*An asterisk before a section name indicates that the listings within the section are in geographical order, first by state and then by city within each state. Sections without asterisks have listings in alphabetical order.

HOW TO USE THIS DIRECTORY

As a guide to locating specific listings, the following explanations are presented for each major section (in boldface, capital letters). As a first step for finding any listing, refer to the Contents page for the first page of the particular section desired and note whether the listings are arranged geographically (an asterisk before the section name) or alphabetically.

RECORD COMPANIES MUSIC PUBLISHERS

Finding a record company or music publisher is straightforward since these listings are in alphabetical order within each section. Record labels are cross referenced back to their companies, and affiliates and administered companies back to their publishers.

SHEET MUSIC JOBBERS & SUPPLIERS

These listings are in geographical order by state and then by city within each state.

WHOLESALEERS

This section, which is sequenced geographically, lists distributors, one stops, rack jobbers, importers and exporters of audio and video records, tapes and accessories. Record labels listed are limited to thirty-five.

SERVICES SUPPLIES

To find a service or supply company, first find the subsection on the Contents page and then note whether the section is arranged alphabetically or geographically. Company listings are limited to those services and supplies done in-house and provided to outside clients; that is, no subcontracting. Brand names are cross referenced back to their companies.

BLANK TAPE & BULK TAPE PRODUCT CHART

These charts of audio and video blank and bulk tape should be used in conjunction with the Tape Product Chart Listings which immediately follow the charts and present the addresses, telephone numbers and personnel of the companies with tape product.

ACCESSORIES PROMOTIONAL MERCHANDISING AIDS JUKEBOX STORE FIXTURES

Each section has listings in alphabetical order. Brand names are cross referenced back to company names.

INTERNATIONAL

Countries are listed in alphabetical order (refer to the International Contents on page 161 for a quick reference to the countries covered). Within each country the order of the sections is the same as that used for the U.S. listings. The principal difference between the U.S. and international listings is that all of the latter are listed alphabetically within each section with the exception of the Canadian wholesalers' listings, which are arranged geographically by province and then by city within each province.

ADVERTISERS INDEX

To quickly locate an advertiser within the International Buyer's Guide, turn to the Advertisers Index, which starts on page 301 and lists the advertisers in alphabetical order and the pages on which their advertisements appear.

GENERAL INFORMATION ABOUT LISTINGS

- 1) Make note of any legends that may appear below any of the section heads. They contain important information that applies to that section's listings.
- 2) Sometimes it is necessary to jump portions of some categories to other parts of the directory. Watch for notations, usually at the bottom of the pages, and follow the listings to the page indicated.
- 3) If your company should be listed in this guide but is not, please send the relevant information in the format of the section under which it should appear to Billboard, Directory Central, 2160 Patterson St., Cincinnati, Ohio 45214. We will mail you a questionnaire at a later date for next year's listings. Additionally, as a service to our subscribers and readers, we have and will continue to print an article in the weekly issue of Billboard (about six months before the publication date) indicating the Buyer's Guide contents and its cutoff date for listings.

You can actually hear the difference.

Since its introduction, the Ampex ATR-124 has set a new sound standard in multichannel analog recording. You get state-of-the-art operational features, as well.

Standard features include balanced transformerless inputs and outputs, a patented flux-gate record head and varispeed -50% to +200%. Plus you get all the microprocessor memory needed to recall important audio settings. You can even change setups and

rehearse edits at the touch of a button.

Hearing is believing with the ATR-124. With 16" reel capability, a membrane switch setup panel with fingertip-operated shuttle speed control and optional auto biasing, why expect less than the most advanced analog multitrack available.

Call your local Ampex representative, or contact Willie Scullion, Ampex National Sales Manager, Audio-Video Systems Division, 401 Broadway, Redwood City, CA 94063 (415) 367-2911.

THE INSIDE STORY

That's what you need for the long haul, and with our 34 you get what you need. We listen to our owners when we begin a new design.

- Full size 10½ inch reels. Two speeds 15-7½ IPS with Variable Speed Control built-in.
- Full frequency response in Sync mode.
- Fully modular, adjustable and field replaceable electronics.
- Full dual process DX4D dbx* available—monitor decoded playback while recording.
- Full documentation supplied with every Series 30 product, schematics, parts lists, alignment procedures, everything you need is included in the owner's manual.
- At TASCAM we make tools, not toys. After the factory polish is long gone, our inside story will still be going strong. Reliability is always our bottom line. We've made our reputation there the hard way. We earned it. With the all new Series 30 Recorder/Reproducers (32, 34 and 38), we also have some good news for your bottom line. Three decades of experience building all forms of magnetic storage make it possible for TASCAM to offer the impossible, 1985 technology at 1975 prices!

We make the broadest line in the industry. From the MM-20 and the PORTA-STUDIO all the way to the 85-16B and M16, TASCAM means business. Multitrack, Multi-image and much more. Talk to your dealer to get the rest of our inside story.

We create sound packages...

For those of you who may not be familiar with what we do, we have been designing ads, album covers, labels, catalogs, tape graphics, etc. for over 20 years. We also set the type, do color separations, do the printing, make the jackets. Part of the reason we are still around and growing is that our clients know they can count on us — we're honest, tell it like it is and de-

terminable job, usually on time. Since most of our work (lay-out, art, typography, camera, printing, etc.) is done internally by our own people and our own equipment we can maintain control of all work and at the same time be very competitive.

Small run and/or low budget: see our full color "Instant Album Covers" free catalog available.

SOUND VIDEO UNLIMITED
A Network of Home Entertainment

The most important things in records and video today are order-fill and prompt delivery. After all, how can you sell it if you don't have it?

We have it.

We carry all the major manufacturers and more. You get to pick from the most complete inventory around.

You get what you want, when you want it--be it records, tapes, video movies, electronic games, computers, and all audio and video accessories.

We have been into records and video from the beginning, helping set up many stores. We continue to help stores with retail marketing, from displays to inventories.

Because, when you're successful, we're successful.

HOW TO SURVIVE IN THE PLASTIC JUNGLE.

Are you being eaten up by the soaring costs of current LP's? Are you being boiled in a pot by the manufacturers? If the answer is yes, you should be trading with SCORPIO MUSIC.

You see, since we were raised in the jungle of the record business, we know the laws of survival. And since we know all the laws, we can provide you with a constant supply of prime cutout and overstock LP's at the lowest prices in the industry.

If you take a Safari through our catalog, you'll discover hundreds of hot selling and hard-to-get albums. You'll even find exclusive items you just can't get from anybody else. And since our prices are so civilized, you can make up to 400% profit and fight the savage effects of inflation all in one breath.

When you place an order with Scorpio, you always get good fills to keep your customers happy and prompt service to keep you happy. And if you live on the other side of the earth, you'll never have to worry. Our professional export department is second to none.

If you're just starting out in the record business or if you're undecided on what to buy, you can depend on us. Like experienced guides, we're always ready to give sound advice when you need help or when you're not sure.

Because our success depends on your success, we'll do whatever it takes to make you King of the Jungle.

So, if you want to survive in the record business, clip the coupon, phone or telex for our latest listing today. After all, the bottom line of your business depends on it.

IT'S FANTASTIC!

You spent a fortune getting the right sound. Make sure it gets on record. You deserve the best quality pressing available and intend to get it. Sounds easy. But it's not. Why? Because all records are "Pressed" or molded from metal stampers. These stampers contain the fortune you just spent getting "The Sound." If these stampers fall short in quality, there can be no quality records pressed. Get the picture! Don't take chances with your product! To get quality records, you've got to get the best stampers available and we think we make the best, but you be the judge. We think our Record Presses and Extruders are also the best. Ask around.

Only two things make a great record.

QCA is one.

You recorded your music, mixed the tracks and produced your master. You're halfway to making a great record. The other ingredient is QCA, where your superb sound becomes a first-rate record.

First-rate because QCA has been serving the record industry for over 30 years. With that much experience, we can boast about our efficient, professional in-house operation that offers *everything* you need. Disc mastering, plating, 7" and 12" vinyl pressings, typesetting, graphics, color separations, printing, jacket fabrication and packaging. All at very cost effective prices. And all under one roof.

But enough talk about what we can do. Let us show you what we *will* do when you bring us your music and want it produced into a top notch record, inside and out. For our brochure call or write . . .

LEADER LOCK

THE HEART OF YOUR CASSETTE

That little piece of staking rod is the big difference in the quality of your cassette.

Our Leader Lock is better because of our unique Double Extrusion process which delivers a rod diameter tolerance of not more than $\pm .0005''$ (.0127mm).

- Sizes from .049'' (1.2446mm) to .068'' (1.7272mm).
- Extruded in increments of .001'' (.0254mm).
- Tolerance not more than $\pm .0005''$ (.0127mm).
- Popular sizes - .052'' (1.320mm) and .062'' (1.575mm) stocked for immediate shipment.

Designed and engineered for the cassette industry by the Burnhams of New York, our staking rod virtually eliminates cassette failure due to leader tape pull-out.

We also make special extrusions for particular requirements.

Funny Looking

No matter how funny they look, you've loved our quality tape hubs, cassette boxes and locks.

Now, look at our new soft cassette box. Unbreakable, clear plastic is molded with four posts to grip the cassette firmly. The unique double locks are placed to insure no damage to tape or pressure pad when box is opened.

See, also, our efficient bulk cassette locks. Simply inserted into holes in the carton sides, they stop tape rotation, and save labor and money.

Still think they look funny?

**IF YOU WANNA BOX...
AND NOT GET HURT...
CALL EL MAR PLASTICS!**

- because El Mar has boxes - cassette boxes -
at prices that won't leave a bruise! All kinds -
Norelco style boxes, hinged poly boxes, Ampex
style boxes, and 12-pack cassette storage boxes.

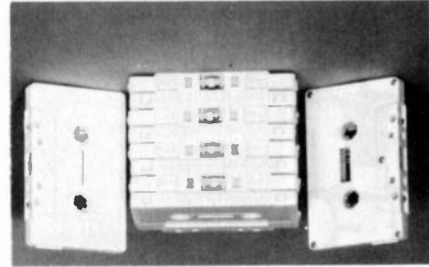

In fact, we've been making more boxes longer
than anyone!

We've recently taken some of the sting out of
the price fight, by setting up a fully automated
line to increase our production of Norelco style
boxes by an additional 40 million a year.

And not just any old box! The new El Mar boxes
have all rounded corners, molded raised edges

on the lid to reduce scratching and a
super strong hinge! Plus, they have
been tested and proven on all automatic
packaging equipment.

When quality and dependability count, we have a
C-O that can't be beaten. Solid 5 screw housing with
all the top grade components you've come to expect.

Please call for prompt quotation and samples.

Electro Sound tape duplicators System 8000 at 128:1/64:1/32:1 with automatic quality control System 5000 at 32:1

Superlative audio

From frequency response of ± 2 db from 40Hz to 15kHz through every individual performance specification, the System 8000 and System 5000 are outstanding: signal-to-noise, crosstalk rejection, WOW and flutter, harmonic distortion, tape speed accuracy. You've never heard such high audio capability.

Microprocessor architecture

Electro Sound's trend-setting microprocessor is an integral part of the systems' design, providing precision automatic control and monitoring of the key process functions. It also counts and displays the number of completed selections and pancakes and locates any problem with a built-in diagnostic program.

The amazing Electro Sound 4300 Quality Control & Assurance System

Automatic, high-speed quality control is available with all-new optional accessories. Eight performance parameters are measured and shown on a hard-copy printout with pass-fail readout, all within seconds. The system uses a digitally-encoded quality control tone which is automatically recorded at the end of each pancake — with no attention from the operator. The tone is then read back, the signals are decoded and the results printed. Any out-of-tolerance specifications are flagged on the readout.

Electro Sound. Technical excellence and production-line performance.

· HEIDELBERG ·

In South-West Germany between the Neckar, Black Forest and Lake Constance, ingenuity and superior workmanship have a long tradition.

Think e.g. of the first automobile of Gottlieb Daimler, the first spark plug of Robert Bosch, the airship of Graf Zeppelin, the VW beetle of Ferdinand Porsche, the first calculating machine and – No. 1 in this industry – OKU automatic assembly machines for C-O cassettes.

If you want to know why OKU automatic assembly machines and assembly devices for C-O cassettes work so rationally, precisely, quietly, reliably and fast, require so little maintenance and why they are leading on the world market, please contact our man in USA.

The Speed-King Model 790 cassette loader,
designed so one attendant operating
three machines can produce up to 9000
high-quality, C-60 cassettes in seven hours . . .

That's fast!

(and that's standard)

The Speed-King Model 790 is the most accurate, reliable cassette loader in the world today.

It is easy to operate, with all operating controls being located in a single front panel. It is easy to keep in service, because the 790 has a computerized quality control system with a digital panel that identifies problems if they occur . . . And usually the operator can solve the problem.

Even the stacker/stamper is unique: it offers you two choices for labeling and packaging. You can have the loaded cassettes stacked one side up, or alternately.

Other King innovations range from the automatic self cleaning vacuum system — to a DC Servo motor braking system that requires no

adjusting — plus the most reliable cue detection system for maximum yield of prerecorded cassettes — and a vacuum counter wheel that counts each second allowing accuracy on blank lengths to \pm two seconds (4 inches).

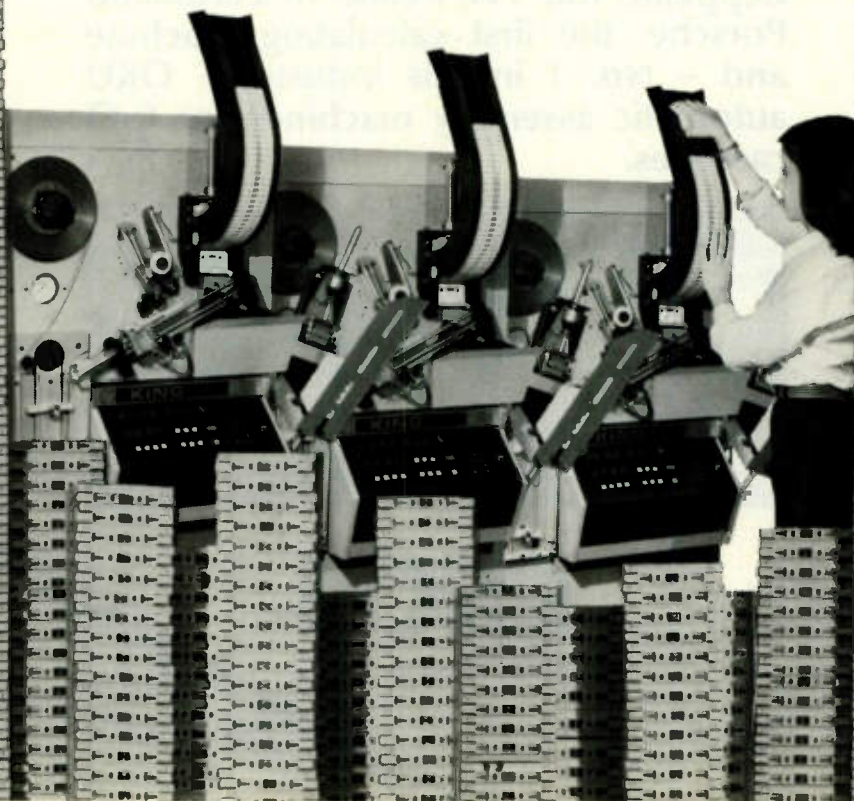

But what's really innovative about the new Speed-King 790 is its price when measured in low cost per cassette, and savings in labor and floor space.

If you load fewer than a million cassettes a year, Electro Sound's 1848 can boost your profits

**Coming in '83
an exciting all-new
fully automatic loader**

We can show you how Electro Sound cassette loaders will give you a lower loading cost per cassette than competitive machines in most applications where annual volume is below one million units.

The ES1848 combines this kind of better value with technical excellence and solid, reliable production-line performance. Its micro-processor provides automatic performance monitoring and control and the equipment is simple to operate (three machines to an operator), easy to maintain and stamps each cassette automatically. Send the coupon for more information.

FIFTEEN
YEARS OF
tape packaging
WITH SCANDIA MACHINERY
AND AUTOMATED SYSTEMS

1960's

Scandia introduced the first fully automatic high-speed 8-track labeling, cartoning, and wrapping system.

1970's

Scandia introduced the first fully integrated high-speed packaging system for labeling, inserting, and wrapping audio cassettes.

1980's

Scandia now introduces the all-new economical, automated cartoning, and wrapping system for video cassettes, again leading the way.

Five of the music world's finest instruments are made by TDK.

Like any fine musical instrument, TDK Professional Reference audio cassettes and open reel tapes are products of genius. In TDK's case, it's the genius of constantly-advancing audio technology. And now, TDK technology has advanced again in the reformulation of our MA-R metal, SA-X high bias, and AD-X normal bias cassettes.

MA-R, SA-X and AD-X are formulated to an incredibly strict, new set of audio tape standards based on measurements and values no audio cassette manufacturer has ever attempted to meet. TDK cassettes deliver clarity, fidelity and quality unmatched by any other cassettes on the market today. MA-R, with its unique unibody metal

alloy frame and Reference Standard Mechanism is the first metal reference tape in the industry. SA-X pushes high bias to its limits. AD-X normal bias is extraordinary in its wider dynamic range and its freedom from saturation at high frequency. SA-X and AD-X both feature TDK's specially engineered Laboratory Standard Mechanism. Each cassette comes with a Lifetime Warranty.

TDK's superior technology is just as evident in our SA/EE (Extra Efficiency) and GX open reel tapes. TDK SA/EE is the first open reel tape to use TDK's famous Super Avilyn particle. This gives SA/EE almost double the coercivity and high frequency MOL of conventional open reel tapes. GX

mastering tape offers a wide dynamic range, high MOL and low noise. Both SA/EE and GX feature low distortion and extended frequency response.

MA-R, SA-X, AD-X, SA/EE and GX—they're five of the music world's finest instruments for all of the music and instruments you record. One final note. TDK's new Professional Reference Series of audio cassettes now comes in bold, new packaging. So they stand out in sight just as they stand out in sound.

What's all the noise about the world's quietest tape?

With a resounding 300% increase in '81 sales, it's a proven winner!

BASF PRO II Chrome really sells, and the sales figures prove it. And with this year's new "Kiss the Hiss Goodbye" campaign and expanded dealer and co-op support programs, that astounding sales success will be even more dramatic in '82.

It's the one high bias tape with a unique advantage!

BASF Chrome is "the world's quietest tape" — an exclusive and audible benefit that sets it apart from every other high bias tape on the market today. In fact, BASF Chrome is so superior, it was the one tape chosen by Mobile Fidelity Sound Lab for their Original Master Recording™ High Fidelity Cassettes.

And there's a BASF audio and video tape for every recording need.

BASF not only offers you the superiority of a chrome audio tape, but all the advantages of both a chrome VHS and Beta video tape. And with a full line of premium and promotional audio tapes, BASF can meet the needs of all your customers.

BASF in '82. That's what all the noise is about.

GUARANTEE OF A LIFETIME

"The guarantee of a lifetime."

All BASF tape cassettes come with a lifetime guarantee. Should any BASF

cassette ever fail — except for abuse or mis-handling — simply return it to BASF for a free replacement.

For the best recording tape you'll ever carry.

THE HITS JUST KEEP ON COMING.

We've just added three new winners to our rapidly expanding line of audio and video storage units — two custom-crafted soft carrying cases with durable molded interiors, and a sleek cassette case that's so compact it may be hidden under a car seat. And that makes life a lot easier for you, because you no longer have to order from different manufacturers to fill out your line. Dynasound® has it all. So now there is just one order. One shipment. One invoice. We've always had contemporary styling, competitive pricing and hard-working, eye-catching packaging. And now that our expanded line offers something

for everyone, we're bound to be the biggest hit in our business. And in yours. Call Dynasound®, a division of Data Packaging Corporation, 205 Broadway, Cambridge, MA 02139. (617) 868-6200. TWX 710-320-0885.

WE HAVE MORE IN OUR LINE, SO YOU HAVE LESS TO DO. ®

TAPE:

Market: Audio—The tape market, where the muscassette system prevails, stagnated in 1981 in contrary to a decreasing rate of about 20% in 1980. The main reasons for this are attributed to the fight against piracy, better sound quality and one million fewer blank cassettes being sold. Video—VHS dominates the market with 50%, followed by Video 2000 (35%) and Beta (15%).

Pre-recorded audio tape sold domestically: Cassette 1981—2,750,000 units, \$22,302,000; 1980—2,716,000 units, \$23,016,000.

MARKET ANALYSIS:

The Austrian sound-carrier market is dominated by the members of the Austrian branch of the International Federation of Producers of Phonograms and Videograms. The IFPI represents the biggest companies such as Amadeo, Ariola, Bellaphon, CBS, EMI Columbia, Musica, Phonogram, Polydor and WEA. The record clubs have great importance here, having been able to reach a sales turnover of 16% of the entire market. The turnover of the non-IFPI members reached about 22%.

1981 record company sales were down about 6% compared to 1980. The most important slump in the record field was registered by high-price albums, which were down 20%. Middle-price album sales rose about 14%, and the sale of low-price albums stagnated.

White open reel and 8-track cartridges have nearly vanished from the Austrian market, muscassettes stagnated in 1981. It is estimated that some 9.5 million blank cassettes were sold in Austria in 1981.

Market share for type of music is divided into 53% for international pop and entertainment, 23% national pop and entertainment, 12% classical and 12% country.

After a Supreme Court decision, parallel imports have no longer increased. This is also due to the fact that record prices have been rising considerably in the neighboring countries.

Video is becoming more important. It is estimated that an additional 35,000 new video units will be bought in 1981, adding to the current 90,000. VHS dominates the pre-recorded video market, followed by Video 2000 and Beta. Video 2000 enjoys much of its success to the Philips video factory in Vienna, which has a capacity of 700,000 recorders per year.

RECORDS:

Record sales certification awards: Gold single—50,000 units (nat'l), 100,000 units (int'l). Gold LP—15,000 units (nat'l), 25,000 units (int'l)
 Records sold domestically including imports: LP's 1980—9,056,000 units. EP's & Singles 1980—11,000,000 units
 Record club sales: 5% of total.
 Discounting: Frequent
 Type of record distribution: Percentages of total sales for 1979—manufacturer-to-retailer (48.1%), manufacturer-to-wholesaler-to-retailer (51.9%)
 Jukeboxes: 30,000

TAPE:

Market: Pre-recorded cassette sales are declining gradually, while blank tape sales continue to rise as more and more young buyers use blank tape to copy records. Pre-recorded video tape is just being introduced into the market
 Pre-recorded tape sold domestically including imports: Cassette 1980—2,154,000 units

RADIO STATIONS:

No. of government 3 (AM & FM), No. of independent 150 (FM)
 Comment: One station programs news, public services, and all types of music. Another features cultural shows, such as opera and classical music. A third transmits popular programs, including pop and rock music. All are run by the government, and since air time is not for sale, there are no commercials. The independent radio stations, which are, of course, illegal, all broadcast popular music, mostly of Belgian origin

TELEVISION STATIONS:

No. of channels: 12 government, 100% color
 Comment: Television programs include news, sports, talk shows, cultural programs, children's shows, and a lot of movies, but not much popular music (one program per week on RTB and one program every two weeks on BRT)

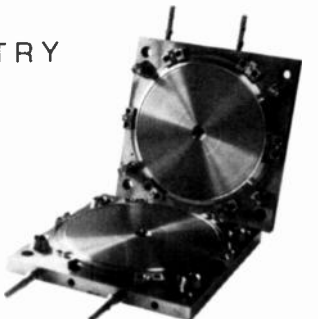

IMPORT/EXPORT REGULATIONS:

Belgian regulations are based on the principals of free economy Agreements with the Common Market are respected

RECORDS:

Records sold domestically: LP's 1980—52,395,682 units. Singles 1980—16,750,448 units

Discounting: Frequent

Type of distribution: Approximately 90% of all distribution operates through manufacturer to sub-distributor (rack jobbers & one stops) to retailer arrangements. The remaining 10% is manufacturer to retailer

Type of promotion: Radio still stands as the major promotional vehicle in English Canada. Television has some music shows. The major daily newspapers are devoting an increasing amount of space to music coverage. Quebec, which is predominately French speaking, receives complete support from all the media for local and international acts.

TAPE:

Pre-recorded tape sold domestically: 8 tr. 1980—5,220,304 units Cassette 1980—10,206,096 units.

RECORDS:

Sales: Asincol (Asociacion de Productores y Fonograficas de Colombia) places the total sales of records and tapes for 1981 at \$25 million. Reliable information is hard to obtain, since the record companies are unwilling to share their sales data with either the press or Asincol.
 Record sales certification awards: There are no awards for selling a standardized number of records. However, each company presents year-end gold and silver records to its own best-selling artists. Some company representatives claim that a sales mark of at least 20,000 copies must be made to qualify for one of these promotional awards.
 Average retail price per record: LPs—\$5.66; classical LPs—\$6.60; super-singles—\$2.83; singles—\$1.50.
 Type of distribution: Manufacturer-to-retailer is the predominant system. There are a few one-stop, but most sales are through retail chains catered in the major cities; they also serve as wholesalers to other retailers. There is very little discounting.
 Type of promotion: Radio is the primary medium (79% penetration); but there is a trend toward producing spots for movie-theatre audiences, and TV exploitation is gaining ground as an alternative.

TAPE:

Market: Spurred by the continued popularity of radio-cassette player combinations, the demand for pre-recorded cassettes is still rising. Unfortunately, it encourages piracy; pirated cassettes account for 98% of all illegal product sold, according to Asincol. 8-track cartridges have been almost completely phased out of the market.

RADIO STATIONS:

No. of: 363 AM, 20 FM. About 85% of programming is music-oriented.

TELEVISION STATIONS:

No. of channels: 3.
 Comment: Nineteen percent of programming is allotted to music. The government, which has control over what is shown on Colombian television, has been re-evaluating its policies in every aspect of programming. Some results are evident. Programs emanating from provincial sources are being licensed, giving them air time which used to be dominated by "canned" programs and those of a violent nature are being de-emphasized.

MARKET ANALYSIS:

Colombia is, along with most of the world, in an economic slump. Colombians have less money to spend on music and entertainment, and these industries are feeling the pinch. Some new developments, however, show a remarkable vitality. In past years imported music has taken an estimated 70% slice of the market, but in the last two years indigenous music, especially vallenato and Andean folk music, has been racking up as much as 50% of total sales. Richard Clayderman's international sound is a notable exception to the trend. As for other pop sounds, salsa has levelled off in popularity and disco has almost vanished from the scene.

Type of distribution: Opus and Supraphon own a chain of specialized retail shops. Pantan has a few retail shops of its own. These account for 70% of all sales. The remainder is done through the manufacturer-to-wholesaler-to-retailer system, with the chains of big department stores being especially important

Type of promotion: Government-controlled radio plays an important part in the promotion of pop records. Some specialized youth-oriented shows influence the youth market somewhat. Supraphon publishes a monthly journal promoting the production of all three major record companies. Advertising in cinemas helps records that do not get radio airplay.

Jukeboxes: 2,000

TAPE:

Market: Audio—Only cassette are selling; 8-track is nil, and open reel is used only sporadically for home recording. Video—Some local recordings and films are sold or licensed to video producers abroad, but there is no hardware available in the local market. Basically, video is nil.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—107,644 units, \$1,157,173; 1980—610,280 units, \$6,564,351

Pre-recorded audio tape imported from countries other than USA (factory value—CIF): 1981—1,700 units.

Average retail price per tape: Audio—cassette—\$10.75

CONSUMER ELECTRONICS:

Percentage of homes with: Radios (100%); television sets—color (7%), b&w (93%), phonographs (37%), audio tape recorders (42%).

RADIO STATIONS:

No. of government stations: 1 AM, 3 FM
Comment: One radio station programs pop music and short newscasts around the clock, another is devoted to classical music and high culture. Almost 40% of the broadcast music is from records, with the remainder from tapes produced by radio. Live transmissions are rare

TELEVISION STATIONS:

No. of channels: 2 government, 70% color (SECAM).
Comment: While easy listening and middle-of-the-road music predominate, AOR has a certain representation. Jazz, rock and folk are featured in special youth programs whose influence is growing. Most programs are of local production; imports from Socialist countries are frequent, imports from the West are rare

IMPORT/EXPORT REGULATIONS:

Both license contracts and export/import deals are made with Socialist countries; importing of records from the West is limited to exceptional cases of countries with whom Czechoslovakia has a bilateral contract on the exchange of goods on a clearing basis. Western product is released in limited quantity on the basis of license contracts concluded by Supraphon and Opus. All export and import of finished product must go through state controlled export/import companies

MARKET ANALYSIS:

After a period in which local production could not fully cover the demands of the buyers market saturation is now increasing. In 1981 a certain part of local production was still custom-pressed abroad but this may not be necessary in 1982

The repertoire of standard classical recordings available in retail shops is widening. In pop, Karel Gott and other MOR artists still achieve the highest sales, but the orientation toward more contemporary sounds is growing. A slight wave of nostalgia and "retro-sound" is becoming marked, thus widening the general spectrum of pop repertoire. "Easy" teenage rock was very successful, especially on singles

Classical music forms the backbone of exports to the West, with license deals predominating over the export of finished product. A similar tendency appears in video: video programs are prepared for export while on the home market neither video software nor hardware is known.

Average retail price per record: LP's—\$8.90; singles—\$2.95.

Record club sales: 15% of total.

Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer system predominates. There are two rack jobbers, the larger being owned by the five largest record companies. 80% of sales are through 550 retail shops; 12% through the rack jobbers; 5% through direct import.

Type of promotion: Radio and television are the most important, followed by the two biggest national newspapers, which have regular information about the music business. Vi Unge (35,000 circulation) and Ung Nu (30,000) also cover music. The specialist magazine MM covers jazz (fusion-rock) and has a circulation of about 12,000.

Wakeboxes: 9,000.

TAPE:

Market: Audio—8-tr. is out of the market now and cassettes have 100% of the pre-recorded tape market. 20% of households have open reel recorders and 69% have cassette recorders. About 70% of all cars have radios and 20% cassette players, with the latter growing fast. The sales of cassette recorders are about 250,000 per year. Traditional record shops have competition from gas stations and supermarkets for the sale of tapes. Video: Only a few of the traditional record companies have a good video repertoire. Several new firms from outside the record business have started dealing with video. VHS has the biggest share of the market at 55% with Beta coming on in second place at 35%. V-2000 is third, having only 10%. V-2000 is still having trouble trying to make a strong impact. About 99% of video product is rented.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—2,237,167 units, \$12,441,320; 1980—1,980—2,548,000 units, \$18,327,000.

Average retail price per pre-recorded audio tape: Cassette \$9.50.

Average retail price per pre-recorded video tape: Beta—\$100.00, VHS—\$100.00, V-2000—\$100.00.

CONSUMER ELECTRONICS:

RADIO STATIONS:

No. of government 1 (1 AM & 3 FM channels).

Comment: Program 1: News, classical music & culture; Program 2: Culture and regional news; Program 3: News & stereo rock, MOR & classical (6am—2am).

TELEVISION STATIONS:

No. of channels: 1 government, 90% color (PAL).

Comment: Denmark's Radio is the only national channel, but 50% are able to see the two Swedish channels, 30% the three German stations, and 5% the one East German channel. Denmark's Radio programming is mostly cultural, with a small amount of entertainment programs. There are plans for satellites to receive programs from Luxembourg, France, Italy and the United Kingdom.

IMPORT/EXPORT REGULATIONS

There are no regulations.

MARKET ANALYSIS:

The record industry now has fewer big selling hits. The traditional companies still have their shares of the market but most of them missed the entrance of video. Video is now being distributed by GDC, Sonet and PolyGram Video, among others. Select Video is distributing Walt Disney, and ABCollection has the Columbia Pictures catalog. After a split in distribution, EMI is now trying to get a hold in the complex video market that has about 100 video outlets and 180,000 machines in use.

RECORDS:

Record sales certification awards: Gold single—10,000 units Gold LP—25,000 units; diamond LP—50,000 units, platinum LP—100,000 units. Note: Cassette sales are included with LP sales if contents are 1:1. Awards are controlled and distributed by AKT. Gold singles and platinum albums are extremely rare, but several albums, particularly domestic ones, have sold in excess of 50,000 copies.

Records sold domestically (IFPI member sales only; retail, including tax): 1981—2,587,410 units, \$25,425,000; 1980—2,334,443 units, \$23,696,000 EP's 1981—80,550 units, \$291,000; 1980—34,492 units, \$129,345 Singles 1981—515,830 units, \$1,433,000, 1980—436,793 units, \$1,200,000.

Records imported from USA (factory value, CIF): 1981—394,530 units, 1980—1,705,000 units, \$1,820,000.

Records exported to USA (factory value, FOB): 1981—5,970 units, 1980—5,870 units, \$22,700.

Records imported from countries other than USA (factory value, CIF): 1981—2,520,026 units, 1980—2,089,771 units, \$5,215,000.

Records exported to countries other than USA (factory value, FOB): 1981—320,330 units, 1980—238,207 units, \$662,500.

Average retail price per record: Full priced LP's—\$11.50; EP's—\$4.00, singles—\$3.10.

TV merchandising: 17% of total.
Record club sales: 15% of total.
Discounting: Frequent.

Type of distribution: Manufacturer-to-wholesaler-to-retailer system is dominant again. Leading wholesalers and distributors to the trade are Finns candia and PEC-Musikkuitku, the latter formed by CBS, EMI and PSD in 1979. Aani-ja Kuvallennettajat (membership about 20) accounts for 10% to 55 per cent of the total record and pre-recorded tape sales in Finland. Rackjobbers are responsible for 40 per cent of retail sales inside AKT. Some 30 per cent of AKT sales are through conventional retail outlets. Direct imports (particularly from the USA), dumping, pirate sales and home taping are major problems.

Type of promotion: Government-controlled radio and TV networks are most important. Jukeboxes and discotheques (nearly 300) are other useful outlets. Radio Luxembourg, with its satisfactory medium wave reception at night, is quite popular among teenagers. Summer rock and pop festivals (about 20 annually) feature many international acts and boost in know local talent. Well established pop and rock magazines such as Soundi, DK, Suosikki, and Discousus give good coverage on both international and local artists. Television advertising is rather popular, though expensive. There is no radio advertising.

Jukeboxes: 3,500.

TAPE:

Market: Audio: The sales ratio between records and pre-recorded tape has turned clearly in favor of records, though it used to be a close 51 to 49 only a few years ago. 8-track is now nonexistent, while open reel is used

by a small number of hardcore hi-fi buffs. Some 5 to 6 million blank cassettes were sold in 1981, a sign of heavy home taping. Video—Activity is getting hot as the expected boom years of 1983-84 are nearing. About 90,000 blank cassettes were sold in 1981 and that figure is forecasted to double in 1982. Consumers are renting rather than buying (the ratio is 90 to 10). Rautakirja Dy already has 100 outlets that are offering pre-recorded cassettes and close on its heels come the Finniscandia-backed Scan-Video Dy. Local production—old movies, children's material, etc.—is up but international product remains dominant.

Pre-recorded tape sold domestically (IFPI; retail, including tax): Cassette 1981—2,202,107 units, \$18,581,000; 1980—2,051,388 units, \$18,330,000.

Pre-recorded tape imported from USA (factory value, CIF): 1981—47,689 units, 1980—201,356 units, \$210,000.

Pre-recorded tape exported to USA (factory value, FOB): 1981—808 units, 1980—2,091 units, \$7,500.

Pre-recorded tape imported from countries other than USA (factory value, CIF): 1981—1,183,125 units; 1980—1,066,629 units, \$2,040,000.

Pre-recorded tape exported to countries other than USA (factory value, FOB): 1981—171,926 units; 1980—130,364 units, \$418,000.

Pre-recorded video tape sold domestically including imports: 1981—3,000 units.

Average retail price per pre-recorded audio tape: Full-priced cassette—\$11.50.

Average retail price per pre-recorded video tape: Beta—\$110.00, VHS—\$110.00; V-2000—\$110.00.

CONSUMER ELECTRONICS:

Number of homes with: Radios—2,600,000 (sets), television sets—1,624,715 (sets), 938,833 color, 685,882 b/w, phonographs—750,000, audio tape recorders—1,500,000; video tape recorders—30,000.

RADIO STATIONS:

No. of government 1
Comment: Program 1 is mainly spoken word, plays & topical shows. Program 2 is mostly popular, classical and jazz music with news and sports. Program 3 is Swedish language programming, available in coastal areas and some inland towns. The share of music in the two Finnish language networks is about 60%. Live pop and rock concerts are rare, but there is a tendency for more youth-oriented programming during after-school hours.

TELEVISION STATIONS:

No. of channels 2 government, 95% color (PAL).
Comment: Yleisradio, the parliamentary controlled broadcaster, is working on two channels nationwide. A private commercial company, Oy Mainos-TV-Reklam, buys time from Yleisradio and sells it to advertisers. Programming is diversified and usually of high quality, though good musical shows are rarities. International shows seen here include Dallas, Happy Days, The Muppet Show, Rockpalats and Love Boat.

IMPORT/EXPORT REGULATIONS:

There are no custom duties on imports from EFTA, United Kingdom, Denmark and the USSR. All imports, without regard to country of origin, bear a 2% surcharge. No licenses are needed, except for trading with Socialist Block countries. Exports are duty free.

MARKET ANALYSIS

1981 was another good year for AKT (the Finnish Group of IFPI companies), which now boasts of twenty leading companies. Sales at the wholesale level were up about 10%. On the gloomier side, home taping increased like never before, while Seppala Dy opened the country's first disk rental departments, and even the rising video market is expected to hit the popularity of records and pre-recorded tapes. The early part of 1982 forebode a decline in sales, and some employees have been given notice. Doing best during these changing times, it seems, are small independent companies specializing in domestic rock and MDR. These firms do not talk about new depression but blame the major companies for constantly making mistakes. There also is a big demand for major superstars and sales-boosting musical trends. As yet, artists toying with new romanticism and futuristic sounds have not had a real chance here but the Finns are genuine "Johnny-Come-Latelys."

Direct importation of records and pre-recorded tapes continues to be a major problem, and this includes heavy loads of cutout material from the USA. Major retail chains, such as Valintailo Dy and Anttila Dy, are leading the way. The first official Finnish sales chart was launched by AKT in 1981, and it received mixed responses. **Kari Helopanta**

Discounting: Frequent

Type of distribution: Manufacturer-to-retailer and wholesaler-to-retailer

Promotion: Radio and television (see below) are the prime media. Commercial advertising is banned on government-controlled stations, which include all French television, but the number of advertisements for recorded music is increasing in the daily newspapers, as is the number of record companies supplying private radio stations with their product.

Note: Manufacturers are forbidden by law to set or recommend retail prices.

TAPE:

Market: The cassette is the preferred configuration in audio tape, and sales are making a major inroad into the LP market. VHS is the favorite video tape, accounting for 60% of total sales. Beta ranks next with 32%, and V2000 trails with 8%.

Pre-recorded audio tape sold domestically including imports: 8-tr 1981—2,000 units; 1980—5,000 units. Cassette 1981—26,000,000 units; 1980—21,000,000 units.

Pre-recorded audio tape imported from USA (factory value, CIF): 1981—\$1,311,475; 1980—\$1,781,000

Pre-recorded audio tape exported to USA (factory value, FOB): 1981—\$196,721; 1980—\$375,000.

Pre-recorded audio tape imported from countries other than USA (factory value, CIF): 1981—\$12,081,967; 1980—\$11,336,000

Pre-recorded audio tape exported to countries other than USA (factory value, FOB): 1981—\$6,327,869; 1980—\$6,937,000

Average retail price per pre-recorded audio tape: Cassette—\$9

Pre-recorded video tape sold domestically including imports (retail value): 1980—\$4,557,337 (estimate).

Average retail price per pre-recorded video tape: Beta—\$90; VHS—\$90; V-2000—\$90.

CONSUMER ELECTRONICS:

Percentage of homes with radios: (98%), television sets (90.8%, color 50%); phonographs (90%); audio tape recorders (60%); video tape recorders (9%).

RADIO STATIONS:

No. of commercial 3; no. of government 4.

Comment: Recorded music (60% UK/USA product) and quiz programs prevail. Live pop concerts are rare, although the government program "France Musique" features live classical and jazz music. "France Culture," a parallel, airs live drama. The new Socialist government has authorized privately operated stations, and it is estimated that, after getting the approval of a special committee, 900 will be in operation.

TELEVISION STATIONS:

No. of government 3; 100% color (SECAM).

Comment: French television still relies heavily on old films and series produced in the USA and dubbed in French, other programming is typically European. Legislation enacted in May will ease government control of the industry. It legalizes cable systems and privately run stations and will allow more shows to be produced at the local level. It also prohibits simultaneous release of films to movie theaters and television stations.

IMPORT/EXPORT REGULATIONS:

There are no taxes on imports from countries belonging to the Common Market: West Germany, the United Kingdom, Italy, the Netherlands, Belgium, Luxembourg, Denmark, Ireland and Greece. Imports from all other countries are taxed 6.2% of value. All imports are subject to the 33.3% Value Added Tax. Consumer protection laws require all imported goods to be labelled in the French language. Accompanying documents must also be in French with place of origin stated. There are no export regulations.

MARKET ANALYSIS:

Record sales rose to 150 million units in 1981 and had a wholesale value of 414 million dollars, which represents a 4.5% increase over 1980 sales. Cassette sales were up 26% and there was a concurrent 6% drop in LP sales—the most remarkable feature of the 1981 market. The Socialist government has passed legislation which will have profound effects on the entertainment business, but the record industry's hopes for a reduction of the Value Added Tax in its favor were not realized, and ratification of the Rome Convention copyright agreements was deferred. TELEVISION STATIONS:
 No. of government channels 3 (PAL color)
 Comment: The first and second channels telecast weekly pop shows such as "Musikladen" (the number one show), "Rock Pop.", "Disco.", "Mu-schbox.", "Country Music" and "Show Express". There also are local shows like "WWF Club" (Cologne) and "Aktuelle Schaubude" (Hamburg).
IMPORT/EXPORT REGULATIONS
 There are no import and export regulations for countries belonging to the European market. Non European market countries, including the USA and Canada, face restrictions.

MARKET ANALYSIS:
 The record market in 1981 was again stagnant and in 1982 it is expected to decline. One positive aspect, however, is "new German wave," which is rock music with German lyrics by German groups. The best-selling groups for this music are the Spider Murphy Gang (EMI), Ideal (WEA), Trio (Phonogram), Extrabreit (Metronome), DAF (Ariola), and Spliff (CBS). The share of the charts between national and international product was split equally in 1981. In 1980, international product dominated the charts with a 70% share. US and UK artists are still very successful in touring Germany. The top international performers in 1981 were Mike Oldfield, Barclay James Harvest, Abba, the Police and Kim Wilde
 New creative productions are coming mainly from German music publishers

Major artists discovered and promoted by the music publishers include Dschinghis Khan (Jupiter), Gombay Dance Band (Peer), Arabesque (MDW), Nicole (Jupiter) and Boney M (Hansa)

More major record companies are shifting from small retailers to whole sellers. The principal reasons are cost

TV merchandising: 3% to 5%.

Record club sales: Negligible.

Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer predominates but manufacturer-wholesaler-retailer is increasing.

Type of promotion: Radio, and to a lesser extent television, are the most important promotion vehicles. Prate radio and magazines are also used for promotion.

TAPE:

Market: Audio—Cassettes are the market staple. Pracy accounts for about 70% of the market. Video—The market is small but growing, with sales confined to feature films. VHS dominates equipment with an estimated share of 80%.

Pre-recorded tape sold domestically including imports (retail value): 8-tr. 1981—40,000 units, \$176,000; 1980—50,000 units, \$193,000. Cassette 1981—2,200,000 units, \$9,300,000; 1980—2,400,000 units, \$9,316,000.

Average retail price per pre-recorded video tape: Beta—\$67.00; VHS—\$67.00.

RADIO STATIONS:

No. of government: 2.

Comment: In recent months programming has become less commercial, with more emphasis on "culture" and less on domestic and international pop repertoire.

TELEVISION STATIONS:

No. of channels: 2; government, 80% color (SECAM).

Comment: Videotape predominates over live transmission, with the latter being confined to news programming. There are fewer westerns than in the past.

IMPORT/EXPORT REGULATIONS:

Import duties and other levies total about 43% of the CIF price of the shipment. There are no export regulations.

MARKET ANALYSIS:

Since radio programming has become less commercial, and hence less of a promotion tool, the record industry claims to be successfully exploring new avenues of promotion such as pirate radio, discotheques, and better in-store displays. Domestic repertoire enjoys the higher sales but international product is preferred by younger buyers. Piracy is still a great market problem.

GUATEMALA

Population: 7,480,000.

Rate of exchange: \$1 (US) = 1.0 quetzal.

Per capita income: \$1,067.

Holidays: January 1, Holy Week (Thurs.-Sun.), May 1 (Labor Day), June 30 (Army Day), September 15 (Independence Day), October 20 (Revolution of 1944), November 1, December 25.

RECORDS & TAPE: Record sales certification awards: Since there is no systematic tabulation of record sales, no certified awards can be made. Some independent associations present annual awards, but they are not always accepted as valid, since Guatemalan record companies are very reserved about making sales figures public.

Imports from: Costa Rica 1980-1,035,834 units. El Salvador 1980-546,394 units. Nicaragua 1980-2,031 units. USA 1979-25,602 units. Exports to: Costa Rica 1980-680,733 units. El Salvador 1980-464,637 units. Honduras 1980-551,625 units. Nicaragua 1980-485,863 units.

Total value of records sold domestically, including imports: \$5,000,000.

Type of distribution: Each record company has its own system.

Type of promotion: Radio is the primary medium.

Average retail price per record: LPs-\$5.00; singles-\$1.50-\$1.60.

Comment: The market for recorded music is comparatively small, due to Guatemala's demographics. 40% of the population is made up of Indians, who live in agricultural societies with low incomes and limited consuming capacity. It is unusual for sales of any single to ever exceed 20,000 copies.

RADIO STATIONS: No. of commercial: 104 (92 AM, 12 FM).

No. of government: 6.

Comment: The most popular musical programs feature romantic ballads sung in Spanish. FM stations air mostly instrumental music. Ranchera (Mexican folk music) is favored in the provinces, most of which have their own local stations, and are not much influenced by trends in the capital, partly because of the mountainous terrain, which necessitates relay stations for nationwide broadcasting.

TELEVISION STATIONS: No. of transmitters: 12.

Comment: Programming includes series, novels, forums, news, movies, specials, and international shows and programs via satellite. The government channel features educational and cultural programs. All stations are associated with OTI.

IMPORT/EXPORT REGULATIONS: There are no regulations.

Type of distribution: The Hungarian Rec. Co. has its own wholesale organization. It also has shops in Budapest and other towns, there are still other shops that are under the management of the Bookstores Co. Some privately owned record shops are serviced by the Hungarian Rec. Co. wholesale department and by private mail parcels sent by individuals from foreign countries or brought into Hungary by tourists after the custom duty has been paid.
Type of promotion: There is no commercial promotion except for advertisements of the Hungarian Rec. Co. in daily and weekly newspapers. There also is some advertising in foreign language dailies like "Neueste Nachrichten" and "Daily News" and the weekly "Budapester Rundschau". Radio and television play all kinds of Hungarian and foreign music, with

some programs having listener requests. Certain magazines feature "hit parades" based on voting letters submitted by readers. Hungarian Radio and "Ifjusagi Magazine" (Youth Magazine) employ a similar methodology that is not based on real sales.

Jukeboxes: 500

TAPE:

Market: Audio-There is no market for 8-track and open reel, cassette, the dominant configuration, is handled by the wholesale department of the Hungarian Rec. Co. and is sold by the same outlets that sell records
Video-Pre-recorded video imports are nonexistent. The number of visual devices is insignificant. The Videotex television and computer factory is starting to manufacture a video recorder in cooperation with Grundig of the German Federal Republic (West)

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981-765,000 units, \$2,180,000; 1980-553,000 units, \$3,043,078

RADIO STATIONS

No of AM 2; No of FM 26 (all government)
Comment: In general, music is prerecorded and is transcribed onto tapes. There also are a number of live performances of serious, light and folk (gypsy) music programs. Opera performances emanate live from the Erkel Theatre. Operas from other locations and musicals are also featured as are complete hours of pop and rock music by well known Hungarian groups and singers.

TELEVISION STATIONS:

No of government channels 12; 80% color (SECAM)
Comment: Children's programs are usually shown before noon or in the early afternoon. Other shows include pop and serious programs, portraits of important artists, scientists and politicians as well as serious and light/pop and rock programs that are either live or pre-recorded. Sport mgmt events are also telecast. There are three daily one-half hour news-reels. Advertisements are accepted but they are not shown within the programs but in short, special segments

IMPORT/EXPORT REGULATIONS:

Record importing and exporting is done through Hungarian Export Import, a joint division of Kultura and the Hungarian Rec. Co. Tourists can import up to ten albums or prerecorded tapes. Records sent in postal parcels are limited in quantity to five and a 300 forint (\$9) custom duty must be paid. Tourists can also import recording devices and the already mentioned ten albums up to a combined inland value of 5000 forints (about \$150) on a duty free basis. If the value is between 5000 and 10,000 forints, there is a custom duty of 40% of the inland value. If the value exceeds 10,000 forints, a special import permit from the National Bank is required. This does not apply to foreign tourists, however, but a custom duty of 40% above the 5000 forints value must be paid in hard currency

MARKET ANALYSIS

Over seven million records are produced in Hungary, which is close to the peak capacity of the Hungarian Rec. Co. This company's recording studios are in need of expansion, and several studio constructions are being planned. The studios of the Hungarian Filmindustry and Hungarian Radio are at capacity. Expansion of the pressing plant is also under consideration as the demand in Hungary is increasing at a healthy rate. Home taping is very much evident but the quality of these tapes is poor because they are recorded predominantly on cheap cassette recorders. Many higher quality units, however, are being imported in increasing quantities. **Paul Gyongy**

IRELAND

Population: 3,440,217
 Rate of exchange: \$1 4745 (US) = 1 pound
 Per capita income: \$2975.
Holidays: January 1, March 17 (St. Patrick's Day), Good Friday, Easter Monday, First Mondays in June & August, Last Monday in October, December 25, 26.

RECORDS:

Record sales certification awards: Silver single—20,000 units gold single—35,000 units, platinum single—50,000 units. Silver LP—15,000 units, gold LP—25,000 units, platinum LP—50,000 units.
Average retail price per record: LP's \$7.37; EP's—\$2.95; singles \$2.21
TV merchandising: 12%
Record club sales: Minimal
Type of distribution: Manufacturer-to-wholesaler-to-retailer predominates.
Type of promotion: RTE Television's "The Late, Late Show" is probably the best outlet for promoting records. RTE's Radio 1 and 2 are important outlets, as are a small percentage of the forty or so pirate radio stations nationwide. Newspapers and magazines give regular exposure to new records.

TAPE:

Market: Audio—Cassettes dominate the market, with steadily rising sales, though home taping is a major problem. Video—Feature movies are vastly more popular than music. Illegal copying is costing the industry vast sums. VHS has about a 2:1 lead in format share.
Average retail price per tape: Cassette—\$7.47

RADIO STATIONS:

No. of government 2.
Comment: Radio 1 offers an across-the-board mix of in-depth news, current affairs, sports, light entertainment, classical music and drama. Radio 2 is RTE's pop channel, covering the entire musical spectrum

TELEVISION STATIONS:

No. of channels: 2 government, 100% color (PAL).
Comment: Both channels provide general coverage with a mixture of Irish and international content.

IMPORT/EXPORT REGULATIONS:

There is a 40% duty on records, plus an 18% VAT on retail sales. Both blank and pre-recorded tape are assessed a VAT of 30%.

MARKET ANALYSIS:

UK chart entries by the Fureys and Davey Arthur ("When You Were Sweet Sixteen"), Foster & Allen ("Bunch Of Thyme") and U2 ("Gloria") have resulted in greater interest abroad in Irish artists. The first album by the progressive folk band Moving Hearts brought new vitality to the local scene. With audio and video piracy rampant, there were concerted efforts to bring offenders to court but the success rate has been disappointing. Three distributors went out of business. Diminished sales were brought on by the general recession. Participation in MIDEEM continued to build recognition for Ireland as a separate territory. **Ken Stewart**

Records imported from USA (factory value, CIF): 1981—1,000 units, \$5,200.
Records exported to USA (factory value, FOB): 1981—34,000 units, \$119,000
Records imported from countries other than USA (factory value, CIF): 1981—30,000 units, \$178,500.
Records exported to countries other than USA (factory value, FOB): 1981—5,000 units, \$17,500

Average retail price per record: LP's—\$6.00, singles—\$2.50
Record club sales: Negligible.
Discounting: Rare.
Type of distribution: Sales are largely manufacturer to retailer though there is one large wholesaler. A significant percentage of sales are through two major department store chains. A marketing channel has been developed via non-specialist outlets (e.g., supermarkets, neighborhood stationery and general goods shops) which are serviced in a rackjobber manner
Type of promotion: Promotion is principally through the state owned television station and the two legitimate pop radio stations. Artist tele-promotions and concert tours are also helpful though rare. In addition, there is coverage in daily newspapers and periodicals.
Jukeboxes: Nonexistent

TAPE:
Market: Audio—This market has grown nearly 100% per year over the past two years and the upward trend is expected to continue. Video—A serious market has quickly developed over the past eighteen months. Unfortunately, there are few legitimate sources of supply and piracy is significant. It is estimated that 5% to 8% of all households now have video equipment, evenly split between Beta and VHS.
Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—179,000 units, \$790,400
Pre-recorded tape imported from countries other than USA (factory value, CIF): 1981—10,000 units, \$43,500
Average retail price per pre-recorded audio tape: Cassette—\$6.00
Average retail price per pre-recorded video tape: Beta—\$80.00 VHS—\$80.00

CONSUMER ELECTRONICS:
Number of homes with: Radios—980,000 (98%), television sets—950,000 (95%), color—300,000 (30%), b&w—650,000 (65%), phonographs—440,000 (44%), audio tape recorders—450,000 (45%); video tape recorders—50,000 to 80,000 (5% to 8%)

RADIO STATIONS:
 No. of government 4 (AM).
Comment: Two stations offer pop programming. In addition, there are a light music station and a classical music/talk station. The pirate station, Voice of Peace, operates offshore and plays pop music.
TELEVISION STATIONS:
 No. of channels 1 government, 20% color (PAL)
Comment: Educational television is on in the morning; children's programs in the afternoon. Arabic-language broadcasts are in the early evening, Hebrew-language from 8 p.m. to midnight. Both locally produced and imported programs are shown, including variety, documentary, and news and analyses.

MARKET ANALYSIS:
 1981 saw a 6% increase in sales over 1980, and this growth rate is expected to double in 1982 as tape sales continue their rise and LP sales strengthen. These figures become more significant when considering an annual inflation rate of 102% to 133% over the last three years, and more of the same expected. Add to this the national trauma of the recent Israeli withdrawal from the Sinai and the general economic and political instability, and it appears that the local record industry is coping fairly well in difficult times.
 The past year, characterized by soft sales around the world, was a good time for domestic repertoire. Formerly one third of all LP and tape sales, local recordings grabbed 50% of the sales in 1981. Technical and musical improvements in the quality of local productions were contributory factors. The cassette market is experiencing an unprecedented boom, with the growth rate having approached 100% per year over the last two years. The trend continues despite local IFPI estimates that 90% of all local cassette sales are pirated. The video market, which sprouted quickly, also suffers from rampant piracy. The almost nonexistence of legitimate sources means that "lending libraries" have developed independent sources of repertoire from abroad, which are then duplicated locally at well below professional standards.
