U2......NIGHT RANGER......AUTOGRAPH......ANDY TAYLOR LP

U2, "WITH OR WITHOUT YOU", ISLAND Yes, the year's most anticipated release from the decade's most Yes, the year's most anticipated release from the decade's most revered band lives up to and beyond expectations. One listen and you'll find plenty to get worked up about--the magnetism of the bass line, the clarity of the production, the passion in Bono's delivery. A guaranteed chart-topper that you'll have to share with a few formats; "With Or Without You" is an obvious contender for song-of-the-year. And now, the world!

NIGHT RANGER, "THE SECRET OF MY SUCCESS", MCA/CAMEL Ranger's eye-opening call-out longevity is no secret to research oriented programmers, but it's usually the power ballad that's brought them home big league results. Now here's that demoexpanding change-up that moves them into upscale funk territory, without foregoing an ounce of their high energy edge; hot horns, a cool groove and traces of "St. Elmo's Fire". It's from the OST and also the band's forthcoming Lp. It could be the secret to your success.

AUTOGRAPH, "LOUD AND CLEAR", RCA Get ready for a stick of dynamite as Plunk and company return with the heir apparent to 1984's breakthrough "Turn Up The Radio". No need to remind you of today's healthy pure rock climate, or that Autograph can yank and crank with the best of the power rockers. You'll love "Loud And Clear's" manic Aerosmith firepower and the new and improved dynamics. Play loud!

#### ANDY TAYLOR "THUNDER" MCA

ANDY TAYLOR, "THUNDER", MCA Inside three weeks, "I Might Lie" has annihilated any so called image problem, locking up 101 total adds, a 62-38-30\* Trax assault, with 14 play-ups this report. "Don't Let Me Die Young" recalls early '70's Bowie/Mott/T-Rex glitter, "Life Goes On" is a natural dual format mauler, and "Bringin' Me Down" is side 2's subtle sleeper. The album's surprising depth and quality is matched only by Andy's staggering yocal talent. quality is matched only by Andy's staggering vocal talent. No lie!

## **INSIDE TIPS**

KBC BAND, "HOLD ME", ARISTA After "America's" lengthy chart/request run, Marty takes center stage and croons out his best ballad since "Miracles". It wasn't KBCO's first airplay choice just because the band and station happen to share a few letters--they stuck with it because it pull-ed #1 phones! Even more palatable now for AOR and Hit Radio, thanks to the concise edit/remix.

THE SMITHEREENS, "TIME AND TIME AGAIN", ENIG "Pretty Woman" at 45 RPM and Pat DiNizio's Costello-styled vocals highlight the new emphasis track from one of 1986's most lauded debut efforts. Time and time again they've proven themselves in all the criti-ENIGMA cal areas--airplay, requests and sales. No here's the logical follow-up to the top 15 "Blood And Roses" and the top 25 "Behind The Wall Of Sleep" tracks. Now

THE WARD BROTHERS, "WHY DO THEY RUN", A&M The Ward Brothers possess a very distinct, hi-class funk quality that's a bit subtle, but sure shines through on the hook laden "Why Do You Run". This track boasts a compelling melody and the crisp production, courtesy of <u>Mike</u> (Alarm, OMD) <u>Howlett</u>, simply sparkles. "Cross That Bridge" introsimply sparkles. "Cross That Bridge" int: duced us to the Ward Brothers, now it's time to run back to the album and lend an ear to this tasty cut. Already on KYYS, KBCO, WKLS, WLLZ, KATP, WKLC, WLAV, KZOQ and more.

DIRT ALERT!

### PETE BOLGER WINZ PD---INSIDE THE MIAMI ROCK WARS

As reported in last week's DIRT exclusive, 15year Miami AOR WSHE has enlisted programming expert <u>Charlie Kendall</u> (WNEW-FM, WMMR, WBCN, KZEW) as OM. A veteran of some of rock radio's fiercest battles, Kendall reports to TK Communications VP Programming <u>Rick Peters</u>, with 'SHE PD <u>Michael Dalfonzo</u> reporting to CK. It's likely that Kendall will pull a 2-3 hour airshift; until then he'll be voicing production pieces to position 'SHE in what's being called the "AOR Combat Zone of '87."

As predicted in last week's DIRT, KGON/KSGO Portland,OM <u>Pete Bolger</u> will pilot new Adult Rocker WINZ, Miami, effective March 9. A former WIBA-FM, Madison, PD, Bolger replaces outgoing PD <u>Gabe Baptiste</u>. The hiring comes as INZ completes its transition from CHR to AOR. Responding to rumors of a call letter change, Bolger said the matter was "undecided."

The arrivals of Kendall and Bolger in Miami follow a period of increased market activity that has seen 'SHE suffer considerable ratings erosion to new Cox Communications AOR WGTR. "I'm taking a heritage AOR station that's in serious trouble and taking it back where it ought to be, which is in a dominant position", says Kendall. "What I've found in my experience is that with a station like WSHE--no matter how many changes it goes through-there's a loyalty that is inherent with that legacy. And within that, the audience wants you to win. If you've been their favorite over a long period of time, people like it when you come back and you're good again."

Bolger sees 'SHE and 'GTR as "more traditional AORs", compared to 'INZ. "We're going to be an' Adult Rock station and will skew older", he told FMQB. "Sure 'SHE may be doing some things that an upper-end listener may enjoy, but because of the perception of what 'SHE is, many may not even think of tuning in that radio station. We, on the other hand, are starting with a station that doesn't have any baggage to carry. We're essentially an all new radio station. We can define our format of rock."

Kendall compares the Miami Rock War to the one he left in New York last fall, paralleling 'GTR to K-ROCK and 'SHE to WNEW-FM. "When K-ROCK came on the air against WNEW there was initial sampling and K-ROCK did get a lot of that sampling, but they never beat us. The GTR onslaught is not finished yet, and the winter book may show them in a very competitive, if not dominant situation. But I can't look back at that. I'm looking at the spring, summer and fall and all will be totally different situations from what happens in the winter book."

Will the expanded AOR arena increase the format's market share? Bolger thinks so. "I don't buy the rap that Miami is just an 8 share market. With our approach we have the chance to bring new listeners into the format. That's what we've done here in Portland, attracting new audience from CHRs and ACs."

Don't touch that dial....

### WHTQ READIES AIRSTAFF, LOCKS HORNS WITH WDIZ IN POSITIONING WAR

After debuting its Adult Rock format last week, WHTQ, Orlando plans to go live with a newly assembled staff by month's end. Already signed up are:

--Afternoon Drive/MD <u>Slats</u> (from WDIZ nights) --midday personality <u>Greg Wells</u> (from crosstown WLOQ, with previous experience at WDIZ and WFYV, Jacksonville). --Production Director <u>Dave Culp</u> (from the same post at WDIZ).

WHTQ and format dominator WDIZ locked horns in a positioning war last week. Both stations are using "Quality Rock N' Roll" slogans and doing 16 song music marathons. The sharing of slogans and features could cause listener confusion, believes WDIZ PD <u>Rad</u> <u>Messick..."I think that in the long run,</u> he who said it the longest will probably end up getting the majority of the credit" he told FMQB "listeners are a lot smarter than a lot of people give them credit for. Being in positioning wars like this, true a lot of it has to do with perception, but a lot of it has to do with the reality of the product. If Samsung told you that they made the best color TV in the world, people would say, no, sorry that's a Trinitron and that's what it comes down to."

WHTQ PD David Gariano points to several different research projects done by the station showing a need for an adult album format. "We wouldn't be doing this format if we didn't think there was a hole for it. We come into the situation without any prior negative baggage on our call letters. WDIZ for many years was a very, very headbanging hard rockin' station and that image still lives in a lot of peoples minds. They've obviously evolved since those days but the perception still lives."

We differ in that we'll target strictly adults 25-54, we have no interest in anything under 25 so our audience complexion will be completely different from theirs".

No, Mrs. Van Halen has not acquired a share of ownership in the San Diego cutting edge outlet. The station will pay \$25,000 to the person who comes up with the best call letter display and exposure...And for you golf fans, maybe you saw the guy standing behind George Burns at the Andy Williams open just before Burns struck the shot that scored him an eagle and tons of highlight coverage on sports broadcasts across the country. These were two of the more creative and successful contest campaigns, with 91X coming out the clear winner.

15 years ago this only just missed being another number one for Marc Bolan's group...now it's been slightly remixed by the man who produced the original, Tony Visconti.

#### ROBIN TROWER/"If Forever" (GNP/Crescendo)

Robin's fine comeback album doesn't even have a UK release yet, but to accompany our interview with him this week, here's an excellent ballad from it that with the right breaks, could be a huge hit single.

TWO NATIONS/"Living In Two Nations" (10)

This is another spinoff group from The English Beat, featuring their former keyboards man Dave Wright - a really elegant, atmospheric single.

The Rock Request this week is "Narnia" by Steve Hackett, and our interview guest as mentioned is <u>ROBIN</u> <u>TROWER</u>, talking about life back on the road and his early days with Procol Harum.

- ROL presenter <u>GRAHAM DENE</u>, long established as a great favourite of the royals in the UK, bowed out of his long-running breakfast show on London's Capital Radio last week with an off-air surprise studio appearance by his greatest fan, PRINCESS DIANA. She showed up to sit in on the last 20 minutes of his final programme, sit in on the last 20 minutes of his final programme, which fittingly featured artists like DURAN DURAN and DIRE STRAITS, firm DI favourites, as well as HAROLD FALTERMEYER'S theme from "Top Gun", which GRAHAM reported "someone in the studio here" wanted to dedicate to CHARLES in Kensington, with the message not to worry, she'd be home later to cook the dinner. The big finale was BILLY JOEL'S "Uptown Girl", an old favourite because DIANA requested GRAHAM to play it on his show after they met at the 1985 PRINCE'S Trust concert. MR DENE is now available for barmitzvahs and royal weddings, as long as they don't interrupt his brand new Capital show (11 am-1 pm) which started this brand new Capital show (11 am-1 pm) which started this week.
- Meanwhile. as reported two weeks ago, the re-release of Meanwhile, as reported two weeks ago, the re-release of each <u>BEATLES</u> single 20 years after its first issue continues in Britain, and last week "Penny Lane"/"Strawberry Fields Forever" re-entered the chart at 65, which is particularly significant because although many of the original singles have made return visits to the charts, this is the first time the great double-sider has been on the bestsellers list here double-sider has been on the bestsellers list here since it disappeared on the week of May 4, 1967, having peaked at number two.

Meanwhile, this just in from the <u>BEATLES'</u> Wives file: <u>LINDA McCARTNEY</u> currently has an exhibition of her photographs in a gallery in Bath, down in the West Country, and planned to attract visitors to it with an arrangement (by 20 workmen) of 20,000 hyacinths and primulas spelling out her name in letters 12 feet high on a bank some 150 yards from the M4 motorway. It worked - too well: many passing motorists found themselves paying more attention to

the flowers than to the road, and four vehicles collided not far from the bank, blocking all three lanes of the motorway. The police demanded that the flowers be removed and now LINDA has said that they'll be potted and sold in aid of the Great Ormond Street hospital.

The British government have at last made their position on the future of radio in this country clear in a report published this week...they intend to give the listeners more choice by giving the goahead to a national commercial service and increasing their commitment to community radio. Less regulation will allow local commercial stations to become more competitive as they are encouraged to leave the public service broadcasting up to the local BBC stations. The emphasis will be on entertainment which means we could well see formatting in this country before too long...however, the change can't come soon enough for the large number of pirate stations who are unlikely to be considered for a community radio licence...although no less than 18 were raided in the course of one week recently, new stations continue to appear on the dial...among the latest are London's Radio Duck playing nothing but "golden oldies" and Radio Atlantis in Kent playing rock 'n' roll.

THE CHRISTIANS, who've been featured on Rock Over London lately with their superb "Forgotten Town" single, will go into the studio on March 16 to start recording their debut album with the man who produced that 45, <u>LAURIE LATHAM</u>.

U2'S "The Joshua Tree" already has advance orders in Britain of a quarter of a million...Support act on the UK dates by <u>GENESIS</u> in June and July will be <u>PAUL YOUNG.</u>

THE MISSION, last week's interview guests on ROL, have their new single "Severina" out this week and the b-side is the band's interpretation of LENNON/McCARTNEY'S "Tomorrow Never Knows", previously of course an integral part of the "Revolver" album. Trivia time: which British superstar did a cover of the same song a few years back? No, we didn't expect to catch you out - of course it was PHIL COLLINS on "Face Value".

We take great pleasure in setting the record straight with regard to the story we ran recently on XTC's apparent displeasure with the production skills of TODD RUNDGREN on their "Skylarking" album. This came about when four extra tracks appeared on the band's "The Meeting Place" single, songs which RUNDGREN was purported to have refused to be allowed onto the album. We based the information on an English magazine interview ANDY PARTRIDGE had done when the LP came out in the UK, in which he seemed to be suggesting that all was not as it might have been during the making of the record. ROL had a call last week from ERIC GARDNER, at TODD'S management company Panacea Entertainment, who said that this wasn't the case, and that in all the American interviews PARTRIDGE has done, he's been singing RUNDGREN'S praises. Ah well, sometimes things get a bit Tost in the translation, and we apologise if we perpetuated any inaccuracies. Anyway...in chatting to ERIC we landed on the rather fascinating story behind the new US relaunch of the LP and the mysterious track "Dear God" which has been burning up college radio.

When Virgin released the LP in Britain, they not only disregarded TODD'S suggested track sequencing, but completely omitted the "Dear God" track which he had singled out as the track to break the band wide open in the States. Next thing, Geffen picks up the US option on the LP and it sells, as <u>ERIC</u> says, the "obligatory" 60-70,000 then dies away. Except that the UK import 12-inch, on which Virgin had fairly thoughtlessly put "Dear God" as a bonus, started selling in the US and the missing song began to be a college radio favourite. Before anyone knew it, it was the number one most requested song at college and now...Geffen has completely remastered the album with "Dear God" included, redone the artwork, and they're repromoting it right now. Which just shows that TODD was right all along and that the good songs usually win in the end out. Join us again next week for another cosy fireside story of everday album folk on Rock Over London (and thanks for your call, ERIC!).

This year's Glastonbury CND Festival will be taking place on June 19, 20 and 21 and the first two names confirmed on the bill are <u>ELVIS COSTELLO</u> and <u>THE</u> <u>COMMUNARDS</u>. <u>COSTELLO</u> will be without his Attractions, <u>Confederates</u> or any other pals on this occasion and will headline one of the three nights.

Coming later in March at the London Palladium: The Secret Policeman's Third Ball, organized by Amnesty International and featuring comedy shows on March 26 and 27, followed by concerts featuring PETER GABRIEL, DURAN DURAN, JOAN ARMATRADING, ERASURE, MARK KNOPFLER, <u>NIK KERSHAW, CLIFF RICHARD, PAUL BRADY, COURTNEY PINE</u> and others. The comedy nights are scheduled to feature, among many others, the MONTY PYTHON team.

ANDY TAYLOR'S legal action against BURAN DURAN has been adjourned until an unnamed date at the High Court in London. TAYLOR is suing the band for one million pounds, money he belies he's owed for his contribution to "Notorious"...

FINE YOUNG CANNIBALS, the spinoff from THE ENGLISH BEAT who had a major hit in the UK with "Johnny Come Home", are back with an unlikely cover version: it's their interpretation of "Ever Fallen In Love (With Someone You Shouldn't Have)", which late in '78 became the biggest hit single by the old punk favourites THE BUZZCOCKS, PETE SHELLEY'S old group. The FYC version, interestingly, is produced by JERRY HARRISON of TALKING HEADS and it's in the "Something Wild" movie. THE CANNIBALS, in fact, are becoming real cineastes: they've also written all the music for the new <u>BARRY</u> ("DINER") LEVINSON picture, "The Tin Man".

When <u>SIOUXSIE AND THE BANSHEES</u> were rehearsing for their new LP last year, they went through some 40 possible songs to cover. They whittled them down to 10 and they appear on the LP "Through The Looking Glass", which is out in Britain this week. Their version of <u>BOB DYLAN'S</u> "This Wheel's On Fire" has already made the national Top 20, and the album also includes the <u>BANSHEES</u> singing THE DOORS ("You've Lost That Little Girl") and <u>IGGY POP</u> ("The Passenger"). For anyone who doesn't take too kindly to the new readings, <u>BANSHEE SEVERIN</u> has a disarming comment ready: he describes the LP as "part homage and part sacrilege".

THE STYLE COUNCIL'S "Waiting" single is out this week with a song called "Francoise" on the back - it's a vocal version of the theme from the band's film "Jerusalem". We note, by the way, that that film title is now preparing as "JerUSAlem".

The cast album "The Phantom Of The Opera", which leapt straight to number one in the LP chart, stays there with sales topping 30,000 per day...and the only real movement in the Top Ten comes from Europe's "The Final Countdown" which jumps up again from 23 to 10 with the Top 20 success of their second hit "Rock The Night". The biggest climber within the Top 100 was an album that's just celebrated its tenth birthday - FLEETWOOD MAC'S "Rumours", up and running again from 92 to 46. There wasn't one new entry, though, in the entire Top 70 of the chart, and only three in the 100. But that fact did afford Arista Records' great hope, HURRAH! the distinction of having the highest new entry of the week with their debut LP "Tell God I'm Here". Ex-Japan man MIKE KARN entered at 90 with "Dreams Of Reason Produce Monsters" and the only other new one was "Rock The House" by rappers DJ JAZZY FRESH and FRESH PRINCE.

HOWARD JONES' new single (dare we say, not the one to revive his recent flagging chart career) is "Little Bit Of Snow", taken from his current LP but first

heard on the "Live-In World" compilation album.

The latest artist to confirm his presence at the April 1 AIDS concert at Wembley is <u>HOLLY JOHNSON</u> from <u>FRANKIE GOES TO HOLLYWOOD</u>...however, this performance is dependent on his throat being fully recovered from a serious bout of laryngitis which led to some of the band's European dates being cancelled...

- Meanwhile, artists continue to pledge their support to the fight against the disease...many of our top rock stars including PETER GABRIEL, ALISON MOYET, SIMON LeBON and BANANARAMA took part in last Friday night's "First Aids" - a TV programme especially aimed at young people...and BIG COUNTRY'S STUART ADAMSON is getting together with HUGH CORNWELL from THE STRANGLERS to write a special song for a future TV show on the problem...JON MOSS is also busy composing for the cause. Many artists have donated tracks for an AIDS album due out in April...they include THE PET SHOP BOYS, PETER GABRIEL, BIG COUNTRY, THE COMMUNARDS, HOLLYWOOD BEYOND, DEPECHE MODE, ERASURE, TINA TURNER and SADE...it looks like all the songs will have been previously released but knowing the British public's love of compilation LPs, it should sell well.
- Now that <u>ROGER WATERS'</u> threatened legal action is no longer an obstacle...PINK FLOYD are rushing to get their new LP in the shops ahead of <u>ROGER'S</u> solo album...we hear that the new FLOYD sounds very much like the band did in the "Dark Side" days and they're already planning a summer tour to coincide with the release of the record...NICK MASON is obviously confident that it'll be a financial success as he's busy looking for a new home costing around three quarters of a million pounds up in the highly expensive suburb of Hampstead, North London.
- THE CURE'S next LP will be released in early May...the title has not yet been revealed but we do know that it's a double album of all new material...the first single from it will be released next month. ROBERT SMITH and SIMON GALLUP have been hiding away in a remote castle in southern Ireland recently...the rest of the band are due to join them there this week to make a video and then they'll head off for a three week tour of Argentina and Brazil, where, incidentally they've now sold 150,000 copies of their last compilation LP "Standing On A Beach - The Singles". THE CURE will do an extensive tour of the USA and Europe once the new album is released.
- Also pencilled in for May is the next LP from ABC and "Hysteria" the new <u>DEF LEPPARD</u> album...
- International Women's Week is being marked by a Red Wedge Women's Tour which featured appearances last Saturday by <u>SANDIE SHAW</u> and <u>TRACEY THORN</u> (from "Everything But The Girl").
- THE COMSAT ANGELS are back on the scene with the "Chasing Shadows" LP, their first for Island, and a single from it called "The Cutting Edge", and they start an eight-date UK tour on March 6.
- BOSTON'S "Amanda" went down in history recently as the first US number one to miss out entirely on the UK Top 75 for some six years, but MCA are trying again: it's being repromoted with a free sew-on patch for English Bostonians and a 12-inch version at the same price as the seven-inch. They really don't want the band to carry that stigma round any more, do they?
- The WARD BROTHERS made the national Top 40 recently with "Cross That Bridge" and no time's being wasted in releasing the follow-up: it's "Why Do You Run", released this week.
- SANTANA are celebrating their 20 years in the business with a rare trip to Britain in May for three London concerts...

WILLIE DIXON, the American blues singer most recently noted for his contribution to the soundtrack of "The Color Of Money", is thought to have won his two-year out-of-court damages campaign against <u>LED ZEPPELIN</u> over the song "Whole Lotta Love". <u>DIXON</u> claimed it was based on his 1969 track "You Need Love" and at a preliminary court hearing, a judge said he noted the similarity in the lyrics, but not the music. All the same, <u>DIXON'S</u> manager reports that the suit has been settled "to both sides' satisfaction".

- Last of all this week, our latest info on the ELTON JOHN "gay sex and drugs" story that ran in the lessthan-reliable Sun newspaper here last week: Scotland Yard are inviting the paper to supply details of the supposed binges, and ELTON is reported to be horrified at the allegations and will sue. His personal assistant BOB HALLEY says: "We have had these sort of allegations before but this time we are fed up with it."

ERIC CLAPTON has set aside April for a short U.S. tour, and he's enlisted some friends to help him out including producer/drummer PHIL COLLINS, keyboardist GREG PHILLINGANES and bassist NATHAN WEST. The month-long jaunt will kick off April 11 in Oakland, CA. and wind up on the 27th at New York's Madison Square Garden. Tickets should be considerably easier to get this time around as the venues he's playing are a tad larger than his last American appearance, which was

at NYC's Ritz, which holds about 2500 people.

ANOTHER LEGENDARY GUITARIST BY THE NAME OF GEORGE HARRISON is getting ready to surface again. He has been busy with ELECTRIC LIGHT ORCHESTRA leader, JEFF LYNNE, producing his new Lp for Warner Bros. Both have been in GEORGE'S home studio, Henley on Thames, since before Christmas working on this record, which is said to be almost complete. Guitarist DUANE EDDY was in last month to help out on one track. The collaboration between <u>HARRISON</u> and LYNNE began when the two co-wrote a song for the film "Shanghai Surprise". Apparently the two were much happier with the soundtrack to the movie than they were with the actual film. We can expect this new <u>HARRISON</u> album by the end of the year.

SPEAKING OF DUANE EDDY, he's not only been working with GEORGE HARRISON, but he's also been busy with his own album. He recruited another ex-BEATLE, PAUL McCARINEY, to help him out. EDDY traveled to McCARINEY'S East Sussex studio to record a version of the WINGS 1979 track "So Glad To See You Here". PAUL sits behind the mixing board as well as lending a hand playing bass. EDDY'S record will be out on Capitol by the end of the year.

IT'S TAKEN 18 YEARS BUT PINK FLOYD founder and guitarist, <u>SYD BARRETT</u>, is making a return of sorts thanks in part to producer ALAN DUFFY. DUFFY is releasing an album entitled "Beyond The Wildwood", which is a disc of <u>BARRETT</u> cover songs done by other artists. <u>SYD'S early music</u> has been credited as an inspiration to many bands including <u>THE CURE</u>, SIOUXSIE <u>AND THE BANSHEES</u> and <u>JULIAN COPE</u> to name a few. <u>DUFFY</u> has approached these artists to appear on the disc but has yet to get a committment from them. Slated to appear so far are British bands <u>THE SOUP DRAGONS</u> and <u>TV PERSONALITIES</u>. This album is more or less a labor of love for DUFFY; it's being released for the sole

purpose of generating money for <u>BARRETT</u>. After years of seclusion, <u>BARRETT</u> has moved out of his mother's house, is living on his own, and in need of monetary assistance. SYD just might get some help from his old record label, <u>EMI</u>, which claims to have an entire album of unreleased material which they plan to release this year.

AN EMERSON, LAKE AND PALMER film documentary is currently in the works in England. The project, which will no doubt be aimed at the home video market, will encompass the band's entire career, from their beginnings in 1970 to the present line-up which includes drummer COZY POWELL. Celebrated English television personality, DAVID FROST, will narrate.

SAN FRANCISCO IS PLANNING a doozy of a celebration around the 50th anniversary of The Golden Gate Bridge and the organizers have hired one of the Bay area's favorite sons, BILL GRAHAM, to put together the concert finale. The festivities will take place May 24, and will feature the likes of THE GRATEFUL DEAD, HUEY LEWIS & THE NEWS and the man who "left his heart in San Francisco," TONY BENNETT. Others expected to make appearances include JOURNEY and EDDIE MONEY.

AN AUTOBIOGRAPHICAL FILM is in the works on the life of RON KOVIC. He's the disabled Vietnam veteran who remains committed to fellow vets and their plight. KOVIC, who is bound to a wheelchair, will be the focus of "Born On The Fourth Of July". The movie, which is currently in production, features a soundtrack full of artists who support his beliefs, including <u>BRUCE</u> <u>SPRINGSTEEN</u>, who has given the film-makers three songs: "Born In The U.S.A.", "Racing In The Street", and "No Retreat, No Surrender". Other artists donating material are <u>CROSBY</u>, <u>STILLS</u> AND NASH, <u>PETER</u> <u>YARROW of PETER</u>, <u>PAUL AND MARY</u> and <u>"COUNTRY" JOE</u> <u>MCDONALD</u>. The film is currently in post production and should be released within the next few months.

THE WILLIAMS BROTHERS, ANDY AND DAVID, are readying themselves for their upcoming Warner Bros. release "Two Stories" due next week. These offspring of <u>ANDY WILLIAMS</u>, are packing a power punch behind this record with tunes written for them by the likes of BOB DYLAN, TOM PETTY and ex-PLIMSOUL PETER CASE. Manager <u>PETER ASHER</u> also sees the potential as he has just signed on to represent them. The first single will be a tune called "Some Become Strangers". Keep an eye out for this one as it may be a pleasant suprise.

WHITESNAKE: Although the new Whitesnake album features John Sykes, Jon Lord and Aynsley Dunbar, the Whitesnake touring band leader David Coverdale has assembled will be ex Dio member Vivian Campbell, Quiet Riot's Rudy Sarzo, and Tommy Aldridge, veteran of several line-ups, including Ozzy Osbourne.

BRUCE HORNSBY: Bruce Hornsby attributes his Grammy win for Best New Artist at least partially to timing and having a No. 1 record late in the year. "Maybe that meant we were fresher in people's minds," he said. The day after the awards, Hornsby and The Range embarked on the last leg of their tour, which will end April 17th. Then they'll begin work on their second album.

ROGER DALTREY: Roger Daltrey attended the Grammy Awards because he happened to be in L.A. recording with producer David Foster. They were working on a song for the "Secret Of My Success" soundtrack.

DAVID BOWIE: David Bowie is shooting a video for a song from his new album with Julian Temple directing. Bowie's album, "Never Let Me Down", comes out in April.

BILLY IDOL: Billy Idol's guitarist Steve Stevens has signed with Warner Brothers and will have an album out next year.

- SIMPLE MINDS: Simple Minds are in Los Angeles doing overdubs on their live album at A&M Studios. They'll be mixing at The Power Station in New York. The album is scheduled for late spring release. It may be a double album and may include one new song. A decision on that will be made in the coming weeks.
- DREAM ACADEMY: Larry Fast, the synthesizer whiz and ex Peter Gabriel collaborator who just released his own Audion album, "Metropolitan Suite", has been tapped to work with producer Hugh Padgham on the next album by Britain's Dream Academy. Work on the Lp began in February.
- RICK WAKEMAN: Rick Wakeman is currently recording his next album. It's entitled "The Time Machine", and includes guest appearances by Elton John, guitarist Davey Johnstone and Phil Collins.
- W.A.S.P.: W.A.S.P. up their seven month tour by recording a live album in San Jose and Long Beach, California, starting this week. They plan to release it in August. It sounds like the W.A.S.P. tour is wrapping just in time: leader Blackie Lawless spent time at home in Los Angeles recuperating from an eye injury he suffered when a fan threw a quarter at him during a concert.

ILLSLEY WRITING FOR SOLO ALBUM, DENIES DIRE STRAITS SPLIT: Dire Straits bassist John Illsley has angrily dismissed rumors that the band is on the verge of splitting up, following a London newspaper report which quoted Mark Knopfler as saying the group wanted to finish while it was on top. "Rubbish!" exclaimed Illsley. "We're very successful and there's absolutely no reason to end it. After our last tour, we simply decided to have a break. We will probably record a new album toward the end of the year. This is all very boring," he continued. "When a band goes off the road for a year, everyone starts to speculate when it will

split. After seven years, it was just time to give the public a breather." Illsley is presently holed away in his Harborside Penthouse in Sydney, Australia, writing songs for his first solo album.

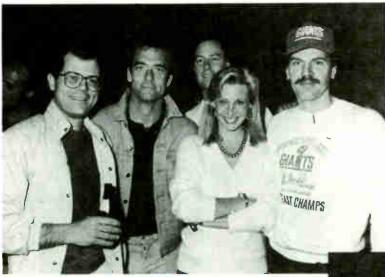

- PETER WOLF ASSEMBLING BAND FOR TOUR: Peter Wolf, former lead singer with the J. Geils Band, plans a tour beginning in April. "I'm getting the band together now," Wolf says. "There will be some hot players, but not necessarily 'name' players. We're going to surprise people." Wolf's album is scheduled for release March 20th. It was recorded at the nowclosed Syncro Sound Studio in Boston.
- AMNESTY INTERNATIONAL SETS LINE-UP FOR "THIRD BALL": Peter Gabriel, Duran Duran, and Joan Armatrading are among the artists taking part in Amnesty International's "Secret Policeman's Third Ball" at the London Palladium at the end of this month. Comedy shows are being held on March 26th and 27th. Musicians take over for the shows being held on the 28th and 29th. Also confirmed are Erasure, Mark Knopfler, Nik Kershaw and Cliff Richards.
- LOU GRAMM HOPING TO DO SOME DATES WITH HIS FATHER: Lou Gramm says if he gets the opportunity to do some concerts around his hometown of Rochester, he'd like his father to join him onstage. Ben Grammatico, Sr., a sheet metal worker who is retiring this year, plays trumpet on Gramm's album, "Ready Or Not". "I think being on his son's album was a little bit of a kick for him," says Gramm, "and I think it would be great for him to take the stage with his son." Grammatico had a 16 piece big band in the '40's and then played in combos after that. Gramm says his father eventually gave up music because it was keeping him away from his family. "We're an Italian-American family and we're very close knit, and always have been," Gramm said. "I think that kind of upbringing has helped me keep a good perspective on success." Gramm added that if he does do some shows as a solo artist, he'll probably include Foreigner's "Jukebox Hero", "Head Games", and "Head Knocker". "I'd like to keep it up and stay away from the ballads to chisel out a hard rock image," he explained.
- LINDA MC CARTNEY FLORAL DISPLAY WORRIES POLICE IN BATH, ENGLAND: Police in Bath, England, are worried that a \$20,000 floral display put up by Linda McCartney on the side of a freeway is going to cause traffic accidents. The hyacinths and primroses spell out, "Linda McCartney, Bath," in 12 foot letters. The words are accompanied by an arrow pointing to the city where an exhibit of her photos is being held. "It is downright dangerous," said a spokesman for the police department. "This stretch of motorway is already an accident blackspot and one of the busiest in the world." He called the sign of flowers "A foolish publicity gimmick."
- RARE SPRINGSTEEN ITEM TO BE SOLD: A rare Bruce Springsteen item is about to go on sale in England. It's a six track acetate that Springsteen gave to the head of a major publishing firm in 1973 in the hopes of having other artists record his material. The former executive says he was told that he could do whatever he wanted with the record, and he plans to advertise its sale in music publications. "It features all early material recorded with The E Street Band, and the quality is superb," he's quoted as saying. The record includes "The Fever", "Santa Ana", "Seaside Bar Song", "Bishop Danced", "Zero And Blind Terry", and "Thundercrack", and is expected to sell for over \$4,000.
- LENNON DOCUMENTARY TO INCLUDE AT LEAST TWO NEW SONGS SAYS PRODUCER: David Wolper plans to begin production next month on a feature length documentary about John Lennon. Wolper, known for producing the miniseries, "Roots", and last summer's Statue of Liberty extravaganza, says he's received two boxcars full of footage from Yoko Ono. The \$7 to \$10 million film is to be titled "In My Life". Wolper says never-beforeseen footage includes a number of songs that Lennon recorded but never released, and that at least two of the previously unheard songs will be included in the film. Wolper, a veteran of 300 documentaries, added

that there's more footage on Lennon than he's ever seen on any single individual because the murdered Beatle documented virtually everything in which he was involved. All the footage will be returned to Lennon's estate after the documenatary is completed. A 1988 release is planned.

- ALARM MEMBER PLANNING ALL-STAR ALBUM AS TRIBUTE TO WOODY GUTHRIE: The Alarm is busy recording their new album with producer Alan Shacklock. When that's finished, they'll begin preparing for a summer tour of the U.S. But Dave Sharp, of the band, is already planning a project of his own for after that. In September, Sharp is planning to work on an all-star album in memory of Woody Guthrie. Guitarist Jeff Trot, of Wire Train, says when Sharp invited him to play on the album, he told him he'd already lined up appearances by Ron Wood, John Entwhistle, Keith Emerson and Bob Dylan.
- WILLIS TO STAR AS TOM MIX IN NEXT MOVIE: Bruce Willis starts work on his next film April 6th in Los Angeles. In "Sunset," he'll play Tom Mix in Hollywood around 1928 working on a cowboy movie and solving a real life murder. James Garner is set to co-star as Wyatt Earp. Blake Edwards, who directed Willis in his first film, "Blind Date," is also set to direct this one. Meanwhile, "Blind Date," is scheduled to open March 27th.
- IOVINE PRODUCING DANNY WILDE: Having made his presence felt last year with his Island Records debut album, "Boyfriend," which featured the single, "Isn't It Enough," rocker Danny Wilde has been signed by Geffen Records and is now in Los Angeles recording tracks for a new album with producer Jimmy Iovine. Meanwhile, singer Patty Smyth has given the L.A.-based musician her official thumbs up by covering "Isn't It Enough" on her new album, "Never Enough."
- BILLY IDOL: Billy Idol's guitarist Steve Stevens has laid down a guitar part on a tune for Michael Jackson's new album. Jackson, producer Quincy Jones and his two children were said to have given Stevens a standing ovation at the end of the session.
- STARSHIP: Keith Olsen is currently producing five songs for the new Starship album. Peter Wolf will produce another five, and Narada Michael Walden, who did the band's current hit, is slated to do one or two more. The band expects a May release.
- THE PRETENDERS: According to Robbie McIntosh of the Pretenders, once the band finishes another month of U.S. dates, they'll take a week long break, then hit the road in Europe on a bill with U2 and UB4C. The Pretenders manager Dave Hill says there are no plans to bring that package to the U.S.

BIRTHDAY BOOK FOR THE WEEK OF MONDAY, MARCH 9: Badfinger released their first album on this date in 1969. Rock guitarist Robin Trower is 42. The former lead singer for Paul Revere & The Raiders, Mark Lindsay, is 43. TUESDAY, MARCH 10: Dean (Jan & Dean) Torrence is 47. Tom Scholz, of Boston, is an even 40. (How about a note of congratulations for the Massachusetts quintet for passing the four milion mark in domestic sales on their most recent album for MCA Records.) On this date in 1977 Marc Bolan set out on his final tour, opening a show in New Castle, England, With Isteparted that the uppertigand. WBYR held an 18 hour Music Marathon to benefit Buffalo's Children's Hospital. The Bears's morning team stayed on the air from 6am to Midnight, beginning with a live remote from City Hall. They had visits and call-ins from many celebrities and pledges were taken throughout the day. The station raised close to \$4,000 for Children's Hospital. ## **BEST BITS**

### STEVENS & PRUETT--STILL CRAZY AFTER ALL THESE YEARS!

Jim Pruett and Mark Stevens have been doing mornings together now for 14 years and are currently waking up the Houston market at KLOL. We caught up with them eem to give us a

this week and asked them to give us a sampling of some of their bits.

"One of the Best Bits we've done recently was our NCAA Vibrator Off." Pruett told us. NCAA stands for No Class At All. We had four phone lines going and had women play their vibrators for us. It gives you a great opportunity to put in quips like, "Gee, I hope the Surgeon General has a warning for that one," or "I could hear your teeth." "We also have lots of characters that come in. One is Buffalo Bob and his constant Indian sidekick, Crapping Squirrel. You

Indian sidekick, Crapping Squirrel. You know, all Indians are named after the first thing their mother sees when she comes out of the tee pee; Running Beaver, Soaring Eagle ...Crapping Squirrel.

"We Do A Joke-Off. We do it a little differentlythan most stations. We have two different people compete against each other with a joke and then the listeners vote for whomever they think has the best joke by calling an automatic recording line. It takes the load off of us. It's a great quarter hour maintenance bit. We do the joke-off at the :45 and then air the results at the top of the hour to keep them hanging in there for awhile."

We had a Wayne Newton sing-alike contest on a rock format...none of our listeners knew what he sounded like!"

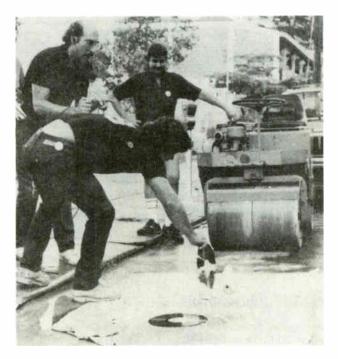

This is just a taste of what Stevens and Pruett are up to on a regular basis. The boys are always up to or into something. If you find yourself passing through Houston, tune 'em in -- they made <u>us</u> laugh!

### WGTR WAKE-UP ARTISTS

Miami's popular morning show team of <u>Herman &</u> <u>McBean</u> recently debuted their show on WGTR with a live remote on the final day of a weekend arts festival. In honor of the arts

festival, Herman & McBean invented a contest called "Steamroller Art". Skip Herman called us with the details: "We were broadcasting our show live from a hotel near the arts festival and took the show out on a Miami street for the contest. A lot of people came down to see what was going on. We had paint and we had sheets and spread them out on the street. People poured paint onto the sheets and then we let them roll over it with the steamroller. We did five or six pieces of artwork and we had some fine work, too. We did play-by-play on the air with, obviously, the sound of the steamroller making lots of noise in the background. The final effort turned out to be the best. I don't know if the guy got hints after watching where everyone placed their paint, but after he poured puddles of paint on the sheet and rolled over it, he had created himself something Jackson Pollock would have admired! It wasn't good enough to cut your ear off for, but...."

SKIP HERMAN INTERVIEWS ONE OF THE ARTISTS WHILE HE'S CREATING HIS MASTERPIECE "STEAMROLLER ART".

"We had some TV folks there, too. A local television station brought their cameras right in front of the steamroller, watching it squoosh through the paint. We also had a mixed medium effort where people thought that ice cream would make a nice addition to the thing. They threw a little of Ben and Jerry's "Cherry Garcia" flavored ice cream on there. We had a good time with it and the winning entry won a weekend for two at the hotel we were broadcasting from."

Streamroller Art, live on the streets of Miami, sounds like a truly unique way to debut your first show at a new station. We're looking forward to seeing what tricks Herman & McBean are up to next and, from what we understand, they're always up to something.

#### WCMF BAGS IT

WCMF's morning man, <u>Brother Wease</u>, responded to a recent Rochester controversy where a supermarket chain switched from using standard paper bags to flimsy plastic bags with handles. The city was in an uproar over it and there have been stories in the television news featuring man-in-the-street type interviews displaying the consumers' anger over wimpy bags. Brother Wease has dedicated this song in hopes of speeding up the return of the brown bag: <u>Supermarket Bags</u> (Sung to the tune of "Another Brick In The Wall".) "We don't want your plastic baggies/You can keep your wimpy bags/Can't fit a 12-pack in that small sack/Give us back our paper bags/ Hey - Wegman's, give us back our bags!/All in all it's just those bags are too fckng small." ## **PROMOTION FILE**

### SHE'S GOING TO JAMAICA

To help break up the winter doldrums, KSHE St, Louis recently ran a promotion that sent five listeners to Jamaica with "Radio" Rich Dalton and John "U-Man" Ulett, the station's morning team, who broadcast from there live. To To win, listeners were

asked to create their own song in 95 seconds or less about why they wanted to go to Sandle's Resort with the morning show. The Sandle's Resort with the morning show. The entries ranged from song parodies to origi-nal songs and some people put together spoken comedy bits. Creativity and outrageousness were the key words. The en-tries were incredible and KSHE listeners proved themselves to be quite talented.

This is the third year in a row that KSHE has done the promotion and this has been the most successful ever; the station received 608 entries. According to KSHE Promotion Director Jim Marchyshyn, "Lis-teners had alot of fun with this promotion even if they didn't win. They called to say that it was great just to hear their song played on the air."

The promotion was sponsored in conjunction with Budweiser Beer and Sandle's Resort, Montego Bay. For those stations also looking to break up the winter doldrums, or just looking for a great promotion, the folks at KSHE tell us that Sandle's Resort loves to work with radio stations and they are great people to work with.

### WAQX ROCK AUC 87!

If you happened to be near the Syracuse, New York area recently, and were wired for sound, these are some of the sounds you might have heard coming from the local

airwaves: "I just have to have those Bon Jovi tickets--I bid \$400 dollars for the package"..."We're back at Rock Auc '87 headquarters, where we've just received another bid of \$450 dollars for the Bon Jovi package. The phones haven't stopped ringing and it looks like an all out bidding war is in progress."

We're sure we couldn't come close to translating the excitment that was WAQX's second annual rock auction for the benefit of the Central New York Food Bank, but judging from the enthusiastic report we received from WAOX Acet DD Lormains Bang the Surgeuse WAQX Asst. PD Lorraine Rapp, the Syracuse rock outlet just pulled off one "wildly successful" promotion, that sounded great on the air.

The idea for the "Rock Auc" charity promotion was inspired by Bruce Springsteen's 1985 concert at Syracuse's Carrier Dome, after which he donated \$10,000 from his own pocket to The Central New York Food Bank. WAQX was so moved by the Boss' concern and generosity, that they decided to build on Bruce's actions by putting together a fund raiser of their own. Thus the "Rock Auc '86" campaign was born, followed by this year's even more suc-cessful '87 version.

The station began collecting items donated by artists, record reps and other industry folks immediately after last year's promotion was in the record books. They collected so much rock n' roll memorabilia in fact that

they decided to put several packages together. The station then circulated a bidding guide throughout the community to alert their listeners as to what was up for auction and when the bidding would start for each item.

The entire on and off-air staff then set up the auction headquarters at the station with local media personalities around to do guest auctioneer appearances. At 10 AM on Saturday, February 21, the bidding opened for "Roc Auc '87", and the phones did not stop ringing until the last item was auctioned off and the event came to a close eight hours later.

Some of the items and the auction price they generated included: the Bon Jovi package (A picture disk; drumsticks used by the band's Tico Torres, as well as front row tix for the upcoming show-which weren't even on sale yet) went for a whopping \$600; an autographed Billy Idol guitar--\$575; an autographed box 'o Boss live set---over \$300; A Rush platinum Lp with a blank inscription plate so that the highest bidder could place his or her name on it-several hundred dollars and much, much more. When the bidding ended, WAQX raised well over last year's total of \$6,000.

The charity promo not only inspired an enormous amount of enthusiastic response from the station's listeners, but also received a ton of TV and newspaper exposure all weekend long. Commenting on the overwhelming success of the event, Lorraine told us, "The most exciting thing about the 'Roc Auc' is how it pulled our staff together and how we were able to contribute to charity, because nationally, we hear so much about what we can do to help, but in this way, we actually got the whole local community, with our station serving as the vehicle. The excitement grew when, after months and months of an incredible amount of work, the whole thing came together beautifully. Our entire staff--on and off the air--was here and involved and it sounded very exciting over the air. We involved all kinds of local celebrities and raised a significant amount of money that we all feel good about giving to charity. I would recommend that stations

do it in their market because it works well for people in the community to view your station in this way--being this helpful. And image-wise, it's great." Congrats go out to the entire WAQX staff and all others involved in this exciting, successful and commendable event.

#### WLNZ - REAL WILD WEEKEND

There's an ongoing promotional campaign at WLNZ designed to establish the station as Lansing, MI's definitive concert source, and recently, the station gave two of its listeners a concert trip that has to put WLNZ over the top in their quest. Presenting: WLNZ's "Real Wild Weekend" with Iggy Pop!

After much pre-promotion through liners and other announcements, WLNZ jocks began asking listeners to call in to register for a weekend in Los Angeles to see Iggy Pop and the Pretenders. The ninth caller each time would qualify for the grand prize drawing, with each qualifier awarded the New Iggy Lp "Blah, Blah, Blah" on their choice of record, cassette or CD. The station was surprised to find that most winners chose the CD.

On the Thursday morning show before the concert weekend, oneperson was chosen from the many registered qualifiers. The winner and a friend were then whisked out to LA--the very next morning! The grand prize included round trip airfare; hotel accommodations; a Universal studios tour on Saturday morning before the show; limousine service to and from the concert, where both listeners went back stage to meet Iggy and the Pretenders, and a free Sunday to do whatever. Nothing like your average, uneventful weekend, eh bubba? "The Lazer" is gearing up for many more concert promo events in the future, and we salute them for going the extra mile to be Lansings concert authority, and for bringing exciting events like this one to their listeners.

With New Age music finding more of an outlet on radio (The Wave and KSCO, San Jose), some are predicting that every market will soon have a New Age station. Do you agree or disagree? Would a New Age station work in your market, and why? Does New Age have a place in your station's programming?

"I disagree with that. JOHN SEBASTIAN, KDKB: Some of the more desperate/creative/experimental-type stations will give this a shot in isolated markets, but I don't think there will be a preponderance of New Age stations. My efforts in EOR--which were much more mass appeal than this--were not grasped by managers, owners and the powers that be in any kind of mass appeal way or I'd still be doing it (although the listeners loved it)...Would a New Age station work in Phoenix? I don't New Age station work in Phoenix? think a 100% New Age station would work anywhere, otherwise that's what I would have done. Speaking as the person that I feel created this kind of radio, the variety that the listeners crave is what is lacking with As a part of an eclectic mix New Age music. New Age music. As a part of an ecception mix of music, it makes a lot of sense; but as a format unto itself, I don't think that it will work here or in any other market. New Age has a big place in EOR, but as far as what I'm doing now--an adult Album Rock station-it's too obscure, experimental and not main-stream enough for us in rebuilding KDKB. But there is a way to use it effectively with a lot of other music that isn't being exposed. There's a whole body of different kinds of music that hasn't been exposed that ought to music that hasn't been exposed that ought to be and there is a way to mold that all to-gether in one atmospheric format, and I don't think that has been maximized yet in the way that it should be. When we first embarked on EOR in 1983, we realized there was a great lack of variety for 25-40s. But going to all New Age would not be variety, that would be sameness again, and listeners are looking for one station that can satisfy their wide one station that can satisfy their wide variety of tastes. That's why stations like KINK, KBCO and WXRT have been so successful over the years."

DENNY SOMACH, DENNY SOMACH PRODUCTIONS: "I definitely agree because every city needs to have one station where you go to relax. I don't see New Age stations being competition for Rock outlets, but I do see them as a great compliment. A lot of people keep that one button set on the Beautiful Music station so as to have a place to relax. I see New Age stations filling that same need...It would work very well in Philadelphia, as evidenced by the reaction WIOQ is getting to their New Age at night show. They're seeing tremendous phone reaction, and we already know about the sales levels on New Age product. Most people think that New Age music is exclusively Windham Hill and that's only part of it. But the real potential for New Age at Rock stations is really a form of music we call New Progressive and includes artists like Tangerine Dream, Jean Michel Jarre, Patrick Moraz and others."

BOB WALTON, WRDU: "As with any format-of-theweek, of course there will be quite a few stations across the country that will adopt it for a few weeks as a quick fix...No, I don't think New Age would work in Raleigh. I think the people that like this music are a small slice of a demographic and not enough to support an entire radio station, at least not here. We service that small slice of the demographic with New Age/Jazz, both on a weekly 5-hour Jazz Brunch, 7AM-12Noon on Sundays, and with occasional 'Jazz Snacks' at night."

### POLYGRAM ROCKS RADIO ROCK N' QUOTE OF THE WEEK "Here's an across the board staple band for rock radio with another sure fire hit. Consider how successful Cinderella has already been, on the radio and at retail, and 'Somebody Save Me' becomes a natural addition to the playlist!" RIAN WHITE KILO

KAREN ANDERSEN SMALL, WGIR: "I agree that a market with a large population will probably give New Age a go... A New Age station wouldn't work here. The format's appeal would not be wide enough to support a radio station in this market (let Boston do it)...New Age does not have a place in our programming right now." KBCO: "I don't think that's DOUG CLIFTON. true for every market. New Age music will work in some markets, but not in others. I don't think that a full time New Age station would work in this market, but I do think that a station can program a good percentage of New Age music and be successful...We've been playing New Age music since its inception. We play many of the Windham Hill artists on our jazz show, and we work a small percentage of New Age music into our regular It gives spice to the sound of the format.

### QUESTION OF THE WEEK

Continued From Previous Page

station. I think a good mix of New Age, traditional and fusion jazz could be the Beautiful Music format of the future."

- RON GARRETT, "I think that every market KDJQ: that currently has a Beautiful Music station could potentially have a New Age station... I think a New Age station would work in this market because the demographics are right for it (25+), and there are a lot of upper middle class yuppies in this market. There are a lot of businesses, a lot of offices and a lot of people with higher educations whom that type of music would appeal to...No, this station is definitely an 18-24 core.
- FRED LEEMHUIS, KGRQ: "I disagree. It won't work in small markets. Small market mentality with clients who put too much emphasis on 12+ ratings. They don't understand core audience and time-spent-listening. That type of format will work in major markets and medium markets where demographics can be sold better. No, it won't work here, our market size is too small...Yes, New Age has a place in our programming as variety programming. We run a syndicated show called 'Musical Starstreams'. The response to that show is perfect. We used to run an EOR format with Sebastian and, if he had stuck with his concept and gotten a major client, i.e., New York or Chicago, EOR would still be around today. The differ-ence between EOR and New Age is that EOR played less instrumentals.
- IVAR HAMILTON, CFNY: "A New Age station would most likely have moderate success in the Toronto market. There is no current 24-hour station of this type here. There would obviously have to be a tremendous amount of research and fine tuning before a concrete position in the ratings could be established. We have added various New Age records into regular rotation and have had moderate success with some. The biggest problem is mixing and texturing the New Age with music of a totally different direction, i.e., the Mighty Lemon Drops back-to-back with Yanni. i.e., the The current station New Age program also mixes classical and some folk music. The This program runs early on Saturday and Sunday mornings."

KEVIN VARGAS, KWHL: "Any time something new and different pops up at a major station in a major market, we see the creation of a new trend. Nothing personal to 'The Wave' but I hope it dies quicker than a 0.1 activated psunami, for the simple reason: a station without live jocks is just another cold, lifeless station. I hope this doesn't inspire the New Age of automation."

BILL WEBBER, JR. WIOQ: "I don't see there being a New Age exclusive station in every Possibly it might work in the largest market. or hippest markets. I can see the Beautiful Music stations attempting to integrate some of this genre into their programming... I don't see a full time New Age music station worki Age music station working in Philadelphia. I don't see enough demand for it 24-hours-a-day...Yes, it does. We a show called 'The New Age Alternative At 11:00'. It started as a 20-minute feature We do that we ran at 10PM and, due to overwhelming popular demand, we expanded it to an hour and moved it back to 11:00PM with the feeling that it was a more appropriate time. We more positive listener feedback to this We get feature than we do to all our other features combined. Despite the great response, I still feel that this works best as a nighttime feature and it shouldn't be mixed in with regular programming around the clock."

KAREN HEWKO, CFOX: "I see New Age music as being modern day 'Beautiful Music'. As we get older, our musical tastes become more subdued, and those of us who appreciate music for the art form it is, enjoy New Age for its standard of excellence. Kitara and Andreas Vollenwieder are to the 80's what Montavoni and Mancini were to the 60's and to our parents. Face it folks, when mom and dad were in their 30's, they and their friends consid-'with it' ered themselves listening to 'Theme From A Summer Place'. We're that age now, and no different from them...I think the New Age format will and should take over the 'Beauti-ful Music' format--to contemporize it. When labels like Windham Hill and Polygram, with their New Age line, see trends established, and when the announcers around this station go nuts over the new Windham Hill package, something's going on. The demos are there... With the West Coast being traditionally more laid back, New Age music would definitely As the Beautiful Music demos literally work. die off, a New Age format with a 'hip' presentation could go over well--maybe not be #1, but there is a void to be filled here in Vancouver...At the present time, CFOX does not play New Age music on any kind of block programming. We don't have the space because of other CRTC commitments. However, if the CRTC would classify New Age music as 'special interest' the way it has classified jazz (both of which are <u>mandatory</u> for CFOX to play week-end mornings), New Age in Canada would see more success."

- BRIAN JARRETT, WBGK: "Yes, I agree that there is room for a station programming New Age in every market. I don't know if it would work strictly as a 24-hour format, but it would work as an element within an Adult Contemporary or AOR format...New Age has a place along with our specialty jazz programming; it's the thing that gives us the most listener response. We run a local show and a syndicated program. The response to both shows is very high, so much so that the retailers call us after the show to get a list of what we've played so they know what to stock."
- LORETTA CRAWFORD, WCLZ: "No, an entire format of New Age music is not of interest to people who really like New Age music. It's something to be taken in small but regular doses like WCLZ does. We program one hour each weeknight of New Age music and it's a very, very popular program. I think we'd be cutting our throats if we went all New Age. This market is not ready for all New Age music."
- "I disagree. ALAN LAWSON, KTCZ: There won't be one in every market. The market make-u has to be right for the format. No, a 24-The market make-up hour-a-day New Age station wouldn't work in our market. We've been on-the-air three years now with a good diet of New Age music in special programming and in regular rota-tion. Our feedback indicates that the audience is satisfied with the dose it's now getting. We run 'Musical Starstreams' and 'Portraits In Sound', both are syndicated We run 'Musical Starstreams' and programs. And at times we feature New Age music on our locally produced show, 'The Laser Hour'. We do use some of the more melodic, accessible New Age in our daily programming.
- JIM PEMBERTON, WLLZ: "I disagree...some markets are just not ready for it...in Detroit ---no way!!"
- HIP HOBART, WQFM: "I totally disagree...I don't think there's a market for it -- that HOBART CHIP type of a radio station in every market? Milwaukee?? --- Frankly - no!!" In
- MICHAEL DALFANZO, WSHE: "I don't think every market is gonna wind up with a New Age station.

#### QUESTION OF THE WEEK

**Continued From Previous Page** 

I think it's something that's gonna be limited basically to major metros. I don't think it's a small market phenomenon or even in a lot of areas a medium market phenomenon. It needs to be in a cosmopolitan setting like in LA, New York, Chicago...even South Florida. I think a New Age format could work, it would have to be like a classical station, not a numbers sell, a lifestyle sell. One could work in this market, it's a possibility, I don't see it happening in medium markets... it'll be limited--put it in Kansas City -it'll be fuckin'death!!""

BRIAN KRYSZ, WKLC: "Absolutely not...no fucking way...New Age is gonna go over just like the Abrams New Music format of three years ago. I can't see it being in anything other than the over-saturated top twenty markets that have too many signals for formats."

ALAN WHITE, KILO: "I disagree in the short term, I think that New Age music appeals to a real sophisticated listener -- it's passive in a way but it's not, you really have to know what they're all about in order to get into them. It's not mainstream - I think in the short run only the big markets will be able to do well with a format like that. I don't think it'll spread to the medium & small markets very fast...Our profile is rock & roll - we don't have a place for it at KILO."

WBCN, BOSTON, MA M.D.-CARTER ALAN: "I can't believe I survived last week at WBCN with our freeble Stevie Ray Vaughan concert; Brighton Rock's lunchtime show and an evening broadcast from Nashoba Valley Ski Resort with a couple thousand of our closest friends! Thanks to Lou Gramm for ringing us on-air and letting us know that he is going to be doing a solo tour if he ever gets time between the Foreigner album and tour!...The Damned album knocks me out. Inconsistent at best in the past, this seminal English punk band has matured incredibly in the past few years. The remake of 'Alone Again Or' is gorgeously produced and is a sonic delight...The Del Fuegos album is as fun as their previous best work and 'Long Slide' is a great prelude to some other gems like 'News From Nowhere'. I have heard DJs mumble 'The Cult is God' in the corridors of

'BCN and that's pretty close to the truth. 'Love Removal Machine' is a huge jump for them towards the mainstream and quite a bit different for producer <u>Rick</u> <u>Rubin</u>, than the <u>Beastie's album...Andy</u> <u>Taylor</u> (literally) rocks me off my feet and the <u>Gregg Allman</u> remakes of Allman Bros. classics 'Don't Want You No More/ Ain't My Cross To Bear' is getting good phones on 'BCN." WIYY, BALTIMORE, MD M.D.-CHRIS EMRY: '' 'Live From L.A.' was easily the most fun I've ever had doing radio! The entire broadcast went off without a hitch. The guest lineup was positively excellent. The only thing missing was Jim Morrison returning from the dead. Sincere thanks to the 'under new management' team: Bruce, Maddy and Z and John McGahm who kept this entire circus running smoothly. Great moments in L.A. part one: Bonnie Raitt live on 9ERock meeting 'St. Else-where's' Steven Furst while he's with K-Rock's Meg Griffin. It was a mutua admiration society...Great moments in It was a mutual L.A. part two: Watching <u>Dave Edmunds</u> meet his rock 'n roll hero (and mine too) <u>Little Richard</u> for the first time. <u>June</u> Foray, the voice of Rocky the Flying Squirrel and a million others knocked me out. What a wonderfully talented, nice, nice woman. I guess I should stop before I take up the entire page! My thanks go out to all of the industry people who took care of us during our stay. It was a true pleasure to have met all of you. Let's do music...I caught Crowded House at the Roxy (before the Fire Marshall kicked me out) and they are a hot band. Don't miss them. So, let's go with <u>Crowded House</u>; <u>Cutting</u> <u>Crew; Patty Smyth; Baltimore favorites</u> <u>Crack The Sky</u>, and more <u>Bon Jovi</u>!"

KGON, PORTLAND, OR M.D.-INESSA YORK: "Here's an overview of the <u>Pretenders</u> Portland show: Just fabulous! It never let up! They had a great energy and enthusiasm and I didn't see one negative incident. I had the sense that all the weird baggage of the last several years has finally been left behind and what we had in concert was an exciting show of Pretenders past, present and possibly future! This seems to be the time to go back and dig out some of those great overlooked tracks from the Pretenders' debut album because they were all represented in concert. Bravo <u>Chrissie</u> and company!...Here at the ranch, we wish our Operations Manager, <u>Pete Bolger</u>, bon voyage or perhaps I should say 'buena suerte!' It's as they say in this wacky biz--a great career move! We'll miss you! And don't forget the zinc oxide!"

KGB-FM, SAN DIEGO, CA M.D.-PAM EDWARDS: "It was a PolyGram kind of week here in San Diego! We're feeling no pain as we go with our 5th Bon Jovi track 'Never Say Goodbye'. This band's audience is growing daily and their staying power is amazing! It's great to see the adults grooving along with the kids...The opposite is true for <u>Robert Cray</u>. Now the kids are catching on to what the adults have heard for a while --a new superstar! 'Right Next Door' is our next pick following Cray's brilliant performance at the Grammys and Saturday Night Live...Deep Purple's 'Call Of The Wild' rounds out PolyGram week in true rock 'n roll fashion. Many, many thanks to <u>Patty Oates</u> at Warner Bros. for taking me to the Grammys. It was DEFINITELY an evening to remember, particularly because Warner Bros. artists kept winning all the prizes! Most satisfying was <u>Paul Simon</u>'s victory. The only big downer is that <u>Peter Gabriel</u> didn't score a statue. His four nominations were something else though! Congratulations also to RCA Records for their success with Bruce Hornsby. It all wouldn't have happened without their persistence and dedication... And personal to <u>Marko</u>: Let me help you in your crusade to <u>Teslafy</u> the nation!"

KLOL, HOUSTON, TX M.D.-HARVEY DR. K. KOJAN: "The U2 is simply wonderful! Brilliant guitar, uncompromising vocals--definitely their best ever! (Actually, I haven't even

heard it yet, but just wanted to be the first to rave!).\_But seriously, folks, you guys can stop hyping us on Frozen Ghost. We were sold on it right from the start... Ditto with <u>Cutting Crew</u> which appears on first listen to be as deep and imminently programmable as anything I've heard in a while...As far as <u>The Damned</u> goes, I've been trying to come up with something flowery, eloquent and pretentious to say about it (you know the way <u>Brehmer</u> talks), but the bottom line is that it is a memorable tune! I hope that we can find some room for it...<u>The Cult</u> arrived today and I had a tough time 'removing' it from the turntable. I kept grabbing people from the hall and forcing them to listen at top volume. They didn't mind a bit--the best of AC/DC, Zeppelin and the Stones all rolled up into one killer tune...Speaking of <u>Robert Plant</u>'s old band, the <u>Whitesnake</u>/ Zeppelin comparison won't hurt them a bit! 'Slow 'N Easy' remains a top request here so 'Still Of The Night' should do very well. Same for the <u>Del Fuegos...Finally</u>, thanks so much for the Island sampler CD. Lots of good stuff, especially that long, spacey thing by--what's the name--oh yeah--<u>Traffic</u>! We might even add it if it wasn't so damn long--how about an edit?!"

WHCN, HARTIORD, CT M.D.-KIM ALEXANDER: "It's a ringing guitar--it's a searing sax--it's a balls mix--it's Frozen Ghost! 'Should I See' sounds better and better each time. Don't miss turning on your listeners...A cut deeper on World Party? We're standing by our guns (and ears) on 'Ballad Of The Little Man'. It has more soul. I hope you'll think so too...I think everyone at Elektra had a heart attack when they heard we added Dokken! And they didn't even threaten me. Indeed, the cradle did rock this week with Dokken; Cinderella and Whitesnake. Smart move, guys--'Whole Lotta Love' meets 'Black Dog'. Watch the follow-up will be 'Stairway' meets 'Cashmir'. Hey, I don't care who they rip off, it's h-o-t, h-o-t, h-o-t! (But not as h-o-t as Tesla...yet)!"

LIR, LONG ISLAND, NY ASST. P.D./M.D.-LARRY "THE DUCK" DUNN: "We've conducted outstanding live interviews recently. M Mv thanks to the <u>Mighty Lemon Drops</u>, who all woke up naked with tour passes around their necks in Providence, for one of the funniest phoners I've ever conducted! This happened prior to our co-promote at the Ritz with the Mighty Lemon Drops and the <u>Champleons</u> U.K. Also, special 'thanks to the <u>Venetians</u> and <u>Matt Johnson</u> of <u>The The</u> for in ightful and informative Johnson interviews...Matt Brust, starting forward of the St. John's Redmen (my Alma Mater) was a special guest DJ on my show recently. Aside from being a great ball player, Matt is a big <u>Smiths</u> and <u>Depeche</u> fan...<u>The Cult single is outstand</u> The remix is superb! It is big for these guys. They've come a long Mode fan...The ing! time for these guys. way from being Southern Death Cult... Other adds this week: Rank And File; Wire Train; Siouxsie And The Banshees--Their great cover of John Cale's 'Gun'; Pete Shelley and the March Violets 'Miss Amanda Jones'...Screamer-of-the-week: Flesh For Lulu 'I Go Crazy'."

WBRU, PROVIDENCE, RI M.D.-ALISON STEWART: "WBRU is proud to announce the release of its 1985/86 Rock Hunt album in the compilation of 13 New England bands, a double live album, that will be distributed throughout Massachusetts, Rhode Island, Connecticut. All interested parties can contact us at Rock Hunt c/o WBRU, 88 Benevolent Street, Providence, RI 02906".

CFNY, TORO HAMILTON: TORONTO, CN ASST. M.D.-IVAR TON: "'Some Kind Of Wonderful' Soundtrack is the surprise record of the week!...Flesh For Lulu's 'I Go Crazy' is certainly the early station favorite... Thanks to the lovely <u>Cleo</u> of the <u>March</u> <u>Violets</u> for dropping by this week for an interview. It must be a record for a band to be together for five years and not one official Lp released... The Style Council continues to get top airplay, being one of our heaviest Lps in almost two years... The Cult's 'Love Removal Machine' is certainly not another 'Sanctuary'. It's already getting strong response after minimal airplay. Definitely a grower...For those of you who get Beggars Banquet U.K. servicing, check out Wicklow Hill by <u>Pierce Turner</u>! Produced by Phillip Glass, the recording is impeccable and is reminiscent of John Foxx in his early <u>Ultravox</u> days...I would also like to send a special thanks to <u>Marc</u> Durand and Alert Records for sending me to Montreal to see Bundock. No U.S. deal yet but I was impressed to the point that this hopefully won't take long...If you're having trouble finding something to play on the <u>K.D. Lang</u> And <u>The Reclines</u> album, try 'Turn Me 'Round'' and 'Tune Into My Wave'...<u>Don Berns</u> is back next week. I go underground until the next Convention!"

WBRU, PROVIDENCE, RI M.D.-ALISON STEWART: "The big story this week is <u>The Cult's</u> 'Love Removal Machine'--how can you fit so much sound onto one little 12"? Their last record blew the plaster off the walls and now the the roof goes too! It's our 'Master Blaster' and the most exciting release in the recent past...Oh those <u>Del</u> <u>Fuegos</u>. Somebody get the Superstar application for these guys. 'Long Slide (For An Out)' is funky, bluesy and destined to ride the charts...I've never seen such phone reaction as I have in the past week for XTC's 'Dear God'. It's really a phenomenon!"

KUPD, PHOENIX, AZ M.D.-J. DAVID HOLMES: "The phones are sizzling for Whitesnake's 'Still Of The Night', a contemporary rock classic in the vein of 'Whole Lotta Love'. If the rest of the album is this strong, Whitesnake will have one of the most potent rock Lps of the year...AOR did it most recently with the Georgia Satellites and World Party and now we're doing it with Cutting Crew--Proof that album rock breaks new artists first. Before CHR thinks it's safe, we are selling exciting new music! The Cutting Crew's 'Just Died In Your Arms' is #2 requests only behind Bon Jovi 'Never Say Goodbye'. For the back-up tracks we like 'Any Colour' and 'One For The Mockingbird'...The Tesla album is going bonkers on the phones and in the stores, so this week we go with the second track 'Little Suzi'. I love that acoustic intro... Can't wait to get the U2 in the studio and play it seven or eight times in a row... Thanks to Jeff and Mick from Dokken for stopping by and being guest DJs Friday from 7:00-midnight. Phoenix loves Dokken and Dokken apparently loves Phoenix, cause these two members live here!"

WMMR, PHILADELPHIA, PA M.D.-ERIN RILEY: "It was an eventful week in Philadelphia! Monday through Friday was live from Flannigan's, a local club. Many thanks to all the guests who participated. <u>DeBella</u> does a terrible thing to musicians: He has each and every one of them sing before 9:00AM in the morning with our house band, <u>The Flaming Caucasians</u>. Everyone was extremely cooperative. <u>Southside Johnny</u>

is more than experienced with DeBella and the Caucasians. He's helped us out many times before, but you should have seen the look on Lou Gramm's face when the band started giving him the eye. It didn't take too long for him to jump up and sing 'Money' and 'Louie Louie', the Morning Zoo theme songs. Thanks to Frank Sciarra and Danny Buch for putting it together for us! Poor John Eddie was badgered into singing 'Twist And Shout' at 7:30AM on no sleep! Friday brought us a reunion of the A's, one of Philly's favorites--but Friday night was a hell of a party. Many various record companies were in town to see our local superstar, Tommy Conwell. Tommy, as usual, put on a killer show, a lot of sweat for February!"

KBCO, BOULDER, CO M.D.-DOUG CLIFTON: "Best new release: Oingo Boingo 'Boingo'. We expect a continuation of the success that we had with 'Dead Man's Party'... Favorite new song: U2 'With Or Without You'. Without a doubt my favorite song of the year...Building: Steve Miller 'I Wanna Be Loved'; Santana 'Praise'; and Gregg Allman 'Evidence Of Love' goes into power rotation...Requests: China Crisis; Prince; Heaven 17; Pete Townshend; World Party...Thanks to: Images, for stopping by--Jay Beckenstein for visiting with us. Special thanks to Leo Kottke for bringing his guitar by and playing a couple of tunes live on the radio!"

- WLVQ, COLUMBUS, OH M.D.-WENDY STEELE: "Andy Taylor is rockin'! The intro is a bit dramatic for the office folk, but just right for the night--It rips!...I like the soft side of Billy Idol--his voice, you fool. 'Sweet Sixteen' goes into medium this week as well as Robert Cray; Dokken; Huey Lewis And The News and Sheriff Andy Taylor...Can't wait for U2; Fleetwood Mac; Bryan Adams and Night Ranger."
- NEW YORK, NY ASST. P.D./M.D.-BOB ES: "I think it's Tuesday so this WXRK XRK, NEW KRANES: must be New York! After a whirlwind West it's good to be back. Coast trip, Coast trip, it's good to be back. Congratulations to Lin Brehmer on his well deserved award. See how easy it is to get CD service, Lin?...Thanks to everyone involved with 'Live From L.A.': John McGahn, Z Zimmerman; Bruce and Maddy Goldberg. The entire week was a huge success from every standpoint. McGahn's staff is extremely talented and put together a most unforget-table week of radio...The music over the past week has been simply incredible. There are really no words that can do justice to the new U2 record. It shines, it glows, it makes radio sound glorious...Hearing the new Cult record was a treat. Just as we drove across the Golden Gate Bridge, the song came blaring throughout the speakers. 'Love Removal Machine' rocks and will undoubtedly be a big Cult record. Also in the same breath, congrats to the <u>Del</u> the same breath, congrats to the <u>Del</u> <u>Fuegos</u>---The best thing to come out of <u>Boston</u> since the World Series. If the <u>Del</u> <u>Fuegos</u> aren't America's biggest rock 'n roll band by the end of the Summer, I'll eat vinyl on Broadway. There are really many more things to say, but I can't remember them all...Thanks to all the <u>Bubba</u> action in San Francisco. Thanks to every-one in LA" one in L.A.'
- WGTR, MIAMI, FL M.D.-THE BEARMAN: "For an old boy from North of the Mason Dixon Line, this 80° Winter is about to kill me, but in between bouts of peeking at the girls and unloading boxes, I did manage to find time to listen to a few CDs this week. Best of the bunch has got

to be that Jon Butcher. It's apparent that he's done his homework over the last year because he's got a keeper from start to finish in 'Wishes'...We're also real pleased to see strong follow-ups from Robert Cray and World Party, and that new Whitesnake is second to none...The <u>Gregg</u> Allman CD is performing so well that we decided to go two deep adding 'Anything Goes'. How'm I doin' now?"

WXRT, CHICAGO, IL M.D.-LIN BREHMER:

- WDHA, NORTH JERSEY, NJ G.M.-BOB LINDER: "Hey, we really appreciate the special advance CDs, but how about a follow-up booklet/liner notes when they're ready? It would also serve as a programming reminder to get that follow-up mailing... Special 'thanks' for the Island and the Virgin Samplers! Our CD players are spinning non stop!"...P.D. MIKE BOYLE: "The Dammed have done a great remake of Love's 'Alone Again Or'. When you get the rest of the album, check out a cut called 'Restless'...Hey, Randy, do I still get the MCA CD of my choice? ...Have you checked out Island's 'The 77's? Don't throw this aside. I'm positive you'll hear it in one spin!... Boyle's 'Mo Fo' this week has to go to The Cult. Have you heard the guitar in this tune? Instant phones as soon as it's played!...I'd like to thank 'Santa-Bob'! We now have two Technics SL-P1200 CD players in the studio! Talk about state of the art These are the broadcast machines!"
- AQX, SYRACUSE, NY ASST. P.D.-LORRAINE RAPP: '' 'The Dream Warriors' Soundtrack WAQX from Dokken is an instant phone s-m-a-s-h! For the movie premier of 'Nightmare Part 3', we hired the makeup artist responsible for 'King Kong'and 'Ghostbusters' to do the five-hour transformation that turned one of our jocks into Freddie Kruegar. Freddie was then chauffeured in a limo to area malls where we gave out free movie passes and merchandise. Several hundred showed up at each appearance...We have a show coming up with the Gregg Allman Band and judging by the phones we're getting on the new album, it's going to be a quick sell-out and a h-o-t show! His voice is as strong and bluesy as ever, appealing to both the old Allman Brothers' fans and the new audience. It's incredible and refreshing to have an artist who has been through so much musically and emotionally to come out with an album as clean and deep as this one...Good luck to <u>Chris Rivers</u> who is leaving to do Mornings at WCCC in Hartford...On behalf of everyone at 95X, we extend our deepest, heartfelt sympathy to <u>Smokin' Joe Simpson</u> at WHCN, Hartford, on the sudden loss of his father. Our thoughts are with you."
- KLAQ, EL PASO, TX M.D.-MAGIC MIKE: "KLAQ did a 12 hour Radiothon for Special Olympics and the rock 'n roll community of El Paso came through with over \$14,000 in pledges!"

WTPA, HARRISBURG, PA ASST. P.D.-CHRIS JAMES: "Finally, the long-awaited followup to Europe 'The Final Countdown'! 'Rock The Night' looks to be big, if not bigger!...The new Whitesnake's a killer. This one's just not for the kids. It should be a h-i-t in all demos...Don't miss the boat on the new Farrenheit. The record sounds good on any format...Georgia Satellites and the Cutting Crew continue to burn up the phones. Power rotation ahead in both futures!"

WPLR, NEW HAVEN, CT M.D.-CHRISTINA: "Seas part and radio dials switch to 10,

all in the first few beats! Nothing can touch the new <u>Cult</u> tune 'Love Removal Machine'. This is rock 'n roll!"

KNCN, CORPUS CHRISTI, TX M.D.-TOM PAPKER: "My apologies to anyone who has had trouble in getting in touch with us. Our new days and times for taking new music calls are as follows: Elise will be taking calls on Mondays and Fridays from 3:00PM-5:00PM, and I will be taking calls on Wednesday and Thursday from 10:00AM-2:00PM, Central Time."

WAQY, SPRINGFIELD, MA M.D.-JOE MARINO: "Boston-based rock 'n roll is coming on heavily in the national picture this year. Besides the obvious like <u>Boston</u>, <u>Peter</u> Wolf, etc., we have three new artists or semi new artists bringing the Boston sound to the Nation. The foremost of these is Jon Butcher's Lp 'Wishes', w which is deeper than any album I've heard in a long time. Not even one piece of bad material appears on it...Then we have the <u>Del Fuegos</u>, 'Long Slide' shows that the band has staying power after last year's album 'Boston Mass'. These guys are unique without being off the wall...And the Boston sound is very evident in the Farrenheit 'Fool In Love'. This one is bound to heat up them phones. So far, th Boston sound is the sound for 1987!...For the once there's a heavy rockin' track that was made after 1980 that can be listened to by your upper demos, without turning out. That's Whitesake, who have a winner with 'Still Of The Night'...And, last but not least, <u>Concrete Blonde</u> is a sleeping moster. Throw on 'True' and se and see for yourself!"

- WEGR, MEMPHIS, TN M.D.-KELLY CRUISE: "The World Party continues--Our second choice track from the Lp is 'World Party'. It's the tune that kept ringing in my head long after I had taken the record off the turntable. 'World Party' is a song that grows on me, much like 'Ship Of Fools' did. So, give it several listens! ...The Frozem Ghost and Jon Butcher have some of the best new songs this year. We've already placed Frozem Ghost in medium rotation. 'Variety Tonight' from REO caught me ever since I heard it on the world premier weekend sampler cassette. We went with that one as a second track...About the Venetians: Don't close the blinds on this one. 'So Much For Love' has the sound that other bands are trying to find!"
- WLAV-FM, GRAND RAPIDS, MI M.D.-ARIS HAMPERS: "WHITESNAKE--WOW! My favorite vocalist with strings! If they all sounded this good, we'd <u>play</u> them all!"
- WXRC, CHARLOTTE, NC M.D.-JUSTIN PHELPS: "Excited about the new David & David tune! Like the lack of synthesizers... We're still getting great phones on Tesla. Good solid rock 'n roll!"

WLNZ, LANSING, MI M.D.-CATHY DOWN: "After putting this one quarter in the pinball machine, 'Binbot', last week, my addiction for the hi tech games started all over again. (Alan Ferszt--it's your fault!) My mind is filled with images of 5 silver balls circulating through the maze of rotation much like the adds this week from Whitesnake; Huey Lewis; Europe; Little America and The Cult. The intensity continues building with each flip of the flippers' spin on the air!--The highlight of the game comes with the last ball and the add of The Cult 'Love Removal Machine'. A strong rocker with a Zeppelin tilt! This tune should give The Cult a whole new following, yet still satisfy the already mesmerized fanatics ...The game 'over' light is flashing and I see high scores go to the crew at Island and Columbia Records for bringing out their CD samplers. Brilliant idea, especially adding The Traffic and Palmer cuts--great way to rack up a few extra bonus points. The sound of ringing bells and flashing lights are the result of Capitol's Dave Tezak and RCA's Mike Whitenack for coming through once again on the Bob Seger and Toby Redd promotions. All in all a very winning week. Pinball anyone?"

- WHTF, YORK, PA ASST. P.D.-TIM DRAYER: "I'm starting to take a serious look at the Stranglers. We might come home on this one within a few weeks...We have been receiving massive female phones on <u>Robert</u> Cray, especially the track 'More Than I Can Stand'...Glass Tiger sounds good (with Bryan Adams of course)...And I'm beginning to get hooked on the new Joan Jett. In other words, yes, I'm beginning to see the 'Light Of Day'."
- WBLM, LEWISTON/PORTLAND, ME M.D.-ROBIN MATHIEU: "Del Fuegos have really hit their groove. The brass is a nice addition and I'd say the 'Long Slide' is here for the long run...What can I say about the Cult. Give it a few good listens and it cooks. Rick Rubins has given the new record a straight ahead live rock and roll feel without loosing any of the wild guitars and distinctive vocals that made 'Love' my most listened to album last year...Now for the stuff we're already playing. Sammy Hagar, Tesla, Lou Gramm and World Party continue to dominate the phones...Frozen Ghost is the new in-house favorite here...And Concrete Blonde continues to ring true but the beauty of this album is in the depth. And as we approach our St. Patty day party with Concrete Blonde, we're looking to 'Dance Along The Edge' for a double shot."
- IOT, TOLEDO, OH M.D.- JIM STEEL: "The brilliant person behind the release WIOT of the Island sampler CD gets my vote for executive of the year...<u>Traffic's</u> 'Low Spark Of High Heeled Boys' its digital tops. After enough shots of tequila with Joe Carroll of Epic records and members of our <u>excutive</u> management staff, we all decided that the <u>Stranglers</u> is a record to be reck-oned with. So its mesmerising beat gets the green light...In the three years I've been here at WIOT I've never seen such pos-itive phone reaction in such a short period of time for a new artist like that of the Cutting Crew. From the first cut to the From the first cut to the Cutting Crew. last, this whole Lp sparkles...Frozen Ghost also gets the green light which was overdue. 'Should I See' reminds me a bit of the Fixx. There seems to be a mistake being made if 'Never Say Goodbye' is not the next single is not the next single from Bon Jovi. The song just gives the Trom Bon Jovi. The song just gives the band so much more balance...Finally, AND DAMN IF IT ISN'T THE MOST IMPORTANT BECAUSE I'M TIRED OF GETTING A BAD RAP FOR NOT TAKING MUSIC CALLS ON MONDAY. HEY FOLKS I DON'T TAKE MUSIC CALLS ON MONDAY. - You respect my position and it makes it easier for me to respect yours."

WHMD, HAMMOND/BATON ROUGE, LA M.D.- PHIL COLWART: "We're playing Andy Taylor's 'I Might Lie' from the most recent MCA CD sampler. A radio station without this song is like Mayberry without a sherrif. MCA Records has promised us Parish-wide flea infestation if Andy Taylor can't find a bullet for Barney's gun by the time that motorcycle fades into the sunset...We are one of those stations who can play <u>Simply</u> Red. If you program a hybrid, this is the stuff...The <u>Neville Bros</u>. are a staple item in southern Louisiana. 'Whatever It

Takes' sounds good on the Tonight Show, better in concert, and perfect on vinyl. Give your listeners genuine New Orleans rhythm and blues -- whatever it takes...Don Dixon is still strong here, as are Julian Cope, Colin Hay, and Crowded House...Prepare yourselves for a new release from a great old core artist --- Be Bop Hobel of EMI gave the Catfish a sneak listen and it could--gasp--be his best yet!"

- WAAF, WORCESTER/BOSTON, MA ASST. P.D./M.D. <u>RUSS MOTTLA:</u> "The Cult's 'Love Removal Machine' is a strikingly simple song with plenty of guitars that will be an instant hit with our Led Zeppelin, Rolling Stones, Van Halen core...Again, this week, I thank God for the new Jon Butcher album 'Wishes'. 'Goodbye Saving Grace' continues its massive acceptance among 16-34 rockers...Patty Smyth's Lp 'Never Enough' is a deep one. I really like the Willie song 'Sue Lee' and 'Heartache Heard 'Round The World'...And what's this Janis Joplinish refrain at the end of the record."
- KFMG, ALBUQUERQUE, NM M.D.-MICHAEL DAVIS: "Look out, here comes the onslaught of monster releases. The majors of the week for us -- Whitesnake 'Still Of The Night'; super immediate response, and Frozen Ghost 'Should I See'. Predicted response on Frozen Ghost from Anytown, USA. Who are these guys? Hot, that's who."
- WQBK, ALBANY, NY M.D.-BOB WELCH: "Thanks to Island for the CD. It's about time somebody did this. At last, 'Low Spark' on CD...Good to see <u>Paul Brown</u> from IRS last week...And also, glad Jay Ziskrout made Albany one of the stops on his world tour...Phones are hot for the new <u>Dead</u> so hurry up guys."
- WKFM, FULTON/SYRACUSE, NY P.D.-STEVE BECKER: "Got to see the Kinks recently in Boston and found that Ray and the boys can still rock and roll with fervor. The new material they did came across clean and crisp, but it was the classics that charged the audience as the renditions were just not retreads. Though the songs came out twenty years ago, the edge that the group gives them in concert makes it sound like they could be hits today. Thanks to Roman from MCA for first class treatment. By the way, we'll be sending some listeners to share that experience with the Kinks but in Chicago instead. I'm sure they'll enjoy it...Two groups stand out recently: Frozen Ghost with 'Should I See' and the <u>Cutting Crew</u> with '(I Just) Died In Your Arms.' If other new groups come out with material like this this is going to be some 1987."
- KQDS, DULUTH, MN M.D.-WADE LINDER: "Vinnie Vincent is receiving heavy phones... There's been a wave of phones over the weekend for Andy Taylor's 'I Might Lie,' and no lie Hank Williams 'Name' is receiving good phones...Also, our listeners aren't saying goodbye to Bon Jovi. Still Top 5 with 'Never Say Goodbye'...More fun rock from Los Lobos."
- WCLZ, PORTLAND, ME M.D.-LORETTA CRAWFORD: "Thanks to Tony at Capitol for the Beatles on CD. It was anhistorical moment when we first put them on. I may have to check out of reality for a while when 'Abbey Road'makes it to CD. Tons of great new music this week for the rock enthusiast. Pete Townshend's 'Another Scoop' replete with magnificent liner notes is another piece of history. 'Brooklyn Kids' goes in this week. If you like jazz, listen to Ken Wiley and Chris Spheeris. The Rippingtons continue to sell like cakes off the griddle and we

applaud an audience with such good taste. You get no snow all of February and March 1st there's a storm at your front door to rival any in the Artic Circle. See you after we dig out."

- WOUR, UTICA/SYRACUSE, NY M.D.-TOM "We heard some real Academy Award M.D.-TOM STARR: performances on the phones as the labels scramble to lock adds and solidify rotations before the heavy hitters move into the batters' box. I have high hopes for a lot of the newcomers, but the only recent debuts I'm convinced will completely survive the onslaught are Cutting Crew and Frozen Ghost. These two have a sound the format seems anxious to deal with and more importantly, the kind of future airplay depth we'd love to see on more first outings. Others we're pulling for are Concrete Blonde; Little America and though it isn't a debut, the brilliant new one from Chris Isaak. We expected a buzz when we added the Poison record in support of an upcoming appearance with <u>Ratt</u>. What we got was a roar! #1 phones from day one! ...Love that Island sampler CD with <u>Palmer</u> and <u>Traffic</u> thrown in. Let's see more! a welcome innovation, as is the demise It's of the 12"."
- WAPL, APPLETON/GREEN BAY/OSHKOSH, WI M.D.-RICK PANNECK: "I would like to thank Gary Triozzi of PolyGram for all the help with the Bon Jovi show in Milwaukee. The concert sold-out in two hours but we managed to give away tickets. Bon Jovi is so-o-o h-o-t now that the mere mention of possibly meeting the band backstage caused our phone lines to light up constantly for three weeks. The phone company is still complaining!...David & David is one of the best new bands of the '80s. 'River's Gonna Rise' will become an AOR staple...The Georgia Satellites intrigue both Brian and I with the 'Nights Of Mystery' track. The slow acoustic build into a solid Satellites rocker shows some real dynamics."
- WKQQ, LEXINGTON, KY M.D.-STACY YELTON: "What a deluge of great music. Crawling out from under, we managed to add some of this stuff. Let me say that if you're undecided about Hipsway, ask yourself if you've ever played INXS. If you have, don't hesitate on 'The Honeythief'... <u>Concrete Blonde</u> is on the playlist and it won't be long before Central Kentucky is on the phone...<u>Bon Jovi</u> blows into town on March 21st so 'Never Say Goodbye' was an easy pick. Sales are still #1 on 'Slippery When Wet'!"
- WWZU, WILLIAMSPORT, PA P.D.-MARK WILLIAMS: "I talk to people on the phones and they all say 'Well, Mark, I see you're still raving about <u>Poison</u>!'--Who me? Not I! The record speaks for itself! It's a bonafide #1 rock hit. Look at your damn retail research! Look at your request lists! <u>Poison; Starship; Lou Gramm; Peter Wolf</u> and <u>Tesla</u> round off our Top 5 phones. We're getting great reaction also on the <u>Cutting</u> <u>Crew; Crowded House; Glass Tiger; China</u> <u>Crisis; Patty Smyth; Pseudo Echo; Stranglers;</u> <u>Cindrella; Dokken; Vinnie Vincent</u> and <u>Timbuk</u> <u>3</u>!"
- WXXP, PITTSBURGH, PA M.D.-D.J. BIRD: "Pittsburgh has rewarded WXXP with sell-outs for the <u>Ramones</u> show, and most recently <u>Joan</u> <u>Jett And The Blackhearts</u>. Special 'thanks' to the <u>Ramones</u> crew and <u>Mark Wallace</u> of Warner Bros, and we will never forget Joan Jett's appearance at the radio station and her spectacular show. Thanks to the Supreme Court of <u>Laguna!...By</u> the way, if you have not added the new single from <u>The</u> <u>Cult</u>, 'Love Removal Machine', spank yourself and listen to it---who said <u>Led Zeppelin</u> wasn't reuniting?"

If you find room on your playlist, make sure and check out In Pursuit 'Only For You'. A great new band on MTM...Also still enjoying the Beatles CDs and can't wait for Capitol to release the rest of them!"

WRUF, GAINESVILLE, FL P.D.-HARRY GUSCOTT: "Thanks to Steve Jones and Atlantic Records for their hospitality in Orlando at the <u>Genesis</u> concert. The band just keeps getting better in concert and the light show is something to be seen...Genesis put on one hell of a show from start to finish!... For a debut album, the John Philip record is worthy of a listen. It is fresh rock 'n roll with an edge with the sound of an early Tom Petty record...Finally, Jeff Shane and Epic Records should be commended for their long term commitment on the Europe record. 'The Final Countdown' was an outstanding track which has proven itself in Album Rock and Top 40 radio. Rock 104 is glad to have been with the project from the beginning!"

It's a thoughtful, insightful record that dares to say publicly some of the things we have all thought privately about religion at one time or another...The new Cult record knocked me down. - WPDH, POUGHKEEPSIE, NY M.D.-PAM BROOKS: "My heartlest congrats to Bruce Hornsby And The Range on their Grammy! I felt like a mom bursting with pride watching her sons. This is one special project I fought to hold onto here at WPDH because at first listen, many months ago, I kn they had a unique sound that you don't I knew have a chance to expose often enough. Each time we went deeper on another cut, I felt a real triumph and their award proved right. Thanks, guys!...Lou Gramm's 'Ready Or Not' is a chartbuster. The calls are coming strong and steady on 'Midnight Blue' and now we're rocking them with the title track, and I see more to come. A11 this also shows that our listeners are dying for a new Foreigner Lp. Smart move Lou, to tide them over with your fine solo effort...Hey, <u>Mark</u>, I've been telling you from the start, 'Sweet Sixteen'. Way to go! The perfect follow-up to expose a different side and quality of Billy Snarl and rock them and then ease . Them into the laid back sound that he delivers in a truly different way. - KWHL, ANCHORAGE, AK M.D.-KEVIN VARGAS: "I sure love those CD samplers! I'd love them a lot more if they were all AOR material! Seeing that a station that plays more music from an album is more likely to help sell more discs, it would make sense to see more disc! I can't help but feel AOR is being used as a set-up for CHR, instead of simply being served. I'm not bitching about getting samplers, just crusading for more AOR material! The day I see songs on a sampler that CHR won't touch is the day I'll rant for that label! In the meantime, thanks to Columbia for following the MCA lead and thanks to Pasha/Capitol for the Jon <u>Butcher</u> disc. Service gets better every day and I hope it just keeps getting better."

This album is kind of like <u>Paul</u> dinary Lp. Simon's in that the songs are a bit more artis-tic than commercial but they are great. The word of mouth expected is beginning and we are showing a nice sales pattern. WLUP is on are showing a nice sales pattern. WLUP is on two tracks! <u>Colin James Hay</u> will add depth to your sound--it's the goods, boys and girls, and this kind of art demands all of your attention...Hipsway keeps on coming! Call it the new INXS or whatever you want, but every week, major after major comes in!... And finally, check out <u>Mondo Rock</u>'s 'Primitive Love Rites'!!! The year of the harmonies is here. When the harp breaks into that ZZ Top/Gibbons' guitar riff, I'm gone. And who can't relate to primitive love rites?... P.S., thanks to everyone for their excitement on <u>Patty</u>'s new album--it truly is a gem."

ICTOR S. LENTINI, PASSPORT/P.A.R.A.S (818-500-7677) "Passport is buzzing with new releases. Excitement is mounting for 'th initial adds on 'To Be VICTOR S <u>Crossfire Choir with initial adds on 'To Be</u> Young' from KEYX, WTOS, WEQX, WLNZ, WIDB, KSJS, KRUI, WSIE and KUT...Hey! Don't pass up the <u>Synergy</u> 12"!! Remember <u>Larry Fast</u> --synthesist for <u>Peter Gabriel</u> for years? Check out 'Redstone' on the A-side. It has that surf-Ventures sound and it doesn't appear on the Lp, only on the cassette and CD...Bring out the BIC lighters for The Rods. Look for your three-song 12" featuring 'Crossfire', 'I'm Gonna Rock', and the ssfire', 'I'm Gonna Rock', and the infam-'Communication Breakdown'...Upcoming releases include <u>The Angry Samoans</u>, <u>Bob</u> <u>Pfeifer</u>, <u>Penquin Cafe Orchestra</u> and <u>Bill</u> If you would like to interview Bill Bruford. MICHAEL PRINCE/ALEX MILLER, ATCO (212-484-6400) "What can be said about U2? If you're not playing it you're late...Eddie And The Tide, whose 'Weak In The Presence Of Beauty' roared out-of-the-box on the West Coast, jumped over to New York City and is now receiving atten-tion in Phoenix, Minneapolis, Amarillo and Iowa City, is a song we cannot let you pass by. Eddie And The Tide built a solid AOR base with last year's 'One In A Million' and and this year, as the band prepares to release the Lp 'Looking For Adventure', you have the opportunity to play the advance 12" 'Weak In The Presence Of Beauty'. It has all the ingredients of a hit including the fabulous ingredients of a hit including the Iabulous production of Keith Olson...If you want a guitar sound with some 'Nitty Gritty', don't pass up <u>Reckless</u>. The Reckless 'No Frills' album is on your desk this week. This New York band plays solid rock n' roll...Metal programmers! <u>Manowar</u> is 'Fighting The World', every song is <u>anthemic</u>. We love the <u>Orson</u> <u>Wells</u> narration on 'Defender' and 'Black Wells narration on 'Defender' and 'Black Wind, Fire and Steel' with the world's most bombastic ending for a song ever!...Saw Julian Cope live at the Ritz. The man is a burgeoning star. His show is a must-see... Since you did, thanks for reading.

R. VINNIE SPURIOUS, PASSPORT/P.A.R.A.S. (818-500-7677) "I'm a SWM who enjoys fishing, fine dining, and music. I'm lood for Program Directors and Music Directors DR I'm looking with feedback and adds on <u>Crossfire Choir</u> Synergy, and <u>The Rods</u>. I would like to f Synergy, and <u>The Rods</u>. I would like to find out, what is the best lure? And, what makes a Samoan, angry?. Is there gonna be a Tiger Beat Convention this year?"

## RECORD ACTION

Continued From Previous Page

(213-278-1181) JEFF NAUMANN, VIRGIN "<u>Cutting Crew is a true, bonafide hit record</u> not only at Album Radio but now Top 40, too. The phones are ringing all over the country requesting more Cutting Crew. Heavy rotation seems to make a whole lot of sense right now. I can't remember the last time a new band got so much positive reaction in such a short period of time...<u>Killing Joke</u> is no joke. 'Sanity' may take a few good, loud listens before you 'hear' it, but it definitely does grow on you. 'Sanity' has a killer hook and grow on you. 'Sanity' has a killer hook and is right for mainstream radio. Just ask <u>Bill</u> 'The Master' <u>Prescott</u> from KZAP or <u>Jim</u> <u>Trapp</u> from KZEL if you don't believe me... Get ready for the next Veritable Suckaahh release of <u>The Other Ones</u> 12", 'We Are What We Are'. Programmers, tip sheets and consultants have been buzzing about this song and group since the Abrams Convention. The Other Ones music is the same high quality as the Cutting Crew. The Other Ones are a family trio of two brothers and a sister and they're unique and refreshing. 'We Are What We Are' could very easily become an anthem, too... The Chris Isaak album is a killer!'

RAY GMFINER, ELEKTRA/ASYLUM (213) 205-7433 "Congratulations to Capitol Records on a job well done on <u>Crowded House</u>. What a smash! Big thanks go to <u>Harvey Kojan</u> of KLOL for the alltime classic <u>Dokken</u> comments. And I quote, "Dream Warriors" is #1 requests out-of-the-box, and that was before they even heard the tune.' One week later and this enthusiasm has spread across the country. This past weekend, 'Nightmare On Elm Street, Part 3' opened and debuted at #1 box office, out distancing 'Platoon' by a 2 to 1 dollar amount. Dokken's 'Dream Warrior' is the theme song for this box office smash and its star, Freddie Krueger, is featured in the Dokken video now on MTV. Simply put, I can only urge radio to jump on this train 'cause it's rollin'! Speaking of trains, Elektra/ Asylum acknowledges your lead and agrees 'Railroad Steel' is the track from the #6 selling Lp in the country by those <u>Georgia</u> Satellites...Coming Tuesday, March 17th the Hoodoo Gurus with a group of ladies who also know how to sell a <u>lot</u> of records...P.S.: Ron Garrett, bless you, you hit the nail on the proverbial head better than anyone <u>ever</u>

MIKE CORCIONE, RELATIVITY (718) 995-9200 "Robyn Hitchcock is still blowing out of stores nationwide and gathering thousands of new fans along the way. Don't ignore this record! You'll have to play him sooner or later so why not sooner. Be a leader not a follower. Anyone can play Bon Jovi or Bruce Hornsby not that I have anything against either one of them. It is a real shame that a station won't add a record because it's not on a so called 'major' label. What really makes a label major anyway? Lots of cash? Promotional t-shirts? Play music because it's good not because it's on that 'major' label or you got free t-shirts for your entire family. Be adventurous and watch the positive results make you the person to follow.

## PROGRAM PRODUCERS

ED PINKA, RADIO INTERNATIONAL (212-302-1670) "If you're still looking for that special 'SPECIAL', our '20th ANNIVERSARY SALUTE TO THE DOORS' is coming April 10-26. Two hours of music and talk that'll surely get your audience talking. Call if you need more info' or if you still haven't heard our new daily show, 'BRITISH WAX MUSEUM'...Thanks."

WALT RITTMAN, DIR (212-371-6850) "It's been 'A Long And Winding Road' since 1964 when the Beatles first hit our sunny shore. And although 'You Can't Buy Me Love', you can say 'I Feel Fine' when you listen to the only weekly Beatlefest: Scott Muni's '<u>Ticket To Ride'</u>, 60 minutes of music, info', and general celebration of a fabulous time in history. So, tell Beethoven to roll over and get on this show, today not 'Yesterday', 'Because' it's 'Here, There And Everywhere', and if you wait too long, well, 'Tomorrow Never Knows'...Gotta go,'Here Comes The Sun'."

SHERI GILLIS, DENNY SOMACH PRODUCTIONS (215-446-7100) "You've heard a lot of talk about New Age music, and we of Denny Somach Productions have just launched a 'New Age' show. It's a two-hour weekly program that is thoroughly researched, digitally produced and authoritatively presented. If you are interested in hearing a demo, please contact our office. This program is great for weekend mornings, Sunday evenings, and many stations are using it as a 'headphones only' show. This program is not just 'New Age' (i.e., Windham Hill), but real new progressive music. Some artists appearing on the first show include: Tangerine Dream, Jon And Vangelis, Jerry Goodman, Shadowfax and Mic Holwin. Call now for the market exclusive on the 'New Age' show. The program debuts the week of March 30 to April 4."

JON BON JOVI: I don't consider myself a sex symbol. I am a singer in a rock and roll band and that's all I ever wanted to be. And that's all I'm going to be as far as the rest of it goes, you know, to be considered the best band is great. You win a songwriting contest -- that's great. That's That's what I want, not (to be) a sex symbol.
