ANALYSIS

Even after their third week at number one, REO is showing plenty of muscle. But they'll make way next week for an artist who's featured on the cover of People Magazine (March 11th issue)...MADONNA. America's new "it" girl, as People so aptly describes her, should have no trouble pulling off two top ten hits at the same time, as "Crazy For You" pulls ahead quickly! Survivor climbs into the top 10 with a strong rise in Hit Factor of 53% to 78%. JAGGER turns the corner, surfacing into the top 20 for a majority of stations as Hit Factor grows to 67%. MADONNA's "Crazy", mentioned earlier, debuts top 20 for 92X-Columbus, KKHR-Los Angeles, KKXX-Bakersfield, WEBE-Westport, KLRZ-Salt Lake City, BJ105-Orlando, KKRQ-Iowa City/Cedar Rapids, WCIL-Carbondale, KDVV-Topeka, etc. DEBARGE surges forward 23-17 for FM102, 23-18 WHYT, 26-18 WHTX, 24-15 KKYS, with enough debuts to give it a Hit Factor of 17%. HENLEY turning a ton of airplay into chart activity with even hotter growth expected next week. In a month packed with a lot of big name releases, ANIMOTION has hung in there showing growth each week. Now, nearing the 200 mark in reports, it's well on its way with moves inside the

top 20 including: WXKS/FM-Boston 25-19, KQHU-Yankton 22-16, KFIM-El Paso 24-20, WYKS-Gainesville 24-17, etc. Of the five debuting records on this week's chart, DIANA ROSS leads the pack in Hit Factor stats already up to 22% and sure to make another big gain next week. MURRAY HEAD bypasses Chartbound and jumps on the Top 40 and just look at some of the moves: B-94-Pittsburgh explodes 29-13, WHTX 19-11, San Angelo's KIXY 15-3, Z104-Madison 2-1, KMEL-San Francisco 11-7, Z106-Philly 24-12, etc. SADE's airplay growth makes her one of the best bets to go Chartbound next week. JERMAINE STEWART, number one for the second week at Y100 and top ten at Z-93, WCIL, etc. PAUL HARDCASTLE moves 6-2 for KS103-San Diego, where Mike Preston says "Reaction has been nothing short of amazing! It's the number one selling single in San Diego". Big in Phoenix, Sacramento (#1) and proving to be a hit where given a chance. MARY JANE GIRLS confirmed on the R&B side now making a move Top 40. Adds at WKZQ, WDEK, KTMT, WXXQ, WSQV, 106X, etc. Early, but look for lots of activity in the next few weeks.

USA ^{for} AFRICA

United Support of Artists for Africa

AN OPEN LETTER TO EVERYONE IN RADIO:

On Thursday, March 7 you will be receiving your first copies of "We Are The World," written by Michael Jackson and Lionel Richie, produced by Quincy Jones and recorded by 45 of the biggest stars in American music.

The making of this record was an historic event, but it was only a step—the first step—in a major effort to alleviate hunger, both in Africa and here in the U.S.A.

The 45 artists of "United Support of Artists for Africa" (USA for Africa) gave freely of their energy and talents. Columbia Records has carried the task to the next level by manufacturing and distributing this record at no profit.

Now you, Radio, have been handed the ball, with an opportunity to truly make a difference. Playing this record is not enough. Listen carefully to its message and then tell your listeners how they can become involved; where they can contribute money, energy and commitment; and how to continue this effort long after "We Are The World" is no longer on the air.

The release of this record on March 7 and the subsequent album on April 1 is not just about raising money—it is about raising awareness and changing our priorities so that everyone's right to live without unnecessary pain and suffering from malnutrition or lack of shelter is guaranteed.

As Bob Geldof said recently, "We in the music business have made drugs fashionable, we've made wild hairstyles and clothes fashionable, and now it is time for us to make compassion and generosity fashionable." Another leader in this fight, the late Harry Chapin, once said to me, "When in doubt—DO SOMETHING!"

We have done something, and now it is up to radio to use its power. An incredible opportunity is at hand.

Please respond to it.

Hit Factor is a percentage of stations playing a record which also have it Top 20.
ie: 100 stations playing the record—60 stations have it in their Top 20—Hit Factor = 60%.

PROMOTIONS

BETTY HOLLARS
LISA SMITH

THE PERFECT PUCKER

The winner of this promotion had her perfect pucker published in the paper as well as winning \$92 and ten cents (92.1 freq.) from **KTAW/FM** in **BRYAN, TEXAS**. The station solicited perfect puckers to be mailed in on a piece of paper and they chose the best looking one. The pride of puckerdom was a listener who spent her Valentine's Day kissing a piece of paper to win this contest. Wow!

VANCOUVER IN LOVE WITH HUEY

For two weeks prior to **HUEY LEWIS'** concert in **Vancouver**, listeners sent **LG73** their "creative valentine" ideas to try to win prizes in connection with the concert promotion. When the two weeks were up, the entries covered four large office walls and a sizeable chunk of the floor! There were twenty winners besides the grand prize winner, who won a dinner for two, press box tickets, backstage passes, limo service to the concert and pictures taken with Huey Lewis at the Valentine's Day concert. (Huey was astounded at the level of enthusiasm and creativity shown by his Vancouver listeners.)

14 WIN ON 14th FROM 1400

GARY CUMMINGS, P.D. of **KRPL—MOSCOW ID** calls us with yet another Valentine promotion! They played **Billy Ocean's** "Loverboy" and **Teena Marie's** "Lovergirl" back-to-back on the air. Listeners called in when they heard them and the 14th caller won one of 14 dinners for two on the 14th of February, from 1400/KRPL in Moscow. The response was great! (Now, what two songs will they use next year at this time.?)

WOMT'S VALENTINE TO YOU

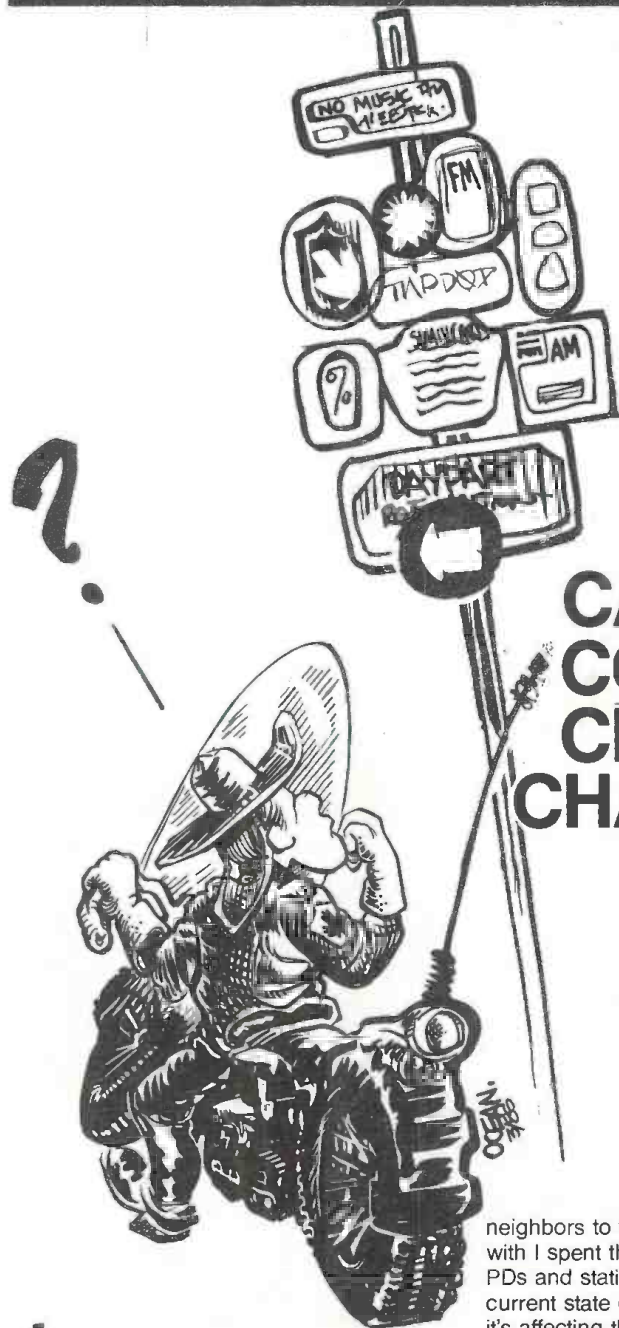

WOMT in **MANITOWOC, WISCONSIN**, along with a local mall, put on this Valentine promotion for area listeners. Listeners registered at a big red heart display in the mall. Each hour four names were read over the air, and the winners had 24 hours to appear at the mall and pick an ice cube out of a cooler. In each ice cube was either a real diamond or a cubic zirconia. A jewelry store at the mall put the ice cube in a microwave to melt down, and then determined what the listener won. According to **WOMT's LEE DOUGLAS** "The promotion helped to generate traffic in the mall and kept the people listening to our station for their names to be read."

Pictured holding some of their favorite homemade Valentines are left to right Cheryl Vander Linden (off. mgr.), Phil Hoffman (acct. exec.), Juli McIntee (acct. exec.), and Mark McVey (chief engineer).

AND ONE MORE

Just can't get enough of those Valentine's Promotions! So popular was the "Homemade Valentine Contest" at **KXJK-PELLO, IOWA**, that it has now become an *annual* "Homemade Valentine Contest" The response exceeded all station expectations and the cards were so classy they were displayed at area businesses, and listeners voted for their favorite ones. Over 60 winners were picked on Valentine's Day and prizes included trips, cash, flowers and candy, of course.

CANADIAN CONTENT—CHECK OR CHALLENGE

by Dave Sholin

It's Tuesday morning and you're about to begin the process of putting together the coming week's playlist. As you and your Music Director go over the various facts and figures necessary during this process, you must also concern yourself with the nationality of the songs' creators and performers. Specifically, a percentage of your music programming must be relegated to records performed, written, or produced by citizens of your country. That is a problem radio programmers in Canada must deal with each week. But it's only *part* of the regulations governing programming that are enforced by the Canadian Radio Telecommunications Commission (CRTC). All most of us "in the States" know about Canadian content, if anything, is that a station must play a certain amount of music by Canadians. In order to gain perspective on what our

neighbors to the North are really dealing with I spent the last few months talking to PDs and station management about the current state of regulatory control and how it's affecting the radio marketplace. In addition, PETER FLEMING of the CRTC kindly gave of his time to share with me the government's view and fill me in on the history of how all this came to pass.

It was 1968, PIERRE TRUDEAU had just been elected and change was in the wind. The government was getting pressure from the Canadian record industry to give them some help in getting more of their artists exposure on radio. Aware of the government's growing dilemma, radio programmers decided it was better to take matters into their own hands and, in what could be looked at as a good will gesture, created what is called the Maple Leaf System. Music programmers from across the country would get on the phone once a week for a conference call to talk music and suggest certain Canadian releases, and once decided they would be added at all the stations in the system that week.

But the Canadian content movement had too much momentum by this time and in January of 1971, the first of the Can Con (Canadian Content) legislation went into effect. That was for AM only with FM following several years later.

WHAT'S REQUIRED

If you're like me you'll no doubt be baffled by all the rules and regulations Canadian Broadcasters must meet. To say at times it's confusing would be an understatement. Even some veteran programmers I spoke with aren't totally clear on what some of the regulations mean. Fleming explains it this way when I asked him to answer the hypothetical questions of what I as an American would need to know if I had just purchased a station in Canada and decided on a Top 40 format. "First of all," says Peter, "You have to know that the government has issued a directive to this Commission not to license anybody who has more than 20% foreign shareholders and where anybody on the Board of Directors is not Canadian." So much for my hypothetical case. "OK ... So now I'm Canadian, what do I have to do?" Peter then asks: Am I broadcasting on AM or FM? ... so for argument's sake, we decided this would be an AM/FM combo. "There's a regulation for AM that states 30% of all the selections broadcast in any one day should be Canadian. They should be reasonably distributed *throughout* the broadcast day." So much for playing everything from midnight to six. In fact, Peter notes, the broadcast day as defined by the CRTC is 6AM to midnight. Block programming everything from 9-noon wouldn't be permissible either, but you needn't have 30% *every* hour. The key word is "reasonably" and as Peter admits, "reasonable is one of those words that's hard to define."

WHAT'S CANADIAN

According to Fleming, "The way something is decided to be Canadian or not is it has to meet two of four criteria. The four criteria are first, that the instrumentation or lyrics are *performed* by a Canadian, second, is *music composed* by a Canadian, third, *lyrics composed* by a Canadian, and fourth, the *live performance* is wholly recorded in Canada or wholly performed in Canada and broadcast live. So there are a number of ways that a tune can qualify as Canadian." For example "Teacher Teacher" by 38 Special would qualify as Canadian because the *words* and *lyrics* were written by Canadian Bryan Adams. Recently added is one more qualifier and that is "in the case where it's an instrumental cover of a Canadian song it can qualify on the basis of one count if that *one* count is the music is composed by a Canadian, due to the fact there are no lyrics. There's also a requirement in the AM regs that 5% of all the selections be two count Canadian in that they are

composed (words and music) by a Canadian. In practice, most, I'd say about 25% of the 30% are four-part Canadian content anyway, 'cause most bands perform their own material."

WHO'S CANADIAN

PETER FLEMING goes on to say that "a Canadian is defined as (1) a Canadian citizen, (2) an immigrant lawfully admitted to Canada for permanent residence or (3) if the person's ordinary place of residence was in Canada during six months preceeding their contribution to the musical composition in question. For example, if JOHNNY WINTER comes and lives here for six months and records a tune then it would count"

FM AND THE FORMAT TRAP

If by now you're not too confused, take a deep breath and read on. FM requirements are far more stringent and vary by format. Because there are differing amounts of Canadian content available with different kinds of music the CRTC has assigned levels to certain formats. Broadcasters make commitments to what format they will be and have to apply to the Commission should they opt to ever change. Formats are considered in four categories described by FLEMING: "Group One, Pop And Rock Softer, and that ranges anywhere from easy listening to A/C. Canadian content here varies. If it's an easy listening station, it's 10% and if it's A/C it's 20%. Group Two is mostly AOR stations, it's 20%. Group Three is Country and that's 30%, although a study is being done now to see if the amount of Canadian Country product has decreased. And Group Four is miscellaneous, in other words, you come in and tell us what you're gonna be. It could be anything from Top 40 to Music Of Your Life, or a jazz format. It's on a case-by-case basis."

SOME OF THE HITS SOME OF THE TIME

When this policy was enacted, Peter says, "The Commission wanted FM to be different than AM. The way it is perceived, AM at the time was mostly Top 40 ... high hype, high repetition of the hits. So they said on FM you are limited to a certain amount of hit material and a certain amount of repeats that can be carried. Hits is loosely defined Top 40 hits, so generally it hasn't approved Top 40 stations on FM, Top 40 has mostly been on AM. But there are stations that straddle the line between A/C and AOR and could be thought of as Top 40." But now here comes the big whammy ... while AM stations have virtually no restrictions as to how often they can play a record, FM may only repeat a song 3 times a day. "The actual legal figure is 18 times a week, but there is a flexibility," says Fleming "of 20% error. So if somebody monitors a station and they're off by 20%, we're not gonna nail them." But whether it's 18 or 21 times a week, how would your AM programmers reading this like that law in effect here? The theory behind this according to FLEMING is "Since Top 40 is being done on AM, in order to make sure that there's a diversity in the marketplace there should be other types of formats on FM." And by now, if you're wondering who's monitoring all this, well the programming people I spoke with admitted other stations in town will turn you in or the CRTC will spot check and ask for a tape of a certain day along with a copy of a music list. And not only shouldn't that music list contain the same song title more than 3 times from 6AM—mid, you are only allowed to play "hits" 50% of the time. That means only 50% of the titles can be on a current Top 40 chart (i.e. Gavin's), the rest is made up of LP cuts and new uncharted sides. Oldies are considered hits.

FOREGROUNDING AND MOSAICS

Keep in mind that for the purposes of this article we are only briefly covering the regulations that the CRTC requires. The last requirement I discussed with Peter was about foregrounding that is that a set percentage of programming must be devoted to a particular theme. It could be an artist set, a debate, a live concert, a football game, a Beatles special or talk show. The percentage is 12% for FM only operations and 20% for AM/FM combos Fleming describes them as "little programming elements ranging from horoscopes to little sermonettes, a bit of jock talk, a syndicated "short" feature after a newscast, etc. The guideline specifies that overall foregrounding/mosaic percentage on a weekly basis should equal 50% for AM/FM licensees and 33% for FM only. There were even more rules

PD's expressed the fear that if the regulations are loosened so will the licenses and more stations will go on the air resulting in new unwanted competition.

concerning more talk on FM but Fleming says they have been tossed out.

FACTOR AND BENEFACTOR

Canada's music community has recently gotten a helping hand from broadcasters. It was started as an initiative by the CHUM and Moffett groups and Rogers Radio Broadcasting and by CIRPA (The Canadian Independent Record Producers Association). The helping hand is known as FACTOR (Foundation To Aid Canadian Talent On Record). The Broadcasters pitch in money. Juries are set up composed of record people and broadcasters to listen to demos. A decision is then made on whether to loan money to fund certain projects. The projects approved are then given favorable loans, in other words if the project doesn't make money no payback of the loan is required. If it is successful then factor gets a point. As Peter Fleming says, "It's a supply side attack on Canadian Content rather than trying to change the demand side."

ANALYSIS

March 8, 1985

The Commodores cut off REO in a close but unquestioned battle for the number three slot. But it may be tough for the Commodores to hit number one now, with an even newer record by Phil Collins still building. A hot foursome between #12 and #15 should pass the peaked cluster ahead of them next week. Other than that it's all Madonna and Dan Hartman next week within the chart. Debuts on the Ides of March will be Paul Hardcastle, Sade and at least two others. Madonna's CRAZY pulls away from MATERIAL GIRL.

THE OAK RIDGE BOYS

The Family Tree

“The single (Elvira) sold a million singles just on Country airplay.”

The Oak Ridge Boys have carved a tremendous musical legacy by blending their unique style of gospel harmony and country with rock'n'roll. We checked in with the Oak's Joe Bonsall on the band's progress . . . past, present and future. Joe talked with us from the group's Hendersonville Tennessee complex.

RF: *How far back does The Oak Ridge Boys story go?*

O: Right around the time they were working on the Manhattan Project (Atomic Bomb) in 1945 in Oak Ridge, Tennessee, in a power plant, there was a band called the Country Cut-Ups that came from Knoxville into Oak Ridge to perform, 'cause those people weren't allowed to come out. They were workin' on the atomic bomb. The Cut-Ups sang mostly country and gospel. Gospel was really the thing to hear and they ended up specializing in gospel quartet singing. They sang for about five or six years after that and then broke up in the early '50's. About '55 or '56, a bunch of young guys gathered up the group name again, and to avoid confusion, called it The Oak Ridge Boys. We're the offshoot of that group.

RF: *When did you first hear of a band, group, or organization called The Oak Ridge Boys?*

O: Well, I grew up in Philadelphia.

Philadelphia never has been and still isn't one of your strongholds of country or gospel music. But there were these kids in my neighborhood in Philly and I was just rock'n'rollin' out, and kind of hanging out with the wrong crowd, but these clean-cut Christian kids were always trying to get me to hear these gospel quartets that were coming up from the South. There was a group called the Couriers Quartet and they used to put on these big gospel shows in Harrisburg and some of the big auditoriums around Pennsylvania. So, I thought it was a real pansy thing, but I finally decided to give it a shot. I love music and harmony. That's all I was ever into. I wanted to either be Elvis or play for the Phillies. I got down there and saw these quartets and the first one I saw was the Blackwood Brothers. They blew me away. It was exciting. It was harmony. It was four guys standin' in a row singing 'Big! I think all through that period of time when the British music was invading my precious rock'n'roll, I was finding solace in this four part harmony and gospel and I was really into it. I formed one little group after another and finally I had this group called the Faith Four Quartet and we were terrible. When I was nineteen I joined the Keystone Quartet and that included Richard. Rich and I sang all those years, but you get tired of starving, and Richard left the group, joined J.D. Sumner and the Stamps, and backed Elvis for about a year

and a half. Then he went with the Oak Ridge Boys. To answer your question, the reason I loved the Oak Ridge Boys so much was that they did gospel music with a rock approach. They didn't sing gospel like the other groups. They did the same four part harmony, but they were cool. And I think we've been an innovative country group that doesn't sing country music like other country acts either.

RF: *You were a gospel quartet with a rock'n'roll band singing country music and I think I can probably end with barbershop harmony.*

O: That's true. We're fortunate in that we have been able to take our different voices and blend our harmonies in different ways (different lead vocals, stack the harmony differently) and still not lose our identity as the Oak Ridge Boys.

RF: *Was there a problem, or a credibility gap, developing between your rock-oriented gospel sound and the more traditional gospel sound? And as I understand it, it all kind of came to a head as a result of a performance or a series of performances you gave in Las Vegas as an opening act for Johnny Cash.*

O: Yeah, a lot of people who were promoting and controlling gospel music didn't like us anyway because we were so different. When that Vegas thing happened, I think it was a good excuse for a lot of people to put us aside for a bit. One of the great things that happened

to us was meeting Jim Halsey.

He's still our godfather today (laughs). He came and saw us. He booked us to open for Roy Clark as a favor. We were still going all gospel . . . commercial sounding gospel, making them stand up and stuff. Halsey said he thought we had the potential of being one of the biggest acts in the music business . . . all we needed was a 3½ minute hit record to start the ball rolling. The rest is kind of history from there.

RF: *Was there a song that you think turned you around?*

O: We were on CBS for a while and we put out a few songs that were country. One I remember in particular was called "Family Reunion." That was a first foray in Country. But Columbia didn't know what to do with us either. Let's face it. For a while we didn't know what we were doing ourselves. So Halsey finally got us with Jim Fogel on ABC/Dot Records. Of course ABC became MCA and we've been with them ever since. They assigned Ron Chaney to be our producer. Ron came up to hear us sing, and he was kind of afraid because he didn't think we were gospel and Ron does a lot of the big beer commercials. He was afraid he'd have to stop doing his beer commercials! (laughs) We came to Nashville and sat in his office and started listening to songs for our first ABC album. The first song we heard was "Y'all Come Back Saloon." We said, "Boy, that sure will show everybody we're not gospel!" We never do negative stuff—still don't. But "Y'all Come Back Saloon" was a fun thing. We thought country disc jockeys would give it a try and not throw it right in the Sunday morning slot, which was happening to all our records. And Saloon . . . boom, it came out and really hit big for us. That was in June of '77

RF: *Then you've had a continual string of gold and platinum albums.*

O: We've had eleven albums on MCA, all eleven are gold, two platinum, and one double platinum—the one with "Elvira" on it.

RF: *One of the biggest singles for 1981 and one of the few to be certified platinum for any format was the 2 million seller "Elvira," which was not a new song.*

O: We were a major country act at that point. We had "You're One In A Million," "Sail Away," and "Dream On." They opened some new doors for us too because they got some A/C play. Back in '79, when we were touring on that big Kenny Rogers Full House tour of 88 cities, we got some A/C play because of our relationship with Kenny. "Sail Away" and "Dream On" stacked up pretty well on A/C radio. So there was a little inroad there and our "Have Arrived" album went gold real fast and then our "Together" album came out after that. They've given us a few Vocal Group of The Year awards and here we were having gold records. Then 1980 came around. It was almost like we were

building the perfect vehicle to carry "Elvira." When that hit, it was like a rocket launcher under everything we had built up to that point. The song came out Country in January. It went gold before it ever crossed! The single sold a million singles just on Country airplay, and that doesn't happen. You know that. We know that. We had a monster single last year with "I Guess It Never Hurts To Hurt Sometimes" and that was like 400,000 singles. In comparison, "Make My Life With You," which is a beautiful record, has sold only 200,000 singles. We sold a million singles of "Elvira" in June, then it crossed pop.

RF: *You followed that with "Bobby Sue."*

O: We followed it with a pretty big Country record called "Fancy Free" but we were still lookin' to try to capitalize. All of a sudden, we've sold two million albums. We felt like we needed to go in there and cut some standard Oak Ridge Boys like we usually do, but maybe follow "Elvira." I mean we didn't think anything could ever follow it and nothing ever has. But we felt like we could grab them one more time with "Bobby Sue." It came about 80,000 singles away from being a gold single. So we had two monster hits in a row. "Bobby Sue" hit pretty big pop. There were a few areas, like Baltimore, where "Bobby Sue" did better than "Elvira."

RF: *Then you tried to compound that even further by doing "So Fine."*

O: That was our one mistake. We knew it was a mistake. The record label really came down on us. The people that were in MCA then really felt that "So Fine" was going to be the "Elvira" for that summer. We didn't think so, because we did it on stage and we didn't knock anybody's socks off with it. The Oak Ridge Boys go for blood on stage. We get out there, we sing a song, and if it doesn't get us a big response, that song doesn't go any more. We sold out Jefferson Civic Arena in Birmingham Alabama and sang "So Fine" and it kind of laid there. People applauded politely, like "hmm, that sounds so much like 'Elvira' and it's a pity it's not." That just goes to show you, every time you sneeze and put out a record, 'it ain't goin' number one boys.'

RF: *Humbling experience.*

O: It is. But it was good for us. We reeled it in and threw out "I Wish You Could Have Turned Your Head (And Left My Heart Alone)."

RF: *What's this about you guys owning a radio station?*

O: We own two. We own WPFR FM and AM in Terre Haute, Indiana and our AM station just went country. Our FM is the number one rock station in Terre Haute.

RF: *And reports to the Gavin Report.*

RF: *The FM's doin' well. The AM struggled here and there with different formats but we're on like a big time country format and it's already helped.*

RF: *Do they play any Oak Ridge Boys?*

O: Yeah. They do now. Before, it was

beautiful music and the other one was a rocker and we thought it was amazing, we own two stations and they don't play us.

RF: *You dont meddle though?*

O: Oh no, not at all.

RF: *Now what is this about the Montreaux International Jazz Festival? I can understand gospel, I can understand Country, I can understand rock'n'roll, but I would not have associated the Oak Ridge Boys with jazz.*

O: Nobody there did either. (laughter)

RF: *When was this and why?*

O: This was in '79. Jim Halsey got us over there, it was a neat event. They had one night kinda devoted to American Music and we went over there as part of that and it was really kind of a unique experience. I think half the audience thought we were really somethin', and the other half was tryin' to figure out what we were. It was very strange. We're going over to Nice, France in May to open up a brand new coliseum called the Acropolis. They're having a whole week of events to open up this new theatre and the American Music night is going to be the Oak Ridge Boys. It's the first time we've been in Europe since 1979.

RF: *It seems to be a tough market to crack. Occasionally we read about certain artists that have been able to have some penetration in certain European markets. It's a strange thing, each one of those countries are so unique you have to bust them one at a time.*

O: We want to have our records played over there but we put so much concentration on our career here because this is where its been happening for us for so long. Last year somebody wanted us to go to Bulgaria for some stupid reason and I said "My God, we haven't played San Diego in three years. Over to Bulgaria? Get out of here!" (laughter) So then we booked San Diego.

RF: *A lot of Bulgarians in San Diego though. For the rest of 1985, what can we expect from the Oak Ridge Boys?*

O: Most important, a new album. No matter what we get involved in, music is still the bottom line with the Oak Ridge Boys. I think we've accomplished a lot of great things with our album called "Step On Out." There's some different approaches and different sounds for songs from the Oak Ridge Boys on this album. We're going to be doing some good videos to get with it, and we were very thrilled to win the American Music award for best country video. The winds of winning as far as those awards have gone for the past couple of years have not blown our way. And to have won the Music award for video, that meant a lot to us. We've put out some good videos. RF: *There's no truth to the rumor you guys are going to cut your hair the same length and wear the same outfits?*

O: NO, No. We let the Statler's do that. ■

BIO FEEDBACK

TUBES

The new LP by the Tubes, "Love Bomb," is indeed a group effort and a departure. Lead singer Fee Waybill only sings lead on four songs.

PAUL HARDCASTLE

He has LP's coming on both Profile and Chrysalis Records in the next few weeks.

JOHN FOGERTY

He recently played his first live show in 12 years before an invited crowd in Los Angeles. Fogerty might record another album of material before he goes on tour.

HUEY LEWIS & THE NEWS

While taping their upcoming Showtime Concert special HL & the News were joined on stage by fellow Bay Area rocker, Boz Scaggs.

MICK JAGGER

He's got the film bug again and now wants to raise \$20 million to produce a movie based on Gore Vidal's "Kalki."

NARADA MICHAEL WALDEN

Ten years ago he was a member of the Mahavishnu Orchestra.

RICKY SKAGGS

He started playing the mandolin at the age of five.

DON HENLEY

Actor Tim Hutton, director of The Cars video "Drive," has been signed to do a 20 minute video of Henley's "Sunset Grill."

SIMPLE MINDS

Their Breakfast Club soundtrack single was originally a left-over instrumental.

GRATEFUL DEAD

TV is bringing back the Twilight Zone with the Dead signed to do the theme.

ELTON JOHN

Word is he and Bernie Taupin have already finished work on 17 songs in England. Could it be a two album set next time around?

SANTANA

The band has sold over 15 million records worldwide.

GARY O

Gary O's "Shades of '45" has nothing to do with middle age. It's a song written about nuclear war, referring to the dropping of the first atom bomb in 1945.

TRIUMPH

Heavy metal and heavy thinkin' in their latest LP, "Thunder Seven." The title is inspired by a Marshall McLuhan piece describing James Joyce's Finnegans Wake. Joyce apparently describes seven social upheavals in history, referring to each as a "thunder." Whew!!

STEVIE WONDER

He took out a full page ad in the Grammy program to pay tribute to deceased musicians. Unfortunately he listed living Beach Boy Brian Wilson instead of Wilson's brother Dennis, who died last year.

TINA TURNER

Grammy winner Tina says she wants to do more movies. Recently quoted, "I used to think I'd like to do Cleopatra, but now I really want to play tough women."

BARBRA STREISAND

She's producing the film adaptation of the musical "They're Playing Our Song." She's going to star along with her former husband, Elliot Gould.

EXILE

J.P. Pennington's the nephew of Country Music's Hall Of Fame member, Red Foley.

MCA'S INTERNATIONAL COMMITMENT

Lady Pank

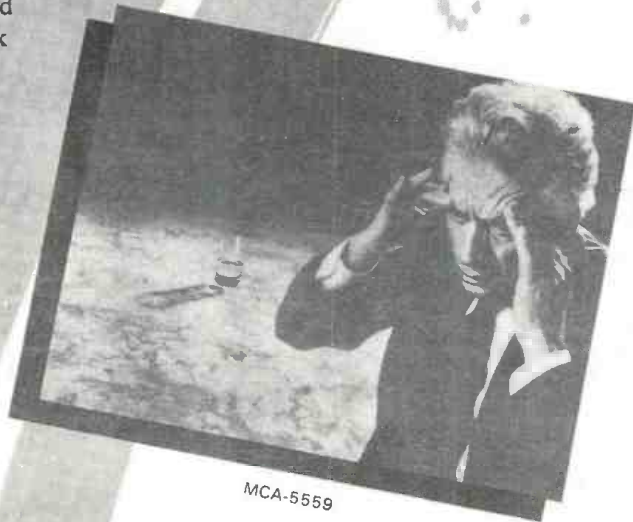

LADY PANK hail from Poland where they are the number one rock band. LADY PANK translated means punk lady, even though there are no women in the band! They are a hard rocking band consisting of five excellent musicians with political overtones. Watch for LADY PANK'S upcoming video and their tour of the western world in 1985.

THE THOUGHT

THE THOUGHT is a unique rock and roll band from the village of Broek op Langedijk, Netherlands. THE THOUGHT combated their early lack of exposure in the Netherlands by releasing their records through independents. This included "I Had Too Much To Dream Last Night" (Electric Prunes), which was met with incredible acceptance and broke the band in Holland, where they have now played over 300 shows. THE THOUGHT'S first record for MCA/Icon is based on the band's mentality of musical marriage between energy and melody.

NEW Releases

Breaking Out/Say It Again/Right Now/Spirit/Touchdown Raiders-SANTANA(Columbia) So diverse and deep are CARLOS SANTANA's tastes in music, it's almost a miracle that he's able to release music palatable to Album Radio's tastes. But he sure does it. BEYOND APPEARANCES, in a way, is. Alongside the usual airplay trax, there are spirited diversions of the heart. My favorite trax are the ones that most prominently display the supreme abilities of players like DAVID SANCIOS, ALPHONSO JOHNSON, both CHESTER THOMPSONS, and SANTANA himself. Radio will lean towards "Breaking Out" and "Say It Again", yet there's even more meat on the bones of songs like "Spirit", "Touchdown Raiders" and "Right Now". Instrumentally and vocally, those three latter trax best typify the heart and intelligence that CARLOS SANTANA brings to rock n roll.

Army Arrangement/Cross Examination-FELA ANIKULAPO KUTI (Celluloid) On his way out of Africa, bound for a gig in the USA, FELA ANIKULAPO KUTI was detained by Nigeria's military police and jailed on trumped-up charges concerning the exportation of foreign currency (actually it was 1600 pounds from his bank account in England). This fine LP, co-produced by BILL LASWELL (MICK JAGGER, LAURIE ANDERSON), is FELA's first album since being handed down a stiff five year prison term. Contact Margot Core at 212-598-4781 for more info (including Amnesty International's full report) on this fascinating dissident.

"Walking On Sunshine"-KATRINA & THE WAVES (Capitol-12") DAVE SHOLIN's been shaking the shingles off the BUNKER, blasting this single. He LOVES it. KATRINA comes to us from Canada via Great Britain. Guitarwork is by acid head SOFT BOY KIMBERLY REW.

Some Like It Hot-POWER STATION (Capitol) ROBERT PALMER sounds at home fronting a group again. He is joined by some illustrious company in DURANNIES ANDY and JOHN TAYLOR along with CHIC BERNARD EDWARDS. Even if you aren't a huge DURAN fan, you must admit that from a technical standpoint, their records have a sparkle. POWER STATION finally commits and legitimizes the DURAN core's good intentions onto vinyl.

Exiles In The Dark-REFUGEE (Chrysalis-12") Though he's not serving time in a Nigerian stinkhole, REFUGEE frontman MYLES HUNTER is still a thinking man. His music is BRYAN ADAMS with brains. On their first single, REFUGEE seems to ponder as to whether or not social/political morality belongs in mainstream rock. I guess it does now. The upcoming album (a killer) asks questions of its listeners.

Minus Zero/Be Good-LADY PANK (MCA) You know, there used to be lots of Polish jokes up until the time the Poles stood up to the powers-that-be. Now we have somewhat of an historical release. LADY PANK from Poland is the first rock band from a communist Bloc country since--hmmmm-LOCOMOTIVE GT from Hungary? There's no telling who LP's influences are, considering just how much (or how little) Western rock trickles in, but I hear traces of THE POLICE and THE FIXX. Included is their single, "Minus Zero", one of the very biggest hits in Eastern European history.

Into The Night/My Lucille-B.B. KING/INTO THE NIGHT (MCA) Though it may be dangerous to star in his movies, film director JOHN "Twilight Zone" LANDIS did use B.B. KING in his new film INTO THE NIGHT. This is the coolest, most contemporary stuff B.B.'s cut in years. In fact, it was radio that first hipped us to these trax. It's all on the soundtrack LP. ZIMMERMAN

ANALYSIS

Look out MICK! You're number one, but look at numbers 2, 3, 4, and 5--all UNDERLINED! BREAKFAST CLUB jumps to four. PHIL COLLINS is no surprise, a strong number three. BOWIE/METHENY enjoys equal cross pollination within the entire Album Radio spectrum. THE FIRM is lodged at five, roarin' to go upward, but hark, no room. TOM PETTY debuts at #14, a conservative move on my part. Look for him to shoot TOP TEN next week. CARLOS SANTANA enters at an impressive #15 while GREG KIHN goes #18 (both local guys). Last week's CERTIFIED, ERIC CLAPTON, easily makes the TOP TEN. The most interesting story of the week by far is Album Radio's

rapid acceptance of TEARS FOR FEARS. It debuts at #24 with lots of potential in store, once the LP reaches our hot hands. REMEMBER--there's still folks out there pulling for "Shout", another fine track on the LP...Debuts next week will likely include JASON & SCORCHERS and POWER STATION...an amazing week this week for ALTERNATIVE CROSSOVERS. EIGHT represent underlined Albums currently moving up the GAVIN ALBUM CHART. Another five albums are charted but aren't underlined. That makes up about one third of the ALBUM CHART occupying ALTERNATIVE territory. Look out, zipperheads!...the legend refuses to die. ROLLING STONE magazine and ROCK N ROLL CONFIDENTIAL printed nice tributes to our late founder BILL GAVIN. Very nice indeed... though we almost hate to mention it, GAS has another issue due out soon. This issue will reflect most of the feedback we received from readers clutching their copies in sheepish outrage. Our mailing list is bursting, RON FELL has thrown his hands up in disbelief, but GAS is too big to stop now. Look out!... though it's lodged in chartbound this week, AUTOGRAPH has moved 250,000 units?!...WELCOMES go to KTCL-FORT COLLINS, CO. PD/MD JOHN HAYES contributes perfect music to our near perfect stats as a GAVIN ALBUM INDICATOR. His info will be researched on both the Album Chart and Peter's Alternative list...DAVID LEE ROTH may be dipping a bit, but expect to see his EP shoot back up after the "Gigolo" single takes off big...if you could sit through all of 1984--THE MOVIE, you did better than me. Visually stunning but d-e-p-r-e-s-s-i-o-n-g...the import 12" mix of PHIL COLLINS' "Sussudio" makes the LP cut sound like the STARLAND VOCAL BAND...track of the week in THE BUNKER is "Penis Envy" by UNCLE BONSAI on SEATTLE's Freckle Records. Call 206-682-3200. It'll blow the phones off the wall and maybe your license, too.

The bout for number one continues. After round (week) three, THE SMITHS emerge victors by a split-decision. Fellow POWER TRIO album, THE VELVET UNDERGROUND picked up tons of airplay and sits perched at #2 with a line. Remember underlines represent potential for further growth. VU could very well unseat THE SMITHS. The third POWER TRIO record, SIMPLE MINDS, is cleaning up in Alternative & Album radio. The base is established and they're now taking on Top 40. Hope you read our choice interview with Jim Kerr (courtesy of K.Z.) last week.

The BLASTERS and JASON & THE SCORCHERS come roaring into the top ten, both CERTIFIED! The combination of commercial and college airplay will add up to major action for these releases. While paying homage to their rock & roll roots, each have their own original and distinct style. Look for a Gavin interview with JASON within the next few weeks.

YELLO and JOAN ARMATRADING, are coming through with significant moves into the top twenty. Impressive debut for independently released JET BLACK BERRIES (formerly NEW MATH) checking in at #25.

PAST PRESENT AND FUTURE

Those of us in the States have a difficult time envisioning the FCC getting this involved in programming. But the CRTC is not simply the licensing arm the FCC is. It's important to remember that the Canadian Broadcasting Acts objective is to build Canadian identity, using the communications system to strengthen the cultural fabric of Canada. That's the bottom line intention. OK then, after 15 years has Canadian Content and its resulting rules accomplished its objective? Peter Fleming thinks that while some goals have yet to be realized there is of course more airplay for Canadian product, more dollars going to Canadian composers, increased sale of the Canadian records, more Canadian artists moving onto success in the States and the rest of the world. There are also some excellent recording facilities now and as one would expect a very healthy publishing industry. But the question remains has it all been worth the price? As you might expect programmers aren't all that thrilled with their requirements. There is a feeling that the government in Ottawa was out of touch when they put these rules into effect. Perceiving AM as low brow and FM as high brow they wanted to ensure the status quo. Remember the old days of FM in this country ... all beautiful music, classical, foreign language and maybe a new "underground progressive" station here and there. It was the same in Canada and according to the sources I talked to, the commission did little or no research to ascertain whether what they were doing was right or wrong. As one programmer told me "They put the legislation on the software before people had learned to play with the hardware. You've gotta put the hardware in the hands of the people before you know how the computer's going to go. The thinking was if we nip this rush of mass appeal radio on FM in the bud, FM will always be this specialized, elitist spectrum and AM can be for the slobs. The biggest complaint though is not the content rules themselves but the percentage requirements that remain the same no matter how much product is available. Flexibility is what most would like. It's as though the broadcasters have kept their bargain but the record industry hasn't kept up with their demand that admittedly has been forced on them. One can readily see the need for starting FACTOR: For the future the FM programmers and Peter Fleming both agree that the current laws have unquestionably slowed AM's decline and kept it a vital music force in Canada. Since licensing requirements are very strict (the government turns down applicants in areas they feel a market can't financially support a new station) broadcasters are torn between fighting the laws or keeping quiet. In all my conversations PD's expressed the fear that if the regulations are lowered, so will the

While FM Stations have virtually no restrictions as to how often they can play a record, FM may only repeat a song 3 times a day ...

"If we nip this rush to mass appeal radio on FM in the bud, FM will always be this specialized, elitist spectrum and AM can be for the slobs."

license restrictions, and more stations will go on the air resulting in unwanted competition. But what about the main intention, Canadian identity? A broadcaster explained it to me best like this: "we have the constant kind of fight about the invisible border, are we a separate country or not? You don't have a problem with American regulation 'cause you're the dominant economy, but if you look at the protectionism that goes on in Europe and the kinds of boundaries countries can set up when they don't share the common English language, its a whole other world. Here, we all grew up to "Leave It To Beaver" and "Father Knows Best" and all that, it's really difficult sometimes to say where is this Canadian identity for godsakes. All the songs are about common themes, you can't tell the natural identity of a song and you shouldn't. It's kind of subtle and at any given time what you have are a lot of Canadian acts who are hoping like hell to hang on till they strike it rich in the U.S. or Britain." As you might have noticed the radio folk I spoke to are anonymous. That was the request of all the people I questioned concerning this topic. I thank them all and my thanks to Peter Fleming of the CRTC who gave generously of his time so we could get a clearer picture of this very complicated subject. ■

Reba McEntire

Reba McEntire accepting her CMA award last year.

A Voice For Modern Country

by Keith/Kent Zimmerman

“(Awards) are very important to me because it’s political and that’s what this business is—real political.”

Reba McEntire aligns herself with what she calls “Modern Country”—not to be confused with Crossover Country. Her breaks came gradually, culminating with being chosen CMA Female Vocalist Of The Year in 1984. Now with MCA Records, she’s a woman in charge of her own destiny. She picks her own producer, her own material, and even her own staging and lights. We especially related to Reba in the sense that she’s pleased with the ground she’s gained, but she’s much more preoccupied with the road ahead. The interview started one minute before schedule and she made no attempt to dodge any questions.

KZ: *What factors contributed towards your breakthrough in 1983 when you had back to back number one records? Was it a change in strategy or was it just a matter of time?*

RM: My career has been going on for ten years since I’ve been in the business. It’s been a real slow process with gradual changes. Nothing drastic or big. The big break came in 1983 when the first two songs we released (“I Can’t Even Get The Blues” and “You’re The First Time I Thought About Leavin’”) went to number one. It opened a lot of eyes. It was a real good building factor and it gave me a better reputation with the songwriters, with Radio, and with record sales. That was a big step for me.

KZ: *Why is it so important for an artist like yourself to tour so heavily?*

RM: The best way I can answer that question is when people see me perform sometimes they say, “Golly, you’re nothing like your records,” or “I want to go buy

your records now.” There’s some kind of personality that I haven’t been portraying on my records that I do portray in a concert situation. That’s what my producer, Jimmy Bowen, and I have been working on. We record in one week and we do it with the same band. We try to get a feel of a live show. We try to get that excitement and energy that we get at a live show and put it on a record. It helps so much because you get that one-on-one attention to a fan out there—or a non-fan that you’re trying to convert to be a fan. That makes a big difference. They either like you, love you or hate you by the time they leave. They’ve got to change their feelings about you one way or another.

KZ: *What was the turning point of your career?*

RM: The first kind of turning point was when “You Lift Me Up To Heaven” went to number eight. It was my first top ten record and it was off my third album. Then the second step where I could tell the difference was when I had my two number one records. My third big step was when I won The Female Vocalist Of The Year at the CMA.

KZ: *That was last year.*

RM: Right.

KZ: *You were nominated the year before.*

RM: That didn’t seem to make much difference though. I was nominated for the Horizon Award and also The Female Vocalist but it just didn’t seem to make that big of a difference.

KZ: *How important are awards to you?*

RM: They’re very important to me because it’s political and that’s what this business is—real political. With the fans, that’s another story. You have to work a

different ball game on that. But in the industry, it’s very political and you’ve got to kinda like run for office. You’ve got to politic and be friendly. But the best part about the business I’m in is I like it and I like the people who are in the industry. So politicking is a lot of fun.

KZ: *Did rodeo competition prepare you in any way for a music career or was it just a diversion?*

RM: (pause) Yes, I guess it did in a way. I never thought about it really. What helped me more than anything was the travel. I’ve been traveling ever since I was a baby. My mom and daddy had four kids and took us all over the country rodeoin’. When I grew up, I was rodeoin’. I got married, I was rodeoin’. That sure makes a large difference in being able to handle this business. I thoroughly love to travel.

KZ: *Everyone says that you interpret songs like Patsy Cline and I agree with that.*

RM: Well thanks.

KZ: *But I also hear Ray Price in your music.*

RM: Oh thanks. They’re two of my favorites. They always have been. There’s a lot of emotion and sincerity there. You can almost imagine that they’ve been through everything that they’ve been talking and singing about.

KZ: *Have you reached the big 3-0 yet?*

RM: No. March 28th.

KZ: *Whenever you hit that age, it’s a judgement time. Do you think you’ve found your musical niche or have you just scratched the surface?*

RM: I feel like we’ve just scratched the surface. There’s a lot more we want to do. One thing about me is I’m never satisfied.

I'm real pleased with what we've done so far. People have even said, "Oh, you should have won the CMA (award) two years ago." Well, I disagree with them. I wasn't ready. I didn't deserve it. I'm not so sure that I deserved it this year. The CMA to me is very important. It's the members of Country Music, it's my peers. It's people I'm working with and for. They voted me CMA Female Vocalist Of The Year. That's a lot of pressure. I accept it. I just really don't know if I was good enough yet to say that I am the Female Vocalist Of The Year. I know so many more things I want to do that I haven't achieved yet.

KZ: *How do you choose the right material for an album? Do you have freedom to select songs and producers?*

RM: Yes. When I went with MCA, that was one of the reasons. I chose my own producer and got more involved in my music. It was a great feeling. See, I couldn't have done that at Mercury (her previous label) because I didn't know what was going on. I had great teachers at Mercury. They showed me what to do and they taught me well. When I went over to MCA and had a different contract, I chose producers I thought I could work with, that I could learn from and who would let me have more freedom. I worked with Harold Shedd first and then when Jimmy Bowen came in and took MCA over, I asked him if he'd be my producer next. He's with MCA and it's better when you have somebody with the company. As busy as that man is, it gave me more freedom with my music. He told me, "You find your music. We're gonna do your music. My name's on the back in small print. It's your name up front and it's your name they're gonna buy." So I went out and I looked for music. Don Lanier from MCA and I went out to these publishing companies and looked and looked and looked. We recorded in January and I started looking in October. I found songs and I narrowed them down to 25 songs. Then I put them on a tape in the order I liked them best. I took it to Jimmy and said, "Alright, here's the songs. He listened to every one of them. About fifteen on he said he wasn't too crazy about them. I said, "That suits me fine. The top fifteen were my favorites." Two of those, I had written. We recorded twelve of my favorites and it was real hard to push three out.

KZ: *For all of us in Radio who receive so much singles product, could you magnify the whole process of getting an actual song from a publisher?*

RM: Okay. We call up the publisher, say the Welk Music Group, and I say, "We're going to come over this afternoon to listen to some songs." They say, "What are you listening to?" And I say, "Something real Country, traditional, but mostly a great song." We go down and listen and they probably play me ten or fifteen songs. If I like any of them, they make me a tape of it.

Then we keep that tape and if there's something that knocks us out, we call them back and say "Please put it on hold for us." Then they don't play it for anybody else. It's ours until we tell them to take it off hold or we record it.

KZ: *You go to lots of publishers to look for songs.*

RM: I go to all of them. As a matter of fact, I even had songs from publishing companies that Jimmy Bowen hadn't even heard of. I go to CBS, Welk, Tree, Chapell—anything I can get my hands on. If they let me in the door, I'll go listen.

KZ: *I see Harold Shedd produced your latest album, My Kind Of Country. Did Jimmy Bowen do your upcoming one?*

RM: Yes. We recorded it in January. It'll be out in June.

KZ: *What was it like being a newcomer in Nashville?*

RM: Scary. Scared to death. Little fish in an ocean. When I first came to Nashville, I

"I chose my own producer and got more involved in my music. It was a great feeling."

didn't have any idea what it was going to be like. I left my rodeo family for a music family I knew nothing about. Didn't know anyone. Slowly but surely, I was accepted. But it took a long time since I don't live in Nashville. I live in Oklahoma. But with a lot of touring with other artists, they accepted me. They kind of replaced families—from rodeos to music.

KZ: *What advice would you give to someone starting a solo career in Country?*

RM: Number one, they should surround themselves with people that are intelligent, who they trust, and who are working for that artist's behalf and not be up for a fast dollar. This is not an overnight fast buck business. It's a long term investment and it is a business. And you've got to treat it as a business. It's not a wild party every night.

KZ: *What are your thoughts about Country artists who are trying to crossover pop?*

RM: (pause) What they're doing is fine and they're a big success, and their crowds are good, and their fans evidently love 'em to pieces. What they're doing is fine to me except it ain't Country. (pause) It's just not exactly Country. I'd like to see more Country people being represented in Country.

KZ: *What are your thoughts about burned-out pop artists going Country?*

RM: Really hacks me off. It's like, well rock'n'roll doesn't want us anymore, we can make it in Country. Anybody can.

KZ: *You know that's not true.*

RM: Yeah. It's hard. It's tough. It really aggravates me when people do come over and get a big burst of success or a big amount of airplay taken away from real Country artists ... who are working their butts off to satisfy the public and being honest and truthful. A person who's going crossover won't say that. I'm staying on my territory. I feel like I'm not intruding on theirs and they shouldn't intrude on mine. But it's a free country and they can do anything they want to.

KZ: *Who are some of your musical influences? Past and present.*

RM: From the past is Dolly Parton and her old style of "Blue Ridge Mountain Boy." Of course, Patsy Cline. Loretta Lynn and her early stuff. Ann Murray and her early stuff. Merle Haggard, George Jones, early Ronnie Milsap, early Glen Campbell. Now, songwriters are my big influence because songwriters are like the baby doctor. They're the ones with the new ideas and with the new breed of Country Music that I strive to listen for. The Judds, George Strait—they're two of my favorites right now, because The Judds are real Country. George Strait is real Country. And I like the way they sing and I like their songs. And they're modern. They're not old-fashioned Country. They're modern Country. And that's the vein I'm in, too.

KZ: *With the popularity of duets and collaborations, who would you like to make a record with if there were no strings attached?*

RM: George Strait. George is from Texas. I'm from Oklahoma. George is three years older than I am. We're good friends. We get along real well. We're both on MCA. Jimmy Bowen produces both of us. I don't know when I'd like to do this. But I know if I was going to do a duet, it'd be with George. If George would want to.

KZ: *What do you cherish most as a successful musician? Visibility, hits, artistic freedom, or money?*

RM: The artistic freedom right now because I haven't gotten into any of the money yet. (laughter) Everytime I make more money, there's something else to be spent on. The freedom I've been given with MCA about my music is what I treasure the most.

KZ: *What artists outside of Country have caught your attention?*

RM: Cyndi Lauper. I like her freedom, her personality. The little things she'll say to people when they're caught off guard. I like her freedom of expression onstage.

KZ: *How important is image versus musical talent in Country?*

RM: I don't think image is as important as musical talent in Country. In rock'n'roll you have more young people. Hold their attention. Be different. Have a gimmick. In Country Music, and this is my opinion, it's just more honest. If you go out there in blue jeans or spandex and sequins, the crowd will know instantly if you're honest. ■

ANALYSIS

MARY JANE GIRLS look like the story of the week (unless you've seen the N.Y. Times article this week on payola, or People magazine with MADONNA on the cover), and these girls are cookin'! Stations smokin' on this cut are KGFJ-Los Angeles #7, WQKQ-Nashville #11, WJPC-Chicago #12, WNOV-Milwaukee #15, WWDW-Sumter #17, WRKS/FM-New York #17, KIIZ-Killeen #19, KKDA-Dallas #20. The JENNY BURTON scenario is reminiscent of the tortoise and the hare story.... she crawled along as an "unknown" artist and slowly but surely managed to overtake the competition to achieve a debut number at 24. We were right on the prediction last week with SADE, the five-format crossover artist, who gets CERTIFIED on this page already! "Most Added" looks very normal this time around with NEW EDITION's "Lost In Love" getting the nod. I believe all of the last three singles have been awarded this one. Slim pickins this time in the Pop Crossover category due to SADE retaining the place again - but TIME's "Bird" is now picking up good Top 40 station airplay now that they've had enough of "Jungle Love". We're at a point in time now when the new acts and solo efforts are being intermingled with artists coming back from our past. TINA is the most obvious of these, but included also

are B.B. KING (and "Lucille"), THE TEMPTATIONS, GLADYS KNIGHT & THE PIPS, ISLEYS, WHISPERS, etc. The "formerly from the group..." solo efforts making it on their own are mixed in with new and comebacks. LIONEL RICHIE and CHAKA are the most prominent of these and others include JESSE JOHNSON, EUGENE WILDE, JEFFREY OSBORNE, THOMAS MCCLARY and soon-to-be-released MORRIS DAY. The crossover story continues to increase every week and is emphasized by the latest television award shows where our major R&B artists were yanked out of the nominations in our format and forced into (their term) "Pop" category (i.e. PRINCE, TINA TURNER, LIONEL RICHIE). I wholeheartedly agree with those of you who've told me you enjoyed the PRINCE show. His antics on "his" stage (it travels with him wherever he tours) are so enthusiastic and child-like that you can't doubt that he's sincere in wanting his audience to be involved in his "fun" during the performance. Even when facing "first-timers" on this tour (and they were plentiful because of "Purple Rain"), he turned their early inacceptance and stand-offishness into participation by the second hour encores, which some nights lasted an hour here in S.F. The Tour is approaching its final venues..if you have the opportunity, be sure to join in his fun.

Dave Sholin Personal Picks

USA FOR AFRICA - We Are The World (Columbia)

Certainly rates as the week's most important record for radio, for the artists involved, and most importantly of course for the many people it will hopefully help. Lionel Richie and Michael Jackson provide a superior composition to their fellow superstars who all give an emotionally charged performance. Can't imagine any programmers saying no to this one simply based on listener interest and promotional value alone. Who knows, maybe a produced intro and outro would even make it count as public affairs programming. It's worth it to check with your station's attorney and find out.

KATRINA & THE WAVES - Walking on Sunshine

(Capitol) I've been waiting for its release since hearing it on an advance cassette a few weeks ago. Records like this build excitement on radio and they only come around every so often. From the very start, it's a side that gets your heart beatin' fast and makes you break into a smile. Is this perfect for Springtime or what?

DAVID LEE ROTH - Just A Gigolo (Warner Bros.)

Exactly what you'd expect from a guy who's recently been quoted as saying "I always wanted to be exactly what I am now - Al Jolson for the '80's". Listeners who haven't heard his mini LP "Crazy From The Heat" will be stunned when they get a taste of this one, but I'll wager they'll love it. Give us more David! Song is most identified with Louie Prima and Keely Smith, but Roth throws in that Louis Armstrong touch for good measure.

POWER STATION - Some Like It Hot (Capitol)

An urban rocker created by Duran Duran's John and Andy Taylor, Chic's Bernard Edwards, the highly respected Robert Palmer, and Tony Thompson. Power rotation can't be too far away.

KOOL & THE GANG - Fresh (DeLite/PolyGram)

They've been able to pull off that great magic trick...turning on a new legion of fans without turning off anyone. "Joanna" paved the way for another chapter in Kool & The Gang's amazing success story. It's evident they've pulled out all the stops to keep their special sound fresh.

KENNY LOGGINS - Vox Humana (Columbia)

Translated "Human Voice", this Loggins and Loggins composition is kind of a cross between "Footloose" and "I'm Allright". His voice and production style are always welcome additions to Top 40 and A/C playlists.

HOWARD JONES - Things Can Only Get Better (Elektra)

Some say his starring shot with Herbie Hancock on the Grammy Awards was the highlight of the program. This release is definitely the highlight of his career so far. If this is a preview of things to come, 1985 can only keep getting better for Mr. Jones.

WHAM! - Everything She Wants (Columbia) What a difference a year makes. Our bad boys aimed their young guns at Top 40, A/C and R&B charts and eventually resistance crumbled. This latest entry can only help to make 'em bigger.

BILL WITHERS - Oh Yeah (Columbia)

Not since "Just The Two Of Us", has the superb artistry of Bill Withers had a better vehicle in which to be showcased. Another triple format threat that rates one very large Oh Yeah!!

Ron Fell Personal Picks ALBUMS

"Beyond Appearances" - Santana (Columbia)

The works of Santana the man and the band employ all possible definitions of the word "inspiration". And then some. His intense commitment to music, his Latin heritage and his guitar are awesome. His sense of balance - employing equal quotients of commerciality, substance and energy have distinguished his recent LP's and what we have here and now may be his high water mark. He's smart enough to know that soaring, indulgent solos don't cut it with pop radio. But ain't it nice to catch an extended bridge of his singing steel strings once in a while! His sense of timing and interpretive stylizing, synchronized with soulful vocals and a variety of ethnic rhythms is a joy to behold. Check out the single, SAY IT AGAIN, if you haven't already. Beyond that, my faves are: HOW LONG, which sounds a lot like a Phil Collins track, WRITTEN IN THE SAND, I'M THE ONE WHO LOVES YOU (an old Impressions song) and the requisite instrumental, TOUCHDOWN RAIDERS, (a song indeed inspired by the play of Los Angeles' finest football team).

"Rhythm of the Night" - DeBarge (Gordy)

Rhythm is the key word. Past LPs from the DeBarge family have been distinguished by cushiony, jazzish instrumental beds. Here, on their fourth album, they find the sound which eludes most groups in search of multi-format success. Here's a group which could have been trapped in one format, busting out at the seams in three, with their latest single, RHYTHM OF THE NIGHT. Richard Perry (Pointer Sisters) produced the title track, but most of the album was supervised by Jay Graydon, who almost single-handedly put Al Jarreau in the pop music theatre when Jarreau needed a shove. This album also puts more emphasis on El DeBarge. His voice is quickly becoming the dominant instrument in the group. The remaining siblings concentrate on richer harmonies than on past LPs. RHYTHM OF THE NIGHT, WHO'S HOLDING DONNA NOW, THE HEART IS NOT SO SMART, GIVE IT UP, YOU WEAR IT WELL.

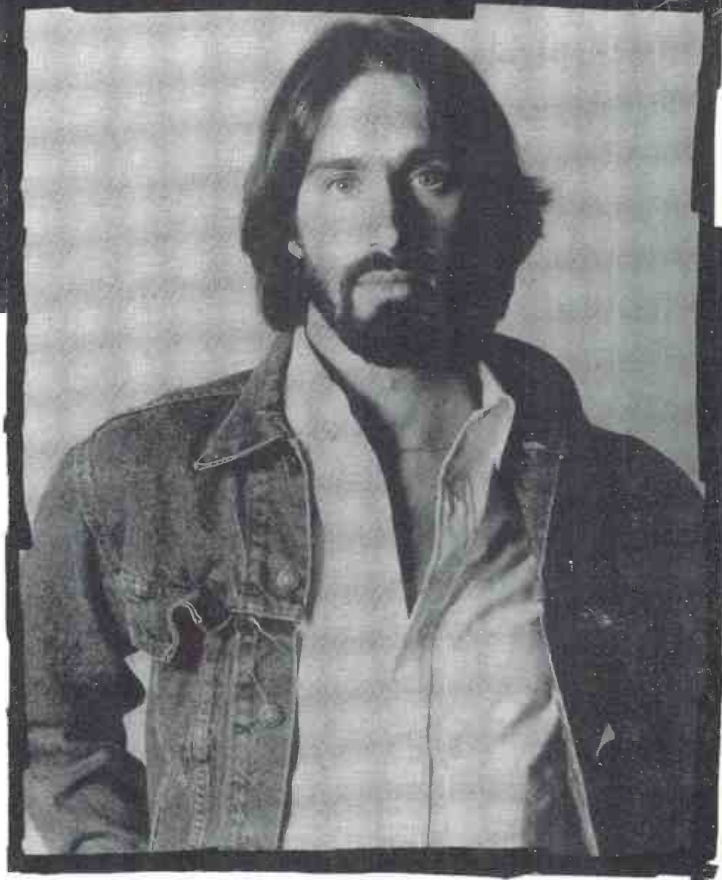

Dave Sholin CONTINUED

Novelty Of The Week: Strapped - EDNA (Brownwind)

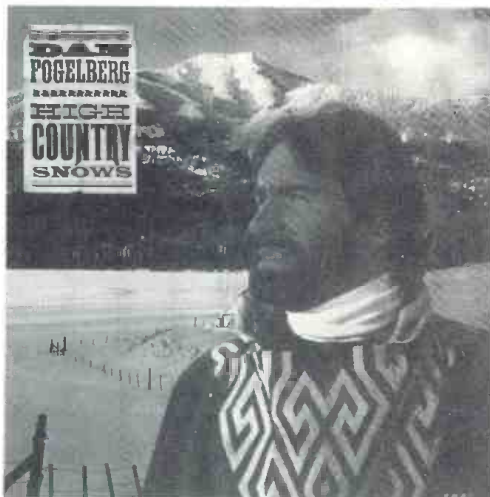

So you wanna create some talk?? Wanna see the phones light up? -Houston's Dayna Steele sent this along and explained she had it submitted to her by this local band (pronounced Strapped-duh). She put it on her morning show and it became the station's most requested record. Should you care to check out this off the wall entry, write Dayna at KLOL, P.O.Box 1520, Houston, TX. 77251 or call her at 713-526-6855 to obtain a copy.

TOM PETTY AND THE HEARTBREAKERS

Southern Accents

Featuring The Single: DON'T COME AROUND HERE NO MORE

MCA 52496

Don't Come Around Here No More is the return of Tom Petty and The Heartbreakers. From the upcoming album **Southern Accents** MCA-5486, the song and the album mark numerous firsts.

The sixth album for Petty and the band and the first since 1982's *Long After Dark*, **Southern Accents**' highlights include collaborations with Dave Stewart of the Eurythmics and Robbie Robertson, of The Band fame. Tom Petty and Dave Stewart co-wrote three of the album's nine tracks, combining with long-time Petty-Heartbreakers' co-producer Jimmy Iovine on the production of the three songs, includ-

ing **Don't Come Around Here No More** and Jack Nitzsche added his expertise by arranging the strings on **Southern Accents**.

Robbie Robertson co-produced with Petty and Iovine "The Best Of Everything" for the album and on the track, Richard Manuel and Garth Hudson, also formerly of The Band, make special guest appearances on backing vocals and keyboards, respectively.

Southern Accents is the latest progress report from Petty and The Heartbreakers... Mike Campbell, guitars; Stan Lynch, drums; Benmont Tench, keyboards; and Howie Epstein, bass. And the progress is what

you would expect from one of rock's most creative bands that has been responsible for **Don't Do Me Like That**, **Refugee**, **You Got Lucky**, **American Girl**, **Breakdown**, **I Need To Know**, **Listen To Her Heart**, **Even The Losers**, **The Waiting**, and so many more. Their's is a style and musical signature that is not only instantly recognizable, but has also earned them the plaudits of critics and fans alike as well as scores of platinum and gold certifications. When the Recording Industry Association of America (R.I.A.A.) initiated their multi-platinum certifications in 1984, Tom and the group's **Damn The Torpedoes**, of course, was one

of the first recognized.

Southern Accents is the logical extension of the group's previous albums. Recorded in Tom's home studio, it is the powerful work of a band that has carved out their turf and still possesses the confidence to continue to grow.
