PROGRAMMING TO WIN

People don't always tell you the truth. And people do things for emotional reasons, not factual reasons. Researcher Mark Ramsey explains why these two truisms are critical in interpreting audience research.

PREMIER PICKS

THE SMASHING PUMPKINS MELLON COLLIE AND THE INFINITE SADNESS, VIRGIN

Following the breakthrough commercial success of Siamese Dream (3.5 million sold), The Smashing Pumpkins return with an ambitious and artistic triumph. We had to go all the way back to U2's The Joshua Tree (1987) to find something that stacks up with Mellon Collie in terms of pure innovation and setting a new Rock standard. KROQ's Kevin Weatherly calls it "their White Album" and that's not a stretch, considering the varied tempos, timbres and emotions in this sprawling exploratory work. The sheer number of perfectly suited radio songs is almost overwhelming. Depending on your musical and demographic orientation, any of the following could work: "tonight tonight" (an orchestral anthem to now), "zero," "here is no why," "love" (a rivetting '90s electro-distorto puree), "cupid de locke" (Billy Corgan interprets Lindsey Buckingham interpreting Brian Wilson), "galapogos" and "take me down." Moving to the second CD, we find "bodies" (edgy with razor hooks), "1979," "thirty-three," and "we only come out at night" (both haunting ballads). Judging from the phone reaction to "bullet with butterfly wings" (No. 1 at Modern Rock, No. 6 at Mainstream) and spins (Modern: 2020, Rock: 1484), it's time to begin exploiting the album of the year.

STEVIE RAY VAUGHAN AND DOUBLE TROUBLE "TAXMAN," EPIC

Five years after the legendary Bluesman's tragic death in a Wisconsin helicopter crash, Stevie Ray Vaughan remains as potent and influential as ever and his appeal is no doubt well documented in your upper demo male research even to this day. Taken from the forthcoming *Greatest Hits* collection, his cover of the Beatles' "Taxman" is the only unreleased track in a package of 10 all-time Stevie classics. Lp liner notes are written by Austin writer Dan Forte, with contributions by Double Trouble members and Stevie's long-time friend and cowriter Doyle Bramhall. By the way, in conjunction with the release of this Best Of disc, be on the lookout for the Epic Home Video of *Live From Austin, Texas*, highlighting two different performances from 1983 and 1989.

BONNIE RAITT WITH BRYAN ADAMS "ROCK STEADY," CAPITOL

Raitt is a true gem in the crown of radio, a shining icon that no adult-targeted Rock station should, in their right mind, ignore. Capitol was wise to bolster her fine recent studio accomplishments with this forthcoming live sampling that draws on Raitt's commanding stage presence and proves her to be, as the CD is titled, Road Tested. Your adult audience has been sitting in the stands for each of her annual treks; and no doubt will be including this album on their holiday wish lists. By way of introduction, radio gets a cover of "Rock Steady," with Raitt joined by another adult-charmer Bryan Adams. Their respective smokey Bluesy vocals compliment each other perfectly, and offer a first glimpse of a remarkably produced document of Raitt on stage. It shows an artist as comfortable on stage as she is confident on her axe. A true treat.

TOAD THE WET SPROCKET IN LIGHT SYRUP, COLUMBIA/CRG

"Good Intentions," found on the Friends TV show soundtrack and now also heard on Toad's new album In Light Syrup, flies up the Hot Trax chart to 28* thanks to new believers KATT, KFMF, KJKJ, KQDS, WSFM, WPXC and WRDU who take the cume to 101. The track also soars to 22* Modern Rock. Turning our attention now to the full new album, Toad The Wet Sprocket thought it would be a good idea to celebrate the starting of their second decade together by sharing some of their songs that have never appeared on a Toad album before, but have sprung up on soundtracks, as b-sides and bonus singles, and even a few that have never been heard until now. Those familiar with the So I Married An Axe Murderer soundtrack will no doubt remember "Brother," an obvious place to go next. "All In All" and "Little Heaven" are radio gems, too.

JOE GRUSHECKY & THE HOUSEROCKERS $AMERICAN\ BABYLON,\ RAZOR\ \&\ TIE$

Pittsburgh's Joe Grushecky picks up where Bruce and Mellencamp left off in the mid-'80s. As WDVE's **Gene Romano** eloquently stated, "Joe's music is <u>real</u>. His songs come from the heart. The fact that he made Bruce Springsteen his biggest fan speaks volumes." Indeed, *American Babylon* is the first album Bruce ever produced in its entirety (he plays on it and co-wrote 2 songs). Songs with obvious 25-44 and Progressive programming appeal: The Springsteen-authored "Dark And

Bloody Ground (10 PPW on WMMR); "Labor Ot Love;" and the WDVE pick "Lovers Left Alive," where the lyrics go for your heart as the beat gets you in the gut. Looking to balance your Alterna-fied current list? Joe's de man.

JOE SATRIANI, JOE SATRIANI, RELATIVITY

"(You'r+) My World" is up to 995 spins at Rock, bulleted at No. 24 on the Rock 25-44 chart. WLVQ, KDKB, WKZQ and 5 more register spins in the 20-29 range, while 47 others (KQRS, WMMR, WNOR, WAPL, WHEB, WPLR, KGGO) report 10-19 PPWs. WLVQ and KLBJ are among 7 with top 5 requests. The song's texture has crossed Joe over to 21 Progressive signals, with KFOG logging-on with 18 spins. This self-titled CD redefines Joe, moving him from guitarslinger for hire to the world of serious artists. Radio futures: the rocked-up "Luminous Flesh Giants" and "If," the Satch does Ragtime ditty "Look My Way," and the jazz-funk of "Cool #9.

NATURE, NATURE, ZOO ENTERTAINMENT

Nature has gained immediate acceptance with the Loud Crowd, moving into our Metal Detector's Tuff Ten this report. This swell of support is due partly to the fact that the music that these underground rockers deliver is fairly loud, and partly because it's challenging and interesting. If Frank Zappa was a Gen X'r he might have joined this band. Faith No More meets Zappa at White Zombie's house kind of gets you in the sonic neighborheod. "Cometh" has emerged early as one of the album's best tracks. Vocalist Brian Threatt is responsible for the high level of loops and samples that are woven into the band's fabric. "Zodiac '99" is a more subtle track, while "Z-Man's Party" is a full-throttle blast. "Party" is already playing at KUKQ.

DANDELION

"TRAILER PARK GIRL," RUFFHOUSE/COLUMBIA/CRG

"Weird Out" has really broken through for Dandelion in 1995, creating airplay and some very positive connections with programmers. Both Modern Rock and Rock 18-34 stations have given these Philly boys some strong air support behind that lead track from their Phil Nicolo-produced Dyslexicon. Round Two is "Trailer Park Girl," a grungy follow-up that will no doubt draw Nirvana comparisons. Look for this band to transcend that rep and take this album to the next level on their own terms. The song's a full blown romp that should fit right in as the logical next step.

DEPTH TRAX

COLLECTIVE SOUL

"THE WORLD I KNOW," ATLANTIC/AG

Strings, acoustic guitars and an immediate hook are the musical building blocks here. You know the band's track record. WXTB, KRXQ, KICT, KHOP, WNOR, and WIYY are among 9 stations registering 15-19 weekly plays. Mainstream PDs take note: Modern Rock is jumping in quickly, with 396 spins over 25 signals.

TED NUGENT

"LOVEJACKER," ATLANTIC/AG

Sounding more like Motown than the Motor City Madman, Ted Nugent's comeback roll continues with "Lovejacker." Borrowing a passage or two from the Holland/Dozier/Holland songwriting book, this track's a sonic nod to Teddy's Detroit roots. Derek St. Holmes' vocals deliver a poppy edge to the tune, too.

KING CRIMSON

"SEX, SLEEP, EAT, DRINK, DREAM," VIRGIN

Six talents converge in the maelstrom of Robert Fripp's unique Rock vision. This song reverberates across the dynamic spectrum, from seductive rhythmic figures to torrents of distorted guitar and voice. Live versions of "Walking..." and "Heartbeat" are among this EP's bonus tracks.

DIRTMAKER: MIKE RITTBERG ADVANCES TO A&M SR. ROCK PROMOTION DIRECTOR

Mike Rittberg

A&M Records Rock Promotion Director Mike Rittberg has been accorded the post of Sr. Rock Promotion Director with the label.

Sr. VP Promotion Rick Stone told The Dirt Patrol, "Mike is well deserving of this promotion. He's a tireless, passionate executive who knows the music and the business of radio, cold. As soon as my Alzheimer's wore off, one of the first things I did was appoint him to Senior Director. I expect great things from Mike, in terms of leadership of our staff, in this vital area of radio, as well as, breaking artists with him at A&M. This promotion is only the beginning."

"I'm thankful for the opportunity A&M has given me so far," added Rittberg, "and I look forward to meeting new challenges and pushing the A&M Rock Department beyond the successes we've achieved so far with such artists as Soundgarden, Blues Traveler and Monster Magnet, among others."

Mike started in radio at WVFS, Tallahassee while attending Florida State University where he also worked in retail. After graduation in 1990, he worked his way up the Metal Blade ladder to VP Promotion/Marketing before moving to A&M in March, '94 as Rock Director.

EBBOTT ESCHEWS SYNDICATED RADIO FOR SUNDANCE'S PHOENIX QUARTET

Chris Ebbott

After building his career and reputation with Entertainment Radio Networks, Chris Ebbott has hired a moving van to take him to Phoenix as PD of Sundance Broadcasting's four stations there: KZON-FM, KYOT-FM, KOY-AM and KISO-AM. He fills a post vacated by Dave Logan almost two months ago.

GM Terry Hardin remarked, "The broad exposure that Chris has had to the radio and entertainment business through

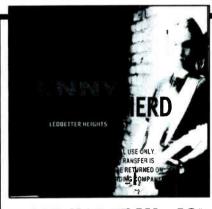

his tenure at ERN makes him right for this job. We have a very unique set of challenges here in Phoenix, with four distinct radio stations reaching four distinct segments of the population and Chris has clearly had the opportunity to meet some of those same challenges with his products. We're going to continue to grow and Chris has the energy and the strategic ability to help us get there." As Ebbott sees it, "At ERN, I've been able to be a part-time PD for

over 2,000 affiliates in nearly every format from CHR to Country to News/Talk to Classical. I'm excited to take my knowledge, experience, and ideas and apply them to Sundance's 4 Phoenix radio properties. There's an incredible team already in the building. Together, we're gonna have a lot of fun breaking the mold and becoming the four best radio stations in town!"

Ebbott's career consists of rising through the ranks at ERN to his most recent VP Programming title. During his tenure there, he developed and executed such shows as "Leeza Gibbons Entertainment Report," "Elvis Duran's Top 30 Hit List," "Weekly Top 30 With Harmon and Evans" and other syndicated programming.

LEE LANDS THE PD SEAT AT WIFX

While rumors swirl around the Prism group in terms of a change in ownership (see *All The Dirt...*), one Prism-related change we could confirm this week was that KRZZ, Wichita PD **Michael Lee** was bound for Louisville as PD of Prism's WTFX. Lee's move to Louisville allows **Peter Smith**, who'd been overseeing programming at TFX and its AC sister WVEZ, to concentrate on the latter, with additional responsibilities within the Louisville operations also coming his way. Lee is expected to be working full-time at TFX before the end of the year.

Michael Lee

Prism VP Director of Programming Bob Bedi reported, "This marks the culmination of a very successful transition for us. When we decided to make a PD change this past March, Michael Lee was the obvious choice for the job. He's a Kentucky native who's done a fabulous job for us in Wichita. But we didn't want to disrupt the momentum we've enjoyed at KRZZ. Peter is a superior programming tactician who was already in the building. We felt confident

that he could get things righted at WTFX in 1995; and the results speak for themselves. With Peter's leadership, the Fox has never been stronger in the marketplace. Now, we're poised for Michael to help push things further."

"Peter's done a great job of transitioning WTFX," concurred Lee.
"While it will be very hard to leave all the great people at KRZZ,
I'm proud of what we've accomplished and I can't wait to build on
the Fox's tremendous base."

Said Smith, "It's been a great year for the Fox and I've been glad to be a part of our success. It'll be enjoyable getting Michael in the building. He's a tremendous programmer and his presence might actually give me a change to sleep every once in a while."

Bedi also extended praise to the MDs at 'TFX and 'VEZ, noting, in the case of 'TFX. that, "Margo Morano [like her 'VEZ counterpart] has taken on added duties during the past several months to ensure the success of our stations. She continues to be a valuable contributor to our programming efforts in Louisville."

ARBITRON ANALYSIS: ROCK RADIO TRIUMPHANT IN SUMMER BOOK

Rock Radio is savoring its strongest ratings performance in years, as a second batch of Summer Arbitrons depicts a format on the comeback. Modern Rock, still strong, is down more often than up in most top 75 market reports available at our Thursday presstime. With a 3.1-4.0-4.5 three-book trend, Detroit's WRIF motors to its best 12+ since at least 1988. The Riff crunches from 4th to 2nd in 18-34, 8th to 5th in 25-54. Morning stars Drew & Mike are No. 1 in both demos... Howard Stern goes to No. 1 25-54, 18-34 and 12+ in Dallas-Ft. Worth, another market pundits said his show would never succeed in. Stern's 7.1 12+ helped propel 18-34 rocker KEGL to its best book since Winter '91, when it was Top 40... About the only thing more impressive than WLZR's 5.8-7.1 12+ performance is the way the 18-34 Rocker tacked on two more shares of 25-54, soaring from 4th to 2nd in Milwaukee... WZTA is another Rock 18-34 showing explosive growth (2.6-3.3 12+). That's Zeta's highest share since its Classic Rock Summer of '92 and the highest any South Florida rocker has gone since Spring '94. Zeta, which didn't rank in the top 8 18-34 in the Spring, is now 4th, behind Urban, Rhythm Crossover and Adult CHR formats which perform well with the market's Hispanic audience... One of the hardest fought Rock 18-34 vs. Modern Rock battles tightens up as Seattle's KNDD (The End) posts their second down book (6.1-5.1-4.6) and KISW bounces back 3.5-4.0. While The End wins the Rock 12+ battle, KISW slithers past them to No. 2 18-34. KISW also goes 2nd to 1st in Men 18-34, 6th to 3rd in Men 25-54, and remains 1st in Men 25-34. They're tied for 6th 25-54... Phoenix 18-34 Rocker KUPD leaps 5.0-6.4 12+, upgrading to a 4th place 25-54 tie with Classic Rock KSLX... Portland 18-34 Rocker KUFO pivots 5.4-6.0 12+... Essentially flat in 12+, Tampa's WXTB advances from 6th to a 4-way tie for 3rd in 25-54... KQRC, another flat 12 pluser, rises from 2nd to 1st in 18-34... The 12+ gap between Cleveland's two Modern Rockers is cut in half as WMMS goes 6.5-5.4 and WENZ (The End) climbs 2.0-3.2. With a little help from Howard, The End's Classic Rock sister WNCX topped 'MMS 12+ for the first time since Spring '93... In Denver, KXPK peaks at a 6.2 12+, up .9... In Columbus, Rock 18-34 WBZX claims its sixth straight book as the market's top Rocker. Both WLVQ and The Blitz were up about half a share apiece... Rock 25-54 kingpin KQRS wrestled the top 12+ spot away from Minneapolis Full service legend WCCO. That's only the third time anyone's beat 'CCO since audience measurement began!... That wacky WFBQ, Indianapolis posts an ungodly 13.5 12+, its 3rd up book... Under PD Lyn Casye, WIOT is No. 1 18-34, No. 2 25-54, No. 2 12+ in Toledo... Chris James pilots WTPA 6.1-7.6 12+ in Harrisburg... The Classic Rock Still Lives (Even Without Howard) Award goes to WGRF, Buffalo, up 5.9-7.4, 12+. Not only is 97 Rock No. 1 25-54 (a station first), they also top the 18-34 bill. After flipping to Modern, sister station WEDG upticks 5.9-6.4... Heading east on the Thruway, WCMF remains No. 1 25-54, despite a 10.9-9.0 12+ slide. Rochester Modern Rocker WNVE (The Nerve) hammers 5.0-6.8... Syracuse's WAQX bullies 8.0-9.0 12+... Rock 25-44 WPYX crushes from 4th to 2nd 25-54 in Albany, up 6.5-7.6 12+.

SHEEHAN SLIDES INTO WRCN PD SEAT

WRKI, Danbury PD Tim Sheehan is bound for the same post at WRCN, Long Island, in the wake of Matt Mangus' departure this week. Sheehan officially takes over on or about November 1st.

Sheehan told Dirt Alert! To make a market jump like this and still be working for Gary Starr is a huge thrill. I can't wait to get there and get my hands

An excited WRCN MD Kevin Thompson told the Dirt Team, "Tim's a real good guy and it's going to be great working with him. After nine years, Matt had accomplished all of his goals. He's moving on to new challenges."

Back at 'RKI Production Director Lou Rizzo becomes Interim PD. with GM Tom Principi accepting tapes and resumes for the position (see Dirty Work). Additionally, the vacant 7pm-midnight shift has been filled, as overnighter Angelo Trigona moves up, with weekender Roger Bailey taking on late nights. As for the Starrowned New York state AC simulcasting sister stations (WMJU, Mt. Kisco and WMJV, Paterson) which Sheehan had recently begun overseeing, they too have a PD search ahead of them.

LIVE 105 NAMES WEST MD AND AXELSEN AMD As Fingers Goes To Nights

In the wake of Steve Masters' departure to Way Cool Music last month, Live 105, San Francisco has appointed midday host Roland West to the coveted MD chair. In addition, the station has upped Music Coordinator Aaron Axelsen to the newly created full-time AMD position, and taking on Masters' old 6pm-10pm shift is Live 105 surf and ski reporter Web Fingers who won the job after a month-long audition, beating out some 500 radio veteran applicants.

Live 105 VP Programming Richard Sands voiced enthusiasm, "to be promoting from within our amazingly deep talent pool. All of these new positions are richly deserved."

Regarding the promotion of Fingers, who has no previous full-time DJ experience, Sands added, "I'm sure glad GM Pat McNally doesn't know what I've just done."

F.Y.I.: West and Axelsen will be seeing record reps by appointment only Wednesday through Friday.

Commenting on his promotion of Majd, Barbis told the Dirtstaff, "To say that Hooman has played a vital role in the success that we are currently enjoying at Island would be a gross understatement. His artistic vision and his unshakable determination have impacted every level of this company. I'm glad to be able to expand his role here at Island."

Majd most recently served as Sr. VP of Island, a position he has held since June, '94. Prior to that he was VP/GM of Polydor Records

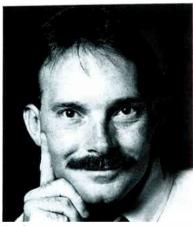

UNCONFIRMED - GOLDBERG GOING TO MERCURY: Late breaking news... Industry sources point to a top executive change at Mercury Records. It looks like ex-Warner Music Group topper Danny Goldberg will come in to run Mercury, replacing President Ed Eckstine

QUE PASA NEW YORK? Responding to recurring sales rumors, GAF Broadcasting President Randy Bongarten reiterated his original statement that New York's Q104.3 is "not for sale." The latest speculation suggests a Spanish group is the suitor with a price tag in the \$68-70 million range. However, a source told FMQB "the ink is drying now" on a deal to sell crosstown Soft AC WPAT for around \$71 million. That full market-signaled, ratingschallenged station has been on the market since Labor Day. Contacted on our Thursday deadline, 'PAT management said they were unaware of any pending sale. Should 'PAT emerge as the station to challenge WSKQ in the lucrative Hispanic arena, it's unlikely Q104.3 would become New York's third Hispanic FM. One plausible scenario is that GAF is sitting back, quietly reading the market, noting what 'PAT fetches, before accepting or rejecting offers from several interested groups. Evergreen, Infinity, Chancellor and Viacom supposedly all have their checkbooks in

HEFT AND HARTFORD'S 'CCC PART WAYS: Citing those dreaded old philosophical differences, WCCC, Hartford and PD Todd Heft have agreed to disagree and Heft will leave the station effective today (10/20). Asked for a parting comment, Heft replied, "Thank God, the nightmare's over." Reach him at 203-677-5452.

SOUHRADA SWITCHING KEZE PAR: While outside sources say it's a done deal, no confirmation from KEZE, Spokane about a series of changes. Watch these pages for official word that former KYYS, Kansas City PD Scott Souhrada has joined the Spokane Rock station, flipping it in a Progressive vein.

Ron Bowen

BOWEN SURFACES IN CAPE COD: AOR vet Ron Bowen is set to make his home in Cape Cod, as he joins the team at Makkay Group Broadcasting as Group OM for their three market properties, WPXC, CHR WRZE and AC WCIB. Originally brought in as a contractor to spend a couple of months getting these properties maximized, it now looks like Bowen's term, which began October 1, will take on a more permanent nature. Bowen told the

Dirt Desk that he will, "oversee the PDs of all three stations, with no one being displaced," by his arrival. There are no significant changes planned for 'PXC or 'RZE; but Bowen promises "big changes planned" for WCIB. Beamed Bowen, "The company is progressive. They're really on the move. There's more revenue available here than some Top 50 markets... especially when you own three stations; and the lifestyle doesn't suck."

SHEETZ GONE FROM KGON: KGON, Portland PD Dick Sheetz has left the building with radio vet Bob Harlow in from Dallas Oldies outlet KLDE to helm the heritage Rocker. Harlow

told the D.A. Office he was staying the Classic Rock course with the station despite the nostalgia tempest in the market, marked by a Classic Hits and '70s station in addition to KGON. As he sees it. "We're still dominant Male 25-54; and even though KKRH did very well, they lean a little more female...softer. We have the Rock heritage in the market and we're protecting that side." This isn't the first time Harlow was in Portland, formerly directing Oldies KKSN. He also spent a decade in San Jose, helming KSJO, then-CHR KATD and AC KEZR.

STATION SALES PONDERED: Liberty and Prism are keeping in the headlines with possible sales in the future. Liberty has been rumored on the market now for several week, with some indications pointing to Charlie Banta's Mercury Radio kicking the tires. Sources indicate Banta is trying to make the deal happen. Meanwhile, Prism reportedly announced to all employees their desire to find a new buyer for the entire 16 station group. Suitors we hear interested in the properties are Jacor and CitiCasters, with Clear Channel allegedly the front-runner.

KEVIN & BEAN SUED! KROQ, L.A. wake-up pair Kevin & Bean were served a lawsuit last week by none other than morning side-kick Michael The Maintenance Man. Michael frequently appears in various locales screaming through a megaphone at the behest of his on-air bosses. According to his suit, he was terminated when he refused to don a sandwich board emblazoned with racial remarks and shout through his trusty megaphone outside the L.A. Criminal Courts Building on the day the O.J. verdict was read. The suit was served while the duo was on the air. They took it in stride, reading portions of the suit, denying Michael's allegations and promptly denying that he'd even been fired.

ROBINSON RISES TO MOUNTAIN PD: A week after word reached us that he'd joined the Progressive-bound KTMN, Albuquerque, Rich Robinson has moved to take the PD seat at the station. A veteran of the format while across the street as KIOT APD/afternoon driver, Robinson told Dirt Officers his new station, "is going to be a really cool 100,000 watt Progressive Rock station with emphasis on the word 'Rock!" Robinson plans a musicintensive Progressive Rocker that shies away from the wide spec

trum Coyote had pursued, relating, "The GM here wasn't real excited about the Coyote's eclectic nature. He wants this to be more of a Rock station." Aside from his New Mexico experience, Robinson spent seven years as WHTG, Asbury Park PD.

MANCOW BEATS DEATH: Call it War of the Worlds, Part II. WRCX, Chicago Mancow Muller kept his name in the newspapers for another week with a fake suicide. Muller set the bit up around 7:30am on Tuesday 10/17, saying that at 8:00am they would pretend he was dead. Callers even called up to volunteer their help with the hoax. At the appointed time, Mancow stepped away from the mike so an "obituary" could be read, followed by calls from mourning fans. Sources say the station got overwhelming reaction from the market, with a high volume of curiosity and sympathy calls, until the hoax was revealed, when calls were still overwhelming; but of a different temper.

WDIZ GM TO EXIT BEFORE 1996: WDIZ, Orlando GM Tom Owens confirmed his plans to exit the building when 1995 draws to a close. No word yet on where the veteran AOR manager, with experience at WEGR, Memphis and Dallas stations KTXQ and KZPS, will turn up in '96.

Two Faces Of A Format: WRCX, Chicago PD Dave Richards (left) declares Rock N'Roll not dead at the Billboard/Airplay Monitor Seminar in New York last week. Richards asked why the phrase "Rock N'Roll" showed up in the lyrics of so many songs over the years and not the word "Alternative." DeMers Programming consultant Jim Owen (right) stressed the need to jump on new music when the audience is there, not before or after. Audience members pointed out Rock's resurging ratings and the need for better P.R. for the foramt... "Kids aren't that pissed-off anymore," said Q101, Chicago programmer Bill Gamble at the "Modern Rock: Too Good To Be True?" session. "It looks like there's a moodswing and we'd better match that mood or we'll continue to erode." WMMS, Cleveland OM John Gorman said listener "tastes have changed... a lot of bands that worked for us a year ago are now passe." Saying, "there's not a [taste] gap at age 28, there's a Grand Canyon," Gamble predicted the big panel at next year's convention will be Alternative AC.

CHANGES AT WGRD: In the wake of WGRD, Grand Rapids PD/MD Alex Tear's departure to MD at WHYT, Detroit, middayer Leeann Curtis becomes MD. In other 'GRD news, Production Director Dan Clark has been named Interim PD.

CHRIS TAYLOR UPDATE: The Chris Taylor mystery has been solved! Taylor, who departed the PD post at K92, Roanoke last week, checked in with Grapevine to inform them that he decided to pass on the PRO-FM gig to take the APD/MD post at WHPT (The Point), Tampa, a PAR station that has recently been weeding out the Classic Rock titles and adding more and more Modern Rock music. Chris will also serve as Creative Services Director for all four Paxson stations in Tampa Bay. Taylor told Grapevine "The people in Providence were really kind to me, and showed a genuine interest in putting something together for me. We talked numerous times, including three different times this past Monday. It seems like my best growth potential and the things I want to move my career into are going to be in Tampa with Paxson." (Thanks to Grapevine)

VCR ALERT!: MTV's will be airing their next installment of "MTV News Raw," their show which features extended excerpts from unedited celebrity interviews. "MTV News: Green Day" is the only TV interview the band is giving in conjunction of the release of their new album, Insomniac. Hosted by Kurt Loder, "MTV News: Green Day" will debut this Tuesday (24) at Noon, 4:30PM, 8:00 PM and 1:00 AM (ET/PT).

HARRIS READIES MARKETING BOOT CAMP: Marketing guru Doug Harris is readying his second Adventures in Broadcasting Promotion Director's School. The boot-camp style seminar for radio's marketing professionals will take place April 26-28 in Stamford, CT. Sessions include: "New Development In Interactive Media," "Strategies For Television Buying," of Publicity and Press Relations," and "Cars, Bars and Retail." Harris explains, "This conference is designed to be an actionpacked and affordable resource with a strategic emphasis on uncovering new ideas for broadcast marketing. This is the only school designed to transform radio Promotion Directors into ratings and revenue machines." Advance registration is \$275 with a special \$75 per person hotel rate available.

ALTERNATIVE ROCK SERVICE NOW ONLINE FROM SW NETWORKS: SW Networks officially launched their Alternativ Rock Network service, with WHFS, Baltimore/Washington, KDGL, Dallas, WEND, Charlotte, WRCX, Chicago and KSHE, St. Louis the first affiliates. SW supplies them with an assortment of audio and text, covering show prep, entertainment news, music news, artist bios, clipping service and Production CDs with music beds, sound effects, stingers, and the like. It's all geared to give "both Alternative stations and AORs maximum ammunition to own the 'Alternative Image' in their market at a minimal cost," explained VP Affiliate Marketing Dan Forth, going on to characterize it as, a service that eliminates the need for traditional network affiliations at Alternative and Rock radio stations. It also provides more comprehensive, format-specific material than a syndicator's resources can produce."

CAPITOL ALERT! While there's no clear indication on when we'll see passage of the pending Telecom bill, it's nice to know at least some progress was made this week and the House and Senate each made their appointments to the combined conference committee set to reconcile the bills that passed the House and Senate. Over on M Street, the FCC is said to be readying their satellite DAB rules, possibly before January 1.

GRINDSTONE RECORDS FORMED: Ian Hunt & Don

Schneider have teamed up to form Grindstone Entertainment, an L.A.-based record label. The company will have a "Do It Yourself" philosophy. Instead of signing artists, the label will enter into "creative partnerships" with them. The first two artists on the label are L.A. Hip-Hop sensation Mannish and Salt Lake City rockers The Obvious. (Thanks to Grapevine)

- Results from BIA Publications reveal that 9% of radio stations in the country have changed hands in 1995, through October 10. That totals 899 stations. Radio group owners accounted for the highest sales, led by Evergreen's 25 purchases, Group W's 21, Park Communication's 21 and River City's 20. Overall, the top 100 markets were responsible for 50% of all sales.
- New Wave Communications closed on the duopoly purchase of KAMZ, El Paso from Star Media Group. The price of the deal was \$2 million for New Wave, which also owns El Paso stations KROD-AM and KLAQ-FM.

THE ARBITRON COMPANY has announced the hiring of Bruce Supovitz as Sr. Account Executive, Radio Station Services. YOU'RE A NEW ARTIST WITH A HOT RECORD, WHICH LABEL ARE YOU SIGNED WITH AND WHO IS IN CHARGE OF YOUR PROMOTION CAMPAIGN?

JON TERRY, WQLZ, SPRINGFIELD:

My label would be Geffen Records. My promotional Dream Team would be Warren Christensen, Chris Woltman and Don Pratt, Geffen's local out of K.C.

AUSTIN KEYES, WRXK, FT. MYERS:

I'm signed with the highest bidder, the one that gives me control and failing all that I'll sign with Brenden O'Brien and his new venture. He can do it all, even record the music.

JAY GLEASON, KRAD, CORPUS CHRISTI:

I'll go with Interscope and the fab team of our local, Kathy Romero, and National Guy Rob Tarantino who are on the case.

PAT DAWSEY, Z-ROCK NETWORK:

For the label, I'd pick Interscope with Cowboys owner Jerry Jones working it. He always gets the

RIKI PETRACCI, WMMR, PHILADELPHIA: I'd say A&M with J.B. Brenner heading up the

KEVIN THOMPSON, WRCN, LONG ISLAND:

Off the bat, I'd be on Elektra because of their time. Special kudos to Mark Snider, who's one of the best in the biz. But I'd take any of my guys working my record. They're all great.

ANDY O'RILEY, WKLQ, GRAND RAPIDS:

I'd wanna be on Epic with Cheryl Valentine at the

MIMI GRISWOLD, WKRL/WKLL SYRACUSE/UTICA:

I'm signed with American because they're so tenacious. Rick Rubin has produced my record, of course. Lea Pisacane has assured me that I won't have to do a spread in Playboy to get my record played because Ross Zapin has returned to work it locally.

BRIAN LEE RIVERS, KJKJ, GRAND FORKS:

I'd create my own label and do it myself, because I'd want it done right.

MICHAEL LEE, KRZZ, WICHITA:

Any label that Michael Schnapp is working for. He could make it go at any label. His word is gold and he never fucks anybody. He's the best!

DAVE DOUGLAS, WAAF, BOSTON:

The label would be Interscope with Rob Tarantino handling things.

RICH HAWK, KILO, COLORADO SPRINGS:

I'd find the label with the most money and the promo person with the biggest mouth.

T.J. BRYAN, WDHA, NORTH JERSEY:

I'd be signed to Maverick and Tommy Nappi is running promotion. Just look at what they've done with Alanis Morissette, Candlebox and The Rentals.

ANDREW BORIS, WRRV, MIDDLETOWN:

Mark Snider, because he's a dandy guy. Since he's at Elektra/EastWest, I'd be there.

CRAIG JOHNSON, KZOQ, MISSOULA:

Any label and Heavy Lenny.

TIM SHEEHAN, WRKI, DANBURY:

I'm signed with Dreamworks with Karen Durkot, Jim Del Balzo and Laura Curtin teamed up to work the record.

JOE BEVILACQUA, WDZR, DETROIT:

It'd be either Epic or Interscope depending on the record with Mike Rittberg on the case, because he's such a bad golfer.

ZAKK TYLER, WMFS, MEMPHIS:

If I was an Alternative artist, I'd go with Geffen. If I was a true Rock artist, I would think of Sony, Warner Bros. and possibly Mercury. I would allow Gary Gratzer from Virgin to run my promotion because of his unique way with words. However, if I was an all-chick band, I'd go with Chris Woltman from Columbia so we could trade hair secrets.

HEIDI HESS, WZTA, MIAMI:

Epic Records with Polly Anthony and Laura Curtin.

CARTER ALAN, WBCN, BOSTON:

I'd probably want to be on Elektra/EastWest and be promoted by Matt Pollack.

CEPTH MICHAELS, WZBH, OCEAN CITY:

Best promo person that I've known is Columbia's Lee Leipsner. He's a balls-to-the-wall kind of take charge guy. I dunno about which company though. Warner Bros. maybe. They have so much material to work with.

KEVIN WELCH, KATS, YAKIMA:

I'm on Spielberg's new label and Henry Kissinger is my new promotion director.

STEVE RAYMOND, WZXL, ATLANTIC CITY:

I'm signed to Geffen and Bobbi Silver is in charge of promotion. Bobbi is among the most professional, high-energy and persistent promoters around.

VINCE RICHARDS, WEDG, BUFFALO:

I'm signed with Deaf Ear Records because I couldn't carry a tune. Chris Woltman would head up promotion because not only is he deaf, but he's dumb enough to take me on as an artist (Gotcha, Chris!).

DAN BOZYK, WBUZ, TOLEDO:

Geffen is the label, Bobbi Silver is running promotion....No question about it!

FRANK LARIO, WMID, ATLANTIC CITY:

I'd like to be signed to Geffen, but as far as I'm concerned, all the promotion people in records are great people.

DARRIN ARRIENS, WDBZ, LANSING:

I think Columbia has taken over again on the Rock side, so I'd be there. I'd use Rob Tarantino for national work and for local stuff I'd have Howard Lesnick, our local Columbia guy. He gets the job

DON FERRELL, KRVM, EUGENE:

I'd go with Atlantic. Bonnie would have to do it. Then she'd finally have to pay attention to me, and my phone calls would be more important than Howard's!

MOJO MASON, KTUX, SHREVEPORT:

SBK Records and Geffen's promotion team.

TIM KELLY, WAPQ, MANSFIELD:

Just put me on all the FMQB Sampler CDs.

TIM DUKES, WEBN, CINCINNATI:

The label is not important as long as Bubba The Love Sponge is head of promotion.

DINA WAGNER, WTPA, HARRISBURG:

Geffen Records. Bobbi Silver would be in charge of promotion. She's so good, I think she could get the Pope to listen to White Zombie.

TOM GUILD, WRDU, RALEIGH:

My national guy would be Paul Brown. If he could work with J.B. Brenner and the record could be on A&M, it would definitely come home

ROBIN LEE, WZZO, ALLENTOWN:

The label is M&B.....Mike Boyle is in charge!

MARK THOMPSON, WRIF, DETROIT:

Columbia would be my label; and Howard Lesnik would be my promo person.

DEBBIE GILBERT, WWWV CHARLOTTESVILLE:

A&M and J.B. Brenner because you can release an album and they will work the project if they believe in it. They'll bring it home.

STEVE YOUNG, KISW, SEATTLE:

The WORK Group and Pam Edwards.

CAROL SEIDEL, WHTF, YORK:

Geffen and Bobbi Silver could promote.

JIM FREE, WKGB, BINGHAMTON:

Geffen has been breaking a lot of bands over the last few years. Running things would be the team of (Philly/Geffen) Bobbi Silver and (Buffalo/Warner) Jeff Criden.

TERRY RAY, WKLT, TRAVERSE CITY:

Capitol and Jim Payne.

TIM SHERIDAN, KIBZ, LINCOLN:

I'd be on Slash Records with O.J. Simpson working the project. There's no better P.R. guy than him right now.

NEXT WEEK'S OUESTION:

What one band that's no longer together would you most like to see have a reunion tour?

ROCK REPORT

It is now official that Bruce Springsteen will be releasing a new album, his 13th overall, on November 21 titled *The Ghost of Tom Joad*. The album title refers to John Steinbeck's character in *The Grapes of Wrath*. The 12 new tracks are being called "an intimate collec-

tion of solo acoustic material" that Springsteen recorded in his adopted hometown of Los Angeles. Titles include "Highway 29," "Galveston Bay," "Across the Border" and "Sinaloa Cowboys." Plans for a tour of theaters across the U.S. and Europe, accompanying dates and single releases are still in the works.

Though Melissa Etheridge's new album, Your Little Secret won't be in stores until November 14, fans can hear it first on Saturday, October 28 when VH-1 premieres the half-hour special VH-1 To One Melissa Etheridge. The special will take a behind-the-scenes look at the making of her new album, including Etheridge on her 1995 summer tour, in the studio, photo sessions and video shoots. Eight new songs will be aired. The special will repeat on Monday, October 30 at 8:00 and 11:00pm. A little down the road, Melissa will be featured on VH-1 Duets, performing with the likes of Joan Osborne, Sophie B. Hawkins and Jewel.

Gearing up for the November 14 release of *Stripped*, the new album from the **Rolling Stones**, *USA Today* is reporting that it includes retakes of such Stone's classics as "Angie," "Street Fighting Man" and "Sweet Virginia." Mick and the boys also lend an acoustic take on **Bob Dylan**'s "Like A Rolling Stone" and **Buddy Holly**'s "Not Fade Away" among others.

What better time is there for a Kiss reunion than Halloween? MTV will air its hour-long feature presentation Kiss Unplugged on October 31 marking the first time all four original band members have performed together in fifteen years. The special was taped this summer in New York and features the four current members of the band (Gene Simmons, Paul Stanley, Bruce Kulick, Eric Singer) for the first half of the program, followed by two original members Ace Frehley and Peter Criss joining for the second half. The set list includes "Rock N'Roll All Nite," "Goin' Blind," "Nothing To Lose," "Plaster Caster," "I Still Love You" and "Domino."

Disc two comprises: "She Loves You," "Til There Was you," "Twist And Shout," "This Boy," "I Want To Hold Your Hand," "Moonlight Bay," the first take of "Can't Buy Me Love," "All My Loving" (live from the Ed Sullivan Show), "You Can't Do That" (outtake), "And I Love Her" (outtake), "A Hard Days Night" (outtake), "I Wanna Be Your Man" (a Lennon/McCarthy original popularized by the Rolling Stones), "Long Tall Sally," "Boys," "I'll Be Back" (demo), "I'll Be Back" (outtake), "You Know What To Do" (unreleased George Harrison demo circa 1964), "No Reply" (demo), "Mr. Moonlight" (outtake), "Leave My Kitten Alone," "Eight Days A Week" (outtake), and a live rendition of Little Richard's "Kansas City / Hey Hey Hey."

Rock Report correspondent Ken Sharp spoke with Ringo Starr who discussed the Fab Three's difficulty in recording Free As A Bird on a emotional level. "At the beginning it was very hard. It was hard listening to the tape knowing that we were going in there to do this track with him. It was pretty emotional. He wasn't there. I loved John. I'm sure Paul mentioned this. We had to sort of feel that he's gone for a cup of tea. He's gone on holiday but he's still there. That's the only way I could get through it. If you asked the others I think it's the same." We also asked Ringo what fans can expect from the Beatles Anthology set to air on November 19th. Says Ringo: "It's an absolute documentary start to finish. All the footage you can find, all the videos. It's a musical documentary because we were a music band. We are totally involved with this thing." According to Ringo, excerpts from a jam session held at George Harrison's house will also be included. "It was just acoustic. Two acoustic guitars and me on brushes. It was good. It was like an Unplugged."

As **Def Leppard** prepare to issue *Vault*, a greatest hits/rarities record, the band are keeping their eyes on the future as they're currently working on a new record with producer **Pete Woodroffe**. The album is being recorded in Spain with hopes of a release by the summer of '96. Tracks tentatively slated to appear include "Work It Out," "Slang," "Pear! Of Euphoria," "Blood Runs Cold," "All I Want Is Everything," "Breathe A Sigh" and "Where Does Love Go When It Dies?"

Van Morrison can never be accused of being lazy. He's just finished recording a new Jazz album. Tentatively titled *How Long Has This Been Going On?*, Morrison worked with England's premiere Jazz musicians. The album was recorded live at London's top Jazz club, Ronnie Scott's. Tracks slated to appear include a Blues version of the Morrison classic "Moondance," "Who Can I Turn To?," "Centerpiece," "Sack O' Woe," "The New Symphony Sid," "Early In The Morning," "Blues Backstage," "That's Life," and "I Don't Worry 'Bout A Thing." Look for the album to hit the U.S. stores in early 1996.

So who would you have as entertainment at Frank Sinatra's 80th birthday tribute? Seems like quite a task, but one that producer George Schlatter is handling quite well, thank you. Thus far he has received R.S.V.P.'s to perform from the gijillion-selling Hootie & The Blowfish, Tony Bennett and Natalie Cole. Invitations are still out to Bruce Springsteen and Seal. The tribute will air on ABC in December.

Walk A Mile In My Shoes - The Essential '70s Masters (RCA Records) is the name of a new five-CD Elvis Presley collection drawing exclusively on his last decade of music making. Almost universally denigrated by critics, listening to this new retrospective, the Rock Report believes a re-evaluation of Elvis' '70s oeuvre is in order. During the '70s Presley returned to his roots, fearless of experimenting with Country, Gospel, R&B and pure Rock and Roll. Including a whopping 120 tracks, digitally remastered from the original first-generation masters, the box features every A and B side issued during his '70s career Produced by Ernst Jorgenson and Roger Semon, the box boldly reinvents Elvis in the '70s era. According to Dave Marsh, who contributes liner notes, "Elvis' '70s music has been picked at and picked over, issued and reissued, discussed, dissected, distorted, displayed and dismissed. But it's only now, gathered into one place, that it kind of makes you gulp a bit to realize how productive he was in the last

six years of his life." Along with all of Elvis' '70s singles and choice album cuts, the box includes 28 rarities including covers of the Beatles' "Lady Madonna" and Bob Dylan's "I Shall Be Released," alternate takes of "Amazing Grace," "She Still Thinks I Care," rehearsals of "The Twelfth Of Never," "It's Different Now," "Softly As I Leave You," "Stranger In My Own Hometown," a jam rendition of "Tiger Man" and previously unreleased studio versions of "My Way" and "For The Good Times." And if that's not enough for Elvis fans, Disc 5, dubbed The Elvis Presley Show, offers an array of incendiary live performances, many previously unavailable, including "Heartbreak Hotel," "I Was The One," "One Night," "Something," and "A Big Hunk Of Love." Rounded out by an exemplary 92-page booklet featuring comprehensive liners, complete session, album and singles discography and a bounty of rare and previously unseen photographs, Walk A Mile In My Shoes - The Essential '70s Masters is an indispensable overview of a criminally underrated period in Elvis' career. Highly recommended.

Roses are planning a new studio album for
release next
year, in addition
to a live release,
either an EP or
an album,
including material from their
world tour this

year. The band are said to be due to start recording their third studio album in December at the conclusion of their British dates. **John Squire** from the **Roses**, who designed the *Help* album art, is now designing a Christmas card for the charity that benefitted from that all-star project, War Child.

Only a few weeks after surprising many people with the news that he was leaving **The Verve**, lead singer **Richard Ashcroft** will soon re-emerge in a new solo capacity. He will support **Oasis** at their London shows at Earls Court on November 4 and 5, and is said to be working on new songs at his own studio.

The legacy of Bryan Ferry and Roxy Music is celebrated with two new packages in the next few weeks. Next Monday see the new compilation *More Than This* in the shops, featuring 20 tracks by the band and Ferry as a solo artist. Then on November 6 comes the four-CD boxed set *The Thrill Of It ALL*, documenting Roxy's entire career together, with a 68-page booklet containing outtakes from their cover shoots and press photo sessions plus track-by-track annotations by Ferry himself.

Also coming from Virgin's back catalogue is the new Human League compilation, *The Greatest Hits*. Following the release of the remixed version of "Don't You Want Me," the album comes out on November 6 and includes 20 tracks, among them the original of that song and one of the new mixes by **Snap**. The band tour in the U.K. this month and next.

Aimee Mann follows her acclaimed 1993 album, Whatever, with I'm With Stupid, due on the Geffen label on October 30, with U.S. release not due until the new year. The album includes several songs debuted by the former 'Til Tuesday singer when she played at the Phoenix Festival in July, and features songwriting collaborations with Chris Difford of Squeeze.

Former Spandau Ballet writer Gary Kemp releases his debut solo album, Little Bruises, next week. It includes his first single,

LOUNGINGSOHARD: Forward/Rhino recording artist John Doe kicked off a national tour in support of his label debut, KISSINGSOHARD, with an intimate appearance at the Alligator Lounge in Santa Monica. Caught lounging were (L-R front row): SDM Management Barry Solomon; Rhino Senior Director, Promotion Jim Neill; Rhino VP, Product Management Faithe Raphael; Rhino Associate Product Manager Emily Cagan; (L-R back row): bassist Brad Houser; Lisa and Neil Kellerhouse (he did the album artwork); John Doe; guitarist Smokey Hormel; Rhino Art Director Coco Shinomiya; Rhino VP, Marketing Garson Foos.

"An Inexperienced Man," plus the current release "My Lady Soul" and eight other new songs.

Therapy?'s new single will be "Diane," their version of the Bob Mould song, released on November 6. It'll be backed by acoustic versions of "Screamager," "Loose," "Jude The Obscure" and "30 Seconds." The Irish Modern Rockers are now touring in the U.K., supported by Vent and Understand.

Sparks have announced a Christmas live extravaganza to take place at the Forum in London on December 20. The show will include "tracks from Christmas past and present" and a number of special guests.

London's leading "club"-size venue, the 4,300-capacity Brixton Academy, has been saved as a music location. The Academy was bought by a Brazilian church earlier in the year and was thought to be shutting its doors to Rock gigs in January, but has now been bought out by Break For The Border, who already own London venues the Borderline and the Shepherds Bush Empire.

Veteran chart artist Kiki Dee returns with the new studio album. Almost Naked, on October 30. The 13-track collection was recorded on her recent British tour and features her vocals and harmonium playing backed by the acoustic guitar of Carmelo Luggeri, who co-produced the album with Dee. The record includes "unplugged" versions of her 1973 hit "Amoureuse" and her 1976 #1 duet with Elton John, "Don't Go Breaking My Heart."

Nick Lowe has his 1990 album, Party Of One, reissued by Demon on October 30. Demon have acquired the rights to the LP after Lowe signed with them last year and released the acclaimed album, The Impossible Bird, late in 1994. Party Of One now includes two previously unreleased tracks ("You Stabbed Me In The Front" and "Rocket Coast") and Lowe will play two dates in London at the Jazz Cafe on December 18 and 19

Curtis Stigers releases a second single from his second album, Time Was, at the end of the month. Sales of the album have thus far been a severe disappointment to Arista following the 600,000 sales of his self-titled first LP in the U.K. alone. "Keep Me From The Cold" comes out on October 30, and Stigers is planning live dates in Britain in the first two weeks of December as part of a

seven-week European tour.

Simple Red's "Fairground" is now in its fourth week at #1 in the U.K., withstanding a strong challenge from Def Leppard, whose "When Love & Hate Collide" climbed from seven to two to become their highest-ranking British single. Eternal's "Power Of A Woman" was the week's highest new entry at five, overtaking their former member Louise who fell back from eight to 10. Josh Wink's "Higher State Of Consciousness" and "Renegade Master" by Wildchild were major club crossover new entries at eight and 11, with Ash scoring their second Top 15 single as "Angel Interceptor" came in at 14. 2 Unlimited made a substantial comeback with "Do What's Good For Me" which entered at 16, their 12th U.K. Top 20 single but the first for a year. "Soul II Soul (I Care)" gave Soul II Soul another hit at 17, while Cliff Richard returned with "Misunderstood Man" at 19 and the Lightning Seeds' reissued "Lucky You" reappeared at 20. "The Move Your Ass" EP by Scooter debuted at 23. "It's On You (Scan Me)" by Eurogroove at 25, the Shamen's "Transamazonia" at 28 and "My Friends" by the Red Hot Chili Peppers at 29. Motiv 8's "Break The Chain' arrived at 31, Midlands Soul singer Beverly Knight made her Top 40 debut at 33 with "Flavour Of The Old School" and Marion's "Let's All Go Together" arrived at 37.

It's double top for Simply Red following the as-expected arrival of their Life album at #1. Oasis were forced down to two, Janet Jackson to three, and Mariah Carey to four. The other arrival in the Top 10 was Green Day, whose second album, Insomniac, came in at eight.

ELTON, U2 RECORD NEW SALES MILESTONES: Elton John reached some milestones last month according to the Recording Industry Association of America, but not for his latest album, Made In England. The Lion King hit the 10 million mark in sales, making it one of the five biggest-selling movie soundtracks in history. At 12 million, John's Greatest Hits package became the best-selling Hits package in RIAA history. Two gold singles for "Daniel" and "The Bitch Is Back"

Sporting the checkered flag jacket, Elton had his engines revved when he was presented with this doosie of a commerative plaque marking 10 million sales of The Lion King soundtrack. Also at the finish line (L-R): Chairman and Chief Executive Officer, Walt Disney Company Michael Eisner; Senior VP, Walt Disney Records Carolyn Mayer Beug; Presdent, Walt Disney Company Michael Ovitz; Elton; composer/producer Hans Zimmer.

ALANIS MORISSETTE: Alanis Morissette becomes the first living artist to appear simultaneously on the covers of Spin and Rolling Stone this month. The only other time the magazine covers have been in sync was with Kurt Cobain after he committed suicide. Morissette's double exposure reminds some of the time that Bruce Springsteen appeared on Time and Newsweek in the same week 20 years ago.

second only to Elvis Presley in the Male

Solo Artist category. U2 made some histo-

ry, too. They became the first Irish band to have a 10 million selling album. The

Joshua Tree did the trick.

ALANIS MORISSETTE BEFORE JAGGED PILL": For those desirous of the two Dance-Pop albums from Alanis Morissette released in Canada before her big hit here, Jagged Little Pill buy fast or head for the Canadian border. "We've got a career going here that has nothing to do with those early albums," says John Alexander, an Executive Vice President for MCA Music Publishing in North America. "She doesn't want them on the street here - and neither do we," he stated. Alexander signed Morissette seven years ago when she was 14-years-old. The two albums, Alanis and Now Is The Time, have recently been appearing in the U.S. after selling more than 150,000 in Canada. By comparison, Jagged Little Pill has sold over 1.5 million copies in the U.S. since its release in June. MCA Music Publishing has moved to stop MCA Canada from producing the records.

VAN HALEN: More than 800 fans turned out when Van Halen placed their handprints and signatures in cement on the

Hollywood Rock Walk. Eddie Van Halen noted that in another 18 months, it will be 20 years since they made their first record.

BEATLES SERIES IS CENTER OF ABC RATINGS STRATE-

GY: Tim Allen, Craig T. Nelson and Mark Harmon will be among the stars singing their favorite Beatles tunes on ABC next month. The network is pulling out all the stops for the six hour miniseries which airs November 19, 22 and 23. Buses in New York and Los Angeles are to be shrink-wrapped to resemble the Peter Max artwork for Yellow Submarine. Theatrical trailers will begin running November 10 in the top 50 cities and the network will re-name itself "A Beatles C" for the month. The anthology will be the centerpiece of ABC's entire November sweeps campaign. Network executives and industry analysts agree that the miniseries is likely to solidify ABC's rating lead. The 30-second spots, priced at \$250,000 to \$300,000 are "virtually sold out," according to the network. Ford Motor Company, Pepsi, and Paul McCartney's in-laws, Eastman-Kodak, are among the advertisers.

PETTY's VETS DONATION TOTALS \$175,000: Tom Petty And The Heartbreakers ended the Wildflowers tour in New Orleans by donating \$175,000 to the National Veterans Foundation. The money came from more than 7,000 ticket sales to a sold-out show at the Lakefront Arena. At a press conference before the show, Petty said those in the entertainment and music industry are

blessed because "we have the opportunity to help others, and it's an easy thing to do." The money will go to help 200 veterans organizations nationwide. A spokesperson for the 10-year-old non-profit organization said that Petty's contribution will make "a major difference to the 10 million vets who are in need of assistance."

HEARTBREAKER CAMPBELL, TAJ MAHAL RECORDING THIS WEEK: Mike Campbell of Tom Petty And The Heartbreakers is in the studio in Los Angeles with Taj Mahal working on a song for a Taj Mahal album that already has guest appearances by Eric Clapton and Bonnie Raitt. Campbell and Taj are recording the song "Lovin' In My Baby's Eyes." They trace their friendship to the Tom Petty/Stevie Nicks hit duet "Stop Draggin' My Heart Around." "I liked the harmonies and it was a nice tune," Taj recalls, "but I heard Mike do an absolutely great guitar solo once. I was in the same dressing room at the Greek Theater with Tom when he had Stevie Nicks with him - and I told him about it. It was great how the band came down around the solo." Taj says that guitarists can't really "dazzle" him with a lot of notes. He likes emotion from note-to-note and space-to-space. "But," he claims, "with most Rock bands, when it's time for the solo, everybody gets out of the way. The Heartbreakers reversed that, and it sounded great." Taj Mahal opened shows for the Heartbreakers for the first time earlier this year.

RAITT PLANNING SABBATICAL AFTER LIVE ALBUM, TV SPECIAL: Bonnie Raitt says that her new live album, Road Tested, and the accompanying PBS TV special and home video, will be the last we see of her for a while. After spending the past two months on the album and TV special, which will air November 28, she told one reporter, "I'm mighty sick of looking at footage of myself." Raitt's home video will be longer than the TV version. Raitt plans to do a handful of benefit concerts and then take a sabbatical.

HOW McCAIN "MINED" "SOLITUDE": Edwin McCain likes to go out looking for his songs. "I'm more of a miner," he explains. "A lot of my songs are in people's stories, in meeting people and looking at life through their eyes. I try to find people I identify with." His first hit, "Solitude," is a perfect example. McCain claims it's a pretty literal account of a true story about a friend he grew up with in his hometown of Greenville, South Carolina. They were best friends from the time they were children. When he was 15, his parents put him in rehab. Says McCain: "After about three months, the facility tried to release him, but his mother left him in their for matters of convenience. He lost two years of his life against his will." When he was finally released, he lived with McCain for a year in Charleston, South Carolina, and that's when the song was written. Now the friend is living in Atlanta and the father of a baby girl. The friend also helped inspire the song "Jesters, Dreamers And Thieves," which contains a line with the album title, Honor Among Thieves. "Most of the people I hang out with are jesters, dreamers or thieves," McCain says. "These days, it makes more sense to be a jester, dreamer or thief because Generation X doesn't seem to subscribe to the point-of-view that you go to college and you're automatically given a good job and a future."

TRANSSEXUAL ROCKER'S STORY HAS PARTS FOR LOVE,

PITT: Candlebox did a great send-up of Courtney Love's band Hole by appearing in drag on the cover of the *Rocket*, even though Love herself phoned to say that she'd seen real drag queens do her better. But, hard-rocking transsexual Jayne County has an even better idea. She'd like to see Love cast in a film version of her autobiography, *Man Enough To Be A Woman*. She says, "Pick some wild, blonde, crazy woman in Rock and Roll at the moment who would be perfect to play Jayne County. She's doing such a good job already that she might as well get paid for it." Of course, she also sees Brad Pitt cast as a cheap hustler, but Love won't be doing any love scenes with him. Jayne plans to do those herself.

BLIND MELON: Blind Melon have extended the first leg of their *Soup* tour until November 12 in Cocoa Beach, Florida. They recently shot the second video from *Soup*, "Toes Across The Floor," in Los Angeles with English director Jamie Thraves. Thraves did Radiohead's "Just."

NEIL YOUNG INFLUENCE ON NEW BAIRD SONG: Dan Baird claims that Neil Young inspired one of the songs on his new album, Buffalo Nickel. Baird says his song "Young Super Riff" and the lyrics are about "the fate of anyone that doesn't die young," a theme Young has addressed in some of his songs. Baird recorded Buffalo Nickel with Brendan O'Brien who produced his first solo

album, Love Songs For The Hearing Impaired. Baird's new one will be out January 16.

"DOWNTOWN VENUS" TURNS UP IN PARIS: True to their name, P.M. Dawn performed a special impromptu gig to an unsuspecting audience of about 100 people at the Guiness Tavern in Paris, France at 3:00 a.m. Taking time out on their current personal appearance tour of Europe, P.M. Dawn and their band played various selections from Jesus Wept including "Downtown Venus," "A Lifetime" and "My Own Personal Gravity." They borrowed the instruments belonging to the Tavern's house band - who actually went on to perform after P.M. Dawn's brief set.

P.M. DAWN'S PERSONAL "SPIRITUAL RADIO STATION":

P.M. Dawn discussed using other songs for their Fantasia's Confidential Ghetto suite, but only recorded Prince's "1999," the Talking Head's "Once In A Lifetime," and Harry Nilsson's "Coconut." Originally it wasn't even going to be on the album. Prince Be/Reasons says that he was just experimenting with the idea of a "spiritual radio station." He wanted to take songs that were already in existence and sing them in a spiritual way, whether they were written that way or not. "All the songs are very introspective - and they personally suited me," he explained. Prince/Be Reasons says that he's already gotten some positive feedback from David Byrne, who liked what he did with the Talking Heads' tune.

SHAW/BLADES: The album Tommy Shaw and Jack Blades released earlier this year came out when Warner Bros. was going through its periods of chaos. So, Tommy Shaw was surprised to see that it had sold 150,000 copies on the last statement he received from the record company. He expected it to be about 40,000. "It was about the worst timing I ever had on a record," he says. "It did okay on its own, and it's still selling."

MARTIAL PROBLEMS INSPIRED "GOD'S MISTAKE":

Roland Orzabal got so personal writing songs for the new Tears For Fears album, Raoul And The Kings Of Spain, he says "God's Mistake" was inspired by marital problems that he and his wife had after the birth of their son, Raoul (three years ago). The family theme of the album began as far back as Orzabal's childhood when his father gave him a notebook and told him to write down the family history. Orzabal had to write everyone's name and what they did, going back to their roots in Argentina. "I guess he was trying to instill the notion that we were of noble birth," explains Orzabal. "I take that idea and juxtapose it with the idea that we came from quite an abusive background. We lived on one of the largest cattle estates in southern England, but we had no money because my father was ill. On the other hand, we're supposed to be of noble birth. The contrast is what the album is about." joy of having their first child was countered by the stress of the blessed event, says Orzabal, explaining how he decided "Love is God's mistake." "We both had a very hard time when our first child was born," says Orzabal. "I was away a lot on tour and our relationship suffered terribly. A lot of these songs are about that. If you had to build a perfect system, you wouldn't include something as irrational as love."

PRETENDERS, STRING QUARTET VIDEO TO AIR: A home video of the Pretenders performing with the Duke Quartet will be released October 24 and air on PBS stations during their pledge-drives this fall. The performance was filmed at the Jacob Street Studio in London earlier this year, and it includes two songs not on the disc, The Isle Of View: one is "Blue Sun" and the other is a cover of Radiohead's "Creep." Blur's Damon Albarn makes a guest appearance on Ray Davis' "I Go To Sleep." Chrissie Hynde credits producer Stephen Street with suggesting that they work with a string quartet. They originally cut the track "Angel Of The Morning," now being used by NBC's Friends, as a B-side. Hynde says that The Isle Of View gave them a good excuse to continue working together.

RUSTED ROOT HIT IS SINGER's MANTRA: It's easy to understand how a band that tours as much as Rusted Root could get tired of playing the same songs night-after-night. But Mike Glabicki claims that he'll never tire of singing "Send Me On My Way." Why? It has become a mantra. "It's a prayer, a meditation," he says, "It's something that you can bring with you — that spark of something else, some other reality or extended consciousness. Each time we play it, it brings back the spark. It's almost like a doorway to step through." After a month-long break, Rusted Root is returning to the road this month for a nationwide headlining tour, giving Glabicki many more opportunities to chant his mantra.

he Z-Rock Network is running a colossal contest in which one listener will win a CD a week until the millennium. "That's five years worth of free CDs," says math wiz/PD Pat Dawsey. The Net is also awarding a trip to the final night of the David Bowie/Nine Inch Nails experience, and making plans to celebrate National Drum Month in November. Better warn the neighbors... In a similar vein, Detroit's WRIF has a forced listening contest on the air with a grand prize sure to lock-up the actives: A pair of tickets to every Motor City Rock show in '96 (complete with limo service), 101 new CDs, and ten grand in cash. Morning guys Drew & Mike announce the hours when Riff will qualify listeners on the air; all qualifiers grab \$101. The 6 week Fall book promotion is done exclusively on the air... Last weekend, WKLQ hosted their

annual Big Boys Toy Show in Grand Rapids. Some of the fun items listeners tried out included a big glove boxing ring, M-16 simulator and a bungee run. (Don't ask!) AMD/night jock Andy O'Riley says, "The last two years we've had around 15,000 people come through over the entire weekend."... WBZX, Columbus was popping corks this week over the summer Arbitron, where they posted a 7.3-7.8 gain. Congrats to The Blitz crew on their sixth straight book as the top Rock station (12+) in the Columbus market. (See Dirt Alert for complete Summer Arbitron coverage)... KISW banner in the

Seattle King Dome: "If you build it, we will re-elect you." As the Fall elections loom over Puget Sound, the State of Washington has approved legislation to build a new stadium. The bill now goes before the county... When WDZR, Detroit does a haunted house they put some truly scary creatures inside. Marilyn Manson, for example. Working with Interscope, the station secured MM's ghoulish services for one night only at the Manson Family Haunted House (10/19) at Terrortown (what most of us call Detroit anyway). PD Joe Bevilacqua says, "We did the Manson Family Picnic. This continues the saga of insane weirdness that this band has built behind an incredible buzz."

It's been building and building. It just won't stop.

AC/DC "Hard As A Rock"

Just a smash. They're one of our main core artists and people are all fired up over this album.

GOO GOO DOLLS "Name

Lotsa calls across the board. Women are really into it, and we need some help in that area. It's an all day and all night record.

BUSH "Comedown"

That whole album has been great for us.

UP N' COMERS

BOTTLE ROCKETS "Radar Gun"

This thing is on fire. We get calls all day and night to play this

SILVERCHAIR "Tomorrow"

People are finally starting to notice this band here and it's really starting to sell, too.

BROTHER CANE "Breadmaker"

Good follow up. We have a huge base for these guys down here. This one's meatier than "Fools" and sounds great on the radio. ALANIS MORISSETTE "Hand In My Pocket"

Another good follow up. More calls for this than we got on "You Oughta Know.

PETER FRAMPTON "You"

I love this album. I hope he gets a break here. Frampton Comes Alive II is not disapppointing at all.

SMASHING PUMPKINS, Mellon Collie and the Infinite Sadness - Dawn to Dusk, (Virgin)

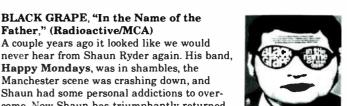

Disc one starts with a soothing string instrumental that is followed by the eloquent and sentimental "Tonight, Tonight," setting the tone for this double disc set. It lets the listener know that admist the power, angst, and raw energy of this release there is an underlying current of tranquility and inner peace. Quickly dispelling any thought of a softened sound The Pumpkins roll into a host of songs that we have come to know and love this band for Highlights include "Jellybelly," "Zero," "Muzzle," "To Forgive," and "Love". Do not pass "Here Is No Why," "An Ode To No One" and "Porcelina of the Vast Oceans"

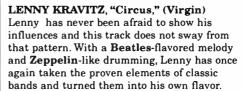

ELASTICA, "Car Song," (DGC)

This is the third single from Elastica's self titled debut. As with "Connection" and "Stutter," Justine and crew deliver another catchy, early '80s based song that should follow its above named predecessors into the top ten. KNDD is racing out in front of everyone with WDST and WHTG joining in the race this

SILVERCHAIR, "Pure Massacre," (Epic) As they prepare for hitting the road with the Red Hot Chili Peppers and The Flaming Lips, these youngsters from Australia are back with the second single from thier debut release, Frogstomp. As with "Tomorrow" there is no ground breaking territory being charted here only pure Rock for the kids to bang their heads to. Stations already joining the slaughter include WENZ, WEDG, and WBCN.

BLACK GRAPE, "In the Name of the

Happy Mondays, was in shambles, the Manchester scene was crashing down, and

A couple years ago it looked like we would

Shaun had some personal addictions to over-

might be.

KMFDM, "Brute," (Wax Trax!/TVT)

The kings of Techno Rock are back and in your face harder than ever. The combination of heavy guitars, sampled sounds and film sound bites move together in a swirling mesh of rage and perfection, the likes of which only KMFDM can provide. The CDPro contains 4 mixes of the song that blast through your speakers like shrapnel. Sure to light up the phone lines and perfect for club nights.

GREN, "She Shines," (I.R.S.)

The is second single from this Los Angeles based trio's debut release, Camp Grenada. It is produced by Tim O'Heir who previously has worked with Belly, Sebadoh, and Dinosaur Jr. This is a power Pop song with some Punk elements that comes crashing out of the speak ers like a sonic wall. Early believers include WNFZ, KROX, WJSE, and WRXS.

SELF, Subliminal Plastic Motives, (Spongebath/Zoo)

The story behind Self is the 22 year old singer/songwriter prodigy Matt Mahaffey, who wrote and recorded mostly all the of the album with his brother Mike sharing credits on some guitar and bass tracks. Songs like "Borateen," and "Stewardess" utilize an amazing array of sampled sounds, thick bass, crunching guitars and beautiful harmonies that come at you in every direction.

FOR SQUIRRELS, "Mighty K.C.," (550 Music/Epic)

One of the most amazing blends of raw emotion and exciting musicianship to hit the format this year is solidly represented on this band's debut CD, Example. Remember the first time you heard R.E.M.? The Smashing Pumpkins? If you combined each band's Pop sensibilities and structured power, the outcome would sound a lot like this band. This track caught the wise ears of KROQ, KOME, and XTRA way early, prompting a buzz worthy of the hype.

SMASHING PUMPKINS, Mellon Collie and the Infinite Sadness - Twilight to Starlight, (Virgin)

While disc one could be considered the safe side of The Smashing Pumpkins, disc two takes you on a journey into the experimental side of the band. "1979" is the highlight of this disc with Billy Corgan's smooth vocals draped over a hypnotic bass line. "X.Y.U.," "Where Boys Fear To Tread," and "Tales of a Scorched Earth" satisfy your taste for the harder side while "Thirty-three," "In the Arms of Sleep," "Beautiful," and "By Starlight" take you to the soft side. Not to be missed is the James Iha and Billy Corgan penned "Farewell and Goodnight"

BEWARE: YOUR LISTENERS ARE LYING

by Mark Ramsey

Famous lies through the ages:

- Average TV Watcher: "I don't watch TV."
- Average Consumer: "Advertising doesn't affect me at all."
- Average O.J. Simpson Juror: "We carefully weighed the evidence. Our decision had nothing to do with race."

I've been doing audience research and marketing for over a decade. In that time, I've reviewed tens of thousands of interviews and conducted hundreds of focus groups. And after all that, one fact is inescapable: People don't always tell you the truth; sometimes they tell you what makes sense or what you want to hear or what makes them look good, but it's not the same as the truth. The "art" in my profession is divining the truth in the mixed and confusing mishmash of listener signals we call research.

We know that most listeners say your station should play more music in the morning. Then they go listen to Howard Stern. We know that news, traffic, and weather are things they say are important to them; your station must have them. But, if you're a music-intensive station and you drop any of them, your ratings will go up. Ask what their "ideal mix" of music is, and you're likely to find a mix that defies programming logic. It best resembles a jumble of all their favorite stations mashed into one: a puree from Hall

All of this illustrates a rule you should remember always:

PEOPLE BUY ON EMOTION AND JUSTIFY WITH FACT

The currency of radio listenership, TV viewership, consumerism, and jury participation is emotion. People do things for emotional reasons, not "factual" ones. Yet no one ever explains their decision in emotional terms. You have to dig for this. But emotion has everything to do with everything. It's why a certain band has a lot of fans, why a certain radio station has a lot of listeners, why a certain defendant is free today, why the advertising industry is a multi-billion dollar business.

Ask the Stern listener who thinks you should play more music why he listens to Stern. I've heard him say: "Well, I don't listen to Stern that much. Only about half an hour a day." Half an hour a day! That's 3.5 hours of weekday listening to mornings alone! But the "correct" thing to say is that he doesn't listen much.

Ask the average person about their TV watching. I've heard her say, "Well, I watch almost no TV." But she seems to know all about *Melrose Place* and *Friends* and *ER* and....

Ask about that feature show you're running. Even if nobody listens to it, they're likely to tell you: "But don't get rid of it; I'm sure some people like it." Everybody can like the idea of it without ever hearing a second of it. Not a recipe for strong ratings. The great danger in any kind of audience feedback is taking that feedback literally. You have to read between the lines. You have to high beam through the fog of facts to reach the truth obscured behind.

For example, do your alternative fans complain that you're not alternative enough? Probably. But can their desires ever be satisfied? Of course not. They're at the leading edge and always will be. The minute you catch up to them, they have already moved on. Sometimes in music research you find these people hate everything. Literally. Now, do they really hate everything, or are they just trying to make an emotional point? What do you think?

My favorite is the person who complains that the station should be more diverse in its offerings. It should play more lesser known artists and deep cuts because "there's a lot of great music out there." My first question to this person is always: "You're a musician, aren't you?" Nine out of ten times, I'm right. Musicians, by the way, are as similar to the average radio listener as Carrot-Top is to the average guy with red hair.

The O.J. jury judged the guilt of a man they all knew. They had seen him on TV. He was a true American hero in a time when heroes are an endangered species. What's more, he was an African American hero. Imagine judging the guilt or innocence of someone you know, of one of your heroes.

The surveys indicate that almost nobody who believed O.J. was guilty at the beginning of the trial believed he was innocent by the trial's end, and almost nobody who believed he was innocent thought otherwise a year later. Throughout the process we have all looked selectively for the factual tidbits which supported our emotional conclusions. Nothing has changed our minds. Because our minds are based on emotions, not facts.

I remember the one juror who claimed that O.J's history of wife-beating was "irrelevant" to the murder case, even though the direct statistical link between wife-beating and spousal murder is well established. For this same juror, however, the racist history of a rogue cop was relevant. In other words, Fuhrman could plant a glove because he was a racist, but O.J.couldn't kill his wife even though he was a batterer. Odd logic. But logic had nothing to do with the verdict. And it probably never does.

Next time you talk with anyone about why they like something, why they buy something, why they do something, why they listen to something, remember their answer is likely to be an analytical, factual one. But their reasons are always based on emotion. And it's critical that you get to that emotion if you are to understand what moves people and what listeners really think about your station.

Ft. Wayne's New Rock Alternative, 96.3 The Edge (WEJE has only been on-air for three weeks)

How is the station differentiated in the marketplace?

Music. Very easily stated, music is the only thing that we have at this moment. Once we develop a history for being the creative radio station in the market. The Edge will have its own "stationality" representing a new type of attitude, differentiating us from the others.

What effect has the recent popularity of this format had on the station?

It has created the station.

Alternative Radio stations are no longer only found in large markets or college towns, but in middle America as well this will be the true test in seeing how mainstream Alternative has become.

Tying the station into the local music scene:

In Ft. Wayne, there are not that many original bands, mostly cover bands that play old Zeppelin tunes in bars. Hopefully, we will harvest some local talent and spotlight them at concerts or in a local music show.

GO INDIANS... Stations that caught Low Down and its' spies ears during an East Coast swing: WEDG/Buffalo, CFNY/Toronto, The Nerve and WBER in Rochester, WQXA/York, and WWKS and WNRQ/Pittsburgh. •

The highlight of our radio listening week had to be Mrs. Gyrtlebaumer's reports from the Million Man March during Loscalzo's show on WIBF/Philadelphia. Even though Loscalzo did not pull in the Billboard award for major market air talent, we voted for him, he is still #1 in our hearts. ESH! • Chuck at Virgin played the new The Smashing Pumpkins double disc for us this week. Can you say Record of the Year? Twenty-eight songs wrapped in some of the best artwork we have seen since the death of vinyl. • Speaking of THE Smashing Pumpkins, WXRT/Chicago is going to be broadcasting a live concert from the band at the Riviera on Monday October 23rd at 9pm. Other stations across the country (such as WAQZ/Cincinnati, WRXS/Ocean City - 25 CDs all weekend & WMRQ who will be doing a flyaway) will be picking up the broadcast and doing win-it-before-you-can-but-it promotions along with 12a record store openings so Pumpkin-crazed fans can get their sweaty little palms on it. The live broadcast will feature over 90 minutes of "pure Pumpkins," starting off with a half-hour pre-show interview with the band, plus a few tracks from the new album. 'XRT will also have Billy Corgan in the studio on Thursday night, October 26th on XRT After 8 with Johnny Mars. • 91X/San Diego held their Radiothon Rock Auction this past weekend, auctioning all kinds of Modern Rock memorabilia over the air. A fantastic TSL promotion, the radiothon auctioned off coveted items such as Autographed guitars from members of Soul Asylum, Chris Isaak, Catherine Wheel, a VW Catherine Wheel Bus, a Pearl Jam sales award autographed by Eddie Vedder, Stone Temple Pilots Purple original artwork, an autographed Friends cast photo, and Rancid's 25 favorite CD's of all time. 91X will cap things off on Sunday with a show at Soma featuring live performances by Supernova, Blink 182, and No Doubt. • WLUM/Milwaukee has officially announced some staff changes; Bryan Erwin has been named APD you can reach him @ 414.771.1021, ext. 123, Zerrin Bulut (W/ Butterfly Wings) nabs the MD slot and will handle music calls Mon. & Thur. 9a-10a/4p-5p. Call her at ext.113; Tommy Wilde will be the station's Creative Director, he's @ ext. 125; and Aaron Roberts nails the Promotion Director's gig, you can bug him at ext. 124. In other Milwaukee news, WLUM is throwing a Halloween Party with Sonic Youth, Everclear, Letters To Cleo and The Amps at the Rave & Eagle's Ballroom. Tickets are \$12, and a portion of the proceeds will go to The Child Abuse Prevention Program. The station will broadcast live remotes all night, and a trip to California to see Everclear play at the Santa Monica Pier will be awarded for best costume at the show. • KZYR/Vail has announced the hiring of air personality Jay St. Clair to the stations on-air staff, coming from WAZU/Dayton's morning show. A permanent time slot for Jay will be announced in the coming weeks. • WKOC/Virginia Beach PD Mark Bradley tells us that the positives far outweigh the negatives concerning the listener response to the station's recent pick-up of the Howard Stern morning show. Mark tells us that the station's marriage with Stern is something very special and very important for not only the station but the format as well. We agree. • KISF/Kansas City PD Chuck Geiger will no longer be taking music calls. MD Booker Madison will field all your calls along with air ptalent Jason Justice, who has been named Music Coordinator. Jason will be available when Booker is tied up. Music calls will be taken on Friday (Booker 11a-2p, and Jason 2p-5p). The station will have their adds and playlist ready by 12p on Tuesdays each week. • Five weeks running at number one, is there aany way of stopping this band? KDJK/Stockton-Modesto just recently completed their "Lucky Bucks" promotion in which listeners were to find \$1 bills with 951 (95.1) in the serial number in the hopes of being caller 9 and upgrading the buck to \$100. The station rolled with the promotion all weekend long, melting the phones to liquid, and ended up giving away \$1,000. The station also went with a "Shotcuts to Pearl Jam" promotion that had the listener name the six PJ songs played in a six second montage and win tickets to the Megaband's gig in San Jose. PD Kozman says that the station "has been the talk of the town for sometime, with the endless barage of promotions our crack staff keeps unleashing." KDJK's Aaron Curtis will start taking music calls on November 2nd (Thurs. 1p-3p West Coast time), and Koz will still take

calls on Fridays • WAQZ/Cincinnati will be sending listeners to see Candlebox, Our Lady Peace and Sponge in Davenport, IA as part

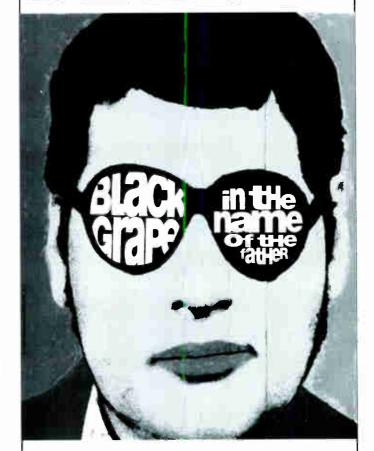

of their New Music Before The Revolution World Tour

" It's witty, wickedly groovy, psychotic, profane, funky and downright hilarious... It's brilliant. Moving even. There isn't a single dud track on it... 10/10."

The Foo Fighters self titled debut has been certified gold by the Recording Industry Association of America. Since it's July 4th release on Roswell/Capitol, the album has sold over 200,000 copies a month, moving in excess of 700.000 records and climbing. The band is currently on an extensive tour of the UK and Europe. Their second North American headling tour is tentatively scheduled to begin in February 1996.

A&M Records have launched themselves into the interactive marketplace head first with the release of 2 CDbased interactive products

showcasing Soundgarden and Monster Magnet. The Alive In The Superunknown CD Plus features four audio tracks (a live recording originally done for the "Fell On Black Days" video; an acoustic version of "Like Suicide;" "She Likes Surprises;" -which was previously only available internationally, and "Superunknown") that can be played on standard CD players and a multimedia segment that includes videos ("Black Hole Sun;" "Fell On Black Days;" "My Wave;" and "The Day I Tried To Live"), interviews, a variety of surreal environments and some funny surprises. The Photo Jam portion of the multimedia segment features more than 150 rare photographs of the band and over 40 minutes of new atmospheric music written and performed by Soundgarden specifically for the CD Plus. Monster Magnet's I Talk To Planets allows you the oppurtunity to devolve guitarist/vocalist Dave Wyndorf into primordial ooze and prepare for inter-galactic travel; create your own trips with 91 video/animated images. It also features 24 minutes of video footage featuring such songs as "Negasonic Teenage Warhead," "Blow 'Em Off," and "Dead Christmas" and 10 songs from both their albums.

Atlantic Records will release two holiday albums on October 24th; Winter, Fire & Snow, feauturing songs by Robbie Robertson & Jewel; and You Sleigh Me!, featuring Christmas time favorites by Collective Soul, Tori Amos, Billy Pilgrim, Juliana Hatfield, Jill Sobule, Victoria Williams, Everything But The Girl, and Dillon Fence.

NME reports that DGC is releasing a six single CD box set on November 6th that will include "Smells Like Teen Spirit," "Come As You Are," "In Bloom," "Lithium," "Heart-Shaped Box," and "All Apologies." Geffen Records claim the box set is being released to combat a flood of high priced bootlegs.

Elastica will record a new single for the U.K. in December, which will be released in January. The band has recorded several tracks and set to release a video for their latest single, "Car Song," directed by the on-fire director **Spike Jonze**.

The Charlatans were arrested by two dozen New York Police officers after an in-flight dispute, they were accused of "trying to disrupt the planes flight path following the journey from London on September 24, and were questioned by the FBI. NME quotes singer Tim Burgess' side of the melee: "We were just having a few beers and a laugh. But this guy in front of me told us to save the dancing until we got to New York. He got really mad with us. At one point he turned around, punched his chair and yelled, F**k off. This bloke said we were spitting and swearing and everything but that's bollocks, I stopped spitting when I was 13. I just thought he was a f**king idiot." The members of the band were put in a cell for four hours and released. The Charlatans have lodged a formal complaint against Virgin Atlantic.

SINGLES/EPS

BONNIE RAITT WITH BRYAN ADAMS "ROCK STEADY," CAPITOL

The Queen of PAR shows she's as mesmerizing in a live setting as in the studio, as this cover intros the forthcoming testament to Bonnie Raitt's stage presence, Road Tested. Pairing her with Adams works better than you might guess at first blush. Their voices pick up on each other's rough edges to deliver emotional firepower, while production evinces a warm clarity.

KING CRIMSON EP "SEX, SLEEP, EAT, DRINK, DREAM," VIRGIN

Although focused on "Sex...," with its change-up from rhythmic seduction to torrents of distorted guitar and voice, this EP offers a savory set of music for the Crimson fan, in a Progressive-targeted package. Of most immediate note are the spectacular live versions of King Crimson's two greatest Progressive outings: "Walking On Air" and "Heartbeat." The spaciest barely-connected-to-the-original instrumental take of "Silent Night" closes this package in pure Fripp style.

ANDERS OSBORNE

4 SONGS TO GET YOU THERE FROM "WHICH WAY TO HERE," OKEH/550 MUSIC

From Popa Chubby to G. Love & Special Sauce, Okeh's repertoire of profound artists continues to thrive in a positive, Blues-based direction. To summarize, Anders Osborne has a Roots Rock/Blues vibe in his songs, kind of like Little Feat, while combining mellifluous sensibilities in his songwriting for huge results. "Pleasin' You," "Favorite Son," "What's Going On Here" and "Limestone Boy" comprise this EP, and are all worthy of attention.

ALBUMS

JOHN HIATT WALK ON. CAPITOL

Right off the bat, the first thing that grabbed us about this album was the astonishing production quality. It just sounds great. Second, the melodic characteristics of John Hiatt are terribly contagious. Three, "Cry Love," the

album opener, is a monster of a track, already finding it's way into the hearts and broadcast booths of 42 PAR-Reporters, who gave the track 537 spins this week. Four, with depth cuts like "You Must Go," "Walk On," "Dust Down A Country Road" and "I Can't Wait," this album will be "walking on" for quite a while.

PRETENDERS THE ISLE OF WIEW. WARNER BROS.

"I like to think of the Pretenders as a group somewhere in mid-career," said founding member Chrissie Hynde recently. With eight albums under their belt in fifteen years, the Pretenders are an undisputable inspirational force, and with their new, live and completely

acoustic *The Isle Of View*, they confirm that their music continues to be a vital organ in the anatomy of Progressive. "Sense Of Purpose" (#1 Most Added!, 21 Reporters), "Criminal," "Back On The Chain Gang," "Brass In Pocket" and "Revolution" are our first picks.

TEARS FOR FEARS RAOUL AND THE KINGS OF SPAIN, EPIC

Now at his new label, Roland Orzabal maintains his penchant for phenomenal production, a studio-savvy sense of arrangements and his trademark soaring vocals that swoop in and add just the right sense of drama to his infectious writing. Our fifth Most Increased artist

this week, Tears are just a step away from Top Ten, with spins at KINK, WRLT, KRSH, WYEP and many more. "God's Mistake" leads this charge, but is joined by such notable efforts as "Sorry," "Falling Down," "Humdrum And Humble" and the title track.

CHERYL WHEELER MRS. PINOCCI'S GUITAR, PHILO/ROUNDER

As a veteran of New England's folk scene, Wheeler has honed her craft into a thriving, intelligent and occasionally amusing musical adventure. Mrs. Pinocci's Guitar, a marvelous fourteen song collection that nabbed five adds (WMWV, KNOM, WMNF, KPFT and WEBK)

this week, highlights the enthralling, robust voice of Cheryl Wheeler and is a praiseworthy successor to her *Driving Home* and *Circles* albums. The title track, "Does The Future Look Black" (also on our upcoming Progressive sampler!), "The Rivers," and "The Storm" caught our ears first.

THE SMASHING PUMPKINS MELLON COLLIE AND THE INFINITE SADNESS, VIRGIN

With the overwhelming success of Siamese Dream still fresh in our memories, Smashing Pumpkins have turned around and delivered an oeuvre of such depth, that while Modern will have a field day with it, it will demand

significant time and effort to winnow the Progressive wheat out of these 28 tracks stretched across two discs. For you'll find it straddles the range from the most delicate piano instrumental to the densest tortured nightmare. In between, we point you to "Tonight, Tonight," "Cupid..." and "Galapogos."

MIKE SCOTT Bring 'EM ALL IN, CHRYSALIS/EMI RECORDS

Formerly trading under the Waterboys name, Scott has eschewed what had become a fictive band and set out his first official solo album. But who can mistake his rich Gaelic delivery or the spiritual wonderment of his lyrics, dressed in British Isle folk? A band by any

other name would still earn the ears of World Cafe, WNCW, KFXD and the ten others on the album. Another ten (KGSR, WMMR, KTCZ, WMVY) favor the title track. We add "What Do You Want...," "Edinburgh...," and "City Full of Ghost."

DAVE DOBBYN TWIST, TRISTAR MUSIC

An artist of Down Under renown, countryman Neil Finn (and frequent cohort Mitchell Froom on several tracks) have taken Dobbyn's muse and set it on a stateside course, with a decided Crowded House feel. WNCW, WVXU, KCSU, KAFR and Music Choice are Twist-ing through

these dozen selections. We follow the path of WXRV to "Lap Of The Gods," with "Language" (WXPN), "Lament...," "Belle..." (WKZE) and "Maybe..." fleshing out what should be a deep and well-embraced Progressive debut.

DANA MASE SITTING WITH AN ANGEL, WATER RECORDS

When we filled you in about this artist in September, we forgot to mention a few adjectives, so here they are: Spacious, mesmerizing and lyrically enchanting. Universally, Dana Mase is a wonderfully diversified vocalist who can sing with a voice of an angel on one track,

while having the conviction of the devil himself on the next. "Sitting With An Angel," "The Jungle," a cover of the Byrds' classic "Turn Turn," "Follow Me" are all fine examples of the variety this artist demonstrates.

SPECIAL REPORT FROM

THE FRONT LINES OF **HURRICANE MARILYN**

One Radio Station's Story Of How They Weathered The Storm

By Johnny Vincent Ayers, PD, WIVI, St. Thomas

Most of the listening world didn't even know where we were, let alone who we were. That was all to change with the approaching of Hurricane "Marilyn."

WIVI, 96.1FM began broadcasting 31/2 years ago from St. Thomas in the U.S. Virgin Islands. In the past 11/2 years WIVI has grown into "the" key music radio station in the Caribbean, with a format most closely related to Progressive. Recently, we felt the station was really getting into a groove — with a new morning show firmly in place. Everything for WIVI seemed to be falling together - what we didn't realize was the "Falling" was the key word.

Hurricane Season peaks around September 12th, and experts have told us that we are experiencing the most active Hurricane Season in 69 years.

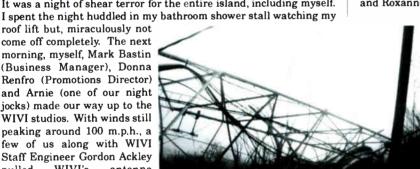

You may have heard about Hurricane Louis that hit some Caribbean Islands about a month ago. Well, Louis just missed WIVI, here on St. Thomas. We encountered minor damage locally and major damage was felt on some neighboring islands. Yet WIVI was very lucky, so we thought.

Our monitoring of tropical storms is a regular procedure during hurricane season. As a storm approaches we relay all the pertinent information we receive from the National Hurricane Center to our listeners.

On September 15th at about 5pm, WIVI gave the last coordinates of Hurricane Marilyn before getting knocked off the air, literally knocked off the air, by a 220 m.p.h. gust of wind. We thought that was the end of WIVI — or was it?

It was a night of shear terror for the entire island, including myself.

roof lift but, miraculously not come off completely. The next morning, myself, Mark Bastin (Business Manager), Donna Renfro (Promotions Director) and Arnie (one of our night jocks) made our way up to the WIVI studios. With winds still peaking around 100 m.p.h., a few of us along with WIVI Staff Engineer Gordon Ackley WIVI's pulled antenna (remarkably still in tact) from underneath the 300 ft tower it was once attached to.

We fastened the antenna to a stairwell on the back of the transmitter building and with a generator up and running so were we at the studios of 96.1FM. Within a few days we realized we were one of the only three stations left on the air after the storm. We soon began working with other media, broadcasting emergency news, information and of course lots of music.

Perhaps all of this sounds a bit dramatic, but now I know how those of you in Florida feel. Wow, I never want to experience this form of complete, catastrophic devastation that has hit these islands.

To all of the labels and promoters that were able to reach us, thank you for your support. A special thanks to Leslie and all the folks at Rounder for the T-shirts, hats and CD's "care package." It was well received. If you are trying to send product or care packages of sorts, we certainly appreciate it. Understand, however, that the U.S. Mail is taking a bit longer than normal, but we eventually will get the

With no power for 6 to 12 months and very few phones for 6 to 12 months, this is going to be a long rebuilding process. It appears as though a bomb blew up down here. Many of our jocks lost homes, roofs, but are all very thankful to be alive and have WIVI cranking tunes. Our jocks are beginning to come back in to do shows and we are beginning to resume some form of normal programming...as normal as can be expected anyway. The WIVI staff and all the DJ's are here to say "We are here," and happy for it.

- · WIVI has one telephone number available, use it sparingly. That
- · A special note to those who just felt the affects of Hurricane Opal and Roxanne; hang in there and keep playing great music.

WIVI is putting together a benefit concert for the thousands of people who lost their homes and whose lives have been completely changed as a result of the catastrophic storm. The WIVI Benefit Concert will be held in St. Thomas, with the specific date to be announced. The station welcomes all musicians. If you would like to get involved, contact Johnny Vincent at 809-774-

Also, if you'd like to send a care package to WIVI, send it c/o Johnny Vincent Ayers, WIVI 96.1FM Radio, P.O. Box 304383, St. Thomas, USVI 00803-

TALES FROM THE OVERSTUFFED CD PLAYER

Pop Quiz! Aside from Yes and Pink Floyd name another prominently original and exceptionally inspirational English Art Rock/Progressive band? If you said Genesis, congratulations, we commend you on your supreme musical taste and knowledge. As reported here in past PAR-spectives, the New York based independent label, Magna Carta, has

released wondrous tributes to Yes and Pink

Floyd, and on October 24, the circle will be complete when the label unveils Supper's Ready: Another Serving From The Musical Box, a fourteen track acknowledgment of the music of Genesis. Chronicling material from both the Peter Gabriel and Phil Collins years, the album features stunning renditions of "Back In N.Y.C." by Kevin Gilbert, "Ripples" by Annie Haslam and "Undertow" by Genesis producer David Hentschel with vocalist Jay Tausig. Other cuts of interest are Genesis cover band Over The Garden Wall's take on "Firth Of Fifth," as well as former 3 (Keith Emerson, Carl Palmer) and GTR (Steve Howe, Geoff Downes) member Robert Berry with Hush on "Watcher Of The Skies." Richard Sinclair, Magellan, Enchant, Pete Bardens "Mirage", Shadow Gallery, Cairo, Crack The Sky, John Goodsall with Michael Zentner and World Trade round out the album.

Along with releasing their upcoming The Isle Of View album (refer to the Picks section for our review), the Pretenders will be releasing a home video and laser disc of the same name. With the music stripped down to acoustical elements and backed by the string ensemble, The Duke Quartet, the Pretenders' concert video was filmed at London's Jacob Street Studios this past May and features fourteen of the band's classic cuts, as well as two additional tracks not available on the audio release. Look for the unreleased tracks "Blue Sun" and a cover of Radiohead's "Creep," as well as a guest appearance from Blur's Damon Albarn during the 70+ minute show. Public television will begin airing the concert as part of it's annual fall pledge drive in late December.

Keep an eye and an ear out for the Lava/Atlantic Records release Tapestry Revisited: A Tribute To Carole King to drop on October 31. The album is a song-by-song, newly-recorded recreation of the Carole King classic, which has sales in excess of 22 million units worldwide since its release nearly 25 years ago. The twelve songs of Tapestry were re-recorded in their original sequence and were performed by: Eternal ("I Feel The Earth Move"), Rod Stewart ("So Far Away"), Amy Grant ("It's Too Late"), Curtis Stigers ("Home Again"), Richard Marx ("Beautiful"), Blessid Union Of Souls ("Way Over Yonder"). BeBe & CeCe Winans featuring Aretha Franklin ("You've Got A Friend"), Faith Hill ("Where You Lead"), Bee Gees ("Will You Love Me Tomorrow?"), The Manhattan Transfer ("Smackwater Jack"), All-4-One ("Tapestry") and Celine Dion ("You Make Me Feel Like A Natural Woman"). In addition, the cable network Lifetime Television will air a one-hour special chronicling the album's recording on November 4.

Also on October 31, MCA Records will release the soundtrack to the upcoming film *Ace Ventura: When Nature Calls.* And while this comedic phenomenon may have you shivering in your boots with uncontrollable anticipation or head-shaking disgust, some of the music on the album will have you jumping up and down with excitement like a deranged kangaroo. Look for a re-make of "Spirits In The Material World" by **Pato Banton** and **Sting**, as well as "Secret Agent Man" by **Blues Traveler**, "My Pets" by **Matthew Sweet**, "Ifé" by **Angelique Kidjo**, "It's Alright" by **Blessid Union Of Souls**, and a host of others to grace the collection.

The Cocteau Twins have put together two EPs and a video while fans wait for their new full-length record, Milk And Kisses, to be released early next year. Twinlights, the first EP, features acoustic versions of three new songs and a previously unreleased track, "Pink Orange Red." The second EP, Otherness, contains two new and two previously unreleased songs, mixed in collaboration with Mike Clifford of the U.K. ambient group Seefeel and will hit in November.

Atlantic Records is ringing in the holidays early with two collections due in stores on October 24. Winter, Fire & Snow voids of the traditional tunes and contains all original material for the holidays written and performed by the likes of Jewel, Phoebe Snow, Robbie Robertson, Ottmar Liebert, Clannad, Jane Siberry and others. The other, You Sleigh Me, presents a diverse selection of original and traditional Christmas songs, and features Mary Karlzen, Collective Soul, Tori Amos, Billy Pilgrim, Juliana Hatfield, Jill Sobule, Victoria Williams, Everything But The Girl and Dillion Fence, among others. Ho, Ho, Ho.

MONSTERS

ANTHRAX LP STOMP 442, ELEKTRA/EEG

Already pushing for the top of our PURE SPINS tally at 3* this report, ANTHRAX drops a bomb this week in the form of Stomp 442, their new album. Produced just outside Philadelphia by The Butcher Brothers at their new Studio 4, this record is brimming with thick Metal riffs and soaring vocals. Involving lead throat John Bush in more of the songwriting process has certainly helped things gel for the guys, on this their second record with the Metal stalwart in the lineup. While "Fueled" gases up Rock Radio, the Metal base of this band can now begin the full-on feast. PANTERA's Dimebag Darrell guests on two tracks, "King Size" and "Riding Shotgun" that show these guy's full sonic potential and are immediate "go to" tracks. Most of the rest of the axe work here is handled by drummer Charlie "Nice chops" Benante and posse member Paul "I'm Not A" Crook. "Random Acts Of Senseless Violence" is already getting play from the High Octane Ep, and is also a stand out. We also dig "Perpetual Motion," "In A Zone" and "Drop The Ball," but mainly we dig fucking Anthrax. The band sets out on an in-store tour this week. Can a live tour time be far behind?

SAVATAGE LP DEAD WINTER DEAD, ATLANTIC/AG

This could be the album that re-generates SAVATAGE's Metal roots, while stepping the band up a level with Rock Radio. The edgy title/lead track has gotten the band jump started with the Loud Crowd, adding KEYJ, WFAL, WTZR and WXMJ this report. This new album embodies all the drama that Savatage has been over the years. While they have become less conceptual in the past few years, there's a theme thought this disc. Tackling the blight and despair that is the former Yugoslavia, Jon Oliva once again captures events in a way that hits hard. Lead throat Zachary Stevens conveys Oliva's songs in a compelling manner, egging you to listen on. Axe vet, Al Pitrelli, on board for this effort, adds much to the sonic landscape as well. Songs like "Sarajevo" hit the nail on the head. The best Metal Radio fare, beyond the title track, includes "I Am," "Starlight" and "Doesn't Matter Anyway." As the holidays approach, we direct your attention to "Christmas Eve (Sarajevo 12/24)," which could work on your Xmas special show, if you air one.

MARILYN MANSON EP

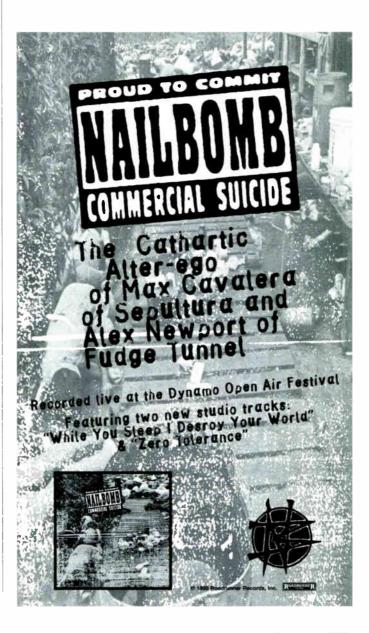

SMELLS LIKE CHILDREN, NOTHING/INTERSCOPE/AG Perfectly timed for Halloween, and their current tour, MARILYN

Perfectly timed for Halloween, and their current tour, MARILYN MANSON unleash an Ep of remixed and re-worked stuff from their *Portrait* project, a couple covers and various "sounds." Peruse the sound effects closely, they might just be of use with special shows for the upcoming night of witches. For Halloween, try "The Hands Of Small Children" into "Diary Of A Dope Fiend" or their cover of SCREAMING JAY HAWKINS' "I Put A Spell On You" as far as songs go. "S***y Chicken Gang Bang" is a cool "music under" theme, and "Sympathy For The Parents" is a twisted interview clip that uses back masking very well. Track #16 has some more eerie shit for Halloween use. All Halloween stuff aside, watch the

"fucks," and the adrenalin-fueled cover of PATTI SMITH's "Rock N' Roll Nigger" which closes the musical portion of this CD program. Finally, Manson's Metal-approved cover of "Sweet Dreams (Are Made Of This)" might just finally get them onto Modern/Mainstream radio. Hey, it could happen!

SHOCK BOX LP DROPPIN' THE BOMB, ROCK THE NATION

Thick n' chunky, that's SHOCK BOX. Like so much salsa, this band also is some spicy shit. Combining heavy edged guitars with

FRIDAY MORNING FEEDBACK

"Anthrax fever has hit Amarillo. Brutal Juice played live here the other night and they were the shit. Not a big turnout but a big show."

-Eric Slayter, KZRK, Amarillo

"People say Metal's dead. Maybe part of the reason for that perception is because many of the bands that we are being worked heavily on, especially from indie labels, aren't available at retial. At least not in my area. Bands that listeners are telling that they can't find in local stores include Meshuggah, Sinister, Exit 13 and Mindrot. Even though they are good bands (Meshuggah is incredible) they don't stand a chance if kids can't buy their records."

-Joey Jones, KEYJ, Abilene

"Had a great time down in the city last weekend. Took in the Ozzy and Fear Factory show. The 'Oz Man' is back! Two super huge thumbs up to Smitty and Cheryl Valentine. You guys rule! Thanks to all for a really great time!"

-Matt Guido, WKGB, Binghamton

"Thanks to the incomparable Epic/SONY team of Cheryl & Smitty I ventured into NYC again to see and be seen with none other than Ozzy Osbourne. It was a wet night in town, both inside and out. Why? Do remember going to any of the last in the series of Ozzy shows? He always knew that the fans get really worked up and overheated at his shows. I literally lost count of the number of buckets of water being heaved onto the Roseland throngs and that supercharged water cannon was a great idea. Ozzy, Geezer and the band were superb and in the finest form. I'll see many of you at the upcoming Philadelphia Music Conference at the end of the month."

-The Tink, WVUD, Newark

clean harmonies, this band should make an initial impression with many of you. **Dave Boldt**'s vocal howl is very reminiscent of old school thrashers like **EXODUS**. So is the dual axe work of **Lenny Vertucci** and **Sean Ostos**, who really drive this band. Look for adds and airplay to pile up behind these guys and their Skate dude. Tracks to try include "Whatcha Gonna Do," "Outta My Face," "Nobody People" and "Head Full Of." Will you be *Droppin' The Bomb* this week?

7 SECONDS LP

THE MUSIC, THE MESSAGE, IMMORTAL/EPIC

Yet another set of long-timers in the Punk game gets their overdue big break. 7 SECONDS was among the next wave of bands that cranked up the L.A. scene in the Eighties. Listen to *The Music, The Message* and you'll easily hear their influence on Pop bands like THE OFFSPRING and GREEN DAY. The question is, will the kids buying records give these guys a shot? Metal, here's where you come in. Being a tastemaker in your hamlet, give these guys some exposure. Much of the stuff on this disc is lighter than you might play, but give "Kinda Future" or "Born Without A Mind" a few spins to expose them. It just might start a trend of breaking veteran Punk bands via Metal airwaves.

CHASTAIN LP SICK SOCIETY, LEVIATHAN

David T. Chastain has undertaken various creative outlets in his time. As both a solo artist, and in the eponymous CHASTAIN, which he uses for his Metal band, David's music has always dwelled on the fringe. Teaming with sultry songstress Kate

French for Sick Society, the band's latest, he delivers some of the best stuff yet. French also impresses with her vocal impact, which is somewhat rare among female singers in Metal. Chastain must grow 'em down on the farm. (Remember LEATHER?) Not only are the songs and performances a step up for the band, but production points are better than in the past, too. Tracks to try include "I Know The Darkness," "The Vampire," and "Sick Society." WRDL and WTFX add it this week. Already at 47* PURE SPINS, is this the week that you get "sick?"

DIE KRUPPS LP, RINGS OF STEEL, CLEOPATRA

The guys who brought you last year's **METALLICA** cover/remix disc, are back with their unique blend of Techno, Industrial and Metal. These hybrid pioneers have influenced a ton of younger bands and now are feeding off their spawn like some kind of musical Nosferatu. The up front stuff here is the remixes, which outperform the "original" versions also presented here. "To The Hilt" is one of this disc's best tracks. Remixed by **Erlend** und **Jocke** of **CLAWFINGER**, we have to agree that this is the tastiest Metal

airplay candidate here. We also dig, "Language Of Reality" which was reworked by the unusual team of Charlie Clouser (NIN) and L.A. GUNS' Mick Cripps, and the remix of "Bloodsuckers" by BIOHAZARD's Billy and Evan. This week, DIE KRUPPS (isn't that German for coffee maker) settle in at 42* PURE SPINS.

STUFF YOU SHOULD KNOW...

- * After the last minute cancellation of opening night in Worcester, OZZY OSBOURNE's Retirement Sucks Tour kicked off last Saturday night at Roseland in the Big Apple. As the lights went down, the video screens flickered then lit up with a scene showing Oz popping into the most unlikely of places (next to Forest Gump on a park bench, behind President Bill smoking a fatty, etc.), taking the edge off the anticipation with some very funny stuff (get there early!). Next was a video/audio collage of Ozzy over the years. Next up was the real thing. Almost two hours of non-stop Ozzy/Sabb classics interspersed with buckets of ice cold water and blasts from a really super soaker. An experience that can only be described as religious for the faithful. Wanna know what Ozzy thinks of all of this "Metal is dead" horse shit? Read these pages next week!
- * OZZY's camp is planning round two of the Retirement Sucks Tour with late January slated as the start for the major arena tour behind Ozzmosis. Might PARADISE LOST be in tow?
- * One of America's premier Rock stations (i.e. borderline Metal outlet), WDZR, Detroit is celebrating Ozzmania by changing October to Ozztober. Cool move, gang.
- * Following word leaking out last week that KYUSS had split, word gets out that QUICKSAND has also called it quits following a show in L.A. last week.
- * November 21st, A&M will release new CD Plus projects by SOUNDGARDEN and MONSTER MAGNET. Some copies of Mag's Dopes To Infinity disc were inscribed with CD Plus, but this is a wholesale release. CD Plus allows you to get the music, plus CD-ROM generated graphics. Soundgarden's disc is called Alive In The Superunknown and features a live take of "Fell On Black Days," an acoustic version of "Like Suicide," an internationally released track, "She Likes Surprises" and "Superunknown." The

53

opening screen gives you options to enter the Photo Space Jam (for music), the Video Forest (for video) and the Superunknown. The Video Forest features full clips for "Black Hole Sun," "Fell On Black Days," "The Day I Tried To Live" and "My Wave." The Photo Jam features dozens of photos of the band with specially created and performed ambient music by the band as background. Monster Mag's package is "the ultimate mind trip" that puts you in the middle of a psycho sonic warp of an adventure. De-evolve singer Dave Wyndorf back to his primordial self, create your own trips (they band always does), or blast space junk to the tune of all of your Dopes and Superjudge faves. This disc also includes video footage for "Negasonic Teenage Warhead," "Blow 'Em Off" and "Dead Christmas," perfect for upcoming Xmas shows. Both titles are in the \$20 and under price range. As part of the packages, A&M is delivering a second disc in each package which will make the CD Plus compatible with most existing CD-ROM drives.

BLOWOUT IN OUR RADIO ROOM

When ROB HALFORD of FIGHT called in to our radio show this summer for a "Blowout in The Radio Room," the listeners got to do the interview. Afterward, (left to right) the infamous Metal Mike, a couple listeners (including one who says, "It's always Flyers season!"), One Of Us, Epic's Smitty, another listener and Kelly "The Killer" Cooney squeeze in behind the console for this blatant trade shot. No word yet on where Halford will land for FIGHT's next record.

- * Be on the lookout for the NEUROTIC BOY OUTSIDERS at your local clubs. The ad hoc unit is in town this weekend and features Duff McKagan and Matt Sorum (of GN'R fame), ex-SEX PISTOL Steve Jones and former Durani, John Taylor. Ya heard it here first!
- * Single Segues: The EMI boys want you to know that they have officially switched **TEA PARTY** tracks to "The Bazaar," our early pick as the best rockin' tune on the band's *The Edges Of Twilight* disc...So switch to "Max The Silent," the next one from **PAW** already!
- * Look for GWAR and BRUTAL JUICE to hit the road together next month. Given the theme of this album (the party before the end of the world), will Armageddon hit after this tour ends? Inquiring minds wanna know! Look for the Antarctic's best export

to have their own comic book out in time for stocking stuffing.

- * SACRED REICH's Heal has been slated for a February release.
- * CANNIBAL CORPSE's next epic is under construction. Look for Created To Kill to hit in March.
- * CATHERINE WHEEL will hit the road with CANDLEBOX in November.
- * We hear that KING DIAMOND and MERCYFUL FATE will tour as a package this winter. Question is, who opens for who?
- * TROUBLE's new album, Plastic Green Head is due to release on January 30th on Century Media. It's already out in Europe.
- * Already working together in **DOWN**, look for **C.O.C.**'s **Pepper Keenan** to pull down co-producer credits on the next one from **EYEHATEGOD**, due in March.
- * Congrats to one of our own, A&M's Mike Rittberg on his elevation to Sr. Director/Rock Promotion. The cream always rises to the top, pal.
- * Sure they're releasing another smarmy ballad, but check this out, **DEF LEPPARD** will play three concerts on three continents in ONE DAY Monday, October 23rd. And no one has done that before, we're betting. In twenty four hours, the band will play Tangiers, Africa, London and Vancouver. In Vancouver, CFOX has all the tickets for the show, for free.
- * PAUL DI'ANNO'S KILLERS tour of the U.S. is canceled due to "problems with the law."
- * Your ole pal, Lauren Goldwasser, who has moved to Guitar World magazine wants all her Metal pals to stay in touch. Her new biz phone number is (212) 462-9593. The address is 1115 Broadway, 8th Floor, NY, NY 10010.
- * WBAB/Long Island's Metal show, hosted by METAL DETECTOR Hall Of Shamer, Fingers, is plotting their 12th anniversary show, slated for November 5th. Want to be a part of the party? Call Fingers or producer/news chick Gail Flug at (516) 586-6043.
- * Kudos to John White and all at WSOU for putting together last week's Monday Night Mayhem reunion. White helped to get together all hosts of the show including show founder Crazed/Megaforce's Missi Callazzo, who we know has a good time. Thanks to Missi for bringing BIF NAKED by FMQB HQ last week. While she never actually lived up to her name, we were captivated by this young Canadian woman's understanding of the U.S. biz and ice hockey. Always a plus, eh?
- * Compilation City: Even though we don't accept reports on compilations, we thought you'd like to know what the Blackout/Cherrydisc crew is up to with Punk Rock Jukebox. Counted among those offering tracks? THE SWINGING UTTERS, NOBRAIN (featuring members of RANCID and SHEER TERROR with Marky Ramone), THE BOUNCING SOULS, and MURPHY'S LAW among others...Metal Blade's

Metal Massacre XII will hit retail on November 7th. It features several young unsigned and previously available on small indie label only bands.

* WWLF, Watertown's Z-Rock has added a one-hour weekly show, and enters Active Rotation this week. J.P. Voytko hosts "The Show" on Saturdays at 7PM. Contact him at the station at (315) 782-1425. By the way, after just two weeks of Active status, WVXU, Cincy is off our list.

KISW, SEATTLE MD-CATHY FAULKNER:

"I wanted to thank Seattle's own Second Coming for taking time out of their busy schedule and recording at Bob's Garage. They are currently working on new material for a second album. If the Bob's Garage session is any indication — their second album is ROCKIN'! I'll keep you posted...Hey, have you checked out our Home Page? Though I'm new to this information highway stuff — it's pretty damn cool — cool links too! WWWW.KISW.COM click in, click often...Hopefully, by the time you read this the Mariners will be on their way to the World Series against Atlanta."

WBCN, BOSTON MD-CARTER ALAN:

"We've had a flurry of in-studio performances here over the past couple of weeks. In fact, while writing this, I'm waiting for Our Lady Peace to arrive for its own unplugged visit. These appearances have all occured during the mid-day shift, featuring WBCN announcer Bradley Jay, whose exceptional interview style has well-complimented each musical session. Last Thursday the 'BCN studio was filled with lucky listeners who won the opportunity to watch Blues Traveler loosen up and jam on the air. The band was in town for three Sold-Out nights at the Orpheum Theater. Tanya Donnelly and Belly dropped in once again for a performance before their highly-charged show at Avalon with Catherine Wheel. Also visiting for a full-blown electric in-studio set was a rare appearance of England's Gang Of Four, who later devastated a crowd at Aerosmith's Mama Kin nightclub... Long-absent and welcome back on the scene is Mike Peters, formerly of the Alarm, who has taken a solo unplugged (and un-Alarmed) show on the road. He'll be playing dates all over the U.S. through Christmas, he told me. Peters dropped in at 'BCN and played a couple of new tracks as well as a lively acoustic reading of one of the Alarm's final hits, 'Sold Me Down The River.' His show, by the way, was any Alarm fan's delight as the lead singer and guitarist worked his way through the Welsh group's songbook for 90 minutes (he would have played longer, but they turned the lights on and kicked everyone out!). Also featured were new songs and selections from an album of Alarm rarities that Peters has recorded and is being sold through mail-order. The address and details are available at each gig. The Alarm was one of the true bright spots in '80s Rock music and Mike's show showed me just how much I miss that band. If you had love for this departed group, Mike Peters' show is a worthy revisit to an enlightened catalogue and many great emotional moments."

WPLR, NEW HAVEN MD-PAM LANDRY:

"Thanks so much to those who voted me in as Billboard Magazine's small (!) market Rock Radio MD of the year. What a terrific surprise!! Special thanks to Diane Gentile of EMI, Frank Murray, who's gone Hollywood, and Steve Kline of Lava Records for being such a great cheering section. The movie offers are already pouring in!"

WIXV, SAVANNAH MD-JAY SISSON:

"Have you ever noticed that colored or clear plastic spindles in CD jewel cases seem to break their 'teeth' much more easily than the standard black plastic ones?"

KISM, BELLINGHAM MD-CHRIS DIESTLER:

"Independent Rock's trusty Assistant MD-Jon Eliot says 'you could feel it in your throat' — talkin' 'bout Soul Asylum in Seattle. Woo-Whoo! Purdy durn LOUD. Thanks to Mr. Pirner for the liners, and Larry Reymann/Columbia for the giveaways...Hugo Cole/WORK gets a big smooch from Ken and Jon for dinner when Heather Nova was in the area. Methinks Ms. Nova may supplant Tori Amos as my longtime daydream fantasy (sigh)!! — thanks for the liners, Heather; sorry I missed the show...I'd like to take this opportunity to plead with Warner Bros.

Records to release an FCC-friendly version of Chili Peppers' 'Aeroplane'. It really is THE coolest song on that thar 'One Hot Minute'."

WXFX, PRATTVILLE PD-SCOTT HAMILTON:

"Now that our power is back on after the hurricane, I can rave about some of the rock I've heard on my portable...'Cumbersome' rocks! I just got the full CD from 7 Mary 3 and I'm impressed. More after I crank it a few more times...Better Than Ezra has released their third smash, 'Rosealia'. My only problem: 'In The Blood' is working so well, I have to wait a week or two before I can jump on it! Live or in the studio, this is one of the bands that will stand out on the year-end charts...Smashing Pumpkins, Smashing Pumpkins, Smashing Pumpkins! If 'Mellon Colie And The Infinite Sadness' is half as good as 'Bullet With Butterfly Wings', we're in for a long ride. I've been a fan since they were on Caroline. Their time has come!...The new Tears For Fears CD is excellent! From start to finish it's a labor of love...Here are a few tracks that stand out from the crowd: Silverchair 'Pure Massacre', Lonesome Romeos 'Sea Of Love', Oasis 'Morning Glory', Blind Melon 'Toss Across The Floor', Brother Cane '20/20 Faith', Dragmules 'Send Away', Alice In Chains 'Grind', Smile 'Staring At The Sun', Our Lady Peace 'Supersatellite', Paul Westerberg 'Sunshine' ... As I was typing this, I received a CD from Dog's Eye View. This thing is a killer. I have no idea who, what, why, where or how this will work, but it's a great CD! I'm ready to listen to it again...More next week."

WONE, AKRON MD-ERIN CARMEN:

"Boo!! Our annual Zombie Hop is just around the corner. We've got over \$1,000 worth in cash and prizes to give away, a great local band to jam the tunes, and me broadcasting live! Is that scary or what?!? What's even scarier is how many calls we've gotten on the new Ozzy and the new Seger tunes!! These guys just keep on rockin'. I can't wait to see them on tour!"

WFNX, LYNN MD-LAURIE GAIL:

"We're right in the middle of our Fort Apache Series — every Thursday afternoon from noon to one we broadcast live from the legendary Fort Apache Studios in Cambridge. 101 contest winners get to attend a live performance from our fab line-up! 9/28, it was Radiohead, 10/5 — Innocence Mission, 10/12 — Goo Goo Dolls, 10/19 — Smackmelon, 10/26 — Buffalo Tom, 11/2 — Letters To Cleo and 11/9 — Mighty Mighty Bosstones. Big Barbie thanks to Capitol, A&M, Warner Brothers, Relativity, EastWest, Giant, Mercury and Gary Smith and all at Fort Apache!"

KUKQ, PHOENIX ALLISON STRONG/LARRY MAC/UNCLE FRYDAY:

"I started off last week by heading over to Gibson's to see TAG's new act, 'The Inbreds'. How two guys can make so much organic noise is beyond me - but their buttery noodling gives way to much snap, crackle and pop. Our audience is thrilled that we are bringing back our much loved album feature, 'QR They Anyway' which is a two or three song collection of cuts off a current album. By this time next week, when you look at our playlist, some of your artists may appear twice. It's simply because they were featured 'QR They Anyway' artists said week...This week we herald 311's return to the valley, a show with San Diego Band's Tanner and Buck O'Nine, and Seattle's Supersuckers...We also are participating in an all day outdoor 'alternative' sports festival. Fitting, isn't it? This morning I'm cutting up a KQ composite, followed by a full aircheck of the Monday Morning Music Meeting, after which a regular aircheck of the station during a normal hour of programming. I'll have duplicates made. Tapes, anyone?"

KSQY, RAPID CITY PD-MICHAEL CROSS:

"I should have told all of you last week, but it's been quite crazy here for the past week or so. If many of you wondered why our PPW's dropped so much last week, it's because our tower dropped! KSQY was off the air from Wed 10/4 to Wed 10/11/95! Yes, an entire week! On 10/4, we received over a foot of snow on Terry Peak (elev. 7200 ft.). The storm knocked 30 feet off the top of our tower. On its way down, it hit our backup tower! We're back on the air; however we're only at 23% power. Our listeners are quite happy after having to listen to either Classic Rock (The Fox) or 'Rock' they have never heard before (The X). Needless to say, we're much more appreciated more than ever!"

WBXQ, ALTOONA PD-MIKE THOMAS:

"Ozzy Osbourne has exploded on Q94. Top phones. Also Top Tested song, Green Day 'Geek' is getting great reaction too; and one of my favorite groups ever, the Goos with 'Name' — a real song for the chicks. They dig 'em. Now, can't I go on about one of my best reaction tunes 'Radar Gun' by the Bottle Rockets. Altoona loves this group. I hope to land them in 'Toona town soon for all to see and enjoy!"

CHRIS WOLTMAN COLUMBIA (212-833-8506):

"Alice In Chains - Exploding!! 'Grind' is taking off as we all knew it would - the requests have been huge. The BDS numbers look great: 42 to 13*. We have a lot of exciting things ready to roll including a press conference with the band prior to radio receiving the full CD. Rockline the night before in-store and a few other things. It's Alice In Chains and it feels great having new music from them...Toad The Wet Sprocket's 'Good Intentions' continues to close out as it should. In BDS 39 to 27*. Top 10 airplay at WKLS, WAVF, WMMR, and too many others to mention. Toad's 'In Light Syrup' will be in-store this Tuesday, October 24. A few that helped to round it out this week: KQRS, WKLQ, KATT and more. It's a hit...The Presidents Of The United States Of America - I guess we can say that this is comin' home. Last week we sold just under 40,000 records in one week — to be exact, 37,486 in just 7 days. The research is starting to come back huge at stations like KLOL and KLOS - and to think that it's probably only just getting started...Dog's Eye View - you should have the full CD at the station. I can only suggest that you spend quality time with this. It's absolutely brilliant - listen for yourself."

DEPIPPA AND SCHNAPP THE EMI ROCK MUSIC DEPARTMENT (212-492-1852):

"Let's keep it simple. We got to check out **The Tea Party** last night, and even with **Jeff Martin** (vocals) having the flu, they ripped. Hey, they're opening for **Page/Plant** in Montreal tonight! You have to see this band live. Did we mention the new single is "The Bazaar"? If you have to do the right thing, just play it!....Anything else? Give us a shout."

ALAN OREMAN GEFFEN/DGC (310-278-9010):

"It's awesome to see such great Rock Books this time around. I think this is a great sign for the format and a good sign of things to come. It's probably because Rock Radio is not just a track format, but much more artist-driven. Only a couple months left, but we've got some great rock records for ya...Jawbreaker continues to grow at many impressive stations including KLOS, WBZX, WLZR, WQFM, WRCX, KQRC, KBER, KBPI, Z-ROCK, and many more - a band we obviously believe in and are totally focused and committed to getting airplay on no matter how long it takes...White Zombie's next track, due to popular demand, is 'Super Charger Heaven' (Devil Man). Going for airplay now, but if 'Electric Head Pt. 2' is still working, get 'Super Charger Heaven' in when it's right for you...Southern Culture is still rolling with 'Voodoo Cadillac', and we're selling 2,000 records a week...Loud Lucy is coming at the end of October. The track is "Ticking" and it's so in the pocket for Rock Radio that I hope you all spend time with this great record. They just recently opened for Alanis Morissette and won the crowd over on every show. They're the goods!...Coming in early November are brand new tracks from Tesla from a Greatest Hits package — the song is 'Steppin' Over' and it's straight-ahead Rock!...And also a new track from Don Henley that sounds killer, that's also from a Greatest Hits package. 'The Garden Of Allah' is a very topical song for today and you should read the lyrics. Both albums are in stores November 21st.

That's it for now...Some amazing music out there but probably my favorite is **Smashing Pumpkins**—this album is going to be monstrous!! But it doesn't take a rocket scientist to figure that out."

JIM DEL BALZO Columbia (212-833-7029):

"One of the great things about working at Columbia is the amazing diversity of music that we have. This is especially true of the music of the rock artists on the label...The Alice In Chains album will be released on November 7. It clearly shows why the band are true leaders of the sound that has come to be known as the Seattle sound...Soundgarden was the first but Alice broke the music scene wide open with 'Man In The Box' and they've been building on their reputation with every release. This album will not disappoint their legion of fans. It is very deep. 'Grind' is looking like a huge song for Rock Radio. If this is like every other Alice song prior to this, in about six to eight weeks every programmer in America will be telling me how huge this song is at his radio station. Watch this album blow-out at retail on November 7...I got the opportunity to hear the new Bruce Springsteen album, 'The Ghost Of Tom Joad' on Friday night. To me the greatest things about Bruce's song has always been his characters. The people in Bruce's songs seem real enough to touch. Never have Bruce's songs been more compelling or more visual. These songs play out like novels. Bruce fans will treasure this album always...To go with these we also have a great album coming of Toad The Wet Sprocket songs...New music from Stabbing Westward (the lead track's a great song called 'What Do I Have To Do?') and new bands such as Dog's Eye View, Howlin' Maggie and Expanding Man among others. It's going to be a great Fall and a very exciting '96 here at Columbia."

JON NARDACHONE ATLANTIC (212-275-2135):

"Twelve years and ten albums after they played Tampa, Florida on the rock n' roll map, Savatage still rocks the world!!! The new record is 'Dead Winter Dead'!! Yes, it's a concept record! Yes! Jon Oliva sings two tracks on the record! No matter what is sheik and trendy, Savatage survives!! This is because they are the best at what they do — playing dramatic, super driving hard rock music!...Clutch is still voyaging with Marilyn Manson and it's Sold-Out show after Sold-Out show! Smoke the 'Spacegrass'...The new Smile single is 'Rock Anthem For The Retarded Teenage Hipster Population' — great song/great title!!...Machines Of Loving Grace are releasing the 'Richest Junkie Still Alive' remixes — check 'em out if you dig the techno/Metal sound...I pulled out my snowboard this week — it's almost that time. I'm a very very happy boy."

SCOTT "LO/JACK" DOUGLAS VIRGIN (212-332-0418):

"Despite all my rage I am still just a rat in a cage. That's just scratching the surface. Take both discs, put 'em in the changer and set it on random. You won't hear a bad song. 'Mellon Collie And The Infinite Sadness', new from the Smashing Pumpkins. In record stores next week. On the radio now...Lo/Jacks to the shameless likes of: Chuck Williams, Bobby Blue Band, Dave Richards, Sharon Schifino and Dave 'My Brother' Douglas!"

JON/LORRAINE SCOTT KAUAI COMMUNITY RADIO 808-826-7774:

"Kauai, HI (October 9, 1995) - In a generous show of support for public radio on Kauai, Glenn Frey and The Eagles have announced that they will donate a portion of their Honolulu concert proceeds to Kauai Community Radio. We are extremely pleased to have a public radio station on Kauai' commented Jon Scott, media contact and a board member of the Kekahu Foundation' and we greatly appreciate Glenn Frey and The Eagles support.' The world-renowned rock band that got their start on innovative radio stations in the 1970's has pledged a donation of \$1.50 to Kauai Community Radio for each ticket sold to their November 6, 1995 Honolulu concert. The concert will be the band's first Hawaiian performance in 16 years. With an on-air target date of next Spring, Kauai Community Radio will feature a unique mix of music, news and community-based programming that will be heard across all of Kauai. The effort to start Kauai's first non-commercial radio station is spearheaded by the Kekahu Foundation, a non-profit organization founded solely for this pur-

pose. The Eagles financial support of the Kekahu Foundation will contribute significantly to the organization's ability to meet its April 1996 on-air schedule. While the radio station recently won a Federal endowment that provides seed money for initial construction, additional funding is still required to cover the costs of radio station facilities, equipment and operations. The continued support of local residents and businesses through their donation of time, money and services will help make Kauai Community Radio a true community effort...For more information on Kauai Community Radio or to make donations contact the Kekahu Foundation at 808-826-7774, P.O. Box 825, Hanalei, HI 96714."

DAVE HELM ANOTHER PLANET (212-529-2600):

"Imagine playing a record because you like it? I know some of you out there consider this as an option. Maybe some of you have played something on pure sonic quality alone (i.e. Shelter). Those people deserve praise. Those of you that need to be inundated with promo shit and box lots can stop reading now. Those of you that are not major label suck ups please listen. A band called Stanley has released their debut full-length entitled 'Clobbered' and you have it on your desk. Dust it off, and begin to rock...Also on Another Planet: The Stubborn All-Stars — an all-star band of NYC ska legends playing old school ska originals...Home 33 — The new breed of NY hardcore blending HC, grindcore and Metal...Scarhead — Straight up hardcore feat. Members of Crown Of Thorns, H20, Madball and Maximum Penalty. Keep it real!!!"

CHUCKIE SPIN BLUR TODAY USA (212-332-0421):

"KROQ adds Blur! Yes! That's 28 Modern Rockers playing the UK and Europe's #1 band! Break up that puberty-grunge train today. Diversify and sound Modern, not like your AOR competitor. Blur adds taste, class, culture and authentic Modern Rock sound. Virgin is committed to break Blur!...The next track for Lenny Kravitz is 'Circus'. Back up his multi-Platinum base and MTV base...The Sold-Out Bowie tour is winding its way west. Make sure to spin 'Strangers When We Meet' - track 19 off the album. Back up his highest sales in the last 5 years along with MTV, Press and tour awareness. He is your artist!...The Geraldine Fibbers are on the road with Mike Watt and soon Urge Overkill, 4 Star Press and a music intensive buzz. Make sure you see a gig!...Ben Harper has now toured with PJ Harvey, Luscious Jackson and now opening for Pearl Jam November 4th in SF, CA. As Chuck Summers at KCXX says: 'Don't miss this one. Ben is the alternative to the alternative.' Two years of development — Ben is Modern Rock and Modern Music: 'Ground On Down'...Oh, and do play the Smashing Pumpkins stellar double album, 'Mellon Collie & The Infinite Sadness'! Watch the sales, phones and take part in launching this Monster release...By the way, Billy Corigan loves Blur. And KROQ added Blur too! Helllllo. Be creative, people. It's your format. Blur will save your modern souls. Get with it and never fear the great song, 'Country House'...Make sure to listen to Whale's 'Kickin". A killer sound diversion and a hip chorus. If you add Whale, your station is really kickin'... Maids Of Gravity is on the road supporting Your Ground'. Virgin is committed again."

MIKE LYONS LEE ARNOLD PROMOTIONS (414-351-9088):

"While Edgar Martinez stopped hitting for Seattle — there is much joy in Mudville at KMTT where the chemistry continues to work. Congrats on a killer Summer Book...Meanwhile 'Shut The Door' from The Mother Hips is still the best thing to happen to us since Nicole Kidman straightened her hair as WRNR, KTHX, KXCI and KMMS join up...The Badlees' 'Fear Of Falling' is our increasing spins champ this week. It works...Tom Cochrane's 'I Wish You Well' gives you great rhythm and lyrics from a familiar voice. Look for a full CD on your desk soon...Finally, blues-slide guitar phenom Kenny Wayne Shepherd continues to fill the need for a shuffle at WRNR, WTTS, WMMR and KOTR out west...Oops! Gotta go to see another Antonio Banderas feature now. This guy's got a new movie coming out every week until Christmas. It's part of the NAFTA settlement I think."

ence's interest. You need to have a solid skeleton of content; then you can move to expand the layers of dressing around that foundation. Without it, you'll just be clothing air, and any savvy computer user will see right through that.

So, when Stewart embarked onto his info superhighway adventure, "the time and energy and budget was spent on developing good content on the page, not necessarily just graphics. If you have just the graphics, and you're emphasizing the visual at the expense of content, people aren't going to keep coming back to it. It's very possible to have great graphics and a boring Web-site."

Jock profiles are one of the key ingredients Stewart used in his mix, because, simply, "That's very, very critical, because that's the first thing that people are going to gravitate to. One of the first things people want to know is what the jocks look like. They want to know something about their personality. They want to get to know more about the person; and they want to see a picture," notes Stewart.

KROQ, L.A. got an emphatic endorsement from Stewart for their savvy mixture of humor and information, as opposed to "a lot of stations, whose jock pages, are either one of two extremes: they're either very, very boring, or every other line is a punch line; and it's completely meant to be humorous and there's absolutely nothing in the profile that the listener can relate to."

Creating a jock profile that reads like their resume, may give other stations insight to that person's path; but when it comes to the station's listener, Stewart insists, "I promise you that listeners do not care about all the radio stations they worked at in their career. They don't want to hear about, 'this guy was Music Director of the year.' That's completely irrelevant. They want to know the little things. They want to know what kind of movies they like, what are their hobbies."

Then there are those that are too funny for their own good, where Stewart imagines "everyone at the station is laughing their ass off at how funny their profiles are; but if I'm listener and I see all these funny lines describing someone, I see the humor and I

get finished with the profile and I realize I haven't learned anything about that person. How relatable are you to your listeners if it all becomes one big joke?"

In building his jock profiles, Glenn first took advantage of the Web's graphic capability by including photos of his jocks, and went on to structure text modeled after the Dewar's Profiles ad campaign, giving the jocks various categories (both humorous and straight) to which they could respond — much the way KROQ and WNNX, Atlanta do their jock profiles

"One of the questions that I have people answer is about their education," Stewart confides. "I'm lucky, because I've got a lot of people who have been here a long time and grew up in this area. So a listener clicks on the Web-site for our jocks and find out that they all went to school around here. That's very relatable to people, rather than saying, we worked at WAAA, WBBB, etc... That's not a way to relate to people."

Since those listeners view the jocks as musical experts, the ubiquitous Dessert Island disc list is an imperative inclusion, quickly giving a sketch of musical tastes.

Beyond that, Stewart points out, "I think it's very important to give listeners a lot of elements that they can't get on the air." While not going overboard with graphics, you do have an avenue for exploiting visual elements you'll never have on the air. So, aside from the jock photos, Stewart recommends including pictures taken at station events. "Those kinds of things are important, he relates. "That's the next step for me, when I update."

"We know what listeners are like," continues Stewart. "They're not always paying attention to the contests and what's going on on the air; so I think it's important to give contest information, and have it at people's fingertips."

"Another thing that we've added that I haven't seen many radio stations use, is a listing of upcoming CD releases," Stewart elaborates, addressing the kinds of information he provides on the Web. "I'm surprised that no one else has really grabbed on to that. It makes you very hip, musically; and gives them something on the Web-site that they're not getting in one dose on the air."

he key thing is to put yourself in the shoes of your listener."

Toss in some concert listings and you start to create a very viable and valuable online newsletter for your audience. But your Website will better a traditional newsletter, because the former allows much more timely dispersal of information. It's like producing a much more malleable information resource to your listener than a traditional newsletter in a much more dynamic presentation, with quicker turnaround time and less investment of energy (as long as you have a savvy computer whiz in-house and are more text/content based than flashy graphics-based).

Following the newsletter model is a useful direction to take. You can have different inhouse people write short articles available for browsing or downloading, invite comments and questions from your online listeners and post them and management's replies in one or more forums on your site. And unlike print's lengthy turn-around time where information that was fresh and correct when you went to press could be stale and outright wrong by the time it hits the street, your Web-site can be constantly changed and updated. It can become an extension of your station, with such things as late-breaking concert announcements being delivered in tandem by on-air and online announcements. Your Web-site stays as fresh and current as the time you want to allot towards updating information.

(Continued on page 90)

Call it hyperinteractivity. The LOOP's online facility is built around a splash of graphics. Almost every place you point your mouse, this page gives you a new gateway to open.

(Continued from page 89)

After you've stuffed your Website full of great content, Stewart reminds, "The other major thing, of course, is links to other Web-sites." Lists of links can read like a quick cultural sketch of what your station is about. They allow your visiting surfer to whisk over to some other related corner of the Net, be it a Web-site focusing on a popular band, TV show or other related publication.

"A lot of links that other stations use are good," Stewart observed. "They link to television and sci-fi shows, good cultural, relatable stuff to the 18-34, 25-44 listener; but they miss out on the potential for localization." Go beyond the artist pages and Star Trek: The Next Generation sites; because the link section of your

Web-site provides you with a means to dig into your immediate surroundings and become an enriching addition to local culture, a way to, as Stewart sees it, "localize your radio station and make it unique; which gets you back to that rule of radio that a lot of stations are avoiding. A lot of Web-sites are very generic. There are ways to localize Web-sites with links to sports teams in the area, job listings, local bands."

WHEB's site relates with their community, with Stewart pointing out, "Being in New Hampshire, we've got the first primary in the nation, coming up in February. So, we have a link to the University of New Hampshire political Web-site, with complete

POSTCARDS FROM THE INFORMATION SUPERHIGHWAY

During his travels through the Web, WHEB PD Glenn Stewart came across a few notable highlights:

"KROQ spent a lot of time and money. They had the money to do a lot of great graphics. It's not just flash, although it does have a nice, hip attitude. It's very flashy, but it's also very complete.

"There's a lot of updating that goes on with the KISW page. They had a whole page right after the O.J. Simpson verdict. They were very, very complete on it. They obviously have someone who devotes a lot of time to very careful updating.

"As a general rule, for some reason I found that most of the really good sites that I was really interested in, were on the west coast...they started with "K." If found very, very few on the east coast that I thought were all that interesting."

No child ever had a doll house like this! Another post-card from Chicago as we visit WMVP.

information about candidates and where they're going to be appearing in the area, and a complete catalog of newspaper articles about the candidates. I think that's important to encourage our listeners, in particular, to get involved in that."

Stewart also recommends crosspollination with other local media, offering, "You can localize through links with the local newspaper." Stewart does just that with the Portsmouth Herald, finding a useful synergy with the publication because "they have what's called The Bridge to the Sea Coast, which has all different community events that are going on that we don't have the time or the room to get into at WHEB. They've got a tremendous listing of everything that's going on in the area."

"I encourage radio stations to look at as many local links as they can get, and not just be locked into getting a link to the Star Trek Web-site," urges Stewart. "Let's get beyond that."

With more and more organizations going online, your links page is the perfect conduit to plug your listeners into the Web-sites of other community organizations. If you're station has a favorite charity they deal with, you can link with them. Adding links for local sponsors could provide an important new value-added angle for your sales department.

And with more and more organizations with a deep desire to get online, you can become their hero, bringing them to the information superhighway on-ramp through your site and whichever Internet provider you contract with.

Since you're online 24 hours a day, your links page is another realm that you'll continually upgrade. When Stewart and Britts find a new link they like, they jump right in and add that link to their Web-site. Still in the early phases of his site when we spoke with him, Stewart was averaging roughly 2-3 new links per week, again, keeping the area fresh and always rewarding for repeated cyberguests.

Just as they've added links each week, Stewart and Britts constantly evolve the content.

"Right now," Stewart notes, "we change it about once a week, changing probably about 20%. Even jock profiles can be updated. The beauty of the Dewar's Profile format is that I can find new categories to have the jocks plug in, and just update the profiles; and again, give the listeners something else to come back to."

"The beauty of it is," enthuses Stewart, "you can continually update it as your needs change, or as you look at it and you realize you need to update and improve it. It also freshens it up for the listeners."

There are some behind-thescenes features you'll want to be sure to include. Many Web-sites have a registration process, a brief questionnaire that a visitor must respond to the first time they visit your site. It's the perfect way to collect as much demographic information as you possibly can, building on your database.

There are rules of radio that most great PDs would never think of breaking in their onair product, that were trashed on station Web-sites."

Virtually anyone surfing the net has e-mail, so be sure to include their e-mail address in your "registration form," allowing you a way to reach out and touch that listener. You could even do bulk e-mailings! Also see if your Web-site design team can include some method of tracking what regions of your site get the most "clicks." That will be a powerful research tool in fine-tuning the online service you provide the listener/user.

WHAT NEXT?

As you're about to launch your Web-site, or even if you're such an online vet that you're upgrading your Web-site, a key word of advice from Stewart is, "I would recommend that people do what I did; which is find other radio stations and get some examples of what works for them. I'd like to think that some of the ideas that I've been talking about would work in most markets; but maybe for some markets they won't work. I'd suggest that just as program directors, in shaping their on-air sound, have reference points because they've listened to other radio stations in their life and their career and know what works and what doesn't, they should be doing exactly the same thing with Web-sites and making a couple of hours' investment."

That early investment of time might be the heaviest, with Stewart remembering, "Most of the work is done in the initial phase of getting it up and started. Once you do that. The key thing is to put yourself in the shoes of your listener. Don't put yourself in the shoes of a radio person going to somebody's Web-site, finding it's very funny and then realizing afterwards, wait a minute, where was the content that's going to relate to listeners?"

There's even a Web-site that's perfect as your first stop, it's on M.I.T.'s mainframe and allows you to search through radio station Web-sites by state or call letters. That address is: http://www.mit.edu:8001/activities/wmbr/otherstations.html.

You'll also want to add your call letters to the M.I.T. list once you're up and running so as to put yourself out there and attract more traffic to your site. Remember, just being on the Web doesn't do anything unless surfers can find

Stewart related one more important ingredient in your Web-mix and that's your management's commitment. Glenn told us that from the very top of his corporate ladder, "Management is anxious to get all the stations up on the Web. Without that kind of commitment, it's difficult going. We are very keen on being on the cutting edge. At some point down the line, we see it as a sales opportunity. When this really explodes, we want to look at sales applications."

Financially "I would say you don't need to have a huge budget to have a good, relatable, solid Web-site," concludes Stewart. "If you want to have a real snazzy, graphic Web-site, then, yeah, you might need to pony up some more money. Our goal right now is to get our feet in the water with our Web-site and get our listeners wet in the process. And when this thing explodes to be there front row center and ready to take advantage of it."

If you can imagine something as immediate as your radio station, with a visual and interactive element, you're imagining a Web-site. With the promise of real-time (though decidedly lo-fi) audio feeds gaining wider penetration in the online world, now's the time to follow the likes of WHEB and get your outpost on the Information Superhighway up and running. It's relatively easy, doesn't have to cost you an arm and a leg and, according to Glenn Stewart, "It should be fun, and the Web-site can market the radio station in a different and unique manner. Because it's essentially a marketing tool, it should do what all marketing does, and that is reflect the personality of the radio station. That's the basic goal of the Web-site. I see it as an extension of marketing the radio station and making yet another connection with the listeners, beyond TV spots, beyond billboards, beyond all the standard tools."

Coming Next Week...

SECLE

INTRO

When WHEB, Portsmouth PD Glenn Stewart moved to launch a Web-site for his station, he'd already dabbled in the online world. "We'd been online with America Online since February," Stewart said, regarding his drive to stretch the envelope further, "but, we also saw that being on the Web was a tremendous cutting edge tool. Frankly, I've never been 100% certain how it's going to impact radio. All I know is, I want to be there when it happens." His initial search through the information highway

for guidance turned up halfbaked Web-sites and poorly designed approaches. He was bound and determined to not make the same mistakes, but to create an environment with the same level of attention he gives to programming the station it was designed to represent.

RESEARCH

These days, it seems like every radio station from Manhattan to Marion has an exit on the infopike, so there was a vast pool for Stewart and assistant Jeff Britts to wade through and, in the time honored tradition of radio, steal from.

"We went and looked at upwards of 20 other radio stations — mostly rock stations," Stewart explained. "We simply wanted to, frankly, rip off the good ideas and stay away from the bad ones."

It was an eye-opening experience, as Stewart remembers, "A lot of things were very, very good; but I found an equal number of radio stations that I thought were making a lot of mistakes in how they were approaching the web. They weren't taking advantage of it as best they could."

Stewart's litmus test was approaching each station's Web-site as if he were a listener to the station, relaying, "I wanted to find things that were going to be relatable to listeners."

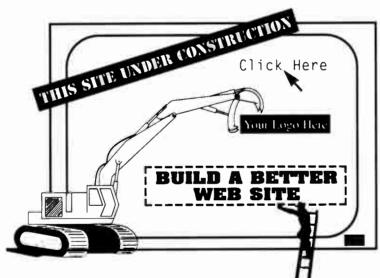

Stewart realized that his Web-site and his station were more closely linked than most PDs realize, and this became his mantra in designing his site. "There are certain unbreakable rules of Rock radio that have been around for years," Stewart elaborates. "One is that your product on the air should be exciting. You don't want to be a boring radio station. Another one is that you don't want listeners to just sample the radio station. You want them to sample it and continue to come back — you don't want all Cume and no TSL. You also want to be unique. If you could take your radio station and plop it into another market and it sounds like everyone else, then you're making a mistake in your on-air product. And you also want to be relatable to listeners. These are rules of radio that most great program

directors would never think of breaking in their on-air product; and yet, I would go to some of these Web-sites and see these rules completely trashed. It seemed to me that they were being violated left and right."

Such obvious ingredients of on-air presentation: humor, hipness and attitude were absent from these supposed extensions of the stations. Stewart reported seeing pages and pages of straightforward, cut-and-dried, boring content.

Doing Your Job Better BUILDING A BETTER WEB SITE

Marc Schiffman

WHO CAN YOU TURN TO?

As they were about to embark on creating their Web-site, WHEB looked to their Internet provider for recommendations as to what company could build a site for them. Glenn found that being a radio station can be an attractive magnet for Website designers. "Frankly," remembers Stewart, "we didn't have a lot of experience. We didn't know the good companies from the bad ones. So we just decided to take a chance on Pixel Media. They were enthusiastic about working with a radio

station. That was a key factor. A lot of companies that do this work, deal with clients that are usually pretty bland and boring. Pixel was very excited about working with WHEB, because it gave them a chance to flex their creative muscle. In fact. they did a lot of work that was off the time clock and over the budget, because they were so enthusiastic about working with us and then using their work as examples to promote themselves to other companies and show them what kind of work they could do.'

WHAT TO INCLUDE

Anyone who has surfed the Web knows of the flashy interface and graphics-laden pages that are out there...and seemingly the centerpoint of good Web-work. "You have to have something that's going to be snazzy enough to interest the listener and make your Web-site exciting," opines Stewart. But, he goes on to say how it can be a dangerous hype-trap though, with, as he flatly states, "I think graphics are over-rated. Graphics are important to convey some of the feel of the radio station; but I think a lot of stations rely too much on graphics and not enough on content. A lot of station [Web-sites] look really sharp and they're nice and colorful; but when you get to the content, there's nothing there. And that does not encourage listeners to come back to the site. I think initially stations that go overboard with the graphics and don't make the content exciting or relatable or unique to the listener are making a mistake. I think the graphics can come later. I'd much rather get the content going first."

Unless you have real meat of information and entertainment on your site, all the graphics in the world won't hold your audi-
