 Product: Record display racks

ITALY

Population: 58,000,000

Rate of exchange: \$1 (US) = 1 180 lire.

Holidays: January 1, January 6 (Epiphany), Easter Monday, April 25 (Liber
 ation Day), May 1 (Labor Day), August 15 (Assumption), November 1 (All
 Saints' Day), December 8 (Immaculate Conception), December 25, De
 cember 26 (St. Stephen's Day)

RECORDS:

Record sales certification awards: Gold single—1,000,000 units. Gold LP—
 250,000 units, platinum LP—500,000 units. Note: There is no official
 regulation for these awards. The figures given are applied by some major
 record companies. Other companies award their acts gold records when
 they reach global sales of 1 million units with two or more records, even
 mixing configurations. Gold and platinum awards (silver ones are not
 used) are still considered as promotional means, each company feeling
 free to set its own rules.

Records: sold domestically including imports (retail value): LP's 1980—
 27,700,000 units. Singles 1980—28,500,000 units

Average retail price per record (including 15% VAT): Full-price Pop LP's—
 \$7.50; Singles—\$2.08

Type of distribution: The manufacturer-to-retailer system predominates
 Jukeboxes: 20,000 28,000

TAPE:

Pre-recorded tape sold domestically including imports: Cassette 1980—
 19,400,000 units.

Average retail price per tape: Cassette—\$7.25 \$7.40

CONSUMER ELECTRONICS

Number of units in households: Radios—31,300,000, AM—4,700,000, AM/
 FM—26,600,000, television sets—23,900,000, color—7,648,000, b&w—
 16,252,000, phonographs—6,460,000, audio tape recorders—
 11,250,000.

RADIO STATIONS:

No. of commercial 2,000, no. of government 3.

Comment: A few leading local stations in major towns function as powerful
 promotional channels. National radio (RAI) is contributing to the wider
 interest in classical music.

TELEVISION STATIONS:

No. of commercial 300, no. of government 3; 90% color (PAL)

Comment: National television (RAI) affects the singles market through pop
 ular music shows; songs used as signature themes of various programs
 often hit the charts. Local stations are adding pop music to their pro
 gramming.

IMPORT/EXPORT REGULATIONS:

No customs are charged to members of the European Economic Community,
 but a 15% VAT must be paid on imports from all countries.

NO COMPROMISE.

Today's technology focuses its efforts on the endless research and development of more and more advanced products. Products that by definition must be true: to sounds and colours. That's why we are looking for true sounds and true colours: nothing else. Sales and profit are merely consequential.

input.

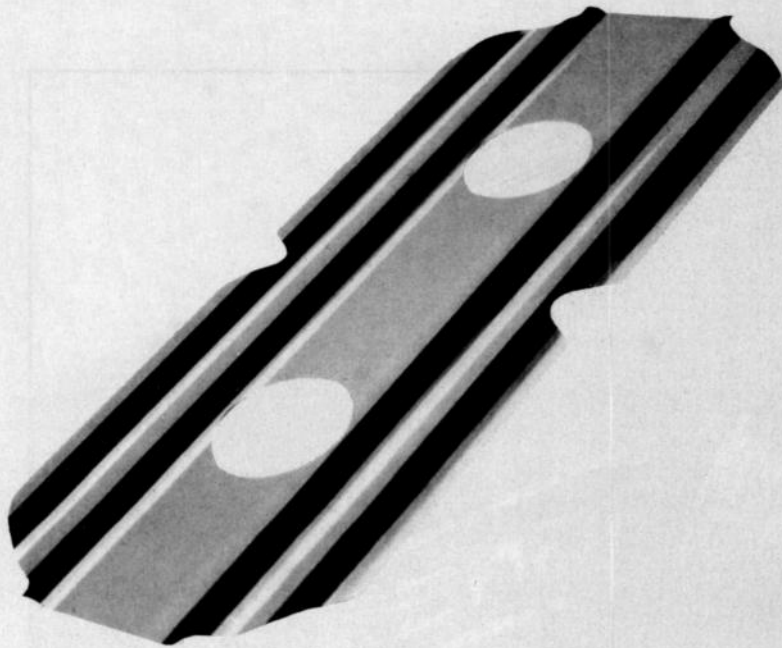

The following areas are still open to Importers/Distributors interested in dealing with MagneX:

1. Europe: Austria, Netherlands, Portugal, Sweden, Norway, Switzerland.
2. U.S.A.: except west coast.
3. Central and South America, Australia, Middle and Far East.

PANARECORD Sp.A.

ESTABLISHED IN 1978

- The ninth biggest record company in Italy as far as stock capital is concerned
- One of the twelve Italian record companies with its own direct distribution network over the whole Italian territory
- Increased its turnover by 126% in the first six months of this year compared to the same period of last year
- One of the two Italian record companies which had three simultaneous hits on the chart by the same artist in the first six months of 1982.
- You can rely on our publishing wing,

PANAMUSIC Srl

Audio: 8-tr., cassette.

POPULATION: 117,057,485.

Date of exchange: \$1 (US) = 255 yen.

Per capita income: \$8,426.

Holidays: January 1, January 15 (Adult's Day), February 11 (Founding Day), Vernal Equinox Day, April 29 (Emperor's Birthday), May 3 (Constitution Day), May 5 (Children's Day), September 15 (Respect for Aged Day), Autumnal Equinox Day, October 10 (Athletics Day), November 3 (Culture Day), November 23 (Labor Thanksgiving Day). (If a holiday falls on a Sunday, it is celebrated on Monday).

RECORDS & TAPES:

Record production: Singles & LP's 1981—166,370,000 units, \$685,000,000; 1980—194,900,000 units, \$888,430,000.

Tape production: 1981—86,780,000 units, \$469,000,000; 1980—79,970,000 units, \$547,100,000.

Records imported: 1980—\$23,650,000.

Records exported: 1980—\$6,700,000.

Record club sales: 10% of total.

Discounting: Rare

Type of distribution: Manufacturer-to-retailer. "Contracted stores," record retailers who are directly connected with record manufacturers, constitute the core of the distribution system. This distribution system is supplemented by wholesalers who have their own distribution route made up of "non-contractors." Major mass merchandise discount chains and students' cooperative stores also handle records. Some retailers specialize in handling imported records. The number of disk rental shops is increasing rapidly.

Type of promotion: Radio and discotheques for international music and TV for domestic music are the most important means of promotion. There are several fan magazines which cover both the domestic and international music scenes extensively.

RADIO STATIONS:

No. of commercial: 48 AM, 4 FM; **no. of government:** 2 AM, 1 FM.

TELEVISION STATIONS:

KENYA

Population: 15,811,000
Rate of exchange: \$1 (US) = 8.3 shillings.
Per capita income: \$288
Holidays: January 1, Good Friday, Easter Monday, May 1 (Labor Day), June 1 (Madaraka Day), Idh Uffitru, October 20 (Kenya's Day), December 12 (Independence Day), 25 (Christmas), 26 (Boxing Day)

RECORDS:

Record sales certification awards: Silver single—30,000 units; gold single—60,000 units; platinum single—100,000 units. Silver LP—5,000 units; gold LP—10,000 units; platinum LP—25,000 units.
Records sold domestically: LP's 1980—150,000 units. Singles 1980—2,500,000 units.
Records exported to countries other than USA: 1980—200,000 units.
Average retail price per record: LP's—\$9.60, singles—\$1.70.
Discounting: Frequent

Type of distribution: One manufacturer supplies the major licensees/distributors who sell direct to retail outlets. Sales are channeled from Nairobi to Mombasa, Kisumu and Nakuru primarily, with redistribution to the villages. The market is small, and there is no need for widespread coverage.
Type of promotion: Radio is the primary vehicle. There also is some advertising in magazines and newspapers.
Jobboxes: 120

TAPE:

Pre-recorded tape sold domestically: Cassette 1980—80,000 units.
Average retail price per tape: Cassette—\$11.50

RADIO STATIONS:

No. of government 3.
Comment: The three radio stations, subsidiaries of the Voice of Kenya, broadcast in three languages and feature news and information, with about 40% of air time going to music.

TELEVISION STATIONS:

No. of government channels 1.
Comment: Television programming features educational & imported programs. About 2% of the programming time is devoted to music.

IMPORT/EXPORT REGULATIONS:

The government has banned record and tape imports, and imported raw materials must be licensed.

Population: 13,717,744
Population by age groups: 0-14 (16%); 15-24 (22%); 25-49 (43%); 50+ (19%)
Number of family units: 2,457,000
Rate of exchange: \$1 (US) = 2.35 ringgits.
Per capita income: \$1172
Holidays: January 1, Chinese New Year (2 days), Prophet Muhammad's Birthday, Labor Day, Vesak Day (Buddhist festival), King's Birthday, National Day, Hari Raya Puasa (Malay Fasting festival) (2 days), Deepavali (Hindu festival), Awal Muharram (Malay religious holiday), Hari Raya Haji (Malay New Year), Christmas

RECORDS

Record sales certification awards: Silver LP—15,000 units, Gold LP—25,000 units; platinum LP—50,000 units.
Records sold domestically including imports: LP's 1979—2,100,000 units
Records imported from USA: 1979—130,000 units
Records imported from countries other than USA: 1979—6,235 units

Records exported to countries other than USA: 1979—1,430 units.
Average retail price per record: Int'l LP's pressed locally—\$6.98.

TV merchandising: 28% of total sales.

Discounting: Frequent.

Type of distribution: The manufacturer-to-retailer distribution trend continues to be predominant although the manufacturer-to-wholesaler-to-retailer system has gained prominence and now controls 30% of total sales. Most of the privately owned retail outlets account for 85% of business while manufacturer-owned outlets control 9%, with the remainder going directly from the manufacturer to the consumer.

Type of promotion: Radio and television, which allocate 42% to MOR material, are the most important means. Newspaper and magazine reviews also rate highly although press advertisements, which have proved successful before, are rarely featured. Videotape screenings have declined in promotions, perhaps due to high import taxes. Live performances and concerts remain a major form of promotion.

Jukeboxes: 50.

TAPE

Pre-recorded tape sold domestically including imports: 8-tr. 1979—750,000 units. Cassette 1979—3,200,000 units.

Average retail price per tape: 8-tr.—\$6.50; cassette—\$5.60.

CONSUMER ELECTRONICS

Percentage of homes with: Radios (94%), AM only (73%), AM/FM (21%); television sets (86%); color (31%); b&w (55%); phonographs (66%); audio tape recorders (84%); video tape recorders (.3%).

RADIO STATIONS

No. of government 1 (AM/FM).

Comment: Music accounts for about 70% of the airtime; news, sports commentaries, features and documentaries make up the remainder. FM, which is restricted to Kuala Lumpur & selected areas, is 100% music. Popular and MOR music predominates, of which 40% is local repertoire. Classical, country and jazz figure strongly, too. Live shows are featured daily on FM.

TELEVISION STATIONS

No. of government channels 2; 2% color (PAL).

Comment: About 30% of the programs are locally produced, including news, documentaries, sports, plays and musicals. Imported music shows are limited to the MOR format.

IMPORT/EXPORT REGULATIONS

All imports are subject to a tax duty of 45% + 5% + 5%. Despite this high rate, imports of tapes, hi equipment and records have registered a steady upward trend. Tax duty for exports, conversely, is very much less and is encouraged.

Pre-recorded tape sold domestically including imports: 8-tr. 1979—1,080,000 units. Cassette 1979—5,700,000 units.

Average retail price per tape: 8-tr.—\$4.70; cassette—\$5.00-\$12.70.

TELEVISION STATIONS:

No. of channels 25. 100% in color.

MARKET ANALYSIS

Since the devaluation of February 1982 (when the peso sunk from around 26 to 38 to the dollar and has been sliding ever since) a pall of austerity has turned a rocketing record and tape marketplace into one of "stop and go," with most companies reducing promotion and possibly production.

In mid year, despite an overall price increase of 20% to 25%, there was a drop in sales of about 40% over the corresponding period in 1981. Catalog items were the hardest hit. But when a hit emerged, it sold big. Musart's "Jueguemos A Cantar," a compilation of pre-teenage artists promoted via a tv contest, was the big winner with more than 500,000 units sold. Near the same mark were RCA's Emmanuel, Gamma's Yur, CBS' Vikki Carr, Ariola's Jose Jose and Camilo Sesto, and Capitol's Luis Miguel, among others.

In the final analysis the course of the peso—and the tempering of inflation—will be the significant factors as to the amount of discretionary cash the public will have available to buy, perhaps in the astronomical amounts that it did before the crises clouded the picture. **Mary Fisher**

IN SOME COUNTRIES, ECONOMY MEANS MAKING ONE BOWL OF RICE

People in business often say the world is getting smaller every day. And that's good for business. Because it means new resources, better technology and stronger economic conditions.

But it also means that the hungry of the world are coming closer.

One quarter of the world's people live with the horrors of hunger. Which leads to disease, blindness, mental retardation. Half of these people are children under five.

Your business can make a difference in this world. In the economy. And in humanity.

Right now, Catholic Relief Services, Church World Service, and the American Jewish Joint Distribution Committee, Inc., are working together with people in 90 countries. And they need your help.

Your business can help these relief and development agencies

LAST THREE DAYS.

bring food and medicine to the children. And life-giving skills to the adults.

Your business can help them help the hungry of the world grow more nutritious foods, work toward self-sufficiency, and become economically viable.

Invest in humanity. Encourage your employees to give to the Interfaith Hunger Appeal. And match their generous contributions with a corporate gift.

Interfaith Hunger Appeal will supply your business with additional information and campaign materials.

Just mail the coupon.

No one ever said that donating hard-earned corporate dollars to a worthy cause would boost profits, bring in more business or increase your return on investment. But when your business can give food to the starving, medicine to the sick and hope to the desperate, success is truly yours.

YOU ARE THE HOPE OF THE HUNGRY.

PLEASE GIVE.

The Interfaith Hunger Appeal
P.O. Box 1000, FDR Station, New York, NY 10150

NETHERLANDS

Population: 14,100,000.
Rate of exchange: \$1 (US) = 2.50 guilders.
Per capita income: \$8,260.

Holidays: New Year's Day, Easter Monday, April 30 (Queen's Birthday), May 5 (Liberation Day), Ascension Day, Whitsunday, Whitmonday, December 25 & 26.

RECORDS:

Record sales certification awards: Gold single—100,000 units, platinum single—150,000 units. Gold LP—50,000 units, platinum LP—100,000 units.

Records sold domestically including imports (retail value): LP's 1981—24,000,000 units, \$156,000,000; 1980—27,000,000 units. Singles 1981—12,000,000 units, \$30,000,000; 1980—14,000,000 units.

Records imported from USA (factory value, CIF): 1981—4,625,617 units, \$6,551,600.

Records imported from countries other than USA (factory value, CIF): 1981—32,065,682 units, \$37,694,400.

Average retail price per record: LP's—\$6.50; singles—\$2.46.
TV merchandising: 10% to 15% of total.

Record club sales: 7.5% of total.

Type of distribution: Manufacturer-to-retailer is the traditional main-line of distribution. Because of parallel imports, which created rather important wholesale companies, manufacturer-to-wholesaler-to-retailer is rising strongly. Rack jobbing is decreasing and is only marginal economically.

Type of promotion: Radio and television are the most prominent promotion channels. Records are also being promoted by pirate radio stations, though this is illegal.

Jukeboxes: 6,000.

TAPE:

Market: Audio—Musicassette sales decreased by 500,000 units in 1981 compared with 1980. The \$26 million turnover, however, remained in line with 1980 due to retail price increases. Video—Unit sales of blank cassettes in 1981 were 1.4 million, with that number expected to increase to 2.5 million in 1982 and 3 million in 1983. It is estimated that the number of cassette recorders in use is approaching 250,000 and will top 400,000 by the end of 1982. Retail prices on pre-recorded cassettes range from \$40 to \$80 while two-hour blank cassettes cost \$14 to \$16.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—4,000,000 units, \$26,000,000; 1980—4,500,000 units.

Excellent service & quality since 1973.

Pre-recorded tape imported from the USA (factory value, CIF): 1981-225,518 units, \$1,102,000.

Pre-recorded tape exported to USA (factory value, FOB): 1981-339,610 units, \$555,200.

Pre-recorded tape imported from countries other than USA (factory value, CIF): 5,118,594 units, \$11,445,600.

Pre-recorded tape exported to countries other than USA (factory value, FOB): 1981-13,052,045 units, \$18,839,200.

Average retail price per tape: Cassette-\$6.00.

RAIO STATIONS:

No. of government: 4 (AM/FM).

Comment: Hilversum 1 and Hilversum 2 have the most varied recorded and live music and programming. Hilversum 3 is pop oriented and Hilversum 4 classical. Dutch language productions are now receiving better airplay primarily because of pirate radio stations. Commercial records via radio are slowly losing their impact.

TELEVISION STATIONS

No. of channels: 2 government, 100% color.

Comment: Programming is split among nine companies. In most cases the background of these companies is political or religious. Veronica (VOD) is the Netherlands youngest broadcasting company, now about four years old. The size of a company depends upon the number of subscribers, with TROS the biggest.

Almost all Dutch television companies keep abreast of the types of music being played in the Netherlands and other countries. Pop music is presented on a regular basis by Veronica ("Countdown"), TROS ("Starclub") and AVRO ("Top Pop"). The last mentioned program was trimmed to 25 minutes in the fall of 1981 because AVRO management has the impression that pop music is losing its impact in the Netherlands. On the other hand, MOR and Dutch language music are getting more play on the various programs.

Pirate stations, which are transmitting their programs via cable systems, are becoming a big threat to the entire Dutch broadcasting system. In Amsterdam alone, there are more than 10 of these stations. According to a statement by Mrs. Neelie Smit-Kroes, the Dutch Under-Minister of Communications, it is hard to stop these stations, mainly because the law is still not far-reaching enough.

IMPORT/EXPORT REGULATIONS:

The European Community desires a flow of goods between the member states, which means that import and export regulations are kept to a minimum.

MARKET ANALYSIS:

The Dutch record industry is still in a far from blossoming situation mainly due to the economic recession. Other reasons are the phenomenon of home taping and piracy and the fact that records have lost quite some appeal as leisure time products.

The video business is rather booming. It is expected that the penetration of video recorders will be about 7% by the end of 1982 and that this figure will increase to about 30% in the mid 1980's. Most Dutch record companies are thoroughly pro video, with multinationals like EMI, PolyGram and WEA having their own video subsidiaries. CNR has started its own video department and Arcade, Ariola and Dureco will also be moving into video. The CBS/MGM and RCA/Columbia video programs will be on the market in 1983, and Sound Products has established its own video department to distribute a catalog which includes some product licensed from the BBC.

A new phenomenon in 1981 was the Record Event, a ten-day promotion whose aim was to create an interest in records for the "man-in-the-street." This event, which was organized by the NVPI (Dutch branch of the IFPI) and the authors and copyright organizations of BUMA and STEMRA, was not supported in its initial year by WEA, Ariola and Sound Products primarily because of financial reasons. These companies were involved with the 1982 Record Event, which was held in the spring and in the fall.

Discussions on fighting home taping continued. The NVPI started a lobby to get the government involved in the fight. The conventions of Rome and Geneva still have not been signed by the Dutch government but it is likely that the Geneva convention will be signed by the end of 1982.

NVPI launched a new award—the Silver Phonograph—which is a prize to honor people and organizations who have benefited the Dutch record industry. The first copy of the award was presented to Wim Brandsteder, the former managing director of the independent record company Inelco. NVPI and other Dutch organizations made a strong plea to the government to establish a national sounds archive.

The production company ITR folded in early 1982, mainly because of the death of Bart van der Laar, one of its two managing directors. The company had been founded two years ago with the financial help of WEA, Benelux and RCA-Germany.

Dutch producer Jaap Eggmont created an international trend with his "Stars on 45" record projects. He was awarded Billboard's Trendsetter Award at the 1982 IMIC conference.

NORWAY

Population: 4,079,498.
 Number of family units: 1,400,000.
 Rate of exchange: \$1 (US) = 5.19 krone.
 Per capita income: \$5,812.
 Holidays: January 1, Easter (Good Thursday through Easter Monday), May 1 (Labor Day), May 17 (Constitution Day), Ascension Day, Whitsunday, Whitmonday, December 25, 26.

NOTE:

All figures reported are for IFPI members. Non-IFPI turnover and direct imports are estimated to be an additional 10% to 15%.

RECORDS:

Record sales certification awards: Silver single—25,000 units; gold single—50,000 units; platinum single—100,000 units. Silver LP—25,000 units; gold LP—50,000 units; platinum LP—100,000 units.
Records sold domestically including imports: LPs 1980—3,730,000 units. Singles 1980—588,000 units.
Average retail price per record: LPs—\$8.06, Singles—\$2.07.
TV merchandising: None.
Record club sales: 6-7% of total.
Discounting: Rare.
Type of distribution: Manufacturer-to-retailer system predominates. There are two major rack jobbers, one of which is owned by the Norwegian record industry. Specialty shops account for 70-75% of consumer sales.
Type of promotion: Television is the most important medium, followed by radio (one channel each). Most of Norway's 160 daily newspapers have album reviews, and some have a weekly music page. There are three music newspapers with limited circulation. Some important weekly magazines have music columns.
Jukeboxes: 1500.

TAPE:

Pre-recorded tape sold domestically including imports: Cassette 1980—3,230,000 units.
Average retail price per tape: Cassette—\$8.96.

CONSUMER ELECTRONICS:

Number of homes with: Radios—1,400,000 (99.9%); television sets—1,163,431 (83%), color—704,063 (50%), b&w—459,368 (33%); phonographs 875,000 (56.2%); audio tape recorders—1,800,000.

RADIO STATIONS

No. of government: 1.
Comment: Programming is a mixture of cultural, political, educational, entertainment, and news features. About 60% of the music programming is pre-recorded & 40% is broadcast live. The ratio of classical music to popular is approximately 44/56.

TELEVISION STATIONS:

No. of channels: 1 television, 90% color (PAL).
Comment: Norwegian television programming is similar to that for radio except for less music.

PERU

Population: 17,293,083
 Rate of exchange: \$1 (US) = 690 sols.
 Holidays: January 1, April 3, 4, May 1 (Labor Day), June 24, July 28, 29 (Independence Anniversary), August 30 (St. Rose of Lima Day), October 9 (Day of National Dignity), November 1 (All Saints Day), December 8, 25.

RECORDS:

Records sold domestically including imports: LP's 1979-1,960,000 units. Singles 1979-7,150,000 units.
 Average retail price per record: LP's \$5.50; singles \$1.
 Type of distribution: The manufacturer-to-retailer system predominates. About 15% of sales are made by ambulatory merchants in the streets.
 Type of promotion: Radio and television are the most important means. Some promotion is done through newspapers and magazines.

TAPE:

Market: The cassette share of the music market amounts to about 22%. 8-track and open reel are not marketed.
 Pre-recorded tape sold domestically including imports: Cassette 1979-352,000 units.
 Average retail price per tape: \$6.

RAIO STATIONS:

No of AM 312, FM 8 (80% commercial, 20% government).
 Comment: The top stations play approximately 80% non-Spanish product, 20% Spanish product. 3 new FM stations are slated to begin broadcasting this year.

TELEVISION STATIONS:

No of networks 3 (40% PAL color)
 Comment: The programming mix comprises U.S. series, music programs via satellite from Spain, pre-recorded videotape dramas from Argentina and Mexico (top of the surveys), local shows, sports, and news. Two new networks are to open in mid-1982.

IMPORT/EXPORT REGULATIONS:

All imports valued at more than \$2,000 must be licensed. The tax rate (CIF value) is 56% for records, 56% for pre-recorded tapes, and 36% for stampers. Imports cost more than three times as much as domestic product.

MARKET ANALYSIS:

Of the 3.4 million Peruvians who are between the ages of 12 and 34, only 35% have enough money to be considered potential consumers of recorded music.
 A typical hit single sells about 40,000 copies, an LP, about 6,000. The market breaks down into five basic categories: disco/pop/rock (35%), Salsa, foreign in Spanish, local "Chicha," and Peruvian folk. Non-Peruvian music makes up 75% of total sales, indigenous music, 25%. The most popular artists are ABBA, Julio Iglesias, Donna Summer, Paul Mauriat, Jose Luis Rodriguez, Rafael & Rafaela Carra.

POLAND

Population: 36,062,000.

Rate of exchange: \$1 (USD) = 34 zlotys.

Per capita income: \$2,000.

Holidays: January 1 (New Year's), Easter Monday, May 1 (Labor Day), June (Corpus Christi), July 22 (Polish National Day), November 1 (All Saints Day), December 25, 26.

RECORDS:

Record sales certification awards: Gold LP-130,000 units.

Records sold domestically including imports: LP's 1981-5,258,380 units, 1980-5,500,000 units. EP's & singles 1981-2,954,892 units. EP's 1980-224,763 units.

Records imported from USA: 1981-none

Records exported to USA (factory value, FOB): 1981-38,000 units, \$47,000.

Records imported from countries other than USA (factory value, CIF): 1981-1,200,000 units, \$2,540,000.

Records exported to countries other than USA (factory value, FOB): 1981-1,250,000 units, \$2,750,000; 1980-1,100,000 units, \$3,300,000.

Average retail price per record: LP's-\$6.00; EP's-\$3.00; singles-\$1.00.

Discounting: Never

Type of distribution: The dominant system is manufacturer-to-wholesaler-to-retailer, with the sole wholesaler, Sladnicka Ksiegarstwa (Books Warehouse), also dealing in books. Records, which are sold primarily in bookstores, are treated mainly as a fringe activity by these retailers. Demand estimation for particular records is problematical because of initially small orders and the time required to fulfill them.

Type of promotion: Many newspapers and magazines print reviews of newly released records. Disk jockeys help promote new records on radio and occasionally on television. In discotheques, disk jockeys play about 90% Anglo-American records (unavailable for sale in the market) due to the lack of Polish disco product.

TAPE: Market: Audio-Cassettes are manufactured by Polskie Nagrania, Wifon and Tonpress, all of which are having great production difficulties. While manufacturing capacity is being increased, there are problems with securing sufficient supplies of imported tape and boxes. There is no market for 8-track. Video: There is no video market.

Pre-recorded tape sold domestically including imports: Cassette 1981-1,704,294 units, 1980-1,131,463 units.

CONSUMER ELECTRONICS

Percentage of home with: Radios (76%); television sets (25%); phonographs (29%).

RADIO STATIONS:

All government; no. of AM 30, no. of FM 37

Comments: Music, all of which is pre-recorded, accounts for 60% of all programming. More than one-half of this percentage is made up of pop and jazz.

TELEVISION STATIONS:

No. of channels: 2 government, 90% color (SECAM).

Comments: Programming comprises newsreels, political programs, sports, variety shows, and movies.

IMPORT/EXPORT REGULATIONS:

All companies are state-owned. Contacts with record companies can be made through Ars Polona.

MARKET ANALYSIS:

The Polish recording industry is in a very poor state due to several reasons. Heavy underinvestment resulted in a lack of recording studios and in outdated pressing facilities. Thus, the number of records that can be manu-

factured is limited and the quality of the product is unsatisfactory. While a new manufacturing plant, with a target capacity of thirty million records and two million cassettes annually, is being built for Polskie Nagrania, the country's main recording company, the project has been experiencing major construction obstacles that have forced several stoppages. Some critics claim that the real problems will arise only when it is completed since the shortage of studios, the lack of suitable material for pressing records and the lack of paper for record sleeves will jeopardize production targets.

There are tremendous possibilities, however. It is very easy to sell several thousand copies of an album by a well-known artist. And foreign artists who are eminently popular in Poland—like Pink Floyd, ELO, Genesis, Budge, Tangerine Dream, Kraftwerk, and even the Beatles—could easily sell nearly one million albums each.

Polish fans now own many high quality phonographs but the only source of supply of really good quality new records is the "black market," where prices for an LP reach one-half of the average monthly salary. Audiences are interested in music that is in vogue, especially that from Great Britain and the USA. There are many popularity polls organized by magazines, radio and television, but the winning songs usually cannot be purchased on records. A list of the most popular foreign songs popularized by Polish Radio but unavailable in the Polish market include the singles "Abacab," "Genesis," "Hold on Tight," "ELO," "All Those Years Ago," "George Harrison," "In the Air Tonight," "Phil Collins," and the LPs "Time," "ELO: The Friend of Mr. Cairo," "Vangels," "Super Trouper," "Abba," and "Computer World," "Kraftwerk."

Brand name: BASF.

PORTUGAL

Population: 9,700,000.

Rate of exchange: \$1 (US) = 70 escudos.

Per capita income: \$1,840.

Holidays: January 1, April 25 (Freedom Day), May 1 (Workers' Day), June 10 (Community Day), October 10 (Republic Day), December 1 (Independence Day), December 25, various religious days and Carnival.

RECORDS:

Record sales certification awards: Silver single—30,000 units; gold single—50,000 units. Silver LP—15,000 units; gold LP—30,000 units.

Records sold domestically including imports (retail value): LP's 1981—5,500,000 units, \$29,071,000; 1980—4,000,000 units, \$24,760,000. Singles 1981—4,500,000 units, \$7,714,000; 1980—3,500,000 units, \$6,550,000.

Average retail price per record: LP's—\$5.30; singles—\$1.70.

Record club sales: 9.5% of total.

Discounting: Rare in main shops, frequent in popular shops.

Type of distribution: Manufacturer-to-retailer predominates.

Type of promotion: Radio is the top promotion vehicle but the impact of television on sales has increased as more time is being spent on pop, folk and rock music, and there is a weekly program, "Viva Musica," that is dedicated to the record and tape industry. Five music magazines and almost all newspapers aid in the coverage.

TAPE:

Market: Audio—cassette sales increased about 30%, which is an indication that the fight against piracy is paying off. 8-track sales are rare and open reel is virtually unavailable. Video—Sales are insignificant and mainly consist of imports. Prices of hardware and software are too expensive.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—1,800,000 units, \$9,514,000; 1980—1,000,000 units, \$6,190,000.

Average retail price per tape: Cassette—\$5.30.

RADIO STATIONS:

No. of commercial 3 (1 AM, 2 FM); no. of government 6 (4 AM, 2 FM).

Comment: One channel plays classical music; the others play a variety of programs, including pop/rock music—50% Portuguese and 50% foreign languages according to the quota law approved by Parliament.

TELEVISION STATIONS:

No. of government channels: 2; 70% color (PAL).

Comment: Television programming consists of news, political and social debates, arts, national and international pop series, sports, many music shows and a weekly one-hour program focusing on the record industry.

IMPORT/EXPORT REGULATIONS:

On imports there is a 30% Brussels regulation duty, plus 60% an advance deposit, without interest, is required, and no financing is available.

MARKET ANALYSIS:

1981 sales increased over 1980's by 10% for disks and by 30% for cassettes. A better coordinated and more mutual cooperation between the television and record industries benefited the sales surge. The fight against piracy also was an important factor in the cassette sales increase. Record and tape prices were not increased in 1981 despite spiraling inflation at a 25% annual rate.

More national acts hit the charts, led by rock groups Taxi and UHF and by "tado" singer Carlos do Carmo, all having received gold awards. But foreign pop/rock music was still in the front line with four big names emerging in 1981—Kim Carnes, Duran Duran, Orchestral Manoeuvres in the Dark, and AC/DC. 1981 also marked the beginning of a new and very successful trend—electronic rock music—initiated by "Enola Gay" song and continues on such big hits as "Girls on Films," "Open Your Heart" (Human League), "Never Again" (Classix Nouveaux) and many more.

PUERTO RICO

Note: For Puerto Rican listings, please refer to the United States section.

ROMANIA

Population: 22,048,305.
Rate of exchange: \$1 (US) = 4.97 lei.
Per capita income: \$1,100.
Holidays: January 1 & 2, May 1 & 2 (Labor Day & Youth Day), August 23 (Liberation Day).

RECORDS:

Record sales certification awards: None.
Type of distribution: There are over 3000 stores in which records are sold, including the cooperative system, bookstores, and specialized stores. Electrecord produces about 7 million records yearly. Every three months Electrecord representatives have contract talks and meetings with business representatives, the latter ones having previously decided how many copies are to be published of each record. These meetings are without mediators.

Type of promotion: Radio and television are the most important means. Television is dominated by MOR music. "Saptamina," "Flacara," "Trubuna," "Cronica," "Sciteria Tineretului," and "Orizont" have permanent musical columns and charts dedicated to records, concerts and other musical phenomena.

Average retail price per record: Domestic LP's—\$4.00-\$5.60; EP's & singles—\$1.40-\$2.40. Import LP's \$8.80 (from Socialist countries), \$15 (from Indian companies); EP's & singles—\$3.00-\$3.40.

Jukeboxes: 40.

TAPE:

Comment: 8-track is not yet used officially. Cassette & open reel tapes are very popular, especially for the former since the introduction of Romanian cassette players. Blank open reel tape is imported from West Germany (Agfa) and East Germany (Orwo); blank cassette tape is imported from West Germany, East Germany, Hungary, Switzerland, Israel, and Greece.

CONSUMER ELECTRONICS:

Number of homes with: Radios—3,250,000; television sets—3,650,000 (all b&w); phonographs—950,000; color television sets & videotape recorders—"small numbers."

RADIO STATIONS:

No. stations 83.

Comment: 40% of programming is MDR and rock, 35% classical, and 25% folklore.

TELEVISION STATIONS:

No. of stations 294 (39 principal).

Comment: Romania does not yet produce programs in color but the establishment of a color recording station should change this.

IMPORT/EXPORT REGULATIONS:

Record importing and exporting is done by ILEXIM, which imports from Socialist and Indian companies only. Regarding Western music, Electrecord releases records under license. A group of Romanian artists, including Gheorghe Zamfir (Philips) and Catalin Triclea (Ariola), have contracts with Western companies.

SINGAPORE

Population: 2,420,000

Rate of exchange: 1 (US) = 2.15 Singapore dollars.

Per capita income: \$4,400.

Holidays: New Year's Day, Chinese New Year, Good Friday, May 1 (Labor Day), August 9 (National Day), November 11 (Deepavali), December 25.

RECORDS:

Record sales certification awards: None.

Records sold domestically including imports (retail value): LP's 1980-\$8,100,000.

Average retail price per record: LP's-\$5.20.

Type of distribution: Distribution channels include manufacturer-to-whole-saler-to-retailer and manufacturer-to-retailer. Rack jobbers are extending their operations to cover the outlying districts.

Type of promotion: The main types of promotion are airplay, record company sponsored programs, advertising in relevant magazines, news papers, and tie-ins with movies and discos.

Juliaettes: None (banned).

RADIO STATIONS:

No. of commercial: 2; no. of government: 2.

Comment: Recorded music, mostly MOR and AOR, is featured on radio programs, with other types of music frequently heard on programs sponsored by individual record companies.

TELEVISION STATIONS:

No. of channels: 2 government, 90% color (PAL).

Comment: More musical/variety shows are being aired, most of them are imports from the United States.

IMPORT/EXPORT REGULATIONS:

Records and tapes must be approved by the Controller of Undesirable Publications of the Ministry of Culture. Therefore, objectionable songs (primarily those dealing with drugs and drug-related subjects) are banned.

MARKET ANALYSIS:

Piracy is still a problem. Illegal sales have accounted for as much as 70% of the total market, according to some estimates, but all indications point to a more vigorous enforcement of the copyright law.

Local and ethnic recordings, accounting for roughly 60% of the legitimate market, are still the lifeblood of the record companies. Such recordings include Chinese and Malay material, and their sales level is expected to remain constant, perhaps even to rise.

International repertory consists mainly of MOR and AOR based on United States top 40 programming.

SOUTH AFRICA, REPUBLIC OF

Population: 23,771,970.

Rate of exchange: \$1 (US) = 0.95 rand.

Per capita income: \$1,316

Holidays: January 1, April 6 (Founders Day), April 9 (Good Friday), April 12 (Family Day), May 20 (Ascension Day), May 31 (Republic Day), October 10 (Kruger Day), December 16 (Day of the Vow), December 25 (Christmas), December 26 (Day of Goodwill).

RECORDS:

Record sales certification awards: Gold single—25,000 units, platinum single—100,000 units. Gold LP—20,000 units, platinum LP—50,000 units

Records sold domestically including imports (retail value): LP's 1981—4,225,255 units, \$44,365,186. 1980—\$44,538,792. Singles 1981—5,901,654 units, \$12,393,474. 1980—\$13,635,954

Records imported from USA: 1980—416,015 units.

Records imported from countries other than USA: 1980—269,989 units

Average retail price per record: LP's—\$7.98, singles—\$1.57.

Record club sales: None

Discounting: Frequent

Type of distribution: Manufacturer-to-retailer. Rank jobbing through national chain stores accounts for a large percentage of sales.

Type of promotion: Radio is the main promotional medium. National charts are compiled weekly by Springbok Radio. Television features two weekly programs, "Pop Shop" and "Easy Beat," both with film clips of international and local artists. International artists on tour are interviewed on television. Some newspapers regularly publish supplements on all facets of the entertainment industry. A number of local pop magazines are published.

Jobboxes: 500

TAPE:

Market: Cassettes have completely superseded 8-track. Cassette player/

recorders and radio cassette player/recorders for portable and auto use, along with the more technically elaborate music centers, are widely available in the marketplace. There seems to be an increase in popularity in cassette players of the Sony Walkman type.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—3,176,321 units, \$33,351,371; 1980—\$29,235,618

Pre-recorded tape imported from USA: 1980—49,285 units.

Pre-recorded tape imported from countries other than USA: 117,581 units.

Average retail price per tape: Cassette—\$7.89

CONSUMER ELECTRONICS:

Number of homes with: AM/FM radios—2,500,000 (55%), television sets 1,500,000 (33%), 1,300,000 color, 200,000 b&w; phonographs—2,000,000 (44%), audio tape recorders—1,000,000 (22%)

RADIO STATIONS:

No. of independent channels: 3. SABC channels 16

Comment: Pop, MOR, classical and indigenous African records are used for a very substantial part of SABC's radio programs, particularly on Radio 5 (a 24-hour pop music station) and the regional music stations—Radio Highveld, Port Natal and Radio Good Hope—and on the programs for African people in seven tribal languages. The independent Capitol Radio, based in Transkei, and Channel 702 in Bophutswana are also record music stations.

TELEVISION STATIONS:

No. of channels: 2 commercial (SABC), 100% color (PAL)

Comment: 1982 saw the start of a second channel—the joint Channel TV2/3—which serves the Nguni/Sotho language groups. Additional channels for other African language groups such as Zulu Khoza and Tswana are planned for the future. TV2/3 telecasts thirty hours per week, while TV1 telecasts fifty hours per week. The latter features programs in English and Afrikaans. Both channels present news and entertainment shows, documentaries, drama, opera, ballet, the arts, orchestral concerts, and religious and children's programs.

IMPORT/EXPORT REGULATIONS:

Import permits are required for records. Custom duty is 10% of FOB and 30% excise duty. Import permits are not required for pre-recorded tapes. Custom duty is 20% on FOB and 30% excise duty plus a surcharge of 10% of FOB. Usual shipping documents are required. Export credit insurance and forward exchange cover are available.

MARKET ANALYSIS:

The record industry shared in the high level of economic activity and consumer spending in South Africa in 1981. The longtime popularity of country music is even more on an upward curve, a trend substantiated by television and radio programs and by country music festivals. There is a revival in old-time jazz, and jazz clubs have a steady following. Rock and roll and pop music have maintained their popularity. Sales of records by black artists of indigenous music continued their upward swing. In fact, South African recordings in general now have a major influence in sales patterns due in part to sophisticated and technically advanced studio productions. Home taping continues to be a problem and as in all other countries the industry has made representations for a royalty levy on sales of blank tapes and hardware. **Bill Brooks**

 Jubilees: 20,000.

TAPE:

Pre-recorded tape sold domestically including imports (retail value): Cassette 1980—30,000,000 units, \$125,000,000.
 Average retail price per tape: Cassette—\$2.70-\$7.20.

CONSUMER ELECTRONICS

Number of homes with: Phonographs—3,500,000; audio tape recorders—7,000,000; video tape recorders—60,000.

RADIO STATIONS:

No. of commercial 338; no. of government 63; no. of AM 181; no. of FM 220.
 Comment: There has been a strong rise in the FM stations that program only current hits and have advertisement spots of a one-minute maximum. The system with the greatest impact is Radio Formula, which includes the top 40 on the FM stations of the SER (Sociedad Espanola de Radio difusion) Network. There are various commercial networks—SER, COPE and RCE—as well as RNE, the advertisement free national network. AM stations continue to be strong in news and information programming.

TELEVISION STATIONS:

No. of government channels 2.
 Comment: Programming is broken down into films and telefilms (35%), news (25%), amusing (10%), cultural (10%), sports (10%), children's (6%), music (4%).

IMPORT/EXPORT REGULATIONS:

Record and tape exportation is free. Record import rights represent a 55% increase over the retail price in the country of origin. Fernando Salaverri

SURINAM

Population: 400,000.
Per capita income: \$1600.
Holidays: January 1, Good Friday, May 1 (Labor Day), July 1 (Day of Freedom), November 25 (Independence Day), December 25, 26.

• record & tape manufacturers / distributors / importers

Didi Recs., PO Box 183, 2420 Paramaribo; Malebatumstr 4, 2438 Paramaribo. Tel: 76398. Int'l branch: Netherlands, A.M. Girwar. Labels: (Owmed) Didi, Old Gold.

SWEDEN

Population: 8,200,000.
Rate of exchange: \$1 (US) = 5.50 krona.
Holidays: January 1, Epiphany, Good Friday, Easter Monday, May 1, Ascension Day, Whit Monday, Mid-Summer Day, All Saints' Day, December 25, 26.

RECORDS

Record sales certification awards: Gold single-25,000 units, platinum single-50,000 units. Gold LP-50,000 units, platinum LP-100,000 units.
Records sold domestically: LPs 1981-14,740,000 units, \$114,900,000; 1980-15,700,000 units, \$135,000,000. Singles 1981-2,250,000 units, \$6,100,000; 1980-2,100,000 units, \$6,100,000.
Average retail price per record: LPs-\$8.50; singles-\$2.75.
Record club sales: 10%-15% of total.
Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer system predominates. There are two major rack jobbers, which comprise about 15% of the market. Direct importing is frequent and is estimated to account for at least 25% of the market and about 30%-35% of full-price album sales.

Type of promotion: Government-controlled and non-commercial radio and tv are the prime media for the promotion of records. Swedish tv has now fully accepted promotion videos for their own artistic values. The major daily evening newspapers are important for advertisements and reviews. The newly started bimonthly magazine, Schlager, has proved to be important. Discos are also significant, as are in-store video presentations and the UK radio station Radio Luxembourg.

Jobboxes: 1,000.

TAPE:

Market: Audio-1981 sales of pre-recorded cassettes, which stood at 3.25 million units, were down 7% in units and turnover from 1980. Sales of blank cassettes were about 15 million. Video-Almost 10% of Swedish households have video equipment, with VHS having about 75% to 80% of the market, and Beta and V-2000 sharing the remainder. About 1.9 million units of blank cassettes were sold in 1981.

Pre-recorded tape sold domestically: Cassette 1981-3,250,000 units, \$25,200,000; 1980-3,473,000 units, \$31,100,000.
Average retail price per tape: Cassette-\$8.50.

CONSUMER ELECTRONICS:

Percentage of homes with: Radios (97%); television sets (95%); color (70%); b/w (50%); phonographs (60%); audio tape recorders (60%); video tape recorders (10%).

RADIO STATIONS

No. of commercial 3 (FM); no. of government 1 (AM).
Comment: One channel (P3) plays primarily recorded music 24 hours daily, although the percentage has lowered in the last year. 24 local radio stations are now in operation.

TELEVISION STATIONS:

No. of channels: 2 government, 95% color (PAL).
Comment: The two non-commercial channels each transmit about 40 hours per week. Programs featuring rock and pop are quite rare and have ratings of only 10% to 20% of the viewers.

MARKET ANALYSIS

While the sales of singles were up 7% in 1981, sales of albums and cassettes were down by a like percentage. Overall, business was down 3%. Home taping and direct imports are still the two major problems. Effective September 1, 1982, a tape levy became effective, with example levies being about \$4.5 for a C-90 audio tape and about \$9 for an E-180 blank video cassette. The government expects an annual levy intake of \$24 million, with only \$1.6 of this amount going to industry and copyright organizations.

Direct imports are estimated to be at least 25% of the market; some current albums have about 35%. Canada is the biggest source of this product. More and more small independent labels and producers are entering the recording business and bringing in much new talent. Local music is still very strong, and all of last year's biggest sellers were of local origin.

SUDAN

Population: 18,700,000.
Rate of exchange: \$1 (US) = 0.35 Sudan pound.
Per capita income: \$300.
Holidays: January 1 (Independence Day), March 3 (Unity Day), May 25 (Revolution Day), October 12 (Republican Day), December 25, and various Mohammedan religious holidays.

Abba, Gyllene Tider and Freestyle all had albums selling about 200,000 units.

With almost 10% of the households having video, Sweden now has the highest penetration of video per capita in the world. Almost every major record company now has its video wing, including EMI, WEA-Metronome, PolyGram, CBS, Polar, Mariann, and Sonet. **Leif Schulman**

SWITZERLAND

Population: 6,350,000.
 Rate of exchange: \$1 (US) = 1.95 francs.
 Per capita income: \$15,800.
 Holidays: January 1 & 2, Good Friday, Easter Monday, May 1 (certain can-
 tons), August 1 (Swiss National Day), December 25 & 26, plus a number
 of local holidays.

RECORDS:

Record sales certification awards: Gold single-50,000 units, platinum
 single-100,000 units. Gold LP-25,000 units; platinum LP-50,000
 units; double platinum-100,000 units.
Records sold domestically including imports (retail value): LP's 1981-
 8,445,000 units, \$57,890,770; 1980-\$77,000,000. Singles 1981-
 3,626,000 units, \$7,486,670; 1980-\$12,000,000.
Average retail price per record: LP's-\$9.75, singles \$3.00
TV merchandising: 5.2% of total
Record club sales: 5.9% of total.
Discounting: Rare.
Type of distribution: International representatives operate as importers/
 wholesalers. Smaller independent companies use wholesalers. Six rack
 jobbers account for about 42% of total record sales. There has been a
 slight growth in rack jobbing; one-stopping is of no importance. Direct
 imports, including private parallel imports, still exist, but they lost ground
 in 1981 because of the firm Swiss Franc. The specialty market is mainly

served by direct imports. Record companies introduced special direct im-
 port services to meet the increasing demand for rare product.
Type of promotion: Record companies concentrate their promo efforts on in-
 store promotion. Retailers receive much attention, sometimes even re-
 ceiving invitations to major concerts abroad. Television and radio promo-
 tion is still very limited as it works strictly on non-commercial terms.
 Television and radio people as well as the music press emphasize their
 independence and they are not always on friendly terms with the record
 companies. As the commercial station Radio 24 is again on the air, it is
 frequently used as a promotional outlet. Other businesses are often en-
 gaged in promoting music events such as consumer industry companies
 supporting concerts. Popular music does not have an important place in
 the Swiss daily press. Only three major Swiss music magazines are pub-
 lished: POP/Rock, Music Scene and Life Music. The major concert
 agency, Good News, has a monopoly-like position.
Jukeboxes: 18,000.

TAPE:

Market: Audio-8-track is nonexistent. The market share of pre-recorded
 cassettes is increasing. Widespread home taping has helped to increase
 blank tape sales. Cheap 60-minute tapes sell for only \$1.50; high quality
 90-minute tapes for \$4.00. More than 75% of new cars are equipped with
 stereo radio/tape equipment. Video-Blank tape sales are booming as
 1981's 600,000 units sold more than doubled 1980's 275,000 units. Re-
 tail prices range from \$7 (Beta) to \$8 (VHS). Market shares are approxi-
 mately 70% for VHS, 20% for VCC, and 10% for Beta. Prices for pre-re-
 corded cassettes have decreased slightly, now being \$80 to \$150. Video
 rentals have become very popular. Newer movies are introduced slowly.
 During 1982, the soccer world championship is expected to boost video
 sales further.

Pre-recorded tape sold domestically including imports (retail value): Cas-
 sette 1981-4,106,000 units, \$30,690,256; 1980-\$30,000,000.
Average retail price per pre-recorded audio tape: Cassette-\$9.50.
Average retail price per pre-recorded video tape: \$80-\$150.

CONSUMER ELECTRONICS:

Percentage of homes with: Radios (95%); television sets (85%), color
 (75%), b&w (25%); phonographs (78%); audio tape recorders (90%);
 video tape recorders (8%).

RADIO STATIONS:

No. of commercial 1 (Radio 24 operating from Italy); no. of government 6 (3
 AM, 3 FM).
Comment: Radio 24, which had been off and on the air over the past two
 years, has now been cleared by the Italian courts. This means that the
 Swiss government monopoly has been successfully challenged. Smaller
 French stations operate into the French-speaking part of the country.
 Government stations have introduced nightly MDR programs to attract
 listeners. Commercials are not accepted as yet. Still popular are foreign
 stations like Sudwestfunk (Germany), Radio Luxembourg, and Oe 3 (Austria).
 More locally flavored programs are being offered by government-
 owned stations. The government intends to introduce a law which will
 legalize local commercial and private-owned radio stations.

TELEVISION STATIONS:

No. of channels: 3 government, 100% color (PAL).
Comment: German and Austrian programs are widely watched. A close
 television network provides Swiss homes with twelve channels, including
 local German programs, three French programs and two Austrian
 programs. Swiss programmers try hard to meet the foreign challenge but
 they hardly succeed. Radio and tv fees are increased every year, thus
 causing some uproar among the respective audiences. Cable tv is
 becoming more popular mainly due to movies. Satellite tv plans are
 being postponed a few years because of high costs. Videotext programs
 are offered by Swiss channels.

MARKET ANALYSIS:

The relative strength of the US dollar and British pound against the Swiss
 franc (other than the German mark) helped Swiss record companies con-
 trol parallel imports, which still have not been totally eliminated. The
 music business nevertheless still fighting labor, inventory and adminis-
 tration costs as further increases will not be accepted by the market.
 Almost no market growth in sales can be noticed and it appears that the
 recording market has reached its limit at approximately \$100 million de-
 pending on exchange rate movements. Therefore, record companies are
 looking for new business opportunities such as the distribution of pre-
 recorded video tapes.

The market is more or less monopolized by representatives of the large in-
 ternational companies like CBS, PolyGram, EMI, Ariola, Bellaphon and
 Vogue. The major independent company and distributor, Musikvertrieb
 Ltd., is still operating very successfully.

Smaller independent companies such as Activ, Gold and Disctrade have
 found comfortable niches in the market to compete with the majors. They
 usually represent smaller foreign labels and with considerable success.
Dialect rock has been succeeded to a large extent by a wave of Swiss rock
 acts led by the internationally successful Krokus (Ariola). Bandslike
 Kuller (Phonogram), Bitch (Bellaphon), Vic Vea (EMI), Steve Whitney
 Band (Phonogram), Trampolin (CBS) and Main Street (Disctrade). All
 hope to follow Krokus' success. New wave artists with international po-
 tential are Yello (Phonogram), Pink Pong (Big Mouth), and Vera Kaa
 (Ariola). The Swiss rock ladies to watch for are Betty Legler (Big Mouth),
 Olivia Grey (EMI), and Bee-Bach (Ariola). Record companies intend to
 invest more money into local productions with international appeal since
 the Swiss market is too limited to support extensive productions. In ad-
 dition, the market is divided into three major ethnic markets/language re-
 gions-German, French, and Italian-a factor that complicates matters.
 Swiss record buyers still favor Anglo-American product, which is im-
 pressingly dominated on Swiss charts.

The 1981 album headliners were Betty Legler, Alan Parsons Project, BJH,
 John Lennon, Krokus, Peter Maftay, Abba, Phil Collins, ELO and Barbra
 Streisand. In 1982 the new German music seems to be very popular.
 Concerts are organized by the major agencies like Good News and Free &
 Virgin. The Zurich Hallenstadion with a capacity of 12,000 is the largest
 Swiss venue. Other towns offer halls with seatings up to only 3000. Festi-
 vals like Montreux (jazz, classical), Nyon (folk), Lucerne (classical), Wil-
 lisau (jazz), Zurich (jazz) and Lugano (jazz) are still very attractive. Ex-
 tensive Swiss tours, with packages of local artists, have not always
 proved to be successful. Regional festivals usually draw audiences of up
 to 1000

Recording studios such as Mountain (Montreux), Aquarius (Geneva), Pow-
 erplay (Zurich), and Sinus (Bern) meet international standards.
 A special video promo service with music clips, which was offered to record
 retailers by EMI/CBS and PolyGram, has proved to be very strong. The
 same companies also introduced a successful video service for major
 Swiss discotheques.

USSR

Population: 270 000,000

Rate of exchange: \$1 (US) = 6475 rubles

Holidays: January 1 March 8 (Int'l Women's Day), May 1, 2 (May Day), May 9 (VE Day), October 7 (Soviet Constitution), November 7, 8 (October Revolution)

RECORDS:

Record sales certification awards: None, but the USSR Ministry of Culture last year established the Melodia Golden Disk Award, which is an honorary award spotlighting artistic and social success of certain recording artists, orchestras, companies, and promoter organizations involved with the record industry. The awards, which are not based on mere commercial success, were given to ten recipients in April 1982 for the first time

Record production: 1981—"slightly below" 200,000,000 units

Average retail price per record: Pop & jazz stereo LPs—\$3 25 & \$4 50, classical stereo LPs—\$2 19 mono & stereo singles (with 3 or 4 songs)—\$1.28, flexible mono singles—\$0.90

Record club sales: Melodia launched small issues of up to 10,000 units of certain titles, principally classical and jazz, for record club members in Moscow

Discounting: Rare, although clearance sales at extremely low prices have been occasionally effected by some outlets.

Type of distribution: Manufacturer-to-wholesaler-to-retailer is the major form of distribution. Wholesaler-to-customer distribution exists only in the form of mail order service. Nationwide relating through newsstands has been in effect since 1969. There is no rack jobbing or one stopping in the usual form.

The need for specialized record shops (retail outlets) operated by Melodia is apparent. Until now, all retail outlets have been operated by Ministry of Trade organizations. Certain quantities of records are retailed by Soyuzpechat (press distribution agency) through its newsstands

Type of promotion: The government controls all airways, and there are no charts of best selling records. However, Melodia promotes new recordings through handbills and through a program broadcast weekly by Mayak Radio on long and medium wavelengths. It also will publish a special record/tape monthly magazine, with a catalog-bulletin format, aimed at the general record collector and buyer. New releases are also advertised in "Soviet Culture," in the bi-weekly "Musical Life," and in some local newspapers and periodicals. Radio and television programs featuring recorded music are also a valuable means of promotion, as are sales exhibitions held periodically by East European companies in the major cities.

"Muzikalnyy Kiosk" ("Musical Newsstand"), a weekly 30 minute program on the Central TV, which promotes mainly new classical releases and some pop, jazz, easy listening and folk. There are also various radio & TV programs in Estonia, Latvia and Tbilisi, dealing with promotion and record reviewing. Klub, national bi-weekly magazines, runs "New Disks" column, in which most of the new Melodia releases (classical, pop, jazz, folk, literature) are reviewed by music critics and journalists, with some cover-sleeves reproduced. The leading national youth paper, Komсомолskaya Pravda, as well as a number of local youth papers, launched new columns devoted entirely to the local and international pop, rock and disco music scene. Readers' polls are published once a month and they spotlight the most popular and best selling recording artists and bands.

"Melodia," a quarterly catalog-bulletin publication launched by the Melodia company and by Muzika publishers two years ago, now issues 60,000 copies per update and is the main informational and promotional source

Jukeboxes: 15,000-20,000

TAPE: Market: In 1981, Melodia Recs. somewhat changed its pre-recorded cassette production policy by releasing cassettes in parallel, or even earlier, with some "hot" pop song and/or rock material. All newly released pre-recorded cassettes are of the stereo/mono format. Last year, Melodia's duplicating facility in Tallin produced 1,333,000 pre-recorded cassettes.

Average retail price per tape: Cassette—\$6 81

RADIO STATIONS:

No. of government: 222

Comment: All radio stations are government owned. Most cities have access to cable broadcasting. There are over 30 FM stations. Radio Leningrad transmits for about 40 hours each week in FM stereo, programming classical (20 hours), pop and easy listening (12 13 hours) and literature. The news and music format of Mayak Radio is widely listened to. There is a trend toward the launching of more FM stations with a large percentage of stereo broadcasting as the national companies introduce more stereo tuners and radios

TURKEY

Population: 45 400,000

Rate of exchange: \$1 (US) = 107 lira

Per capita income: \$1060

TELEVISION STATIONS:

Comment: All television stations are government owned. Moscow has four channels, one of which is Central (nationwide). Most cities have their own stations, and the Central program is received everywhere, thus there is two channel television in most of the USSR. The Central channel is fully color, other channels are partially color. SECAM type of color system is used. Both classical and easy listening music are utilized by television stations nationally. In 1978, up to 83% of the overall population in the USSR could see national television programs. There are now 75 million television sets in use, with 10% color models.

IMPORT/EXPORT REGULATIONS:

All import/export of records is controlled through Mezhdunarodnaya Kniga in Moscow. The quota for records received privately from abroad, excepting East European nations, is one unit. A customs duty of 5 rubles is charged for each additional unit enclosed. The same regulation applies to promotion copies mailed to private persons. **Vadim D. Yurchenkov**

Records imported from USA (factory value, CIF): 1980—6,000,000 units, \$18,000,000.
Records exported to USA (factory value, FOB): 1980—2,500,000 units, \$9,000,000.
Records imported from countries other than USA (factory value, CIF): 1980—16,000,000 units \$50,000,000

Records exported to countries other than USA (factory value, FOB): 1980—10,000,000 units, \$25,000,000.

Typical retail price per record: LPs—\$7.98, singles—\$2.00.

TV merchandising: 20% of total.

Record club sales: 7% of total.

Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer leads with 50%, followed by manufacturer-to-wholesaler to retailer (including one-stops) at 20%, rack jobbers at 20% and manufacturer-to-consumer at 10%.

Type of promotion: Television advertising accounts for 20% of LP and cassette sales. Many regard radio as being important for singles promotion.

Jobboxes: 60,000

TAPE:

Market: Audio—Almost 100% cassette. Video—VHS has 64% of market, Beta 24%, others 12%.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—28,900,000 units, \$189,000,000, 1980—25,200,000 units, \$105,000,000.

Pre-recorded tape imported from USA (factory value, CIF): 1980—100,000 units, \$500,000.

Pre-recorded tape exported to USA (factory value, FOB): 1980—250,000 units, \$1,000,000.

Pre-recorded tape imported from countries other than USA (factory value, CIF): 1980—1,500,000 units, \$5,000,000.

Pre-recorded tape exported to countries other than USA (factory value, FOB): 1980—1,500,000 units, \$7,500,000.

Average retail price per pre-recorded audio tape: Cassette—\$6.98.

Average retail price per pre-recorded video tape: Beta—\$75.00, VHS—\$75.00; V-2000—\$75.00

CONSUMER ELECTRONICS:

Number of homes with: Radios—19,200,000 (96%), AM only—12,500,000 (63%), AM/FM—6,700,000 (37%); television sets—18,000,000 (90%), color 16,000,000 (80%), b/w—2,000,000 (10%); phonographs—16,600,000 (83%), audio tape recorders—14,600,000 (73%); video tape recorders—1,400,000 (7%).

RADIO STATIONS:

No. of commercial: 27 local; No. of BBC: 4 national & 27 local.
Comment: Predominantly pre-recorded music programs.

TELEVISION STATIONS:

No. of channels: 2 BBC, 1 commercial, 1 public; 100% color (PAL).
Comment: Very good mixture, but musical content is not strong.

IMPORT/EXPORT REGULATIONS:

Any record which is manufactured in an EEC country can circulate freely in the Common Market. Any record made abroad by the UK copyright owner and subsequently imported into the United Kingdom is not an infringing copy even if there is a UK license with exclusive rights. Records made in non-EEC countries by persons other than the copyright owner are infringing copies and their importation can be prevented.

MARKET ANALYSIS:

Total retail spending on all forms of recorded music, including imports and deletions as well as the output of the UK-based companies, was an estimated 424 million pounds (\$770 million) in 1981, and although spending has not kept pace with inflation, recorded music is showing signs of being a commodity with modest commercial stability for some time to come. Singles have constantly defied forecasts of their imminent decline throughout the 1970's, and they now account for the spending of some 75 million pounds (\$136 million) a year.

Following a period of rapid growth in the early 1970's, LP sales fluctuated and while accounting for around 250 million pounds (454 million) in recent years, the volume in this sector has not increased in line with inflation. Pre-recorded cassettes have consistently increased in volume but the stability of the average price for tape has left the total retail value steady at 100 million pounds (\$182 million) per annum in a two-year period that has seen rapid inflation elsewhere.

Retail discounting against recommended retail price (RRP) has become so commonplace that the practice of suggesting a price was generally abandoned in 1981. If the RRP still had been quoted, the average in 1981 would have been about 5.22 pounds (\$9.48). The average actual price paid was 4.39 pounds (\$7.98), giving a notional retail discount of roughly 16% compared with discounts of 5% in 1978 and around 10% in 1979 and 1980. The more prices fall, the more it seems that there is an outcry against the high prices charged by record companies, but the perceived comparison is with the price of a blank tape that can accommodate two LP's at a cost of about 1 pound (\$1.82).

Although retail prices fell in 1981 to 4.39 pounds (\$7.98) on average compared with 4.56 pounds (\$8.28) in 1980, prices to dealers have continued to increase modestly. Comparison of the published dealer price with the actual retail price indicates that the dealer margin for LP records is now around 23%, or expressed as markup, about 29%. But this does not take account of the discounts allowed to retailers by wholesalers and as summing that the average of wholesale discounting is about 10%, retailers are operating within a margin of approximately 30% (a markup of over 40%). In outlets where the practice is to cut prices heavily, it is not uncommon for retailers to operate within a 20% margin.

URUGUAY

Population: 3,000,000.

Rate of exchange: \$1 (US) = 12.40 new pesos.

Per capita income: \$1,074.

Holidays: January 1, January 6 (Holy Kings' Day), February (Monday & Tuesday of Carnival), March-April (Holy or Tourism Week), April 19 (Landing of the 33), May 1 (Workers Day), May 18 (Battle of Las Piedras), June 19 (Birthday of Artigas), July 18 (First Constitution Day), August 25 (Independence Day), October 12 (Columbus Day), November 2 (All Souls Day), December 8 (Blessing of the Waters), December 25.

RECORDS:

Records sold domestically (retail value): LP's 1980-314,572 units, \$2,516,576; Classical LP's 1980-11,932 units, \$107,388. Singles & EP's 1980-35,429 units, \$106,287.

Records exported to USA (factory value, FOB): 1979-\$87,392

Records exported to countries other than USA (factory value, FOB): 1979-\$85,600.

Average retail price per record: Pop LP's-\$8.00; Classical LP's-\$9.00; singles-\$3.00.

Discounting: Frequent.

Type of distribution: Manufacturer-to-retailer, with a 30% markup. Large manufacturers own retail shops, which sell product from all companies. The month of June has many specially promoted discount sales of up to 50%. In 1981, pre-recorded cassettes were included in this sale for the first time. Most retailers keep a permanent discount desk.

Type of promotion: Manufacturers send free samples to disk jockeys and newspaper commentators, as well as to large Montevideo discotheques. Product advertising is not extremely important but does appear on radio, television and also in "Hit," a free monthly magazine with commentaries on new releases and information about artists. Major companies produce 5-minute promotional radio programs.

TAPE:

Market: Sales in units is almost equal to that of LP's, resulting in releasing of only cassettes for many titles.

Pre-recorded tape sold domestically including imports: Cassette 1980-295,204 units, \$2,656,836.

Average retail price per tape: Cassette-\$9.00.

CONSUMER ELECTRONICS:

Number of homes with: Radios-376,000 (99%), AM/FM-194,000 (51%); television sets-b&w 354,000 (93%), color 10,000 (3%).

RADIO STATIONS:

No. of commercial 88 (85 AM, 3 FM); no. of government 5 (4 AM, 1 FM)

Comment: International pop music predominates on commercial stations. In Montevideo, two AM and two FM stations program almost exclusively English-sung songs, the others mainly present Spanish-sung product, but they also include Anglo-American hits. "Tropical," local and Latin American folk, tango, Brazilian and jazz are found on special disk jockey programs.

TELEVISION STATIONS:

No. of channels 19: 18 commercial, 1 government.

Comment: TV stations keep a daily eight-hour programming schedule. Almost all programs are foreign-produced films and serials, mainly from Argentina and the US. International pop music, through films, and local folk and "Tropical," as well as sports (basketball, soccer) do not have a significant percentage of the programming time.

IMPORT/EXPORT REGULATIONS:

The government's liberal policy toward import taxes has resulted in an increase of imports of all kinds, including records and pre-recorded cassettes, especially from the US and Europe. Also LP and cassette covers are being imported from the US, Brazil, and Argentina by some local producers.

MARKET ANALYSIS:

The dramatic decline in record sales, which forced APSA's pressing plant to close has greatly concerned the industry, and this situation is aggravated by the growth of pre-recorded cassette sales.

**RECORD COLLECTORS! TRIVIA BUFFS!
NOSTALGIA FANS! RADIO PROGRAMMERS...
AND EVERYONE INTERESTED
IN MUSIC PAST AND PRESENT!**

BILLBOARD'S RESEARCH AIDS PACKAGES, compiled from Billboard's Charts, have been prepared for radio programmers, record buffs, oldies collectors...they are essential for anyone involved in pop, country, soul, adult contemporary, classical, jazz, gospel—all areas of music!

WHAT'S AVAILABLE?

NUMBER ONE RECORDS (any package listed with the number "1"): A listing of every record that reached the Number One position on Billboard's charts for the period covered, week-by-week. Lists issue date, title, artist, label — in order of issue date.

TOP TEN RECORDS (any package listed with the number "2"): A listing of every record that reached any of the Top Ten positions on Billboard's charts for the period covered. Records are listed in alphabetical order by title within each year. Where duplicate versions of the same tune (cover records) occur, they are listed alphabetically by artist's last name. In cases where a record reached Top Ten in one year and was also in the Top Ten the following or a later year, it is listed in both years. Records marked with a "#1" indicate that the record reached the Number One position in the year in which it is so marked. Lists title, artist, label.

TOP RECORDS OF THE YEAR (any package listed with the number "3"): A listing of the best records of each year, based on a recap of the weekly charts for each year covered. Lists title, artist, label.

POP SINGLES

- A-1 Number One Pop Singles, 1941 through Present \$50.00
- A-2 Top Ten Pop Singles, 1947 through Present 50.00
- A-3 Top Pop Singles of the Year, 1946 through Present 50.00

Westindy Music Co. Inc. (ASCAP), PO Box 2896, 86 Main St., St. Thomas 00801. Tel: (809) 774-4488. Cable: WESTINDY. Pres.: Wilbur La Motta

YUGOSLAVIA

Population: 22,354,000

Rate of exchange: \$1 (US) = 47 Dinars.

Per capita income: \$2,700

Holidays: January 1 & 2 (New Year's), May 1 & 2 (Labor Day), July 4, November 29 & 30 (Day of the Republic).

RECORDS & TAPES:

Note: Sales figures are rough estimations since no company reports the exact sales.

Record sales certification awards: Silver single—50,000 units; gold single—100,000 units; platinum single—200,000 units. Silver LP—12,500 units; gold LP—25,000 units; platinum LP—50,000 units.

Records sold domestically including imports (retail value): 'P's 1981—7,000,000 units, \$21,000,000; 1980—6,500,000 units, \$19,800,000. Singles 1981—13,000,000 units, \$10,400,000, 1980—11,000,000 units \$8,800,000.

Records exported to USA (factory value, FOB): 1980—50,000 units, \$100,000

Records exported to countries other than USA (factory value, FOB): 1980—650,000 units, \$1,300,000.

Average retail price per record: LP's—\$3.00; singles—\$0.80.

Discounting: Rare

Type of distribution: Manufacturer-to-retailer exclusively

Type of promotion: Mainly radio, television, film clips and promotional tours; newspapers, too.

TAPE:

Market: Audio—The cassette is the prevailing configuration and its sales are still growing. Tape recorders are counselling record players. There are no 8-tr. and open reel. Video—Video is very minor.

Pre-recorded tape sold domestically including imports (retail value): Cassette 1981—5,000,000 units, \$15,000,000, 1980—4,500,000 units, \$13,500,000.

Average retail price per tape: Cassette—\$3.00

CONSUMER ELECTRONICS:

Number of homes with: Radios—4,634,000 (85%), television sets—4,189,000 (72%), color sets—300,000 (6%).

RAIO STATIONS:

No. of government: 8 major and 200 minor radio stations.

Comment: Programs are mainly recorded, with repertoire being officially declared to be 70% domestic and 30% international

TELEVISION STATIONS:

No. of government channels: 9, 85% in color (PAL).

Comment: Television shows feature informative programs, films serials, live broadcasts of sports, and musical events.

IMPORT/EXPORT REGULATIONS:

The importation of records and musicassettes is not permitted

MARKET ANALYSIS:

Because of the restrictions on payments and royalties to licensors, the importance of domestic product is growing. Rock in general and newly composed national (country) music are gaining ground compared to middle-of-the-road

The Needle Knows

Even when your ears can't tell the difference, your VU meters can.

Which is why we test every reel of our 2" Grand Master® 456 Studio Mastering Tape end-to-end and edge-to-edge. To make certain you get a rock-solid readout with virtually

no tape-induced level variations from one reel of 456 to another or within a single reel.

No other brand of tape undergoes such rigorous testing. And as a result no other brand offers you the reliable consistency of Ampex Tape.

A consistency that lets you forget the tape and concentrate on the job.

the *Journal of Applied Behavior Analysis* (1974), and the *Journal of Experimental Psychology* (1975).

There are a number of reasons why the *Journal of Applied Behavior Analysis* is the most widely cited journal in the field of behavior analysis.

First, the journal is published by the American Psychological Association, which is the largest and most prestigious organization in the field of psychology.

Second, the journal is published quarterly, which allows for a high volume of research to be published.

Third, the journal is published in English, which is the most widely spoken language in the world.

Fourth, the journal is published in a format that is easy to read and understand, which makes it accessible to a wide range of researchers and practitioners.

Fifth, the journal is published in a format that is easy to search and retrieve, which makes it convenient for researchers to find the articles they need.

Sixth, the journal is published in a format that is easy to cite, which makes it convenient for researchers to cite the articles they use.

Seventh, the journal is published in a format that is easy to share, which makes it convenient for researchers to share their findings with their colleagues.

Eighth, the journal is published in a format that is easy to archive, which makes it convenient for researchers to archive their findings for future use.

Ninth, the journal is published in a format that is easy to access, which makes it convenient for researchers to access the articles they need.

Tenth, the journal is published in a format that is easy to use, which makes it convenient for researchers to use the articles they need.

Eleventh, the journal is published in a format that is easy to understand, which makes it convenient for researchers to understand the articles they need.

Twelfth, the journal is published in a format that is easy to remember, which makes it convenient for researchers to remember the articles they need.

Thirteenth, the journal is published in a format that is easy to find, which makes it convenient for researchers to find the articles they need.

Fourteenth, the journal is published in a format that is easy to use, which makes it convenient for researchers to use the articles they need.

Fifteenth, the journal is published in a format that is easy to understand, which makes it convenient for researchers to understand the articles they need.

Sixteenth, the journal is published in a format that is easy to remember, which makes it convenient for researchers to remember the articles they need.

Seventeenth, the journal is published in a format that is easy to find, which makes it convenient for researchers to find the articles they need.

Eighteenth, the journal is published in a format that is easy to use, which makes it convenient for researchers to use the articles they need.

Nineteenth, the journal is published in a format that is easy to understand, which makes it convenient for researchers to understand the articles they need.

Twentieth, the journal is published in a format that is easy to remember, which makes it convenient for researchers to remember the articles they need.

Twenty-first, the journal is published in a format that is easy to find, which makes it convenient for researchers to find the articles they need.

Twenty-second, the journal is published in a format that is easy to use, which makes it convenient for researchers to use the articles they need.

Twenty-third, the journal is published in a format that is easy to understand, which makes it convenient for researchers to understand the articles they need.

Twenty-fourth, the journal is published in a format that is easy to remember, which makes it convenient for researchers to remember the articles they need.

Twenty-fifth, the journal is published in a format that is easy to find, which makes it convenient for researchers to find the articles they need.

Twenty-sixth, the journal is published in a format that is easy to use, which makes it convenient for researchers to use the articles they need.

Twenty-seventh, the journal is published in a format that is easy to understand, which makes it convenient for researchers to understand the articles they need.

Twenty-eighth, the journal is published in a format that is easy to remember, which makes it convenient for researchers to remember the articles they need.

Twenty-ninth, the journal is published in a format that is easy to find, which makes it convenient for researchers to find the articles they need.

Thirtieth, the journal is published in a format that is easy to use, which makes it convenient for researchers to use the articles they need.

Thirty-first, the journal is published in a format that is easy to understand, which makes it convenient for researchers to understand the articles they need.

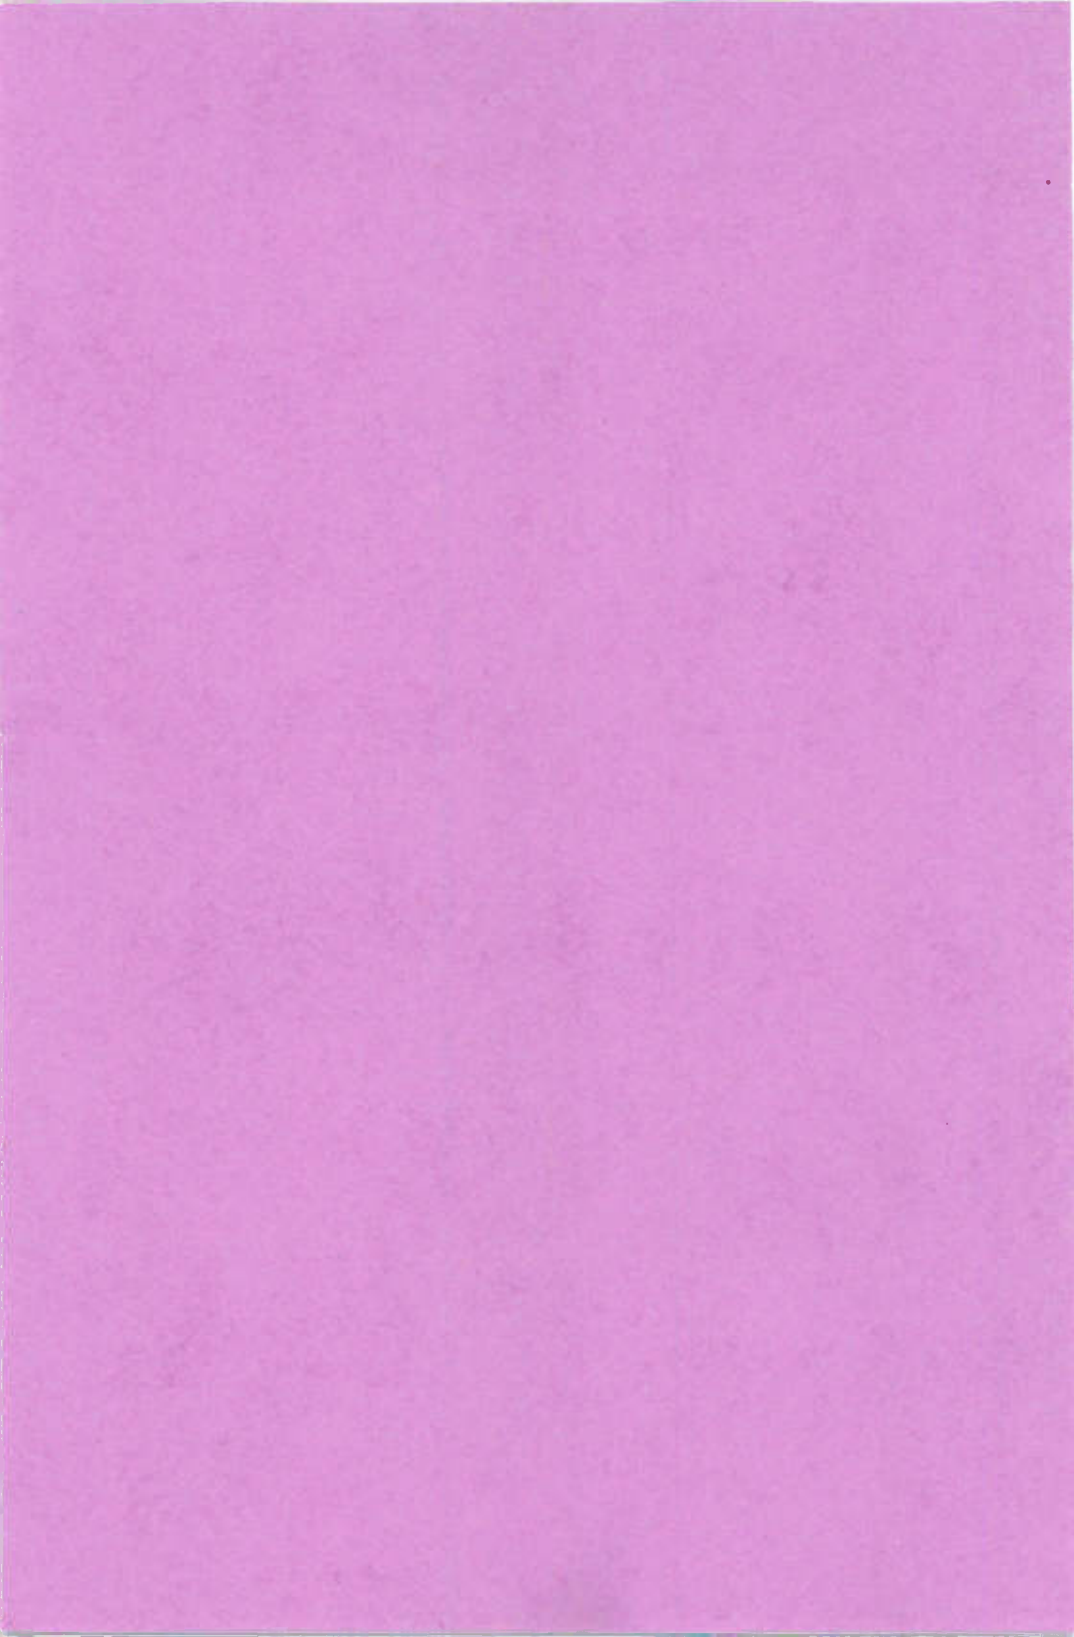

Thirty-second, the journal is published in a format that is easy to remember, which makes it convenient for researchers to remember the articles they need.

Thirty-third, the journal is published in a format that is easy to find, which makes it convenient for researchers to find the articles they need.

Thirty-fourth, the journal is published in a format that is easy to use, which makes it convenient for researchers to use the articles they need.

Thirty-fifth, the journal is published in a format that is easy to understand, which makes it convenient for researchers to understand the articles they need.

Thirty-sixth, the journal is published in a format that is easy to remember, which makes it convenient for researchers to remember the articles they need.

NEW EXPANDED COMPANY LISTINGS
VIDEO
(VIDEOCASSETTES & VIDEODISKS)
COMPACT DISC
COMPUTER/VIDEO GAMES

Our games have birthdays, but they don't get old.

Say Happy Birthday to two of the biggest hits in the business.

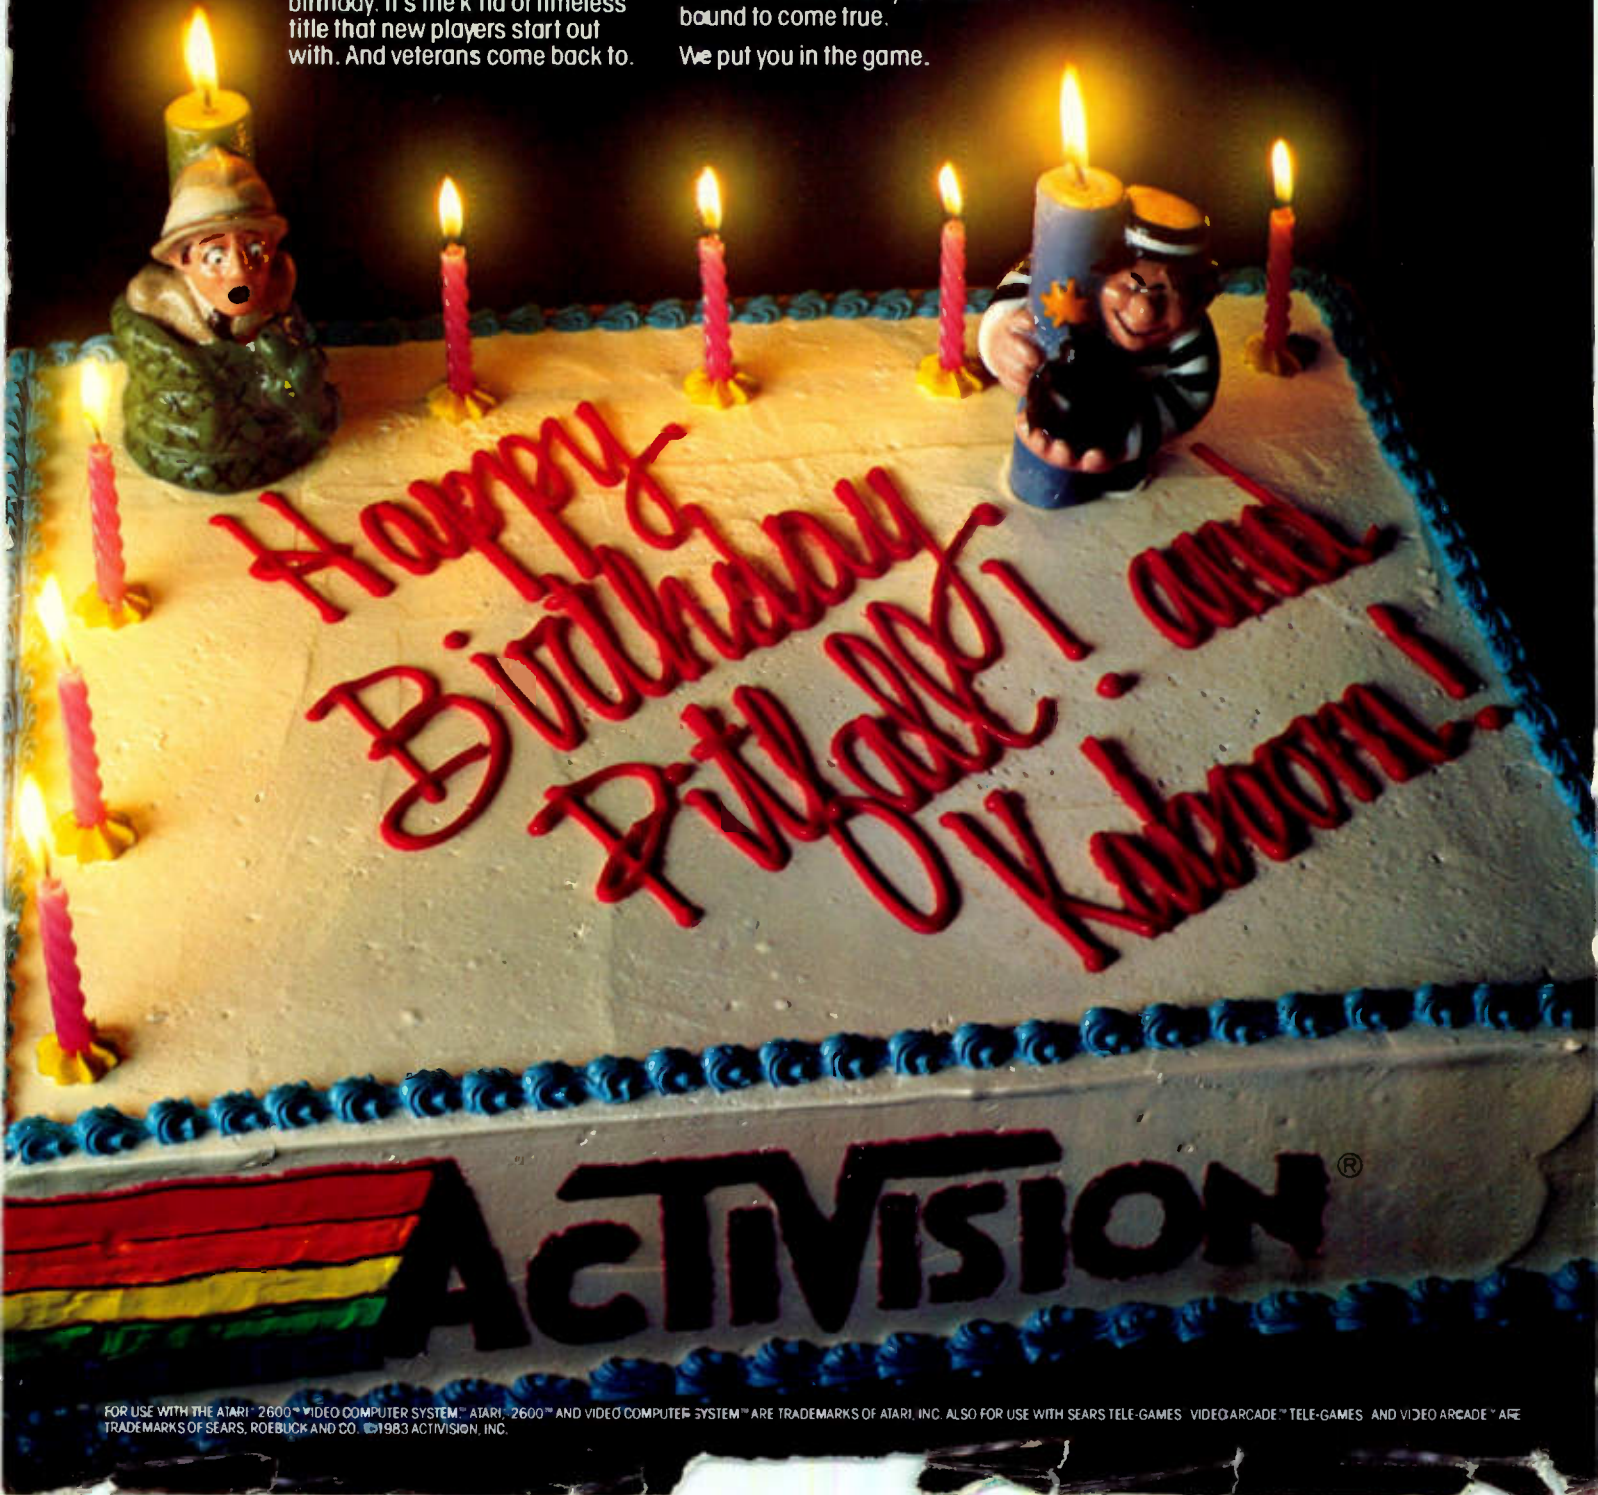

Pitfall!™ It held Billboard's #1 spot for 15 weeks straight. Sold a million after only five months. And it's still a Top-10 title after a year.

Kaboom!™ It was in one-and-a-half million homes before its second birthday. It's the kind of timeless title that new players start out with. And veterans come back to.

Why don't these games get old? Because they were designed around an original idea. A big idea. And that makes them more than just hits. That makes them classics.

So blow out the candles, and wish for more of the same from Activision. Because your wish is bound to come true.

We put you in the game.

HOW TO USE THIS DIRECTORY

As a guide to locating specific listings, the following explanations are presented for each major section (in boldface, capital letters). As a first step for finding any listing, refer to the Contents page for the first page of the particular section desired and note whether the listings are arranged geographically (an asterisk before the section name) or alphabetically.

UNITED STATES

STATES

RECORD COMPANIES

Finding a record company is straightforward since listings in this section are in alphabetical order. Record labels are cross referenced back to their companies.

COMPACT DISC

This section is divided into two subsections—Hardware and Software manufacturers—each of which is arranged alphabetically. Companies already having released or about to release product are included.

VIDEO (VIDEOCASSETTES & VIDEODISKS)

The Video section includes alphabetically sequenced subsections for both Hardware and Software companies. Video accessories are included under the Accessories section, blank and bulk tape under the Blank & Bulk Tape Product Charts, and wholesalers of accessories and blank and prerecorded tape under the Wholesalers section.

COMPUTER/VIDEO GAMES

This section contains three subsections—Hardware, Software and Accessories manufacturers—each of which is arranged alphabetically. Wholesalers of software and accessories are listed under the Wholesalers section.

PROMOTIONAL MERCHANDISING AIDS

ACCESSORIES (CONSUMER)

STORE FIXTURES

Each section has listings in alphabetical order. Brand names are cross referenced back to company names.

WHOLESALEERS

This section, which is sequenced geographically, lists distributors, one stops, rack jobbers, importers and exporters of audio and video disks, tapes and accessories and computer/video games. Record labels listed are limited to thirty-five.

SERVICES

SUPPLIES

To find a service or supply company, first find the subsection on the Contents page and then note whether the section is arranged alphabetically or geographically. Company listings are limited to those services and supplies done in-house and provided to outside clients; that is, no subcontracting. Brand names are cross referenced back to their companies.

BLANK TAPE & BULK TAPE PRODUCT CHART

These charts of audio and video blank and bulk tape should be used in conjunction with the Tape Product Chart Listings which follow the charts and present the addresses, telephone numbers and personnel of the companies with tape product.

MUSIC PUBLISHERS

Music publishers are listed in alphabetical order. Affiliates and administered companies are cross referenced back to their primary company listings.

SHEET MUSIC JOBBERS & SUPPLIERS

These listings are in geographical order by state and then by city within each state.

INTERNATIONAL

Countries are listed in alphabetical order (refer to the International Contents on page 159 for a quick reference to the countries covered). Within each country the order of the section is as follows: Record Companies, Music Publishers, Services, Supplies, Accessories, Store Fixtures. Within each section all listings are sequenced alphabetically with the exception of the Canadian wholesalers' listings, which are arranged geographically by province and then by city within each province.

ADVERTISERS INDEX

To quickly locate an advertiser within the International Buyer's Guide, turn to the Advertisers Index, which starts on page 287 and lists the advertisers in alphabetical order and the pages on which their advertisements appear.

GENERAL INFORMATION ABOUT LISTINGS

- 1) Make note of any legends that may appear below any of the section heads. They contain important information that applies to that section's listings.
- 2) Sometimes it is necessary to jump portions of some categories to other parts of the directory. Watch for notations, usually at the bottom of the pages, and follow the listings to the page indicated.
- 3) If your company should be listed in this guide but is not, please send the relevant information in the format of the section under which it should appear to Leslie Shaver, Billboard Publications Inc., 14 Music Circle E., Nashville, Tenn. 37203.

CONSUMER PURCHASING OF RECORDS & PRERECORDED TAPES 1979-1982 (IN THE UNITED STATES)

The figures below and on the following two pages present information on U.S. consumer purchases of records and prerecorded tapes for 1979-1982. Prepared for the Recording Industry Association of America (RIAA) in cooperation with NARM by NPD Special Industry Services, the data was drawn from a representative nationwide panel of 13,000 families. Note particularly that the data refers to consumer purchases and not manufacturers shipments. For more information, contact Stephen J. Traiman, Executive Director, RIAA, 888 Seventh Ave., 9th fl., New York, N.Y. 10106.

THE COMPANY YOU KEEP

THE AUDIENCE YOU REACH

People will know you by the company you keep: Bowie, The Police, Bruce Springsteen, Joni Mitchell, Paul McCartney, Elvis Costello. For the manufacturer of music products, there is no better company you can keep. For the music audience, there is no better source than musicians themselves. The ultimate interview is what delivers the most influential, active audience to the MUSICIAN advertiser. Award-winning design, quality editorial, provides the perfect environment to frame your advertising message to today's sophisticated music consumer.

For more information on the audience of the 80s, contact Gary Krasner and Ross Garnick at (212) 764-7400.

1515 Broadway, New York City, NY 10036

For retail information contact Brad Lee at (617) 281-3110.

To save you time and money we've just spent over 546 hours training your next employee!

When money and time are tight, you can't afford to train an employee from scratch. Our graduates have spent a full year in an intensive study of Audio Engineering, Music Production, Studio Electronics, Music Business and Finance, Copyright Laws and Entertainment Contracts. They're young, knowledgeable, and—because they're well trained—effective from the start. Graduates and referrals among the Majors!

If you are in need of someone already possessing the basic knowledge and skills of the industry, we might just have the person to fit your situation.

So call or write us at: **College for Recording Arts**
665 Harrison Street, San Francisco, California 94107
Phone: (415) 366-1773

P.S. If you know a promising and talented person that you'd like to help along, why not let us train them for you!

The school is accredited by the Accrediting Commission of the National Association of Trade and Technical Schools (NATTS), approved by the Calif. Superintendent of Public Instruction, approved for Veteran training, and is authorized under Federal law to enroll non-immigrant alien students. It is also endorsed by the National Academy for Recording Arts and Sciences Training Institute

We create sound packages...

For those of you who may not be familiar with what we do, we have been designing ads, album covers, labels, catalogs, tape graphics, etc. for over 20 years. We also set the type, do color separations, do the printing, make the jackets. Part of the reason we are still around and growing is that our clients know they can count on us — we're honest, tell it like it is and de-

liver a commendable job, usually on time. Since most of our work (layout, art, typography, camera, printing, etc.) is done internally by our own people and our own equipment we can maintain control of all work and at the same time be very competitive.

Small run and/or low budget: see our full color "Instant Album Covers" free catalog available.

Lee Myles Associates, Inc.

7 MORE REA ATARI® OUTSELLS

No one brings home more arcade hits than ATARI. And if you don't think that's important to your sales figures, consider this: an independent survey found that ATARI accounted for 67% of

all 1983 first-half new game sales.

We dominated the best-sellers charts this spring. And this fall we'll release 7 more top arcade hits. Games like POLE POSITION¹, JOUST², MOON PATROL³ and

SONS WHY EVERYONE 2 TO 1.

DIG DUG™⁴. And we'll back them with the heaviest advertising support in the industry.

So, when it's time to decide which new titles to buy, go with the numbers. Go with ATARI.

Share Our Future.

INVEST WISELY!

Every piece of product that you buy for your store is an investment in your future. It can determine your success or failure. So why not come to the people who have been successfully investing in this business for over 10 years. Sound Video Unlimited.

Sound Video Unlimited started as a single distribu-

tion point, headquartered in Niles, IL. Now we've expanded to six stocking branches, and employ an extensive network of full time sales representatives. You'll find that not only are we easy to reach, but also that we're a full service, full staff, full line organization. Our staff is experienced to help stock your store with "The Profit-

makers'. All you need to make is a "sound" investment.

Records & Tapes - Video Cassettes & Discs - Electronic Games - Computers & Software
The Definitive Difference in home electronics marketing can only be found at

I AM DELIGHTED WITH COMPLETION RATE...
 WHAT A CHANGE FROM OTHERS I HAVE
 HAD IN THE PAST. AND YOUR INVOICE
 METHOD GROUPING OF DIFFERENT PRICES
 IS SUPERB...AT LEAST I KNOW HOW MUCH
 DIFFERENT ITEMS COST ME...ONCE AGAIN
 THANKS FOR A GREAT FILL. KEEP SENDING
 THE NEW RELEASE TELEX MESSAGES AND
 I'LL BE BANCING IN THE ORDERS.

REGARDS,
 GORDON

Back catalogue and special order
 customers given very special attention.
 Orders shipped 95% complete provided
 selection is still in print.

Japanese pressings and audiophile
 recordings are available in addition
 to the largest inventory of classical
 music maintained in U.S.A.

Same day delivery of new release product, provided
 orders are placed in advance, upon receipt of pre-release telex.

HOW DO WE MAINTAIN THIS DEGREE OF SERVICE AND FILL YEAR AFTER YEAR?

We only accept a limited number of new clients per year, so we can continue per
 sonalized service.

NOW IT'S YOUR CHANCE TO ELIMINATE THE PROBLEMS FROM YOUR IMPORT SHIPMENTS.

We provide 95% fill—correct documents—prompt shipment—competitive prices.
 21 Years Experience Supplying Distributors and Dealers Worldwide. Contact us
 today for your export guide, terms conditions, application, complete catalog and
 new releases.

**Alpha. Our team is
solid platinum.**

When you're with Alpha Distributing Corporation, you get a lot more than a distributor. Because since 1946 Alpha has known what makes music sell.

Our team gives you every type of help you need. From sales and marketing to media assistance to the best distribution network in the Northeast.

And we don't stop there: national independent distribution; cassette and singles rack jobbing; home computer software rack jobbing and distribution through ADC Micro Distributors, our computer products division.

For more information, call a member of our team:
John E. Cassetta
Nick Campanella
Murray Viscoso
Nicholas H. Apostoleris

IF YOU WANT TO FIND THE BEST CUT-OUTS THIS SIDE OF HEAVEN, LOOK IN THE BIBLE.

Searching for cut-out LPS can be a devilish task even for the most saintly record buyer.

But thanks to SCORPIO, you can find choice LPS at cheap prices in the cut-out bible. If you want a copy for yourself, just write or phone. After all, without it, you don't have a prayer.

Only two things make a great record. QCA is one.

You recorded your music, mixed the tracks and produced your master. You're halfway to making a great record. The other ingredient is QCA, where your superb sound becomes a first-rate record.

First-rate because QCA has been serving the record industry for over 30 years. With that much experience, we can boast about our efficient, professional in-house operation that offers *everything* you need. Disc mastering, plating, 7" and 12" vinyl pressings, typesetting, graphics, color separations, printing, jacket fabrication and packaging. All at very cost effective prices. And all under one roof.

But enough talk about what we can do. Let us show you what we *will* do when you bring us your music and want it produced into a top notch record, inside and out. For our brochure call or write . . .

The Gauss 2400. For Those Who Know.

For those who know the finest in high speed tape duplicating systems, we've crafted the Gauss 2400—an advancement in the engineering arts that furthers the industry standard for performance and quality.

For those who know the value of dependability, the Series 2400 is Gauss built for reliable operation day after day, year after year. Many Gauss systems have over fifteen years of service to their credit, and are still in daily use, quietly duplicating miles of recorded programs.

For those who know a superior recorded signal, there is no choice but Gauss. Our low noise electronics and extended frequency response are an industry legend. The ultra-stable 10mHz bias that Gauss pioneered is still unmatched for improving high frequency quality. That's why Gauss represents the pinnacle of duplicating performance in an industry known for its discerning audiophiles.

And for those who know the Gauss reputation of innovation, there is no choice but the Series 2400. On board micro-processors constantly monitor and control functions while continuously presenting a diagnostic report. Three independently selectable equalizations allow duplication on ferric, chromium, and metal particle tapes. Dolby[®] HX Pro capability, independently metered slaves, modular plug-in circuit boards, phase-locked capstan servo systems—all are Gauss standards.

When the only choice is the best, the choice is the Series 2400. Built by Gauss, where the state-of-the-art is quality and reliability.

In 1955, the artificial heart valve was just an idea. This year, it saved my life.

For over 30 years, The American Heart Association has invested research money in ideas. Lifesaving ideas like the artificial heart valve, cardiopulmonary resuscitation and drugs to control high blood pressure. Today, these ideas save lives.

Despite this progress, one of every two American deaths is caused by diseases of the heart and blood vessels.

If today's ideas are to grow into the lifesaving techniques of tomorrow, the American Heart Association needs your support now.

American Heart Association, We're Fighting for Your Life.

"Album and Tape Strips"
 1058 Broadway • Albany, NY 12204

518-463-2236

"CASSETTES" ON DISPLAY

Cassettes are "Fully Visible" & "Pillfer-proof" in the "Quick-Vue Displayer"

Your store can attract and promote impulse buying with our unique designs in "cassette" and 8-track merchandising. Customers can see each tape and flip through the selections as simply as turning pages in a book, browsers become buyers!!!

Customers who have 8-track "Quick-Vue" displays, we can easily convert them to cassette displays with the CC5 holders.

LEADER LOCK

THE HEART OF YOUR CASSETTE

That little piece of staking rod is the big difference in the quality of your cassette.

Our Leader Lock is better because of our unique Double Extrusion process which delivers a rod diameter tolerance of not more than $\pm .0005"$ (.0127mm).

- Sizes from .049" (1.2446mm) to .068" (1.7272mm).
- Extruded in increments of .001" (.0254mm).
- Tolerance not more than $\pm .0005"$ (.0127mm).
- Popular sizes - .052" (1.320mm) and .062" (1.575mm) stocked for immediate shipment.

Designed and engineered for the cassette industry by the Burnhams of New York, our staking rod virtually eliminates cassette failure due to leader tape pull-out. We also make special extrusions for particular requirements.

IF YOU WANNA BOX... AND NOT GET HURT... CALL EL MAR PLASTICS!

— because El Mar **has** boxes — cassette boxes — at prices that won't leave a bruise! All kinds — Norelco style boxes, hinged poly boxes, Ampex style boxes, and 12-pack cassette storage boxes.

In fact, we've been making **more boxes longer** than anyone!

We've recently taken some of the sting out of the price fight, by setting up a fully automated line to increase our production of Norelco style boxes by an additional 40 million a year.

And not just any old box! The new El Mar boxes have all rounded corners, molded raised edges

on the lid to reduce scratching and a super strong hinge! Plus, they have been tested and proven on all automatic packaging equipment.

When quality and dependability count, we have a C-O that can't be beaten. Solid 5 screw housing with all the top grade components you've come to expect.

Please call for prompt quotation and samples.

USE THE LEADER!

What makes Lenco the leader? Precision production and exacting quality control. Our sonic and five screw C Ø cassettes are American made. And we're proud of our national reputation and distribution.

Now, with Lenco's new Los Angeles warehouse, your order is delivered even quicker.

Lenco's innovative engineering allows loading at ultra-high speeds without scatter wind or linerburn. Lenco's quality duplicates itself with our accessories, including Soft Poly, Ampex and Norelco style boxes.

Use the leader..

- TECHNICAL SERVICES • CUSTOM MACHINERY

Introducing Model 793

The most advanced, continuous running audiocassette tape loader in operation today.

Designed for day-in and day-out continuous operation, the 793 can be your solution to high labor costs and production requirements. One person operating four machines should average 16,000 cassettes, or better, in an 8-hour shift.

Outstanding features include a new automatic two-reel pancake feeder that allows one pancake to be changed while the other pancake continues to run.

A new two-axis computer controlled position servodrive system provides extremely accurate tape tension and reduces the possibility of any damage during winding.

A new ultrasmooth alternator-feeder accepts cassettes in either direction and automatically orients them for proper insertion.

High quality, rugged components have been used to ensure a long, trouble-free life.

Information on the 793's condition and the setup parameters is readily available on a four-line display in English plus either French, German, Italian, Japanese, or Spanish.

There is no other tape loading machine in the world today that produces higher quality cassettes and is as durable as the model 793.

King's experience and reputation

for quality and service are well-known. King machines are built to last and have the track record to prove it. King offers exceptional sales follow-up and service support. King has an international network of factory trained service technicians, and spare parts depots.

For further information call or write King Instrument Corporation, 80 Turnpike Road, Westboro, MA 01581, Telephone 617-366-9141, Telex 94-8485, Cable KINGINST.

It's no coincidence that virtually all major tape suppliers rely on OTARI video loaders.

The majors know that when it comes to video tape loading equipment, efficiency is more than a matter of speed. It means long-run reliability that keeps them on-line and in the black. It also means perfect splices and perfect tape packs. Every time. Time after time.

Otari equipment has been earning a reputation for quality, reliability and immediate technical service since the introduction of both Beta and VHS formats.

If you're in the rapidly growing video duplication, or custom loading business, give Mike Pappas, National Sales Manager, a call at 415/592-8311. He'll tell you why you too can rely on Otari. Otari Corporation, 2 Davis Drive, Belmont CA 94002, TWX 910-376-4890.

*The VL-600 VHS Video Tape Loader.
Also available: VL-500 loader for Beta format.*

FIFTEEN
YEARS OF
tape packaging
WITH SCANDIA MACHINERY
AND AUTOMATED SYSTEMS

1960's

Scandia introduced the first fully automatic high-speed *8-track* labeling, cartoning, and wrapping system.

1970's

Scandia introduced the first fully integrated high-speed packaging system for labeling, inserting, and wrapping *audio cassettes*.

1980's

Scandia now introduces the all-new economical, automated cartoning, and wrapping system for *video cassettes*, again leading the way.

Are you sure your pre-recorded cassettes do offer state-of-the-art sound quality? Do you use BASF chrome tape?

Pre-recorded cassettes can fully share in the tremendous success of the compact cassette system, which has become the number one music entertainment system in the world, if the sound quality matches that of personal recordings on state-of-the-art blank tapes; e.g. BASF's chrome tapes.

Too many of the tapes used for pre-recorded cassettes suffer from outdated recording properties, resulting in a dull overall sound quality.

BASF, one of the world's leading manufacturers of pure chrome tapes, offers you the key to update the sound quality of your MusiCassettes, with its unique concept:

chromium dioxide tape at 120 μ s EQ

What is behind it?

BASF's pure chrome audio tapes are true

low noise tapes. This allows the usage of the 120 μ s EQ, being the common standard for pre-recorded cassettes anyhow, resulting in an ideally balanced load characteristic.

No surprise that one of the world's leading record review magazines, the British "The Gramophone" writes in its "Critics' Choice" (12/82).

"Against a profusion of riches the selection of merely six cassettes is difficult indeed, but the first choice is not. It must be the astonishing HMV chrome issue of Jochum's digital Bavarian performance of Bach's Mass in B minor, where the choral sound has an incisive clarity that makes one think one is listening to the master tape! A remarkable achievement!"

Do we really need to argue any more?

Leading music companies are already using BASF chrome tape for their top quality MusiCassettes. Find out what they already know. Put state-of-the-art sound quality in your pre-recorded cassettes with BASF chrome tape.
