. "The company's philosophy is to carry the message for the communishe says.

"Because we are the voice of the black community here in New Orleans - and basically of Urban radio stations all over - we look for things to better the community. Instead of just throwing a big concert or party that will be forgotten in a week or two, we do things like our 'Teen Summit' and the 'WYLD Family Reunion,' which are statements in and of themselves.

'For example, 'Teen Summit' is a way for us to communicate with teens about excessive violence in their age group, in our community, and in society at large. We raise their

awareness of other factors affecting black teens in America, like drugs.

"Last year's Teen Summit was a wonderful event: Our 3500-seat venue was sold out, and we had 2000 people outside who couldn't get in. This year we're moving that event to the U.N.O. Lakefront Arena, which holds 10,000. We try to find tie-ins for all our clients so they can be involved with the different things we do on a daily basis. And we're looking forward to bringing these clients in as sponsors to help us pull Teen Summit II together.

Get that KYS Card — and plug into the future of marketing.

Come Together

"With the WYLD Family Reunion, we tell the community to get together as a family, to take care of one another, to do something positive for each other, and to stop the killing and drug abuse.

"The Family Reunion was known as 'Family Day In The Park' for 12 years, but we're renaming it because we don't want it to be thought of as just a day in the park; we want it to have real meaning. We're trying to make this event family-oriented, instead of just another big outdoor concert. We want people to think about pride and family on that day, so it's important the adults bring the children for a nice family outing, complete with live music. We're planning to have sack races, a barbecue cook-off, and even a 'Praline

Direct Assistance

WYLD-AM & FM recently raised money for a two-year-old who needs a liver transplant. Hence explains, "Our owner/President, Jim Snowden, approached me the morning after we saw a story on our local TV news about Jace Harrison. Our ND put the girl's mother on the air to talk about how her daughter needed a liver transplant and she didn't have the \$60,000 needed.

"Jim told me to do whatever we could to help, so we set up both WYLD morning shows in a local mall's parking lot and broadcast live for four hours, asking for donations. We raised \$5000 that day, and since then we've raised well over \$10,000, but we're not done yet." Hence notes WQUE also played a small role in that effort.

"With four stations, we always have something going on for the consumers," adds Hence. "For example, we do what we call 'Street Hits,' where our on-air personalities take a station van to a location somewhere in our listening area, whether in the city or in the suburbs. Then they go on-air and tell people to come down for a prize like a T-shirt or pair of tickets to a New Orleans Saints football game. Through promotions like this, we want our listeners to know we're approachable and accessible at all times."

VIEWS FROM THE TOP

Selling The Dream: Marketing New Stations

An increasing number of station operators are facing the challenge of introducing new Talk stations, either on their current airwaves or newly acquired duopoly properties. Here's what some Talk veterans — all of whom recently have unveiled new chat outlets — have to say about the process.

Take It Slow

Consultant Walter Sabo, who's been involved in three Talk debuts in recent years KPIX-AM & FM/ San Francisco, WTKS/Orlando, and WKXW (New Jersey 101.5)/Trenton, NJ - offers

Walter Sabo

an initially surprising take on how to introduce a new station.

"Unlike music stations, new Talk stations shouldn't do much marketing at all. It should [be] low-profile people should find the station on their own and develop a relationship

Why? According to Sabo, a music station knows from the outset thanks to the miracle of research which segments of the audience are going to be drawn to its program-Thus, they can debut with marketing statements that are right on target and almost guaranteed to appeal to those potential listeners.

Talk stations, on the other hand, relate to listeners on a much more personal and individual level. It takes time for people to get to know the hosts, feel comfortable with the programming, and actually decide what they like about the station.

"In order for listeners to even conider writing your name in an Arbitron diary, you must link yourself with something positive, something that enhances their self-image," Sabo explains. "You must make them willing to associate themselves with

And that takes some time: Only when a station has settled on solid programming and developed some base of listeners, says Sabo, should it begin the crucial task of aggressively marketing itself.

Attention Vs. Admiration

WLS-AM & FM/Chicago OM Drew Hayes, normally a relentless promoter of his stations, agrees with

that advice. He's currently handling the rollout of a younger-skewing format on FM. New Talk stations shouldn't do much

and develop a relationship with it. — Walter Sabo

people should find the station on their own

marketing at all. It should be low-profile -

"We're really soft-selling WLS-FM," says Hayes. "We're content to let the station grow and find its own way for now. Besides, I just don't know that we've got the hooks yet to start promoting it."

But why not launch the station with extensive advertising and promotional efforts just to let folks know you're out there? Surely, it

66

— Drew Hayes

can't hurt to draw attention to the new sound. "The fellow dancing with a flower pot on his head at a party gets a lot of attention, too," counters Sabo.

That's attention — not admiration or respect. If a station starts wooing people before its programming has really started connecting with the audience, it risks alienating them forever when they tune in and discover the on-air product doesn't meet their needs or wants.

"Howard Stern actively discourages his affiliates from promoting his show," says Sabo, "because he knows that the wrong kind of promotion could end up hurting his show more than it helps."

Rush Push

WGST/Atlanta VP/Programming Eric Seidel, who's overseeing the retooling of Jacor sister WCKY/ Cincinnati, echoes that sentiment.

'It's true that good advertising will [expose] bad programming real quick. If you go out with a clever promotion for programming that isn't quite there, you'll end up driving people away.

That's why 'CKY is currently promoting only one piece of its lineup: Rush Limbaugh. "We're going to try to expand Rush's audience to the rest of our programming, including the morning show. We're doing that by carrying Rush's commentary in the morning show and promoting that feature heavily during Rush's program."

KABC/Los Angeles President/ GM George Green, who's presiding over sister KMPC's conversion from all-Sports to Talk, also held his fire until the on-air sound came together. KMPC, which made the format switch in early May, is just now starting to roll out its paid media campaign.

Promotional Tips

According to Sabo, when it comes time to start promoting — a time that

is hard to identify using anything except experience and gut - stations should remember the following tips:

 Listen to the people very carefully and understand why they like your station.

If you go out with a clever promotion for programming that isn't quite there, you'll end up driving people away.

- Eric Seidel

· Communicate with people in language that relates to them - not radio geek lingo. "We got our best slogan for New Jersey 101.5 from a listener in a focus group, who said,

'Finally, our own station!' " • In every marketing message, be sure to tell people that you're talking about a radio station. "It's an incredible conceit for radio people to think that every time people see something like 'Zl01' they understand that it's a radio station.'

'CAMPTOWN' CLINTON - Major Networks Talk personality Alan Colmes recently invited listeners to sing about President Clinton's woes to the tune of "Camptown Races." The winning entry focused on the sexual harassment charges filed against Clinton. Sample lyric: "The Presidential member must be unique. Doo-dah, Doo-dah. 'Cause Paula can describe it, and she only had a peek! Oh, doo-dah, day!" Judging the entries were (I-r) radio "sexpert" Dr. Judy Kuriansky, comedian Pat Cooper, songwriter Jimmy Webb, and Alan Colmes.

Songs ranked by total points.

Station call letters followed by number of plays this week (last week's plays - if any - in parentheses).

Breakers: Song has achieved airplay at 50% of our reporters for the first time. AF: Add Factor, total weights of stations adding. Points compressed to 1-50 scale for easier referencing. **Growth Rank**: Ranks all songs by airplay and audience growth. **Points:** Each station's total plays of a song times the station's individual weight. Total Points = All stations/points on song added together. Play Rank: Ranks all charted songs by number of plays.

"Chris Porter and Mike Henry at Paragon have helped CHFI-FM maintain our long-standing position as Toronto's #1 rated radio station.

Plus, their insight and experience assisted our sign-on of 680 News.

Paragon's customized approach to telephone studies, focus groups and music testing is a fresh angle on radio research."

EDGAR

"Edgar Winter is back, and he ain't afraid of daylight, either! Even though the disc contains his timeless 'Frankenstein,' the balance of new material more accurately portrays where Winter is at today."

— Album Network

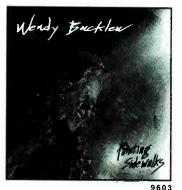

"Edgar Winter's legendary 'Frankenstein' earns him placement among the acts that were at the fore-front of Progressive music. Not A Kid Anymore continues that legend, ... Winter shows he's no one-trick pony and can create great ballads too."

- FMQB Album Report

Not a kid anymore

Wendy Bucklen

"Wendy is cool. A vulnerable performer; she possesses many rare qualities in a world of singer/songwriter turned band leader. Her music gets better and better, listen after listen.

— Amy Ray of the Indigo Girls

"The brass and sass of Bonnie Raitt, the softness of Suzanne Vega and the intrigue of Edie Brickell. Wendy Bucklew's Painting Sidewalks is a stunning debut.'

— Jody Peterson, WNCS

Songs ranked by total points.

Breakers: Song has achieved airplay at 60% of our reporters for the first time. AF: Add Factor, total weights of stations adding. Points compressed to 1-50 scale for easier referencing. **Growth Rank:** Ranks all songs by airplay and audience growth. **Points:** Each station's total plays of a song times the station's individual weight. Total Points = All stations/points on song added together. Play Rank: Ranks all charted songs by number of plays.
