Inside Progressive Radio
by George Meier, Editor of "Walrus"

Research & Progressive Radio

Years ago in its frantic race to escape Top 40 radio, the progressive radio format discarded some good, sensible ideas because they were tainted with the foul aura of popness. One of those throw aways was research into which records were doing well. Top 40 stations, then and now, record phone requests made to the station and retail sales by regular calls to record stores. Both methods have their pitfalls but both methods could be improved upon and used by progressive programmers.

The request line invites questions about what the vast majority of listeners who never call are thinking, as well as the representativeness of those who do call. On the other hand, calling stores has been questioned because of a supposed susceptibility to hype (although after several years of dealing personally with retailers all over the nation, our experience tends to dispute that cliched claim).

Yet in spite of the problems, we have argued for the reinstatement of local research as a tool for bettering a progressive radio station. It seems difficult for a music station to claim community involvement if it does little or no research into the community's musical interests. Naturally we suggest that to use the type of research historically conducted would be inadequate. We believe that just as progressive radio's format is a reaction to pop radio, progressive radio's research should springboard from the pop approach, progressing from there to new levels.

First, on phone requests. It must be recognized that those who phone a station are a minority of the listening audience. Therefore, while we argue for a conscientious record keeping system for phone requests, we modify it by suggesting it should be used only as supplementary information. And add that there are ways to improve the quality of those requests. For example, while exhorting the audience to call the request line by communicating that the station actively uses it to help in programming, the leadership of the announcer can have immense impact on the kind of caller and the quality of the requests. Style of leadership is a potent influence on the style of response. (For example, the difference in America's feeling about America in the Kennedy years as opposed to the Nixon years. The laws and methods are not all that different yet the style of the leadership engenders a vastly different response.)

Secondly, on store reports. They can be controlled by exerting a similar kind of leadership. Rather than simply calling a list of stores and asking for a top 10 as the pop stations have done, a more human approach should be used. Developing relationships of mutual musical interest with good kids who work behind the counter can be effective. Hanging out in a few stores will do it fastest, the personal contact cuts through the phone lines best. Maintaining the relationship by phone later will yield a network of people you can trust. How much cynicism creeps in will determine how many contacts there are to be developed. A rule of thumb is that the more contacts developed the more reliability is built into the information.

The operative notion expounded here is that just because an idea has been used by pop radio doesn't mean that the idea has some residual badness attached to it. Request lines and store reports are a solid tool for good radio programming.

Humanized and filtered a new level of reliability can be obtained, the results of which can aid in balancing a station's programming. Balancing the internal ideas of what should be aired with a realistic understanding of what the audience wants, so that neither dominates the other.

This argument was originally made to progressive radio operatives, however, we believe it has applications in any format. We'll add one further research peg in the next essay.

Albums

Album of the Week: (reviewed by Ron Fell) "Are You Ready For The Country"-Waylon Jennings (RCA)
Waylon covers a lot of ground in this album opening with a Neil Young tune, ARE YOU READY FOR THE COUNTRY and closing with the traditional PRECIOUS MEMORIES. He also reaches back into his sixties saddlebag and re-works Jimmy Webb's MacARTHUR PARK. Waylon seems very comfortable in riding thru the many changes and moods. Softer cuts like THEM OLD LOVE SONGS and I'LL GO BACK TO HER should also receive good airplay.

Also recommended from the following LP's:

- "Spitfire"-Jefferson Starship (Grunt) WITH YOUR LOVE/ST.CHARLES/HOT WATER
- "The Winner and Other Losers"-Bobby Bare (RCA) VINCE/LOST IN AUSTIN

- "First Flight"-Chanter Sisters (Polydor) HALFWAY TO PARADISE
- "Flowers"-Emotions (Columbia) I DON'T WANNA LOSE YOUR LOVE
- "Soul Searching"-AWB (Atlantic) A LOVE OF YOUR OWN/QUEEN OF MY SOUL
- "Streetheart"-Dion (Warner Bros.) QUEEN OF '59/IF I CAN JUST GET THROUGH TONIGHT

Bill Gavin's Personal Picks

- - - I especially like:

- FUNNY HOW TIME SLIPS AWAY-Dorothy Moore (Malaco) Her lovely voice and intimate style seem especially well suited for this indestructible Willie Nelson song.
- TELL ME-Airlift (Quality) Producer has achieved an effective sound which broadens the instrumental resonance and sharpens the projection of the vocal. Side is marred - as so many others also are - by the infantile reiteration of the closing lyrics. (Janet says that this syndrome has been created by teaching a whole generation of kids to read with Dick and Jane!)
- THE FIRST HELLO, THE LAST GOODBYE-Roger Whittaker (RCA) His relaxed, mellow voice is super pleasant to hear, and he handles the unusual lyrics in intimate, person-to-person style. Not an obvious top 40 type record, but it should appeal to adult listeners.

Gary Taylor's Personal Pick

HAYMAKING TIME-City Boy (Mercury) The lyrical and melodic content enhanced by a Robert Lang production add up to an accoustical release quite fitting for summer airplay.

Also Possible

- BABY LOVE-Group With No Name (Casablanca)
- RIDE ON THE WATER-Herman's Hermits (Buddah)
- BROWN EYED GIRL-Ian Matthews (Columbia)
- YOU TO ME ARE EVERYTHING-Broadway (Granite)
- FEEL YOUR GROOVE-Ben Sidran (Arista)
- GONNA GET A LADY-Peter Pringle (Reprise)
- HEY MY LOVE-Dion (Warner Bros.)
- SUPERSTAR-Paul Davis (Bang)
- TROUBLE-David Geddes (Big Tree)
- SLOW DANCING-Tommy Roe (Monument)

Hype

One of our top 40 correspondents has written me a long letter on the subject of "pressure as applied by certain record people". He points out a "healthy working relationship with most of the promotion people". But, he says, "there are some who try to shove their product right down your throat". He mentions that these are usually the ones trying to promote "sub-standard material". According to our correspondent, the primary pressures are directed, not toward getting him to play the record, but to "report it to Gavin". Since this sort of thing is apparently fairly common. I'm answering in the form of the following open letter.

Dear Joe, (not his name)

Several other smaller market correspondents have mentioned the same pressure problems that you describe. I understand that a good many record companies have assigned special promotion people whose main - or only - target is Gavin reporters in smaller markets. They know that it takes a number of correspondent mentions for a new record to be listed in our "Picks & Plays" section. So some of them push hard to get enough reports for front page mention.

You spoke of promising to report - and to play - without actually doing either, just to get 'em off your back. I suppose this happens now and then, but it seems to me that it would degrade a person's self respect.

What about reporting a record to Gavin but not playing it? This strikes me as deliberately deceiving, not only the editors of this paper, but also its readers, and it would certainly disqualify this person as a correspondent.

Yes, as one of your promoters suggested, you do have a responsibility to the music business. You're responsible for using your own best judgement in programming your station's music. You're responsible for providing trade journals with accurate reports about your station and your market. You have no obligation to play any record whatever, just because a lot of others are - or because you like the promo man - or because he bugs you - or for any reason other than your own best judgement telling you that this record would benefit your station by pleasing your listeners.

You wanted to know how you should handle these obnoxious callers. I'd suggest, first, that you continue to remain firm in your decisions. If your caller gives you "Who do you think you are?" you can always say, "Well, I think I'm the guy who is going to say goodbye and hang up the phone, right now!" Being a big wheel from the big city doesn't give him - or her - the right to rough talk you. Second, you should always let the Gavin office know about any excessive promo hype. If you don't wish to identify the promoter you should at least let us know which record is being pushed so hard. This will alert our research staff to check out other areas on the record and to discount any reports that seem dubious.

We've had occasion to caution national promo people against leaning heavily on our small market correspondents. We've told these promoters that by building up antagonisms and resentments they are creating a backlash against their zeal. We're in hopes that the situation is so ridiculously self-defeating that it will correct itself.

Thank you for your letter.

Cordially,

Comment: We appreciate the co-operation provided by most record companies and distributors in giving excellent record service to all our correspondents. We must, however, deplore what is apparently a widespread promotion practice of trying to pressure our smaller market correspondents to "report it to Gavin". As noted in the letter above, such excesses are apt to be self-defeating.

The accuracy of this publication depends totally on the accuracy of our correspondents' reports. If a correspondent reports a pick one week but doesn't mention the record the following week, we assume that he does not consider it worth mentioning again until it registers some listener response - and we prefer to respect our reporter's judgment.

We have no objection to a reminder to our correspondents to report any record they're playing; we do object to excessive promotional pressures. A music director's first obligation is to his employer - not to the record business.

Gavin's Gab

Marge Bush, after 26 years at the station, has resigned as music director of WIXY-Cleveland. As soon as her replacement is selected and installed Marge will take over as administrative assistant to Bill Clark, Director of the Ohio School of Broadcasting. In addition to training and placing radio personnel they'll also be operating as an employment agency, "finding the right people for the right jobs" in broadcasting. Of interest, the School's address is the same building that houses WIXY - 3940 Euclid Ave.

KARR/KOPR-Great Falls received overwhelming response to its campaign to collect relief supplies for the victims of the Teton Dam disaster in Idaho. Over six tons of materials were trucked the 300 plus miles to Idaho Falls. They also received a surprise check of \$3,000 from the president of Kimberly-Clark, of Neenah, Wis. KARR operations manager used to work at WNAM-Neenah and credits his old station for arranging the donation.

On the Record

My friend Phil Elwood, who writes about music for the San Francisco Examiner, phoned me the other day about a special assignment his editor had given him. He was doing an article about "Pop Music In The Year 2076" - an imaginative bicentennial prediction of what changes were likely to occur by the time of our tricentennial. Since his call I've been mulling the topic over in my head and have taken no little pleasure in letting fancy roam free.

If we can judge the future by the past, one of the biggest musical changes likely to occur is that of geography. In 1776 the main sources of popular - as well as serious - music were found in Europe. Vienna with its waltzes, London with its music halls, Naples with its operas, Paris with its opera bouffe - each area produced music its people loved - and paid for. Its form and style molded the shape and sound of popular music for a century to come. 1876 America was too busy growing rich to create its own music, except for what came from backwoods banjos and frontier harmonicas. True, our people flocked to hear famous singers and musicians, but there were few Stephen Fosters, and not many pianos, parlor organs, or harmoniums on which to play the sheet music being offered in the stores.

In 1976, on the basis of dollar volume, the pop music capitals of the world are New York, Los Angeles and Nashville. European cities, particularly London, Amsterdam and Stockholm still produce a creative variety of new music, but the sheer volume of the U.S. output dwarfs that of any other area. This is not necessarily proof of this country's superior level of musical talent; it simply confirms that a huge slice of our spendable income has been laid on the line for musical output.

So - what geographical shift in pop music's center of gravity is most likely to occur by 2076? Will any of the emerging African countries blossom as a new source for a new kind of music? Will the Soviet Union relax its culture controls sufficiently to permit a free range of creative musical talent? Either is possible, but not likely. I believe that Japan holds the greatest potential for becoming the world's music leader by 2076. The Japanese have already demonstrated a brilliant capacity to absorb and perform Western music of all kinds - classical, country and rock. Their own rich culture offers endless possibilities for modifying the Western idiom into a new and original musical form.

What other changes? Will the sarod replace the guitar? Will new electronic marvels supersede conventional orchestras? Will the cable push radio aside by offering a variety of commercial-free music? What new musical form will replace rock? Will Ma Bell offer "Dial-A-Tune" service? There will surely be changes we can't even imagine. Who in 1876 could have predicted radio? or television? or jet flight? or atomic energy? Wish I could be around in 2076 to see - and hear - what happens.

In all of our bicentennial fantasy we are sure of one thing: there will still be music and singing and dancing. Regardless of packaging, regardless of new sounds, music will continue to be an essential part of human communication. The character of the music is sure to be influenced by the course of human events, the most destructive of which would be nuclear warfare. In looking ahead to 2076 we hope, above all things, that it will be century of world peace.

Mid States Regional Meeting

We've finally solved the hotel problem by moving the dates.

Here's the scoop:

When? October 16 & 17, 1976.

Where? Indianapolis Hilton, Indianapolis, Indiana

Room rates: Singles \$28, doubles \$36 plus 7% tax.

Acceptable credit cards:

American Express
Air Canada C.N.R.
Carte Blanche

Master Charge
Pan Am
American Torch Club

BankAmericard
Diner's Club
Hilton Issued Cards.

Without a major credit card or proper identification prior to check-in, the hotel will require cash in advance. Those delegates who wish to be billed for their charges must make arrangements with the hotel credit manager two weeks prior to arrival date.

Registration: \$10 fee. Checks should be made out to The Gavin Report and mailed to our S.F. address. Include names of all persons being registered. Indicate whether you do or do not intend to stay at the Indianapolis Hilton.

Room reservations: All those intending to stay at the Hilton will be sent a room reservation card, to be filled out and returned directly to the hotel. Only those persons using the official hotel cards will be registered at our special reduced rate.

Who? Radio people from the surrounding area are invited to register. (Indiana, Illinois, Michigan, Ohio, Kentucky, with optional participation from Eastern Missouri, West Virginia and Tennessee. In other words, if you're close enough to drive to Indianapolis in your car, y'all come!) As in all our other regional meetings, the discussion sessions are for radio people only. Local and regional record people are invited to be our guests for cocktails Saturday evening.

Other regional meetings: Monterey, Holiday Inn, August 21-22; Spokane, Sheraton Hotel, October 30-31; Cocoa Beach, Frank Wolfe Inn, Nov. 13-14. The Northeast regional meeting is scheduled for Framingham, Mass. on Sept. 11 & 12. More news about it when the local committee tells me what they're planning.

Everybody planning to attend our Monterey meeting should register with the Gavin office without delay. Summer weekends in Monterey attract lots of people, and late registrants risk being shut out of room reservations at the Holiday Inn, which, you'll find, is a great place to stay. Record people should also register with our office (no fee) so that they may receive room registration cards.

Inside Progressive Radio

by George Meier, Editor of "Walrus"

Established Progressive Airplay

(In Order)

Steve Miller Band
Steely Dan
Jeff Beck

Notes: This list looks short, obviously it goes on but, these artists dominate airplay significantly. So dominant are these artists that they cut through any regional barriers. Yet the regions do add their own colors to the spectrum of sound. In the Northeast, Andy Pratt and Southside Johnny show strongly. Marshall Tucker Band expectedly does well in the South along with Carly. In the Midwest Firefall and Marshall Tucker surface.

New Progressive Airplay

(In Order)

Chicago
James Taylor
Grateful Dead
Spirit
City Boy

Notes: City Boy is the story in this group of new records getting overwhelming acceptance. Their strength draws largely from the N.E. and South with the Midwest also giving them a nod. Also notable is the fact that of five reggae LP's released in one two week period Toots & The Maytals starts best.

Singles & Imports

The indominable Wailers' Live album continues to sell, out-distancing anything else from Europe by far. Its American release, possible in the fall, may be a gigantic anticlimax.

Singles, in progressive radio, have a limited appeal, but, it is notable that new records by Elton & Kiki, Alice Cooper, Beach Boys, and the Bee Gees have been broadly accepted.

The following tracks are filling the air...

Jeff Beck
"Bluewind"
"Come Dancing"
"Goodbye Pork Pie Hat"

Chicago
"Mama Mama"
"You Are On My Mind"
"Another Rainy Day"
"Once or Twice"

Free Beer
"It's Gonna Be Alright"

Jam Hammer Group
"Oh Yeah?"

Jay Ferguson
"Snakes on the Run"

Nilsson
"Sail Away"

Mighty Diamonds
"Right Time"

Carly Simon
"It Keeps You Runnin"
"One Love Stand"
"Half A Chance"

Spirit
"Farther Along"
"Mega-Star"

James Taylor
"Shower the People"
"Money Machine"

Toots & The Maytals
"Reggae Got Soul"
"Rasta Man"

Peter Tosh
"Legalize It"

Jerry Jeff Walker
"Good Night for Singing"
"...Saturday Night"

KENR-Houston, in conjunction with Ringling Brothers, saluted its listeners with a "Hard Hat" night at the circus. First 3000 attendees wearing hard hats received a free ticket of admission. The station staff acted as ringmasters, choosing an honorary ringmaster from among the hard hat wearers.

Bill G. will take the country reports if I'm not in the office when you call. Janet.

Albums

Album of the Week: (reviewed by Ron Fell)

"On The Track" - Leon Redbone (Warner Brothers)

No grammy here for engineering, but Mr. Redbone's casual rambling style of singing and his selection of dusty musical relics give new life to tunes like AIN'T MISBEHAVIN', LAZYBONES, LULU'S BACK IN TOWN, and POLLY WOLLY DOODLE. Bill wonders if, since most of these tunes are so old, the younger programmers might consider them new songs. Certainly some of the cuts have never before been recorded at 33 1/3 RPM.

Special Attention:

"To The Heart"-Mark-Almond (ABC) It has been a while since Mark and Almond have come up with new material but the boys are back in town with an album which should be heard. It's the kind of album music people take home and listen to. Gorgeous instrumental passages, including some excellent drum work from Billy Cobham, and the distinctive Jon Mark vocal style make this album worthy of your attention.

Also recommended from the following LP's:

- "Sincerely"-Dwight Twilley Band (ABC) I'M LOSING YOU/RELEASE ME/THREE PERSONS
- "Goes to Hell"-Alice Cooper (Warner Bros.) GIVE THE KID A BREAK/YOU GOTTA DANCE
- "Do You Wanna Do A Thing"-Bloodstone (London) STAND UP LET'S PARTY
- "Hear the Words"-Margie Joseph (Cotillion) PROPHECY/SOMETHING TO FALL BACK ON
- "Rollin" On"-Duke and the Drivers (ABC) I NEED YOUR LOVIN'/CHECK YOURSELF
- "Whistling Down the Wire"-Crosby-Nash (ABC) TAKEN AT ALL/SPOTLIGHT
- "The Movies"-The Movies (Arista) SATTELITE TOUCHDOWN/IF I CAN JUST GET THRU THE NIGHT/SUGARLOO
- "A Night On The Town"-Rod Stewart (Warner Br.) PRETTY FLAMINGO/KILLING OF GEORGIE/TRADEWINDS

Bill Gavin's Personal Picks

- - - I especially like:

- STILL THE ONE-Orleans (Asylum) Classy arrangement of the cheerful tune gives a sparkle to an uninspired lyric.
- SLOW HOT WIND (LUJON)-Henry Mancini & His Concert Orchestra (RCA) New disco styled arrangement of the moody Lujon which first appeared in Henry's "Mr. Lucky Goes Latin" album several years ago. The string choir sounds especially rich in stereo.

Gary Taylor will not be making any picks this week.

Also Possible

- NITTY GRITTY ROCK AND ROLL-Coyote McCloud (Midland Int'l.) I LUV MYSELF BETTER THAN I LUV MYSELF-Bill Cosby (Capitol)
- GOOD YANKEE BOY-Gerard (Caribcu) AIN'T IT FUNNY-Lenny LeBlanc (Big Tree)
- ME-Paul Bogush, Jr. (Private Stock) BRAZILICA-Ramsey Lewis (Columbia)
- STARGAZER-Frank Sinatra (Reprise) COME SUNDAY-The Cats (MCA)

Gavin's Gab

To our correspondents: It doesn't matter to us how you spell it, but if you put out printed playlists, the group is Manhattans - not Manhattens.

"Hard rock softball". A team from 13Q-Pittsburgh played Foghat (and a few friends) as a preliminary to a regular Pirates game at Three Rivers Stadium. Foghat won, 5 to 4, but the big news was that night jock Rick Hughes hit a home run off Foghat pitcher Tug McGraw (himself!)

Scott Shannon, WFBC-Greenville, S.C., is running a "Superstar" promo contest, in which the top prizes will be all expense trips for two couples to Louisville for the week of July 18-24. They'll have tickets for three concerts - the Elton John, the Eagles and Elvis Presley. Calling the listener response "fantastic" would be an understatement, says Scott.

WGY-Schenectady ran a drive to raise money for a van for the transportation of Schenectady County's elderly handicapped and poor. Sixty second spots were voiced by station personalities. Campaign ran six weeks, raised \$22,650.62, with donations coming in from Vermont, Massachusetts, and all of New York state. Not a bad idea for other stations to emulate.

Wedding bells June 23rd for Steve Miller, of KEIN-Great Falls. Congrats!

WCBM-Baltimore received three awards from the Chesapeake A.P. Broadcasters Association. The awards were for (1) overall excellence of news coverage, (2) Spot news (coverage of a Feb. 13, 1975, bank robbery, in which newsman David Bryan conversed with the robber while the holdup was in progress), and (3) public service for the program Interface, presenting conflicting views of controversial community issues. To top it all off, the Association then elected WCBM news director Bob Shilling as its president.

Sam Lee, of KISN-Portland, one of the Don Burden stations that faces the loss of its license, writes that it looks very much as though the station will go dark at 12:01AM, September 2, 1976. As of now the FCC has not appointed an interim operator. So Sam is looking for a new gig. He's 33, has a first phone, a BA in political science and a wife. Phone 503-226-7191 (station) or 206-892-2828 (home).

New address for KELP - P.O. Box 12920, El Paso, Tx. 79912.

At WEBC-Duluth, Gary Stevens has new hours for record promo calls - between two and five PM, Mondays thru Fridays.

Randy Rice and Lou Saint, both of KTEM-Temple, Texas, send congratulations to former colleague (then at WOAI-San Antonio), Michael O'Connor, on his recent appointment as PD at KYA-San Francisco.

Most stations seek experienced personnel to fill job vacancies. Not so 96X in Miami. PD Steve Hammill is looking for a newsperson, and says "desire and talent are more important than experience". So here's an unusual opportunity for an ambitious novice to break into broadcasting in a major market.

AT WLBK/FM-DeKalb, there'll be no one to take music calls until July 27. Jim Bulger and Nancy Bingley are being married on July 10, and he won't be back at the station until the 27th.

THE GAVIN REPORT #1109

WEEKLY SUMMARY

(Associate Editor, Gary Taylor)

Smash of the Week: GOT TO GET YOU INTO MY LIFE-Beatles (Capitol) Nostalgia buffs may note that this super group has been absent from this page since June 19, 1970, when we charted WINDING ROAD/FOR YOU BLUE. The power of this single from the 10 year old "Revolver" album is shown by big chart jumps at many top 40 stations.

Sleeper of the Week: LOWDOWN-Boz Scaggs (Columbia) Spreading from the west coast to Ft. Worth, Warner-Robins, Minneapolis, Davenport, New Haven, etc. (See page 7.)

Hot: DON'T GO BREAKING MY HEART-Elton John & Kiki Dee (Rocket) This twosome has a hit!

Top Tip: WHAM, BAM, SHANG-A-LANG-Silver (Arista) 49 stations are airing this, 22 of them charting with Montgomery and Salt Lake both listing it #4.

Records to Watch: SPRINGTIME MAMA-Henry Gross (Lifesong) Early charts include KNIR (18), KSEE (21), WPPI (21), WFEA (22), WGNi (24), WRKO (25), WLOB (28), KTKT (30), etc.
SHE'S GONE-Hall & Oates (Atlantic) Re-release doing well with sales and requests reported where played.

Gavin's Gab

To those subscribers who have experienced delivery delays of The Gavin Report the past two or three weeks: Apparently there has been another serious breakdown in the distribution and delivery of our paper. We are trying our best right now to correct it. While officially the Postal Service has accepted absolutely no responsibility for these delivery delays (it's always something wrong with the way our mailings are prepared or presented) it seems well known that the Postal Service is presently in critical financial difficulties, and that Congress is strongly opposed to bailing them out. Personnel shortages, particularly on Saturdays, could severely retard the processing and distribution of our mailings.

Congratulations to Chuck Dunaway, who last Friday (9th) was named manager of KAFM-Dallas, the progressive country station that Chuck has been programming. Chuck, one of our three moderators in our Austin radio meeting, is becoming a tradition (legend?) in Texas radio.

In one of last week's supplement reports we erred in placing Bob Dees in the morning slot at WHBQ-Memphis. That spot is still capably handled by Bob McLain. Dees is over at WMPS and is responsible for the novelty recording making a noise in Birmingham under the title, DISCO DUCK.

Another correction: In "Changes" last week, we showed Brian Baba going to KROY-Sacramento as PD. Wrong. Should have been production director.

CK101-Cocoa Beach is running an unusual contest which makes use of play cards printed up in a cross word puzzle format. Working well in their continuing efforts to "recycle" audience. Any who'd like a sample card, phone PD Ben Hill at 305-783-9257.

WTRX-Flint will now be known as 13TRX, pronounced "thirteen tricks". On one weekend last month, station gave away twenty-five TV sets as well as some recordings of TV themes. Heavy audience participation in the contests.

At KOLM-Rochester, Minn., the Red, White & Blue give away for the bicentennial was a Dodge Pickup.

KYA-San Francisco announces that its weekly record information is now available by 12 noon, Wednesdays. Phone: 415-433-2896.

Joe Bogart, formerly music director at WMCA-New York during the days when that station was the #1 rocker in the Big Apple, and then a producer when they switched to an all talk format, has been fired in what management described as a "reduction of staff". Joe joined WMCA in 1948, a period of 28 years of service. He says, "If I had known it wasn't going to be a steady job, I'd never have taken it."

In Louisville, the Elton John concert July 20, followed by the July 23 Elvis Presley concert, have inspired radio stations to offer listeners prizes of all expense trips to one or both events. WKYX-Paducah is the latest to report the offer of such prizes, which they're promoting with giveaways of albums by these artists.

As a bicentennial salute, WTSN-Dover, N.H., ran a music battle - U.S. hits vs. British hits. By 11PM, July 4, it was a flat out tie at 25 all, so for a final battle, BENNIE AND THE JETS was pitted against WOULD'N'T IT BE NICE. Guess what - the Beach Boys tipped the battle for a final U.S. victory - just like George Washington, Oct. 6, 1783, at Yorktown.

Signs of a trend? WMEL-Melbourne, Fla., is now charting 40 singles, moving up from the previous list of 30.

KEEN-San Jose running a contest whose prize is dinner with Merle Haggard who is appearing at the Circle Star July 30. Six couples will be guests of the six DJ's. Phone and postcard.

At KCKC-San Bernardino, Bob Mitchell phoned the label to find out what selection was to be released on the commercial pressings of the Waylon Jennings single CAN'T YOU SEE. Found it was to be I'LL GO BACK TO HER - also from the album. So Bob tested them both on his listeners - asked them to pick the top side. In 10 minutes the phone votes showed I'LL GO BACK with 32 votes, CAN'T YOU SEE with 6 votes, and one vote for both sides. So KCKC will be playing the flip side.

This week San Francisco welcomed the Board of Directors of the Country Music Association for the 3rd. Quarter Board meeting held at the Fairmont Hotel. Stanley Adams, ASCAP chief, hosted cocktails Tuesday evening; Bill and I did likewise Wednesday. In spite of a heavy agenda, Chairman Jim Fogelsong pulled us through it all by Wednesday night, freeing the Board members for an earlier departure on Thursday. Comments from the Board indicated appreciation for our city's scenic beauty as well as for its food. During my absence from the office Bill wore his country hat and screened all the new country records - for which I'm grateful!

Bill Gavin's Personal Picks

- - - I especially like:

- (DON'T FEAR) THE REAPER-Blue Oyster Cult (Columbia) Skillfully devised arrangement is performed with just the right amount of cool.
- IF YOU WALKED AWAY-Peter Lemongello (Private Stock) Stories out of New York suggest that the singer is also a whirlwind one-man promotion/advertising department. The side is fully as commercial as the artist's name is improbable - pronounced just like "lemon jello".
- PARTY LINE-The Andrea True Connection (Buddah) Her singing will probably never be heard in Lincoln Center, but her bass player sets the mood for a very danceable three minutes and twenty-two seconds.
- JULIE ANN-Ginger (Shock) A very presentable re-creation of the old rock 'n roll 6/8 beat with some nice Beach Boys type harmony. Pleasant summery listening.
- AMBER CASCADES-America (Warner Bros.) Reference to "the man who walks on the water" seems obscure, but the acoustic guitar flavoring in the accompaniment provides a welcome environment for the group's customary fine vocal harmonizing.

Gary Taylor's Personal Picks

- THE END IS NOT IN SIGHT-Amazing Rhythm Aces (ABC) That mellow lead vocal is complemented by some very nice guitar work.
- MA LA LADY-Deardorff & Joseph (Arista) Commercial enough to attract attention.
- COME TOGETHER-Mike Lesley (Big Tree) Basic simplicity in music can be appealing sometimes... and I think this is one of those times.

Also Possible

- IF YOU CAN'T BEAT 'EM, JOIN 'EM-Mark Radice (UA) CANADA-Pilot (EMI)
- ONE LOVE IN MY LIFETIME-Diana Ross (Motown) LOVE ME NOT-Jeffrey Comanor (Epic)
- THE PRINCESS AND THE PUNK-Barry Mann (Arista) NO, NO, JOE-Silver Convention (Mid. Int'l.)
- OM-Ray Stevens (Warner Bros.) LADY LOVE-Michael Holm (Ariola)
- RESCUE ME-Lesley Duncan (MCA) I LIKE DREAMIN'-Kenny Nolan (20th)
- (I'M A SONG) SING ME-Stuart Getz (Mercury)

Inside Progressive Radio

by George Meier, Editor of "Walrus"

Research & Radio II

Our last essay was a look at some advice we had given progressive radio operatives about local research. Essentially, it argued for a reapplication of basic notions of request line monitoring and retail story surveys which they had dropped back at the beginning of alternative programming. Further, we made the point that bringing a new level of humanization to the process would bring a new level of reliability to the information. Obviously, the suggestion to take this kind of human care in pop radio's local research is a gift from progressive radio to the medium which originated research in the first place.

There is yet another gift. Astute progressive programming people and jocks have for years known the value of critical concert watching.

Live appearances are much more important to progressive music than to pop music. Album artists tend to build slowly on a series of LP releases and coordinated live tours; while singles tend to either happen or not happen without regard to other factors. The coming of a Peter Frampton was easily recognizable if his LP's and concert dates were viewed together over the last few years. The phenomenal sales of Kiss LP's can be understood only when the power of their live performance is added into the equation.

As pop radio involves itself more with albums and album artists, even in a search for the LP's one hit track, concert going will have to be a new part of music research. The job will be not to decide whether you like what an artist is doing but, to properly evaluate the audience response.

Special Delivery Notice

The Postal Service is increasing the special delivery charge. Effective at midnight, July 18, the new rate will be \$1.25. We urge those correspondents who have been mailing their Action Reports via special delivery not to do so any longer. Most of the specials that we receive are now bundled in with our regular morning mail anyhow.

For those subscribers who have ordered their mailings of The Gavin Report sent special delivery, we will continue these specials without a supplementary billing to cover the increased postage until the end of the quarter. Our billing for the September quarter will then include the additional postal charge retroactively as well as the full special delivery charge for the new quarter. Please notify us if you don't wish to continue receiving the Report by special delivery at the exorbitant new rate.

Retrospect

...from our old files....

May 27, 1966. Neil McIntyre tells us about the new Motorola "Satellite Trans-ceiver" that functions beautifully as a compact walkie-talkie for on-the-scene reporting. KDKA uses it to cover fires and other newsworthy events, with complete mobility. On May 21, to celebrate "The Greatest Show On Earth" DJ Clark Race took off from Robert Morris College in a free flight balloon, floating a mile high over and beyond Pittsburgh - 60 miles in 3 hours - with descriptive comments from the air and various mobile check points on the ground.

Paul Drew was a welcome vacation visitor in San Francisco last week. At a reception following the Supremes opening at the Fairmont, Paul said hello to a number of local radio people, including Bill Drake, Tom Rounds, Mike Phillips, Ed Mitchell and Bobby Dale from KFRC, Gene Nelson, Ed Heider, Johnny Holiday and Sean O'Callaghan from KYA, John Hardy and Bob White of KDIA, Herb Campbell of KSOL and Johnny Hyde from KXOA-Sacramento.

June 17, 1966. Paul Drew has been named program manager of WQXI-Atlanta. Red Jones is concentrating on special projects, among which is the organization of the Falcon Radio Network, which will broadcast all 19 games of the Atlanta Falcons, new entry in the National Football League. Paul's air time is 6 to 9PM. Gary Granger will take over the 9 to midnight slot.

Buzz Bennett leaves WEAM-Washington for WTIH-New Orleans.

Dick McGarvin, from KVI-Seattle, joins KSFO-San Francisco for the noon to 4 slot on Sundays and general vacation relief.

KJOY-Stockton heads a drive to revive the "lights on for safety" campaign for the July 4th weekend. Ken Minyard recalls that when it was used a few years back traffic deaths were reduced considerably - suggests that other stations try it.

July 1, 1966. Paul Jay, PD at KSTP-St. Paul, moves to St. Louis for the 6 to 9AM slot on WIL. Deano Day, WIL morning man moves to KQWB-Fargo as Director of Programming and Personnel. He also owns a piece of the station.

Welcome aboard to new correspondent John Lanigan of non-rock KDEF-Albuquerque. DJ lineup: John Lanigan 5:30 to 9:30AM, Paul Britt to 2PM, Dan Parker to 6, Bill King to midnite. Dick Randell, formerly with KBTR-Denver and WIL-St. Louis, is news director. We hope that manufacturers and distributors will keep the station well supplied with the latest non-rock singles and albums. Address: KDEF, Tower Bldg., Albuquerque, New Mexico.

Special Delivery

The recent increase in special delivery postal charges has brought us an influx of mail with postage due from the many people still unaware of the change. We have previously requested our correspondents not to send their reports via special delivery, since these mailings almost always arrive in our office bundled with the regular first class mail. Redeeming these postage due mailings with petty cash payments is awkward and time consuming. Please be advised, therefore, that we will no longer accept postage due mailings. They will be refused and returned to sender.

Monterey Meeting

Be sure to get your registrations to our office without delay to ensure your room at the Monterey Holiday Inn. If you have not received your hotel room reservation return card you are not registered.
Dates: August 21-22. Fee: \$10. Covers Saturday lunch, coffee & rolls Sat. & Sun. mornings, cocktail reception Saturday evening.
No speakers, no panels, no agenda. Radio people only at meeting sessions. Local and regional record folks are invited as our guests for Saturday cocktails.

Inside Progressive Radio
by George Meier, Editor of "Walrus"

Established Progressive Airplay:

(In Order)

- Jeff Beck
- Steve Miller Band
- Steely Dan
- James Taylor
- Chicago
- Aerosmith
- Carly Simon
- Marshall Tucker Band
- Firefall
- Blue Oyster Cult

Notes: The lines dividing this list indicate significant differences in the emphasis being given the artists. Where the first four artists are universals, getting power play throughout the country, Carly Simon gains much of her strength from the South; Chicago, Marshall Tucker, and Firefall are strongest in the Midwest.

New Progressive Airplay

(In Order)

- Rod Stewart
- Crosby/Nash
- Jefferson Starship
- Jon Anderson
- Average White Band
- Beach Boys

Notes: There is no overwhelming activity in the new album area because there isn't much around. These six albums dominate with the first three really in control of the turntables. The only regional variation is the Volunteer Jam LP which shows up in the South. It features members of several Southern rock bands in musical collusion.

Retail

Beyond those strong airplay LP's which are getting expected sales response the Alice Cooper, Waylon Jennings and Peter Tosh are getting initial retail bites.

The following tracks are filling the air:

- Jon Anderson - "Flight of the Moorglade"/ "To The Runner"
- Average White Band - "Goin' Home"/ "Queen of My Soul"/ "Soul Searching"
- Rod Stewart - "Tonight's The Night"/ "Ball Trap"
- Beach Boys - "It's Okay"/ "Palisades Park"/ "Susie Cincinnati"
- Alice Cooper - "Go To Hell"/ "I Never Cry"
- Crosby/Nash - "Spotlight"
- Grateful Dead - "U.S. Blues"/ "Casey Jones"
- Jefferson Starship - "St. Charles"/ "Cruisin'"/ "With Your Love"

To Our Correspondents

In our continuing efforts to obtain on time postal deliveries of this publication, we are moving all our deadlines ahead so that we can have our mailings delivered to the Post Office before 3PM on Friday afternoon.

Top 40 reports. Cut off for our research will be Wednesdays at 3PM. Reports received after that time and before noon on Thursdays will be eligible for "Correspondents' Corner" and for "New Adds". Reports received after that time will be used in the following week's research.

A-C reports. Cutoff for Ron's research will be Thursdays at 10AM. Note: On Wednesdays and Thursdays, Ron is in our office by 8AM, and Eastern A-C correspondents may phone him then.

Country reports. Cutoff for Janet's research will be Thursdays at noon. Reports received Thursday afternoon may, however, be included in the "Roundup" section.

Black Radio reports. Cutoff for Betty's research will be Thursdays at 10AM.

Jobs, Changes, Service, Available. Cutoff time will be Thursdays at noon.

Note: All times noted above are Pacific Daylight. (What else?) These deadlines have been in effect this week. That means that many reports that would normally be included in our research and/or listings have been held over for use next week. For instance, a reference to page 7 shows only 177 reports researched, compared to 218 last week. This discrepancy will correct itself next week.

Correction: Last week's listing of the Phoenix Radio Audience was derived from the "Trends" section of Arbitron. Unfortunately, this page does not indicate which AM-FM combinations are simulcasting their programs. Our listings therefore did not accurately reflect the total audiences of KDKB (AM/FM), KMEO (AM/FM), KNIX (AM/FM) and KUPD (AM/FM). Following are the corrected listings:

Gavin's Gab

This Saturday and Sunday (24 & 25) a team of RKO-Radio jocks will broadcast via satellite from Australia, while a team from Aussie radio will be at KFRC and KHJ to direct their programs homeward. This "Friends Across The Pacific" project was dreamed up by Paul Drew and Michael Spears. The Americans will return Monday afternoon aboard Quantas flight QF3. They'll be accompanied by six Koala bears who will be presented to the American people as a 200th birthday offering from our friends "down under". Presentation will be made by the Australian consul general to a director of the American Bicentennial Administration. The Koalas are headed for the San Diego Zoo, which grows the only variety of eucalyptus trees off which the little bears can feed. At the reception, KFRC will present 200 toy Koalas to the guests.

In Pittsburgh last Wednesday night (7/13), that sheriff's car racing through town with siren going and lights flashing was not pursuing a fugitive but was conveying 13Q jock Ray Zoller from the old studio to the new one. Ray had put on Elton John's FUNERAL FOR A FRIEND and was racing to be at the new studio before the record ended. (He made it!)

Albums

Album of the Week: (Reviewed by Ron Fell) "The Gist of Gemini"-Gino Vannelli (A&M) Vannelli is one of the most promising artists around these days and his star is rising steadily with each album. This one will bring him much progressive airplay with the conceptual TO THE WAR. This seven cut side should attract new listeners as he continues to build elaborate synthesizer arrangements into his already rich music. More conventional programmers will still find worthy airplay in FLY INTO THE NIGHT, LOVE OF MY LIFE, and an A-C ballad, UGLY MAN. Overall, a stellar performance for this 24-year old Canadian.

Also recommended from the following LP's:

- "White Horse"-Michael Omartian (Myrrh) THE ORPHAN/SILVER FISH/THE REST IS UP TO YOU/FAT CITY

Bill Gavin's Personal Picks

- - - I especially like:

- SWEET SUMMER MUSIC-Attitudes (Dark Horse) Group sings so professionally that one suspects their membership has been recruited from other musical aggregations. Whatever, the arranger and producer have obviously had plenty of practice.
- ME-Paul Bogush, Jr. (Private Stock) "Me is the person I think of when I really should be thinking of you". What starts out as an exercise in introspection turns into a very outgoing love song. Talented young singer-composer will likely be around for some time to come.
- FREE SPIRIT-Atlanta Rhythm Section (Polydor) "...A gypsy with an angel's face". Song somehow catches the spirit of the new freedoms in our culture. Not a profound lyric, but it rides comfortably on a retentive melody.
- SO LONG AGO, SO CLEAR-Vangelis (RCA) Baroque harmony patterns are overlaid with delicate, ethereal echoes to create an ideal setting in which to recall a happy young love of long ago. Record will receive little attention at stations looking for high energy blasts, but it should find great acceptance for late night programming on adult stations.
- CRAZY BOWS-Strings Pickers (Barclay) Canadian instrumental offers a delicious combination of a happy string section with a rock & roll beat. A-C's should find it spicy flavoring in variety programming.

Also Possible

Gavin's Gab (continued from page 12)

J.J. Jordan reports the pleasure at WRKO-Boston over their audience shares in the latest Arbitron; which shows WRKO number one in total audience (M-S, 6-midnite) and also leading in the 18-24 bracket and WVBF right behind in the number two spot.

KGBS P.D. Jimi Fox reports the hiring of Meredith Lifson (formerly at KHJ) as music research assistant, and Maria Polevka (formerly with RCA) as program assistant. Station's new call letters will be KTNQ ("Thank you").

Mark Andrews tells us that record companies have somehow gotten an incorrect zip code for his record mailings, which have been going astray. Please note his correct address: KGRL Radio, Box 590, Bend, Oregon 97701.

At KALE-Tri-Cities, Wn., Barry or Chris Michaels can now take music calls Tuesdays and Wednesdays between 2 and 5PM.

Correction: That typo Gremlin produced an incorrect phone number last week for WEAQ-Eau Claire, Wis. It should have been 715-832-3463. Opening for air talent with production skills. Contact Steve Dickoff.

New mailing address for KSEL-Lubbock, P.O. Box 2369, Lubbock, Tx. 79408. They've moved their studios out of the building that houses the TV operation.

Ron Wood will be doing some disco shows at the White Rabbit Disco in Corpus Christi - needs 12 inch disco singles from all sources - requests that they be mailed to him care of KEYS Radio, where he's the music director.

There'll be wedding bells August 28 for Garry Osborn, op. mgr. of WIBM-Jackson, Mich., and Miss Lyn Pampe. Ceremony will be held in Toledo, their old home town.

WRKT-Cocoa Beach will handle the exclusive radio coverage of the 8th Annual Billfish Tournament, sailing out of Port Canavarel July 24 & 25.

A United Press story in the San Francisco Chronicle of July 22 reports from Philadelphia that KFRC jock Don Rose has been awarded \$811,025 in medical malpractice damages. Suit for \$5 million had been filed in federal court in September, 1974, seeking damages for injuries and complications arising out of open heart surgery and knee surgery at Philadelphia's Thomas Jefferson University Hospital.

The FCC decision to deny Don Burden license renewal for KISN-Portland left the door open for filings for interim ownership and for a new license on the KISN frequency. Seems strange that, so far as we can learn, there have been no applications at all for this attractive and - probably - profitable frequency.

WKYX-Paducah had a "Good Weekend", giving away Todd Rundgren albums of the same name.

Air staff at WBOW-Terre Haute: Jim McKnight (PD), Bryan Thomas, Barry Kent (asst.PD), Craig Riley, Larry Joseph (music), Tom Bowen (from WEBC-Duluth), Al Greenfield, Nate Roberts.

When WBBQ-Augusta presented the "Almost Anything Goes" road show, it drew a mammoth crowd of 10,000. A previous performance in Miami Beach drew only 6,500.

Comments on our open letter about hyping smaller market programmers have been generally approving, but not all have a similar complaint. Gary Lane (WMID-Atlantic City) writes: "I have made it known that when they ask for a certain record to be reported to Gavin, I automatically dis-allow the record as a possible pick. You'd be surprised how well this works". Harv Allen, up at KANC-Anchorage says he'd be delighted to see a promotion man. Only one in six months so far.

Tom Collins, (WIFC-Wausau) thanks record companies for "their gracious and quick co-operation" in supplying the top 10 albums, which were given away to listeners at the rate of one every five minutes during an entire Saturday. Chet Sargent (WRUM-Rumford, Me.) has "found record people to be very understanding". But, he insists, his only criterion for going on a record is that he thinks "it will please our audience". In other words, the final answer is not found in sales but in the judgement of the programmers as to a record's suitability for his audience.

KTKT-Tucson air staff: Ed Alexander (music), Roger Collins (PD), Ed O'Brien (from KSTP-Mpls./St. Paul), C.C. McCartney, Jim Gilley, Mike Daniels.

THE GAVIN REPORT #1111
WEEKLY SUMMARY

(Associate Editor, Gary Taylor)

Smash of the Week: I'D REALLY LOVE TO SEE YOU TONIGHT-England Dan & John Ford Coley (Big Tree)
Quality side is top 10 in 65 markets.

Sleeper of the Week: LOWDOWN-Boz Scaggs (Columbia) In addition to the West Coast, this is now charting in many other areas. Looks promising.

Hot: DEVIL WOMAN-Cliff Richard (Rocket) Impressive jumps and good request action especially at KJR, KJOY, WHHY, WSPT & WRKO.

Top Tip: A LITTLE BIT MORE-Dr. Hook (Capitol) Initial response was mostly female, but now a broader audience is being reported.

Records to Watch:SUMMER-War (United Artists) The pattern in many markets indicates strong potential.

STILL THE ONE-Orleans (Asylum) This new release is generating excitement among programmers.

Album Cut: WRECK OF THE EDMUND FITZGERALD-Gordon Lightfoot (Reprise) First reaction came from Duluth and parts of Wisconsin (naturally) but now the response is coming from Bismarck, Ft. Worth, and other spots outside the Great Lakes area. Perhaps more than a regional record.

Ben Hill confesses that the recent Arbitron book for Melbourne, Titusville, Cocoa, Florida, left him in a state of shock. Station was on the air only six weeks before the survey started, yet showed up a solid #1 in total audience. Consultant Mike Joseph is also considerably pleased. WHBQ-Memphis picked up sharply in the spring Arbitron after a dismal showing in the previous book. Market leader is WDIA, followed by WHBQ, WMC, WEZI, WMPS and WMC/FM in that order.

Rick Dees, whose morning show on WMPS rates number two in his time slot (behind WDIA) has been named PD at WMPS.

Mike O'Shea writes, "We're all very excited here at WFTL with our new ARB figures" (for Ft. Lauderdale-Hollywood, Fla.). New book shows them moving up from a 5 to a 7.3, placing them second to market leader WLYF.

Lee Fowler, program mgr. for WGY-Schenectady, sends copies of the latest Arbitron for the Albany-Schenectady-Troy area, which show his station to rate number one in total persons, 6AM to midnight, Mon.-Sun.

KEIN-Great Falls presented the Second Annual River Race last weekend, in which 1,400 entrants floated 10 miles down the old Missouri River, while over 10,000 spectators looked on. One little girl on the river bank sold lemonade to the floaters at 10¢ a cup - took in \$23.

This Saturday (31st), KMWX-Yakima, Wn., presents its third Picnic In The Park, which will feature a 3,000 lb. apple pie, (dimensions 8 feet by 16 feet), designed to feed 3,000 people. Pie is being baked in George, Washington.

Spelling guide for printers of playlists: It's Parliament (not Parliaments), Cliff Richard (not Richards), Maxine Nightingale (not Nightengale).

Jim Channell produces a syndicated feature called "On The Road For Jesus". It's a 30 minute, once a week feature, built around a rock music format. Stations interested can direct their inquiries to Jim at 1516 Hinman, Suite 505, Evanston, Ill. 60201.

Several conservative adult station programmers have been heard to complain about the growing scarcity of good, smooth instrumentals. George Greely Productions, in Studio City, Calif., has been putting out LP's (or tapes) containing full orchestra arrangements of contemporary hits, produced exclusively for radio airplay. Recently increased production costs (musicians, etc.) caused him to suspend operations until he can enlarge his subscriber list. Bill Vancil, of WISM-Madison, was using the recordings on his FM and says they're of fine quality. Greely's phone: 213-980-4532.

Peter McLane reports perfect weather for three concerts sponsored by KIOA-Des Moines. One unusual note: city officials took a decibel measurement to determine if the volume would be within the city's noise tolerance limits. Result: OK - no ear pollution.

WMEL-Melbourne will be aiming its music toward a more adult audience, switching from top 40 to an over-25 target. Bill Early will still welcome music calls.

WVOV-Huntsville, Ala., will soon be making a printed music list available to record people and others who request it. Just let 'em know.

Wayne Cordray, who left KL49-Houma, La. to accept a position with Polydor Records of Canada, has been denied a work permit by the Canadian government. So he's coming back to the U.S. hoping to resume his radio career.

Larry Weatherford was promoted last January at WDXR in Paducah, Ky., to station mgr. and PD. He has switched the station to an adult format, with heavy involvement in community affairs. Air staff: Frank Carvell, Ron O'Brien, Larry Weatherford, Jarad O'Jay, with weekenders Dave Stevens and Bob Jeffries.

Several friends have commented on the story (bio?) about Janet & me printed in Bob Hamilton's new Radio Quarterly. Reading it over, I was surprised myself to find how many different things I'd been into. There was at least one inaccuracy in the material that I gave to Bob, which isn't too important but should be corrected: It wasn't the Dempsey-Firpo fight that I heard broadcast on radio, it was Dempsey vs. Tommy Loughran in Shelby, Montana. And we didn't have a radio in 1921 - that came in 1922 - a Westinghouse 3 tube regenerative set, complete with "A" & "B" batteries and headphones. Frequencies in those days were rated in wavelength meters, and to begin with only two dial positions were assigned. All stations were at either 360 meters or at 480. That was quickly changed as more stations came on the air. The problem in those early days wasn't getting the commercials, it was getting the talent. As late as 1920, John Wolfe and Ned Tollinger, employed by an oil company, got hours of free time on stations like KPO (now KNBR) just for singing along with their guitar and banjo. Strange how few stations thought of playing phonograph records - the Six Brown Brothers and Harry Lauden had some great releases - or so I thought at the time.

Jim Christoferson, KFOX-Long Beach, says his best time for music calls is Wed.-Thurs., between 9 and 11 AM, Pacific time.

Larry James, all night air talent at WBT-Charlotte, offered a prize to the listener who phoned in from the most distant location. "Tons of long distance calls" - winner phoned from Amherst, Nova Scotia.

There's a frog kissing contest going on at WCOS/FM-Columbia, S.C. If froggie likes phone callers smack, caller wins a nice prize. If not, caller gets some wart remover. (They use two sound effects on cart). Idea inspired, no doubt, by the current Chet Atkins' single.

Albums of the Week
(reviewed by Ron Fell)

"Music, Music"-Helen Reddy (Capitol) Ms. Reddy's previous efforts often tested the outer limits of her vocal range, but with the counsel of new producer Joe Wissert and the accomplished arrangements of Nick DeCaro she stays within her vocal parameter, producing her most complete album to date. MUSIC IS MY LIFE sounds like the album's strongest cut. Close behind are GLADIOLA, MAMA, and NICE TO BE AROUND.

"Nights Are Forever"-England Dan & John Ford Coley (Big Tree) The fact that the boys resemble Seals & Crofts on most cuts is not coincidental. Dan is the brother of Jimmy Seals. Once the obvious comparison has been made one is impressed with the vocal clarity on cuts like I'LL STAY, WESTWARD WIND and LONG WAY HOME. Two cuts, THERE'LL NEVER BE ANOTHER FOR ME (which sounds very similar to Seals & Crofts' latest single GET CLOSER) and NIGHTS ARE FOREVER sound, to me, like future singles.

Also recommended from the following LP's:

"Reflections of Love"-Roger Whittaker (RCA) IT'S YOUR LOVE/TIME/HERE WE STAND
 "Valdy"-Valdy and the Hometown Band (A&M) YES I CAN/PETER & LOU
 "A Banquet in Blues"-John Mayall (ABC) YOU CAN'T PUT ME DOWN/I GOT SOMEBODY/SEVEN DAYS TOO LONG
 "On Love"-David T. Walker (Ode) I WISH YOU LOVE/LOVIN' YOU/OUR LIVES/FEELING FEELING
 "Shake Some Action"-Flamin' Groovies (Sire) DON'T YOU LIE TO ME
 "Ridin' High"-Rex Allen, Jr. (Warner Bros.) CAN'T YOU HEAR THOSE PIONEERS/STREETS OF LAREDO
 "We Can't Go On Meeting Like This"-Hummingbird (A&M) GYPSY SKYS/TROUBLEMAKER
 "Keep Your Hat On"-The Jess Roden Band (Island) BLOWIN'/TOO FAR GONE/SEND IT TO YOU
 "Night Fever"-The Fatback Band (Spring) NIGHT FEVER/OH WHAT A NIGHT
 "Hometown Frolics"-Tommy West (Lifesong) THINGS ARE GETTING BETTER NOW/I KNOW/NIGHTINGALE

Bill Gavin's Personal Picks

- - - I especially like:

MEMORIES ARE MADE OF YOU-Susan Jacks (Polydor of Canada) Her style has matured, her voice has developed a new richness in quality, her performance should make this preferred programming on many stations.

TAKE A HAND-Rick Springfield (Chelsea) Label reads, "Produced & Engineered by Mark K. Smith" - and whoever Mark K. Smith is, he certainly knows how to put all the ingredients of a hit record together.

DON'T STOP BELIEVIN'-Olivia Newton-John (MCA) World premiered via satellite from Australia on RKO-Radio. The gentle voiced singer has a musical message here that should be heeded in these days of doubt and cynicism.

IF YOU LEAVE ME NOW-Chicago (Columbia) Heavily played from the LP, this quality side seems destined for a success that its predecessor didn't quite achieve.

Re-Service: HIGHFLY-John Miles (London) Label is making a second effort with this fine side, which somehow had been overlooked first time around. Classy musical production deserves attention.

Gary Taylor's Personal Pick

SUNRISE-Eric Carmen (Arista) This is his most "rock" oriented offering to date. The fact that it's lyrical, melodic, and up tempo coupled with his past string of hits provides all the ingredients of another success.

Also Possible

<u>GRASSHOPPER</u> -Spin (Ariola)	<u>ROCK 'N ME</u> -Steve Miller (Capitol)
<u>I CAN'T HEAR YOU NO MORE</u> -Helen Reddy (Capitol)	<u>TAKE ME BACK</u> -Rich Billay (Atco)
<u>CAN YOU DO IT</u> -Grand Funk Railroad (MCA)	<u>AFTER FIVE YEARS</u> -Splinter (Dark Horse)
<u>LONG MAY YOU RUN</u> -Stills-Young Band (Reprise)	<u>FLYING HIGH WITH YOU</u> -L.D. Pearl (London)
<u>YOU ARE THE WOMAN</u> -Firefall (Atlantic)	<u>I'VE GOT LOVE FOR YOU</u> -Groove Holmes (Flying Dutchman)

Inside Progressive Radio

by George Meier, Editor of "Walrus"

PROGRESSIVE RADIO EVOLUTION

In the early nineteenth century Hegel outlined his theory of social evolution. He postulated that a condition of society exists - thesis - a reaction to that condition responds in extreme - antithesis - and that eventually there is an accommodation between the two poles - synthesis. This synthesis becomes the thesis for the next antithesis and life goes on. If you want to understand the current state of progressive radio, Hegel comes in handy.

The format is currently in the synthesis stage of its development. Back at the beginning it was a typical antithesis reaction, the media outgrowth of the hippie rebellion of the same time. It was a response to two opposing forces which collided in the mid-60's. At that time the limitations of Bill Drake's format policies faced off against the vast expansion of music which resulted from the impact of the Beatles on rock and roll and Bob Dylan on folk music. Something had to happen. As is often the case, an unwilling FCC also participated in the birth of progressive radio. It ordered the separation of programming on co-owned AM and FM's. This action released the confining pressure, allowing a new format to attach itself to the birth tissue of FM radio!

The original progressive format was a purist extreme, bound by Hegelian logic to adjust over time. The current state finds progressive radio less open to easy characterization. Formats are spread over a continuum from more pop to more progressive as programmers attempt to accommodate the original purism with the realities of mass media practice.

Overall, the result seems to be that progressive radio isn't what it used to be and pop radio isn't what it used to be and the music in the air isn't what it used to be. The lesson being that pushing on is the only logical way to go.
