## **FCC Considering New Spectrum Allocation For DAB Alternative To IBOC Would Delay Digital Conversion**

With three competing In-Band, On-Channel digital audio broadcasting systems in final stages of development, the FCC now says it's considering allocating a new spectrum for digital broadcasts, while continuing to evaluate the suitability of IBOC systems. This new twist in the DAB plot came on Monday (11/1), when the FCC approved, by unanimous vote, a Notice for Proposed Rulemaking, taking the first step toward paving radio's digital future.

The new spectrum would come from reallocating TV channel 6 (82-88 MHz) to DAB, once the transition to digital TV is completed. But in the Commission's own words, such a move "could significantly delay the introduction of DAB, [since] the earliest this spectrum will be available in many areas is 2007."

Why is the FCC considering a

new spectrum alternative when the industry, by and large, supports IBOC? According to Audio Services Division Deputy Chairman Peter Doyle, the FCC does not yet consider IBOC "a proven technology so it seems prudent to keep options open regarding other spectrum alternatives." In fact, the FCC is also considering implementing both approaches, which would result in an elongated FM band, from 82 MHz to 108 MHz.

Each approach has its advantages. IBOC permits both analog and digital signals to be broadcast on the same frequency, providing seamless digital transition. Listeners would find their favorite stations at the dial locations they're accustomed to. But there are interference concerns.

A primary advantage of the new spectrum model, according to Doyle, is the ability to "design interference standards and channel bandwidth in a completely empty bit of spectrum [providing for] greater flexibility to design the most efficient system possible." That's not the case with IBOC

But the new spectrum approach would stall radio's conversion to digital for at least seven years, giving satellite radio companies a significant jump over terrestrial broadcasters in the digital arena.

The Commission is soliciting comments, until January 14, on this and other pivotal DAB issues, such as "how a DAB system could be designed to protect a possible future Low Power FM service." LPFM detractors have said it would hinder radio's conversion to digital. But creating a new spectrum DAB system would seem to render that objection moot.

## **Buchmann** Takes Q104 **PD Reigns**

Bob Buchmann

For over twenty years, Bob Buchmann has been the PD/morning man at Cox's WBAB/Long Island. That reign came to an end this week when he accepted the PD position at AMFM's Classic Rocker in New York, WAXQ (Q104). The station has been without a permanent programmer since Bill Weston vacated the post last January. (Steve Young served as in-house consultant from February through late August).

"Bob is a unique talent who possesses a perfect blend of experience and local market knowledge," Q104 VP/GM Matt Ross told fmqb. "He's done an excellent job on Long Island and has become an institution for the listenership there. As we move into the new millennium, firmly positioned as New York's only Classic Rock station, I am excited about having Bob lead the charge."

"Q104 sounds great these days," Buchmann added. "Listenership has been on a steady increase, up 40 percent since Matt Ross' arrival. I am pleased to be working with Matt and his talented crew and l look forward to leading America's most-listened-to Classic Rock station."

ABC/Disney, the parent company of such stations as KQRS/Minneapolis and KLOS/ Los Angeles, also owns Hollywood Records, but their stations are far from sounding boards for Hollywood artists. While most record companies are not in a position to launch their own on-air product, the possibility piqued our interest. So we polled a group

of label execs and asked them what they would do if their company purchased a station, such as WNYC - a full-market Class B FM in Arbitron market #1. Their responses ranged from light-heart-

## Industry Rallies Behind Minority Investment Fund

"Financially rewarding and socially responsible." That's how participants are describing the Prism Fund, the minority investment initiative designed to increase radio and TV station ownership by minorities and women. Sixteen

to increase radio (L-R) NAB's Eddie Fritts, Chase's Jimmy Lee, CBS' and TV station ownership by minorities and Padden.

groups have a ready put \$175 million into the for-profit fund's kitty, with a goal of reaching \$1 billion in aggregate purchasing power.

The number of minority owners in radio has been declining since 1996, when the Telecom Act precipitated a wave of unprecedented consolidation. The biggest barriers have been lack of access to capital, and not being part of "deal flow"— knowing when deals are happening.

Now, qualified minority and female entrepreneurs with broadcast experience and viable business plans could apply to the leveraged fund for investment capital. Prism is looking to invest in minority companies that can deliver "above average returns."

During a November 3 press briefing at NAB headquarters in Washington, D.C., CBS President/CEO Mel Karmazin said he never thought he'd ever see "such a diverse group representing all of our competitors and representing issues very different from the issues we care a lot about" come together because they believe "the right thing to do was to promote diversity."

Karmazin and Clear Channel Chairman/CEO Lowry Mays are co-chairing the effort. Because both CEOs have huge deals awaiting FCC approval, a reporter asked if one reason for the minority fund was to sway regulatory approval for those transactions. "There's no quid pro quo," Mays responded. "It is possible to do things because it's the right thing to do." Karmazin insisted the effort doesn't "have anything to do with any decisions that get made on any deals at the FCC or any other body."

NAB President Eddie Fritts said he knew of "no other business in America that has voluntarily dedicated this amount of money and effort towards diversifying ownership."

Jim Winston, of the National Association Of Black Owned Broadcasters said he's "cautiously optimistic" about Prism, which includes investments from A.H. Belo, Bonneville, CBS, Clear Channel, Cox, Disney/ABC, Cumulus, Emmis, Fox, Granite, Infinity, NBC, Radio One, Susquehanna, Tribune, and Viacom.

## Kakoyiannis Exits Big City, Following Merger Announcement

In an all-stock transaction, **Big City Radio** will acquire bilingual online service provider **Hispanic Internet Holdings**. HIH founder (and former **Heftel EVP) Charles Fernandez** is set to replace Big City President/CEO Mike Kakoyiannis, who has resigned to pursue other interests.

Regarding the acquisition and subsequent management shakeup, Big City Radio Chairman Stuart Subotnick said, "Charles's experience spans broadcasting, Hispanic media and the Internet, which is adding a visual component to radio. With this acquisition, we are now participating in the fast-growing radio and Internet sectors. Big City Radio's presence in major metropolitan markets presents us with a tremendous opportunity to selectively take advantage of the synergies created by combining these media."

"This is a very strategic merger," Fernandez added. "The respective strengths of Big City Radio and Hispanic Internet Holdings will allow both companies to capitalize on numerous opportunities in both traditional and new media sectors. Radio continues to enjoy record growth and the Internet has yet to fire up its engines in the Hispanic and Latin American communities. Internet usage is exploding and we intend to capture audience share by combining certain Big City Radio broadcast markets with HIH's online news, entertainment, sports and e-commerce."

Following the merger announcement, speculation turns to which, if any, Big City Radio properties will flip to Spanish programming. Fernandez has said he hopes Modern Rock trimulcast Y107/Los Angeles will be playing "Feliz Navidad" by Christmas. In Chicago, Big City owns two separate simulcasts: "Kiss" and '80s-formatted WXXY-WYXX. The company has had its share of problems in Chicago. First the "Heart & Soul" format flopped on WXXY. Then, when the station flipped to its current format, they failed to register "The Eighties Channel" slogan statewide. A competitor beat them to the punch by registering the name and at least six versions of the domain name for Internet usage. Big City also owns two separate simulcasts in Phoenix, including Modern Rock "The Edge." The New York City-area Country quadrocast seems safe, having found a niche in the suburbs of the nation's largest market. All four markets have heavy Hispanic populations

## **Ebbott Returns To The Zone**

WMTX/Tampa PD Chris Ebbott has been named PD of KZON/ Phoenix, replacing **Paul Peterson** who has exited (*fmqb* 10/22). Ebbott's appointment marks his return to the station where he was OM/PD in '95 and '96. His start date is November 15.

"I'm really excited to be going back to the Zone," Ebbott told *fmqb*. "There's a tremendous opportunity there as we move into a Modern AC direction."

Ebbott has been with 'MTX for the past five months. Prior to that he held the APD/MD post at KYSR/Los Angeles for two-and-a-half years. Ebbott's history also includes a stint as VP/Programming for Entertainment Radio Networks prior to his first go-around at The Zone.

# STATIC-X

Want the recipe for Static-X? Take equal parts White Zombie and Ministry, add a dash of the fertile Bakersfield, California-sound (KoRn), throw in a bursting cup of Disco beats, a handful of stero ds and stand back. When the smoke clears, you are invited to take a *Wisconsin Death Trip* (Static-X's rapidly-approaching gold

debut), where aside from being in awe of vocalist/guitarist Wayne Static's gravity-defying hairdo, you'll come to the realization that whoever said Metal was dead needs a swift kick-in-the-ass.

In the embryo stages of this project, Warner Bros. intended to work the track "Bled For Days" exclusively at Metal radio to lay some groundwork before railroading Active Rock with another single. In addition to the song's high-profile inclusion on the *Bride Of Chucky* soundtrack (alongside heavy-hitters like Slayer and Coal Chamber), Warner Bros. handed out cassette samplers at select concerts featuring two tracks from the album ("Bled..." and "Push It") prior to the album's release. By creating a high level of excitement within the right audience, they had begun to form the base they desired to introduce Static-X to Active Rock. As it turned out, the story was just about to evolve on its own.

Unexpectedly, KUPD/Phoenix picked up on "Bled For Days." Within two weeks of discovering the song, the station was getting phones and there was an undeniable sales jump in the market. Others quickly followed, including WAAF, WZTA, KXXR, KRXQ, and WJJO.

"It just steamrolled," says Warner Bros. VP/Promotion, Mike Rittberg.

Steamroll, it did. *Wisconsin Death Trip* became a #1 Metal record, sold 100,000 copies and "Bled For Days," the single that wasn't even supposed to be worked outside of Metal radio, peaked at 23\* on *fmqb*'s Active Rock chart.

"I like their aggressiveness, their energy, and the fact that they have a very melodic base to their songs," says KXXR PD Wade Linder when asked why he initially added the band to rotation. "It's not all noise and flash – there's substance there. They are good songwriters."

After the unanticipated success of "Bled," Warner Bros. began to work "Push It," the track that was originally intended to be Static-X's inaugural Rock single, to Active. Armed with a deliciously disturbing video directed by Mick Olszewski (known for his stop-motion magic in Tool videos), "Push It" entered MTV *Buzzworthy* rotation almost immediately and is quickly climbing *fingb*'s Active Rock chart, where it currently sits at 22\*. The track is also gaining steam at Modern Rock, where 42 stations conspired to give it 470 spins last week, pushing it 48-44\*.

"Static-X writes very melodic Rock songs. If you play this record between 5:00 p.m. and Midnight, it's going to react and get phones," asserts Rittberg. "Anyone who has done this will tell you that the record is starting to research and the sales are there."

"'Push It' is testing Top 5 with 80 percent familiarity and no burn," WJJO/Madison Program Director Glen Gardner tells *fmqb*. "And, for us it doesn't hurt that the album is called *Wisconsin Death Trip*."

So, how far will the band's murderous musical spree through the Dairy State take them?

"If we continue to be patient and take our time with this, we can nurture a band that can have a long term career with us," says Rittberg. "They are really hard working guys that don't take anything they are doing for granted."

"Sonically, Static-X is where I feel current Rock music is going, states Dave Douglas, PD of Boston's WAAF. "We took a chance with this band and it's paying off."

Currently on tour with Megadeth, Wayne Static and his merry men will tour Europe before returning to the States in January. In addition, the band has contributed new material to two forthcoming soundtracks, *The Crow: Salvation* and *Scream* 3, including a cover of Ministry's "Burning Inside."

#### Label-Owned Radio: What Would It Sound Like?

#### continued from page 3

"I would try to create the most sensationalistic radio station that I could," says Roadrunner's Dave Loncao. What about a signal in a different marketplace? "I would buy one in Cleveland. The city has built up and developed in a more positive way. At the exact

same time that it was building, exciting new music fell away from the radio. It's the home of the Rock & Roll Hall of Fame

and it doesn't

Capitol's Gary Spivack

have a vital, current radio station in almost any format."

"It would be a mistake to do anything Rock in New York City, since [K-Rock PD Steve] Kingston really has that cornered," says Capitol's Gary Spivack. "Outside of New York, I'd make it Modern Rock with a male lean, but I wouldn't [limit it] to that because Modern Rock radio is supposed to be about diversification. I would start it slow. When the station launches it should be tight and right."

**Atlantic's Danny Buch** would program a "non-radio station" offering a variety of music. "Look at the way MTV plays a wide spectrum of music," he offers. "I don't buy into the current direction of radio. Listeners' tastes are a lot broader, and they want to be entertained."

Obviously, the big question would be: How much of your own product would you play, and would you include music from other labels? "Atlantic is a mass label," says Buch, "and we have the diversity of acts - from Rock to Hip-Hop to Pop - to fill a mass-appeal format. I would need a cluster of stations to truly expose the breadth of artists that record for Atlantic Records." Spivack, however, would welcome all artists. "After all, this is a business," he points out. "But if my label owned the station, you better believe I'd put our product on the air!" Interscope's Robbie Lloyd says market needs would dictate programming. "If you're going to invest in a multi-million dollar property, it's not there to solely play your artists," he says.

wouldn't say, 'Oh, the record's been mid-researching for four weeks. I'm taking it out of rotation.' If something's doing OK in research, but in your gut you think it's a hit and it's selling, you stick with it."

"Retail research, followed by phones," answers Buch. "I would completely ignore callout and any form of research where the listeners are asked to tell me what they think. Listeners don't know what they want. They go into stores looking for one thing, and walk out with something else."

While TVT's Jeff Appleton would use everything, nothing would be his research bible. "If something is researching tremendously, but has no sales or phones, is it making a difference? On the other hand, if something isn't researching well, but is getting a lot of requests and sales, you have to look at your research and ask questions."

How would these record executives promote the radio station? "Stay away from flyaway promotions," Appleton suggests. "Everyone does them. In the end you're only giving it to a winner and a guest. I'd like Danny Buch to be my Promotion Director. His mind operates at 90 miles per hour!"

Spivack favors grassroots

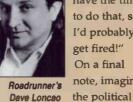

marketing. "I would buy a dozen mopeds and have a guerrilla marketing team attack the market," he says. "I'd do a lot of inexpensive promotions to get the groundswell going. Hopefully ownership will know this is a long-term game plan and not look for ratings success after one book.

get fired!" On a final note, imagine implications label-owned radio would have on station festivals and concerts and on retail positioning and advertising. Stations with music company parents would have a decided advantage over their "competitors" in the form of in-house bands that can guarantee different things. "You'd have more control and eliminate any kind of middleman," says Lloyd. "Politics would be damned. It would be interesting to see how other stations in the market would react. It'd probably drive programmers bananas!"

Indeed.

Unfortunately, most stations really don't have the time to do that, so I'd probably

#### Latin Music Pavola Probe **Expands Into Radio**

The payola probe that has already cost execs at independent Spanish record label Fonovisa \$1 million in fines is now focusing on radio programmers. The Los Angeles Times (11/3) says the Justice Department plans to prosecute programmers at over 80 Spanish radio stations across the country who allegedly took bribes to play songs. In the coming months, authorities plan on expanding the payola probe into the Latin and Urban music divisions of other major labels as well. Last week, Fonovisa Head of Promotion Jesus Gilberto Moreno admitted funneling more than \$1 million in payola payments to PDs in 1997. Because he is cooperating with the investigation, Moreno received a light sentence: two years probation and \$50,000 in fines.

#### **Philadelphia's Star Flips To Alice**

AMFM's WYXR (Star 104.5)/Philadelphia flipped from Hot AC to "The New Alice 104.5 FM, Rockin' Hits of the '80s, '90s and '70s" Thursday (11/4) at 3:00 p.m. The new format will target the same 25-49 year old female as its predecessor. This marks the third AMFM station to flip to a female-friendly Classic Rock/ Modern AC hybrid. In September, Country WWWW/Detroit made the switch, using the similar moniker of "Alice 106." That was preceded by the return of the WLOL calls to the Minneapolis dial in August, landing on the spot formerly occupied by WRQC (Rock 100).

Keep your listeners longer and attract new ones as time goes along. It starts with a good morning show, one that transcends the musical format of your station and launches you for the rest of the day. You can also do a variety of guerilla marketing tactics that cost little or nothing at all like faxes and e-mails to your listeners, creative street presence, getting clients involved with promotions that include signage in their stores, etc.

When your call-out indicates that the cumers are no longer screaming for the song, when your core tells you that they are really tired of it, and when you have something in your medium category to replace it. The last part is the true litmus test.... why get rid of something that's been really working if you don't have something much better to replace it with? That's a mistake a lot of programmers make...dumping a monster song from power too early. One thing to never do: pull out a power when the afternoon or night jock says he or she is tired of it...that's when the audience is just getting into it!

You need to get them to inspire themselves...find out what they want to do, where they want to go, and get them to answer the questions about what it will take to get there. Don't let them be satisfied with where they are now. Sure, you might want to keep them in their current shift for awhile, but dare them to dream about being ranked two or three positions higher, about making \$5,000 more, about ratings bonuses, about clients requesting them for remotes, appearances and paid production. Face it, there's only one N.Y., one L.A. one Chicago, and unless you're already there, you still have something bigger to aspire to. And regardless of where you are, if you're doing nights, you should aspire to afternoons, afternoons to mornings, etc.

I've never heard of this happening, so the first thing I'd do is check the facts. Then I'd ask the lesser paid talent why he/she thinks the night jock makes more. Most likely there's a logical reason; the night jock has much higher ratings, the station is able to charge more for spots at night, the night jock has more offair responsibilities, the night jock has a much higher profile. And, I would also tell the morning/afternoon jock to think about how he/she could make more money...what is it that the night jock does that the morning/afternoon person could do to increase their value to the station, and increase their compensation?

• Viacom Chairman/CEO Sumner Redstone and CBS Corp. President Mel Karmazin appeared before a Senate Antitrust Committee on Thursday (10/28) to defend the \$37 billion marriage of the two companies, the largest media merger ever. Redstone and Karmazin continued their call for further relaxation of ownership rules in the television industry, saying the laws are outdated, since competition has changed dramatically since they were first adopted. Karmazin told the Committee that broadcast TV now faces competition from cable television and the Internet. He added that the new Viacom would like to keep its 50 percent ownership of UPN, which, when combined with the CBS network, would reach 41 percent of U.S. TV households. The current national limit is 35 percent. While stressing that he wants to keep UPN, Karmazin said "we will do anything" to close the deal. He and Redstone characterized the merger as one that would combine complementary media and entertainment assets, not one involving two competitors trying to corner the market. Still, Senator Mike DeWine (R-OH), who heads the Senate antitrust and consumer protection subcommittee, called it "a little scary" because the new Viacom's tentacles would reach "so many related market segments." Congress should create legislation that would force the FCC to give tougher scrutiny to media deals, he said. "The media is not just any ordinary industry," Senator Paul Wellstone (D-Minn) added. "It is the lifeblood of American democracy... If our antitrust agencies and the FCC fail to address the problem of media concentration within their current legislative mandates, a legislative remedy may be necessary." Redstone and Karmazin agreed that media mergers should be scrutinized more than mergers in other industries.

MANCOW AND WEIRD AL THROW THEIR SETS IN THE AIR: His new album features such songs as "Pretty Fly (For A Rabbi) and "It's All About The Pentiums." Of course we're talking about "Weird AI" Yankovic, who recently appeared on Mancow Muller's syndicated "Mancow's Morning Madhouse" show to talk about his gold album, Running With Scissors.

#### **Management:**

· AMFM Radio Networks hands out Sr. VP titles to Marla Bane, Sr. VP Operations; Karen Childress, Sr. VP Affiliate Marketing; Rhonda Munk, Sr. VP Advertising Sales and Martin Raab, Sr. VP Marketing and Promotions. All four had previously held the Vice President position in their departments, since joining the company in October of 1997. "In just two short years, AMFM Radio Networks has established itself as a leader in all aspects of the network radio business that include sales, affiliation, operations and marketing," AMFM President David Kantor commented. "I am very proud that my management group has shared a strategic vision that has grown our entire business. They have developed outstanding departments that field the best people and have demonstrated business practices that have been beneficial to all." ... Kathy Stinehour, GM of AMFM's WTJM/New York, has been named AMFM Market Exec. VP of the company's six Chicago properties. All previously-named "Cluster VPs" have also been named Market Exec. VPs... Metro Networks/Shadow Broadcast Services has named Warren Maurer VP of Affiliate Sales

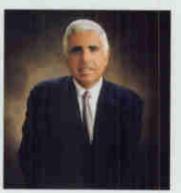

## You've Got Mel!

Some 200 advertising purchasers received a video e-mail from CBS Corp. President Mel Karmazin touting the company's CBS Plus, which allows advertisers to purchase ads across all of CBS' properties.

The streaming video e-mail begins with a voice stating, "You've got Mel," according to the *New York Daily News* (11/3). Karmazin, the *real* King of all Media, then deadpans, "Who were you expecting, Mel

Gibson?" Mel wraps up the piece by

saying, "I'm gonna have my people call your people — and by the way, if they don't, their replacements will."

· Viacom has set November 12 as the record date for determining stockholders entitled to vote on approval of the merger with CBS. CBS has set the same date to determine entitlement of their stockholders. Meanwhile, CBS President Mel Karmazin told analysts that his company might consolidate its Internet operations in a spinoff prior to the closing of the Viacom-CBS merger... Clear Channel has picked-up four Youngstown stations from Richard Gorman's Gocom holdings for \$6.1 million. The stations they're proposing to buy are WICT, WTNX, WBBG and WRTK... Clear Channel has paid \$5.5 million to purchase KTUX/Shreveport from Ken Stephens' KTUX Inc., giving them six stations in Shreveport. The FCC has already flagged the deal, citing concentration and diversity concerns... Sinclair CFO Pat Talamantes has stated that the company is seeking a "more real price" from Emmis for their St. Louis purchase of six radio stations and one television station from Emmis. Sinclair and Emmis have been negotiating since the purchase was announced in June.

FRED DURST AND HIS TWO SIGNIFICANT OTHERS: While traversing the country on the Family Values tour, Limp Bizkit frontman/video director/label VP and budding auteur Fred Durst (center) took a little time to bond with WQBK/Albany MD Chris Osborne (L) and afternoon Jock Jeff Mrozek (R), who was so overwhelmed, he couldn't keep his eyes open.

• Last week, WSYW, located in the Indianapolis suburb of Danville, flipped from Smooth Jazz to Modern Rock. The Class A station has picked up the new call letters of WEDJ, and was initially calling themselves "The Edge." That came to an almost immediate halt as Jacobs Media owns the service mark for "The Edge" slogan (and consults crosstown Modern Rocker WRZX). WEDJ then switched monikers to "Extreme Rock For Indianapolis," however Infinity owns the service mark for the "Extreme" phrase as it pertains to radio. Now known as "Rock 107 — Indy's Real Alternative," the station has announced its onair lineup. WRZX part-timer Billy Gibson is heard in mornings; OM/PD Tom Posz tackles middays, using the on-air name of Scott Thomas; former WZZI/Roanoke morning man Trent Michaels takes PM drive; MD Scott Sanford handles nights; and Jason Bottom joins for overnights from WTTS/Bloomington.

# **Y2K Compliant Checklist**

A PD Exercise For The New Millennium

The weeks leading up to the New Year are viewed by many forward-thinking programmers as a "new beginning." With that in mind, this is a perfect time to review your station's processes and systems to gauge future effectiveness. In order to get your station "Y2K compliant," we've developed this checklist to help you review several important aspects of your station's operation. Find a location with no distractions, crank up the radio and put this checklist on the desk. Then listen, think, and critically evaluate your station's performance.

#### Positioning

#### Review your ratings and research.

Has the market and competitive environment changed since you last looked at the data?
Are you positioned to win in the future?

#### Review your positioning strategy

• Are all the jocks delivering the positioning in the same way?

• Do they understand what they are "selling?"

#### Product

#### Match the product to the position

• Does the station coming out of the speakers match the station in your head?

• Is it entertaining?

#### Monitor programming elements and the spotload.

- Count each hour's spots. Does the spot count exceed your limit?
- Are there any cases of mediocre production or outdated copy?

• Is traffic loading the breaks in the correct sequence?

• Are the spots inside the break programmed according to station policy?

## Review your programming schedule—hour by hour, day by day.

- Does each feature contribute to your overall plan, or are they "leftovers?"
- Are the features in time periods that make sense?

• Are there creative ways to freshen long-standing features?

#### Mornings

If your show is local, hold a review meeting with the morning team.

- Is the show in sync with the target demo today?
- Are all the bits, features, and characters still valid?
- · Are there fresh ideas that can be moved from

#### the drawing board to on-air?

• Does your local morning team sound disjointed from the rest of the station (do they deliver station info, IDs, promos, etc.)?

## If your show is syndicated, review how the show is localized.

• What are you doing to link the show with your station and community?

 Have you maximized all promotional opportunities to sell the rest of the station within the show?

• Have you met with your local host/producer to discuss how to integrate the show more effectively?

#### Music

Look under the hood of your music scheduling software.

• Are all the clocks consistent in terms of music flow?

• Are your station's core artists evenly distributed throughout each hour/day?

## Analyze the priorities set in your music software rules.

• Have rules been altered in a piecemeal fashion over time?

• Are there rules that conflict with each other, causing scheduling problems?

#### Check log notes for outdated jock instructions.

Are there any misleading breaknotes?
Are the names of jocks, shows and features correct?

• Is the amount of time allotted for breaks correct?

#### Examine the music categories.

• Are there any deadwood titles - songs that played when an artist came to town, "alternate" versions, etc. that can be removed?

Do the dayparts and packets make sense?Is the Recurrent category filled with only strong testing records? Are marginal titles slow-

ing down the rotation on your "hits?"
Are there titles in the Hold category that can be

deleted from the system?

• Have you extensively reviewed and updated all of the tempo, sound and era coding on every song in your active library?

#### Packaging

Review the station imaging and production. • Do all the sweepers and promos reflect the correct positioning?

• Have you updated recurring weekend theme and specialty show promos to match your cur-

rent positioning statement?

- Does the creative department's idea of "creative" match yours?
- Does the imaging get across the message that you want?
- Do the promos entertain and inform efficiently?

#### Customer Service

#### Approach your station as a listener.

- How do your jocks handle request and contest calls?
- Do your jocks know how to deal with complaint calls?
- Do the steps that contest winners follow to collect prizes make sense?
- Do your "office hours" make it convenient for listeners to pick up prizes?
- Is the receptionist updated regularly about programming and promotions?
- Do all "boilerplate" contest rules still apply?

#### Consider the station's outward appearance.

- Do the visuals (signs, banners, vehicles, jock apparel) reflect your image?
- Does the remote equipment enhance the station's image?
- Do your competitors put on a bigger, better show in public?
- Is there a unique way to enhance your live events?

#### **Details**

#### Review procedures in the control room.

• Are all memos and directions regarding contests and promotions clear to both full and parttime jocks?

• Does your equipment help or hinder performance?

- Do you plan everything for the convenience of the performer or the support staff?
- Are your promo liners simple and easy to read?
- Who from Programming is reviewing and approving promo copy?
- Is your talent being provided with the

resources necessary to be topical every day?

We believe that Programmers who devote one uninterrupted day to critical listening and reviewing procedures for their station will uncover at least some inconsistencies. Take the results of your evaluation, share them with your staff and develop an Action Plan to prepare your station to win big in the year 2000.

## Beastie Boys Offer *Science* Experiment

If you've seen the track listing for the forthcoming **Beastie Boys** anthology, *The Sounds Of Science* (Music News, 10/22), and don't like it, then you're invited to make your own. Grand Royal/Capitol has teamed up with musicmaker.com and participating online retailers to let fans create their own custom Beasties anthology. From now through December 31, Beastie Boys fans can visit online music sites and create their own collection, right down to the title. 150 songs are available, including some rare and live tracks. Their latest single "Alive," will be offered to all participants free of charge.

Kid Rock has been caught with his short down, as his diminuitive sidekick Joe C. is no longer touring with the band. Joe suffers from celiac disease, which is a digestive disorder that forces him off the road occasionally. He will take some time off to try to recuperate, and the Kid Rock tour will roll on without him.

Pearl Jam's Web site reveals that former Soundgarden drummer Matt Cameron is contributing to the songwriting process. The album is being worked on with producer Tchad Blake. The site claims that the album is halfway completed and will consist of allnew material. It also dismisses rumors that the album will be coming out this year, saying that the album isn't expected in "December, January or February."

Tripping Daisy guitarist/pianist Wes Berggren was found dead at his Dallas home last Wednesday (27). Investigators are awaiting toxicology tests to determine the cause of death. The band's label, Dragon Street Records, called the death a "total shock." Berggren was 28. Tripping Daisy rose to fame with their modest 1995 Modern Rock hit "I Got A Girl" from their album I Am an Elastic Firecracker.

KoRn have helped stoke their fans for their forthcoming album, *Issues*, by offering an unprotected, no time-out MP3 file of their new single, "Falling Away From Me,"

to their e-mail list of over 500,000. Those not on the list can visit the band's Web site (www.korn.com) to download the single. For each person that signs the band's "I downloaded the KoRn single for free" guestbook, the band and ARTISTdirect.com will donate 25 cents to Childhelp USA and Children Of The Night. The site will also be offering four remixes of "Freak On A Leash," one per week, in MP3 format. When Issues hits stores on November 16, it will boast four different album covers. The response to their "Kover Kontest" drew over 25,000 entrants. The four covers will be available for a limited time, and then the three runnersup's artwork will be included inside the package. David Lee Roth is suing his former manager, Edmund "Big Ed" Anderson. The dispute arose over a Web site that

Anderson used

and Roth memorabilia. When the two stopped working together in February, Roth ordered Anderson to shut down the site. According to Roth's attorney, Anderson complied, but set up another site. Apparently, Diamond Dave is attempting to crack down on Web sites that are posting any unauthorized sounds or images.

## Live Wall Delayed 'Til 2000

So you thought you might like to go to the show? You're going to have to wait a little longer. EMI has pushed back the release date of Pink Floyd's Is There Anybody Out There? - The Wall Live back to the new millennium. Thought to be coming out later this month, the double-live concert CD will now be coming out on February 7, 2000, the 20th anniversary of the first live performance of the band's groundbreaking 1980 album, The Wall. The reason given for the delay was the painstakingly complex processes being used in the restoring and mixing of the old tapes.

U2 will be the recipients of a "Freedom Of Dublin" award early next year. "Despite their international success, they continue to live, record and plan their worldclass campaigns here," Dublin Lord Mayor Mary Freehill stated. "U2 placed Dublin on the map as an attractive destination for many young music lovers who would never have visited Ireland otherwise." The band's currently working on their next album, reported to be a return to their guitar-bassdrums roots.

Having been the lead singer of The Police won't get Sting off the hook, as a Philadelphia police group has announced plans to protest his Philly show on November 14. The protest is in opposition to Sting's support of Philly cop killer/convicted death row inmate Mumia Abu Jamal. The Fraternal Order of Police Lodge 27 consists of over 900 active and retired police officers from Delaware County, Pennsylvania.

Virgin will be re-releasing The Smashing Pumpkins' 1993 breakthrough album, Siamese Dream, with it's original 20-page artwork. When the album was originally released, way back when the band were just called Smashing Pumpkins, the artwork was reduced to fit in a six-page booklet.

No stranger to being in front of the camera, Hole vocalist

**One of** Britain's most respected Rock vocalists, Paul Rodgers, releases a new solo album, *Electric*, on November 22 for SPV. It follows 1997's *Now*, a Top 30 U.K. entry, and was recorded at Barnard Castle, near Rodgers' home town of Middlesbrough, and mixed at his friend Bryan Adams' studio in Canada.

Feeder's new single from the Top 10 album Yesterday Went Too Soon is "Paperfaces," the follow-up to the title track which became their biggest hit so far at number 20 recently. "Paperfaces" is out on Monday (11/8) as a re-recorded version produced by Steve Power and features Welsh-language tracks recorded for the Radio 1 *Evening Session In Wales*, transmitted in September.

Tori Amos' first commercial single from her double CD To Venus And Back will be "Glory Of The Eighties," out on Monday (11/8) with four live tracks spread across the two CDs: "Blue Raincoat" and "Twinkle" on the first and "Baker Baker" and "Winter" on the second.

Stereophonics plunder their double-platinum *Performance And Cocktails'* album for a fifth time on November 8 for the single "Hurry Up And Wait." As usual there are various new tracks on the two CD formats, the first featuring a version of "I Wouldn't Believe Your Radio" with lead vocals by Stuart Cable and a cover of The Rolling Stones' "Angie."

Recent rumours that former Stone Roses and Seahorses guitarist John Squire was working with ex-Verve bassist Simon Jones have proved true. They've been writing material in Manchester for a new group also including former Seahorses drummer Mark Heaney and as as-yet unknown lead singer from the city. NME reports that former Seahorses lead vocalist Chris Helme, who made a brief live solo outing in March after the group's demise, is still apparently without a record deal.

Marianne Faithfull has "Electra" out as a single from her Vagabond Ways album on November 15, the day before she plays at Shepherd's Bush Empire at the conclusion of a 22-date European tour. The previously unreleased "Blood In My Eyes" will be included on the single.

Westlife rewrote their own record of being the first boy band to have their first two singles debut at number one on Sunday when "Flying Without Wings" changed that to their first three singles. Christina Aguilera thus moved back to number two while R.Kelly's "If I Could Turn Back Time" debuted at three and the Backstreet Boys at five with "Larger Than Life." Adding to a heavy U.S. presence in the Top 10,

Macy Gray's "I Try" climbed again to eight (that's a four-week run of 10,10, 9 and 8), Destiny's Child entered at nine with "Bug A Boo" and Tina Turner's "When The Heartache Is Over" at 10, her first U.K. Top Tenner for four years. Onephatdeeva's club charttopper "In And Out Of My Life" hit the Pop survey at 11, Simply Red's "Ain't That A Lot Of Love" at 14, and Eternal's "Whatcha Gonna Do" at 16 - their 15th hit and remarkably, their lowest-ever U.K. chart entry. Shania Twain is still top of the album chart, narrowly outselling the Charlatans' uniformly-praised Us & Us Only, while Eurythmics returned to the chart at four with Peace. B\*Witched's Awake & Breathe opened at five and Melanie C's Northern Star at ten.

## England's bad

boys are back. Standing On The Shoulders Of Giants is the name of the new Oasis CD slated for release in winter 2000. Tracks on the new CD include "Little James" (a song lead singer, Liam Gallagher wrote for his son), "Who Feels Love," "Gas Piano," controversial track "F\*\*king In the Bushes," "Go Let it Out!," "Put Your Money Where Yer Mouth Is," "Where Did It All Go Wrong?," "Sunday Morning Call," "I Can See A Liar," and "Roll It Over."

Rave reports are circulating about The Who's reunion show at Neil

Young's in Mountain View, California. Unlike past Who jaunts, there aren't a string of backing musicians, just the core Who lineup of Pete Townshend, Roger Daltrey and John Entwistle along with drummer Zak Starkey and veteran keyboardist, John "Rabbit" Bundrick. The band sounded more energized than in years and treated the SRO audience to a dazzling selection of Who gems, well-known and obscure, all performed acoustically. The band's setlist included "Substitute," "I Can't Explain," "Pinball Wizard," "Behind Blue Eyes", a cover of Johnny Cash's "I Walk The Line,"

"Mary Anne With The Shaky

Hand," a very rare rendition of "Tattoo," "Boris The Spider," "Who Are You," "Won't Get Fooled Again," and a dramatic show ending version of "The Kids Are Alright." At the second *Bridge* show, the band unearthed another stunner, a live airing of "Anyway, Anyhow, Anywhere."

Now that Jimi Hendrix's family has rightfully wrested control of the late guitarist's seminal recording work, the estate has issued a series of well-executed and respectful projects. The latest is an exclusive, mail order only CD release, Jimi Hendrix Experience: Live At Clark University. Recorded on March 15, 1968, the

CD is a striking and powerful aural document of a rising star at the peak of his abilities. Tracks include such classics as "Fire," "Red House," "Foxey Lady," an incendiary rendition of "Purple Haze," and a delightful romp through The Troggs' Wild Thing." Also included are extended interviews with Jimi and band members, Mitch Mitchell and Noel Redding. Meanwhile, Experience Hendrix, the official Jimi Hendrix magazine continues to explore the vast realm of Jimi's world. A superbly produced glossy magazine, the publication not only shines the spotlight on its subject with insightful articles, archival

interviews, commentary and a cache of previously unpublished color and B&W but also broadens its scope to chronicle many contemporary and heritage artists as well. From Jeff Beck to Jonny Lang, John Lee Hooker to Kenny Wayne Shepherd, Experience Hendrix is a delightful read and well worth a look. Late KISS drummer Eric Carr is profiled in "Tale Of The Fox," an excellent new viceo documentary just issued by Creative Worx. Produced and directed by Jack Sawyers, veteran of several official KISS home videos, the 90minute video-off cially sanctioned by the Carr family-showcases candid interviews with Carr's parents, fellow KISS band member Bruce Kulick, members of Slaughter, Fred Coury of Cinderella, ex-girlfriend, Carrie Stevens, songwriter Adam Mitchell and legendary manager Bill Aucoin. Viewers will see vintage, never-before-seen footage of Carr at home, with his family and on the road, plus archival interviews with Carr. A true labor of love, the video is also rich with personal mementos, memorabilia and family photographs. And amply proving Carr's vastly underrated talent as a drummer, the video concludes with his phenomenal drum solo performed on the 1988 Crazy Nights tour. The video is available for \$22 (including postage) from Creative Worx, 7451 Lurline Avenue, Canoga Park, CA 91306. Also be sure to dial up their Web site for more info, www.thoughstcape.com.

#### Mixed Reaction For The Who Reunion At Bridge Benefit

Mike McCready, John Entwistle, Jeff Ament, Eddie Vedder, Emmylou Harris and Matt Cameron at the Bridge School Benefit.

The Who received mixed reviews for their reunion performance at Neil Young's annual Bridge School Benefit Concert. Held for the first time at the end of October instead of mid-month, the concert proved why there are no football games going on at midnight even in so-called "football weather," and served as a reminder why games never

last for over eight hours in autumn and winter. But the freezing cold wasn't the only reason The Who got a chilly reception when they came on after midnight, seven hours into the concert. They didn't stick to the 30-45 minute sets of previous artists and the show continued until 1:30 in the morning. Audience reaction could tactfully be described as polite. After Young's traditional opening set, Lucinda Williams did five songs, ending with "Sweet Old World" when she was joined by Emmylou Harris and Young. The evening also featured Smashing Pumpkins, Green Day, Tom Waits, Sheryl Crow and the debut of a new Pearl Jam song, "In Thin Air." A concert highlight was Eddie Vedder, Sheryl Crow and Young singing "Surfin' USA" with Brian Wilson. As always, children from the Bridge School and their families were seated on a raised platform behind the performers. One child was carried onstage and stroked Mike Dirnt on the shoulder during a Green Day song. With tears streaming down his face, Vedder dedicated "Last Kiss" to one child during the concert on the second night.

#### **Springsteen Auction Scam On Ebay**

More bad publicity for the online auction house Ebay. A New Jersey man has been charged with forgery, theft, wrongful impersonation and creation and possession of false documents after auctioning off **Bruce Springsteen** and **Backstreet Boys tickets** for up to \$1,000. Thirty-yearold William Cenneno is out on \$20,000 bond after New Jersey State Police traced the Ebay listing to a computer in a New Jersey public library. He used an alias to have the money sent to a hotel in New Jersey and police arrested him after he left the building. Authorities say they received complaints about the scam from California, Georgia, Florida, New York, Kentucky and Connecticut as well as New Jersey.

#### Heartfelt Eulogy For Axton From Three Dog Night Singer

Although eulogizing the deceased often becomes another publicity opportunity these days, **Three Dog Night's Chuck Negron** was well within the realm of good taste when he expressed his sadness over the death of **Hoyt Axton** in a statement recently. Axton's biggest hits were two Three Dog Night songs, "Never Been To Spain" and "Joy To The World." In his autobiography published earlier this year, Negron recalled being the only one in the studio paying attention when Axton pitched and performed "Joy To The World." Written for a kids animated TV special that never got off the ground, Negron said he decided to record it because Three Dog Night were taking themselves too seriously at the time. Later in the book, Negron calls attention to the *Billboard* 

### musicnews

#### daily insider continued

Book of Number One Hits published in 1985 for failing to mention Axton among the Three Dog Night songwriters. "I am truly saddened by the loss of a very talented artist," Negron said. "He was a lovable man and everyone had a lot of respect for him. Hoyt's gift of 'Joy To The World' has greatly enriched my life. Thanks to Hoyt's genius, 'Joy's' memorable opening lyric, 'Jeremiah was a bullfrog' is arguably a part of Americana. He will be greatly missed." Axton also wrote **Ringo Starr's** "No No Song" and had others recorded by **Elvis** Presley and **Linda Ronstadt**. Hoyt Axton died recently at his Montana ranch. He was 61 years-old.

#### **Police Called To McCartney Video Shoot**

Paul McCartney had an encounter with police in London recently but it wasn't over pot smoking. According to the *New York Daily News*, McCartney was filming a video for "Brown-Eyed Handsome Man" using actors dressed as Los Angeles cops. Someone in the rough west London neighborhood saw the LA.P.D. waving their guns around and called Scotland Yard. McCartney poked his head out of his trailer to see members of an armed response unit had sealed off the street and had the faux cops lined up ready to be searched. The former **Beatle** assured the authorities the guns weren't real, just props for the video, and cast and crew were let off with just a warning.

#### Warning About Financial Problems For Rock Hall

Is the Rock And Roll Hall Of Fame going broke? A letter from the Board Chairman to trustees this month has been obtained by the Cleveland Plain Dealer. In it, he states the Hall "may not be able to be self-sustaining over the long term" without more infusions of cash. The letter said special events have been successful and participants have been "pretty generous" when asked for money but there hasn't been enough time to develop a revenue flow from endowments. Attendance has declined every year since the Hall of Fame opened but officials already stated once earlier this year that that was expected and that only about one-third of the revenue comes from admissions. The Rock and Roll Hall of Fame isn't the only Rock museum with financial problems. In England, creditors of the National Centre for Popular Music have agreed to accept 10 cents on the dollar for payment of \$1.8 million in debts to prevent the museum from closing and the loss of another 70 jobs. The Sheffield museum projected about 400,000 visitors a year, but there have been only 104,000 admissions since it opened in March. Sixteen jobs were already cut to save money. The museum director plans to cut the price of admission as one way to boost attendance. He also hopes to get stars to appear at the museum to give it more sizzle. The museum got nearly \$18 million in initial funding from England's National Lottery.

## insidetrack

WHIY/ Prov-

dence is celebrating 18 years of Rockin' Rhode Island with a series of 18 And Barely Legal concerts. Up

first was a sold-out performance by Susan Tedeschi at Lupo's Heartbreak Hotel. The 2000 seat capacity venue sold-out in a weekand-a-half. In addition, `HJY gave out over 400 tickets to the bash. The upper-demo Blues show was followed by the younger-demo Hard Rock show with Godsmack, Reveille, and the Jim Rose Circus Side Show, who played at Veterans Memorial Auditorium -- home of the Rhode Island Philharmonic. A mosh pit took the place of orchestra seats, and opera glasses were replaced with beer goggles. This show also sold out in a week-anda-half. Scores of "HJY has rotted my brain for 18 years and all I got was this \*%&\$#@\*% T-shirt!" were sold at both events ... How to say goodbye to your old air studio? For KBPI's Willie B. the answer is "power tool races:" Invite listeners to bring their chainsaws, sazalls, and demolition saws to the station

to hack up old, unwanted furniture. Makes for some, uh, cutting edge programming. 'BPI's night mauler boasts how it only took him three days in the station's new suburban Denver digs to get the cops to pay a visit. Seems the intrepid Mr. B. convinced a woman to visit a gas station convenience store wearing nothing but high-heeled pumps. The naked woman later made an appearance at the drive-thru window at Wendy's. Of course, she dropped her bag of burgers, had to exit the car, bend over, and pick it up, much to the delight of the Wendy's night crew. All of this was broadcast live on 'BPI, via cell

phone. Turns out the cops were listening and paid Willie a visit at the station, warning him about aiding and abetting ... 93X/Minneapolis has announced their holiday concert. The 93X Nutcracker, which will be held December 2 at Roy Wilkins Auditorium. On hand for the celebration will be Bush, Filter and Buckcherry... 37,000 tickets for the December 31st Metallica Millennium concert at Detroit's Pontiac Silverdome were sold last weekend. The WRIF-sponsored event also includes Kid Rock, Ted Nugent, and Methods Of Mayhem.

## Natalie Merchant, "Space Oddity" (Elektra/EEG)

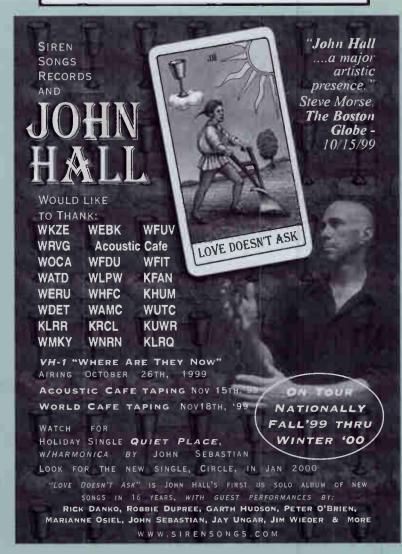

progressi

Progressive Radio loves Natalie Merchant. This cover of the Bowie classic elevates the former Maniac to a promising debut at 29• on the Top 50 Albums chart. Rising 106 spins over last week (#1 Most Increased), Merchant grabs two new adds (including KTHX), that join a cume of over 25 Adult stations, including KGSR, KFXJ, WRNR, WXPN, CIDR, KOTR,

OFORMER

KTCZ, WXRV, WXRT, WYEP, and WCLZ. This track comes from the forthcoming *Live In Concert*, Natalie's first live offering since the popular *Unplugged* set with 10,000 Maniacs.

## progressive adultradio PICKS

#### Singles/EPs

#### TOAD THE WET SPROCKET "P.S." (COLUMBIA/CRG)

Toad may have croaked, but this new recording of the fan favorite "P.S." should please their many disciples. Taken from the forthcoming 16-track greatest hits collection *P.S.* 

(A Toad Retrospective), "P.S." stands along side such TTWS hits as "Walk On The Ocean," "All I Want," "Fall Down," and "Good Intentions."

#### THE BRIAN SETZER ORCHESTRA "IF YOU CAN'T ROCK ME" (MOTOWN/UMG)

This rollicking little number is from the soundtrack to one of the movies that will be kicking some serious behind at the boxoffice around the holidays. The Swinging "If You

Can't Rock Me" is from *Stuart Little*, yes, the mouse on the motorcycle that so many of us loved as much younger versions of our current selves.

#### CAROLE KING "LIKE LITTLE CHILDREN" (SILVA)

This previously unreleased track from Carole King is from the soundtrack for the movie Crazy In Alabama. The film boasts an all-star cast including Melanie

Griffith, Lucas Black, Rod Steiger, and Meat Loaf. X-Files composer Mark Snow scored the soundtrack. King's track immediately brings to mind her previous work.

#### Albums

#### SHAWN MULLINS THE FIRST TEN YEARS (SMG/COLUMBIA/CRG)

For most folks "Lullaby" was the first anyone had ever heard of hitmaker Shawn Mullins. What appeared to be a "overnight success" was the culmination of over 10-years of

work writing and recording songs. The appropriately titled *The First Ten Years* celebrates this time in Mullins' career by retracing some of his best work through the decade. Have a listen to discover how rich his talent really is. Spin "Lately," "This Time/Last Time," "Pandora," and the covers of "What Is Life" and "Changes."

#### **Emphasis Tracks**

#### COLLECTIVE SOUL, "NEEDS" (ATLANTIC/AG)

Collective Soul's Ed Roland has mastered the art of writing a hook-filled ballad. "Needs" is the latest hit-to-be from Dosage.

One of our favorite bands paid a visit to Boston and visited with WXRV staffers after the sold-out show. (L-R): Dan Lapage, WXRV's Joanne Doody, RCA's Art Phillips, VH's Ed Toth, RCA's Aaron Borns, WXRV's Jerry Mason, VH's Matt Scannell, WXRV's Keith Andrews, and VH's Sean Hurley.

#### CARY PIERCE You are here (Aware)

Aware has an amazing track record. From Shawn Mullins to Train, the Chicago label continues to churn out quality product. Their knack for releasing great records

continues with You Are Here, the solo debut from former Jackopierce co-founder Cary Pierce. Our recommendation is to make this record a priority, as its depth will keep any Progressive station busy well into the new year. We're diggin' "The Best Thing," "All Quiet," "Greatest Thing...," "Home," and "She's For Free."

#### DEEP FOREST MADE IN JAPAN (EPIC/550 MUSIC)

No, it's not Deep Purple, it's Deep Forest. Recorded live on July 9 at Koseinenkin Hall in Tokyo, Japan, this album captures the very best of Eric Mouquet and

Michel Sanchez, otherwise known as Deep Forest, performing twelve tracks before an enthusiastic audience. "Ekue Ekue," "Freedom Cry," "Bohemian Ballet," "Forest Hymn," and "Sweet Lullaby" are all good places to start. No pygmies were harmed during the making of this album.

#### **Floyd Next Year**

We won't be seeing a new Pink Floyd album this year. The restoration of the live tapes has taken longer than expected and the album, Is There Anybody Out There: The Wall Live, won't be released until February 2000. The Wall live shows were originally recorded and filmed for use in the film The Wall, but the footage and recordings were never used. The tapes have subsequently remained in storage, and had never been treated or mixed until now. The technical processes involved in restoring and mixing old tapes are very complex and thus the work currently being undertaken by producer, James Guthrie, is very delicate and has taken longer than expected. The new release date, February 7, 2000, marks the 20th Anniversary of the first live performance of The Wall, which took place in 1980 in Los Angeles.

#### **Johnny Cash Sprung**

Johnny Cash checked out of Nashville's Baptist Hospital Sunday night after spending the better part of October beating back pneumonia. Cash, 67, was admitted twice to the hospital last month, the second time in serious condition. Doctors suspect that the medication Cash is taking for Shy-Drager's Syndrome has made him more susceptible to infection. The Man in Black, known for his gritty, slice-of-the-dark-side songs like "Folsom Prison Blues," "Ring Of Fire" and "I Walk The Line." announced in 1997 that he had been diagnosed with Shy-Drager's--a Parkinson's-like disease causing blackouts, stiffness and tremors. Although he curtailed his concert schedule, the singer vowed to fight, "I refuse to give it some ground in my life." Cash is a battler from way back. He has been hooked on drugs and booze and pain killers, endured 30-plus operations for a broken

jaw, and undergone heart surgery. He has recorded more than 70 albums, hosted a TV series and was the first performer inducted into both the Rock and Roll Hall of Fame and Country Music Hall of Fame. And last April he returned to the stage for a tribute concert that featured admirers Sheryl Crow, Willie Nelson, Lyle Lovett, Bruce Springsteen, Bob Dylan, and U2.

#### **O Come All Ye Grateful Deadheads**

The first ever Grateful Dead boxset brought to you by the folks at Arista, will hit the streets November 9. It features five CDs. a 60-page color book, never before published photos, and previously unreleased music. The set chronicles their 30-year career from the post-Warlock days in 1965 to 1995.

#### For A Good Time Call Michelle

KMMS/Bozeman MD Michelle Wolfe has changed her call times to Wednesday, 10 a.m.-12 noon, MT, effective immediately. Her number is (406) 586-2343.

#### **Some Acoustic Evening**

Richard Buckner will be touring with Alejandro Escovedo just in time for the rerelease of his Bloomed (Rykodisc) album, which was out of print for three years. 11/10, Kansas City; 11/11, St. Louis; 11/12, Cedar Rapids; 11/13, Chicago; 11/15, Sparta; 11/16, Hoboken; 11/17, Phila-delphia; 11/18, Arlington; 11/19, Raleigh; 11/20, Charlotte; 11/21, Decatur; 11/23, Houston; 11/24, Austin.

#### **All The World's A Playground**

Latin group Colibri will be starting The World Playground Community Outreach Tous in conjunction with Putumayo's World Playground album. The group will appear at various museums throughout the east coast with multi-instrumental workshops for children and their families. New York appearances include: 11/13, Brooklyn Children's Museum, Long Island Children's Museum; 11/14, 92nd Street YMCA; 11/16 Staten Island Children's Museum, Hudson Valley Children's Museum: 11/17 Children's Museum Of The Arts: Soho.

#### **MUSIC MAILBAG:**

Karl von Kries is the brain behind **INSTAR** and the new EP Rich Girls. The music is

guitar heavy at times, yet all the songs are melody-driven. The lyrics are presented with a melancholy flair slightly similar to that of The Smiths. We can dig it: "Hellen," "New York," and "Starlings." For service call David Virr at (617) 425-4879.

The new Mike Ness album, Under The Influences (Time Bomb), is (you

guessed it!)

all covers. Mostly classic Country tunes, Ness gives them a peppy new rhythm and heavy guitar sound that is actually quite enticing. You'll be amused by its presumption: "Let The Jukebox Keep On Playing," "Big Iron," "Six More Miles." "Funnel Of Love." and "House Of Gold."

themed Bluegrass music is the root of Country music. The extraor-

dinarily talented musicians that are Dry Branch Fire Squad carry on the tradition of Country Gospel. Memories That Bless & Burn (Rounder) will knock your socks off: "Hide You In The Blood," "Were You There?," "When Heaven Comes Down," "I Have Found A Way," and "That Home Far Away" are all worthy of a listen.

Stewart Franke is kickin' patootie all over on his new album, Swimming In

Mercury (Blue Boundary). This album is more Pop-oriented than last year's Sunflower Soul Serenade. Franke is saying "This is what 1 experienced and this how I felt." We dig: "Heaven And Earth," "For Want Of A Nail," "Fathers And Sons," "Letter From Ten Green." and "You're So Good To Me."

Global Explorer 2 (Zip Dog) is all the best of World Dance beats and

remixes. It's got the beats to make the dancers happy and some pretty swank samples of World music from Latin to Indian. This album puts a neat new spin on World music. "Kush," and "Maine" from disc 1 and "Ali Mullah," "Awake," and "First Day" from disc 2 are our picks.

Basque Country is different from all of Europe; the culture and language cannot be

traced back to any one, root culture. The music is just as unique. On Kepa Junkera's Bilbao 00:00h (Alula) you'll hear haunting melodies and uptempo festival songs. Keep the pronunciation guide! "Maitia Nun Zira?," "Bok-

Bluesman Larry Garner's second album. Baton Rouge (Evidence),

was recorded

in '95 and due to contractual red tape was never released in the U.S.--until now. The Blues on this album is a laid-back, easy Blues that we like to listen to on a Sunday morning with our coffee, or in the wee hours of the morning after... never mind! "Blues Pay My Way," "High On Music," "Airline Blues," and "New Bad Habit" will convince you too.

Nobody in the whole freakin' world plays piano like Pinetop Perkins and that's a fact.

baby! Want proof? Check out Live At 85 (Shanachie). His Boogie-Woogie/Blues style is unmistakable and he is in prime condition on this album. If you want the real deal, you want Pinetop Perkins: "High Heel Sneakers," "Look On Yonder's Wall," "Down In Mississippi," "Ida B.," and "Kidney Stew." For service, con-

tact Frank Ritchie at (212) 334-0284 x. 29.

The mystical allure of old music is finding the dusty old 78s, cleaning them off

and listening to something that speaks of another time and place in

the music contained within those mysterious grooves. It's hard to capture that magic on the newfangled CD but Shanachie has done it on Times Ain't Like They Used To Be Vols. 3 & 4. Released on The Yazoo imprint, these albums are filled with songs of times long past by artists like Blind Willie Johnson, Sleepy John Estes, Son House, Charley Patton, Skip James, Tommy Johnson and many more. We urge you to check it out.

Progressive Picks and Progressive News are written by Sybil McGuire, Kevin Boyce and Theresa Meire. e • qb and Progressive Pro-Former are written by Kevin Boyce. Music Mailbag is written by Theresa Meire. All sections are edited by Sybil McGuire, Kevin Boyce and Mike Boyle.

Patty Larkin has a song in the film Random Hearts. Here she is with (L-R): Kristin Scott Thomas and Harrison Ford, and in another shot with director Sydney Pollack, one of her biggest fans (and the person who handpicked "Good Thing" for the movie and soundtrack).

Foo Fighters, "Learn To Fly" (Roswell/RCA) Soaring to number one this week, "Learn To Fly" knocks Bush out of the top spot on our chart. *There Is Nothing Left To Lose* has been a constant at home, in the office and in the car. The Foos have delivered one of the decade's best albums, just in the nick of time. 3257 spins on 95 stations.

Third Eye Blind, "Anything" (Elektra/EEG) Our #2 Most Added record (58 stations), "Anything" is everything a programmer could ask for right now. It's short, catchy and Rocks like a classic Replacements song. Taken from their much-anticipated sophomore release, *Blue*.

Incubus, "Pardon Me" (Immortal/Epic) Climbing 46-36\*, "Pardon Me" is shaping up to be a real player within the format. 44 stations are spinning it 570 times. Initial reaction has been very encouraging on many fronts. Look for this to move up the charts rapidly over the next few weeks. On at KXTE, CIMX, WXRK, WBCN, KROQ, Live 105, KNDD, KEDJ, WFNX, KXPK, WEQX, WEDG, WHFS, KPNT, 91X, and new at KXRK, WBRU, WRAX, WROX, and WXSR.

**Muse**, "**Muscle Museum**" (**Maverick**) Muse's debut single hold firm at 42\* with 39 stations spinning it 478 times (4 adds). Taken from their critically acclaimed debut CD, *Showbiz*. On at KROX (23x), WFNX (20x), 99X (18x), WRAX (14x), KKND, KXRK, WPLA, KRZQ, and WBRU. New at KMYZ, KNSX, WAVF, and WEQX.

Methods Of Mayhem, "Get Naked" (MCA) With new adds this week at WXRK and KNRK, and solid support at such stations as 99X, WBCN, KPNT, WEND, KEDJ, WZPC and KNRQ, "Get Naked" is off and running at a very busy time in the format. If you're playing any Rap Rock records, factor this one into your thinking.

KoRn, "Falling Away From Me" (Immortal/Epic) A whopping 69 stations added the first single from their upcoming release, *Issues*, making it our number one most added track this week. Stations from all walks of Modern Rock life were quick to jump on this track, and rightfully so. KoRn has established themselves as an elite in both the Active and Modern Rock formats, and should break first-week sales records with their latest.

Santana f/Everlast, "Put Your Lights On" (Arista) The numero uno album in the country again this week was Santana's dazzling collaborative effort, *Supernatural* (another 200,000 units scanned). "Put Your Lights On" pushes onward and upward on the chart, moving 18-15\* (1559 spins). Great call-out at WARQ, WHFS and Q101. Strong spins at WPLY, 99X, KTBZ, WXDX, WRZX, KDGE, WGRD, WBCN and KEDJ, just to name a few.

System Of A Down, "Sugar" (Columbia/CRG) The story grows stronger every week, with excellent phones at such stations as KEDJ, Live 105 and KTEG, along with tremendous airplay support at KXPK, WROX, WMRQ, KXTE, WBCN, KKND, KPNT, KROQ, WXRK, WNFZ, and WXDX. Not convinced? You will be. Sales and requests don't lie.

**Tonic**, **"Knock Down Walls" (Universal/UMG)** Debuting on the chart at 38\*, the follow-up to the smash "You Wanted More" gives you exactly that. Hooky, polished and radio-ready, the latest from *Sugar* be a perfect fit on almost any playlist.

Fiona Apple, "Fast As you Can" (Epic/550 Music) The first single from her overly-worded new album moves 31-26\* (968 spins) on the chart this week, grabbing four more adds in the process. This song will work it's way into your head and stay there. New at KKNB, KMBY, WROX, and WXNR.

The song sequel to their classic "Man On The Moon," and lead single from the sound-

track to the movie of the same name, nabs #3 Most Added honors this week (40 stations). This is by far their best single in years. Make it your priority this week.

REPEAT PATROL - It was a time of celebration at K-Rock as Stone Temple Pilots' DeLeo brothers stopped by the same day the Big Apple was holding a victory parade for the Yankees. That's Dean planting a big kiss on PD Steve Kingston while K-Rock afternoon guy Will Pendarvis and Robert DeLeo look on.

99X TV Spots Delight: Rarely do we get to see television commercials that radio produces, except for WPLY's spots, but that's because we live in Philly. So, we were excited when WNNX/Atlanta sent us a tape of their new morning show commercials. 99X's Barnes, Leslie and Jimmy of The Morning X face their fans this week in three new television spots set to air on local Atlanta stations. The ads feature the three air personalities discussing their relationships with each other, their interests, and their quirks. There are three different spots, each one highlighting one of the Morning X personalities. Morning Show Producer Jimmy Baron cowrote the spots with Brian Sack, and explained that the ads were basically written to poke fun at themselves. Inspired by the format of popular ESPN television commercials, the ads start running this week. In other 99X news, the station's much anticipated Live X CD is back this year with Live X V, Shimmer and Shine - a compilation of artists performing unplugged from the exclusive 99X Live X concert series. Shimmer and Shine is the first double disc Live X featuring double tracks from 13 of the best Live X performances over the past year. Artists include Grammy Award nominee Shawn Mullin's, "Lullaby" and "Shimmer" and Kid Rock's "I Am The Bullgod" and "Cowboy." Other artists featured on the two-disc set include Alanis Morissette, Guster, The Black Crowes, Remy Zero, Marvelous 3, Sister Hazel, Ben Folds Five, Fastball, Eve 6, Fuel, and Jump, Little Children. The CD's cover art is a unique image created by celebrity photographer Anton Corbijn exclusively for

99X. Shimmer and Shine is available at Atlanta area Wherehouse Music locations for \$19.99. In addition, each CD contains a free MindSpring Internet start-up kit and 30 days of free Internet service. Net proceeds will benefit Camp Sunshine, a summer camp for children with cancer.

K-NACK Returns Via The Web: Austin's once revered Modern Rock outlet KNNC has returned, sort of. While the airwaves of Austin will not see the return of the station imaged by Psycho Baby, those who were loval listeners to K-KNACK can find the station on the Web (www.austinsknack.com). The station was raised from the dead on Halloween with a party in Austin at Club DeVille. Currently there are two hour-long shows that bring back the spirit of K-KNACK - lots of new music mixed with classics from artists like Sisters Of Mercy, The Cult, and Big Audio Dynamite - on the Web site. You can also find info on where former K-KNACKers are now, as well as many other K-KNACK related items.

WHFS On The Move: In case you missed it a few weeks ago, we alerted you to the fact that WHFS/Washington, D.C.-Baltimore was moving to a new location. While the new home of WHFS is still under construction, the gang has moved into their new digs. The phone and fax numbers remain the same and here's the new address: WHFS, 4200 Parliament Place, Suite 300, Lanham, MD 20706.

### 92 Free Ticket Spree

When WXRK (K-Rock) announced they were presenting a Metallica concert in the Big Apple on November 23, antici-

pation was running high. After all, this is no ordinary show as the band is going to play in front of 20,000+ fans at Madison Square Garden with the St. Luke's Orchestra, the only North American show scheduled with such a set-up. Little did the anyone know that tickets would sell-out before the general public would even have a chance to grab them. Scheduled to go on sale on Saturday, October 30, tickets were made available to holders of a K-Rock 92 Free Card the day before the show went on sale. With an opportunity to see rare performances of "Master Of Puppets," "Enter Sandman," "Until It Sleeps," and more, K-Rock card holders grabbed up all the tickets available. "Tickets went fast and furious right up until noon," K-Rock Director of Marketing Kathi McMorris told fmgb. "It took until later in the afternoon for the behind the stage and single seat tickets to be sold, but they all went to our 92 Free Card holders." It was guite a coup for K-Rock, as this was the first non-K-Rock event that sold-out through the 92 Free Card program. This past spring's K-Rock Dysfunctional Family Picnic also sold-out through the 92 Free Card program before tickets went onsale to the general public. McMorris said over 100,000 92 Free Cards have been distributed.

Year's weekend, with a Top 92 Songs of the Millennium countdown.

"We're lucky that 92 songs works out to just about eight hours of programming," Carlson says. "So we'll be able to run the countdown from four to midnight on New Year's Eve and then again during the day on New Year's Day."

Carlson says listeners have been interested and involved from the very beginning and he expects the excitement to continue to grow as the field narrows.

A group of stations are participating in *All Century Rockers*, a pre-millennium promotion for Active Rock, Rock, and Classic Rock stations that uses the buzz of the Internet to build station e-mail databases. Presented by **Jacobs Media**, *finqb* (plug-plug), and **Gibson Guitars**, the promotion offers listeners the opportunity to vote on the top Rock N' Roll artists of the century in various categories. Listeners cast their votes through a customized page on participating stations' Web site. *finqb* will exclusively publish national results and those from industry-only voting, in our December 17 End Of The Century Special Issue. To vote on the awards, visit www.fmqb.com. The promotion is available at a cost of \$2000 per station on a market exclusive basis to Jacobs Media clients, and non-clients in markets where the consultancy does not operate.

#### Prizes

Century's end contesting runs the gamut from the tried-and-true to the truly unique. I wasn't surprised to find a certain effervescent beverage at the heart of a couple of on-air promotions. Throughout December, WZZO/Allentown is featuring the "Wheel Of Bubbly," with listeners winning everything from bottles of Dom Perignon to lesser-quality plonk, like Maddog. This is certainly a creative way to tie-in to the supposed shortage of sparkling beverages. (Save us a bottle of Perrier Jouet.) Z95 is also selling a 2000 calendar that features twelve listenersnapped photos of the station's call letters in strange and unusual places. It benefits the August Survivors Center and their work with victims of sexual and domestic abuse.

Then there are the trips. Some long strange ones, as well as the more expected. **KISS**/San Antonio's **Kevin Vargas** has designed a promotion that qualifies each weekend's winners of Korbel champagne and commemorative glasses for a grand prize: A trip for two, for two nights to New York (about 2,000 miles) on New Year's Eve, to see the ball drop in Times Square. The winner also gets \$2,000. Dubbing itself Y2KISS, the station is also filling a time capsule with contemporary Rock and Pop culture artifacts that will be held in trust (encased in concrete) by San Antonio's Witte Museum until New Year's Eve 2099. Vargas wonders if anyone will care about Marilyn Manson's autographed book in 2099. On the air, Vargas has been considering featuring the evolution of Rock.

In the "long strange trip" category, the winner has to be WBAB/Long Island. This trip is not for the meek or those prone to serious bouts of jet-lag. OM Eric Wellman told us all about Time Warp 2000, a promotion the staff brainstormed in an effort to outdo anything that they'd done before. We certainly think that they've succeeded. "We originally thought that we'd be sending the winner to a David Bowie concert in New Zealand," Wellman says. "And we thought it would be great to find another concert on the other side of the dateline to send them to so that they'd get to celebrate the new year twice. Well, since then, Bowie cancelled and we couldn't find any shows in Hawaii that would be appropriate and by then we had realized that the concert was irrelevant. Now, our grand prize winner will spend New Year's Eve in both Sydney, Australia and Honolulu, Hawaii." In addition to taking the trip of a lifetime, the winner will come home to \$20,000 in Y2K compliant technology from P.C. Richard & Son. Of course they do have to spend a hell of a long time in the air.

WRAT/Point Pleasant's Carl Craft called on sponsor Budweiser for the station's Y2K, No, 25K promotion. Listeners call-in to win a scratch-off WRAT ticket. Each one features a prize of some kind, and *if* they scratch off the correct decal, they win \$25,000. They do have insuarance in case anyone gets lucky and scratches off the right decal. With this promotion, the station has a presence in local clubs where they've been handing out the cards and it generates a lot of excitement on the air.

WNOR's Harvey Kojan outlined the *FM99 Y2K Fix* for us. "We're giving away 2K every weekday for a full month. It's a very simple forced listening contest. Listeners tune in every morning at 7:20 and **Tommy & Rumble** tell them the Y2K song-of-the-day and when it's going to be played. At our Web site, they can also sign-up to get an email from us, which puts them in our email database. We have "Bill Gates" as the spokesperson for the promotion appearing in the on-air promos."

The station will give away \$40,000, ten grand a week for four weeks. And Tommy & The Rumblers will be bringing in the new year with a concert appearance.

WKZE/Sharon, CT, is encouraging listeners to come up with the wildest Y2K prediction that they can possibly think of. Y2KZE runners-up will receive Y2K survival kits: a flashlight, batteries, canned goods... you get the picture. The grand prize winner will win a brand new generator. WEDG/Buffalo's Shredd & Ragan have a similar, and even more extensive, promotion preparing their listeners

for the "end of the world." They're telling listeners it could be the "last radio contest ever." The morning team announces the "Shredd & Ragan Y2K Word Of The Day" at 7:20 weekday mornings. Sometime between 10 a.m. and midnight, when the word is repeated, the 13th caller wins freeze-dried food and is registered for the grand prize: A 90 day supply of water, a complete collection of Planet Of The Apes movies, an Edge CD library, 500 gallons of gasoline, a big screen TV with VCR, satellite service, portable CD player, video rentals for a year, a gas-powered generator, 52 packs of batteries, a four-person tent, a kerosene heater, geiger counter, carbon monoxide detector, binoculars, a GPS satellite locator, two sleeping bags, a flare gun, and much more. Members of The Edge's Cyber Club are alerted to the "Word Of The Day" via email and told the fifteen minute time frame that the word can be heard, building the station's online database.

#### Parties

Parties are significantly bigger and better than usual, as befits the occasion. WQLZ's Carlson has been talking about putting together a *Hair Ball*, featuring a performance from an eighties "Hair" band, but he's concerned that finding any band that's not-yet-booked at this late date may be problematic. A local eighties cover band may be called in to play the party.

WZZO's Robin Lee told us about their End Of The World Party, scheduled for New Year's Eve. Broadcast live from a club, this theater-of-the-mind program will come to life with sound effects of screaming, a bomb blast, and ten seconds of dead-air at midnight. Lee has been careful not to name any of the station's events millennial. "We're the media, we have a responsibility to be accurate," Lee confirms. "I can't control the spots, but I can control what we do. I am not going to misinform the public. The millennium doesn't start until 2001."

WXRT/Chicago will hold their third New Year's Eve party at the Grand Ballroom on Navy Pier overlooking Lake Michigan, with fireworks at midnight and music from the BoDeans and Matthew Sweet.

In Austin, KGSR is one of the official sponsors of A2KGSR. The New Year's Eve concert takes place on Congress Avenue in downtown Austin, with two stages of live music, including Lyle Lovett, Shawn Colvin, Robert Earl Keen, Kelly Willis, Bruce Robison, W.C. Clark, and Aztex. The music starts at 6 p.m. and concludes at 11:45 with a light show. The mayor of Austin, Kirk Watson, announced the concert on the morning show three weeks ago and is included in the station's on-air promos. 'GSR will also sell reserve seating in their tent, situated between the two stages. The tent will feature a bar and TV screens.

One of the parties we'd all like to attend is being thrown by DC101 (WWDC/Washington, D.C.). PD Bob Neumann booked the MCI Center from 9 p.m. until 4 a.m. for New Year's Eve, lined-up Third Eye Blind and Fuel, among other musical attractions, and began designing a party to beat all parties. There will be at least ten different theme activities, over one hundred open bars, a lazer light show, dinner and breakfast buffets, and different party areas and rooms featuring different kinds of music and dancing. A Caribbean Island area with frozen drinks. A Jazz and cigar lounge. A virtual reality game in the sports gallery area. A Vegas-style strip with casino games. Local and national acts will perform on different stages. DC101 also plans to have satellite links from other parties in four different time zones, so attendees can celebrate the New Year over and over again. With promotional sponsorship and convenient location right on the metro line (talk about a designated driver), the station expects at least 7,000 attendees. Ticket buyers can also upgrade their tickets, allowing them access to all of the various areas and featuring a gourmet dining experience. Tickets start at around \$200 per person.

#### **Programming Packages**

So you've got the contesting, parties and music covered but you'd like some additional historical and cultural soundbites for your on-air programming. We're happy to point you in the right direction. MJI Broadcasting has their Millennium Kit. It includes two CDs with nearly two hundred soundbites from news, politics, sports, fashion, movies, culture, and technology. The audio dates from 1906 (an Edison disc promotional recording - one of the first commercials) through the '90s. Included in the package are speech excerpts from William Howard Taft, Teddy Roosevelt, Woodrow Wilson, Amelia Earhart, Winston Churchill, Harry Truman, John F. Kennedy, Richard Nixon, Joe McCarthy, Elvis Presley, Ed Sullivan, Alan Freed, Neil Armstrong, Max Yasgur, Gloria Steinem, an eyewitness to the Kent State tragedy, and many more. The package also includes scripts for set-up and use in news programming or within other special programming. They've also included soundbites from classic movies, from 1927's The Jazz Singer to that stand-out line from There's Something About Mary regarding hair gel. There are also audio clips from radio, television and sports. It's available on a barter basis for affiliates from MJI. To hear a sample call (212) 896-5353.

CBS News has announced *Countdown to 2000*, its coverage of the turn of the century. Their programming will encompass all broadcasts in the form of special series and reports and primetime specials leading up to January 1, 2000. *CBS Evening News*, 48 Hours, 60 Minutes, and other CBS television programs plan to feature multi-part series. On December 31, CBS News anchors and correspondents will be stationed at key datelines around the world to chronicle live millennium news and celebrations around the world. But don't fret, they haven't forgotten radio. As part of their comprehensive countdown coverage, CBS Radio News will be offering thirty one-minute retrospectives narrated by Walter Cronkite and a three-hour centuryend special edition of *Weekend Roundup*.

Great radio stations have always known when and how to bring their listeners along for the ride. So it's not surprising that programmers are taking this opportunity to use the magic of radio to transport listeners to a special place this historic New Year's Eve, whether that's an actual place or one that exists only in their minds.

\*Yes, December 31", 2000 marks the end of the 20th Century. We're going with the media flow.

# **Radio Promotions For The End Of The Century\***

#### by Sybil McGuire

Radio knows how to throw a party. With the largest party opportunity in our lifetime looming large on the horizon, Rock Radio hasn't been shy about coming up with a variety of unique ways to jump on the bandwagon. Fears of Y2K computer problems and millennial spiritual hysteria aside, the last New Year's Eve of the 20th century has Rock Radio programmers and promotion and marketing teams pulling out all the stops to provide listeners with an exclusive place to let their hair down. And party, like, well, it's not 1999 anymore. Stations are also offering listeners a chance to win some pretty cool trips and other neat stuff. (Arguments about when the 21st Century actually begins do not apply.)

#### **Music And Prizes**

Rock Radio programmers are full of unique end-of-thecentury celebration ideas that go well beyond your typical Year's Eve party at a popular watering hole. Along with the more typical and expected year-end countdowns, some stations are counting down the best of the decade. KINK/Portland is in the process of counting down the most influential musicians of the millennium. On Labor Day weekend, listeners began voting for their top 10 favorites. After compiling all the entries, the station, on September 21, started counting down the 102 "most influential" musicians of the millennium. KINK has been presenting features on these artists, inserted within regular programming. It's similar to VH1's Storytellers. While the majority of artists are from the past fifty years, luminaries that predate the Rock era are also included, like Bach, Beethoven, Mozart, Gershwin, Glenn Miller, Duke Ellington, Miles Davis, Louis Armstrong, Nat King Cole, and Hank Williams. The list is updated each day on the station's Web site (http://www.kinkfm102.com), which also features an interactive quiz. On-air, listeners are asked to keep track of each artist's "peak year," which makes them eligible for prizes. After the countdown is completed, one listener will win a collection of CDs, which will include each of the artists featured.

"It strengthens the image we have of playing the most variety and fits our music profile," PD Dennis Constantine explains. "The response from listeners has been amazing. Some of the more interesting days have featured Patsy Cline, Willie Nelson, The Supremes, and Robert Johnson. Michael Jackson and Madonna are both coming up." When I interviewed Constantine for this article, the station was featuring Prince at #65.

While KINK's promotion is an extreme example of using music programming to celebrate the milestone that will be the dawning of 2000, another station's music-related

millennial programming is somewhat more typical. Active Rock WQLZ/ Springfield's Woody Carlson describes the station's current Millennium Death Match as similar to the NCAA tournament. The station has four brackets (W-Q-L-Z) and the #1 seeds from each bracket spell out the station's calls on their Web site Listeners can download the entire list, pick it up at the station or at participating sponsors, and play along at home. In the midday show, each artist goes up against another. Listeners vote via phone and email on which artist moves on to the next round. The final battle takes place on December 31, when one winner (who has accurately predicted the final two artists in advance) will win CD catalogs from each artist.

Results thus far have been pretty amusing, Carlson says. The Doors beat Tool, but not by much. And the "Makeup Match" between KISS and Marilyn Manson (get it?) surprised the programming staff when KISS won by a large, lipstick-smeared margin. They've taken the idea a step further and incorporated music news and trivia about each artist and band during the face-offs.

The finals will feature details about the battles the bands won on their way to the finals. Carlson plans to keep the musical magic rolling through New
