DISHWALLA "ONCE IN A WHILE," A&M

Don't let the first 20 seconds fool you. Dishwalla's follow-up to 1996's No. 1 Rock track rocks! The sound is actually edgier than "Counting Blue Cars" and you don't need radar to spot the hook. Dishwalla spent three years touring in support of their Gold A&M debut, *Pel Your Friends*. When they came off the road and entered the studio to cut And You Think You Know What Life's About, they'd tightened as a unit, expanded their world view, and added fifth member: touring keyboardist Jim Wood is now a full-fledged member. The world will be on this half-a listen smash before you can say "automatic." Just add it.

GRANT LEE BUFFALO

"TRULY, TRULY," SLASH/WARNER BROS.

Cut from the same dreamy cloth as past radio successes like "Fuzzy" and "Mockingbirds," "Truly. Truly" sounds like just the trick to give GLB the widespread exposure they so richly deserve. Centered around a lazy groove, and the soothing vocals of Grant Lee Phillips, the track packs the kind of understated punch that those in the know have come to know and love from the band. A great song that both Modern and Rock can equally enjoy. Already on at WMMS, CFOX, KDKB, and KLOS.

0867

"STITCHES," REPRISE

First off, the band's name is a musical reference, not a sexual one - saying that they play a collage of sounds. "It's something fresh and new - that's what turns me on," says KoRn's Jonathan Davis about the Southern California band. In fact, KoRn liked the band so much that they made them the first signing to their new Elementree label. The band's a lot more poppier than you might think however; imagine a mixture of Filter, the Cars and nine inch nails. "Stitches" is poppy and heavy at the same time, and could easily find itself onto both Modern and Active Rock signals. Look for the band on the upcoming *Family Values* tour which will also include KoRn, Limp Bizkit and Cold.

THE FLYS "GOT YOU (WHERE I WANT YOU)," TRAUMA

Fronted by surfing brothers Adam and Joshua Paskowitz (featured in a famous brothers profile in *Esquire Magazine*'s June '98 issue), The Flys muse is centered around the typically Southern California lifestyle of surf, sand, babes, rock, and more surf. Their debut single, "Got You (Where I Want You)," is slow-building, but packs a guttural punch when it gets to the payoff. Factor in crunching, yet tasty, guitars, and a rock-solid rhythm section, and you've got a track guaranteed to be blasting from car radios well into the fall.

PULP

"THE FEAR," ISLAND

Pulp originally formed in Sheffield, England in 1983, calling themselves Arabacus Pulp. Following almost two years in the wilderness, Pulp are at last ready to raise the curtain on their highly-anticipated fourth Island release, *This Is Hardcore*. In sound and subject, attitude and approach, the album marks a very different band than the glittery Pop geniuses that brought you 1996's acclaimed masterpiece, *Different Class*. Pulp vocalist Jarvis Cocker tackles the subject of panic attacks in "The Fear."

THE CLAY PEOPLE "AWAKE," SLIPDISC/MERCURY

While The Clay People have released a few independent albums in the past, their self-titled major label debut shows that the Albany-based band is ready for the big leagues. Dropping much of their Industrial influences, they've concentrated instead on tight guitar riffs and catchy songs. One of the best examples of this on the Neil Kernon (David Bowie, Queensryche) produced disc is "Awake," an edgy, yet melodic song which Active Rock should have no problem waking up to.

JOYDROP "BEAUTIFUL," TOMMY BOY

What exactly is a Joydrop? "A drug, or a candy, or

the feeling you get when you're moved by a person or a thing of beauty," explains drummer Tony Rabalao. Which brings us to the debut single, "Beautiful." The song takes you from a soft beginning, featuring the sweet vocals of Tara Slone, into a manic rocker in a matter of seconds. With potent vocals, edgy guitars and a hard-driving rhythm section, Joydrop is, first and foremost, a Rock band.

AEROSMITH, "WHAT KIND OF LOVE ARE YOU ON," COLUMBIA/CRG

Here's what programmers are saying about the latest track from Aerosmith found on the Armegeddon soundtrack: "Playing the shit out of it," Neal Mirsky/WYSP. "Another great song from this album and this one rocks!," Mark Feurie/WKLQ. "All Aerosmith is imminently playable," Paul Kelly/KJKJ. "Future heavy rotation," Guy Dark/KQWB. "Sounds like old school Aerosmith," Matt Talluto/WBYR. "Best Aerosmith Rock song in years," Jack Lawson/WKQZ. We think that about says it all.

PEARL JAM, "IN HIDING," EPIC

Pearl Jam have finally come out of hiding settling their differences with Ticketmaster and taking to the road for their first full-scale tour since they've been popular enough to play arenas. "Wishlist" and "Given To Fly" have proven themselves as hits, but "In Hiding" is the most obvious song on Yield. Already on 28 signals (WRIF, WYSP, KSJO) and 81* Hot Trax.

METALLICA, "BETTER THAN YOU," ELEKTRA/EEG

After the success of "The Memory Remains," "Fuel" and "The Unforgiven II" it wouldn't take brain surgery to conclude that "Better Than You" should easily rise to the top too. The early believers won't surprise you either: WRCX, KILO, KSJO, WXRC.

SOUL ASYLUM, "CLOSE," COLUMBIA/CRG

While undoubtably some of you "Will Still Be Laughing," others are ready to take the plunge deeper into David Pirner's newest masterpiece, *Candy From A Stranger*. If a lit-

tle balance is needed in your daytime, check out the mid-tempo melodies of "Close." A perfect fit for just about all of you.

VAN ZANT, "SHOW MEALIVIN' A LIE," CMC INTERNATIONAL

Yet another couple of gems from the *Brother To Brother* release. The choice is yours, the acoustic-flavored "Show Me," which features both Johnny and Donnie on vocals, or the harder-edged rocker "Livin'A Lie," with Donnie handling lead vocals. You can't go wrong with either one. "Show Me" is a natural fit for Mainstream while "Livin'A Lie" could find a home on Mainstream and Active alike.

UNWRITTEN LAW, "ROLIDAY," INTERSCOPE

Here's the track radio is responding to from Unwritten Law. Think Green Day with less snarl but just as tuneful. Big guitars, bigger chorus. And a growing call letter parade at Active Rock and Modern Rock: KXTE (12 PPW), KIBZ, XTRA, XHRM (10), KRAD, KTUX (9), WXRC (8), and WKLQ (6). With fresh adds at WCCC, KQWB, KEYJ and 6 more. Listen loud and call us in the morning.

FREBOY JONES BAND, "BETTER TOMORROW," CAPRICORN

For the follow up to "Mystic Buzz," the Freddy Jones Band stick with what they know best, and what audiences have come to expect from them: good grooves and good hooks. One of Rock's more quietly-kept grass-roots success stories, FJB cut their teeth on the road, but their records just seem to get better and better. "Better Tomorrow" is further proof. On early at KJKJ and KEYJ.

The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. <u>Grade</u>: An index based upon combined MRI, Burn and Unfamiliari Scores. <u>Music Response Index (MRI)</u>: Appeal of each song within the indicated sample group on a 0 to 110 scale. <u>Burn</u>: Percent of the indicated sample that claims to be "tired of the song." <u>Unfamiliarity</u>: Percent of the indicated sample reporting "don't know it." This information is excerpted from The Tracking Report and is reprinted with the permission of Kelly Music Research, Inc. All rights reserved. No portion may be reproduced without permission.

Here's what Active Rock radio is saying about fmqb's BuzzBands compilation CDs...

"Our hugest success all spring. Our audience is clamoring for **BuzzBands** CDs. We've given about 85% of them away on-air and the rest at appearances. And the beautiful part is we got a client to pay for the whole shooting match. They're ecstatic because we're promoting it even more than we promised because the audience is so into it. I can't wait to put the second volume together." —Gregg Steele, Director of Programming & Operations, WZTA/Miami

"We are distributing KISS **BuzzBands** CDs exclusively through our Prize Pip Patrol vehicle. We give 25 **BuzzBands** CDs a day to people with KISS stickers on their vehicles or people who will let KISS put a sticker on their vehicle. Those 25 CDs are gone in a matter of about two minutes. The stops are at designated locations that are pre-promoted on the air. Think about where you put your merchandising dollars. If people don't care about the item, what's the point of spending the cash to put something in their hands that they're gonna throw away? By issuing a collectors item like this, tied to the product, you've made a lasting impression. I bought a few less koozies and invested in a new item that people would see their friends with, and go 'I've got to get one of those.' Plus it positions the radio station." — **Kevin Vargas, Program Director, KISS/San Antonio**

"We give BuzzBands CDs away at remotes and station events and onair. People are so excited about it, they love them! They dig having all of our music on one CD." — Heidi Fenstermaker, Promotions Coordinator, WBYR/Ft. Wayne

"With a purchase of a bike you get a free BuzzBands CD. We're also giving them away at station concerts." – Jon Erdhal, Director Of Operations, WGIR/Manchester

"Throughout the summer, we're giving BuzzBands CDs away at station promotions and events. We did a BuzzBands CD Weekend, giving them away on-air all weekend long. Phones were hot. We also gave away BuzzBands CDs at a station-sponsored brewery bash, where 1000 people showed up for a three-hour remote for the participating client. We gave away more at sales-driven events. Reaction has been very positive." — Louis Garcia, Sales Associate, WXTB/Tampa

"We distribute the CDs at our Friday afternoon club appearances. We go to a bar every Friday for an afterwork party and use the CDs as part of our prize giveaways. I love the BuzzBands concept and the packaging. — Tim Sheridan, Program Director, KIBZ/Lincoln

"It's amazing how well they're doing. As soon as we mention the **BuzzBands** CD on-air, the phones light up, hoping that we're giving them away, even when we're only teasing it. Listeners love the fact that you can't buy them anywhere, they love the feeling that they're the only ones that can have it." — **Mike Karolyi, Music Director, WCCC/Hartford**

"We've sold about 200 **BuzzBands** CDs for charity, so far, which is great. I love the artwork. They go over real ly well at remotes where we give them away." — Robin Lee, Program Director WZZO/Allentown

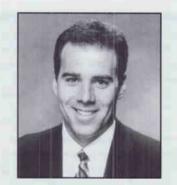

"We use *fmqb*'s **BuzzBands** CDs as general handouts at the immense amount of station appearances we do. We have three different field teams that are out daily at everything from store grand openings to major concerts. They get free music, a free CD! They like the music and you can't go wrong." — Ron Valeri, Assistant **Program Director/Marketing Director, WAAF/Boston**

The Wall Rises In Buffalo

Rich Wall

He's been a mainstay of the Buffalo music scene for over ten years and now WEDG/Buffalo APD/MD **Rich Wall caps off a busy week by** getting his PD stripes.

While Buffalo's Edge outlet was busy premiering The Tragically Hip record way before any Canadian station had a copy, the announcement of Wall's appointment as PD came down. A lifetime Buffalonian, the announcement was not a surprising one as Wall has been with The Edge virtually since its inception in June '95, rising to MD later that year. In June '97, three months after then-PD Vince Richards' departure, Wall was promoted to APD and has been guiding The Edge's on-air sound ever since.

"Rich has served as the point person for the day-to-day operations of The Edge as APD/MD for many months," WGRF/WHTT/ WEDG OM John Hager relayed to *fmqb*. "By naming him Program Director, we are more accurately describing the role he is already serving and acknowledging the great job he has done in leading the station through a very competitive period."

Prior to joining The Edge, Wall worked independently with Ani DiFranco and Eureka Records. He gained his initial radio experience at Buffalo State College radio outlet WBNY, where he was a pillar of the local music scene and played an integral role in the rise of DiFranco and the Goo Goo Dolls.

Sorensen Expands Role At Journal

Doug Sorensen

Journal Broadcast Group Director of Rock Programming Doug Sorensen has added PD duties at Classic Rock KKCD/Omaha. Sorensen fills the void left by the departure of Bruce McGregor to WHTQ-WHOO/Orlando (fmgb 6/19).

Sorensen will relinquish his PD title at Rock 25-44 KEZO to concentrate on Journal's new Rock properties in Boise: Classic Rock KJOT and Modern Rock KQXR.

Chancellor Enters TV Biz With LIN Purchase

Jeff Marcus took another step this week in his quest to diversify Chancellor Media into a global media powerhouse, acquiring LIN Television's eight owned and four LMA'd stations. Valued between \$1.64 and \$1.72 billion, the transaction marks Chancellor's first foray into TV and follows its purchase last month of 13,000 billboards from Martin Media. Both deals are consistent with Chancellor's fast-track transition from a pure radio company to one involved in overlapping media.

Marcus, the former cable TV mogul who became Chancellor's new President/CEO in May, hopes to gain cross-promotion efficiencies and crossselling revenue opportunities by assembling radio-TV-billboard platforms in multiple markets.

The 12 LIN TV stations are affiliated with all of the six major networks. They include:

Owned Stations (DMA Rank)		LMA'd Stations
Indianapolis (No. 25)	WISH (CBS)	
New Haven-Hartford (No. 27)	WTNH (ABC)	WBNE (WB)
Grand Rapids (No. 37)	WOOD (NBC)	WOTV (ABC)
Norfolk-Portsmouth (No. 39)	WAVY (NBC)	WVBT (WB-Fox)
Buffalo (No. 40)	WIVB (CBS)	
Austin(No. 60)	KXAN (NBC)	KNVA (WB-UPN)
Decatur (No. 81)	WAND (ABC)	
Fort Wayne (No. 102)	WANE (CBS)	

Chancellor's medium and small market sister Capstar owns radio clusters in four of the LIN markets (Indianapolis, New Haven-Hartford, Grand Rapids and Austin). Rolling Capstar into Chancellor is an option Marcus has not ruled out. Both companies are controlled by Hicks, Muse, Tate & Furst, which you'll find on both sides of the LIN deal: Hicks Muse owns around 70% of LIN

Barenaked Ladies' Beantown Bustle

Reprise recording artists **Barenaked Ladies** caused a bit of a commotion in Boston on Tuesday, July 7. The band was in town to perform a free concert, in conjunction with retail outlet Newbury Comics, at a specially constructed stage at the chain's store right around the corner from City Hall Plaza. The show celebrated the release of the band's new album, *Stunt*, which was going on sale at midnight. According to reports, roughly 70,000 people showed up for the event, landing the band's performance as the lead story on two of Boston's network newscasts. According to Newbury Comics spokesperson **Trish Chapman**, close to 1,200 copies of the record were sold and the band stuck around for close to four hours after their performance to sign autographs. See the Modern Rock section for more details.

SORENSEN continued from page 13

Sorensen retains his OM position at Journal's Omaha cluster which includes KEZO, KKCD, Smooth Jazz KOSJ, and Sports KOSR-AM.

Sorensen was named Journal Broadcast Group Director of Rock Programming in March of '97 from the PD position at KQRC/Kansas City. He joined KQRC in February of '92 when it was WRVK (The River). He flipped the station to Active Rock in April of '92. Prior to KQRC, Sorensen programmed KATT/Oklahoma City from 1990 until 1992. He also oversaw KATM/Colorado Springs from his Oklahoma City base. Sorensen also programmed KQRS/Minneapolis from 1980 to 1984. During that time he put WTPA/Harrisburg on the air. His career also includes stops at KLAQ/El Paso, WCCC/Hartford and WTRY/Albany.

CHANCELLOR continued from page 13

and controls 9% of Chancellor. After merging LIN into Chancellor, the leveraged buyout firm will double its stake in Chancellor to 18%. Hicks-Muse also owns 55% of Capstar.

Chancellor is issuing 17.7 million shares of common stock to buy LIN, with an exchange ratio based on a \$51 share price for Chancellor common stock, which was the closing price on July 1. Chancellor will also assume \$769 million of LIN debt. The purchase price is around 12.7 times LIN's projected 1999 cash flow.

"LIN provides Chancellor with critical mass in the television business, and creates a strong foundation for further growth in television," Marcus commented. "We are attracted to the television industry both as a stand-alone business, and as a platform that provides excellent opportunities for cross-promotion and cross-selling with our radio and outdoor assets."

LIN President/CEO Gary Chapman has been named President of Chancellor's TV operations and will join the Chancellor board of directors.

Chancellor stock tumbled and then rebounded in the two days following the LIN announcement. Hicks, Muse tried to allay investor fears about the deal by noting that Wasserstein Perella & Co. had rendered an opinion that the purchase "is fair to Chancellor and Chancellor stockholders from a financial point of view." Prudential Securities analyst **James Marsh** said investors may be skittish about Chancellor getting into TV, a medium whose assets usually grow slower than those of radio and outdoor. Marsh also told the *New York Times* that "people are a little concerned when you're merging companies that you own into a public company."

What's next for Chancellor? Analysts like Paul Sweeney, who covers Chancellor for Salomon Smith Barney, says the company still may buy Jacor in order to catch up with CBS and Clear Channel. Marcus himself hints at future acquisitions and swaps, saying, "Our next goal is to expand upon these results through additional transactions which will create overlaps with our existing radio station assets, as well as our recently announced acquisition of outdoor advertising company Martin Media. This may be accomplished through strategic television and/or radio station acquisitions, or by swapping radio or television stations to create overlaps in markets where we already have a presence."

Though its diversifying into TV and outdoor, radio remains Chancellor's bread and butter. Even after the expected fourth quarter closing on LIN, 80% of Chancellor's cash flow will still come from radio.

OPIE SPEAKS OUT Going on the record for the first time since the infamous "dead mayor" stunt, former WAAF/Boston afternoon jock Opie spoke to the Boston Herald. Opie ridiculed Boston Mayor Thomas M. Menino on his reaction to the stunt: "Menino should thank us for all the publicity and sympathy he got because of us," Opie told the paper's Dean Johnson. "You can't buy that kind of exposure." Opie said he is still "amazed how much effort he (Menino) put into (getting us fired) instead of running the city." As for the hoax itself, Opie said it was "a stupid bit" and that he "totally understand[s] our firing." Opie vows he and his partner Anthony will be back on the air in Boston before the end of the year, via syndication. However it wouldn't be on 'AAF, as current employers CBS have stipulated that a return Boston engagement must be on one of their stations. The CBS portfolio in Beantown includes Modern WBCN, Classic WZLX, Modern AC WBMX, Oldies WODS and toprated news-talker WBZ-AM. Opie & Anthony are currently doing afternoons at CBS' WNEW-FM/New York.

FTC APPROVES SEAGRAM/ POLYGRAM DEAL The waiting period required by U.S. law expired Wednesday (7/8) with no request from the Federal Trade Commission for additional information. What that means, in essence, is that the sale of PolyGram to Seagram has passed the U.S. regulatory hurdle "You can interpret this as an approval," Philips spokesman Jeremy Cohen told the Bloomberg News. "That's the first step." The sale still faces a review by the European Commission.

MORRIS LOOKS AHEAD

Universal Music Group Chairman/ CEO Doug Morris has been reluctant to discuss the impending responsibility that lies ahead in structuring the Universal Music Group, but, in a New York Post interview (7/5), he revealed that he wants "to create a culture and a company where people work together and know they're going to get the credit and get the reward." Morris, who does not want to become detached from the music, maintained that it is his intention to retain day-to-day control of Universal Records while making the transition to managing the merged operation. "My job is to surround myself with the brightest people and inspire them," Morris told the paper. "I think I'm going to do a good job." On the unavoidable dismissals that loom ahead for various labels now under the Universal umbrella. Morris admitted that he wished "it wasn't part of the equation. But I will do it gracefully." If Morris can gracefully consolidate his companies, while ushering in a new era, he will rank with elite industry leg-

FREEDMAN SET AS JACOR-DALLAS MARKET MANAGER

J.D. Freedman, GM at Nationwide's KDMX/Dallas, will add management duties at crosstown KEGL as Jacor-Dallas Market Manager, *fmqb* has learned. The promotion will take place once Jacor completes its acquisition of Nationwide. In addition to managing The Mix, Freedman also served as Acting GM of KEGL for 6 weeks last year. Plans also include moving The Eagle into new facilities at The Mix complex.

MACK OFFICIAL AS DC101 GM Rick Mack has been named VP/GM at Chancellor's DC101/ Washington, D.C. Mack, along with KLOL/ Houston Director of Operations Michael Hughes, are pairing down their inventory of PD candidates to a short list. "The station is going to evolve," Hughes told *fmqb*. "We have a desirable position, we just need to focus. DC101 was blurry, we're making it sharp."

STERN'S "MAGIC" TOUCH After a couple of weeks of Magic Johnson bashing, Howard Stern, and his flatulent band, The Losers, were finally invited to appear on the ratings-starved Johnson's late night TV talk show last Thursday (7/2). Well, the ratings are in and "The King Of All Media" helped The Magic Hour nearly double its overnight Nielsen ratings in the 40 metered markets by going from a 6share to an 11-share. An even bigger stat is what Stern did for the show in cities like L.A. and Philadelphia where his appearance beat-out both **David Letterman** and **Jay Leno** combined.

Z-SUIT: MISTAKEN IDENTITY

The New York Post reported on 7/6 that a \$7 million lawsuit had been filed against Z100/New York owner Chancellor Media, and Morning Zoo co-host Eliot Segal by Catherine Zarate, who alleged that Segal made disparaging remarks about her allegedly "fake" breasts at a station nightclub promotion. Z100 Sr. VP/GM John Fullam responded quickly, stating that the suit was a case of mistaken identity. Fullam said that Segal was not even at the Long Island club in question, and, in fact, was out of state that day. The station admits that another Z-Jay was on the scene that day, but claims that the jock never used the P.A. over which the statements were allegedly made. According to Fullam, one or more individuals who had no affiliation whatsoever with Z100 or Chancellor were addressing patrons using the club's P.A. system.

ARBITRON STUDY FINDS GENXERS SURFING, NOT SLEEPING What are those crazy kids up to these days? According to a new Arbitron study, they're sleeping less and surfing the Net more. The latest NewMedia Pathfinder study shows that 35% of 16-29 yearolds believe that they're getting less sleep than they did a year ago. Conversely, only a quarter of the entire population age 16-74 reports that they're snoozing less. Nearly half, 48% of GenXers, report that they're spending more time using the Internet as compared to only one-third of the total population. The Pathfinder Study is a survey of consumer media behavior and new media preferences.

CASE IN POINT Modern AC WPNT (The Point)/Milwaukee has recruited former KTNP/Omaha programmer Justin Case as PD. Lakefront Communications President/GM Tom Joerres told Dirt Diggers, "Justin's level of experience and programming talent is commensurate with the growth and performance of WPNT - both have a solid base with a future that is set to explode. I am pleased Justin has joined us." Saga Communications Executive VP Steve Goldstein added. "Justin combines strong experience in the Modern AC format with a funny name. A great combination."

> Next Week's Question Of The Week

What's the dumbest thing you've ever said on the air?

Fresh from his Chicago appearance with Jimmy Page & Robert Plant last month, Chicago Bull Dennis Rodman hopped on stage with Pearl Jam in Dallas last Sunday (5). According to the Dallas Morning News, Rodman, sans shirt and shoes, was swigging a bottle of wine when he jumped on stage with the band, where he proceeded to stay for 45 minutes. Unlike the former Zep members, the members of Pearl Jam were less than thrilled with Rodman's behavior. After he chanted "are you having a good time" during "Corduroy," and sang back up on "Alive," his mike was cut off during "Spin The Black Circle." A chagrined Stone Gossard told Rodman to "Get the f**k off the stage," while Eddie Vedder told him, "I guess you've been drinking for three days straight."

Though he didn't make the guest list, Rob Zombie played an integral part in last Thursday's (2) nuptials between Barbara Streisand and James Brolin. When the expected throng of Paparazzi turned up outside Streisand's Malibu villa to get a glimpse of the wedding, they were rudely greeted by a large black van, blasting White Zombie's "Thunder Kiss '65," at maximum volume for over four hours. "Thunder Kiss" did the trick, as most of the paparazzi left disappointed. On the use of his band's song, Zombie commented: "Hopefully the Funny Lady will use a track off my new album to ward off meddling paparazzi at her divorce

hearing." Look for Zombie's forthcoming solo album, Hellbilly Deluxe, on August 25.

The surviving members of INXS brothers Tim, Jon and Andrew Farriss, Gary Gary Beers, and Kirk Pengilly - might reunite under their original moniker, The Farriss Brothers. Tim Farriss told the Melbourne Age that he and the other surviving members of INXS will meet in September to discuss future plans, such as carrying on as The Farriss Brothers, the name they used prior to INXS when they formed in 1977. Farriss told the Age that there were never plans to find a replacement for late singer Michael Hutchence, stating, "There could never be a replacement for Michael." Farriss also said that a large tribute concert in memory of Hutchence is being planned for late this year or early next year, in either the U.S. or England. Invites have already been sent to U2, David Bowie, Elton John, Aretha Franklin, Nick Cave, Iggy Pop, and Tom Jones for the show. A tribute show is also planned for the band's native Australia, featuring some of Australia's biggest Rock stars. Proceeds from both shows will benefit Hutchence's 23-month-old daughter, Heavenly Hiraani Tiger Lilly.

Ex-Guns n' Roses drummer Steven Adler makes his return to the drumkit, joining up with a revamped version of L.A. hair band Bulletboys. The band, fronted by Marq Torien, recorded three albums for Warner Bros. between 1989 and 1993, and re-formed late last year. Adler has been through the ringer since his Guns days, suffering a heart attack and two strokes due to his drug addiction. He embarked on a brief sobriety lecture tour of schools and meetings, and was recently in the news when he announced he was co-writing a book with his mother entitled No Bed Of Roses. The Bulletboys hook up with other late '80s hair bands like Bang Tango, Enuff Z' Nuff and Pretty Boy Floyd for a tour that kicks-off July 18 in Las Vegas. In other ex-Gunner news, Slash is reportedly close to selecting a singer for his new band, though no other info is available yet. Duff McKagan's second solo album, Beautiful Disease is completed and set for release on Geffen later this year. And former guitarist Gilby Clarke has recorded a solo album called Rubber for the Pavement label. The album is currently available in Japan and will be released in North America this fall.

As Megadeth tear up stages from coast to coast as part off the Ozzfest tour, singer Dave Mustaine makes

his acting debut as an arsonist in a series called Black Scorpion. Look for the show to air this fall, and Megadeth on the Ozzfest tour for the remainder of the summer.

Staking their place among the Psychic Friends Network and real estate brokers in the late night TV world of infomercials, The Beastie Boys have put together an informercial to promote the release of their forthcoming album, Hello Nasty. The mostly ad-libbed half-hour spot features the band lampooning the various juicers and get rich quick schemes that rule the informercial universe. It also features a toll-free number for fans to call and order Hello Nasty for home delivery. The informercial debuted in Cleveland late last month, and will pop up in markets such as New York, Los Angeles, Chicago, Philadelphia, San Francisco, and Houston shortly. Fans who miss the Beasties informercial

ALL SMILES FOR HAPPY PILLS: During a tour stop at New York's Wetlands, in support of their forthcoming Maverick/Warner Bros. LP, Happy Pills (due 7/21), the members of Candlebox hooked up with manager John Reese (kneeling) and Maverick CEO Freddy DeMann (center) for the ever popular trade shot.

ROCK REPORT continued...

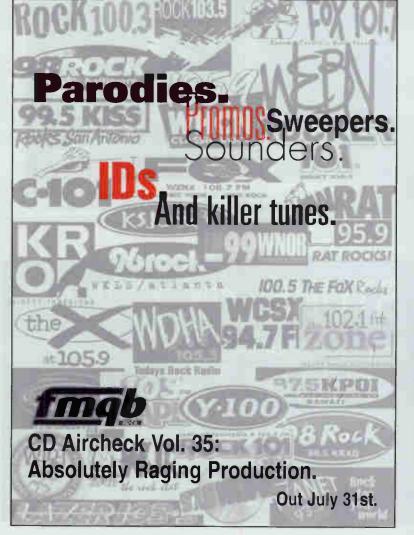

on TV can check it out on the band's official Web site at www.beastieboys.com.

The Billy Idol comeback is underway as the Rebel Yeller has inked a recording pact with producer Glen Ballard's (Alanis Morissette, Aerosmith) new Java imprint. Idol, now 42, is reportedly free of all habits and has reunited with his former guitarist/songwriting partner Steve Stevens. Java is also the home of Terrence Trent D'Arby and Lisa Marie Presley.

According to reports, Bryan Adams' forthcoming studio album may be a bit of a departure. Adams is recording the as-yet-untitled LP (due this fall) with two separate producers, who will work on a couple of tracks each. Phil Thornalley - who toured and recorded with The Cure in the mid-'80s and has worked in studio with the likes of XTC. Psychedelic Furs and Natalie Imbruglia - is working with Adams, as is noted Hard Rock producer Bob Rock (Metallica, Veruca Salt, The Cult). A collaboration between Adams and Thornalley will be the album's first single, due by the end of the summer.

The late and beloved Alt Rock phenoms The Pixies have a new record comprising rare radio sessions slated for release next month. Pixies At The BBC is a collection of 15 tracks showcasing the band on noted U.K. radio program The John Peel Radio 1 show. Several oddities featured include the band's demented take of "(In Heaven) Lady In The Radiator Song," a weird and affecting song culled from the Eraserhead movie soundtrack, plus the group's surprising run-through of the Beatles' '40sstyled vaudevillian charmer, "Wild Honey Pie." Other cuts include "There Goes My Gun," "Levitate Me," "Caribou," "Hey," "Monkey Gone To Heaven," "Dead Subbacultcha," "Manta Ray," "Is She Weird," "Ana," Down To The Well," "Wave Of Mutilation" and "Letter To Memphis."

Legendary producer George Martin bids adieu to his celebrated and storied production career with a final album, In My Life, skedded for release on October 6 (MCA Records). A 48-year veteran of the music business, Martin has enlisted a batch of pals to tackle, what else? -Beatles's songs. As for the song selection, Sir George explains, "I wanted titles that weren't done to

death. It began with a process of casting. I thought of songs and how they might suit particular people, people I like and admire. So it became an album, in the main, of friends and heroes. It does sum up my life in a way." Gusts lending their musical talents include an unlikely gang of actors, comedians and a few musicians as well. Those spotlighted include Phil Collins ("Golden Slumbers," "Carry That Weight," "The End"); Jim Carrey tackling "I Am The Walrus;" "A Day In The Life" by Jeff Beck; Goldie Hawn crooning "A Hard Day's Night;" a funkified take of "Come Together" by Robin Williams and Bobby McFerrin, among others.

One of Rock's most acclaimed poet laureates, Lou Reed, is chronicled in the new home video, Rock And Roll Heart (Fox Lorber / \$19.98). The 75-minute video traverses Reed's career, from his seminal days with The Velvet Underground to solo stardom. Alongside captivating archival performance footage and interviews with Reed, other luminaries discussing Reed's importance on music include David Bowie, Patti Smith, Philip Glass and Czech president Vaclav Hazel, among others. All paint a riveting portrait of a unique and wholly original talent, a man who still has a few tricks left up his sleeve.

HAPPY 21st BIRTHDAY TO YOU: Sure, Kenny Wayne Shepherd had two gold albums and a ton of sold-out concerts under his belt, but he still had to get someone else to buy the beer after the show. Now he can burn the fake ID! During their recent two-night stand at L.A.'s House Of Blues, the Kenny Wayne Shepherd Band gathered to celebrate their namesake's 21st birthday, and to receive gold albums for their sophomore Revolution/Reprise effort, Trouble Is... Pictured (L-R): KWSB's Sam Bryant, Jimmy Wallace and Robbie Emerson; Reprise Executive VP/GM Rich Fitzgerald; KWSB's Noah Hunt and Kenny Wayne Shepherd; Revolution GM Larry Jacobson; Revolution A&R Executive Jeff Aldrich.

PJ Harvey, whose lower profile on the music front of late is largely explained by Polly Harvey making her acting debut in director Hal Hartley's upcoming *The Book Of Life* movie, gets back to her day job in September with the new album, *Is This Desire*?. PJ's first since the Dance Hall At Louse Point collaboration with John Parish in 1996 but the first PJ Harvey studio set since 1995's

To Bring You My Love, the release will be preceded by a month or so of festival dates, and has been produced by the singer with Flood.

Simple Minds had to make an 11th hour cancellation of their appearance at last Sunday's Party In The Park in London's Hyde Park when lead singer Jim Kerr was struck down by food poisoning. Gary Barlow, who had been scheduled to appear later on the 22-act, all-star bill, stepped in to open the show for a sellout audience of 100,000 that included Prince Charles.

One of the U.K.'s most respected club DJs and remixers, **Tony De Vit**, passed away on July 2 from bronchial pneumonia and bone marrow failure. De Vit, who was 40, appeared regularly at such influential clubs as Trade, Ministry Of Sound, Cream and Miss Moneypenny's and was voted #5 in a DJ magazine survey of the world's top jocks. De Vit also had three U.K. Top 40 Pop chart entries with club hits, "Burning Up" and "Hooked" in 1995 and "TII Be There" the following year. *Radio 1* marked his passing by repeating an Essential Mix of De Vit's from 1995 last weekend. A memorial service was due to be held today (7/10).

15-year-old debutante Billie, from Swindon in Wiltshire, made the best possible start to her chart career this week as her "Because We Want To" single went straight to #1 in the U.K. Pras Michel's "Ghetto Supastar" rose to two as support for the two best-selling World Cup tie-in records fell away after England's departure from the tournament: "Three Lions '98" fell from the top to four and "Vindaloo" by Fat Les from two to five. There was new support for two more soccer singles, Jean Michel Jarre and Apollo Four Forty's "Rendez-Vous '98," new at 12, and the Wimbledon Choral Society's version. of Faure's "Pavane" up from 26 to 20 (they're the theme music for the ITV and BBC football coverage, respectively). Mansun's "Legacy" EP entered at seven, former soap star Matthew Marsden's "The Heart's Lone Desire" at 13 and "Zoom" by Dr. Dre and LL Cool J at 15. Destiny's Child also scored a new top 20 hit, "With Me" at 19. The Corrs returned to the top of the album chart with Talk On Corners, with Des'ree's Supernatural the highest new entry at 16. Dario G's Sunmachine debuted at 27 and the latest compilation of the Beach Boys' Capitol material, Greatest Hits on EMI, at 28. It's the ninth such collection to chart in the U.K.

OUR LADY PEACE: Someone finally got around to using "summersault" for the name of a summer tour. Our Lady Peace has announced their first annual *Summersault* tour will play four less frequently traveled corners of Canada between August 23 and September 5. Joining them on *Summersault* '98 are Garbage, the Crystal Method, Hayden, Fuel, Esthero, and The Gandharvas.

DISHWALLA: Dishwalla follow their gold Pet Your Friends with And You Think You Know What Life's About on August 11.

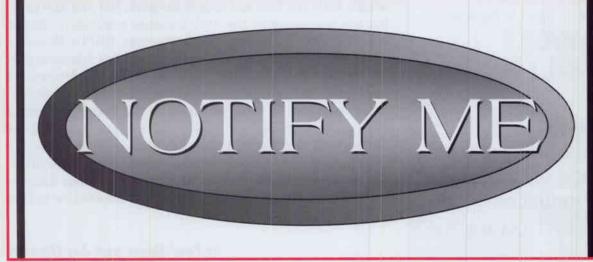

BETTER THAN EZRA: Better Than Ezra's new album, How Does Your Garden Grow, will be out August 25.

DEPECHE MODE: Depeche Mode will shoot the video for their upcoming single, "Only When I Love Myself," in New York City later this month with U.K. commercial director Brian Green. The band's longtime photographer and videographer Anton Corbijn has designed the set for Depeche Mode's world tour, which will reach the U.S. in late October. A two-disc set, *The Singles '86 - '98*, will be out October 6. "Only When I Lose Myself" is the only new track of the 20 songs in the collection.

YANNI, STRAIT TOP ROLLING STONES IN CONCERT GROSSES: Yanni and George Strait's Country Music Festival beat out The Rolling Stones for the top two spots on *Pollstar* magazine's report on the biggest tours in North America for the first six months of this year. Yanni raked in \$35.8 million in 90 shows. The Strait Fest grossed \$32.9 million with only 18 shows. The Rolling Stones played just 20 shows and earned \$31.8 million. Eric Clapton and Elton John completed the Top Five. The remainder of the Top 10 had Garth Brooks at No. six with \$16 million for 45 shows, followed by the Dave Matthews Band, Jimmy Buffett, Billy Joel and Aerosmith. The box office for the Top 25 tours is off about \$17 million from last year and stands at \$290 million.

HORNSBY STILL ON "TRAIL" OF SOUTHERN THEMES: Triple Grammy award winner and member of the Other Ones, Bruce Hornsby, continues his exploration of southern themes on his new album, a double CD called *Spirit Trail*, due out in September. The 20 songs include Gospel, Blues, Folk and New Orleans' Grooves and cover topics concerning race, religion, prejudice and tolerance. Shawn Colvin's co-writer and producer, John Leventhal, plays guitar on most of the tracks. He has been with Hornsby for the past five years. Other guests include Ashley MacIsaac and drummer Matt Chamberlain, who has worked with the Wallflowers, Pearl Jam, and Fiona Apple. After the Other Ones wrap up the *Furthur Festival*, Hornsby has a date playing with the Atlanta Symphony on August 19 as part of his own tour. The *Further Festival* kicked off last month (6/25).

Bob Newhart, Jamie Lee Curtis, Wesley Snipes, Jane Seymour, Dennis Franz, Robert Vaughn, James Woods and "The Simpsons" are among the other performers who will receive stars.

It started off as Lunchtime With Megadeth but the "mega" angle became too much for WYSP to resist. Hence the infinitely sexier handle Mega Lunch with Megadeth. And the on-air pledge to make

winning it *mega* easy: Just fax, send, email, call, send a carrier pigeon... whatever. Philadelphians answered with a *mega* response: Demand outpaced supply by a six to one margin. After drawing names, the station didn't just notify winners. In some cases they sent **Matt & Huggy** (the emotionallyimpaired, mentally-limited but lovable late nighters who have been "wrecking" night man **Cousin Ed**'s show all week) to personally deliver tickets (and frighten listeners). The big attraction: 450 seats to an intimate, acoustic, lunchtime performance

July 10th by Dave Mustaine and crew. "We just really wanted to touch people with this," PD Neal Mirsky tells The Inside Track. "It's the kind of thing we used to a do a lot in the '70s on Rock radio but you don't hear too much of it these days." Listeners who didn't win can hear the exclusive concert broadcast live on YSP ... Two days earlier, WAAF/Boston presented Megadeth in a free listener appreciation concert at Boston's Hard Rock Cafe. As in Philly, the band performed an acoustic set, but 'AAF's event was an all ages show open to the general public on a first come, first served basis. The station gave away a limited amount of guaranteed admission passes. 'AAF's John Osterlind broadcast live from the Hard Rock during his midday shift. The broadcast featured Megadeth's performance and interviews with the band ... Metallica, too, are thanking select Active Rock outlets for their support by participating in exclusive station events when their tour rolls into town. Case in point: WRIF's Metallica Live In Your Living Room. Rather than stage a live broadcast from a club, The Riff wowed listeners with an offer to "bring the band, the food, the party to your living room," and broadcast the event live for all of Detroit to hear. "Your living room is the stage, your porch is the backstage groupie area, your kitchen is the meet 'n' greet area. And after it's all over, we'll send a maid to clean up, while you and a guest fly to Vegas to see Metallica with Days Of The New and Jerry Cantrell." Listeners registered via on-air CD giveaways. A similar listen-to-win promotion on 'YSP promised to "put you in the pit with Metallica. Not the mosh pit, the barbeque pit." Up for grabs is a barbeque with several Metallica members and 30 listeners on an outdoor patio at Camden's E Center before the band takes the stage... Denver hosting baseball's All Star Game was an opportunity not to be missed by KBPI. In keeping with their penchant for twisted (some might say deplorable) ways of exploiting top-of-mind events and issues, the station grabbed some whiffle balls and bats and took to the park. Not just any park, but one frequented by the city's homeless population. So the All Star Game's Homerun Derby became KBPI's Homeless Run Derby. A 'BPI staffer pitched, around five homeless people took turns at bat. How far they hit the ball determined their prize: An Egg McMuffin or \$5 in cash. A DAT player captured the action for later broadcast on the Kerry & Kearns show. The morning duo were holed up (pun intended) at Denver's All Star Sports Cabaret (a strip club) on game day morning, MC-ing strip baseball and other festivities. Featured performer "Treasure Chest" and 10 other dancers entertained the crowd, which partied and competed for tickets to the real game.

JIO FICKS

ON THE RIGHT TRACK?

JOSH ROUSE, "DRESSED UP LIKE NEBRASKA" EP, SLOW RIVER/RYKODISC

Dressed Up Like Nebraska, the debut album from singer-songwriter Josh Rouse, is a collection of ten songs that sound tailor-made for Progressive Radio. Lyrically clever and musically absorbing, the title track from the album is now available in two forms on this EP: live and edited for radio. Also included are live versions of "Late Night Conversation" and "Please Please ..."

ALBUMS

WILLIAM TOPLEY **MIXED BLESSING. MERCURY**

It would be an understatement for us to write that William Topley is a Progressive Adult Radio favorite. His first solo effort, Black River, was named by dozens of programmers as one of 1997's best and his latest release, Mixed Blessing, has already spawned a #1 Most Added single. This album contains some amazing new tunes, as well as tracks from Topley's catalog, including

highlights from his former band, The Blessing. As far as the new stuff is concerned, begin with "Wake Up (Your Dream Sounds So Sad)," then listen to "Sycamore Street," and "Sophia."

THE BRIAN SETZER ORCHESTRA THE DIRTY BOOGIE, INTERSCOPE

A wicked collection of thirteen tracks guaranteed to give listeners a swift kick-in-the-brass, The Dirty Boogie confirms that The Brian Setzer Orchestra are the undisputed kings of Swing. Produced by veteran knob-tweeker Peter Collins, the album starts off strong with the lively guitar/brass sound Setzer is renowned for and doesn't quif for almost fifty minutes. In short, if your station hasn't hopped on the first single, "Jump Jive An' Wail," then

now's the time to do so. Looking for depth? Try "This Cat's On A ...," "Let's Live It Up," a new energized version of "Rock This Town," "Nosey Joe," and "Switchblade 327."

ALBUMS

THE KNACK ZOOM RHINO

The Knack is back. The band declares that "Pop Is Dead" in the very first track of the album, then uses that track, and the rest of the album, to prove that statement to be as false as a three dollar bill. This is some damn fine, fun, Pop Rock music. Sometimes we need a little relief from self-conscious "message" music, with deep meaningful lyrics crafted by poet-

ical geniuses. Hell, it's summertime! Sometimes we just wanna dance. Put on your dancing shoes for: "Good Enough," "Can I Borrow A Kiss," "Smilin'," "Ambition," "Everything I Do," "Love Is All There Is," and "In Blue Tonight."

EMM GRYNER PUBLIC MERCURY

On *Public*, Emm Gryner's debut for Mercury, she writes, sings, and plays with a stunning passion that will find fans in the Progressive and Modern formats effortlessly. Gryner was born and raised in Ontario and started writing songs at the age of ten. In 1995 she moved to Toronto from her small town, Forest, and started her own label, Dead Daisy. In 1997 she was part of the *Lilith Fair* and she has

several dates with this year's incarnation of the popular festival. We enjoyed Gryner's flexible debut, including: "Hello...," "Death...," "Phonecall," "Acid," "The End," "89 Days...," "This Mad," and the single, "Summerlong."

NICK HEYWARD THE APPLE BED CREATION/BIG DEAL

A veteran of the Punk scene and a devoted worshipper at the alter of The Beatles, Nick Heyward is the former singer and guitarist for early '80s favorites, Haircut 100. His sixth and strongest full-length album to date, *The Apple Bed*, will delight any fan of candy-coated Brit-Pop. Recorded in just over a month and mixed in a week and a half, this album

should be a priority for any station that has had success with Oasis, Michael Penn or Blur. Begin with "Stars In Her Eyes," then spend some ear-time with "Just Like Sorrow," "My Heavy Head," "The Chelsea Sky," "The Goodbye Man," and "I Don't Really Know You."

CANNED HEAT Blues Band Canned Heat Records/Ruf

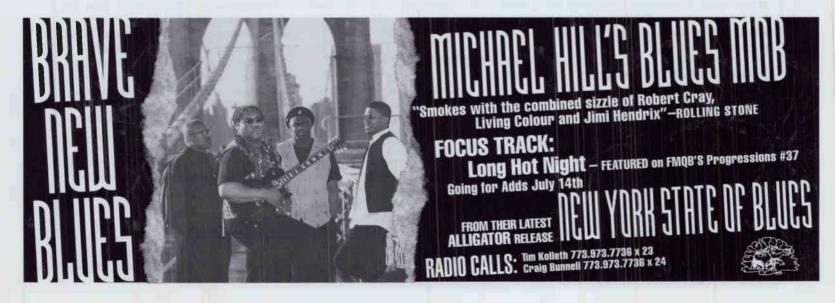

Blues Band, a twelve song collection of Blues originals and covers recorded by Woodstock alumni Canned Heat, represents the last set of music put to tape with guitarist Henry "Sunflower" Vestine, who died in Paris last October. Fans should consider this a must for their Canned Heat collection, and stations that have a history with their musical merging

of Rock, Blues and Boogie-Woogie will not want to overlook this album. We really dig "Boogie Music." From there, check out "Creole Queen," "Stranger," "See These Tears," and "Keep It To Yourself."

Focus On The Competition That Counts!

by Bob Michaels

As much as we'd like our listeners to listen only to our station, we all know that the typical listener tunes in to a number of radio stations. A savvy programmer who spends time understanding the stations that her listeners spend the most time with

will have a better chance of winning those listeners in the never-ending competition for time spent listening.

The America's Top Station study revealed that, among America's top stations in the alternative* formats, only 16% of the format's P1 listeners are exclusive listeners among all the major formats. That means even among the people who say that an alternative station is the one they listen to the most, 84% of the alternative P1 audience spends a lot of time with other stations. This tendency to stray also crops up in the TSL figure for the P1 listeners of leading alternative stations. Alternative P1s spend the lowest amount of TSL with their P1 alternative station: only 13 hours per week. This means that an alternative programmer, more than any other, should invest time understanding the stations you share an audience with.

Most programmers start with the Cume Duplication Grid in the Local Market Report. This allows you to see what percentage of your cume is shared with other stations in the local market. But, the Cume Duplication Grid doesn't show the whole story. The grid is based on Persons 12+ for Monday-Sunday, 6amidnight. Also, the book reports only commercial stations, not public or educational stations. That means, in the printed report or in third-party software, the local college station that plays many of the same tunes and artists as your station will not be found on your duplication grid.

The Truth About Arbitron And Non-Commercial Stations

Since Arbitron doesn't report non-commercial stations in the pages of the book, some long-time radio people are under the mistaken impression that Arbitron doesn't measure non-commercial and public stations. The simple truth is, we do. The Arbitron diary is an "open-ended" survey instrument, which allows listeners to write down any radio station that they listen to.

We also take the same pains to properly credit non-commercial stations. The Arbitron Station Information Package that we sent to your station is also sent to non-commercial stations as well. So when it comes to noncommercial stations, we collect the listening behavior data exactly the same way we collect it for your station. The only difference is how we report what we collect.

The printed report began as a sales tool, and in the early days of the ratings business, Arbitron made the decision to limit the stations we reported to commercial stations only. Non-commercial stations have access to Arbitron listening information for limited uses through the Radio Research Consortium of Silver Spring, Maryland. Arbitron's commercial radio subscribers have access to all the listening information we collect (both commercial and non-commercial stations) through Maximi\$er 98 and the section of the software devoted to the needs of radio program executives: Programmer's Package.

Tracking Down Your "Hidden" Competitors

The Duplication Reports in Maximi\$er 98 allow you to select your target demo and to select "All" stations. The "All" option is key when you want to find out what non-commercial stations you share audience with. Many of the reports in Programmers Package are designed to track your performance and compare it to your top competitors. Don't simply select as your competitors the stations with which you think you are fighting for audience share. Use the duplication report with the station select option set to "All" stations. Once you have the report in hand, pay serious attention to any station that shares 20% or more of your cume audience in your target demo. Don't focus too much attention on stations with which you share less than 20% of your audience. Remember, every station shares some listeners with nearly everybody else. Generally, duplication of less than 20% is not strategically significant.

Establishing Format Norms For Your Market.

I've often referred to our America's Top Stations study to talk about format norms for the alternative formats. While looking at the performance of leading stations from across the country in your format is a valuable exercise, developing format norms for your market can be even more enlightening. Using Programmer's Package, you can combine your station with any non-commercial stations that share your artists and playlists by using the combo creative screen. This way, you'll be able to create a profile of the alternative listener in your market and compare your station's performance to what your format's listener is doing in your own backyard. You can also create format norms for the other formats such as the CHR/Pop and Rock stations that tend to be the biggest P2 formats of the alternative listener.

Minding Your P1s And P2s

Once you've spotted your competitors, including your "hidden" non-commercial rivals, two of the most valuable reports you can run every survey is the "Preference Level Trend Report" and the "Shared Listening Trend" Report. The Preference Level Trend report breaks out your audience by P1s (the listeners who listen to your station the most), P2s (the listeners for whom your station is the second most listened to station) and so on. Your efforts as a programmer should naturally be focused on increasing your share of P1s, since P1s are the listeners who contribute most to any increase in your AQH audience. Keep a close eye on the changes in this report from survey to survey.

To diagnose any changes in your P1 audience from one survey to the next, look at the Shared Listening Trend Report. Be sure that you've used the Duplication Grid to find all your "hidden" and real competitors. Watch for stations showing a decrease or increase in the percent audience shared, or their TSL. This gives you solid clues as to where you may be picking up your new-found P1s, or where your P1s may be going.

Finding Your Best Prospects

In the direct marketing world, advertisers covet mailing lists of people who already buy their kind of product, especially ones who buy their competitor's product. In radio programming, your goal should be the same: go after the listeners who already "buy" your kind of programming. Understanding shared listening is the radio equivalent of getting a direct line to your competitor's customers. Once you understand the tools you have at your disposal, you can concentrate on what you got into this business for: programming to win the biggest share possible for your station and format.

| *Alternative is the format category selected by most Progressive, Triple A and Modern formats.|

The Foo Fighters have developed into one of the best Rock bands of the '90s. Their latest Roswell/

PROGRESSIONS

Rock and Roll has been defined as Country played music with a Blues and beat. if that's the case

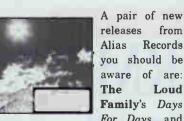

then the Roots Rock Action Figures are true to form. Lead by music business personality, R.S. Field, the RRAF have produced a great album (Calling Dr. Strong -Paladin) full of the southern roots of real Rock and Roll. Not bad for the "world's best roots producer" (as proclaimed by Michael Corcoran). Along with Field, RRAF is made up of Kenny Vaughan (Greg Garing, Lucinda Williams, Kim Richey), Les James Lester (Los Straightjackets, Webb Wilder) and Scott Baggett (Big Al Anderson, Shaver). The best thing about this band is the range of audience appeal. The discerning listener, the picky vinyl junkie, and the plain old Rock and Roll fan can all appreciate and respect the music of RRAF. With such a broad appeal, this band should be easy for your station to roll with. Every track is great, but these are our favorites: "Check Up From the Neck Up," "How Long Can She Last," "Twangeaux," and "Powerful Stuff".

Awww yeah, baby! Here 'tis, the harmonica Blues album of the year! John Weston has the chops, and then

some. Some modern harmonica players would benefit greatly from listen-

ing to this album and learning how it's really done. If there's a Blues show on your station, you must play So Doggone Blue (Evidence), but there are plenty of good tunes for the more programmer. Originally daring released on Fat Possum in 1992 this album still has all the fire and fury that made Weston a Handy Award nominee in 1993. Every song on this album is golden, but the absolute best are: "Leaving Home," "Coloration," "Squeeze Play," and "Blue and Lonesome." If you need a copy, call Vince Kershner at Evidence: (610)

releases from Alias Records you should be aware of are: Loud Family's Days For Days, and

Throneberry's Squinting Before The Dazzle. Strung together by a series of interludes (the odd-numbered tracks), Days For Days is seamless and brimming with the band's intoxicating

blend of harmonies and hooks. The lead track, "Way Too Helpful," is a

Other tracks of note include: "Businessmen Are Okay," "Cortex The Killer" and "Deee-Pression." Equally engaging is Throneberry's third fulllength for Alias. Anchored by the nicotine-stained rasp of lead singer Jason Arbenz, Squinting Before The Dazzle

is a rich blend of soulful instrumentation and Arbenz's narratives. The buoyant "See Me Off" is the lead track, but other tunes worth a spin or two are the Beatle-esque "Guerrilla Skies" and the **R&B-tinged** "Summerschool."

Rock's most well-respected storytellers, Kate Jacobs' album, new Hydrangea (Bar

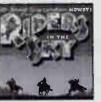

None), makes for one of those rare instances when a singer/songwriter tells you just enough to keep it interesting. With the voice of a hummingbird and the words of a well-traveled troubadour, Jacobs has earned the respect of peers, critics and fans, and now it's time for radio to trumpet her talents. Joined by a host of musical luminaries including Peter Holsapple (R.E.M., The db's) and The Bangles' Vicki Peterson, Jacobs' muse falls somewhere in between the big city and the backroads, and her effortless Pop tunes are consistently right on the money. Check out "Shallow," "Never Be Afraid" and "A Good Night For Sleeping" for further proof.

Having cut her teeth in Austin's fertile Blues scene around the same time as Stevie Ray and Jimmie Vaughan, Kim Wilson, and Lou Ann Barton, Angela Strehli clearly knows a thing or two about delivering gut-wrenching R&B. And, having jammed with the likes of Muddy Waters and Albert Collins, Strehli can certainly hold her

she own as proves on her new release, Deja Blue (House Of Blues). Running the gamut from

whiskey-soaked Blues, to moving Soul, Strehli proves that the Y chromosome knows something about the Blues [ed. note: no shit]. Our faves include "A Stand By Your Woman Man" (which bears more than a slight resemblance to Al Green's "Love And Happiness"), "Give Me Love" and the seductive title track.

Proving that here at fmqb, we like both kinds of music Country and Western we can't contain

our excitement over Riders In The Sky's A Great Big Western Howdy From Riders In The Sky. Sure to make you want to two-step, do-si-do, or whatever cowpokes do when they hear a tune they just have to move to. Riders In The Sky deliver their sound straight from the prairie (via Rounder. of course), sounding as if they're having one helluva time doing it. Load up your six-shooter, saddle-up, and dig songs like "Wah-Hoo," "Cherokee" and "Cowboy Camp Meetin'."

Dubbed A Day In The Garden, a massive two-day outdoor bill comprising a star-studded list of musical acts will be held at the site of the legendary Woodstock festival in Bethel, New York on August 14-15. Pete

Townshend, Don Henley, Joni Mitchell, Lou Reed, Stevie Nicks, **Ziggy Marley And The Melody** Makers, and Richie Havens are among the acts slated to appear. You may recall Townshend, with The Who, and Havens were performers at the original Woodstock event. According to the show's organizers, this will be a much different, and saner, affair than the original Woodstock which was an infamous chaos of disorganization. Attendees will be limited to 30,000 per day. In addition to all the great music, there will be other exciting events planned to run concurrently, including a memorabilia exhibit, seminars on the '60s, vendors hawking sundry wares and much more. Tickets are \$70 a pop, per day.

The Quarrymen, John Lennon's pre-Beatles Skiffle band, have reunited and are playing nine shows in New York and Chicago this month and next. The band's surviving five members - Pete Shotton, Colin Hanton, Rod Davies, Eric Griffiths, and Len Garry - first reunited last year at Liverpool's infamous Cavern Club, the underground spot where the Fab Four first hooked up with Brian Epstein.

The Genesis Media Group has obtained worldwide rights to unreleased material from Jimi Hendrix. According to reports, just hours before Hendrix's death, he made a surprise visit to a War show to jam with the band. War leader Howard Scott has held the tapes since Hendrix's death. Genesis plans to release the recordings sometime this summer.

Missed Ani DiFranco during her current summer tour? Don't worry, you can catch her on VH1's Hard Rock Live, airing August 28.

Lowen & Navarro have inked a multi-album deal with Intersound Records (a division of Platinum Entertainment), and will release their new album, Scratch At The Door, on September 1.

Our friends at Alligator Records dropped us a line to let us know what's up at the Blues imprint. The late Luther Allison and acoustic Blues master Corey Harris each nabbed awards from the readers of *Living* Blues, and from the Association For Independent Music (AFIM) Indie Awards. Blues Queen Koko Taylor is currently at work on her first studio album since 1993's Grammy-nominated Force Of Nature. Four tracks are already finished, including a collaboration with Keb' Mo'. No release date is set yet. Elvin Bishop's long-awaited new album, The Skin I'm In, is set for an August 11 release, as is the new album from Guitar Shorty, through Black Top Records. Speaking of Black Top. Alligator is re-issuing the label's entire catalog, which includes over 100 titles from the likes of Buckwheat Zydeco, Freddie King, Earl King, and Ronnie Earl.

Congrats to Philadelphia's own Nancy Falkow, who earned herself a spot on the Lilith Fair's Village Acoustic Stage, at the tour's suburban Philly stop (Camden's E-Center) on July 17. Falkow scored the slot by winning a competition at Philly's Theater of the Living Arts. The Lilith spot has sent Falkow on a local media blitz, appearing on ABC's Philly After Fox's Good Midnight, Dav Philadelphia and in the pages of Philadelphia Magazine. Will she still love us when she's a star?

Described by the Chicago Tribune as "A party band with a purpose," Brave Combo promise a good time wherever they go. Catch them on the road now, in support of their latest effort, Group Dance Epidemic (Rounder). 7/17, Annapolis; 7/18, Richmond; 7/21, Lancaster; 7/22, New York; 7/23, Somerville; 7/24, Bethesda; 7/25, New York.

BMG Entertainment will use AT&T's a2b MAIL technology to deliver music clips to registered users of the giant music label's Web sites, including http://www.peeps.com. The effort, set for Monday, July 13, will include BMG's Alternative, Urban, and Country releases. a2b MAIL allows high-quality music to be directly embedded into any standard e-mail communication so that artists, record companies, and retailers can alert fans to the latest releases and simultaneously provide them with audio samples from these albums. A minia2b client player is embedded in the email message.

CLUTCH THE WISHBONE MINI EP, COLUMBIA

After delivering the excellent *The Elephant Riders*, what more could we ask for from Maryland's **CLUTCH**? How about some new music? In addition to "Wishbone" and "Dragonfly," which are both on *Riders*, this EP's got two previously unreleased tracks, "Gifted & Talented" and "05." You should already be playing the first two tracks, but don't make the mistake of thinking the two bonus tracks

are filler. Both of them have the same SABBATH-ZEPPELIN swagger that marks the band's more groove-oriented stance they've adopted for *The Elephant Riders*. The band's opened up for LIMP BIZKIT and SLAYER this year, holding their own and picking up more fans at every show this year. Since Clutch is a long-term project, Columbia deserves credit for taking them on, and will reap the rewards, 'cause the bands got some great albums in them yet!

LAUGHING US EP, RISK

Ever since MINSTRY decided that trying to sound like DEPECHE MODE was pointless and plugged in guitars, Industrial and Techno have had a place in our corner of the world. Since then, bands like nine inch nails, GRAVITY KILLS, KMFDM and PITCH SHIFTER have expanded the use of Electronica in Metal. Fitting right in with the aforementioned bands is Los Angeles' LAUGHING US.

The band's first album is equal parts Rock, Punk and Electronica, but the songs that comprise this sampler lay more on the heavy side than the rest of the album. Whether you call it Dance music you can slam to or Loud Rock that you can dance to, if your station dabbles with the loud and electronic, you'll be making some room on your playlist for Laughing Us. We'd like to point you towards the WHITE ZOMBIE-esque romp of "Hot Rods (Rise Muthaf#@%?R)" (which this EP thoughtfully has an edit of), "Goin' Off" and "Hide." For more info and background on the band, check out the interview at the end of the EP of look elsewhere in this section for some Q&A with the band's Joe Faraci.

CROWBAR ODD FELLOWS REST, FIERCE

Elite critics Beavis & Butthead once commented that CROWBAR was music "to sit around and get fat to." PANTERA's Phil Anselmo produced their second album, and is often seen adorned in Crowbar t-shirts. But forget about everyone else's opinion. Crowbar's slow, deep, and hard brand of sludgy, SABBATH-like guitar rock should speak for itself. Thick, darkly moody and benefiting from solid pro-

duction, Odd Fellows Rest is arguably the best Crowbar record to date, with a risky song like "Planets Collide" opening, and with slow groovers such as "...And Suffer As One," "It's All In The Gravity," and "Behind The Black Horizon" flecking the collection of tunes. The band thanks liquor, pot, and pills, which isn't surprising since those are valuable tools that could accompany one when going on this sonic journey.

ICED EARTH Something Wicked This Way comes, Century Media

Looking for some Metal? Not Hardcore, Emo, or Death Metal, just straight up old-school Metal? Then you'll be in heaven with the latest album from ICED EARTH Two years ago, the band took the Metal world by storm with *The Dark Saga*. Not only did the band's early-QUEENSRYCHE brand of melodic Metal perk people's ears up, the concept of the album revolved around comic book character *Spawn* a full

year before the movie came out. The band followed that album up with Days Of Purgatory, in which the band re-recorded some of their hard-tofind earlier work. Something Wicked... has something for all Metal fans. Wanna check out the heavier side of the band? Put the laser to "Burning Times," "Disciples Of The Lie," and "Stand Alone." Want the melodic, yet heavy sound of The Dark Saga? Look to tracks like "Melancholy (Holy Martyr)," "Consequences" and "Watching Over Me." How about a 20minute epic? The last three songs are the "Something Wicked Trilogy," a conceptual epic in the spirit of FATES WARNING's "The Ivory Gate Of Dreams." No matter what you're looking for, if you're a Metal fan, you can't go wrong with Something Wicked This Way Comes.

CODESEVEN, A sense of coalition, the music cartel

CODESEVEN's second record finds them ushering in a Hardcore sound they seem to know well, and they do it consistently on every track. The Aggrotinged vocals of Jeff and Dave are traded up and layered into some bellowing harmonies among churning chords. "Daily Ethic" is a short, strong track where the bands Punk roots show, and on the gentle gem "Incommunicado," the band wears a

DEFTONES heart on its sleeve. Codeseven breathes some new yet angst-ridden life into their version of **DON HENLEY's** classic "Boys of Summer." It's all about the melodies, folks. The only props they throw are to the North Carolina scene in the liner notes; they retain a non-assaulting seriousness in their lyrical content. Codeseven will be a welcome addition to the rotations of those of you who have been known to spin post-Hardcore acts such as **dayinthelife** and **BOTH WORLDS**.

NEUROTICA SEED, NMG ENT.

What do we make of NEUROTICA? Well, they sure are aptly named. Their songs, and the order arrangement of these same songs is bipolar, like a manic depressive. Every odd numbered song is manic and the even numbered songs are depressive. Here's what we mean. The album, produced by AC/DC throat extraordinairre Brian Johnson, opens with "Deadly Sin," a song powered by some

heavy riffing. It is followed by "Two Worlds," which adopts a high pitched, alt-friendly tone, with an emphasis on the vocals. Next up is "If," an antireligion rant backed up by more riffing. Track four (even number) "Easy Speak" has power ballad potential. Then there's "Cornucopia," where auctioneer style vocals are built on a power chord foundation. Back and forth. Get the point? We're sure you do, and now you have a wealth of songs to unleash on your audience depending on which gradation of Metal your format leans towards. *Some more information has surfaced regarding the upcoming Family Values tour. New names Ice Cube and Rob Zombie are now on the tour, which will begin on September 23. Previously announced bands on the tour include KoRn, LIMP BIZKIT, COLD and ORGY. As you might already know, Ice Cube lent his voice to "Children of the Korn," a song on KoRn's upcoming *Follow The Leader* album. The band returned the favor by cutting some tracks with

Ice Cube, which may appear on his upcoming albums *War* and *Peace*. Another tidbit of info - the cover art for KoRn's upcoming album, *Follow The Leader*, was designed by "Spawn" creator **Todd McFarlane**.

* The Ozzfest tour began last weekend in Holmdel/NJ and fmqb was there... The action actually began outside the PNC Arts Center before the show even started. We hear that an overzealous WSOU fan chose to express his opinion of New York's K-Rock by relieving himself on the station van!! We've heard of stations dumping on each other before, but never on their vans ... MTV's Jesse Camp also got soundly booed, showing that this crowd was all about Metal, not about what MTV dictates is cool. Some highlights - LOA, the first band on the main stage, showed that their new lineup can command a huge stage as well as a club. SEVENDUST have been on tour forever, so it's no surprise they put on a good show as well. SOULFLY's World Music-Core got the crowd going by playing SEPULTURA's "Roots Bloody Roots" and "Chaos A.D." Max Cavalera's stepson took the stage for Fred Durst's rap part on "Bleed." SYSTEM OF A DOWN and INCUBUS both did a good job of livening up the second stage. LIMP BIZKIT emerged from a 13-foot toilet, which Fred Durst put to use when he paused mid-show to flush cardboard cutouts of THE SPICE GIRLS and HANSON down. Among the covers the band did was KoRn/Ice Cube's "Wicked." Of course, as you might expect, TOOL put on a phenomenal show. With Maynard James Keenan taking to the stage on the first night in a "Phantom of the Opera"-like mask and a leisure suit and wig on the second, TOOL was the first band to fully electrify the crowd. While the band didn't play any new material, they did do an extended instrumental jam before playing "Sober." We're not going to give away too much of OZZY's set, but we'll tell you that the opening video montage is funnier than ever, and that his Ozzness will be soaking fans more than he has ever before! His voice and the band (which still includes Joe Holmes on guitar, Rob Trujillo on bass, and Mike Bordin on drums), sounded great as well. The tour will continue on throughout the month, and we'll be giving you another report from the Camden show next week. Check Tourfile for the full itinerary.

* OZZFEST: 7/11 Camden, 7/12 Pittsburgh, 7/14 Akron, 7/16 Indianapolis, 7/18 Somerset, 7/19 East Troy, 7/23 Detroit, 7/25 St. Louis, 7/26 Kansas City, 7/28 Columbus, 7/30 Atlanta, 8/1 Raleigh, 8/2 Bristow.

* IRON MAIDEN/DIO: 7/10 McAllen, 7/11 Corpus Christi, 7/12 San Antonio, 7/13 Houston, 7/16 Los Angeles, 7/18 San Bernardino, 7/19 San Francisco, 7/24 Minneapolis, 7/25 Milwaukee, 7/26 Cincinnati, 7/29 Baltimore, 7/30 Philly, 7/31 Huntington.

* Speaking of Ozzy, now that he's given up drugs and alcohol, what else is there for him to give up? What about tobacco? In the August issue of *Request*, Osbourne discusses his addiction. "Tve ingested all kinds of chemicals, but tobacco in my opinion is the most addictive shit that I've ever put in my body," Ozzy claims. "I don't have many things that I'm really proud of myself , but this is one of the proudest things I've done. I've gone 12 days without a cigarette, and I wake up every morning and it's better."

* Barbra Streisand, last seen on South Park as a giant robot, got married to James Brolin this weekend, and in effort to keep paparazzi and other media from the ceremony, she resorted to Metal as a repellant. Reportedly, Babs blasted WHITE ZOMBIE's "Thunder Kiss '65" incessantly for four hours. The song emanated from a large black van parked near the presshounds. Rob Zombie responded with, "Hopefully the Funny Lady will use a track off my new album to ward off meddling paparazzi at her divorce hearing." Zombie's solo album *Hellbilly Deluxe* is slated to hit the streets on August 25 and will be on Geffen.

* Talk about flying high. ANTHRAX shot a video for "Inside Out," the first single off their latest. The concept comes from the classic episode of *The Twilight Zone* where an airline passenger spots a creature on the wing of the plane. In the video, the creature is replaced by Anthrax.

* Hearts broke when FAITH NO MORE decided to be a band no more and disbanded. But we will be hearing from the band very soon. A "best of" compilation of their hit singles, titled *Who Cares A Lot*, is coming out. "Midlife Crisis," "Easy," and "Epic" will be some of the songs gracing the collection, along with some European exclusive B-sides. Also, look for a BEE GEES cover and an unreleased track.

* Coming out on V2 sometime before the movie will be the soundtrack to Strangeland. The movie stars and was written by ex-TWISTED SISTER frontman Dee Snider. The soundtrack will consist of current Metal artists like SNOT, CLAY PEOPLE and ONE MINUTE SILENCE. The soundtrack will also feature a MARILYN MANSON remix. More info as we get it... * UGLY KID JOE has really been in the face of Metal this year, with former frontman Whitfield Crane taking over the vocal reigns of LIFE OF AGONY. Well, UKJ will resurface yet again when As Ugly As It Gets - The Very Best Of Ugly Kid Joe hits stores sometime this August. The greatest hits collection features "I Hate Everything About You," and "Cats In The

Cradle," as well as "N.I.B.," the song they contributed to *Nativity In Black*, the **BLACK SABBATH** tribute album.

* DEATH and HAMMERFALL will be teaming up for a North American tour in November. Death's upcoming album, *The Sound Of Perseverance*, will feature a cover of JUDAS PRIEST's "Painkiller" Look for it in September, but you can get an early taste of the album on our upcoming *fmqb* Metal Detector X CD sampler at the end of the month!!!!

* If you didn't catch CLUTCH on tour with SLAYER and SYS-TEM OF A DOWN, you can catch them via live Webcasts. On Thursday, July 23 at 1:30 AM EDT, Clutch will be at the Los Angeles House Of Blues and on Wednesday, August 5 at 10:00 PM EDT, they will be at the Chicago Metro. For the Webcasts, go to www.liveconcerts.com.

* With new drummer Peter Stjarvind, ENTOMBED will begin working on their next album.

* 70s disco band CHIC is releasing a live album that will feature none other than STEVE WINWOOD and SLASH of GUNS 'N ROSES fame.

* Punk rockers GREEN DAY covered some pretty Heavy Metal at The Edgefest '98 in Ottawa. The band offered up their own rendition of MARILYN MANSON's "Beautiful People" as well as some old METALLICA. They must mean Metallica circa Master Of Puppets if they really mean old. Guess playing Metal went to Billie Joe Armstrong's head, as he proclaimed "I am the king of fucking Rock." Ah, Metal does that to egos.

* Zack de la Rocha is raging in Mexico, supporting Zapatista rebels and RAGE AGAINST THE MACHINE will continue rocking. For nearly two months, the band has been writing. They will record in LA, collaborating once again with producer Brendan O'Brien.

* Congratulations to WMPG/Portland Metal Director Steve Cain, who's tying the knot on Saturday, July 11. As a result of his nuptials, he'll be freezing his report next week.

WBUZ, TOLEDO MD - MARIELLE SALAS:

Greetings From The Ultimate Buzz! Here's the story. Friday, July 3, I drove to Cleveland with my friend Bill Steele who does middays at the Buzz to see Page & Plant (again - Michael Stevens is a god). We got to the Gund arena early enough to catch the awesome remote of WMMS. Bill ran into a scalper who told us that Robert and Jimmy would be at the Ritz-Carlton bar after the show. Needless to say, the show was incredible, the seats were the best I've ever had to Page & Plant, and Cleveland completely rocks. After the show, we found the Ritz (eventually) and went up to the bar. There were quite a few fans up there, but no Page and Plant. So, we waited a bit, and then decided to find them. We got in the elevator, and some drunk business guy put his special key in for us to go up to the 16th floor. When the elevator door opened at 16, we stepped into the land over the hills and far away. In the lobby was all kinds of food and tea and such. After looking around a bit and a few souvenirs (sorry Ritz, but what if Page or Plant touched something?), we went back to the bar to wait. There were people everywhere, and within minutes Bill heard "The eagle has landed," from a CB of security. Moments later, Rock's greatest guitarist and his entourage shuffled right by us from one elevator to another. Soon after, the bassist and drummer were circulating among us, and the scalper said Robert wasn't coming down. We stayed anyway, and two minutes later, an elevator opened, and there he was. In a soccer shirt and shorts, with his golden locks flowing, it was Robert Plant. I tried to keep breathing while we planned our next move. Security wasn't letting anyone near the Golden One, and he just hung out and talked to friends and had some beers. An hour or so later, he was ready to leave. He was heading for the elevators, so I had to act fast. 1 approached him (OH MY GOD!) and said, "Robert, I have this tattoo that if you signed I could complete it and it would be the greatest thing ever!" "Better than England winning the soccer cup?," He asked. "Way," I responded. I put my foot up on the table and displayed the tattoo. The crowd gathered. The Golden God admired the tattoo, took the sharpie and started to sign. "No. not there!" I protested. "You have to sign by your symbol." "I have a symbol?" He asked. "Yeah! The circle with the feather in it," I replied, indicating that part of my tattoo. "Oh, I guess I do," He said and went to sign beneath his legendary trademark. This is no good," He complained and (GET THIS!) licked his fingers and wiped off the first signature! I died, He tried again, and again wiped it off. The crowd gasped; Robert spoke, "This isn't going to work." "Listen Sweetheart," I said," It has to work." "Don't Sweetheart me," spoke the God of Rock, "I've been Sweethearting people since your mother was in diapers." The crowd laughed. I smiled. Robert smiled back. "Listen," He said grabbing a cloth cocktail napkin, "why don't I sign this and you can take it to the tattoo shop and have it reduced for the tattoo?" He scribbled his signature while I protested. "It won't be the same!" "Of course it will. Use your head," He replied and pointed to his beautiful golden tressed head. Then he smiled and left. "Thank you!" Bill and I yelled to him as he got into the elevator. We drank a toast to Him, a toast to Michael Stevens, and drove back to Toledo. Hours later I got the tattoo

from the best artist in Toledo, and pondered what my motivation for living should be now. I'm still thinking...

WAMX, HUNTINGTON, WV PD/MD - DEBBIE WYLDE:

HOWDY! Metallica, Days Of The New, and Jerry Cantrell rocked in Columbus on July 4th. I HEARD the show was awesome. Here in Huntington, our Country station put on Freedom Fest and everyone in the Huntington Atlantic Star branch was **REQUIRED** to work. Thus, I missed the Metallica show. I am not real happy, but I proved that I AM A TEAM PLAYER! (This is by no means a dig at an ex-employer.)... ROCK ON! We have a new Screamer Of The Week: Monster Magnet with "Space Lord," which is our #1 Request. We ROCK!... Jimmie's Chicken Shack will rock Huntington on July 28. ROCK ON!... Here's a quick note for all my record buddies: It seems that most of the WAMX local reps do not cover the shows available to us. This makes give-aways, backstage passes, and promotions difficult. WAMX would love to give out tickets and even attend shows in Columbia (our most convenient location), Cincinnati and Louisville, which are the closest big cities. Please remember us when your show comes through the area. For example, Ozzfest, Van Halen, and H.O.R.D.E. to name a few. That's why September 26 is so important. The tri-state area of West Virginia / Kentucky / Ohio is starving for live music! WAMX is booking bands NOW for our 2nd Annual X-Fest. Last year, Jimmie's Chicken Shack, The Hazies, Days Of The New, Vibrolush, and more rocked the tri-state. Make sure your band is a part of this awesome Rock event!... Kicking ass on the phones: Monster Magnet, Metallica, Aerosmith, Fuel, and Rammstein... ROCK ON!

DIANE GENTILE A&M (213-333-1475):

"Once In A While," the first single from the new Dishwalla is garnering immediate airplay in over 100 markets! We are off and running with another MONSTER for the summer. Big thanks to WLZR for playing "Space Lord" in a great rotation, thus yielding the Monster Magnet CD the #1 Best Selling Rock Album in Milwaukee first week out! Big thanks to every programmer pounding this song. "Space Lord" has been #2 Most Requested Rock song for seven weeks straight! The following Programmers voted: Dan Bozyk "Monster Magnet / Album of the Year!"; Bryan Shaw / "Space Lord' Track of the Year!"; Dave Clapper / "Space Lord' Track of the Year"; Dave Sparks / "Space Lord' Track of the Year!"; Dave Kane / 'Space Lord' Track of The Year!" ... Patti Griffin's "One Big Love" is gaining great momentum at AAA and Modern AC. She's touring with Sister Hazel and then onto the Edwin McCain

tour. The N.Y. Post put it best: "Griffin sings with tremendous passion and means every word." The CD ranked #5 this week in Austin! Sold lots of records in Boston and Philadelphia! "One Big Love" is connecting with listeners. Going Top 10 AAA this week!... Hollowbodies' "Little King" is on WCLZ, WMVY and gaining interest everywhere. Special thanks to 'MVY, 'BOS, 'CLZ, 'RNX, 'DST, 'FUV, 'BMX, 'RNR and Jim Heron for your hospitality ... MXPX "I'm O.K., You're O.K." now on KROQ, KEND and WHFS!... God Lives Under Water's "Rearrange" now on WZTA. Call-out on "From Your Mouth" is BIG in Phoenix, Denver and more... Thanks to all for your support of our artists.

SCOTT "LO/JACK" DOUGLAS EPIC (212-833-5011):

No, Dennis Rodman is not becoming the sixth member of Pearl Jam except in his own mind. Hey now Dennis, have another sip of wine there, buddy!!! The Dallas crowd booed him off the stage last Sunday night — too funny for words! Meanwhile, Eddy sang "Take Me Out to the Ballgame" at Wrigley Field last week. Pretty cool... "In Hiding" is out this week from Pearl Jam. If "Wishlist" is done, let's move on!... Mayfield Four is kicking ass. Over 55 stations as we start our third week of airplay. Some early phones are starting to pop in Milwaukee and Sacramento (our first stations to play) and the record is starting to generate some interest at retail as well. This band just hooked up with Big Wreck for some dates coming later this month into August. See them live. They just get way better every time I see them. "Always" is truly not a one-listen obvious record, but once you get into it, you get it. Listen again 'cause we're building the real deal, here... Rage Against The Machine has sold over 4 million records without a significant amount of your airplay. I can't imagine what it would be like if you all just put down your prejudices and put it on the air. Play it and the phones will come. Guaranteed... All-girl Lo/Jacks to: Marilyn Mee, Cathy Faulkner, Kelli Cluque, Shanon Leder, Robin Lee, and Jo-Mama!

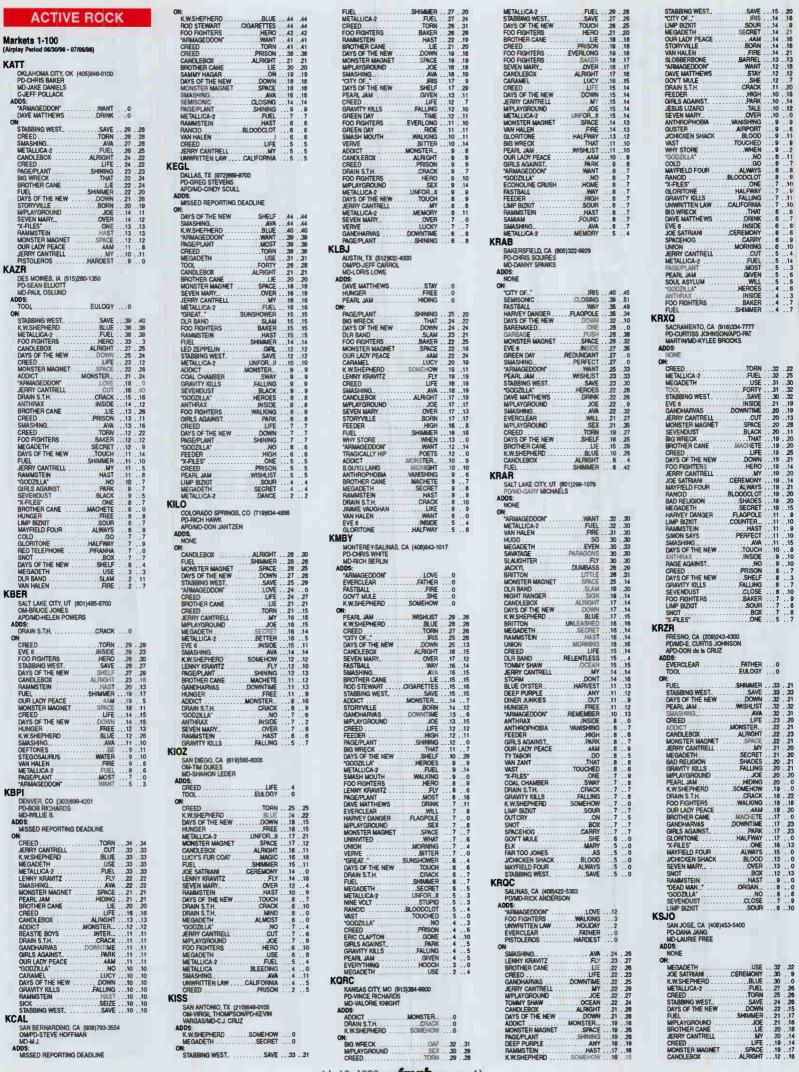

AL TAVERA ELEKTRA (212-275-4106):

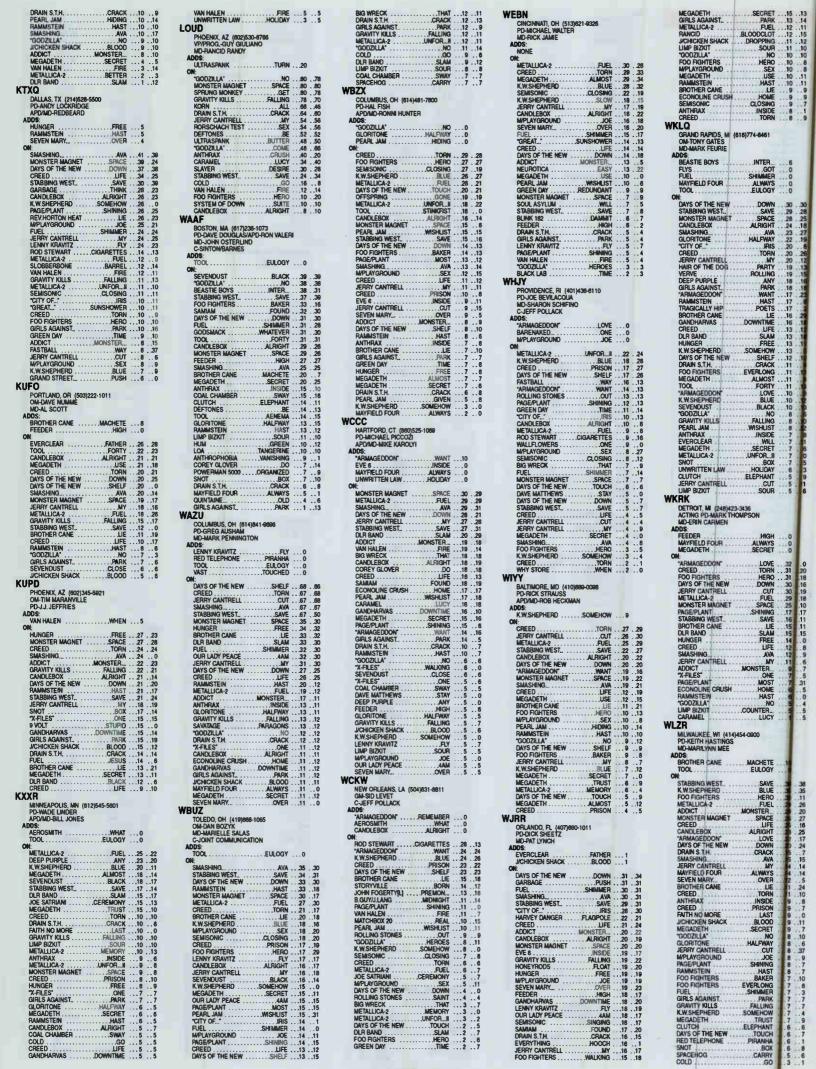

Another eight big adds on Feeder "High" including WYSP, KUFO, KBPI, WKRK, WIOT, WXVO and other great rockers. Sales are up again... If you haven't spent the time to listen to VAST, you're missing out on one of the coolest records out. Early believers include WZTA, WRIF, WAZU, KTUX and 28 other Rock sttions... Are you ready to *Re-Load* once again? Going for adds on "Better Than You" this week. Make sure you catch their latest tour when they come to your town. They are playing stuff they haven't played for a while and the reviews are huge... Next from *The X-Files* soundtrack will be Better **Than Ezra** "One More Murder" on July 27.

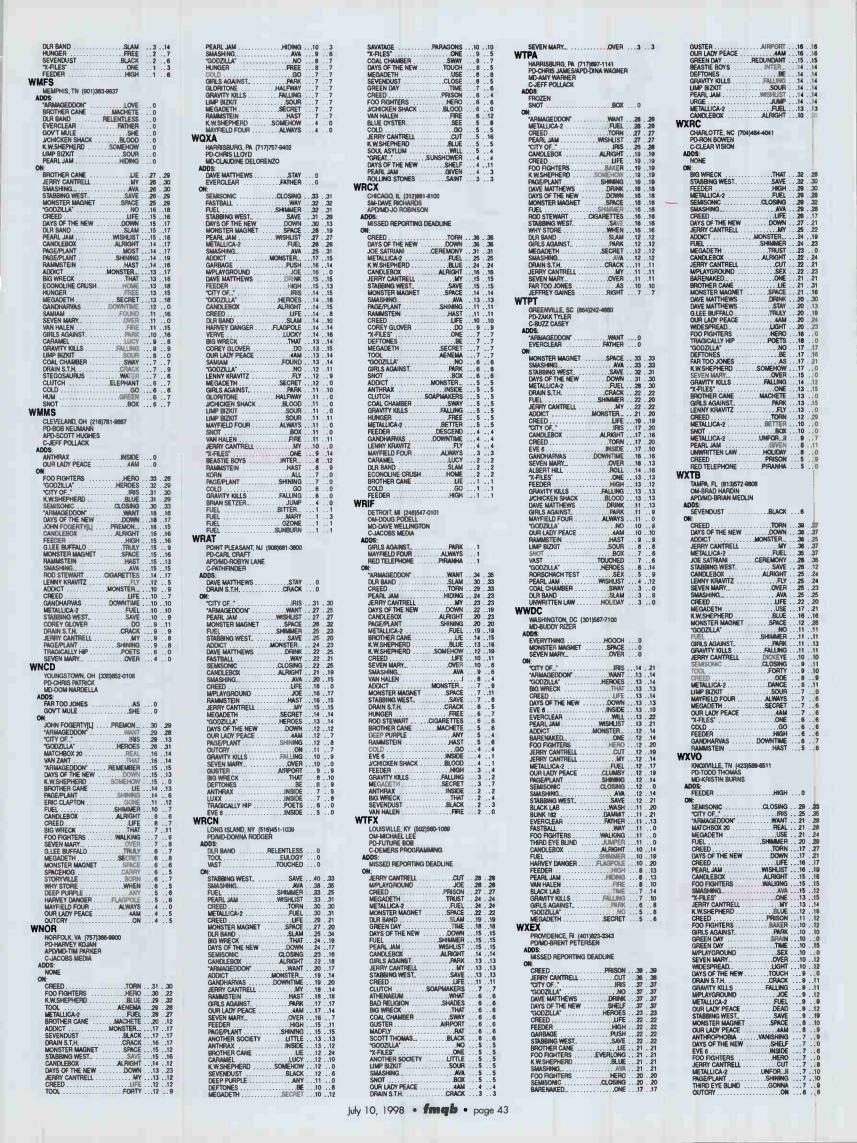

JOEY SCOLERI HOLLYWOOD (818-560-5396):

Fastball is a Rock band. Fastball is a Rock band Rock Radio should be all over. As the LA Times said, Fastball "embody the Rock elements of the Stones and Tom Petty." "The Way" is Top 15 at Rock Radio and the next single is "Fire Escape;" it's in your hands and should be on your airwaves July 20. "Fire Escape" is a stone-cold summertime Rock Radio smash, let your listeners hear it and judge. Fastball are on the HORDE tour all summer before heading to Europe for Festival dates. The Pistoleros' "The Hardest Part" picks up more new believers including WQCM, KRQC, WXKE, WRKR and is New and Active in R&R. "The Hardest Part" is a perfect all day record for 25 - 44 year-old skewing Rock stations, filled with guitar, hooks and melody... The new Brian May track is called "The Business," it's quintessential Heavy Rock - adds August 24.

Modern Picks

Pearl Jam, "In Hiding," (Epic)

In what is perhaps their most engaging track since Ten's "Alive," Pearl Jam is ready to remind the format who the boss is. "In Hiding" is a monster song with a hook as big as a mountain. Eddie Vedder's vocals are as explosive as ever, and the band has never sounded better. With the release of this single, their upcoming home video, and current North American tour, look for Pearl Jam to once again reign supreme. Early airplay at KNDD, XHRM, KEDJ, KWOD, CFNY, WROX, KROQ, WHFS, Q101, and new this week at Live 105, KNRX, WENZ, WBZU, WNFZ, WQBK, and WWDX.

Dishwalia, "Once in A While," (A&M)

When the first studio advance of *Pet Your Friends* made it's way to our offices via the Butcher Brothers a few years back (the album was recorded a mere stone's throw away from our offices at their studios), we were instantly in awe. We saw the writing on the wall with "Counting Blue Cars," and marveled at the band's ability write great, soothing melodies and rock. Singer J.R. Richards immediately came across as a star, his magnetic crooning and impassioned vocal eruptions making him stand-out. With this first offering from the band's new album, And You Think You Know What Life's About, Dishwalla passes the sophomore test with flying colors. This song is a complete smash. There will be no waiting games to be played, no one in their right minds should wait for a story on this song first. If you have ears, you have your story.

The Flys, "Got You (Where I Want You)," (Trauma)

This catchy and emotional track has a compelling build with a sonic thrust that punches you in the jaw. We've been following The Flys since their indie days, and we can honestly say that they've arrived. Powered by the **Paskowitz** songwriting team, brothers Adam, Joshua, and Peter, The Flys Rock with a soulful vibe that will lock on to you like radar. Make this a priority. Early action on this record has many believing that The Flys could be one of the bigger stories of the second half of the year. Flying high at KNDD, WBCN, KWOD, WHFS, WXRK, CIMX, KHTY, KMYZ, WBZU, WEQX, WFNX, 99X, WPBZ, and WRZX.

2 Skinnee J's, "(718)," (Capricorn)

Rock/Rap hybrids are truly an "Alternative" sound and should find a comfortable home on the Modern Rock airwaves. There are no other formats that are going to challenge you with this sound. Do the obvious thing, and make this sound and this song your own. It's explosive, and often times hilarious nature will sound incredible on the air. Don't let this popular genre pass you by (and get caught watching your audience move on to it without you). Taken from the debut, *Supermercado*. New at **KLZR** and **WCDW**.

Sister Soleil, "Torch," (Universal/UMG)

Big things are expected from this release. The buzz has been enormous and justified. Sister Soleil belts out an electric sound that is equal parts Dance and Rock. Buzzsaw guitars, lethal grooves, penetrating drum 'n' bass, and brilliant samples make this record a no-brainer. For as much that is going on in this record, it amazingly melds together to form one giganticly satisfying sound. From the much-anticipated new full-length album, *Soularium*. On at Q101, KWOD, WEJE, WKRL, and WMAD.

Orgy, "Stitches," (Elementree/Reprise)

They've been described as a heavy, dark version of Duran Duran, but not heavy in a Metal way, it's more like a technological new fashion. Personally, we haven't heard a record this energetic and slick in quite some time. It's hard and fast like a KoRn record, but maintains enough of a melodic edge to draw in even the most passive listeners. The vocals are smooth, yet rugged, and the hook is immediate and in your face. Taken from their debut release, *Candyass*.

Goat, "Great Life," (Ruffhouse/Columbia/CRG)

A volatile fixture on New York's underground live music scene, Goat has generated a rabid following. Those who thirst for hyperkinetic, funk-powered, rockin' Modern sounds will be extremely satisfied with this record (which originally appeared on the *I Know What You Did Last Summer* soundtrack. His ingenious mix of styles and sounds is a direct reflection of his musical upbringing and subsequent rise in the New York music scene. Quality production and brilliant mixtures of pseudo-Disco, Pop, Rock, and Funk is a must-listen. New and early at KFMZ, KLZR, and KTBZ.

JoyDrop, "Beautiful," (Tommy Boy)

JoyDrop cites a wide variety of musical influences, ranging from Hip-Hop and Opera, to Led Zeppelin and the Velvet Underground. The divinely schizophrenic way in which this song attacks you, switching from stretches of soft, bittersweet melodies to crunchy, more powerful guitar-driven breaks, will leave you breathless. Singer **Tara Stone** oozes confidence, seducing you on the first listen. This record is not to be taken lightly, so give it a serious look. From their debut, *Metasexual*.

Metallica, "Better Than You," (Elektra/EEG)

Never underestimate the power that Metallica has over your audience. Their followers include men and women alike, ranging from the fairly young to those that were buying *Kill 'Em All* when it first hit the stores. In other words, Metallica defies the odds and can appeal to all walks of life. Play this track, we guarantee that your audience will react. If you're looking for a guitar-driven record to spice up your playlist, this is the perfect choice. Already on at WXRK.

Pitchshifter, "Genius," (Geffen)

Pitchshifter attacks the senses with a bombardment of aggressive guitars, drum 'n' bass rhythms, and social messages. Not many bands can successfully pull that off, but Pitchshifter is clearly the exception. The Nottingham, England natives triumphantly deliver some of the sickest, most intense guitar/Dance music around. Their latest album, www.pitchshifter.com (we've been waiting for someone to do that), is quite a leap in their musical evolution, and sees the band following a more forward-thinking, futuristic path, and doing it quite well. Listen for yourself.

opitchshifter

Suggs, "I Am," (Atlantic/AG)

Taken from the star-studded soundtrack for *The Avengers*, (featuring tracks by Annie Lennox, Dishwalla, Sugar Ray, Babybird, Stereo MC's, The Verve Pipe), Suggs (late of Madness), provide a fun track that should have no problem finding a home on your radio station. It's a perfect summertime tune that is most definitely a one-listen no-brainer. Look for the movie, starring Sean Connery and Uma Thurman.

MODERN ROCK

Various Artists, For The Masses, (1500/A&M)

The wait is finally over, the much-anticipated Depeche Mode tribute album has finally arrived. Among some of the compilation's finest moments are Failure's absolutely amazing cover of "Enjoy The Silence," (remember "Stuck On You,"?? Fantastic Planet ??? - One of the most criminally overlooked and underappreciated bands of the decade), The Cure's take on "World In My Eyes," The Smashing Pumpkins' cover of "Never Let Me Down Again," God Lives Underwater's "Fly On The Windscreen," Dishwalla taking on "Policy Of Truth," Veruca Salt doing "Somebody," and Monster Magnet's brilliant rendition of "Black Celebration." Run this album into the studio and take your pick.

Unwritten Law, "Holiday," (Interscope)

"We didn't want to follow any guidelines, we just made music we wanted to hear," explains Singer Scott Russo. "We felt that if we made music we were happy with ourselves, other people would like it. People call us Punk, but it's really just '90s Rock & Roll." "Holiday" is a high-charged peak into UL's world, and has had those in the know buzzing for a while now. Be ahead of the curve, spend some serious time with this record and this band. On at 91X, XHRM, and KXTE.

The Tories, "Not What It Appears," (N2K Encoded Music)

Enjoy your free lunch? The jewel of *Wonderful Life* actually needs little convincing or gimmicks when it comes time to put new music on your station. This song is as catchy and riffy as any on your add table. If you're playing Semisonic, Eve 6, or Athenaeum, you should give equal time to the Tories. Recorded by producers Nick DiDia (Pearl Jam, Stone Temple Pilots, et al) and Terry Manning (Led Zeppelin - a little British band that wrote a few hits - maybe you've heard of them?), *Wonderful Life* is a gleaming example of Pop/Rock at its finest.

The Verve lead guitarist Nick McCabe has announced that he will not be touring with the band for the rest of the year. The announcement came in a statement from the band's U.K. press representatives, Coalition Music & Media, "McCabe's decision has been forced by the increasing stress of touring." Due to McCabe's decision and the band's need for rehearsal, The Verve had to cancel their July 10 performance at Doctor Music Festival in Spain and have rearranged some of their forthcoming U.S., Canadian, and U.K. dates, which run from July 28 to August 29. In other band news, bassist Simon Jones, who fell ill with a serious viral infection in June, is currently recovering at home and will rejoin The Verve for rehearsals next week in time to hit the road on July 28. PJ Harvey's fifth album, *Is This Desire?*, will be released by Island Records in September, with the first single from the album landing in August. The album was recorded in London during over the past year-and-

duced by Flood and Harvey. Harvey has assembled a five-piece band for some European festival dates, which will be the first live PJ Harvey performances since 1995. Harvey will play guitar and will be backed by Eric Drew Feldman (multi-instrumentalist and former Captain Beefheart, Pere Ubu and Pixies band member), John Parish (guitarist and collaborator with Harvey on the 1996 album Dance Hall at Louse Point), Rob Ellis (drummer), and Jeremy Hogg (guitarist). Is This Desire? is the first PJ Harvey album since 1995's To Bring You My Love, which sold over a million copies worldwide

Former Nine Inch Nails-drummer Chris Vrenna has signed a contract with Almo Sounds. The longterm deal will include two projects from Vrenna. One will be his long-awaited solo project, Tweaker, while the other is a full band yet to be named and assembled.

Our Lady Peace have organized their own road show for this summer. Dubbed Summersault '98, the mini tour will feature Garbage, The Crystal Method, Hayden, Fuel, Esthero, and The Gandharvas. That is just a start to the bands that have committed to performing. Summersault '98 tour stops include: 8/23 Barrie, Ontario 8/29 Quebec City, Quebec 9/3 St. John's, New Foundland 9/5 Parlee Beach, New Brunswick

-Files... Look out Lilith Fair!! Here comes Testicle Festival!!! The brainchild of KKND/New Orleans APD Rod Ryan, Test Fest (as it's known in shrinkage form), is a month long celebration of being a man that started on the Fourth of July weekend. "It started as anti-Lilith Fair," Ryan told fmqb, "but then we just started going off. Girls get Ladies Night and can go out and drink free seven nights a week if they wanted to, so we're going to celebrate being a man for a whole month." The kickoff weekend to Test Fest was a relatively tame ticket giveaway to ultra-male band Tool's area performance. With July 11 being the busiest gambling day of the year (think 7/11), The End is registering people all week long for a bus ride to Mississippi and a day-long visit to a gambling joint. Cigars, beer, food, and more are being supplied to the winners for their day of gambling. On July 18, the Test Fest starts rolling with a motorcycle run to benefit Cerebal Palsy. Rod Ryan will bust out his hog and ride with the over 200 bikers already registered for the event. Testicle Festival moves to the golf course on July 25 with the innaugural Test Fest Open. Not only will the participants enjoy a day on the links with cigars and beer, but Hooters Girls will be raffled off during the day as well. On August 1, the Testicle Festival Concert puts the wrap on Test Fest. Dash Rip Rock will supply the tunage as attendees chow down on red meat, smoke cigars, drink beer and enjoy the sights of a wet t-shirt contest, a bikini contest, and a muscle car and motorcycle exhibition. Test Fest has "turned into a catalyst for the sales staff," according to Ryan. "Cigar companies have come on board and Testicle Festival has made for great added value for the beer companies." Production Director Jason Ginty has been putting in a lot of time with sweepers, including these choice ones: "This is a kittens and yarn free zone" and "This is anti-Lilith Fair, take your PMS somewhere else." With all the testosterone being pumped out of The End, there has not been much of a backlash from the station's female listeners. "I haven't taken much flak on the air," says Ryan. "The response has been great, except for a couple chicks. The phones have been crazy for it. People have been calling, going nuts." We don't think any pun was intended... WENZ & WNCX/Cleveland promotion coordinator Kevin Cocca has landed on MTV. Cocca was chosen by the music entertainment network as one of the people who will be featured on the show Fanatic. The program gives persons a once-in-a-lifetime chance to meet and spend time with their favorite artist. Cocca was selcted for a trip to Los Angeles to hang-out with Lenny Kravitz ... WBRU/Providence checks in with more dates for their Summer Concert Series. The annual summerlong series moved to a new location this year at India Point Park, a 6,000 capacity venue that is on the east side of Providence, overlooking Narragansett Bay. Upcoming dates include: July 30 - Black Lab & Athaneaum • August 6 -Fastball & Candlebox • August 13 - Seven Mary Three & Far Too Jones • August 20 - Harvey Danger & Amazing Royal Crowns... Speaking of Amazing Royal Crowns, their performance for WBRU will be one of the last under that name as the band has been ordered to change their name per a judge's ruling on June 29. The decision stems from a suit filed by Warner Bros. recording artist Royal Crown Revue. Amazing Royal Crowns, who are on Monolyth/Velvel, have until August 31 to come up with a new name. Royal Crown Revue alleged that the similarity of the names would cause confusion for the fan, consumers, and the music industry as a whole, and that this confusion would cause Royal Crown Revue and their record label loss of revenue. Amazing Royal Crowns' self-titled debut album came out in April 1997 on indie label Monolyth and was reissued on Velvel in April 1998. They earned four Boston Music Awards this year for best club band, best rising star, best video for "Do the Devil," and best debut album. Royal Crown Revue have had three albums out on various labels and have a new album on Warner Bros. due this fall... Celebrating the 4th this year, both KOZN/Kansas City and KPNT/St. Louis played a pair of songs from a station artist every hour, and

gaveaway tickets and prizes all weekend long. One of KOZN's prizes included tickets to see Blues Traveler on the H.O.R.D.E. tour via the best seats in t house (the stage!)... WFNX/Boston let British and American artists duke it out over the weekend by letting listeners vote to determine the winners song battles between each nation's artists. "Independence Day Weeken duels included Nirvana vs. Bush, Rancid vs. The Clash, The Pixies vs. T Smiths, Patti Smith vs. Kate Bush, The Smashing Pumpkins vs. Radiohea Iggy Pop vs. Elvis Costello, and Tori Amos vs. PJ Harvey, to name a few. T war lasted all weekend, and concluded with the good ole U.S.A. winning one battle ... WKRO/Daytona Beach presented excellent up-to-the minute c erage to residents in the area that were caught in the midst of some of t worst brush fires in history of the state of Florida. All four stations owned by Black Crow Broadcasting (WKRO, WYVB, WHOG, and WNBD) simulcasted much needed emergency information to the fire-plagued Floridians a helped support efforts by local fire departments and the Red Cross. Barenaked Ladies' Beantown Bustle

On Tuesday, July 7, the City of Boston found out that Barenaked Ladies can cause quite an attraction. The Canadian quintet of Jim Creeggan, Tyler Stewart, Steven Page, Ed Robertson, and Kevin Hearn caused a stir that hasn't been seen in Boston since Green Day's infamous Hatch Memorial Shell performance in 1993 that stopped traffic along Storrow Drive. Presented by retail outlet Newbury

Comics, Barenaked Ladies performed a free concert on a specially constructed stage at the chain's store right around the corner from City Hall Plaza. The show was held to celebrate the release of their new record, Stunt, which was going on sale at midnight. According to reports, roughly 70,000 people showed up for the event. One on-looker described the scene as a "sea of people constantly coming in from the T stops near the sight." The radio neutral event found WBCN, WBMX, WBOS, and WXRV all on-sight, with WBCN and WBMX actually broadcasting live from the event. WBCN was the only station to interview the band live on the air. The stir that Barenaked Ladies caused also landed the band the lead story on two of Boston's network newscasts. Since the Stunt CD itself couldn't be legally sold until midnight, Newbury Comics sold CD sleeves instead, which were redeemable for the actual CD later that night or by the end of July. According to Newbury Comics spokesperson Trish Chapman, close to 1,200 copies of the record were sold and the band stuck around for close to four hours after their performance to sign autographs.

Since the release of Gordon, the band's now-classic 1992 debut, Barenaked Ladies have been on a steady creative and commercial rise that culminated in early 1998 when the quintet earned its first-ever U.S. gold record with Rock Spectacle. Barenaked Ladies began in 1988 when the band formed as part of Toronto's burgeoning Alternative music scene. The 1991 release of their independent EP signaled the band's popular potential, as the hit single "Be My Yoko Ono" helped the collection become the first independent release in Canadian music industry history to go gold. Barenaked Ladies signed a major label deal with Sire/Reprise Records a year later and released Gordon, which was No. 1 in Canada for eight weeks and earned them Group of the Year honors at the Juno Awards. The 1994 album Maybe You Should Drive and the enhanced 1996 Shoe Box EP followed Gordon, but it was later in 1996, when the band released Born On A Pirate Ship, containing what would become BNL's first legit stateside hit, "The Old Apartment," that the band broke through in America. It took nine different radio campaigns by Reprise before the song ultimately cracked Top 40 one full year after it was first released.

1997 was the year the band finally broke. Sales of *Rock Spectacle* - recorded live-in-concert at theaters in Montreal and Chicago during BNL's sold-out Spring '96 tour - began to explode and multi-format radio play for the newest version of "Brian Wilson" exceeded all expectations, giving the band their first certified-gold U.S. album and first crossover Pop smash. What's more, *Rock Spectacle* spent more than a year on *Billboard*'s Heatseekers chart, peaking for two weeks at No. 1 before graduating to the magazine's Top 100 list.

WE FEEL THE LIKE WE HAVE QUITE LOCK **ION** MORNING IN ST LOUIS TO QUOTE TALENT DEMO, DONN IN BRASCO "FORGETABOUTI

Howard, because each one of these shows is just so talented. One will be No. 1 and slip to No. 2 as the other goes from No. 2 to No. 1., so on and so forth. The bottom line is that we feel like we do have quite the lock on morning talent in St. Louis. In demo, to quote Donny Brasco, "Forgetaboutit." In the Winter book, Bob and Tom were No. 1 with Men 18 to 34 and they were No. 1 with Men 25 to 54. Steve and DC were No. 1 in Women 18 to 34 and that's where we expected them to really establish themselves. With Women 25 to 54, they were No. 3 and doing great with men as well. Men 18 to 34 they were No. 3 and Men 25 to 54, they were No. 3. With Bob & Tom and Steve & DC ratings like that, and now with Howard in the mix, I'd say that we're right on track

Prior to WRCX/Chicago picking up the show, St. Louis was Bob & Tom's biggest market. How long did it take for them to impact?

Their impact has just been extraordinary. We knew before putting them on the air that there would be a few hurdles to get over. We knew that we would have to get listeners past the idea of having a morning show via satellite from a foreign market. It was also a hurdle putting a show on "Real Rock Radio" that doesn't play any music. We knew that we would have to be patient if we believed, and we do believe, that it's great entertainment that wins out in the long term. Some 2 1/2 years now after putting them on the air, it's so nice to look back and recognize that, at times, patience pays off and pays off with dividends.

Let's talk about the decision to move Steve and DC from Q104 [WKBQ] to Kix Country.

For starters, I have to go back to a format search that we did in the Fall of 1996. At that time in St. Louis, Emmis owned only

going to do an LMA with WKKX and what was WKBQ [and is now "Extreme Radio"] in December of 1996. It looked liked we were going to be able to become owners early in 1997. So, we certainly wanted to do our homework and find out the best route to go with two new properties in St. Louis. Our research showed that, more than any other musical format, there was by far more listening preference for the Country format in this market than anything else. We figured, okay, there's one of the decisions made, we're staying Country with WKKX. We also found that, as so many industry people did back at that point in time, that there was a lot of preference for what was being called the Modern AC type of music. In St. Louis, nobody claimed ownership to those music images. We figured that there's our second decision. With Steve and DC in this whole decision making process, we realized that we had two great talents that we had to find a home for — just had to. We would have been silly to not have them be a part of the master plan. Bob and Tom were already on KSHE, so it wasn't going to happen there. So, we looked at the two proposed directions we were going, and figured that we really had to let the music speak for itself on the Modern Adult Contemporary station. So Kix would be the home of Steve & DC. We knew that we were going to take a chance of putting Steve and DC on a Country station, but there were a handful of stations that we took a look at across the country that had put very high profile "push the envelope" type of morning shows on, like Randy Miller in Kansas City, among others. We figured that we could make this work. In retrospect, it's great to be able to say it's wonderful when a plan comes together because it is indeed working.

When you signed Howard Stern to do

mornings on Alice, it seemed like an odd match: Howard with tremendous male appeal in a format known for attracting women. Explain your original thinking in that unusual marriage.

Out of the gate, we were very successful in getting the word out that there was a new station at 104.1 FM in Alice. we were successful in getting the word out that we were the station for Alanis Morissette, Sheryl Crow. Natalie Merchant, Tracy Chapman, and the Gin Blossoms. That was our objective. We realized all along that, in the long haul, we would have to put a compelling morning show on that frequency if we were going to be as successful as we wanted to be. But we got to a point where it became that much more urgent because, as with most Modern AC stations across the country, the Modern AC format was looking rather suspect. So the idea of getting a strong morning show became that much more of a "let's deal with it as soon as we can" type of issue. We felt that Howard Stern would be coming to this market at some point in time and figured this is a great opportunity for us, as a multiple station operator in St. Louis, to have a heck of a plan as far as owning morning radio goes. We would also breathe some new life into Alice because the Modern AC music itself was taking the radio station just so far. We knew that what we were matching up was going to raise a lot of eyebrows because you just have to take a look at the list of stations that Howard is on to see that it's predominantly Alternative and Active Rock. WALC was the only Modern AC station with Howard Stern on in the morning. We decided to just go with it, get him in our camp, take complete ownership of mornings as a broadcast group and evolve the music at Alice. We began to do that at least three months ago, when we started paying attention to males in our research. In

most instances, Howard is going to have an audience that is between 60% and 80% male. We needed to make some musical adjustments that would pull some of those men through the rest of the day and not chase away our women listeners. Alice always did have a great cume. We have been saying throughout these last few months that we were evolving. How far we were going to go with it and at what time we were going to zig or zag was unclear. But all of that should be very clear since we put Extreme Radio on the air.

So, Howard, in essence, was a precursor to Alice heading towards Extreme Radio?

At the point when we put Howard on Alice we were not black and white about where the music was going to go. All we knew was that by putting Howard on we would have to evolve. But when we put him on in March, we didn't know definitively where it was going to lead. Extreme Radio is the product of a lot of conference calls and strategizing for a good number of weeks.

Tell us about the change in direction from Alice to Extreme Radio.

Extreme Radio is a mass appeal Contemporary Rock station; let the industry call it what they will. I believe that they'll call it Active Rock, even though the biggest percentage of our music is Alternative. Since we play some Led Zeppelin, Van Halen, Aerosmith and Ozzy Osbourne, no one will call us Alternative. We target men 20 to 35 and the overall objectives for Extreme Radio are: 1) To have a musical format that is consistent with Howard and his male listenership; 2) To have an ally to KSHE. We believe that we have the opportunity now between KSHE Radio and Extreme Radio to completely own the Rock arena, to completely

own male demos, and, along the way, put quite a significant hurt on The Point which will further enhance KSHE's prominence in the rankers.

What are your core artists for Extreme Radio?

Pearl Jam, Stone Temple Pilots, Nirvana, Green Day, Smashing Pumpkins and, of course, *Alice* in Chains.

What current material would fit on Extreme Radio?

We're putting in a mix of songs that people would regard as both Alternative and Active Rock: Creed, Stabbing Westward, Smashing Pumpkins, Metallica, Pearl Jam, Semisonic, Harvey Danger.

KSHE was one of first AORs in the country. Run us through the different eras or periods that the station has gone through.

To cover thirty-one years is quite the request. What I will do is just spin through the years really quick. The station started in '67 as truly an Underground Progressive radio station with an extremely broad library and a lot of young listeners. When I started at the radio station in 1976, we were still playing 2000 songs out of our library. In 1984, when Emmis took over, the radio station became more focused than ever. Research began in a significant way; marketing kicked in a significant way. We brought to town a first of its kind for a St. Louis morning show. It was just a much more sophisticated way of doing business and it translated into the largest ratings that the radio station had ever seen by far and really got us into a whole new era of 25 to 54 year old prominence. If I would highlight another era, it would be from '91 to '94. Those were the days that I was not programming the radio station. It got quite hard for most of those years and got

away from a lot of the dimension that the radio station had possessed. When I got back in '95, we did a lot of bringing back the station to its roots and getting it back into that multi-dimensional position that I just mentioned, with not only music being our calling card but personalities on the radio station being that much more important than they were there for a while. That's when we put Bob and Tom on the air. We also have a line-up of air personalities that have been in this market and at the station a long time. They have a lot to offer, so they were given more room to be the personalities that they are. We brought back a lot more fun to the radio station, a lot more production sizzle, a lot more lifestyle stuff that seemed to get pushed off to the side.

What specifically have you done to revitalize KSHE?

To revitalize is a constant challenge. However challenging, it is imperative. We must regularly revitalize in all areas of our programming operation. When it comes to music, we've got to make sure we're not just the Rolling Stones, Eric Clapton, Pink Floyd radio station. We must incorporate the type of current and recurrent material that compliments the Heritage acts. We must have air personalities who are not stuck in any particular era but are, rather, very much in touch with the listener lifestyle today. Our production elements must not only be fun and interesting and dynamic to listen to, but very topical and timely as well. Our promotions must also be in sync with what our listeners are interested in. Our marketing must be uniquely KSHE. And it must be marketing that does much more than position us as the station that has been around forever. Revitalization is something that we must be thinking about in every area of our every day.

EXTREME RADIO IS A MASS APPEAL CONTEMPORARY ROCK Station; let the industry call it what they will.

How do you work to attract and keep at-work listening at KSHE?

What that amounts to is just putting the best damn product on the air that we can. We really don't spend a lot of time with TSL campaigns specifically zeroing in on at-work listening or at-work fax attacks, etc. We just make sure that what's coming through the speakers is as good as it could be whether our listeners are in their car or at home or at work is what is key.

Give us a rundown of the KSHE air staff?

Bob and Tom in the morning have been with us for 2 1/2 years. John Ulett has been with the radio station for 22 years, and he is part of that Bob and Tom morning show, locally, but also does 10 A.M. to 1 P.M. weekdays. He is followed by Al Hofer, our Assistant Program Director and Music Director. Al has been with this radio station for 18 years. Randy Raley follows from 3 P.M. to 7 P.M. He's been with the station for over a decade. Guy Favazza has been with us half-a-dozen or so years and covers nights. Then it's our all-night person, K.C. Clarke, who has been with us for six or so years as well.

Apart from your time at

WLUP/Chicago, you've spent most of your career in St. Louis. How had the market changed when you returned?

It was just a more crowded Rock arena. It was more crowded as far as morning show talent goes. It also seemed that the broadcasters in the market at the time were spending more money than ever to back their properties.

With KSD going back to Classic Rock, what does that mean for the Emmis/St. Louis Rock properties? In my opinion, KSD never left Classic Rock. They, throughout the years, have always had some form of Classic Rock on the air. They have been susceptible to being a Classic Rock format of the month

type of radio station though, because they would adjust one way or the other with regularity. It's always been some form of Classic Rock nonetheless. What that means for the Emmis St. Louis Rock properties is business as usual.

How is Jeff Smulyan's ownership and operating philosophy different from that of other group heads?

People-oriented is a term that has been used so much in recent years but I firmly believe that it epitomizes what Jeff is looking for in his company and from all his managers. He believes it is very important to be collaborative, and very important to be in touch. It was just last week when he came to visit St. Louis. He got the entire staffs together of all three of our stations and basically did a good old-fashioned town hall meeting. There were no questions that were taboo. People were able to either jot down on an index card and pass along a question or just stand up and ask the question, and he fielded every question one after another. It's very, very important for Jeff's stations to have this open communication, this open door type of environment. Every year, Emmis does an employee survey and every employee is requested to fill it out, and I understand that Jeff reads every single response verbatim. Managers in each one of our markets are responsible for responding to questions and problems and needs that arise from this survey. Everyone is a stockholder in Emmis Broadcasting. I think to really make my point I would cite the Ten Commandments of Emmis which include: Be flexible - always keep an open mind; Be rational- always take a look at options: Have fun - don't take this too seriously be an "up person"; Never get too smug; Don't underprice yourself or your medium - don't attack the industry - build it up; Believe in yourself - if you think you can make it happen, you will; Never jeopardize your integrity - if we can't win the right way, we'd rather not win; Be good

to your people - get them into the game plan - give them a piece of the pie; Be passionate about what you do and compassionate about how you do it; And finally, take care of your listeners and your advertisers - think of them and we'll win.

What have you learned from working with Group PD Rick Cummings?

I've been working with Rick since 1984 and have learned from him in all areas of programming, research and marketing. He is a masterful strategist and I like to believe I have picked up quite a bit from him. I owe him a lot! I also learned that I still don't like Scotch.

Do you share any programming ideas with other Emmis programmers and their stations?

Yes we do. If nothing else, we all get together for Emmis corporate meetings once a year. But beyond that, I must admit the sharing is limited; it's not the type of exchange that we really could or should have. I'm sure we all have good intentions when it comes to staying in touch. It seems like when we talk, one of us is looking for some help from the other, rather than regularly touching base. I was certainly very interested in talking with both Peter Smith and Greg Duncan at our Indianapolis properties [WENS-FM, WIBC-AM, WNAP-FM, WTLC-AM, WTLC-FM] before putting Howard Stern on the air, since they picked Stern up in Indy two months before us. So we are in touch, but I'm sure we would all be better for it if we did more of it.

And finally, will Mark McGwire break Roger Maris' homerun record of 61 in one season?

Absolutely! 1998 is the year of Mark McGwire. 1998 is also the year of Emmis/St. Louis. So Mark will hit either 94.7., 104.1, or 106.5 home runs. Count on it.

Cover Story

Rick Balis Gets His KIX in St. Louis with Real, KIREME Radio

Rick Balis has spent the majority of his career in the Gateway City, programming the legendary KSHE. Over the years he's helped mold one of America's original AORs into the Sweet Meat beast that it has become. He's seen the station evolve from an FM bastion of late '60s counter culture into one of Emmis Communications' crown jewels. Balis understands what it takes to hold on to KSHE's heritage while continuing to move forward. He was instrumental in bringing The Bob & Tom Show to St. Louis and making it work on "Real Rock Radio." When Emmis began to expand in St. Louis, Balis orchestrated the unorthodox move that put Steve & DC on New Country WKKX (Kix) in 1996. An even bolder morning maneuver was made in March of this year. That's when Howard Stern penetrated Alice. Now, as a June press release from Emmis stated, "Alice doesn't live here anymore." The station's Modern AC format has been upended in favor of Extreme Radio, an Active / Alternative Rock hybrid. But wait. We're jumping ahead of ourselves. Let's hear it from the man himself, Emmis/St. Louis **Director of Programming Rick** Balis.

Tell us about the Emmis cluster in St. Louis and how each of the stations are positioned.

First of all, KSHE is a Classic-leaning mainstream AOR station, and we target men 30 and older. There is now Extreme Radio [WALC] that we are calling a mass appeal

contemporary Rock station that targets men 20 to 35. We have also have Kix [WKKX] which is a New Country station that targets women 20 to 40. The big picture goal for each one of the Emmis St. Louis properties is to dominate in the persons 25 to 54 demo.

CBS is swapping Oldies KLOU and Classic Rock KSD to Jacor, which will then own six St. Louis stations. What effect will that have on the market?

They're obviously going to own that much more real estate. It's a perfect example of the same market-multiple station ownership maneuvering going on these days. As far as the properties that they're picking up are concerned, I can't see that they would do much with KLOU, because it is pretty consistent. It does decently and I would anticipate that they're just going to keep that niche for themselves. But KSD is a different story. That's the station that, for a long time, has had very anemic ratings. So, I am sure that they are giving some long, serious thought to what they may do at that frequency. I'm sure they're going to find it difficult trying to find a hole in the market.

Who are the other players in St. Louis?

Other than Emmis, Jacor and CBS, there's really only Sinclair, owner of Country WIL-FM and The Point [KPNT] which is Alternative. They also own KIHT which is the Greatest Hits of the '70s, The River [WVRV], which is some form of AAA, and WRTH-AM which they describe as Nostalgia.

With Bob and Tom on KSHE, Steve and DC on Kix and Howard Stern on Extreme Radio, Emmis is trying to corner the St. Louis morning show market. How are you doing in achieving your goals?

We are right on track. It's too soon to tell what contributions Howard will be making-we just put him on the air on March 24- but we are extremely confident that he is going to certainly be a top morning show in the market. But as far as Bob and Tom and Steve and DC go, they're just nailing it. Let me reference the last book and the first two legs of the Spring book. Persons 18 to 34 in the first trimester of the Spring book, Bob and Tom were No. 2, now they are No. 3. Steve and DC in the first trimester were No. 1; they remain No. 1. Persons 25 to 54 in the first trimester, Bob and Tom were No. 1. They are now No. 4 and Steve and DC were No. 4, now they are No. 1. If you go back to the Winter book, Bob and Tom in Persons 25-54 were No. 6 but that was a mere share and a half from No. 1. Steve and DC were No. 2, just a 1/2 share from No. 1. A back and forth swing is something we anticipated with Bob and Tom, Steve and DC and continued on page 69
