UMG Rolls-Out Farm Club Internet Label

The dawn of a new era has arrived in the record business with Universal Music Group's announcement this week of their new Internet-based record label, Jimmy and Doug's Farm Club (FarmClub.com). Named for the label's visionaries, Co-Chairman of Interscope, Geffen and A&M Records Jimmy Iovine, and Uni-versal Music Group Chairman/ CEO Doug Morris, FarmClub.com will be an independent, self-contained record label with a fully dedicated staff. The New York Post (11/10) reports Farm Club's presidential post has been offered to Warner Bros. Records GM Andy Schuon, whose contract with WB

Set to debut in February 2000, Farm Club essentially puts a record label in every town, giving artists and bands direct access to the label's A&R decision makers by submitting their material digitally, with the possibility of snaring a recording contract. Music

submissions will be able to be uploaded beginning in December.

Shoring up its impact on the industry, Farm Club has struck strategic alliances with America Online, USA Networks (who will air a weekly one-hour television program showcasing Farm Club artists immediately following its popular WWF RAW/War Zone show), MTV, and Sprite.

"Farm Club is guerilla record making," commented Iovine, who will serve as the label's Chairman/CEO. "We will be tapping into music and the creative process at its purest form. It's giving the record business something it's always deserved – to find talent and reach its audience in the most personal and undiluted way. This record company will live and breathe anywhere. For the first time, fans and musicians have a direct effect on the music that will be available in the marketplace."

"I believe that in the future the majority of music that becomes

commercially available will be auditioned and discovered through the Internet," added Morris. "The reach of the Farm Club surpasses any traditional A&R capabilities, dramatically increasing the opportunities for artists wherever they may live."

Edgar Bronfman, Jr.,
President/CEO of UMG parent
company The Seagram Company
Ltd., remarked, "This project is
tangible evidence of how best to
leverage the power of the world's
largest and foremost music company to create a new paradigm for
the music business."

In other Internet related music news, MP3.com has announced the launch of it new music Web site, MP3DOM.com, whose trademarked slogan will be: "New Music That Doesn't Suck." MP3DOM.com will provide free downloads of new music prescreened by major label and publishing executives.

"Sports Fantasies," "Rock N' Roulette" Latest Group Contesting Examples

What's the one thing every guy lives for? Okay, after sex?

It's sports, of course. For the first month of the Fall book, **Clear Channel** embarked on *20 Sports Fantasies In 20 Days*, the latest in a series of company-wide group contests (*fmqb Up Front* 5/21). Teamed with national sponsor **Mindspring Internet Services**, the company secured tickets to all of next year's top sporting events: NCAA Final Four (two trips), Indy 500, World Series, Superbowl in Atlanta (four trips), Wimbeldon, Masters, Sugar Bowl in New Orleans, NBA Championship, Major League Baseball

All-Star Game in Atlanta, Pro Bowl, Daytona 500, U.S. Open Golf Tournament, Stanley Cup Finals, Sydney Olympics, Kentucky Derby, and the NBA All Star Game in Oakland.

The contest was offered to Clear Channel Rock stations nationwide. In Rock-less markets, such as Los Angeles, it was

WCMF Morning Show Sidekick Alleges Sexual Harassment

Infinity's WCMF/Rochester is being investigated by the Equal Employment Opportunity Commission for charges of sexual harassment brought on by a 10-year member of the station's top-rated morning show. Cindy Pierce filed a federal EEOC complaint last week, claiming she was sexually harassed and denied a salary raise while working as a sidekick on *The Brother Wease Morning Circus*.

It's "one of the worst cases of ongoing hostile environment sexual harassment I've ever been involved with or heard about," Lonny Dolin, Pierce's lawyer, told the Democrat and Chronicle (11/5). Among other things, Pierce claims an eight-year old photo, in which she is about to take a bite out of a hot dog - held below the waist of someone else — was posted on Brother Wease's Web site. The photo was accompanied by a suggestive headline. Dolin says the photo humiliated Pierce. He also says when she was on the air, "certain things would be done to or around her that no one would argue weren't offensive."

WCMF VP/GM Kevin LeGrett defends the station's response to Pierce's complaints, saying he took "all the appropriate steps" and conducted a "thorough search" when grievances were brought before him. "We did everything in a professional

Mike Peer

WXRK (K-Rock)/New York MD Mike Peer's roots are deep in the heart of Texas. He got his start at legendary Modern Rock outlet KNNC/Austin, before heading to KDGE (The Edge)/Dallas. It's been two years since Peer left the Big D for the Big Apple to take over the K-Rock Music Director post. We catch up with him for a quick Q&A on his NYC seasoning.

Sum up the K-Rock/New York experience to this point.

Where do I begin? There's no place like New York. Over the two years that I've been here, I've seen and been a part of things that you just don't do in other markets. My transition from Austin to Dallas gave me my first major market experience, but moving from Dallas to New York was an eye-opening experience. I learned a lot in Dallas, but the education I'm getting here with [WXRK PD] Steve [Kingston] is phenomenal.

How have you found New York different than Dallas?

The stakes are higher. In New York there is no room for error. You really have to use all of your talent, be creative, and be on top of your game, because everything has been done before and been done well. We constantly have to find a fresh perspective for everything we do. Whether it is supplying an audience of K-Rock listeners for the Smashing Pumpkins playing on 53rd Street for David Letterman or the Red Hot Chili Peppers playing a free show on top of the World Trade Center for less than 300 people, where the only way to see the show was to win tickets on the radio station. Scalpers couldn't even get their hands on these! MTV is also right here in NYC, so we tie in with them on a lot of events. Another difference, is when we put together our Dysfunctional Family Picnic, the caliber of talent we get is huge. Rage Against The Machine headlining the show pretty much tells the story. On Nov. 1, 2, 3 there were in-stores scheduled in NYC for Kid Rock, Foo Fighters, and Rage Against The Machine to promote their CD releases. You just don't do these kinds of things in Dallas.

What has working with Steve Kingston been like?

Hang on, let me get the answer that he wrote for this question. Steve is a genius! Seriously, he is the most influential programmer that I have seen. I used the word education before and that is because of him. He knows how to do things the right way and understands the radio business better than anyone probably should. He has an uncanny knack for being right on the money, every time. He knows New York and what it takes to win here. It's a shame that everyone can't work with him for a year to see the way he makes things happen and the respect he commands because of what he does

K-Rock peaked at a 4.4 Persons 12+ in the Winter '99 Arbitron, but are back to a 3.6 in the Summer '99. Do you think the 4.4 was an anomaly or can you regain those numbers?

That 4.4 was just the tip of the iceberg. K-Rock has the potential to be a five share radio station. Unfortunately, during the last couple of books, our sister station, WNEW, decided to become our direct competitor. Infinity's policy is to let each station govern themselves, so when they put on an afternoon show that was a poor **Howard Stern** rip-off, were playing 50 percent of our currents, and having women shoot hard boiled

Atlantic Restructures Alternative Promotion Department

Atlantic Records has promoted both Kris Metzdorf and Bonnie Slifkin to the position of Co-Senior Directors of Alternative & Adult Alternative Promotion on the West and East Coasts, respectively. Both Metzdorf and Slifkin were most recently Sr. Directors of Promotion. In addition, Atlantic Local Promotion Manager/New England Lee Anne Callahan has relocated to New York as Associate Director of Alternative & Adult Alternative Promotion.

"As individuals, each of these remarkable women brings a special brand of energy and experience to Atlantic's vital efforts in the world of

Clockwise: Lee Anne Callahan, Bonnie Slifkin and Kris Metzdorf.

Alternative and Adult Alternative," Atlantic Exec. VP Andrea Ganis commented. "As a unit, they're even more impressive. Indeed, knowing Kris, Bonnie, and Lee Anne are on the phones, my world becomes a bit more stable.

"Kris Metzdorf is our West Coast magician and after all these years she still amazes me with her ability to get hit records in motion. Throughout her ten extraordinary years with the company, Bonnie Slifkin has been a force behind the success of so many important projects, and there are few people I rely on more to make great things happen. As for Lee Anne Callahan, she's already shown herself to be a wonderful asset to this department. I couldn't be happier to have this team in place, and I want to thank all three for their hard work and dedication."

Arbitron "Fly-In:" PPM, Radio Listening on the Web, Proportionality

The Personal Portable Meter and radio listening on the Internet were slated as top agenda items at Arbitron's annual Consultant Fly-In, Friday (11/12) at the company's Columbia, MD headquarters. Around 50 consultants, researchers, and members of the trade press were expected to attend the daylong seminar, which capped off three days of Arbitron sessions.

Arbitron entered a new round of larger, full-scale PPM testing in September, involving 300 participants in Manchester, England. VP/International Business Development Jay Guyther was set to provide the first peak at results from those tests, which conclude in December. Guyther was also scheduled to talk about the radio implications of Arbitron's new TV deal with Taylor Nelson Sofres (*fmqb* 10/22).

Also on the agenda: A progress report on initiatives for improving young male proportionality (an important issue with Rock programmers), the new "Previous P1" question now being asked of diarykeepers, software updates, and diary processing improvements.

Look for a complete report from the Fly-In in next week's fmqb.

FCC To Use Lottery System For TV Duopoly Applications

Back in August, the FCC put into effect new rules allowing broadcast companies to own two TV stations in one market. However, only a limited amount of duopolies will be allowed per market. In an effort to deal with multiple applications for dual ownership, the Commission has decided to use a lottery system to decide who is granted permission to own a second TV station. A number of broadcasters, including CBS, wanted the FCC to issue duopoly licenses to those companies who were first to announce their purchase agreements. The FCC balked at that idea, saying they would have to define the types of contracts (written or verbal, preliminary or final agreements, etc.) that would receive priority. Preference will be given to those companies that own a station and already have a LMA in effect with another station. Under the new rules, LMAs will no longer be allowed, however, some older agreements may be grandfathered.

Gates Leaves Arista for Nettwerk

Tom Gates will vacate his chair as Arista Director of Alternative Promotion in the middle of next month to join Nettwerk Records as its New York-based Head of Promotion. The Los Angeles-headquartered indie label has a small but growing roster of artists, along with Vancouver-based management and Internet sister companies. Gates tells *fmqb* he plans to hire a West Coast-based promotion person, to augment his efforts and those of Nettwerk's national college promotion director. Gates spent four years at Arista after a hitch with Roadrunner.

* WXRK (K-Rock)/New York PD Steve Kingston's search is on to replace Operations Director Sam Milkman, who departed for the PD chair at WMMR/Philadelphia. In the meantime, Kingston told fmqb that K-Rock weekend personality and former-SW Networks VP/Programming John Loscalzo will be filling the role... WOXY/Cincinnati MD Kevin Couch has exited. PD Keri Valmassei has assumed his duties... Mainstream Rock KQDS/Duluth has dropped all currents and is now leaning Classic Rock, with only a handful of recurrents.

made available to male-targeted AM Talk or Sports stations, like L.A.'s KXTA-AM. In all, 50 stations took part and agreed to a commercial schedule with Mindspring.

Similarly, around 25 medium and small market AMFM Rock outlets have made group contesting part of their promotional arsenal. The latest AMFM example is Rock and Roulette. The Fall book promotion awards a total of four \$10,000 prizes, two \$15,000 prizes, and two \$25,000 prizes, spread out across the contest network. Participating stations simultaneously air "the spinning Rock n' Roulette Wheel" sounder once each Thursday, between 9:00 a.m and 5:00 p.m. "When it stops, and you hear the amount of money you could win," promos say, "pick up the phone and dial the special, toll-free Rock n' Roulette contest hotline." All calls are routed to one central telephone center. The 100th caller gets the cash.

You'll find comparable execution with the latest Clear Channel contest.

"Everybody ran a similar trigger mechanism," Director of San Francisco-San Jose Programming & Operations Jim Richards tells fmqb. "It involved either a recorded station voice or a sports celebrity announcing when [it was time] to call to win." Audience recycling is a priority. Revelation of the day's specific trip came during the morning show. Some stations set an exact time when the wakeup crew would make the announcement; others, like KMJX/Little Rock, weren't as structured. "We said, 'make sure you listen to Tommy & Dave on the Rock & Roll Breakfast and they'll tell you what the trip is," PD Tom Wood explains. The talk-intensive duo mentioned that day's trip numerous times during their show. When the synchronized trigger aired on all participating stations later in the day, the 25th caller to a designated toll-free number scored the trip. "Each trip came with a thousand dollars betting money," Richards added.

The name of the contest winner

was available to all stations within five minutes. The actual audio of the winning phone call came about 30 minutes later, for slicing and dicing into station promos. "We ran our promos in our ID position, we didn't place them within a stop-set," Wood adds. "At the top-of-the-hour ID we were doing full-blown screaming, yelling winner promos."

Promoting and marketing the contest was left up to each individual Clear Channel station, "It was marketed individually, based on that station's budget and needs," Richards offers. "Here at KSJO, we folded the contest as part of our video mailer." At KMJX, 20 Sports Fantasies was the focus of an outdoor campaign. "They were all over town," Wood said of the station billboards. It apparently paid off. KMJX had two local winners during the promotion. Otherwise, the 20 winners were spread out among the 50 stations. The contest handle was also left up to individual stations. While many stuck with the original name, others opted for titles like The

Wild World Of Sports, The Really Wide World Of Sports, and Tour Of Champions.

In a counter-programming move, some competing stations are playing the role of whistle blower. "It's a big corporate scam, it's an insult, shame on them" says a series of hard-hitting promos on WCCC/Hartford. Arch rival WHCN is one of the AMFM stations involved in Rock and Roll Roulette. WCCC's promos include listener testimonials like these: "I can't believe that these people would even lie to us. They're not giving away \$50,000, not in our area anyway. I called to see where the last winner was from and they wouldn't even give me the information." WHCN goes as far as telling Hartford listeners, "The last winner lived in Delaware... That sure cuts down on your chances to win around here, huh?" And it trumpets the fact that, with its recent Cancun trips giveaway, "all of our winners are our listeners."

S&M On Demand

Metallica

Elektra Records has teamed with radio and retail to make available, via streaming audio, the new Metallica CD S&M. For the first time ever, the full album will be available on the Internet from November 19 – four days before the record is in stores – until November 26. During the seven-day period, fans will be able to listen to the entire album, track-by-track as many times as they want, whenever they want.

Elektra will build a customized version of the S&M On Demand Player using participating radio station and retail outlet logos and inserting a link back to their site. In turn, radio and retail will place a link to the S&M On Demand Player on their sites.

To gain access to the S&M On Demand event, fans must register their name, e-mail address and provide other demographic information. In exchange for the link on the participating stations/stores home page, Elektra will provide all the demographic information captured from listeners who access the S&M On Demand Player.

Radio stations around the country as well as online retailers and MTV.com have been invited to participate in the event.

KENZ/Salt Lake City Hit With Defamation Suit

Former KENZ/Salt Lake City morning co-host Mark McCaleb – who went by Marcus on-air – has filed a defamation suit against station owner Citadel, morning host Brett Smith — known as Jimmy Chunga – and Promotions Director Rick Pollack. The suit claims that McCaleb was fired from the station after being accused of engaging in inappropriate sexual activity while intoxicated during a station-sponsored boat cruise.

McCaleb said he was asked to take a week off following The End's Cruise Of Dreams. Upon his return, he was fired for his alleged behavior on the cruise, according to the Desert News (11/10).

"Defendant Citadel conducted no investigation into these claims and never attempted to obtain the plaintiffs' side of the story," the suit says. McCaleb claims that allegations that he had sex with underage girls and participated in a 30-person orgy are false and unfounded. McCaleb also says Chunga and Pollack spread the rumors of his alleged actions to listeners and co-workers with "actual malice and intent of damaging his reputation."

Citadel-Salt Lake City VP/GM Eric Hauenstein said in a press release, "We terminated Marcus McCaleb's contract only after careful consideration of his rights and the best interests of the station. We are confident that the action was legal, fair and necessary under the circumstances."

McCaleb is seeking \$25,000 in punitive damages, an amount to be determined at trial for breach of contract, and over \$100,000 in damages for the defamation charges against the station, Smith and Pollack. He also wants out of his non-compete contract with Citadel.

What puts the Rock in K-Rock?

The answer to this is that K-Rock put the "Rock" back in Alternative music. When we started doing this "Extreme" presentation, there was no blueprint of how to do it. Bands like Limp Bizkit, KoRn and Rage were getting minimal play at Alternative Radio. We saw that there was an underground rumbling for this type of music that wasn't being served to the degree it was warranting. These bands were playing sold-out shows in every city and the passion level for the music was, and still is, over the top. When we started rocking again, most people around country were saying "What the hell are they doing?" Now, you see stations like KROQ [L.A.] & Live 105 [S.F.] adding Sevendust, Incubus, and System Of A Down. The passion for music is back, and the passion

for Rock is back. So, the answer to the question "What puts the Rock in K-Rock," is passion.

What is Sam Milkman's departure going to mean to the station?

Sam is a perfect example of what Steve is all about. He is a product of the "education" that I mentioned before. It's like being in college and finally getting your diploma. Take for example [WKTU/New York PD]

Frankie Blue, [WKTU APD/MD] Andy

Shane, or Adam Goodman, these people all went through the education process.

They've all worked for Steve in the past, and there comes a time that they all realized it's time to go out on their own and spread their wings, for lack of a better cliché. Sam is just the latest one to graduate. We know he'll do great things in the future.

For one moment, forget that you are a Dallas Stars fan - goal or no goal?

Goal! But, I'm sure if I lived in Buffalo, I would be screaming "No Goal!"

and upbeat manner to make sure nothing happened at any point that could put somebody in a hostile work environment or in a sexual harassment environment," LeGrett told *finqb*. What's more, Pierce was a willing and active participant in "anything done" on the show, he contends.

The EEOC complaint isn't the only thing keeping `CMF attorneys busy these days. They're also addressing the May filing of a \$2.3 million lawsuit by a former `CMF Account Executive. In her suit, Jodi Strada claims Wease (real name Alan Levin) and partner Tom Mulet made on-air comments about her clothing that suggested sexual promiscuity. The pair's on-air assertion that Strada doesn't wear underpants interfered with her efforts to sell advertising, the suit charges.

What's Wease's take on all this? "The absolute truth about this stuff is not a good thing," he said in the *D&C*. "It's hurting our country and our system about what people are allowed to do. And I'm not saying this has anything to do with these two chicks, but what I'm saying about our society and our laws is, if a woman sees the end coming in their profession, they have many, many options. And it's a scary thing."

DAVID BOWIE...

"I'd love to be a movie star. because there's not much work

- David Bowie

In the future, do you think you'll go more into acting and less into music?

No, absolutely not. I don't particularly enjoy acting. I don't think I have the commitment to be an actor. I'd love to be a movie star, because there's not much work attached to it. You get to be on posters and things! But the acting that goes with it is really hard. You have to live places where actors breed. I could leave performing quite easily, but if I wasn't writing and recording, I'd just curl up and..

What was it like working with Trent Reznor of Nine Inch Nails?

We've done, including mixes, quite a lot of work over the years. He's a very bright, intelligent writer, a very good arranger and a first-class producer. Of any of the new crop of writers, over the last five, ten years, I would expect to see him

in 10 years still making good work.

> nav to NOT see me.

That's where I think it's going

for me personally!"

- Davld Bowie

Do you consider yourself a pioneer on the Internet?

I dunno....among artists in terms of this industry, maybe. I was doing things on it first. I had an electronic mail system when we went on tour in 1983, and an artist news group by 1988. What I wanna do is a strip Web site. Start stripping, you know, have a real-cam thing. People would pay to not see me. [Laughs] That's where I think it's going for me personally.

Programming

• Former WRQC/Minneapolis (now WLOL) APD Jay Philpott has transferred to AMFM Classic Rock sister KZPS/Dallas as APD/midday talent. Philpott replaces John Moore, who exits. Philpott remained with 'LOL through its transition from Rock to Classic Hits... AMFM Classic Rocker KKRW (The Arrow)/Houston PD Jeff Scott has exited. The company doesn't anticipate replacing him. Programming duties are being handled on a day-to-day basis by Arrow APD Bobby Duncan, and overseen by Director of Houston Rock Operations Michael Hughes... Former WYBB-WCOO/Charleston APD/Promotion Director John Bloodwell has been named Promotion Director for Pride Communications, overseeing the promotion efforts of the company's Joliet cluster, which includes Rock WLLI... Modern Rock KCXX/Riverside PD Dwight Arnold exits, due to philosophical differences. APD John DeSantis and MD Lisa Axe are handling programming duties in the interim... KBRS/Fayetteville has upped Promotion Assistant/midday host Ashley Ross to MD... MTV Radio Networks will ring in the New Year with MTV's Millennium Mayhem, which will air live on December 31 from 10:30 p.m. - 3:30 a.m. (ET) from MTV's Times Square studios.

Air Talent

• WISE/Atlantic City has added the syndicated Howard Stern Show in mornings. The addition of Stern displaces the current 'JSE morning duo of Michele Amabile (now heard in middays) and Michelle Dawn Mooney (who will handle local news during the Stern broadcast). Middayer Alli Morgan exits... KTBZ/Houston afternoon host Carl Bishop exits, night personality Whipping Boy segues to afternoons... WMMR/Philadelphia part-timer Kim Alexander will be temporarily covering middays at WHCN/Hartford, via Prophet, until a replacement is found for Kat Sinclair, who exits... WDVE/Pittsburgh has added Metro Traffic's Eric Taylor to the part-time/swing air staff... Joining Modern Rock WMPS/ Memphis for nights/Promotion Director chores is Sean Knight, from CHR KQAR/Little Rock... Recent Rock AC convert WYXR/Philadelphia and morning hostess Nancy Glass have parted company. Here's the new "Alice" line-up, which hits the air November 15: Mike Rossi will handle 5:30 a.m. - 9:00 a.m.; Christine Taylor stays in the 9:00 a.m. - 1:00 p.m. slot; Dan Kelly will handle 1:00 p.m. - 3:00 p.m.; Big Ron O'Brien retains afternoons; Kenny Walker will hold down the night show, and Ed The Phone Guy (formerly of the Nancy Glass Morning Show) lands in overnights.

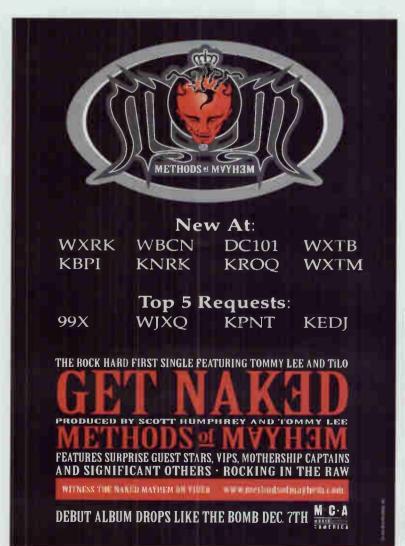

EVERYTHING IS COOL IN PHILLY: When Styx played the Tower Theater on their Brave New World tour, fmqb/WMGK's Kathy Wagner couldn't resist checking out the show. As you can see above, the five had the best of times when a photo op presented itself. (L-R): Styx's James "JY" Young; Kathy Wagner; Styx's Glen Burtnik, Todd Sucherman, and Lawrence Gowan

labelfront

• Alan Oreman will exit his post as Head of Promotion at Almo Sounds on November 30. Atlanta-based regional promo rep Jonathan Shapiro is also leaving the label, bound for a similar position at Mammoth. And New York-based VP of A&R Howard Thompson is departing Almo on November 30... Look for the official announcement soon naming former Jive Head of Promotion Jack Satter to the position of Sr. VP/Promotion at Beyond Music. Satter will remain based in Minneapolis and will report to label owner Allen Kovak... Louise Coogan exits the indy promo company Songlines to launch Sound Advisors, a company that offers direction to musicians. Rykodisc's Sean O'Connell will take Coogan's place at Songlines... fmqb congratulates Cornerstone's Jon Cohen and his wife Karen on the birth of Kevin James Cohen, who was born on November 1.

• Sources say Big City Modern Rock trimulcast Y107/Los Angeles will flip to Spanish as early as December 1... Modern KKBY (The Funky Monkey) in the Seattle area changes calls to KFNK... KRRD/Atkins, AR signs-on doing Classic Rock, according to MStreet.

LIT UP IN LAS VEGAS: While in Las Vegas, Lit took some time to hang out with KOMP and make sure they were playing "Zip Lock." (L-R): Lit's Kevin; KOMP MD Big Marty; Lit's Alan; RCA's Artie Gentile; KOMP PD John Griffin; Lit's Jeremy.

• Senator John McCain is, once again, at odds with the actions of FCC Chairman Bill Kennard. The powerful telecom lawmaker has called for an investigation into alleged abuse of power by the Chairman, who granted a temporary waiver to a Texas racetrack to broadcast to its parking lot via low-power TV without the required FCC license. In April, Commission officials in Texas shut down the broadcast while a large drag racing event was in progress, after learning the racetrack had no broadcast license. Kennard was subsequently persuaded by Texas congressman Joe Barton (R) — a member of the House Commerce Committee, which oversees the FCC — to allow the broadcast to continue until the weekend event was over. "These allegations are very serious and raise much concern," McCain said. "However, I caution we must not rush to judgment." Track operators say they didn't know they needed a license until the FCC ordered them to shut down the transmission. Defending his action, Kennard said, "We made a pragmatic, common sense decision not to disrupt an ongoing 3-4 day racing event involving a low power television broadcast from a stadium into its parking lot. I believe this decision was made in good faith by all those involved." Still, Kennard has asked the FCC's Inspector General to conduct "a prompt and thorough investigation" into the matter.

THE LOOP REMAINS THE SAME: Shortly before his sold-out show that evening, former Led Zeppelin bassist/keyboardist John Paul Jones stopped by WLUP/ Chicago to shoot the breeze with afternooner Eddie Webb about his first solo album, Zooma. (L-R): John Paul Jones; Eddie Webb.

- How much longer before Emmis closes its purchase of Sinclair's six radio stations and one TV station in St. Louis? Grab a Snickers bar. The two companies have yet to agree on a sale price. Each hired its own appraiser to come up with a price tag for the stations which include Modern Rock KPNT, Classic Rock WXOK, and Progressive WVRV but the appraisals weren't in the same ballpark. Now Tom Buono, president of BIA, is conducting a third appraisal. Should Buono's number come in closest to the lower appraisal, the buyer and seller would then split the difference, says Emmis- St. Louis' John Beck. Same deal if the new figure is closest to the higher appraisal. Emmis acquired the option rights on the stations from former Sinclair Broadcast Group CEO Designate Barry Baker back in July. The rest of Sinclair's radio assets are being dealt to Entercom.
- CBS President Mel Karmazin has made a \$2.15 billion offer to snap up Chris-Craft Television's nine TV stations, which make up 50 percent of UPN, according to *Broadcasting & Cable*. If the deal goes through, Viacom, which owns the other half of UPN, would become the sole owner of the network when the company's bid to buy CBS is finalized. According to the *New York Post* (11/9), analysts believe it is unlikely that CBS would pursue an outright takeover of Chris-Craft, when CBS itself is in the process of being acquired. CBS has also reset its record date for determining stockholders entitled to vote on the company's merger with Viacom from November 12 to November 17. The date was pushed back to accommodate the November 15 closing of CBS' merger with King World.
- Emmis has bought a 75 percent interest in "Radio 10" and "FM news" in Buenos Aires from Votionis S.A. The Argentine market has only 24 radio stations total, 12 AM and 12 FM... Cumulus Media is buying into the Jonesboro, AR market with the purchase of KFIN-FM; KIYS-FM; and KBTM-AM from Duke Broadcasting. The deal, pending FCC approval, is for \$26.5 million in cash... Boxing Promoter Don King says he's throwing his hat into the broadcasting ring. The flamboyant fight promoter mentioned he has offered \$4 billion to Clear Channel for 107 radio stations serving racial minorities during a television interview with Charlie Rose. The interview, which PBS aired November 8, also reveals King has asked for a letter of intent, but has not received one. King has also made mention of the possible buy on Howard Stern's radio show last week and during a recent episode of HBO's The Chris Rock Show. Clear Channel remains silent.

POPPER PLAYS THE BLUES: Blues Traveler frontman John Popper recently stopped by Mancow's Morning Madhouse to

talk about his first debut album, Zygote. Popper played four songs live on the air, including "Runaround." Shortly after the above picture was taken, Popper swallowed Mancow whole. (L-R): you figure it out.

Selling The Music

Music is what it's all about, right? Then make sure your station sounds excited and knowledgeable about music. People who are passionate about all kinds of new music are the heart and soul of Modern Rock, on both sides of the radio. This passion also drives an active interest in the details about the music and the artists. It's part of their entertainment needs. Yet so many stations don't deliver "the goods" by featuring exciting new music in entertaining and informative ways for their listeners.

Talk To Me

Announcers are one of the most important links between your station and your audience. Good announcers create a sense of community for the listener: Someone who shares their views and music tastes. Listeners view the announcer as the "visible" information and entertainment provider for the station.

So when announcers mispronounce the names of artists and songs, or if they are not knowledgeable about what's going on with new albums and concerts, they are not doing their jobs. And they sound pretty stupid to the listeners. It is every announcer's personal responsibility to find the materials and the time they need to stay on top of the music scene.

Announcers who are out of touch with the music, who don't get excited about what's new, who do not listen to the whole CD anymore, or read music papers, and go out to clubs and concerts, don't belong on a musicactive station. Passive, boring people make boring radio. Better to have someone who loves the music on the air, and teach them about radio.

Music News and Information

"Music credibility" is one of the images a new music-intensive station needs to establish with its audience. When listeners want to know about the latest new music, and what's happening in your town, your station should be the first place they think of going to. (And, of course, also your complementary Web page and Phone Info Service).

Are you covering the bases? Do you have features which appeal to the music intensive fan? Are your club, concert and event listings up to date and accurate? Are they available

throughout the station - reception, promotions, newsroom, etc.?

Music Factoids

Interesting facts and little stories about the artist or the song are entertaining to the music fan. One or two lines, well told, can become memorable, water-cooler chat. These can be done live, or incorporated into a produced liner leading into a relevant song.

Song Identification

Song identification is very important for the active Modern Rock listener. (Song ID is important to most radio listeners). Yet stations make it hard for listeners to find out the music information they want. New songs are buried in the middle of long sweeps and critical music information is thrown away by the DJs as they mechanically rattle through their breaks.

Generate interest in new songs by positioning your DJs either before or after each new song. The best place to put a brand new song is at the end of sweep, so when a listener hears a song they like, they can find out right away who it was. When your clocks call for the announcer leading into a new song, make sure your DJs are taking the time to put sell and sizzle into the set up.

Modern Rock radio is still the leading new music voice on the radio. Other formats have to play only those songs which "fit" their formats. Modern Rock radio can pick the newest songs of today that are so original that they don't fit any format - yet. When your station is the only station playing a certain song, make sure it is well identified, every time it is played.

How Many Songs in a Row?

When listeners say they want "more music," do they really want ten or twelve songs in a row? Definitely not! Long music sweeps make it very difficult for the listener to determine the names and titles of new songs. When research asks what would be the ideal number of songs in a row, the majority of listeners respond that four, five or six songs are the right number. In some cases the overwhelming demand is for three songs in a row.

What listeners really want is a good or reasonable balance between the music, talk

and commercial elements. That makes sense. They want a flow of music, but not so long a sweep that it becomes difficult to identify the music. They realize they are going to hear commercials, however they become irritated when they hear a long string of commercials.

Feature Shows

What better place to feature new music than on the radio? No amount of printed blurb can replace the sound of a new song, or the artist talking in the first person. There are several feature programs which have high appeal for the Modern Rock listener. They can deliver increased ratings, and command premium commercial pricing, in addition to branding your station as the music authority. News Music Magazine A magazine style radio show can include music news, interviews, live performances, flashbacks, in addition to club and concert information. Magazine shows take a lot of prep and must be hosted by people who have the passion and the skills to conduct meaningful interviews, and relay lots of information.

Club and Concert Listings A very sellable feature, this is a high interest information feature for Modern Rock listeners. Ideally the information should also be posted on the Web page and through an automated phone

Requests Requests allow for listener input, which is a still a big thing for radio fans.

Within programming outlines, requests can be handled as part of the mix or as special block features.

Countdown Shows A perennial favorite feature among all music radio listeners. Can be presented as a national syndicated feature, or produced as a local retail or request-based feature.

Flashbacks Favorite, format oldies are important songs for listeners. Flashback shows can run a few minutes to a few hours long. The national standard seems to be "Lunch Hour" features.

Metallica S & M Sampler Elektra/EEG

(www.metallica.com)

- Recorded live in April at Berkeley's Community Theater in San Francisco, this taste of the forthcoming S&M set shows a new side of Metallica.
- The group teamed with renowned composer Michael Kamen and The San Francisco Symphony Orchestra for this recording.
- They are slated to make another orchestral appearance in New York on November 23, the day the double-disc S&M hits stores. "Hero Of The Day" is the early favorite, with airplay on WFBQ, WRXL and two others.

Powerman 5000 "Nobody's Real" DreamWorks

(www.5000volt.com/PM5K)

- This follow-up is taken from Powerman 5000's Platinum album, Tonight The Stars Revolt.
- "When Worlds Collide" is a research-validated performer at many Active Rock stations.
- Currently winning over audiences opening for Kid Rock, the two bands will be touring through December.
- Already on KUPD, KXXR and KFMW.

Various Artists End Of Days Soundtrack Geffen

(www.end-of-days.com)

- While the first taste of Guns N' Roses in years has already given End Of Days a high profile, there's plenty of depth to the soundtrack.
- 102 stations are spinning "Oh My God."
- Other noteworthy songs on the album include new tunes from KoRn, Everlast, and Limp Bizkit as well as Powerman 5000's current single and a Rob Zombie track.

Various Artists WCW Mayhem: The Music Tommy Boy

(www.wcw.com/mayhemthemusic)

- Rock and wrestling both appeal to guys, and their synergy is the backstory here.
- Wrestling shows are consistently the highest-rated programs on cable TV.
- New music from Kid Rock and Slayer, plus a remix of Limp Bizkit's "Faith" and a live version of Metallica's "Seek And Destroy" are among the highlights of this cool compilation.
- KIBZ is currently banging the surprisingly accessible Slayer tune "Here Comes The Pain."

Everlast Today Tommy Boy

(www.tommyboy.com)

- This new EP features a remixed version of "Today," plus "Put Your Lights On" with Santana, and live versions of "What It's Like," House Of Pain's "Jump Around," and "Blues For X-mas."
- Everlast will be touring the south during November in support of this EP.

Marcy Playground "It's Saturday" Capitol

(www.marcyplayground.com)

- New single from the follow-up to last year's platinum debut album, which contained the smash hit "Sex And Candy."
- The band is offering a chance to download all the tracks from the new album, Shapeshifter, to everyone that pre-orders it online.
- "Saturday" is just as quirky and every bit as catchy as "Candy."
- WWDC, CFOX, WQAK, WBOP, KSEZ, KSUP, KPOI, WFRD are already on it.

Lynch Mob "World Spinning Away" KOCH

(www.georgelynch.com)

- Debut track from The Lynch Mob's third album, Smoke This.
- While George Lynch is best known as Dokken's original guitarist, this new album leaves his old work far behind.
- The group mixes elements of Rap and Metal on this current-sounding single.

Shootyz Groove "Mad For It" Kinetic/Reprise

(www.shootyzgroove.com)

- The new single from the group's fourth album, High Definition.
- On "Mad For It" Shootyz Groove blends Hip-Hop, Rock, Jazz, Reggae, and Funk.
- New Jersey-based producer Machine is credited by the band with the unique sound on this album.

Gary Cherone's short tenure as lead singer of Van Halen is over. The former Extreme singer lasted for one album, 1997's III. VH had been working on a new album with producer Danny Kortchmar (although Don Was and Patrick Leonard were also attached to the record at one point). A statement the band released reads as follows: "The members of Van Halen have announced that singer Gary Cherone is leaving the band. The band stressed that the departure was both mutual and amicable and they remain good friends. The band is currently working on it's next LP and

Van Halen

Cherone is pursuing new music ventures. The members of the band, Eddie Van Halen, Alex Van Halen and Michael Anthony, expressed their appreciation for Gary's work with the band and wished him well in his future endeavors. "I had a great time singing with the band and I wish Eddie, Alex and Michael all the best. I'll see 'em in Boston," said Cherone. Eddie Van Halen added, "Gary is a brother and he and I will continue to have a personal and musical relationship." Now that Cherone is gone, there's much conjecture regarding who will replace him at the mike stand. Sammy Hagar, who led the band from 1985-1997, has said that the only way he'd return to Van Halen is alongside their original frontman, the always outspoken David Lee Roth. Hagar envisions the dream tour as Roth playing for the first hour, Hagar playing for the second hour, and the two vocalists dueting with Van Halen to bring the show to a close. Roth, meanwhile, will be working with producer Ted Templeman (who produced Van Halen's first six records) for his next album.

Vedder Duets With Sarandon For Film

Eddie Vedder will be appearing on the soundtrack to the upcoming Tim Robbins movie, Cradle Will Rock, singing a duet with actress Susan Sarandon. Sonic Youth's Kim Gordon was originally considered for the song, which is a cover of composer Mark Blitzstein's song, "Croon Spoon." The song will play over the film's end credits. The soundtrack will be out on December 14, four days after the film, which stars Bill Murray and John Cusack, opens.

KoRn, Bizkit and More Lined-Up For Tribute Album

Strait Up is the name of an all-star tribute album coming out for Snot frontman Lynn Strait, who was killed in a car accident last December. After Strait's death, the rest of the band wrote nine tracks for a follow-up to 1997's Get Some. Helping bring the album to completion is a veritable who's who of Metal, with members of KoRn, Limp Bizkit, Coal Chamber, System Of A Down, Sugar Ray, Soulfly and Incubus lending a hand to the project.

The Eagles

have the best-selling album of the 20th century. *Their Greatest Hits* 1971-1975 has been certified by the RIAA as having sold 26 million copies since its release 22 years ago.

Guns N' Roses update: the band's new album, which hits stores next year, will be called *Chinese Democracy*.

Nine Inch Nails invited 100 London fans to see the final rehearsal before their European and U.K. tour last week. NIN's Web site, www.nin.com, notified fans of the opportunity, who were then directed to the label's office in London. In other NIN news, the Web site is giving fans a chance to win a trip to London to see the band's final show in the U.K. The trip for two will be picked randomly for the December1 concert. Winners will be notified via e-mail.

Also sending a pair of fans to a December show in England is Black Sabbath. The band is running a contest through their online store, www.ozzydirect.com, that will get one lucky winner a

trip for two, hotel accommodations, and V.I.P. passes for their December 22 show, which is supposedly Sabbath's last ever.

When looking at Marcy
Playground's new album,
Shapeshifter, the Butthole Surfers
smelled déjà vu instead of sex
and candy. The albums cover art,
which features an alien smoking a
peace pipe with an Indian, was
originally intended for use on a
Buttlhole album. Surfer guitarist
Paul Leary posted the following
on Marcy Playground's Web site:
"The cover art for this album is
based on my concept for the next

Butthole Surfers album - where 'Marcy Playground' is now, there was first 'Butthole Surfers' painted in log letters. This is truly pathetic and unoriginal, to have to take my idea and call it your own." Leary had apparently sketched the cover, which was intended for their new album, After The Astronaut, but lost the rights to it when the band left Capitol, which is Marcy Playground's current label. The cover was painted by artist Mark Ryden, and Playground singer John Wozniak claims that the label never told him where the

painting came from. After Wozniak claiming the band's innocence, Leary wrote back to the Web site, posting "I do not understand being in a band and making a record and not wanting to be involved with the concept for the package. But MP is a fine band."

KoRn's David Silvera, Poison's Bret Michaels, guitarist Dave Navarro, X's John Doe and Rick Springfield will be appearing on tomorrow's episode (13) of CBS' Martial Law. Silvera, Michaels, Navarro, and Doe play a group of fugitives that kidnap Arsenio Hall.

Sevendust will be joining
Metallica for nine dates of their
upcoming New Year's tour. The
Atlanta band, who has a Top 20
Rock track with "Denial," will be
opening for Metallica from
December 27 to January 9.

When the **Doors** tribute album comes out next year, don't look for Bush to appear on it. Contrary to earlier reports (*Music News*, 11/5), the band's label, Trauma, has put the kibosh on the Bush's cover of "Break On Through," citing a conflict between the timing of the album's release, which is due for early next year, and the just-released *The Science Of Things*.

Alice Cooper is returning to the silver screen for a role in an upcoming thriller, *The Attic Expeditions*. Cooper will be playing a mental patient in the independent movie. As you may remember, Cooper was in *Wayne's World*, had an uncredited part in *Freddy's Dead: The Final Nightmare*, and wrote the theme song for *Friday The 13th, VII.* Look for his new movie to open next Halloween.

Brian Setzer got the country into the Swing of things with *The Dirty Boogie* last year. Now the former Stray Cat is getting the Best Of treatment with the November 16 release of *The Brian Setzer Collection: 1981-1988*. The 18-track compilation will include six previously-unreleased tracks, comprising of a few Stray Cats songs and material from Setzer's solo albums.

Sugar Ray recently had a Hollywood club show cancelled by Marlboro, the show's sponsor. The show, which was "secret," and open only to non-discriminating smokers that had 200 Marlboro miles, was reportedly cancelled because singer Mark McGrath, a non-smoker, spoke disparagingly of tobacco companies at a separate Marlboro secret club gig in New York.

H-BLOCKX has suddenly found themselves on a Top 5 charting album. The German group's song "Oh Hell Yeah" appears on the WWF – The Music, Volume 4, and H-BLOCKX are the only artist appearing on the otherwise-instrumental album. The album sold over 200,000 copies in its first week. "Oh Hell Yeah," which is "Stone Cold" Steve Austin's theme song, will have a video shot for it this week, with Austin appearing in it.

Kid Rock's Devil Without A Cause has crossed the four million sold mark. The next single from the album will be "Only God Knows Why." The band's Between The Legs tour continues, and you can catch Kid in the following cities: 11/14 New Orleans, 11/15 Houston, 11/16 Austin, 11/18 Denver, 11/19 Salt Lake City, 11/21 Salem (OR), 11/22 Seattle, 11/24 Sacramento, 11/26 San Jose, 11/27-8 Hollywood, 12/1 Las Vegas, 11/2 Mesa, 11/4 Lubbock, 11/5 Dallas, 11/7 Kansas City, 11/9 Indianapolis, 11/10 Louisville.

Music News written by Bram Teitelman

The results of

an extensive, year-long survey carried out by HMV and Channel 4 to discover the Music Of The Millennium have been published. 600,000 votes were cast by the general public via voting forms at HMV stores, a dedicated Web site and telephone votes to Channel 4. And the winners are... the Beatles, not surprisingly, by a landslide in the Best Band of All Time category, distantly followed by Queen, the Rolling Stones, U2 and Oasis, and also comfortably in the Best Album section with Sergeant Pepper's Lonely Hearts Club Band, ahead of Michael Jackson's Thriller, their own Revolver, a real surprise at four in Elvis Presley's Aloha From Hawaii Via Satellite, and Nirvana's

Nevermind. The Most Influential Musician of All Time was won by John Lennon, followed by Elvis Presley, Michael Jackson, Jimi Hendrix and Paul McCartney, the Top 10 also including placings for Mozart and Bach. Lennon also won Best Songwriter, Queen's "Bohemian Rhapsody" was Best Song, Presley was Best Male Singer and Madonna Best Female. Best Jazz Musician was Louis Armstrong, Vivaldi's Four Seasons was Best Piece of Classical Music, and Mozart was voted Best Classical Composer.

Friends Again, the second album of music inspired by the hit comedy TV series, gets a U.K. release on Monday (15) and features such previously unreleased material as

Robbie Williams' version of the Pet Shop Boys' "I Wouldn't Normally Do This Kind Of Thing," Smash Mouth's "Every Word Means No" and Lisa Loeb's "Summer." As well as soundbites from various episodes, the album also features "Smelly Cat" by Lisa Kudrow in her role as frontwoman with Phoebe Buffay and the Hairballs, featuring the Pretenders and produced by Chrissie Hynde with Kevin Bright.

"Sun Hits The Sky" and "Strange

featuring a live version of "Mary"
recorded for Steve Lamacq's

Eighties Hard Rock phenoms, **Twisted Sister**, are the subject of a major overhaul of their catalog with Spitfire's exemplary new CD reissues of *Under The Blade*, *Come Out And Play*, *U Can't Stop Rock And Roll* and *Love Is For Suckers*. With Twisted Sister frontman Dee Snider as the band's focal point (a burly, evil clown-looking character with full-on Revlon make-up), Twisted Sister rose from their Long Island roots to superstardom in the mid-'80s with a succession of raw and vital Hard Rock classics as "We're Not Gonna Take It" and "You Can't Stop Rock And Roll". Each CD reissue has been digitally remastered, includes a generous bounty of bonus tracks plus full annotation. Also out via Spitfire is *Club Daze*, *Vol. 1 – The Studio Sessions*, a new CD comprising rare and previously unreleased Sister songs circa 1978-1981. Compiled by band members Jay Jay French and Mark Mendoza, *Club Daze* is a must for Sister fanatics.

KoRn To Address "Issues" At Harlem's Apollo Theater

The always unconventional KoRn is headed to Harlem. They will perform their new album, Issues, in its entirety and in sequence at the Apollo Theater on November 15. They'll be joined by a choir as well as the pipes and drums of the Police Department of the City of New York Emerald Society. Both the choir and back-up musicians will be conducted by acclaimed musical director Richard Gibbs. Gibbs has composed music for such films as Dr. Dolittle and Say Anything, and has worked with Robert Palmer, Chaka Khan and Aretha Franklin. The show will be broadcast globally on radio and be Webcast at www.korn.com starting at 10:00 p.m. Eastern time, 7:00 p.m. Pacific... There has been a change in Monday's (15) KoRn live broadcast from Apollo in New York City. As scheduled, the band will play live at 10:00p.m., but it be re-broadcast 9:00p.m.West Coast time, two hours later. For more information, contact your Epic rep. In other KoRn-related news, this year's version of the band's Family Values tour was more lucrative than the inaugural year. Billboard reports that this year's tour grossed \$10.6 million, as opposed to \$6.5 million for last year's tour. Metropolitan Entertainment Group's John Scher says that the tour will definitely happen next year. Look for a live album featuring this year's tour to be released on Interscope in the first quarter of next year.

Beck Plays Surprise Show In Southern California

Beck played a surprise show at the 600-seat galaxy theater in Santa Ana, California recently. The show was a warm-up before he begins touring for his new album, *Midnite Vultures*. It marked the third time in a row he played a surprise show at the venue when

he has a new album coming out. Backed by an eight-piece band, Beck played a handful of songs from the new album and closed the show with "Devils Haircut." Despite a five-minute ovation from fans, there was no encore. The only other show Beck has booked is December 3 in Philadelphia. Other dates will be announced shortly.

Pieces Fall Into Place For Queensryche

They didn't have a manager or a recording contract when 1999 began but somehow Queensryche knew it was going to be a good year. They had a new album finished. O2K, and one of Michael Wilton's prize guitars came back to him after being stolen five years ago. In the spring, the band signed with Ray Daniels who manages Rush and Van Halen. Queensryche signed with Atlantic Records and now Q2K is already closing in on the 100,000 mark in sales as they begin a tour. Queensryche began a tour November 1 in their hometown of Seattle after warm-up shows at The Joint in Las Vegas. "Falling Down" has just been released as the second single from Q2K and the band has North American shows booked through early December. A European tour will begin in February and be followed by a second U.S. tour, Japan and possibly festivals in Europe next summer. It's a welcome reversal of fortune for Queensryche, whose last record company, EMI, went out of business two weeks after they released their last album, leaving them to foot the bill for almost an entire national tour. That blow was followed by the departure of guitarist Chris De Garmo who was replaced by Kelly Gray, best known for producing the first two Candlebox albums. Along with "Silent Lucidity," other songs from previous albums and music from Q2K, Queensryche is also doing U2's "Bullet The Blue Sky" in their concerts.

Pete Townshend Opera Delayed

Farrell Hosts "Jubilee" Party; Helps S.F. Hearing Group

It has been said that nobody puts on a party like Perry Farrell and he lived up to that reputation recently at the Palace in Hollywood. The sold-out show was a celebration not only of his recent signing to Virgin Records, but a world celebration of the positivity with the coming of the new millennium. The multimedia extravaganza featured film projection, break dancers, fire dancers, Middle Eastern dancing, percussionists, light show and Farrell's own electronically-rooted, world influenced music which will highlight his new album, Diamond Jubilee, due in the spring. Rachel Hunter, Giovanni Rabisi, the Cult's Billy Duffy and Matt Sorum, and Tony Kanal from No Doubt were among the celebrity celebrants. Farrell next heads to San Francisco on November 20. where he will DJ at a fundraiser for Hearing Education and Awareness for Rockers H.E.A.R. The non-profit organization needs to raise money for legal costs to fight a continuing trademark lawsuit brought against them over rights to the Web site, www.hearnet.com.

Master P, STP, Rimes & Jackson Leave Bush In The Dust

Bush hit the chart at number 11 last week, the fifth highest debut, leaving it to Master P to shake up

the Top 5 by entering at number two, well behind Santana's Supernatural. Lou Bega edges out the Backstreet Boys for third place and Britney Spears remained at number five, where she's been encamped for the past month. Stone Temple Pilots made their debut at number six, just ahead of Creed, while Leann Rimes and Alan Jackson entered at numbers eight and nine and Limp Bizkit closed out the Top 10. Crosby, Stills, Nash and Young's Looking Forward debuted at number 26. Rob Zombie, whose Hellbilly Deluxe" is still on the chart at number 162 after 62 weeks, debuted at number 38 last week while Little Brother Spider remained a solid number 48 with Powerman 5000 after 16 weeks. Other debuts included Chico Debarge at number 41, Genesis' Greatest Hits at number 65 and Dream Theater at number 73. Best Man experienced a big drop off at the box office, but the soundtrack moves up to number 16 from number 30 three weeks ago. Live, Garth Brooks, Puff Daddy, Eric Clapton and Sting were all hovering in the 20s.

New Remix Of David Byrne Song For The Bachelor

A brand new remix of "Don't Fence Me In," which David Byrne originally recorded for the Red Hot + Blue AIDS benefit compilation opens the soundtrack for the new Chris O'Donnell -Renee Zellweger romantic comedy The Bachelor which opened last Friday (5). Although the movie also marks Mariah Carey's feature debut, she plays an opera singer and has nothing on the soundtrack. The movie is about a confirmed bachelor who has 24 hours to get married or lose a \$100 million inheritance. With that plot, it's easy to see how other songs fit in on the soundtrack, including Louis Prima's "Just A Gigolo / Ain't Got Nobody," "Your Love

The Beatles Displayed

The satin military jackets the Beatles wore on the cover of "Sgt. It will be the first time the jackets have been seen together in 30 years.

Strummer Opens Tour With New Band; Clash Profile Rises

The Clash's Joe Strummer is back on the road in the U.S. Clash's live album, From Here To Eternity, and a tribute, Burning London, are both out and Epic Records will release remastered versions of five Clash studio albums and three compilations in January. Shows on the 18-city tour Strummer kicked off in Seattle recently with his new band The Mescaleros feature their new album, Rock Art And The X-Ray Style, on Los Angeles-based Hellcat Records. Strummer sat out most of the '90s for legal reasons related to the Clash. He won't rule out a reunion simply because, he admits, "I never say never." He is on friendly terms with Mick Jones and Paul Simonon, but he says it would take more than a big paycheck to get them back together. "The only thing that would make it happen is if the four of us got some tunes together, started to hang out and had a reason to believe in each other," he explained. Strummer didn't know what to expect after a sneak preview of The Mescaleros in the U.S. last summer. He was prepared for the worst after not releasing an album in 10 years but

he was pleasantly surprised to find the response to his new music overwhelming. He's been so busy, he'll use any spare time on the road to "take stock" of the situation, something he's been unable to do until now. Strummer claims he didn't try to force the songs on the new record, which he made with Richard Norris of the British techno band the Grids and London session player Antony Genn. He explains, "Sometimes it's better not to think, to just let it come out the way it wanted." Strummer's North American tour ends November 24 Philadelphia. They'll be on the bill for the Big Day Out festivals in Australia in January and February.

Grace Slick Raises Money For Animal Rights

Grace Slick is raising money for her favorite cause, Animal Rights, by selling her mixed media drawings of Rock stars. Drawings of Jim Morrison, Jimi Hendrix and other icons will go on display November 20 at Bucky's Place in Tiburon, California, a plush animal gift shop.

James Taylor Rehearses For High School

100 students from a local high school watched James Taylor rehearse with the Dallas Symphony Monday afternoon (8) as part of the *Grammy Sessions* program. After the hour-long rehearsal there was an hour of questions and answers. Taylor concludes his orchestra tour at the end of this month.

Garbage Attend L.A. Premiere Of Bond Film

Members of Garbage flew in from East Coast tour dates Monday (8) for the Los Angeles premiere of *The World Is Not Enough*. To accommodate the hundreds of stars attending, the 007 film was screened at two theaters in Westwood. The 19th entry in the Bond franchise opens on November 19, the same day seven

of the previous films arrive in stores on DVD and Home Video. The Bond blitz also includes the Best Of Bond . . . James Bond CD, with all of the movie themes up to Sheryl Crow's "Tomorrow Never Dies." The CD was released last month.

Pet Shop Boys Share Their World On Rare Tour, Webcast

The Internet is a natural for the Pet Shop Boys who Webcast their weekend concert from the Riviera Theater in Chicago. The Pet Shop Boys are only on their second U.S. tour in the 13 years since they released their debut album even though they've toured more frequently elsewhere. They canceled their first world tour right after their first number one record, "West End Girls," because the extravaganza was too costly to take on the road. Their only previous U.S. tour was in 1991. Neil Tennant has long wanted to have a permanent production running in London but until then, they'll have to content themselves with limited tours and Webcasts. The shows in the U.S. are the first part of a tour that will take them to Germany, the Czech Republic, Britain and Ireland before Christmas. The modular production was designed by architect Zaha Hadid. Tennant and partner Chris Lowe turned to British theater designer Ian McNeil for wardrobe consultation. Although they are wearing jacket and tie on the cover of their just released album, Nightlife, they are now sporting a slightly samurai look, big trousers inspired by Japanese Samurai warriors, kabuki eyebrows and orange hair. Explains Tennant: "We've always liked to dress up through the years. We feel that Rock music is going through such a conventional stage at the moment. It's boring. Look at people like Oasis and the Chemical Brothers. Everyone wants to look like a normal person lately." Tennant says for them,

"The crazier the better." "The more we look like we come from another planet, the better," he said. "Rather than belonging in the world of Pop we belong to the Pet Shop Boys own world."

Errico Sees "Daylight" With New CD, Woodstock, Tour

No one is more surprised at the turn of events in his life than New York-based singer-songwriter Mike Errico. He is currently on tour with Rusted Root singer Michael Glabicki following the release of his major label debut, Pictures Of The Big Vacation, and a performance at Woodstock '99. In the summer of 1998, Errico had given up on getting a recording contract. By then he had already released two CDs and he had decided to follow the example of Ani Di Franco and start his own company, hopefully becoming as successful as her Righteous Babe Records. Instead, he was invited to perform a showcase for the now defunct Internet label N2K Records which was considering signing him. Instead, after that show came an offer from Hybrid Recordings which is distributed by Epic. Since the label was formed by the company behind Woodstock, they also gave Errico a slot on the second stage at the festival. Friends of friends helped arrange the Glabicki tour, which continues through November 16 in Philadelphia. "I didn't really know Rusted Root very well," says Errico, "but the tour has been great. I think our music really complements each other." The two perform solo. Errico's songs are filled with humor drawn from life's little tricks. The first emphasis track, "Daylight," was written after he played to a hostile crowd while his ex-girlfriend and her new med-student boyfriend were in the audience. "In one form or another, it's something that everyone's been through," he says. "It's so cool to have people tell me, 'l could have written you a couple verses for that one."

Live @ Bob's Garage Volume 1, is the new CD from KISW/Seattle morning man Bob Rivers. The CD is a compilation of songs recorded live at Rivers' home studio over the past seven years. Featured material includes Queensryche Lucidity," Candlebox Behind," Tonic "Open Up Your Eyes," Filter "Hey Man, Nice Shot," Brother Cane "And Fools Shine On," among others. Rivers came up with the idea of bands performing

live from his house when MTV began their Unplugged series. "MTV Unplugged had a certain amount of cool, but it was basically watereddown acoustic versions of great artists that they could package and resell," Rivers told The Inside Track. "At Bob's Garage we wanted pluggedin!" The CD is available for \$15 at all Puget Sound Car Toys locations, with proceeds benefiting the Wilderness Society. Liner notes, written by Rivers himself, set the stage for some great moments... Speaking of garages, Q107/Toronto is giving away the ultimate prize for guys - The Q107 Ultimate Garage! For the past two months listeners have called in to qualify whenever they heard "the nagging wife" on Q107. On Saturday (11/14) one manly man will score the Ultimate Garage: A brand new Camaro Z28 sports car, Chevy S10 pick-up truck, Kawasaki Drifter motorcycle, big screen TV and satellite system, a sports trip with the guys to Miami to go golfing and catch NFL and NHL action, brand new set of top of the line golf clubs, a golf and ski membership, complete snow board package, a freezer full of meat, pool table, industrial power tools, beer fridge, tickets to every Toronto Maple Leaf and Buffalo Bills home game, a home computer (for porn, of course), a BBQ - and more!... Milwaukee's WLZR is fighting hunger two ways. With a Not So Silent Night Christmas Show starring Bush, Days of the New, and Buckcherry, December 3 at The Rave. And with Lazer's 103 Hour Block To Rock Hunger. That's when afternoon driver Craig "Killer" Kilpatrick lives in a trailer for 103 hours while people drop off food donations at his trailer and at other locations around Beertown... WAAF/Boston morning hosts Greg Hill and Lyndon Byars are doing their parts to erase world hunger. Their annual Walk for Change has Hill walking from Worcester to Boston and Byars shuffling from Rhode Island to Boston. The pair walks for four days, collecting spare change along the route for Greater Boston Food Banks. Oh yeah, and broadcasting live. Last year they collected \$50,000 and numerous calluses... KUFO OM Dave Numme seeks your assistance in helping emotionally and physically abused children. To donate Rock memorabilia to the 'UFO's Rockathon For Kids charity auction, contact Numme at (503) 222-1011. All items must be received by November 24. Rockathon benefits Portland's Parry Center... Megadeth, doubleDrive, and Billionaire will play WXTM's Triple X-Mas, December 11 at St. Louis' American Theater...Instead of doing a big Thanksgiving promotion, WTKX/Pensacola is focusing on the day after Turkey Day. Their TK Takes Manhattan promotion will find a lucky winner squired off to New York City for Black Friday, the biggest shopping day of the year. The station will pick-up airfare to New York, accommodations at the Parker Meridian hotel, and \$1,000 for a shopping spree in the city that never sleeps. They're also throwing-in a pair of tickets to see Filter and Drain STH at the Hammerstein Ballroom that evening. All qualifiers will win the latest discs from both bands. The grand prizewinner will be announced on the morning show on November 19.

"TAKE A PICTURE" (REPRISE)

From the album Title Of Record,
Filter's smash-to-be, "Take A
Picture," begins developing at
Progressive Adult Radio. If your station is on-the-fence about spinning
this band, have a look at who's on
board already: WXRT, KMMS and
KNBA add the track this report,
joining a budding cume that

includes KKZN (24x), WRLT (18x), KROK (15x), KFXJ (11x), and KRSH (7x). Like Sugar Ray, Goo Goo Dolls and Moby before them, Filter's "Take A Picture," like "Fly," "Name" and "Porcelain" respectively, will convert them into darlings of Adult Radio. Don't miss out on this amazing track.

PICKS

Singles/EPs

ALANIS MORISSETTE "THAT I WOULD BE GOOD" (MAVERICK)

This track (cut one on the single) will be available on Morissette's MTV Unplugged release. The version from her latest album, *Supposed Former Infatuation Junkie*, is included as track two on the single. Just for grins and giggles, track them both in-a-row. Alanis Morissette's live performance is very true to the studio recording.

Albums

ANI DIFRANCO TO THE TEETH (RIGHTEOUS BABE)

Righteous Babe has been "folking you up since 1990," and that tradition will continue with *To The Teeth*, the most recent offering from head Babe, Ani DiFranco. Believe it

or not, this is DiFranco's thirteenth album since 1990 (her last, *Up Up Up Up Up Up,* spent 22 weeks on our charts!). For airplay consideration, be sure to spend some time with "Wish I May," "Providence" (featuring the guy we still call Prince even though his name is just a symbol now), "Back Back Back," "The Arrivals Gate," and "Swing."

FIONA APPLE WHEN THE PAWN... (CLEAN SLATE/EPIC)

For her sophomore outing, Fiona Apple gets creative all over us. We should have expected it when "Fast As You Can" had three different textures going on within it.

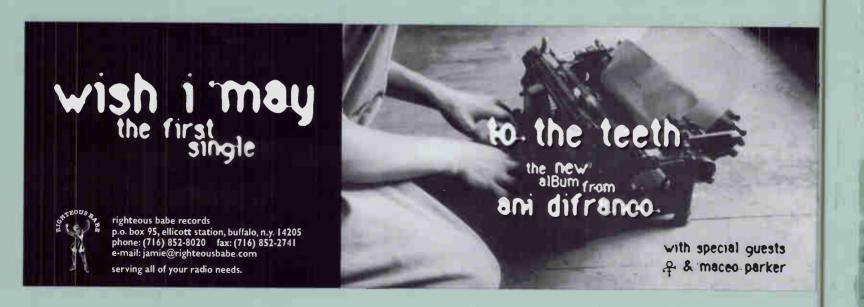

You'll find more of the same on the other nine tracks on *When The Pawn*... (you can't expect us to type the whole thing more than once). Watch for language on "The Way Things Are" and "Get Gone." Try "Paper Bag," "On The Bound," "To Your Love," and "I Know."

MÁIRE BRENNAN WHISPER TO THE WILD WATER (WORD/EPIC)

For stations that find great success with Clannad, Enya, and other similar Gaelic atmospherics, Máire Brennan's latest effort will no doubt find a warm welcome. Whisper

To The Wild Water is the perfect CD to put on during a lazy Sunday morning while slurping cappuccino and reading the paper while wrapped in your favorite comforter. We submit these suggestions for your listening pleasure: ""Follow The Word," "To The Water," "Mary Of The Gaels," "Sign From The Hills," and the title-track.

Albums

HOBEX BACK IN THE 90s (SLASH/LONDON)

Hobex (featuring vocalist/guitarist Greg Humphreys, formerly of Dillon Fence) are a Chapel Hill, North Carolina (a.k.a. Hootietown) trio that has been together for three years. Their major label debut, *Back In The '90s*, is actually a rerelease (it was originally distributed independently on the band's own label) with remixes and a new

track. We're fans of "Windows," the very groovy "The Love That's...," "Solaar," "Onto Something," the timely title-track (sounds like Steely Dan!), and "My Moonshine."

VARIOUS ARTISTS REFUGE: A BENEFIT FOR THE PEOPLE OF KOSOVA (THE ORCHARD)

A great CD for a worthwhile cause, Refuge: A Benefit For The People Of Kosova is only available for sale on the Internet at www.theorchard.com.
Featuring tracks from Jennifer Kimball, Freedy Johnston, The Wild Colonials, Richard Julian, Toshi Reagon, Cry Cry Cry, members of October Project and Melanie Gabriel (daughter of Peter).

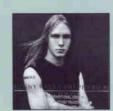

90 percent of the proceeds from this CD will be donated to the Kosova Relief Fund. For information, contact Jon Flanagan at (800) 858-6650.

Emphasis Tracks

LIVE "THE DOLPHIN'S CRY" (RADIOACTIVE)

In case you missed it, there are three radio mixes on the latest CD-Pro of this track, from Live's third long-player, *The Distance To Here*.

KENNY WAYNE SHEP-HERD BAND "LAST GOODBYE" (GIANT/REPRISE)

Here's a single from Shepherd's latest that the format can embrace without reservation. It has a gentler texture than the Rock single.

LINDA RONSTADT & EMMYLOU HARRIS "FOR A DANCER" (ELEKTRA/EEG)

From Western Wall: The Tucson Sessions, this rendition of Jackson Browne's "For A Dancer" should be an instant favorite of the format.

CAKE "YOU TURN THE SCREWS" (CAPRICORN)

From Prolonging The Magic, "You Turn The Screws" is the next track from the quirky Cake. Capricorn has included two live tracks for your listening pleasure.

TRAIN "I AM" (AWARE/COLUMBIA/CRG)

The latest from AWARE/Columbia's findof-the-year, Train, is "I Am." This is a total nobrainer. Don't be stupid, play it often.

Bela Fleck And The Flecktones return to thrill us with the timely Greatest Hits

Of The 20th Century. Included are tracks that will wipe all traces of Deliverence-type banjo-playing from your mind. We particularly like "Sex In A Pan," "Sinister Minister," "Stomping Grounds," and two new tunes: "Shocktime" and "Road House Blues." Don't have it? Call Jen Polenzani at the dubya B at (818) 953-3395.

AWARE has done it again with AWARE SEVEN The Compilation. This disc features promising artists and bands that you may

have never heard before and some that we've heard and championed in the past

(sometimes on a regional basis). Listen to: Porcelain, The Josh Joplin Band, Gus, Big Atomic, Kitty, The Gufs, Five For Fighting, Shannon Worrell, and a whole bunch of other promising newcomers. For service, call Mark Cunningham at (312) 226-6335.

U Don't Know What Time It Is (Ruf), the new album from Trudy Lynn, is funky Blues with a great danceable beat. Lucky Peterson and Bernard Allison both appear on this stellar Soul/Blues album. Check out: "Help Me Through The Day," "Time Gone By," "Time Is Running Out" and "Heart Of Stone."

The group davis waits blends Popstyle melodies with elements of Americana

and Active Rock on the evolution of... (Underhill). The Neil Young, Tom Petty, Phish-vibe is abundant. "My Dear Kate," "Fall Like I Fall," "Salvation #10," "Better Days," and "Murder In The

Brickyard" are all great places to start. Contact Karen Lee at (323) 953-4600.

The new album from Buena Vista Social Club alumnus Compay Segundo is

simply fantastic. The man is amazing, and on *Calle Salud* (Nonesuch) the lilting harmonies and beautiful melodies will stay with you and your audience long after the songs are over: "Amore Gigante," "Maria En La Playa," "Versos Para Ti," "Morir De Amor," and "Lagrimas Negras."

Foo Fighters, "Learn To Fly" (Roswell/RCA) The first single from everyone's favorite album, *There Is Nothing Left To Lose*, maintains it strangle-hold on the number one position on the chart this week. Up 98 spins from last week, "Learn To Fly" amassed an impressive 3355 spins on 98 *finqb* Modern Rock stations.

Primus, "Electric Uncle Sam" (Interscope) Many feel that this is the band's most radiofriendly track to-date. 27 finqb Modern Rock stations have followed through on their belief that "Electric Uncle Sam" has real hit potential by adding the record. Taken from their latest release, Antipop. Our number two Most Added track this week. On at KXRK, Y107, WXDX, KXTE, and new at WFNX, WJSE, KEDJ, KNDD, KPNT, KRZQ, WBRU, WEDG, and WKRL.

Splender, "Monotone" (C2/CRG) 14 stations added this track from their debut, Halfway Down From The Sky, making it our #3 Most Added song. "Monotone" is a terrific Rock song that will fit into any daypart. Make room for it, it's one of the more obvious choices among new artists. New at WJSE, KHLR, KRAD, KTCL, WARQ, WHMP, WHRL, WKRL, WPLA, and WXSR.

Cake, "You Turn The Screws" (Capricorn) Week-by-week, this track makes believers out of people and shines through the plethora of new releases popping up in music meetings. Be sure to give this one ample consideration. Cake is a band that has a reputation for cranking-out very solid, researchable records. New at KNRK, WEQX, KNRQ, WPLA, and 91X.

Third Eye Blind, "Anything" (Elektra/EEG) The first single from their sophomore set, *Blue*, collected another eight adds this week, bringing the grand total to 65 stations and 965 spins (chart debut at 28*). Look for this track to move up the charts fast and generate a lot of interest in the coming weeks. New at WPLY, CFNY, WPGU, KDGE, WIXO, WRAX, and WZPC.

R.E.M., "The Great Beyond" (Warner Bros.) Two straight weeks in the Most Added column (number one this week), puts R.E.M. right back among today's Modern Rock elite. This is a beautiful, dazzling song that will re-kindle your love for one of the format's greatest acts. Prominently featured in the new Jim Carrey-Andy Kaufmann bio-pic, Man On The Moon. New this week at WHFS, WXEG, WXNR, KXRK, WGRD, Q101, WPLA, and WPLY, just to name a few.

Owsley, "I'm Alright" (Giant) A song this good is unlikely to go away. If you haven't dealt with this track yet, you need to revisit it right away. It's a great Rock song that is neither too Poppy nor too hard. In all honesty, it's a perfect fit for the format. New this week at 91X, KNRK, WEEO, WGMR, and WMAD. On at WEJE, WDST, WHMP, WMRQ, WZPC, WWCD, and WFNX.

Vertical Horizon, "Everything You Want" (RCA) Their follow-up to "We Are" is making excellent strides, garnering hefty spins from such prestigious Modern Rock outlets as WPLY, WGRD, KXRK, WRAX, and WFNX. It has everything you could ask for in a hit record: soaring harmonies, a giant hook and a low-burn factor.

Gay Dad, "Joy" (London) Britain's latest import has been praised by NME, Melody Maker and Select as one of the up-and-coming bands of the new year. "Joy" is a terrific futuristic Pop song with teeth. Give it a good look this week. New at KHLR, KNRQ, KRAD, KRZQ, WARQ, and Q101.

Methods Of Mayhem, "Get Naked" (MCA) Don't let Mr. Lee's musical resume scare you away, this fresh new project sounds right at home next to some of today's hottest Modern Rock sounds. Besides, anything with Fred Durst is pretty much a guaranteed winner. A huge week with adds at KDGE, KROQ, WBRU, WMRQ, WFNX, and WROX. On at WXRK, WBCN. KEDJ, and 99X.

A popular pick in *Insider Trading* over the past few weeks, PM 5000's follow-up to

their breakthrough hit, "When Worlds Collide" looks to take **Spider Zombie** & Co. to the next level. Look for increased sales and requests if you play this record. It's enormous hook and Marilyn Manson-meets-White Zombie feel should make it hit in no time. New at WEJE, KFMA, KNDD, KXPK, and KXTE.

JACT-UP!

By Mike Bacon

Hailing from merry old England, this foursome has methodically laid the groundwork for success in the States. Their self-titled debut album has drawn raves on both sides of the pond, and their live shows have dropped jaws from coast-to-coast. While their second single, "Future's Gone," impacts radio this week, we thought we'd take this opportunity to give you a closer look at the band and their frontman, ex-Pusherman vocalist Andy Frank.

What are the differences between Pusherman and this band, sonically and attitude-wise?

Pusherman would never have gotten played on the radio, and we weren't willing to compromise to the point where we would. The sentiments of Jact's songs are just as heavy. The sound is a lot more pleasing to the ear, and it's a lot hookier. It's a perfect radio album.

You've written all the lyrics, all the songs?

Well, I'd say about 70 percent and Ted [Hutt, guitarist] put in the other 30 percent.

Other than the first two singles, what are some of your other favorites on the album?

The ones that went down really well live were "Sweet Charity," "Heaven," and "Your Head's On Wrong," which goes down great every time. When we talk to people after they hear the album, a lot of them would say, "Well, there's thirteen songs and ten of them are Top 10 singles." It really is a singles album.

What has the vibe of the band been like among the British press and the British music scene?

We've sent some friends and journalists copies of the album and they're all raving about it, so it's going great in England. I'm gonna stay in the States for a bit, I don't really want to go back to England at the moment. I don't want to back and just blow it, 'cause if you go back to England you're Flavor-Of-The-Month for a month, and then they're looking for the next thing and trash you in the process. I'm just sick of seeing that. There are so many great bands in Britain, but they just don't get looked at because they're not wearing the right training

shoes or something.
It's all about style.
It's a real breath of fresh air to be over here and play music to crowds who actually love to hear music, and they're not going to judge you on what clothes you're wearing.

What are you're impressions of the music business in America so far?

In any corporate structure, you're gonna find some people who aren't doing it just for the nine-to-five career, they're doing it because they love doing it. Everyone gets into things initially because they have a passion for that thing. I know people who've been in the record business and radio business for years, and some of them do truly love music. Others are there because they truly love kissin' ass, and you figure out which ones are which.

What has your experience been with your new label, Trauma Records?

It's been great. Basically they haven't got that major label structure. They're reasonably small. Obviously, they're affiliated to a major distribution network, but they're pretty hands-on. You get to know everyone in the company by name, and everyone there doesn't seem to be on the nine-to-five. They seem to genuinely know which songs they like. I've been signed to labels before where you've got some guy in a suit telling you what he loves in music. You ask him what his favorite song on the record is, and he's like "uh, uh, uh..." Obviously, we've had disagreements [with Trauma], and I'm sure we'll have a lot more, but on the whole, they let you get on pretty much with what you want to get on with. If they see some area where they don't think you'll maximize in your case, they'll tell you. They've given me advice that I've decided to take or not take, and generally, the advice they give me has been strong. They really are nice people.

Showtime: The spring/summer festival season came to a close this past Sunday (11/7) with the WPBZ/West Palm Beach Buzz Bake Sale. "The sold-out crowd stayed all night long and it was a mob scene from start to finish," WPBZ PD John O'Connell told fingb. "The Buzz Bake Sale is always a great show. We work with a great venue and production company. Our promotion staff is unbelievably prepared. It's just great for everyone involved." O'Connell said highlights were Kid Rock, Kottonmouth Kings, Staind, Jimmie's Chicken Shack, Local H, Marvelous 3, and Sheila Divine. "Powerman 5000 said that it was the best show they ever played and their label people backed that statement up," said O'Connell. Now with the Bake Sale over, its time to turn our heads toward the upcoming holiday festival season. Look in next week's fingb for a detailed account of upcoming shows.

Radioheads: It's a rare occasion when KROQ/Los Angeles lets an artist takeover the airwaves of the station. Well, it just happened again recently when Bush's Gavin, Dave, Robin, and Nigel gained

Bush's Robin Goodrich and Gavin Rossdale with KROQ's Stryker.

control on November 2. The band hit the airwaves at 6pm and played some rare Bush recordings, along with other tracks. In other KROQ news, you can find a great Jed the Fish interview with Trent Reznor on the station's Web site (www.kroq.com).

Woodstock Rocks:

WDST/Woodstock managed to get Natalie Merchant to do a rare acoustic performance recently (11/6). The occasion was WDST's 2nd Annual Concert to Benefit Breast Cancer. The sold-out show raised over \$20,000 for the cause, with proceeds going to the Fern Feldman-Anolick Breast Center and the National Alliance of Breast Cancer Organizations.

End On-Line: Little-by-little the walls are coming down and we can listen to almost every station in the format on-line. The latest station to break the Webcast barrier is KNDD/Seattle. Not only is the station available on-line (www.kndd.com), but an archive of interviews with artists that pass through The End can be found as well. All this new activity means The End will soon debut a new look to the site, but everything is up and running as of now.

The Buzz and Mindspring's "Wide World of Buzz" Fantasy Sports Giveaway: KTBZ/Houston recently gave listeners the chance to win trips to a number of major sporting events. The destinations included the Kentucky Derby, the Stanley Cup, the NBA Championships, the Super Bowl, The Sydney Olympics, the NBA All-Star Game, and the NCAA Final Four. Every weekday, listeners were given clues as to which sporting event trip was being given away, and when the cue was given to call-in, listener 25 (with the correct answer) was sent on that trip.

Live 105's Rage Page

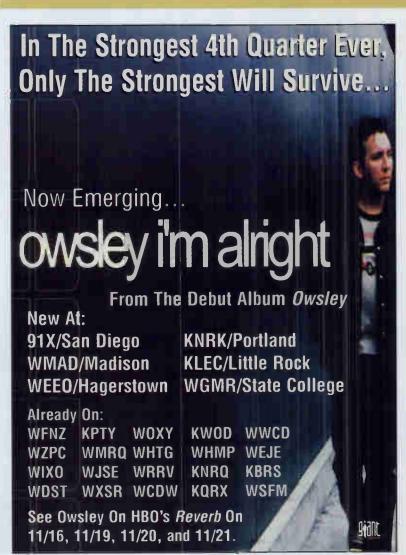

Live 105/San Francisco is airing a very hip, ingenious contest that asks listeners to call-in or register on the station's Web site, www.Live105.com, for a chance to win their own Rage Against The Machine page on their Web site. One lucky listener will receive a digital camera and photo pit passes to the November 19 Rage show at the Oakland Arena. The winner will then capture their digitized memories of the show and submit them to the station to be posted on their very own page.

91X's Resurrection Relief 1999

91X/San Diego has teamed up with the San Diego Food Bank to produce the 2nd annual "Resurrection Relief Weekend" (running Friday, November 12 through Sunday, November 14). 91X turned over the airwaves to Resurrection Relief host and 91X personality Steve West, who played the classic 91X music that the listeners grew up with. His marathon stretch of retro/request broadcasting helped 91X raise food for the San Diego Food Bank for the upcoming holiday season. Last year, 91X's Steve West was on the airwaves for 52 hours straight and the 91X Resurrection Relief Weekend raised over 9,100 pounds of food. This year the station looks to raise 20,000 pounds of food during the same 52 hour time period. 91X listeners were be able to make food donations of non-perishable items to any one of the designated drop points, such as the North County Fair Shopping Mall, Snow Jam at the Del Mar Fairgrounds and the San Diego Sports Arena on Saturday night prior to the Gulls game. The 91X studios also served as a 24-hour drop off point for the weekend.

TRADE SHOTS

ROCKLINE CELEBRATES 1,000!: AMFM Radio Networks recently celebrated the 1,000th broadcast of their show Rockline, with special guest David Bowie, at the Museum of Television and Radio in New York. (L-R): AMFM Senior VP Of Affiliate Marketing Karen Childress; AMFM Houston's Michael Hughes; consultant Alex DeMers; and WFBQ/Indianapolis PD Marty Bender.

CREED ROCKS PHILLY: WYSP/Philadelphia welcomed Creed to the Spectrum, and naturally did the hang thing afterward. And of course when you're in Philly, it's always important to support the Flyers, so the band donned some team jerseys. Pictured (L-R): Wind up's Joanne Grand; BMG's Dina Ciotti; Creed's Brian; WYSP MD Nancy Palumbo; Creed's Scott; WYSP PD Neal Mirsky; Creed's Scott and Mark; and Wind up's Drew.

WAKIN' UP WITH THE WOLF AND THE BADLEES: WPYX/Albany hosted their annual "Halloween Big Breakfast" with over 1,400 listeners. The Badlees performed live, and PYX 106 gave away \$1,000 for best costume, a 1980 Cadillac Hearse, and a New Year's Eve trip for two to see ZZ Top. Pictured with the Badlees, that's PYX 106 Morning host Bob Wolf (first on left) and co-host John Mulrooney (fourth from left).

A FEW OUTKASTS: P.O.D. recently stopped by KRXQ/Sacramento before their show at Big Shots in Roseville. Pictured with the band, it's KRXQ MD Kylee Brooks (in baseball cap).

Most of the people who work this area know the competitive situation and won't give an advantage to one person or another. They let us work it out ourselves. I know there are problems in other areas, but in Syracuse there's rarely a show that we have to fight over. If there's something in town, we'll broadcast live from outside of it, and do interviews with the bands when we can. There isn't a duke-itout type thing going on.

Have you had to readjust the music that you play over the last couple of years because of K-Rock

If you don't readjus your music you sound stale, no matter what It's more a reflection of what music is out there right now; what music is on the charts. It's like building a little bit of give into a suspension bridge, otherwise it'll snap when the wind blows. We'll lean a little bit one way or the other, depending on the musical environment. TK99 doesn't play anything new from Classic artists. They've got a certain time frame that they're dealing with, and that's not going to change. They have a softer sound. On the other hand, K-Rock is a Modern Rock and their music is reflective of whatever is out there. We keep an eye on them a little bit more because their music changes, whereas TK's doesn't. Our eyes are more focused on what music is out there and what our audience perceives we should be playing. We concentrate on Rock, whether it's Metallica, Creed, or Stone Temple Pilots. Plus, there's plenty of new releases by artists exclusive to our station like Kenny Wayne Shepherd, Def Leppard, ZZ Top, and new comers like Shannon Curfman and Indigenous. We still try to maintain a position as a mainstream Rock station, and, when that means changing the amount of currents or picking the right artists, we're going to stand behind the statement: "If Rocks, It's On 95X." Just because a band comes out with something, and everyone else is playing it, if it's not a Rock song, we might not be playing it if it doesn't fit the parameters of what we've defined the station

Who do you perceive your audience to be?

Men! Men! They're manly men! Our core is 25-34. If we oleed upward from there, all the better. Below that is gravy. That's the bullseye, and the music has to reflect that We're going to lose some people who move out of that. We're not going to be playing the Beatles, the Kinks, a lot of music from the '60s and early '70s. We are going to be playing stuff that rocks that those guys can identify with. In this part of the country some weird things take place. Syracuse is one of the bigger test markets, very blue-collar. It's still very guitar-driven and there's a very big Blues element. It's almost like a pocket of Southern Rock and Blues still persists around here. We can play a lot of different Blues artists that other stations might not be able to get away with while trying to play some of the more Modern Rock stuff. We can be playing Creed, Foo Fighters, Days of the New and Godsmack, and still be playing Kenny Wayne Shepherd, Jonny Lang, Stevie Ray Vaughn, and Lynyrd Skynyrd.

In this age of consolidation, we hear the names CBS, Clear Channel, and AMFM. Tell us about Pilot Communications.

It started with Jim Leven, who is a pilot, hence the name. When he bought 95X we were a stand-alone; eventually we picked up 93Q, WNSS and then Lite 105. From there it has expanded. Pilot Communications eventually bought eight stations in Maine, and picked up WIII-FM [I-100] in Cortland/Ithaca. Then, Broadcasting

Partners became involved, so we're a member of that umbrella as well. We're still autonomous as far as running our radio stations. People in this building help to voice-track some of the dayparts in some of other stations outside of Syracuse. I can be on-the-air in middays here and 7 to Midnight in Cortland/Ithaca on I-

100. [APD] Alexis can

be on middays in

Cortland/Ithaca and nights at a Country station in Maine. It's just the tip of the iceberg. We use Scott Systems for our voice tracks. It works great. Pilot Communications was trying to be ahead of the curve by getting in on this a few years back. Everything is on the hard drive. We can get a song, load it in, and through the hard drive it'll be on the air. We can take it off a DGS and put it on the air in minutes. It's an easy system to work through Selector. We do Selector and then merge with the traffic log and shoot it right into the studio. We've had very few problems with it; it's very easy to work with. It's a radio-friendly system. It's so easy to use that it's scary. I used to deal with turntables and then CD players that were home models, where the tray comes back and forth and back and forth until it finally broke. Then we moved to Denons; those were good players too. We were always moving up, and this is the next logical step. It's a good place to be right now. (Editor's Note: Late last month, and after this interview was conducted, Citadel Communications announced it was buying 36 stations in 11 markets from Broadcast Partners, including WAQX - fmqb 10/29.)

From the early days...Dave "The Mascot."

Can you name the PDs you've worked for in the

Is this a test? Ted Utz, who hired me. Ed Levine, now one of the owners of our competitors, TK99 and K-Rock. Lorraine Rapp Amy Dahlman, Simon Jefferies, Jim Crowe, Jon Robbins, Steve Brill, and John McCrae. I was fortunate enough to work for a varied group of programmers without ever having to leave town.

Balancing his new PD chores with middays is a breeze! After 20 years at the same station, it might seem obvious why you thought you were qualified to be the PD. Why did you want this job? I've heard that when it comes to PDs, there's a lot of "C" students out there. Well, as a Phys.Ed.

major, I was at least a "C+" and that included a lot of lost weekends. The more I got into radio, I saw what other people were doing, what worked and what didn't. Even though you're in Market #70, it doesn't mean you're stuck in a small town shut off from what else is going on.

Between trade magazines, networking, the computer and consultants, I have the same resources as anybody else. I can hear what other stations are doing. I have observed successful stations and businesses. And with the wealth of experience from living in this area and going to bars, clubs, concerts whether it's a sporting event at the Carrier Dome, a concert, or PTA meeting, getting an idea of what people around here are like; what people listen to, what promotions work, what kind don't, - I'll use that to continue to make 95X a success. Some people aspire to be air personalities and they put all their efforts into that. I never thought I was great being on the air; I'm just consistent and I have fun doing it. I thought I might be better as the player/coach; to hear what a radio station sounded like and be able to put that out over the air. To help guide and direct a creative environment. That's the push behind it. Radio still works; it can be very entertaining and effective, a viable link for people. It can also be very profitable. I want to take what I've learned and what I've seen and heard and merge that together and make this station as big as it can be.

How are you juggling the new PD duties and holding down the midday shift?

It's something that I've been working towards. As an APD, both Jon Robbins and John McCrae kept me very involved with what was going on. If they went on vacation we didn't miss a beat. I've been Interim PD four times. I was always involved with what the station was doing, not just on the sidelines taking orders and doing busy work. I get in at 8:30 -9:00a, and I'm not on the air until 11:00a because I'm continued on page 58

on after Howard Stem. I can get a lot of things done early in the day, I get off at 2:00p, so I can get a lot of things done at the end of the day too. I do miss power lunches, which I don't really need cause I never had them in the first place (laughs). I've run Selector for a long time as MD, and I have a great relationship with most of the record companies because the people have worked with me for ten years. And, I've got a great support staff. Alexis totally understands the system and handles the things I don't have time for. Our afternoon driver, Roger McCue is a total pro. Our Promotions Director, Janice Gaworecki, is one of the best in the business. Tom Mitchell is Operations Manager and helps me from another end with his experience and I've got solid resources from Jacobs Media. I've got a good staff to work with, and it's not hard juggling all the things right now.

What has Howard Stern done for the radio station? He's reversed the way things had been. Prior to his arr val, we had probably as many morning shows as PDs. Some worked better than others; some were good but never great (they did what they had to do). It always seemed that other dayparts out-performed morning drive, which obviously isn't the ideal. When Howard came in, it made the station bigger. We wanted to have a big market station in a small market. You can't get bigger than Howard Stern in the morning. Luckily, Paul Turner was our station voice prior to us signing on with Stern and he does Howard's show, so we have an extra measure of continuity. Now our goal is to continue to hold onto as many people as we can coming out of Howard. It automatically gave us huge Men numbers in the morning. Now we can try and cross-promote the rest of the radio station during that daypart with that audience hearing about things we're doing and giving reasons for them to listen later, that we didn't have before. It's opened the door to help promote the radio station for the rest of the day. The only thing we lose is wacky morning show bits that are localized, but the tradeoff is not even

How has the station evolved over the years you've been there?

When we started we were playing everything from Ambrosia to Zappa. It was color-coded albums, and the jocks were playing tracks off of albums. It was very interesting with everyone having their own taste in music and a card system that was less than accurate. For a while, we went through a Classic Rock phase. It's wavered depending on the musical landscape and the competition. We've had lots of different competitors. There was a station for a while, Sky 101, The Rock of the '80s. As soon as they started playing Hendrix, we knew they wouldn't be around a whole lot longer. There's been a couple of Classic Rock competitors that have had their ups and downs but they can't take it to another level because there's only so much you can do with only one segment of music. You've got to keep spinning around doing extra things to make it work.

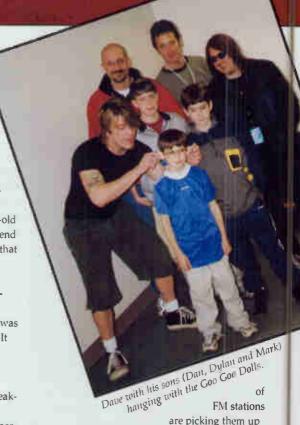

It's tough being a mainstream station, keeping your focus and balance, but we've been able to do that over a long haul. Now, with Howard in the morning, and the Rock that's out there right now, we're a little bit more current-based than we have been in the last few years — but not so much that we alienate our core audience. Our core audience is people who grew up on a lot of Rock in the '80s. We're not looking so much for the 45- to 50-year-old guy (that I might be closer to). I'm at the upper end of our demo, but I can still appreciate the music that we're playing.

What are the changes you've made in the nighttime programming?

A lot of people remember when nighttime radio was one of the most exciting times to listen to radio. It was active; it was like a morning show. When I started listening to radio, nighttimes were like a morning show. There were guys working the phones, doing the contest, doing the bits, and breaking the music. That shifted to morning shows. Everybody put all their time, effort, money, and personality into morning shows. Nighttimes became forgotten. It was: Hold onto mornings through middays; capture the at-work people; nail down afternoon drive; and then we'll coast into midnight. There had been some ongoing discussions through John McCrae and Jacobs Media that the one thing we could really beef up was our nighttimes and make them more intense and interactive. So we recently made the move. We hired a part-timer that had been here, Jamie, who fits the younger end of the demo. She's a female in her twenties. She loves the music, lives the lifestyle, loves working phones and guys like calling her. The music is probably 80 percent of what we had normally played at night, except it's more concentrated now. We've dropped the '70s completely. It's more of an 18 to 25 format as opposed to other times of the day, so it turns up the more rockin' music a notch and there's more room for things that we hadn't been playing as much of in the daytime. It's more Active-sounding at night. We're not going to turn the whole radio station around, but it fits. It's like everything else: TV programming changes at night; it's not the same as the daytime programming. We do the same kind of thing. We don't want to give up nighttimes to TV, cable, or anything else. We want to give people an opportunity, or an option, they can't get anywhere else. Instead of just playing all Active Rock or Modern Rock, we're going to mix in AC/DC, Van Halen, Guns N' Roses, and Metallica with a lot of the newer bands that also rock. We're not going to play things just because they're new, but if they rock then we'll play them.

Syracuse is a big collegiate sports town. How involved do you get with the teams?

This is one of the big things that turned the station up a notch. This year we were able to pick up **Syracuse University** football and basketball broadcasts. In markets that have professional sports, a lot

are picking them up broadcasts. What are Men 25-

49 interested in, other than Rock? What are they doing? They're sports fans, and it makes sense to take the traditional sports broadcast that may have been on the AM band and rock it up for that audience. S.U. wanted to appeal to a younger base, meaning men 25-40. Their alumni season ticket holders were getting older and older and less active and involved. They wanted to attract a younger demo, and we convinced them we were the right way to go. Being the S.U. sports station, in a town like this where there isn't a pro team, these are the pro teams. They're both Top 20 programs, and no matter what happens from week to week, people talk about them. They're front-page news. It's great for us to be involved in this. We're going to continue to make this bigger and marry sports and Rock even more all the time. Howard Stern in the morning, S.U. sports, and Rock music, and being able to put all three elements together makes us a full-service station instead of just a one-trick pony. I'm looking forward to continuing to work with S.U. and putting more and more elements together.

What are your biggest promotions every year?

A few years ago, Jon Robbins started the Make A Wish Request-a-thon Rock Auction, which takes place annually. We auction off Rock memorabilia over a three-day period to raise money for the Make A Wish Foundation. That's a big event for us. It takes place between Thanksgiving and Christmas. The record community is extremely generous in getting items together and bands are always willing to participate anyway they can. We try to raise as much money as we can for Make A Wish through that. I don't know if it helps ratings, but it doesn't matter. It's a good community thing to be involved in. Last year, on Memorial Day weekend, we started Blues, Brews & Barbecues outdoors, which kicked off the summer. It drew about 7,000 people with Jake

Andrews, Indigenous, and three or four local Blues bands. This is a big Blues town. There are three or four different Blues festivals that take place. We hope that that keeps getting bigger every year, too. We're getting involved in more lifestyle events, like running events. We sponsor the Mountain Goat Race, a ten-mile race in April with thousands of participants, and The Festival of Races up at S.U. in the fall. There are lots of different things like that

that get us out that are not specific to Rock 'n Roll as much

Looking out over the crowd at Woodstock '99.

lifestyle. We're the title sponsor for The Sammys, the Syracuse Area Music Awards. We've had five of those since it started in 1990. That is a big event because of the local music show that we've had for 20 years. This takes it to another level. We present it at the Landmark Theater, which holds about 3,000 people. The past year it was broadcast on the Time Warner Cable system up here. We give away 35 different awards for bands, ranging from Best Bluegrass, to Best Rock, to Best Modern Rock, to Best R&B Vocalist. It covers a lot of territory. We bring in bands that have made it out of Syracuse to perform on stage, as well as local bands that perform live on stage. That again is a big community event that we can also back up with programming. Those are some of the bigger things we're involved

with on a regular basis.

Have you gotten into the station festival business? Not really. As close as we come is the Blues, Brews & Barbecue. It hurts the concert scene if you're giving 10 or 12 bands for \$5 or \$10. It makes it harder to bring that band in next time and expect people to pay \$20-\$30. It's such a headache because of the trade-off that you have to do. A lot of times it's, "You do this, I'll do this, you play this, I'll come to do this." I'm not sure of the total benefit of it. We'd rather not just be trying to pull together whatever ten "baby" bands we can find. We do get very involved with the State Fair shows at the end of August. It's a two-week festival; one of the bigger

state fairs around. They can get 100,000 people a day. They do grandstand shows and this past year we had a Def Leppard show for our anniversary show; an Allman Bros. show; Jeff Beck with Jonny Lang; and a BB King Blues show with Kenny Wayne Shepherd and Indigenous (we're all over those things). That's as close as we come, broadcasting live from the fair and being there for all of those

You spent three days at the recent Woodstock '99. Were the conditions (drinking water, safety issues, etc.) as bad as reported?

Don't get me started. We were heavily involved because it was basically in our backyard. I was a couple hundred yards off the west stage in a little press area where I broadcast from everyday. As soon as I finished broadcasting, I'd bolt to get on the grounds and stay there for 12 hours. Most of the people I've talked to, and different chat rooms I've gone into with people who were there, and from my observations (I walked the site, miles everyday), it didn't seem any worse than any other large concert festival event, especially considering the size and scope of it. Unless you were there, you really don't realize how big it was because most of the cameras were focused on just one stage or the other. They were always focused on the immediate crush of crowds right in front of a stage. I was appalled at the lack of objectivity by a lot of the media there. There were people writing reports to newspapers and organizations who never left the media tent. They were getting all of their information by watching the MTV monitors or the coverage that MTV was giving them, which is already skewed. Hey, the same people who brought us Beavis & Butthead were appalled when kids started running around shouting, "fire, fire, fire!" But overall, an event of that size is almost impossible to pull off perfectly, given the fact that you're dealing with a quarter-ofa-million people on a temporary site in the middle of a hot, dry summer, over an extended period of time. There are no background checks for people who are buying tickets. You can't keep the bad people out and let the good people in. Trying to make it all come together, without incidents, over four days is almost impossible to do. Overall, it was an amazing experience.

Do you have any suggestions for the promoters who might try to put something like this on again? In retrospect, maybe we shouldn't have handed out all of those 95X promotional matches... Actually, more camping areas, more qualified security, more efficient garbage collection. Traffic wasn't a bad problem. Getting people in early on Thursday was great. It was a very large area, but they could have opened up a much larger area for camping. The '94 show was a mess because people camped right on the concert site so it was impossible to walk around. What they tried to do here was push everybody into a certain camping area away from the concert grounds, and there wasn't enough room. Some people were expecting the whole hippie image of 1969,

but instead got a reality dose of 1999. As far as food prices, it's like going to a Bills or Mets game or anywhere else these days, you're going to pay \$3.50 for a soda or \$5.00 for hamburger. To me, it wasn't that big of a deal. I don't go to an event like that to eat a great meal. I go to try and get by for four days and catch as much music as I can. I like people watching and having fun. They should take into account they need a whole lot more people for garbage collection. And, far in advance, they have to hire a real security outfit to take care of the place; not a bunch of football players or college kids who are going to bail after they get their T-shirts and free admission. It's walking a tightrope between people thinking it's a police state and still being protected. For the size of the place — it was the third largest city in New York for four days, most cities that size have considerably more problems. Considering this place had as few as they did, it's a shame that people concentrate on the negative instead of the positive of the whole thing. I wouldn't want to have to try and plan one, but I have a few ideas if I did. I'd have to quit this job to do that though. (laughs)

What are your goals as a PD at 'AQX?

Short-term is to maintain the level we re at right now. Musically, we're ninety, ninety-five percent on target, and that's always just slight adjustments that need to be taken. We're very solid across-the-board. We're doing real well in all areas. The production elements and imaging always need to be freshened up. Little things like that; maintenance needs to be taken care of. S.U. sports is a project that we're continuing to do a lot with and want to do more with. Probably within the next six to eight weeks we're going to be streaming audio on the Internet through radiowave.com. That's a whole different adventure we're looking forward to that's going to change a lot of things at the station. It's going to help create increased opportunities for revenue and help get the station involved even more in the evolution of the computer culture than it is right now. It's something we're going to step into with two feet. There's a lot of challenges there, but a whole mess of possibilities. You've got to be as broad as you can and do as many different things to reach out and grab people and be part of the community instead of just the music station or the concert station or whatever. Our challenge is to take all of the elements we have now (S.U. sports, the Internet, Howard in the morning, the community events we're involved in, and all the music that we do), put all that together and say, "Look, we want to be a lifestyle part of the community where people reach out and want to grab a little bit of us everyday" — instead of being a fifth or seventh choice on their entertainment options.

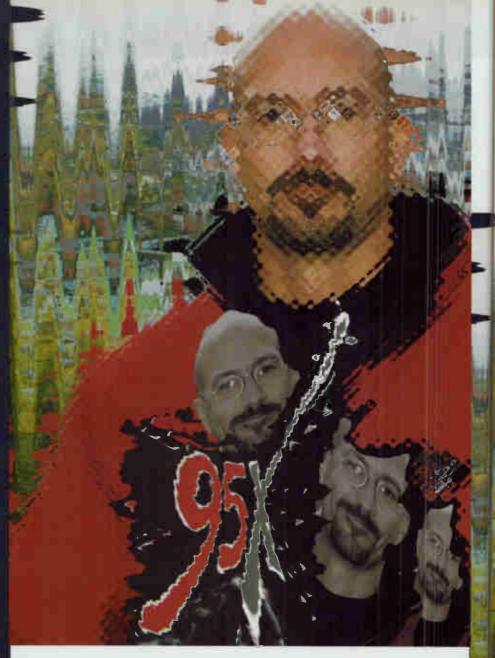

Successful Syracuse

Marion by Pile Berli

Long Island raised Dave Frisina is one of those few

that can claim to be at one station their entire career. In Dave's case, it's 21 years and counting! He started at WAQX/Syracuse in '78 doing weekends, and shortly after that became the station mascot. A year later he took on the hosting chores of the station local music show, "Soundcheck," which has been grandfathered through every management and ownership change ever since. Throughout his tenure at 95X, Dave has also done overnights and been Production Director. In '89 he was promoted to Music Director/middaus. and less than two months ago took over as PD from John McCrae, who is now Operations Manager at WCMF/Rochester.

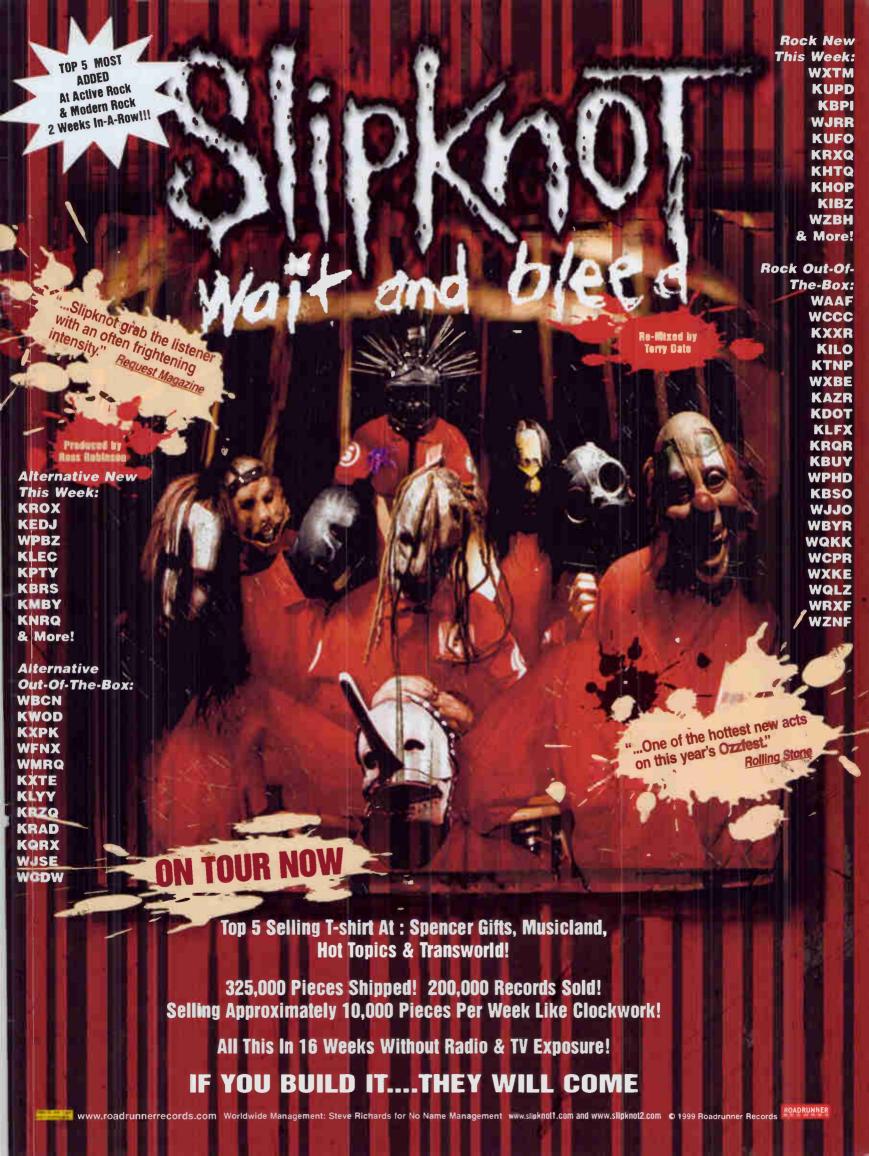

What is the current competitive climate of Syracuse?

Well, 18-34 we've been consistently number one, Persons and Men. Our sister station. 93Q [WNTQ], a CHR, is usually number two or number three and does a great job of nailing down women numbers. We have Lite 105 [WLTI], the light station in the market, and it's continuing to improve. We also have W-News [WNSS], an all news AM signal. 25-54 we're number one Men and in the Top 5 in Persons along with 93Q. In the 25-54 picnic, there's also WBBS [Country] that benefits from the fact that there's no other Country competition. In addition, there's WYYY, which is a mix of the '80s and '90s type of Hot AC. TK99 [WTKW] is the Classic Rock station, basically a '70s station. They're owned by the same people who own K-Rock (WKRL), a Modern Rock station. Musically, they're on either side of us more or less; a '70s station on one side and a strict Modern Rock on the other side. We're right in the middle. They tend to trade numbers back and forth. Despite the squeeze, we own Men in every major demo. On the lower end, there's Hot 107 [WWHT], another Rhythmicoriented Top 40, which has been challenging for the teenage audience.

How do you and K-Rock get along with promotions and shows?

There are things that go one way or the other. We've been here for a while. If we're not playing a band at all, we don't really care too much. If a band comes into the market that they're playing and we're not, it's probably a club show because if it's a big enough band we're probably playing it. Recently, we had the Oleander/Our Lady Peace/Creed show in town. There's no "station presents" on shows like those because we're playing all three of those bands in addition to them playing them. We let record companies and promoters know that it's going to be a straight-up show and everybody is going to give it their best shot. It's neutral ground, and everybody does whatever they can to make it their own. We don't have too many problems along those lines because nobody really wants to take a stand against 95X because we've been the dominant Rock station in this area for 20 years. For a record company to do that doesn't make sense.
