#### COVER STORY

68

Production boundaries have begun to break down between radio formats. Imaging has become an anything-goes-as-long-as-itgets-the-message-across entity. More than ever, it's important to have a capable Creative Director on your staff. KROQ's John Frost, WKLS' Rich Van Slyke, KDWB's Kelly Doherty, and WXDX's Steve Stone explain how to keep creativity flowing, what it takes to avoid production burnout, and what opportunities and challenges lie ahead for producing your radio station.

The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. Grade: An index based upon combined MRI, Burn and Unfamiliar Scores. Music Response Index (MRI):

Appeal of each song within the indicated sample group on a 0 to 110 scale. Burn: Percent of the indicated sample that claims to be "tired of the song." Unfamiliarity: Percent of the indicated sample reporting "don't know it." This information is excerpted from The Tracking Report and is reprinted with the permission of Kelly Music Research, Inc. #### **Universal-PolyGram Merger: Massive Restructuring Ahead**

As Seagram gets closer to consummating its \$10.4 billion acquisition of PolyGram in December, plans of a major restructuring throughout the PolyGram and Universal music groups have surfaced. According to the Los Angeles Times (11/10), Seagram intends to slash \$300 million from the combined company, to be called Universal Music Group. Up to 20% of the combined companies' workforce of 15,500 people could be let go.

The cost cutting will consolidate Universal and PolyGram's U.S. music divisions into four large groups. All will fall under the direction of Universal Music Chairman/CEO Doug Morris. And, as earlier reported (fmqb 7/17), Bruce Hack has been tapped as Vice Chairman of Universal Music Group. Zach Horowitz has been named President/COO, and Jorgen Larsen has been named Chairman/CEO of Universal International (fmab 7/3).

In Los Angeles, Interscope and MCA will become the dominant players. Seagram-owned Universal plans on purchasing, by the end of the year, the remaining 50% of Interscope it doesn't already own for \$40 million. Geffen and A&M, which already fall under the Universal umbrella, will be downsized and become part of the Interscope Music Group. Interscope co-founders Jimmy Iovine and Ted Field will run the Group along with Interscope President Tom Whalley. Geffen and A&M will keep their own

A&R departments and marketing divisions and continue releasing music under their current names. However, their staffs and artist rosters will be reduced. There's no word on whether Geffen Chairman Ed Rosenblatt or A&M Chairman Al Cafaro will remain with the restructured company. MCA will emerge unscathed, the Times reports, with Jay Boberg continuing as President of the label.

In New York, Def Jam and Motown will be folded into Universal Records. Universal Records Chairman Mel Lewinter will oversee the expanded label, along with Jean Riggins, the President of Black

#### **Cunningham To Program** Channel 103.1

Jacor's Progressive duo in Los Angeles - KABC/Santa Monica-KBCD/Newport Beach - has appointed Keith Cunningham Program Manager. Cunningham will be responsible for overall management of the Channel 103.1 programming department and will work closely with KBCO/Denver PD Dave Benson, to utilize Jacor's synergy in creating programming and marketing opportunities for the station. Cunningham is in the process of relocating from Denver to Los Angeles.

"Keith and I have worked together before and I am happy to have him on board," declared Benson. "He has worked for some very successful radio stations and we feel he's the perfect Program Manager for Channel 103.1. He also has a tremendous understanding of the World Class Rock format that will enable him to bring valuable experience to the station.'

#### **Biery Heads WB Promotion Boulos Named Sr. VP/Promotion. East Coast**

Tom Bierv

Warner Bros. VP/Alternative Promotion Tom "Grover" Biery has been promoted to Sr. VP/Promotion, overseeing the label's entire promotion efforts. And former Epic Records Sr. VP/Promotion John Boulos has joined the label as Sr. VP/Promotion, East Coast, based in the company's New York office.

Warner Bros. President Phil Quartararo told fmqb, "It goes without saying that the major challenge of any record company is not just to find exceptional new talent, but to bring that music to the widest possible audience. Over the past few years, Tom has, again and again, proven his ability to do just that. He's

an executive who not only understands music's new directions, but has helped to define those directions. I'm delighted to have someone of Grover's caliber to head this critical area."

Warner Bros.' Executive VP/GM Andv Schoun added, "Tom exemplifies a whole new breed of promotion professional. He has a thorough working knowledge of radio's often complex perimeters and is driven by his passion for music and our artists. Working with the best staff, and the most exciting and diverse artist roster in the business, Tom is uniquely positioned to maximize his extraordinary abilities." John Boulos

#### 1999, A Year Of **Integration For Chancellor & Capstar**

Capstar's controversial Star System is now being used in 80 markets and approximately 150 dayparts, with more to come. The system, which allows Capstar to move programming from one market or center to another, is not being confined just to small markets. "Market size doesn't matter" when it comes to the system's effectiveness, Capstar CEO Steve Hicks said in a November 10 press conference. Integrating Star System into the soon-to-be combined Chancellor-Capstar entity is also being discussed.

Speaking to investors, analysts and journalists in back-to-back press conferences that coincided with the release of third quarter earnings, Capstar officials said they are continuing to combine facilities and integrate stations, a development process that's now around 75% complete. On the financial side, Capstar says its cash flow margins are up six points to about 41%, putting them within striking distance of their 45%-plus goal.

When Chancellor's \$4.1 billion purchase of Capstar was announced last August, officials predicted a second quarter 1999 closing date. Now they're pinpointing a mid-April settlement. 1999 will be a year of integration and assimilation for both companies, and, in the words of Chancellor CEO Jeff Marcus, "getting these things to work." As Marcus has said before, Chancellor's acquisition phase is mostly complete, save for some strategic tuck-ins and fillins, like adding a fifth FM here, or a handful more billboards there.

Marcus also declared super duopoly selling a success and said Chancellor will focus on radio-out door combo and cross-selling. There could be more strategic swaps to strengthen local combos.

Marcus had nothing but praise for radio group head Jimmy de Castro and his management team de Castro is bullish on Chancellor'

## Loscalzo Upped To SW VP/Programming

John Loscalzo

SW Networks Sr. Director/Programming John Loscalzo has been named VP/Programming of the network. In his new role, Loscalzo will continue to supervise all SW entertainment news and programming content.

"John's well deserved promotion is a reflection of the contributions he has made to help bring SW to the forefront of the entertainment news industry," SW Networks President/CEO Dan Forth said. "As VP of Programming we are confident that he will play a key role in taking us to the next level of success as SW continues its rapid

growth."

"We've assembled a great programming team at SW over the past year, and together we are developing the best music and entertainment news product in the industry," Loscalzo added. "I look forward to all of the new products and services we'll be creating together. Most importantly, I am grateful for the opportunity to work with the talented staff at SW."

Loscalzo held his most recent position at SW Networks since January 1998. His career began in radio, working for WPDH/Poughkeepsie, WRCN/Long Island, KROQ/Los Angeles and WDRE/Long Island. Loscalzo left 'DRE for a position at Rock Airplay Monitor before joining SW Networks.

Biery began his music career in Ohio radio and record retail in the mid-'80s, where he created the on-air persona of "Grover." He joined Warner Bros. Records in 1990 as a Promotion Manager, working over the next five years in Cleveland and Chicago. In 1995, he relocated to Los Angeles when he was named to his most recent post, VP/Alternative Promotion.

Regarding the addition of John Boulos on the east coast, Biery remarked, "John is something of a legend in our business and with good reason. Not only is he one of the most knowledgeable and experienced promotion executives at work today, his passion for, and commitment to, the music has made him one of the most respected. We're looking forward to taping into John's enormous reserves of energy and enthusiasm. I join with the rest of company in warmly welcoming him aboard."

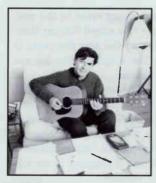

Boulos added, "I'm excited to have the opportunity to be reunited with Phil Quartararo, and to have the opportunity to work with great people such as Andy Schuon and Tom Biery, and the whole Warner Bros. staff. It's a great opportunity with a great company staffed by great people."

Boulos started his industry career in 1976 in the mailroom of London Records, where, a year later, he became a local promotion representative for the New York area. He subsequently moved to RCA Records, also as a New York promotion rep and then to Island Records, where he worked as East Coast Promotion Manager. After a two-year stint at Mercury Records as National Promotion Director, he became VP/Promotion at Virgin Records in 1988, a post he held for eight years before moving to Epic Records.

#### From Big Pink To Big Wig

Robbie Robertson

Former Band member Robbie Robertson has joined DreamWorks in an unprecedented capacity, serving as creative plenipotentiary (ambassador). Robertson will tackle a multidimensional role that will see him involved in both artistic and executive activities at the company. His unique role — in essence, that of "label muse" — will also enable him to participate in projects set in motion by DreamWorks' parent company, DreamWorks SKG.

"When (DreamWorks Records principal) Mo Ostin and David (Geffen) first approached me about this, they said there was

no name for what they were proposing," Robertson explains. "David just said, 'Listen — you like to make records, write songs and produce music. You like to produce films, do music for movies, supervise music for movies. Any of these things you love to do, why don't you come here and do them with us?" Asked about his initial response, Robertson replies, "What's the catch?"

"What excited me the most," Robertson says, "was that no one with a musical background like mine had ever done this before. That kind of challenge always perks me right up."

Also key in Robertson's decision to accept the post was the opportunity it would afford him to share his prodigious experience with DreamWorks' artists. "I've been there," he says. "I've seen the whole 360 degrees of the equation. There's nothing an artist can't talk to me about; there's no question about the music or the business I can't answer."

Questioned about upcoming undertakings for DreamWorks, Robertson will only say: "I'm working on several projects with new recording artists and on movies, soundtracks and animation. Lots of brainstorming. What really strikes me about this work I'm doing for DreamWorks is that it feels so natural. David and Mo insisted that I only involve myself in what I'm absolutely passionate about, in what I think I can truly bring magic to. And that's what I'm doing."

#### CUNNINGHAM continued from page 8

"I'm looking forward to this challenge," Cunningham commented. "It's a very competitive market with some great radio stations, but I think there is a huge hole for the World Class Rock format in L.A. I've seen first-hand how powerful this format can be when it's marketed and programmed properly. I feel very fortunate to have worked with [former KBCO PD] Mike O'Connor, [KBPI/Denver PD] Bob Richards and Dave Benson."

Cunningham is currently APD and Director of Marketing and Promotions for KBPI. Previously, he was Marketing Director for KBCO, and, during a brief stint away from radio, he served as the U.S. Director of Public Relations and Advertising for Bollé America.

The Progressive format has returned to the Los Angeles market after a two-year absence, following the sale of KSCA and that station's subsequent flip to Spanish. The new outlet has several advantages that the format was missing with KSCA. The new signal covers areas heavy in white adults whom the format targets — L.A.'s Westside and Orange County — whereas KSCA's strongest reception was in areas largely populated by Latinos. The new station also benefits from being part of an expanding local cluster. Jacor already owns CHR KIIS and Sports/Talk KXTA in L.A. which will allow its sales staff to package deals for advertisers. Benson commented that those packages take a lot of the pressure off the station to score huge ratings on its own. Jacor's management team, including MD Nicole Sandler, also intends to tailor the station's programming to the upscale adult audience, concentrating on being music-intensive and lifestyle appropriate.

Kedar Entertainment President Kedar Massenburg will run Motown, replacing George Jackson. Universal is in talks to purchase the remaining 40% of Def Jam from co-owners Russell Simmons and Lyor Cohen for a reported \$70+ million. If the deal goes down, expect Cohen to take on a key role within Universal. Meanwhile, Island and Mercury will be combined. The staff and artist rosters of both labels will be cut. PolyGram Distribution Chief Jim Caparro will be named Chairman, and PolyGram/Canada Chairman John Reid will take over as President. Island execs Johnny Barbis and Hiriam Hicks are expected to remain with the combined company, however it's likely that Island President Davitt Sigerson and Mercury head Danny Goldberg will exit. Goldberg has plans to launch an independent label with ties to the Internet, according to a story in the New York Daily News (11/12). The paper reports that Goldberg will begin soliciting money from major record companies and other investors in December. Motown Executive Clarence Avant's role has not been determined. Mercury/Nashville will continue to be run by Luke Lewis as a stand-alone.

Each of the four U.S. units would scale down artist rosters to about 100 acts and would employ only 175 employees each, and are expected to generate an estimated \$200 million dollars in album sales. Each individual label will maintain its own promotion and marketing staffs. The Interscope Music Group, made up of Interscope, Geffen and A&M, is expected to generate more than \$300 million annually.

The combined Seagram/PolyGram distribution system will be run by Universal's Henry Droz and Jim Urie along with several top PolyGram distribution execs. About half of all U.S. plant warehouses currently operated by PolyGram and Universal will be shut down or sold. Internationally, Universal's sales force will be folded into PolyGram's, with all manufacturing and distribution handled by the PolyGram team beginning in April, when Universal's deal with BMG expires. Universal currently does less than 20% of its business abroad while PolyGram conducts nearly 80% of its business overseas.

The restructuring plan comes after months of intense integration meetings between top brass at Seagram, Universal and PolyGram. The Boston Consulting Group was brought in by Seagram and more than 50 teams - consisting of consultants and executives from both companies - were assigned to scrutinize every level of the company. These changes are expected to begin in January 1999 and be fully implemented by next summer.

new marketing division, which launched in May and continues to open new offices in Chancellor markets. de Castro says the marketing wing — which helps radio stations build non-traditional revenue departments that design and execute local marketing campaigns for national companies — has helped Chancellor rope big ad buys from the likes of Gillette, Amtrak, Liz Clairborne and others

Another new frontier for Chancellor is entertainment marketing, which it dedicated a separate division to in September. This potentially lucrative NTR source involves marketing partnerships with entertainment companies for record and film projects. de Castro even talked, in very general terms, about the possibility of a Chancellor record label.

The Internet, too, is being explored by Chancellor, though Marcus pointed out they're not signing any longterm deals in this area. The company's also looking at deriving new revenues from its tower business and is throwing around ideas like installing small "whip" antennas on Chancellor outdoor displays.

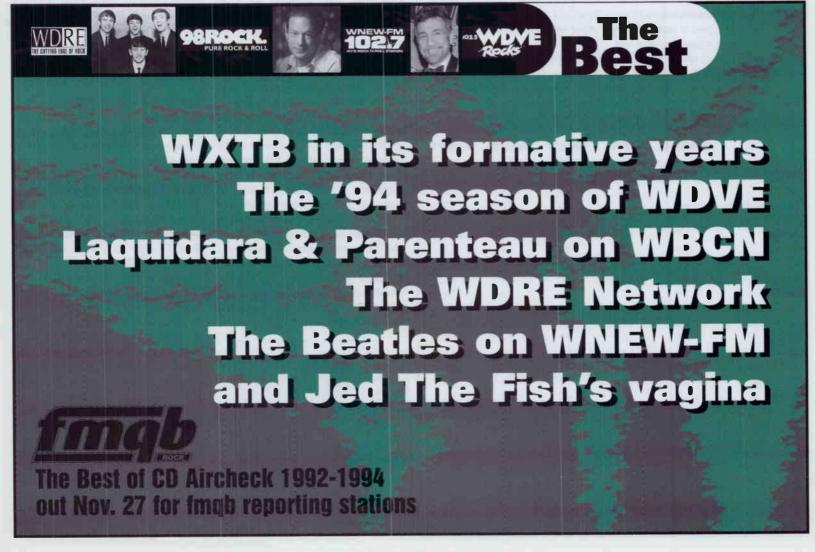

On the economic front, Chancellor says it wants to de-leverage from where it is now (around 6.2 times) to around 5.6 by the end of 1999. CFO Matt Devine indicated there's a lot of work to be done to integrate the capital structure of Capstar with Chancellor. And feeling his company was "undervalued," Marcus said he's bought 100,000 shares of Chancellor stock in the past few weeks. Several Chancellor execs hinted there could be another equity offering in the works.

Chancellor's 3Q net revenues increased 137.1% to \$343.8 million from \$145 million last year. Broadcast cash flow was up 136.1%, from \$71.5 million to \$168.8 million. Pro forma, Chancellor's radio revenue grew 20.8% to \$286 million. Meanwhile, Capstar's revenues increased 215.9% to \$161.9 million from \$51.2 million. Capstar broadcast cash flow was \$73.3 million for the third quarter of '98, up 349.5% from \$16.3 million in the same period last year. Same station revenue grew 12.3%.

MOFFITT EXITS KYYS PD POST KYYS/Kansas City PD Larry Moffitt has relinquished his programming duties at the station. However, he will continue hosting mornings. Assuming the PD title on December 1 is WSFR/Louisville programmer Greg Bergen. "I'm excited about joining the programming team," Bergen told fmqb. "Larry Moffitt has done a great job of programming the station up to this point. We're trying to move from being a very good Rock station to one of the great Heritage Rock station in America." The station has also cut back from 30+ currents to 10-15. Also at KYYS, Promotion Director Kendal Atkins exits.

TED NUGENT RETIRES, FOR NOW The Motor City Madman has announced that he is quitting his morning radio show on WWBR/ Detroit, as of November 25, and will no longer tour with his Rock act. Nugent told his radio audience on Thursday (11/5) that he wants to spend more time with his family. "He won't be revisiting the question of music for a year," Nugent's manager Doug Banker told the Detroit News. "He really wants to do the family values thing." The Nuge's announcement to end his broadcast career came on the heels of the station's announced sale to Radio One, a company that specializes in Urban formats (fmqb 10/30). Ratings-wise Nugent's morning show came in 18th

place in the Summer '98 Arbitron. WWBR PD Joe Wade Formicola will take over morning drive on The Bear on November 30.

EAGLE TWEAKS LIBRARY You'll hear more '80s and '70s and less '90s Gold during daytime hours on KEGL/Dallas. PD Greg Stevens tells fmqb he's added a new oldies category "that will help us continue to grow in 25+ demos." That means The Eagle, once one of America's hardest Active Rock outlets, is now incorporating Lynyrd Skynyrd, Bad Company, George Thorogood, and Foghat, along with more depth on the Doors, Hendrix and ZZ Top. The new category comes up once or twice an hour. There's simultaneously less reliance on Pearl Jam, Nirvana and other '90s library titles. Stevens says the station's era shift does not affect current rotations or number of currents on the playlist. (The station cut back on currents in August). The Eagle hasn't settled on a permanent positioner since dropping its "Pure Rock" handle earlier this year. Lately, it's just calling itself "The Rock Station."

WEBB JOINS THE LOOP Former WRCX/Chicago afternoon driver Eddie Webb has joined crosstown Classic Rocker WLUP for the same position. "Eddie's energy and enthusiasm for this job makes him the obvious choice," WLUP VP/Programming Greg Solk commented. "The Loop has a tremendous history of engaging and entertaining air personalities. Eddie will soon be part of that tradition, proving to be one of the best ever." "After The Rock went off the air I knew I wanted to stay in Chicago," Webb added. "I'm ecstatic about joining The Loop and my future there. This radio station has unbelievable heritage and I'm excited to

#### Format Share Trends: AOR Down, Classic Rock Up, New Rock Flat

AOR dropped two tenths of share to 4.8, allowing Oldies to move past it for the first time in a year, according to a new study of format share trends issued by Interep. Right behind AOR are ninth-ranked Classic Rock (up 4.4 to 4.5) and New Rock (flat at 3.3, following a year of ratings decline). Adult Alternative posted its third consecutive 1.0 share showing, ranked 15th.

News/Talk and Urban remain radio's most listened to formats at 14.1 and 10.3, respectively. Despite its fourth consecutive down book, Country improved from 4th place to third. That's because AC lost another three tenths of a share. AC, ranked second in Winter and third in Spring, is now down to fourth place. CHR (down .1) and Spanish (down .2) remained 5th and 6th, respectively.

WMMS SNAGS SLATS The KISS San Antonio PM driver becomes the first personality hired under Jacor's reconstruction plan at 30-year-old 'MMS. (KISS PD Kevin Vargas will return to the air to replace Slats.) The Buzzard's been jockless for the past six weeks. PD Greg Ausham says Slats will "tread lightly" when he starts in the 3:00 P.M. to 7:00 P.M. slot on November 23, so as not to jar Clevelanders just getting used to the more-music 'MMS. But Slats isn't a liner card reader, and ultimately, he'll host a personality show and perhaps even figure into Jacor's "hub and spoke" plans for Ohio. While it scours Cleveland and the universe for jocks, 'MMS is cautiously putting currents back in the mix. Ausham says you'll now hear one an hour by day, two by

WNEW'S WAR OF WORDS "We'll pay for the U-Haul. Why don't you pack up all your crap and pack up these crappy records and get out of here so we can move the station forward." That's WNEW/New York's Opie & Anthony expressing their dislike for 'NEW's old guard (and Carol Miller) in particular along with the station's Evolution Of The Rock Of New York week-long retrospective. Miller responded by purchasing a pair of enemas for the afternoon team and telling them to "stick them up their asses." Opie & Anthony were quite vocal throughout the Evolution, telling listeners what songs they thought were good and what songs weren't. No comment was available from anyone at the sta-

NEW CHR IN CHICAGO Forget about Big City Radio firing up a new Rock outlet at its suburban Chicago 92.7 frequencies. WCBR/WCBO will sign on a new CHR format Nov. 14th at noon, according to the *Chicago Sun-Times*. Kiss FM will be "Top 40, in your face, coming at you," says

VP/GM Rich Marston. The rollout includes 10,000 songs in a row—sans jocks and spots—and a \$10,000 contest. Kiss will wedge itself between Rhythmic-Dance WBBM and Mod AC WTMX.

KTUX REFOCUSES Active Rock KTUX/Shreveport is playing nothing but Led Zeppelin and will continue to do so until Monday, November 16. At that time a "re-vamped, re-tooled KTUX" will debut, according to PD Paul Cannell. "Rebel Radio" is gone in favor of "99X" as the station's new on-air moniker. "99X" will continue in its Active Rock direction with consultant Greg Mull overseeing the changes. "We just need to be a little more selective in what we play," Cannell said. The all Zeppelin rollout is reminiscent of the Active Rock debut of WXTB/Tampa, where Mull was PD. KTUX is currently running jockless with some possible staff changes in the works.

## MUSIC NEWS

## REPORT

The Rock And Roll Hall Of Fame's class of 1999 has been announced, and it includes a host of living legends still making music today. Leading the pack is Paul McCartney, who is already a member with The Beatles; Bruce Springsteen, who made the cut in his first year of eligibility; Billy Joel; and Curtis Mayfield, who, like McCartney, is already a member with his former outfit The Impressions. Springsteen's induction is as a solo performer, as The E Street Band didn't back him on his 1973 debut, Greetings From Asbury Park. Other inductees include British R&B queen Dusty Springfield, Gospel group The Staple Singers and the late Del Shannon. Beatles producer George Martin will be inducted as a non-performer. McCartney was not present when The Fab Four were inducted in 1988, as he was feuding with his former mates at the time. Overlooked again this year were pioneering Hard Rockers Black Sabbath. The 14th annual awards ceremony will take place March 15 in New York, with an edited version of the show set to air on VH1 shortly thereafter.

Showing further evidence of their volatile nature, Days Of The New have scrapped the remainder of their U.S. tour after lead singer Travis Meeks upped and split after a show in Dallas last Thursday (5). Openers Flight 16 and Finger Eleven played the next show in New Orleans on their own. Days Of The New members and associates have offered up a host of reasons, ranging from scheduling and technical problems, to "Travis flipped out," as to why the tour (which was slated to last until early December) came to such an abrupt halt. Many thought that Meeks had practically broken up the band earlier this year when he said that he would be doing a majority of work on the band's sophomore album. Drummer Matt Taul is the only other band member expected on the album, due in the Spring of '99, with Meeks. A Days Of The New home video is due on December 1.

The Black Crowes aren't done touring yet, as they tack on two more weeks of club dates to the Sho' Nuff jaunt they began over the summer. "Kicking My Heart Around," the lead track from By Your Side (due January 12) leaps to \*10 on this week's Hot Trax chart. Catch the Crowes on the following dates: 12/1, Seattle; 12/2, Portland; 12/4, San Francisco; 12/5, Santa Cruz; 12/6, Fresno; 12/8, Sacramento; 12/10, San Diego; 12/11, Tucson; 12/12, Scottsdale; 12/14, Los Angeles.

After reports surfaced that tickets for The Rolling Stones upcoming U.S. arena trek would fetch \$300, the band and promoter Michael Cohl have been trying to point out that only select tickets would go for such an exorbitant

price. Cohl said that the average ticket price for the tour will be \$75, though special premium seating in major markets like New York will go for \$300. Seats for the band's multi-night stand at Madison Square Garden earlier this year were originally priced at \$300, but eventually went for less.

Originally set to roll into February of '99, Aerosmith has decided to wrap up its current tour with a January 4 show in Pittsburgh. The word is that Steven Tyler needs a respite from the road, possibly to have further work done on the knee he injured during a show in May. The band, which has been on the road practically non-stop since the March '97 release of *Nine Lives*, plans to head back on the road in the spring on '99.

While making the promotional rounds last weekend in England to talk up Metallica's forthcoming Garage Inc. set, guitarist Kirk Hammett was rushed to a London hospital for an emergency appendectomy. Hammett is expected to make a full recovery and

#### **ROCK RADIO HEADS TO CLUB MET**

No, Rock Radio isn't making a pilgrimage to the popular vacation resort, or trekking to a fantasy camp for New York Met fans. Club Met is the name of a promotion Active Rocker KSJO/San Jose is currently running, which will send a pair of listeners to Chicago on November 19 for one of Metallica's five shows in support of their forthcoming covers collection, *Garage Inc.* (due 11/24). KSJO is one of many stations, both in and out of markets the band is hitting, getting behind one of the biggest success stories Rock Radio has seen in years.

With 178 Rock stations adding *Garage Inc.*'s lead track this week, a cover of Bob Seger's "Turn The Page," the song is the most added song of the year so far. The band's five-city small venue tour is adding to the buzz and Rock signals are making sure they're in on the action.

Some station promotions call for listeners to listen for the band and then call and win. After hearing five Metallica songs in-a-row on KSJO, caller 92 wins the tix. So far, the station has been faking listeners out by playing as many as four in a row. At WLZR/Milwaukee, morning team **Bob & Brian** tell listeners every morning at 7:20 what the Metallica "Garage Barrage song of-the-day" is, and in what 103-minute Pure Rock block it will be played. When you hear the song, caller 20 gets tickets and a bus ride to the Chicago show, for which Lazer 103 has pro-

cured a "busload of tickets." And though KRXQ/Sacramento isn't giving away tickets to any of the shows, they are one of many stations giving away copies of Garage Inc. in "snag it before you can bag it" fashion.

In Detroit, where the band plays the State Theater on November 20, WRIF is on board both on the air and on the street. The station snapped up all the tickets for the show, and they're giving away a pair every 101 minutes with their 101 Minute Metallica Blitz. The contest activator is a sounder voiced by James Hetfield and Jason Newstead, with multiple pairs given away during special Mandatory Metallica hours. The station has also been giving away tickets during station-sponsored bar nights, which have been drawing lines around the block. WRIF will also be broadcasting the show live on the air and on two Web sites: wrif.com and riffs-live.com, and is sending their own busload of winners to Metallica's November 24 New York show.

Band mouthpiece/drummer Lars Ulrich has been doing his part, calling stations with exclusive show announcements. Before WRCX/Chicago suddenly flipped formats, Ulrich phoned in on former afternooner Eddie Webb's show to announce the band's November 19 show at the Aragon Ballroom. The show sold-out in a matter of minutes, but has no radio partner since 'RCX's flip. Ulrich phoned in to WYSP/Philadelphia as well, just three days later than expected to tease listeners. WYSP has been giving out tickets to the sold-out November 23 show at the Electric Factory in conjunction with their "94 WYSP Payroll" promotion, and has a few other surprises they've yet to unveil.

WXRK/New York is giving away tickets to Metallica's November 24 show at Roseland, along with a Metallica car and cash. Last Thursday (11/5), the station began calling the name of a "92 Free Card" holder every hour, who has 92 minutes to call the station and pick from 92 prize envelopes containing tickets, \$100 in cash, or the Metallica 1999 Toyota 4-Runner. The station has also done this promotion with KoRn, and plans to do it with U2 as well.

As for the band, they've got enough to occupy themselves with after this current trek wraps-up. They will be represented in the stores with the aforementioned Garage Inc., and the forthcoming live concert DVD Cunning Stunts (out 12/8). After taking some time off for the holidays, the band will make the festival rounds in Europe and South America. Following that, they plan to take their time in working on a new studio album, which will be their eighth.

should be back in the States by the time you read this. For more on the band, check out the accompanying Rock Radio Heads To Club Met feature.

Chock up a first week sales record for Alanis Morissette. Madonna's Ray Of Light sold 371,000 copies in one week last March, and Lauryn Hill's The Miseducation Of ... broke that record with 422,500 copies in one week in September. Now, the crown has been passed to Alanis Morissette, whose Maverick/ Reprise release, Former Supposed Infatuation Junkie, scorched the retail shelves to the tune of 469,054 copies last week. By the time you read this, the album will easily gone gold, and quite possibly platinum, as it follows in the footsteps of Jagged Little Pill, which has sold in excess of 15 million copies domestically.

While his former Zep mates Jimmy Page and Robert Plant carry on without him, former Led Zeppelin bassist John Paul Jones is wrapping up work on his first ever solo album, which is due in the spring of '99. Jones recorded the ten-song album at studios in London, Los Angeles and Austin, with help from Butthole Surfers guitarist Paul

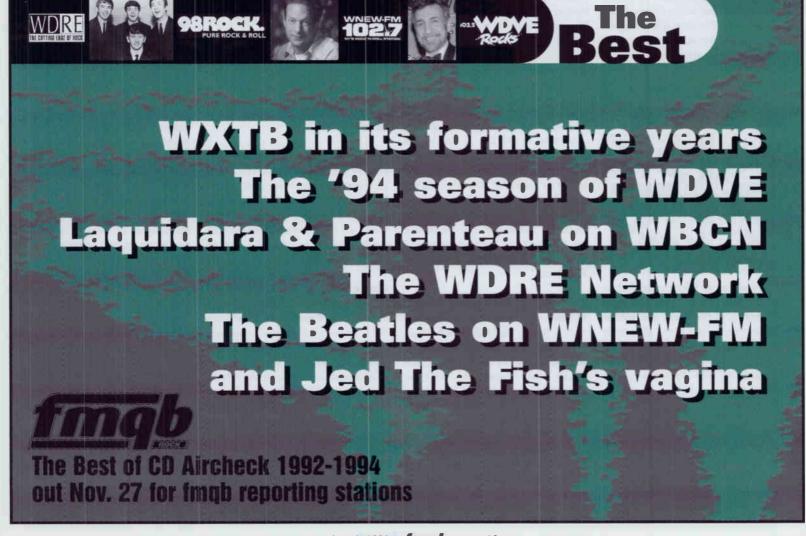

Leary, noted studio drummer Denny Fongheiser, and current King Crimson guitarist Trey Gunn. No label is set for the album, but Jones is planning to tour behind it.

From the "We only read it for the articles" department, the March 1999 issue of *Playboy* will be KISS-themed, featuring a cover story on the group and photos of some of the band's female fans. No word on whether the boys in the band will be showing any skin in the mag, or where the staples will be placed if they do.

As KISS prepare their sonic and visual assault on the States, fans of the kabuki superheroes can honor the band by attending the Philadelphia KISS Expo to be held on Sunday, November 22 from 9:00 a.m. to 8:00 p.m. at the Holiday Inn in King Of Prussia, Pa. Special guests at the fest will include the first-time appearance of ex-KISS lead guitarist Mark St. John and KISS choreographer / songwriter / visionary Sean Delaney. There will also be several mystery guests attending. Along with a massive dealer's room housing new and vintage KISSabilia, there will be an allday video show, performance by KISS tribute band Love Gun, and loads of prizes including a Washburn Paul Stanley signature guitar and special invitation passes for the KISS concert to be shot for the movie Detroit Rock City. Tix are \$13 advance / \$15 at the door. For more info contact Stephen Campbell (416) 242-3580. Meanwhile, among the vast array of KISSabilia lining the shelves of stores nationwide, one of the most impressive items are the new KISS Collector Card set Series II (Cornerstone Communications Inc.). Officially sanctioned by the band, the series cards are spectacular, offering a cache of previously unseen KISS photos and information. Sporting concise and informative text by KISS catalogue consultant Robert Conte, you'll find cards (90 in all) showcasing various stages in KISStory, collectibles, makeup variations, a complete discography, the KISS Meets The Phantom film, and scarcities comprising rare KISS records. Spanning the band's formative years when Paul Stanley's makeup design was not a star but a racoon-like visage to the current triumphant reunion era, the photos are vivid, colorful and striking, perfectly capturing the garish Rock and Roll glory of KISS. CMJ - The Year In Music 1979, 1980,

1981, 1982 is a superb collection of music and music history just released via PolyGram / Chronicles. Each CD includes 12 tracks culled from major and independent labels and salutes such acts as Elvis Costello & The Attractions, XTC, Patti Smith, The Jam, Madness, UB40, Blondie, The B-52's, the Pretenders, Devo, Psychedelic Furs, Adam & The Ants, The Remones, Gary Numan and many more. Along side the aforementioned heavyweights, lesser known but equally deserving acts are also included such as The Brains, Romeo Void, The db's, the Buzzcocks, Pete Shelley and The Records. Series producer Marty Scott: "What's unique about this series is that we have tried to put together a package that encompasses what really was the best of music in that year. The package includes everything from a CMJ Top 25 list, news headlines from that year, noted deaths of music personalities, plus other suggested 'must have' albums of that particular year. It must be the first time in history that a record company has actually told a consumer to go out and buy a record from someone else's label." The series also includes a comprehensive essay chronicling that

Rock Report correspondent Ken Sharp spoke with legendary Philly shutterbug Phil Ceccola about his wonderful front cover shot featured on Tracks, the new Bruce Springsteen box set. Says Ceccola, "I must have taken 20,000 photos of Bruce and the band over the years. The cover photo for Tracks was taken in 1974 in the dressing room at the Main Point, a little coffeehouse in Bryn Mawr (Pennsylvania), one of Bruce's favorite places to play at the time. Essentially if you look at the photo Bruce is in very deep, contemplative thought. What had happened was he had a fever of 103. He was really, really sick and was debating whether to go on stage. But he did play that night and, of course, he was great. It didn't matter that he had a high fever, nobody knew. The show must go on and it did." In other news, Ceccola has contributed over 40 photos which will be prominently showcased on VH-1's forthcoming Springsteen Legends slated to air on December 9.

Matthew Sweet and Ming Tea (which also features ex-Bangle Susanna Hoffs), will again be providing music for the "psychedelic scene breaks" in the next Austin Powers flick, Austin Powers: The Man Who Shagged Me, which will hit screens next year. The trailer begins airing over the holidays.

Pete Townshend is said to be dusting off material from The Who's aborted early '70s concept album, *Lifehouse*, for use in the BBC's Millennium project, a series of radio and TV programs the BBC is developing in conjunction with the turn of the century.

The Afghan Whigs take to the road in support of their superb new offering, 1965, for the following dates: 11/16, Minneapolis; 11/18, St. Louis; 11/19, Columbus; 11/20, Cleveland; 11/21, Philadelphia; 11/22, Washington, D.C.; 11/30, Seattle; 12/1, Portland; 12/3, San Francisco; 12/4, Los Angeles; 12/6, Tempe; 12/8, Salt Lake City; 12/9, Denver; 12/17-19, New York City.

Fleetwood Mac's first incarnation will reportedly be the subject of a six-CD box set due next March. The project, a joint venture between Sony U.K. and Sire U.S., is expected to comprise the four albums the band recorded for the Blue Horizon label from 1967-1969, along with demos, studio chatter and other unreleased material.

Rock Report had the unique opportunity last Saturday (7) to catch two up and coming bands, Gomez and Cotton Mather, on the same bill at Philadelphia's Khyber Pass. Cotton Mather kicked the evening off with their swirling brand of Power Pop, evidenced on their grossly under-appreciated Kontiki (Copper) album from earlier this year. Recalling the likes of

Todd Rundgren, Cheap Trick and XTC with their air-tight set, the Austin-based quartet satisfied on their fourth trip through town this year. Gomez, fresh off their ear-opening CMJ performance, made their Philly debut in style, serving up a short but powerful set which payed homage to elder rock statesmen like the Grateful Dead, Peter Green-era Fleetwood Mac and CCR, belying their band's tender age. A stripped-down reading of The Temptations' "The Way You Do The Things You Do," and an extended percussion jam were highlights of the set. In other Gomez news, yes, that is the upstart Brit band covering The Beatles' "Getting Better" for those Philips Electronics TV spots. The band were persuaded to cover the Sgt. Pepper track with free recording time at lauded Abbey Road Studios.

A third album by Electronic, featuring Johnny Marr and Bernard Sumner, is in the works and will be released "early next year," Marr tells NME. It'll follow their #2, self-titled debut set from 1991 and the 1996 album Raise The Pressure, which reached #8.

Blondie follow their Inspiration Award at the 1998 Q Awards with a 14-date U.K. tour which began on November 9 with a sold-out show. The band's reunion album, No Exit, will be released by RCA on the Beyond imprint on February 16.

Paul Weller's next studio album is also expected in the first half of 1999, according to NME. A number of tracks have already been recorded, and "Brand New Start," released as a single on November 2, was among the first. Weller's Modern Classics compilation followed on the 9th. The single includes "The Riverbank," which is a reworking of the song he wrote and recorded with The Jam, "Tales Of The Riverbank."

New songs by Beth Orton, Primal Scream, the Soul Renegades featuring Texas, Belle And Sebastian and Arab Strap are included on the soundtrack of The Acid House. The album was released by EMI on November 9 even though the film, a triptych directed by Paul McGuigan adapted from the short stories by Irvine Trainspotting Welsh, is not due in cinemas until the new year. Previously available tracks by the Chemical Brothers, The Verve and others are also on the soundtrack. The film stars Martin Clunes,

Jemma Redgrave and Ewan Bremner.

Orbital, last heard from in the spring of 1997 when their single "The Saint" gave them a career-best #3 hit, will be back in the new year with their fifth album, *Middle Of Nowhere*. It's currently set for February 8 release, and they've already announced a tour to run March 14-29.

Cher's "Believe" climbed past the half-million sales mark last week as it secured a third week at #1. Londoners E-17 made a substantial comeback with "Each Time" at two and the Tamperer followed the "Feel It" chart-topper at three with the extravagantly-titled "If You Buy This Record Your Life Will Be Better." Queen with Wyclef Jean and the ubiquitous Pras Michel entered at five with the updated "Another One Bites The Dust" while Tatyana Ali opened her U.K. account at six with "Daydreamin" and Eagle-Eye Cherry achieved a second Top 10 single with "Falling In Love Again" at eight. Faith Hill made her first-ever showing on the British charts with "This Kiss" at 13 and Paul Weller's "Brand New Start" came in at 16, followed by R.Kelly and Keith Murray's "Home Alone" at 17 and "Straight From The Heart" by Doolally at 20. Album-wise, U2 won the battle of the compilations with Oasis, selling 144,000 copies of The Best Of 1980-1990 against 122,000 for The Masterplan, while Alanis Morissette's Supposed Infatuation Junkie entered at three with first-week sales of 76,000. It's only the second time in the history of the U.K. chart that the Top Three has consisted entirely of new entries.

## Terry Marshall's - DAILY INSIDER

THE FUTURE'S NOT U2'S TO SEE: U2 doesn't know what lies ahead for them other than they're going to release a new album sometime next year. The Edge told the Los Angeles Times recently that they don't want to make the same mistake they did with Pop and set a deadline that has them racing around like mad to meet it. He also cited Pop when he refused to talk about what they're recording with Brian Eno and Daniel Lanois. "I'm nervous about that after what happened with Pop," he explained. "People started making judgments even before they ever heard it. There were stories about it being a Dance record or an Electronica record because Bono said there might be a bit of Dance influence on it and because we brought in a Dance producer to work with us. It's incredible how much that rumor shaped people's opinion of the record." They plan to finish the album next summer for release a year from now, but The Edge doesn't expect it to be followed by another stadium tour. He said, "It takes such an incredible amount of time and energy and money to do stadiums. It's not that we want an easy life, but having done it twice now, we are going to wait a while before we think about it, before making another commitment." The Edge added, "The exciting things for us is that we don't know just what is ahead." ... In other U2 news, the band's Greatest Hits collection is set to become the

biggest-selling album ever in Ireland. In a country where it only takes 10,00 sales to get a gold record and 15,000 for a platinum one, retailers ordered 100,000 copies of the U2 disc. They began selling the limited edition double CD at midnight recently in Ireland and Northern Ireland. The single, "Sweetest Thing," is currently in the Top Five in the U.K. U2's worldwide sales of 75 million have easily made them the country's most successful Rock group.

MARILYN MANSON: One place where Marilyn Manson is safe is the Internet. He has just overseen the development of a site and store for the first time. More than 50,000 unique users visited www.marilynmanson.net in the first week and traffic has consistently exceeded 10,000 users per day. The most popular items being purchased are calendars, "mechanical animals" and the Manson bomber jacket.

GUNS N' ROSES: Two former Guns N' Roses members are recording and touring. Duff McKagen is releasing an album after the first of the year and Gilby Clarke has just kicked-off an 18-city tour of the U.S.

PHOTOGRAPHER CLAIMS
GALLAGHER BROKE CAMERA:
Liam Gallagher recently had another scrape with the law in London
when he broke a photographer's
camera outside a pub. The photog-

rapher called the police and Gallagher was arrested and taken to the station for questioning before posting bail and being released. Oasis' label told the BBC Gallagher wasn't injured but no other details were available. Although Gallagher has been involved in other brawls around the world since then, he hasn't had an encounter with the London police since the summer of 1997 when he was accused of grabbing a cyclist's shirt and dragging him alongside a car in which he was riding.

SEVENDUST HAS NATIONAL-LY SYNDICATED DOCUMENTARY: It's unusual for an underground Hard Rock band to have their own nationally syndicated TV special. But Live And Loud starring Sevendust began airing this past week in 33 cities including the Top 20 markets. The half-hour show features five songs from a concert the band did in Chicago on September 16 plus interview footage. It was produced by Mark Haefali, whose credits include live Rolling Stones, Aerosmith and Janet Jackson broad-

SIR GEORGE IS HONORED: MCA threw a star-studded affair at the Beverly Hills Hotel recently for legendary producer George Martin's In My Life album, which features celebs from all walks of life covering a host of Beatle classics. During the soiree, Martin was presented a U.K. gold album for In My Life, and NARAS President Michael Greene and Quincy Jones surprised Martin with his 1996 Trustees Award Grammy, which he was not able to accept in person when it was first awarded. Pictured during the presentation of the U.K. gold album are (L-R): MCA President, Jay Boberg; comedian and In My Life contributor, Billy Connolly; Echo Records President, Steve Lewis; In My Life contributor, Celine Dion;

U2, VAN MORRISON ON DISC FOR N. IRELAND BOMB VIC-TIMS: U2, Van Morrison, Sinead O'Connor, The Corrs and Boyzone are among the artists who have contributed tracks to a new album which will benefit victims of the Omagh bombing last August which killed 29 people, injured hundreds of others and shattered the Northern Ireland Peace Agreement. Across The Bridge Of Hope takes its title from a poem written by one of the victims, a 12year-old boy. Actor Liam Neeson recites the poem on the recording. Two companies based in Northern Ireland are teaming up to release the album in the U.K. on November 30.

COURT UPHOLDS DRUM-MER'S CLAIM AGAINST MOR-RISSEY: More than 11 years after they broke up, a British court is still trying to settle the Smiths' spoils. An Appeals Court has upheld a lower court's ruling that Morrissey must pay drummer Mike Joyce more than half a million dollars. Joyce and bassist Andy Rourke filed suit after they realized that Morrissey and Johnny Marr were each to receive 40% of the income while they each

received 10%. In turning down the appeal, a three-judge panel ruled that the original judge had not arrived at his decision unfairly even though he had described Morrissey as "devious, truculent and unreliable." Rourke settled in 1989 for a fraction of the amount it now looks like Morrissey is going to have to pay Joyce.

SOCCER STAR OPENING HOOTIE EUROPEAN TOUR: Opening act for Hootie And The Blowfish on a European tour they began in Bristol, England last week is soccer player Alexi Lalas. He is beginning his first world tour by opening shows for Hootie in eight cities, ending with two shows in Dublin on November 15 and 16. Lalas, who has just released his debut album, Ginger, on CMC International, has his first five shows booked in the U.S. They include the Lion's Den in New York on December 11, a benefit in Delaware, a Christmas show in Concord, New Hampshire and a post-game acoustic show in Philadelphia. Hootie drummer, Jim Sonefeld, has long been an admirer of Lalas' soccer playing. They became friends a few years ago and Hootie became fans when Lalas played them "Goodnight Moon" and "Pretty Mess" from his new album

Records when they left the Punk label for Sony, it's surprising that Jim Lindberg from the Epitaph band Pennywise is now singing back-up on the Offspring's "Pretty Fly (For A White Guy)." Lindberg hopes it's just the beginning. Offspring members will probably sing on the new Pennywise album, and Lindberg is hoping that next year's Warped Tour will feature the Offspring and Pennywise among the artists on the bill. "It's cool to see that even after everything that went down with Epitaph, everyone can stay friends," he says. "I think it's much better for the scene that way. It's bad to have bands bickering. We're much better off having some unity."

YOU AM I TRYING TO BRING DOWN UNDER SUCCESS TO U.S.: Although many musicians would be exceedingly bitter to see their critically acclaimed work caught in the vagaries of the U.S. music business and overlooked by the public, Australia's You Am I appears quite content. After a tenday break, the band regrouped in New York last week to play the CMJ Convention. While the other two members went home, frontman Tim Rogers and his girlfriend drove south to Memphis where they visited Graceland Too, the shrine impersonator outside the city. After You Am I's New York show, it's on to the next album, with a few days of recording in New Jersey before another U.S.

tour. Earlier this year, as the band was about to release You Am I's #4 Record, they sought and won their release from Warner Bros. RCA quickly signed You Am I and the disc, which features a guest appearance by Benmont Tench and produced by George was Drakoulias, known for his work with Tom Petty and The Black Crowes, did finally come out. It was their third consecutive album to enter the charts at No. 1 in Australia. But Rogers understands there just doesn't seem to be much of a demand at the moment for an Aussie trio playing hook-laden three-minute songs like "The Cream And The Crock," "I Like What I Don't Know About You," and "Heavy Heart." So he's not surprised or discouraged that the switch in companies hasn't produced any results yet. Says Rogers. "We're so used to being overlooked that when someone says the music's great, we say 'Well, it's not really all that good, is it?" when really inside we love it and are proud of everything we do. I guess we're always low-key, but it seems you can't be that way in America."

CAKE PROLONGS THE MAGIC: During a recent two-night, sold-out stand at L.A.'s Troubadour, Cake frontman John McCrea enjoyed a beverage while Capricorn GM Mike Bone (far left), and Mercury Chairman/CEO Danny Goldberg (middle) looked on.

## INSIDE TRACK

When your team goes 0 and 7, ya gotta do something. Chancellor's DC101 printed their logo on 72,000 brown paper bags with cut-out eyeholes. Morning hosts Buddy Rizer and Victoria Ray tried to sway listeners to wear the "Bags of Shame"

at last Sunday's game against the New York Giants at Jack Kent Cooke Stadium. A pizza place sponsor gave away the bags with every order, others were distributed at station events and on game day outside the Big Jack. And the station rented a plane to tow a "Just Bag It" banner above the stadium. While some bags were visible at the game, the antic's real value was the market chatter it generated. According to the station, Redskins coach Norv Turner held up one of the bags during his pre-game pep talk, asking players if this is what they wanted people to think of them. After the game, some players cited the bags as motivation to play well (they beat the New York Giants); others said they'd never listen to DC101 again. The ploy got some ink in Sunday's Washington Post, which called it "a bad idea and hardly an original one" and referred to the DC101 staff as "airheads."... You've probably seen those ESPN "Old School" promos for classic Muhammad Ali fights and old Word Series games. Clear Channel's WZTA is incorporating that concept in a new line of music promos that sound like this: Old school (a montage of Ozzy, Aerosmith, Van Halen). New school: (clips of White Zombie, Marilyn Manson, Beastie Boys). Whether it's old school or new school, if its rocks, it's on South Florida's Zeta. The station uses the bumpers to smooth out otherwise rough transitions from old schoolers like Ozzy into new school acts like the Beastie Boys... For years, stations have opened the "Ticket Window" before giving away concert and movie tickets on the air. Now there's an "Extreme Ticket Alarm," thanks to CBS' WKRK/Detroit. PD Mike Stern describes the sound as "a cross between an alarm clock and an air-raid siren." Listeners call in to win tickets to "Extreme" shows by Marilyn Manson, White Zombie, Sevendust, Suicidal Tendencies, Stabbing Westward and other Detroit shows, even Metallica in Chicago. (Anybody notice how many stations in other cities are giving away tickets to Metallica in Chicago? Duh!) The Extreme Alarm Clock goes off every 97.1 minutes after Howard Stern vacates the airwaves. Jocks count down the minutes to the next alarm... KQRC/Kansas City morning man Johnny Dare was entombed in 10,000 pounds of concrete for 60 hours in a Halloween promotion to solicit donations for Project Warmth. The 8' by 2' casketlike box came equipped with a light, video and web cameras, cell phone, microphone, air holes, pee bag, and not much else.

TV camera crews film KQRC morning co-host Murphy Wells giving Johnny Dare a hug while workers prepare to entomb him for 60 hours.

Johnny's done this sort of thing before, but never this long. He was entombed at Flamingo's Casino on the Thursday before Halloween and didn't see the light of day (or night) until Halloween, when the 10,000 pound concrete tomb structure was moved by army transport to the station's Freaker's Ball. The result of Johnny Dare living up to his name: Project Warmth received eight semis full of food, clothing, and blankets and more than \$50,000 in donations... WIQB/Ann Arbor is Rockin' For The Hungry on December 11th with Candlebox and The Hunger. Last year Rock 103 collected over 25 tons of food at a similar benefit concert; this year's goal is 30 tons. Money from ticket sales will benefit the Huron Harvest Food Bank. For every \$300 raised, one ton of food can be purchased. Listeners can also bring their non-perishables to the venue... More help for the hungry comes via WQXA/Harrisburg. The X's Ronnie Ramone will live in an RV at Riverfront Park until a freight truck is filled with food and clothing for Bethesda Mission in Harrisburg and Goodwill Industries. He'll also take the RV on the road throughout Central PA to collect donations. Last year it took The X's Michelle Cruz six days to fill up the truck. "But she was cuter and played on people's sympathies," said Ramone, who hopes to wrap it up by Thanksgiving... Responding to the Dr. Laura nude photo controversy, WKQZ/Saginaw's morning team of Joe Volk and Zack "Poor Boy" Powers posted (almost) nude pictures of their own on the web. Strategically placed station logos kept the morning team from maximum exposure and embarrassment. "My wife didn't want me to do it," Volk says. "I think she was embarrassed to let other women see what she married." After viewing the pictures, the voyeurs at fmqb think Joe & Zack are lucky the station took the page down earlier this week.

## ADULT RADIO PICKS

#### **ON THE RIGHT TRACK?**

#### JOE SATRIANI "LOVE THING," EPIC

to date, "Love Thing."

Over the past 10+ years, Joe Satriani has defined and re-defined six-string acrobatics. Albums like Surfing With The Alien, Flying In A Blue Dream and Dreaming #11 are essential listening for anyone who ever entertained the thought of handling a guitar. His latest, Crystal Planet, is another amazing effort featuring one of his most splendid singles

#### ROBERT EARL KEEN "HAPPY HOLIDAYS Y'ALL," ARISTA

Robert Earl Keen is spiking your yuletide festivities with "Happy Holidays Y'All," taken from his acclaimed Walking Distance LP. Whether you pick "Version 1" or the "Eggnog Version," you can't go wrong with this track during the holiday season. The lyrics are funny, the melody is catchy and Keen and company sound like they're having a whole lot of fun.

#### SINGLES/EPS

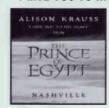

### PEARL JAM "ELDERLY WOMAN BEHIND THE COUNTER IN A SMALL TOWN," EPIC

The title may still be a mouthful, as Eddie Vedder himself admits to at the beginning of the track, but the bottom line is "Elderly Woman Behind The Counter In A Small Town" remains one of Pearl Jam's finest moments. From the forthcoming live album Live On Two Legs (in stores 11/24), this single is one of sixteen Pearl Jam gems that fans will find on this

concert recording captured on tape during this year's tour for Yield.

#### ALISON KRAUSS "I GIVE YOU TO HIS HEART." DREAMWORKS

Alison Krauss' lead track from *The Prince Of Egypt - Nashville* soundtrack is about as pretty a song as you could ask for from Krauss. "I Give To You His Heart" is sure to bring Krauss to a wider audience, and it's a perfect track for Progressive radio, and a perfect way to tie into what's sure to be a holiday blockbuster. Look for the movie on December 18.

#### **ALBUMS**

#### JEWEL SPIRIT, ATLANTIC/AG

This has been a banner year for second albums. Jewel's sophomore album for Atlantic, Spirit, will be a pleasant surprise for her fans in radio and in the public sector. Her thought-

ful poetry predominates, and the album's production stands head and shoulders over her understated debut. That doesn't mean that the beefier production overshadows her lyrics and introspective vocals. Far from it. The songs are still more crepe de chine than denim. You'll find lots to like on *Spirit*. We love the first single and "Life Uncommon," "Do You," "Kiss The Flame," "Down So Long," "Innocence Maintained," and "Barcelona."

#### JONNY LANG WANDER THIS WORLD, A&M

He may only be a few short years past his sophomore year of high school, but Jonny Lang's sophomore album, Wander This World, displays a sense of musical maturity that is light years

beyond his teenage confines. Like his platinum major-label debut, Lie To Me, Wander This World is also rooted in traditional Blues/Rock, but fans will be delighted to hear Lang adding more R&B and Funk into the songs resulting in a well-rounded recording. There's plenty of depth tracks to choose from. Begin with the single, "Still Rainin'," then try "Second...," "Right...," "Leaving To...," "Breakin'...," "Before...," "The Levee," and "Angel Of..."

#### SEAL HUMAN BEING, WARNER BROS.

"These songs already exist. It's just a question of allowing them to flow through you, to articulate them." And articulate them he does. Seal's latest for Warner Bros., Human

Being, is a stunning showcase of his extraordinary talents. With these twelve original songs he has created an evocative landscape that allows us all a glimpse into the creative process of this human being. Once again, Seal worked with producer Trevor Horn and this entire album is worthy of notice. Try: "Human Beings," "State Of Grace," "Lost My Faith," "Princess," "When A Man Is Wrong," "Colour," and "No Easy Way."

#### **ALBUMS**

#### RUSTED ROOT, MERCURY

If the lead track, "Magenta Radio," is any indication, radio should fall in love all over again with Rusted Root and their new, self-titled LP. Even though they've yet to equal the commercial heights achieved on 1995's When I Woke, the band has maintained a rabid fanbase through endless touring and staying true to their artistic vision. The new album stays true to that vision, while serving up

songs that radio (namely our little format) should be spinning well into '99. Our early favorites include the resounding "She Roll Me Up," the island-tinged "Rising Sun" and "Live A Long Time."

#### VIC CHESNUTT THE SALESMAN & BERNADETTE, CAPRICORN

Whether it's his own songs, his Sweet Relief efforts or his acting (1997's Sling Blade), anyone who has been exposed to the work of singer/songwriter Vic Chesnutt falls instantly in love with his pained words and passionate songs. Chesnutt's first Capricorn effort, The Salesman & Bernadette, stands as one of his best works to date, featuring all the power and desperate imagery of his best

songs. From the surprising bounce of "Replenished," to the backroads warble of "Duty Free" to the hymn-like "Scratch, Scratch," Chesnutt's song have never sounded better. It's high time he gained the recognition he so richly deserves.

#### **BEAMING IN BEANTOWN**

'Twas a party night in Boston after Neil Finn wowed the crowd with special guest Eddie Vedder. Pictured (L-R): Rounder's Leslie Rouffé, DK, WORK's Pam Edwards, WNCS' Jody Peterson, Songlines' Sean Coakley, WMVY's Barbara Davey.

## PROGRESSIVE PRO-FORMERS

#### The Rolling Stones No Security (Virgin)

The Rolling Stones have enjoyed two amazing weeks of adds and airplay increases from the Adult Radio community. Their latest album, a fourteen-track live effort titled No Security, is #1 Most Increased (+239) and picks up seven new stations (including WMMM and WRLT) creating a cume of over 35 Progressive panelists! There are many tracks to choose from, but "Gimme Shelter" (on at

WXRT, WRNR, KTCZ, KKZN, and more!) is the frontrunner, followed by "Memory Motel" (KMTT, WXRT, KINK).

#### Bruce Springsteen Tracks Sampler (Columbia/CRG)

Bruce Springsteen's four-CD box-set, entitled *Tracks*, debuts this week on the Top 50 Albums chart at 42° with 266 spins. #6 Most Increased, The Boss picks up seven new adds (including WRNR, KBZD and WMKY) to tie for #2 Most Added. With over 140 spins and a cume of 17 stations (including KTCZ, WTTS, KXST, CIDR, WXPN, KMTT, and KKZN), "I Wanna Be With You" is Progressive

Radio's favorite track so far, followed by "Where The Bands Are" and "Growin' Up."

#### Beck "Tropicalia" (Bong Load/DGC)

#4 Most Increased (+93), Beck spends a third week as a fmqb Pro-Former. "Tropicalia" the first single from Mutations, is new this week at KGSR, KBZD and KTHX and can be heard on 30 Adult signals, including WOBR, WKOC, WRNR, WCLZ, WYEP, WXRT, WXPN, WRLT, KMTT, WMMM, WXRV, KCRW, KINK, WBOS, and WAPS, among others. Leaping from 24• to 17• on the Top

50 Albums chart, Beck is currently boasting over 525 total spins.

#### John Lennon "I'm Losing You" (Capitol)

Debuting this week at 44° on our Top 50 Albums chart, John Lennon's Anthology is an amazing and intimate look into the musical life of this terribly missed artist. And while there are literally dozens of significant tracks to choose from, "I'm Losing You," recorded with backing band Cheap Trick, is already on-the-air at 24 Adult outlets, including WRNR, CIDR, KXST, KFXJ, KGSR, KTCZ,

WXRT, KMTT, and KKZN, among others. It's new this week at 5 stations, including KINK, WRLT and WXPN.

A Problem Solving Forum for Progressive Programmers

#### The Future of Digital Broadcasting

by Dennis Constantine

Television stations are currently making multi-million dollar investments in their facilities to accomplish the FCC-mandated conversion to HDTV.

This digital revolution will also eventually reach into the world of radio. Within our lifetime, we will see virtually all professional broadcasting convert from analog to the digital domain.

Get ready for a plethora of new radio choices. There will be literally thousands of choices for listeners, who will be able to select a music mix specifically designed for their own specific musical taste. It's already here. On the Imagine Radio Web site (www.imagineradio.com), a listener can select a personal music mix, designed specifically for their individual tastes.

Three new competitors to traditional radio will flourish in the next decade:

- 1. Digital satellite radio: We've been hearing about this for some time. As I write this, studios are being set up for a massive broadcast facility in New York City with the capacity of broadcasting hundreds of different program channels.
- 2. Internet radio: The technology already exists to deliver an audio signal over the Internet with quality that is superior to FM broadcasts. This technology is just being released to the consumer market. Once computers stop using outdated modem technology and start using ADL network connections to plug in to the Internet, thousands of high-quality digital radio stations will be available for consumers to listen to.
- 3. Digital radio: Like television, radio will eventually convert to a digital standard. The FCC is not in a hurry to make a decision on this issue, and it could drag out like the acceptance of

AM stereo. The longer it drags on, the more obsolete it will make traditional radio broadcasting, as the other digital domains will be far superior in quality.

Arbitron announced at the recent NAB Radio show in Seattle that they will begin measuring Internet radio listening by adding a box on the diary for diarykeepers to check if their listening was done on the Web. Radio stations should take note of this. It will soon become a reality that if a radio station's signal is not available on the Internet, that station will not have equal parity with those stations who are streaming their audio.

#### The Case for Broadcasting on the Internet

In the new study conducted by Edison Media Research in conjunction with Arbitron, the report points out that thirty-three percent of the survey participants say that they can not receive local radio signals clearly at work. As more of the work force gets computers on their desks, putting your station on the Internet will increase at-work listening. Higher at-work listening is the goal of virtually every adult-targeted radio station. This is a guaranteed way to increase your station's overall share in the market. The Edison Media/Arbitron survey points out that 61% of all Internet radio listening is done by 25-44 year-old adults, which is exactly in tune with the adulttargeted Progressive Adult radio for-

Internet broadcasting also will open the door for the sales department to pursue technology advertisers. This growing category of business has a lot of money behind it, and being proactive in the new technology will give your station the edge in attracting this kind of revenue to your station.

Radio stations are looking for additional streams of revenue. Radio stations will be able to not only sell the commercials that run on the air, but also banner advertising. By having an

audio product that attracts listeners to your site, you will have their attention as they click their way around your site to get your audio. Sell banner ads or use the banners as value-added to get higher rates on your radio station.

Remember those light boxes that used to pulsate with the beat of the music? Create active video that goes along with your radio programming. I'm not talking about psychedelic colors that change with the music or video clips of the songs that are played, but very tangible, relatable information. For example, during music sweeps, list the title and artist of each song as it is playing, and then give listeners the opportunity to buy it online. Have video prompts accompany the radio commercials that will give advertisers more for their spending dollar. And give listeners a link to the advertiser which will give the client immediate response to their radio commercials.

Create separate audio streams where listeners can get specialty programs that are too specialized to put on the main signal. Have places where listeners can go on your site to hear special in-studio versions of songs or ways to playback interviews of artists when they stopped by the station for a visit.

#### Stand Out in the Crowd

Make sure your station stands out. In the crowded field of thousands of choices, you need to be different. One major benefit of radio has been its ability to be the local voice of the community. Remain devoted to your local community to differentiate you from the many other radio stations on the Internet playing the same kind of music.

Find a unique music position that makes you different from every other radio station in your format. How does one Classic Rock station sound different from another? And how does your station sound different from the other stations in the format? Find that one differentiating characteristic, and make it your calling card.

Unlike professional broadcasting, it's easy to start an Internet radio station. There's no license required from the FCC. There will be many pirate sites where a computer will deliver a non-stop stream of digital-quality music. Some of these sites will have a passionate vision, something that is missing at most radio stations today. This kind of radio is what attracted people from AM to FM in the late '60s. If radio stations become complacent and cocky, they could lose a lot of share to the new radio gurus who are operating with much less overhead and stockholder anxiety. Once someone gets a popular site up and running, will there be consolidation of ownership, as there is in radio? Will big companies also want to own the Internet broadcasters, too? It's possible, but it's such a big, unlimited, uncontrolled domain, the threat of new competitors will always be there.

#### **Music Licensing**

All music broadcasts over the Internet are required to pay music licensing fees. Radio stations are not exempt by the blanket performance license already held by most stations. A separate Internet licensing agreement must also be held. ASCAP is currently offering an experimental license agreement that will permit a radio station to play music in the ASCAP repertoire over the Internet without increasing the cost to stations significantly.

ASCAP and BMI are involved in a new technology called Audio Video Scan (AVS), which will search millions of Web sites for unlicensed music on the Internet. The new AVS technology will allow the licensing companies to find out the music content of each site, and then enforce their members' copyrights. If you are considering broadcasting music on the Internet, check with

your FCC lawyers about the ASCAP/BMI/SESAC license that will cover your on-line broadcasts.

#### **Get On the Internet**

Don't let your competitors take the lead and get a stronghold on the Internet. Now is the time to explore this new technology.

It's here to stay. Don't be like the broadcasters who thought that FM was a passing fad. Use the Internet to increase your station's reach, and to allow you to offer more choices for your listeners and advertisers.

#### TRANSMISSIONS

Jacor's L.A. Progressive duo KACD/KBCD (aka Channel 103.1) has hired Keith Cunningham as Program Manager. Most recently, Cunningham was Promotions Director for KBPI/Denver and was Marketing and Promotions Director for KBCO/Denver-Boulder. See All The Dirt for more details.

Remember last week we told you about KMTT/Seattle's sixth annual Winter Warmth Concert? Well, the show, featuring Susan Tedeschi, Sonia Dada and Jude sold-out in about an hour! This is not a tiny club either, we're talking 1,400 seats folks! Net proceeds from the December 4 show go to Seattle non-profit organization First Place. Congratulations to The Mountain for a dynamic job of promotion, and the artists who've proved to be such a strong draw.

WVRV/St. Louis is bringing Barenaked Ladies into town to headline their third annual River Of Toys concert, December 10 at Mississippi Nights. A portion of the proceeds from the show, which also features Edwin McCain and local act Robynn Ragland, benefits the

annual Marine Corps Toys for Tots campaign.

KRCL/Salt Lake City has a new MD. Doug Young replaces the retiring (just from MD folks) Bill Boyd. Young's call times will be Tuesday 12:30-4:30 (Mountain Time) at (801) 363-2801. E-mail: iceman@krcl.org. Be nice, he's a volunteer.

WOBR/Wanchese, The Wave, elevates MD Eric James to APD/MD.

Despite rumors to the contrary, WXLE/Albany has no intention of switching formats at this time.

Former WRCX/Chicago afternoon driver Eddie Webb has joined crosstown Classic Rocker WLUP for the same position. Webb replaces Steve Downes who slid into mornings after the departure of Buzz Killman. Look for Webb to start at The Loop on Monday, November 16.

SW Networks Sr. Director/ Programming John Loscalzo has been named VP/Programming of the network. In his new role, Loscalzo will continue to supervise all SW entertainment news and programming content.

WMMS/Cleveland hires Slats from KISS/San Antonio under the new

reconstrunction plan. PD Kevin Vargas returns to the air to replace him in afternoon drive.

#### **UGLYS AT WDET**

Capricorn's Ugly Americans played WDET and paused for this pic with WDET's Chuck Horn (second from left) and PD Judy Adams (center).

#### **PROGRESSIONS**

Rhino rules! The quintessential

singer-songwriter and piano man, Randy Newman, is their latest focus with the four-CD box-set Guilty: 30 Years Of Randy Newman. While all your favorites are here, giving us all a reason to bow in the direction of Jim Neill's office,

there are also almost thirty previously unissued tracks that you'll want to check out. "Mama Told Me Not To Come," "Sail Away," "You Can Leave Your Hat On," "I Love L.A.," "Short People," "Dixie Flyer," "It's Money That Matters," are all included for fans of Newman's rare and wry wit. Once again the packaging is as stellar as the collection. Kudos to the folks at Rhino, and we can't wait to see what you'll be bringing us in the new year. Keep 'em coming.

Thanks to Pam Edwards and the fine folks at WORK for the opportunity to see an historical event in Beantown last weekend, not to mention the chance to hang with some friends, namely WBOS' George Taylor Morris, WMVY's Barbara Dacey, WERU's Sara Willis, the soon-to-be traitor from WXRV, Mike Mullaney, (we're kidding!), Songlines' Sean Coakley, and Rounder's Leslie Rouffé, among many others. The Karma Club in Boston was packed with folks dying to see Neil Finn and a few that wanted to see Pearl Jam's Eddie Vedder sit-in with Finn. Or maybe it was the other way around. Finn started his set with Crowded House tunes, "Fall At Your Feet" and Distant Sun." and mixed his new solo material with familiar and obscure songs from Split Enz as well as CH. When Vedder (as a blonde!) joined Finn on stage the reaction was palpably electric. Vedder harmonized beautifully with Finn in his classic marbles-in-mouth style. It was a great show and a fun time was had by all. Some had too much fun. Ouch.

From Big Pink to Big Wig: Former Band member Robbie Robertson has been named the new head of DreamWorks' record division. Robertson will tackle a multidimensional role that will see him involved in both artistic and executive activities at the company, including soundtracks. His unique role, "label muse," will also enable him to participate in projects set in motion by DreamWorks' parent company, DreamWorks SKG.

Canadian songstress Sarah McLachlan has emerged victorious in the first round of a copyright lawsuit over her 1988 album Touch. Judge Bruce Cohen agreed with McLachlan that former collaborator Darryl Neudorf was properly compensated for his co-writing efforts on Touch.

Here's everybody's big chance to be a record exec. Rounder has posted three songs from Lynn Miles' new Philo release, Night In A Strange on its Web (http://www.Rounder.com): "Middle Of The Night," "Sunset Blvd." and "Yeah Yeah," for visitors to pick a single from. Visitors can either listen to the songs in their entirety or in a 30-second sample. They can etheir choice contest@rounder.com, along with some background info. Five randomly selected entries will win five CD's of their choice from the Rounder catalog, along with an autographed copy of Night In A Strange town, which hits stores on January 12. Deadline for contest entry is December 1.

The Folk/Rock sounds of Todd Washko feature a harder edge

than most traditional Folk singer/songwriters. Going Somewhere (Radionic) is a fun album

which manages to be lyrically potent at the same time. Washko's style ranges from storytelling Folk tunes to Pop/Rock gems that showcase his keen sense of irony. All of the songs have a little story behind

them (see the liner notes, please). Songs we think you should lend an ear to include: "Flow," "Same To Me," "Detroit Rain," and "Radio Hill."

The sad, lonesome cowboy is an image that goes hand in hand with Country a n d

Bluegrass music. Cowboys have been singing sad songs way before Hank Williams was a gleam in his Daddy's eye. The voice and music of James King is tailor-made for the sad songs of the lonesome highway. He feels that these are the songs that do him justice and that he can deliver them with honesty. We are inclined to agree after listening to Bed By The Window (Rounder Select). A native of Carroll County, Virginia, (home to such greats as Tommy Jarrell and Kyle Creed) James is one of the most soulful Bluegrass singers we've heard. Just listen to the title-track which easily wins the Saddest Song of The Year category. Check out: "Wear A Red Rose," "Tall Pines," "I Don't Do Floors," "Pack Up Your Sorrows," "Love Me One More Time," and "Called From Potter's Field."

Rounder presents yet another fine example of excellent Bluegrass with **Dickens**, **Jones and** 

Hawker's
Heart Of A
Singer. This
group of established Bluegrass artists
puts the

female slant on the Bluegrass/
Country sound. This is a monumental album for Hazel Dickens
since it is her first recording in
eleven years! Bringing three generations of Appalachian women
together in music also makes this
CD particularly special. The sound
is reminiscent of the Kossoy
Sisters, yet with a unique style
that is distinctive and original. If
you've had success with artists like
Alison Krauss this disc should be

right up your alley, or more appropriately, down your dirt road. Listen to: "Forsaken Lover," "Lay Me To Rest," "Not A Word Of That Be Said," "Faded Pressed Rose," "Let Me Go," and "Coming Down From God." Do yourself a big favor and track this puppy.

Senegalese musician/singer Boy

Ge Mendes'
new album
Lagoa (Tinder)
is full of intimate songs
about the
lagoon (lagoa)

or the sea. You can practically hear the waves breaking against the beach in his guitar and the sea breezes in his voice on these soft and gentle songs that perfectly capture the beauty of the sea. The musical styles range from French cabaret to exotic Indian melodies and tones. Our advice? Take this one home for the weekend and really relax. We especially liked: "Nha Tchon," Joia," "Choros," "Ayuweh," "Cumba Ietu," and "Dia Nansce."

Catch Genghis Angus on the road in these fine cities: 11/13, New York; 11/14, Northampton; 11/18, Columbus; 11/19, Chicago; 11/20, Rock Island; 11/21, Indiana; 11/27, Sterling.

#### SUICIDAL TENDENCIES SIX THE HARD WAY, ST RECORDS

Mike Muir and company return to the scene with Six The Hard Way, their first new release in almost four years. During that time, a lot of things have changed, but the sui-cyco sound we've all come to love is still there. The first two tracks, "Freedumb" and "Cyco Vision," were both recorded with the band's current lineup last August and harkens back to their early days when the SoCal skate

punks changed the face of Metal with songs like "Institutionalized." Tracks 3 & 4 were both done in 1996 with an INFECTIOUS GROOVES/SUICIDAL hybrid that adds an interesting groove to the music without sacrificing any of the angst-ridden Punk/Funk that both bands are known for. As an added bonus, intense live versions of "Fascist Pig" and "I Saw Your Mommy" round out the EP for all of you old school members of the "Suicidal Army." So, no matter what you like about Suicidal, be it guitars or groove, it's on your desk this week. Add it and get ready for the new full-length to hit in February 1999.

#### JACK OFF JILL COVETOUS CREATURE, RISK

Ever since hearing JACK OFF JILL's first nationally-released album, Sexless Demons And Scars, we thought it was ripe for remixing. The Florida foursome's music already has a touch of Industrial to it, and their tour with LORDS OF ACID hammered that point home. With new guitarist SMP (otherwise known as former MARILYN MANSON guitarist Scott Putesky) in the fold, as well as a new

drummer, Claudia, the band's tweaked some tunes from their last album. Given the Manson connection (Mr. Manson produced early demos for the band and both bands write about the underbelly of American pop culture), these remixes should elevate the band to the next level of their career. We like the "tweaker remix" of "American Made," the "meow mix" of "My Cat" and the "no control mix" of "Poor Impulse Control." Also, stay tuned after the seventh track: there's a trio of hidden tunes to take your pick of.

ALSO GOING FOR ADDS: EPOCH OF UNLIGHT, WHAT WILL BE HAS BEEN, THE END; SCHOLOMANCE, A TREATISE ON LOVE, THE END; YARIOUS ARTISTS, SO MOTE IT BE: VOLUME 1, ALABASTER; PIECEMEAL, SOMEWHERE BETWEEN CRUCIFIXION AND RESURRECTION LIES REDEMPTION, WONDERDRUG

\* From Our Trapped Under Knife dept.: Kirk Hammett, who plays guitar for a little-known band called METALLICA, was in London last week for a promotional tour in support of the forthcoming Garage Inc.

when he was rushed to a hospital for an emergency appendectomy. He is expected back in the U.S. this week and should make a full recovery in time for the band's upcoming tour.

- \* Any truth to the rumor that England's ALMIGHTY are reforming with ex-BIOHAZARD guitarist Bobby Hambal in the loop?
- \* From Our It's Off dept.: KoRn was forced to cancel their November 4 show in Albany after lead throat Jonathan Davis was diagnosed with a severe case of exhaustion. Doctors recommended that he take a few days off from the tour so that they would be able to complete the rest of the shows, which are scheduled through November 21.
- \* From Our I Want To Rock & Roll All Night And Read Playboy Everyday Dept.: As if having Beanie Babies, action figures, and an upcoming movie all in their name wasn't enough, our favorite superheroes in KISS will soon have an entire issue of Playboy

released in their honor! According to the official KISS web site, the band has agreed to appear on the cover of the March 1999 *Playboy* which will feature a cover-article on the band in addition to numerous photos of the band's female fans wearing KISS makeup, but not much more. In non-nudity related KISS news, Canada's **ECONOLINE CRUSH** have scored the coveted opening slot on the *Psycho Circus* tour through December 20.

\* From Our Magnet Gets Kurupt dept.: MONSTER MAGNET's Dave Wyndorf looks like he's living the splashy high life of a Rap star in the video for "Space Lord." Now he's actually going to be entering the studio with rap-

per Kurupt to record a Rock remix of the song "Gimmewhutchagot." Kurupt, one half of THE DOGG POUND, recently released his solo album, Kuruption. It actually was the video for "Space Lord" that caught the rapper's attention. "I've always wanted to collaborate with someone who's music is so different than mine, who's in a different game than I'm in. And Monster Magnet are at the top of their game, so it's a dream come true. I feel like I've made a universal hit."

\* From Our Legal Undertow Dept.: The members of TOOL were scheduled to appear in court on November 10 to continue their current contract dispute with Volcano Entertainment but, for the fifth time, the case has been pushed back. So, look for the band in Santa Monica Superior Court on November 24 and, if everything goes well, in the studio in 1999.

**Kirk Hammett** 

\* Do yourself a favor. Listen to BLACK SABBATH's Paranoid. OK, now grab Volume 4

and listen to that. Now answer this question: why the hell did Sabbath get passed over to be inducted into the Rock and Roll Hall of Fame? We don't know either. At least Ozzy is okay with the band being snubbed. He recently told MTV News "It would be nice, but if we don't, I'm not building my hopes up with this. They got people like McCartney, Bruce Springsteen, all the rest of them are like huge, so if we get in we get in,

#### STUFF YOU SHOULD KNOW continued

if we don't we don't." Still, no offense against the STAPLE SINGERS, but we think that Sabbath defines "Rock" more than they do.

- \* From our Antichrist Cyber-Star dept.: You can now fulfill all of your MARILYN MANSON needs by visiting the official online site (http://www.marilynmason.net) and Manson store (http://www.marilynmansondirect.com). Want a Manson bomber jacket? Well, we don't either, but if you did, you could pick it up at the online store. You can also purchase Internet-only items like autographed posters, musical instruments and original artwork created by Manson.
- \* Among the highlights of this year's CMJ festival were NOTHING-FACE, STATIC X (nice hair, dude), DROWN, SPINESHANK, and ORANGE 9mm. Among the shows we didn't catch that we've been hearing nothing but raves about included NEBULA, THE HELLA-COPTERS, DAMNATION A.D., and NEUROSIS.
- \* Just so 'ya know, we've gotten word that '80s rockers LIZZY BOR-DEN have reformed, are playing some shows in California and are in the process of planning a U.S. tour. Get ready to give 'em the axe again!!
- \* Interscope dropped us a line this week to let us know that the long-awaited fifth installment of their "Matacooti" video series has landed. Matacooti Mountain features plenty of Interscope artists performing live, carousing behind the scenes and other wacky stuff. Look for it soon, or call your friends at Interscope for a copy.

#### WHJY, PROVIDENCE, RI MD-SHARON SCHIFINO:

This one is going to be short and sweet. Jo, Dave, you ROCK in a really big way! Thanks for keeping the Rock going for AOR! You made us ALL look good. And, I've always loved hanging with you two when we got the chance. Jo, I want to hear more interviews out of you. I love hearing your talents on 'HJY. Dave, all I can say to you is...please don't come back to Providence, we don't want the competition!! Seriously, good luck to both of you on your next endeavors. Looking forward to your next move!

#### WBUZ, TOLEDO MD-MARIELLE SALAS:

GREETINGS FROM THE ULTIMATE BUZZ! It has come to my attention that some of you wonderful, patient, soft-spoken record people don't always have an easy task of tracking down my illustrious, yet often elusive, PD Dan "I Know All The Hooters Girls By Name" Bozyk. Well, of course, the sure fire way to track him down (and assure he's in a good mood) is the weekly Monday Night Football/Hooters experience. If you can't make it to Toledo on Monday night (you don't know what you're missing), our dear friend, Jim Kelley at Restless, has just made your lives a little easier. I like to call it 'Chairola,' and it consists of a HEATED, MULTI-VIBRATIONAL cushion for Dan's office chair. Like all good things that vibrate, it has multiple settings and can vibrate away last minute remotes, canceled shows, missing music, late jocks, and most of the day's stresses on several body parts. All with only one mysterious side effect: an uncanny craving to hear Econoline Crush. So, needless to say, Dan is spending a bit more time in the office these days. You usually can't catch him during his afternoon air shift, but afterwards, it just may not be too late to call...To all my wonderful, talented friends at WRCX, I'm shocked and saddened, but you guys are so awesome I'm sure you're swamped with opportunities. Finally, KID ROCK IS COMING BACK TO TOLEDO!!! Take a road trip out here and be amazed! Most of all, don't forget, I have an office chair, too!

#### KZZK, QUINCY, IL APD/MD-PAUL ERICSON:

The great Rock continues to flow 24-hours-a-day at The Grizz. Thanks to Jon Nardachone, at Atlantic, for the Win It Before You Can But It with the new triple-live Rush. While we are spewing out TY's, thanks to Jason, at Lee Arnold, for the King's X phoner and the tickets to the St. Louis show. Thanks to Jay Phebus, of King's X, for the Meet 'n' Greet after a sold-out show. And, thanks to Jennifer, at Beyond, for the phone call from Nikki, of Motley Crue. Killer live records

are flowing at the station with wonderful sets from Rush, Big Head Todd & The Monsters, and Dream Theater. These DT guys have to be among the best musicians in the business. If you are a fan you owe it to yourself to check out the Dream Theater Five Years In Live Time video. It is simply amazin!!! New adds this week include: Metallica, Better Than Ezra, and Dream Theater, plus we have finally been able to add the Lenny Kravitz. Sorry it took so long, Ray. Looking forward to the Springsteen box set and all its goodies. Keep rockin' until next time. C'ya.

#### WKZQ, MYRTLE BEACH, SC MD-SUMMER:

We have been anticipating the Sinful Trilogy of Days Of The New, Finger Eleven and Flight 18, but since Travis has left the building, I guess the hundreds of college girls will now flock to Finger Eleven (good news for Wind-Up) and Flight 16 (550). The good news for Days' fans is that the new CD is finished, and the single is great. I'm sure [it] will be receiving airplay regardless of tour support. And, we did add local sensation Candella, with a female singer to the bill, so the House Of Blues will rock Friday the 13th, as planned. Hi, Harry Schwartz, of Hollywood. Don't you know radio people? Don't come EARLY!!! Sorry I missed you...Third track from Jerry Cantrell is the best so far. Check it out! "Dickeye." "Dickeye." I'm getting used to saying it. I used to dickhead a lot (I work with all guys, you know.)...Also killer phones on Metallica cover "Turn The Page." Hot blood waiting for Nov. 24 release of Garage, Inc. Hope this finds that cute little Kirk in top form after his appendectomy last weekend. Oh, we did have a silly little game here this weekend, "The Senior Golf Classic Tournament." You may have heard of it since it was on EVERY FRIGGIN' Sports & News channel for 3 or 4 days. Did you see me??? I was on the 9th hole at the corporate tent with Reckless Eric. Well, IN the tent, okay!!! The truth is there was free booze and food, and we NEVER left the tent. I still don't know who won the damn thing, but in the world of Queen Voice, a great golf game was had by all!!! Good night. How do you yawn on the computer???

#### WAMX, HUNTINGTON, WV PD/MD-DEBBIE WYLDE:

HOWDY!!! It's another birthday for me this Friday the 13th! (Don't ask me how old!) For WAMX it looks like things are finally returning to normal! New additions, new people, new shows...same rockin' format! As announced last week, we will be adding the "John Boy & Billy Big Show" in the mornings! Rob "The Informer" Kimball has joined WAMX to pro-

duce the shAow. Robin, the night goddess, has been promoted to take over my midday shift. Atlantic Star Production Director Jason Steele will handle a couple of hours in the afternoon before I take over for the drive home. Joining WAMX is Erik Raines, who will rock the night! WE ROCK! Thanks to Mari Dew and Linda Wilson, with Trauma, for a wonderful weekend in Cincinnati. The Flys and Janus Stark absolutely kicked ass! I can't wait to see Janus Stark rock again in Huntington on December 4. Also, we just announced KISS 45 minutes up the road in Charleston on ADecember 8! ROCK ON! Mark your calendar for December 16. WAMX will present the first ever "Rock Auction" to raise money for the Ronald McDonald House. If you'd like to donate autographed Rock stuff, please send it to 134 4th Avenue, Huntington, WV 25701. Your support will be deeply appreciated! Thank you very, very, very much to Mike Martinovich and Epic Records for the wonderful donation! WE ROCK! Kicking ass on the phones: KoRn, Rob Zombie, Black Sabbath, Offspring, and Marilyn Manson. PLEASE TAKE NOTICE: NEW MUSIC CALL TIMES ON THURSDAYS, 1-4 PM, EASTERN!!! THANKS!!!

#### KRZZ, WICHITA PD-LESTER ST. JAMES:

If this is what it's like in Seattle, I can under stand why they do so many depression studies in the northwest! The sun has been out for a total of 45 minutes since October 30 here in Wichita! To say the least, many people are starting to get a little cranky!...The 6th Annual Special Olympics Celebrity Memorabilia Auction is set for Saturday, November 21. Thanks to all who've helped, you're the greatest!... I am out of town for the Conclave board meeting this weekend in Minneapolis. Do you have any idea, suggestion or thought you want passed on to the board for Conclave 24? Please fax or e-mail me by Thursday...Look forward to seeing the Vikings on Sunday (thanks J.), but I can't find any tickets for the Gophers and Fighting Sioux hockey game Friday night! WOW!...Other mindless Lester ramblings & thoughts: Only 45 shopping days until Christmas. Have you been naughty or nice?...Team Icehouse has started its defense of last year's championship season in grand style. Our main goalie is gone for 6 of the first 8 games, so I get to strap on the pads! (We won 10-2 last week with only 6 skaters!) This week we play the team of former pros, including Tom Roulston and his Edmonton Stanley Cup ring!...CONCLAVE 24 is July 22-25, 1999. PLAN NOW for the party in 1999 at the Minneapolis Marriott...Peace, love and Jesse Ventura for president!!

#### KKEB, FAYETTEVILLE, AR PD-MARK MORGAN:

Go Hogs, go. Still undefeated and rolling in to take on the #1 Vols on Saturday. Damn!! Fayetteville is rocking, and it's great to be in town with a winner. Oh, yeah, Nolan Richardson and those round ball razorbacks get things started soon. A sports nut dream come true. Wooo, pig, sooooie!!...Music, well that's rocking, too. Had a brief encounter with The Golf Gods last week. Ask Ronnie (Swan Promotions) how to sing "Cat Scam Fever." Bubba Wayne (MCA) was along for the trip and it was, well, everything but normal. Has John Entwistle and his little band been through your area? The "Pub Tour" hit the hill on Sunday night, and all reports say it is a great project. The Who's bass player in a small, intimate club setting. Am I dreaming? Maybe! Song Of The Week: Vallejo "Beautiful Life"!!! If you aren't playing this one you might be missing one of the best bands out there. Check it out. Indigenous is getting hotter and hotter. The new Crowes just flat ass cooks, and Anouk is starting to buzz. That's all till next time. Play Rock 'n' Roll, drink beer, smoke cigars, and have safe sex...even if it is with yourself. Later...

#### KZRQ, SPRINGFIELD, MO PD-JULIE BARRY/MD-GEORGE SPANKMEISTER:

We love Rock 'n' Roll! We both come from that other format that has nothing but one-hit-wonders, and you know we love Active Rock. Metallica, a no brainer, their umpteenth hit song, "Turn The Page," debuts at #9 after 4 days of airplay, zillions of CD's sold, and huge stadium tours. Plus, you have your big bands form the '70's and '80's that are still a sure thing: Black Sabbath, Aerosmith, KISS. King's X has this new great song, "Fade," that everyone needs to bang. We've only been on it a few weeks, the band was in town Sunday night and this huge crowd was singing along to "Fade." We don't even know the words like these people did. You could tell that the band was elated, and we were just as proud. What an awesome show, too. You've gotta play King's X, and then you have to see them live. And, why isn't everyone playing Drain S.T.H.? It won five nights in our 10 o'clock Crunch. It's a Motorhead song. Four hot chicks from Sweden singing a great f%!#&%g Rock song! You do the math...So we had to make a few modifications to our Dare To Care Benefit concert in order for it to BENEFIT non-profit organizations

in Springfield. All we've done is move it out of the enormous Shrine Mosque to inside two clubs that are downtown, a block away from each other. Channel Z did it this way several years ago when we discovered The Phunk Junkeez, Veruca Salt, and Jewel. It was huge, and many folks who hadn't been to the downtown area in years were pleasantly surprised. At the Juke Joint we'll have The Judybats, Sonichrome, and Dishwalla. Over at the Regency Showcase the show features Slaughter, Warrant, and Quiet Riot...Dare To Care will not stop there. We are planning a charity auction in a few weeks and we need you to clean out your closets. If you've got any old promo items or autographed pieces, box sets, or limited edition anything, please send them pronto to KZRQ, 322 E. Walnut, Springfield, MO 65806. We are selecting 10 non-profit organizations to split the profits for. We'll have tons of press and your help will be intensely, overwhelmingly, appreciated...Top phones go to: 1) Metallica "Turn The Page," 2) Offspring "Pretty Fly...," 3) Black Sabbath "Psycho Man," 4) Marilyn Manson "The Dope Show," 5) Dishwalla "Stay Awake." (Another great song all programmers should wake up to.)

#### HILAIRE BROSIO ELEKTRA (310-288-3842):

I want to extend a huge thanks to Rock Radio for making Metallica's "Turn The Page" the Most Added track EVER! That's 227 out-of-the-box adds in the Album Network world, or 98.7% of the R&R combined Rock panels. HUGE! "Turn The Page" is already the #1 Most Requested track in the country and is exhibiting instant familiarity everywhere (I kid you not). Their forthcoming album, Garage Inc., hits stores on November 24 and contains a total of 27 tracks to delight your gray matter... Elsewhere, VAST continues to snowball as "Touched" moves to #30\* in both the fmqb and Album Network Active Rock charts. Sales are igniting with big jumps in Chicago, Boston, and Detroit. Feeder's "Descend" continues to pull Top 5 phones at KLBJ, and moves to #32\* in the R&R Active Rock chart. Phish's new release, The Story Of A Ghost, has sold 102.339 copies in two weeks! Their lead track, "Birds Of A Feather," debuts at 50\* on the R&R Rock chart, and the band is currently touring their asses off (I still kid you not). Finally, Better Than Ezra's "At The Stars" is making big gains at Rock and Alternative this week. Smart programmers are feeding off of the solid fan base that the band has established over the years. 'Nuff said.

#### JOEY SCOLERI HOLLYWOOD (818-560-5395):

joey\_scoleri@studio.disney.com Where's the beef? How about WLZR, Milwaukee; WRQC, Minneapolis; WCCC, Hartford; WKRK, Detroit; WXRC, Charlotte; and WBZX, Columbus! All of these kick-ass rockers added **Sprung Monkey**'s "Super Breakdown" this week. Add these monster markets to WAAF, Boston; KEGL, Dallas; WXTB, Tampa; WXTM, St. Louis; KIOZ, San Diego; WMFS, Memphis, and over 30 other Actives. Here is the deal: spin "Super Breakdown," get results. KRXQ, Sacramento: 18 spins-per-week, #9 song. WJRR, Orlando: 20 spins-per-week, #11 song. It's that simple. Big hook, smokin' guitars, hit record...Queen's Crown Jewels boxed set is in-stores November 24. The CD-Pro, with five different versions of Queen's first radio track, "Keep Yourself Alive," is in your hands. Advance orders for this Eight-CD masterpiece are phenomenal!

#### MUNSEY RICCI/D. J. PELUSO/MARCELLO SKATEBOARD MARKETING LTD. (516-328-1103):

e-mail:skatebmkt@aol.com http://www.Skateboard-Marketing.com The CMJ Convention is over but my liver is waving a white flag from all the beer we drank. I'm glad I got to meet all the new faces, and there were a few we missed and I'm bummed, but next convention we will. We did the tradition of a greasy spoon @ 4:00 with Will Knapp and Matt Dylan, so that's a beautiful thing. Anyway, the dialogue is short this week. Show lots of love to Rush, Zebrahead, Sepultura, Nothingface, Belladonna, Divine Empire, Elephant Ear, Down, and Jonas & The Autumn Lords.

#### SEAN MC KNIGHT NUCLEAR BLAST AMERICA (717-244-0808):

radio@nuclearblast-usa.com Short and sweet this week, folks. Two things: Meshuggah's Chaosphere should be added by the time you read this and should be getting massive spins from your station.

And, keep up the big push on Death's The Sound Of Perseverance and Hammerfall's Legacy Of Kings. Both bands are touring. We've gone #1 at Hits; we'd like to go #1 everywhere else. And, the key to this whole thing is longevity. Please keep up the amazing support you've been giving us. I'm still doing a massive giveaway campaign, so if you still haven't done giveaways and would like to, let me know!

#### MIKE LYONS LEE ARNOLD MARKETING (414-351-9088);

KOTR, KPIG, WCLZ, WAPS, WEBK, WMWV, and KTAO lead the pack on Emmylou Harris' "Deeper Well," outta-the-box this week, and Letterman wants her back next month. This track is not too soft or too twangy. Buddy Miller and Lanois' Rhythm section give it plenty of drive. Remember Fleetwood Mac's "Albatross?" The new track from Joe Satriani is a stone beautiful song called "Love Thing" that reminds me of that old gem. CD-Pro is on your desk now, going for adds this Tuesday (Nov. 17). Check this one out. It's one of the few instrumentals I've heard that has a real shot. Nice buzz already. What a week this has been! First, the waitress moms send Newt packing as Jesse "The Body" Ventura becomes governor of Minnesota. (He'll take over after he kills the Iron Sheik Saturday at the St. Paul National Guard Armory.) Meanwhile, Ginger Spice is now a U.N. Ambassador, and Adam Sandler opens a movie at \$40 million. I wouldn't be surprised if next week Barry Lyons announces that Rammstein has been booked for the Michael Douglas/Maureen Dowd wedding reception. Worlds are colliding!

MELODY

MAKER

#### Dishwalla

#### "Stay Awake," (A&M)

Mixing an Industrial sound (ala Stabbing Westward, Nine Inch Nails), and the typically brilliant Pop melodies that have made Dishwalla stars, "Stay Awake" will react with your audience and sound great on the air. J.R. Richards' intense vocals once again reel you in from the onset. The hook is enormous and will stay in your head for hours. Taken from their solid sophomore effort, And You Think You Know What Life's About. Already on at KLZR, WEDG, WKRL, WKRO, WENZ, KWOD, WRAX, WXSR, WPBZ, and WEJE.

#### Eve 6

#### "Leech," (RCA)

The seductive catch-and-hold chorus of "Leech" underlines the tale of an emotional parasite ("Sucking on my brain/You're the teacher/I'm the student/Turning things around/Your story's not congruent"), and cements the band's status as a true up-and-comer, not a one-hit-wonder. "The songs come from our own experiences, from relationships, heartbreak and the idea of wanting to break out and be understood," reveals singer/bassist Max Collins. "Leech" is a powerful, personal Pop epic that will certainly take on a life of its own the moment you put it on the air. Early support at KNDD (27 spins), KXRK (26 spins), WPGU, WBTZ, Q101, Y107, 99X, WXZZ, and KRAD.

#### **Fathoy Slim**

#### "Gangster Tripping," (Astraiwerks)

Rolling Stone has praised Fatboy Slim's 100,000 seller, Better Living Through Chemistry, as being "the most fun, shamelessly genre-hopping dance album of the year." The same could be said for Norman Cook a.k.a. Fatboy Slim's latest effort, You've Come A Long Way, Baby. A deep long-player, the album sifts through the genre's finest moments, starting with this deliciously crafted track. "Gangster Tripping" should usher the former Housemartins bassist and remix wizard into a long, successful career in the mainstream. On at KNDD and WBTZ.

#### Hole

#### "Malibu," (DGC)

"We set out to alter the skyline," says Courtney Love of her band's new album Celebrity Skin, "to build a monument to our past and to the present. And - almost as a joke at first - to redefine the California sound." "It was ambitious and almost silly," Love reiterates, "but we wanted to redefine everything about the California sound, from the California boy and girl to the beach and sun." "Malibu," written by Love, guitarist Eric Erlandson, and Billy Corgan is a Pop/Rock masterpiece that will no doubt catapult the band to even greater heights on the sales and airplay charts. Early support at WHFS, Live 105, KNDD, WXRK, WBTZ, KZNZ, WRAX, CFNY, KROQ, KTEG, and 91X.

#### **Plastilina Mosh**

#### "Monster Truck," (Capitol)

The music of Monterey, Mexico's Plastilina Mosh (p.Mosh), is a brilliant contradiction of the sloppy to the sublime, from Jazz to Rock to Soul with a good deal of atmosphere and attitude in between. They are currently one of the most popular acts south of the border this side of Selena. "Monster Truck" is an ingenious mix of Electronica and Punk Rock, as funky and quirky as Fatboy Slim, the Beastie Boys and Beck, and as hard-driving as Nirvana and nine inch nails. The duo of Alejandro Rosso on keyboards, programming, arranging and background vocals and Jonas on lead vocal and guitar is an explosive combo that should easily cross over and experience success in the States. Their debut album, Aquamosh, was coproduced by Tom Rothrock and Rob Schnapf (Beck & Foo Fighters).

- All Modern Picks written by Mike Bacon.

show sold-out in under niney minutes. "We're psyched to be showcasing this kind of talent at Twisted 5," PD Alex Luke relayed to fmqb. "It's certainly no surprise to us that there was this kind of demand. Everyone who was fortunate enough to get a ticket is in for an amazing show." See fmqb's 'Tis The Season sidebar for a complete listing of holiday shows announced as of press time... Also on the sell-out front, WHFS/Baltimore. Washington, D.C.'s HFSmas Holiday Nutcracker took only twenty-four minutes for all the tickets to get into the publics hands... WPLA/Jacksonville has released their Native Noise local and regional music CD compilation that features 16 acts (14 bands, 2 DJs), and one unreleased from local heroes Limp Bizkit track.

The CD benefits the City Rescue Mission helping the homeless, and is a very diverse collection of local and regional music. A limited number of CDs are available only in locally owned record stores in Jacksonville. Tracks from the CD are also featured in WPLA regular rotation. The compilation's release corresponds with the debut of WPLA's new local music program of the same name. The new one-hour show airs Tuesdays at midnight and is hosted by Flounder. It will feature tons of local music, interviews and performances. Also making it's debut on WPLA is the new music show, Nocturnal Transmissions. Hosted by Kirby, the show will air on Sundays Mid.-2 A.M. Send all materials to Music Director Crissy, 8386 Baymeadows Road, #107, Jacksonville, FL 32256... WNFZ/Knoxville gave one lucky listener an "Extreme New Life" as part of their big fall promotion. Extreme Radio's take on the classic "Get A Life" promotion was valued at \$30,000, and included such prizes as a new Jeep Wrangler, a watercraft, a free apartment for a year, Subway sandwiches for a year, and a scholarship to a local college. In other WNFZ promotional news, the station also gave listeners the chance to be onstage with KoRn in the "Korn Cage" at their Knoxville show... KPNT/St. Louis' morning team of Jeff, Trish & Thom challenged the strongest man alive, Magnus ver Magusson, to lift the one-and-a-half-ton Point broadcast van Friday morning (11.6), live on the air from the station's parking lot. Naturally, being the strongest man alive and all, Magnus successfully heaved the van in the air (but not over his head - let's not carried away here). Magusson was in town for "The Strongest Man Alive" event at The America's Center last weekend... KXTE/Las Vegas is offering listeners the opportunity to win their height in CDs and drink their weight in beer (by winning quite few cases of Coors or non-alcoholic beer) as part of a fall promotion... KAEP/Spokane spent this past week (11.9 - 11.13) revisiting the past with its The Peak's History of Rock Alternative. Each day from 8 A.M. to 5 P.M., the station has been running down the history of the format, spending just about two hours for each year. The feature starts with 1977 and runs through present day with interviews and pre-produced bits regarding the music interspersed between songs... KTOZ/Springfield, MO is in the process of giving away the completely revamped and re-tooled Edge Cruiser, a 1974 Buick Regal. They've loaded the the back seat with a ton of cool stuff, including a new computer and software, a year's supply of Coca-Cola, a gift certificate for a year's worth of tanning, a paintball gun, a brand new stereo system and car alarm, and a compressed hemp skate deck (to jump off, not smoke)... WOXY/Oxford-Cincinnati is giving away "Virtually Every Release Of 1998." Close to 600 CDs will all go to one lucky, unsuspecting 97X listener before Christmas. Not a bad present, huh?!

Michael Parrish Each of you is involved in a fairly large radio group. Is your stuff starting to be shared within your company in other markets now?

Kelly Doherty Within the past year [WHTZ (Z100)/New York's] Dave Foxx has developed a huge Chancellor Web site that is a great help. It has artist drops on it. Everybody from Chancellor stations can put their best promos on the Web site. It's this huge bank of ideas. If you are curious about imaging, you can find out what everybody else within the company is doing and what's new and hip. At one point, Dave had something on there about doing sweepers for Z100. If you want to help out other stations, it's all right there at your fingertips. If I need a copy idea or I'm in a creative slump, it opens the doors for networking with other Chancellor production directors.

Steve Stone My first introduction to Kelly's work was through the Web site.

John Frost Which is what address?

- KD It's just for Chancellor people.
- JF I am going to find out which surfing thing will find that site.
- SS Like Kelly said, there are samples of other people's work, but what's really neat about it is that every market is different and localized. You get to hear the differences with promotions that are similar. It really is a big benefit and I'm sure that this will be happening soon with other companies. It's a good weapon to have, because I'm a big fan of networking. If somebody's idea is better than mine, I don't have a problem with that.
- JF Exactly. If something works well in another market and you don't take a look at it, that's dumb.
- MP John, you did some stuff for K-Rock in New York when it first signed on, is your work being shared with other Infinity stations, as well?
- JF Not as far as I know. I have no problem with doing stuff for other stations, but I want to rene-

gotiate my deal if that becomes an understood thing to do. It's really not part of my deal as it now stands. We help out every time we have a change of format somewhere. You have to help out when they need one hundred jingles in no time because they're flipping in two weeks.

MP Rich, what's the situation like with Jacor?

Rich Van Slyke It's absolutely huge. We're having the Prophet system installed right now. It's our own intra-company e-mail system for audio. I'll be able to download anything from anybody in Jacor all over the country. Nobody has more production elements than Jacor, so I'm really looking forward to it. With Gene Romano here, whenever I do something good, he has me send it to the other stations! They do the same thing in Cincinnati, San Diego, and Houston.

**JF** That's global domination you bastard!

RVS My company is going to take over the world.

**JF** (sarcastically) What the hell, I'm in the wrong company.

MP Then it's safe to say there is quite a bit of sharing your work within your own companies?

- KD Absolutely. It is the future.
- JF There's not enough really talented production people to get one at each and every station in this nation. There's just not. There are not enough talented DJs. There are not talented program directors for every station. If you find one that has no life and will stay at work past 5 P.M., then you give his work to other stations.
- RVS Don't you think it's incredible that people who are just breaking into the business are getting the top production gigs at major market stations?
- SS That brings up one thing I want to mention that's been bothering me for the last few months. I do freelance work with voice and imaging stuff and I find that a lot of other stations around the coun-

try don't feel the need or necessity to bring in a young person, nurture, and train them to become a really good production person for the future.

**JF** I don't know that they know how.

RVS They never will. Radio is not a training business. Radio is a business where aggressive people get into a radio station, spend all night in the production room, and teach themselves how to do it well. But what's incredible is, where it used to take you ten years to get to a major market, now there's such a severe shortage of good people who want to do radio that as soon as you show any promise at all - Boom! You're in a major market, just like that!

SS I understand it's not the responsibility of program directors to scour the country, find people, and spend years training them. But, it's almost like it's not ever a priority anymore and people are not thinking about five years ahead when some of us may not be in radio anymore.

**JF** I know who you're talking about. Don't think I don't know who you're talking about, buddy.

SS No, I'm really serious about this. People don't realize that there is a shortage, because there are huge consolidations happening and there's one imaging person for five stations. We do need talented people and there needs to be more gigs opening up. I understand financial situations, but we need to think about the future.

RVS As we move into the era of large companies and we become like IBM, hopefully, we will develop some of their attitudes. IBM and a lot of these huge companies have training programs. Radio, once it stabilizes, should develop training programs and production schools.

SS With all these big companies, why not have a Production Summit? Or, why not have a key production person for a format fly into a market and do a weekend seminar? More interactivity would be really helpful.

Courte to be Pt - 60

JF Do you agree that there probably are people out there who can do this job, but a lot of what holds them back is that they don't know that they should just go for it and take a chance, even if it doesn't sound like something they're used to hearing on their station. They are unable to utilize their talent because of the situation they're in.

SS Yes, I agree with you. It's frustrating. Everyday I consider myself very lucky for having people early on in my career saying, "Go into the production room and do what comes to mind."

JF I actually wanted to be a DJ, but I didn't know I was really bad.

SS I had to be a DJ in order to do production.

"There probably are people out there who can do this job, but a lot of what holds them back is that they don't know that they should just go for it and take a chance."

JF I did too. I figured I'd be famous that way, but I hate myself on the air. I suck.

RVS It's also a matter of having so much interest in the business that you just keep trying. A lot of times I'll do something and it doesn't really work out that well and I'll kinda feel bad that my new idea went over like a dead skunk. But then, just because I can't really do anything else for a living, I'll keep at it and maybe ten tries and four weeks later there will be something that actually does work.

KD A lot of production people out there miss that one thing about being detail-oriented. As small as it may sound, you have to get the right sound effect to go into the right hook. If you can't find the sound effect, you make it. That's a big line right there between who's good and who's going to basically stay where they are. When the opening became available at KDWB, I thought there was no way I could get something like that. But, there were people standing by me saying, "Go for it." I sent my tape out and the next day there were phone calls and I got the gig. It was such a huge shock. Why were they putting all this responsibility on my shoulders? But, it was because I would sit there past 5:00 P.M. and take whatever was handed to me. I was eager, just-getting-into-radio, and had a let's do everything kind of mind set.

RVS We all did that at some point.

SS There are a lot of young people who are eager but, in my little world here, I see a lot of young people who work hard for a few months and then go, "Okay, give me my job." I can't tell you anything that's more frustrating for me than to see somebody who goes about things the wrong way. There has to be a concept of reality for a lot of things. One of the things is that it's going to take somebody who is going to work their ass off. seven days a week, and coming in at 3:00 A.M. to do a dub, because they know that's the right thing to do. We've all done that. I still do that now. I'm a moron! But, I love this job, and you know what, I don't want to work at McDonalds. No offense to McDonalds, I eat there quite a bit.

JF I worked at McDonalds and they give you a demerit if you lean, because "If you have time to lean, you have time to clean." That's all I remember.

MP By putting so much time into your jobs, you're bound to hit a creative wall sooner or later. How do you deal with the burnout factor?

RVS I like to smoke crack. That really works.

SS With my job, I have to do imaging plus spot production. Luckily, with the spots. I'm able to dole it out to the jocks, except for a few things that need to have that extra little punch to it. The problem that I come to is, there's just not enough hours in the day to do the things I want to do above and beyond normal maintenance production with the imaging. I like to do work that has something extra. That's my frustration. Burnout for me is just mental, because I write everything myself, which I really enjoy. Writing is something that I've really worked on the last few years, as it's half the battle with production. You can have all the elements in the world, a great work station, and the such, but if there's no content to the production, it will come out average.

JF If you don't have a concept, then you're screwed.

SS Exactly. John is a great example. He starts with a really great idea and builds around that. Maybe he doesn't have a great idea at the time, but he'll have a key word to build off of. That's something that I've really respected. Writing, for me, is the only way I can differentiate myself from everybody else who has a work station and 50,000 effects on CD.

"Radio, once it stabilizes, should develop d training programs and production schools."

JF Exactly my point. That's what makes us stand out. Everybody has a work station and learning to write is important. Even though this job might be hard at times, the amount of creativity that you are able to express in this line of work makes it a great way to be able to shape the sound of a radio station on a daily basis and for the future.

SS The problem with burnout is it comes two ways: You're overworked with volume, but you're also overworked in stimulating your creative brain. To compensate, I call people all over the place. I tell them what I'm working on and someone eventually has done it before. We did our first station festival this year and I called WHFS and KPNT, two of the best festival stations in the country, and got some great examples from them. There were some of the coolest things that I would have never come up with myself. A lot of times when you're burned out, other people are awesome at being willing to give you ideas. I don't find production people in radio are weird when it comes to sharing ideas. We are really open to sharing ideas.

RVS That's because we're locked up in a room all day with no windows.

SS Yeah, interaction with people goes a long way. But, I don't think you see that with program directors and jocks. You see it a lot with production people, because we feel sometimes that we're locked away in a cage and don't get talked to as much as other people do.

RVS The best way to combat burnout is to grow. Growth is what leads to happiness in every form of life and can come from anything. It can come from something as simple as getting a new drop, a new sound effects CD, or a new industrial record where you just can't believe how cool it sounds. It can come from listening to other radio production or watching a good movie. Basically, anything, as long as you get excited. It's like when I watch football on TV, I want to go out and play football. When I hear good production be it in a song, on the radio, or whatever - that makes me want to get in the studio and do good production, especially if it's something I haven't tried before. I like to go down in my home studio, pick up my guitar, and make noise. I create my own beds and effects and then I can't wait to get to work and use them for imaging.

SS A cool thing about production people is that they are easily inspired. I don't know about you guys, but I just love those ESPN SportsCenter commercials. I see those and go, "God, why can't that translate on a radio?" Then I realize it's a visual thing. But, they are so cool, that I strive to do something goofy like that.

KD My little trick is, and everybody else probably does it as well, is that I write everything down. If I hear something when I'm driving or a cool line or concept somewhere, I always write it down and bring it back here to work. I've got a file in my computer called Ideas and I put everything in there. Even though I may only use it once, I keep it in there, because somewhere down the line I can use it again.

SS Keep it in there because the next person who takes your job will want it.

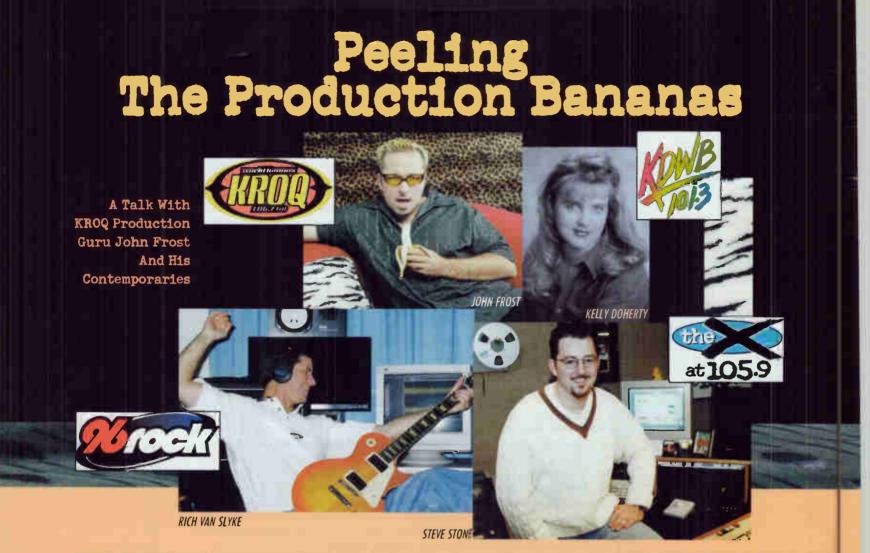

KD No. Then you erase it. You print it out and you erase it.

JF Listening to Kelly makes me think of my youth. I write nothing down. She sounds way too excited about this stuff. I've lost a lot of ideas, because I don't write anything down. Everybody's going to get burned out. There's a lot of ways that things come together. I swear to God, the best promos put themselves together. Sometimes I end up battling and wrestling and, no matter what I do, the thing just will not come out. Sometimes I have no idea where to go. If you don't ask questions of people about different ideas or ways of looking at it or if you don't get outside of yourself, it's easy to get in a rut. You get stuck in yourself and stuck looking at it from your own unique vantage point. Something an intern says in the hallway can give you a germ of an idea. For the most part, when they propose it to me, it's going to sound somewhat lame or stupid, but they're not writers. So take the germ of that idea and do something else with it. Everybody's going to have a rut, it's not an unnatural thing.

GETTING A GROUP OF PRODUCTION DIRECTORS TOGETHER IS NOT NECESSARILY A GOOD IDEA. THESE ARE HIGHLY CREATIVE, ENERGETIC PEOPLE THAT CAN REEL OFF ONE-LINERS EQUAL TO THE BEST COMEDIANS OUT THERE TODAY. EVEN WITH THAT IN MIND, fmgb STILL ENSEMBLED TOGETHER FOUR CREATIVE PRODUCTION TYPES FOR A TALK OF THINGS PRODUC-TION-RELATED.

WHILE ALL ARE AT THE FOREFRONT OF THEIR RESPECTIVE COMPANIES AND FORMATS. THE KINGPIN OF THIS GROUP IS KROQ/LOS ANGELES' JOHN FROST. HE WON'T ADMIT TO IT - OR. MOST LIKELY, DOESN'T WANT TO HEAR IT, BEING THE MODEST AND HUMBLE GUY HE IS - BUT, HIS THREE CONSTITUENTS INVOLVED HERE ALL CITE JOHN'S WORK FOR THE WORLD FAMOUS LOS ANGELES MODERN ROCKER AS INFLUENTIAL AND PART OF THE REASON THEY ARE WHERE THEY ARE TODAY. HE'S BEEN SHAPING THE SOUND OF KROQ FOR SO LONG, THAT IN THE PRE-CONVERSATION FOR THIS DISCUSSION, KDWB/MINNEAPOLIS' KELLY DOHERTY SAID SHE "GREW UP LISTENING TO JOHN FROST PRODUCTION." THAT STATEMENT DREW QUITE A GROAN FROM MR. FROST.

DOHERTY - A.K.A. KELLYKELLYKELLY - IS THE NEW KID ON THE BLOCK. SHE GREW UP OUTSIDE OF LOS ANGELES AND MOVED TO TUCSON THE DAY AFTER GRADUATING HIGH SCHOOL IN '94. SHE PICKED UP AN INTERNSHIP IN THE PROMOTION DEPARTMENT OF KRQQ THAT SUMMER, AND DID AN AIRSHIFT, BEFORE EVENTUALLY DISCOVERING THE PRODUCTION ROOM. THEN-KROO PD MARK TODD GAVE KELLY HER BREAK AS SHE BECAME PRODUCTION DIRECTOR AT AGE NINETEEN. A YEAR LATER, KELLY MOVED TO MINNEAPOLIS FOR THE COMMERCIAL PRODUCTION DIRECTOR POSITION AT CHR KDWB AND SISTER STATION CITIES 97 (PROGRESSIVE KTCZ), BEFORE A MOVE THAT NOW HAS HER STRICTLY WORKING FOR KDWB DOING IMAGING AND COMMERCIAL PRODUCTION AND, OCCASIONALLY, TAKING ON SOME SIDE WORK FOR OTHER CHANCELLOR OUTLETS.

THE THIRD MEMBER OF THIS GROUP, WKLS/ATLANTA'S RICH VAN SLYKE, IS AN ACCOM-PLISHED PRODUCTION MASTER. HE HAS WORKED HIS WAY THROUGH THE PRODUCTION RANKS IN BUFFALO AND ROCHESTER, BEFORE HEADING TO JACOR'S ATLANTA ROCK OUTLET. HIS WORK FOR WKLS HAS LED TO LOCAL RECOGNITION AND FOUR ATLANTA A.I.R. AWARDS FOR PRODUCTION. HE OWNS A SILVER MICROPHONE FOR BEST IMAGE PROMD AND RADIO AND PRODUCTION HAS ACKNOWLEDGED HIS WORK WITH TWO AWARDS. HE, TOO, CONCEDES THAT JOHN FROST'S WORK IS A POWERFUL FORCE THAT HAS HELPED SHAPE HIS OWN CAREER.

LAST OF ALL IS WXDX/PITTSBURGH'S STEVE STONE. SOME OF YOU MAY BE FAMILIAR WITH STEVE, AS HE IS A FREQUENT CONTRIBUTOR TO fmab WITH HIS ARTICLES ON PRODUC-TION-RELATED TOPICS. STONE GREW UP IN NORTHERN CALIFORNIA, BEFORE HEADING TO DAYTON AND GREENSBORO, N.C. FOR PRODUCTION GIGS, EVENTUALLY LANDING AT WXDX. WHERE HE'S CARVING HIS OWN NICHE IN RADIO PRODUCTION. WHILE STONE IS AN OPENLY ADMITTED JOHN FROST FANATIC, WHAT HE DIDN'T KNOW IS THAT JOHN FROST IS A BIG FAN OF STONE'S OWN WORK. A REVELATION THAT FLOORED STONE AND ALMOST LEFT US WITH ONLY THREE PEOPLE FOR THIS CONVERSATION

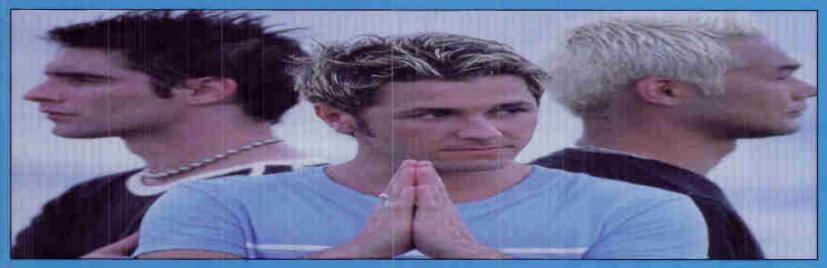

PRODUCTION AND IMAGING HAS BECOME A LOT MORE ACTIVE AND THESE DAYS THERE ARE PRODUCED PIECES FOR ALMOST EVERYTHING A RADIO STATION PUTS ON THE AIR. PRODUCTION BOUNDARIES HAVE ALSO STARTED TO BREAK DOWN BETWEEN RADIO FORMATS AND IMAGING HAS BECOME AN ANYTHING-GOES-AS-LONG-AS-IT-GETS-THE-MESSAGE-ACROSS ENTITY. NOW, MORE THAN EVER, IT IS IMPORTANT TO HAVE CREATIVE AND CAPABLE PEOPLE IN THE POSITIONS SUCH AS THE ONES THESE FOUR OCCUPY. FOR INSIGHT AS TO HOW TO KEEP CREATIVITY FLOWING, WHAT IT TAKES TO AVOID PRODUCTION BURNOUT, AND SOME OF THE CONCERNS THESE FOUR HAVE FOR THE FUTURE OF PRODUCTION, READ ON, WE GET UNDERWAY WITH A DISCUSSION ON GROWING RADIO COMPANIES AND HOW IT IS AFFECTING THE WORK THESE FOUR DO.
