# INSIDE TOP 40 WITH DAVE SHOLIN

After a full month at the top BOSTON loosens their grip on number one, allowing HUEY LEWIS AND THE NEWS to step back into the slot they've become very familiar with the past couple of years. BANGLES hit factor is now up to 88% with number one listings at 93Q Houston, WILI Willimantic, KKOS Carlsbad, KZZU Spokane, KATD Los Gatos/San Jose, KCPX Salt Lake City, KSND Eugene, Z103 Tallahassee, etc.

Can't move much faster than DURAN DURAN whose hit factor zooms from 20% to 51%. Top 20 for Scott Shannon Z100, Pat Gillen JKL/FM, Stef Ryback KC101, Terry Havel WJZQ, Doug Erickson KPKE, Mark David

Sawyer WABB/FM, etc. Don't penalize SURVIVOR who had to hold up due to a Top 20 log jam.

Three times as many reporters on CARLY SIMON as when she became our Record To Watch on October 24th. Slips right by Chartbound with adds at Q105. WNYZ, KZZK, WKTI, WBNQ, WWKZ, WFBG, coupled with excellent chart growth. It'll be a great Thanksgiving for BILLY VERA & THE BEATERS who are now groomed for a super Top 40 run..charts at Z93, Z100, KIIS, B106, KYAA, Z104, KBIU, etc.

Smoke signals on a couple of ladies...first DEBBIE HARRY. The buzz on this one

looms larger day by day as the sales and request story makes its way from region to region. New on KMEL, KKYS, KLBQ, FM102, KKTIX, KDOG, WZYX, JKL/FM, WKPE, etc. Several key stations are playing it in test rotation with response sure to take it to fulltime status. No one can touch SAMANTHA FOX in the Record To Watch category. John Raymond at KIXY San Angelo is first to take her to number one, and Jay McCall at KOZE Lewiston reported number one sales and requests this past week. Moves 13-8 KSND, 17-13 93Q, 12-19 WSPK, 31-26 WXKS, 30-18 OK95, KEWB 20-11, debuts #24 I94, #20 WCIL and adds at KMOK, WOAY, KCPX, WBBQ, Z100, KKYK, etc.

# HIT FACTOR

Hit Factor is a percentage of stations playing a record which also have it Top 20.  
ie: 100 stations playing the record—60 stations have it in their Top 20—Hit Factor = 60%.

# WIN THE RATINGS BATTLE WITHOUT SHEDDING YOUR LIFEBLOOD.

## THE BEST CONTEST

Another book. And another senseless battle to see if you can give away more cash than the competition. All to attract dial switchers who punch when somebody else wins.

The alternative?  
The Best Contest.™

It builds loyal listenership that transcends one rating period.

Instead of robbing hard won profits from the bottom line, it gives you great opportunities for trade-out.

And, unlike one more cash giveaway, The Best Contest sets you apart from the competition. Impactfully. Uniquely. While positioning your station as the best of everything in town.

Debuted last month at the NAB in New

Orleans, The Best Contest is now available with exclusive rights for most rated markets.

Call Dain Schult at (404) 266-1977 before the competition does. He'll tell you how The Best Contest can help turn your next ratings battle into a rout.

# CHINWAG

by Keith Zimmerman, Joe Belden and Kent Zimmerman

The night was cold but the reception warm as more than 60 of Manhattan's music and radio mavens joined Gavin staffers at the Plaza to discuss next year's **GAVIN SEMINAR FOR MEDIA PROFESSIONALS**. The ad hoc quorum helped to finalize the agenda and develop some soon-to-be announced special plans for the Seminar. Thanks to all of you who turned out! (MORE TO COME.)

Gavin Top 40 Editor **Dave Sholin** has been named the new host of the syndicated "Countdown USA" program heard on more than 150 stations weekly. Sholin, who continues as program director at **KFRC-San Francisco**, will begin hosting the weekend of January 10, taking over from **John Leader**, who is stepping aside after four years to pursue his voiceover career. "Countdown USA" president **Jo Interrante** says Sholin is "a perfect host" for the show because of his well-respected career in Top 40 Radio. Sholin, for his part, says he's "thrilled to pick up the ball and hope this will be the start of a long and successful relationship with America's best radio programmers."

What does **KMEL-San Francisco PD Steve Rivers** have in common with North Korea's **Kim Il-Sung**? They're both still on the job, despite reports to the contrary. Rivers was rumored to be packing for **KS103-San Diego** in a scenario that had former **FM102-Sacramento PD Rick Gillette** heading for S.F. instead of **WHTX-Detroit**. Says a **KMEL** spokesman: "No way!" Rivers was spotted at the airport greeting the president of Mongolia and Gillette is winging to Motown.

New Jersey Radio Rules! **WJLK/FM**, licensed to Asbury Park, made the new **Bruce Springsteen** box-set release into an excuse for a party. **WJLK's Pat Gillen** says the **CBS Morning News** contacted him with the appropriate idea of doing a live shot from Bruce's home turf. That was enough to get morning guy **Tim "Up With Downs" Downs** cracking on the phones. When the dust settled, Downs & Co. had not only a network TV news crew on hand, but also a caterer, plus visits from **Gov. Tom Kean** and senior **Sen. Bill Bradley** (who intro'd a few records on the air). As a final homage to Joisey, **Bon Jovi** clocks in at number one for the fourth week in a row.

Six months after heading down the Mississippi to take the PD reins at **WEZB (B97)-New Orleans**, **Kipper McGee** is bound upriver again. The Milwaukee native is the new PD at **WRKR-Racine/Milwaukee**, which is making a run for Beer City's Top 40 crown under new owners **SRO**. "They've made a commitment to be winners," says McGee, "and I have every confidence we will succeed." The move is a homecoming for McGee, who worked at **WKTI** and **WLUM** before heading for **WZOK-Rockford, IL**, and points south. "B97 was fun," McGee says, "but it's pretty well set and successful. I'm looking forward to the opportunity to start from scratch—and Milwaukee is wide open right now."

**CFNY-Toronto's Don Berns** was among the **WKBW** alumni who shuffled back to help Buffalo morning legend **Dan Nevearth** celebrate his 25th continuous year on the station (now known as **WWKB**). "There was a massive reception at Shea's Buffalo Theater," reports Berns. "Every

station in town was represented." Among those returning from other markets: **Jungle Jay Nelson, Joey Reynolds, Rod Roddy, Art Wander and Tom Shannon.** "They even renamed a street after him," says Berns, who worked with Nevearth in the early Seventies. "It was a privilege and an educational experience," Berns recalls. "He taught me everything NOT to do!"

The group behind "**Sun City**" wants radio folks to help them convince PBS to air "**The Making of Sun City.**" After initially welcoming the idea, PBS last month rejected the award-winning documentary, telling **Little Steven Van Zandt** the network did not feel obligated to "congratulate you for your moral position on apartheid." **Artists United Against Apartheid** urges you to send yer cards and letters to **PBS President Bruce Christensen, 1320 Braddock Place, Alexandria, VA 22314.**

Atlanta is burning with rumors about the apparent demise of the **688 Club.** **Jennifer Grossberndt** of **WRAS** says, "We've been babysitting bands all week." **Winter Hours** was one of the displaced acts, forced into a last-minute move to the **Club Rio.** Even more unfortunate was **Scruffy the Cat**, which came all the way from Boston, only to find the Atlanta landmark shuttered.

**Radi-O-Rama:** New owner **Chase Broadcasting** has named **Waylon Richards** PD at **KWK**-St. Louis. Richards comes from **KHFI**-Austin, TX. Expect word next week from Chase as to the new PD at **WTIC/FM**-Hartford, now that **Garry Walls** has moved to **KLZZ**-San Diego...**Jim McLaughlin** has stepped aside as PD of **WBEN/AM**-Buffalo to concentrate on news. **Hank Nevins**, PD of **WBEN/FM** assumes programming duties for both stations on an interim basis...**Scott Tom** is the new MD at **KGW**-Portland, replacing **Dennis Tachibana**...**Mel Snodgrass** takes over as PD/MD at **KINN/FM**-Alamogordo, NM, allowing **Ben Noe** to concentrate on sister **KZZX/AM**...The new lineup at **KVRE**-Santa Rosa, CA, has **Steve Jaxon** coming crosstown from **KREO** to cover mornings, with MD **Scott Murray** on middays and PD **Bill Bowker** from 3-7, Ex-**KRQR**er **Nancy Walton** is on till midnight, when **Scott Kinzy** takes over. Also joining the staff is **Richard Gossett** of **KSAN** and **KQAK** fame, on Saturday nights...Changes at **WRPX**-Hudson, WI, have **Lowell Homburger** as new GM and News Director **John Creamans** adding the title of Operations Director...**Emmis Broadcasting's** hot **POWER106**-Los Angeles has promoted **Susan Perry Hoffman** and **Jeffrey Specter** to Local

Sales Managers...**Dave Allen** is PD and **Darren Silva** MD at **KSLY**-San Luis Obispo following the departure of **Joe Collins**...**Laurie Sanders** is now on overnights at **KOST**-Los Angeles as **Scott Lockwood** moves to Production Director for **KOST-KFI**...**Mike Wheeler** leaves A/C **WTWR**-Monroe, MI, to become Operations Manager at Top 40 **WRQN**-Bowling Green, OH...And C'wag congratulates **Barry Horne** of **C100**-Halifax, Nova Scotia, named Canada's Medium Market Program Director of the Year by **The Record** magazine.

**Vide-O-Rama:** **Atlantic Records** has appointed **Nance Kaplan** Director of Video Administration. She comes from **RCA/Ariola**...**Elektra/Asylum** Records has promoted **Robin Sloane** to the post of VP of Video.

**PolyGram Records** is beefing up its national sales effort by promoting **Peter Velsler** to the position of national accounts and **Karen Mattson** to Director of National Sales Development. In addition, the company is expanding the duties of **Jeff Brody**, VP of National Accounts, to "strengthen its commitment to record accounts nationwide"...**Arnie Orleans** is the new VP/Marketing at **Rhino Records**. His long resume includes stints at **RCA, ABC** and **20th Century**, as well as the job of Sales Manager at **A&M**...And Gavin's favorite Good Ol' Boy, **Phillip Rauls**, has relocated from Memphis to St. Louis as Midwest rep for **EMI-America Records**.

Our condolences to the family and friends of **Harold Burnside**, the **Warner Brothers** promotion man in Philadelphia who was killed in a hit-and-run accident Nov. 16. "**The Boomer**," as he was affectionately known, had worked for Warner Brothers Records since 1972.

**Atlantic Records** has also announced with sadness the death of **Horace Kenneth Burrell**, who died at New York City's Beth Israel Hospital Nov. 1, following a long illness. A senior member of Atlantic's publicity department, he had been with the company for 15 years.

Chinwag was happily visited by former **Men At Work**, currently solo **Colin Hay**. He is excited after finishing a brand new album with producer **Robin Millar**, whose work with **Sade** and **Big Country** has made him in demand. The title track, "Looking For Jack" features some fantastic interplay between Hay on guitar and **Herbie Hancock** on piano. Look for "Jack" in January complete with trademark Colin Hay/Men At Work vocals.

Absent from the ceremony honoring the official announcement of the new owners of **Muzak** was rock n roller **Ted Nugent**. Earlier this year, Ted offered ten million dollars to buy Muzak and "shelve it for good." Nugent's inspiration to buy Muzak was "to remove it from the face of the earth so America would be a better place to live for one and all." "Muzak is an evil force in today's society, causing people to lapse into uncontrollable fits of blandness," he charged. "It is emotionless drivel," Nugent continued, "that has totally neutered segments of society beyond recognition." As a goodwill gesture, the new owners, **Yesco Foreground Music** plan "to integrate some contemporary instrumentation into the traditional Muzak format."

Chinwag froze its collective keister off in Manhattan, however our spirits were blazing. Thursday night (November 13) was a meeting of the minds as the East Coast delegation met to help finalize the **Gavin Seminar For Media Professionals** agenda. They were also briefed on the about-to-be-announced special plans brewing for Seminar '87. Joining **Kent Zimmerman, Dave Sholin, Lou Galliani** and **Ron Fell** were such heavy hitters as: **Marcia Edelstein, Charlie D'Atri, Brad Hunt, Bob Catania, Andy Allen, Jim Coffman, Chris Lasalle, Andy Kipnes, Pat Gillen, Steve Backer, Lisa Wolf, Mike Martucci, Lisa Frank, Lisa Velasquez, Quincy McCoy, Jo Interrante, Judy Libow, Margo Knesz, Marc Nathan, Joshua Feigenbaum, Mike Mena, Kim White, Lori Blumenthal, Maxanne Sartori, Bobby Shaw, Linda Kirishjian, John Rosenfelder, Alan Wolmark, Mike Becce, Sheila Chlanda, Sean Coakley, Rick Bisceglia, Kevin McDonald, Tony Gray, Kerry Wood, Michele Block, Leigh Lustberg, Hugh Foley, Jerry Lembo, Jack Isquith, Diarmuid Quinn** and whoever neglected to sign the sheet we passed around. Cheers and onto **Feb 20 & 21 '87**. Don't forget to mark your ballots and send in your registration and hotel cards pronto. ●

# A/C ANALYSIS

**Bruce Hornsby** is a solid number one. That's the way it is with 217 of his 230 A/C reports.

Heir to the throne should be either **Billy Ocean** or the mercurial **Miami Sound Machine**. **Billy's** seven week HIT FACTOR is 95% and **Miami Sound Machine's** five week HIT FACTOR has skyed to 91%!

The **Ronstadt/Ingram** duet, *Somewhere Out There*, will clear the magic 200 station mark next week and it's HIT FACTOR should exceed 80% easily.

**Billy Joel** may have set an A/C record by being our A/C MOST ADDED three weeks in a row.

**BJ's** label mate, **Gregory Abbott** leaps from ACTION SIDES over CHARTBOUND to become this week's highest debut. His HIT FACTOR of 69% from his airplay base of 101 stations should impress many of the 139 non-believers.

**Paul Simon's** pilgrimage to *Graceland* is starting to gain momentum as his faithful include more than 100 stations and he's reached numbered status on the chart.

Last week's RECORD TO WATCH, **The Pretenders**, is HIT FACTORED at 53% of their stations and that doesn't include their twenty-one adds this week.

This week's RECORD TO WATCH, **Billy Vera and The Beaters' At This Moment** debuts in our NEW section with believers including: KLOK, KKIQ, KDLK, WTWR, WLIP and WZNY already in HIGH rotation.

## R&D

## RECOMMENDED FOR A/C RADIO

### LIONEL RICHIE

#### *Ballerina Girl (Motown)*

He can light up the party by dancing all night long and/or on the ceiling and he can also dim the lights, pour the wine and turn mush into classically romantic poetry and music.

### MADONNA

#### *Open Your Heart (Sire/Warner Bros.)*

The powerful rhythm track may cut a little play out from under a few Adult/Conservative stations, but a 90% HIT FACTOR from the majority is likely.

### LONE JUSTICE

#### *Shelter (Geffen)*

Maria McKee, the lone survivor of a re-grouped band, takes a strong lead. The song could break

in any one of four formats: Top 40, Album Radio, Country or, I hope, A/C.

### COREY HART

#### *Can't Help Falling In Love (EMI America)*

The only way to do this song slower would be to play it backwards. But seriously folks, I wouldn't pick it here if I didn't think this classic song didn't get a special, patient treatment from one of popular music's genuine matinee idols.

*On October 24th, we jumped the gun by picking the following before their time.*

### EL DeBARGE

#### *Someone (Gordy/Motown)*

Complete with the music signature of producer/arranger/writer Jay Graydon, this track can't miss with A/C radio. Note that one of the song's writers is Manhattan's Robbie Nevil.

### JOURNEY

#### *I'll Be Alright Without You (Columbia)*

Less intense than the first three singles, this one really plays on Steve Perry's ballad strengths. Should be their biggest A/C track on the album.

# HIT FACTOR

Hit Factor is a percentage of stations which have it in Heavy or Medium rotation. ie: 100 stations playing the record - 60 stations have it in Heavy or Medium rotation - Hit Factor = 60%

# FRANK

So there were two major music business stories in the general/consumer press this past week or so. The continuing Bruce phenomenon continues, and our whole industry will profit BIG from the madness created by the live set. One local Tower clerk told us he hasn't seen anything like it since the release of The 1910 Fruitgum Co.'s "Indian Giver & Other Hits." But, semi-seriously, The Boss is bringing throngs into the stores, and some of them are actually leaving with OTHER product. It can only help us all.

The second story was a bit smaller, but no less significant in THIS observer's mind:

Sinatra got sick. In case you don't recall, he's the guy who had a Bruce-type fuss made over him in the early Forties. He also had similar fusses made over him in the Fifties, Sixties and Seventies. We've personally observed a startlingly frenetic response to his appearances in the Eighties. So last week, aged 70 and pushing 71 real hard, he got sick. It's the first time he's been sick, and it's serious sick, too--or certainly reads that way. We figure that having 12 inches of intestine removed from wherever they remove intestines from can be called serious sick. Seeing the story made us think about Sinatra and his impact on our life. We have more than a few thoughts about him:

1. He'd never been sick before, which is amazing when you think about the gallons of Jack Daniels and the acres of cigarettes he's ingested, a lot of them right on stage. In fact, just recently we were wondering aloud to our wife Rosemary about how he always shows up for his gigs...and apparently has for about FIFTY years. It amazed us that we could purchase Sinatra tickets in June for a December concert and somehow, some way, despite the Jack Daniels and advancing years, he's always there. Always. (You'll note that we said PURCHASED our tickets. That's because our Warners friend Chris Crist never parts with a comp.) WE have hangovers. WE blow engagements, and we're CENTURIES younger than Frank. He always shows up.

2. Kitty Kelly's unauthorized bio of The Chairman was filled with undocumented stuff about nuns being beaten up and God knows what WORSE horrors. We're sick of hearing about it, and we don't like Kitty Kelly. SHE hasn't given us uninterrupted decades of pleasure like he has. So he supposedly punched a reporter or three. Big deal. They probably deserved it. And we maintain that he never ran over an Associated Press guy with his car. The pushy kid clearly got in the WAY of his car.

3. Back in the Fifties, there was a little joke that went something like, "Whose albums does Sinatra listen to when HE'S trying to score?" This referred to the fact that everyone "made out" with Sinatra LP's playing in the background...and that millions of Yuppies were conceived with Frank/Nelson Riddle or Frank/Gordon Jenkins on the MONO.

4. Has anyone else...ANYONE...been hot for five decades? We can't think of anyone else. This guy never even had a Victory Tour. He just kept showing up and singing. Has anyone else worked giant venues for eons without the aid of lasers, smoke bombs and other supportive paraphernalia?

Don't think for a minute that we idolize F.S. so much that we're blind to reality or difference of opinion. We have enough sense of humor to appreciate Joe Piscopo's cutting impression of Frank doing the Stones' "Under My Thumb." It's just that we thought this might be a good week for both of you readers to pick up the \$300 boxed set of Sinatra in the Capitol Years. You can probably find it discounted somewhere. We suggest you sit down and listen to it in the company of a loved one. It could lead to the birth of yet another Yuppie.

One final thought, and it's a selfish one: Get well, Frank--and fast. We could stand to hear "I've Got You Under My Skin" just one...more...time. ●

# Taking Off Where The Jefferson Airplane Left Off

## The Gavin Interview: Paul Kantner and Jack Casady

by Keith and Kent Zimmerman

**W**ithout first hearing their music, it would be easy to prejudge the KBC Band as just another nostalgic send-up salutation to the long-gone Sixties. Yet the result of Paul Kantner, Marty Balin and Jack Casady's admittedly clashing personalities is music that deals with real and current emotions and moments. Unlike some who have sold out since the last two decades, Kantner and Casady have absorbed what they've learned from the groundbreaking Jefferson Airplane and applied it wholeheartedly to the new KBC Band. Our conversation took place at Kantner's marvelous house in San Francisco. A giant picture window revealing the Golden Gate Bridge and its lightish-blue waters made its subtle presence known throughout our visit. You get the impression that Casady and Kantner are musical thinkers, so the discussion started, temptingly enough, with politics.

**KZ:** Do you think today's rock n roll musicians generally lack a political point of view?

**PK:** Today? I think there's a place for everything. Back in the Sixties, you had everything from the Beatles to the Monkees. They all had their place and they all contributed something. The Monkees brought in people who are listening to Tchaikovsky and Beethoven now, Ozzy Osbourne or whatever, it's all a stepping stone. We have U2 now, the Police, the Amnesty Concerts. You have people more serious like Mellencamp. There are people really concerned.

**"Perfume or Coca-Cola or soap or beer is not what I think our music is supposed to be for."**

Bruce Springsteen is probably the most popular artist today.

**KZ: But nobody's talking about Lebanon or Nicaragua.**

PK: They will.

JC: Bruce Cockburn does.

PK: The Clash did on "Sandinista."

**KZ: I still personally feel that we've entered some kind of neo- Eisenhower Era.**

PK: The entire Seventies were. Now we're struggling out of that.

**KZ: Let's talk about the lyrics to "America."**

PK: There's a strength to America, even with all the shit we've given it--and rightfully so. America has stood up through it all. People are still alive through all the drugs, rock n roll, police and the civil rights onslaught. The country's the same way. That's the strength of this country. There's so many diverging outlaw elements that none can take over. One sweeping fundamentalist religion, right-wing politics of 1984, the military--none of those elements can get strong enough to eventually dominate the whole entire country.

That's because the world is full of redneck crazy assholes, KKK, right-wing survivalists, left-wing crazies, Charles Manson to Ronald Reagan. This country is a madhouse. Nobody would want to be in control or responsible for that many divergent types. They're uncontrollable. The world is crazy. It seems to be getting algebraically...I was going to say worse but...different. Greater each year.

**KZ: Do you agree with (novelist) William Faulkner that mankind will prevail over its problems?**

PK: Oh yes. I'm very optimistic, naively so. That's why I'm in this band putting up with all this insanity. If the music holds true, it's good. If it's not, then you fall by the wayside.

JC: We have to make the music. The hunger for me, and Paul too, is that I'm four years older, so I've got that much more in me to get out. It's not like it's less.

**KZ: Jack, the last few bands you were in, SVT and Yanks, were very modern. You had left the Jefferson Airplane and during the New Wave times you were up there playing with those bands.**

JC: I was playing constantly. It was a real intense and emotional period of time for me. It was a necessary step for change and, whether I did it or not, it was going on around me and I responded to it. The people I played with were just as important as any other band. We were traveling around the country for two months at a time, always playing. You get your fans and people see how real you are onstage. To me, it's always a band format. You develop your material and everybody just thrashes it out.

**KZ: I remember when you guys first formed the Jefferson Airplane. It was very much a folk, acoustic type of band.**

PK: Yeah. It was a lot of combined elements. Marty and I brought that to the band, along with theatrics as well. (Lead guitarist) Jorma (Kaukonen) brought in a whole blues side of folk. Jack brought in an electric (bass) bottom and Grace (Slick) was...God knows where. The nature of the band was strong chaotic personalities clashing. Not hostility like The Who, but a general strain of characters who would normally not get along with one another.

JC: Also, Jorma hadn't played a lot of electric guitar, so he developed his electric guitar style through the band. And it was the same with Paul. I had played bass with a variety of bands but I had stopped playing for a year or so. Then the chance of having all original material allowed me to develop my own style rather than copying somebody else. That was real important to me when I was around twenty years old.

PK: When we started, people weren't used to doing that. Most people didn't have original material. It must have been Bob Dylan and the Beatles that gave everybody the desire to write their own stuff. The Beatles had a lot to do with stretching the borders of music beyond the Tin Pan Alley approach of the one-four-five kind of songs or the C/A Minor/F/G kind of songs.

**KZ: The Starship was obviously going into another direction than you wanted to go.**

PK: (laughs) Well, that's obviously why I left. Just for that reason. It's as simple as--what do they say in magazines?--musical differences. Basically, that was it. Musical and cultural differences. It was not like there was a big moral imperative whether to

play this song or that song. It was not a moral issue, it was just taste. It's what you want to be or what you don't want to be. I didn't want to be the spokesman for Nestle, which the Starship is now. That really goes against my grain for music. It's very tempting and the money in it is very good. I have to admit if I were starving and my children had to go to school, I might be in a position where I would accept that. But I hope that that choice will never be there. Actually, I could do a couple of corporate sponsorships like we did with Levi's in the Sixties, which I thought was totally honorable. I could do something like Sony, who make great equipment, or something like that. But perfume or Coca-Cola or soap or beer is not what I think our music is supposed to be for. But then a lot of people these days don't use music that way. It's just a job. Music became so popular after a while that instead of being a dentist or a doctor, Johnny can go be a rock musician. Buy a condo for his wife or his parents. It's entered that whole level. It's not the spirit of what the KBC Band is all about.

**KZ: Do you think by talking about Lebanon, that's closer to the spirit?**

PK: Springsteen does that.

**KZ: But he's not as specific about it as you are.**

JC: He has a different approach, more of a blue-collar, working man's approach. He doesn't inspect major events in his lyrics.

PK: I'm speaking in more general terms. I think he approaches that. Lebanon was just on the news. Next year it'll be Paris.

**KZ: But a song like "Mariel" is a gut-level political statement, whereas some musicians now tend to be so general that Ronald Reagan can quote them in a speech.**

PK: Well I don't want to be like that. (laughs) "Mariel" was quite forwardly listed in the album as being dedicated to Nora Astorga.

**KZ: Who is she?**

PK: She was a Sandinista lawyer working undercover in the Somoza regime. She was beautiful and some general was going after her. Eventually she invited him up to her flat and four of her Sandinista buddies jumped out of the closet and intended on holding him in exchange

for some Sandinista prisoners. But he got real macho and they ended up killing him. She had to flee into the mountains for the next five years with the Sandinistas until they won control of the government. She then became a Minister of Information and was later appointed Ambassador to the United States, and was refused by the Reagan Administration because the guy she had killed was a CIA operative. Finally she was appointed the United Nations representative for the Sandinistas. It's that spirit of revolution and not taking any shit. The name Mariel combines everything about South America, culturally and romantically. It suggests Hemingway, the Cuban connection to Nicaragua and the Spanish connection.

**KZ: Does Nicaraguan President Daniel Ortega bother you?**

PK: Of course. But what I drew off from there was the spirit that every revolutionary faction has of taking care of some amount of business. None of them succeed and they almost all fail by their own weight eventually. The same crimes they fought against, they become themselves if they're not careful. The Sandinistas are balancing back and forth. There's a semi-questionable element, but the spirit is ongoing around the world to South Africa and, like the song, Chile. There's that direct mention of Victor Jara. Same thing. It's that spirit of not putting up with bullshit whether it takes your life or not. Rock n roll does that. It's into the fire, as it were, without too much concern for your own public safety. But somebody needs to do that. It needs to be done and I learned it from the civil rights movement.

JC: Then there's our role as government, which is hazy. There's all this disinformation coming out lately. It's a big surprise to a lot of people.

PK: I think half of the assassinations and explosions and grenades are done by the side that are getting grenaded these days, be it Chile, Israel or Syria. You can't tell who is doing what anymore.

**KZ: Going back to "America," who is this character, Jenny Bowen, in the song?**

PK: She's an idealized compendium of women, like the girl in The Terminator. Did you see The Terminator? She's that kind of a figure. She's a fictional person, drawn from several real people.

**KZ: I thought she was real.**

PK: Well she is, in a way that any character in a novel is drawn from reality. It makes them real. She's drawn from people who have had those problems. My guitar player's father was killed in Viet Nam.

**KZ: I was really moved by that song.**

PK: Me too. You should hear the long version. We performed it once, actually. There's one section that goes into some Woody Guthrie snippets from "This Land Is Your Land." It goes into some old people's problems--two old people going down the street, just having a conversation about how hard life is these days. Then eventually Jenny Bowen is standing before the Viet Nam Wall looking for her husband's name, crying with a little baby in her arms. She meets this other soldier there and they go walking off into the sunset.

**KZ: In listening to the album, I saw a distinct personality difference between side one and side two.**

PK: There's a distinct personality difference between Marty and Paul, just to start with, as songwriters. That's been the strength of the band. Like the guitar player and the bass player, each one has a strength of his own. None of our bands have been bands where too many people

do copy songs of ours. Not too many people cover our songs because they're more like Broadside folkers than a Tin Pan Alley. Marty brings a great touch of Tin Pan Alley to the band. He'll get away with "I love you baby" because he means it. A few people do. Don Johnson's "Heartbeat." That's his arrangement, by the way. Marty has been doing that song for three to five years with his band. Marty gave (songwriter) Wendy Waldman a copy of his band doing it--the same arrangement, the key changes. And we rejected it for our album.

**KZ: Are there any plans for the KBC Band to do something visually special onstage?**

PK: Onstage? That's me dragging everybody else screaming into the video age. I like big screens. Laurie Anderson uses a screen that way. It's a logical transition from what we used to do. Using video, synthesizers and pieces of film behind you onstage is striking. I like the way people use a whole block of television sets. Hopefully we'll do something like that for our next stage show when we're in a real theater.

***"It's that spirit of not putting up with bullshit whether it takes your life or not. Rock n roll does that. It's into the fire, so to speak, without too much concern for your own public safety."***

**KZ: What has been your fascination for the Airplane and the Starship playing those legendary free concerts in Golden Gate Park? Do you like to fight with the city of San Francisco over permits?**

PK: That's half the reason now. (laughs) The other half is that it's the best gig we play--for me anyway. You've got everything going on, from families to children to Hell's Angels to Navy men to policemen on horseback to helicopters flying over. And it's all free and everybody's having a great time. There's no lines and there's no patting you down. There's no, "Let me see your ticket." None of that is there. You have a really receptive audience and it's the funnest place to play. All these stadium gigs that they do--fortunately they don't do so many anymore--are basically trying to recapture that spirit. They're trying to do a Woodstock or Monterey, which is a direct descendent of playing in the park for free. They've been doing it for centuries. John Philip Sousa in the park.

**KZ: What kind of touring plans do KBC currently have?**

JC: Just doing some showcase shows, Christmas shows, charity shows. We'll get a tour started early Spring before it gets too cold.

**KZ: What made you guys choose Arista Records for your label?**

PK: Arista made the best, most conclusive, overall offer of both freedom and money. They have the ability of having the intimacy of a small company office rather than an RCA, Columbia or a Warner Brothers. We would probably get lost in that, being the mavericks we are to start with. I think we're a hard sell right from the outset.

**KZ: What do you mean?**

PK: (laughs) Here's some more old guys. What are they going to do? Play their hit and squeak offstage or something? (laughs)

JC: Clive Davis came out to talk with us. He didn't talk to us to shine us on. He's knowledgeable in the music end of it and he's a contemporary. He wants to prove something and we want to prove something. It's a good combination.

**KZ: Was Clive Davis your main link with Arista Records from the beginning?**

PK: He was involved right from the outset. That's another thing that we like. The other presidents were a little less involved.

JC: Clive's personally attached to his reputation and he's sincere about his work and not just looking into how many records are sold.

**KZ: He's also a strong personality.**

PK: Yeah. I like strong personalities. That's what makes this band.

**KZ: Are you guys in this for the long run?**

PK: Never. You never know what you're in for in this business. You should know that by now. Part of being in this business is being open to whatever is coming over the horizon next year. We've never booked five months in advance, much less five years.

**KZ: What is Marty's role in the band?**

PK: He's the lead singer, number one. He and I do a lot of the idea work together. (Makes a clashing motion with two fists.) Sparks fly. The stuff that stays, we keep. He is also an avid song collector, or a "song whore" as he likes to call himself. He'll get a song from anybody and keep it, build it and work on it. The Don Johnson song ("Heartbeat") is an example.

**KZ: From a publishing point of view?**

PK: No. He'll gather songs to sing with a band. He's a singing junkie. He loves to perform. He gets physical, yogic completion out of drawing air into his lungs and having it process through. Singing is a very good way to do that. It's one of the most aerobic kind of things you can do. It gets the air deep which is where it does the most good. He gets off on that level as well as just collecting songs and fashioning them with me and Jack. It's like that big ball in Raiders Of The Lost Ark.

**KZ: So you gather things from the positive collisions as well as the negative ones in the band?**

PK: The negative fields as much as the positive ones. You can either accept the negative or fight the negative. No matter what you do, it's gonna be there. When it's raining, you can either curse the rain or put up an umbrella.

JC: It's a challenge too. Sometimes you come back with a better idea.

PK: I've come to love the rain. I live in the fog. I don't know if you know this area, but this is total fog sixty percent of the year. You come to learn to live with the fog. Then you come to love the fog and enjoy the fog.

**KZ: Do you guys have any perceptions about radio?**

PK: Not accurate ones. (laughs)

JC: It seems to be changing. Everytime I try to find a station on the radio, their formats shift and change and they seem to be in a state of flux themselves.

PK: I like Howard Stern. Some people hate him, some people love him. I just like him because he's so out on the edge. He's so perfect for New York.

**KZ: What does the small oriental symbol on the album cover mean?**

PK: It's like the Chinese stamp that they put on artwork. It says seven. Seven guys in the band. ●

## DON'T WAIT TO GO AM STEREO

I keep reading in the trades that AM broadcasters are frustrated: They want to go stereo, but aren't sure which system to pick. I have also read of appeals to the FCC to "pick a system" to end the "impasse" in the marketplace.

This reminds me on the childhood tale of the emperor and his new clothes. Just as the fairy-tale emperor was persuaded he was wearing clothes when he was in fact naked, an amazing number of allegedly intelligent people seem to believe there's an impasse where none exists. As I pointed out in last week's column, there are well over a million AM stereo receivers available to the public. All tune in the Motorola C-Quam (and Motorola-compatible) AM stereo broadcasts, and of the one percent that tune Kahn-Hazeltine AM stereo, all also tune Motorola C-Quam stereo. There are no Kahn-only AM stereo radios, despite some promises a few years ago from the Muta company. What AM broadcaster would want to install an AM stereo system that can be received by only one percent of available receivers, when by installing a C-Quam transmission system, they can reach every last AM stereo receiver, in stereo? There is no impasse--and no reason to wait to go stereo.

As for the argument that there is no consumer demand and/or no receivers available, this is nonsense. For most new ideas, consumer demand occurs after exposure. The consumer, educated by bad receivers to believe that AM sounds terrible and FM sounds great, is naturally not too interested in the concept of AM stereo. I have watched the faces of people when I put the headphones on them and let them hear AM stereo for the first time. Not one has failed to be impressed and amazed. Most have expressed some interest in getting a radio to listen to AM stereo. Some have spontaneously exclaimed, "This is better than FM stereo!"--which, of course it certainly can be, since less clipping and processing is necessary to transmit it correctly, and it is not subject to the distortions and fading of "multipath" as FM is.

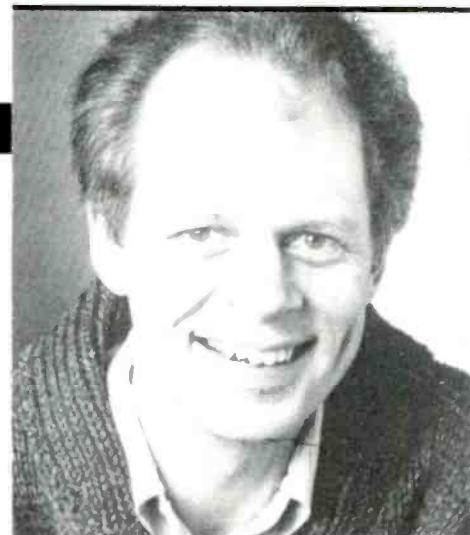

Then, of course, there is the argument that stereo is for music, and a service- or talk-oriented station will not benefit from it. This, too, is nonsense. We hear in stereo, and anything that can be transmitted can be transmitted in stereo. If you have that stereo pilot tone on your signal to switch C-Quam receivers into the stereo mode, you're ahead of the game. If there really is some stereo there, you're way ahead of the game. At least one all-talk station with a C-Quam stereo generator on line and in operation is the CBS-owned KNX/AM in Los Angeles. From a distance of 1,000 miles at night, they have switched on the stereo circuitry of the car I've

been driving lately (a Dodge Aries with a stock factory-installed AM stereo/FM stereo). I can't hear anything there in stereo, and perhaps they have it on just to activate the receivers, but it certainly does that. Every FM station I tune in switched to stereo on this receiver, no matter what its format or talk content. During the daytime, only two AM stations switch to stereo of the many I receive. At night, I get a number more by skywave. (The most distant AM stereo I've received on this car radio--and the quality was good--was WCCO-Minneapolis, quite a ways from Portland, Oregon, where I was driving.)

For the station that has no stereo programming, or doesn't have stereo control board facilities, there is of course always the alternative of using an Orban stereo synthesizer in the mono line just ahead of the stereo generator. It's not real stereo, but it gives surprisingly dimensional quality to much of program content when properly tuned to a satisfactory compromise setting. (If you're holding out for "real stereo" or nothing, reflect that, in its first incarnation as an automated "oldies" station more than a decade ago, KRTH/FM-Los Angeles transmitted a "stereo" that consisted of bass-heavy audio on one channel and thin and tinny audio on the other, mono being fed into two graphic equalizer channels with opposite EQ patterns. It mono'd fine and sounded normal. The Orban device is much more sophisticated, but it mono's perfectly, too. KRTH got ratings doing that! So go stereo now and upgrade to full stereo-sourcing later.) AM will really benefit when most or all of the stations tuned in turn on the stereo light. But if you are waiting till the other guy does it, we come to the final point.

Do you remember why we have color TV today? It wasn't because of the excitement of color--the early sets were dim; colors misregistered (flesh was often green), and they were very expensive. RCA, whose color transmission system was adopted, presented a number of color programs, but the other two major networks were mostly uninterested. Walt Disney moved his weekly program from ABC, for which it had been extremely important, to NBC when ABC refused to transmit it in color. Only NBC/RCA plugged color, sold small amounts of color sets, and kept supporting them with color programs. (You recall the peacock unfurling at the start of each show, no doubt.) Color TV was being disparaged, as AM stereo is being disparaged today.

Then something happened which began the rush to color and made color TV the worldwide standard today. It was a little thing--a survey underwritten by NBC/RCA. And it found that (get this) people with color TV sets tended to watch color TV programs! This astounding revelation

**"As for the argument that there is no consumer demand and/or no receivers available, this is nonsense. For most new ideas, consumer demand occurs after exposure."**

was all it took. The three networks were neck and neck then, as they try to be now, and when ABC and CBS reflected that NBC might have a definite ratings advantage in the few percent of American homes with color TVs, they began transmitting color programs of their own to equalize that difference. With more color programs, the receivers became plentiful, greatly improved and far less expensive.

NBC is the leader at the moment in TV stereo, while CBS and ABC are doing very little with it. Undoubtedly, NBC will have the edge now in households that have stereo TV receivers, which are steadily increasing, until at some point the network competition wakes up. (PBS is also supporting TV stereo in a big way.)

From listening to AM stereo daily, and AM mono daily, on a C-Quam car radio, I can now tell you that, from my own behavior, I deduce that one is much more apt to listen to an AM stereo station than a mono one when there is a choice. The C-Quam compatible AM stereo stations are developing an advantage over their mono competitors among consumers with AM stereo--who number over a million already, just from radios in the new cars they've bought. Now that Motorola seems to be doing away with the "AM-ST" button to push to get AM stereo in favor of having the receiver switch automatically to stereo when the C-Quam pilot tone is received on a station, this advantage should increase.

If you let the other stations go stereo first, it will eventually hurt you in the ratings. How about that for a reason to go stereo...NOW?

Next week: a look at just what AM stereo receivers are available. ●

## MICHAEL JACKSON/ BARBRA STREISAND

Rumor has it that Barbra Streisand will be singing a duet with Michael Jackson on his upcoming album due in January.

by *RON FELL*

## BRUCE SPRINGSTEEN

The original Edwin Starr version of "War" was a hit in the summer of 1970 on Gordy.

## BEE GEES

They're working on a new album with producer Arif Mardin. They've also signed a long term deal with Warner Bros. Records.

## LUIS CARDENAS

While a member of the band Renegade, he qualified for the Guinness Book of World Records by using the world's largest drum kit.

## VAN HALEN

A feature-length video of their New Haven, CT, concert will be made available in video retail outlets beginning November 24th.

## SAWYER BROWN

Lead vocalist Mark Miller recently sustained a knee injury that could have cost him the use of his leg. Fortunately, the doctor who handles athletic injuries for the Atlanta Falcons performed surgery and Mark is now fine, but will be doing his show with his knee in a brace for at least six months.

## STACY LATTISAW

She has been singing professionally since she was thirteen years old.

## PAUL SIMON

Early in his career he recorded with Art Garfunkel under names like Tico and The Triumphs and Tom & Jerry. As a solo, he used the names Jerry Landis, True Taylor and Paul Kane.

## GEORGE JONES

He first signed as a recording artist in 1952 with Starday Records. His first hit came in 1955 with "Why, Baby Why."

## WHITNEY HOUSTON

Gary Garland, her brother, sang duets with her on the summer concert tour. He was formerly a Denver Nugget guard during the 1979-80 basketball season.

## SYLVESTER

He played a transvestite in the Bette Midler film, "The Rose."

## GEORGE BENSON

On an upcoming episode of The New Mike Hammer show George Benson will be guest-starring as a blind singer-entrepreneur named Sweet Billy Marvel.

## HOWARD JONES

The background singers on his new single, "You Know I Love You... Don't You," include Chaka Khan and Aretha Franklin.

## MANHATTAN TRANSFER

Janis Siegel is about to begin work on a blues album produced by Steven Miller.

## KEITH WHITLEY

Both George Strait and the Oak Ridge Boys have recorded "There's A New Kid In Town," written by Whitley, in their new Christmas albums.

## JANIE FRICKE

Her 150-year-old picturesque farmhouse in Lancaster, TX, was recently dedicated as a Texas National Landmark.

## HANK WILLIAMS, JR.

His next album will be live performances recorded in Memphis, Nashville and Irvine, CA.

## THIRTY YEARS OF HYGIENE

Every once in a while I leaf through some old research and become quite embarrassed. The reason I become embarrassed is because some of that research that's supposedly "outdated" is in fact so relevant to the realities of today that I wonder why it's taking this long for us to realize it. Case in point: About 30 years ago a fellow named Frederick Herzberg asked a sample of employees the following set of questions:

"Think of a time when you were really satisfied or motivated on your job. Describe it. Now think of a time when you were really dissatisfied on your job. Describe it."

Before I tell you what Herzberg found out, try answering the questions yourself. First, describe the circumstances or the event in which you felt really high and turned on to your job; then do the same thing for a time when you felt really dissatisfied or unhappy about your job.

Herzberg found that people's "satisfaction" answers revolved around factors like "the work was interesting," "I was given responsibilities," "I was recognized for good performance," "I felt I was learning and developing myself" or "I felt I was achieving something important." Notice that these answers involve the content of the work itself, the intrinsic aspects of the job and the need to grow and develop on the job.

In contrast, Herzberg found that people's "dissatisfaction" answers revolved around factors like "People were being laid off," "The boss was a jerk," "My colleagues were incompetent," "The pay was unfair," "Company policies were a joke," "My office was small and uncomfortable" and so on. Notice that these answers involve the external environment of the job, or the extrinsic segments of the job.

Do these findings jibe with your answers?

Herzberg proposed a rather radical hypothesis in the late 1950's, and it's one which is still considered unorthodox or flaky. He stated that there are certain factors which can prevent dissatisfaction, but they are not as effective in causing satisfaction and motivation. These factors--which he called "hygiene" factors--include: pay, job security, supervision, interpersonal relationships, the physical work environment and company policies.

In other words, good hygiene factors like a good boss, a nice group of colleagues, a fair paycheck, job security, a clean, pleasant environment and reasonable company policies, mean employees will probably not be dissatisfied. But that doesn't mean that they will be satisfied or motivated. According to Herzberg, real satisfaction and motivation on an ongoing daily basis will emerge only when the following factors--which he

called "satisfiers" and "motivators"--are part of an employee's worklife: a sense of achievement; recognition for good work done; meaningful and worthwhile responsibilities; challenging interesting tasks and projects; and opportunity for professional advancement and personal growth and learning while on the job.

Think about it: Herzberg said this 30 years ago! For 30 years, managers have been playing around with improving "hygiene" factors and still they complain about their employees' motivation. Herzberg would have predicted that. But those companies that--in addition to providing good hygiene factors--are also consciously trying to redesign people's jobs so they also get more of the "motivators," are finding out that people are indeed becoming more motivated.

In truth, Herzberg's theory has been found to be overly simplistic and not completely accurate. But the major thrust of his argument has been corroborated repeatedly: The challenge for managers is to redesign their people's jobs--and this includes clerks, janitors, programmers and secretaries--so that those "motivators" are present to a significantly greater degree than they are now. Until managers consciously start doing this, it is unlikely they will be able to get sustained optimal performance from their people. Fooling around solely with the "hygiene" factors and ignoring the "motivators" is an expensive and losing proposition in the long run.

One manager, for example, gave the janitors a budget to run, allowed them to do all materials testing and purchasing (salesmen had to visit the janitors), allowed them to schedule themselves, encouraged them to develop and implement new ideas on improving maintenance and efficiency, and recognized them publicly for their superb work. Unsurprisingly, the cleanliness and tidiness of the buildings improved so much that the manager was accused of slipping the janitors speed pills. Nobody could believe that those "lazy, good-for-nothing janitors" could have changed their attitudes and behaviors so dramatically. Herzberg wouldn't have been surprised. But then again, he only wrote his theories 30 years ago. I wonder if it'll take another 30 years before the majority of managers start believing him. ●

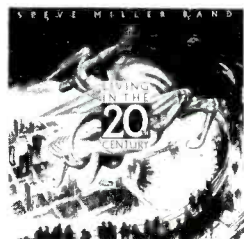

**"Good hygiene factors like a good boss, a nice group of colleagues, a fair paycheck, job security, a clean pleasant environment and reasonable company policies, mean employees will probably not be dissatisfied. But that doesn't mean that they will be satisfied or motivated."**

MIGHTY LEMON DROPS

### THE GOLDEN PALOMINOS

blast of silence

#### Blast Of Silence-The Golden Palominos (Celluloid)

Sonically elegant, **Lowell George** has the first and last word on **Blast of Silence**, the latest **Golden Palominos** project. Like the last LP, the assemblage of talent is diversely the alternative toast of the town. **Syd Straw's** vocal on "I've Been The One" is heartfelt as is **Matthew Sweet's** on "Something Becomes Nothing" (check out the fine guitar solo). By the third track, first play, I was hooked like a marlin. The multi-faceted participation of the guest players retain interest throughout. I kept expecting a collapse into experimental dissonance, but **Blast of Silence** rocked on feverishly. **T-Bone Burnett** takes a hot turn doing his best **John Lennon Walrus**. Other kill shots are "Diamond" and "Faithless Heart" with **Don Dixon**. This is serious serious biz with no sense of humor. Easily one of this year's best. Eight stars out of a possible five.

#### "These Wishes"-The Rave-Ups (Fun Stuff)

Bunker Song of the Week: The **Rave-Ups** arrive in a beautiful brown sleeve. Even better, the song is equally stunning. This 12 inch is an impressive follow-up to the last LP, which we received reports on for months and months. Bring on the LP and more of that guitar work. Call **Richard Crowley** and bug him for a copy at 213-858-6957.

#### August-Eric Clapton (Duck/W.B.)

**Clapton** hangs tough with producer/drummer **Phil Collins**. **August** (in November) expands on the layered textural direction of **Behind The Sun**. **Eric** and **Phil** do raid the cookie jar for material. The out-of-the-box barnburner is a duet with **Tina Turner** called "Tearing Us Apart," which also contains the LP's most effective guitar solo. **Robert Cray's** "Bad Influence" gets the bigtime dress-up treatment, sporting a much lush arrangement than **Cray's** bottom line, soul-baring original. Due to the early success of "It's In The Way..." **August** is off to a flying start. That track plus "Tearing Us Apart" should become the

NEW

Releases

foundation that builds up the album's airplay longevity. Closing out side two is a curious cover of **Ryulchi Sakamoto's** "Behind The Mask" (probably due to keyboardist **Greg Phillinganes**, who cut the song reworked by **Michael Jackson**). Guitar showpieces include "Miss You" and "Run."

#### "Modern Day Cowboy"-Tesla (Geffen)

A collision of images and preconceptions reveal **Tesla** as a young American hard rock/metal outfit capable of big things. When even these ears recognize a good hard rock song, you know it's got to be close to being an obvious call.

#### Live Alive-Stevie Ray Vaughan (Epic)

Though some of you may be approaching live album sensory overload, hang in there. I was prepared for a cliché-ridden collection of hoot riffs and flash. Instead, **Live Alive** offers a smokin' slice of some fine playing. Side one approaches the intensity of some of **Stevie Ray's** early gigs, round about the first album. I can see how studio albums might not catch the fire that **SRV** is all about. All my faves are probably different from yours. The session comprising of side one sounds like the magic show. My guess (judging from the intro and the mix) is that most of it is the '85 Montreux appearance featuring "Say What!" & "Ain't Gone Give Up On Love." "Pride And Joy," and "Mary Had A Little Lamb" sound great as well. The remainder of the LP offer adequate live options, but the first part of side one is the stuff.

#### Notorious-Duran Duran (Capitol)

Guilty pleasure time, for sure. **Duran Duran**, notorious for yanking the chains of pre-pubes, improve on the direction **Arcadia** attempted. I admit it. I like "Vertigo (Do The Demolition)."

#### Deep In The Heart Of Nowhere-Bob Geldof (Atlantic)

Brimming with material and the urge to sing, **Bob Geldof** was unable to fit the whole of his first solo waxing onto the obsolete two-sided vinyl medium. **Deep In The Heart Of Nowhere** is a complete break from his **Boomtown Rats** bandmates and sound. Though the list of contributing super musicians aren't designated track by track, **Eric Clapton's** signature guitar tones are present throughout. Producer **Rupert Hine** treats **Geldof** and his material to a warm cinematic big picture mix. Besides the opener /single "This Is The World Calling," there's "August Was A Heavy Month," "Night Turns To Day," a recited "The Best Of The Night" and my fave, "In The Pouring Rain."

#### Think Visual-The Kinks (MCA)

Monumental disapproval over the first 12" culled from the **Kinks'** new LP, but the good news are the **Ray Davies** socioeconomic crooners like "Video Shop" and "Working At The Factory" which radioland folks are already picking up on. I think the album's finer moments also include "Lost And Found," written the day before the hurricane hype of New York City. Also check "Repetition." Also check "Repetition."

## MY 2 CENTS

Bruce Springsteen is liable to be parked at the number one slot for a mighty long time. You all survived the media's fascination with the retail action, I trust...Steve Miller had an excellent week, enjoying his first Top Three record in many moons. Though Steve Miller is underlined, I'd be surprised if he dethrones the Pretenders, who are in at a solid #2. The Color Of Money soundtrack makes great progress, 8 -6. I'd consider that progress because that's based almost solely on airplay from the Don Henley, also available on the Geffen label. Due to the fact that Clapton's August album is on the horizon, he debuts on his own, further on up the road at #23. A few turnarounds on the chart this week including REM, Boston, Billy Idol, Peter Gabriel, Winwood, Dave + Dave, Bon Jovi and Eddie Money...Now check out this week's Certified pair which happens to be Stevie Ray Vaughan (who debuts as an album at #20) and Robert Cray (who makes the jump 31-25). Now who said that Album Radio listeners aren't interested in bluesy rock n roll? Robert Cray's Strong Persuader sure grows and grows and grows with each and every listen. At first I wasn't sure if it held a candle to False Accusations. Now, after checking out the lyrical subtleties, I'm wondering if this could be ole Bob's best...Special kudos to some charted acts that are happening despite the superstar holiday competition. I'm talking about Jason & The Scorchers (on tour with the Georgia Satellites) and World Party...Besides Stevie Ray and Clapton, there were quite a few notable debuts. I'm referring to Paul Young at #32, Survivor at #36, Eurythmics' "Thorn In My Side" at #38, Triumph is on at #39 and

beyond the Dave Davies 12 inch pulled by the band as the first single... And lastly, a reminder regarding the Gavin Seminar Packet you've received inside this week's Gavin. Be sure to reserve your room and register as quickly as possible. Those who move fast will get the best rates and selection. The Gavin Report will release the rooms AFTER a Seminar reg has been confirmed. Also don't forget to fill out your ballot for the upcoming Gavin Media Professional Awards. Winners will be announced at a special Seminar Awards luncheon. Absolutely no one will know the winners (including us) until Gary Owens unseals the plaques. Meanwhile, dig this week's deadlines. The earlier we hear from you this week, the better. XO KZ

## ALTERNATIVE ACTION

Shriekback ignites a bomb on our chart and emerges from the explosion atop the heap. Robyn Hitchcock is gaining even more strength than he appears and could infiltrate the top 5 next week. College airplay was expected but the difference has been the steady addition of commercial stations; WHFS, WLIR, WMDK, WXXP, WOXY, KEYX, KTCL, KJET, etc. The **Mighty Lemon Drops** are blazing a trail right behind Hitchcock and company. Airplay is spread all across the album. **Jazz Butcher** and **Love Tractor** share Certified honors with a watchful eye towards our top ten. **Robert Cray** (our 3rd Most added) is achieving instantaneous maximum play at; WXRT, KEYX, KVNF, WFNX, WBCN, WMDK, etc. Look for him to make a dramatic leap. **Kraftwerk** (added at KTCL, WNYU, WUOG, WTUL, KVNF, KBSU, KCMU, etc) and **Until December** (added at KJET and WMRY) have both been lingering in Chartbound, but appear ready to make a move. Check out the enclosed information regarding our **Gavin**

## SPOTLIGHT LP

Camper Van Beethoven-CAMPER VAN BEETHOVEN (Pitch-A-Ten/Rough Trade)  
**Camper Van Beethoven** is near the top of the list of bands to watch in 1987. **Michael Stipe** of R.E.M. has publicly lauded them and

they even opened 12 dates for that stellar Alternative group last month. CVB achieved moderate success on our chart last year, primarily behind the play of "Take The Skinheads Bowling." This album, their third record within the past two years, is packed with 16 songs. It includes the best music they've written so far, with "Good Guys and Bad Guys" particularly attracting my attention. Imagine **Donovan** sitting in with **Green On Red** and you get a notion of their direction. CVB display an appreciation for satire in their lyrics on songs like, "Lulu Land," "The History Of Utah" and "We Love You." **Eugene Chadbourne** makes a cameo appearance on "Hoe Yourself Down" and on their cover of **Pink Floyd's** "Interstellar Overdrive. Call their manager Jackson Haring for further information, (415) 626-0401.

### Everywhere That I'm Not-A Retrospective-TRANSLATOR (415/Columbia)

This album symbolizes seven years of hard work by a group of dedicated musicians who have regrettably chosen to close the book on Translator. For those of you who may have missed jewels like "Everywhere That I'm Not," "O Lazarus," "Everywhere" and "Gravity," the first time around or want to fondly look back, here's your opportunity at a concise best-of album. Two songs, "Today" (a cover of the **Jefferson Airplane** song) an extended "rock" mix of "When I Am With You", were previously unavailable on any album (only as limited promotional releases). **Peter**

## COUNTRY SUMMARY

A quick reminder - our deadline has been moved for this week (Thanksgiving week) only. Be sure to get your reports in by 5PM on Tuesday, the 25th. Thanks!!

On to the chart! The Judds made the strongest move inside the Top Ten, and are a sure bet for next week's #1. Rumor has it that The Judds, along with daughter/sister Ashley, are doing a pilot for a television sitcom. We want our Judd-TV! The cover artist on next week's Gavin Report will be Dan Seals, and his song should be in the Top Fifteen by then. He's starting to build up quite a track record of consecutive hits. Lyle Lovett's looking good with a 75% Hit Factor and is being played in Heavy Rotation at KBMR-Bismarck, KXEL-Waterloo, KLLL-Lubbock, KSFA-Nacogdoches, KMPS-Seattle, KORD-Tri-Cities, and KRKT-Albany. The O'Kanes success has been a pleasant surprise. The record has been out since the end of August and it's still receiving adds every

week. This weeks adds include WGAA-Cedartown, KJIN-Houma, WQLA-Knoxville, WXKY-Milan, KHWH-Sacramento and KNEW-Oakland/San Francisco. We have good news for all of you who've been hoping for a single release of the Lionel Richie/Alabama record. 'Tis done! The folks at Motown tell us that the single is being sent to Country stations as we speak. Bob Louck KVAS-Astoria thinks that "Mornin' Ride" is going to be Lee Greenwood's strongest song in 1986 - it's already #1 on his request line. Willie Nelson is off to a good start - adds this week include KYAK-Anchorage, KOLO-Reno, KIDN-Pueblo, KNIX-Phoenix, WAXX-Eau Claire, KLIK-Jefferson City, KFGO-Fargo, WFSR-Harlan, WFMC-Goldsboro, WXTU-Philadelphia and WRNY-Rome (where Jack Moran reports calls galore). Doug Threadgill at WEZO-Winfield says that after only a couple of plays of Randy Travis new single "There's No Place Like Home", the

phones won't let up. Doug is predicting another #1 for Randy. Ty Cooper at KMNS-Sioux City says that David Allan Coe is a strong record for males - even though Ty has it day-parted, he's still getting calls from listeners asking where they can buy it. One of our newest reporters, Johnny B at WKRE-Exmore, is getting good response to Bruce Hornsby's "The Way It Is" - maybe it's worth a listen!

Myron Grage from KQKE-Redfield, South Dakota, called this week to inform us about a fire at the KQKD studios on Sunday, November 16th. The station was only off the air for a couple of hours, and they are currently broadcasting from their transmitter. But, unfortunately, the fire wiped out all their current product. The station could definitely use some help in getting re-service on all current product. Thanks!!! Have a Happy Turkey Day - talk to you next week!

by JERRY BOULDING

## FIRST THINGS FIRST OR FOOTNOTES...BY HAND

As Oran "Juice" Jones says, "First things, first." Even without the hot chocolate or mangled metaphors, it helps to take things in order. And for those of us in the Urban radio and music industries, proceeding in an orderly fashion means looking at the things that are really important to our audience beyond the music. You say, nothing really counts after the music? Wrong. Issues which affect our adult audience are important to them. And making certain the right PSA's run, the right issues which affect our communities get on the news and public affairs shows gives our stations a better, more responsible image.

Although we have come a long way in the past ten years, we've still got a long way to go, and to be seen as a station that would serve these enlightened people's new needs, it's important that we keep up. This past decade showed that many in our target audience are acquiring more education, going to school in greater numbers and staying in school longer. Yes, there are still many problems connected with our youth—drugs, pregnancy—but some great strides have been made. Fifty-four percent of black males and fifty-eight percent of black females have finished high school during the past decade. Just ten years earlier the figures were thirty-six and forty-one percent, respectively.

One sign of a stimulated economy is the encouraging number of better-paying jobs that recent studies show have increased substantially between 1976 and today.

Now this does not mean that we've got it made. It does not mean that we've made such significant progress that we should feel satisfied. And certainly this does not mean that we're more satisfied with the efforts of government. Nor does it mean that there is no hostility to those government programs which have been initiated. What is significant is that those who listen to our radio stations and buy the music we play have a lot of growing, different and sometimes conflicting interests. Those who went into unions fifteen years ago have different notions about seniority than those who have just managed to get in. Black entrepreneurs are concerned about such things as capital gains. The views of minority bankers on interest rates are likely to be very different from those of minority borrowers or civil rights organizations. The issues that concern blacks often transcend race.

### KEEPING YOUR CUTTING EDGES KEEN

Why, you might ask, is it important for an Urban music station to be involved with issues like these? One reason, and perhaps the most important reason, is image! Stations profit by carving a unique niche in the listeners' and advertisers' minds. Once this is done, it's nearly impossible for a competitor to co-opt it from you. And it goes without saying that the public is better served by having their favorite music station keep them fully

informed so they don't have to change stations to get some information that research shows is important to them. And a unique-sounding, full-service station is likely to attract a more specialized adult audience segment.

If you're still skeptical of an Urban audience's interest in hearing issues and items which affect them, you may be misreading the new Urban audience. It's often very issue-oriented and concerned. Our studies have shown it can be upwardly mobile and educated 25-34 adults who come to the station primarily for the music, but they often profile the same as news/information listeners except they're younger and tend to prefer to get their news from television. If you've any doubt about this, check the ratings and make-up of the news-talk stations in your area, especially during morning drive. You'll find that a large part of your target audience is really into news and information. Now, it would be foolish to try to compete with a news-talk station in providing information, but it would be just as foolish to pretend that just playing the music is enough. Next time you do some auditorium testing or research beyond the music, see what kind of feedback you get from the adults when asked what do they want besides the music.

### KNIFE SUPPORT SYSTEM

Yes, you've got to keep your station sharp, whether you're the program director, music director, air personality, news person or manager. The bottom line is an approach that will enable you to use a particular format's commonly accepted musical parameters. Perhaps it is taking a bit of a chance, taking on new responsibilities with issues and talk segments and involvement elements. But if no one had ever taken a chance there would be no new Urban formats. If no one had agreed to try some of the innovative things that have worked with Urban-formatted stations and simply said, "Show me where it's already worked or working," we might still be doing what we were doing ten years ago. We could still be doing "me too" formats with consultants whose forte is other formats and who are light-years away from the shallowest Urban experience.

So staying sharp in the '80's means more than just getting the right music and air talent and contests together. It means honing your entire station's sound so that you are a full-service station for your total audience.

Tomorrow will be here sooner than we think, and with it will come many new questions which must be answered. The future is now a reality that must be prepared for by all who want to be part of it. And somehow it has little feeling or patience for those who are not prepared for it. Knowledge is perhaps the most important item that we can acquire and then pass on. Growth is continuous and ongoing. Many cities have grown so fast that their outskirts no longer cover their extremities. ●

**"If you're still skeptical of an Urban audience's interest in hearing issues and items which affect them, you may be misreading the new Urban audience. It's often very issue-oriented and concerned."**

## URBAN CONTEMPORARY SUMMARY

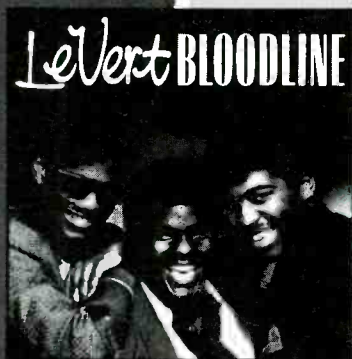

No surprise that **ARETHA** moves from last week's Most Added headline to this week's Certified headline...some programmers have speculated that this will be hotter than her last hit! **GEORGE BENSON** makes the same move from headline to headline with one of this year's best efforts - should be a big mover on next week's chart. **MELBA MOORE** deserves the Most Added title since **David Rosas, WWWS/FM-Saginaw** says it's "the most requested record of the week from adults" in his town. Looks like this **BEASTIE BOYS** thing - the two-sided 12" plus the LP that's getting tons of airplay on all cuts - is the hottest request item of the week: **James Alexander, WJLB-Detroit** told me he's getting the teens calling for it, **Fred Harvey, WFKX-Jackson** says he's getting teen calls

on the "Paul Revere" side, **Melvin Jones, KRNB-Memphis** says the calls he's getting for BOTH sides are "unreal - the hottest thing we've got on the air right now," **Tony Sewell, WHYZ-Greenville** reports great phones on it, **Jimmy Smith, K-97-Memphis** said that both teens and young adults are calling for both sides, so if I had to make the call on which side you should be playing or if you should be playing both sides, I would have to close my eyes and point my finger (kinda like the refs at the 49'er/Redskins game did on Monday Night Football) to the one that's hottest! **Lynn Tolliver, WZAK-Cleveland** wants to bring our attention to the the **WHISTLE** LP cut called "Chance" - it's the most requested thing he's got. **Mike Archie, WHUR-Washington** is paying special

attention to **NAJEE** - it's getting requests from the 25-49 year olds. **Gary Weiler, WBLZ-Cincinnati** tells me that his hottest request item is the re-mix of **JESSE JOHNSON/SLY STONE** from the 18-34 age group - and he says "We did a WILD interview with him and he's a great guy (JESSE) to talk to!" I'm sure he's willing to send copies if you're interested... That's it for this week...**BE SURE** to call on Monday or Tuesday (we're dubbing Tuesday "zoo day" because all 960 stations in all six formats will be trying to get through on the phones lines...so my suggestion, should you decide to accept it, is to **CALL ON MONDAY** and avoid the stampede.... Thanx, **Betty**

# PROMOTIONS by LISA SMITH and BETTY HOLLARS

## Q106's ANSWER TO THE BEAUTY ► CONTEST

Q106 in Lansing, MI, decided against having a typical beauty contest with the winner receiving the dubious title of "Miss Q106." Instead, Lansing's hottest hunks participated in the contest for the title of "Mr. Q106." The contest was held at a club in East Lansing, and of the finalists are pictured here. The finalist in the middle receive the title of "Greenest Hunk" - he's really the Q106 Tailgator. ■

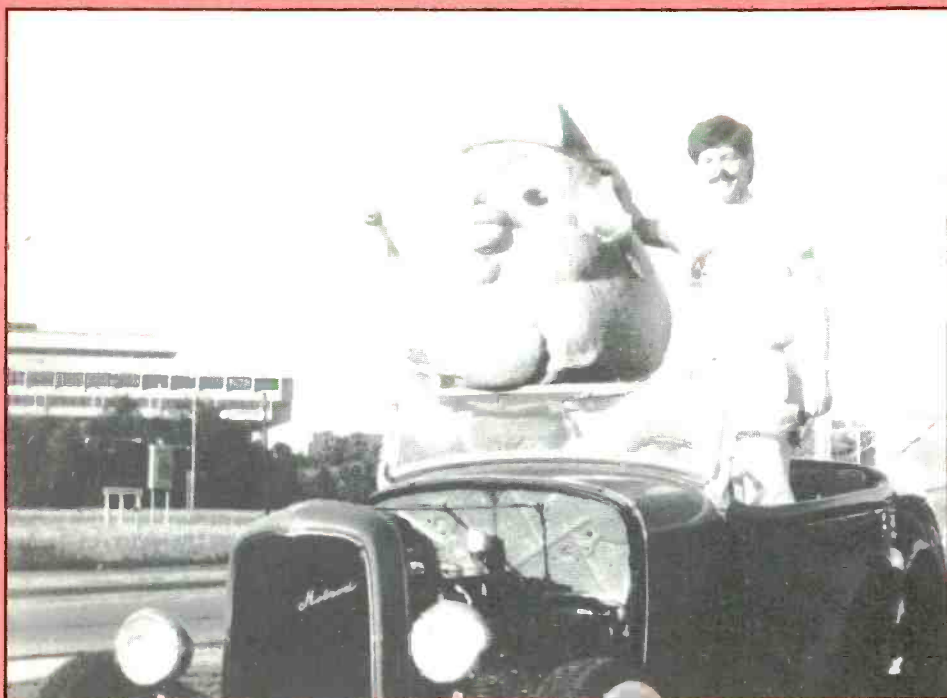

The finalists in the "Mr. Q106" contest.

## FM/94 MYSTERY PARTY LIZARD CONTEST

When people send us T-shirts that go along with their promotion we aren't influenced in the least to run their promotions. (Thank for the shirts, Gary) FM/94 in Prince George held a fantastic contest picking out 20 people from different walks of life and giving out clues as to who these people were.

Listeners then had to absorb the clues and walk up to these people they guessed it might be and ask "Are you

the FM/94 Mystery Party lizard?" Can you imagine the look on someone's face who was asked the question without any idea about the promotion? The concept of Party Lizard (as opposed to Party Animal) was so bizarre that it worked in making the word of mouth response incredible. The winners received \$94 and a t-shirt depicting the "party lizard" holding a glass of champagne and wearing a headset with the FM/94 logo on it! ■

## ◀ CRUISIN' WITH SPUDLEY

WSPT-Stevens Point, WI, co-sponsored this year's Second Annual Spud City Nationals Rod & Kustom Kar Show. They broadcast live during a Klassic Kar Kruise thru Stevens Point, hosted a 50's sockhop, then played 50's and 60's music on-site at the two-day car show. WSPT also hosted an appearance by 60's artist Bobby Vee. Program Director Jay Bouley feels WSPT's involvement helped to more than double the attendance from the initial year's great turnout. ■

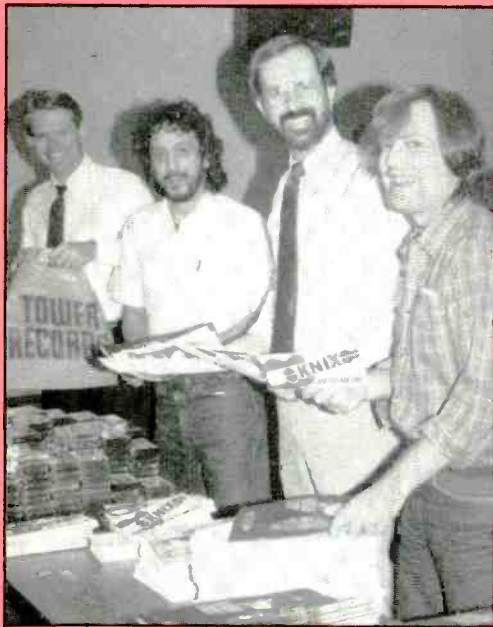

## ULTIMATE SUPPORT TO ► COUNTRY MUSIC

KCBQ AM/FM-San Diego has been holding a series of free concerts for their listeners and the recent one featuring Crystal Gayle gave 20,000 country fans the opportunity to attend. This is the third, with the first two featuring Gary Morris, Michael Johnson, Waylon Jennings, Jessi Colter, Eddie Rabbitt and Steve Earle. The second one was the largest Country concert ever held in San Diego with 16,000 in attendance and the third planned to top that with 20,000. General Manager Charlie Ochs says, "We realize that Country Radio has a responsibility to Country Music and are happy to be able to give this kind of support to the industry." ■

Steve Earle opens for Eddie Rabbitt and Waylon Jennings in front of 16,000 San Diego Country Music fans at the KCBQ AM & FM free concert at Southwestern College.

Stuffing bags for the concert are (l-r): Doug Brannan (KNIX Promotions Director), Greg DeLaurentis (RCA), Larry Daniels (KNIX Gen.Prog.Manager) and Carson Schreiber (RCA).

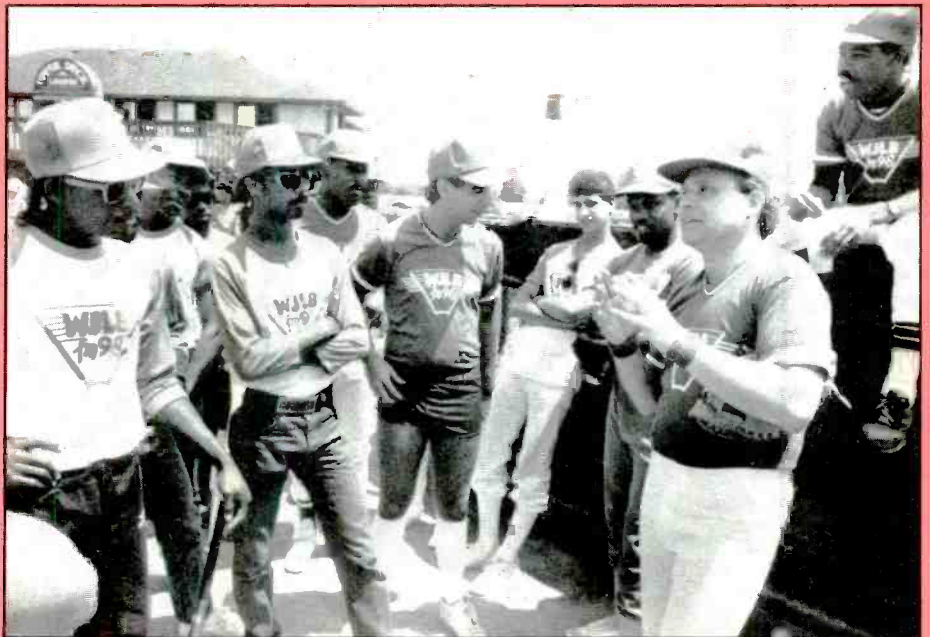

## ◀ BAGS FOR FANS

KNIX-Phoenix teamed up with RCA Records in Nashville and Tower Records Stores to promote a Keith Whitley concert. The group supplied

bags filled with promotional items to the concert goers and station staffers actually stuffed the bags themselves with the RCA rep, Carson Schreiber. ..we have proof - they sent a photo of the bag stuffers! ■

## READY FOR ANYTHING ►

Softballers from FM-98 WJLB-Detroit were joined by MCA artists, Ready For The World as their celebrity guests during a recent promotion. The FM-98 team challenged the Boy Scouts of America, who picked up \$500 for outscoring the "Strong Song" Softballers. FM-98's team will continue to challenge various charities and will be helped by Manhattan Records' RJ's Latest Arrival and CBS's Davina, among others. All games are free to the public and will be held at Softball City in Detroit. ■

During a softball time-out shown relaxing here are (l-r) Melvin Riley (RFTW), Greg Potts (RFTW), John Edwards (WJLB), Jeff Schoonover (WJLB), Merrill Cain (WJLB), Lee Robinson (WJLB), Shel Leshner (WJLB), and Jay Dixon (WJLB) seated.

## DAVE SHOLIN'S

Personal Picks — SINGLES

**MADONNA** - *Open Your Heart* (Sire/Warner Brothers) From what I've been told, the accompanying video should be rated O for Outrageous. Sure to keep her string of hits unbroken.

**RIC OCASEK** - *True To You* (Geffen) Cars fans get a Christmas gift with a track that remains true to the sound Ocasek originally created for the band. Spins on Album radio has made it hot 'n' ready for Top 40 airplay.

**JOURNEY** - *I'll Be Alright Without You* (Columbia) Simply said, this fourth single from "Raised On Radio," in my opinion, is the best of the bunch.

**TEENA MARIE** - *Lead Me On* (Columbia) "Top Gun" hasn't run out of fuel. Luckily this powerful effort didn't get overlooked as an eventual single. Surprise yourself and see if you remember it sounding this strong when you first listened to the LP.

**MEL & KIM** - *Showing Out (Get Fresh At The Weekend)* (Atlantic) Far and away one of the hottest dance tunes I've heard in a while. Huge in England, where it's currently Top 5 after three weeks.

## RON FELL'S

Personal Picks — ALBUMS

**ROBERT CRAY** - *Strong Persuader* (Mercury/PolyGram)

Memphis-rooted blues recorded in LA, played by a multi-racial band barely old enough to shave? "Impossible to be authentic," you say? Actually, it works well. All the songs are originals but they could have been written for the likes of anyone from B.B. King to Al Green to the Allman Brothers. Cray plays a tough guitar and Richard Cousins thumbs a rumbling bass. I GUESS I SHOWED HER is my favorite track. Album and Alternative Radio have already discovered SMOKING GUN, but the LP's charm comes from the fact that we need no longer rely solely upon George Thorogood to carry the torch of fresh new blues/rock.

**FREDDIE JACKSON** - *Just Like The First Time* (Capitol)

One of the reasons gutbucket blues has never and may never grow beyond cult obsession is that singers like Freddie Jackson can take fewer words and wring as many tears out of 'em. Blues lyric is usually inspired by the lonely heart, the "spilled milk" of some humpty dumpty's broken romance. The blues singer's credibility is never challenged, but the song's attitude is always dis-optimistic if not hopelessly pessimistic. Freddie Jackson and a few of his peers are most convincing romantics. The range of lyrical subjects—from love lost to love yet made or committed—can appeal to the broad range expectations.
