THE ROAD TO PLATINUM IS PAVED WITH BASF PURE CHROME.

The only place to be in the recording business is #1. And with cassettes taking over nearly 50% of the industry's pre-recorded sales this year, the best way to get to the top is on BASF Pure Chrome duplicating tape.

BASF Pure Chrome helps you climb the charts faster because it duplicates your sounds more perfectly than any other brand. Technically speaking, BASF Pure Chrome offers extended high frequency Maximum Output Level (MOL), plus the world's lowest background noise. And our exclusive Pure Chrome formulation is extremely clean and stable at even the highest duplicating speeds. The payoff? Audio performance that's virtually indistinguishable from a studio master recorded at 15 I.P.S.

Best of all, just about anyone can change over from ferric oxide to BASF Pure Chrome with the greatest of ease—and without any need for additional equipment or expenses.

Find out why such major names as RCA Red Seal Digital, Sine Qua Non, Vanguard and Inner City all put their trust in us. Switch to BASF Pure Chrome duplicating tape. Because when you put "CrO₂" on your label, you're not just guaranteeing the public the pure music they're paying for. You're paving your way to platinum with BASF Pure Chrome.

MARKET ANALYSIS:

The Austrian sound-carrier market is dominated by the members of the Austrian branch of the International Federation of Producers of Phonograms and Videograms. The IFPI represents the biggest companies such as Amadeo, Ariola, Bellaphon, CBS, EMI Columbia, Musica, Phonogram, Polydor and WEA. The record clubs have great importance here, having been able to reach a sales turnover of 16% of the entire market. The turnover of the non-IFPI members reached about 22%. 1982 record sales were down 400,000 units compared to 1980.

Reel and cartridges have nearly vanished from the Austrian market, and pre-recorded cassette sales revealed a drop of 50,000 units as compared to 1981 figures. Blank cassette sales were 1.2 million units shy of the 1981 level. VHS is the favorite video system in a market that is expanding. It is estimated that 50,000 units (all configurations) will be sold this year. V-2000 and Beta rank second and third in popularity.

Market share for type of music is divided as follows: 53% for international pop and entertainment, 23% national pop and entertainment, 12% classical and 12% country. Manfred Schreiber.

RECORDS:

Record sales certification awards: Gold single-50,000 units (nat'l), 100,000 units (int'l), Gold LP-15,000 units (nat'l), 25,000 units (int'l)

Records sold domestically including imports: LP's 1980-9,056,000 units. EP's & Singles 1980-11,000,000 units

Record club sales: 5% of total

Discounting: Frequent

Type of record distribution: Percentages of total sales for 1979-manufacturer-to-retailer (48.1%), manufacturer-to-wholesaler-to-retailer (51.9%)

Jobsizes: 30,000

TAPE:

Market: Pre-recorded cassette sales are declining gradually, while blank tape sales continue to rise as more and more young buyers use blank tape to copy records. Pre-recorded video tape is just being introduced into the market

Pre-recorded tape sold domestically including imports: Cassette 1980-2,154,000 units

RADIO STATIONS:

No. of government: 3 (AM & FM), No. of independent: 150 (FM)

Comment: One station programs news, public services, and all types of music. Another features cultural shows, such as opera and classical music. A third transmits popular programs, including pop and rock music. All are run by the government, and since air time is not for sale, there are no commercials. The independent radio stations, which are, of course, illegal, all broadcast popular music, mostly of Belgian origin

TELEVISION STATIONS:

No. of channels: 12 government, 100% color

Comment: Television programs include news, sports, talk shows, cultural programs, children's shows, and a lot of movies, but not much popular music (one program per week on RTB and one program every two weeks on BRT)

IMPORT/EXPORT REGULATIONS:

Belgian regulations are based on the principles of free economy. Agreements with the Common Market are respected.

COLOMBIA

Population: 28,700,000.
 Rate of exchange: \$1 (US) = 76 pesos.
 Per capita income: \$1180.
 Holidays: January 1, January 6 (Epiphany), March 19 (St. Joseph's Day), March 30 (Palm Sunday), Easter Week, May 1 (Labor Day), May 15 (Ascension Day), Corpus Christi, June 13 (Thanksgiving), July 20 (Independence Day), August 7 (Battle of Boyaca), August 15 (Assumption), October 12 (Columbus Day), November 1 (All Saints' Day), November 11 (Independence of Cartagena), December 11 (Immaculate Conception), December 25.

RECORDS:
 Sales: Asincol (Asociacion de Productores y Fonograficas de Colombia) places the yearly average of record and tape sales at \$25 million. Reliable information is hard to obtain, since the record companies are unwilling to share their sales data with either the press or Asincol.
 Record sales certification awards: There are no awards for selling a standardized number of records. However, each company presents year-end gold and silver records to its own best-selling artists. Some company representatives claim that a sales mark of at least 20,000 copies must be made to qualify for such an award.
 Average retail price per record: LP's—\$5.66; classical LP's—\$6.60, super-singles—\$2.83; singles—\$1.50.
 Type of distribution: Manufacturer-to-retailer is the predominant system. There are a few one-stops, but most sales are through retail chains located in the major cities; they also serve as wholesalers to other retailers. There is very little discounting.
 Type of promotion: Radio is the primary medium (79% penetration); but there is a trend toward producing spots for movie-theatre audiences, and TV exploitation is gaining ground as an alternative.

RAIO STATIONS:
 No. of: 363 AM, 20 FM. About 85% of programming is music-oriented.

TELEVISION STATIONS:
 No. of channels: 3.

RECORDS:

Record sales certification awards: Gold LP—300,000 units sold in export.

Platinum LP—500,000 units sold in export.

Records sold domestically including imports (retail value): LP's 1982—9,020,000 units, \$73,422,800; 1981—8,758,670 units, \$76,463,189. Singles & EP's 1982—3,413,000 units, \$6,826,000; 1981—3,766,000 units, \$7,357,960.

Records imported from countries other than USA: 1982—696,974 units; 1981—413,765 units.

Records exported to countries other than USA: 1982—2,000,000 units. Average retail price per record: LP's—\$8.14; EP's—\$2.05; singles—\$1.90.

Record club sales: 9% of LP's.

Discounting: Rarely.

Type of distribution: Opus and Supraphon own a chain of specialized retail shops. Panton has a few retail shops of its own. These account for 70% of all sales. The remainder is done through the manufacturer-to-wholesaler-to-retailer system, with big department store chains being especially important.

Type of promotion: Government-controlled radio plays an important part in the promotion of pop records, and the record companies often release recorded radio productions for public consumption. Supraphon publishes a monthly journal promoting the new releases of all three major record companies. Television shows influence sales to a slight degree. Jukeboxes: 2,200.

TAPE:

Market: Audio—The cassette is the favorite configuration, 8-tr. is not marketed, and open reel is used only sporadically for home recording and to provide background music where it's needed. Video—No hard- or software is available locally, but a few sets are privately imported, mostly for the use of professional musicians.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1982—1,090,200 units, \$10,902,000; 1981—1,076,444 units, \$11,157,173.

Pre-recorded audio tape imported from countries other than USA (factory value—CIF): 1982—8,000 units, \$80,000; 1981—1,700 units.

Average retail price per tape: Audio—cassette—\$10.

CONSUMER ELECTRONICS:

Percentage of homes with: Radios (100%); television sets—color (8%), b&w (94%); phonographs (37%); audio tape recorders (42%).

RADIO STATIONS:

No. of government stations: 1 AM, 3 FM.

Comment: One radio station programs pop music and short newscasts around the clock; another is devoted to classical music and high culture. Almost 40% of broadcast music is from records, mostly of local production, the remainder being from tapes produced by radio. Live transmissions, especially of pop music, are rare.

TELEVISION STATIONS:

No. of channels: 2 government, 70% color (SECAM).

Comment: While easy listening and middle-of-the-road music predominate, AOR is sometimes aired. Jazz, rock and folk are featured in special youth programs whose influence is growing. Most programs are produced locally, but imports from Socialist countries are frequently shown.

IMPORT/EXPORT REGULATIONS:

All transactions involving export and import of finished product must be made through state-controlled agencies. Both license contracts and export/import deals are made with Socialist countries. Western product is released in limited quantity through license contracts concluded by Supraphon and Opus.

MARKET ANALYSIS:

Supply has finally caught up with demand. Titles are being pressed in such quantities that even commercially successful records, especially licensed pop releases from the West, are in good supply—a sharp contrast to preceding years. Established Czech MOR artists, such as Karel Gott, still achieve satisfactory sales, but the interest of young audiences is focused on performers from their own age group, some of them one-hit-wonders. There is also a lively interest in New Wave groups, but it is not encouraged by the authorities. Country music is popular with all generations. Music directed toward the very young has fared unexpectedly well. The single "Girls from Our Kindergarten" set a new sales record, which suggests that there is a market still to be tapped. Classical music is the backbone of exports, and although at present license deals with the West are outstripping export of finished product to the Socialist Bloc countries, it is the latter that the industry relies on for steady and continued sales. Classical titles are now being recorded digitally for possible CD release through license agreements. Cassette production still falls short of demand and hardware is in equally short supply. Video has not yet established itself in the market, but there are some professionals and executives who own sets. Dr. Lubomir Doruzka

DENMARK

Population: 5,200,000.

Rate of exchange: \$1 (US) = 8.76 kroner.

Per capita income: \$11,000.

Holidays: January 1, Maundy Thursday, Good Friday, Easter Monday, Store Bededag (Danish Public Holiday—fourth Friday after Easter), Ascension Day, Whitmonday, June 5 (Constitution Day), December 25, 26.

RECORDS:

Note: All record and tape statistics cover IFPI members only.

Record sales certification awards: Silver single—15,000 units; gold single—30,000 units; platinum single—100,000 units. Silver LP—25,000 units; gold LP—50,000 units; platinum LP—100,000 units.

Records sold domestically including imports (retail value): LP's 1982—5,456,308 units, \$34,021,690; 1981—5,105,328 units, \$37,108,876. Singles 1982—2,221,475 units, \$4,704,300; 1981—1,972,815 units, \$5,808,730.

Average retail price per record: LP's—\$6.24; singles—\$2.10.

Record club sales: 15% of total.

Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer system predominates with 80% of all distribution done through IFPI-member-owned channels. There are a few rackjobbers and direct imports account for about 5% of the total.

Type of promotion: Radio and television programming provides the most important means of promotion, even though no commercial advertising is permitted. The two largest newspapers publish articles on the music business regularly. The periodicals "Vi Unge," "Ung Nu," "Staccato," and "MM" all feature news about music and are especially important to young consumers. Jukeboxes: 9,000.

TAPE:

Market: Audio—The cassette is the preferred configuration and accounts for 99% of total sales. 8-tr. cartridges are no longer marketed, and only professionals and sound buds buy open reel tape. Video: VHS cassettes account for 50% of total sales, followed closely by Beta with 42%. V-2000 trails with only 8%.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1982—2,326,935 units, \$12,441,320.

Average retail price per pre-recorded audio tape: Cassette \$5.29.

CONSUMER ELECTRONICS:

Number of homes with: AM/FM radios—2,300,000 (99%); color television sets—1,500,000 (70%); b&w sets—450,000 (30%); phonographs—1,200,000; audio tape recorders—1,500,000; video tape recorders—200,000.

RADIO STATIONS:

No. of government 3 FM.

Comment: Program 1: News, classical music, culture; Program 2: Culture.

regional news; Program 3: News, stereo rock, MOR & classical music. Several regional stations with local news programs are trying to establish themselves.

TELEVISION STATIONS:

No. of channels: 1 government, 90% color (PAL).

Comment: Denmark Radio is the only national channel; however, from one-third to one-half of Danish viewers can receive programs telecast from East and West Germany and Sweden. Danish programming is mostly cultural, but the number of programs of a less serious nature is growing, and the possibility of licensing more channels is being considered.

IMPORT/EXPORT REGULATIONS:

There are no regulations.

MARKET ANALYSIS:

A depressed market has forced the major record companies to make crucial cutbacks in personnel. The smaller companies have not fared much better, with the exceptions of Harlekin and Tubu. Both have been remarkably successful this year. There is no shortage of established new talent for export, but the language barrier remains a serious obstacle. EMI has moved its distribution operations to Sweden, and now Dansk Grammofon, jointly owned by CBS, Metronome, and Sonet, is the only major distributor in Denmark. It was expected that the video market would experience vast expansion, but sales have been lingering at the same level for months. VHS is the first choice in systems with V-2000 the runner-up. Video cassette rental chains have not found an effective means of dealing with the annual summer slump in sales. Danish rock music's crown jewel, and the most popular musical event in the country, is still the Roskilde Festival, which is held yearly in July. Knud Orsted

RECORDS:

Record sales certification awards: Gold single—10,000 units. Gold LP—25,000 units; diamond LP—50,000 units; platinum LP—100,000 units. Note: Cassette sales are included with LP sales if contents are 1:1. Awards are controlled and distributed by CVT. Gold singles and platinum albums are extremely rare, but several domestic albums have sold in excess of 50,000 copies.

Records sold domestically (IFPI member sales only; retail, including tax): LP's 1982—2,588,703 units, \$25,239,854; 1981—2,587,410 units, \$25,425,000. EP's 1982—77,072 units, \$250,484; 1981—80,550 units, \$291,000. Singles 1982—770,470 units, \$2,003,222; 1981—515,830 units, \$1,433,000.

Records imported from USA (factory value, CIF): 1982—609,982 units, \$777,270; 1981—394,530 units.

Records exported to USA (factory value, FOB): 1982-8,932 units, \$32,600; 1981-5,970 units.

Records imported from countries other than USA (factory value, CIF): 1982-3,538,235 units, \$6,035,100; 1981-2,520,026 units.

Records exported to countries other than USA (factory value, FOB): 1982-409,433 units, \$535,030; 1981-320,330 units.

Average retail price per record: LP's-\$9.75; EP's-\$3.25; singles-\$2.60. TV merchandising: 17% of total.

Record club sales: 13% of total. Discounting: Frequent.

Type of distribution: Manufacturer-to-wholesaler-to-retailer system is dominant. Leading wholesalers and distributors to the trade are Finnscandia and PEC-Musiikkikukka, Polarvox, and Discophon. The Finnish National Group of IFPI with a membership of 20 companies accounts for 60 per cent of the total record and pre-recorded tape sales in Finland. Direct imports (particularly from the USA and the UK), dumping, pirate sales and home taping are major problems.

Type of promotion: Government-controlled radio and TV networks are most important. Jukeboxes and discotheques (nearly 300) are other useful outlets. Twenty summer rock and pop festivals feature many international acts and help to establish local talent. Pop and rock magazines such as Soundi, OK, Suosikki, as well as the daily newspapers, give good coverage to both international and local artists. Television advertising is rather popular, though expensive. There is no radio advertising.

Jukeboxes: 3,500.

TAPE:

Market: Audio: The sales ratio between records and pre-recorded tape has turned clearly in favor of records, though it was a close 51 to 49 only a few years ago. 8-track is no longer marketed, and only dedicated sound buffs buy open reel. Some 5 million blank cassettes were sold in 1982, a sign of heavy home taping. Blank tape imports are duty free. Video-Sales are booming. 500,000 blank cassettes were sold in 1982, a jump of 500% over the 1981 mark. Rather than buying, consumers are renting pre-recorded cassettes at a ratio of 9 to 1, and business is brisk in the video club network. Current films from the international market are the favorite viewing matter. VHS is the preferred format, Beta ranks second, V-2000 third.

Pre-recorded tape sold domestically (IFPI; retail, including tax): Cassette 1982-2,369,885 units, \$23,107,458; 1981-2,202,107 units, \$18,581,000.

Pre-recorded tape imported from USA (factory value, CIF): 1982-125,662 units, \$244,700; 1981-47,689 units.

Pre-recorded tape exported to USA (factory value, FOB): 1982-712 units, \$7,150; 1981-808 units.

Pre-recorded tape imported from countries other than USA (factory value, CIF): 1982-1,227,740 units, \$1,950,000; 1981-1,183,125 units.

Pre-recorded tape exported to countries other than USA (factory value, FOB): 1982-146,155 units, \$237,900; 1981-171,926 units.

Pre-recorded video tape sold domestically including imports: 1982 figures not available, 90% of transactions are rentals.

Average retail price per pre-recorded audio tape: Full-priced cassette-\$9.75.

Average retail price per pre-recorded video tape: Beta-\$80, VHS-\$80, V-2000-\$80.

CONSUMER ELECTRONICS:

Number of homes with: Radios-2,600,000; television sets-color 1,114,000, b&w 596,000; phonographs-700,000; audio tape recorders-2,500,000; video tape recorders-100,000.

RADIO STATIONS:

No. of government 1.

Comment: Program 1 is mainly spoken word, plays & topical shows. Program 2 is mostly popular, classical and jazz music with news and sports. Program 3 is Swedish language programming, available in coastal areas and some inland towns. Live pop and rock concerts are rare, but the number of youth-oriented programs is increasing.

TELEVISION STATIONS:

No. of channels: 2 government, 95% color (PAL).

Comment: Yleisradio, the national station, operates two channels. A private commercial company, Oy Maanos-TV-Reklam, buys time from the station and sells it to advertisers. Programming is diversified and usually of high quality, though good musical shows are rarities. International shows seen here include Dallas, The Benny Hill Show, and Rockpalats. Cable tv is becoming accessible to more Finns. Helsinki already has 75,000 subscribers.

IMPORT/EXPORT REGULATIONS:

There are no custom duties on imports from EEC, KEV-SOS (Socialist Block nations), and EFTA (including former members Great Britain and Denmark); all others pay duties ranging from 3.7% to 5.4% of value. Licenses are needed only for trade with KEV-SOS countries. Exports are duty free.

MARKET ANALYSIS:

Sales figures for the first three quarters of 1982 were anything but encouraging to most of Finland's IFPI companies, but a rally in the last quarter was substantial enough to merit the term "satisfactory" for the year. The market has shifted widely in respect to the amount of business shared by each company. The Finnscandia group showed a six per cent drop from last year's level, winding up with 35 per cent of the total. CBS was clearly in the number two spot with 16 per cent and a turnover of \$2,640,000—a kind of industry record here. EMI took third place with 11 per cent, failure to rank higher being attributed to a roster short on local superstars. There is growing consumer interest in the compact disc, but no real effort will be made to get it on the market until late this year, and it will probably be another three to five years before it becomes established. The video market experienced rapid expansion, and all signs indicate that it will continue to flourish, but it is expected that the pirates will soon be trafficking where the profits are, and, of course, audio sales will be adversely affected. RECORDS:

Record sales certification awards: Gold single—500,000 units; platinum single—1,000,000 units; Gold LP—100,000 units; platinum LP—400,000 units.

Records sold domestically including imports: LP's 1982—58,000,000 units; 1981—60,300,000 units. EP's 1981—2,500,000 units. Singles 1987—58,000,000 units; 1981—56,900,000 units.

Records imported from USA (factory value, CIF): 1981—\$4,573,770.

Records exported to USA (factory value, FOB): 1981—\$1,934,426.

Records imported from countries other than USA (factory value, CIF): 1981—\$21,540,983.

Records exported to countries other than USA (factory value, FOB): 1981—\$37,262,295.

Average retail price per record: LP's—\$9; EP's—\$3; Singles—\$2.20.

Record club sales: 5% of total.

Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer and wholesaler-to-retailer.

Promotion: Radio and television (see below) are the prime media. Commercial advertising is banned on government-controlled stations, which include all French television, but the number of advertisements for recorded music is increasing in the daily newspapers, as is the number of record companies supplying private radio stations with promotional copies.

Note: Manufacturers are forbidden by law to set or recommend retail prices.

TAPE:

Market: The cassette is the preferred configuration in audio tape, and sales are making a major inroad into the LP market. VHS is the favorite video tape, accounting for 60% of total sales. Beta ranks next with 32%, and V2000 trails with 8%.

Pre-recorded audio tape sold domestically including imports: 8 tr. 1981—2,000 units. Cassette 1982—27,000,000 units; 1981—26,000,000 units.

Pre-recorded audio tape imported from USA (factory value, CIF): 1981—\$1,311,475.

Pre-recorded audio tape exported to USA (factory value, FOB): 1981—\$196,721.

Pre-recorded audio tape imported from countries other than USA (factory value, CIF): 1981—\$12,081,967.

Pre-recorded audio tape exported to countries other than USA (factory value, FOB): 1981—\$6,327,869.

Average retail price per pre-recorded audio tape: Cassette—\$9.

Pre-recorded video tape sold domestically including imports: 1982—900,000 units. (estimate).

Average retail price per pre-recorded video tape: Beta—\$90; VHS—\$90; V2000—\$90.

CONSUMER ELECTRONICS:

Percentage of homes with radios: (98%); television sets (90.8%, color 50%); phonographs (90%); audio tape recorders (60%); video tape recorders (9%).

RADIO STATIONS:

No. of commercial 3; no. of government 4.

Comment: Recorded music (60% UK/USA product) and quiz programs prevail. Live pop concerts are rare, although the government program "France Musique" features live classical and jazz music. "France Culture," a parallel, airs live drama. The new Socialist government has authorized privately operated stations, and it is estimated that, after getting the approval of a special committee, 900 will be in operation.

TELEVISION STATIONS:

No. of government 3; 100% color (SECAM).

Comment: French television still relies heavily on old films and series produced in the USA and dubbed in French, although programming is typically European. Recent legislation has eased government control of the industry. It legalizes cable systems and privately run stations and will allow more shows to be produced at the local level. It also prohibits simultaneous release of films to movie theaters and television stations.

IMPORT/EXPORT REGULATIONS:

There are no taxes on imports from countries belonging to the Common Market: West Germany, the United Kingdom, Italy, the Netherlands, Belgium, Luxembourg, Denmark, Ireland and Greece. Imports from all other countries are taxed 6.2% of value. All imports are subject to the 33.3% Value Added Tax. Consumer protection laws require all imported goods to be labelled in the French language. Accompanying documents must also be in French with place of origin stated. There are no export regulations.

RECORDS & TAPES

Record sales certification awards: Gold single—500,000 units; platinum single—1,000,000 units. Gold LP—250,000 units; platinum LP—500,000 units.

Records & tapes sold domestically: 1982—207,700,000 units, \$865,000,000.
Average retail price per record: LP's—\$6.50; singles—\$2.50.
TV merchandising: 18% of total.
Record club sales: 8%-10% of total.
Discounting: Frequent.

Type of distribution: Manufacturer to-retailer accounts for 75% of total sales. Manufacturer-to-wholesaler-to-retailer & rack jobbing (there are three rack jobbers) divide another 10%, and direct importing by retailers constitutes the remaining 15%.

Type of promotion: All radio and tv stations are important sources, especially Radio Luxembourg and The Belgium Radio with German programs. Also helpful are the numerous d-scotheques, part-time discos and key publications. The twelve radio stations and the British and American Forces Networks have 30 hit parades weekly. Second German Television (ZDF) has a monthly "hit parade" featuring only German speaking artists.

Labels: 80,000.
Average retail price per pre-recorded audio tape: Cassette—\$9.00.
Average retail price per pre-recorded video tape: Beta—\$75.00, VHS—\$85.00; V-2000—\$85.00.

RADIO STATIONS:
No. of government 2.

Comment: In recent months programming has become less commercial, with more emphasis on "culture" and less on domestic and international pop repertoire.

TELEVISION STATIONS:
No. of channels: 2 government, 95% color (SECAM).

Comment: Videotape predominates over live transmission, with the latter being confined to news programming.

IMPORT/EXPORT REGULATIONS:
Import duties and other levies total about 43% of the CIF price of the shipment. There are no export regulations.

MARKET ANALYSIS:
Since radio programming has become less commercial, and hence less of a promotion tool, the record industry claims to be successfully exploring new avenues of promotion such as pirate radio, discotheques, and better in-store displays. Domestic repertoire enjoys the higher sales but international product is preferred by younger buyers. Piracy is still a great market problem.

HUNGARY

Population: 10,711,000
 Rate of exchange: \$1 (US) = 34.5 forints.
 Per capita income: \$1,596.
 Holidays: January 1, Easter Monday, April 4 (Liberation Day), November 7 (Russian October Revolution Day), December 25.
RECORDS:
 Record sales certification awards: Gold LP-50,000 units (classical), 100,000 (pop).
 Records sold domestically including imports (retail value): LP's 1981-6,478,000 units, \$16,070,000. EP's & Singles 1981-1,333,000 units, \$1,691,000.
 Records imported from USA (factory value-CIF): 1981-1,680 units, \$1,234.
 Records exported to USA (factory value-FOB): 1981-45,400 units, \$94,200.
 Records imported from countries other than USA (factory value-CIF): 1981-962,000 units, \$4,256,000.
 Records exported to countries other than USA (factory value-FOB): 1981-1,207,000 units, \$2,650,000.
 Average retail price per record: LP's-\$2.13-\$2.72; Singles-\$1.00.
 Discounting: Rare.
 Type of distribution: The Hungarian Rec. Co. has its own wholesale organization. It also has shops in Budapest and other towns; there are still other shops that are under the management of the bookstores Co. Some privately owned record shops are serviced by the Hungarian Rec. Co. whole-

sale department and by private mail parcels sent by individuals from foreign countries or brought into Hungary by tourists after the custom duty has been paid.

Type of promotion: There is no commercial promotion except for advertisements of the Hungarian Rec. Co. in daily and weekly newspapers. There also is some advertising in foreign language dailies like "Neueste Nachrichten" and "Daily News" and the weekly "Budapester Rundschau." Radio and television play all kinds of Hungarian and foreign music, with some programs having listener requests. Certain magazines feature "hit parades" based on voting letters submitted by readers. Hungarian Radio and "Ifjúsági Magazin" (Youth Magazine) employ a similar methodology that is not based on real sales.

Jukeboxes: 500.

TAPE:

Market: Audio—There is no market for 8-track and open reel; cassette, the dominant configuration, is handled by the wholesale department of the Hungarian Rec. Co. and is sold by the same outlets that sell records. **Video**—Pre-recorded video imports are nonexistent. The number of visual devices is insignificant. The Videotex television and computer factory is starting to manufacture a video recorder in cooperation with Grundig of the German Federal Republic (West).

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—765,000 units, \$2,180,000.

Pre-recorded tape exported to USA (factory value—FDB): 1981—2,200 units, \$4,500.

Pre-recorded tape imported from countries other than USA (factory value—CIF): 1981—54,000 units, \$112,000.

Pre-recorded tape exported to countries other than USA (factory value—FOB): 1981—762,000 units, \$1,600,000.

CONSUMER ELECTRONICS:

Number of homes with: Radios—3,500,000; television sets—2,806,000 (20% color); phonographs—500,000; audio tape recorders—500,000; video tape recorders—minimal.

RADIO STATIONS

No. of AM 2; No. of FM 26 (all government).

Comment: In general, music is prerecorded and is transcribed onto tapes. There also are a number of live performances of serious, light and folk (gypsy) music programs. Opera performances emanate live from the Erkel Theatre. Operas from other locations and musicals are also featured as are complete hours of pop and rock music by well known Hungarian groups and singers.

TELEVISION STATIONS:

No. of government channels 12, 80% color (SECAM)

Comment: Children's programs are usually shown before noon or in the early afternoon. Other shows include pop and serious programs, portraits of important artists, scientists and politicians as well as serious and light/pop and rock programs that are either live or pre-recorded. Sport events are also telecast. There are three daily one-half hour news-reels. Advertisements are accepted but they are not shown within the programs but in short, special segments

IMPORT/EXPORT REGULATIONS:

Record importing and exporting is done through Hungaroton Export-Import, a joint division of Kultura and the Hungarian Rec. Co. Tourists can import up to ten albums or prerecorded tapes. Records sent in postal parcels are limited in quantity to five and a 300 forint (\$9) custom duty must be paid. Tourists can also import recording devices and the already mentioned ten albums up to a combined inland value of 5000 forints (about \$150) on a duty free basis. If the value is between 5000 and 10,000 forints, there is a custom duty of 40% of the inland value. If the value exceeds 10,000 forints, a special import permit from the National Bank is required. This does not apply to foreign tourists, however, but a custom duty of 40% above the 5000 forints value must be paid in hard currency.

IRELAND

Population: 3,480,000.
Rate of exchange: \$1.28 (US) = 1 pound.
Per capita income: \$3800.
Holidays: January 1, March 17 (St. Patrick's Day), Good Friday, Easter Monday, First Mondays in June & August, Last Monday in October, December 25, 26.

RECORDS:

Record sales certification awards: Silver single—10,000 units, gold single—20,000 units, platinum single—40,000 units. Silver LP—10,000 units, gold LP—15,000 units, platinum LP—30,000 units
Average retail price per record: LP's \$6.40; singles \$2.37
TV merchandising: 30%.
Record club sales: Minimal.

Type of distribution: Manufacturer-to-wholesaler-to-retailer predominates
Type of promotion: RTE Television's "The Late, Late Show," now in its twenty-second year, is the prime medium for general promotion. BBC's "Top of the Pops" leads in promoting international product. RTE Radio 1 & 2 broadcast virtually every kind of music. Newspapers and magazines cover new releases.

TAPE:

Market: Audio—the cassette still prevails in a depressed market, and home taping remains a major problem. Video—Sales are healthy, peaking in the Christmas season. The crackdown on piracy is getting positive results. VHS is the preferred format.

RADIO STATIONS:

No. of government 2.
Comment: Radio 1 provides a mix of news, music, drama, documentaries, sports, light entertainment, and public service programs. Radio 2 is the pop station, offering programs that appeal to both general and special interests.

TELEVISION STATIONS:

No. of channels 2 government, 100% color (PAL).
Comment: Both channels provide general coverage with a blend of material from Ireland, the United Kingdom and the United States.

IMPORT/EXPORT REGULATIONS:

There is a 40% duty on records, plus a 23% VAT on retail sales. Both blank and pre-recorded tape are subject to VAT at 35%.

MARKET ANALYSIS:

Irish artists Chris De Burgh and U2 triumphed internationally with their hits "The Getaway" and "War." Frank Patterson's self-titled album was featured in a television promotion campaign and became a mail-order bonanza in the United States with sales totalling 100,000 copies. Other Irish artists scored hits in the United Kingdom, and many young groups have made names for themselves on native ground, but in the final analysis difficult times have fallen on the Irish music industry and can be attributed in no small measure to punitive VAT increases, shrinking profits, and a proliferation of home taping. **Ken Stewart**

RECORDS:

Record sales certification awards: Gold LP—20,000 units; platinum LP—40,000 units.
Records sold domestically including imports (retail value): LP's 1982—2,550,000 units, \$20,400,000; 1981—1,701,000 units, \$17,800,000; 1980—1,200,000 units, \$12,000,000.
Records imported from USA (factory value, CIF): 1982—40,000 units, \$240,000; 1981—1,000 units, \$5,200.
Records exported to USA (factory value, FOB): 1982—35,000 units, \$175,000; 1981—34,000 units, \$119,000.
Records imported from countries other than USA (factory value, CIF): 1982—60,000 units, \$360,000; 1981—30,000 units, \$178,500.
Records exported to countries other than USA (factory value, FOB): 1982—10,000 units, \$45,000; 1981—5,000 units, \$17,500.
Average retail price per record: LP's—\$8.00; singles—\$3.50.
TV merchandising: None.
Record club sales: Negligible.
Discounting: Rare.
Type of distribution: Sales are largely manufacturer-to-retailer though there is one large wholesaler. A significant percentage of sales are through two major department store chains. A marketing channel has been developed via non-specialist outlets (e.g., supermarkets, neighborhood stationery and general goods shops) which are serviced in a rackjobber manner.
Type of promotion: Promotion is principally through the state-owned television station and the two legitimate pop radio stations (Reshet-Gimel and Galei Zahal). Artist promotions and concert tours are also helpful though rare. In addition, there is coverage in daily newspapers and periodicals.
Jobboxes: Nonexistent.

TAPE:

Market: Audio—This market has grown nearly 150% per year over the past two years and the upward trend is expected to continue. Video—The market has grown amazingly over the past year, which is primarily attributable to the fact that Israel has only one video leasing. There are about 180,000 videocassette recorders in use, with VHS leading Beta by 60% to 40%.
Pre-recorded tape sold domestically including imports (retail value): Cassette 1982—250,000 units, \$1,375,000; 1981—179,000 units, \$790,400.
Pre-recorded tape imported from countries other than USA (factory value, CIF): 1982—20,000 units, \$100,000; 1981—10,000 units, \$43,500.
Average retail price per pre-recorded audio tape: Cassette—\$8.00.
Average retail price per pre-recorded video tape: Beta—\$80.00; VHS—\$80.00.

CONSUMER ELECTRONICS:

Number of homes with: Radios—1,009,000 (98%); television sets—972,000 (95%); color—685,000 (70%); b/w—287,000 (30%); phonographs—566,000 (55%); audio tape recorders—463,000 (45%); video tape recorders—180,000 (18%).

RADIO STATIONS:

No. of commercial 1 (AM/FM); no. of government 5 (4 AM, 3 FM).
Comment: Two governmental stations offer pop programming, two others offer light music and talk programs and the fifth station plays classical on FM stereo. The pirate station, Voice of Peace, operates offshore and plays pop music.

TELEVISION STATIONS:

No. of channels: 1 government, 90% color (PAL).
Comment: Educational television is on in the morning, children's programs in the afternoon. Arabic-language broadcasts are in the early evening, Hebrew-language from 8 p.m. to midnight. Both locally produced and imported programs are shown, including variety, documentary, and news and analyses.

IMPORT/EXPORT REGULATIONS:

Import taxes on records and cassettes go up to 90% of wholesale value. Exporters of records and cassettes enjoy subsidies and financial assistance from the Ministry of Commerce.

MARKET ANALYSIS:

1982 saw a 20% increase in sales over 1981, and this growth rate is expected to double in 1983. These figures become more significant when considering an annual inflation rate of 108% to 150% over the last three years, and more of the same expected. Add to this the continuing difficulties in Lebanon over the past year and the general economic and political tension, and it appears that the local record industry is developing nicely in spite of difficult times.
 The past year, characterized by soft sales around the world, was a good time for domestic repertoire. Formerly one-third of all LP and tape sales, local recordings grabbed more than 50% of the sales in 1982. Technical and musical improvements in the quality of local productions were contributory factors.
 The cassette market is experiencing an unprecedented boom, with the growth rate having approached 100% per year over the last two years. The trend continues despite local IFPI estimates that 80% of all local cassettes are pirated. The video market, which sprouted quickly, also suffers from rampant piracy. The almost nonexistence of legitimate sources means that "lending libraries" have developed independent sources of repertoire from abroad, which are then duplicated locally at well below professional standards. **Benny Dulevitch**

NETHERLANDS

Population: 14,310,000.
 Rate of exchange: \$1 (US) = 2.50 guilders
 Per capita income: \$9,190.
 Holidays: New Year's Day, Easter Monday, April 30 (Queen's Birthday), May 5 (Liberation Day), Ascension Day, Whitsunday, Whitmonday, December 25 & 26.

RECORDS:

Record sales certification awards: Gold single—100,000 units, platinum single—150,000 units. Gold LP—50,000 units, platinum LP—100,000 units.
 Records sold domestically including imports (retail value): LP's 1981—24,000,000 units, \$156,000,000. Singles 1981—12,000,000 units, \$30,000,000.
 Records imported from USA (factory value, CIF): 1981—4,625,617 units, \$6,551,600.
 Records imported from countries other than USA (factory value, CIF): 1981—32,065,682 units, \$37,694,400.

Average retail price per record: LP's—\$6.50, singles—\$2.46
 TV merchandising: 10% to 15% of total.
 Record club sales: 7.5% of total.
 Type of distribution: Manufacturer-to-retailer is the traditional main-line of distribution. Because of parallel imports, which created rather important wholesale companies, manufacturer-to-wholesaler-to-retailer is rising strongly. Rack jobbing is decreasing and is only marginal economically.
 Type of promotion: Radio and television, especially Hilversum 3 on radio, are the most prominent promotion means for the record industry. Although they are illegal, pirate radio stations also promote records, mostly local productions. There are an estimated 10,000 pirate stations in the Netherlands, mainly one-man operations. Some disco repertoire is getting an extra promotional stimulus from the top discotheques.
 Jukeboxes: 6,000.

TAPE:

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—4,000,000 units, \$26,000,000.
 Pre-recorded tape imported from the USA (factory value, CIF): 1981—225,518 units, \$1,102,000.
 Pre-recorded tape exported to USA (factory value, FOB): 1981—339,610 units, \$555,200.

Pre-recorded tape imported from countries other than USA (factory value, CIF): 1981—5,118,594 units, \$11,445,600.
 Pre-recorded tape exported to countries other than USA (factory value, FOB): 1981—13,052,045 units, \$18,839,200.
 Average retail price per tape: Cassette—\$6.00.

RADIO STATIONS:

No. of government: 4 (AM/FM).
 Comment: Hilversum 1 and Hilversum 2 have the most varied recorded and live music and programming. Hilversum 3 is pop oriented and Hilversum 4 classical. The Netherlands also has a number of regional radio networks in addition to one local station for the Amsterdam area (City Radio Amsterdam). Promotion personnel from record companies, production units, etc., supply most of their material to Hilversum 3 programmers. Special classical promotion personnel promote product to Hilversum 4. Dutch language productions are now receiving more airplay on Hilversum 1, 2 and 3, primarily because their type of music has gained much popularity. Pirate radio stations have been trendsetters in promoting local product. Commercials for records via radio are slowly losing their impact.

TELEVISION STATIONS

No. of channels: 2 government, 100% color.
 Comment: Programming on both national channels—Nederland 1 and 2—is split among ten well-known broadcasting organizations, all with headquarters in Hilversum, and a few very small organizations. TROS, with over 900,000 "supporters," is an A-status organization, as are AVRO, VARA, KRO and NCRV. Veronica (VOD), the youngest and fastest growing organization, with over 300,000 "supporters," has a class B status. VPRO and EO have class C status (fewer than 300,000 "supporters") while the NOS and IKON organizations' transmitting time is not based on a subscription formula. Most television departments of the broadcasting organizations keep abreast of the types of music played in the Netherlands and other countries. The most influential programs for pop music are "Top Pop" (AVRO) and "Countdown" (Veronica). Other organizations have pop music programs on a monthly basis. During the weekdays, tv programming typically starts in the early evening and ends at midnight. There are no plans yet for regular morning and afternoon programming. It is expected that the tv system will change rather drastically after cable and satellite tv programs become common. The government, which changed the laws in 1982 to prevent cable tv systems from operating after normal transmitting times and thus dealing a blow to piracy, will take a series of measures to prevent the unique and very complicated national broadcasting system from losing too much of its characteristics to international (commercial) influences.

IMPORT/EXPORT REGULATIONS:

The European Community desires a flow of goods between the member states, which means that import and export regulations are kept to a minimum.

MARKET ANALYSIS:

The Dutch record industry is still in a far from blossoming situation mainly due to the economic recession. Other reasons are the phenomena of home taping and piracy and the fact that records have lost quite some impact as leisure time products.
 Though not official, it is estimated that sales in 1982 were 6 to 7 per cent less than 1981 sales. Just like in 1981, there also was a "Dutch Record Event" to create interest for the "man-in-the-street." This happening, which mainly stimulated MOR sales, was organized by the Dutch Record Event Foundation, and was supported by NVPI—the Dutch branch of the IFPI, all record companies, the record retailers organization NVGD and the authors and copyright organizations BUMA/STEMRA.
 Discussions on fighting home taping continued. The NVPI started lobbying to get the government involved. It was expected that a bill concerning a royalty on blank cassettes and/or cassette recorders would be presented to the members of Parliament before the end of 1982 but that did not happen. The conventions of Rome and Geneva still have not been signed by the Dutch government. NVPI, BUMA/STEMRA and affiliated organizations are doing their utmost to bring this about.
 Due to the economic recession most record companies had to trim their activities in 1982. For instance, the number of record releases (singles and albums) decreased quite drastically.
 Most major record companies started video divisions in 1982. According to a NOS survey there were some 270,000 video recorders in the Netherlands in the fall of 1982, which was a 6% penetration. The video business, however, did not boom as expected due to a number of reasons. Video is still being threatened by piracy. According to some estimates, about 60 to 70 per cent of the video business was conducted by pirates. The NVVD (Dutch Association of Video Distributors), which was founded in 1982, started a grim fight against video piracy.
 Video for Pleasure started a unique anti-video piracy campaign. Video retailers who had counterfeited pre-recorded cassettes could give them to the Video for Pleasure salesmen and receive \$24 for each tape. But that was possible only on the condition that for each illegal tape they would buy a legal tape from Video for Pleasure at a price of some \$39. The campaign resulted in obtaining more than 11,000 illegal video tapes.
 Philips gave detailed information on the Compact Disc at the "Firato," the bi-annual international audio and video fair, held at the RAI Exhibition Centre in Amsterdam in the fall of 1982. The Dutch record business has high hopes for the CD.

Discounting: Never.

Type of distribution: The dominant system is manufacturer-to-wholesaler-to-retailer, with the sole wholesaler, Skladnica Ksiegarska (Books Warehouse), also dealing in books. Records, which are sold primarily in bookstores, are treated mainly as a fringe activity by these retailers. More and more stores, however, are being supplied directly by pressing plants.
Type of promotion: Many newspapers and magazines print reviews of newly

released records. Disk jockeys help promote new records on radio and occasionally on television. In discotheques, disk jockeys play about 90% Anglo-American records (unavailable for sale in the market) and also Polish new wave rock.

TAPE:

Market: Audio—Cassettes are manufactured by Polskie Nagrania. Wifon, Tompress and several new privately owned companies. There still are problems securing sufficient supplies of imported tape and boxes. There is no market for 8-track. Video—There is no video market.
Pre-recorded tape sold domestically including imports: Cassette 1982—939,155 units; 1981—1,704,294 units.

Average retail price per pre-recorded audio tape: Cassette—\$6.00.

MARKET ANALYSIS

This year, the record market has undergone a radical change, predominantly due to an explosion of new wave rock by very young artists with a devoted audience. About one hundred professional groups have sprung up, with more arriving, and have gained entry into radio and television. Among the better known are Bank, Republika, Lombard/Pawn Shop, Kombi, Oddzial Zamknity/Closed Ward, Lady Pank, Maanam, Kasa Chorych/Health Service, Budka Suflera/Prompter's Box, Kapitlan Nemo, and Rezerwa/Reservation. Through the pop charts run by the radio, tv and various newspapers, these groups have achieved immense popularity, surpassing everything else recorded by Polish pop artists over the past twenty years. There has developed, therefore, a completely new market for the phonographic industry, which, as in the past, cannot keep up with the demand for basic raw materials and presses, mainly due to mismanagement.

This has been grasped by the Polish authorities, which until now had been protecting the monopoly of the country's leading disc company—Polskie Nagrania, even though two other companies—Tompress and Wifon—were allowed to enter the market a couple of years ago. Newly admitted to the business have been foreign companies that are pressing and releasing disks in Poland, chiefly offering Polish recordings, notably by these young groups. There are also companies providing services to these foreign firms in the pressing area. This has been made possible by the importation of high-output presses. Possessing foreign currency resources, these companies do not face raw material shortages and are therefore in a position to satisfy demand. Their successful business operations can be ascribed also to the vigor and resourcefulness of their young executives, well versed in the intricacies and needs of the Polish market. They quickly respond to changing requirements, releasing LP's with current chart favorites, thus assuring sales of up to one-half million units within a few days.

As of a sudden, therefore, a phonographic boom has developed on the Polish market, with still plenty of room for new arrivals. The demand, unsatisfied for so many years, is of a kind which western manufacturers could only envision. Against this background the Polskie Nagrania company is still failing to keep up with the trend by frequently releasing disks for which demand has already waned. But this is no longer worrying Polish fans who are able to buy their desired disks from other sources. Apart from the demand for Polish artists, still sought after are foreign disks available chiefly outside the normal chain shops and also, to a growing extent, in private shops acquiring such disks through private channels, quite often from persons corresponding with foreign manufacturers and illegally receiving sample copies designed for disk jockeys. Typically, these are swindlers selling "disk jockey," "record producer" or "publisher" copies to the shops.

The young fans in Poland are very knowledgeable of current trends abroad since in all its four channels the Polish Radio (tv included) features the latest western recordings, often before they are officially released in the market in the West. Disks with British artists are played here a fortnight before their release on the UK market! Recordings by such artists as Men at Work, Toto, Christopher Cross, Duran Duran, Stray Cats, Phil Collins, Michael Jackson and Irene Cara are very well known in Poland and various music journals and daily newspapers carry biographies of the most popular performers. Average retail price per record: LP's—\$4.84; singles—\$1.30.
Discounting: Rare in main shops, frequent in popular shops.
Type of distribution: Manufacturer-to-retailer predominates.
Type of promotion: Radio is the top promotion vehicle but the impact of television promotion is made through programs like "Fiesta E Fiesta," "Viva Musica" and "Superestrelas." Music magazines and many newspapers aid in the coverage.

TAPE:

Audio—Cassettes predominate; 8-track and open reel are out of use. About 80% of the market is attributed to piracy. Legal sales of cassettes declined slightly in 1982.
Video—A vast black market is a barrier for legal investments. In addition, video disks duplicate cassettes in large quantities.
Pre-recorded tape sold domestically including imports (retail value): Cassette 1982—2,500,000 units; 1981—1,800,000 units, \$9,514,000.
Average retail price per tape: Cassette—\$4.84.

Comment: One channel (Number Two) plays classical music and debates on the arts; the others play a variety of programs, including pop/rock music—50% Portuguese and 50% foreign languages according to the quota law approved by Parliament.

TELEVISION STATIONS:

No. of government channels: 2; 70% color (PAL).
Comment: Television programming consists of news, political and social debates, arts, national and international pop series, sports, many music shows and a weekly one-hour program focusing on the record industry.

IMPORT/EXPORT REGULATIONS:

On imports there is a 30% Brussels regulation duty, plus 60%, an advance deposit, without interest, is required, and no financing is available.

MARKET ANALYSIS:

In 1982, the record and tape industry was hit only slightly compared with other nations. The reason may be found in a well organized promotion by record companies that was fully supported by radio and tv. The main trend in record sales again was electronic pop music, headed by Duran Duran, Human League, Yazoo and Classic Nouveaux. Portuguese artists also were very successful, having picked up many gold disks in varied musical styles.

1982 also was a good year for international appearances, mainly in Brazil, where Portuguese best newcomer Eugenia Melo Castro (PolyGram)

plus the top Valentim-EMI group Trovante made tv and radio appearances with much success. The concert circuit in Portugal was dominated by Brazilian artists.

ROMANIA

Population: 22,150,000
 Rate of exchange: \$1 (USD) = 497 lei
 Per capita income: \$1,200
 Holidays: January 1 & 2, May 1 & 2 (Labor Day & Youth Day), August 23 (Liberation Day)
RECORDS:
 Record sales certification awards: None.
 Type of distribution: There are over 3000 stores in which records are sold, including the cooperative system, bookstores, and specialized stores. Every three months Electrecord representatives have contact talks and meetings with business representatives, the latter ones having previously decided how many copies are to be published of each record. These meetings are without mediators
 Type of promotion: Radio and television are the most important means. Television is dominated by MOR music. "Saptamina," "Scentia Tinere

tulu," "Trbuna," "Orizont" and "Cronica" magazines have permanent musical columns dedicated to records and charts as does "Contemporanul."

Average retail price per record: Domestic LPs—\$4.00-\$5.60; EPs & singles—\$1.40-\$2.40. Import LPs \$8.80 (from Socialist countries), \$15 (from Indian companies); EPs & singles—\$3.00-\$3.40.

Jobs: 40.

TAPE:

Comment: 8-track is not yet used officially. Cassette & open reel tapes are very popular, especially for the former since the introduction of Romanian cassette players. Blank open reel tape is imported from West Germany and East Germany; blank cassette tape is imported from West Germany, East Germany, Hungary, Switzerland, Israel, and Greece.

CONSUMER ELECTRONICS:

Number of homes with: Radios—3,300,000; television sets—3,700,000 (all b/w); phonographs—980,000; color television sets & videotape recorders—(400 to 500).

RADIO STATIONS:

No. stations: 83.

Comment: 40% of programming is MOR and rock, 35% classical, and 25% folklore.

TELEVISION STATIONS:

No. of stations: 294 (39 principal).

Comment: Romania does not yet produce programs in color but the establishment of a color recording station should change this.

IMPORT/EXPORT REGULATIONS:

Record importing and exporting is done by ILEXIM, which imports from Socialist and Indian companies only. Regarding Western music, Electrecord releases records under license.

SOUTH AFRICA, REPUBLIC OF

Population: 23,771,970.

Rate of exchange: \$1 (US) = 1.08 rand.

Per capita income: \$1,316.

Holidays: January 1, April 6 (Founders Day), April 9 (Good Friday), April 12 (Family Day), May 20 (Ascension Day), May 31 (Republic Day), October 10 (Kruger Day), December 16 (Day of the Vow), December 25 (Christmas), December 26 (Day of Goodwill).

RECORDS:

Record sales certification awards: Gold single—25,000 units, platinum single—100,000 units. Gold LP—20,000 units, platinum LP—50,000 units.

Records sold domestically including imports (retail value): LPs 1981—4,225,255 units, \$44,365,186. Singles 1981—5,901,654 units, \$12,393,474.

Average retail price per record: LPs—\$7.98; singles—\$1.57.

Record club sales: None.

Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer. Rack jobbing through national chain stores accounts for a large percentage of sales.

Type of promotion: Radio is the main promotional medium. National charts are compiled weekly by Springbok Radio. Television features two weekly programs, "Pop Shop" and "Easy Beat," both with film clips of international and local artists. International artists on tour are interviewed on television. Some newspapers regularly publish supplements on all facets of the entertainment industry. A number of local pop magazines are published.

Jetsetters: 500.

TAPE:

Market: Cassettes have completely superseded 8-track. Cassette player/recorders and radio cassette player/recorders for portable and auto use, along with the more technically elaborate music centers, are widely available in the marketplace. There seems to be an increase in popularity in cassette players of the Sony Walkman type.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—3,176,321 units, \$33,351,371.

Average retail price per tape: Cassette—\$7.89.

CONSUMER ELECTRONICS:

Number of homes with: AM/FM radios—2,500,000 (55%); television sets 1,500,000 (33%), 1,300,000 color, 200,000 b&w; phonographs—2,000,000 (44%); audio tape recorders—1,000,000 (22%).

RADIO STATIONS:

No. of independent channels 3, SABC channels 16.
Comment: Pop, MOR, classical and indigenous African records are used for a very substantial part of SABC's radio programs, particularly on Radio 5 (a 24-hour pop music station) and the regional music stations—Radio Highveld, Port Natal and Radio Good Hope—and on the programs for African people in seven tribal languages. The independent Capitol Radio, based in Transkei, and Channel 702 in Bophutatswana are also record music stations.

TELEVISION STATIONS:

No. of channels: 2 commercial (SABC), 100% color (PAL).
Comment: 1982 saw the start of a second channel—the joint Channel TV4—which serves the Nguni/Sotho language groups. Additional channels for other African language groups such as Zulu, Xhosa, and Tsonga are planned for the future. TV2/3 telecasts thirty hours per week, while TV1 telecasts fifty hours per week. The latter features programs in English and Afrikaans. Both channels present news and entertainment shows, documentaries, drama, opera, ballet, the arts, orchestral concerts, and religious and children's programs.

IMPORT/EXPORT REGULATIONS:

Import permits are required for records. Custom duty is 10% of FOB and 30% excise duty. Import permits are not required for pre-recorded tapes. Custom duty is 20% on FOB and 30% excise duty plus a surcharge of 10% of FOB. Usual shipping documents are required. Export credit insurance and forward exchange cover are available.

RECORDS

Record sales certification awards: Gold single-25,000 units, platinum single-50,000 units. Gold LP-50,000 units, platinum LP-100,000 units.
 Records sold domestically: LP's 1982-13,900,000 units, \$90,540,000; 1981-14,740,000 units, \$114,900,000. Singles 1982-2,813,000 units, \$6,650,000; 1981-2,250,000 units, \$6,100,000.
 Average retail price per record: LP's-\$6.75; singles-\$2.40.
 Record club sales: 15% of total.
 Discounting: Frequent.
 Type of distribution: Manufacturer-to-retailer system predominates. Rack jobbing comprises about 15% of the market. Direct importing is still frequent but is not as prevalent as in previous years, mainly due to the more than 20% devaluation of the Swedish currency in 1982.
 Type of promotion: Government-controlled and non-commercial radio and tv are the prime media for the promotion of artists and records. Swedish tv has now fully accepted promotion videos for their own artistic values, and all pop shows regularly show videos. The major daily evening newspapers are important for advertisements and reviews as are bimonthly rock magazines like Schlager. Discos are also significant.
 Jukeboxes: 1,000.

TAPE:

Market: Audio-Although up a few percentage points in units, pre-recorded cassettes share of the total cassette market is still very low (3.3 million units versus 15 million units). Video-About 13% of Swedish households have video equipment, with VHS having about 80% of the market. In 1982, a levy on blank audio and video tape became effective and it had a negative effect on blank tape sales.
 Pre-recorded tape sold domestically: Cassette 1982-3,320,000 units, \$17,830,000; 1981-3,250,000 units, \$25,200,000.
 Average retail price per tape: Cassette-\$6.75.

CONSUMER ELECTRONICS:

Percentage of homes with: Radios (97%); television sets (95%), color (90%), b&w (50%); phonographs (65%); audio tape recorders (65%); video tape recorders (13%).

Comment: One channel (P3) plays primarily recorded music 24 hours daily, including frequent pop music. 24 local radio stations are also in operation.

TELEVISION STATIONS:

No. of channels: 2 government, 95% color (PAL).

Comment: The two non-commercial channels each transmit about 40 hours per week. Pop shows often telecast video promotions.

MARKET ANALYSIS

Compared to 1981, album unit sales in 1982 showed a decrease of roughly 6% but singles sales were up 25%. Pre-recorded cassette sales were also up slightly. Due to the slight improvement in volume and some price increases during the past year, the overall recording sales figure was up 6%. The video boom, experienced here during 1980 and 1981, is now over, but Swedish penetration is one of the highest in Europe and is expected to reach 16% by the end of 1983 when 550,000 households will have video equipment.

RECORDS:
 Record sales certification awards: Gold single—50,000 units; platinum single—100,000 units. Gold LP—25,000 units; platinum LP—50,000 units; double platinum—100,000 units.
 Records sold domestically including imports (retail value): LP's 1982—7,422,000 units, \$50,497,000; 1981—8,445,000 units, \$57,899,770. Singles 1982—3,518,000 units, \$7,094,000; 1981—3,626,000 units, \$7,486,670.
 Average retail price per record: LP's—\$9.45; singles \$2.95.
 TV merchandising: 5% of total.
 Record club sales: 6% of total.
 Discounting: Rare.
 Type of distribution: International representatives operate as importers/wholesalers. Smaller independent companies use wholesalers. Six rack jobbers account for about 42% of total record sales. There has been a slight growth in rack jobbing; one-stopping is of no importance. Direct imports, including pirate parallel imports, still exist. The specialty market is mainly served by direct imports.
 Type of promotion: Record companies concentrate their promotional efforts on in-store promotion. Retailers receive much attention, including invitations to major concerts within the country and abroad. Special mailing services are used to brief retailers about new product. Government-owned tv and radio stations are still working on non-commercial terms.

but there seems to be a growing acceptance of the Swiss programmers to support the launch of new product through special programs. Some new TV music programs have included video clips, a move unthinkable a few years ago. Even though the record companies have started to restrict the service of free records to media people, cooperation between the industry and the press is the slogan of the hour. The commercial radio station, Radio 24, is still the only promotional outlet on the air, but it can be received in the Zurich region only. Because the consumer industry has launched some unsuccessful concert tours in the past, it is somewhat reluctant to get more involved in the music industry. Popular music is not featured prominently in the Swiss daily press, mainly because there is no national music press service available. There are only two major Swiss music magazines on sale: Pop/Rocky and Music Scene. However, the German music magazines such as Bravo, Sounds and Musikexpress (the latter two also owned by a Swiss publisher) are widely read by Swiss music enthusiasts. The two major concert agencies, Good News and Free & Virgin, have a monopolistic position.

Jobs: 18,000.

TAPE:

Market: Audio-8 track is non-existent. Sales and market shares of pre-recorded cassettes have also been stagnant. About 3 million cassette players are in use in the 2.5 million Swiss households. A recent survey on cassettes stated that approximately 27 million blank tapes and approximately 29 million pre-recorded tapes are in stock. The annual growth rate of pre-recorded cassettes is approximately 4 million units and of blank cassettes 7 million. The latter figure reveals that home taping is a serious challenge to the Swiss record industry. Cheap 60-min. tapes sell for only \$1.50, high-quality 60-min. tapes for \$4.00. More than 75% of new cars are equipped with stereo radio/tape equipment. Video—Blank tape sales are still booming. During 1982, about 800,000 units were sold. Retail prices range from \$7.00 (Beta) to \$8.00 (VHS) for 60-min. tapes. Market shares are roughly 70% for VHS, 20% for Beta, and 10% for VCC. Prices for pre-recorded video tapes are still high compared with other markets. Even as companies like CIC Taurus have lowered their prices to \$80, the outcome between rental and sales systems is still undecided, but sale prices of up to \$150 clearly favor rentals, which account for 42% of the market. On the average, every rental customer rents five movies a month. Of the pre-recorded video tapes on the Swiss market, action movies account for 32%, erotica 15%, crime films 10%, and war movies 9%. About 4,000 different titles are offered by 300 specialty video retailers. The release pace of new movies offered on the Swiss market has slowed considerably, accounting for an estimated 1,200 new titles per year. Unfortunately, box-office movies are still rare on video cassettes. 1983 is bound to be the year of home electronics and video games and international market leaders such as Atari, Intellivision and Philips are currently fighting for market shares.

Pre-recorded tape sold domestically including imports (retail value): Cassette 3,774,000, \$26,940,000; 1981—4,106,000 units, \$30,690,256. **Average retail price per pre-recorded audio tape:** Cassette—\$9.45. **Average retail price per pre-recorded video tape:** \$80-\$150.

CONSUMER ELECTRONICS:

Percentage of homes with: Radios (98%); television sets (87%), color (80%), b/w (20%); phonographs (80%); audio tape recorders (95%); video tape recorders (10%).

RADIO STATIONS:

No. of commercial 1 (Radio 24 operating from Italy); no. of government 6 (3 AM, 3FM).

Comment: Radio 24, operating from Italy, is still the only commercial station. The Swiss Government is now completing legislation to allow the introduction of private radio stations. More than 250 applications have reached the Ministry of Communication. About 20 to 30 applicants will be successful and will go on the air by 1984. The decree under which private radio programs will run limits advertising drastically, with the effect that no real commercial station shall challenge Radio 24. Most approved stations are expected to broadcast regional and cultural programs. Nevertheless, government-owned stations have successfully introduced commercial-free MOR programs. Young music lovers still switch to the popular foreign radio stations, such as Suedwestfunk (Germany), 03 (Austria) and Radio Luxembourg. A third channel program for every region will go on the air soon.

TELEVISION STATIONS:

No. of channels: 3 government, 100% color (PAL).

Comment: With the introduction of cable tv, almost every Swiss home can switch to eight different foreign programs from Germany, Austria and France. In some major Swiss towns, pay tv has been successfully introduced. Swiss programmers try hard to meet the foreign challenge but they hardly succeed. Radio and tv fees are high and compulsory. Videotext is offered by Swiss channels. Recently, tv producers have introduced music programs to attract younger audiences.

MARKET ANALYSIS:

The record industry is looking back on 1982 with mixed feelings. Some companies complained about sales declines of up to 8% compared to 1981. Even though last year's inflation was as low as 5%, distribution and administration costs still soared and the profit/cost scissors were opened. The forecasts for 1983 are even bleaker. On the other hand, rackjobbers have gained a market share of nearly 40% of total sales and have become serious challengers to the roughly 500 retailers.

The market is more or less monopolized by representatives of the large international companies like Ariola, CBS, EMI, Bellaphon, PolyGram and Vogue. The major independent record company and distributor is Musik Vertrieb Ltd. Smaller independent companies, such as MTB, Aktiv, Gold and Disctrade have found comfortable niches in the market to compete with the majors. Most of them also represent small foreign labels with considerable success.

The Compact Disc was launched in April 1983. Hardware and software demand has been great, resulting in hardware shortages. CD players sell for between \$750 and \$1,000 and Compact Discs between \$16 and \$21. But Swiss record buyers seem to accept higher prices in return for the better listening quality offered by the new system. The introduction of the CD will definitely boost sales of recorded music.

Krokus (Ariola) is still Switzerland's most successful hard-rock group for export product. They have recently been joined by the fast-selling techno-rock band Yellow (PolyGram). Key labels and their artists include (Ariola) Krokus, Bee Bach, Span, Deluxe and Vera Kaas; (Bellaphon) Stutch and Daniela Muehleis + Cargo; (CBS) Beast, Mariella Farre and Terry and the Hot Socks; (Disctrade) Mainstreet and X-Legs; (EMI) Irwish, Olivia Grey, Rainy Day, John Brack and Four Windows; (Musikvertrieb) Betty Legler; (Musk) steps, Crystal Ship, Lazy Piker Blues Band and Kaktus; and (PolyGram) Flame Dream, Sue Scheil and Stapstick.

Swiss artists appearing on the charts is still the exception. The top album sellers in 1982 were the Alan Parsons Project, Simon & Garfunkel, Spliff,

Peter Maffay, Abba, Nicole, Dire Straits; and the top single sellers were Albano and Romina Power, F.R. Davis, Andy Borg, Shaking Stevens, Imagination and Men At Work. Recently, some Swiss companies have joined forces to produce a compilation album for export to introduce Swiss rock music abroad. The album is called "Switzerland Rocks Closer."

The fact that the Swiss market is divided into three major ethnic/language regions—German, French and Italian—seems to favor Anglo-American product. With the aerobic fever having reached Switzerland, Jane Fonda (CBS) and Sydney Rome (Ariola) have given industry sales a boost. Product from Germany and Italy also meets Swiss tastes and therefore gets a large bite from the market cake.

Concerts are organized by major agencies like Good News and Free & Virgin. The Zurich Hallenstadion with a capacity of 12,000 is the largest Swiss venue. Other towns offer halls with seatings of up to only 3,000. Festivals like Montreux (jazz, classical), Nyon (folk), Lucerne (classical), Willisau (jazz), Zurich (jazz) and Lugano (jazz) are still very attractive. Extensive Swiss tours, with packages of local artists, have not always proved to be successful. Regional festivals usually draw audiences of up to 1,000.

Recording studios such as Mountain (Montreux), Aquarius (Geneva), Powerplay (Zurich) and Sinus (Berne) meet international standards. A special video promo service with music clips, which was offered to record retailers by EMI/CBS and PolyGram, has proved to be very strong. The same companies also introduced a successful video service for major Swiss discotheques.

form of distribution. Wholesaler-to-customer distribution exists only in the form of mail order service. Nationwide retailing through newsstands has been in effect since 1969. There is no rack jobbing or one stopping in the usual form.

The need for specialized record shops (retail outlets) operated by Melodia is apparent. Until now, all retail outlets have been operated by Ministry of Trade organizations. Certain quantities of records are retained by Soyuzpechat (press distribution agency) through its newsstands.

Type of promotion: The government controls all airways, and there are no charts of best selling records. However, Melodia promotes new recordings through handbills and through a program broadcast weekly by Mayak Radio on long and medium wavelengths. It also will publish a special record/tape monthly magazine, with a catalog/bulletin format, aimed at the general record collector and buyer. New releases are also advertised in "Soviet Culture," in the bi-weekly "Musical Life," and in some local newspapers and periodicals. Radio and television programs featuring recorded music are also a valuable means of promotion, as are sales exhibitions held periodically by East European companies in the major cities.

"Muzykalny Kiosk" ("Musical Newsstand"), a weekly 30 minute program on the Central TV, which promotes mainly new classical releases and some pop, jazz, easy listening and folk. There are also various radio & TV programs in Estonia, Latvia and Tbilisi, dealing with promotion and record reviewing. Klub, national bi-weekly magazines, runs "New Disks" column, in which most of the new Melodia releases (classical, pop, jazz, folk, literature) are reviewed by music critics and journalists, with some covers reproduced. The leading national youth paper, Komсомoiskaya Pravda, as well as a number of local youth papers, launched new columns devoted entirely to the local and international pop, rock and disco music scene. Readers' polls are published once a month and they spotlight the most popular and best selling recording artists and bands. "Melodia," a quarterly catalog/bulletin publication launched by the Melodia company and by Muzyka publishers two years ago, now issues 60,000 copies per update and is the main informational and promotional source.

Jukeboxes: 15,000-20,000.

TAPE:

Market: Audio—The pre-recorded cassette market is steadily expanding in line with the growth of hardware sales. Melodia produced 5.4 million pre-recorded cassettes in 1982. The open reel format is becoming less popular and there is practically no pre-recorded open reel market. Video—There is no official video market since there are no national companies manufacturing hardware or software. There is, however, imported hardware and software product in some areas, with a great number of home duplicated tapes being circulated, principally VHS.

Pre-recorded audio tape sold domestically including imports (retail value): Cassette 1982—5,400,000 units, \$31,940,000.

Average retail price per tape: Cassette—\$5.91.

RADIO STATIONS:

No. of government 222.

Comment: All radio stations are government owned. Most cities have access to cable broadcasting. There are over 30 FM stations. Radio Leningrad transmits for about 40 hours each week in FM stereo, programming classical (20 hours), pop and easy listening (12-13 hours) and literature. The news and music format of Mayak Radio is widely listened to. There is a trend toward the launching of more FM stations with a large percentage of stereo broadcasting as the national companies introduce more stereo tuners and radios.

TELEVISION STATIONS:

Comment: All television stations are government owned. Moscow has four channels, one of which is Central (nationwide). Most cities have their own stations, and the Central program is received everywhere; thus there is two-channel television in most of the USSR. The Central channel is fully color; other channels are partially color. SECAM type of color system is used. Both classical and easy listening music are utilized by television stations nationally. In 1978, up to 83% of the overall population in the USSR could see national television programs. There are now 75 million television sets in use, with roughly 25% color models.

IMPORT/EXPORT REGULATIONS:

All import/export of records is controlled through Mezhdunarodnaya Kniga in Moscow. The quota for records received privately from abroad, excepting East European nations, is one unit. A customs duty of 5 rubles is charged for each additional unit enclosed. The same regulation applies to promotion copies mailed to private persons.

MARKET ANALYSIS:

Melodia continues to improve its product quality, with sleeves being a more recent example. A major innovation for Melodia in 1982 was the simultaneous LP and cassette releases of some hit product. Previously, cassettes were limited to "various artist" collections. The company is maintaining its policy of releasing new and catalog licensed product from the world's top contemporary, pop and jazz artists, thus keeping local fans abreast of major developments internationally. At the retail level, Melodia is mov-

ing forward with the national expansion of its chain of record/tape specialty shops. The first digitally recorded albums (classical material) were released in 1982. Works are under way for the production of the Compact Disc, though there is no hardware available as yet. Vadim D. Yurchenkov

IMPORT/EXPORT REGULATIONS:

Any record which is manufactured in an EEC country can circulate freely in the Common Market. Any record made abroad by the UK copyright owner and subsequently imported into the United Kingdom is not an infringing copy even if there is a UK license with exclusive rights. Records made in non-EEC countries by persons other than the copyright owner are infringing copies and their importation can be prevented.

MARKET ANALYSIS:

In 1982, singles recovered the ground lost in 1981, with an increase of 1.7% by volume to 78.6 million units. The industry clearly has attempted to protect its margins in this area, with an increase in the average trade price of 11.7%, although the continuing importance of premium-priced 12" singles also must have contributed to this.

The total market for long playing carriers declined by 3.7% in 1982. A 9.6% decrease in LP records to 57.8 million units was only partially offset by an increase of 9.6% in cassettes volume to 31.5 million. The average price of LPs held up better than that for cassettes, although in both cases the increase was below the rate of inflation.

Meanwhile, sales of blank tapes showed a further significant upturn in 1982. Purchasing of blank tapes was up by 12% over the previous year, and sales have risen by 56% since 1978. Last year's 12% growth indicates an alarming acceleration in the blank tape market, which had increased by only 3% in 1981.

THORN EMI Announce a New Category in This Year's International Buyers Guide

The Quality of Sound

The APOLLO Lacquer Master Audiodisc – A Major Breakthrough in Mastering Techniques.

A culmination of many years research and development have resulted in a superb quality master for every analog mastering application – including the most critical audiophile digital and direct-to-disc records

- Reduction in basic noise level of an unmodulated groove by up to 6db
- Virtual elimination of impulse noise
- Heavily modulated grooves are clean and well burnished
- More resistant to groove greying, scoring or streaking
- Adjustment to stylus heating current is less critical
- Fine microstructure of groove walls with APOLLO lacquers provide smoother stampers

RECORDS & TAPES:

Note: Sales figures are rough estimations since no company reports the exact sales.

Record sales certification awards: Silver single—50,000 units; gold single—100,000 units; platinum single—200,000 units. Silver LP—12,500 units; gold LP—25,000 units; platinum LP—50,000 units.
 Records sold domestically including imports (retail value): LP's 1982—6,500,000 units, \$17,000,000; 1981—7,000,000 units, \$21,000,000. Singles 1982—12,000,000 units, \$6,000,000; 1981—13,000,000 units, \$10,400,000.

Records exported to USA (factory value, FOB): 1982—60,000 units, \$120,000.

Records exported to countries other than USA (factory value, FOB): 1982—700,000 units, 1,400,000.

Average retail price per record: LP's—\$2.50; singles—\$.50.

Discounting: Rare.

Type of distribution: Manufacturer-to-retailer exclusively.

Type of promotion: Mainly radio, television, film clips and promotional tours; newspapers, too. Record companies usually promote only domestic product, as licensed records sell well without promotion.

TAPE:

Market: Audio—The cassette is the prevailing configuration and its sales would still be growing if imports were not limited. There are no 8-tr. and open reel. Video—Video is still very minor. This year only three experimental programs were released.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1982—5,000,000 units 1981—5,000,000 units.
 Average retail price per tape: Cassette—\$3.00.

CONSUMER ELECTRONICS:

Number of homes with: Radios—4,891,000; television sets—4,574,000; color sets—350,000.

RADIO STATIONS:

No. of government: 8 major and 189 minor radio stations.
 Comment: Programs are mainly recorded, with repertoire being officially declared to be 70% domestic and 30% international.

TELEVISION STATIONS:

No. of government channels: 9, 87% in color (PAL).
 Comment: Television shows feature informative programs, films (50% American), serials, live broadcasts of sports, and musical events.

IMPORT/EXPORT REGULATIONS:

The importation of records and musicassettes is not permitted.

MARKET ANALYSIS:

Because of severe restrictions on payments and royalties to licensors, the importance of domestic product is growing. Rock in general and especially the newly composed national (country) music (albums selling 300,000 to 500,000 copies are not rare) are gaining ground compared to middle-of-the-road. Mita Volic
