A&R Scenario Changes With The Help Of Radio, Promotion Veterans

by Marc Schiffman and Kevin Carter

For years the A&R/promotion scenario has allegedly worked like this: A&R person finds great band in small club; act puts heart and soul into making a record; VP of promotion hears act's masterpiece and decides there's no single; much wailing

and gnashing of teeth takes place.
But some labels are now turning to a new breed of A&R executive with experience on the front lines of radio, either as a PD or MD or as a promo exec who talks to hundreds of programmers a week. Among the new A&R reps who hope their street smarts and daily radio contacts will translate into records that are more accurately targeted to radio and retail needs:

· Atlantic's New Orleans-based senior director of A&R/promotion, Kim Stephens (Seven Mary Three, Collective Soul), who began his A&R career on the promo side and continues to work there as well. Stephens is part of a label tradition that has included promo-to-A&R convert Marc Nathan, now known for signing Merril Bainbridge to Universal.

Geffen director of top 40 promotion Craig Coburn, who, after several remix projects, made his first full foray into A&R with current top
40 charting act She Moves.

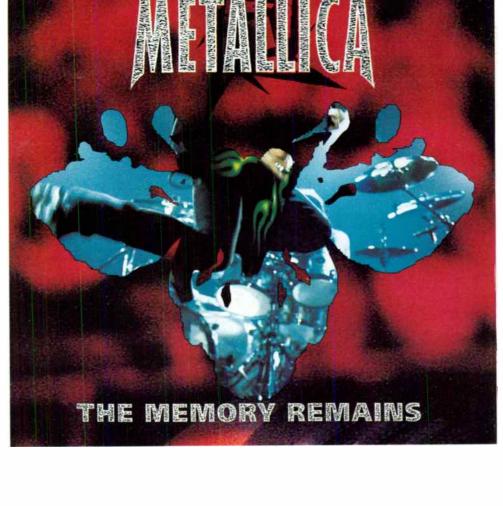

• Former KMEL San Francisco

APD/MD Hosh Gureli, now Arista's senior director of A&R, whose latest project is "Ultimate Dance Party 1998." Gureli is one of a power trio of radio guys-turned-A&R execs at Arista, along with former KMEL PD Keith Naftaly and former WFNX Boston PD Kurt St. Thomas.

Atlantic A&R rep Steve Robertson, former APD of WJRR Orlando,

• Former Airplay Monitor publisher Michael Ellis, now VP of A&R for Crave Records, who is a veteran of New York radio.

While some A&R purists deride the concept of radio-driven A&R, its proponents feel they bring a wider perspective to the mix. "I come from Continued on page 5

Schuon Exits MTV; NHMC Vs. Mouse

by Marc Schiffman

212-536-5065 • mschiffman@billboard.com

B

illboard Bulletin reports that after seven years with MTV, executive VP of programming **Andy Schuon** is leaving the network.

The Los Angeles Times reports that the National Hispanic Media Coalition (NHMC) has filed with the FCC to challenge the licenses of several Disney/ABC L.A. stations, including album **KLOS**. In a press conference, the NHMC stated its intention to challenge the license of talk **KLSX** for its carriage of **Howard Stern's** syndicated morning show.

The Canadian Broadcast Standards Council has determined that Howard Stern's syndicated feed to album outlets CHOM Montreal and CILQ (Q107) Toronto violated the broadcast standards of the self-regulated industry, according to press reports. The 56-page report calls Stern's commentary "abusively discriminatory." While the council cannot levy fines, members

must adhere to its codes or forfeit their membership, making them vulnerable to action by the Canadian Radio-television and Telecommunications Commission. The council said that it had received 1,070 complaints by mail, fax, and E-mail.

In a first, the Department of Justice is taking legal action to block

Chancellor Media Corp.'s acquisition of SFX Broadcasting's four Long Island, N.Y., radio stations. The suit marks the first time the department's anti-trust division has taken a radio group to court, contending that the \$54 million merger would result in one owner commanding ad rates for 65% of the market. In addition to preventing the merger, DOJ seeks to terminate a local marketing agreement under which Chancellor has been operating SFX's Long Island stations.

Album WCCC Hartford, Conn., owner Greater Hartford Communications is selling the station and its AM sister to Marlin Broadcasting. PD Ron Dresner is expected to remain on board, along with Howard Stern in the morning and the active rock format.

EXECUTIVE SUITE: SMITH SAILS FROM WNEW

Classic rock WNEW New York GM Kevin Smith has resigned for personal reasons. He'll remain with the station until the end of the year.

Modern KKDM Des Moines, Iowa, GM/PD/morning host J. Michael McKoy exits. Owner Rich Eychaner assumes the GM post. Also at the station, middayer Bailey Seven has left the building. OM Lee Konfrst takes her air shift.

Classic hits WNNJ Newton, N.J., PD/middayer Chip Miller becomes regional PD for parent Nassau Broadcasting—North, adding hot AC WSBG Stroudsburg, Pa., and AC WSUS Franklin, N.J. That leaves him no more time for his air shift.

Country KATM Modesto, Calif., PD Ed Hill adds OM duties over KATM, classic hits KHKK, active rock KHOP, and all-sports KBUL-AM. Mike Lopez is upped from promotion director to marketing director for all four stations.

Approximately 16 staffers were let go at New York-based SW Networks Nov. 7. At the same time, the New York-based network announced plans to sell off its longform programming, including weekly rock show "hardDrive". Plans are also in the works to launch three new show-prep

services: a service for top 40 stations; an entertainment news network, which will offer coverage of entertainment news, breaking stories, movie premieres, film festivals, and awards ceremonies; and a third service, SW Entertainment Express, which will emphasize coverage of television, movie, and celebrity

news. SW Networks also has seven other format-specific entertainment news services. Oversight of the network now goes to Sony Music Entertainment.

The Story Continues For The Sundays

Back after a five-year lull, **the Sundays** have a chart single titled "Summertime." But rather than extol the season, the characteristically lilting song examines the burdensome ideal of romantic bliss. Sundays principals **Harriet Wheeler** and **David Gavurin** were inspired when a couple of their friends enrolled in a dating service.

"As society offers fewer and fewer opportunities for people to meet, the idea of going to dating services, joining lonely hearts' clubs, and placing singles adverts has become increasingly 'respectable,' at least in the U.K.," Gavurin says. And, Wheeler adds, the trend of busy people ordering everything over the phone or the computer seems to contribute to that sort of made-to-measure mentality

David Gavurin, Harriet Wheeler

"But the idea that you have to crystallize everything that's attractive about yourself into a short ad is really so tragic and funny," Wheeler continues. Gavurin says, "And people can really oppress themselves with that mythic picture of romance, so we just wanted to address in a tonguein-cheek way that the easily gained perfect partnership is

"Summertime" comes from the Sundays' third DGC album, "Static & Silence." Wheeler and Gavurin met in '83 in their hometown of Bristol, England, moving to London a few years later to form the band with bassist Paul Brindley and drummer Patrick Hannan. Wheeler and Gavurin also eventually formed Billie, now a little girl of 21/2.

The couple met through mutual friends, "back in the days when that was possible," Wheeler says. And they courted in the time-honored tradition. "Oh, I'm sure we annoyed our neighbors, sitting on garden walls talking about all the absurd things you talk about when you're 20 and drinking too much and smoking an inordinate amount of roll-ups."

Where's The Playground, Marcy

'The love song is all used up," avers John Wozniak, singer/songwriter of New York pop trio Marcy Playground. "I mean, the classics—Cole Porter, the Beatles—those love songs are so unique and say so much that they will never die. But with most of the songs you hear on the radio—and almost all of them are love songs-it's just, well, snore. In the '80s, of course, it was even worse. I

couldn't turn on the radio back then. Even the heavy metal tunes were these crappy, by-the-numbers love songs."

Having said that, Wozniak admits that there eventually came a time when he faced the inevitable, a time when he, too, felt compelled to write a love song. "I always thought that if I ever did write a love song I would have to do it in a way that didn't follow the typical formula, especially with the lyrics," he explains.

So there lies the impetus behind the odd love ditty "Sex And Candy." The track comes from Marcy Playground's self-titled Capitol debut album, which was rereleased in October after its initial issue on EMI earlier this year. The song also appears on the Mammoth soundtrack to the upcoming film "Hurricane Streets."

Abetted by Dylan Keefe on bass and Dan Reiser on drums, Wozniak lifted the titular phrase from an incident of coitus interruptus years ago. "I got the 'Sex And Candy' bit from this time when I was in bed with this girl in her dorm room and her roommate walked in," he explains. "She just said, 'Whoo, it smells like sex and candy in here.' That sounded so weird and cool that it stuck with me for

years. Actually, I should have had sex with the roommate. She was cute and cool.'

Billboard's Modern Age columnist Bradley Bambarger filled in for Mark Marone this week.

A&R/Promotion Scenario Changes With The Help Of Radio Veterans

Continued from page 1

radio, and I come from promotion," says Stephens. "With a lot of these young acts, you're giving them the information that they may not be totally aware of. Hopefully, the expertise that I've found makes sense.

"Radio gives us a bird's-eye view as to what records react, what sells, and, most important, knowing what the passive records are, the ones that may test well in call-out but don't necessarily sell," says Gureli.

"There are too many people out there involved in making music who are not in touch with the messengers of that music—radio," says Coburn. "You have to know enough to be able to give those messengers something they like so they can spread that message.

Coburn says that his daily contact with PDs gives him more instinct for what's gonna fly, especially when radio's tastes change almost hourly. "Before I even signed [She Moves], I sent a copy of their four-song demo to three or four of my friends in radio to get their feedback, which turned out to be positive," he says.

Most of the other promotion or radio-to-A&R converts had similar stories. "There have been cases where I was leaning toward signing something and radio feedback changed my mind," Ellis says. Conversely, Stephens recalls having to began and a stephens recalls having to beg a PD not to add Seven Mary Three right away, lest it set off a bidding war.

For many of the reps we spoke to, their first contact with the A&R process began either by bringing local acts to national attention (as a PD or MD) or searching for potential pickups among local hits as a record rep.

"I was always giving that input at the local level to the bands that were sending me stuff at WJRR." Robertson recalls. "Bands did call me and say, 'What do we do?' They want to know

'You have to know enough to be able to give those messengers something they like so they can spread that message'

what to do to get commercial success." Now, Mighty Joe Plum is one of Robertson's signings, and he says, "I developed that story down here in Florida with my radio contacts.

Robertson adds, "I'm very surprised to find out that what has happened with me has not happened more often. It seems like a natural progression." For those on the radio side who hope to make the leap to a record company A&R post, Robertson says, "The only reason I got my job is because I listened to independent and local stuff" while still in radio.

SEPARATING WHEAT AND CHAFF

Being able to hear potential in local and indie records is one skill that sets most PDs and MDs-who usually hear finished product that has already gone through a natural selection process to get signed—apart from an A&R person, who often has to find hits in a much raw-

During his years in radio and with Billboard/Monitor, Ellis "got played things that were less than finished," he says. For him, it wasn't so much a matter of retraining his ear on the rough stuff but being able to pick out of a nearly finished final product what has to be fine-tuned. The most difficult thing, says Ellis, is "hearing things that have defects in them and analyzing what needs to be changed."

While PDs on the rhythmic top 40 side were often accused of favoring instant reaction over long-term artistry, Arista's Naftaly says that

while at KMEL, "we were always looking for that artist that the format could own." that he's on the A&R side, he won't sign a hit song unless there's some sort of act attached. don't want disposable artists," he says. "I look for future headliners, stars, real acts with long-term careers.'

FROM AIRCHECKS TO DEMOS

Then there's the issue of taking what you've learned from working with an insecure, temperamental morning host and applying it to a potentially even more insecure, even more temperamental artist. "When a jock is on your ra-dio station, you have a lot more control over them," Robertson says. In radio, talent executes a PD's vision. "But with an artist, it's really their vision," he says. "You can't just go in and try to change everything. You have to wait for them o ask you, [and then] you can help to focus

Stephens describes working with a currently charting artist who had yet to write quite what he wanted to hear. While the artist told Stephens, "I've given you all I have," the artist then turned around and delivered a killer song that probably even the artist didn't know was possible. Says Stephens, "If you give them a little more [of a] nudge, sometimes they come back with the biggest song they have.

And Crave's Ellis doesn't subscribe to the temeramental-artist model. The music business is full of "all types of people," he says. "There are people who are extremely temperamental and some who are calm and businesslike. Same with jocks. Some can be a challenge to work with, and others are easy. [Even] in the business world . . . there are also temperamental and easy people."

SHOE WAS ON THE OTHER FOOT

PDs and MDs get used to having their ego continually massaged. Those who become A&R execs, like their counterparts who make the move to promotion, now find the situation re versed. Even so, you won't find Naftaly pining for the old days. "Doing what I'm doing now is certainly a more reality-based aspect of this business. All of the label ass-kissing is so artificial and unnecessarily embarrassing. I really don't miss it," he says. "I now have a greater opportunity to establish substantial friendships that are based on what kind of person you are, not what you can accomplish for somebody.

Aside from the ego strokage, the other change in expectations comes from the time it takes to see a project come to fruition. In radio, you have a monthly report card in the Arbitrends. In A&R, "it's a different time frame," says Ellis, "because when I'm finished with a project, some times it could be six months or a year to find out if it's going to make it.'

Gureli admits he sometimes misses the instant gratification of radio. "I miss those days where we could just grab a song, run down the hall, put it on, and watch the phones blow up," he says. "However, one of the reasons I decided to do A&R was the satisfaction of doing something tangible and permanent . . . Being able to own a piece of your work; being able to hold the dance mix of 'Un-Break My Heart' in my hand ... Radio is great, but it's just a series of moments captured in time and then gone.'

Doing A&R has made Coburn more sensitive to how that entire process works. "I also now realize how fragile records really are. We spend thousands of dollars and months of time finishing a project, with the label and the artist putting our hearts and souls into it. Then it's time to go to radio. As a promo guy, it's always scary to present your product to radio. Once that's done, the next process becomes, Will this record actually work?

'Now, coming to radio with an artist that I signed personally, it's even scarier," he continues. "The first and most important thing is to have a record that radio likes. As a promotion person, my job is to get it played and communicate stories to other programmers. Whether that song works or not is then completely out of my hands; it's also out of radio's hands—it's ultimately up to the listener and the consumer.'

MONITOR PROFILE

Outgoing Nationwide Prez Steve Berger Reflects On 30 Years In The Biz

hen Jacor closes on its \$620 million purchase of Nationwide Communications Inc.'s 17 stations, which is expected to happen next

spring, the radio industry will lose one of its most dedicated and offbeat characters with the retirement of NCI president Steve Berger after 30 years in the business.

Berger, known for walking around the corporate Nationwide Insurance complex in Columbus, Ohio, in a ski vest and jeans and once getting 500 broadcast accountants to do the wave during a speech to them, leaves radio with mixed emotions. He is looking forward to retiring with his wife, former Mc-Gavren Guild president Ellen Hulleberg, to their Long Island, N.Y., home; pursuing his landscape-photography hobby; and possibly writing "a book or a lyric poem about the North Fork of Long Island." (It's hard to tell if he's kidding about the lyric poem.)

At the same time, Berger expresses his feel-

Nationwide

'I had wonderful dreams and plans for this company'

ings about leaving the radio business he loves and the broadcast company he helped grow by quoting a line from "The Bridges Of Madison County" in which one character tells another, "The old dreams were good dreams. They didn't work out the way I planned, but I'm glad I had them." Berger says, "I had wonderful dreams and plans for this company' that were cut short by parent Nationwide Insurance's decision to sell.

Still, Berger says he supports Nationwide's decision to focus on insurance. "This is a noncore business [for them], and it was time for them to either infuse the place with a lot of cash and make it grow into a giant or sell," he says. And Berger had only given himself another 18 months to realize his own goals for NCI, having announced his intention to retire in April 1999, at which time he would have been with NCI for more than 20 years and president for 10. "You start to do more harm than good after that long," he says. "You become set in your ways and very rigid."

Although he says the company entertained purchase offers from all "the usual suspects," in the end, "Jacor came up with the most money."

Berger denies that his radio group as a whole was underperforming by today's standards, as some have suggested. "Some of them were underperforming because we had just bought them. They were sticks," he says. "But the [other] stations we had were performing quite well, even by Jacor standards." Berger, who calls himself "a hermit" and

stopped going to radio confabs in the early '90s, seems to have had at least one lasting effect on Nationwide's corporate environment in his two decades as the "resident eccentric." Today, he says, Nationwide's dress code is casual five days a week and jeans are permitted on Fridays.

His offbeat approach started in the '70s, "when we were all trying to change things. You

wind up standing on a street corner saying, 'Death to all pigs,' and a Mercedes comes around the corner, and you think, 'No amount of peace and love will get me one of those.' So a lot of us told ourselves the best way to change things is to go inside and change things from within," Berger says. "A lot of us have been successful."

He started his radio career at WOND Pleasantville, N.J., just outside of Atlantic City, at the age of 14. He worked summers and weekends there for nine years before moving to Pittsburgh, where he worked for an ad agency after failing to land a radio job. In 1968, he joined KQV's sales department and two years later became GM of KQV's FM, WDVE. In '74, he went to work for crosstown WPEZ, which he managed for three years until Nationwide hired him to run top 40 WKTQ (13Q). In '79, he moved to Columbus to run Nationwide's radio group and 10 years later became president of the broadcast company, which included radio and TV stations.

While his career path has all been upward, Berger says, what got overlooked along the way was his desire to be on the air. "The higher you go in an industry, the farther you get from the reason you got into it in the first place," he says. "It's interesting that what I do today has nothing to do with being a DJ, which got me into the business in the first place.

In the early days, all Berger wanted to do was host afternoons at WABČ New York, but a visit from then WABC PD Rick Sklar during a remote Berger was hosting in Atlantic City redirected him to management. Sklar told Berger he was good enough to one day be on the air in Philadelphia but not New York.

Despite giving up his on-air dream, Berger was always conscious of creating an environment in which others could realize their own dreams. All new Nationwide employees receive a letter from Berger in which they are told, "We have created an environment in this company in which if it is within you to shine, you will shine." Berger says, "That's the best thing you can do for an employee. What we do in the management side is we remove obstacles. Management is managing people's weaknesses, not their strengths. Rarely do you fire someone for the reason you hired them.

You fire them for some weakness that you failed to recognize."

Even after 30 years in radio, Berger doesn't claim to have all the answers. "One of the DJs from downstairs came to see me one day and said, 'How do you know when you know?' The answer is when the stuff starts to repeat itself, and after 30 years or so it does. [But] as the old saying goes, 'Knowledge begins when you know what you don't know.

In today's climate of dramatic consolidation, he says, "everyone is 'more' driven, rather than product-driven. People used to care more about the product but started to think, 'If I have seven stations, I can put Chinese gong music on three of them.' I'm here to tell you, as sure as God made little green apples, that's not the case." Today's groups are so heavily mortgaged that, despite their best intentions, "they can't take the chance" on risky programming. But, he says, the life cycle of the industry will spin again. "As my friend George Burns, the consultant, says, 'In every life cycle there is time to make the rules, time to keep the rules, and time to break the rules.

With retirement approaching, Berger advises the rest of the industry to "remember this is an entertainment. Be entertaining, [and] the music will take care of itself.

Records showing an increase in detections over the previous week, regardless of chart movement. A record which has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records which attain 300 detections for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.

BNL is on the charts, on the road and sales are multiplying. An appearance on Beverly Hills 90216 and a scorching set on VH-1's Hard Reek Live have tripled sales of <u>Rock Spectacle</u> making it one of the best-selling enhanced CDs of all time. If that weren't enough, BNL has reached over a half a million people at seld-out concerts across the U.S. and Canada. And they keep going, and going and going....

Records showing an increase in detections over the previous week, regardless of chart movement. A record which has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower is awarded to those records which attain 250 detections for the first time in triple-A and 500 detections in modern adult. Titles below No. 20 are removed from the chart after 26 weeks. If two records are tied in number of plays, the record being played on more stations is placed first. @1997, Billboard/BPI Communications.

Records showing an increase in audience over the previous week, regardless of chart movement. Rankings broken down by mainstream, modern and triple-A formats (on right side of this page) correspond to charts printed in this week's Monitor and therefore rankings do not exist for recurrents and records below No. 40 (No. 20 for triple-A). Audience computed by cross-referencing exact times of airplay with Arbitron listener data. ©1997, Billboard/8PI Communications.
