6. In showing phone requests for newer items, list only records that do not appear elsewhere in your Action Report.

7. Under "Stiffs Dropped", list only those records that have been dropped from the playlist because of insufficient sales or request support. Never list the worn out hits that have dropped off the playlist.

8. Please note the instructions on LP cuts. Be sure to indicate favorable listener response to any of the cuts. Show the new cuts added as well as those still being played. Do not list LP cuts that are already available as singles. When showing an LP cut as "Top Ten" or a "Gainer" on your numbered chart, be sure to note that it is from an album.

9. Phone reports. Those who phone their reports are advised to fill out this Action Report form first and then read it off on the phone. Please don't call us collect.

10. Adult-Contemporary reports need not be based completely on sales and request data. Under "Top Ten" may be listed the records in maximum rotation frequency. Under "Other Gainers" should be listed those sides whose rotation frequency has been increased.

11. Whenever possible, please include demographic information.

### Correspondents' Reporting Procedures

1. Be sure to fill in the spaces for your name, call letters, city, date and station format.
2. List your top ten, showing last week's and this week's chart positions. Always list the artists' names. Titles are optional.
3. Under "Other Gainers" indicate those records that are moving up on your chart - all that show any upward movement. When listing chart debuts, list only those that have moved up from your extra or hitbound list. Stations that chart new adds with a number should not list them as "Gainers" but should list them in the "New Adds" section on the upper right of this form.
4. Under "New Sides Added This Week" indicate all new airplay. In the case of a new add that has rated a chart number because of local sales and/or requests, without previous airplay on your station, indicate sales by an underline and/or requests by an asterisk (\*).
5. "Newer Uncharted Extras" refers to adds from previous weeks that are still being played but which have not yet made a number on your chart. Be sure to underline any records on which you have received sales reports. Do not list recurrenents.

## Note From Bill

*Bill's been on his trip of a lifetime for less than one week and we've already received his first diary notes. We share them with you now, knowing many of our readers enjoy Bill's notes.*

12/7 - 7PM. Arrived L.A. Airport, checked UTA (Air France), 10:25 flight for Papeete cancelled. "We'll put you up at a hotel. Stand by the door - look for mini-bus marked "Airport Hotel". I did - got aboard - found it was the "Skyway Airport Hotel". Got off - asked cab driver to take me to Airport Hotel. He said "No - I've been here an hour waiting for a fare, and your hotel is just outside the airport". Had to wait until another fare came along. Then we shared cab and he took me to my hotel. But it wasn't - it was the Century Airport Hotel - a real flea bag. Phones for cab. None came. Hailed one - (and in L.A. that's pure luck) went to Airport Hyatt. Paid for it myself.

12/8 - 6:30AM. Checked in at UTA - flight due out at 7:15AM. Took off 8AM. Seat partner Cole West (movie actor bound for shooting a film in the outback of Western Australia. Real name - Wesley Cordell Christenson.) Other seat partner a French woman from Toulouse, who speaks no English. I tried my high school French on her and was delighted when she understood.

Mr. Christenson knew everything about everything and everybody. He had been everywhere - almost - and knew the Pacific Islands intimately. He left no doubt that at age 66 he was still a real stud, having little interest in women near his own age.

He slept for a while during the movie - as did I - but his talk was at least as interesting as a novel, and it helped to pass the long 8 hour flight to Tahiti.

We arrived at 2:05PM local time (4:05 Pacific), sky overcast, slight breeze 90° temp., high humidity. The next flight to Bora Bora was filled and my next available space was at 10 o'clock - last flight of the day. So I looked for a taxi for sight seeing - woman driver - 1500 francs per hour - she summoned her two daughters (Marvela-huit & Mudora-neuf) along for the ride. Went to a view point looking across to Moorea. Took some pix. Then downtown to the public market, where I used my flash to show the fish, fruit & vegetables, but mainly the fascinating faces of the people seeing them.

Hungry at 5PM, dining room doesn't open until 7 (French custom). so its a sandwich at the lunch counter.

Previously I had gone into the men's room and shed my California clothes for tropical whites, a welcome relief - but a fearful crowding of my suitcase. Repacking is top priority. Scenery on Tahiti lovely but so far nothing superior to Hawaii. Perhaps Bora Bora?

### MICHAEL SPEARS GOES NEWS/TALK

Michael Spears' successful career as a Program Director was spent fine tuning some fine radio stations (KNUS-KFRC-KHJ) and he's at it again, this time as the General Manager. His latest programming change includes changing call letters and format at WFSO-Tampa/St. Petersburg (Album Radio), to WPLP - News/Talk radio patterned after such stalwarts as KGO-San Francisco and KABC-Los Angeles. Michael writes: "I must say it's a rather enlightening endeavor putting one of these kinds of stations together, coming from a music background." His first move was to hire John Eastman, top rated talk host, as the headline attraction. Stay tuned as Michael presents more talk - more often.

## P.D. Notebook

(by Eric Norberg, KEX-Portland)

- The FCC's quota approach to public affairs and "other" programming often places unrealistic burdens on stations, and though the Commission places a premium on such programming run in the course of the regular broadcast week, it expects broadcasters to run at least the minimum amount of each category pledged in the license renewal application. Public affairs and features categorizable in the "other" category can very profitably be constructed in small capsules and run in high-listening times in stations of all formats - but small capsules don't fill the hours you committed. Most stations toss the remainder of their public service programming in odd hours on week-ends. Broadcasters tend to be defensive about this, but you should be aware that there can be very sound positive reasons for doing this.
- In the markets I am familiar with, experiments I have conducted have shown that audiences are uniquely receptive to such programs on - surprise - Sunday morning! However, I have found no indication that the same is true on Saturday or Sunday nights. The ratings should tell you if this pattern is the same in your market. There may actually be value to you in your market - in terms of audience size - in staying in service programs till fairly late Sunday morning; stations that get into music early in the morning sometimes show weakness till the midday period.
- No service programs will command an audience unless there is something of value and interest in them; however, some of them may pragmatically be sponsored religious programs or the like. In the discretionary programs, the stations that do best are the ones whose Program Directors have taken considerable pains to find the best shows. Though it's true that "documentaries" per se no longer can be classified as "public affairs" unless they deal with issues which rank in your community ascertainment of regional problems, it should come as no shock to you to discover that because such problems are on people's minds, an intelligent discussion of the problems can be interesting to your audience. Such programs need not originate locally to be topical and applicable; there are several fine ones distributed nationally.
- As for religious broadcasts, the most commonly available shows tend not to be of specific interest to the nonreligious. The most stimulating religious services often tend not to be offered to broadcasters - the ministers are less interested in raising money for worldwide ministries than in reaching members of their own congregation. They are often more than pleased to cooperate with a station that seeks them out with an offer of airtime, and will usually find the funds to cover all incidental line or tape charges to make use of sustaining airtime. This sort of program development is not as uncommon as you may think - among the successful stations! (Hint: Check out the churches with special appeal to college students.)
- All of this is nothing more nor less than the obvious (but often somewhat neglected) principle that all program elements should be maximized in appeal to your audience, as a matter of course. FCC commitments may be met without resorting to "throwaway" programs - with a little effort!
- By the way, though documentaries about music and entertainment are no longer classifiable as "public affairs", they certainly do qualify as "other" programming if they contain interviews and commentary, and the music is selected to complement the text; if you're logging such programs "E" instead of "O", you're definitely missing a bet. On the other hand, the FCC has decided that secular music played in a religious show is not classifiable as "religion" ("O"), and in programs which drop short religious thoughts into a secular DJ show setting, only the time spent in the religious thoughts can now be counted for "O" credit! This does not apply to hymns and religious songs, however. Nonetheless, stations which have been counting on these "religious" DJ shows to fulfill their "O" credit obligations now may have a more urgent reason to consider the form of program development just discussed than they may have believed!

The five best songs submitted by listeners will be played on the air so that the audience can vote for their favorite. ## Albums of the Week

### Reviewed by Ron Fell

**"YOU FOOLED ME"-Grey & Hanks (RCA)** Don't know if it was intentional or not but the similarity between this album and those produced by Maurice White (E.W. & F. and The Emotions) is significant. Sparkling brass tracks with lush vocals and an infectious beat throughout. Len Ron Hanks and Zane Grey are contenders. YOU FOOLED ME, GOTTA PUT SOMETHING IN, DANCIN', WAY OUT TO GET IN.

**"MIDNIGHT DIAMOND"-Dobie Gray (Infinity)** This album launches career phase three for Dobie. In '64 it was THE IN CROWD on Sonny Bono's Specialty Records. In '73 it was DRIFT AWAY on MCA, the label which also carried him thru hits like LOVING ARMS and WE HAD IT ALL. Now, after a three year lull he returns with this solid, flawless set of ten Rick Hall produced songs. The A/C radio listener, who's grown up with the likes of a Dobie Gray, should get the most out of this album. YOU CAN DO IT, WEEKEND FRIEND, MISS YOU NIGHTS, WHO'S LOVIN' YOU, I'LL BE YOUR HOLD ME TIGHT.

### Recommended from the following LP's:

**"Don't Take Love For Granted"-Lulu (Rocket)** COME SEE WHAT LOVE/LOVE IS THE SWEETEST MISTAKE/DON'T TAKE LOVE FOR GRANTED

**"Every 1's A Winner"-Hot Chocolate (Infinity)** EVERY' 1's A WINNER/CONFETTI DAY/SO YOU WIN AGAIN

**"Fly Away"-Voyage (Marlin)** SOUVENIRS/LET'S FLY AWAY

### MERRY CHRISTMAS FROM BOB & BRIAN

KGAL-Lebanon (Ore.) recently held their fourth annual volunteer services "Jock A Thon" to raise money for needy familys. Bob Donovan (MD) and Brian Casey (PD) broadcast for 48 continuous hours and raised almost \$8,000. A nice present for the needy.

## Gary Taylor's Personal Picks

**THE FOOTBALL CARD**-Glenn Sutton (Mercury) Great special programming from now until the Super Bowl. Stations currently playing this novelty report exceptional 25+ requests. I'll bet network TV programs it during the playoffs.

**EVERY TIME I THINK OF YOU**-The Babys (Chrysalis) Producer Ron Nevison (UFO-Led Zeppelin) must be gifted with incredible ears to create the powerful momentum evident in this release. Using an exceptional arrangement as the building blocks to compliment strong vocals is not a new concept, but it is that very enhancement that turns this into more than another ordinary record.

**NO TELL LOVE**-Chicago (Columbia) Typically Chicago with strings for sweetening. Many have said this is the best cut on the album.

## Other Recommended New Releases

**AT THE STATION**-Joe Walsh (Asylum)

**RUN RUDOLPH RUN**-Keith Richards (R.Stone)

## Note from the Editor

*During the past year The Gavin Report has changed considerably. These changes evolved as a result of the growth and maturation of radio. This publication's present broad scope and new look is only the beginning of many new features currently in the planning stages. Each variation is being developed slowly, with a specific direction in mind in order to continue to provide our subscribers with accurate and creditable information. The Gavin Report's dedication to accuracy and credibility will continue to be the number one priority. Our desire to offer additional information beyond what is currently contained in these pages is a reflection of the dedication on which this publication was founded.*

*Today's programmers are vitally concerned with research. Though their objectives are the same, playing the most popular songs available for their specific audiences, the methodology has been modified and it is our intent to reflect that change.*

*So as we look to 1979 we hope it will be a banner year for the radio and music industry and we sincerely thank you for your support.*

### MITCHELL LEAVES N.W. AUTOMATION OUTLET

Robin Mitchell has resigned as Program Director of KYYX/FM-Seattle. In informing us of his decision Robin, who has programmed KOL, WSAI and WRKO among others, said he will remain at the station through January and will announce his future plans around April 1.

### MEANWHILE IN ILLINOIS

Bob Goode, Operations Manager of WROK/WZOK/FM- Rockford, submitted his resignation. Bob was the music director at WSAI when Robin was program director and has established himself as a knowledgeable proponent of computer technology. After the first of the year Bob plans on being involved in "computer related projects."

### BOISE SUPPORTS MUSCULAR DYSTROPHY

Last week three TV stations and the newspaper covered a radio sponsored event in Boise, Idaho. Listeners were asked to pledge money toward the purchase of electric wheelchairs and other gifts for two needy children. Among those actively involved were two young boys who crawled on their hands and knees thru the snow for six long miles to entice Boise residents to pledge money, and pledge they did. Over \$6,400 was raised for this KBBK/FM sponsored activity for Muscular Dystrophy.
