

THE GAVIN REPORT #1201
WEEKLY SUMMARY
(Editor, Gary Taylor)

Smash of the Week: SHADOW DANCING-Andy Gibb (RSO) It was only a matter of time before this record qualified for our smash category.

Hot: BAKER STREET-Gerry Rafferty (United Artists) The song's top ten potential demonstrates the growing musical sophistication of the radio audience.

Top Tip: YOU BELONG TO ME-Carly Simon (Elektra) Her best effort in some time has met with an overwhelming response from programmers.

Record to Watch: DANCE WITH ME-Peter Brown (Drive) Starting at 96X (17), KFI (21), WIFI (25), WNBC (25), KILT (25), WHBQ (29), WZZD (30), and WNOE (30). Already charting well with 99X (5), KOBO (9), WDLP (12), WAGQ (12), and KROK (13). Looks good!

Sleeper of the Week: No record qualifies for this listing this week.

Top New Add: STILL THE SAME-Bob Seger (Capitol) If the number of adds is a criterion, this should do as well as his last two hits.

Gavin's Gab

Meetings: Midwest Conclave & Selkirk of Canada

The Upper Midwest Communications Conclave is fast approaching and those radio and record people interested in attending should contact the Conclave at Box 6303, Minneapolis - 55406 soon, as the gathering takes place May 18-20. Topics for discussion will include radio sales, production and station research. Bill Gavin and Bob Wilson will be honored at luncheons on Friday and Saturday at the Radisson Inn Plymouth where the meeting will take place.

Managing Editor Gary Taylor, who will also attend the Conclave, flew to Vancouver, B.C., last weekend as a guest speaker for Selkirk Broadcasting's radio gathering at the Palisades Hotel. News and program directors from all over Canada attended the meeting to discuss ideas and problems, research and music programming. Gary talked about callout research procedures and explained how stations with small staffs might set up research systems. A second speaker was Chuck Camroux of International Radio Computing, Inc., Toronto, who talked about "Computerized Music Systems." Gary said the meetings were worthwhile and felt he learned a great deal about the problems Canadian broadcasters face, especially regarding the Canadian content requirements. The gathering was hosted by CKWX-Vancouver.

The Best in News and Other Awards

Three stations have been honored recently for excellence in news reporting. WVAM-Altoona received the Associated Press First Place award among Pennsylvania secondaries for spot reporting of the Johnstown Flood last year. WAAV-Huntsville was named the 1977 #1 station in Alabama for newscasts and editorials by United Press International. And, out of 1400 entries, KOY-Phoenix News Director Paul McGonigle received a Sigma Delta Chi (National Society for Professional Journalists) award for news reporting.

Jerry Clark, personality at WASH/FM-Washington, D.C., was given the 1977 Prince Georges Community Service Media Award by the Maryland House of Delegates. The Resolution offered "sincerest congratulations," stating "the entire membership extends best wishes on this memorable occasion." Jerry was honored for his extensive civic and charitable efforts.

LaVerne is doing well

LaVerne Drake, recovering from open heart surgery, is doing remarkably well at the University of California Medical Center in San Francisco, and her doctors feel she will be able to return home by May 8th. She's exercising and taking walks and is looking forward to returning to K101.

Changes to Note

KEFM-Omaha, a 25,000 watt beautiful music station, will switch formats to soft rock in the next few weeks. Rick Lane of sister station KOIL-Omaha said KEFM would remain automated.

WSJM-St. Joseph, Mich., will become a 24-hour station May 8th. It will continue playing rock music with more R & B at night.

WQTC-AM/FM-Two Rivers will split stations and formats shortly, with rock on FM and country on AM. According to John Barber, the calls on the AM change from 15Q to Q102.

May 1st marked KLWW-Cedar Rapids' 16th anniversary as a rock station. Black Hawk Broadcasting, owners of KLWW, also own KWVL-Waterloo, KCBC-Des Moines and several TV stations in the area.

All Time Favorite Specials

Many stations have run features such as THE HISTORY OF ROCK & ROLL and the EVOLUTION OF ROCK over the past month and have touched some very responsive chords in their listeners. J.R. Greeley reports fantastic response to KEWI-Topeka's airing of THE HISTORY, calling it "the finest special radio program" he has ever heard. Charlie Fox at KFXD-Boise says the station also ran THE HISTORY over a weekend in mid-April with good response. The station reserved a local theater for two special midnight showings of "American Hot Wax," the same weekend. KGAL-Lebanon, Ore., ran all 64-hours of the documentary one weekend with promotions tied in. Z96-Grand Rapids chose a six-hour documentary on the Beach Boys, and Jay Michaels says the listeners loved it. Watermark, syndicator of such specials and documentaries as "The Robert W. Morgan Special of the Week," "American Country Countdown," "The Elvis Presley Story" and "American Top 40" with Casey Kasem, will offer a new half-hour series of radio programs in January, 1979. Created and produced by Lee Hansen, the show, "Alien Worlds," will have a science-fiction approach to the script combined with rock production techniques.

Country Club

WIRE-Indianapolis always revvs up for the Indy 500 race held on Memorial Day weekend. With general activities scheduled all over town a month before the May 28th race, WIRE started the festivities on April 29th by arranging entertainment for the traditional Mayor's Breakfast. A speaker usually opens this event but WIRE billed the Smoky Mountain Sunshine Bluegrass Band from Opryland this year and Bill Robinson emcee'd for a crowd of 1700. The day before the race, WIRE will present the "Greatest Spectacle of Country Music" with performances by the Statler Brothers, Ronnie Milsap, Sonny James, Ray Price, Tom T. Hall, Barbara Mandrell and others at the Market Square Arena. Indianapolis not only will have a great lineup of cars but also a great lineup of country talent.

WDGY-Minneapolis presented the Statler Brothers and Barbara Mandrell in concert for over 11,000 people April 29th. The show was held at the Met Sports Center and was considered one of the largest indoor concerts in the area. Personalities wore tuxedos and one thrilled listener was taken backstage to meet the celebrities.

Another big plan for Memorial Day weekend is in the works at KEED-Eugene. Over the past six weeks, listeners have been sending in lists of their five favorite "all time ever" country artists. Bob Wise says a drawing for prizes such as a trip to the coast and small appliances will take place at the end of May as the promotion culminates on "The Greatest Weekend Ever."

KIKK-Houston celebrated its 21st birthday at Delmar Stadium with a VIP party "under the tent with the Texas flags" and a "Texas size buffet." Those wearing a special KIKK button were admitted. Sorry we missed it!

KFGO-Fargo's 30th birthday will coincide with the opening of their new studios and offices at 1020 South 25th Street. They plan to celebrate May 16th with an Open House. Congratulations!

Don West at KEEN-San Jose reports the station is gearing up for the Ninth Annual "Family Fun Day" at Frontier Village Amusement Park on May 27th. KEEN gives up to six tickets to participating families. The tickets cover rides and a meal plus performances this year by Barbara Mandrell and local bands, W.T. English and the Honky Tonk Heroes and Don Cox and the Cowtown Band. Don said the event attracted over 10,000 people last year.

WMC-Memphis' Open Golf Tournament for the Heart Fund will take place May 20th, Hal Jay reports. Anyone can enter for a fee of \$19 and people who are interested can call Hal at 901-726-0555. The first 200 paid entries receive prizes!

KRKT-Albany, Ore., has openings for part-timers with their third class licenses. Tapes and resumes to Bill O'Brien, 1207 E. 9th, Zip 97321.

Changes: The latest lineup at KLIX-Twin Falls, Id.: Dave Winter (5-9 AM); Bobby Dobbs (to noon); Carl Raida (to 5 PM); Dennis Conrad from KJCK-Nacogdoches, Tx., (to 9 PM); Jerry Marcontonio (to 1 AM); and Dick West (to 5 AM).

Current KKIK-Waco lineup: Ray Welch (6-10 AM); John Wallis (to 2 PM); Lee Grant (to 7 PM); and Brian Gregory (weekends).

Marti Ski from KCBQ-San Diego now is doing a weekend shift at KSON.

Bob Borino at KGRZ-Missoula was promoted from weekend talent to news director.

Carol Klein from WFBL-Syracuse joins WFMS-Indianapolis as the evening personality.

Service: KSHA-Medford needs Bluegrass singles and albums.

KTRM-Beaumont would like a copy of KING TUT by Steve Martin on Warner Brothers.

KCLT-Lockhart would appreciate a duplicate copy of the Eddy Arnold single.

Album of the Week
(reviewed by Ron Fell)

"Stone Blue"-Foghat (Bearsville) Devastating blues, boogie and rock. Two of the four bandsmen played for Savoy Brown back in '69 and '70. They are mostly British by birth, yet their success, as Foghat, has been almost exclusively here in the States. Lonesome Dave Peverett's lead vocals and the wicked licks of lead guitarist Rod Price are spectacular. SWEET HOME CHICAGO, STONE BLUE, EASY MONEY, MIDNIGHT MADNESS and STAY WITH ME are rock solid.

Also recommended from the following LP's:

Gary Taylor's Personal Pick

STILL THE SAME-Bob Seger (Capitol) Some songs become familiar quickly and find immediate acceptance among programmers. KFRC's Les Garland says of this record: "If they can't hear this they don't deserve to have ears." I agree. This is the best release of the week.

Regional Meetings

We look forward next weekend to a large turnout for our Monterey meeting. There are still a few rooms available at the Holiday Inn, set aside for our group. Our special guests will be Bill Graham, Michael Spears and Isabelle Lemon, promotion director at KNBR-San Francisco. Moderators will be Les Garland and Mardi Nehrbas. We originally scheduled Mark Driscoll as our third moderator, but Mark has accepted a job at WNBC-New York. However, he insists that he intends to fly back for our meeting. Our registration table will be open at 8:30AM Saturday morning. We'd like to start our first session promptly, so an early registration is advised. Radio people only for our Saturday sessions, record personnel welcome for Saturday cocktails and the Sunday session.

Inside Progressive Radio

(by George Meier, Editor of Walrus)

Established Progressive Airplay:

Atlanta Rhythm Section
Jefferson Starship
Wings
Genesis

Warren Zevon
Elvis Costello
Jethro Tull
Jimmy Buffett

Little Feat
Jackson Browne
Robert Palmer
Charlie

Notes: In an unenthusiastic airplay situation, when nothing is getting real intense play, at least the lines of demarcation between the plateaus are quite distinct. Many of the leading albums are gaining great help from the power rotation in the South. As per norm, standard regional influences apply. Atlanta Rhythm Section is almost twice as potent in its home region as anywhere else. While the newer music of Elvis Costello remains stronger on the two coasts, Northeast and West, Wings does not look like the powerhouse it would be expected to be.

New Progressive Airplay:

FM/Soundtrack
The Band
Carly Simon

R.E.O. Speedwagon
Les Dudek
Al DiMeola

Todd Rundgren
Richie Furay
Marshall Tucker

Notes: Again the distinctions are clear between the plateaus of new LP acceptance. Of course, these things are always subject to the shipping date versus the information gathering date problems but still something is seen. Regional patterns hold as Al DiMeola captures both coasts and Les Dudek and Marshall Tucker jump out of the South. Interestingly, the soundtrack to the film FM may develop a life of its own whether the movie makes it or not. The Band LP feels like one which will fade quickly after a good initial thrust.

Singles: Elton John's new single leads the pack. The only other significant ones are by Patti Smith and Bonnie Tyler.

Imports: This week the list of significant imports is weird. Bill Bruford remains the leader, while several LP's already released domestically still command attention. They are The Rocky Horror Picture Show, Elvis Costello's new LP and Brian Eno's new LP. Tangerine Dream trails them.

The following new tracks are filling in the air:

Les Dudek-CENTRAL PARK/GONNA MOVE Jethro Tull-ROVER/...POLICE NEVER SLEEPS/ACRES
Carly Simon-YOU BELONG TO ME WILD/HEAVY HORSES/ONE BROWN MOUSE
Steve Hackett-NARNIA/..TOUCH ME../RACING... Dickey Betts-GOOD TIME FEELING/ATLANTA'S BURNING...
Ian Thomas Band-JUST LIKE YOU Al DiMeola-DARK EYE TANGO/FANTASIA SUITE/SENOR
Brian Eno-KING'S LEAD HAT MUSE/CASINO/CHASIN' THE VOODOO
Richie Furay-IT'S YOUR LOVE/DANCE A LITTLE John Miles-OVERTURE
LIGHT/STAND YOUR GUARD

Adult Contemporary Programming
(Associate Editor, Ron Fell)

Most Active: BAKER STREET-Gerry Rafferty (United Artists) The fact that it's reminiscent of Al Stewart's YEAR OF THE CAT, and the fact that Rafferty knows what it takes to make a hit (he was one half of Stealer's Wheel) have made it just that much easier to reach the higher elevations of the A-C chart.

Worth Watching: IF EVER I SEE YOU AGAIN-Roberta Flack (Atlantic) The most added newcomer to Page Three by better than a two to one margin.

Country Club

KRAM-Las Vegas produced an hour-long special called "Truckers of the Future" that was so well-received the station ran it twice and is planning a third airing in June. The special simulates a conversation between a couple of truckers enroute from Chicago to the West Coast in the year 2000. They discuss country songs and artists that were popular "back in 1978" while the sound of their big rig engine is heard. The truckers play songs like C.W. McCall's CONVOY and WOLFCREEK, Red Sovine's TEDDY BEAR and others that identified and strengthened the mystique among truckers traveling the C.B. network. The truckers' destination in the program is Barstow because Barstow is Los Angeles in the year 2000. Johnny Steele at KRAM said Los Angeles "had fallen into the Pacific Ocean and no longer existed" in 2000. Needless to say, listeners loved the show.

Changes

Denny Luell at KUHL-Santa Maria, Ca., reports that with a power increase from 1000 to 5000 watts officially approved May 4th, the station now has "the strongest signal on the coast from Monterey to Ventura." In addition, the format has changed from Adult Contemporary to Top 40. The station will celebrate the power increase on June 1st by giving away \$5000 worth of cash and prizes.

Dan O'Day, publisher of the radio comedy service, "Obits & O'liners," just purchased "Kaleidoscope News Service" from John Farrell of Concord, Ca., and has changed the name of the music information service to "Galaxy." Dan said his aim is "to reincarnate the best of the old service along with several innovative features." "Galaxy" will be published out of Baton Rouge, La., under new Managing Editor Ross Brittain of WJBO. For further information, contact Dan at 209-431-1502 or write "Galaxy," Box 3763, Baton Rouge, 70815.

KPNW-Eugene will begin celebrating its tenth anniversary as an Adult Contemporary station in mid-July and Assistant P.D. Bill Barrett asks artists and ex-KPNW jocks to call him at 503-485-1120 for taping of anniversary tributes. In addition to artists and jocks, Governor Robert Straub of Oregon, the police chief of Eugene, and other officials will contribute congratulatory greetings to the 50,000 watt outlet.

Jim Alan at KBRC-Mt. Vernon, Wa., reports the station will go 24 hours Memorial Day weekend. He also asks ex-KBRC jocks and artists to call the station with greetings. Amidst old jingles, taped tributes from local dignitaries and Larry Lujack's HISTORY OF ROCK, aired in three segments, KBRC will give away \$24 an hour all weekend. The celebration is being promoted with the phrase "14 goes 24" which Jim says is drawing a lot of interest from people just wondering what the phrase means.

KOBO-Yuba City, Ca., has been expanding and remodeling since late last year and is now happy to announce the new on-air studio, two production rooms and additional office space have been completed. KOBO is owned by Concerned Communications Corporation, a five station chain.

A San Francisco "Day" in Lawrence, Ks.

KLWN/FM-Lawrence sponsored a Midwestern version of a Bill Graham "Day On The Green" May 4th that jammed the Lawrence Opera House with 5-6,000 people. Originally, the event was meant to happen on the green in front of Allen Field House on the University of Kansas campus but unusually cold weather cancelled that plan. A lineup of local favorites played from 2 PM to 1 AM while the thirsty crowd consumed 27 kegs of free beer. There were "Day On The Green" T-shirts gift certificate giveaways plus live cut-ins on KLWN. Except for warm weather, the Lawrence, Ks., audience probably enjoyed as fine a "Day On The Green" as a Bay Area audience at the Oakland Coliseum--completely free at that.

Dance Partners

John Walton at KEIN-Great Falls reported an unusual occurrence at a benefit dance-athon there last month. The Cerebral Palsy people arranged a 24 hour dance-athon to be run over a weekend. The event was set up at the State Fair Grounds, complete with a band. Practically no one showed up however, and that became a problem by 3 PM Sunday afternoon when only \$500 had been raised. With two hours to go, the Charity called KEIN and asked weekender Dave Richards if there was anything he could do. Dave moved out to the Fair Grounds and people started arriving as he sang with the band and danced. John said that in the remaining time, \$3200 was raised, bringing the total to \$3700.

A Programmer's Hint

Out of whim, Gary Dixon at KSDN-Aberdeen added REVOLUTION I from the Beatles' Double White album last week and says he's getting phenomenal phone action with no negatives. He thinks the four minute cut "fits perfectly with music now, in its style, tempo and beat."

Upping the Profile

The current parcel of movies about the radio and records industries is loading good promotional material on a lot of stations. Wolfman Jack, starring in "Hanging On A Star," stopped at WNCI-Columbus and KOIL-Omaha last week for on-air interviews, T-shirt and ticket giveaways and appearances at the premiers. The movie, about a "rags to riches" rock band, also stars Deborah Raffin. The Amarillo premiere of "The Buddy Holly Story" will see KPUR running a Buddy Holly song contest, giving away VIP passes to the movie, plus a top line guitar. The big winner gets a recording session and audition with Epic Records. Other movies centered around the industry now include "American Hot Wax," "The Last Waltz," "FM," "I Wanna Hold Your Hand," and soon to be released, "Thank God It's Friday" and "Sergeant Pepper."

Late Flash!

Frank Colburn, program director of FM/KVI reports huge phones on Steve Martin's KING TUT. Frank says that according to Warner Brothers, the record is also on KING and KJR. Eric Norberg reports #1 requests at KEX-Portland and tells us the record is being aired at KMPC and KVI.

Inside Progressive Radio

(by George Meier, Editor of Walrus)

There are not many remarkable albums in this week's pile, yet each one chosen has something special about it.

First, is a beautifully packaged album called The Last Waltz which is a soundtrack to a movie at the same time that it commemorates the last performance of a marvelous band called The Band. It is an important album because it leaves you with a feeling that the old days - the wonderfully fertile 60's - are really over. The album conjures remembrances of the high school reunion which proved that you can't go back. Still, it has its wonderful moments; Neil Young singing with bad backing vocals by Joni Mitchell, an exhilarating version of "I Shall Be Released" with a cast of thousands (all stars) and Dr. John tearing it up with "Such A Night."

Then there is Todd Rundgren. He has been thought of as the man most in need of an editor in these parts. However, his new album is a tour de force. He wrote all of the terrific songs, played all of the accompanying instruments and produced it too. This time his judgement was just fine, excess is contained and those songs come ringing through.

Notable for a big switch is Willie Nelson's album. Willie shows just how good a singer he is by bringing new life to a batch of tin pan alley standards in an album called Stardust.

Finally, for eloquence an old Nashville hand named Jack Clements comes out from behind the console to put together an artistic beacon. It is clean and tasty all the way.

Country Club (cont'd. from pg. 6)

WDAF's participation in Kansas City's third annual "Possum Trot" celebration was instrumental to its overwhelming success last weekend. Possum Trot is a civic group dedicated to the preservation of historic Kansas City. WDAF helped organize a Country Show complete with booths, square dancing and live broadcasts of appearances by Jim Ed Brown & Helen Cornelius and Joe Stampley. The celebration pulled 10,000 people and raised \$15,000 for Possum Trot, making this year's benefit the most profitable yet. WDAF is now assisting the local Firefighters by distributing 25,000 emergency phone stickers through call-ins and sponser locations. Ted Cramer anticipates they'll all be given away by mid-May, the way they're going.

DIVERS DO IT DEEPER caused a few ripples of excitement in Fayetteville when WFAI ran a call-in contest that gave listeners the chance to win a diver's kit made up of mask, snorkel and fins. Everytime the station played a cart of bubbling noises, callers guessed when the jock should stop the tape. If correct, winners received a bumper sticker and a copy of the David Allen Coe single, in addition to the diver's kit.

Dr. Sam at WLWI/FM-Montgomery sent a letter detailing L92's recent activities. The station gave away a \$12,000 customized van to the winner of its secret serial number contest in late April. Ronnie Milsap and Barbara Mandrell provided a major part of the entertainment at the station's Open House on April 21st. Ronnie was on the air for an hour and Barbara stayed the whole afternoon. A Fourth of July picnic with Hank Williams Jr. and the Bocephus Band is also in the works. Dr. Sam, also known as "The Good Doctor," says reaction to the promotions has been great and "everyone is tickled to death."

Frank Jenkins, P.D. at KOTY-Tri-Cities, Wa., reports the promotion KOTY is now running "has probably never been done before." Selected callers give the station their favorite word (up to five letters) and receive the word in the form of three-dimensional styrofoam signs made especially for them. Frank says the promotion has gotten great response.

WNRS-Ann Arbor is kicking off their 20th year celebration with weekend remotes in surrounding small towns and "hamlets." Mark Thomas says the station planned for 13 or 14 remotes in towns such as Dexter, Chelsea and Saline and since late March has completed half that number.

Albums of the Week
(Reviewed by Ron Fell)

"Listen Now"-Phil Manzanera/801 (Polydor) This album surfaced in England last year and now, along with a live album "801 Live", it is finally available with something other than import status here in the States. Manzanera and Brian Eno were major contributors to the creative success of Roxy Music, but the majesty and the special ethereal spaces created on "Listen Now" are positive extensions of their talents. A sampling of cuts like LISTEN NOW, FLIGHT 19, ISLAND, INITIAL SPEED, and THAT FALLING FEELING will quickly explain why Manzanera/801 has been such a huge import success over the past year.

"Natural High"-Commodores (Motown) Ya can't get much hotter than the Commodores have been over the past year and a half and this album ain't gonna put out the flame. THREE TIMES A LADY is sure to be covered by many artists in the years to come. FLYING HIGH, FIRE GIRL, SUCH A WOMAN, and I LIKE WHAT YOU DO should also be contenders for single status.

"Heaven Tonight"-Cheap Tricks (Epic) The band takes the quantum jump from goodness to greatness with this album. They seem to have shaved some of the kinky edge from their past work and slip more comfortably into the mainstream of rock and roll. Cuts to be reckoned with include: TAKE ME BACK, SURRENDER, STIFF COMPETITION, CALIFORNIA MAN, and AUF WIEDERSEHEN.

"Dance Across The Floor"-Jimmy "Bo" Horne (Sunshine Sound/TK) Although the entire album is stamped with the K.C. and the Sunshine Band sound, Jimmy "Bo" fronts the band in a solo style all his own. Danceable and playable music like GET HAPPY, LET ME BE YOUR LOVER, GIMME SOME, I WANNA GO HOME WITH YOU and the current single DANCE ACROSS THE FLOOR can put your feet into overdrive.

On The Record

What is a hit? Ten years ago that would have been both a foolish and a useless question. Everybody knew the answer: A hit is a record that sells. In most cases, record sales determined radio airplay. Radio airplay of newer records influenced their sales - if any. Today, things are different. Record programmers have redefined their definition of a hit: A hit is a record that pleases most of the listeners to an individual station. Sales are no longer the sole and essential criterion. Of course the majority of selling records still do please the majority of radio listeners. But not all. However, with the steady growth of LP programming, LP sales exert a larger influence than previously as a programming guideline. The constant erosion in the number of selling records - the diminishing number of singles buyers - reduced the accuracy of the sales yardstick to the point where it was no longer a reliable guide to the total station playlist. Programmers, still looking for objective data as a guideline, tried incorporating listener phone requests and juke box plays. Neither was a wholly satisfactory source.

Then somebody tried phoning people at random, asking questions: age group? stations most listened to? favorite records? Then a list of record titles (the station's actual playlist) with the questions: familiar? like? dislike? tired of it? neutral? etc. Then somebody else tried playing brief record excerpts over the phone, writing down the response to each one. Some programmers, not trusting the phone techniques, are mailing out return cards that show the listeners' response to various records and LP cuts.

Call out and mail out research are the newest - and most successful - guidelines to radio's record programming. Programmers no longer have to depend entirely on sales reports, although many still do. Sometimes a selling record may rate strongly negative with a station's listeners. Conversely, a call out favorite may not be showing all that well in sales.

This type of research is sometimes referred to - inaccurately - as "passive research". Although it is designed to sample that group of listeners who neither buy records or phone in their requests or even participate in station contests, there is no assurance that the randomly selected person answering the phone call is either passive or active. It hardly matters. If the "phonee" is a radio listener, that makes the call a valid part of the sample.

As trained research people never tire of telling us, the form and wording of the questions and the way they are presented are critical to obtaining accurate data. Getting the wrong answers would be worse than no answers at all, since the inaccurate responses would most certainly lead the programmer in the wrong direction. These professionals also specialize in "attitudinal" research - finding out how listeners respond to such things as commercials, air personalities, news, contests and so on. New record releases are generally excluded from the call out routines. Listener responses to the various current releases help to determine their rotation and to identify those that are burned out.

Record promotion people find it difficult to accept the fact that a rock station will refuse to play a certain record that has been selling in "hit" volume. If the programmer's research has shown a negative response from that station's listeners, the sales data will be ignored and the record will not be played. It's a fact of life that the record industry might as well accept.

Regional Meetings

Our regional meeting in St. Louis drew attendance from Iowa, Wisconsin, Illinois, Indiana, West Virginia, Louisiana, Kansas and, of course, Missouri. Our discussions Saturday forenoon were moderated by Charlie Lake and went deeply into such items as news, promotions, air personnel, research, station image, and commercials. Paul Drew joined us for lunch and handled the entire afternoon session, first with some prepared remarks and then with thoughtful answers to many questions.

Paul emphasized that there are three essential ingredients in making a successful program director - creativity, hard work and a superior facility. Also, who says that the PD must be solely responsible for creative ideas. The smart PD surrounds himself with creative people. All of his responsibilities should be thoroughly cleared with management when he first takes the job. Paul feels quite certain that scientific research, formulas and computer technology will never replace the human element in radio. He referred to a portable, three pound computer with millions of memory cells - the greatest computer of all - the human brain.

Carol Singer did an excellent job of moderating the Sunday session, at which we were joined by a number of record people - some local and some regional and national - from Texas, New York and California. Discussion was confined mainly to various kinds of music research. The growing use of selected album cuts calls greater programmer attention to album sales data. Some of the record people protested the practice of certain programmers of rejecting a record for airplay because of its negative response on call out research, even though the record was selling in hit volume. "How can a PD say it isn't a hit when sales say it is?"

Bob Osborne, of KMOX, drew a round of applause with his statement that record promotion in St. Louis had made a "fantastic improvement" in the past few years.

Following our Monterey meeting this week our next regional gathering will be held at Columbus, Ohio, June 3 & 4, at the Marriott Hotel. Our special guest will be Kent Burkhart. Moderators will be Dave Bishop (WCOL-Columbus) and Bob Goode (WROK-Rockford, Ill.). Those planning to attend are advised to pre-register early. Fees: \$30 (\$35 at the door) for radio, with a discount for four or more from any one station. Record registration of \$25 covers Saturday night cocktails and the Sunday session. Opening session kicks off Saturday morning at 9:00. We've just completed arrangements with the Kahala Hilton in Honolulu for a meeting there on Saturday, November 18. Early registrations for this meeting are a must for all who will require hotel reservations. The Kahala Hilton can make only a dozen rooms available for our group. They will be assigned in the order in which requests are made. It's a busy tourist season, and late registrants will have to find hotel accommodations elsewhere.

Country Club

WBAM-Montgomery was recognized for excellence in news coverage and public service by United Press International and the Alabama Forest Festival Committee. Governor George Wallace presented WBAM with the 1978 "Communicator of the Year Award" for its public service promotion of fire danger ratings, the Alabama forests and the state Forest Festival. The station's news team won three U.P.I. awards for 1977 in the spot news, public affairs and feature story categories. Since the weather is severe during the Spring and Fall, WBAM is giving away weather radios and maps to its listeners. The maps pinpoint weather stations throughout the state.

Our third regional meeting this year opened at the seaside Holiday Inn in Monterey last weekend under blue skies and balmy 75-85 degree weather, putting all of us in near-holiday spirits. The discussion sessions so admirably led by Les Garland, Isabelle Lemon and Michael Spears on Saturday, and Mardi Nehrbass and Bill Graham on Sunday, were generally stimulating and thought-provoking. Our meeting was well attended by Californians and by radio people from Colorado, Wyoming, Washington and Oregon. All but one of our San Francisco office staff attended the sessions, and we appreciated meeting face-to-face all those we talk with on the phone every week. A surprise tribute to Bill Gavin from Bob Hamilton and Buzz Bennett of "Fred" Magazine was warmly presented at the close of Sunday's meeting.

Subjects covered in the discussions included various kinds of audience research, audience measurement, growth of album airplay, jingles, commercials, promotions, personalities, management, community affairs, news, production, copyrights and the F.C.C.

Les Garland began Saturday morning with a talk about the differences between medium and major market stations that programmers must handle as they move upward. He stressed the importance of learning about a market and its history, plus the need to develop management skills. In smaller markets, programmers can run a one-man show but "there's no way in the world you can do it all yourself" in a major. Time management and organization are keys to success in a major, he said. A specific audience target is necessary, otherwise "all that music information and research" is useless. In the floor discussion that followed, major concern centered on the use of callout research. The importance of callout techniques was emphasized. "People don't want calls that sound like telephone solicitors," said Vicki Larson (KUGN-Eugene). Another programmer claimed, "It keeps you honest and refines your judgement" through contact with listeners. On Sunday, record people expressed concern that "research and computers" were "replacing" the promotion man. Although that comment brought general disagreement, it was made clear that callout research is not used to select new adds. Michael Spears reinforced the criticism that there is an excess of complicated, expensive, time-consuming research with his comment: "You keep removing and removing (the negatives) and eventually you'll end up with a stale, boring station." Mail-outs and one-to-one discussions with listeners were suggested as economical alternatives to callouts for stations with smaller staffs.

Isabelle Lemon, manager of advertising and promotion at KNBR-San Francisco, said the most cost-efficient promotions in her opinion, are outdoor ones. She described the success of KNBR's "Amalgamated Joggers" organization and said the station's annual "Bridge to Bridge" run attracted an enormous number of non-listeners and was "self-liquidating" through the sale of T-shirts. All profits are donated to charity. Advertising in other media should appear integrated and self-reinforcing. "TV is a wonderful form of exposure," she said, while print is her least favorite because its effectiveness depends on the size of the ad. She emphasized that promotions do not require a "gigantic budget." Station publicity can be drawn from unlikely places such as "Letters to the Editor" of local newspapers.

Michael Spears stimulated debate Saturday afternoon with thought-provoking questions. He called AM stereo impractical because receivers would require conversion, but Don Hofmann at KSFO-San Francisco said "AM stereo can be just as competitive as FM." Michael advised programmers to keep track of illegalities; "It's very illegal to offer as prizes the 'Top 100' of the year on tape or to encourage listeners to 'get your recorders ready.' When a \$12 million license is sitting on the line, it's worth a call to your attorneys."

Among several meaningful comments from Buzz Bennett was one in which he reminded us that advertising schools of local colleges often have bright, young, marketing majors who will project for a local station, a market's future demographic characteristics.

Mardi Nehrbass began the Sunday session with a discussion of the changing role of promotion people and how they can better assist stations in relaying new ideas to programmers and listeners. Bill Graham talked about his past, calling himself "a baby with radio" when he started promoting and managing artists 13 years ago. He confessed that "the power of radio is awesome." He told programmers "to take it one step further--don't always give them (the audience) what they want." Sometimes, he said, it's better to let people hear something they ought to hear. In today's concert production, the headline act dictates the supporting cast, taking that function out of the producer's hands. In looking back over his long and colorful career as a rock concert impresario, he said that he had always taken radio for granted, and that he had never realized until very recently the influence exerted by radio in helping to build concert audiences. We were glad to find this famous man so gracious and humble in manner, and we were honored that he came to Monterey to join us there.

...and here's a comment about our St. Louis Regional from Chuck White, P.D. at WJBO/WFMF:
"As the years go by, I continue to wait for your meetings to 'burn out.' Fortunately, they're not even ready for recurrent yet. Still a hit--always a hit--Gavin Regionals. Thanks so much. See you in Houston."

John Leslie, morning man at KCKN-Kansas City, received international press coverage after placing a transatlantic phone call to London on behalf of his listeners. John thought his audience might enjoy hearing the chimes of Big Ben first hand. He called a pubkeeper in a tavern located across the street from the clock tower one day and asked him to put the receiver out the window while the chimes rang. The bartender thought it was a joke and hung up, but after several calls and many letters from KCKN listeners, they finally heard all twelve chimes at noon. The 29 year old pubkeeper and his wife received a complimentary week's trip to Kansas City for his efforts, and the story was covered by the Associated Press in London.

The inmates at the prison in Avon Park, Fla., are trying to form a country band and need help, Larry James at WBT-Charlotte reports. They could use old records, instruments and equipment (drums, guitars, microphones and so on). Please contact Lawrence Cousineau, #52313, Box 535, P.O. Box 1100, Avon Park, Fla., 33825, with assistance or information.

Here's how two stations celebrated Mother's Day with their listeners. WXYQ-Stevens Point asked people to "send your name in and give your mother a dream day." Out of 650 entries in ten days, the winner, one of 14 children and the eighth daughter of the family, gave her mother a dozen roses, a gift certificate to a fashion store and a dinner in a local restaurant, compliments of WXYQ. The station played old favorites on Sunday such as Jimmy Dean's I.O.U., C.W. McCall's ROSES FOR MAMA, Hank Williams' I DREAMED ABOUT MAMA LAST NIGHT and Melba Montgomery's NO CHARGE. WFSR-Harlan, Ky., allowed listeners to wish their mothers a Happy Day over the air. For nine hours on Sunday, the phone lines remained open, and one special mother every hour won a prize. WKOR-Florence is asking listeners trivia questions for passes to the movie, "Harper Valley P.T.A." All participants receive two passes, but those who answer incorrectly also receive a letter from the Harper Valley School.

Gavin's GabBig Spring Events from Deep South to Rocky Mountains

The WIRK-West Palm Beach "Giant Whip Off" May 14th drew 6000 people. Promoted for over a month, the grand prize was a 1978 automobile. Jim Howie said 129 keys were placed in a big container of whipped cream and 129 people were chosen to slide in and find one each. After 125 contestants, one a 240 pounder who "really creamed it," they had a winner. Since regular blenders were used, Jim said it took the station 17 hours--from 3 PM Friday to 8 AM Saturday--to mix all the cream.

The tenth annual "Ramblin' Raft Race," sponsored by WQXI-Atlanta and the Ramblin' Raft Association was held May 20th for an estimated 400,000 people, J.J.Jackson said. The race, open to any registrants, is run for 9.2 miles along the Chatahoochee River. The River is covered with the rafts of restaurants and shops selling various items. Events are scheduled before and after the race. WQXI's raft carried a portable john. People from as far away as Canada came to race.

Brother John Leeder and Darrell Douglas set a park record at WMAK-Nashville's "Day at Opryland U.S.A." May 20th. Jim Holton said the two personalities spent twelve hours straight on the roller coaster. The two buckets they attached to their cars before the ride began probably came in handy. Local bands played all day, and that evening, "Hollywood Holton and the Boys" staged a "Fifties-Sixties Sockhop." The grand prize in a numbered ticket drawing was a jukebox filled with "oldies but goodies."

The "Great Rocky Mountain Balloon Race," featuring KOOK's blue and yellow "Friendship," was held in Billings May 5-7. Although 43 hot air balloons were entered, all 43 didn't get off the ground due to rain. But trophies for the contest, which included such requirements as scooping water from the river and picking leaves off of trees while in the balloon, were awarded. People from Canada, Idaho, Wyoming, Colorado, the U.S. Army and well-known companies entered balloons, according to P.D. Allen Moos.

AM over FM in One Easy Splice

Steely Dan's FM isn't giving many AM programmers gray hairs but Phil Schwab, M.D. at WDUN/AM-Gainesville, found a way to eliminate the question. He took the AJA cut and spliced the "A" over the "F" in the FM cut. Tom Harris at sister station WWID said it takes a pretty good pair of ears to hear any discrepancies. Steely's "A" is almost in perfect key with his "F". The stations will use the edited version for the movie's premiere in Gainesville.

Albums of the Week
(reviewed by Roh Fell)

"Stranger In Town"-Bob Seger & The Silver Bullet Band (Capitol) "Night Moves" shattered the "regional" image of this motor city troubadour and now "Stranger in Town" blows to smithereens any assumption one might have that the immense success of "Night Moves" was a fluke. The immediate impact of the single STILL THE SAME will attract millions to other hot tracks like HOLLYWOOD NIGHTS, OLD TIME ROCK AND ROLL, AIN'T GOT NO MONEY, and WE GOT TONIGHT. Seger has reached an artistic plateau few musicians will ever attain.

"You're Gonna Get It"-Tom Petty & The Heartbreakers (Shelter) Spunky in a Rolling Stones kinda way, Petty and the band improve considerably upon their debut album. Their LP presentation has now caught up with their consistently strong stage performances. I NEED TO KNOW (already on KFRC-San Francisco) and sizzlers like WHEN THE TIME COMES, HURT, LISTEN TO HER, and TOO MUCH AIN'T ENOUGH are tumblin' rockers.

Also recommended from the following LP's:

- "Jazz"-Ry Cooder (W.B.) BIG BAD BILL IS SWEET WILLIAM NOW/SHINE/NOBODY/WE SHALL BE HAPPY

- "My Radio Sure Sounds Good To Me"-Larry Graham and Graham Central Station (W.B.) POW/MY RADIO SURE SOUNDS GOOD TO ME/TURN IT OUT
- "Bruised Orange"-John Prine (Asylum) FISH AND WHISTLE/BRUISED ORAGNE/SABU VISITS../IRON ORE BETTY

Gary Taylor's Personal Picks

THEY GOT NO LIFE OF THEIR OWN-Dirk Hamilton (Elektra) The first thirty revolutions build to such an exciting pitch that it's obvious something special is happening, and happen it does. Three and a half minutes of cookin' and smokin'. A must listen for the aficionados of sophisticated up tempo music.

YOU CAN'T DANCE-England Dan & John Ford Coley (Big Tree) Simply stated, this is a fun record; it is also a departure from their normal offerings, and, if successful, could point toward a new direction for the twosome.

MISS YOU-The Rolling Stones (Rolling Stone) Surprisingly, this was the most added record of the week. Surprising because the group has not generated much enthusiasm the past couple of years. The vocal arrogance of Mick Jagger is one of the appealing aspects of this better than usual effort.

Also Possible

YOU DON'T LOVE ME ANYMORE-Eddie Rabbitt (Elektra) WATCHING T.V.-Charlie (Janus)
 LOVE OR SOMETHING LIKE IT-Kenny Rogers (U.A.) THIS MAGIC MOMENT-Richie Furay (Asylum)
 NO ONE GAVE ME LOVE-Tom Jones (Epic) ASHES OF LOVE-Amazing Rhythm Aces (ABC)
 IT HURTS TO WANT IT SO BAD-Sea Level (Capricorn) OUT OF THE BLUE-The Band (Warner Bros.)
 SAD-Becky Lopez (Mercury) WILL YOU STILL LOVE ME TOMORROW-Dave Mason (Col)

Inside Progressive Radio

Established Progressive Airplay
(In Order)

Jefferson Starship
 Wings
Genesis
 Atlanta Rhythm Section
 Warren Zevon
 The Band
 Jethro Tull
FM Soundtrack
 Jimmy Buffett
 Elvis Costello
Todd Rundgren
 Marshall Tucker
 Charlie

Notes: Starship swings back to center stage with a powerful thrust in airplay. They lead a list which is dominated by the stalwarts of the music business. Only Zevon, Costello and Charlie are less tenured, but they too are making noises like future stalwarts. Regionality plays a role in the acceptance of both Jimmy Buffett and Marshall Tucker. They gain strength from the South. Something which we missed last time and which gets confirmed again is that Elvis Costello is getting significant airplay in the South, which marks the first showing of any new wave act outside of the Northeast or West coast. Otherwise, the plateaus tell the story.

New Progressive Airplay
(In Order)

Alvin Lee
Pure Prairie League
 Roy Buchanan
Foghat
 John Miles
 Ben Sidran
 Rainbow
 Allan Clarke
 Seals & Crofts

Notes: This batch of new recordings is making a soft landing in the airplay sweepstakes. None of them blasts onto the scene, including the leaders. Regionally, there is also very little to report, because the numbers show no patterns. Rather, they imply uneven distribution patterns. Only Ben Sidran's strong showing in the Northeast, relative to other parts of the country, fits a standard airplay logic. He is a jazzy sort of intellectual musician, and that kind of artist tends to do better on the East coast. On the whole, we would not expect to see any of these new entries top the charts in future weeks.

The following new tracks are filling progressive radio air:

Marshall Tucker Band-I'LL BE LOVING YOU/ DREAM LOVER/A CHANGE IS GONNA COME/ LOVE IS A MYSTERY	Dixie Dregs-TAKE IT OFF THE TOP/ICE CAKES/WHAT IF.. Climax Blues Band-MISTRESS MOONSHINE/MAKIN' LOVE/ CHAMPAGNE ROCK 'N' ROLL/WATCHA FEEL

Inside Progressive Radio
(by George Meier, Editor of Walrus)

Album Views

Digging out the bright spots in this week's pile of albums was made easier by the presence of several genuine bright spots in several different kinds of music.

To begin with, the new Tom Petty album has a few magic moments in it. Petty is one of the positive forces in the new wave of music. He, along with personages like Patti Smith and Elvis Costello, is a street rock 'n' roller who, though he may not be a schooled musician, is nevertheless a perceptive crystalizer of current street thought. Artists who are that tuned in are the ones who create, as well as reflect, the slow changes which operate like under-currents in both music and society. Tom is comparable to Elvis Costello in the sense that they are two of the most vital musicians around, and also in the sense that they both reach backward in order to take their step forward. Petty updates the '60's while Costello updates the '50's.

From new wave to return wave...as we note a good LP by Dion. After a first side which seems to be searching for a contemporary audience, he settles down to a more comfortable second side. Likewise, the new John Prine album feels as if he has stopped trying to please the mass audience. He presents himself as the fine folk singer/songwriter that he is, nothing more. Bravo for that. Again, the country singer/songwriter David Allan Coe proves to be a powerful figure with his new "Family Album".

James' sister Kate Taylor shines through on several carefully chosen songs. A really clean production makes the effort one which could give her a career.

On their live album, Daryl Hall, of Hall and Oates, proves again that he is a terrific singer. He belongs up in the Van Morrison class. Meanwhile, two fusionists make significant statements. Both George Duke and Billy Cobham issued rather special albums, not for their complexity or for their skill, but for their high quality writing. In the case of players this good, writing is the difference between showing off and music.

Finally, two finds on obscure record labels bear mentioning. There is a jazz album by Stanton Davis, Jr., no relation, on a label rightly called Outrageous, which is absolutely a celebration. It's called "Brighter Days". And on Automatic Records you'll find a group known as The Pop. They do. There are some marvelous tunes on the first side of their album.

Gavin's Gab

Transitions

Bonnie Simmons has resigned as program director of Metromedia-owned KSAN-San Francisco effective when they find a replacement. P.D. for four years, Bonnie has been with the station for nine. She will continue doing her 10-2 air shift. She commented: "It's always been two jobs. I don't think that's fair to the station or to me to do both of them. I'm interested to see what my show will be like now I have more time to devote to it. Besides, what could be better than getting off at two in the afternoon during the summer?"

As of June 5th, the acquisition of KAAM/KAFM-Dallas by Bonneville will be finalized with an entire new staff headed by Program Director Stu Bowers of KOOO-Omaha. KAAM's format (formerly WRR) will change from all news to Adult Contemporary. Other new staff members include Music Director Lee Gray (WKLO-Louisville), Phil Markert (WHEN-Syracuse), Tom Hopkins (KFIX-Kansas City), Terry Bell (KRLD-Dallas) and Bob Patterson (KNUS-Dallas). The 5000 watt outlet's new studios are located at 12700 Park Central Dr., Suite 512, Dallas, 75251. Shortly to become a Gavin A/C correspondent, KAAM requests singles and album service from all sources.

WKQB, the FM of WLAC-Nashville, will change from beautiful music to an Adult Contemporary format effective June 1st. The new album sound, complementing WLAC's mass appeal format, will be designed by Lee Abrams for a 25-34 target.

KPTL/KKBC-Reno reports their new address is: Box 10976, 89510. FM/KVI-Seattle moved May 20th and is now located at Plaza 600/600 Stewart St., 98101.

WSPD-Toledo celebrated its 57th anniversary May 17th with a party in a local park. The festivities were heightened by a five foot birthday cake.

KANE-New Iberia will celebrate its first anniversary in July. The station asks artists to call with greetings and tributes.

Nurturing the Gap

One of our correspondents sent along a form letter from a promotion person that reads:

"Potentially hit records are filed away daily without even being transmitted through radio airwaves. This is very shocking, but true.

"What is more shocking, is the fact that some music directors and program directors do not even listen to the records when they come in. They think that unless it is mentioned in a tip sheet or trade paper, it doesn't have to be listened to. A record must start somewhere...

"Your help would be appreciated by letting me know what your opinion is either by phone or by mailing me a chart.

P.S. "I must hear from you or I will have to stop sending promotion copies."

The form letter has "Second Notice" printed on it. We understand the frustration of the writer, but this is a form letter that carries a threat. A good promotion person either delivers the records when possible, or at least follows up the delivery with a phone call. This type of thoughtless behavior only broadens the gap between the two industries.

The Power of Radio

There are no "losers" in Providence...WPRO/FM's "Principal of the Year Election" (Gab 4/14) drew an astounding 50 million votes from the youth of a city of 1½ million people. The votes of students in 70 junior high and high schools filled two 40 foot trailers with paper ballots which were given to the Boy Scouts for recycling after tabulation. The trip to Bermuda went to the principal of Central High with 11 million votes who commented: "What you did in two months we could never have done for the morale of this student body."

J.R. Greeley reported a parallel experience of KEWI-Topeka's. In their latest contest, 17,000 entry blanks were distributed evenly to 60 registration sites on a Friday. By 10 AM Monday, all the blanks were gone and the station counted 17,000+ entries. It was a simple registration contest, the only prize being 87 cases (one ton) of cola. John said the station had never collected so many entries in that short a time.

Correction

Last week (5/19) we reported on page 7 that WGCL-Cleveland was on the Airwaves record. They weren't. Our error.

Country Club

WDAF-Kansas City will host the fourth annual Willie Nelson Fourth of July Picnic this year at 80,000 seat Arrowhead Stadium. Waylon Jennings and Jessi Colter, The Grateful Dead, Jerry Jeff Walker and Missouri will perform in addition to Willie, on Saturday, July 1st. The afternoon show will offer birthday cake and a wide array of picnic foods to fans. The concert promoters are conducting a ten state media campaign for the event.

The grand opening of a \$45 million zoo called the "Minnesota Zoological Gardens" saw WDGY-Minneapolis broadcasting live from the cage of two 900 lb. Beluga whales May 22nd. The animals "with their long noses, little eyes and huge bodies," left Dan Halyburton slightly unnerved by the end of the day, as he watched them eat continuously. Gregg Lindahl wasn't any great shake either after his performance with the boa constrictors. According to Minneapolis newspapers, most of the animals hid in their cages and wouldn't come out. The only act that went normally, the paper said, was the whale show, and a few others.

On May 23rd, Bob Cupit of WNAT-Natchez turned the station over to the Kiwanis Club for the day. Broadcasting from City Auditorium, the sixth annual "Kiwanis On the Air" show was staged to raise money for charity. This year's \$5-6000 will finance a Children's Halloween Party. Bob said club members sold the spots, picked and played the music, wrote the copy and read it. Two air talents were available every hour to assist them.

A flood in Billings, Montana, last week left Lonnie Bell of KOYN homeless. The water moved his house a mile from where it stood originally and damaged all of his possessions, irrevocably. The staff set up a fund at a local bank on his behalf. For those who would like to contribute, make checks payable to the Lonnie Bell Fund, c/o Rimrock Bank, 2501 Central Ave., Zip 59102.

The WBCS-Milwaukee "Moneyman Contest" climaxed May 26th with the winner emptying a bank vault of \$5000 in 103 seconds. For three months, the WBCS Moneyman traveled around Milwaukee bestowing \$50 on people listening to the station. Those who could produce the call letters written down anywhere, received \$100. The drawing of \$100 winners determined who won the spree in the bank.

KSHA-Medford's DIVERS DO IT DEEPER contest brought many amusing entries and Nick Jaggstone said the judging was difficult. The audience was asked to call in and give their slogan of who and what does it better. The winning slogan was "June Carter does it for Cash" and the author won a trip to the Oregon coast plus dinner at a local restaurant. Runner-up slogans included "Bankers do it with interest" and "D.J.'s do it in record time." The unprintable ones were the best.

Albums of the Week
(reviewed by Kent Zimmerman)

"Shadow Dancing"-Andy Gibb (RSO) This set of new tunes confirms the youngest Gibb's stature as an album artist. Just as his hit singles ensnared both teens and adults, so should album cuts like WHY, (OUR LOVE) DON'T THROW IT ALL AWAY, and ONE MORE LOOK AT THE NIGHT. AN EVERLASTING LOVE is especially notable as a well-crafted pop masterpiece.

"Songbird"-Barbra Streisand (Columbia) America's favorite songbird once again blends pop music and theatre pieces cohesively. The excellence of TOMORROW (from the play "Annie") is no surprise considering Ms. Streisand's expertise with a Broadway song. A blues song like DEEP IN THE NIGHT, also from a Broadway play "Inner City Blues", gets a comfortable pop treatment. In addition, LOVE BREAKDOWN, I DON'T BREAK EASILY, and her latest single SONGBIRD make for easy listener consumption.

"Welcome Home"-Carole King (Capitol/Avatar) Judging this LP by the folio of nature photography inserted inside could throw the listener for a loop. Paradoxically, cuts like MAIN STREET SATURDAY NIGHT, VENUSIAN DIAMOND, and EVERYBODY'S GOT THE SPIRIT contain real urban energy. Her ballads (i.e. SUNBIRD) allow for some very emotional vocal work, while a song like MORNING SUN shines beautifully thanks to the excellent back up by Navarro, Carole's Colorado comrades (present throughout this album).

"Return To Magenta"-Mink DeVille (Capitol) The soul behind the music closely resembles the earlier radio sounds of Ben E. King & The Drifters and The Righteous Brothers. The opening track, GUARDIAN ANGEL, is a freshly picked rose (from Spanish Harlem?). "A" TRAIN LADY, I BROKE THAT PROMISE, and JUST YOUR FRIENDS each benefit from Jack Nitzsche (of Phil Spector fame) arrangements. SOUL TWIST is simply a rouser. Special kudos goes to some beautiful prose on the liner.

"Worlds Away"-Pablo Cruise (A&M) "The Cruise" checks in this week with a gem. At times they sound Doobie-esque. Instrumentally strong, pianist Cory Lerios adds a careful rhythmic texture to even the hardest rocker (WORLDS AWAY). FAMILY MAN sports some sensitive lyric, while DON'T WANT TO LIVE WITHOUT IT serves a funky/disco beat. Other standouts are Peter Allen's I GO TO RIO and of course their latest single LOVE WILL FIND A WAY.

(Ron Fell is on vacation)

Gary Taylor's Personal Picks

RUNAWAY-Jefferson Starship (Grunt) The Starship's popularity is re-launched with what may be the summer's top lyric, and radio already has given its endorsement.

SONGBIRD-Barbar Streisand (Columbia) The word "Songbird" is often used when speaking of a woman who sings. Musicologists might add, "e.g., Barbra Streisand, The woman who sings". Her fervent voice ranks supreme in quality.

KISS YOU ALL OVER-Exile (Warner Bros.) Almost David Bowie-ist in presentation, yet mainstream enough to satisfy the majority of ears. The evaluation of the lyric is the key to the record's future.

Also Possible

HOT LOVE, COLD WORLD-Bob Welch (Capitol)	RIVERS OF BABYLON-Boney M (Sire)
ANYTIME-Journey (Columbia)	HEARTBREAKER-Nantucket (Epic)
PORTRAIT (HE KNEW)-Kansas (Kirshner)	PROVE IT ALL NIGHT-Bruce Springsteen (Columbia)
STAY-Jackson Browne (Asylum)	SOMEONE TO LAY DOWN BESIDE ME-Karla Bonoff (Col.)

The Week That Was

"When it rains, it pours" is an old saying that has for many years been used as a slogan for a certain brand of table salt. The phrase could also be applied to events of the past week, in which I received special awards from three different sources.

On Sunday, May 14, at the conclusion of our Monterey Regional Meeting, Bob Hamilton and Buzz Bennett, publishers and editors of "Fred" magazine, presented me with a plaque bearing this inscription:

"TO THE FATHER OF OUR INDUSTRY - BILL GAVIN"
 With Great Respect From The Industry's Children
 Buzz Bennett Bob Hamilton And The Family of Fred
 May 1978

On Friday, May 19, I attended the opening session of the Upper Midwest Communications Conclave, held at the Plymouth Radisson Hotel, just outside Minneapolis. Featured at that session were (1) a fascinating talk by Mike Phillips, owner-manager of WMNE-Menomonie, Wis., and (2) a panel on radio sales, moderated by Peter McLane, program director of KFJZ-Ft. Worth, and for many years previously PD of KIOA-Des Moines. At the luncheon that followed, Dan Brannan, PD of KFYZ-Bismarck, presided and presented me with a plaque carrying this inscription:

UPPER MIDWEST COMMUNICATIONS CONCLAVE MAY, 1978
 FOR OUR FRIEND BILL GAVIN
 Whose Continuing Support and Friendship Will Always Be Held With Great Respect
 Our Sincere Appreciation For The Interest At The Gavin Report
 In The Upper Midwest Radio Broadcasting Community

I was unable to remain for the following sessions, since I had to move on for an engagement in Eau Claire. It was in this beautiful little city at the confluence of the Chippewa and the Eau Claire Rivers that I started high school in 1919, and where I graduated from the State Normal School in 1926. This little teacher training institution has now grown into the University of Wisconsin - Eau Claire, with an enrollment of 10,000 students and a graduating class this year of over 1,000. I had been invited to attend the annual alumni banquet, at which I was presented a most prestigious award. The plaque reads:

UNIVERSITY OF WISCONSIN EAU CLAIRE ALUMNI ASSOCIATION
 This Is To Certify That William S. Gavin Has Been Awarded
 Special Recognition For Outstanding Service And Achievement
 ALUMNI DISTINGUISHED SERVICE AWARD 1978
 (Signed) Leonard Haas, University Chancellor
 Edmund K. Elworthy, Director of Alumni Relations

Receiving such warm and generous recognition, compressed in time to less than one week, has been both a thrilling and a humbling experience. I have never thought it particularly noteworthy that our publication should follow the path of honest journalism, but it is heartwarming to realize that others find our efforts worthy of praise.

Going far beyond the areas of appreciation awards, my greatest satisfaction and reward lie in the many personal friendships that have grown out of long years of mutual trust and understanding. Janet and I always treasured the family feeling that developed spontaneously with our correspondents. When Bob and Buzz inscribed me as "father of the industry", they were, of course, exaggerating enormously. But I'll always be happy to be its "Uncle Bill".

In accepting these and other past honors, I can only repeat what I said at Eau Claire - that I accept them as a tribute also to the one who was partner and inspiration for all my undertakings, graduated magna cum laude, University of Wisconsin at Madison, class of 1934, Janet Breed then, and Janet Gavin always in our memories.

Note: The Gavin office will be closed Monday, May 20, Memorial Day.
