Ops, One-Stops & Labels Stage A 'Liplashing'

By EARL PAIGE

CHICAGO—The Music Operators of America (MOA) locked one-stop owners, operators and record manufacturers into a seminar room last week here and used two "umpires" to maintain order. The result was instant communication. At one point, London Records' Sy Warner said, "I've been in the record business 14 years. I have never received a letter from a jukebox operator. Where are you people?"

Epic's Mort Hoffman, who said he couldn't win because he was caught between one-stops and operators, admitted to Omaha one-stop manager Evelyn Dalrymple that one record had been hard to deliver. But he lashed out at Stu Glassman, Radio Doctor's, Milwaukee. [\(Continued on page 73\)](#)

Record Sales Untaxed by Surtax; Barometer of U.S.

By MIKE GROSS

NEW YORK — The record industry has been maintaining a steady sales pace despite the 10 per cent income surtax. Designed by the government as a spending restraint, the surtax has had little effect on record sales since it went into effect in July.

Because records are classified as a leisure-time consumer commodity, the industry's sales pace is considered a bellwether to the state of the country's economic activity. In point of fact, business analysts report that, similarly, the surtax has failed to dampen economic activity and that consumer expenditure has been on an upward spiral.

Record retailers and discounters canvassed by Billboard in the New York, Chicago, Los Angeles, San Francisco, San Diego and Sacramento markets are in agreement, for the most part, that the surtax has had no

harmful effect on record sales. Many of the retail outlets surveyed revealed that record, sheet music and instrument sales are running ahead of last year.

"No Effect"

The general attitude of the retailers was voiced by Russell Solomon, president of the four-store Tower chain in San Francisco and Sacramento, who said: "There has been absolutely no effect on business. Except for the usual business slump when schools reopened in September, music retailers are enjoying a

good year. We wouldn't feel the tax bite on low cost items."

The consensus of record manufacturer sentiment regarding the surtax was generally the same as the comment from Irving Steinberg, president of Mercury Records, who said: "There is no evidence that it (surtax) has harmed business. The simple fact is that the hit records are selling as big or bigger than ever."

Steinberg's comment was supported on the rack jobbing level [\(Continued on page 102\)](#)

Giant Turnout Turns Out for Country Fetes

By BILL WILLIAMS

NASHVILLE — A pre-convention registration that totaled some 4,000 coupled with mass lines of first-day registrants made the country convention celebrating the 43d anniversary of the "Grand Ole Opry" the biggest ever.

Fox Office's 2-Front Attack

NEW YORK — The Harry Fox Office, publisher's agent and trustee, is expanding on the foreign and domestic fronts.

On the foreign end, Al Berman, of the Fox Office, has just set up operations in London. He's now planning to set up Fox Office operations in Continental Europe and the Far East. On the domestic front, Warner Bros.-Seven Arts Music Co. has signed with the Fox Office for the collection of mechanical royalties. The WB-7 deal is seen

in the trade as a coup for the Fox Office since the publishing firm has been a holdout for the past 35 years. The publishing firm's change of heart stems [\(Continued on page 10\)](#)

Detroit in Tape Breakout; RCA to Ride With 10 Mil.

By HANK FOX

NEW YORK—With the Ford Motor Co. projecting a more than 67 per cent jump in stereo tape deck installations for its 1969 models, the company, along with Detroit's three other automobile manufacturers and Volkswagen, is basking in the shade of the industry's best tape CARtridge player sales year to date.

NEW YORK—At 37 per cent of the nation's radio stations, new records are now picked by program directors. This is the information revealed by a survey conducted by Billboard's Record Market Research Division. By formats, at 45 per cent—the majority—of those

stations playing easy listening music, the program director selects the new records for airplay, while among Hot 100 format stations, the majority of the stations—46 per cent—have a music director who does the picking. [\(Continued on page 46\)](#)

ABC will also have a new a&r director for jazz and blues product, responsible for ABC's Impulse, Riverside and Blues-

Way labels. Again, no one has yet been named for the position.

'Chitty' Songs Cause A 'Bang' Overseas

LOS ANGELES — United Artists has picked up lots of film "Chitty Chitty Bang Bang" in the overseas market.

Among the foreign artists involved are Horst Jankowski, Paul Mauriat, Rex Koldors, Caterina Valenti, Button Down Brass and Samantha Jones.

U. S. Versions Capture Foreigners

LOS ANGELES — American recordings, rather than local language versions, are scoring in many European countries. "The trend is back to the original American hit," said Monument's international director, Bobby Weiss, recently returned from a six-week overseas business trip. German teen-agers are de-

manding the American language recording over a German copy. The Armed Forces Network, Radio Luxembourg and Europe Number One are three broadcasting services which play American recordings and set the stage for this consumer interest. In Italy, which still clings to romantic lyrics in the native

tongue, RiFi, the Milan company is issuing singles with English titles. Weiss said that there are French record companies which are discussing importing the original American LP covers to meet a growing demand for an American look.

Rhythm and blues enthusiasm is also responsible for the growing market for English language records. Weiss credits Bernard De Bosson, Barclay's international a&r director, with pushing the Atlantic/Atco r&b catalog, and helping to establish the solid catalog, and helping to establish the solid foundation the music now enjoys.

In Spain, which has its own r&b revolution, Discos Sonoplay is releasing the Canarios singing r&b lyrics in English, and doing a very effective job of imitating the rural vocal inflections of the American performers. Companies with r&b catalogs are in a good position on the Continent, Weiss said.

The interest in r&b product is evidenced in Monument's new Latin licensee, Discos Sonoplay, ordering singles by Joe Simon and Tony Joe White for release in Spain and Portugal. Having set distribution in these two countries during the recent trip, Weiss next concentrates on Mexico and Central America, where local language hits are the means to success.

CAP. GEARING PRODUCT PROGRAM TO COLLEGES

LOS ANGELES—Capitol Records has established a program for product to be tailored to the college market. The emphasis will be on creating consumer demands on campuses through college radio, newspaper and campus stores.

Bob Yorke, the label's distributing vice-president, said that the program was initiated to keep pace with the student population of 2,500,000 who attend around 200 schools. There are about 38 schools with enrollments over 15,000 and about 40 schools which have 10,000 students. This concentration of potential young music buyers creates a "manageable" situation in which to develop sales stimulating programs," Yorke said.

Buck Stapleton, recently promoted from a regional promotion man's post to manager of radio-TV services, heads the campus program. Stapleton has been attending meetings of various collegiate groups to learn this new market. The development of the college operation plus the creation of the artists relations operation are based on Yorke's philosophy that a record company has to get involved with career guidance and assistance for its artists.

Stapleton has been compiling data on facilities at the top 100 campuses and for the first time in the label's history, college radio stations will be serviced as though they were commercial outlets.

Kirsten in the U. S. to Plug Jankowski LP's, Global Pub

NEW YORK — Peter Kirsten, manager of writer-artist Horst Jankowski and director of Global Musik of Stuttgart, is in the U. S. for a push on Jankowski's disks and the Global publishing interests.

Kirsten's first promotional

move in New York was the acquisition of foreign publishing rights to "Funny Face," a song created by the Cashman, Pistilli & West organization. Kirsten has also scheduled a visit to Mercury Records' Chicago headquarters to co-ordinate promotion of Horst Jankowski's latest album, "Piano Affairs," and to discuss the artist's future recordings.

In Las Vegas, Kirsten will huddle on Jankowski's plans for personal appearances on the club circuit there. Meetings in Los Angeles with Jay Lasker of Canopy Music will also be held to discuss the foreign release schedule for the Jimmy Webb compositions which were recently acquired by Kirsten's German publishing firm. Negotiations for deals set by Kirsten are handled by his representative in New York, attorney Philip S. Kurnit.

During its first two weeks, "Lenny!" also will play the Electric Theater in Philadelphia and the Brattle Theater in Cambridge, where it will begin a two-week stand. Capitol Steps Up Pop Drive — Kornfeld Inks Prod. Artists

NEW YORK — Artie Kornfeld, Capitol Records' director of contemporary recording, has signed several artists and producers in line with the firm's concerted drive into the pop field. Those signed will create product for Capitol and subsidiary labels Hot Bisquit Rise and We Make Rock 'N' Roll Records.

In the five months of his new berth, Kornfeld, who defined his role as "anticipating successful sounds, a kind of native guide for expedition," has signed, as artists, Jimmy Castor, heavy-weight champ Joe Frazier, football star Joe Namath, Mike and Judy Callahan, the Tuneful Trolley, Billy Carr, the Jades, the Carnival Connection and the

Wind in the Willows. Kornfeld personally produced the "Wind in the Willows" album on Capitol.

Drawing from young independent producers, Kornfeld has inked Jay & the Americans' Jata Enterprises for the Tuneful Trolley, Steve Duboff's Infinite Sound for the Insect Trust, Kaplan-Cullen Associates for the Crystal Mansion and Erik Faulkner, and Castor Pruitt Productions for Jimmy Castor, among others.

Kornfeld has also signed Jerry Merrick and Steve Duboff as writers, in addition to split-publishing agreements with most of the groups on his independent production list.

Fuller Getting His Interests Paid Off With Hit Dividends

By ELIOT TIEGEL

LOS ANGELES — Producer Jerry Fuller's interest in country music and extraordinary vocal qualities, are two reasons why O. C. Smith and Gary Puckett and the Union Gap are hit artists.

Fuller, Columbia's Coast-based pop producer, chose Dallas Frasier's country song, "Hickory Holler Revisited," as the vehicle for his first effort with Smith, who had just about gone as far as he could go with a jazz-oriented style. Fuller knew he had to change Smith's direction but he felt Smith's jazz and blues background would prove advantageous with country material. "I felt O. C. could do a soulful version on the song," Fuller said. A former country writer himself, Fuller said, "country music is just the way people talk."

Fuller has been with Columbia's Hollywood a&r staff one year and three months. With the exit recently of Gary Usher from the staff, Columbia's two staff Hollywood producers are Fuller and Sonny Knight, who joined the label three months ago.

Fuller and Smith prefer to record in the "old fashion" of having all the ingredients present at one session. "O. C. prefers to sing with the band," Fuller explained, "because he'd rather feel the music than later have earphones and listen."

Columbia's Fete Cites Union Gap For Gold Strikes

NEW YORK — Gary Puckett and the Union Gap, Columbia Records group, were feted at the New York Hilton last week (16) at a gold record presentation to celebrate their three successive million-selling singles. Clive J. Davis, president of CBS Records, presented Puckett and Union Gap members, Dwight Bement, Mutha Withern, Kerry Chater and Paul Wheatbread with individual gold records to commemorate the success of their singles, "Woman, Woman," "Young Girl" and "Lady Willpower."

The group's producer, Columbia a&r man Jerry Fuller, came in from the West Coast for the celebration. The group's manager, Martin Erlichman, was also present. Others who attended, along with Columbia executives were disk jockeys and representatives of the trade and consumer press.

Fuller became aware of Gary Puckett when someone gave him a demonstration record. He flew to a San Diego bowling lounge to hear Puckett in person because he was impressed by the "warmth" in Puckett's voice. He has cut four singles and three LP's with the group. Fuller says he's most concerned about vocal quality because he can hire the best instrumentalists in the city. Fuller chooses to only sign acts he himself has heard and become "emotionally involved with." He's not necessarily impressed because a group may have a loyal following and lots of word of mouth enthusiasm.

When Fuller first joined the staff he had 14 artists, a list now pruned down to seven, including Puckett, Smith, the Peanut Butter Conspiracy, Jack Bedient and the Chessmen, Jimmy Walker (one half of the Righteous Brothers), Jerry Inman and the three Rooney Brothers.

Rifkind in Prod. Drive

NEW YORK — Roy Rifkind Management, a division of Guardian Productions, Inc., has instituted international program for the representation of independent record producers.

The firm plans a special drive in Great Britain for English producers who have not been able to gain a foothold in the U. S. Rifkind will be meeting with producers in England later this month when he leaves for Europe with artist Joe Simon of Rising Sons Records.

Rifkind has signed producer Otis Blackwell and has placed producer Jerry Murray's "Four Corners" by Jerry O. on White Whale Records.

BILLBOARD FILE SEEKING BIOS

NEW YORK — Billboard is now compiling a complete library of photos and biographies of artists. Representation in the expanded library will ensure quick access to the latest material for Billboard's weekly edition, talent and campus directories and other special issues. Record companies, talent agencies and public relation firms are requested to send updated biographic and photos to Billboard's New York office, attention of "Photo File."

MORT HOFFMAN, right, director of sales and distribution for Epic Records, shows Dave Kapralik, Epic vice-president of a&r, a notice that Epic has been chosen "Record Company of the Year" by the MOA membership.

ABC Radio Bans 'Barbarella' Spot

LOS ANGELES — Dot Records has been stymied by ABC Radio in its attempt to place advertising for the soundtrack LP from the Paramount film "Barbarella." The network said it won't accept spots for the soundtrack LP because the film was given a condemned rating by the Legion of Decency, official motion picture arm of the Roman Catholic Church in the U. S.

Dot president Arnold Burke feels the action is especially "comical" in that ABC aired spots for the motion picture when it first came out despite the rating.

The soundtrack by Bob Crewe and Charlie Fox is on Crewe's DynaVoice label which Dot distributes.

New Vs. Old: Two Clubs Flourish With Different Talent Policies

By ELIOT TIEGEL

LOS ANGELES — The Whisky A Go Go, which books pop acts for two-four days and the Coconut Grove, which retains the traditional two-week booking concept, reflect the opposite ends of the live talent spectrum here.

The abundance of large concert facilities which ring the city allows for the booking of major pop acts at large sums. Consequently, Elmer Valentine's Whisky club books more new and established pop rock bands in one year than any other facility because he works on a quick turnover appearance policy. He has established a rapport with a number of players who come back regularly and work the 300-seat room for less than they can earn playing one-night concerts. These include Johnny Rivers, who opened the club Jan. 15, 1963, and Eric Burdon and the Animals, who call the club home.

"I book by album sales," he said. "I feel if a person can pay \$5 for an album, he'll pay \$5 to see that same act." On Monday, Tuesday and Wednesday, Valentine books new groups who play for scale. His headliners are presented the rest of the week, each act doing three half-hour sets. Depending on the act, the door charge is either \$2.50 or \$3.50.

Valentine estimates he spent \$250,000 last year for pop music acts, almost always presenting two acts per bill, four groups a week, 52 weeks a year. His top price is \$7,000. In order to fill all those hours, Valentine tries to bring in new acts from America and England, using the advice of such "friends" as Jimi Hendrix and Eric Burdon. Valentine also puts blue request cards on his tables and young people fill in acts they'd like to see.

Groups Launched

Groups which have been launched at the club include Cream, the Doors, Buffalo Springfield and Steppenwolf. Valentine is considering expanding to include contemporary comics, folk, country and more blues. He has booked rhythm and blues acts in the Trip (which had a short lived run) and in the Whisky. But the Motown acts, with whom he worked "have outpriced themselves," he said.

Groups which Valentine calls his regulars include the Byrds, Animals, Masekela, Youngbloods Albert King and Canned Heat. Upcoming are new English acts such as the Ainsley Dunbar Retaliation and Terry Reed, plus the Animals, Spirit, Cold Blood, Traffic and Buddy Miles.

At the other end of the spectrum is the Coconut Grove. Its entertainment director is Gus Lampe, who combines the new with the established to bring more young people into the 1,000-seat facility on more occasions than just the usual prom-

nights. He has hired a teen-age consultant to visit high schools and learn the grass roots favorites.

Pairings of the established with the new focus on such upcoming attractions as Rouvaun, and McCall and Brill from the "Laugh In" TV series, and the Mills Brothers with Stanley Myron Handleman of the Dean Martin TV show.

Lampe has also established an \$8.50 high school student's package which includes dinner, tip and tax which starts Nov. 1. The concert field in no way affects the Grove, Lampe points out. "We cater to people who want to spend an evening, dance to Freddie Martin's orchestra

and enjoy a show." Lampe's budget is not restricted to an annual sum and each contract is a different matter with each artist, involving percentages and going into overrides.

Tourists make up a good portion of the room's patronage. Lampe's standard pact is for two weeks; years ago it was for one month solid. Now Lampe is trying to get Ray Charles, Tony Bennett and Don Ho, for example, to commit for three weeks. Although he admits that a hit recording is all important, there are certain artists who will draw because of their own personalities. The only kind of music Lampe will not book is hard rock.

John Sippel, publicity director of Mercury Records since 1965 and a 24-year veteran of the record industry, has been named national product manager for Mercury Records. The former Billboard staff member will replace Alan Mink, who is exiting the corporation for a position on the West Coast. Assuming the post of director of publicity will be Ron Oberman, who has been an associate in the three-man department since February, 1967. Rick Bolsom is publicity staffer out of Mercury's New York offices.

Dick Jacobs has been appointed executive producer of the Special Markets Department at Decca Records. Jacobs will be responsible for directing the development and producing of records necessary for all Decca Special Markets activities. He will also be involved in the creative development of this product, working in conjunction with Martin L. Weiss, director of Special Markets, and Don Hobens, manager of Special Markets operations. The division is headed by Decca vice-president Martin P. Salkin. Jacobs joined Coral Records as musical director and assistant artists and repertoire director in 1953, after two years as staff arranger for the Tommy Dorsey Orchestra. For the past five years, Jacobs has been musical director for the Friar's Club Annual Testimonial Dinner. He will serve in the same capacity this year.

Ted Williams has been named publicity manager of Atlantic Records. The appointment is part of an expansion of the firm's publicity wing, which also encompasses the promotion of Micki Ackerman to the post of press information. Both report to Bob Rolontz, Atlantic's director of publicity and advertising. Williams comes to Atlantic after four years with Record World where he held many key positions. Williams started his career in the music business as an album reviewer with Cash Box. Mrs. Ackerman joined the publicity department of Atlantic a year ago. Since last March she has been in charge of producing the firm's weekly Atlantic-Atco-Cotillion bulletin and artists' itineraries. Mrs. Ackerman will continue to edit the bulletin as well as take additional duties involving press contracts.

Barbara Christensen has been appointed manager of publicity and public relations at Metromedia Records. Miss Christensen will be responsible for all public relations concepts and national consumer and trade publicity for Metromedia's product and artists. She will assist in the development of advertising and graphic concepts and will work in conjunction with the sales, promotion and merchandising departments. Prior to joining Metromedia, Miss Christensen was manager of press and public information for Epic Records. Miss Christensen began her career in public relations with R. J. Cavallo Management, where she handled publicity for the Lovin' Spoonful.

Bob Thiele has resigned as director of artists and repertoire for ABC, Impulse and Bluesways Records. Thiele, who had been with the ABC family of labels for seven years, worked in such diverse areas as rock, pop, and jazz. Thiele expects to have his new affiliation lined up within a fortnight.

Jack Lee has resigned as professional manager of Edwin H. Morris & Co. after 20 years with the company. Lee was professional manager of Meridian Music, the BMI affiliate of Morris, for 10 years before Morris sold the company to Lawrence Welk. Lee was instrumental in bringing in such copyrights as "Canadian

been secured. "When these run out, that's the end," he said. "We'll just have to advise people that we did everything possible to get them to pre-register."

Even before the three-day celebration got officially under way, there were virtual round-the-clock parties and entertainment, and the serious matter of Country Music Association board meetings. Pre-convention party hosts included Owen Bradley, Chet Atkins, Amon Evans, Bobby Goldsboro and Stanley Adams.

In the first actual matter of new business on Thursday (17),

the Country Music Association elected its new directors who, with the continuing directors, named a slate of officers. Those named were:

Bill Williams, President; Francis Preston, executive vice-president; Harold Hitt, vice-president; Wade Pepper, vice-president; Cliffie Stone, vice-president; Bill Denny, vice-president; Roy Horton, vice-president; Ben Rosner, vice-president; George Crump, secretary; Marty Catrow, assistant secretary; Dick Broderick, treasurer; Larry Moeller, assistant treasurer, and Bill Lucas, sergeant-at-arms.

Elected at-large directors were Stanley Adams, Johnny

Bond, Randy Wood, Tex Ritter, Harry Jenkins and Connie B. Gay.

Gallagher Named

Bill Gallagher, elected a director representing record companies, was also named chairman of the board. Other category directors are Ferlin Husky, artists; Hubert Long, manager-booker; Lee Zito, publications; Mel Tillis, composers; Wesley Rose, publishers; Irving Waugh, radio-TV; Les Arnold, disk jockey, and Bill Budson, advertising.

The new board held its first meeting Friday (18). This followed the traditional WSM breakfast and spectacular, highlighted by an announcement by Irving Waugh, president of WSM, Inc., who said that a feasibility study was underway about building a new Grand Ole Opry House and creating a major tourist attraction around it. The new complex would be called "Opryland, U. S. A."

To conduct the study, WSM officials have retained Research Associates of Los Angeles, a consulting firm specializing in recreation economics. The study will encompass not only a new Opry House with a stage having TV network origination capabilities, but an accompanying amusement area, hotel complex and supporting facilities.

Representatives of WSM have already held discussions with officials of Disneyland, with the management of Sea World in San Diego, and with the Hofheinz family of Houston, who operate the Astrodome. It is anticipated that a major tourist attraction centered on the "Opry" would require some 200 acres of land.

The "Opry" has been staged in its present location, formerly the Hyman Auditorium, for the past 27 years. In all, the show has been housed in five different locations during its 43-year history.

CMA Citation to Bill Sachs

• Continued from page 1

"It is with great pleasure that I bring up this next matter. On the other hand, it is unfortunate that the recognition I am about to bring before the membership has to be done without the pres-

ence of the individual who is concerned.

"He attended the first Country Music Convention. He has attended every one since until today. For 44 years he has been steadily at his tasks with Billboard magazine. For most of those years he has been and still is a steadfast friend and associate in the Country Music field.

"For his dedication and long service to the advancement of country music we desire to honor him with a certificate of appreciation.

"To Bill Sachs we extend our best wishes for an early recovery from his illness and a return to active participation in this great effort for the preservation and growth of country music.

"To Bill Sachs we present this certificate for his outstanding endeavors on behalf of country music. This Association is proud to call him friend."

The plaque was accepted for Sachs by Paul Ackerman, music editor of Billboard.

NEW YORK — "The Crazy World of Arthur Brown" album and Arthur Brown's "Fire" single are being switched from Atlantic to the Track label, which Atlantic is distributing. Both records will retain their former numbers.

CMA NAMES CAMPBELL AS ENTERTAINER OF THE YR.

NASHVILLE—Glen Campbell, Capitol artist whose singles and albums were consistently on the Billboard charts through the past year, has been named "Entertainer of the Year" at the televised Country Music-Association awards presentation.

It was one of two awards won by the West Coast artist. He also was named "Male Vocalist of the Year" and thus was the only double winner.

The single of the year is "Harper Valley P.T.A.," recorded by Jeannie C. Riley on the Plantation label, a song which barely fell into the date qualifications for eligibility this year. Album of the year was "Johnny Cash at Folsom Prison" on Columbia.

The song of the year was "Honey," and the award went to its writer, Bobby Russell. The "Female Vocalist of the Year," Tammy Wynette, is another consistent performer whose Epic releases were at the top of the charts.

Porter Wagoner and Dolly Parton were selected as "Vocal Group of the Year." After Miss Parton made the switch to RCA and joined the Wagoner show, the duo came up with a succession of hits. "Instrumental Group or Band of the Year" was the Buckaroos; "Instrumentalist of the Year," Chet Atkins, and "Comedian of the Year," Ben Colder.

Spanish Film By Martineau

NEW YORK — Gordon-Martineau Associates, Inc., a recently formed management-music complex, has expanded into the international talent field with the U. S. representation of the prize-winning Spanish film, "La Tia Tula," a flamenco troupe and art show.

The move by the firm's packaging wing, Kaleidoscope Productions, is its first thrust into serious concert talent since opening for business. Rock managers Mike Martineau and Sam Gordon, whose talent includes Free Design, the Good Earth Trio, Brian Hyland and Eddie Simon — younger brother of Paul Simon of Simon & Garfunkel — will represent the group on an upcoming U. S. university tour. The thrust into serious concert talent ties in with the firm's policy of preparing pop acts for concert, college and adult markets.

Beach Boys Tripped Up by Past; Turtles Take Past in Fine Stride

NEW YORK — Four groups, differing in experience, style and effect played Fillmore East on Oct. 11 and 12. The headliners on each night were acts which were more successful in the past: the Beach Boys on Oct. 11 and the Turtles on Oct. 12. The

success of the latter was far more than the effect of the former in the first show each night.

Creedence Clearwater Revival, making its New York debut, gave a heavy blues program with John Fogerty starring as vocalist and lead guitarist both nights. The New York Rock & Roll Ensemble, who appeared on Oct. 12, scored with their varied program, which ranges from classical to rock.

Most of the interest was centered on the Beach Boys, and the Capitol artists brought their songs of surfing and their fans to the East Village theater. Their performance included many of their former hits, such as "Help Me, Ronda," "Barbara Ann," "California Girls," "Darlin'," "Sloop John B," "Fun, Fun, Fun" and "Surfin' USA."

Fails to Ignite

But the title of another past hit, "Wouldn't It Be Nice," is more of a clue to the problem these artists faced. It would be nice if this exuberant outdoor music were still in the mainstream of today's pop music. But it sounded pale. Even the familiar solo vocal work of Carl Wilson and Al Jardine failed to ignite any spark.

The audience, which included many parents with younger children, was more teeny-bopper than the usual hip East Village crowd. The first show's attendance was about 1,900. Fewer persons attended the following night, but they enjoyed a better program.

Similarly, the Turtles relied on past hits, such as "You Baby," "It Ain't Me Babe," "She'd Rather Be With Me," and "Happy Together." But there were many differences. The Turtles are one of the best hard rock groups around and showed it.

The good-natured clowning, especially by Mark Vollman, still goes over. And, the Turtles could draw on a current hit "Elenore," plus several selections, including title song of their new White Whale album "The Battle of the Bands."

Take-Off

Curiously, even old-fashioned clowning, such as having a group of star-spangled marching girls come out during the concluding "We'll Meet Again" seemed like pure take-off. And, take-off, in varying forms, is a part of today's scene. Vollman, a stocky performer, did a semi-strip tease by removing his shirt during the number.

Howard Haylan, the lead vocalist, was strong throughout and joined Vollman, his fellow vocalist in some of the clowning. Bass guitarist Jim Pons used his low voice in "Too Much Heartsick Feeling," a country number from the new album. Drummer John Barbata, a steady performer throughout, had one good solo number. While guitarist Al Nichol had no extended solo, he also was steady as was Pons.

Creedence Clearwater Revival, who are riding high with "Suzie Q," made a fine impression both nights, but the Fantasy artists probably were a hair better on Saturday. Fogerty has a fine blues voice and plays guitar expertly, often with mandolin effect. He also can use feedback effectively. The other three musicians in the group,

drummer Doug Clifford, bass guitarist Stu Cook and rhythm guitarist Tom Fogerty, also were strong performers.

Their "Suzie Q" is an extended number with a long instrumental section giving John Fogerty a chance to excel. Screamin' Jay Hawkins' "I Put a Spell on You" was another top selection from the group's initial album as John Fogerty's voice admirably put the contemporary blues number over.

Other effective songs from the Fantasy album were "Walk on the Water," "Porterville" and "Ninety-Nine and a Half (Won't Do)." "Good Golly Miss Molly" and "Born on the Bayou" also were aces by this top new San Francisco quartet.

Rock & Roll Ensemble

It took a few numbers to catch on to what the New York Rock & Roll Ensemble was up to, but, after those opening numbers, the Atco artists had clear sailing. The turning point was the following of a movement from Bach's "Trio Sonata No. 1" by "A Whiter Shade of Pale."

In the former, Mike Kamen and Marty Fulterman played oboes, while Dorian Rudnytsky played cello. Then, Kamen went to the organ and Cliff Nivison went to drums, the only essential instrumental change from the selection's original Bach source. Brian Corrigan, a good soul singer, as is Kamen, took the vocals.

"Chain of Love" and "Sunshine of Your Love" were among the good pop numbers as Nivison went to his accustomed lead guitar spot with Fulterman on drums and Rudnytsky and Corrigan also on guitar. In addition to his strong vocals, Kamen was excellent at organ, including many classical progressions, including a brief opening and closing selection. This quintet, a superior group of musicians, is helping to demonstrate that the barriers between pop and classical music are breaking down. All four acts were making their first Fillmore East appearances.

Aretha Wailer, Wooser, Winner

NEW YORK—When Aretha Franklin, eyes closed, soars into "Dr. Feelgood," crowds shiver, gold records flash by like daydreams and a moody Detroit girl has kept her own promise of winning. On Sunday (13) Miss Franklin enjoyed her finest hour, sharing with her family and fans at Philharmonic Hall her winnings and how she won them—by wooing them with her kinetic soul music, available on Atlantic Records.

Whether digging into the piano or preaching at center stage, Miss Franklin can rebound from despair, climbing out of "Ain't No Way" into a delirious "Respect," confessing to being a link in the "Chain of

Fools," then persevering for peace in "We Shall Overcome." Her big voice, primed for frequent sprints through the octaves, gave way to a smaller, breathy ballad voice which, after wringing out the blues, would linger like a music box running down in an empty room.

Supported by the Sweet Inspirations, Miss Franklin shared the evening's laurels with Cissy Houston, the group's lead, who buoyed "Ain't No Way" and "Say a Little Prayer" with her sparkling counter harmony and bursts of gospel grandeur. On their own, the Sweet Inspirations sang "Sweet Inspiration," their first disk for Atlantic, "Unchained Melody," their latest, and "Alfie." But Miss Houston's soaring soprano stunned the audience to gasps of disbelief and wild applause. The revelation of the Inspirations to New Yorkers and "downtown" audiences should catapult this back-up group to the front of the class acts, and Miss Houston to the heights of recognition now enjoyed only by Aretha Franklin.

The Drifters, another Atlantic group, rounded out the show with a medley of their oldies, but the evening belonged to soul queen Aretha Franklin by popular acclamation and to Cissy Houston on the strength of her future—and to 4,900 soul fans who put them there and made them winners. ED OCHS

NAZZ FETE IN L. I. THURSDAY

NEW YORK — Nazz, SGC Records group, will be honored at a "Nazz Day" celebration at the Great Neck (L. I.) High School Auditorium Thursday (24) prior to their departure for England. The group, which comes from Philadelphia, has been living in Great Neck for the past year.

The "Nazz Day" concert will also feature the Soft White Underbelly, another rock group that has been living in Great Neck.

'Megilla' a Folk Tale Which Comes to Sparkling Life

NEW YORK—"The Megilla of Itzik Manger," which opened on Wednesday (9) at the Golden Theater, is an entertaining vaudeville version of the Bibli-

cal Purim story expertly played. Although most of the music and much of the dialog is in Yiddish, English commentaries by Joe Darion, lyricist of "Man of La Mancha" and "Illya Darling," make the work easy to follow. Columbia has original cast rights.

Three of the six-member cast belong to the Burstein family of Israel and what a marvelous trio of performers they are. Pesach Burstein displayed a farcical comic flair as he handled a variety of parts. In "Sa Mechaye" he had a good happy number as the king.

Lillian Lux (Mrs. Burstein) also played a variety of roles as did the rest of the cast. Her big solo "A Mother's Tears," a sorrowful number.

But, the lion's share of the acting and singing honors went to Mike Burstein, their son, who handled The English commentaries as well as a multitude of roles. Here is a magnetic performer with sparkle and a good voice, a performer who would be a standout in any language. "Fastrigossa's Lament" was a tender selection for him, while in "Fly Little Bird," he had another gem aided by members of the company.

The other three cast members also were quite capable: Susan Walters, a lovely Queen Esther; Zisha Gold, a topnotch comedian; and Ariel Forman, whose singing provided valuable support.

The music of Dov Setzer is appealing, although, in only "Cause Uncle Mordecai Is So" (Continued on page 102)

Joao Gilberto at Rainbow Grill—Soft & Soothing

NEW YORK—At his Rainbow Grill opening Oct. 7, Joao Gilberto displayed that he is a master of the understatement. His voice was custard soft and carried authority embedded in the traditional Brazilian bossa nova beat.

He played on guitar, au naturel, free of electronic gimmicks. The newly signed Mercury Records artist, who will perform on Limelight label, sang all seven songs in Portuguese, including "Girl From Imparnema" and "The Trolley Song," while giving his three fine musicians, drummer, pianist and a rhythm-maker freedom to express and shine individually. The set was a short one, and although there was a sameness in presentation, it was soothing and pleasant on the ears.

Teddy Wilson proved an engaging performer, substituting for Jonah Jones, whose mother died. Jones and his group were rescheduled for Oct. 11. The light-fingered jazz pianist and his duo were in top form, with Wilson giving his cool brand of jazz the flavor and excitement he's been known for these many years. ROBERT SOBEL

Grape, Pie Tasty Rock Recipe

NEW YORK—Moby Grape had a powerful set at the Cafe Au Go Go on Wednesday (16), but a newer group, the Apple Pie Motherhood Band, almost stole the show, surprising a large audience, which responded more enthusiastically for the Boston unit. The management announced it was attempting to extend the stay of the Apple Pie Motherhood Band, originally slated for three days, for at least an additional week.

Moby Grape was strong musically throughout. Now a four-man unit, the Columbia Records artists faced each other during most of the set, positioned in almost diamond formation. An exception was lead guitarist Jerry Miller, who occasionally turned to face the audience. But the quartet was all business as they blasted their way through much of the set.

Miller's guitar playing was first grade, while guitarist Peter Lewis, usually handling rhythm,

and bass guitarist Bob Mosely supplied heavy support. Steady work also was turned in by drummer Don Stevenson.

While all four participated in the vocals, it generally was the strong bluesy voice of Mosely or the combination of Lewis and Stevenson who carried the lead. Much of the material was from their first Columbia album, "Hey, Grandpa," and "8:05," which Lewis and Stevenson led, and "Mr. Blues," a good number for Mosely.

"Omaha," also from the first album, concluded the set in top fashion as Mosely, Miller, Stevenson and Lewis participated in the vocal. "Sitting by the Window" was another good selection.

The Apple Pie Motherhood Band's opening number, "Born Under a Bad Sign," which also opens the group's debut album on Atlantic, was an indication of things to come. Bruce Paine, the quintet's new lead singer,

displayed a strong voice, which can wail blues. Later he was to show he also can handle softer ballad material well. Lead guitarist Ted Demos and organist Jeff Labes were excellent, while Dick Barnaby demonstrated he was one of the better bass guitarists around. Drummer Jack Bruno also was a solid asset.

In "Ice," another number from their album, Demos assisted Paine on vocals. One element of the group's sound came through here was the reinforcing by Labes on organ to Demos on guitar. Barnaby also joined in on vocals in "One Step From a Rainbow."

Touches of humor were evident in several numbers, especially "You Can Get It at the Hotel Albert." "Silent Smokey Town" was a good ballad with Paine and Demos on vocals. Then came "Rush" and what a big closing number that was.

The quintet was joined by Don-

CREEDENCE FINDS WAY IN '60'S WITH SOUND OF '50'S

SAN FRANCISCO—A new name with ties to past musical forms has spelled success for Fantasy's first major pop/rock band, Creedence Clearwater Revival.

The group, whose single "Suzy Q" has helped gain national airplay for Fantasy, the veteran jazz label, was formerly known as the Golliwags.

The quintet, which is composed of Bay Area residents, met in high school and became the Golliwags in 1965. The act lasted until this year, when the funny hats and bubble gum image gave way to the present group.

"Suzy Q" is based on rock sounds of the 1950's, says John Fogerty, the group's chief writer. The style preferred involves a lead voice with answering voices rather than a group vocal sound. At in-person appearances the group tries to hold down its volume and to re-create its recording sound.

Fogerty feels rock music is becoming too ethereal. "There's too much thinking going on about the music. Rock is the medium of the common people. It's the easiest identifiable music, but the tendency is to get too intellectual."

The group prefers the simpleness of pure rock forms, rather than the complexities which many of the progressive rock bands are espousing.

Before their single broke, the group was earning \$800 a month. Their present one-nighter rate is now in the \$2,500 to \$3,500 range. When the group played Disneyland recently, it got \$3,000 for one night's performances.

Burton Leads Quartet in Scintillating Performance

LONDON — In a 10-day session at Ronnie Scott's club, before leaving on a tour of Continental Europe, the Gary Burton Quartet justified their reputation as one of the most imaginative, original and resourcefully creative units on the contemporary jazz scene.

Guitarist Jerry Hahn is proving to be a natural successor to Larry Coryell and in bassist Steve Swallow and drummer Roy Haynes, Burton has a superb rhythm section which is both musical and muscular.

But it is, above all, the leader's great maturity as a musician which puts this quartet into the front of the exponents of small group jazz. Burton's breathtaking technique is never allowed to subjugate his qualities of melodic and harmonic inventiveness—a surprising example of self-discipline in a young musician who has such

immense mechanical skill at his command.

As well as having one of the best vibraphone sounds to be heard today, Burton is doing things on the instrument which no one else has done—and not merely for the sake of doing them. He approaches his solo spots, in which the other three musicians lay out, like a pianist—sketching in the harmonies with his left mallets while his right pair delightfully embellish songs like "My Foolish Heart" and "No More Blues."

One of the groups spearheading the movement toward a fusion of jazz and pop, Burton's nevertheless remains essentially a jazz unit despite sartorial and tonsorial concessions to pop culture and the introduction of electric bass for certain numbers.

With Swallow on electric bass, the group achieved a Memphis-type rhythm sound on an untitled blues but while the rhythmic foundation was pure rhythm and blues, the improvisations were scintillating, sophisticated modern jazz.

'Busters' Ban Is Won by Hirt

LOS ANGELES—A permanent injunction has been obtained by Al Hirt in State Superior Court prohibiting Crown Records, Cadet Records and others from "manufacturing, advertising, distributing or offering for sale or selling or causing or permitting to be offered for sale" an album called "Al Hirt the Dawn Busters," which was marketed by Crown and Cadet without Hirt's permission.

Hirt, an exclusive RCA artist, contended that the album was a fraud upon the public and that the tapes were never intended for use as a master for an album. An album with a similar title previously appeared on Wyncote, but an agreement reached in 1965, while Hirt and RCA were proceeding against Wyncote's parent Cameo-Parkway Records, Inc., provided for the destruction of such albums and prohibited their sale.

NARAS Sets 2d Showcase

Last year's young performers included rock, folk, jazz and classical artists. Emphasis is on recording potential. Joe Lee Wilson, who participated last year, has since appeared on several national TV shows.

COMPARE THESE UNIQUE FEATURES

OVER TWO YEARS IN DESIGN AND DEVELOPMENT — PAT'S. PEND. U.S.A. & FOREIGN COUNTRIES

SIMPAC FIVE TOTAL PARTS

A hinged case, two hubs, a magnetic shield, and a pressure pad make up the complete cassette. No extra pins, rollers, blankets, screws, wedges or other parts—they were not merely deleted, the need for them was wholly eliminated by an entirely fresh design approach.

SIMPAC SELF-CLOSING, SELF-LOCKING, HINGED CASE

Simply fold the hinged case together, slide the top half forward to the snap lock position—you now have a firmly closed and locked Simpac Cassette. Eight wholly concealed internal locking points ensure complete perimeter integrity, and no special equipment is required.

SIMPAC CONCEALED QUICK RELEASE

Insert a simple tool in a very special place and "open sesame"—ready for internal correction or adjustment. No assembly line rejects with the Simpac Cassette because it can be fully reopened and reclosed again in less time than it took you to read about this very unique feature.

SIMPAC UNIQUE HUB DESIGN

The interconnection of hubs and exterior case in the Simpac Cassette is totally new. The hubs are designed to be self-positioning and they actually interlock with the bearing surfaces of the case; no lost motion in assembly, no chance of being dislocated in use. This unique design feature, in combination with the high degree of lubricity inherent in our specially formulated plastic, also reduces friction to the level that all need for super slick blankets is eliminated—in fact, the use of such blankets would actually impair performance of the Simpac Cassette.

SIMPAC HUBS WITH INTEGRAL TAPE GRIP

No more tiny bothersome parts for attaching leader tape to hub. Molded as an integral part of every hub, the Simpac tape grip provides a quick, positive lock. The Simpac hub provides the assurance of a smooth, perfect circle wind, because once the tape grip is closed a perfectly round hub is formed.

SIMPAC NEW PRESSURE PAD CONCEPT

The Simpac Cassette utilizes a totally different pressure pad from anything else you may have seen (see illustration.) This, the heart of the Simpac Cassette, has been engineered to provide superior head contact to ensure optimum communication between the tape surface and the pick-up head, so essential for maximum fidelity at 1-7/8 i.p.s. In addition, a minimum area of surface drag against the tape reduces distortion and tape wear. Intimate surface contact with the pick-up head, a constant spring pressure factor throughout the full throw, an omni-directional flexibility, a constant memory under all playing conditions, and actual surface contact with the tape only where desired, are all design characteristics of this new pressure pad.

SIMPAC UNIQUE TAPE GUIDANCE SYSTEM

No need for additional parts to ensure a smooth, effortless flow of tape—the guidance system is completely molded into the cassette case. The marriage of imaginative design with a plastic selected for its inherent lubricity as well as its other favorable characteristics ensures performance equal or better than what you have experienced. A special corner post design (see illustration) eliminates sharp angle turns the tape must negotiate in its travel. This, combined with a low friction "touch point" concept, low friction plastic material, and close tolerance guidance throughout, provides a smooth, controlled flow with minimum drag. Incorporated into the corner post design is an additional feature that retains the tape in position even while the cassette is open during loading or assembly.

SIMPAC SPECIAL PLASTIC FORMULATION

Most cassettes today are molded out of the styrene family of plastics. But, the higher the quality of styrene, the greater the rubber content and, of course, the higher its coefficient of friction—hence, the need for teflon blankets, Delrin reels and numerous special parts incorporated in other designs to reduce drag. Simpac utilized a totally different plastic formulation specially developed out of the polypropylene family of plastics that provides, we believe, the most perfect combination of material characteristics yet attained for injection molding of cassettes. Strength, durability, impact resistance, memory, lubricity, flexibility, "moldability," and excellent stability over a wide temperature range were the chief characteristics we demanded for the plastic material to be used in Simpac Cassettes—we accepted no less.

SIMPAC WRAP-AROUND LABEL DESIGN

The cartridge industry long ago converted to one-piece wrap-around labels. Many of the reasons for this change apply to cassettes as well. In addition to single step label applications, a large area exists for artwork and printed material and the back edge becomes available for use as well. Though adapted for use of a wrap-around label, the Simpac Cassette will just as easily accept standard labels if you are not yet ready to make the change.

SIMPAC ADDITIONAL SPECIAL REFINEMENTS

Just to name a few—slotted tape window with bevelled tape guide, "A" and "B" side markings molded in, press fit design for retaining magnetic shielding strip and pressure pad, attractive color, attractive texturing, etc. etc. etc.

SIMPAC RAPID ASSEMBLY — LOW COST

Five total parts, self-closing hinged case, self-positioning hubs with integral tape grip, and a fully molded integral tape guidance system, all spell out simple, rapid assembly. Savings in assembly, in parts inventory, in the reduction of rejects, in the application of labels, in avoiding expensive special equipment, and in reduced returns from your customers all add up to increased profits. There is one other feature of the Simpac Cassette that will help increase your profits too; write us for our price quotes—we will spell it out for you. In fact, superior performance at low cost is what this Simpac "breakthru" is all about.

LEISURE TIME TIPS

by: Larry Finley

One of the nicer people in the record business is Sam Goldner of Gamble Records. From a very small beginning, less than two years ago, and with a very small catalog, Gamble Records is one of the better examples of success in the record business. With two best sellers in release, "The Intruders Are Together" and "The Intruders—Cowboys to Girls," Gamble is about to release another album which is sure to be a chart-buster. The title of the album is "The Best of the Intruders" (NAL number GB-85005) and will be released within the next 10 days. NAL will release this album on NAL's SUPER STEREO 8 cartridge on a day-and-date release with the album. With NAL's 48-hour delivery shipments to its distributors, this means that dealers can order this cartridge from NAL distributors now so they will have it in time for the first general release.

With "Don Fardon—Lament of the Cherokee Indian Reservation" on the best-selling "singles" charts, Gene Norman of Crescendo Records is releasing an album of the same title. This too should very quickly hit the Billboard "Top LP's" list and will be available on NAL's SUPER STEREO 8 within the next 10 days. Dealers can order this from their NAL distributor by specifying the number CR-82044.

By the time this issue of Billboard is released, NAL will be making a 100% fill to its distributors. This includes all 12 volumes of the "Tennessee Sound" series, which is a twin-pak containing 20 top hits by 20 top stars of the country and western music field. This NAL SUPER STEREO 8 cartridge which has a suggested retail list price of \$6.95, instead of the usual twin-pak price of \$9.95, is the most revolutionary item to hit the stereo tape cartridge industry. With an attractive, specially designed 12-pak counter display, backed with window streamers and newspaper mats, this series can easily become the biggest selling series ever introduced.

Distributors are invited to call NAL by dialing direct on NAL's incoming WATS line, at no charge to them. Dealers are invited to use the same incoming WATS line to get the name of their nearest distributor. All one does is dial directly—800; 221-7270. This number is toll-free outside of New York State and distributors and dealers in New York State are invited to call COLLECT by phoning (212) 265-3340. Tape CARtridge

Distributors Form National Buying Assn.

By BRUCE WEBER

LOS ANGELES—Auto tape player distributors here are forming a nationwide buying association to strengthen the independent distributor.

Jerry Lippman, regional sales manager for California Auto Radio (CAR) the organization, Auto Sound Associates has about 25 charter distributors in eight States: Pennsylvania, Michigan, Nevada, Texas, Ohio, New Jersey, Florida and California.

The association plans to import from Japan a complete line of 4 and 8-track stereo tape players, compatible units, radios, radio and tape player combinations, reverbs, speaker kits and accessory items. It will market products under a new brand name, according to Lippman.

"With the aid of group buying power," said Lippman, "we will be able to meet the manufacturer's requirements to import from Japan on a direct import basis. Association members will have exclu-

sive control of the product line in a market area."

By joining forces, Lippman said, the association can advertise on a national basis, with additional benefit of retail displays and banners. Members also will have the advantage of a national warranty coverage made up by having a group member in each marketing area, he says.

Letter of credit and banking facilities have been set up requiring a 5 per cent or 10 per cent deposit with a member's initial order, explains Lippman.

In addition to auto sound equipment, the group will explore the home entertainment market.

Cap. to Sell Portable Cassette/Radio Unit

By ELIOT TIEGEL

LOS ANGELES—Capitol Special Products will begin marketing its first portable cassette player AM radio model within 10 days. The projected audience will be the "top 40 crowd."

The unit, the EPR 151, is manufactured by Kodana Chemical Industries of Japan and carries a \$29.95 suggested list.

The battery portable with AM radio "fills a void" in cartridge hardware, believes Oris Beucler, special products vice-president. Eight-track equipment does well in the home and auto, but pricing down an 8 player for the battery concept is difficult, he said.

AM as opposed to FM radio was included because of this desired age bracket, "which is the top 40 audience," Beucler said. The machine weighs three and one-half pounds and uses

GW Develops Home Antenna

LOS ANGELES—GW Electronics, specialist in FM CARtridge tuners, has developed a 30-inch antenna for home application which it believes will help open the home market to its kind of equipment.

The antenna, built by Standard Radio of Tokyo, is a \$4.95 item, presently being made available to GW's existing distributor-dealer organization. The antenna hooks to the back of any home unit and makes contact with the solid state circuitry of the FM unit.

GW began delivery of its first multiplex stereo unit, the \$59.95 Mark I, four months ago. It also offers an AM-FM model C100 plus a \$29.95 monaural FM-only unit.

NAS Sets Nat'l Franchise Chain

KANSAS CITY, Mo.—With a program keyed to full service, heavily promoted by local advertising, National Auto Sound is seeking to establish a nationwide chain of franchised car stereo centers. The operation, currently consisting of 11 pilot stores and two recently formed franchise units, is headed by Carl Galler. As originally founded some three and a half years ago, NAS was one-car stereo center called K.C. Auto Sound. Some seven months later, Galler added another store. Then, with a goal of establishing a franchise network, Galler and a

team of marketing consultants, Jonathan, James and Alan, began a two-year project to develop such a program.

Each NAS stereo center, under the franchise arrangement, will sell, install and service automobile and home stereo tape players, tape CARtridges, burglar alarm systems for the car and other automotive accessories. The operation may be part of an existing business which is related to the automotive market or it may be a new enterprise.

Under NAS's franchise program, each center functions in many ways similarly to a rack serviced outlet. While the franchise holder owns all inventory, he is continually serviced by the company's central office.

With regard to selling tape cartridges, for example, the store owner need only remove the peelable tag on each cartridge when it is sold, paste in on a special form and send it back to the central office. The

NEW FROM AUTOMATIC RADIO is this 8-track tape CARtridge player-FM multiplex radio. The unit, model EMX-6810, operates on a 12-volt negative DC electrical source. One of its features is a stereo station indicator which glows whenever an FM stereo station is being received.

NATIONAL AUTO SOUND, a chain of 13-stereo tape stores, is attempting to establish a nationwide franchise chain. Headquartering in Kansas City, Mo., the operation has set up a complete franchise program to fit existing automobile businesses such as car washes and auto glass installers as well as establish new car stereo centers.

during the model car year (September 1967-August 1968). And according to industry sources, the only factor inhibiting the 1968 sales figures from far exceeding 200,000 was the strike at Ford, halting all production during its peak season. General Motors accounted for more than half of the total number of players installed.

Ford, however, is extremely bullish about its 1969 stereo tape deck installations, predicting that more than 90,000 units will be factory-installed for this model year. The company equipped some 57,500 of its 1968 cars (Ford and Mercury divisions) with stereo tape players as compared with 77,000 and 75,500 in its 1967 and 1966 models, respectively.

The lion's share of factory installations were registered by Detroit's leading auto maker, General Motors. Of the total 195,700 cartridge decks installed, General Motors accounted for about 103,900. GM's Pontiac division posted the largest number, with more than 29,000 units. Chevrolet was second with 28,000, followed by Buick's almost 27,200 units. The 1968 model year was the first full year in which Buick offered a cartridge unit. The division first introduced stereo 8 in its line February 1967.

While Oldsmobile posted 19,500 installations, its Toronado model more than doubled its number over last year. During this model year, some 2,800 Toronado buyers (10.4 per cent of the model's total car sales) ordered cartridge decks as compared to 1,200 (5.5 per cent) for the 1967 model.

GM's Cadillac division has bowed its first stereo tape deck in its 1969 cars.

Chrysler Corp., which introduced its factory-installed, dashboard integrated stereo tape unit in its 1968 models, sold about 15,000 units. Only a dealer-installed hang-on unit was available for the corporation's 1966 and 1967 models.

American Motors equipped 3,200 of its 1968 models with stereo 8, as compared to 1,600 the year before. And Volkswagen, imported here by Volkswagen of America, installed about 16,000 8-track decks. Volkswagen, for its 1969 models, has switched over to the smaller Playtape 2-track cartridge player as its original equipment option.

(The above statistics include only factory-installed players and do not take into account dealer-installed hang-on units and after-market sales.)

WSVA-FM to Update Play

HARRISONBURG, Va. — WSVA-FM will shortly begin updating programming under the direction of radio veteran Bill Bivens, new station manager. The station presently plays albums end-on-end, but Bivens, an expert in middle-of-the-road programming, believes that "if there are two good cuts to an album, you're lucky. There's some good music on albums today, but you want to play the very best and give a larger variety." In this respect, he hopes to soon begin announcing the records and playing the choice cuts. The FM station is in the black and Bivens hopes to eventually install stereo broadcasting capabilities.

WGEE Goes R&B Format

INDIANAPOLIS — WGEE, 5,000-watt Rollins Broadcasting station here, has dropped all country music programming to aim for the Negro market exclusively with r&b music. The station formerly programmed country music half of the time, but now the daytime AM station will be r&b and all country music will be on WGEE-FM in stereo. A spokesman for the Rollins chain said that the change in programming on the AM station was a matter of economics . . . "the demand for the music was there." The stereo FM station is on the air 6 a.m. to midnight.

KNNN to Country

FRIONA, Tex. — KNNN, 250-watt station here, has just switched to a full-time country music format. Si Willing is president, Ted Lamora commercial manager, Fred Relyea is program director, Ken Kendrick is chief engineer, Donna Bargaquast handles news.

WOW Museum Set

OMAHA — WOW, which went on the air in 1923, will establish a broadcast museum located in the WOW building, according to Howard Stalnaker, vice-president and general manager of the station. The museum will be open by appointment for visitors and broadcasting students.

CAR to Bow Cassette Units

LOS ANGELES — California Auto Radio (CAR), manufacturer of 4 and 8-track auto stereo tape players, plans to introduce two auto cassette players next year.

The company will market one cassette unit in January for \$29.95, and will introduce a second model in March for \$39.95. It will sell the players in more than 400 auto specialty stores, including four CAR-owned retail outlets in Southern California.

Bob Maniaci, CAR president, said the company's emphasis will not primarily rest with the cassette players. Maniaci has expanded the firm's 8-track line by adding a \$79.95 player (model BM-900), and increased the 4-track line with a \$39.95 unit (model T-404). CAR has six 8-track models and three 4-track units.

CAR recently expanded into the psychedelic light equipment field with a line of auto and home units. It markets an auto light unit for \$29.95 and two home units, a \$39.95 model and a two-speaker, two-light unit for \$125.

cartridges between Oct. 1 of this year and Sept. 30, 1969.

"By next Thursday (31)," the RCA executive said, "we will have produced and shipped our 8 millionth cartridge. And by the end of next September we expect that number to exceed 18 million."

In commenting on his company's 8-track sales volume, Tarr said that RCA's tape cartridge sales, compared with record sales, are substantially above the 10 per cent figure given as the industry average. As for the RCA share of the market, Tarr indicated that the company's 8-track share is larger than its comparative share of the album market.

RCA, whose current production is believed to be about 680,000 cartridges per month, ships a percentage of cartridges to other nations worldwide. Tarr, however, said that the percentage is small, as the countries with larger 8-track markets duplicate their own product or American RCA masters. In Italy, for example, Tarr said, RCA will have a complete manufacturing facility operational by March 1969.

One of the keys in the company's success in establishing the 8-track concept as the major tape system has been its extensive advertising campaign. Within the past two years, RCA Records have spent almost \$400,000 in national consumer magazine advertising. No information was

available as to its local newspaper co-operative advertising program or its large radio spot advertising campaigns. This is also in addition to moneys spent by RCA's consumer electronics division for stereo 8 player advertisements.

Besides its own labels, RCA duplicates and distributes product for White Whale, Calandar, Gamble, Buena Vista, GNP Crescendo, Colgems and Diamond Records. All of RCA's 8-track cartridges are manufactured in Indianapolis.

London, Ampex Back Programs

CHICAGO—A series of hour radio programs on FM stations in four major markets is now being co-sponsored by London Records, N. Y., and Ampex Stereo Tapes, here. The shows are called the "London Phase 4 Stereo Hour," and include two advertisements for London and one for Ampex.

The stations involved are WTFM-FM, New York, WJMD-FM, Washington, KCBH-FM, Los Angeles, WKFM-FM, Chicago and WLS-FM, Chicago. With the exception of WLS, the programs are all aired at 7 p.m. Sunday. The WLS program is at 7 p.m. on Tuesday.

The series marks the first time Ampex has turned to advertising on FM radio.

Audio Magnetics Opening In Mexico: Exports Cassette

LOS ANGELES — Audio Magnetics Corp. has opened a plant in Mexico to export cassette product to more than 70 nations.

The new 10,000-square-foot facility in Tijuana is geared to produce about 30,000 blank tape cassettes a week, with expansion plans eventually giving the facility the capability of 100,000 cassettes a week.

Audio Magnetics, which recently leased 10,000-square-feet of additional storage space here, will set up four new cassette coating lines and six new slitting lines in the U. S. to feed its Mexican operation.

The facility in Mexico, a subsidiary of the U. S. firm, will have a staff of 200, with plans to double the plant in 1969, according to Irv Katz, Audio Magnetics president.

Equipment will be built here and shipped to Mexico, along with several technical advisers to put the operation into gear.

Israeli Plant

International plans, says Katz, include plants in India and Israel, as well as a closer look

at the Far Eastern and Australian markets.

In Israel, Audio Magnetics will construct a factory, Audio Magnetics Ltd., in the old city of Jerusalem. The 12,000-square-foot plant, operational in March, will be geared to handle reel-to-reel and cassette product. Katz will send several technicians to Israel to work with management directors.

Katz, looking for additional joint ventures in Brazil, South Africa, Europe and Central America, is currently touring Europe, the Far East and Cyprus.

He expects to be producing a million units a month in 1969 as a result of the domestic and overseas expansion program.

Audio Magnetics produces 20,000 cassette units a day—or 600,000 units a month—on a three-shift production line. The company, which just announced its entry into prerecorded cassettes, is capable of duplicating about 30,000 prerecorded cassettes a day.

Katz sees sales of more than \$12 million by the end of 1969.

NAS Sets Nat'l Franchise Chain

sold cartridge is then replaced through daily shipments. All inventory carries a 100 per cent obsolescence guaranty.

All cartridges stocked by NAS outlets are sold at full list price. "We have seen that we can do this and still be competitive," said Alan Pierce of NAS's marketing consultants, "because we offer complete service facilities, and an extensive inventory of cartridges."

Among the brands of tape cartridges sold by NAS outlets are Panasonic, Motorola, Tenna, Borg-Warner, Craig and Bowman.

NAS's franchise agreement places heavy emphasis on advertising and promotion. As part of the initial investment, a franchise holder must put up

about \$10,000 in escrow, which he must use for advertising during the first six months. Following that period, 12 per cent of the franchise owner's gross earnings are allocated to replenishing his advertising fund. Jonathan, James and Alan will guide the owner in setting up an effective campaign and will prepare and administer the program.

Cost of an NAS franchise is \$2,500 plus 3 per cent of the gross earnings, but the total minimum investment will vary from \$15,000 to \$40,000 depending on the location. NAS provides all displays, fixtures and installation equipment needed to open a franchise. Each operation bears the same motif, with red and white striped awnings and a car fully equipped with a tape cartridge player in the showroom.

Gospel Making Sharp Advances On Airplay, Asserts GMA Chief

MEMPHIS — Gospel music has made sharp inroads into radio station formats in recent years, according to Jim Myers, re-elected president of the Gospel Music Association (GMA) at its annual membership meeting here.

Myers, executive administrator and director of international relations for SESAC, said evidence of these inroads was presented at the Midwestern meeting of the National Religious Broadcasters in Chicago.

There was evidence, too, of interest at the GMA gathering here in co-operation with the National Quartet Convention, which drew record crowds to Ellis Auditorium.

Myers, under whose leadership the GMA has made huge strides, was an overwhelming choice to succeed himself in the presidential post. Bob McKenzie of Heartwarming Records was named chairman of the board, succeeding James Blackwood. Others elected with Hovie Lister, first vice-president; Paul Marks, second vice-president; Bob Benson, treasurer, and Marvin Norcross, secretary.

Membership Doubled

Membership in the GMA more than doubled at the convention, following an appeal highlighted by a sing-a-long. Bill Gaither, chairman of the program committee, devised the sing-a-long on a 30-minute notice, bringing together most of the quartets at the convention with audience participation. Following this Myers appealed to the audience for GMA support, and the result was a jump in active membership from 300 to some 700.

The four, RCA, Word/Canaan, Heartwarming and Skylite-Sing, held a length discussion session with the radio representatives, which had to be suspended for a general meeting.

After a break of several hours, the session reconvened and continued for two more hours. Plans were detailed for setting up distribution systems to the stations and expediting material to them.

SESAC Hosts Fete

SESAC hosted a Friday luncheon to a full house, and there were a few other social functions. Election of officers on Saturday morning was conducted with great decorum, including certification of all members at the door, and careful attention to all parliamentary procedure. It was established that the new board will meet Jan. 13 in Nashville.

Volume II of the special GMA album will be for sale in

the very near future. The singing groups will sell the inexpensive LP on the road, and individuals may buy it by direct mail from the GMA office in Nashville. SESAC will also purchase albums and place them in radio stations.

The newly elected members of the board of directors of GMA are Larry Orell (promoter), Bob Woltering (trade paper), Mrs. Lou Wills Childress (radio-TV), Tillie Lowery (disk jockey), Bernie Zonderman (publisher), J. D. Sumner (composer), Bob McKenzie (record company), Ed Shaw (performing license organization), Les Beasley (director-at-large) and Travis Wolfe (general membership).

PICTURED ABOVE are the four beauty queens who served as official hostesses for the Starday Truckstop Room (Hospitality Suite) during the "Opry" celebration. The Truckstoppers, part of Pure Oil Corp's Professional Models and Beauty Queens, include Miss Sharon Brown (former Miss U.S.A.), Miss Carrie Ann Willey (Lions Queen of Queens), Miss Patty Allen (former Miss Chicago) and Barbara Rucker (the reigning Miss Photoflash).

Horton, Reed & Dudley Drive To Victory in Music City Golf

NASHVILLE — Music Publisher Roy Horton, artist-writer Jerry Reed and insurance executive Guilford Dudley constituted the winning team of the fourth annual Music City Pro-Celebrity Golf Invitational Tournament here last week.

Touring golf pros Dave Marr and Frank Beard tied for the professional championship of the tourney with seven-under par 135's for the two-day circuit.

Among the also-rans were such names as Perry Como, Lawrence Welk, Pat Boone, Trini Lopez, Phil Harris, Chet Atkins, Bobby Goldsboro, Norm Cash, Jim Bunning, and Billboard publisher Hal Cook.

Peer-Southern's Horton,

RCA's Reed and Life and Casualty's Dudley combined for a net score of 117, 27 shots under par. The tournament was a financial success, and touched off a 10-day period of activity here which includes everything from an ASCAP groundbreaking (see separate story) to the 43d anniversary celebration of the "Grand Ole Opry."

Finishing just behind this year's team winners were last year's champions, Billy Maxwell, Ray Price, Jim Bunning and John J. Hooker Jr. Other leaders among the recording artists were Epic's Charlie Walker, Boone, RCA's Bud Logan, Epic's Bob Luman, UA's Bobby Goldsboro, RCA's Jim Ed Brown, and UA's Del Reeves.

The winning PGA pros each received a Grammer guitar valued at \$500, in addition to the prize money. One of the highlights of a pre-tournament party was the trumpet playing of touring pro Lionel Hebert, who teamed with Monument's Boots Randolph in some Dixieland music, with Phil Harris providing the vocal. Randolph then teamed with Chet Atkins, and Jerry Reed to provide music for Como, who sang.

Norm Cash, who came to the tournament from the World Series in St. Louis, sang country music with Decca's Webb

Ground Broken for 1st ASCAP Building

NASHVILLE — Ground was broken here Monday (14) for the first ASCAP building.

"Heretofore we've always had branches in someone else's building," said Stanley Adams, ASCAP president. "Now we have our first real structure." Adams indicated this was the start of a move to build others in the future.

The new building, fronting on both 17th Avenue South and the planned Music Row Boulevard across from the Country Music Hall of Fame and Museum, is right at the head of the industry area. The one-story facility will have 14 rooms, including a dining and galley area and a complete press room.

Noting that the date was the 125th anniversary of Nashville becoming the permanent state capitol of Tennessee, Adams said erection of the building would be "solid evidence of ASCAP's commitment to Music City's next 125 years."

Although ASCAP had an early foothold in the city through the efforts of the late Fred Rose, it had faded from the country music scene appreciably before Adams revitalized it in recent years. He has said it is his aim to cover half the charts with ASCAP country songs within a few years.

Adams was introduced by Ed Shea, newly named regional manager, who with Juanita Jones will assume the task of attaining Adams' goal. Among others taking part in the program were Wesley Rose, president of Acuff-Rose, whose father had been one of the early ASCAP stalwarts; Roy Acuff, Rose's partner; Roscoe Buttrey, representing the Nashville Area Chamber of Commerce; Vice Mayor Jerry Atkins, U. S. Congressman Richard Fulton and Gov. Buford Ellington.

Fulton and Ellington joined Adams in the groundbreaking ceremony. Guests who attended a special luncheon following the groundbreaking were presented glass-encased samples of soil taken from the earth on which the structure will be built.

THREE PAST AND PRESENT PRESIDENTS of NARAS gather at the Nashville Chapter's first seminar to hear Richard Frank discuss copyright law revision. Shown, left to right, are Charlie Lamb, executive secretary of the chapter; past presidents Bill Denny and Harold Bradley, and current president, Don Light.

Decca to Build \$3 Mil. Complex in Nashville

NASHVILLE—Bill Gallagher, MCA vice-president, Decca division, has announced that Decca will begin building a \$3 million complex here almost immediately which will include studios and administrative offices.

The all-purpose building will stand on 16th Avenue, next door to Columbia Studios, and adjoining the proposed Music City Building, another multimillion-dollar structure soon to go up.

Gallagher said work probably would begin right after the first of the year, and he foresaw a situation in which dedication could take place a year from now, during the "Grand Ole Opry" celebration and Country Music Association Convention.

The former Columbia executive was on hand for a party, hosted by Decca at Bradley's Barn honoring the elevation of Owen Bradley to a vice-presi-

dency in charge of the country product.

Plans for other buildings, previously disclosed in Billboard, were outlined by the local press this week. It included the 14-story Music City building, built by a group headed by Eddy Arnold; a new structure for Moeller Talent and Bill Mudson & Associates, with accompanying plans for expansion into other facets of the music industry; new buildings for Mercury Records and Glaser Publications; for Show-Biz, Inc., for Hill & Range, Tree and Cedarwood, and expansion of the existing facilities of RCA and Columbia.

Schory Tour Boasts Big Instrument Sound

CHICAGO—The eighth consecutive concert tour by Dick Schory and his Percussion Pops Orchestra is being billed as the group's most extensive and successful.

Now beginning the second week of the tour, the orchestra is traveling to 21 cities in 18 States, with every concert a virtual sellout. Although the week of Nov. 4 is set aside for recording, the tour does not end until Nov. 27.

"We're not musical crusaders," said Schory, vice-president of Ludwig Drum Co., "but we feel that the big band sound has remained muted long enough. It's our purpose to turn it loose bigger and better than ever in an imaginative style, as modern as tomorrow's music."

Schory features a panorama of drums, marimbas, vibraphones, timpani, xylophones and more than 250 other percussion instruments complemented by a 21-piece orchestra. Although emphasizing the sounds of percussion, the orchestra includes complete reed, string and brass sections to enable the musicians to provide rare and unique sounds ranging from the jazzy to full symphonic.

The musical program for the fall tour features more than 20 selections, including favorite Broadway show tunes, standards, movie themes and current top hits. The "something for everyone" portion of the program spotlights such selections as "Yesterday," by Lennon-Mc-

Cartney of the Beatles, "Born Free," "The Sound of Music" and "Thoroughly Modern Millie."

The Academy Award songs include "Moon River," "Call Me Irresponsible," "The Shadow of Your Smile" and "Days of Wine and Roses." Other current favorites in the program are "Up, Up and Away" and "Goin' Out of My Head."

A special jazz version of a Bach fugue in D Minor and a take-off on Offenbach's "Can-Can" are two of Schory's interpretations from the classical field. In addition each performance will feature individual members of the orchestra in serious concert works, including a contemporary work for solo percussion and jazz orchestra.

Pop Festival Bounces Back For Weekend Performance

SAN JOSE, Calif.—The San Francisco International Pop Festival apparently has fully recovered from an earlier setback due to cancellation of its contract.

Al Zaner of Top Star Productions, one of the promoters, reports that 10,000 tickets have been sold to date at \$5 a throw, giving the backers 50 per cent of their basic need to cover over-all expenses estimated at \$100,000. Four thousand of the tickets are for Saturday (26), the first day of the weekend event, and 6,000 are for Sunday (27).

The festival has been scheduled for the Alameda County Fairgrounds in Pleasanton with a total estimated capacity of 30,000 and a potential total door take of \$300,000. Among the artists scheduled to appear on Saturday are Jose Feliciano, Johnny Rivers, Eric Burdon and the Animals, Iron Butterfly, Fraternity of Man, Buddy Miles Express and Many More. On Sunday, the artists include the Chambers Brothers, Canned Heat, Procol Harum, Deep

Starting on the accordion when she was 10, Miss Rym-sza continued her studies until she completed the two-year senior course in teachers training, pre-college training, master solo class, ear training and accordion history under the direction of Stanley Darrow.

A member of the Philharmonia Accordion Orchestra, Miss Rym-sza will begin her studies towards a teacher's degree in music.

radio Station KYA, rock 'n' roll outlet for the San Francisco Bay Area.

Teischord Rock Organs Solve Service Hang-Ups

EVANSTON, Ill. — WMI Corp. has released a new line of five transistorized rock organs, each featuring the new quick-disconnect type of components that completely eliminate down time and professional service calls.

According to WMI executives, the new models, in addition to their outstanding service feature, provide the performance characteristics, styling, portability, versatility and price range to assure wide acceptance in today's market.

The three lower end models, B, C and D, all provide a bass section, while the new top of the line units, models CS and GS, offer the new "Sustain" feature with a new solid state circuitry. This permits the player to pyramid notes and chords into crescendos.

All circuits of the new Teischord rock organs contain quality selected computer transistors for complete reliability in use. They have been designed and built to withstand the frequent rough handling to which this type of instrument is frequently subjected.

However, should accidental damage ever occur, they will

never be out of commission for any length of time. The new snap-in / snap-out components eliminate the need for professional service calls. The musician simply unplugs the faulty unit and plugs in a new one. He's back in business within minutes.

The new series is designed for complete portability with no separate, cumbersome accessories to carry at any time. The legs on all models store neatly in a spring loaded recess in the lid or within the organ itself. Another new feature of the line is the patented method of attaching the lid to the back legs of the organ, serving to brace the instrument and at the same time provide a clean, neat appearing assembly in use.

The suggested list prices on the new models start at \$399.95.

THE NEW DANELECTRO SITAR is the result of years of research and development by the company. The instrument features a compound curved surface that adjusts to the height of the string action and the open string length. Other features include the fast action Danelectro neck and convenient chrome plated lap mount. The suggested list price is \$139.

WMI'S NEW LINE OF TEISCHORD rock organs includes model GS. The unit boasts the new "Sustain" feature with a solid-state circuitry that permits the player to pyramid notes and chords into crescendos.

THE LONG HORN SERIES by Coral features fully adjustable pickups and bridge and fully enclosed machine heads. Total shielding prevents static and interference from outside sources, while Coral's fast action neck is backed by a 25-year warp-free guarantee. The suggested list prices for the series range from \$199 to \$299.

Handy Course Triumphs At San Francisco State

By GODFREY LEHMAN

SAN FRANCISCO—The response to San Francisco State College's new course on improvisation of music was so overwhelming strong at the initial presentation Oct. 3 that it will be established as a regular part of the curriculum.

More than 100 persons attended the first meeting of the group, and ranged from professional musicians to interested students. Registration is expected to be at or near the capacity of 90 persons, according to college officials.

John Handy, who leads his own five-piece instrumental group, has been appointed "professor" for the course, and his rank is in fact on full professional level, according to Dr.

Edwin Kruth, co-ordinator of instrumental music and director of bands for SF State. Kruth also emphasized that though the course is new, "it is not experimental" and students will receive full credit.

About 60 men and 40 women attended the first session, which was not hampered in any way by the fact that Handy's leg is in a cast from toe to hip due to an injured Achilles tendon in the ankle. Several rock singers were among the enrollees.

Coincident with the new course is the issuance of Handy's latest album, the fourth on the Columbia label, entitled "Projections." It is the seventh made by the Handy group.

According to Handy, the Associated Students had committed itself "in spirit" to providing "enough money to make the class go and support outside demonstrations." Among those who will be called in will be Pops Foster, the venerable 76-year-old bass player, Handy's own group and Ralph Gleason, columnist for The San Francisco Chronicle, who will lecture. The talents of musicians in the class will also be used, as well as records, slides, motion pictures, and other local musicians.

SOUL SAUCE

BEST NEW RECORD OF THE WEEK
"WHITER SHADE OF PALE"
HESITATIONS
(Kapp)

By ED OCHS

SOUL SLICES: Motown finally broke its long silence last week to put down rumors and second-guessing on Motown's "inside" squabbles. Mike Roshkind, Motown's New York chief whose hidden "hot line" phone direct to Berry Gordy in Detroit tips off his power, brushed aside press reports on a Motown fizzle as common everyday business politics blown up by an over-curious public. He described Gordy's brain child as having grown faster musically than management could keep pace with, resulting in a lack of real business know-how. "Berry Gordy is a genius who learns faster than anyone I've ever known," said Roshkind about the man he describes as "harder to reach than the President of the United States." Though Diana Ross & the Supremes are clicking again with "Love Child," and Motown has registered a record six-month sales gain, David Ruffin looms as a Motown casualty loss with the Temptations in an on-again off-again state of affairs. So far, the group is together and working. . . . Get ready for the Impressions' first and fabulous album for Curtom. "This Is My Country," featuring their "Fool For You" smash and a gold mine of Curtis Mayfield tunes, will bust open the charts. Candidates for the group's next single: "Gone Away," "This Is My Country," "So Unusual" and "They Don't Know." . . . Bob Ringe, Queen Booking promotion man and friend of Soul Sauce, has joined GAC in the concert division, booking one-nighters and clubs. . . . Three days air play in New York has put Gloria Walker into the Apollo Theatre Friday (25) on the strength of her "Talking About My Baby" disk on the Flaming Arrow label, distributed by Atlantic. . . . Effie Smith, everybody's darling, has started her own label after jumping Shout Records. Her first release: "Harper Valley PTA Gossip." . . . David Ruffin, the multi-talented ex-Temptation, has been enjoined by a Detroit court from further violation of his contract. The court cited that Ruffin earned less than \$6,000 a year when he first joined up with Motown's management wing, IMC, until he earned more than that per week. But it may take more than a verdict to keep Ruffin tied to Motown. . . . When soul queen Aretha Franklin appeared at Madison Square Garden this past summer it was Sam & Dave who stole the show. This time, it was the Sweet Inspirations who split the spotlight with "Lady Soul," Sunday (13) at New York's Philharmonic Hall with their stirring harmony, alone or in support of Aretha. The first of the two shows that evening played to half a house. Is "Lady Soul" tottering on her throne?

★ ★ ★

FILETS OF SOUL: Nick Ashford and Valerie Simpson, known to soul scholars and record buffs who check the small print under the disk titles of Marvin Gaye & Tammi Terrell tunes as the Motown composing-production team of Ashford & Simpson—might make Motowners forget about Holland-Dozier-Holland in "record" time. Commuting between New York, their home base, and Detroit, Ashford & Simpson have already won raves for powering Marvin and Tammi's sweet soul duets, especially "You're All I Need," which topped the charts. After a brief shot with Scepter during which they penned "Let's Go Get Stoned" for Ray Charles, the duo switched to Motown and are now showcased on Marvin & Tammi's "You're All I Need" LP. They are currently tearing up the charts with the hit duo's "Keep On Lovin' Me, Honey" and the Marvelettes' "Destination: Anywhere." The team tips Soul Sauce on a new Motown discovery, Blinky Williams, who debuts soon with "(I Wouldn't Change) The Man He Is." . . . Dave McAleer writes from England that the Marbles' disk, "Only One Woman" on Cotillion, is makin' fire. The British soul duo has yet to score heavily in the States. McAleer also mentions the publicity that greeted the marriage of ex-Orlon Rossetta Hightower and ex-Ikette P. P. Arnold. Big British following, he adds, for goldies featuring groups like the Harptones, Orioles, Flamingos and Chantels. . . . Kapp's Unifics will be toasted for the press at the Playboy Club here, Thursday (24), as their first LP, "Sittin' In at the Court of Love," nears completion. The soul group plays the Apollo, starting Friday (18). . . . John Bennings of the Laurie-distributed Spectrum label wants to clue deejays that his new "Soul Touch" record by Ronnie Mitchell is talking 'bout the soul handshake—a slap on the palm. . . . A new soul group, And The Echoes, finished their first week at the Arthur discotheque are wrapping up a recording pact. . . . SOUL SAUCE

BEST NEW RECORD OF THE WEEK
"WHITER SHADE OF PALE"
HESITATIONS
 (Kapp)

By ED OCHS

SOUL SLICES: Motown finally broke its long silence last week to put down rumors and second-guessing on Motown's "inside" squabbles. Mike Roshkind, Motown's New York chief whose hidden "hot line" phone direct to Berry Gordy in Detroit tips off his power, brushed aside press reports on a Motown fizzle as common everyday business politics blown up by an over-curious public. He described Gordy's brain child as having grown faster musically than management could keep pace with, resulting in a lack of real business know-how. "Berry Gordy is a genius who learns faster than anyone I've ever known," said Roshkind about the man he describes as "harder to reach than the President of the United States." Though Diana Ross & the Supremes are clicking again with "Love Child," and Motown has registered a record six-month sales gain, David Ruffin looms as a Motown casualty loss with the Temptations in an on-again off-again state of affairs. So far, the group is together and working. . . . Get ready for the Impressions' first and fabulous album for Curtom. "This Is My Country," featuring their "Fool For You" smash and a gold mine of Curtis Mayfield tunes, will bust open the charts. Candidates for the group's next single: "Gone Away," "This Is My Country," "So Unusual" and "They Don't Know." . . . Bob Ringe, Queen Booking promotion man and friend of Soul Sauce, has joined GAC in the concert division, booking one-nighters and clubs. . . . Three days air play in New York has put Gloria Walker into the Apollo Theatre Friday (25) on the strength of her "Talking About My Baby" disk on the Flaming Arrow label, distributed by Atlantic. . . . Effie Smith, everybody's darling, has started her own label after jumping Shout Records. Her first release: "Harper Valley PTA Gossip." . . . David Ruffin, the multi-talented ex-Temptation, has been enjoined by a Detroit court from further violation of his contract. The court cited that Ruffin earned less than \$6,000 a year when he first joined up with Motown's management wing, IMC, until he earned more than that per week. But it may take more than a verdict to keep Ruffin tied to Motown. . . . When soul queen Aretha Franklin appeared at Madison Square Garden this past summer it was Sam & Dave who stole the show. This time, it was the Sweet Inspirations who split the spotlight with "Lady Soul," Sunday (13) at New York's Philharmonic Hall with their stirring harmony, alone or in support of Aretha. The first of the two shows that evening played to half a house. Is "Lady Soul" tottering on her throne?

FILETS OF SOUL: Nick Ashford and Valeriee Simpson, known to soul scholars and record buffs who check the small print under the disk titles of Marvin Gaye & Tammi Terrell tunes as the Motown composing-production team of Ashford & Simpson—might make Motowners forget about Holland-Dozier-Holland in "record" time. Commuting between New York, their home base, and Detroit, Ashford & Simpson have already won raves for powering Marvin and Tammi's sweet soul duets, especially "You're All I Need," which topped the charts. After a brief shot with Scepter during which they penned "Let's Go Get Stoned" for Ray Charles, the duo switched to Motown and are now showcased on Marvin & Tammi's "You're All I Need" LP. They are currently tearing up the charts with the hit duo's "Keep On Lovin' Me, Honey" and the Marvelettes' "Destination: Anywhere." The team tips Soul Sauce on a new Motown discovery, Blinky Williams, who debuts soon with "(I Wouldn't Change) The Man He Is." . . . Dave McAleer writes from England that the Marbles' disk, "Only One Woman" on Cotillion, is makin' fire. The British soul duo has yet to score heavily in the States. McAleer also mentions the publicity that greeted the marriage of ex-Orion Rossetta Hightower and ex-Ikette P. P. Arnold. Big British following, he adds, for goldies featuring groups like the Harptones, Orioles, Flamingos and Chantels. . . . Kapp's Unifics will be toasted for the press at the Playboy Club here, Thursday (24), as their first LP, "Sittin' In at the Court of Love," nears completion. The soul group plays the Apollo, starting Friday (18). . . . John Bennings of the Laurie-distributed Spectrum label wants to clue deejays that his new "Soul Touch" record by Ronnie Mitchell is talking 'bout the soul handshake—a slap on the palm. . . . A new soul group, And The Echoes, finished their first week at the Arthur discotheque are wrapping up a recording pact. . . . Program Directors Pick New Records

• Continued from page 1

Only at 30 per cent of the Hot 100 format stations are the records picked by the program director. Another 20 per cent of the Hot 100 format stations still use a panel of deejays; at 4 per cent, the station manager picks the records.

At country music stations, the majority—56 per cent—of the stations have a music director who picks new records. At another 31 per cent of the stations, new records are picked by the program director. It should be noted that this survey covered both large and small market stations. However, even in the major markets at country music stations the program director duties are often held by a personality, who in many cases also has the music director duties to fulfill.

At 50 per cent of the r&b stations, records are chosen by a music director, while at 19 per cent of the stations the new records are selected by the program director, and deejay panels at another 31 per cent of the stations co-operates on the record selection.

Less Control

When it comes to the actual playing of the records, the Hot 100 (Top 40) deejay seems to have less control of his music than his brethren at stations playing other types of music. For example, the survey revealed that only 56 per cent of the Hot 100 format stations allowed the deejays to pattern their own show from the playlist. Sixty-seven per cent of the easy listening stations allowed deejays to pattern their own show from the playlist. At country music stations, deejays have less restrictions and 84 per cent of the stations stated in the survey that deejays were allowed to pattern their own shows. R&b deejays, however, seem to be freer than any other because 85 per cent of the stations reported that deejays had control of their own music from the station's playlist . . . and were allowed to play any record they wanted to from the list.

At the same time, it seems obvious that r&b radio stations may play fewer records per hour than other format stations. Seventy-seven per cent of the stations in the r&b formats reported that they only played 10-15 records

per hour. Whereas, 69 per cent of the country music stations estimated that they played about this many records per hour, 62 per cent of the easy listening format stations said they played between 10-15 records per hour, and only 47 per cent of the Hot 100 format stations played this many records on the average per hour.

In fact, 50 per cent of the Hot 100 format stations reported playing between 16 and 20 records on the average per hour and 3 per cent reported playing between 21 and 25 records per hour. Only 2 per cent of the easy listening stations reported playing an average of more than 20 records per hour. Country and r&b stations reported all playing less than 20 records per hour as a rule.

Album in Favor

The album seems to be growing in favor as programming material. Seventy-three per cent of the r&b stations reported playing more album cuts than ever before. Sixty-one per cent of the Hot 100 format stations reported playing more album cuts; 50 per cent of the country stations are playing more album cuts than before. Only 46 per cent of the easy listening format stations are playing more album cuts (of course, the easy listening station has always leaned heavily on the LP cut as programming material). In fact, 100 per cent of the easy listening and country stations reported they were now playing album cuts. At the present time, only 80 per cent of the Hot 100 format stations and 62 per cent of the r&b stations are playing album cuts.

Surprisingly, the long playlist is still dominant among Hot 100 format radio stations—29 per cent reported that their playlist was between 50 and 60 records; 11 per cent reported their playlist ran between 70 and 80 records. Twenty-three per cent of the Hot 100 format stations reported their playlists running about 40-50 records; 14 per cent said they were playing between 30-40 records; 3 per cent reported playing less.

E.L.'s Longer

As a rule, easy listening stations use longer playlists than any other format. Fifty-nine per cent of the easy listening stations stated their playlist was more than 100 records; 11 per cent said their playlist ran be-

tween 50-60 records; 10 per cent said between 40-50 records.

As an illustration of the growth of the new modern type of country music station across the nation, 17 per cent of the country music stations reported a playlist averaging between 40-50 records, another 15 per cent said their playlist ran about 60-70 records. A large number of country stations, however, 23 per cent, still use playlists of 100 records or more. About half of the country music stations play less than 70 records.

Among r&b stations, 46 per cent reported having 40-50 records on their playlist, another 31 per cent of the stations said they carried between 50-60 records on their playlist; 15 per cent said they played less than 40 records.

However, it is interesting to note that although 52 per cent combined of the Hot 100 format stations have between 40-

60 records on their playlists, a total of 43 per cent of the Hot 100 format stations said they played between 20-30 records most frequently; 23 per cent said they played 10-20 records most frequently.

Easy listening stations, as a general rule leaned less on a given few records, while 29 per cent of the country music stations said they play 10-20 records on their playlist most frequent, and 55 per cent of the r&b stations said they played 10-20 records most frequent. This question showed beyond doubt that, regardless of how many records a station carries on their playlist, the actual number of records played over the air is much, much less. Only easy listening stations could show they gave somewhat reasonable exposure to a large portion of the records on their playlists; in fact, some 35 per cent of the easy listening sta-

tions said they played 80 or more records frequently.

The majority of Hot 100 format stations—58 per cent—expose between five and 10 new records each week and another 12 per cent adds about 10 to 15 new records to their playlist each week. Eighteen per cent of the Hot 100 format stations said they added five or less new records to their playlist each week.

Among easy listening stations, the majority—33 per cent—also reported adding five to 10 new records each week to their playlist; only 17 per cent reported adding an average of five or less. Thirty-five per cent reported adding 15 new records or more each week.

5-10 New Disks

Fifty-six per cent of the country stations said they added five-10 new records each week; 17 per cent said they added only

Progressive Rock Format Stirs Theories by Two FM Stations

By CLAUDE HALL

NEW YORK—The theories on programming a progressive rock format continue to rage. On one hand, you have WNEW-FM general manager George Duncan arguing that the "music is so vital the deejay has to stay out of its way" and, on the other hand, WABX-FM station manager John Detz insists his deejays get vitally involved; they're constantly out at local psychedelic palaces like the Grandee in Detroit and "not one guy goes home and listens to Sinatra." Detz believes that a new kind of radio is coming out of progressive rock.

Duncan, who heads up the pioneer pathfinder New York progressive rock station also feels that progressive rock radio is distinctly different that "it separates you from being FM and makes you a solid radio station." One thing for sure, he feels that progressive rock radio stations don't have to sell the music, that "the audience is there," but that, above all, we're radio men and we're trying to learn the proper way to do this type of radio. We'll probably never stop learning . . . the book hasn't been written yet about progressive rock radio.

The exciting thing about progressive rock music, Duncan said, is "it's the medium young people are using to express themselves and their feelings . . . uniquely, because they're doing

it in music rather than in literature. Just by playing this music, we have a chance to be part of a social movement."

Duncan, always willing to help other stations with advice about this type of format, feels it would work equally well in smaller markets. "The premise is that the music is being played because it's good. Acid rock, or experimental rock, if it comes to 5 per cent of our programming, is a lot. The majority of the music is played because it has redeeming musical values. In a smaller market, I might blend in more normal rock. The one ultimate is the type of age group you want to appeal to. Acid rock is perhaps a little stiff for teenagers," he said, but he felt that groups like the Cream have an intellectual appeal and that "the larger the market, the closer to pure progressive rock you have to play because you want to carve out your niche."

Personality Changes

WNEW-FM has undergone some personality changes. John Zacherley is taking over the morning show. This gives the station three fairly strong personalities, but even Duncan realizes the station is far from perfect and has been contemplating stronger control on selection of the music.

At WABX-FM in Detroit, Detz maintains a rack of new

albums with cuts already keyed with comments like "dangerous," "bummer," "take a chance," or "heavy." This rack is right by the console so the deejays have a chance to listen and decide what to play on the air. After a week, these LP's join the library of albums the station maintains, still easily accessible to the deejays. Deejays can actually wheel their chair around to pull albums from the main library.

There's a separate rack for tapes of local groups. Detz said that WABX-FM maintains a pretty strong rapport with its audience through playing the tapes of local groups. The local musician's union, especially Dennis Day, "give us nothing but fantastic co-operation because so many local groups need the exposure. A lot of these groups have big followings, but can't get played on the AM rockers."

Some of these local groups include the MCS, just signed by Elektra Records, the Psychedelic Stooges, the Scarlet Letter (now on Mainstream), the SRC (now on Capitol Records), and Teagarden and VanWinkle. "We may play five or six tapes by these groups during a day . . . and someday even go half an hour playing just local groups, the same as we might do with records by the Beatles."

very large local followings. In the case of the MC5, almost a religious following. So, playing their tapes, even if they weren't on a record label, gets us involved. No longer can a station be an Ivory Tower. In fact, from noon to 5 p.m. every day, we have an open door policy. People can come up and visit the station."

All Pros
Detz said that his deejays, while young, all are professionals. Dave Dixon, the all night man, worked with the Peter, Paul & Mary group and, according to Detz, wrote the lyrics for their hit of "I Dig Rock 'n' Roll Music." Jerry Lubin, who'd used the air name of Jerry O'Neil at Top 40 stations in Flint and Lansing, Mich., is music director of WABX-FM and air personality. At WABX-FM, Lubin uses his real name, as do the other deejays. This came about because listeners felt fake names was a form of "put on."

WBAX-FM plays some classical music, some soul, a little country music (Gene Autry's "Back in the Saddle Again," for example). The station also plays Detroit blues, especially the blues that came from Hastings Street in the early 1940's. Like John Lee Hooker, whom Detz said listens to the station all the time. "That's what is so exciting about this type of radio. You can experiment in these musical areas. And I've learned never to underestimate what the listeners want to hear."

Ratings survey, even though this type of format is relatively new and, in the minds of many radio men, not yet definitive, have shown that a station can attract the 18-34 age group with a progressive rock format. Varner Paulsen, general manager of KSAN-FM, San Francisco, stated that: "In the ARB for July report, KSAN-FM picked up 61,000 listeners in just a few months, with the vast majority in the 18-34 age group. The demographics should be the

same in the Pulse book." In period between one Pulse report and another, KSAN-FM leaped from a no-show position to No. 1 FM station in the bay area—all in just two months.

College Program

As an example of the appeal of this type of music, Richard Gembler at KUT-FM on the campus of the University of Texas in Austin, reported that the station had to expand its progressive rock and folk music programming to 13 hours, Monday through Saturday. Larry M. Hayes, program director of KWSB-FM at Western State College in Gunnison, Colo., said he firmly believes that college radio is a valid pulse for today's music. Secondly, college radio is getting away from its educational image and many have become 24-hour progressive rock stations or top 40 stations, Hayes said. Other college stations are leaping on the progressive rock bandwagon either with part-time or full-time programming. And, in many areas, are making a sizable dent in the listening audience. Take the station at Brown University for instance.

Those commercial stations that try progressive rock soon find the demand is so great they have to get deeper and deeper involved. Last week's article told the story of WLS-FM's "Spoke" program which has grown from a total of five hours a week to 23 hours a week and, according to general manager Harvey Wittenberg, may grow further. "Listener response, ratings, and sponsorship of the show has been overwhelming," Wittenberg said. "The majority of our listeners are 17-26 years old."

WWOM-FM in New Orleans went progressive rock four hours a night last June, said co-producer E. Kirk Matle of the station's "The New Groove" program. "The management showed enough interest and good faith to expand the programming, as of Aug. 1, 1968, to an 18-hour day during the week and 24 hours on weekends. We

were brought up to our, present 24-hour, seven-day week Sept. 13. Our basic format is hard rock or psychedelic rock with low-key pitch. This type of programming is definitely radical here in New Orleans, but our reception has been most encouraging and gratifying. We feel, hopefully, that progressive rock is here to stay."

Barry Gaston, operations director of KFH-FM, Wichita, Kan., progressive rock outlet, said his station has 11 per cent of the audience according to a Metro pulse.

In Houston, program director Jay Thomas of KFMK-FM feels the success of his station is due to the honest, direct approach the station takes with its listening audience, the "great majority of which fall into the 18-26 age group. Billings have more than doubled since the station went to a progressive rock format and "August 1968 was the biggest sales month for KFMK-FM in its 10-year history," said station manager Willard Paige.

Thomas said that KFMK-FM air personalities talk in a relaxed manner, offering an alternative to the uptempo "boss rock" approach employed by most Top 40 radio stations. "Success is also due to the music, the vast majority of which cannot be heard anywhere else in the Houston area." KFMK-FM has done so well that the station is now planning to move to new studios with all-new broadcast equipment. A power increase to 100,000 watts is pending FCC approval. The unique thing is that Hugh Foley, general manager of the station, got into a progressive rock format sort of backwards. The station used to sign off at midnight. One Friday, he and other station personnel decided to see if they couldn't sell that unused time if they played rock music in that period. They sold it the same day, the story goes. Eventually, the music in the midnight to dawn slot was so popular, they had to expand it around the clock.

which also owns WSAI in Cincinnati.

New evening personality at WGLI, Babylon, N. Y., is Jay Mitchell; he replaces Bill Ross. Earl Reilly, 25-year veteran in radio and TV, has joined Simpson and Associates, a sales representative firm headquartered in Seattle. James Conley is the new vice-president of operations of the broadcasting division of Meredith Corp.; he'd been president of the ABC-owned TV stations. The line-up on the progressive rock operation KFJH-FM, Wichita, Kan., now includes Rex Stevenson, Kevin Craig, Robert St. John, Ross Hamilton, and Dick Smart. Operations director is Barry Gaston, who also does the middle-of-the-road KFH.

Tony King is now in the 2-6 p.m. slot at WUNI, Mobile, Ala. The line-up now includes Mike Malone, Jay Robbins, Tony King, Phil Phillips, and Marty Dee. Michael Eckert, program director at KWSL, Box 340, Grand Junction, Colo. 81501, needs easy listening and rock records; says, "It seems Grand Junction isn't even on the map as far as some of the distributors are concerned."

Brooklyn College is launching a radio station—WBCR-FM—and needs records. Bill MacIver, former announcer with WTOA in Trenton, N. J., has been named sales manager of WGVA, Geneva, N. Y. Would you believe that WTHE at Mineola, L. I., N. Y., played 48 hours of Buck Owens music Oct. 14 and 15 to celebrate the station's third anniversary as a country music station?

It's not Jim Dougherty; it's Chuck Dougherty, and he's going to do the 1-4 p.m. slot with Ned Powers 8-midnight and Dick Summers in the all-night slot at WNEW in New York; these represent earth-shaking changes at the

easy listening powerhouse, but friends of new program director Dom Quinn claim he's a winner and out to build ratings. Program director Wayne T. Eddy, KYMN, Box 201, Northfield, Minn. 55057, needs easy listening and good country music records. This is a new station. I think all record companies ought to pitch in and help him out. Eddy was formerly with KAUS in Austin, Minn.

George Burns has been promoted to assistant general manager of WSAI in Cincinnati; he'll continue as program director, too. Congratulations, George. Specs Howard, coming back from WXYZ, Detroit, to join WKYC, Cleveland, in the 6-9 a.m. slot.

Mike Cloer has resigned as deejay at country music station WWOK, Charlotte, N. C., to take over as promotion manager and artist relations director for Liberty Records Distributing Co. in Charlotte. Art Mann has been upped to program director of KOKX in Keokuk, Ia. The station plays country music 3-5 p.m. then easy listening records to 7 p.m. when it goes rock. Mann still would appreciate better record service. Good chance here for record exposure. John McMurray has joined the staff of KFMR-FM in Houston to do the drive-time shift. He had been with KPRC, Houston. McMurray will also handle music director chores. Other personalities include Steve Nagle, Cy Statum, Gary Goforth, Bob Baum, Dong Capps, and Larry Crawford.

Steve Warren, former program director at KOTN in Pine Bluff, Ark., is now with KSWO in Lawton, Okla. Gary L. Stills, music director at KTRB in Modesto, Calif., reports tremendous reaction from an oldies but goodies format in the daytime. Says, "We still play the fastest-moving pop selections, limiting them to about three an hour."

five new records or less each week. Seventy-five per cent of the r&b stations reported adding five-10 new records each week, the rest reported adding five or less.

But when it comes to the question of how many of the records added are new, Hot 100 format stations as a rule (68 per cent) reported that one-five of these are new. Seventy-nine per cent of the Hot 100 format stations also stated that between one and five of the records added to the playlist had been out some time and they had just decided that they were worth playing (in other words, they had waited on some other radio station to establish those particular records as potential hits).

Twenty-three per cent of the Hot 100 format stations said that none of the new records added were by new artists, indicating that almost a fourth of the top 40 stations in the nation are not a factor at all in building the career of new recording artists until some other station has proven the merits of the artist to them. On the other hand, another 27 per cent of the Hot 100 format stations reported that many of the new records they added each week to

their playlist were by artists who had never had a hit record before. Nineteen per cent of the Hot 100 radio stations indicated that two or three of the new records they played each week might considerably be by new artists who had never had a hit before.

Easy listening stations, as a rule indicated less reluctance to play new records and seldom wait for another station to establish the record's potential for them. In fact, 42 per cent of the easy listening stations reported that many of the records they added to their playlist each week were by artists who don't have a previous hit single going for them.

Country music stations play more new records—43 per cent add five-10 new records each week—and yet 22 per cent of the stations said that none of these records were by unknown artists; another 18 per cent of the stations said that they rarely played new records by unestablished artists.

Sixty-seven per cent of the r&b stations said that one-to-five of the records added might be brand new, but all of the stations reported that another one-to-five records added might have been out a while and were just now being played.

And the legend lives

The story of the man who couldn't be killed —
The powerful animal that carried him to his destiny —
The deadly cold steel that spit instant death —
New-trend westerns are big box office. Their themes are consistent chart items. These two facts multiplied by Henry Mancini's name make for a new single with total "pop power."

"This is the city where rock came of age."

"The acid heads are on the decline. At first they came to freakout, but now they've gone. The music's become so complicated that we now have intellectual instead of physical participation."

"It's real easy to be hyped by this market. A lot of record companies have come in, picked up really bad groups and bad songs and hyped themselves into losing a lot of money."

"I'm tired of psychedelic music because everyone's done it."

"I spent a lot of time in San Francisco a year and a half ago but we didn't want to go for the bread. Now I wish we had."

These are some of the comments which reflect the San Francisco scene, one and one-half years after the explosion of the pop/hippie bands.

The Bay Area's boiling cauldron of creativity continues to bubble in a healthy fashion, indicating that what some may have felt was just another musical fad blooming in San Francisco, is now a matter of serious business. A number of record companies now have San Francisco groups, there have been instances of national acceptance for their albums, and the flow of new, pristine talent plus record companies and recording studios into the market portends greater activity for future seasons.

Where once RCA had the Jefferson Airplane, Warner Bros. sought to break the Grateful Dead and Columbia labored over Moby Grape, the scene now shows: Creedence Clearwater Revival—Fantasy; Blue Cheer, Mother Earth, Sir Douglas Quintet, Harvey Mandel, Wayne Taibert and the Melting Pot, the Charlatons, Linn County, 50 Foot Hose—the Mercury family; Quicksilver Messenger Service, Steve Miller Blues Band, People, Melting Pot—Capitol; Country Joe and the Fish, Notes From the Underground, Cleanliness and Godliness Skiffle Band—Vanguard; Salvation—ABC; Janis Joplin and Big Brother and the Holding Company, Moby Grape, Electric Flag—Columbia; West, Sly and the Family Stone, Dino Valente—Epic; Grateful Dead, Leonard Schaefer, Beau Brummels—Warner Bros.; the Other Half, One By One, Mt. Rushmore—Acta/Dot; Pertrus, Sea Train—A&M; Jefferson Airplane, Loading Zone—RCA; Steppenwolf—Dunhill.

While the emphasis rests on amplified guitar pop bands, there is some record activity in the nonrock and rhythm and blues fields for a tiny core of labels. But it's the hirsute pop musician who dominates the San Francisco scene on both recording and live performance levels.

The one overbearing fact a record company learns when investigating this Northern California bastion, hangout and retreat for young musicians from all over the country, is that this is shake-down headquarters. The musicians may look ragged and worn, but they are hard-core capitalists, demanding of major money advances. "It's all pace and love," says Fantasy president Saul Zaentz, "until it gets down to the nitty gritty of 'where's my money?'"

RCA's \$25,000 advance to the Airplane is dwarfed by the amounts Capitol, Columbia and Mercury, for example, have given out to get a piece of the San Francisco pie.

"A good band can sell 50,000 albums in Northern California and some in Los Angeles, and that's why a company can get off its nut," explains pop music chronicler Ralph Gleason. "Everything's expanded, including the top prize."

Gleason believes that San Francisco is the "city where rock came of age." The individual styles of the Dead, Quicksilver, the bluesey Janis Joplin, the "Chicago Invasion" (Paul Butterfield, Steve Miller, Electric Flag), the city's nurturing poetry into where "it's coming out in rock lyrics" are all vital ingredients in the pop mainstream.

The music of the San Francisco pop groups mirrors sociological currents raging through the U. S. "The bands are all revolutionaries," Gleason says. "They want to overthrow society by musical means. They're all against war and LBJ and they want to legalize grass. These bands, who are overwhelmingly white and have been to college, are challenging the values of their fathers and mothers. They don't give their loyalties to the old school unless it warrants their loyalty."

A sarcastic attack on Negro slums by Country Joe on a Vanguard LP typifies this rebellious, attacking attitude.

Psychedelia, the acid (drug) scene, seem to have become somewhat distant memories in the city's short pop history of only two years. With the entry into the musical community of players from Texas and Midwestern locations, a new interest in country music has taken hold. As has interest in jazz players and techniques.

The national success in the past 17 months for San Francisco-based groups has resulted from the efforts of the labels which have not been based in town, but which have the sales and promotion organizations.

Now the situation is changing. Mercury has rented a two-story building next to a downtown unemployment office and has a staff of two resident a&r men, Abe Kesh and Milan Melven; the city's only female engineer, 21-year-old Dusty Street, and office administrator Bob Sarempa, transferred up from Los Angeles in September. World Pacific is associating with group developer Matthew Katz, who will deliver a series of concept LP's under the banner of "San Francisco Sound" utilizing his stable of artists. Warner Bros.-Seven Arts has just begun to receive its first LP product from Eric Jacobsen, its exclusive Bay Area producer, whose reputation as a hitmaker with the Lovin' Spoonful is about to be tested. Jacobsen moved to San Francisco one year ago to develop a working record promotion company and found Warner Bros.' money eager to help.

The growth of the market is also being assisted by the existing recording studios which have all undergone modernization plus the entry of several new names: Wally Heider, the Los Angeles remote taping expert and Filmways are building a two-studio-two-rehearsal hall 16-track board facility. Heider, who will move to San Francisco to head a staff of three engineers, estimates he's done more remote taping in San Francisco in the last year than he's done in Los Angeles and Las Vegas combined.

Pacific High Recording has affiliated with Apostolic Sound of New York and the new company has built a 12-track system in its downtown offices. Peter Weston, president of the former Sausalito-based company says "this is the year for the studios," citing the city's development as a "minor music center" which in turn is attracting new musicians. The expanding studio scene can only help increase the recording busi-

ness, Weston feels. Business at Coast Records is up 70 per cent over last year, boasts manager Mel Ryan. The studio now operates day and night shifts to accommodate pop music groups which account for 65 per cent of the company's income. Coast presently has one 8-track console with a 16-channel model under construction.

Golden State Records also has 8-track equipment and a four-man engineering staff. Business is double over last year, says owner Leo Gar Kulka. Upstairs Kulka has installed a rehearsal room (with a 2-track machine) renting for \$7.50 an hour. Because his business is almost all pop groups, Kulka helps them study their performance by giving them a tape of their studio session "to analyze exactly what they've done."

Kulka's side business of managing and recording local groups has resulted in his placing 32 acts with a number of labels. E. H. Morris recently took over world-wide administration of Kulka's publishing companies.

Berkeley-based Sierra Sound has 8-track but is looking to either 12 or 16 as its magic number. "It all depends on what our major label accounts want," says president Bob De Sousa, whose facility was used to record an LP of electronic music for A&M and where sound experimentation is of prime import.

Frank Werber's Columbus Tower studio has enlarged itself physically and plans 16-track by the end of the year. The basement studio installed 8-track equipment last year. Construction-wise, both Fantasy and Mercury are building studios in their buildings.

Rounding out the downtown studio picture is Lloyd Pratt's Commercial Recorders, five years into the local music scene.

In nearby San Mateo, two studios are cutting pop/hippie bands. Fred Cohn's Action Recording and Paul Curcio's Pacific Recording. Curcio, a former member of the Mojo Men, has been in business three months, with 8-track equipment and 16-track planned for November. Cohn's three-year-old facility has 4-track with an 8-track recorder due next month. Cohn also operates Action Records, a production company which sells masters. Curcio's studio boasts wall-to-wall carpeting and theatrical lighting.

Fantasy, operating under new ownership for the past year, happily has its first major local pop act, Creedence Clearwater Revival. The veteran jazz company's image must change, admits president Saul Zaentz, to reflect its involvement in the local scene. The company's new Oakland office-warehouse-studio complex reflects this new drive.

Creedence Clearwater's "Suzy Q" single is the label's fastest selling product. The group is giving Fantasy "leverage at radio stations," says Zaentz with a smile. "We've always had the distribution but never the radio acceptance. Disk jockeys thought we were only a jazz label. You have one hit and your image changes to 'Oh, yeah, they know what to do now.'"

Fantasy seems to know what to do. It is continuing its pursuits in the jazz and rhythm and blues fields, but the 19-year-old company, San Francisco's only surviving record label, seeks a greater share of the pop pie. Comments Zaentz: "Prices are unbelievable here. Groups have been asking for a minimum of \$20,000 to \$25,000 with some companies giving out \$50,000. Groups we wouldn't record have been picked up by other labels. It's been very difficult to compete with the major labels, but now we've got our group (Creed-

ence), so you can't say we've been completely scooped."

One problem which Zaentz points to is that new pop groups don't sign contracts with managers. "It's all peace and love until it gets down to the nitty gritty of where's my money."

Fantasy's pop roster includes the Rey Restoration and vocalist Lenny Williams. Zaentz's executive team includes Shelly Haims, a former Detroiter, now national sales-promotion director and Ray Schanklin, exclusive r&b producer.

In addition to Fantasy there are a number of small labels in the Bay Area, including: Arhoolie, the blues specialist; Spectrum, a religious line; Wax, run by Shelly Feinberg, who manages and produces such acts as singers Jimmy Borges and Jimmy Womeck; Earl, Ernie Heckscher's new label, which sports product by the Fairmont hotel band leader and will be used to promote other artists; Canary, a Redwood City country label which records in Nashville. Canary's roster includes Durward Erwin (one of the three owners), Bobby Wild, Boyd Wood and Tony Pappas. The label presently has an 11 Western State talent search, notes president Earl Miles. Canary, with limited distribution, just issued its first stereo single. "Our artists are all local people, but we want the authentic Nashville country flavor so we record at Monument's studio."

Producer Matthew Katz also seeks an authentic "free" sound, so he plans recording pop groups at sea. His company, San Francisco Sound, records four local groups: It's A Beautiful Day, Tripsichord Music Box, Indian Puddin' N' Pipe and Black Swan. Katz's "trip" is to cut albums featuring tracks by these four groups as a sort of sampler potpourri. He's also working on a symphonic rock 'n' roll orchestra called the Fifth Pipe Dream. World Pacific releases its first San Francisco sound product Nov. 15.

Twenty-eight-year-old Eric Jacobsen also has a dream which involves building from scratch a studio group of musicians plus discovering artists for his Sweet Reliable Productions company. In the year he has been associated with Warner Bros.-Seven Arts as an exclusive product innovator, Jacobsen has cut only two albums. "We work very slow," he admits, noting that WB calls him its "Northern Adventure." W-7 has \$250,000 invested in Jacobsen's operation and this month Jacobsen's Leonard Schaeffer LP was released.

Jacobsen talks of developing a "family of studio musicians who are not interested in a performing trip, but in the record-making art." This well-heeled young man avoids the psychedelic lighting concert/dance halls, explaining, "I'm tired of that scene, of the walls of sound and swaying bodies. I'm tired of psychedelic rock and roll and I think the world will be too. I'm banking on that." Jacobsen has developed the Dream Band (Terry MacNeil, piano; Norman Mayell, drums, and Malin Beard, bass.) His artists include Peter Kramer (formerly with the Sopwith Camel), Norman Greenbaum (formerly Dr. West of the "Eggplant That Ate Chicago" butchery), and Schaeffer.

Jacobsen has established a royalty system for his musicians in that they earn profits on all records they play on. Jacobsen has found 20 players from among local bands with whom he works. "There are lots of musical maniacs," he says, "lots of methadrene casualties who don't listen but play a lot of bad notes." Jacobsen and his associate, Clem Bourassa, a former stereo equipment salesman, get away from

the bad notes by living on a hilltop house on Mt. Tamalpais, in which Jacobsen assembles his office staff Mondays for corporate meetings.

Mercury's growing involvement revolves around president Irving Green's own personal convictions that San Francisco is the place to be. Most of the new groups seem to be arriving from Texas, Louisiana and Oklahoma, according to Bob Sarempa, a Los Angeles freeway driver for five years before being transferred to San Francisco. Mercury's record output out of San Francisco equals what is produced in Los Angeles, which gives the Chicago-headquartered company two solid West Coast outposts.

Dusty Street was a former engineer at KMPX before joining Mercury as its staff engineer. Finding qualified studio engineers to work with the pop bands involves the biggest hunt, Abe Kesh, the promotion man turned producer believes. "I'm tired of psychedelic music," Kesh says. Two of the label's new projects reveal that the office seeks a broader musical sound. Mother Earth, the group which Mercury has invested the most money in, leans toward a country sound, with Tracy Nelson its driving voice. Guitarist Harvey Mandel is working on a project to record six Woody Herman tunes using Shorty Rogers charts.

Of the approximate 150 bands working in the Bay Area, a small number feature girl singers, with Grace Slick of the Airplane, the shouting Janis Joplin and Linda Tillery of the Loading Zone, perhaps the best known. Kesh, a veteran of 17 years in the record business, offers this explanation as to why there aren't more girl vocalists: "Girls are an ego problem; there seem to be hassles with lead guitarists over volume levels."

One of the problems, volume aside, is the nature of the restive community. Groups woodshed together (the "hanger" in Sausalito by the bay—an old abandoned hanger—is a favorite spot to talent scout) and then break up, often creating new musical entities.

There are a number of places which give new groups public exposure, places like the Monk and New Orleans House in Berkeley, the Ark in Sausalito, Poppy Cock in Palo Alto and the reopened Matrix in San Francisco. And then there are the Fillmore West and the Avalon ballrooms, which are the pinnacle showcases. Many of the outlying clubs pay the groups a percentage of the door. "Groups are willing to work for nothing just to get the exposure," Kesh points out.

Both the Fillmore and Avalon have recording equipment available and there are indeed groups cutting albums in these huge places. Bill Graham, who operates the Fillmore and Winterland, strives to present a broad scope of live attractions besides the rock bands. He has presented country music, poetry, jazz and authentic rural blues. The Avalon, too, has gone on a country kick.

The "new" Fillmore is the old Carousel ballroom on Market Street. Sunday nights are now being given to Latin bands in an attempt to provide an outlet for a music generally neglected.

On Tuesday, Graham presents three new bands from 9-midnight with the door tab \$1. When Graham presented the Grateful Dead and the Preservation Hall Jazz Band from New Orleans, the response was "unbelievable." "If someone would have told me that 'Hello, Dolly' would be sung in the Fillmore, I'd have said they were crazy. But they (Preservation) sang it in French

and the 18-year-old hippies loved it." Graham's talent budget for the Fillmore with its 2,300 dance floor capacity runs from \$5,000 to \$9,000 for three nights. The Winterland Arena can hold up to 3,500 people and allows Graham to go as high as \$15,000 for "heavy acts" like Jimi Hendrix, the Doors, Jefferson Airplane and the old Cream.

Graham talks of his three-year success at the Fillmore as having "created a monster," of having something to do with "developing the music taste of the city. I hope I'm not booking crap," he says, "because I have my self-respect and because the city says to me every week: 'Where are you now, Mr. Graham?'"

Graham recently opened a booking firm, the Millard Agency, which his associates Paul Barrata and Barry Imhoff run. There is also another booking company, West Pole, opened by Ron Pole, manager of the Quicksilver Messenger Service; Fred Roth, manager of the Sons of Champlin, and George Wright, mentor of the Freedom Highway.

Paul Barrata, Graham's associate, notes the growing public acceptance for authentic blues performers. The transition from dancing to listening is based on the new audience which now frequents the Fillmore. The "heads" (LSD users) are on the decline, Barrata explains, and a more intellectually oriented audience now sits on the floor and sops up the music. At a recent Albert King appearance, one dancing young man turned to the hushed crowd on the floor and shouted, "How can you sit there and not dance when he's playing soul music?" The man shook his head and walked away as King started up again.

The situation at the Avalon is not as strong as it was one year ago. Chet Helms suffered a major financial setback when his Denver club closed after nine months. His Family Dog operation now carefully selects its weekend headliners and is able to draw both prestige acts and local favorites.

The wavering guitar lines of the psychedelic bands hurt, more than helped, the city's two rock stations, KFRC and KYA. Les Turpin, KFRC's fiery program director, said the station's ratings dipped when too much San Francisco music was programmed. "Our playlist became oversaturated with what we felt was music acknowledging the local market. The thinking was we are in San Francisco and this is what San Francisco wants. San Francisco wants to keep its bridge, its groovy fog and its friendly old buildings. We overacted to too many 'Berkeley Barb' salesmen and too many Haight-Ashbury posters."

Since Dick Starr took over as p.d. last March, KYA has also de-emphasized playing anything and everything by local groups. "A lot of underground music doesn't come across on AM, whereas some LP cuts sound sensational on FM," he says.

"There sure is a lot of crap coming out," is the way KSAN-FM program director Tom Dohanue greets a visitor. As the kingpin of underground radio, Donahue's words are taken seriously by musicians. Donahue is sorting albums for the slush pile and library. One out of every four LP's is filed. "There are a lot of young people being recorded long before they're ready," Donahue comments. But there are also an increasing number of groups which are returning dollar value to their labels, he continues.

Which makes San Francisco a typical music center, but one in which many people contend the best is yet to come. ■

San Franciscans are multi-leveled music buffs. The Bay Area's liberal cultural attitude fosters continued expression in the classics, jazz and rhythm and blues.

To Seiji Ozawa, the Japanese conductor and heir apparent to Josef Krips' throne as conductor of the San Francisco symphony orchestra, the city is as culturally cosmopolitan as Paris, London and New York. "Intellectually and aesthetically," he feels, "San Francisco is abreast of today's classical picture."

"Classically the city is progressive, but has not forgotten the masters, and aggressive without snubbing the foundation of classical music."

Behind the potpourri of sounds emanating from San Francisco sits the classicist, and the two classical straw bosses of the city—Josef Krips and Kurt Herbert Adler, general director of the prestigious San Francisco Opera company. The two are the cultural legatees of a musical tradition.

Soon the city can add a third, Seiji Ozawa, who will conduct several concerts this season before taking over for the retiring Krips, the 64-year-old Viennese conductor who brought the Symphony to stature after a period of decline from 1954-1962. He is retiring in the 1970-71 season.

Ozawa is the 31-year-old, highly regarded conductor, once considered as the future replacement to Leonard Bernstein at the lofty New York Philharmonic perch.

Ozawa has a difficult act to follow. Krips, a representative of the great Viennese school of conductors that included Gustav Mahler, Richard Strauss and Bruno Walter, is untiring and creative.

Krips is a man in studious motion when conducting—grimacing, urging, seeking perfection and the ultimate from his orchestra.

A leading interpreter of the masters, Ozawa has established a rapport with Krips and other leaders of the classical community.

Ozawa brings an authority to the podium that results in music as cohesive in its form as a finely executed work of architecture.

He promises to be an adventurous and exciting conductor, willing to explore and pioneer, but not forgetting the masters, Mozart, Beethoven and Schubert.

"There's room for all forms and the many different aspects of music in a symphony orchestra," he says. "To be creative, one must probe, search and not be alarmed at what you may discover or uncover."

Many feel a symphony orchestra must be straightforward, but not straight-laced. They see in Ozawa a serious, adventurous conductor who will add to their city's classical richness.

A colleague said of Ozawa: "He is a perpetual motion man. He can make any orchestra go."

The modus operandi of the classicist is to continue to saturate San Francisco with Bach, Beethoven and Brahms, and with "Rigoletto," "Les Troyens" and "Il Trovatore."

And San Franciscans can claim to have heard initial American performances of Britten's "Midsummer Night's Dream," Cherubini's "Medea" and Darius Milhaud's "Christopher Columbus" in the War Memorial Opera House, or the "House That Adler Built."

The classical potpourri in San Francisco is extensive:

- Conductor Laszlo Varga and his new "Virtuosi of San Francisco" chamber string or-

chestra open their season at the Art Museum Nov. 21.

- The Symphony Orchestra which fills every seat for each performance, breaking attendance marks yearly.

- The San Francisco Opera, where Adler has stimulated classical learning and molded the company into a highly regarded, highly perfected organization.

- The San Francisco Ballet, considered to be one of the 10 best companies in America.

- The Chamber Music Society, which performs recitals in chamber music halls and municipal parks.

- The San Francisco Light Opera Company now in its 31st season.

- The Children's Opera Company, a group formed by Norbert Gingold. It is the only children's opera company in the world.

- The Oakland Symphony Orchestra, just beginning to blossom.

- The Lamplighters, a resident Gilbert & Sullivan troupe.

Northern California seems right for the right rhythm and blues product, notes Bob Chatton, whose Oakland distributorship handles some of the right funky r&b lines. Chatton, who celebrated 21 years in the Bay Area last Sept. 21, estimates that three quarters of his singles business is in r&b, principally through his associations with Atlantic and the Chess-Checker-Cadet operation.

"The conversion of r&b into pop is a major achievement," he says, pointing to Johnny Nash's hit single, "Hold Me Tight" on Jad, which he also handles. The area's rock stations are a little more co-operative in exposing r&b product. "It's still difficult to break, but at least these people take a chance."

Chatton is a pure distributor with no ties to rack jobbing or one-stopping. He fondly recalls that he once serviced 600

accounts. Now, because of racks, he has less than 100.

Oakland is the area's r&b headquarters. Lonnie Hewett, an independent r&b producer lives there. For six years he played piano with Cal Tjader. Now he cuts records for Scepter, with vocalist Freddie Hughes, his top name. He also records Earl Randle and Leadell Brown for his own on-again-off-again Wee label. Hewett does play piano on some of his own dates, but finds that he gets the desired sound by using local jazz musicians on dates. Oakland is also home for Willie Hotchkins and his small Bula Bula r&b line. And the city across the bay is also where Fantasy and its two r&b lines, Galaxy and Early Bird, are headquartered.

Galaxy's roster includes Charles Brown, Little Johnny Taylor, Sonny Rhodes, Roger Collins and the Right Kind, producer Ray Schanklin offers. Early Birders are Pat Hunt and Tiny Powell. Schanklin and label president Saul Zaentz talent scout r&b acts at two Oakland clubs, the Showcase and Sportsmen's and at the Celebrity in San Francisco. A new r&b-pop flavored singer, Lenny Williams was discovered at the Showcase after eight months of listening and listening. "It was a long haul," Schanklin says during a final listen to the first tenor's first commercial effort.

The enthusiasm for r&b's potential is reflected by Golden State Productions, normally involved with pop-rock groups, which has its first two blues acts, Jimmy Mamou and Snooky and His Cosmic Flowers.

Arhoolie, the rural blues specialty line operating from Berkeley (which seems to have its own kinds of blues), has been working with such new acts as Johnny Young and the Chicago Blues Band, harmonica specialist Big Walter and Juke Boy Bonner, a guitarist from Houston. Chris Strockwitz, owner of the tiny eight-year-old company, looks to Europe as his main sales

source. He has limited domestic distribution for his catalog of 90 albums.

Strockwitz has uncovered a black underground in Berkeley and he plans recording such avant-garde jazz groups as the Jamaal Colt Ensemble and pianist Jim Young's quartet. Europe and New York will probably be his main sales centers for this type of exploratory product.

John Hardy, music director at KDIA, the Oakland r&b station, feels his audience has increased because of a major awareness among the populace for blues material. The station will play a local artist, but finds that its music programming is derived from companies outside California.

Still, there are some people who are starting to look for r&b talent in the Bay Area. Bob Sarempa of Mercury's San Francisco office says he's heard some good talent on occasional drop-ins to clubs. "It's all a matter of the companies starting to search it out," he says.

On the live performance front, the Fillmore West and the Avalon have supported blues performers from Chuck Berry to Albert King to Buddy Miles to Jimi Hendrix.

The jazz market seems to hold its own, with several clubs, some radio play and one label, Fantasy, keeping it all together. A recent musician's union edict reducing the work week from six to five days, has opened up opportunities for local jazzmen to gain club work. Such clubs as the Jazz Workshop, Matador and Both/And are now booking names on two-week contracts, with local groups appearing on the Monday and Tuesday off nights.

"There is an abundance of good local jazzmen," offers veteran critic jazz-broadcaster Phil Elwood of KPFA. "The trend seems to be for far out, avant-garde music." Pianist Mike Nochi's group, the Fourth Way, and a group formed by violinist Mike White, are foremost in Elwood's thoughts.

Foremost at Fantasy are Bole Sete and Charlie Mingus, with the label picking up distribution of several LP's the bassist recorded himself and tried to sell via mail-order.

The influence of avant-garde jazzmen is evident among a number of the newer pop/hippie bands. The tenor saxmen in the Sons of Champlin are blowing John Coltrane riffs; the drummer in Curly Locks Hurdy Gurdy Band shows an awareness of jazz drumming. "An awful lot of players listen to jazz," summarizes jazz critic Ralph Gleason. This is the situation, he continues: "Jazz musicians listen to symphonies more than symphony players listen to jazz. Rock musicians listen to jazz more than jazz musicians listen to rock."

Pop producer Eric Jacobsen would like to start using jazz musicians on his projects. Why? "Because of their musical and technical excellence." Jacobsen wants to develop a more structured form of music for jazzmen, who are accustomed to open end arrangements and the freedom of improvisation.

Improvisation is the concept behind KJAZ, the area's exclusive jazz FMer, which allows its disk jockeys to create programs sans playlists. Phil Elwood's Sunday 11-1 p.m. KPFA stanza, presently in its 17th year, is more formalized and programmed.

KDIA is joined by KSOL in r&b formatting and KKHI is the chief exclusive AM classical voice.

These then are the "traditionalists" nurturing the specialty forms of music in the "Paris of the West."

Three progressive rock FM stations and two major AM rockers saturate the airwaves here with a musical potpourri of big beat music, while KSFO, the young-minded middle of the roader, maintains its listenership leadership.

The three underground stations are KMPX, which started the progressive rock concept; KSAN, Metromedia's influential outlet now using many of the former KMPX staffers, and KOIT, a former easy listening operation.

KSAN, with stronger personalities and Tom Donahue, has the lead among these three stations. The contrast in KSAN's downtown offices of long-haired hippie disk jockeys and the suit and tie Metromedia executives indicates how a crossing of the societies has occurred here. And it seems to be working well. An ARB survey indicates that in July, KSAN picked up 60,500 listeners from 6 a.m. to midnight—a 105 per cent increase over April and May when the station was programming classical fare under different ownership.

The people who listen to the Bay Area's underground stations apparently have tuned out the top 40 operations—KFRC and KYA—both of whom have been struggling to regain lost listenership. Both Les Turpin, KFRC's fiery program director, and Dick Starr, his counterpart at KYA, feel that their stations went overboard last year in playing and overexposing music by local pop/hippie bands. "I haven't played a Jefferson Airplane, Grateful Dead or Quicksilver Messenger Service record since the day I came here and our ratings are up," claims Turpin, who replaced Tom Rounds last October.

KYA turned its KOIT FM'er into an underground station last May, with Bill Holley announcing the selections for the automated operation. Gary Schaeffer, KYA's music director and Starr go over the selection of album cuts with Holley. Starr says KOIT's sound is a little more balanced than the competition, "because there are no announcers getting on a blues trip or Chinese bell trip."

KSAN, the market's fastest moving FM'er, is a very much alive operation, although its music tends to drone on and on a bit. "Do you want to hear my record company bitches?" asks program director Donahue.

- "Why are the companies mailing out monaural albums to a stereo station?"
- "We get an unbelievable amount of warped product."
- Why don't the companies start consistently timing their selections?
- "Why don't the companies send sta-

tions banded DJ copies of unband-ed albums?"

New progressive rock groups which Donahue is aware of include Mother Earth, County Weather, Linn County, Flaming Groovies, Frumious Bandersnatch, Cleveland Wrecking Company, Tongue and Groove, and Ace of Cups, a female band.

Donahue feels there is a tendency on the part of the record producers to bury vocalists with amplified instrumentation. KSAN has no playlist, operating instead with the concept of playing material the top 40 outlets won't be airing. And that includes about 6 per cent classical from the avant-garde and baroque schools.

Former Miamiite Starr (Roundsville stations programming vice-president), is operating KYA with tighter controls than when he joined the station last January. "Our music's rigidly formatted, with old records preprogrammed," he says. "We are not going out of our way to play San Francisco records. One major change Starr instigated was to relegate SF records to the evening hours. The station had been spotlighting San Francisco bands on the half-hour. Now Tommy Saunders auditions local bands on his 10 p.m.-2 a.m. show, playing cuts from one album per night."

Starr says the advantage of having the KOIT sister station is that he can test rec-

ords there before putting them on mass appeal radio. KYA's daytime play list averages 45 records, with 60 the top evenings.

The competition between KYA and KFRC—the Bill Drake programmed outlet—covers every imaginable area. When KFRC started switching its news around, KYA countered accordingly. When KFRC ran a deejay party at one ballroom, KYA ran one at another ballroom.

The contrast between Starr and Turpin is marked. Starr is quiet, youthful looking and dressed in business clothes. Turpin is fiery, bearded and a loyal Drake man.

There is no consistency to KFRC's news, Turpin slotting his 10 minutes whenever he wants to. The reason is he feels if the music's entertaining the audience, they won't miss not hearing a regular capsule newscast during the programming hour.

Turpin feels the only groups which have any significance exclusive-wise are the Beatles and Rolling Stones. "All I ask is a fair shake locally. I'll get my exclusives through my own devious outside means outside this market."

Turpin has been working with Bill Drake since 1963. He has helped format the RKO General stations around the country. "Drake put a timber under the crashing decline of top 40 radio," Turpin says. "It was going down at a tremendous rate."

There is a great danger for a mass appeal music station when it begins zeroing in on one particular brand of music, like the San Francisco pop/hippie bands. Turpin feels audience listening in the market declined because the station was appealing to too much of a select group. The station now considers consistent hitmakers and then a balance of the old with the new.

The placement of the "ingredients" in KFRC's programming hour are different from the way they are slotted at the other Drake stations, Turpin points out. These ingredients are the music, jingles, commercials, promotions, newscasts, which create a subliminally appealing mood with the listener IF they are in the right sequence.

Turpin's disdain for the whole pop/hippie band scene includes the local pop music festival business. "This city is 'festivalized' out. We've had too many pop flopped, flip out, freak out, free form festivals."

Turpin raps the festivals because he feels they have not presented the artists properly. "The audience has developed its appreciation through records," Turpin says, "but they've gotten short-changed with live performances."

Turpin also has strong opinions about playing singles. "Two years ago we should have changed to album play with the Beatles' 'Rubber Soul.'"

Albums are receiving much attention at KSFO, with its suggested 75 LP, 61 single playlist. Although librarian Elma Greer culls through all the music, each air personality selects his own programming. "We've had this creative freedom for a long time," says program director Allan Newman. "We never push a record on a man. We have fought the battle of not being middle of the road. If there is anything that will make a middle of the roader dull it's to try to please everyone."

In maintaining a contemporary flair, KSFO has programmed a number of the local pop/hippie bands, notably Jefferson Airplane, Country Joe and the Fish, Steve Miller Blues Band, Chambers Brothers, Moby Grape, West and Big Brother and the Holding Company.

With the return last October of Don Sherwood from a Hawaiian sojourn, KSFO's morning's are filled with humor, an important ingredient in KSFO's over-all concept of communication.

KSFO doesn't play records because they're selling. "We played 'Mr. Businessman' before it got on the charts. When it got on the charts the station had already overexposed it," Newman says.

Overexposure is one state which many of the San Francisco stations try to avoid. ■

In San Francisco, young America is the target for record and cartridge sales.

Retailers are catering to the youthful buyer—whether they be in the White Front-type discount chain or the more conventional and smaller music stores and specialty shops.

Because the city is a music hot spot, with San Francisco inspired groups embracing the entire musical spectrum, competition among retailers is heavy.

By using merchandising gimmicks and product give-aways, and a heavy dose of newspaper advertising, most retailers have parlayed the youth market into a profitable year.

Record product is geared to the contemporary scene; prerecorded tapes and even blank tapes are merchandised at the young adult-teen-ager. Even rack jobbers are finding a bigger market if they aim at the contemporary scene, rather than the teeny-boppers.

Combining promotional savvy with product inventory is the formula used by the 33-store Sherman Clay chain and the smaller but aggressive Tower Record retail chain. Both are willing to spend large sums of money on promotions to entice the young record-tape buyer.

General Recorded Tape, total tape duplicator, uses San Francisco as a product barometer: "If tape sells in San Francisco," claims Tom Bonetti, GRT marketing manager, "it usually sells anywhere."

Bonetti feels San Francisco is one of the

Retailing Aim: Youthful Dollars

By Bruce Weber

biggest tape markets in the U. S. "We can get an indication on just how well a tape will do across the U. S. by checking our San Francisco outlets," he says.

He regularly monitors the city's radio stations, both AM and FM, to see if GRT's product in retail outlets is "what's happening."

Although Tower Records depends on newspaper advertising, in-store promotions and a large inventory in both records and tapes—all configurations—it also counts on its radio advertising for an increasing portion of its business.

Russ Solomon, a firm believer in saturation advertising, has tried a heavy concentration of radio advertising on contemporary top 40 stations to stimulate business.

"Radio is easily our most important way of reaching the consumer," feels Solomon, who owns stores in San Francisco and Sacramento. "Our radio campaign has been so successful, in fact, we're going to include country and western, ethnic and soul sta-

tions in our advertising schedule, not just top 40/contemporary."

Tower promotes both records and tapes on its radio commercials, especially in the San Francisco market, where Solomon recently opened a 8,000-square-foot store.

His tape inventory in this store includes about 1,000-1,200 8-track titles, 800-1,000 4-track titles and about 400 cassettes.

While the Sherman Clay chain stays away from promoting product on radio and TV, it goes in for heavy newspaper advertising; it also aims product at the young market.

"The rock crowd accounts for a major percentage of our business," says Paul Gazarian, executive at Sherman Clay. "But we try to include the entire market, not only rock, in our merchandising and promotional activity."

The retail chain, with stores in three States, blankets the San Francisco area with a total music operation—records, tapes, sheet music and instruments.

To lure the youth market, says Gazarian, you have to merchandise properly via a

large record and tape inventory and still offer a total concept—sheet music and instruments.

The chain sponsors a school of music, designed to teach youngsters how to play a variety of instruments, and a battle of the bands.

White Front, the giant discount chain in California, uses heavy newspaper advertising to promote both tapes and records in two store departments—the music section and a limited stock in the automobile departments.

Unlike many of the music specialty shops, White Front has a profitable business in tape players—all configurations. Recently, the chain began a radio campaign, a series of 60-second spots plugging prerecorded tapes and a variety of players.

According to one White Front executive: "San Francisco is a record town, and primarily albums, but now we're getting a huge response for tape and tape players, both 4 and 8-track equipment."

"We would like to see the kids and young college kids take over the 8-track market," a White Front buyer explains, "but because of price it might take a little longer than first predicted."

"If we can convince teens that the difference between 4-track and 8 is like purchasing a beginner's guitar rather than an expensive model," he says, "we'd be in a perfect position. As it is, 8-track is enjoying respectable success."

As Tom Bonetti says: "The pulse of the retailing market is in San Francisco." ■

EIA President Predicts Modest Sales Increase

SAN FRANCISCO — Executives attending the recent fall Conference here of the Electronic Industries Association (EIA) heard president Mark Shepherd Jr. present an optimistic sales forecast.

Shepherd, who heads Texas Instruments, Inc., Dallas, predicted an increase of 6.8 per cent in dollar volume of U. S. factory sales of total electronic products from 1967 to 1968 and said the increase from 1968 to 1969 would amount to about 4.1 per cent.

Speaking at the Fairmont Hotel, Shepherd said he anticipates a pickup in economic activity for the industry in the second half of 1969 as "present uncertainties of causes of hesitancy in the economy become more accepted as a normal way of life." Among these "uncertainties," Shepherd included the income tax surcharge, possibility of a new administration policies and the war in Vietnam.

For the various areas of electronic production, the EIA president made the following forecast on dollar volume of factory sales by electronics manufacturers:

Consumer products are expected to increase 4.1 per cent from 1967 to 1968 and rise 3.3 per cent from 1968 to 1969.

Industrial electronic products should climb 6.3 per cent from 1967 to 1968 with an equal percentage increases in 1969.

Government expenditures for electronics in calendar year 1968 should reach at least \$12.3 billion, up 8 per cent over 1967. For 1969, expenditures of at least \$12.75 billion are foreseen—up another 4 per cent over current levels.

Total electronic components

sales are expected to rise about 2.5 per cent in 1968 over 1967 levels, with the gross resulting from increased sales of integrated circuits, color TV picture tubes, power and special purpose tubes and some semiconductor devices. Sales for 1969 are expected to be 1.5 per cent higher than in 1968.

Everts Honored

SAN FRANCISCO—William Everts, retired General Electric Co. engineer at the company's Utica, N. Y., plant has been awarded the Electronics Industries Association (EIA) engineering department's Outstanding Accomplishment Award.

The award was presented to Everts for engineering leadership in the transition of industry standards from rubber-insulated wire to plastic-insulated wire, and from woven braided fabric jackets to the extruded plastic jackets involving new methods of color coding hook-up wire for electric purposes. His work in these areas resulted in present EIA recommended wire standards.

EIA AWARD TO SECREST

SAN FRANCISCO — James Secrest, executive vice-president of Electronic Industries Association (EIA), has been selected to receive the association's annual Medal of Honor.

Secrest will be the 18th recipient of the award, which is considered the electronics industry's highest award. It is presented each year for "outstanding contribution to the advancement of the electronics industry."

The selection was made by the EIA board of directors and announced by EIA president Mark Shepherd Jr. at the close of the association's four-day Fall Conference here. The award will be presented in March at EIA's spring conference in Washington.

Secrest has served EIA for the past 23 years. He joined the association in 1945, when it was known as the Radio Manufacturers Association, as director of public relations. In 1950, he was elected general manager of the association and became its executive vice-president in 1952, a position he has held since that time.

CONCORD STA-15 FM/AM/FM receiver. Outstanding features of this new receiver include all solid-state electronics, large antenna, two matched bass reflex bookshelf speaker systems, multiplex circuit, five-position selector for AM and multiplex FM and separate controls. The unit will accommodate reel-to-reel and cassette tape decks as well as a phonograph. List price is under \$140.

New Trends Outlined for Increased Military Sales

SAN FRANCISCO — Electronics manufacturers were offered a newly coined word, "techsortium," symbolizing a trend in military international marketing at an international department meeting during the recent Electric Industries Association's (EIA) Fall Conference here.

Speaking at a program on "Progress and Problems in Military Exports," George Todd, vice-president, Hughes Aircraft International, said the key to future foreign sales lies in the international techsortium.

Industry today is loaded with new technologies," said Todd, "and as we gather together into business relationships, called consortium, we find that the exchange of technology in-

involved has led us into a new area of mutual effort that might well be called a techsortium."

Todd noted that the growing international marketing trend toward transferring technical "know-how" as opposed to hardware is politically and economically important to both seller and buyer. "Techsortia" provide the business approach through which this transfer of technical information can be accomplished, he explained.

Todd was one of three panelists featured on the seminar. Others were Leonard Alne, deputy, international logistic negotiations, Department of Defense, and Forest Crowe, vice-president and general manager, UNIVAC Federal Systems division.

Speaker Cites Laser Growth

SAN FRANCISCO—Richard Robertson, president of Robertson & Associates, Inc., Newark, N. J., told executives gathered here for the recent Electronic Industries Association (EIA) Fall Conference that the laser market should increase 650 per cent by 1977.

This means that the total domestic market of approximately \$80 million in 1967 will grow to about \$600 million in 1977.

"The markets for which laser devices will become economical are relatively large and are expected to grow more rapidly than the gross national product for the next decade," said Robertson. "This includes the con-

struction industry, machine tool and metal working industries, chemical, mining and refining industries, as well as the broadening fields of education and more sophisticated research activity.

"An organization seeking to exploit the market for laser devices in the coming years would be well advised to pursue two areas first. One would be development contracts by government agencies in fields related to measurement and spectrochemical analysis, and the other would be the markets for alignment, measurement and chemical analysis.

"This represents a low-risk entry into fields which are demonstrably capable of using such devices."

Myers Death

CHICAGO — Budd Myers, vice-president of private label sales for Waters Conley Co., Inc., a subsidiary of the Telex Corp. passed away Oct. 4 in Paris. The 59-year-old Myers was a veteran of many years in the audio marketing field, having served in various positions at both the retail and manufacturing level.

standard record turntables, there are two auto stereo players, which make it easy to demonstrate a stereo album for the customer's automobile.

"We don't hand a single record over the counter until it is purchased," said Larry Davis. "In that way, there is absolutely no breakage, no pilferage, records are carefully handled, and the customer, with his headset, gets a worthwhile demonstration, sitting down in one of the booths."

YOUNG CUSTOMERS are shown here using luncheonette-type hardwood booths to listen to the latest records at Musicland in Englewood, Colo. Each booth is equipped with four sets of stereo headphones.

Musicland Corners Market With Inventory & 3 Booths

ENGLEWOOD, Colo.—Some of the most unusual selling facilities in the Western record industry are helping the new Musicland Record Shop here at the Cinderella City Shopping Center to break all records—and at list price.

Open only a few months, Musicland benefits from the fact that the store is located in what is billed as the largest shopping center in the world, a multi-level, 150-store complex built by famed developer Gerri Von Frellick. Here, sheer curiosity and "tourism" are enough to bring in many thousands of record-oriented visitors daily.

In designing the new store and being thoroughly aware that there would be much competition for disk sales in the Center, owners Steve and Larry

Davis planned for "something out of the ordinary" which every visitor would always remember.

The upshot was the decision to install three booths, very much like those in the average luncheonette, which extend some 20 feet along the left wall of the 92-foot store. Built of enameled plywood and finished in different colors, the booths are invariably a surprise to passers-by, who at first glance are likely to confuse Musicland with a hamburger stand or arcade.

Actually, each booth is equipped with four sets of stereo headphones, which means that as many as 12 persons can be seated at one time.

The turntables are located behind the service counter, opposite the booths. Along with

Dealer Uses Display To 'Insure' Customers

TAMPA, Fla. — "The best salesman in the house" is the way Tom Viviano, owner of Viviano's stereo center here, is likely to describe the wall case just inside the door at his Dale Mabry Avenue headquarters. The wall case is used to show identified small components for stereo tape recorders, stereo phonographs and complete music systems. Every item, on each shelf, is completely identified with a small white strip sign

containing letters 28 inches high. "There are plenty of do-it-yourselfers among music fans," Viviano explained, "who are capable of making small repairs or improvements on their own recorders or phonographs. For that reason, we show items such as power supplies, pre-amps, tape controls, drive stages, transistor outputs, IF strips, turntable parts, junction boxes and replacement tape heads all clearly identified.

"A man who is good at soldering and can use miniature screwdrivers and wrenches often has a pretty good idea of what is wrong with his equipment. By seeing the replacement parts in the case as he enters and leaves, the customers is likely to make an extra purchase or two. Particularly important are sales of small electronic componental which represent a good mark-up and which a prudent music-system owner will often buy merely to be available against future needs."

The amount of small parts shown in the case changes regularly according to the inventory on hand or trends peculiar to the local market. However, there are always at least a dozen identified parts on display at all times.

TOM VIVIANO, owner of Viviano's Stereo Center in Tampa, Fla., is likely to describe this wall case as "the best salesman in the house." The case is used by Viviano to display small components, which are clearly identified.

Musicland Corners Market With Inventory & 3 Booths

• Continued from page 68

Since the booths are of plain, hard wood, with no upholstery whatsoever, they understandably discourage listeners from remaining too long, and automatically ensure that there will be plenty of turnover. Every body likes the idea," said Davis, "except those who may be intending to take off with a record or two. We, naturally, don't want them to begin with."

The sight of the booth naturally causes the average shopper in the center to do a double take and has brought plenty of people in through sheer curiosity, as well as for record purchases. "Any day now we expect to see a bunch of teenagers come in and order soft drinks before they know it is a record shop," Jack Cawood, a veteran of many years of phonograph record retailing, pointed out.

Most surprising is the fact that the entire volume is being sold at straight list price, despite the presence of many competitive record dealers in Cinderella City. There have been

very few instances in which a customer has complained at paying the list price for any record.

Deep Store

The extremely deep store, which has plenty of room for long, sharply separated lateral departments, has done a bang-up job on auto stereo tapes, a market which has failed to dwindle in the Denver area as it has in other parts of the country. Cawood is currently doing 35 per cent of his volume in auto stereo tapes and has found the tourist market to represent a much larger portion of it than he had expected.

"This was our first tourist season," he pointed out, "and we have been pleasantly surprised to have customers who are on long automobile junkets come in an order 3, 5, and even 10 tapes at a time at the list price, to ensure that everyone's musical tastes are met. We are getting plenty of adult tape buyers which I consider a highly encouraging sign. In our market area, adults seem to be taking to auto stereo much more solidly than perhaps is true of other parts of the country.

With all singles protected through the booth demonstration technique, pilferage problems have been practically nil at this enterprising Colorado store. Normally, it has been found that very few people will attempt to steal large long-play albums. This is simply because of the difficulty in hiding them. The few have been removed account for 2 per cent of such losses which have been rung up.

An "all-business" store with plenty of inventory and its unusual presentation system, Musicland is simply "selling above the competition," making no attempt to meet discount prices and to date has found "it works out fine."

LOS ANGELES—Everest Records is readying a 41-album fall release, including eight operatic and operatic sets and several world premiere recordings and first U. S. releases. Among the operas are Leoncavallo's "La Boheme" and Puccini's "Nina ovvero, La pazza per amore," both restorations of only recordings previously available on Cetra.

A third package from Cetra sources is Puccini's "Il Trittico" on three LP's, one for each of the operas involved. Featured are soprano Rosanna Carteri and conductor Fernando Previtali in "Suor Angelica," soprano Clara Petrella, tenor Aldo Bertocci and conductor Giuseppe Baroni in "Il Tabarro," and baritone Giuseppe Taddei, soprano Grete Rapisardi and conductor Alfredo Simonetto in "Gianni Schicchi."

"La Boheme," formerly a rival for the Puccini opera of the same name, features soprano Antonietta Mazza Medici and mezzo-soprano Nedda Casei on three LP's. The Puccini opera, also on three disks, soprano Angiola Vercelli, baritone Giuseppe Zecchillo and conductor Ennio Gerelli.

Prokofiev First

Ivan Petrov and Nina Yakova are featured in an only recording of Prokofiev's "Betrothal in a Monastery" on

three LP's. Operettas on two LP's each are an only pressing of Milloecker's "Beggars Student" with Rudolf Schock, Hilde Gueden and conductor Robert Stolz; Johann Strauss' "Die Fledermaus" with Schock, Renate Holm, Walter Berry, Wilma Lipp and Stolz; and Strauss' "The Gypsy Baron" with Schock, Eberhard Waechter and Stolz.

A three-record set of Weber's "Der Freischuetz" features Claire Watson, Gottlob Frick and Schock, Lavro von Matauz, conducting. Several vocalists are featured in recital albums, including tenor Luigi Alva, contralto Maureen Forrester, mezzo-soprano Fiorenza Cossotto, baritone Robert Merrill, bass Cesare Siepi and baritone Geraint Evans.

Rene Leibowitz and the Paris Philharmonic perform Satie's "Socrate," an only recording transferred from Everest's Counterpoint Esoteric label. Manuel Rosenthal and the orchestra of the French National Radio and Television also have a Satie instrumental pressing, while a third Satie LP has piano music played by Jacques Fevrier and Georges Auric.

Hindemith Conducts

Paul Hindemith conducts the Festival Symphony in an only recording of his "Harmony of the Universe Symphony." Another only pressing has Kurt Bauer

leading soloists, orchestra and chorus of the Dresden Cathedral in Handel's "Ode on the Death of Queen Caroline."

Everest is continuing its series on Shostakovich with the first U. S. release of the "Symphony No. 8" with Kiril Kondrashin and the Moscow Philharmonic. Kondrashin and the Moscow also have a release of Rachmaninoff's "The Bells."

Another first U. S. issue is Mendelssohn's "Walpurgisnacht" with Lorenzo Bernardi conducting the Leipzig Bach Festival Orchestra and Chorus. Pierre Boulez conducts the Domaine Musical Ensemble in first recordings of variations by Webern and Amy.

Cage Continued

A second volume of John Cage's "Variations For" features Cage and David Tudor. David van Vactor conducts the Hessian Symphony in his music. Cellist Janos Starker has two albums, including one devoted to Brahms. Pianist Alicia de Larrocha performs Granados.

The Vienna State Opera Orchestra has an album of national anthems. The orchestra is joined by the Boys Choir of the Vienna Woods in romantic Viennese music. A Bach cantata album by Illinois Wesleyan University Chorus includes a first listing for "Cantata No. 131."

DGG Bows Yule Sets And First Recordings

NEW YORK—Two special holiday packages and several first recordings are scheduled by Deutsche Grammophon this month. The seasonal sets include an Archive album of "Christmas in the Holyland," which contains Christmas music from the major Catholic and Orthodox churches of Bethlehem and Jerusalem in their original languages.

A group called the Gentle Power of Song performs old English carols with the Gabrieli Brass on a "Peace" album, which also features Martin Starkie reading English poetry of the period.

In conjunction with appearances in New York last week by Rafael Kubelik and the Bavarian Radio Symphony, a world premiere album of Hartmann's "Symphonies Nos. 4 and 8"

with these forces is listed.

Another first U. S. release is a two-LP set of Pfitzner's "Cantaten von Deutscher Seele" with tenor Fritz Wunderlich and the Bavarian Radio Symphony Chorus and Orchestra under Joseph Keilberth.

DGG is continuing its series on Hans Werner Henze as the composer conducts three of his cantatas with the RIAS Orchestra. The London Symphony makes its debut on the label as Claudio Abbado conducts Liszt and Chopin with pianist Martha Agerich.

Karl Richter is being presented in the second volume of his Bach organ series. Herbert von Karajan and the Berlin Philharmonic have a Bruckner album. Clarinetist Karl Leister and the Amadeus Quartet perform Brahms, completing the release.

Philharmonic Names Myrow A Composer-in-Residence

NEW YORK—Fredric Myrow has been appointed composer-in-residence with the New York Philharmonic for the 1968-1969 season. The assignment has been made possible through a Rockefeller Foundation Grant to the orchestra.

Nonesuch Records recently recorded his "Songs From the Japanese." Myrow was commissioned by the Young Musicians Foundation of Los Angeles in 1961 to write "Symphonic Var-

iations." The Santa Cecilia Orchestra of Rome premiered his "At Twilight" during the two years of his Fulbright Fellowship for study at Santa Cecilia Academy with Goffredo Petrassi.

He returned to the U. S. in 1964 and became pianist and composer with Buffalo's Center for Creative and Performing Arts under Lukas Foss. The following year he received a

Nonesuch Releases Early Recording By Wunderlich

NEW YORK—An early recording of Fritz Wunderlich singing the 20 songs of Schubert's "Die Schoene Muellerin" is being issued for the first time in the U. S. by Nonesuch Records this month. The work on one LP also features Kurt Heinz Stolze on piano.

The tenor, who died in 1966, recorded the song cycle a second time. This version is available on a two-record Deutsche Grammophon set. The Nonesuch performance was waxed in 1957 and is being issued by that label for comparison in musical

and vocal approach, which should be of special interest to professionals and to collectors of vocal pressings.

First recordings of the overture to Francesco Uttini's "Il Re Pastore" and ballet excerpts from Johann Gottlieb Naumann's "Gustaf Wasa" are included in an album of lesser-known Swedish music of the 18th century. The album features extensive excerpts from Johan Helmich Roman's "Drottningholmssmusique." All of the works in the set were performed at Drottningholm, the Swedish

OPERA REVIEW

Miss Freni, Raimondi Play 'Boheme' Roles to the Hilt

NEW YORK — Soprano Mirella Freni and tenor Gianni Raimondi were ideal as Mimi and Rodolfo in Puccini's "La Boheme" at the Metropolitan Opera on Monday (14). An excellent performance also was turned in by bass Jerome Hines as Colline.

Raimondi's "Che gelida manina" rang out. It was followed

by an equally beautiful "Mi chiamano Mimi" from Miss Freni, who has recorded the role on Angel with a cast including Mario Sereni, who began last week's performance as Marcello.

Sereni, who has recorded for RCA and Angel, only sang for two acts before indisposition forced him to leave. He was replaced by the veteran Frank Guarrera, who has recorded for Columbia and RCA. Marcello has long been one of Guarrera's strong roles.

Miss Freni, who also has recorded for RCA and London, was boosted in an Angel ad, which listed her future recordings of Gounod's "Romeo et Juliet" and Mascagni's "L'amico Fritz." Her consistently fine Met performances can only add to her disk popularity.

Raimondi, whose recordings appear on Deutsche Grammophon and Everest, teamed with Miss Freni for the strength of the Third Act quartet. He also did well in that act's trio with Miss Freni and Guarrera. Miss Freni, whose "Addio" and death scene were poignantly sung, and

Music Teachers' Level Below Par: Foundation

LENOX, Mass.—The general level of public school music teachers was decried at a day-long seminar at Tanglewood on Oct. 11 sponsored by the Educational Foundation of American Women in Radio & Television. A discussion between traditionalists and the avant-garde also was part of the seminar.

Oliver Daniel, BMI vice-president in charge of concert administration, called opera "a dinosaur which actually died three decades ago." He explained that dinosaurs ate green leaves and died, while opera's green leaves were money. Daniel's point was that opera cost too much and gave nothing contemporary or revolutionary. He predicted that symphonic music would follow the same path.

Claude Monteux, conductor and music director of the Hudson Valley Philharmonic, defended "the establishment" in his remarks.

Daniel and Monteux agreed about the level of music educators. Monteux said young people could not be expected to develop a taste for fine music or ability as instrumentalists when instructed by "incompetents." He feared there would eventually be a shortage of good musicians for symphonic or-

summer palace and theater.

Pianist Noel Lee has a Stravinsky collection that includes first stereo releases of "4 Etudes, Op. 7," "Ragtime," "Tango," and "Circus Polka." The Pennywhistlers have an Explorer series album of songs of Bulgaria, Poland, Russia and other Eastern cultures.

chestras if the situation were not corrected.

Daniel agreed, "If sex education was taught as badly as music (in the public schools) we wouldn't have to worry about the population explosion."

The seminar also included an afternoon session with J. Marks, Columbia pop artist and author of the forthcoming book "Rock and Other Four-Letter Words." Marks used mixed media in a discussion of "A Trip With Rock—the Musicology of the Avant-Garde."

OLIVER DANIEL, right, BMI vice-president in charge of concert administration; Claude Monteux, music director of the Hudson Valley Philharmonic Society, and Julie Chase of WTAG, Worcester, Mass., past president of American Women in Radio and Television (AWRT); participate in a music seminar at Tanglewood on Oct. 11 under sponsorship of the Education Foundation of AWRT. More than 125 persons attended the seminar, which preceded the two-day AWRT area conference at South Egremont, Mass.

COL. PREPARES CORRECTED LP OF 'CONCERTO'

CLEVELAND — Columbia Records will service retail accounts with a corrected copy of Brahms' "Piano Concerto No. 1" with soloist Rudolph Serkin and the Cleveland Orchestra under George Szell by the end of this month.

Szell has sent the following telegram to several key dealers in New York, Philadelphia, Boston, Washington and Chicago:

"Urgently request do not sell your present stock. . . Columbia Serkin-Szell Brahms' "First Piano Concerto," Disk MS 7142 and Tape MQ 1008, because these are defective and acoustically distorted. Following my protest, Columbia preparing corrected version which should reach you within two weeks in exchange of your present stock."

'Barber' to Be Taped for NHK

NEW YORK — The Metropolitan Opera's first performance of Rossini's "Il Barbiere di Siviglia" this season, listed for Nov. 7, will be videotaped for Nippon Hoso Kyokai (NHK) the Japanese Broadcasting Corp.

NHK also will tape the opera's dress rehearsal three days earlier. The final tape will be the result of the two sessions. No changes in performance are contemplated because of the taping. NHK has developed the image-orthicon tube, which makes possible the videotaping in color of actual performances without any change in stage lighting.

The performance will be Teresa Berganza's first Rosina with the Met, while Richard Bonyngue will be conducting the work here for the first time. Also featured in the cast are Mario Sereni as Figaro, Luigi Alva as Count Almaviva, Giorgio Tozzi as Don Basilio, and Fernando Corena as Dr. Bartolo.

• Continued from page 71

Raimondi made their Met debuts several years ago in the same performance of "La Boheme."

Hines, who has recorded for Columbia, RCA, Epic, London, Angel and Word, was in splendid voice throughout, with his fourth act aria a gem. Fernando Corena, who appears on London, RCA, Richmond, Everest, Urania and Vox, had an effective vignette as Benoit.

Lorenzo Alvary, the Alcindoro, and Russell Christopher, the Schaunard, also were capable. Colette Boky, filling in for the indisposed Judith DePaul, sang Musetta. Francesco Molinari-Pradelli, who has recorded on London and Angel, led a tight performance. He also was boosted in an Angel ad, which included his current "Rigoletto" with Cornell MacNeil, Reri Grist and Nicolai Gedda.

'Dream' Waltzes Briskly Along

NEW YORK—A bygone era came alive at Philharmonic Hall on Tuesday (15) as Oscar Straus' lilting "A Waltz Dream" charmed a near sellout audience in the opening concert of the Little Orchestra Society's season. Sparkling performances by soprano Teresa Stich-Randall and tenor William Lewis highlighted the staged concert version of the Viennese operetta. Soprano Lee Venora was another asset.

Miss Stich-Randall showed she was completely at home with the lighter piece as she is in full-scale opera. From her duet with Elisabeth Farmer, she was in glowing voice. And her portrayal was delightful. Miss Stich-Randall's long list of recording credits includes albums on Westminster, Bach Guild, RCA, Angel, Epic, Vox, Nonesuch, Archive, Vanguard and Music Guild.

Lewis' duet with Robert Hale, who was fine throughout, was a high spot of the first act.

While the performance was in English, the duet's two encores were sung in German. From the duet on, Lewis sang well and his voice was rich. He has recorded for Columbia and Vanguard.

Miss Venora's final waltz was a high spot for her. Her portrayal of Franz was pert and fitting throughout. She has recorded for Columbia and Command. Emile Renan and David Rae Smith handled their roles well, also.

Ralph Herbert, who staged the performance, served as narrator, explaining the action and some of the omitted dialog. A second-act ballet by Edward Villella and Patricia McBride of the New York City Ballet Co. also was a delight.

Thomas Scherman conducted at a brisk pace, keeping the frothy bon bon moving. He has conducted the Little Orchestra Society on Decca and the Vienna State Opera Orchestra on Decca. FRED KIRBY

Wilhelm Furtwaengler and the Berlin Philharmonic offer Beethoven's "Symphony No. 9" with Elisabeth Hoengen and Peter Anders among the soloists. Another album with Furtwaengler and the Berlin includes a rehearsal session of the first movement of Schubert's "Symphony No. 8 (Unfinished)" with Furtwaengler talking to the orchestra. This pressing also has music of Brahms, Richard Strauss and Mozart.

Guitarist Charlie Byrd and counter-tenor Richard Levitt have a disk of English music. Edith Bauer-Sleis and the Vienna Chamber Ensemble are featured in virtuosic classical mandolin music. Maria Livia Sal Marcos performs classical Brazilian guitar music with ensemble.

Julius Hermann conducts the Deutschermeister Band in a collection of military marches. The Schoenfeld Duo make their disk debut with premier recordings of violin-cello sonatas of Ravek, Honegger and Villa Lobis. Completing the release is another

first recording as members of the Gregg Smith Singers perform Brahms' complete quartets for four voices and piano.

He also received a Rockefeller Grant-in-Aid for 1967-1968 and six successive ASCAP awards for classical music. Operators, One-Stops, Labels in Hot Debate

Glassman, explaining the one-stop's difficulty in sifting through "150 new releases a week," had said, "We have 15 salesmen call on us every week. These are strictly hype operators. We see a lot of unadulterated junk."

Hoffman said, "I hear you complain that you sit with hype artists. Maybe some of those records you have trouble buying were ones the salesmen tried to show you."

Glassman stood his ground. At one point he challenged A&M's Bob Fead, who had said no one-stop ever complained about product availability. "I'll give you an order for six numbers right now," Glassman said.

Nearly every aspect of manufacturer-to-one-stop-to-operator relations was covered, including Little LP's. A show of hands revealed that the majority of operators in the packed room wanted Little LP's. The same hands were raised when MOA's Bill Cannon asked if they had trouble obtaining them. Chicago one-stop owner Fred Sipirra, who had presented Cannon with a football helmet for "protection," told the group that he "had been unable to buy Little LP's from Seeburg" when the

Chicago manufacturer first introduced them.

Fead said record companies "go to considerable expense to produce Little LP's. If we relied on Little LP's to pay the rent we would be in trouble," he said.

A discussion of the importance of trade paper charts also erupted. Acting as spokesman for the weekly record industry trade papers, Billboard publisher Hal Cook said, "We have made a full disclosure of our chart methodology and have suggested

Howard Ellis New President; Event to Remain in Chicago

By EARL PAIGE

CHICAGO—A growing, stabilized and more democratically organized Music Operators of America (MOA) met here last week and elected Howard Ellis president. Operator attendance was 1,500; there were 601 exhibitor people; over 100 new members were signed. Exhibitors said they did more business than in any MOA in recent years.

The only sour note was complaints on the condition of rooms. The Sherman House Hotel is in the middle of a major renovation program.

Ellis, a Nebraskan, announced a major public relations program that will include a Coin-Operated Music and Amusement Month promotion augmented by a public relations kit. An MOA civic service award is among other plans.

Board chairman Bill Cannon promised to carry on MOA's

work with record companies. Executive vice-president Fred Granger said MOA's copyright battle (still undecided) was worth the cost of dues alone and stressed four insurance programs MOA has developed.

In a highly dramatic session, MOA members elected Les Montooth, a Peoria, Ill., operator, as treasurer, replacing A. L. Ptacek, who became secretary. A tie vote was resolved when Henry Leyser, Oakland, stepped aside in the treasurer contest.

"I think this election proves MOA is stronger than ever," said Leyser afterward, denying that his status as a jukebox manufacturer representative figured in the vote. Although rumors persisted that an "old guard" contingent had maneuvered in Montooth's behalf, several directors insisted the Peorian's nomination was spontaneous.

Leyser, along with eight others, was elected to MOA's streamlined vice-president roster. The others: Harlan Wingrave, Thomas Greco, Russell Mawdsley, Ted Nichols, John Trucano, William Anderson, Lawrence LeSturgeon and Robert Nims. Hal Shinn was re-elected sergeant-at-arms.

Ten new directors are Jim Stansfield, La Crosse, Wis.; Sam Weisman, Baltimore; Ed Zorinski, Omaha; Mrs. Leoma Ballard, Bell, W. Va.; George Holtzman, Brooklyn; John Snodgrass, Albuquerque; Jon Brady, Charlotte, N. C.; Hy Lesnick, Richmond, Va.; A. L. Witt, Greenville, S. C., and Norman Pink, Minneapolis.

Panelists Hail Big Tourney

By RON SCHLACHTER

CHICAGO — Calls for national tournaments, shuffleboard and bowlers were heard repeatedly at the Music Operators of America (MOA) tournaments seminar, held here during the recent exposition.

"I want 8-ball pool to be a national tournament," said panelist Ben Spaulding, Phoenix. "The only way to put pool over the top is to run it as a national event. But it needs promotion. We must not let this die because it's a good game. I got into the pool table business not to lose locations. With tournaments, we can exclude people who own their own equipment."

Vic Van Der Leenden of Montauk, Long Island, told the SRO audience in the Sherman House how he was able to get new locations from the tournaments:

"People who wouldn't hear of us putting a table in their place were now calling us. We picked up our income 20 to 30 per cent."

Bill Kobler, a competitor of Van Der Leenden, agreed on the success of the tournaments and added, "I became acquainted with a lot of competition. Working closely together during the

tournament, we got to know each other better and were able to work out our problems."

CHICAGO — An integrated football team, the popular pastime of jogging and the fast action of ball play were all represented in the amusement games exhibited here at the recent Music Operators of America (MOA) Exposition.

Quality Sound Emphasized At MOA

CHICAGO — Jukeboxes shown at the Music Operators of America (MOA) emphasized quality sound reproduction. In audio/visual, the emphasis was toward more dramatic subjects, in some cases, a "girlie" approach. Background music was more sophisticated.

Among major jukebox makers, Wurlitzer showed its Americana III, which uses a stereo system consisting of two 6-inch middle sonic speakers, two 3-inch by 5-inch tweeters and two 12-inch woofers. The firm had many comments on its animation, which shows cars "crossing" a bridge and going up an outer drive.

Rock-Ola's Psychedelic Money Grabber also emphasizes sound, with higher-mounted stereo speakers, transistorized amplifier and a powered remote control for better sound control by the location owner. The firm also showed its wall-mounted 430 model.

CHICAGO—How to make use of the National Institute of Coin Mechanics, Denver, was the subject of a general membership meeting here of the Illinois Coin Machine Operators of America Association (ICMOA). The meeting was held during the Music Operators of America (MOA) Exposition at the Sherman House.

Robert Rondeau, manager of Rondeau Sales Div. of Empire Distributing, Inc., Menominee, Mich., told the group that men, of their choice, may be sent to the school for 21 weeks with the entire expense paid by the federal government's Manpower Development Training Act.

"Wisconsin has sent 31 men to Denver and it hasn't cost any of the operators a dime," said Rondeau. "This is the first time that the government has recognized us as an industry."

two-player Hockey Champ. Playing time is adjustable to two, three, four or five minutes per game.

Sega featured its Motorpolo, Periscope and Helicopter at the show. The two players in Motorpolo attempt to manipulate their bike riders to propel a ball into the respective goals.

Periscope boasts a realistic sound system and visual explosion flashed on back scene when a player makes contact with a moving ship. For Helicopter, a player scores points by making a correct landing on flashing world capitals.

Another Periscope game was on display at the Taito exhibit. This model registers scores of one, two or three points depending on the placement of the hit.

Jogging Craze

D & R Braun Corp. has capitalized on jogging craze with Mister Jogger. The participant, who has shown how far he has traveled, receives a rating on a scale ranging from very poor to excellent.

Also on display by the company was a word game called Unscramble. The object of the game, which is not to be confused with a quiz game, is to

unscramble three-letter words as fast as possible.

New games on display Midway were Mini Boxe and Golden Arm. The former is a boxing contest, while the latter is a grip tester.

Williams featured its two new games, Pit Stop and Space Pilot. Pit Stop, a two-player flipper game, offers auto racing competition for total laps and high scores. A player can advance his car 14 different ways and scores one lap each time his car passes the finish line.

Space Pilot allows the player to manipulate the space craft with twin control levers. There are four target pylons with changing targets and scoring values ranging from 50 to 500 points. On display at the Bally exhibit were the company's two new flipper games, Rock Makers and Mini Zag, along with the 1969 Super Bally Bowler. Mini Zag, a one-player game, features a Zagger Lane where a captive ball can repeatedly score to 400.

Knowledge testing machines were displayed by Mondial International, Inc.; Nutting Industries, Ltd., and Nutting Associates. Prof. Quizmaster, Mondial's entry, is designed for trouble-free operation and con-

Pool Makers Write Orders

Billiards Art Daddis said, "business was excellent." Daddis said he had enough orders to keep his plant busy for four months.

Pool tournaments was a subject at most booths. U. S. Billiards conducted one on the floor. Valley Manufacturing Co. had an expert demonstrating trick shots.

Keith Merrifield and John Tyler, Brunswick Corp., were kept busy explaining the simplified technique of re-covering pool tables without removing the slates.

Aaron Goldsmith, All-Tech Industries, told operators they could cut re-covering time in half with his firm's new table rail features.

"We're letting the other people go to the 'different look' in pool tables," said Sol Lipkin, American Shuffleboard. "We're staying with the conventional looking table, but with refinements such as our billiard ball drop chute."

Refinements were also pointed out at the Irving Kaye exhibit and by Diplomat, where Milton Green and Abe Weisberg greeted operators.

Frank Schroeder, Fisher Manufacturing, said the Marquee pool table with steel reinforced honeycomb slate playfield was "rediscovered" at the show.

Another exhibitor, National Shuffleboard Billiard Co., announced plans for erecting a new plant on an 8½-acre site in Green Brook, N. J.

The effect of the seminar was immediate. MGM's Sol Handwerker called for regional jukebox programming seminars, and said MGM Records would participate. He also said, "MOA committees should meet with committees of other trade associations, such as Record Industries Association of America."

Sonny Kirshen, Liberty Records national sales director, said his firm would commence a direct mailing to operators. James Stewart, president, Stax-Volt, said his firm would shortly be sending out a national newsletter to operators. Both Oscar Buchman, Redisco, and Bob Garmisa,

Garwin Sales, suppliers of Little LP's, were enthusiastic about the convention.

Mel Kahn, Chicago branch manager, London Distributing, ordered "oldie" singles in quantities up to 1,000, as a result of learning what jukebox operators wanted.

"There's also a need for advertising. The coin operator industry needs advertising and I think tournaments lend themselves well to this."

NABLE WARNING

Vending Scheme Promoters in N. Y.

NEW YORK—Promoters of vending schemes have moved into this area again, according to Irwin Nable, Schoenbach Co., Brooklyn, who received his first

phone call last week from a distressed victim. Nable, a past-president, National Vendors Association, said he was not surprised. "People on fixed salaries are ripe for these promoters. The problem is part of our current inflationary business condition."

Nable said the promoter in question was based in Pittsburgh and was selling one unit on a stand for \$97. "At top, this type of machine shouldn't cost over \$26," Nable said. "The man told me he had answered an advertisement from the Pittsburgh promoter."

"Almost before he could lick the stamp and mail his answer, the promoter was calling on him in the Bronx. He asked for a \$150 deposit."

"Somehow, the Bronx man obtained my phone number and he called me. I suggested he contact the New York Better Business Bureau, the post office authorities and the district attorney. I also told him he would be better off forgetting about the deposit."

Nable said the man was very interested in the vending business and relieved to know that

there were many legitimate and established vending distributors eager to help new people get into bulk vending.

"Anyone on a fixed salary today is looking for extra money. The legitimate distributor is in a position to help new people and build them to a point where they might operate as many as 200 or 300 machines on a part-time basis."

Nable's recommendations:

... The new vendor should be told that for every dollar he spends he will receive three, out of which will come the cost of commissions, merchandise and servicing. "This is not a fast money business," Nable said.

... The new vendor should install a full complement of machines, offering gum, candy, nuts and capsule merchandise in all price ranges. "I recommend at least a four-unit stand, and preferably a six-stand."

... The new vendor must keep machines serviced and be alert for new locations all the time. "He can't just put out a few machines and forget about them," said Nable.

'BLUE SKY' STORY

Ronald Tomasso Tells How He Became Vendor

VINELAND, N. J.—Ronald Tomasso is among what is probably a growing number of new bulk vendors one generation removed from "blue sky" vending scheme promotions. He entered the bulk business after buying machines from another man who had paid \$1,200 for 10 units, and after becoming acquainted with Alan and Richard Rake, Philadelphia distributors.

"I'm always looking for new ways to earn extra money," Tomasso said. "Once I operated an ice cream truck. When I saw an advertisement in the Philadelphia newspapers for these 10 machines I decided this might be worth investigating."

Tomasso phoned the man who had been "blue skyed," and then contacted the Rake brothers, who advised him on the nature of the bulk vending business. Tomasso's wife, Joyce, phoned the Better Business Bureau. With what the couple learned from the Rake brothers and other sources, they were sure the venture would be worth-while.

"The man advertising the machines worked in a newspaper office," Tomasso, a glass plant

employee, said. "Six of the machines were located in the man's newspaper office. He was asking \$250 for all 10 machines."

Tomasso, who has since increased the number of machines on his route, checks them on Saturday morning. "I usually put in nearly a full day from 7:30 a.m. to about 4:30 p.m."

Globes are washed and cleaned during spare hours each week. Tomasso and his wife also go over new products and capsule items for Saturday's fills.

"Some of my best locations are taprooms, where I've installed nut machines. Charms go well in locations such as newsstands. Gum is a good item in grocery stores. There is no limit to the number of new locations," he said.

International News Reports

RCA to Introduce New Logo In Japan This Month

TOKYO—RCA Records' new logo will be introduced to the Japanese market at the end of this month, announced RCA and the Victor Company of Japan, at an inauguration party held last Friday (18) at the Palace Hotel, Tokyo.

More than 600 persons heard Dario Soria, RCA's division vice-president, record international department and Hitoshi Momose, president, Victor Records, Japan, introduce the start of a three-month campaign for the label.

Initial releases include new Japanese talent who will record exclusively for the RCA label, and international names. The first release will reach distributors on Friday (25).

Plans to introduce RCA to Japan were made in May when RCA and the Victor company signed an agreement.

"Important Step"

At the party Soria said: "This is an important step to have the

new RCA logo and label known in every country of the world. The phonograph record has brought RCA into more homes in more countries than any other RCA product. Its introduction in Japan is a milestone which will bring the trademark to Japan with its 100,000,000 citizens."

On behalf of Japan Victor, Momose stated that Japan Victor and RCA had first started doing business together in 1927 when Japan Victor was first established.

In the initial RCA release for Japan will be the film soundtrack of "Head," the Monkees' first film. The group has recently completed a successful tour of Japan. Also in the first release is Tchaikovsky's "Pathe-tique Symphony" by the Philadelphia Orchestra, conducted by Eugene Ormandy, which marks the orchestra's return to the RCA label after 25 years. Four Japanese language singles

and two Japanese language albums are included in the first releases and, taken from RCA International catalog, an album of the Chicago Symphony conducted by Seiji Ozawa, the first Japanese conductor to gain international fame in the classical field.

Wright Publishing for Sale; Expects Bidding of \$1.8 Mil.

LONDON—The Lawrence Wright Music Publishing Co., Ltd., one of the oldest established companies in British music publishing, is up for sale.

The Westminster Bank, executor of the estate of the late Lawrence Wright, who founded the company in 1911 and died in 1964 at the age of 76, is inviting tenders from prospective purchasers and the sale is expected to realize \$1,800,000.

The tenders will be examined on Dec. 31 and the company sold to the highest bidder. Lawrence Wright has two subsidiary companies—Elizabethan and Vocab—and three directors, Bill Ward, Syd Richardson and Reg Davis, who was appointed chairman of the company by the Westminster Bank. Other executive staff includes Len Beadle and promotion manager Mike Littman.

Ward and Richardson have agreed to enter into a short-term contract with the buyer of the company in order to streamline the takeover. The buyer will be required to acquire all shares in the company and its two subsidiaries and will have an option to buy the associated companies, Lawrence Wright Entertainments, Summit Artists, Melody Music and Minch Music.

The purchase price must be paid in sterling and, if sold to a buyer outside the sterling area, the deal will be subject to Bank of England approval.

Lawrence Wright, which has offices in London and Paris, has one of the largest music catalogs of any publishing house in Britain—more than 5,000 copyrights, 600 of them written by Wright himself under his pseudonym, Horatio Nichols. Wright's hits include "Among My Souvenirs" and "Shepherd of the Hills," both written with Edgar Leslie, and "Babette." Recently, the Lawrence Wright company entered into a record production deal with Larry Page's Page One label for the release of product by new talents Billy Budd and Alan Randall.

Sir Joseph Visits EMI's Milan Plant

MILAN—Sir Joseph Lockwood, president of EMI, was in Milan Oct. 8-10 to visit the plant of EMI's wholly owned Italian subsidiary, EMI-Italiana S.p.A. and to discuss the Italian market with Stephen Gottlieb, new managing director of EMI-Italiana.

Gottlieb was head of EMI's Danish company until a month ago when he replaced George Alexander in Milan. Alexander has been assigned to supervise EMI operations in Switzerland.

The EMI-Italiana plant, completed in 1966, has been in full operation for 18 months and has a production capacity of 40,000 records daily. It is the second largest record manufacturing plant in Italy—after the RCA-Italiana plant outside Rome.

After the talks with Sir Joseph, Gottlieb told Billboard that EMI-Italiana's main objective over the next few years will be to strengthen its Italian repertoire and to become the leader in the Italian market.

As part of the campaign to strengthen local product, EMI-Italiana has over the past year signed a good deal of new talent, including Sonia, Giusy Romeo, Pino del Mondo and Giuliano Palaggi.

Mfrs. Push Record Sales In Sweden

STOCKHOLM—Almost all the major record companies in Sweden have joined forces in an extensive campaign to promote the sales of records in Sweden.

Using the slogan "Give records, of course," the record companies are aiming to acquire a much larger share of the gift market hitherto dominated by flowers, books and candy. To promote the idea of records as gifts, a special film, starring Lars Ekborg, is being shown in 45 locations throughout Sweden.

A special gift wrapper has been designed for the campaign and publicity material has been distributed to retailers. Although the main emphasis of the campaign will be on Christmas gifts, the sales drive will last for six months. It is the first time that the Swedish record industry has co-operated in a promotional campaign.

Marsh & Veal Are Pacted With Mills

LONDON—We regret that in the London news column from the music capitals of the world of the Oct. 12 issue of Billboard, it was incorrectly stated that songwriters John Marsh and Andrew Veal had joined Cyril Black in his move to NEMS as general manager of the music publishing division.

John Marsh and Andrew Veal are under exclusive contract to Mills Music.

SONO CAIRO of the United Arab Republic has concluded a deal with EMI for it to manufacture and distribute EMI product in the UAR. Puts in a Good Word For Music in TV Blast

LONDON—Television personality Hughie Green blamed falling commercial TV ratings in Britain on "pseudo intellectual program planners" who were responsible for a general decline in the moral standard of programs.

In a hard-hitting speech at the autumn 1968 luncheon of the Music Publishers' Association at the Royal Garden Hotel, London, Oct. 8, Green attacked the concentration on kitchen sink drama, four-letter word frankness in discussion programs and the escalation of programs dealing with drugs, violence and sex.

"What we need on TV," said Green, "is more good music such as the people here today deal in—not some of the filth which is being put out today. No wonder more and more people are turning their TV sets off," said Green.

And he contrasted the public reaction to the the new permissiveness in TV programs to the

fantastic response associated with "The Sound of Music." This proved beyond any doubt that the public really wanted wholesome family entertainment.

Green concluded with a warning that the general decline in morality could be a prelude to the takeover of the western world by Communism.

'67 INSTRUMENT SALES IN GERMANY WAS \$31 MIL.

NUREMBERG—Sales by the West German musical instrument industry in 1967 were \$30,950,000, reported secretary Georg Zimmermann at the annual meeting of the Federal Association of German Musical Instrument Manufacturers. This figure does not include sales of pianos and organs.

Zimmermann said 52 companies were now represented in the Association and they employed a total staff of 5,246.

Exports had increased in 1967 to 69 per cent of total production compared with 64 per cent in 1966. Exports of string instruments had risen by 6.5 per cent; accordions by 7.3 per cent, and of wood wind instruments by 21.8 per cent.

Imports of brass instruments were up by 8 per cent and electro-acoustical instruments by 16.8 per cent. Total volume of imports had decreased by 4.4 per cent compared with the 1966 total.

Zimmermann said that sales of musical instruments in West Germany had declined in 1967, showing that the market in musical instruments was highly sensitive to the nation's economic situation and that the musical education of German youth was still inadequate.

Promo Firm Set in Japan

TOKYO—A new artist promotion company is being formed here to handle foreign and domestic talent. However, the emphasis will be on foreign artists who wish to be promoted in Japan—and the company has been organized because of lack of communication between various Japanese promoters and American and European artists, said company spokesman, Rinko Akeda.

The company will be known as Artists International Management, and will act as a go-between, handling promotion and publicity for artists and groups in Japan, including tie-ins with TV and motion pictures, radio and TV commercials and press conferences.

Company address is 2-2 Kojimachi, Chiyoda-ku, Tokyo (265-5921).

Apple Plans Juicy LP's For Debuts in U.S. & U.K.

LONDON — Apple releases its first albums on the American market next month with simultaneous release in the U. K. Spearheading the releases is the new Beatles album called "The Beatles." This will be a double album packaged in a two-fold sleeve and will consist of 24 new tracks written by the group.

Another new album by the Beatles will be issued to coincide with the Christmas market. The LP, "Yellow Submarine," will feature the four hitherto unissued tracks from the recent Beatles-United Artists film cartoon of the same name.

The four new tracks are, "All Together Now," "All Too Much," "Hey Bulldog" and the George Harrison composition, "Northern Song." The LP will also include the title track and "All You Need Is Love." The rest of the album will be made up by the incidental music of the film played by the George Martin orchestra.

Beatle John Lennon will be featured on an album with Yoko Ono called "Two Virgins" which is aimed at the American underground and college campus. Due to the album's sleeve, which features a nude photo of Lennon and Yoko Ono and its specialized content, discussions have been held by Apple executives and EMI Records managing director Ken East, whereby the company is expected to be allowed to distribute the album through a British independent wholesaler and not through EMI's distribution in this coun-

try. The American distribution plans for the album have yet to be decided.

The other Apple albums will feature the George Harrison soundtrack from the film "Wonderwall," the first album produced by staff Apple and r manager Peter Asher featuring singer James Taylor, "James Taylor and Son," and an album by the Modern Jazz Quartet, "Under the Jasmine Tree," recorded in New York. Apple is also expected to release its first album by Mary Hopkin before Christmas.

Apple's head of the music division, Ron Kass, returned here Oct. 12 after visiting the recent

song festival in Rio de Janeiro. At the festival Kass obtained full publishing rights for three of the songs featured in the festival in all English speaking areas outside the USA and Canada. The three songs are "Sabia" written by Antonio Carlos Jobim and Chico Buarque de Holanda, which was placed first in the national and international section, "This Crazy World" written and sung by Paul Anka as Canada's entry in the festival, which was placed second in the international section, and "Caminhando" by Geraldo Vandie, placed second in the national section.

POP
INCREDIBLE—Gary Puckett & Union Gap, Columbia CS 9715 (5)

Here's another winner from the phenomenal group that hasn't missed the charts yet. Leading off with "Lady Willpower" and "Over You," they offer a smooth pop program that should hit instantly with the teens, and prove an important sales force with the young adults. Included are new Jerry Fuller-Gary Puckett gems such as "Now and Then" and "The Common Cold," along with Fuller's knockout "Give In."

POP
DO WHAT YOU GOTTA DO—Bobby Vee, Liberty LST 7592 (5)

Bobby Vee is one young pop performer who has kept up with the changes in musical trends, making this, his latest Liberty album, current as an appealing gentle rocker. With a single hit as its title, this LP also has nine other titles including a medley of "I Can't Help Myself" and "It's the Same Old Song," "Can You Love a Poor Boy" is another good selection.

POP
SOLID GOLD—Hesitations, Kapp KS 3574 (5)

The Hesitations, who have made a name re-couling someone else's hit, score again with a new bunch of best-sellers, including their latest single, "Whiter Shade of Pale." Polished to a super-soul gloss, the group powers through a pair of Rascals tunes, a pair of Beatles, "Stay in My Corner" and "Human."

POP
BOBBY DARIN BORN WALDEN ROBERT CASSOTTO—Direction 1936 (5)

Now on his own Direction label distributed by Bell, Bobby Darin deservedly steals all the credits, the cover and, of course, the music, in which Darin sounds like a cross between the Lovin' Spoonful and Jerry Jeff ("Mr. Bojangles") Walker. Darin's "Questions," "In Memoriam" and "Sunday," all self-penned, can land a spot on FM or easy listening as well as Hot 100 action and garner top sales for the LP.

POP
JUST SOME OF THOSE SONGS MRS. ROBINSON—King Richard's Fluegel Knights, MTA MTS 5011 (5)

The Fluegel Knights have a sure instrumental touch when it comes to taking a pop hit and making it palatable to all tastes. Their musical drive steers songs like "Mrs. Robinson," "San Jose," "Gentle On My Mind," and "By the Time I Get to Phoenix" into an ever-appealing groove.

POP
THE GLITTERHOUSE COLOR BLIND—Dynovoice DY 31905 (5)

Bound to be a bully on the charts, Bob Crews' latest pop project grooves through a strong package of tunes. The Glitterhouse, capable of FM and Hot 100 play, move powerfully through "Tinkerbell's Mind," "Child of Darkness" and "I Lost Me a Friend," while the group's debut LP offers some robust rock on this two-sided effort.

POP
LEE MICHAELS RECITAL—A&M SP 4152 (5)

Lee Michaels, who wrote, arranged and produced all the material on this album, has come through with a glorious package of word-pictures. "If I Lose You," "Time Is Over" and "Blind" are essentially good tunes in a fine album. Should be a sure bet for a chart winner.

POP
ELECTRIC MUD—Muddy Waters, Cadet LPS 314 (5)

The instrument may be electric, but the result is pure blues—the way Muddy Waters knows it best. Probably his most commercial venture to date, Waters walls through a soulful "Let's Spend the Night Together" (a Rolling Stones tune), "Hoochie Coochie Man" and "I'm a Man," among others. This package should land a chart position in short order.

COUNTRY
JIM REEVES ON STAGE—RCA Victor LSP 4062 (5)

Recorded live, there are some great performances by Jim Reeves, notably some tunes which were big ones for him during his early years. These include "Yonder Comes a Sucker," "Mexican Joe," "Four Walls" and others. Fans will love the package.

COUNTRY
NAT STUCKEY SINGS—RCA Victor LSP 4090 (5)

This is Nat Stuckey's first album on RCA, and it is a strong one. It includes his current hit single, "Plastic Saddle," as well as a number of other strong cuts. Among these are "Folsom Prison Blues" and "Harper Valley P.T.A."

COUNTRY
THE GREAT OLD SONGS—Stonewall Jackson, Columbia CS 9708 (5)

The album title really tells the truth. These are great old songs, cherished by country music buffs. Stonewall Jackson sings them with a world of heart and skill. Included are "I'm Here to Get My Baby Out of Jail," "Knoxville Girl," "Shackles and Chains" and many more. This is a collector's package.

COUNTRY
A REAL GOOD WOMAN—Jean Shepard, Capitol ST 2966 (5)

The distinctive style of Jean Shepard makes virtually every one of these cuts an outstanding performance. "A Real Good Woman," the reading of which is loaded with sincerity, is typical. Others are "An Old Bridge," "The Last Thing on My Mind" and "All the Time."

LOW PRICE CLASSICAL
ELECTRONOMUSIC 9 IMAGES—John Pfeiffer, RCA Victorla VICS 1371 (5)

RCA's John Pfeiffer, long in the background of the company's classical works, makes his debut in the world of electronic music. Maintaining basic framework, Pfeiffer departs from the traditional tonal scales by altering the sounds of natural instruments with electronic equipment. His goal: the creation of sound images by bending and structuring basic notes. The result is highly intriguing and should be a big seller.

COMEDY
BORN TO SING—Phyllis Diller, Columbia CS 9523 (5)

Miss Diller has conquered TV and movies with her jet-quick stand-up humor. It's not so much her voice that makes you laugh, but her choice of material, the arrangements, and her own nutty interpretations of such gems as Rodgers & Hammerstein's "Hello, Young Lovers," Harold Rome's little recorded "Nobody Makes a Pass at Me" and the Rolling Stones' "Satisfaction."

GOSPEL
ALL DAY SINGING—Blackwood Brothers, Skylite 6068 (5)

Another fine package from this noted group. The sides are loaded with sincerity and spiritual quality. The songs include "Go Right Out," "Won't We Be Happy" and "All the Day Long."

SPECIAL MERIT PICKS

POPULAR

WATCH WHAT HAPPENS—Chris Montez, A&M SP 4157 (5)

The outstanding repertoire that has been packaged for Chris Montez in this package gives the young singer a good crack at the hit lists. He's got a bright rhythmic touch on a Gershwin standard like "Love Is Here to Stay" and makes the most of such recent ballads like "Look of Love" and "Quiet Nights of Quiet Stars."

THE SANDPIPERS SPANISH ALBUM—A&M SP 4159 (5)

This LP comes as no surprise, because the Sandpipers have constantly relied on Latin-esque sounds. The only remarkable thing is that it's so excellent—better than expected. "Cuando Salí de Cuba" is here, as is their old hit of "Quantanamera," "Michelle" and "Yesterday," both in Spanish, are tremendous.

THE EULOGY OF BLUE WILLIE—Willie & the Red Rubber Band, RCA Victor LSP 4074 (5)

Willie and the Red Rubber Band have a strong blues album here, an up-to-date program of 11 fine cuts. "I'll Stay with You," "Nature's Way of Saying Thank You," and "Love in the First Degree" are but three of the excellent selections.

DAUGHTERS OF ALBION—Fontana SRF 67586 (5)

The Daughters of Albion prove a promising new group in this, their debut album. Emphasizing voice, voice combinations and lyrics, this unit offers music for the love generation. Among the top selections are the extended "John Flip Lockup," "I Love Her and She Loves Me," and "Good to Have You." "Story of the Sad" is another gem.

SAN JUAN

Kuoaney Records of Hialeah, Fla., recently opened new offices and warehouse at 403 San Jorge St. in Santurce. Eugenio Olarraga is in charge. The Kubaney catalog comprises 150 albums of their own repertoire, 48 on license from Belter Records of Spain and four from Vergara, also from Spain. Their budget labels are: Kristal, Regio, Alma and Ekipo. Their 8-track cartridge catalog of Latin American music is one of the most extensive in the trade. **Mateo San Martin**, head of the Kubaney enterprises, South Eastern Record Mfg. Corporation and Universal Record Distributors, both in Hialeah, is due in Puerto Rico this month for the celebration of the 13th anniversary of their company that was originally started in Cuba. . . . A sign of the growing interest in teen-oriented and soul recordings in Puerto Rico is the fact that two new stores have opened to join veteran "Charl's" in the Condado hotel strip. The new ones are El Disco de Oro in Old San Juan and El Kiosko in El Monte Mall of Hato Rey. These stores have all their albums and singles air-expressed from New York and are ready to supply their customers a day after the New York release date.

Max Muniz-Alfred D. Herger Productions of Puerto Rico landed the contract by Eastern Airlines as sponsors for a 90-minute color TV show with a budget of \$50,000 (highest so far in Puerto Rican TV) to be shown over Telemundo Channel 2 and over New York and Miami stations catering to Latin viewers. The production is based on the life and music of Mexican composer-singer **Armando Manzanero** (RCA Victor). Besides Manzanero, all other participants will also be recording artists. **Agla Guillot** (Musar), **Chuch Avellanet** (United Artists), **Roberto Ledesma** and **Gloria Mirabal** (Gema), **Carmita Jimenez** (SonoRadio), **Los Montemar** (Musicor), **Celines** and **Papo Roman** (Borinquen) and **Orquesta Panamericana** (Ansonia). . . . Muniz-Herger Productions also have a daily half-hour TV show "The Alfred D. Herger" and a one-hour show on Saturdays "Fin de Semana" (Week End Show) over TV station WAPA Channel 4.

was a 50-minute work by pianist Cecil Taylor. There was also some rewarding jazz from the Lee Konitz Trio, the Jon Hendricks Quartet and the Indo-Jazz Fusions group.

The final day of the Festival featured French pianist Martial Solad, playing unaccompanied, the Art Farmer Quartet, the Hank Mobley-Kenny Drew Quartet and the Quartet of alto saxophonist Phil Woods who received an ovation from the 1,100 persons.

In addition to the concerts, the Festival, promoted by Antonio Foresti and Alberto Alberti, featured historic jazz films presented by Germany's Joe Viera, head of the Educational Center of the European Jazz Federation.

SYDNEY

Three radio stations here are staging special concerts in conjunction with Sydney's Waratah Spring Festival. Station 2UW is mounting a huge pop concert in Hyde Park, featuring **Normie Rowe**, the **Groove**, **Johnny Farnham**, the **Dave Miller Set**, **Mike Furber**, the **Mecca**, the **Plastic Tears**, the **Showmen**, and **Thomas Hood**. Station 2UE will stage a family type entertainment featuring **Sandy Scott** and **Little Pattie**. Station 2SM is staging an All-Aboriginal show. . . . The **Rascals'** new LP, "Time-piece, the Rascals' Greatest Hits," has replaced the "Vanilla Fudge" LP as Festival's fastest selling LP. It sold nearly 1,000 copies three days after release.

A special release of 10,000 copies of the **Union Gap's** new single "Over You," in a four-color jacket sold out here in four days. Australian Record Co., local agents for CBS Records, say future disks will be released in ordinary covers. It'll probably be a toss up here as to which single will top the charts—"Over You" or the **Beatles'** new "Hey Jude." . . . The **Dave Miller Set**, who had a hit recently with "Hope," have a new one "Get Together," released by Festival. It's high on the playlists of five Sydney radio stations. . . . The **Monkees'** tour of Australia is a huge success. . . . Instant success for Festival's release of the Atlantic LP, "History of Rhythm and Blues, 1961-62." Despite lack of advance publicity, soul fans heard rumors of the release and placed several hundred orders even before most dealers knew it was on the way. . . . The **Same Day Twins**, contracted to **Robert Stigwood**, have just returned from Vietnam. . . . The **Twilights** have scored with the cover of their new LP, "Once Upon a Twilight," released by EMI. Inside the folding cover are cutouts of the group imposed on a fairyland background. They leap out when the cover opens.

Sydney's Op Pop discotheque has been refurbished and renamed **Cucumber Castle**. . . . First **Kama Sutra** release by Phonogram Recording Co. is the **Lemon Pipers'** "Lonely Atmosphere," and the first **Buddah** release is the **Lovin' Spoonful's** "(Till I) Run With You." Phonogram Recordings recently acquired the labels from **Astor**. . . . The **Beatles'** new Apple label has been released in Australia. First release is **Mary Hopkin's** "Those Were the Days." The new **Beatles'** "Hey Jude" is released here on Parlophone. . . . **Carol Eliza Barrett**, 17, has a local hit with "The Cool One Million," her first release. The song was written by her father, **Peter Hiscock**, the title coming from a feature series of articles in the Sydney "Sun" about Australia's 1 million teenagers. . . . **Caesar's Place**, the discotheque, now features pop jam sessions on Monday nights. Musicians are admitted for half price and allowed to perform in scratch groups. . . . Festival released **Monkee Mike Nesmith's** "The Wichita Train Whistle Sings" to coincide with the Monkee tour here.

The **Sebastian Hardy Blues Band**, which broke up about two years ago after several of the group were badly injured in a car smash, is back in action again. . . . **Russell Morris**, lead singer and founder member of **Somebody's Image**, has left the group to work as a single. . . . **Normie Rowe's** "Born to Be by Your Side," released by Festival, is Australia's fastest selling local single at the moment. After a career in the doldrums since he returned from England, he has a smash record just before he is due to go to Vietnam as an Australian Army conscript. He's in the middle of making a tea commercial for TV in which he'll appear with ballet dancer **Sir Robert Helpmann**, Prime Minister's widow

Dame Zara Holt and world featherweight boxing champion **Lionel Rose**. . . . Festival Records had 18 records in top-rated Sydney radio station 2UW's Top 40 chart in September. . . . Festival gave top priority to release of the **Irish Rovers'** "Biplane Evermore," following the enormous success here of their "The Unicorn" and "Whiskey on a Sunday." . . . EMI has re-released **Tom Jones'** "It's Not Unusual." Reason: the flip side, which passed unnoticed when it was released two years ago, is "The Look of Love," the current **Herb Alpert** hit.

EMI have also re-released **Keith West's** "Excerpts From a Teenage Opera" which passed without success last years but is in demand because of a TV appearance on the "Now Time" pop show. . . . **Buddy Greco** is enjoying a sellout season at the **Chevron Hotel's** Silver Space room in Sydney.

Dyna Products has announced its appointment as the exclusive licensee in the Philippines of **Capitol Records, Inc.** effective Oct. 1. Dyna also carries **Parlophone**, **Liberty**, **Pye**, **Pathe**, **Odeon**, **State-side** and **Dolton**. . . . **ABC-TV Channel 5** has started telecasting "Movin With Nancy," a **Nancy Sinatra** series which spotlights **Dean Martin**, **Lee Hazlewood**, **Sammy Davis Jr.**, **David Winters**, **Frank Sinatra Jr.** and **Frank Sinatra** among others. . . . **Atlantic** artist **Aretha Franklin** is making an impressive mark in the market in the release of "I Say a Little Prayer." **Mareco, Inc.**, which carries **Atlantic**, is re-releasing **Aretha's** "Respect," "Baby I Love You," "Since You've Been Gone," "Think" and "I Never Loved a Man." **Aretha's** "Nikki Hokey" has become a top jukebox favorite. Top foreign version is that of **Ellie Greenwich** while top local version is that of **Jeanne Young** (Top Tunes), and up-and-coming artist.

Englebert Humperdinck is moving up fast with his "A Man Without Love," on **London**. There are now seven versions of this song, two on **PPX**. . . . A national breakout for the **Union Gap** (CBS) is "Young Girl." This has affected the sales of the previous **Union Gap** releases, "Lady Willpower," "By the Time I Get to Phoenix" and "Kiss Me Goodbye." . . . **Alpha Recording System** has prepared an all-out campaign for its artist **Norma Ledesma** (Top Tunes) when she makes her album debut in November, the release being timed for the **Yuletide Sea**.

interest in the firm, with **Monty Babson** and **Barry Morgan** each having another 30 per cent. The other 10 per cent is held by **Don Percival**.

Commenting on his move **Denker** said, "I decided that I wanted to build up **Morgan** as a company and felt that the only way to do this was to leave **CBS**."

He plans to extend the six-strong sales force and will also handle classical a&r. **Denker** and **Babson** are planning a trip to the U. S. next month to seek new material for the label.

OPERATORS

HOW DO YOU GO ABOUT SELECTING RECORDS FOR THE PROGRAMMING OF YOUR INDIVIDUAL LOCATIONS?

Please Check One:
(or more, if you're in real trouble)

- I ask my friendly one-stop what he has in stock.
- I listen to the radio for a half-an-hour a day, and buy everything they play. (I once tried to order 25 copies of a soap commercial.)
- I ask my youngest daughter what the kids are buying. (She's 43.)
- I read all the promotion literature from record companies and buy whatever they say is good. (I have a very large inventory.)
- I sneak into my competitor's locations and photograph his title strips.
- I buy all the records by artists whose last names begin with "M."
- I throw darts at **Billboard's** Hot 100 chart and buy what I hit. (Once I hit my wife. She broke my throwing arm and I couldn't buy anything for 6 weeks.)

If your methods of buying even vaguely approach any of the above extremes, your locations (and profits) are undoubtedly suffering from severe malnutrition.

THE CURE:

Join the hundreds of your fellow operators who long ago discovered the modern programming route to more pay and play:

RSI RECORD SOURCE INTERNATIONAL

. . . a unique sampling service designed to alert operators to the best new singles early enough for you to test and evaluate them personally, order copies needed for your locations from your supplier, and cash in on each record's full cycle of popularity.

The three services available to operators are: **HOT 100**, **EASY LISTENING** and **COUNTRY MUSIC**. Each service consists of weekly shipments of 10 different records per week in your selected musical category. These singles are those which are just going onto **Billboard's** charts or are just-released, "Cinch" winners, as determined by **Billboard's** 7-man review panel.

REMEMBER: ONLY YOU KNOW THE INDIVIDUAL MUSIC TASTES OF YOUR LOCATIONS . . . AND ONLY YOU SHOULD MAKE THE SELECTIONS FOR THE MOST EFFECTIVE PROGRAMMING.

Alpha Recording Systems officials, Orly Ilacad and Vic del Rosario, reported that Ledesma's album will be the most expensive in the history of local LP production. The album will be distributed by Pioneer Record Sales. Songwriter-singer Joe Mari Chan, who made a national breakthrough with his "Afterglow," is now recording with Alpha Recording System. Alpha's acquisition of the Hi-Jacks, the highest-paid Filipino combo, and Jeanne Young, popular TV-movie star, elevates the company to the biggest independent outfit here.

by Vic Faraci, of Musical Isle in the Chicago area. He said, "I can't say it has hurt us. In fact, our business is well ahead of last year."

Dissenting Opinion

A dissenting opinion, however, came from Joe Ceddia of Lomar Distributing, a Chicago

one-stop operation. He said, "The tax has certainly taken its toll. Business is down from the point of jukebox collections. All the locations are off and this, in turn, hurts our business."

Sam Goody, New York-based discouter, saw no detrimental effect to his business because of the government's surtax but went a step further to bring

the government's policy in Vietnam into business focus. He said, "What it has done is take all our boys, all our customers, and put them in the army."

Last week, in Washington, Rep. Wilbur D. Mills, Democrat of Arkansas, said that the surtax would probably have to be extended beyond its scheduled expiration date next June 30. Representative Mills did not indicate how permanent he thought the "temporary" tax increase might become but, he said, "At this time with the information presently available to us, if we are to avoid another excessive deficit, I see little possibility of letting the surtax expire on June 30, 1969, unless additional very stringent economies are placed in effect." Representative Mills is chairman of the House Ways and Means Committee, which handles tax legislation.

Howe Plans a Bigger R&B, Country Climb on Monkees

LOS ANGELES—Independent producer Bones Howe plans to change the musical image of the Monkees, and will get the group more involved with country and rhythm and blues.

"I want to get the Monkees out of their TV image musically," says Howe, "and into a more contemporary-r&b-c&w vein."

One of the West Coast's busiest free-lancers, Howe has produced for the 5th Dimension, the Smokestack Lightning and, most recently, the Association. Recently, Howe and partner Steve Binder, co-partners in Binder-Howe Productions, a record-TV-film company, separated business associations.

Howe wants to build an artist roster, and has hired more writers for his music publishing firm, Mr. Bones Music (BMI). Guy French has joined Howe's organization as general manager of the music publishing arm.

The company will produce the Smokestack Lightning for Bell Records; Piper Grant, a contemporary singer; Vikki Medlin, pop-jazz singer; the Monkees, and the Clingers, a rock group, for Columbia Records, with Howe as executive producer.

Writers in the Howe stable include Jeff Comanor, Lanny Duncan, Cherie Ernst, Vikki Medlin, Sandy Zevon, and members of the Smokestack Lightning.

TV production—Howe was music producer for the Elvis Presley and Petula Clark specials—he is talking with two film companies on several music projects.

Also in the planning stages are overseas publishing agreements and acquisition of masters, says Howe. The company also includes a graphics firm, Windows Unlimited, established with Wayne Kimbell.

Strangeloves Back—New Disk on Sire

NEW YORK—Richard Gottehrer, president of Sire Records, has put the Strangeloves together again with Robert Feldman and Gerald Goldstein for the purpose of recording and making some limited personal appearances.

The group's first release in more than two years will be released this week on the Sire label. An album is now in the works. The Strangeloves previously recorded on the Swan label.

WINNING WINDOW DISPLAY in Tower Records' "Wild in the Streets" contest was submitted by Al Abrams, general manager of Harold N. Lieberman Co., Tower's Minneapolis distributors. Abrams and his wife will receive an all expense paid vacation in Hollywood and a part in an American International film.

Vanguard Fete to Bow Perrey Sound

NEW YORK — Vanguard Records will introduce the electronic pop sound of Jean-Jacques Perrey at a party at the company's 23rd Street studio on Thursday (24). The label has issued his first solo album, "The Amazing Pop Sound of Jean-Jacques Perrey."

Vanguard also will introduce a new 24-input 16-channel output solid-state console especially designed for the company in England. Perrey and Gershon Kingsley previously collaborated on two Vanguard LP's.

nie Brooks on harmonica for this one as Paine's strong vocal was followed by flashy organ work by Laoes, the first of his top virtuoso sections. Demos also had a fine guitar section, then Bruno had his only solo segment of the set and he made the most of it. His long drum solo was brilliant. Brook also was strong in his harmonica sections, while Barnaby was outstanding throughout. While the Apple Pie Motherhood Band has yet to make it big, the quality of their performance and their effect on the audience showed they have a good chance of breaking through.

ROCK OPENING BOOKING DOOR FOR COUNTRY ACTS

By BRUCE WEBER

LOS ANGELES—Pop and rock singers are opening booking doors for country artists in areas usually closed to them.

Don Howard, president of recently formed Don Howard Artists Agency, believes nightclub bookers and college concert packagers are taking another look at the country talent market.

While traditional country singers are having more difficulty breaking through, feels Howard, modern country acts are making inroads in Las Vegas, the college concert circuit, the military market and nightclubs. Another area Howard is exploring for country bookings is the rock concert field. His idea is to team a rock group with country artists, either in concert halls or outdoor stadiums and arenas.

"Country artists are making inroads in the college circuit, especially at schools that have little country backgrounds," said Howard. He is booking acts at the University of Montana, Idaho University and the University of New Mexico, all new to the country field.

Howard's company represents Bonnie Guitar (Dot), Billy Mize (Columbia), Doy O'Dell (Liberty), the Country Coalition (A&M), the Dillards (Elektra), Red Simpson (Capitol), Johnny Paycheck (Lil' Darlin'), Sanford Clark (LHI), Del and Sue Smart (Somerset) and Ray Sanders (GNP Crescendo). He recently opened a New York headquarters, with Martin Machat as director.

Pete's Parent Broadening Exposure Scope for Acts

LOS ANGELES — Pete Records is getting involved in TV, motion pictures and radio through the label's parent company, Petersen Co., a TV and film producer.

Artist signed to Pete and a companion label, Bolectic, will appear on TV and radio commercials, TV specials and films under the Petersen banner, says Chris Petersen, president.

The parent company produces about 400 TV and radio commercials each year, with emphasis on TV specials. It also produces films for foreign governments, major business and industrial firms and the U. S. military.

Initial project involving Pete artist will be a commercial for Fresca, with singer-poet John Braheny writing and arranging the music. A second project, a TV documentary, also involves Braheny and cameraman Rick Cunha.

Braheny will tour the country as a roving troubadour, with Cunha photographing the artist. Petersen said, who is setting up additional commercial ventures in TV and radio for more artists.

Pete Records plans to follow a pattern established by Tetragrammaton in using independent producers rather than staff personnel.

Independent producers work-

ing on projects include Ernie Freeman on Ketty Lester's initial Pete Records single and album, "I Will Lead You"; Perry Botkin assigned to Gogi Grant's product; Dick Glasser on the Passing Clouds' initial single and album, "Hawks and Doves"; Marty Paich on Michael P. Whalen projects; Artie Butler on banjoist Don Beck's initial album, and Jimmie Haskell on George Russell's "Easy Listening" album.

Building to Begin On CSC 'Home'

LOS ANGELES—The Campbell, Silver, Cosby Corp. (CSC) will break ground in three months on a 10-story building in Beverly Hills to house its entertainment complex.

The building will cost more than \$3 million to construct and will take about 14 months to build.

Now spread out in three Beverly Hills locations, CSC will consolidate its operation, including the record and music publishing divisions. The CSC operation includes Tetragrammaton Records, radio, TV, film, management, music publishing and public relations-advertising.

The company's animation division will be housed in separate quarters.
