Greg Stevens arrived at the Dallas Eagle at a turbulent time. Nationwide had dumped Howard Stern three months earlier and the backlash hit hard. After confronting the morning show issue, Stevens re-focused the music and KEGl's total week 12+ rebounded to within .5 of its Stern-powered level. Find out how in this week's *Up Close!*

PREMIER PICKS

AEROSMITH
"I DON'T WANT TO MISS A THING,"
**SONY MUSIC SOUNDTRAX/
 COLUMBIA/CRG**

How do you top the last year or so with huge radio songs like "Pink," "Falling In Love (Is Hard On The Knees)," "Taste Of India," and "Hole In My Soul?" Well, if you're Aerosmith that's never been much of a challenge as they continually evolve and amaze their fans worldwide. Prior to Steven Tyler's recent and unfortunate on-stage accident, in which he blew-out a knee that will keep him sidelined for a few months, the band went into the studio to record the power ballad "I Don't Want To Miss A Thing," a featured song on the forthcoming *Armageddon* movie soundtrack. Play it early, play it often. It's a multi-format smash in the making.

JOHN FOGERTY
"PREMONITION," REPRISE

The marketing concept here is nearly identical to the one that recently reconnected Fleetwood Mac and The Eagles with millions of their fans. John Fogerty and band rolled off the road and onto a sound stage last December, to cut 18 songs spanning Fogerty's entire career, from "Born On The Bayou" and "Susie Q." to "Centerfield" and "Hot Rod Heart." The result: An incendiary greatest hits-live album of authentic American rock n' roll, and a companion VH1 concert special that debuts June 6 and will receive repeat video exposure into the fall. (Fogerty and band return to the road for a shed tour during this time.) John's instantly familiar voice, the classic rock song structure, and his band's killer live chops combine to make the brand new title track an automatic for Heritage Rockers and Triple As rockin' all over the world.

PUFF DADDY FEATURING JIMMY PAGE
"COME WITH ME," SONY MUSIC SOUNDTRAX/EPIC

It comes as no surprise that the soundtrack from this Summer's blockbuster, *Godzilla*, would spawn this monstrous collaboration between Jimmy Page and Puff Daddy. Much like *Godzilla* is king of the monsters, Jimmy Page and Puff Daddy are the undisputed kings of guitar and R&B, respectively. The duo have joined forces on "Come With Me," a version of Led Zep's classic "Kashmir." Not content to merely sample the song, as Puffy's been known to do, the song was completely re-recorded, and it sounds as big as the lizard himself! Also, Page meets Rage, as Rage Against The Machine's Tom Morello helps out on the axework. *Godzilla* will be packing 'em in at the box office, and "Come With Me" is a reaction track if there ever was one. Size does matter, as the movie's catchphrase goes, and this multi-format smash is HUGE! Already on KROQ.

GRAVITY KILLS
"FALLING," TVT

St. Louis' Gravity Kills got their start when KPNT put "Guilty" on a local music compilation. That song helped get the band signed to

TVT and brought them much success at Active Rock and Modern Rock radio. Their second album, *Perverstion*, is loaded with the same Industrial punch and aggressive guitars that pushed their debut well towards gold. The 14 months that the quartet spent on the road in support of their first album has tightened up their attack and changed them into more of a live band. So far, three actives (WAAF, WRCX, WKLQ) and three moderns (KTOZ, WENZ, KNSX) are "Falling" over themselves to get this on the air early.

JESUS LIZARD
"A TALE OF TWO WOMEN," CAPITOL

No, "A Tale Of Two Women" isn't the latest installment of Cinemax's soft-core *Red Shoe Diaries*, it's the new single from underground legends The Jesus Lizard. Lead singer/wildman David Yow has said the band made a conscious effort to add more melody and accessibility to their chaotic brand of noise on their new album, *Blue*, and judging from the tempered crunch of "A Tale Of Two Women," the move has paid off in spades. Hard-charging and two-fisted, "A Tale Of Two Women" is rich with maximum guitar riffage and Yow's throaty growl, bringing Punk innovators like the MC5 and The Stooges to mind instantly. Early on WAAF and KBBZ.

FILTER
"ONE," ELEKTRA/EEG

You've never heard Three Dog Night like this before. New from Filter is this cover of Three Dog Night's "One," the lead track from the soundtrack to the highly anticipated *X-Files* movie. Having scored soundtrack successes before - "Hey Man, Nice Shot" from *Demon Knight* and "Trip Like I Do" from *Spawn* - Filter are sure to score the triple crown with their demented take on this Pop classic. Featuring all the techno-laden power and fury of the aforementioned tracks, "One," is a no-brainer for Rock signals who lean in a heavier direction, and a perfect way to introduce the *X-Files* soundtrack, an album that's sure to deliver a few more smashes to Rock Radio before the dust clears.

DRAIN S.T.H.
"CRACK THE LIARS SMILE," MERCURY

Now signed to Mercury, Drain S.T.H have re-released their debut album *Horror Wrestling* complete with three previously unreleased tracks. "Crack The Liars Smile" is the first Mercury-era single and should easily find a place on any of the many stations that played "I Don't Mind" and "Serve The Shame." The all female quartet hail from Sweden, Stockholm to be exact, which is what the S.T.H. stands for. A great Rock band that isn't too hard on the eyes either.

SNOT
"THE BOX," SEFFEN

If there's one thing to be learned from California's Snot, it's to not judge a band by their name. The hard-hitting quintet

got their name by "just kidding around." Since their debut album, *Get Some*, came out, they've stopped kidding around and hit the road. The band's been touring for a year straight, honing their tight, groove-driven sound, playing with bands ranging from 311, Sugar Ray and the Deftones. "The Box" is a song about growing up with TV as a babysitter. If you've had success with Tool or Sevendust, you'll wanna add this one straight outta the box! Snot will be on the *Ozzfest* this Summer, and it's on KUPD already.

GLORITONE
"HALFWAY," RCA

Hailing from the Tempe/Phoenix area, expect great things from this trio. We've had the pleasure of getting a sneak peek at their debut album, *Cup Runneth Over*, and it certainly lives up to its namesake, offering up a healthy serving of infectious, radio-friendly guitar-driven Pop. This first single is an excellent introduction to a band with quite a future at both the Active Rock and Modern Rock formats. Chocked full of melody and aggressive guitars, and led by the sugary vocals of singer/guitarist Tim Anthonise, Gloritone delivers on all counts. Produced by Bradley Cook, whose engineering credits include work with the Foo Fighters, Counting Crows and Fu Manchu. Hear it now on KDKB and KEDJ.

FIVE EASY PIECES
"LOVERS," MCA

Hailing from the City of Angels, Five Easy Pieces have the potential to be crossover success stories at Rock, Progressive and Modern with "Lovers," a song with interesting Southern tempos, big guitars and a huge chorus. Their self-titled debut album was produced by Don Smith, best known for his work with The Rolling Stones, Tom Petty and Cracker. This version "Lovers" is the original one from their early demo sessions. As a matter of fact, it was T-Bone Burnett who advised them to leave it alone. We think you'll hear the potential too.

BOBBY MESSANO & NBO
DOMINION ROADS, ICHIBAN

Bobby Messano has spent over twenty years playing guitar for some of the biggest names in music, but with the release of *Dominion Roads*, he is poised to become a name himself. Messano has been known to play three-hour sets, admitting, "We don't know when to stop." Since 1990 the band has played over 1100 dates in over 400 clubs, concert venues and colleges so they're guaranteed to have a fan base in your town. The album is chock-full of Rocking-Blues flavored tracks for you to take your pick. Might we suggest "Get Up And Dance With The Blues," "Sea Of Hope," "I Will Try," "Depths Of Love," and the title track.

DEPTH TRAX

FOO FIGHTERS
"WALKING AFTER YOU," ROSWELL/CAPITOL/ELEKTRA/EEG

Found on their current Capitol Records album, *The Colour And The Shape*, and the forthcoming Elektra Entertainment *X-Files* movie soundtrack, "Walking After You" should be an automatic for all past Foo affiliates. Already on 35 Modern outlets, there's also 13 Rockers (WLZR, WHEB, WJRR, KDKB, KEYJ) on-board. *X-Files* and the Foos, what could be bigger?

VAN ZANT
"THAT WAS YESTERDAY," CMC INTERNATIONAL

The Brothers Van Zant are back with the second offering from their *Brother To Brother* CD. "That Was Yesterday" follows up the highly successful first single "Rage." WROQ's Ken Carson says, "That Was Yesterday" will drive your phones today and your call out tomorrow." WRDU's Bob Edwards adds, "Rage" worked so well we couldn't wait for the add date. Our audience is already asking for the next track. 'That Was Yesterday' will definitely feed the demand."

THE HUNGER
"FREE," UNIVERSAL

Open a slot for the heir apparent to "Vanishing Cream." This second track from *Cinematic Superthug* has the texture and hooks it takes to shred the airwaves. And judging by the early top 5 phone response at KUPD, the audience agrees. On first at WNOR, KIBZ, WKLQ, KILO and five more.

SCOTT WEILAND
"OPPOSITE OCTAVE REACTION," ATLANTIC/AG

As "Barabarella" showed, Scott Weiland's *12 Bar Blues* isn't Stone Temple Pilots redux. It's all over the map musically, and "Opposite Octave Reaction" is another sonic smattering of sounds and styles from the STP frontman. With fuzzy guitars, violin and a larger than life hook, Weiland is poised to make serious noise at Rock Radio with the latest track from his debut solo effort.

BUZZBANDS

DEEP PURPLE
"ANY FULE KNO THAT," CMC INTERNATIONAL

#1 Buzzband! And #2 Most Added too as a hefty 40 step up this report (WRIF, WQMF, WIOT, WDHA, KQDS, WPLR, KEYJ, KMOD) joining early rotators WKIT and WIZN who increased spins +17 and +4 respectively. "Any Fule..." also impacts at 100* Hot Trax.

MONSTER MAGNET
"SPACE LORD," A&M

Vaulting 90-48* Hot Trax and 69-35* Rock 18-34, "Space Lord" also grabs a #4 Most Added 27 new (KUPD, WAAF, WYSP, WTPT, WAQX, KLB, KQRC) for a revised cume of 77. Lighting the phones at four (KRXQ, WRAT), "Space Lord's" biggest PPW increases came from KRQC (+23), WMFS (+18), and KQWB (+17).

OUR LADY PEACE
"4AM," COLUMBIA/CRG

WCCC, WZBH, WGBF, WZZQ, WXRC, and WZZR lead a field of 12 new (#6 Most Added) this week. Racing 70-61* Hot Trax, "4am" gains +16 spins at WBUZ and WJRR, and +11 spins each at WAZU and WXVO. The cume now stands at 45 (WQXA, WZXL, WZMT, DC101, WROV, KTUX, KRAD).

SCOTT THOMAS BAND
"BLACK VALENTINE," ELEKTRA/EEG

New commitments at WPYX, WAPL, KLAQ, WRKT, WKQQ, and six more now give "Black Valentine" roaming room on 60 (KLPX, WDVE, WFBQ, WBAB), including rotation increasers KZOQ (+17), KRAD (+15), WEGW (+15), KKEZ (+11), WWUC (+11), and WZNX (+10). The track soared to 49* Hot Trax this week.

GIRLS AGAINST BOYS
"PARK AVENUE," DGC

Another new entry into the Hot Trax chart this week (D-63*), "Park Avenue" gains 11 new supporters (WZXL, WCCC, KAZR, KHOP, KRAD, WBZX, WKQZ) and has already assembled a cume of 53. The PPW increase parade is fronted by WWGZ (+22), WMFS (+18), WJJO (+15), WKZQ (+13), and WQXA (+13).

COAL CHAMBER
"SWAY (THE ROOF IS ON FIRE)," ROADRUNNER

Getting an early start at WAAF, WTKX and WCCC, "Sway" snags official OTB spins from 11, including KEGL, KDOT, WAMX, KXXR, KRAD, KRAR, WHMH, WTOS, and KQWB. Phones have already become a factor at WBUZ and WWGZ.

LIMP BIZKIT
"SOUL," INTERSCOPE

A mainstage act on this upcoming summer's *Ozzfest* tour, Limp Bizkit has sold over 375,000 copies of their debut album, thanks in-part to their non-stop touring and the radio success of "Counterfeit." Chapter two starts with "Soul," which is quickly on 11 (WAAF, WKLQ, KIBZ, WMFS, WTFX, WZBH, KRZR).

OUTCRY
"ON & ON, EUREKA

The label that brought you Corey Stevens has rolled out their newest signing, New Jersey's own Outcry. All we can say is that we got it on first listen, much like WRKI, WJJO, KQDS, KSEZ, WAPL, WBAB, WEGW, WHDQ, WHMH, WWCT, and WPXC did. We strongly urge you to spend time with it.

MARCY PLAYGROUND
"SAINT JOE ON THE SCHOOL BUS," CAPITOL

With "Sex & Candy" in the rear-view mirror, Marcy Playground is now fully focused on "Saint Joe On The School Bus," a song that debuts at 77* Hot Trax this week, plus it gains 10 new believers (WTFX, WZXL, KQWB, KRAD, KQDS). The cume's grown to 31 (KTXQ, WJJO, WZTA, KSJO, WEBN).

The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. **Grade:** An index based upon combined MRI, Burn and Unfamiliar Scores. **Music Response Index (MRI):** Appeal of each song within the indicated sample group on a 0 to 110 scale. **Burn:** Percent of the indicated sample that claims to be "tired of the song." **Unfamiliarity:** Percent of the indicated sample reporting "don't know it." This information is excerpted from The Tracking Report and is reprinted with the permission of Kelly Music Research, Inc. All rights reserved. No portion may be reproduced without permission.

PolyGram (And EMI Still) Up For Grabs

This week's version of *As The Record World Turns* actually started last Friday (5/8) when the *Los Angeles Times* reported that Seagram's pursuit of the EMI Group had suddenly come to a grinding halt. The reason? Dutch company Philips Electronics' PolyGram NV had now become the apple of Seagram head **Edgar Bronfman, Jr.**'s eye, fueling speculation that a deal between the two companies could close within days.

What changed Bronfman's mind? Speculation centers around Bronfman's disinterest in paying the estimated \$9 billion price for EMI (he reportedly floated a \$7.7 billion offer). What's more, for between an estimated \$10 to \$12 billion he could acquire PolyGram for his Universal Records Group and therefore become the undisputed No. 1 record company in the world.

However, the plot for PolyGram thickened on Wednesday (5/13) when *The New York Times* reported that former talent agency chief and ousted Walt Disney Company President **Michael Ovitz** was instrumental in bringing together a possible leveraged buyout to the table for PolyGram, with inquiry letters sent to Philips from New York-based Fortsmann, Little and Boston-based Thomas H. Lee Co. and their investment banker Allen & Co. Additionally, another report popped-up in *The New York Times* the next day that a third possible suitor had approached Philips to explore a possible bid for PolyGram. The group — the Wall Street firm of Donaldson, Lufkin & Jenrette; Texas Pacific, the lever-

aged buyout firm; and Jerrold Perenchio, the Chairman and CEO of Univision Communications, Inc.

Reports had also been circulating late last week that PolyGram worldwide chief **Alan Levy** was trying to put together a management buyout of PolyGram. Further speculation had Levy not part of Seagram's future plans if they acquire the company, mainly because he was not in the loop on Philips' desire to sell off its 75% interest in PolyGram. However, financiers feel that if an "outsider" like any of the aforementioned leveraged buyout companies were to acquire PolyGram, Levy would be in a better position to continue running the company, mainly because Ovitz and the others have no past experience running a big music conglomerate.

Additional, industry-wide speculation says that if a Bronfman take-over of PolyGram happens, there could be substantial payroll and artist cutbacks company-wide to make the buyout feasible.

As for EMI, the *Los Angeles Times* (5/12) speculated that past tire-kickers Walt Disney Co. and Bertelsmann Music Group, who both balked at EMI's high price tag in the past, may again be interested, especially in light of EMI's British trading share dropping nearly 7% on Monday (5/11).

Interop: Top 25 Market AORs Down One Share Over Past Year

How did Rock formats fare nationally in the Winter '98 Arbitron? Interop's preliminary share trends for the top 25 markets show all four Rock flavors trending down, though most were off only by a tenth of a share or two.

"AORs" in the top 25 inched down another two-tenths in the winter, to finish as the eighth most-listened-to format. AOR's 4.3 is down a full share from where it was a year ago. Right behind AOR is Classic Rock (3.8), which also dropped .2 in the winter, though top 25 Classics are up .2 from their Winter '97 level. Tenth ranked "New Rock" is next, trending 3.5-3.4, flat from its performance last year at this time.

Most disturbing is Adult Alternative's 3.3-1.1 nosedive. The format crested to a 3.6 last summer, but has since ejected over 2/3 of its listeners.

You'll find the usual suspects in the top 5. Mostly flat News-Talk (15.9) and Urban (11.0) continue their No. 1 and No. 2 locks. Continuing its downward spiral, Country placed third with 6.3, down 1.3 from one year ago. AC charged 8.0-8.8 to finish fourth, down 6 from Winter '97. CHR continues its ratings surge, climbing 6.3-6.9, up nearly 2.5 shares from one year ago.

The biggest top 25 market growth formats over the past year are Spanish (+1.8) and CHR (+1.4). Biggest losers: Country (-1.3), Hot AC (-1.0), AOR (-1.0) and Oldies (-.9).

Keep in mind that these figures reflect the top 25 markets only. Interop's trends for the 92 continuously measured markets weren't fully tabulated at presstime and will appear in next week's *fmqb*.

fmqb Publishes Standalone Magazine For Active Rock Programmers

To meet reader demand for a standalone magazine dedicated exclusively to the needs of today's Active Rock programmer, *fmqb* will publish the first edition of *Active QB* next week. Founded on the same principles that have consistently put the *fmqb* family of publications at or near the top of numerous research studies of industry trade readership (including several of our competitor's!), *Active QB* will offer straight-up, no BS reporting on winning stations and their programmers, actionable promotion and marketing ideas, and nuts and bolts information to help you do your job better.

The first edition of *Active QB* takes you inside the heads of the movers and shakers that have made Active Rock the top-performing Rock format in market after market. *Active QB* also looks at the format through the eyes of the GM, the midday jock, and the musicians that play the riffs that feed the billion dollar beast. And since radio was meant to be heard, not seen, *Active QB* will include a companion piece *CD Aircheck* of trend-setting Active Rockers.

Donahoe President/CEO Of Pacific Star

Capstar has tapped KXYX-KPLN VP/GM **Jim Donahoe** for the position of President/CEO of its western regional operating company, Pacific Star Communications. Donahoe replaces **Dex Allen** who resigned last week (*fmqb* 5/8).

"Jim is a remarkably talented individual who will be a major asset to the Capstar group of operating companies," Capstar CEO **R. Steven Hicks** remarked. "We enthusiastically welcome him to the Capstar team."

"I am very excited to be joining Capstar," Donahoe added. "The broadcasting company on the leading edge of the radio industry's consolidation curve and look forward to working with Steve Hicks again."

Donahoe began his radio career in 1983 as GSM of KCBQ-AM/FM in San Diego. In 1989, Donahoe was named GM of KMZQ/Las Vegas, where he served until 1995, when he became VP/GM of SFX's KXYX-KPLN.

Also out is Head of Alternative Promotion **Sean Renet**, National Top 40/Mid-Atlantic Rep. **Bryan Geronimo** and the entire field staff of ten. Geronimo is fielding offers at (609)451-9465. National Promotion Executives **Gary Poole** and **Jeffrey Blalock** will remain on board.

"We are about to undertake a streamlining which will entail limited staff reductions in order to take the best advantage of the restructuring which recently took place at Warner Bros. and Reprise," Giant/Revolution founder and owner **Irving Azoff** commented. "With these changes in place we will be well-positioned to maximize the unparalleled promotion, marketing, sales and publicity services afforded through the terms of our new agreement with Warner Bros. Records. The result, of course, will be better service for the great roster at Giant/Revolution and its Nashville division. At the same time, this new agreement allows us to retain our unique identity which has served as a magnet for a wide range of talented artists. I'm thrilled to continue our long association with Warner Bros. Records and would like to thank [Warner Bros. Records CEO/Board Chairman] **Russ Thyret**, [Warner Bros. Records President] **Phil Quartararo** and [Warner Bros. Vice Chairman] **David Altschul** as well as **Bob Daly** and **Terry Semel** for their efforts to complete this new arrangement."

"I've known Irving as a friend and worked closely with him for over 20 years," added Thyret. "I have great respect and complete confidence in his extraordinary abilities. His talent, along with the remarkable roster and team of executives he has assembled at Revolution and Giant, are at the heart of this renewed partnership."

ALL THE DIRT

THAT FITS

PD CHANGE AT WBOS After six years with the station, WBOS/Boston PD **Jim Herron** has been relieved of his duties. Greater Media bought the Boston Progressive outlet last year and retained Pollack Media as consultant. In a press release the company stated that the station's current direction would be maintained by **Don Kelley**, OM/PD of sister-station WMJX. Word on the street points to former Classic Rocker WZLX/Boston alum **George Taylor Morris** as the new PD. GM **John Laton** was not available for comment at presstime.

NEW GM AT K-ROCK/DETROIT After sharing a boss with two CBS sister stations, WKRK now has their own VP/GM. Effective June 1, **Stephen Sinicropi** replaces **Rich Homberg**, who runs News WWJ and assumed additional duties at News-Talk WXYT in February.

Sinicropi arrives from software company Cybertoons Digital, where he was president. He's best known for his 10 year run as EVP/GM at All Pro Modern Rocker WLUM/Milwaukee. Meanwhile, market rumors of a move to Talk have migrated from K-Rock to crosstown WWBR, only it's a different flavor of Talk that the *Detroit Free Press* is rumoring for The Bear. Programmer **Joe Bevilacqua's** departure for WHJY/Providence has spurred speculation that The Bear keeps **Ted Nugent** in morning drive while adding **G. Gordon Liddy** and **Oliver North** to the lineup, creating a conservative gabfest of bow hunters, arms dealers and burglars. Now there's a niche! Other scenarios involve a move to Classical (Detroit doesn't have one that's fulltime) or remaining Rock.

PAPALE TO EXIT INTERSCOPE? Will Interscope Head Of Rock Promotion **Michael Papale** exit his post in early September to start a new venture? Papale has been with the label since its inception.

PUVOGEL TO MANAGE RED ROCKER Look for an official announcement soon from **Sammy Hagar** that he has selected former Warner Bros. Records VP/Promotion **Kenny Puvogel** as his new manager. Puvogel's newly formed KP Management will exclusively manage Hagar.

JACOR TO SWAP WITH CBS? Jacor needs to unload some stations in Columbus to close on its acquisition of Nationwide, but which ones? Is WLVQ one of them? Would CBS be interested in entering Columbus, in exchange for dealing Jacor some of its properties in the Bay Area—a new market for

Jacor. These are among the questions being posed with the Jacor-Nationwide merger looming on the horizon. Cooler talk in San Jose says Jacor will add a pair from CBS: either rockers KOME and KUFX, or ACs KBAY and KEZR. Jacor also needs to divest two stations in San Diego.

SILLY CEO, TRICKS ARE FOR KIDS Jacor CEO **Randy Michaels** can't seem to stay out of the news lately. First, came last week's remarks about his interest in purchasing the Cincinnati Reds, now the CEO has had a promotional stunt for Jacor's WVMX/Cincinnati (Mix) turn against him. Crosstown competitor and CBS owned WKEQ (Q102) is in the midst of a *Live Inside & Win The Ride* promotion, where the station is giving away a car. The contest is being held at a local mall and being broadcast live over the Internet, as well as for

eight hours a day on a local access cable channel. Michaels recently showed up at the mall, stood in front of the camera, and held up a sign that said "Q102 is for kids" and proceeded to flip the sign over, baring the message "Listen to Mix 94.1" to the camera. While the message did go over live, Q102 staffers have taken the video to an editing house and digitally altered the sign to read "#1 Q102 Fan" and "Save The Wales," along with other pro-Q102 messages, and rebroadcast the footage of Michaels through-out the contest.

DREW TAKES LEAVE FROM WRIF Half of the WRIF/Detroit morning show of **Drew & Mike, Drew Lane**, is on a leave of absence from the station as he recovers from back surgery. WRIF has hired **Eric Zane** to fill in until Lane returns. Zane comes to the station from Z-93 in Saginaw and will join the rest of the morning show, including **Mike Clark, Trudi Daniels** and **Rob Shaeffer**. "We feel quite confident that Eric will be a very capable substitute in the interim," WRIF OM Doug

Podell told *fmqb*. Zane starts on the morning show on Monday (5/18).

LEAKED KATZ MEMO TERMED RACIST The National Association of Black Owned Broadcasters is calling for FCC and DOJ investigations into the business practices of Katz Radio Group after a volatile, one-year old memo from the rep firm's Amcasts division leaked May 12 in the New York *Daily News*. Written as a playbook for Amcasts sales people for WABC/New York, the internal memo contained numerous inflammatory suggestions: Buying too many ads on ethnic stations would mean losing "the more important 'white' segment of the population." And advertisers can reach "all the ethnics you need without even using an ethnic station... Neither WRKS nor WBLs are needed." How about "The Hispanic population is extremely poor qualitatively." Katz Radio Group President Stu Golds told *M Street Daily* the memo was "carelessly paraphrased and intentionally misrepresented to imply Amcasts' favoritism of one format

over the another." He also notes that the memo was an evaluation of one New York station, not a general assessment.

ARBITRON REDEFINES SACRAMENTO METRO It's unlikely that Arbitron's second (and final) fall '98 market redefinition will spur an uprising like the one in Boston has. All four subscribing owners support the move, the adjacent metros of San Francisco, Stockton and Reno are unaffected, and none of the expansion areas are part of any adjacent radio metro. Unlike the Boston dispute, where you could travel only seven miles from Manchester and be in the expanded Boston metro, the new Sacramento territory isn't even close to another metro. This time Arbitron is both adding and subtracting land. Added to the metro is the TSA county split of Nevada (West), which lies north of the existing metro. Being deleted are two county splits on the east side of the existing metro: Placer East and El Dorado East. The net population gain is 18,1000.

LUCENT BULLISH ON DIGITAL RADIO Last week Lucent unveiled a deal to supply chips and signal processors for CD Radio's digital satellite radio service (*fmqb* May 8). Now the Bell Labs parent is getting involved in the *other* future digital radio service, the one supported by the NAB: In-band, on channel (IBOC) digital audio broadcasting (DAB). That means Lucent is going head-to-head with CBS-backed USA Digital Radio, which is working on its own IBOC digital technology. USA DR President/CEO **Robert Struble** says he welcomes the competition. "This validates our long-held position that IBOC technology is the best approach for conversion to digital radio." And CBS President/CEO **Mel Karmazin** weighs in with his continued support: "CBS remains committed to the completion and implementation of the USADR AM and FM IBOC system. We view this as the best approach to satisfy the needs of broadcasters, listeners, advertisers, regulators and manufacturers." Both Lucent and USADR say their systems will allow stations to convert to CD-

GREENWOOD EXITS MCA

MCA Sr. Director/Alternative Promotion Susan Greenwood has left the label. MCA has decided not to renew her contract. Greenwood is exploring her options at (213)466-2515.

INDUSTRY SEEKS TO CURB ARTIST BANKRUPTCIES

Variety reports that the record industry is ganging up against musicians that file bankruptcy to get out of recording contracts. The Recording Industry Association of America proposed the legislation in a bankruptcy code bill currently in front of the House Judiciary Committee. Expectedly, performers, their representatives and entertainment lawyers have expressed outrage at the proposed bill, claiming it unfairly singles out artists. The current law allows a judge to vacate a contract as a condition of bankruptcy, but the RIAA's viewpoint is that lawyers are extorting labels into rewriting contracts by threatening bankruptcy. Some sources say that the RIAA filed the provision in the wake of Toni Braxton's recent bankruptcy filing after failing to renegotiate her contract with LaFace Records.

WOXY GETS A NEW PD

After exiting her radio promotion position at Righteous Babe Records a few weeks ago, Keri Valmassei has resurfaced as PD of WOXY/Oxford. She fills the void left by Kevin Cole's departure in late February. "We are very excited

about Keri," OXY GM Steve Baker told *fmqb*. "We were looking for somebody who is familiar with the music and luckily we got somebody who is familiar with both sides of the industry - records and radio." Valmassei starts on May 25. Before heading to work at Ani DiFranco's label digs in Buffalo, she worked at WWDX/East Lansing.

1ST Q FOR JACOR AND WESTWOOD ONE

For Jacor Communications Inc., net revenue in the first quarter increased to a company record of \$142 million, up from \$88.8 million in the first quarter of 1997. Broadcast cash flow set another record for first quarter, increasing to \$34.7 million, a 61% increase over 1997. The company reported a net loss of \$6.9 million or 14-cents per share, compared to a net loss of \$8.1 million or 25-cents per share in the first quarter of 1997. After tax cash flow (ATCF), net income before extraordinary charges plus depreciation, amortization and deferred taxes, increased to \$21.1 million from \$9.1 million, a 48% increase over 1997. Westwood One reported that their company's revenues were adversely affected by the new competition in the industry (Chancellor's AM/PM Networks) but managed to reports gains boosted by their arrangement with CBS. First quarter revenues for Westwood One were \$53.3 million, up from \$41.4 million in 1997. The company's operation costs also increased. Net income slid from \$504,000 to \$49,000.

I KNOW WHO I WANT TO TAKE MY PICTURE: Currently riding the wave of their mega-hit "Closing Time," the boys in Semisonic did a "Low Dough Show" recently for WXRK/New York at Irving Plaza. RAINY MAY RADIO Classic Rock WNEW/New York stunted with a theme format inspired by the rainy weather that the east coast had experienced for the first half of May. Until the afternoon of Monday, May 11, every day had experienced precipitation and Vin Scelsa began playing rain songs during his show on Sunday evening, May 10, and inspired programming to keep it up until the rainy spell ended. As the sun broke through the Manhattan skyline on Tuesday afternoon (5/12) the station switched to playing an hour-long block of sun-inspired music and then went back to their regular Classic Rock format.

GROUND ZERO LAUNCHED Jones Radio Network has announced the launch of a new syndicated program, *Ground Zero*. LORRAINE MEIER OFFERS SEINFELD TOURS Now that Kramer's barged into Jerry's apartment for the last time on *Seinfeld* and the series has ended, that's it, right? Wrong. Lorraine Meier & Associates, a company that specializes in radio marketing and travel promotions for radio stations, record company and advertisers, is offering a program in which the "Real Kramer" gives Seinfeld tours. The program will give the winner and a guest the opportunity to spend the weekend in New York City and join Kenny Kramer on a three-hour multi-media tour of *Seinfeld's* New York that includes a stop at Monk's Restaurant. The tour ends at a theater where they'll see exclusive rare footage and have some of the real Kramer's original famous pizza. Kenny Kramer, who lived across from *Seinfeld* Executive Producer and co-creator Larry David, was the inspiration for *Seinfeld's* Cosmo Kramer.

WAMX CELEBRATES A YEAR: WAMX/Huntington, WV recently turned one-year-old and celebrated with an anniversary concert. In the above shot, we see Nixons Ricky Wolking, John Humphrey, Zac Maloy and Jesse Davis hanging backstage with WAMX PD/MD Debbie Wylde; Morning maniac Quinn; and Promotions Director Bob Ball.

If you don't listen to the **DAWN PATROL...** your problem is obvious.

THE ASSMAN COMETH: Usually we here at fmqb labor until the 11th hour to come up with witty photo captions for the pictures you send in. However, we're just going to let the new WEBN/Cincinnati billboard campaign speak for itself. Now heads up!

QUESTION OF THE WEEK

How will *Seinfeld* end, and do you have any promotions planned around it?

DOUG PODELL, WRIF/DETROIT

Say goodbye to *Seinfeld* at a big party where half the TVs showed *Seinfeld* and the other half showed the Red Wings game. Trivia questions for prizes like *Seinfeld* screen savers and books and a chance at winning a big screen TV. Everyone at the party got a copy of *Rolling Stone* with *Seinfeld* on the cover.

JAKE DANIELS, KATT/OKLAHOMA CITY:

Unlike it began. A bunch of hype.

ROBIN LEE, WZZO/ALLENTOWN:

The show about nothing will end with nothing happening. As for what we're doing, we're redesigning a local bar to look like his apartment on the final night and giving away tickets to come in.

KEVIN SMITH, KDOT/RENO:

They all die. That is the only way to guarantee that there will be no spin-offs. We have no tie-in with the finale.

VANCE SHEPHERD, WQBZ/MACON:

They're all gonna go on Jerry Springer and show us just how dysfunctional each one of them is. The promotion we're doing involves a competing television station that runs syndicated episodes of *Seinfeld*, and we're giving away t-shirts and other *Seinfeld* merchandise; we're calling it *Auld Lang Seinfeld*.

MARGOT SMITH, WGRD/GRAND RAPIDS:

I don't think it'll be that different of an episode. We're doing something with the NBC affiliate, we're giving away a trip to NYC for a Kramer tour. The morning show and a TV personality are hosting a showing of the final episode at a movie theater. Eve 6 will be performing at the afterparty.

JAMIE MARKLEY, WWCT/PEORIA:

George and Newman are gay. Elaine and Kramer hop in the sack and Elaine discovers multiple orgasms. We have a *Seinfeld* party at the local comedy club.

BUDDY RIZER, WWDC/WASHINGTON

A big farewell to *Seinfeld* party at a club with *Seinfeld* trivia, lookalike contest, and a special *Seinfeld* menu.

STEVEN STRICK, WBCN/BOSTON:

I couldn't tell you how it's going to end, but we're going to have a party in a bar on the show's last night.

PAUL OSLUND, KAZR/DES MOINES:

It will probably end with credits and the NBC voice guy inviting us to stick around for more fine programming. We're not doing any tie-ins, we're into promoting radio shows and bands not TV shows.

HALEY, KAEP/SPOKANE:

Not sure how it'll end, but we do have a promotion planned; we're gonna show the east coast feed. Winners will get to see *Seinfeld* earlier at 6pm (before the rest of Spokane!) courtesy of our TV affiliate.

SEAN DEMERY, 99X/ATLANTA:

Jerry moves to L.A. to pursue his career, and he walks out his front door and sees Newman driving by laughing. We're doing *Seinfeld* music drop-ins all day with no explanation, also giving away a chance to see the final show at Tom's Restaurant in NYC.

TIM STEPHENS, WRKT/ERIE:

Seinfeld will end with an asteroid falling from outerspace on his apartment complex. Our promotion is a farewell party.

JO ROBINSON, WRCX/CHICAGO:

I'm the only person I know that doesn't really care.

TODD THOMAS, WXVO/KNOXVILLE:

Maybe it will end with Newman and Elaine in bed and Jerry and George walking in on them. We don't have any promotions planned around it but we have a lot of production on the air related to *Seinfeld*.

AL JONES, KLAQ/EL PASO:

Who cares and no.

RICK BREWER, WEND/CHARLOTTE:

I think George and Kramer will fall in love, and Elaine and Jerry will get together. We're having a viewing party at a local club.

GREG STEVENS, KEGD/DALLAS

Seinfeld will probably end by going into syndication for the rest of our natural lives and beyond. Van Halen performed the same night as the final episode, so we may make a tape of the show available to listeners via some sort of roving video van.

DOC WEST, WXKE/FORT WAYNE:

It'll probably end up with something to do with a love triangle. We have simultaneous club nights going on with *Seinfeld* look-alikes and Kramer look-alikes.

TIM PARKER, WNOR/NORFOLK:

I don't care how it ends, I just want the hype to be over.

JIM FREE, WKGB/BINGHAMTON:

I think Elaine and Jerry will get married and move to California. Now if I wrote the script, all four of them would be travelling to New Jersey in the Lincoln Tunnel and the Soup Nazi blows up the tunnel killing them all. We're not doing any station tie-ins.

RON ALVAREZ, KTWS/BEND:

Nothing. It'll be a big NOTHING! Yes, our morning show will do a lot of *Seinfeld* stuff.

DAVE CLAPPER, WKLT/TRVERSE CITY:

The entire cast of *Seinfeld* are planning to jump on a ship and go to the Bahamas, but they hit a big iceberg instead. Now Jerry is king of the world.

MIKE SAVAGE, Y107/LOS ANGELES:

We're doing a *Seinfeld* sign-off weekend with a party in Orange county, giving away stuff from the set, and hosting an Elaine dance-alike contest and Kramer look-alike contest.

BRIAN ILLES, WRXL/RICHMOND:

I think it will end with Jerry walking out of the shower realizing that Neal Mirsky is actually a good broadcaster. Our event will be live at a sports bar with a Kramer look-alike contest, an Elaine dance contest, and amateur stand-up comedy.

JOHN ROZZ, WBVR/FT. WAYNE:

I think it will end with the whole series being a dream or something. We're doing a tie-in with the local NBC affiliate, with a listen to win a *Seinfeld* jacket contest. We are also doing a *Seinfeld* Sign-off party.

KEVIN MANNION, KZON/PHOENIX:

I don't think it'll be anything special... I think it'll just be kind of a normal *Seinfeld*. They'll go out with you "wanting MORE." I don't think they'll try to "wrap it up." We're going to show the broadcast at one of the big clubs in town and run some drink specials and invite folks to come out and join us.

RON VALERI, WAAF/BOSTON

WAAF created Boston's biggest living room at the Roxy downtown for a final episode bash. We brought in a truckload of luxurious leather sofas, numerous wall-size TVs, and free food for 1000 people. \$500 in cash was awarded to the best looka-

likes for each of the four main characters. Our grand door prize was a trip to New York to do the *Seinfeld* tour, and a coffee mug that was used on the show. Though it was a free event, you had to win one of the 1000 commemorative laminates to get in.

KYM MCKAY, WWW/CHARLOTTESVILLE:

I don't know how it's going to end, but I will predict that Putty will get his own show. We were going to throw a party, but our lame-ass sales department didn't think it was important enough to throw. Without a promotions budget we had to scrap it.

STEVE RAYMOND, WZXL/ATLANTIC CITY:

Newman has a nightmare dream sequence where Jerry tells Jay Leno on *The Tonight Show* that not only is he glad the show is finished, but that Newman's character won't be receiving rerun royalties. He wakes up in a panic after going postal in the restaurant. Elaine, naked under the covers, rolls over and asks him what's wrong. She promises to talk to Jerry about it in the morning. And yes, we'll be doing a broadcast from a sports bar that night.

JACK LAWSON, WKQZ/SAGINAW:

I don't care how it ends! I've never watched *Seinfeld* and am proud of it. Still, we have a major promotion planned with our morning show and local NBC affiliate.

JEFF JAGGER, WEGW/WHEELING:

We're gonna be in a local bar having a big *Seinfeld* party, with tons of giveaways and a *Seinfeld* look-alike contest. How will the show end? Oh they'll probably all get killed....who knows!

PAUL KRIEGLER, KOZN/KANSAS CITY:

Seinfeld will be left open for a reunion, yes we're doing a viewing party.

BRIAN KELLY, WPXC/CAPE COD:

They all die in a car wreck and Jerry leaves his worldly goods behind to me. We plan on coming on the night before, myself and the afternoon guy, and divulging the plot line and in key moments of relations we go off the air.

MICHAEL LEE, WTFX/WQMF LOUISVILLE:

WQMF is the official station here in Louisville working with the NBC TV affiliate. We've been giving away lots of *Seinfeld* goodies like sweat-shirts, an autographed leather-bound script, lithographs, etc. We'll

QUESTION OF THE WEEK *continued...*

be doing live cut-ins on the TV station from 7p.m.-9p.m. on the night of the final show from a restaurant with four different locations. As for the ending, they all move to California and live happily ever-after.

CHILI WALKER, WBN/FLINT:

No promotions planned around it. How will it end? Elaine becomes a nun, Jerry a monk, George a porn star (Buck Naked like he always wanted to be), and Kramer...the next president of the United States.

CHRIS JAMES, WTPA/HARRISBURG:

It's all a dream! For the promotion, we teamed up with a movie theater, where there's a restaurant/bar right in the theater. It holds a couple of hundred people. We're going to give away a bicycle and a pair of Yankees tickets.

JOHN ALLEN, WZBN/OCEAN CITY:

It's always been edgy, so I wouldn't be surprised if the whole cast died. We're going to be at a bar for the finale.

RICK JAMIE, WEBN-WAQZ/CINCINNATI:

I don't think there's going to be anything huge that happens on the final episode. We're doing tons of promotions, too many to mention (on all four stations!).

DANA JANG, KSJO/SAN JOSE

Well, the morning show played *Seinfeld* clips on the air. When you heard a clip, you qualified to win a party at your house with Lamont & Tonelli. They brought a big screen TV and pizzas. They left the TV for the winners, along with a big mess to clean up.

BRIAN LEE RIVERS, KJKJ/GRAND FORKS:

We've got a bar remote, we're gonna watch the episode with 100 of our closest friends. How will it end? It will probably be about nothing.

ADDISON WAKEFORD, WDRK/PANAMA CITY BEACH:

They'll all come back for another year; the "ending" will turn out to be a dream.

KATHY CORO, WZXL/ATLANTIC CITY:

How will it end? I have no idea! That's why I WATCH it — I have no mind of my OWN! As far as promotions, we're doing a send-off at a local sports bar with giveaways and *Seinfeld* trivia.

RAY BAUER, WSUE/SAULT STE. MARIE:

Seinfeld will end with Newman just doing the typical postman thing and blowing everyone away. We aren't doing any promotions for a big time sign off.

HURRICANE SHANE, WRAX/BIRMINGHAM:

It's going to be a big dream sequence, just like St. Elsewhere, but Elaine and Jerry will be married and Kramer and George will, in reality, be their children. We're having a *Seinfeld* night at a club, trivia, show us your *Seinfeld* swag, etc.

ROB HECKMAN, WIYY/BALTIMORE:

They all go to work at *fmqb*. We took over this huge sports bar for the night. On one side of the bar we're doing a *Seinfeld* party, and on the other side we're doing an anti-*Seinfeld* party for all those people that aren't into the hype. Larry The Cable Guy is coming in to do his act for those who don't care to watch the show. We're also doing a *Seinfeld* look-alike contest for any of the characters in the show.

SUSAN GROVES, WARQ/COLUMBIA:

I hope that it ends in mass destruction, but I don't think they have the balls. We're doing a party at a club and will serve soup. We're also having "dance like Elaine" contests and stuff like that...

JOHN COOPER, WPYX/ALBANY:

We did a cross-promotion with the NBC TV affiliate here and our morning show. The winner got an autographed *Seinfeld* leather-bound script, embroidered *Seinfeld* t-shirt, and a pair of tickets on the Kramer Reality Tour in NYC. We're also doing a "Farewell To *Seinfeld*" party at a bar the night of the last show complete with look-a-like contests. Munchies, of course, will be cereal.

SHERRI SEXTON, WKDF/NASHVILLE:

Seinfeld's ending????!!!

FRANK LARIO, WDOX/ATLANTIC CITY:

It's in syndication four times a day, on four different stations. Is the show really over?

JAYN, KNRK/PORTLAND:

I think that all of them will confess their crushes on Elaine in non-network life. We're having a finale party at a bar in town.

TERRIE CARR, WDNA/NORTH JERSEY:

I'd love to see George lose his job and go back to live with his parents, Jerry and Elaine get married, and Frank Castanza makes a million dollars off of the man's ear.

BRYAN SHAW, WROV/ROANOKE:

I don't know. We are doing a *Seinfeld* party at a local bar with a Kramer look-alike contest.

JASON JUSTICE, KNRX/KANSAS CITY:

It'll probably end with me falling off my couch laughing. We're not really doing any promotions surrounding it.

BOB WALTON, WRDX/WILMINGTON:

Who cares, as long as it ends!

KEVIN CONRAD, WJXQ/LANSING:

I think Newman will actually GO postal and gun everyone down! As far as promotions go, we're actually having a party at a comedy club with a live stand-up comedian contest & act-alike contest (act like Kramer, etc.), we're gonna watch the episode on the big screen, and then the audience can stay and watch ER and get bloody mary specials.

JOHNNY KEEGAN, WCIZ/WATERTOWN:

I have no idea how it's gonna end, I hate to see it go. We're gonna have a big bar gig with specials on big salads, pudding skin and muffin tops. And living here in Watertown, where a lot of people look like George, we're gonna have a look-a-like contest. Yada yada yada...

ZACK TYLER, WPTP/GREENSVILLE-SPARTANBURG:

There will be no ending... the show is about nothing. We're having a *Seinfeld* party like everybody else. We also had a contest on the morning show to see who could hold out from masturbating the longest... I lost before the second news break.

CARL CRAFT, WRAT/POINT PLEASANT:

It's all a hoax... they'll all be back! Our promotion is, I'm having the staff over to my house to watch the final episode of *M.A.S.H.*

GAIL LEWIS, WKHY/LAFAYETTE:

I think Kramer will start a Soy Bomb society, and there'll be a big Soy bomb follower thing; Elaine will become a lesbian; Jerry will fake his own death, and George will run for governor....and win.

JAYN, KNRK/PORTLAND:

I think that all of them will confess their crush on Elaine and in non-network life. We're having a finale party at a bar in town.

SUMMER, WKZQ/MYRTLE BEACH:

I think it will end with Elaine realizing she's a man and Kramer is the man of her dreams. And Kramer gets his own radio show. We're going to go out and drink in Kramer's honor.

DAVE FRISINA, WAQX/SYRACUSE:

We'll be doing a night at a club that has many, many screens to watch the show with our listeners. I have no clue how it's going to end, but I'm very intrigued.

JANDA BALDWIN, WAVF/CHARLESTON:

Somebody's gonna come in there and kill Jerry — just like Kenny on South Park! He's gonna die, he's goin' down!

PAUL KELLY, WEZX/SCRANTON-WILKES BARRE:

We've been doing daily *Seinfeld* trivia questions and gave away a party for 25 listeners at a local night spot for the night of the final episode. I'm sure the show will end with a lot of cheers and a lot of booze!

DORSIE FYFFE, WOXY/OXFORD:

F**k *Seinfeld*!!! I'll be at home watching my Pee Wee's Playhouse reruns. Everyone's doing a promotion, so it doesn't make sense for us to do one.

AMY HUDSON, WMAD/MADISON:

I don't think it's gonna end. I think it's gonna turn out to be a big farce and the series is gonna continue... that would be such a "*Seinfeld*" type of thing to do! Yes, we're doing a series finale party at a local club downtown.

DEBBIE WYLDE, WAMX/HUNTINGTON:

My prediction is Kramer and Elaine will end up in bed together, as will George and Jerry.

RICH ROBINSON, WHTG/ASBURY PARK:

Seinfeld will end when they roll the credits. We're giving away a big screen TV, a six foot sub and a DJ for the night to a lucky winner. Qualifiers will receive a *Seinfeld* sendoff package with chinese menus, muffin tops, cereal, and bottled water.

JEFF PETERSON, KLZR/LAWRENCE-K.C.:

I have a theory that it'll end just like every other episode.

NEXT WEEK'S QUESTION:

Besides what your compensation package would be, what is the next most important question you'd have for a prospective employer during your interview?

ROCK REPORT

We told you last week about the **Dave Matthews Band's** incredible first-week sales figures for their new album, *Before These Crowded Streets*. Stone Temple Pilots frontman **Scott Weiland** was forced to restructure his U.S. tour due to the departure of former **Porno For Pyros** guitarist **Pete DiStefano** from his touring band. DiStefano, who played on Weiland's solo album, *12 Bar Blues*, has been replaced by Los Angeles-based guitarist **Aaron Embry** for the tour, which now kicks off tonight (15) in Washington, D.C. According to Weiland's management,

he needed more time to rehearse with the new band, which prompted him to back out of last Saturday's (9) Save Tibet concert in Atlanta, along with shows in Charlotte (11) and Virginia Beach (12). A show in Philadelphia was moved from May 13 to June 2. Weiland's new single, "Opposite Octave Reaction," has just been shipped to radio.

Pearl Jam turned up for a surprise club gig in their hometown of Seattle last Thursday (7), offering a preview of their pending North American tour. News about the show at the club AROspace spread quickly through the band's online fan Web sites, resulting in a sell-out. Billing themselves as **Shawn Smith And Friends** (Shawn Smith is the lead singer of guitarist **Stone Gossard's** side project **Brad**), Pearl Jam performed material from their last two albums - *Yield* and *No Code* - during the 16-song surprise set, along with an obscure cover from **J. Frank Wilson and the Cavaliers**, "Last Kiss." **Eddie Vedder** dedicated the song "Off He Goes" to departed drummer **Jack Irons**, who backed out of the band's summer tour due to health reasons. As for the tour, which features ex-**Soundgarden** drummer **Matt Cameron** subbing, two new dates have been added, August 31 in Raleigh and September 7 in Virginia Beach. **Cheap Trick** are slated to open the August 22 show in suburban Toronto, which will also feature another act for the main-stage along with two more bands for a sidestage. Rumors of former **Soundgarden** frontman **Chris**

fmqb DOES COREY FIRST

As lead singer of **Living Colour**, **Corey Glover** helped change the face of Rock Radio in the late '80s. At a time when pretty-boy hair bands and aging rockers were the order of the day, Glover and **Living Colour** proved that not only could an African American band rock, they could make a

huge impact at Rock Radio, paving the way for other so-called "Alternative" acts like **Jane's Addiction**, **Faith No More**, **Red Hot Chili Peppers**, and **Alice In Chains** in the process. Glover also proved to be one helluva singer and frontman, something that's readily apparent on his solo debut, *Hymns* (LaFace/Arista). From the **Living Colour**-esque, sex-fueled grind of the lead radio track, "Do You First, Then Do Myself," to the **Al Green**-laced Soul stylings of "Little Girl," to the slightly psychedelic "April Rain," *Hymns* proves that even on his own, Glover's voice is still unmistakable, and his talents are undeniable. **fmqb's** **Pat Berkery** recently had the chance to chat with the former **Living Colour** frontman, here's a bit of what was said:

How long after Living Colour disbanded did you start putting together a solo project?

It started happening before **Living Colour** broke up. I was working on grooves in my apartment with some friends of mine, trying to get my engineering chops together. I was sitting in my house doing these grooves, and my friends said I should do something with it. I said, 'I don't know... maybe.' After awhile it was, 'okay, let's do it.' I packed up my stuff, got a loft space, and started rehearsing and writing more and more songs. I hooked up with **Pete** and **Jeff** (members of Elektra act **The Family Stand** who co-produced *Hymns* with Glover) and the rest, as they say, is history. Originally this was supposed to be a band project with me heading it. But forces thought it would be a lot better if they saw my name as opposed to a band name.

When Living Colour first came out, radio had a tough time with you guys, for a variety of reasons. How do you think radio is going to react to this? There's a lot of different styles on the record, from "April Rain" to "Do You First" to "Hot Buttered Soul." What do you expect to happen as far as radio goes?

As far as radio, I like to think that with one comes all. Radio being a fickle mistress, to think that if something goes through and if they enjoy that, then other things will happen. With the same kind of joy and fervor that they enjoyed everything else with.

MTV was really instrumental in breaking Living Colour, now they don't really play videos anymore. Do you have any idea what's going to happen with the video for "Do You First?"

Videos are very important. As much as MTV doesn't play videos - which to a degree is good and bad - they're tightening up their playlist and tightening up their formats to show more music and to reach further, as they did in the past. Hopefully, it will be good and we'll get past all that. We're actually doing a VH1 Rock Across America tour with **Todd Rundgren** and **Cheap Trick** and a few other bands.

ROCK REPORT *continued...*

Cornell opening some dates have been making the rounds on various Pearl Jam fan sites. We'll let you know as soon as we find out.

As they've done in the past, The Black Crowes plan on hitting the road this summer for a series of low-key club dates and radio festivals, as they take a break from recording their new album in New York with producer Kevin Shirley. Dubbing it the Sho' Nuff tour, the Crowes will preview new tracks like "If It Ever Stops Raining," "Horsehead" and "Kicking My Heart Around," along with rolling out staples like "Remedy," "Jealous Again," "She Talks To Angels," and "Twice As Hard." The band's as-yet untitled forthcoming album is said to be a return to their Blues-based Rock roots, moving away from the slightly esoteric vibe of their last couple of albums. No release date has been set.

According to AP, Tommy Lee and Pamela Anderson have scored a victory in a lawsuit they filed against *The National Inquirer*. The now-estranged couple filed suit after the tabloid reported that Lee and Anderson had a secret deal with Internet Entertainment Group that would pay them \$8 million for the

couple's now-infamous home sex tape. Details of the settlement were not released.

The surviving Beatles and Yoko Ono won their legal battle last Friday (8) to block the release of a sub-par live recording from the band's days in the bars of Hamburg, Germany. A British High Court ordered Lingasong Music Ltd. to surrender all copies of recordings made by Edward Taylor (whose band, King Size Taylor and the Dominoes performed with The Beatles at Hamburg's Star Club) of The Beatles. Taylor said John Lennon had given him permission to do what he wanted with the tapes. But during testimony, George Harrison said he would have told Taylor not to record the session if he had been there during the meeting between Taylor and Lennon. "One drunken person recording another bunch of drunks does not constitute business deals," Harrison told the court. The judge found that consent had not been given for the recording to be made, nor for its commercial use since. The court ordered payment of all The Beatles' legal costs and the delivery of any copies of the recording to their lawyers, with an inquiry into pending damages. Lingasong agreed not to sell the CD's, and to

destroy all remaining copies. Harrison was the only member to testify, as Paul McCartney was excused due to the recent death of his wife Linda, and Ringo Starr was abroad, and offered a written statement instead.

Being 51 sure hasn't slowed David Bowie down. Having recently wrapped up filming his role in the movie *Everybody Loves The Sunshine* (which also features Techno/Jungle maven Goldie), The Man Who Sold The World has jumped right into another film project, entitled *My West*. The film, which is being shot on location in Tuscany, Italy, features Bowie as a venomous gunslinger out to challenge co-star, the often-nude Harvey Keitel, to a duel. The film is expected to complete shooting around the end of July, and should hit Italian theaters by Christmas. No word on a U.S. release date. As for Bowie's musical endeavors, a live album is expected in the fall, with a new studio album set for spring 1999. His bandmembers are also keeping busy. Keyboardist Mike Garson is touring Europe with Smashing Pumpkins and is also playing on the new Nine Inch Nails album. Garson and guitarist Reeves Gabrels are also playing on Seal's

new album, and Gabrel's is also working with The Cure and Public Enemy. If all that wasn't enough, a couple of Bowie classics are finding new life thanks to cover versions. The Wallflowers' version of "Heroes" from the *Godzilla* soundtrack will soon be followed by Marilyn Manson's version of "Golden Years." They've revamped the hit from Bowie's 1976 album *Station To Station* for the opening credits of the upcoming MTV/Paramount flick *Dead Man On Campus*.

Rock legend, renowned hunter and talk radio figure Ted Nugent can now add another title to his list of credits - Beef Jerkey mogul. The Motor City Madman is currently marketing a line of dried meat called Gonzo Meat Biltong, which is available in Origina Beef, Barbecue Beef and Flamethrower flavors. Each package features a photo of Terrible Ted perched on an American Buffalo with his personal pledge, "I testdrive all meat." In other Nuge news, he is currently in negotiations to parlay his talk radio gig into a television series. Nugent is talking with various syndicators and networks about hosting his own current events-based talk show.

ROCK REPORT *continued...*

The *Rock Report* scored an advance listen to **Ringo Starr's** forthcoming CD, *Vertical Man* (Mercury Records), and the verdict is in — the former **Beatle** has come up with his most focused, innovative and creative record since his classic *Ringo* album. Set for release on June 16, the record, produced by **Mark Hudson** (Aerosmith/Ozzy Osbourne) is a striking record, a dazzling juxtaposition of Modern Rock textures adorned with crafty Beatlesque touches circa the band's psychedelic period. This album is Ringo's *Sgt. Pepper* — swirling mellotrons, cellos, avant garde drumming, exotic instrumentation — it's all here. And it doesn't hurt matters when your musical support system includes **Paul McCartney, George Harrison, Brian Wilson, Steven Tyler, Ozzy Osbourne, Joe Walsh, Timothy B. Schmitt, Alanis Morissette, Steve Cropper, and Scott Weiland**, among others. From the punchy Pop sing-alongs "One" and "What In The World" to the dreamy but buoyant psychedelia of "La De Da" (shades of *The White Album*) and the title track, *Vertical Man* is a delight. Among the other numerous highlights is a rip-roaring cover of The Fab Four's "Love Me Do" punctuated with expert harmonica wailing courtesy of **Steven Tyler**, the almost Heavy Metal-like thunder of "Without Understanding," and a cover of the **Dobie Gray** gem "Drift Away" sporting lead vocals by Starr, Steven Tyler and Alanis Morissette.

With a new song called "Untitled" on the forthcoming *Godzilla* soundtrack, the lads in **Silverchair** are currently rehearsing material for their forthcoming third album. The band plan to enter the studio in mid-June with producer **Nick Launay** manning the boards. The Aussie trio

has also recorded a version of "London's Burning" for the upcoming **Clash** tribute album, due in August. The band reportedly cut the track in less than 30 minutes.

To promote *Vertical Man*, Starr performed a rare club date last Tuesday (12) at New York's legendary Bottom Line. Serving as a frontman for much of the show (he did man the drumkit for a few numbers), Starr was joined by contributors from the *Vertical Man* sessions and All-Starr Band members like **Schmit, Walsh, Hudson, and drummer Simon Kirke (Bad Company/Free)**. Ringo mixed in four tracks from *Vertical Man* with Beatle and solo classics like "With A Little Help From My Friends," "It Don't Come Easy," "Don't Pass Me By," "Octopus's Garden," "Back Off Boogaloo," "Love Me Do," and "Photograph." While in the Big Apple, Starr also shot footage for *Vertical Man's* first video, "La De Da," and taped an installment of VH1's *Storytellers*.

Cleveland's Rock and Roll Hall of Fame welcomes its two millionth visitor this May with a wide array of special prizes. Visitors from all 50 states and 72 other nations have graced the halls of this Rock and Roll institution. A custom Rock and Roll Hall of Fame KTM Duke model sport motorcycle, a limited edition Rock and Roll Hall of Fame Fender Stratocaster, two airline tickets on Continental Airlines, a 25-CD changer complete with 25 CDs by Rock and Roll Hall of Fame inductees and much more. Says Executive Director **David Abbott**: "Our two millionth visitor represents a significant milestone for the museum. The fact that we've reached this point in less than three years of operation speaks to the popularity of this music and what we

are doing to present it in a meaningful way."

Famed recording artist/engineer **Alan Parsons** has been keeping very busy. In the midst of announcing his opening slot on this summer's **Yes** tour, Alan has just wrapped up a re-recording with **Arthur Brown** of his classic "Fire." And that's not all, Parsons also just got back from Switzerland where he did some remixing on **Phil Collins** latest opus. Also in the works, Parsons is readying a surround-sound remix of **Pink Floyd's** "Dark Side Of The Moon."

BITS & PIECES... **Foghat** head out for a series of U.S. dates kicking off on May 23 in El Paso, Texas. You can catch the "Slow Ride" boys at the following locations: 5/24, Washington; 5/25, Greenville; 5/27, Richmond; 5/28, Cuyahoga Falls; 5/29, Roanoke; 5/30, Charlotte; 6/3, Tucson; 6/5, Dulce; 6/6, Aurora; 6/7,

Colorado Springs; 6/11, Sacramento; 6/12, Piecy; 6/16, Las Vegas; 6/19, Vinton; 6/20, Bay St. Louis; 6/27, Botineau... Former **Joan Jett & The Blackhearts** lead guitarist **Ricky Byrd** kicks into solo gear with a headlining gig on May 28 at New York's famed Bitter End club. Joining Byrd on his *No Band, No Headaches* tour is legendary drummer **Simon Kirke (Bad Company/Free)**, and erstwhile Blackhearts' bassist **Brett Cartwright**. Along with recent stints with **Roger Daltrey, Ian Hunter** and old bandmate **Jett** for a series of select shows in support of her *Fit To Be Tied* greatest hits record, Byrd is gearing up to record a solo LP. His distinctive brand of passionate Soul-Rock is radio-ready and deserves a large audience.

The **Mighty Mighty Bosstones** will follow their U.K. #12 hit, "The Impression That I Get," on June 15 with "The Rascal King," also taken from their fifth album, *Let's Face It*. That day, they begin an eight-date U.K. tour in Glasgow and will play the Astoria in London on June 18.

The band are now in the studio completing their second album, to be called *Six* and released in September, preceded by a ninth EP.

NEWS FROM LONDON *continued...*

A previously unreleased song by former Abba vocalist **Agnetha Faltskog** called "The Queen Of Hearts" is included on the new compilation *That's Me - The Greatest Hits*, released by PolyGram on May 18. It's an English version of a song she recorded for CBS Sweden in 1979 and which lay undiscovered until the collection was being put together. Also on the set are solo singles such as "Wrap Your Arms Around Me" and "The Heat Is On" and some of her material with Abba including "The Winner Takes It All" and "That's Me," the original B-side of "Dancing Queen."

The U.K. singles chart was back at its most volatile this week with five new entries in the top seven, **Aqua** landing top spot with "Turn Back Time" as **All Saints** fell to two. **Wyclef Jean's** "Gone Till November" came in at three, **Cleopatra** scored a second major hit with "Life Ain't

Easy" at four, the **Corrs** got their debut U.K. hit with **Fleetwood Mac's** "Dreams" at six and **Simply Red's** "Say You Love Me" arrived at seven. **Adam Garcia**, star of the new London stage version of *Saturday Night Fever*, saw his remake of "Night Fever" enter at 15, while **Air's** "Kelly Watch The Stars" and U.K. Soulster **Hinda Hicks' "You Think You Own Me"** came in at 18 and 19 respectively. On the album chart, it was a great week in the burgeoning career of Welsh band **Catania**, whose *International Velvet* completed its resurgence to reach #1 for the first time in its 14th chart week and now has total sales of 170,000 copies. **Tori Amos' from the choir girl hotel** was the top new entry at six.

Terry Marshall's DAILY INSIDER

KENNY WAYNE SHEPHERD: On June 12, Kenny Wayne Shepherd turns 21 — old enough to drink in the clubs he's been playing. To celebrate, he'll play two shows at the House of Blues in Los Angeles on June 10 and 11 which Westwood One will record for a special. On the second night, he'll also pick up his gold record for *Trouble Is...*

VAN HALEN: Van Halen will kick off their summer amphitheater tour July 4 in southern California.

RADIOHEAD: Radiohead's *OK Computer* is now platinum. The band plans to take a break after they perform at the Tibetan Freedom Concert in Washington, D.C. on June 13, then start work on a new record later in the year.

FASTBALL IN THE FAST LANE: The names of the elderly couple who inspired the Fastball hit "The Way" were published by an Austin newspaper for the first time recently. Tony

Scalzo remains uneasy about the way people perceive his motives for writing the song. The story of how the couple perished has now been told many times, but Scalzo always stresses that he wrote the song when he read a newspaper story about them before he knew their fate. He wrote it because the idea of a couple getting away from it all after fulfilling their responsibilities all their lives appealed to the romantic in him. "It's a human interest story and you can't go wrong with that," he says. "I wasn't out to exploit anyone." Scalzo is getting ready for an added responsibility of his own next month. He and his wife are expecting their first child June 30. Scalzo also has a daughter from a previous marriage. Fastball is currently on tour in Canada. They're hoping to juggle a few of their final tour dates with Everclear and Marcy Playground next month so Scalzo will be home when the baby arrives. As is usually the case with a hit song and an album that has now shipped gold, the tight

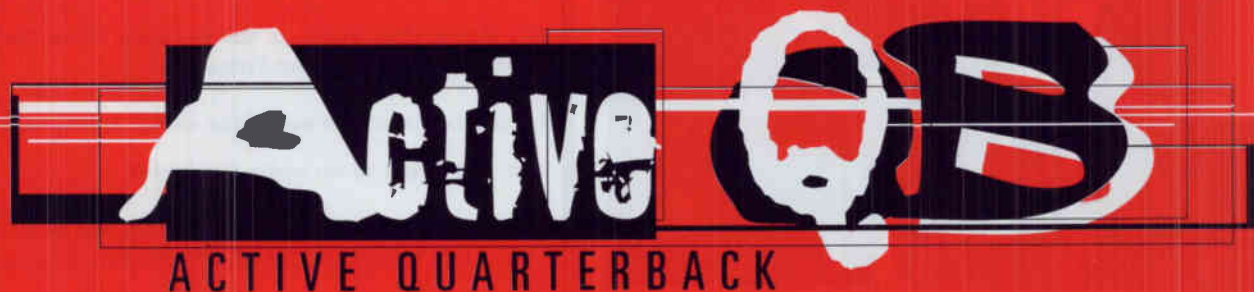

schedule continues with Fastball due to depart for Europe on July 14 and join the H.O.R.D.E. tour back in North America on August 14. Fastball will be on *The Tonight Show With Jay Leno* on May 21.

THE B-52'S: The B-52's have started rehearsals in New York for their reunion tour, which opens next month (18) in the New York area. Joining original members Fred Schneider, Kate Pierson, Cindy Wilson and Keith Strickland are Tracy Wormworth on bass, Pat Irwin on keyboards and drummer Charles Drayton.

NEW JOURNEY LINE-UP CUTS FIRST SONG: The new Journey line-up with Steve Augeri from Tall Stories on lead vocals, ex-Bad English member Dean Castranovo on drums, and previous members Neal Schon, Ross Valory and Jonathan Cain has recorded a song for the soundtrack to the new Bruce Willis movie, *Armageddon*. Schon and Jack Blades

wrote the song "Remember Me" and it was produced by Kevin Shirley, who also did the 1996 Journey reunion album, *Trial By Fire*. Steve Perry is continuing his solo career with the appropriately titled "I Stand Alone" from the animated feature film *Quest For Camelot*. Although Perry's departure has been in the media for several weeks, Columbia Records didn't issue a statement until last week stating that the split occurred at the beginning of this year. That's when Perry and Cain decided that if Perry's health prohibited him from touring, Cain and Schon would reform the band with a new singer. No mention was made of Perry's condition in the release, although other reports have said that he is suffering from arthritis.

Memorial Day weekend. They'll be joined by The Posies, Gary Busey, John Taylor and other artists at Miracle In The Desert near Palm Springs, California on May 23. Among the organizers is the co-creator/producer of Woodstock, Artie Kornfeld. The day's events will also include a world champion in-line skating, skateboard and BMX Bike exhibition. Net revenue will go to several charitable organizations including the Musicians Assistance Program and a local recovery program.

NEW CONTEST FOR UNSIGNED BANDS: The latest contest for unsigned bands was unveiled recently by Sony. Sony follows the Ticketmaster and Grammy Showcases and Marty Callner's Internet Demo Derby last year with the Demolisten Derby. The grand prize is a recording contract and time in a state-of-the-art studio with a producer and engineer to record and mix. Four first prize winning bands receive free mini-disc recording units. All five winners will have their music posted on the Demolisten Web page of the Sony Online site for 60 days and visitors will be able to vote on them. To obtain rules and an official entry, send a self-addressed stamped envelope to Demolisten Derby, Sony Music, 550 Madison Avenue, Room 2778, New York, NY 10022 or visit www.sonymusic.com/demolistenderby. There is a \$5 entry fee and bands must submit a tape, DAT or CD with at least three songs.

SECOND SIMPSONS ALBUM DUE IN SEPTEMBER: Sonic Youth, The Ramones, Linda Ronstadt, Tito Puente, Jackie Mason, Kelsey Grammar and Tim Conway are all featured on a new Simpsons album, *Go Simpsonic With The Simpsons*, which Rhino Records will release on September 1. The 60 tracks of songs, themes, underscore music and dialogue comprise the follow-up to *Songs In The Key Of Springfield*. Included are four never-before-heard outtakes and material from the first seven seasons that didn't make it on to the first album.

THE WHY STORE: The Why Store's follow-up to their self-titled debut, *Two Beasts*, will be out June 30. The band co-produced with John Mellencamp guitarist and co-producer Mike Wanchic. The Indiana quintet sold 200,000 copies of their first album.

NINE INCH NAILS: Former Nine Inch Nails drummer Chris Vrenna has been in the studio with Seal. His drumming will be heard on "What Have I Done To Deserve This" from the new Seal album. Vrenna also remixed Green Day's "Brain Stew" for the *Godzilla* soundtrack.

GANG'S GILL SMOOTHS LIZARD ON DISC, BUT NOT LIVE: The Jesus Lizard brought in former Gang Of Four member Andy Gill to smooth out some rough edges on the band's new album, *Blue*, but David Yow promises their live show will be as rowdy as ever. Yow spent a night in jail on the 1995 Lollapalooza tour. The next year the Jesus Lizard was banned from Seattle by

a fire marshal who proclaimed him, "no less dangerous to the public than a man who walks into a bar with a loaded gun." Yow denies that the band made any changes because of the record company although he admits that Capitol was disappointed when their last album, *Shot*, failed to expand their audience beyond the 40,000 that their three indie releases sold. Yow says the band already wanted to make some changes and experiment and that Capitol was excited by the news. "Through the years we realized there's never been a studio record that's as exciting as a live show unless it's a dull live band," explains Yow. "You can't reproduce the live show on record and you can't reproduce the record live so we decided to make a studio album." Yow adds that he's also done a lot of "screaming, talking, whispering and making weird noises" but only a little bit of melodic singing. "With this album, I was trying to come up with some actual melodies which is difficult for me," he said. The Jesus Lizard just returned from Europe and Australia. Their North American tour kicked off May 6, the day after *Blue* hit stores. The band will be on tour through most of the rest of the year. Yow says the shows are still "pretty much the same — hopefully chaotic mayhem with a certain amount of unpredictability."

COREY CONTINUED FROM PAGE 26

Late in 1994, you did some VJ'ing for VH1, what was that all about?

It was a job. It was great and I actually enjoyed it, it lasted for three or four months. It gave me a chance to see what was going on the other side, which was very cool. VH1 at the time was trying to get its credibility back together, because at one time it was the older, less-hipper sister to MTV. They needed to get their credibility back so they decided that the people that they wanted to present this music, had to be just as cutting edge and just as hip as everybody else. So they hired me and Moon Zappa to give it a fresh new face and to get a different demographic. To a degree I was literally the red-headed freak to give them the edge that they needed. I think I helped out a lot.

A lot of people forget that you were involved in the first Lollapalooza in 1991. How do you feel about it not taking place this summer, and about the whole "Alternative" genre in general, which you sort of helped bring to the masses?

It's forever changing. At this point you can't say what is Alternative, because everything that is being played is the same, so it's not really Alternative music anymore, is it? It's mainstream music and, at that point, where do you go? Where can you go? Who watches the watchman? Lollapalooza was the first package tour, but after that a lot of stuff came along, and those package tours became the thing. It ushered in the package and festival-like tours. Even in terms of being an Alternative sort of thing, there are no real Alternative acts anymore because everything is above-board now. It's not an underground sort of thing; it's not the freak show it once was. It's like the people who ran the freak show now run the world.

It's ironic that right as the Modern Rock format began to explode, Living Colour disbanded.

Indeed, but that's the way of the world. It just happened that way.

Are you going to do radio festivals?

Yes, I'll do a lot of radio and retail events, and go into the stores and play. I love doing that. Any chance for me to play is what I want to do.

ROCK 18-34

THE INSIDE TRACK

First, the plug: Be on the lookout for the first issue of *Active QB* next week. It's a brand new magazine we cooked up just for today's Active Rock programmer. *Active QB* is founded on the same principles that have consistently put the *fmqb* family of publications at or near the top of numerous research studies of industry trade readership (including several of our competitor's!) The first edition of *Active QB* takes you inside the heads of the movers and shakers that have made Active Rock the top-performing Rock format in market after market. Now back to our regularly scheduled programming... KUPD/Portland has taken the wraps off of *RockFest '98* which will take place June 21 at Portland Meadows. This year's headliner is **Creed**; also on the bill are **Deftones**, **Brother Cane**, and **Jimmie's Chicken Shack**. More artists will be announced soon. "This year's *RockFest* line-up showcases some of the best new bands for 1998, including multi-platinum act **Creed** coming off their No.1 Rock song "My Own Prison," KUPD OM **Dave Numme** tells *The Inside Track*. "Deftones and Brother Cane are also touring behind very strong new releases. *RockFest '98* will highlight some of the best new music so far this year..." **WRCX/Chicago** has introduced a new on-air feature, *The Four O' Clock Thrashback*. Heard during **Eddie Webb's** afternoon show, it features 70's, 80's and 90's hair band music. The daily segment is in response to the overwhelming popularity of 'RCX's Saturday Night thrashing *Freaks Radio Anarchy*... **WRAT/Monmouth-Ocean** is throwing a party for the biggest television event in history, the *Seinfeld* finale. PD/morning man **Carl Craft** hosted the party which featured the last episode shown on a 12 foot screen with an additional 25 TV sets spread throughout the bar. Listeners had the opportunity to enter a *Seinfeld* look-alike party for a prize of \$295.00. They also had a chance to unlock the "vault of prizes" which consisted of a large screen TV, a \$700 humidor, New Jersey Devils jerseys, tickets and limo to a Yankee

game, and *Seinfeld* autographed t-shirts. *Seinfeldian* fare will be served, including muffin tops, Tic Tacs, Tweety Pez, Junior Mints, paella and much, much more. But, no soup for you! (See *Question Of The Week* for more *Seinfeld* promotions)... **KAZR/Des Moines** held a low-dough show May 12 featuring **Two**, **Econoline Crush** and local act **Deadfront** all for the ticket price of \$5.00. **Rob Halford** even stopped by the studio for some on-air banter with PD **Troy Hanson**. The next Lazer low-dough show will include **Stabbing Westward**, **Feeder** and another local act, **35 inch Mudder**.

TEST SCORES

WNOR
NORFOLK
APD/MD-TIM PARKER

TOP PERFORMERS

- TOOL** "Aenema"
It will not go away. Over 900 spins and still no burn. Still pulling in high test scores.
- MEGADETH** "Use The Man"
Despite it being the third track in , it is still testing strong. Just as strong as the first two.
- CREED** "Torn"
Big sales, big requests and still big research. I can see us going four deep on this album.
- SEVENDUST** "Black"
HUGE Requests, big sales. Call-out is better 25-24 than 18-24. Some folks are missing the boat on this one.
- LED ZEPPELIN** "The Girl I Know"
Surprised with the younger demo response, very strong 18-24.

UP N' COMERS

- JERRY CANTRELL** "Cut You In"
It's coming along. It took a while for call-out to come back.
- ADDICT** "Monsterside"
It's surprising that we're getting requests. We usually don't get requests for songs that sound like this one.
- BIG WRECK** "The Oaf"
We've been playing it forever and it took forever to get good research. It will make it into a recurrent.

Coming next week!

PROGRESSIVE PRO-FORMERS

Natalie Merchant *Ophelia* (Elektra/EEG)

Ophelia, Natalie Merchant's second solo album since leaving 10,000 Maniacs, is effortlessly our **Pro-Former Of The Week!** The full album hits our mail bag, and as expected, it skyrockets from 16 to 7* and becomes our **#1 Most Increased (+160)** for the second week in-a-row! Eight new adds pour in this report (including WDOJ, WRNR, KAXE, WEBX, and WFPK) and it won't be long before Natalie Merchant closes out the panel and makes the move for #1.

Tori Amos *"spark"* (Atlantic/AG)

Tori Amos' latest creative work, *from the choirgirl hotel*, has already been hailed as one of her most commercially accessible to date. The first track from the album, "spark," was added this week at KNBA and is on-the-air at 41 stations, including WKOC, CIDR, WYEP, WXLE, WEHM, WMMM, KOTR, KFXJ, KGSR, WRLT, WTTS, WXRT, WFUV, WXPB, and KMTT. Rising from 20 to 14*, Amos is this week's **#3 Most Increased**, catapulting up 117 spins.

Semisonic *"Closing Time"* (MCA)

Added this week at KINK, Semisonic's "Closing Time" can currently be heard on WXLE, WRLT, WDOJ, WOBR, KXST, WKOC, WVRV, WTTS, KFXJ, WBOS, CIDR, KBCO, WMMM, WXRV, KKZN, KSPN, WIIS, KOTR, KTCZ, WXRT, KMTT, WXPB, and WCLZ, among many others. Showing no signs of slowing down, the track boosts their album, *Feeling Strangely Fine*, from 9 to 5* this week and increases 60 spins. And you wanna talk about *depth*??? Try "D.N.D." and "Singing In My Sleep."

The Wallflowers, *"Heroes"* (Sony Music Soundtrax/Epic)

Increasing 131 spins this report (**#2 Most Increased**), The Wallflowers continue heavy airplay increases for their contribution to the *Godzilla* soundtrack (insert gratuitous gargantuan lizard joke here). "Heroes" gets added this week at WVRV, and is already on-the-air at 34 stations, including WXLE, WOBR, WKOC, KFXJ, WTTS, WBOS, KMTT, CIDR, KBCO, WMMM, KKZN, KTCZ, WXRT, WHPT, and WXPB. Progressing from 24 to 16*, "Heroes" is currently commanding 523 total spins.

PROGRESSIVE ADULT RADIO PICKS

ON THE RIGHT TRACK?

ANI DIFRANCO "AS IS," RIGHTEOUS BABE

Finally, Ani DiFranco is being fully embraced by Progressive Radio! Granted, a handful of Adult outlets have been spinning DiFranco since her first release, but *Little Plastic Castle* is the first of her albums to soar into our overall Top 10 and claim the 1^o position with Public radio. The next cut from the album, titled "As Is," was an instant favorite here at *fmqb* and should easily continue

her winning streak with the format. Doubts? Check out who's already playing it.

BILLIE MYERS "TELL ME," UNIVERSAL/UMG

Growing Pains, the debut album from Billie Myers, has already spawned one Top 5 hit, "Kiss The Rain." Produced by Desmond Child, the album boasts a handful of potential singles, and Universal has opted for "Tell Me" as the next track. Overall, there is plenty of potential here for Myers to gain prominence at Modern Rock, and Progressive's will probably have more musically in common with the "LP Edit" rather than the alterative mixes on the CD-Pro.

SINGLES/EPS

JOHN FOGERTY "PREMONITION," REPRISE

John Fogerty has been having one hell of a year. After a tradition of an album a decade from the man,

we get gifted with two albums in the space of a year. Last year's *Blue Moon Swamp* was awarded a Grammy for Best Rock Album. *Premonition*, a collection of eighteen songs, including sixteen Fogerty originals and versions of "Susie Q" and "I Put A Spell On You," recorded live on a soundstage at the Warner Bros. Studio lot last December, will be released June 9. Heavy visibility to follow on VH1's *Legends* and on the road.

COWBOY JUNKIES "MILES FROM OUR HOME," GEFEN

Margo Timmins vocals are distinctive, smooth and golden as honey. Texturally, this first single has more

layers (and a little more crunch) than we usually expect from the Junkies. But, don't let it stop you from giving this one another listen, it's very hooky on repeated listens! The new album, *Miles From Our Home*, holds a multitude of delightful tracks that the format will embrace with open arms. "Miles From Our Home" is just the beginning of a promising summer for this Progressive favorite.

GRANT LEE BUFFALO "TRULY, TRULY," SLASH/WB

Produced by Paul Fox (XTC, 10,000 Maniacs), *Jubilee* is the fourth album from Grant Lee

Buffalo. Set for retail release on June 9, the album is their first since parting from original bassist Paul Kimble. New bassist Joey Peters (former member of Tonic), is joined by a solid collection of musical contributors, including R.E.M.'s Michael Stipe, The Wallflowers' Rami Jaffe, and Robyn Hitchcock. "Truly, Truly" is the first single, and we believe you will "Truly" enjoy it!

SONIA DADA "SLICES OF MY SECRET LIFE EP," CAPRICORN/MERCURY

We just couldn't sit on this one. And we're not the only folks having a hard time waiting to hear/play Sonia

Dada, selections from this sneak preview of the new album got a few adds this week. We have a real problem with impact dates, don't we? *My Secret Life* features the Funky harmonies that we expect from Sonia Dada. Their sound is perfect for summertime kickin' back and having fun. This incarnation of the band features new vocalist Shawn Christopher. These four will have you salivating for more.

BRIAN WILSON "YOUR IMAGINATION," GIANT/WARNER BROS.

From the album *Imagination*, Brian Wilson's "Your Imagination" will delight Beach

Boys fans young and old. Wilson hasn't lost his musical touch, and the harmonies on this track are instantly recognizable. In short, as one would expect, "Your Imagination" sounds like one of the Beach Boys best - in fact, it's the best song they haven't done in years. And hell, it's practically summertime, so give this one a listen, put it on-the-air and watch your listeners react immediately!

HEATHER NOVA "LONDON RAIN (NOTHING HEALS ME LIKE YOU DO)," BIG CAT/WORK

Heather Nova's 1995 debut, *Oyster*, spawned the haunting single "Walk This World" and was a dazzling

major-label debut full of depth. The first single from *Siren*, her sophomore album, is titled "London Rain (Nothing Heals Me Like You Do)" and highlights extensive growth in Nova's songwriting, as she exhibits her wonderful melodies and counterpart harmonies. In addition, look for her to be a part of this year's Lilith Fair.

MONO "SLIMCEA GIRL," ECHO/MERCURY

Mono's first single, "Life In Mono," was a smash at Modern Rock radio. Their new album, *Formica*

Blues, is ready for release in the U.S., and on the heels of this single release, should be very successful. The next track, "Slimcea Girl," is a slick number that most likely will be one of the smoothest sounding records on-the-air. If your station has had any success with Morcheeba, Massive Attack, or Björk, then you'll definitely want to give "Slimcea Girl" a serious listen.

C.P.R. "MORRISON," SAMSON MUSIC

There is quite a bit of talent in this band! C.P.R. consists of Rock & Roll Hall Of Famer David

Crosby (obviously, of The Byrds and CS&N fame), guitarist/vocalist Jeff Pevar (Ray Charles, James Taylor, Shawn Colvin, B.B. King, Bonnie Raitt, etc.) and keyboardist/vocalist James Raymond (Crosby's son, who has worked with Take 6, Oleta Adams, Spice Girls). The first single from their debut album, "Morrison," is musically fresh and, as one would expect, rich in vocal harmonies. Don't miss out!!!

ALBUMS

NATALIE MERCHANT
OPHELIA
ELEKTRA/EEG

After we sussed the "concept" behind *Ophelia*, the album, not to mention the companion film of the same name, we felt lucky that Natalie Merchant didn't call it *Sybil*. One of us has enough problems with that issue. *Ophelia's* seven female characters show up in the title track, allowing Merchant to really get into role-playing. This album has a more lush and orchestrated sound than her first solo project, *Tigerlily*, which had such strength and staying power. After the first single, "Kind & Generous," we'd like to recommend: "Break Your ...," "Life Is...," "My Skin," "King Of...," "Frozen Charlotte," and "When They Ring..."

SOUL ASYLUM
CANDY FROM A STRANGER,
COLUMBIA/CRG

Candy From A Stranger is Soul Asylum's third outing for Columbia Records. Recorded in late 1997, it was primarily recorded live with minimal overdubs, giving the eleven tracks a fresh feel. Despite the fact that their earlier indie work found them more like a Modern Rock garage band than the purveyors of high-gloss Rock that they've become, Soul Asylum has never lost credibility with their die-hard fans and have developed into one of Rock's most significant bands in the '90s. Check out "I Will...," "See...," "No Time...," "Blood Close," and "Crea...," for solid proof of their power!

HAYDEN
THE CLOSER I GET
OUTPOST

He got his first guitar in the winter of 1984 and by college, Canadian native Hayden Desser was playing live gigs. "People mostly talked through my sets," he says of opening for bands. "So I turned my guitar up louder and louder until they started to notice." And notice they did. In March of 1995, Hayden released his debut CD, *Everything I Long For*, and toured coast-to-coast four times. His latest effort, *The Closer I Get*, is as a fine re-introduction to this unique artist and features our picks: "The Hazards Of Sitting...," "Stride," "Better Off Inside," and "Two Doors."

PAUL KELLY
WORDS AND MUSIC
VANGUARD

Since his debut, Australia singer-songwriter Paul Kelly has established a solid relationship with Progressive Radio. From 1987's *Gossip* to 1995's *Deeper Water*, he has steadily developed with the format and, as far as gauging his musical abilities from past to present, Kelly's vocals and guitar playing have never been better than on his latest, *Words And Music*. Hitting retail on May 19, *Words And Music* offers fifteen new tracks that should easily find new fans while pleasing die-hards. Check out "Tease Me," then dig deep with "Little Kings," "I'll Be Your...," "Glory Be...," "How To...," "Gutless Wonder," and "I'd Rather..."

VARIOUS ARTISTS
THE HANGING GARDEN
OST, ANGEL

Featuring tracks from Ani DiFranco, Ashley MacIsaac, Jane Siberry, Holly Cole, Spirit Of The West, The Rankin Family, Lori Yates, Laurel MacDonald, Deb Montgomery, Mary Jane Lamond, and many others, the original soundtrack to *The Hanging Garden*, should be a Progressive programmer's dream. There is plenty to choose from here, and the real gem is the first single, Mae Moore's "Deep Water." The film has already won numerous awards at the Toronto, Atlantic, and Vancouver International film festivals, and we expect this soundtrack to receive similar praise for its eclecticism.

Sorting Out What Those Crazy Listeners Really Want

by Dave Lange

Figuring out what the audience wants can be very confusing at times. We often see one set of conclusions in a focus group or perceptual study, and then a totally opposite outcome when looking at their behavior in the Arbitron results.

Consider the following examples:

1. **Play More Music in the Morning.** Even if you haven't done a big research project, this comment usually pops up on the request lines and all over town. Many have attempted a "Most Music in The Morning," yet we rarely see any ratings results with this strategy. The biggest morning shows with 18-49s (**Howard Stern, Bob and Tom, etc.**) don't play any music at all.

The reason music in the morning crashes, is that it can't gather any momentum — there's rarely a water cooler discussion on the new **Dave Matthews** song. The audience also wants information, weather, sports, and some conversation to get going. Fulfilling the "Most Music" promise doesn't leave much room for talk, and it takes time to make talk entertaining. Even though the audience does listen to radio mainly for music, mornings are an exception. To the audience, the ideal hour would somehow have 40 minutes of music, plus 40 minutes of fun and information. We also have to fit in 12 minutes of spots, making it even more impossible to deliver. The personality shows take over, build momentum, and the listeners catch music later in the day.

2. **Variety vs. Music Focus.** Ask the audience how important "variety" in the music is and it's at the top of their priorities in the research. Yet, winning the most variety battle with a widely divergent list, often leads to lower TSL and smaller cume. Again, it's a usage problem — the audience can't (or won't) listen long enough to really appreciate the variety of music and start scanning for familiar music and more consistency in the sound. Variety also makes it hard to describe and position the music image of your station.

3. **Big Library.** Playing more than one song from a CD, deep cuts, and having a huge library are all traits the audience favors in research. Building a station on this premise sounds attractive, but when we do the music research it usually shows 500-800 songs that actually pass the test. Cume and TSL also suffer.

4. **Repetition.** The stations with high repetition are often tagged with negatives in the research, but stations with lots of unfamiliar music have a tough time gathering cume and building long TSL.

In all these cases, it's the old perception vs. reality issue. All are qualities that make logical sense, but the audience just doesn't use radio in such a way that would make these qualities achievable.

In mornings they can't resist the controversy, humor, discussion, personality, and information in a more talk-oriented show. Products with a tightly focused image, and music base, cut through the clutter and make strong impressions even though they sacrifice music variety. Stations with deep libraries are not listened to long enough because listeners lack the patience to weed through the unfamiliarity. Since the audience all punch around and listen on different schedules, cutting back on repetition only makes it harder to introduce new music and build high scores for the music you are playing.

Yes, we would all like a completely fat-free Whopper that was actually healthy with no sacrifice in taste. Even when something close is available (the Mc DLT), it doesn't sell. When you are looking at the audience (with or without formal research), always make sure you factor in the reality of how they use and listen to radio.

The audience punches around between 3-4 stations, listens while doing other things (driving, working, etc.), and they have their own listening schedule. This limits what you can do and accomplish. It also limits what you can really conclude from any research. When designing and analyzing your data, make sure you don't waste time, listener potential, and money, asking questions that you haven't run through the filter of Arbitron measurement and actual listener usage. You may end up with logical conclusions that turn into ratings confusion.

witness the gigantic fireworks display over Monroe Harbor. The station will begin broadcast coverage at around 9:15 p.m. with the pyrotechnics beginning at 9:30. The station will play music from artists like **Smashing Pumpkins, The Rolling Stones, U2, Pink Floyd, R.E.M., The Beatles, The Wallflowers, Led Zeppelin**, and more. The music will be choreographed and synchronized with computerized split-second timing. The event will be co-hosted by **Frank E. Lee, Terri Hemmert, Tom Marker**, and other personalities. WRRX/Gainesville went dark on Thursday, May 7, as we predicted last week, when the sale of the station became final. The station has been cleared for a frequency shift (97.7-97.3) and the power will be upped from 6-50K. PD **Jerry Gerard** and the rest of the on-air staff, are now on the street. You can reach Gerard at (352) 591-4384. No word yet on the station's new direction.

Showcasing the eclectic styles that the Real World label offers is a new collection entitled *Bliss* (Real

World/Caroline), which features a diverse line-up of Real World acts celebrating musical diversity. Drawing tracks from Real World's nine-year existence, *Bliss* features tracks ranging from tranquil, to challenging to spiritual, all with one purpose - to prove that music can transcend cultures and categories. Artists featured on *Bliss* include label braintrust **Peter Gabriel, the late Nusrat Fateh Ali Khan, The Grid, Jam Nation, and Afro Celt Sound System**.

Having written songs for the likes of **Michael Bolton, Cher, Jennifer Rush, and Paul Rodgers**, along

with working as a staff songwriter for CBS Songs and Columbia Pictures' publishing division,

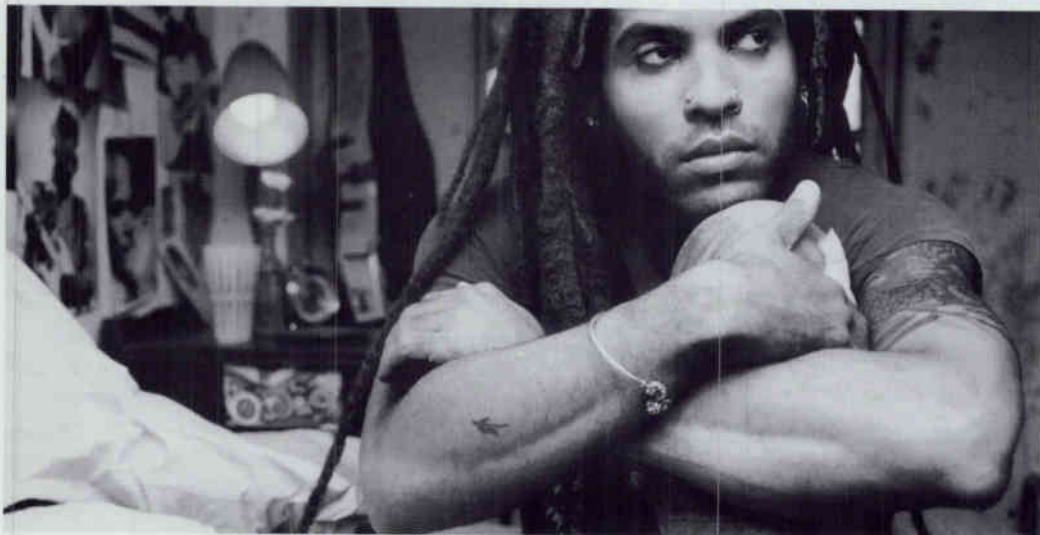

Mark Mangold has certainly had ample opportunity to hone his songwriting chops. Now with his own solo outing, *Mirror Image* (for reel/12:12), Mangold gets to show not only his knack for crafting great melodies, but delivering them as well. Rich with his beliefs and ideologies, Mangold's lyrics strike a chord and deliver a strong message simultaneously. Musically, his songs are largely powerful, ballad-like pieces, weaving in elements of Tibetan chants, Aboriginal didgeridoo, and African, Eastern and American Indian percussive instruments. Standout tracks include "Dreamlife," "Forty-Second Street" and "Homeworld."

As a member of Roots-Rockers **The Blasters, Dave Alvin** helped pave the way for other

Roots acts, along with much of the current crop of Alternative Country acts scoring big today. Solo for some time now, Alvin's muse has shifted from the sweaty bar-scene of yore, to a slightly more introspective style. On his first solo offering in four years, *Blackjack David* (Hightone), Alvin travels down a lyrical road of loss, love, sin, and hope, with his trusty guitar twang by his side at all times. The acoustic-driven title track could easily pass as a leftover from **Springsteen's Nebraska** sessions, and the wealth of quality material doesn't end there. Try the rolling "Abilene" (the first radio track), "California Snow" and "Evening Blues" for more proof of Alvin's timeless tunes.

Mercury Nashville is getting set to drop the most thorough **Hank Williams** retrospective to date, appropriately titled *The Complete Hank Williams*. Comprised of ten CD's, and produced in cooperation with Colin Escott and the Country Music Foundation, the box-set features over 20 recordings, 50 of which were previously unreleased. *The Complete Hank Williams* will be released on September 22, initially as 10,000 numbered units, to coincide with the 75th anniversary of Williams' birth. Comprising the set's extensive collection of tracks are all of the MGM and Sterling Records session recordings, along with more than 130 non-session and radio/television recordings. The package also features two separate booklets, each over 140 pages with 80 rare and unpublished photos, handwritten lyrics, original ads, charts, LP covers, photos of artifacts and original art. In other Rhino news, the label is instituting the Insane CD Exchange Program, which allows consumers to exchange a lesser-quality various artist, best-of, or re-issue CD - from any label or mail order house - for a Rhino disc of their choice, free of charge. Tickets for the event, which features a performance from Negron, a buffet and a number of door prizes including a trip to Hawaii, are \$30 dollars.

Warner Bros. and Giant/Revolution have signed a new long-term agreement which extends the marketing

METAL MONSTERS

MONSTER MAGNET "SPACE LORD," A&M

You've been spinning the hell out of "Space Lord" for the last few weeks, now it's time to make it official! The first taste of **MONSTER MAGNET's** highly-anticipated new album, *Powertrip*, is a hallucinogenic slab of pure Rock. It's been a few years since *Dopes To Infinity* came out, converting the few headbangers that hadn't been won over by the band's first major release, 1993's *Superjudge*. After catching the band twice in the past year, performing mostly new material, we knew that this record had the potential to be their best yet. Dave Wyndorf and friends haven't disappointed. Starting out bluesy and acoustic, "Space Lord" eventually shifts into metallic overdrive, with Wyndorf's THC-fueled lyrics propelling the song forward. They've even toned down the song, changing the "mother-fucker" in the chorus to "space lord mother mother." Monster Magnet is the best thing to come out of Jersey since, well, your favorite trade magazine, so bow to the "Space Lord!"

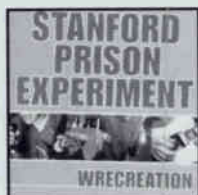

The Scandinavian landscape of Sweden has the most notable distinction of being a veritable factory of Black Metal bands and hot chicks. However, **DRAIN S.T.H.** -the STH patriotically standing for Stockholm- is one bevy of honey-blonde babes that can rock hard. The EP, with the exception of "Crack The Liar's Smile," is loaded with exclusive previously unreleased material. These ladies put their own slow, exotic spin on

DRAIN S.T.H. "CRACK THE LIAR'S SMILE EP, THE ENCLAVE/MERCURY

the **MOTORHEAD** classic "Ace Of Spades." How proud Lemmy must be to have his song covered with such musical prowess. The **CLAWFINGER** remix of "I Don't Mind" is replete with grooves, while the riff dripping live "Klotera" diffuses any myths and melts that ice off the heart of any curmudgeon out there who thinks girls can't carve out gnashing guitar licks. Mercury is planning to rerelease "Horror Wrestling". Brace yourself for the drop-kick intensity of Drain STH. Check them out for the music. The cover is just an additional aesthetic ornament!

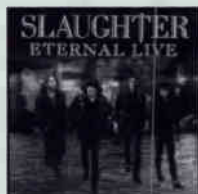

STANFORD PRISON EXPERIMENT "WRECREATION," ISLAND

It was a good week for **STANFORD PRISON EXPERIMENT** here at *fmqb*. Not only did *Wrecreation* come in #4 Most Added, with 29 signals (WSOU, WKTA, WNYU) signing up, the

record also made a healthy debut on the Pure Spins chart, debuting at 39*. If you haven't been won over by the band's driving grooves yet, this album will seal the deal for 'ya. In addition to "I'm A War," "Fine Line," and "Burner," you'll also find yourself spinning "Compete" (the first single) and "Nails That Stick Up Get Hammered Down," which is one of the cooler song titles we're heard this year.

SLAUGHTER "ETERNAL LIVE," CMC INTERNATIONAL

The Metal world was saddened last year to hear about **SLAUGHTER** guitarist Tim Kelly's tragic death in a car accident. The band's second live album, *Eternal Live*, has been dedicated to the axe-

man. While the dedication is solemn, the rest of the record is fun and carefree, much like the band's live show is. While all of the band's hits from the early '90s are here ("Up All Night," "Fly To The Angels," "Mad About You"), a lot of the band's newer material, which is every bit as good as their earlier work, is on as well. What better way to celebrate the life and work of Kelly than with a disc full of the band's best music played before an appreciative crowd of Slaughter maniacs? If your station or show dabbles in the angst-free music of the '80s and early '90s, this record's for you.

VIXEN "TANGERINE," CMC INTERNATIONAL

Before the **SPICE GIRLS**, there was **VIXEN**. And unlike **Ginger, Sporty, Baby, Sneezzy** and **Dopey**, these chicks rocked! It's been a decade since the Vixen burst onto the then-flour-

ishing hair-Metal scene. Not only did the band write their own songs and play their own instruments, they looked better in makeup and spandex than their male contemporaries. After taking some time off (seven years, to be exact) the band has returned with *Tangerine*. Time has been good to the band, and instead of remaining stuck in the '80s or jumping on a musical bandwagon, the late '90s version of Vixen shows that they've evolved into a solid Rock band. While much of this album doesn't fit into the "Metal" category, any station that's played the band before owes it to their listeners to show them what Vixen's doing now. Try on "Page," the title track, and "Shut Up."

STUFF YOU SHOULD KNOW...

* **Michael Beinhorn** is producing the new **MARILYN MANSON** album. A spokesperson for the producer confirms that the project is about halfway finished and that the record is on track for an August release. Manson had been getting help from **Billy Corgan** in the early stages of

the album. Beinhorn has also produced **OZZY OSBOURNE, SOUNDGARDEN** and **HOLE**, among others. The band plans on finishing the album and playing some European festivals in July.

* From our *The Ozzman Shopeth dept.*: Imagine a store that sold only Ozzy Osbourne-related material. All Ozzy, all the time! Well, that is going to happen, but only on the Internet. The site, whose exact address hasn't been announced yet, will feature Ozzy-related sportswear, concert tickets, CDs, cassettes and books, as well as Ozzfest merchandise. In addition, the store will feature special "Internet-only" items, such as autographed posters and musical instruments. The launch of the site will coincide with the start of the *Ozzfest '98* tour starting in July.

STUFF YOU SHOULD KNOW *continued...*

* Here's some info about the songs that are on the new **KoRn** album, *Follow The Leader*.

"Neocide" - a song about Jon seeing a one year old girl in the coroner's office where he worked that died due to sexual abuse.

"My Gift To You" - some fantasy about Jon doing his girlfriend, then killing her. This stuff turns him on.

"All in the Family" - features **Fred** from **LIMP BIZKIT**.

"Earache My Eye" - a cover of the **Cheech and Chong** tune that will feature **Cheech Marin** on guest vocals, with **Jon** playing drums, **David** playing bass, and **Head** and **Munky** on guitars.

"BBK (Big Black Kock)" - a comedy song in the same vein as "Kunt."

"Come On" - similar in style (musically) to "Faget."

"Justin" - named after a terminally-ill 16-yr.-old boy with colon cancer whose wish to meet KoRn was made possible by the Make-A-Wish Foundation.

"My Gift For You" - similar in style (lyrically) to "Daddy" and "Kill You"

Untitled #1 - about how Jon's friends treat him differently now that he's famous

Untitled #2 - ??

* **KYUSS** fans of the world unite! **John Garcia** has teamed up with **KARMA TO BURN** as **EL NINO BROWN**.

* Another **MARILYN MANSON** fan has been arrested for wearing a band T-shirt. A Benton, Kentucky fan, **Venus Starlet Dust Morgan** was fined \$250 for wearing a shirt that said "I am the god of the fuck" at an outdoor festival. A case against a Texas teen that wore the same shirt was dismissed earlier.

* Here's the track listing for the upcoming **ANTHRAX** album, *Volume 8 - The Threat Is Real*: "Crush," "Catharsis," "Inside Out," "Piss N

Vinegar," "604," "Toast To The Extras," "Born Again Idiot," "Killing Box," "Harm's Way," "Hog Tied," "Big Fat," "cupajoe," "Alpha Male," and "Stealing From A Thief." This is the best the band's sounded in a while, so get psyched.

* **APOCALYPTICA** will be releasing a follow-up to their debut, *Apocalyptica Plays Metallica By Four Cellos!* The new album from the classically-trained cello quartet will contain three original songs by the band, a few more **METALLICA** covers ("For Whom The Bell Tolls," "Nothing Else Matters"), and other covers by **SEPULTURA** ("Refuse/Resist" and "Inquisition Symphony"), **PANTERA** ("Domination") and **FAITH NO MORE** ("From Out Of Nowhere)."

* Contrary to what we reported last week, **UFO** has *not* broken up. **Michael Schenker** did walk off stage in Japan, but he'll be doing the G3 tour in Europe until June. The band's sitting tight while tour plans are formulated for later this summer.

* One of the multimedia extras on the forthcoming **PRIMUS EP**, *Rhinoplasty*, will be the band's cover of the **CHARLIE DANIELS BAND** classic, "The Devil Went Down To Georgia." The claymation video was recorded under the name of **Festus Clamrod and the El Sobrante Twangers** and features members of **MIRV** and the **San Francisco Philharmonic**.

* Nuclear Blast has signed a new band, **SYNERGY**. The band consists of members of **DIMMU BORGIR**, **IN FLAMES** and **MERCYFUL FATE**. In other Dimmu Borgir news, the band's next release, *Godless Savage Garden*, will be released later this year. The record was originally going to be an EP, but the band added some tunes to it to make it full-length.

* One of Us got to witness the insanity and intensity that is **RAMMSTEIN** last week in New York. Remember when concerts were fun? The German band hasn't forgotten. A capacity crowd saw the band take to the stage in flames, and the pyrotechnics and onstage hijinx didn't let up until the show was over. The music stood on its own, but as soon as the show started to settle down, the band did something else to reinvigorate the audience. Be it "pissing" on the crowd with a prosthetic penis, crowd-surfing around the Roxy in a rubber raft, or the aforementioned fire and explosions, the band's show was a high-energy event that's got to be seen to be believed.

* **COURSE OF EMPIRE** cleaned up at the *Dallas Observer Music Awards*. The Dallas band took home three awards, as voted by the paper's readers: Best Rock Band, Best Single Release and Best Industrial Dance.

* The new guard is in place at **WSOU/South Orange!** **Robby Barra** and **A.J. Teserio** have relinquished their positions as PD and MD, respectively. **Jen Kajzer** is the station's new PD and **Anthony Delia** is the MD. If you've followed 'SOU for the last year, you probably already know who these fine people are.

* **Sloth** is graduating from **WGCC/Batavia**. Look for him to pop-up somewhere in the industry in the near future. Taking his position as Metal Director at the station is **Matt**, who will start reporting on the 26th.

* **WWVU/Morgantown Metal Director Robb Helmkamp** will be freezing his playlist for the next two weeks.

* Over at Music Choice, PD **Jim Kressler** has exited to work at CD Radio.

SKATEBOARD MARKETING LTD. (516-328-1103):

e-mail:skatebmk@aol.com http://www.Skateboard-Marketing.com
Monster Magnet's single is in your face. Add "Space Lord" this week cuz it's awesome. The full album has lots of heavy tracks to pick from. **Kilgore** will be #1, give this band way heavy spins. We have the band around for phoners until Ozz-Fest. **Motorhead** is headlining the second stage. **Lemmy** and the crew will be around for interviews before some of the shows. You need to check out **Nihil**, **Clay People** and **Rorschach Test**. Three bands that kick mo fuggin' ass so all 3 should be in your top 10. **Genitorturers** start their tour on June 25. **Gen** is doing press and radio until then. **Los Gusanos** is an awesome band. Some stations still have not checked it out. Can anybody spell clue, it's **C.J. Ramone's** band. **Bad Religion** is on The Warped Tour this summer and we should have some tickets. **Venom** is as Classic Metal as it comes. Let your listeners be the judge of that. **Savatage** starts their North American tour on June 4. **One Minute Silence** giveaways are in on the 27th. For all stations

doing record release parties, call us this week. Keep your eyes on the mail for **Hellshock**. Till next week, c'ya.

SEAN MC KNIGHT

NUCLEAR BLAST AMERICA (717-244-0808):

Ironic incident of the week: A woman was driving through a wooded area in N.Y. when she stopped to rescue a cat that was being attacked by several dogs. She scared the dogs off by honking her horn and slamming the door. After the dogs left, she thought the cat had run off into the woods, she started driving off and accidentally ran over the cat! She took this as a sign of nature telling her to mind her own business...As far as our business goes, add dates for **Hammerfall**, **Narnia** and **Children Of Bodom** are 5/25 and 5/26. The new **Hammerfall** disk is a maxi-single for *Glory To The Brave*, with that song, an edit of that song, as well as a new studio track and a live version of "I Believe," from *Glory*...full-length. Be sure to add this and give the new Kings of Metal plenty of support! The full-length of *Glory To The Brave* will be available soon for those of you who didn't get it. Keep up the major spins for the mighty **Covenant** and **Hollow**!! Great reactions to both bands. These disks WILL generate phones! Coming: **Benediction**, **Am I Blood**, and **Therion**!

MIKE LYONS

LEE ARNOLD MARKETING (414-351-9088):

Line of the week: "Every Girl Band Deserves Funding!" — music teacher **Ani DiFranco** to student **Peggy Hill** on "Hank Hill." Speaking of FOX, expect that studio to run a 2-minute trailer of the *Star Wars* prequel in front of *The X-Files* movie opening this month. *USA Today* says it's expected to add 40% to *X's* opening weekend box office. Fox owns both features. The *Star Wars* preq will be next summer's *Godzilla*. This week's *Godzilla* was **Patty Griffin's** "One Big Love," added at 42 PAR stations. The CD, *Flaming Red*, will be out June 23. Will be huge. **Dave Matthews** sinks the *Titanic* and more stations hit "Stay," but this artist is still vastly underplayed. Stop thinking about it. Music that's well arranged and dynamic takes longer to test, and for **DMB** this has always been the case. Two sleepers keep building...**Connells** "Crown" picked up 8 more stations this week and programmers like the chorus hook...**From Good Homes** came out of nowhere to rack up 11 stations again this week. "Kick It On" is the track. Coming up: **Sonia Dada's** "You Don't Love Me Anymore" is just on your desk and going for adds May 26, but **WMMM**, **KFXJ**, **WEBX** and **KSUT** put it on immediately. Listen and find out why. Finally, best wishes to **Jerry Gerard**, who did such a great job representing the best instincts of the PAR format during the last five years at **WRRX** in Gainesville. Woof..

STUFF YOU SHOULD KNOW *continued...*

* Here's some info about the songs that are on the new **KoRn** album, *Follow The Leader*.

"Neocide" - a song about Jon seeing a one year old girl in the coroner's office where he worked that died due to sexual abuse.

"My Gift To You" - some fantasy about Jon doing his girlfriend, then killing her. This stuff turns him on.

"All in the Family" - features **Fred** from **LIMP BIZKIT**.

"Earache My Eye" - a cover of the **Cheech and Chong** tune that will feature **Cheech Marin** on guest vocals, with **Jon** playing drums, **David** playing bass, and **Head** and **Munky** on guitars.

"BBK (Big Black Kock)" - a comedy song in the same vein as "Kunt."

"Come On" - similar in style (musically) to "Faget."

"Justin" - named after a terminally-ill 16-yr.-old boy with colon cancer whose wish to meet KoRn was made possible by the Make-A-Wish Foundation.

"My Gift For You" - similar in style (lyrically) to "Daddy" and "Kill You"

Untitled #1 - about how Jon's friends treat him differently now that he's famous

Untitled #2 - ??

* **KYUSS** fans of the world unite! **John Garcia** has teamed up with **KARMA TO BURN** as **EL NINO BROWN**.

* Another **MARILYN MANSON** fan has been arrested for wearing a band T-shirt. A Benton, Kentucky fan, **Venus Starlet Dust Morgan** was fined \$250 for wearing a shirt that said "I am the god of the fuck" at an outdoor festival. A case against a Texas teen that wore the same shirt was dismissed earlier.

* Here's the track listing for the upcoming **ANTHRAX** album, *Volume 8 - The Threat Is Real*: "Crush," "Catharsis," "Inside Out," "Piss N

Vinegar," "604," "Toast To The Extras," "Born Again Idiot," "Killing Box," "Harm's Way," "Hog Tied," "Big Fat," "cupajoe," "Alpha Male," and "Stealing From A Thief." This is the best the band's sounded in a while, so get psyched.

* **APOCALYPTICA** will be releasing a follow-up to their debut, *Apocalyptica Plays Metallica By Four Cellos!* The new album from the classically-trained cello quartet will contain three original songs by the band, a few more **METALLICA** covers ("For Whom The Bell Tolls," "Nothing Else Matters"), and other covers by **SEPULTURA** ("Refuse/Resist" and "Inquisition Symphony"), **PANTERA** ("Domination") and **FAITH NO MORE** ("From Out Of Nowhere)."

* Contrary to what we reported last week, **UFO** has *not* broken up. **Michael Schenker** did walk off stage in Japan, but he'll be doing the G3 tour in Europe until June. The band's sitting tight while tour plans are formulated for later this summer.

* One of the multimedia extras on the forthcoming **PRIMUS EP**, *Rhinoplasty*, will be the band's cover of the **CHARLIE DANIELS BAND** classic, "The Devil Went Down To Georgia." The claymation video was recorded under the name of **Festus Clamrod** and the **El Sobrante Twangers** and features members of **MIRV** and the **San Francisco Philharmonic**.

* Nuclear Blast has signed a new band, **SYNERGY**. The band consists of members of **DIMMU BORGIR**, **IN FLAMES** and **MERCYFUL FATE**. In other Dimmu Borgir news, the band's next release, *Godless Savage Garden*, will be released later this year. The record was originally going to be an EP, but the band added some tunes to it to make it full-length.

* One of Us got to witness the insanity and intensity that is **RAMMSTEIN** last week in New York. Remember when concerts were fun? The German band hasn't forgotten. A capacity crowd saw the band take to the stage in flames, and the pyrotechnics and onstage hijinx didn't let up until the show was over. The music stood on its own, but as soon as the show started to settle down, the band did something else to reinvigorate the audience. Be it "pissing" on the crowd with a prosthetic penis, crowd-surfing around the Roxy in a rubber raft, or the aforementioned fire and explosions, the band's show was a high-energy event that's got to be seen to be believed.

* **COURSE OF EMPIRE** cleaned up at the *Dallas Observer Music Awards*. The Dallas band took home three awards, as voted by the paper's readers: Best Rock Band, Best Single Release and Best Industrial Dance.

* The new guard is in place at **WSOU/South Orange!** **Robby Barra** and **A.J. Teserio** have relinquished their positions as PD and MD, respectively. **Jen Kajzer** is the station's new PD and **Anthony Delia** is the MD. If you've followed 'SOU for the last year, you probably already know who these fine people are.

* **Sloth** is graduating from **WGCC/Batavia**. Look for him to pop-up somewhere in the industry in the near future. Taking his position as Metal Director at the station is **Matt**, who will start reporting on the 26th.

* **WWVU/Morgantown Metal Director Robb Helmkamp** will be freezing his playlist for the next two weeks.

* Over at Music Choice, PD **Jim Kressler** has exited to work at CD Radio.

Monster Magnet's single is in your face. Add "Space Lord" this week cuz it's awesome. The full album has lots of heavy tracks to pick from. **Kilgore** will be #1, give this band way heavy spins. We have the band around for phoners until **Ozz-Fest**. **Motorhead** is headlining the second stage. **Lemmy** and the crew will be around for interviews before some of the shows. You need to check out **Nihil**, **Clay People** and **Rorschach Test**. Three bands that kick mo fuggin' ass so all 3 should be in your top 10. **Genitorturers** start their tour on June 25. **Gen** is doing press and radio until then. **Los Gusanos** is an awesome band. Some stations still have not checked it out. Can anybody spell clue, it's **C.J. Ramone's** band. **Bad Religion** is on The Warped Tour this summer and we should have some tickets. **Venom** is as Classic Metal as it comes. Let your listeners be the judge of that. **Savatage** starts their North American tour on June 4. **One Minute Silence** giveaways are in on the 27th. For all stations

Line of the week: "Every Girl Band Deserves Funding!" — music teacher **Ani DiFranco** to student **Peggy Hill** on "Hank Hill." Speaking of FOX, expect that studio to run a 2-minute trailer of the *Star Wars* prequel in front of *The X-Files* movie opening this month. *USA Today* says it's expected to add 40% to *X's* opening weekend box office. Fox owns both features. The *Star Wars* preq will be next summer's *Godzilla*. This week's *Godzilla* was **Patty Griffin's** "One Big Love," added at 42 PAR stations. The CD, *Flaming Red*, will be out June 23. Will be huge. **Dave Matthews** sinks the *Titanic* and more stations hit "Stay," but this artist is still vastly underplayed. Stop thinking about it. Music that's well arranged and dynamic takes longer to test, and for **DMB** this has always been the case. Two sleepers keep building...**Connells'** "Crown" picked up 8 more stations this week and programmers like the chorus hook...**From Good Homes** came out of nowhere to rack up 11 stations again this week. "Kick It On" is the track. Coming up: **Sonia Dada's** "You Don't Love Me Anymore" is just on your desk and going for adds May 26, but **WMMM**, **KFXJ**, **WEBX** and **KSUT** put it on immediately. Listen and find out why. Finally, best wishes to **Jerry Gerard**, who did such a great job representing the best instincts of the PAR format during the last five years at **WRRX** in Gainesville. LEE ARNOLD MARKETING (414-351-9088):

Line of the week: "Every Girl Band Deserves Funding!" — music teacher **Ani DiFranco** to student **Peggy Hill** on "Hank Hill." Speaking of FOX expect that studio to run a 2-minute trailer of the *Star Wars* prequel in front of *The X-Files* movie opening this month. *USA Today* says it's expected to add 40% to X's opening weekend box office. Fox owns both features. The *Star Wars* preq will be next summer's *Godzilla*. This week's *Godzilla* was **Patty Griffin's** "One Big Love," added at 42 PAR stations. The CD, *Flaming Red*, will be out June 23. Will be huge. **Dave Matthews** sinks the *Titanic* and more stations hit "Stay," but this artist is still vastly underplayed. Stop thinking about it. Music that's well arranged and dynamic takes longer to test, and for **DMB** this has always been the case. Two sleepers keep building...**Connells'** "Crown" picked up 8 more stations this week and programmers like the chorus hook...**From Good Homes** came out of nowhere to rack up 11 stations again this week. "Kick It On" is the track. Coming up: **Sonia Dada's** "You Don't Love Me Anymore" is just on your desk and going for adds May 26, but **WMMM**, **KFXJ**, **WEBX** and **KSUT** put it on immediately. Listen and find out why. Finally, best wishes to **Jerry Gerard**, who did such a great job representing the best instincts of the PAR format during the last five years at **WRRX** in Gainesville. Woof..

STUFF YOU SHOULD KNOW *continued...*

* Here's some info about the songs that are on the new **KoRn** album, *Follow The Leader*.
 "Neocide" - a song about Jon seeing a one year old girl in the coroner's office where he worked that died due to sexual abuse.
 "My Gift To You" - some fantasy about Jon doing his girlfriend, then killing her. This stuff turns him on.
 "All in the Family" - features **Fred** from **LIMP BIZKIT**.
 "Earache My Eye" - a cover of the **Cheech and Chong** tune that will feature **Cheech Marin** on guest vocals, with **Jon** playing drums, **David** playing bass, and **Head and Munky** on guitars.
 "BBK (Big Black Kock)" - a comedy song in the same vein as "Kunt."
 "Come On" - similar in style (musically) to "Faget."
 "Justin" - named after a terminally-ill 16-yr-old boy with colon cancer whose wish to meet KoRn was made possible by the Make-A-Wish Foundation.
 "My Gift For You" - similar in style (lyrically) to "Daddy" and "Kill You"
 Untitled #1 - about how Jon's friends treat him differently now that he's famous
 Untitled #2 - ??

* **KYUSS** fans of the world unite! **John Garcia** has teamed up with **KARMA TO BURN** as **EL NINO BROWN**.

* Another **MARILYN MANSON** fan has been arrested for wearing a band T-shirt. A Benton, Kentucky fan, **Venus Starlet Dust Morgan** was fined \$250 for wearing a shirt that said "I am the god of the fuck" at an outdoor festival. A case against a Texas teen that wore the same shirt was dismissed earlier.

* Here's the track listing for the upcoming **ANTHRAX** album, *Volume 8 - The Threat Is Real*: "Crush," "Catharsis," "Inside Out," "Piss N

Vinegar," "604," "Toast To The Extras," "Born Again Idiot," "Killing Box," "Harm's Way," "Hog Tied," "Big Fat," "cupajoe," "Alpha Male," and "Stealing From A Thief." This is the best the band's sounded in a while, so get psyched.

* **APOCALYPTICA** will be releasing a follow-up to their debut, *Apocalyptica Plays Metallica By Four Cellos!* The new album from the classically-trained cello quartet will contain three original songs by the band, a few more **METALLICA** covers ("For Whom The Bell Tolls," "Nothing Else Matters"), and other covers by **SEPULTURA** ("Refuse/Resist" and "Inquisition Symphony"), **PANTERA** ("Domination") and **FAITH NO MORE** ("From Out Of Nowhere)."

* Contrary to what we reported last week, **UFO** has *not* broken up. **Michael Schenker** did walk off stage in Japan, but he'll be doing the G3 tour in Europe until June. The band's sitting tight while tour plans are formulated for later this summer.

* One of the multimedia extras on the forthcoming **PRIMUS** EP, *Rhinoplasty*, will be the band's cover of the **CHARLIE DANIELS BAND** classic, "The Devil Went Down To Georgia." The claymation video was recorded under the name of **Festus Clamrod and the El Sobrante Twangers** and features members of **MIRV** and the **San Francisco Philharmonic**.

* Nuclear Blast has signed a new band, **SYNERGY**. The band consists of members of **DIMMU BORGIR**, **IN FLAMES** and **MERCYFUL FATE**. In other Dimmu Borgir news, the band's next release, *Godless Savage Garden*, will be released later this year. The record was originally going to be an EP, but the band added some tunes to it to make it full-length.

* One of Us got to witness the insanity and intensity that is **RAMMSTEIN** last week in New York. Remember when concerts were fun? The German band hasn't forgotten. A capacity crowd saw the band take to the stage in flames, and the pyrotechnics and onstage hijinx didn't let up until the show was over. The music stood on its own, but as soon as the show started to settle down, the band did something else to re-energize the audience. Be it "pissing" on the crowd with a prosthetic penis, crowd-surfing around the Roxy in a rubber raft, or the aforementioned fire and explosions, the band's show was a high-energy event that's got to be seen to be believed.

* **COURSE OF EMPIRE** cleaned up at the *Dallas Observer* Music Awards. The Dallas band took home three awards, as voted by the paper's readers: Best Rock Band, Best Single Release and Best Industrial Dance.

* The new guard is in place at **WSOU/South Orange!** **Robby Barra** and **A.J. Teserio** have relinquished their positions as PD and MD, respectively. **Jen Kajzer** is the station's new PD and **Anthony Delia** is the MD. If you've followed 'SOU for the last year, you probably already know who these fine people are.

* **Sloth** is graduating from **WGCC/Batavia**. Look for him to pop-up somewhere in the industry in the near future. Taking his position as Metal Director at the station is **Matt**, who will start reporting on the 26th.

* **WWVU/Morgantown Metal Director Robb Helmkamp** will be freezing his playlist for the next two weeks.

* Over at Music Choice, PD **Jim Kressler** has exited to work at CD Radio.

WAMX, HUNTINGTON, WV PD/MD-DEBBIE WYLDE:

HOWDY!!! WAMX had another "first" this week. We received our very first platinum record for Creed's "My Own Prison." Thanks so much to the gang at Wind-Up Records, and to T.J. Bryan for a wonderful night out on the town! (T.J., don't forget about "Remote Control" and "Tommy Boy" or it's over.) Creed's "Torn" is now seven weeks strong as the "Screamer Of The Week." Another thanks to Tim, from Reprise, for my first Japanese dinner, which was awesome! Talk about some kick-ass live music in Huntington. At the Drop Shop: Clutch (May 15), Luxx (June 5), and Jerry Cantrell (June 17)!!! WAMX is totally excited about Jerry doin' a little warm-up gig before he opens up for Metallica this summer. Also, at the Stoned Monkey, WAMX is looking forward to Southern Culture On The Skids (June 3). I had never really heard their "Camel Walk" before. Now, it's my theme song with the "Little Debbie" at the end. WAMX continues to "Rock Around The World." We're giving away our first trip this week for the Pearl Jam kick-off in Missoula, Montana. Next up: Metallica in West Palm Beach, Florida. We rock! As I've mentioned before, WAMX will be holding X-Fest on September 26th. Last year, Jimmie's Chicken Shack, The Hazies, Days Of The New, Vibrolush, and more rocked the tri-state. LET'S START PLANNING AHEAD!!! Kicking-ass on the phones: Creed, Semisonic, Marcy Playground's "Sex And Candy," and Jerry Cantrell's "Cut You In." Also, scaring listeners into making it a top five request, Rammstein's "Du Hast." HELLO! Please remember: Music calls will ONLY be taken on Thursdays after 2pm Eastern. Thanks!

WEZX, SCRANTON/WILKES BARRE MD-PAUL KELLY:

KRZZ, WICHITA PD-LESTER ST. JAMES:

Opening weekend of the Wichita River Festival is in the BOOKS!! In the parade Friday night we drove all of our "His & Her" Fantasy Garage items! The Sonoma Sport truck, His & Her Kawasaki 4 wheelers, and Trek mountain bikes, and, I took the responsibility of riding the Harley (yeah, it's rough being the boss!)...The kids' hockey tournament was a huge success!! Forty-nine games in less than 48 hours, and I was on the ice for 11 of those games! If you need practice getting thick skin, try refereeing! Parents and coaches bitch and call you names without even knowing the rules!...This week it's the "Block Party" on Wednesday night, Thursday is the Seinfeld-watching party, Friday is the KRZZ Classic Rock concert with Rick Derringer & Head East, Saturday is the Tug Of War & fireworks, and we wrap the Riverfest with our Blues concert on Sunday with Bobby Rush and Tommy Castro!...The 12th Annual Bill Rusch Memorial is fast approaching!! The date is Thursday, June 4th at Willowbend Golf Club; time = noon (tee off @ 1), Hotel = Marriott. (Call 1-800-350-2950, ask for Ron, and the Bill Rusch Memorial discount rate.)...Other mindless Lester ramblings:

Don't forget CONCLAVE 23 is July 16-19 in downtown Minneapolis. The Marriott is sold-out and we anticipate one of the largest turn-outs in our attendance history, so what are you and your label going to do to get noticed?? Need help?? Call Conclave headquarters — 612-927-4487. This year's sessions will be HOT! As will the Conclave College on Thursday afternoon! Peace, love and sleep sometime soon!!

KZZK, QUINCY, IL APD/MD-PAUL ERICSON:

We are looking forward to adding the new Jerry Cantrell track but "Cut You In" is still working very well!! The Wallflowers is also getting calls. Finally, what a killer new track from Deep Purple. Steve Morse has been the final piece to the continued growth of the legend of Purple into the '90's!!!

WKZQ, MYRTLE BEACH PD-ERIC HALL/MD-SUMMER JAMES:

Well, the Mermaid from Myrtle Beach made it through the Green Day Tour. Thanks to Dave Dirkowski (Reprise). We took Green Day to see Alligator Adventure. I hate to ruin their rep, but they didn't do anything but turn our listeners on. Thanks guys. Now, that's not to say they didn't torture other stations. Ha! Ha! (For some reason, I have the mark of a red M&M on me, Tre.) Thanks to Fred McFarland, of Ignition Records. (College Night was wild, huh? Stay out of the DJ booths, we have pics...Max & Jeff, of The Hunger, stopped by for a very tangy interview. (Leave the desk clerks alone guys.)...Great show at the House Of Blues, and Kristina and the boys of Luxx rocked the house that night, too. If you haven't seen 'em, catch 'em. Ooooooh, Brian Cullinan (Columbia) slipped in the new Aerosmith. (Of course, it rules.) Can't wait. Me first...RuPaul even came for Pridefest '98. Jay Lewis, of A&M fame, cruised into town but he forgot his Harley...Jayyyy!!! You can't come to MB this week w/o one. It's Bike Week '98, for heaven's sake. Over 20,000 bikers (no exaggeration.) Mainly Harleys rule the streets of the Beach this entire week and we love it! Never checked it out??? Come next year, you'll be in for a treat!! VVVVRRRRROOOO-MM-MM, my Harley awaits...Live and on the streets it's "The Queen, Voice Of The World."

KTOZ, SPRINGFIELD, MO PD-MELODY LEE:

The Edge wrapped up our Edge Adventures last week with a lucky listener scoring a trip to the HFS-tival in D.C. Mercury's Michael Idlis and Cherise Gambino get snaps for helping us set up this trip. We managed to set up a tour of the F.B.I. for our winner, and since his dream is to be an F.B.I. agent, he was pretty psyched...It was another crazy week with two awesome shows on Wednesday night. HUGE thanks go to 550's Happy Cloutier for bringing Fuel by the studios for an acoustic performance during my show. The guys were great, and we realized we have a mutual friend in my Knack alumni, Mike Peer, whom the guys could not say enough good things about. Go figure! Fuel were in town for the opening slot on the Hum bill, and Amy Kaplan, from RCA, was kind enough to bring Matt, from Hum, by the station for a chat. Matt was awesome, and for a super-cool-has-an-incredibly-well-respected-and-much-admired-band guy, he was downright friendly. Must be that midwest upbringing! Mark Potter, from Epic, was traveling with Happy, and decided to come by and tease us with the Godzilla soundtrack and movie trailer. We're all set to go with a screening on the flick over Memorial weekend, and kudos go to Mark for that

awesome promotion...Wednesday night also brought us **God Lives Underwater** at the Juke Joint, and I want to send a GIANT shout out to the band's manager for having the foresight to call me and set up an interview. All went well, and you rock, man, for helping us support your band!...We had all kinds of chaos happen on Thursday night when TVT's **Holly McCormack** dropped in for a visit. Her flight was late, and since she didn't have a cell phone (Hello? TVT?) she couldn't call us to tell us when and if she was arriving. Shelli and I were wondering if we mistakenly scheduled her, and decided to take Wind-Up's **Alan Galbraith** up on his offer for dinner that night since he was in town to visit our sister station, KXUS. While we were at dinner, we got a call from **Simon Nights**, my programming assistant, who informed me of **Holly's** arrival at the station, and directed her to dinner. (Whew!) After we were thrown out of the restaurant, we decided to continue the party at the High Life, our favorite lounge, where Alan and I entered round 2 of our

"out-drink the Irish guy" competition. He won...this time. Alan rocks, because he brought us our Creed platinum plaques, and our names were even spelled right!...It was a win-it-before-you-can-buy-it weekend with the new **Garbage** album this weekend. Hugs to **Chell**, at Almo, and on a personal note, the new album is AWESOME! We ran the **Garbage** special as well, so it was an all-around trashy weekend on The Edge...Happy birthday to **Shelli Scot**, my APD/MD, who turned...well, she had a birthday on Friday May 8th. If you didn't send her a present, DO IT! She spends hours of her precious time on the phone with you, it's the LEAST you can do! Oh, and my birthday is May 23rd, in case you were wondering...Top five phones this week go to: 1) **The Urge**, 2) **Cherry Popping Daddies**, 3) **Fuel** (think the show had anything to do with this one?), 4) **Goo Goo Dolls**, and 5) **Marcy Playground** ("St. Joe," not "Sex...")! Until I beat you up next week...

Please take the time to listen to this. If you give this a chance, it will perform for you. The *Clumsy* album has already sold 700,000 units and there is huge potential in this song...**Soul Asylum** seems to really have legs. The album is just in-store as the band hits the road. The early research is very solid and getting better...**Jerry Cantrell's** "My Song" is forcing its way on the radio. "Cut You In" is still performing very solidly but PDs seem to be so excited about "My Song" that they are making room for a second **Cantrell** cut...**Clutch** is quickly going on the most prestigious hard-edged stations in the nation. Last week, **WAAF**, **KXXR**, **WKLQ**, and **KILO** came on and **WMFS** and **KTUX** were among the new adds this week. SEAN MC KNIGHT

NUCLEAR BLAST AMERICA (717-244-0808):

Ironic incident of the week: A woman was driving through a wooded area in N.Y. when she stopped to rescue a cat that was being attacked by several dogs. She scared the dogs off by honking her horn and slamming the door. After the dogs left, she thought the cat had run off into the woods, she started driving off and accidentally ran over the cat! She took this as a sign of nature telling her to mind her own business...As far as our business goes, add dates for **Hammerfall**, **Narnia** and **Children Of Bodom** are 5/25 and 5/26. The new **Hammerfall** disk is a maxi-single for *Glory To The Brave*, with that song, an edit of that song, as well as a new studio track and a live version of "I Believe," from *Glory*...full-length. Be sure to add this and give the new Kings of Metal plenty of support! The full-length of *Glory To The Brave* will be available soon for those of you who didn't get it. Keep up the major spins for the mighty **Covenant** and **Hollow**!! Great reactions to both bands. These disks WILL generate phones! Coming: **Benediction**, **Am I Blood**, and **Therion**!

MIKE LYONS

LEE ARNOLD MARKETING (414-351-9088):

Line of the week: "Every Girl Band Deserves Funding!" — music teacher **Ani DiFranco** to student **Peggy Hill** on "Hank Hill." Speaking of FOX, expect that studio to run a 2-minute trailer of the *Star Wars* prequel in front of *The X-Files* movie opening this month. *USA Today* says it's expected to add 40% to X's opening weekend box office. Fox owns both features. The *Star Wars* preq will be next summer's *Godzilla*. This week's *Godzilla* was **Patty Griffin's** "One Big Love," added at 42 PAR stations. The CD, *Flaming Red*, will be out June 23. Will be huge. **Dave Matthews** sinks the *Titanic* and more stations hit "Stay," but this artist is still vastly underplayed. Stop thinking about it. Music that's well arranged and dynamic takes longer to test, and for **DMB** this has always been the case. Two sleepers keep building...**Connells'** "Crown" picked up 8 more stations this week and programmers like the chorus hook...**From Good Homes** came out of nowhere to rack up 11 stations again this week. "Kick It On" is the track. Coming up: **Sonia Dada's** "You Don't Love Me Anymore" is just on your desk and going for adds May 26, but **WMMM**, **KFXJ**, **WEBX** and **KSUT** put it on immediately. Listen and find out why. Finally, best wishes to **Jerry Gerard**, who did such a great job representing the best instincts of the PAR format during the last five years at **WRRX** in Gainesville. Woof...

Modern picks

Bernard Butler, "Stay," (Creation/Columbia/CRG)

Just 27 years-old, Bernard Butler has five years of Top 10 hits under his belt as the lead guitarist in the band Suede (a band he left in 1994), then as a key part of McAlmont And Butler (spawning the 1995 hit "Yes"). Now stepping up to the mic and doing things completely on his own (he produces, and plays all the instruments; minus drums and violins), Butler unveils his true genius. "Stay" is the first single from his first captivating solo offering, *People Move On*.

Ani DiFranco, "As Is," (Righteous Babe)

Her tenth album, *Little Plastic Castle*, has been critically praised and gleefully embraced by fans all over North America. Her place in the mainstream spotlight is long overdue. "As Is" is a tender, self-descriptive track that warrants your immediate attention. Her story-telling wizardry and expert musical delivery is something that your listeners are sure to embrace as well, so play the record. Ani's an artist with tons of cred and endless talent. On at WRAX, WEDG, WWCD, XHRM, and WEDG.

Filter, "One" (Elektra/EEG)

Filter has had great success with movie soundtracks. Their monster hit "Hey Man, Nice Shot" was first heard on the *Demon Knight* soundtrack and "Trip Like I Do" was the centerpiece of *Spawn*. Now comes "One," taken from the soundtrack to the highly anticipated *X-Files* movie. The truth is out there, and so is Filter's cover of the Three Dog Night hit. It's nearly unrecognizable from the original, and showcase Filter's inescapable talent for creating edgy, yet thoroughly appealing sounds that connect with the listener. On at KXTE, KKND, WHTG, WDST, and WKRO.

Gloritone, "Halfway," (RCA)

Hailing from the Tempe/Phoenix area, expect great things from this trio. We've had the pleasure of getting a sneak peek at their debut album, *Cup Runneth Over*, and it certainly lives up to its namesake, offering up a healthy serving of infectious, radio-friendly guitar-driven Pop/Rock. This first single is an excellent introduction to a band with quite a future in the Modern Rock format. Chock full of melody and aggressive guitars, and led by the sugary vocals of singer/guitarist Tim Anthonise, Gloritone delivers on all counts. Produced by Bradley Cook, whose engineering credits include work with the Foo Fighters, Counting Crows and Fu Manchu. On at KEDJ (23 spins).

Grant Lee Buffalo, "Truly, Truly," (Slash/Warner Bros.)

The excitement surrounding this track is more than encouraging. Grant Lee Buffalo has always been a favorite among industry-types and those very much in tune with the music scene. With their latest release, *Jubilee*, Grant Lee Buffalo readies themselves for an eruption into the mainstream with this truly compelling record. Basically, it is their time. Their music is not compromised with cookie-cutter stylings, but developed and refined, combining smart arrangements and engaging hooks. Don't wait for a story on this one, play it and watch the story build on your station. New at WDOX, XHRM, WHTG, and 99X.

Gravity Kills, "Falling," (TVT)

From seemingly out of nowhere (well, St. Louis to be exact), Gravity Kills emerged in 1996 with their Techno-based brand of loud Rock, and before the year was through, the band made a name for themselves at both Rock and Modern radio with tracks like "Guilty" and "Down." The first release from their forthcoming *Perversion* CD, "Falling" is a little less guitar-heavy than what your audience might be used to from the band, but still packs the same two-fisted punch that made the aforementioned tracks smashes the last time out.

Home Grown, "Surler Girl," (Outpost)

This could be the start of something very big. This band can't be described as simply a Punk band, or a Ska hybrid, they actually bring to mind the feeling we got when we first heard Sublime. It was something you can't quite put your finger on, put undeniably cool. Forced to describe their sound, we'd tend to lean towards Hardcore Reggae with definite Pop appeal. The bottom line is that your audience will eat this up. Put this on now, the potential for this to be a huge summer song is very real. New at KTBZ.

The Hunger, "Free," (Universal/UMG)

"Free," the new single from The Hunger's latest, finds the band staying on the successful trek that took them to chart-topping success in 1996 with the track "Vanishing Cream." Titled *Cinematic Superthug*, and produced by Beau Hill, the band's sophomore album boasts industrial/electronic overtones while remaining true to the gritty riffs that put them on the map. "Free" was written by vocalist/keyboardist Jeff Wilson for his younger brother who was murdered six years ago.

Jesus & Mary Chain, "I Love Rock & Roll," (Sub Pop)

Get ready to welcome this band back with open arms. The first single from *Munki* (in stores June 9) is everything you hoped it would be: crunchy, melodic, anthemic, and rich in instrumentation and texture. This band first hit the scene in 1984, and has seen every trend and pretender come and go through the Alternative storm. With this new release, The Jesus & Mary Chain are ready to pounce, backed by a remarkable collection of diverse, down-right catchy songs that are much more than just ear candy. Give this record some serious attention.

Swirl, "Hey Now Now," (Mercury)

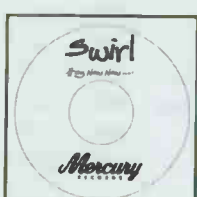

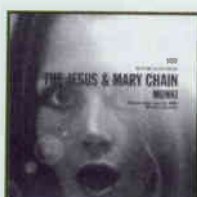

Um...., can you say "hit"? Although Mercury isn't going for adds 'til 5/25, we felt obligated to fill you in on this track early. It's without a doubt, a one-listen record that sticks in your head for hours. That's not to say that it's one-dimensional, 'cause it's not. It weaves textures and styles together effortlessly, combining elements of Rock, Pop and Techno in superb fashion. It's likely that you will receive thousands of requests for records within in the first few weeks you put it on the air. Be sure to check out the special Modern Rock Remix by KROQ's Jed The Fish.

Two, "Deep In The Ground," (Nothing/Interscope)

Wow... that was our initial reaction to this track on the first listen. This song really moves, fitting somewhere in-between a Techno/Rock record and Pop. Infectious rhythms and Rob Halford's melodic vocals will make you a believer and force you to deal with this band if you haven't already. LISTEN TO THIS RECORD!!! You'll be missing out big time if you don't. This song will sound completely at home on your station, whether you lean Pop or guitar-driven. Taken from their debut, *Voyeurs*.

Scott Welland, "Opposite Octave Reaction," (Atlantic/AG)

Described as smart, glamorous, fearless and experimental, *12 Bar Blues* is a wildly satisfying listen, as long as you approach the listen NOT expecting STP songs with different musicians. To do that would be shameful and defeats the point. After wiping aside all preconceptions of this project, what you're left with is a dazzling array of sounds and moods performed and recorded with boundless enthusiasm. "Opposite Octave Reaction" is a high-charged song with a huge hook that belongs on the Modern Rock airwaves. So play it. New at WBCN.

Making Automation Sound Live

By Pat Welsh

In the frenzy to cut costs in the wake of consolidation, stations have been installing automation systems at an unprecedented rate. In most cases now, it's a corporate dictate. But don't just blame consolidation, automation and voice tracking was a reality that many stations were already facing. *Technological advances* has become a euphemism for cost cutting.

But if you can't beat 'em, join 'em. And if you can overcome the most common complaint, "It doesn't sound as good as live," you can make technology work for you. After all, technology can be a wonderful thing once we learn how to use it, but the convenience of time saving has to mean more than merely going through the motions. I often have to wonder just how many jocks actually listen back to their own voice tracks.

But it doesn't have to be this way. And it's our job to see that the jocks do a better job of it. There's no reason that voice tracked shows can't, in most instances, sound as compelling and exciting as real-time shows.

I'm convinced that, in the not-so-distant future, we'll produce a new generation of jocks who will be able to make a voice-tracked show sound as live as ever. Ironically, it will be people who are new to the business who will pick up this skill the quickest. As an example, **Charlie Cohn**, COO of *New Wave Communications*, recently told me that some of his stations have had success hiring people with acting backgrounds, which makes sense since these are people who are always aware of the fact that they are performing.

However, in the meantime, we have to find ways to make automation sound better. Here's how to do it:

- If you haven't yet decided on the system for your station, do your homework. Talk to other stations about what's out there. There are some shockingly-bad systems that rival the old mechanical systems for "canned" sound. However, the best can make the station sound seamless. If you have any input, make it your business to know which are which.
- When installing a system, insist on having at least a week's time for training your staff before going live. Otherwise, the station will sound like a train wreck in the short run and, in the long run, some of the jocks will continue to be intimidated. Make it a pleasant experience and they'll adapt more quickly.
- Make sure the person doing the training presents it as a programming tool, not as another computer gadget. I've seen too many stations let the most knowledgeable computer person teach them how to use new equipment, and see it go right over the heads of the people they're trying to train. Lots of people are still intimidated by computers, so don't let a lot of computer jargon make the situation worse.
- After you're up and running, consider having the full-time jocks do at least one hour of their weekday shows live. Many on-air personalities are more comfortable if they can maintain that real-time feel, even on a limited basis. This helps make the voice-tracked portion of their shows sound more live. If you have a request show at lunch or a 5p.m. hour filled with traffic reports, this is the perfect time to have the jock be live.
- Require the jocks to do a certain amount of show prep. Set goals for content: one bit of music information each hour, two pieces of lifestyle content per show, etc. If the object is to make it sound more real, make sure that the jocks don't limit themselves to doing just the bare minimum. Ask a little more; after all, they have the perfect opportunity to get it right.
- Continue to aircheck your jocks on a regular basis. The sooner you break them of bad habits, the sooner you can get the sound of the station to your liking. Have them load the voice tracks onto a separate tape so that you can go through it, as you would a skimmer tape in the old days.

Assuming that stations will learn to use the technology properly and efficiently, there is another possible side benefit: stations won't need as many part timers on staff. Everyone always complains about the quality of part timers, but now, with automation, you can get by with fewer of them. You can have one person voice track several shows for the weekend; there's no longer a physical limit on how many six-hour shifts one person can do. Fewer people also means that you can raise the bar in terms of quality.

Of course, the part-timers' first reaction may be that more voice tracking may mean fewer hours. However, the smart operators will permit the PD to use competent part timers for other important tasks: doing production, making appearances or voice tracking more stations in the cluster. This also makes it easier for the PD to work with part timers. Instead of having to air check four or five part timers, now it may be only one or two.

More automation is a fact of life. But there are ways to make the best of it. If inevitable, then your goal should be to find a way to make it work better than the other guy does.

-Files... Foo Fighters hit Philly on Wednesday (5/6) and we were at Electric Factory for what turned out to be the biggest local industry event of the year so far. Capitol Alterna-wonder **Brian Corona** even re-arranged his flight plans so he could attend the festivities. After dinner with Corona and WPLY's **Jim McGuinn**, **Doug Kubinski**, and **Kelly Gross**, we headed to the Factory to once again re-affirm that the Foo Fighters put on one of the best live performances out there today. **Minnie Driver** was in attendance and spent her time dancing stage-right, while gawking at Foo's drummer **Taylor Hawkins** all night long. It seems that the pair are quite the item, just don't bring it up with the band. One last bit of advice regarding future Foo Fighters show that you might want to pass along to your listeners - tell them to leave the Mentos at home... The **Indigo Girls** made headlines recently when a Columbia, SC high school banned the duo from a show they were going to play at the school because they're lesbians. The duo ended up coming to Columbia anyway to play a free show, and **WARQ/Columbia** was fully involved. A week before the show, **Amy Ray** called the station and took phone calls from students on the air. Her message was that the Girls never intended their high school tour to have anything to do with sexuality, but since it has become an issue, she was concerned about what it meant for gay and lesbian teenagers. For the show the following week, 3,000 tickets were made available: 1,000 sold to the general public and the remaining 2,000 were reserved for students, parents and teachers. **WARQ** helped distribute some of the tickets, giving them out at local high schools... So, New York City has no cabs on the road and we are stuck in the office writing this week's column. There is no justice! Anyone who knows us, knows that tooling around NYC in a car, playing chicken with cabbies, is one of our favorite pastimes. Ask Y100's **Dan Fein**, he'll vouch for our cab weaving abilities. Anyway, to help out the citizens of NYC, **K-Rock** is offering up the **92.3 K-Rock Kabs**. "So the cabbies are on strike...big deal," PD **Steve Kingston** relayed to *fmqb*. "Our street presence in the New York tri-state area is huge. Whether on the beaches in the summer handing out sunblock and sunglasses, or in the city giving free rides during a taxi strike, the **K-Rock Street Team** is always around to give listeners what they want most!" The **92.3 K-Rock Kabs** hit the streets from 3-7p.m., offering free rides to K-Rock listeners... Details of this year's **Reading Festival** have been announced, with **Jimmy Page & Robert Plant**, **Beastie Boys**, and **Garbage** confirmed as main stage headliners. Held August 28, 29, and 30, also slated to appear on the bill are **Supergrass**, **Spiritualized**, **Foo Fighters**, **Ash**, **Roni Size Reprazent**, **Mansun**, **Deftones**, **Afghan Whigs**, **Travis**, **Gene**, **Dandy Warhols**, **Monaco**, **Rocket From The Crypt**, **Kenickie**, **60ft Dolls**, **Echo And The Bunnymen**, **Rancid**, **Girls Against Boys**, **Curve**, **Death In Vegas**, **Soul Coughing**, **Smash Mouth**, **Crystal Method**, **The Interpreters** and more. Connect the band to the label and get your fly-aways now... **KPNT/St. Louis** morning show co-host **Trish Gazall** recently lost a bet that her hometown hockey team wouldn't sweep the **L.A. Kings** in the first round of the **NHL** playoffs. Well, needless to say she lost that bet, and being a good sport about it she followed through on her end of the wager. What was the bet? **Trish** had to walk naked in downtown **St. Louis**. Naked turned out to be the name of a dog, which she proudly walked through the downtown area much to the dismay of the many guys that showed up to see her in her birthday suit. (Good one, **Trish!**)... **KTBZ/Houston** has announced that **God Lives Underwater** will be performing stop #6 on the **Buzz Lounge Tour**. The **Buzz** has been presenting exclusive intimate-setting full-scale club performances for listeners, giving away tickets on the air (the only place tickets are available). Past performances include stops by **Matchbox 20**, **Our Lady Peace**, **Seven Mary Three**, and **Tanya Donelley**... **WNFZ/Knoxville** celebrated the upcoming **Pearl Jam** concert (the only one in Tennessee) by lugging a giant vat of jam filled with **PJ** tickets and **CDs** to the **Thompson Bowling Arena** for fans waiting in line to buy tickets to the big show... **KLZR/Lawrence-K.C.** is now broadcasting in stereo on the internet!! Thirty great years of Rock 'n' Roll calls for a celebration, and that's exactly what Heritage Rocker WMMR/Philadelphia recently did. The party was held at the CoreStates Spectrum, and featured The Wallflowers and Kenny Wayne

Shepherd. In addition to the free concert, Mayor Ed Rendell proclaimed May 1, 1998 "WMMR Day" in Philadelphia. The proclamation was read on stage at the concert by the Mayor and Deputy Mayor Kevin Feeley, before a crowd of 15,000.

Backstage with The Wallflowers: (L-R, back row) Michael Ward, Rami Jaffee, and Greg Richling, (L-R, front row) Marketing and Promotions Director Ted Kelly, MD Ken Zepeto, Jakob Dylan, GM Dennis Begley, and Mario Calire, (kneeling) PD Joe Bonadonna, and Interscope's Pam Grund.

Add this date to your calendar: Deputy Mayor Kevin Feeley proclaims May 1, 1998 "WMMR DAY" in Philadelphia.

October is in re-focusing the station musically. There is no question when you listen to the station, by its music, by its on-air positioning, by any type of promotion that we do, that's it's very clearly defined. It's all designed to very clearly say that, "97.1, The Eagle, The Only Station That Really Rocks." That's what we heard from listeners, in research, that's what we're doing. They know that there's various other stations that come under the broad heading of Rock; this is the only one that really rocks. And, by that I don't just mean musical texture, but also the attitude of the station.

Tell us about the new morning show, and The Eagle's post-Stern rebound.

We had a dilemma when I arrived on what could be done with the morning show, and we had just barely started to look at various options: some syndication, importing existing morning shows, and/or trying to build our own. But, within a couple of weeks of my arrival, the sale of NCI was announced, and doors began to close as far as our ability to do long-term contracts, and so on. It became more and more evident that short-term, our most realistic option was going to be to build a show, organically, using existing people and people in the local area. We chose **Russ Martin**, who, at the time was doing noon to three. Russ had been with Eagle, on and off, over the past ten years, and also had hosted a local TV show that was on Fox affiliates in Dallas, Houston, and San Antonio, so he had a fairly well known name and image. He has a really interesting sense of humor, and is great with listeners on the phone and in person, so we thought that he would probably be our best choice, internally, to anchor a morning show. Then we began to build the show around Russ. **Brad Baxter** is the guy who had been a presence on the Howard Stern show, doing local breaks, and so on. We included him into that mix, and then began to bring other people: our phone-screener **Scott**, **Valerie DeOrr**, who does News on the show, and then a producer — a voice guy — named **Dan Lewis**, who had worked with Russ previously on the TV show.

How have they specifically responded to the Stern backlash?

The Stern backlash, from what I understand, was intense for probably two weeks to a month after the last Howard show was broadcast, and then began to diminish gradually, but consistently, and it's down to a trickle now. After we got the morning show on in November, and as we got towards the holidays, I really noticed it start to taper off significantly. And, I think a big part of that was just sending the unspoken message that, "Okay, now we have a different show on in the morning," so a lot of people just gave up asking for the old show back when they realized there was a new show on in its place.

Did the "celebrity mornings" approach that you used in-between soften the blow?

Almost all of that happened before I arrived in the market, but I think that it, hopefully, had the effect of re-focusing morning listening on music and the music image of the station, rather than the fact that a popular, syndicated talk show was no longer on.

There's a couple other new morning shows in town. How does the new

Edge morning show sound?

It would be unfair for me to comment or judge them after a week and a half, or two weeks, on the air. But, it sounds smooth, it sounds format-ically very similar to the previous show that was on, except with multiple talent now, multiple voices.

What impact have Q102's Lex & Terry had on the market? Aren't they picking up some of Howard's old audience?

Oh, definitely. When Howard Stern went off the air, people who wanted a male-targeted talk show in the morning really broke into two camps. A little over half went to an AM station called The Ticket, which is a Sports/Talk station, and a little under half went to Lex & Terry. Those are just rough percentages, that mix has bounced around a little from month-to-month, but basically, remains consistent.

Is there a lot of morning churn right now, in light of the number of stations that have changed their morning shows?

Oh, I think there's definitely a lot of button-pushing going on. We don't feel that we're anywhere near the potential we have with the existing morning show, yet. The team I described to you — even though Russ took over the morning shift in November — the team, as it now exists, has only been on the air for a month. The Edge show is brand new, and Zone also has a new morning show now.

Give us a rundown on the rest of The Eagle staff.

All of the jocks were here prior to my arrival. **Chris Ryan** is 10-3. Chris had been doing 10-noon and a lot of voice work for the station in production. When we moved Russ to morning drive, we expanded Chris' shift to 10-3. Chris has a totally warped sense of humor, and in this most recent book, I think people stopped scratching their heads and started to decide they got it; they got the joke. He had really nice, constant listening gains in middays. **Cindy Scull**, probably our best-known personality — certainly our best-looking — does 3-7. We love to get Cindy out in front of listeners, face-to-face, and they love it, too. She has developed, since my arrival, a real good rapport with the afternoon traffic guy, who goes by the name **Chaz**. And then, at night, the show is called "Renegade Radio," it's **Dangerous Darren**, who came to the station a few years ago from KNAC. It's a pretty hard-rockin' show, but Darren has a way of making it really fun and really like a three-ring circus. My whole focus with the jocks has been to take the handcuffs off them, to really remove the restraints and let 'em entertain. I felt, when I arrived, that we had an extremely talented group of DJs, but the mechanisms that were in place were really keeping them from doing what they were capable of, in terms of being entertaining between the records. I've tried to remove those restraints so that the station is more than just a music delivery service, but is an entertainment service; musically and in non-music elements.

What, if any, daily programming features can be found on The Eagle?

Everybody has their own little features. The morning show has a huge variety of features, some are daily, some are weekly, some are occasional. Russ got himself ordained as a mail-order minister. He has since performed weddings on the air and does a weekly confessions bit:

"Reverend Russ Confessions & Beach Party." We have bits like "Fun With Old Farts," where people try to embarrass their grandparents and relatives on the air. They've just started a thing called "The Eagle's Court," which is kind of a tongue-in-cheek take-off of *People's Court*, where listeners bring their disputes in and Russ and the crew act as judge and jury to try to settle the disputes for them. It actually comes off like a cross between *People's Court* and *The Jerry Springer Show* 'cause we've had a few shoving matches break out. In middays Chris, because of his production skills, has done a number of pre-produced strange character bits like Timmy The One-Legged Post Boy who brings in the mail, and they read listener mail together, and Timmy got involved dating a transvestite and some various strange things. He also has a daily feature called "The Nooner," which is kind of a variety feature. It can be anything from artist feature to blocks, to things keyed to local events like concerts, to strange things. We had "Eddies & Freddie's" one day, with Eddie Van Halen and Freddie Mercury, and Eddie Vedder, and so on; just about any bizarre, sort of loose theme or topic we can think of for "The Nooner." Really cool songs from the 'R' category; songs about guys named Bob. I mean we've had all sorts of strange things on "The Nooner," and it's always fun 'cause it's kind of unpredictable. In afternoons Cindy has had a long-running feature called "Fax Trax At Four," which started as a fax-in your four favorite songs and when you hear them played back, call in to win a prize. It's usually a party for you and your co-workers. That's been expanded to e-mail now. She does a five o'clock free-for-all, which is sort of a free form request-driven hour, and then a lot of days she does a six o'clock ticket blitz when we have good stuff to unload. And then, at night Darren has a "Mandatory Metallica" feature at eleven p.m. He has a new nine o'clock knockout kind of battle of the bands thing that's just getting started. Then he has a number of other bits that he has invented that sort of appear randomly, like stupid slogans where he names, "It's not just for breakfast anymore," or some kind of an ad slogan. People guess the product. He has "One Arm Or Two," which is a Def Leppard feature. He has a number of others like that, and they're just fun ways to do simple giveaways.

What type of marketing do you do for The Eagle?

Right now, we're on TV. I'm not aware that they've done direct mail in the past. We haven't really done any in the few months I've been here. The TV has been the main thrust of it. We have a database that's been built over the years, but we've really been trying to build that with fax and e-mail to help us with at-work listening. That's underway now. There's a ton of Eagle stickers out in the market.

Do you have any annual station events?

Yeah, there's a few. There's one coming up in July called "Rock N Wheels," which I think, has been in place for five or six years now. It's a custom car show. It includes a bikini contest and is fun for people who want to see cars or show off their cars. We have a Halloween live music event called "Freakers' Ball," part combination costume party and concert. We've done holiday concerts that included charity/celebrity auction kind of things. Then, we're working on a couple of others for this summer; one that will probably happen on the Fourth of July, and another a little later in the summer. It's an outdoor-active event, I don't want to get into details because, competitively, it's new and nobody expects it, yet.

Speaking of the Rock competition there, how do you go about getting the presents or co-pro on concert events coming to town?

We start out by demanding and then move down to begging, if necessary. Seriously though, I usually try to take a businesslike, calm, logical approach. If I feel that there is a given show that we deserve exclusivity, or can do our best job with if it's done exclusively, I will suggest and request that. If I honestly feel that we can't do it justice and that it would be better off for the show itself and the station overall if the load were shared between various stations, then I may actually approach it from that angle. I don't just ask for everything, whether I can do a good job or not, and I've never understood why people do because it really sets the station up for failure.

You were there at The Eagle back in the early '80s, describe the difference between Dallas now and then.

Well, it seems like there's about thirty times more cars on the roads, and the roads are the same size. The Eagle that I worked at was in a different building, in a different format, with different people, and it actually only adopted the name 'Eagle' during my brief stay as the morning jock, so it was nowhere near the kind of legendary station that it later became. The marketplace, it seems a lot more polished to me now. It seems more like a major market. Maybe I was naive first time around. It was my first major market job and I came in with a cocky attitude and thinking, "Well, this doesn't sound so big and impressive to me." Coming back years later as a PD, knowing what the competitive challenge was going to be, I'm a lot more respectful of the level of competition that exists in this size market.

A big topic of conversation in the industry has been Pay-For-Play. What is your view on that?

I think the best way to do it has not yet been determined. There's probably various approaches that will need to be tried until we see, through experience, what the best way to present that is; both presented on-air to listeners and presented in a business setting to labels that we work with. But, I do think it's probably a logical idea in some fashion. The reason I say that is, so much money is spent by labels simply attempting to get airplay, but it's all been so indirect. It almost seems more efficient in one way or another, the money being applied directly to getting airplay rather than indirect methods like sending out five million novelty items to various stations that have some indirect tie-in with the title of the song, or the band name, hoping that the PD will like the bow tie that he got in the mail and will play the record because of it. And, from the radio industry point of view, air time has always been for sale on commercial radio. Any time that we don't sell as spot commercials still has value, and we can do the same thing in the space of three, or four, or five minutes exposing new music to people in a repetitive fashion as we do with spot advertising, and have the same type of effect as far as making them aware of the product and trying to sell it to them.

Tell us about the upward trend in numbers, you're up in just about every demo..

Just about every daypart. Afternoons didn't grow as much in this book as the other dayparts, and I think that's probably as much as anything, due to the fact that afternoons had been leading the station. That was the daypart that seemed least effected by the morning show change, which really triggered the slide of the station at the end of last year. So, it's really the rest of the station catching up to the afternoons.

Any predictions on the Dallas Cowboys for this year?

Well, you know, I guess having put myself in the position of a new PD coming in to a fairly well established team, if you will, and trying to make some changes and get them into a winning season, I would certainly hope that **Chan Gaily** has the same success coming into an established team and trying to get them on to a winning season.

Cover Story

The Eagle Has Landed

Up Close with KEGL PD Greg Stevens

by Jay Gleason

When Nationwide's **KEGL** needed to fill a four month programming vacancy, they turned to 25-year industry vet **Greg Stevens**. The former **KQRC/Kansas City PD** was no stranger to Dallas, having anchored the original Eagle morning show when it was a CHR/AOR hybrid in 1980. He also had Lone Star state programming experience at **KISS/San Antonio**. In fact, Stevens has been programming Rock all over the country for longer than he may care to remember. At one of two separate stints at San Diego's **KIOZ**, he oversaw the station's relocation to a new, more powerful frequency. He was APD at the original **98 Rock** in Tampa (**WQXM**), before helping launch the station's chief rival, the legendary **WYNF**. He briefly programmed a cutting edge version of **KQLZ/Los Angeles**, after its ballyhooed Pirate Radio identity sank.

Stevens came to The Eagle at a turbulent time. Nationwide purchased the station in January 1997 and proceeded to dump the wildly popular *Howard Stern Show* seven months later. The backlash hit hard. The Eagle lost nearly 8 shares of 18-34 men in morning drive. Stevens assembled a new morning team, re-focused the radio station, and started to reap the benefits. In the Winter '98 Arbitron, The Eagle's total week 12+ rebounded to within .5 of its Stern-powered level. Not only are KEGL's total week men 18-34 numbers only .6 away from where they were with Stern, all principal dayparts outside of morning drive are now performing higher in that demo than they were when Stern was on board.

Three of the four Dallas Rockers have new PDs. Bring us up to speed on how the stations are positioned.

In my opinion, Eagle really is the only true Active Rock station. Edge [Chancellor's **KDGE**] is, obviously, an Alternative station; Zone [Susquehanna's **KKZN**] is sort of positioned somewhere between Triple A and sort of Soft, Classic Rock. And, the one that's hard to pinpoint, in my mind, is [SFX's] **KTXQ**. They're probably midway between a heritage Rock station and an Active Rock.

Is Q102's library much more Classic-based than The Eagle?

It's quite a bit more diverse than what we're dealing with. It certainly does go back farther in some respects, although on Eagle you'll hear music all the way back to the '60s, when you look at Zeppelin, Black Sabbath, Jimi Hendrix, and so on. But, there's an awful lot of late '70s, early '80s music that you can hear on **KTXQ** that, isn't being played anywhere else in the market. I'm talking about Phil Collins, Bryan Adams, The Cars, Billy Squier, that sort of thing.

The Eagle, The Edge, and Q102 all target 18-34. Is there room for all three stations?

I don't think there is. I know what our target is, it's pretty evident what the target for Edge is, but in listening to **KTXQ**, I'm not sure if they do target 18-34, they may be targeting a little broader than that.

Q102 is going to join Chancellor Classic Rocker KZPS and The Edge after the SFX sale to Hicks Muse closes. Do you think they'll realign Q102 and The Edge so they're not going after the same kind of audience?

We certainly have our preferences on how that might change competitively. But, I don't know, I've given a lot of thought to that. Obviously, I don't have a crystal ball and I'm

LITTLE BO FREAK: Scott the phone screener on one of his infamous duct tape stunts. This time Scott is taped to a telephone pole, dressed like Little Bo Peep, in a neighborhood known for its love of the "Alternative Lifestyle."

not privy to the internal decisions at Chancellor. It does make you wonder how they can reconcile the idea of a station would share so heavily with both The Edge and **KZPS** and, yet, still has a direct competitor across the street.

Is it tough there being a stand-alone Rocker competing with Chancellor who already owns two, and soon three, Rock stations?

It's a very competitive market, regardless of ownership, but thus far, we haven't felt any unusual competitive pressure because of co-ownership of the stations that we compete with. **KZPS** and Edge are co-owned currently, and they don't work together against us, at least on the programming side. When **KTXQ** and their sister, **B97**, go into the fold as well, we don't know yet how that may change the competitive nature of the market.

How do you feel about KIOZ's ratings upsurge in the Winter book?

I'm thrilled. To me, **KIOZ** is like a child that's grown up and moved out of the house, except I'm the one who moved. But, you know, from way back in the mid-'80s, when I first got involved with the station, we fought a signal problem for a long, long time. We finally got that corrected in 1996 and I didn't have much time to spend with the station after it finally got a competitive full-market signal. But I always had hopes to see it do what it has done now, and I couldn't be more pleased for them.

When you arrived there at The Eagle in the fall, the station had been without a PD for over four months. What shape was The Eagle in when you took it over?

Actually, the station, internally, was in pretty good shape. **Cindy Scull**, who's Music Director/APD/PM Drive, did an incredible job trying to handle her airshift, interim PD duties, and she was having a baby at the same time. She had a lot of help from **Cindy Coyle**, who is our Promotion Director, and also **Dennis Fawley**, the GM, so things were a lot more together, internally, than you might expect when the PD's position is vacant that long. The exception to that was, of course, the **Howard Stern** debacle.

Speaking of Howard, your 12+ Winter shares are only half a share less than during Howard's last book and you're up in all key demos. What do you attribute the rebound to?

I think the thing we've been most effective with since I arrived in
