**E**enjoyed a lengthy and prosperous career. And while his unplugged work kept Clapton solidly in the limelight and riding high on the retail charts in recent years, it has actually been some time since we received a brand new studio album from the man. From the forthcoming From The Cradle album, comes bopping track number one, "Tore Down" (originally recorded by Freddie King). It heralds in a distinct nod toward Clapton's first love and trademark inclination — the blues (the 16 track album is a collection of classics as rendered by Eric). A catchy shuffle beat carries the track, along a natural four-four rhythm and a hefty barre chord backbone. Colorful horns and keyboards only add to the nostalgic, classic feel of the song, with Eric's inimitable and smooth tenor punching in above. Of course, the man's skill on the guitar does not go without spotlight. But, instead of dominating the song with a steady stream of ripping leads, Clapton scattered smaller, searing lines throughout the piece, maintaining the R&B flavor consistently from beginning to end. A great little ditty, it captures the essence of what has made this man such a legendary figure over the years, while reprising yet again, a style that is now coming full blown, back into fashion.

Rolling Stones, "You Got Me Rockin'," Virgin The megamega tour is now in full swing, with city's sweating in anticipation of it "Rolling" through, in all it's gargantuan glory. How many bands can honestly claim not only this kind of longevity, but also this kind of enthusiasm from their fans, the press and radio? Amazin. The album is literally busting out all over the place with airplay on the first single, "Love Is Strong", still at #2 on the Hard Hundred, with massive amounts of airplay under its belt, not to mention an incredible video dancing all over MTV (in heavy rotation). In order to keep the snowball building as it were, Virgin now gives the official go-ahead to "You Got Me Rockin", which is already a Top 20 track at AOR (12\* on the Hard Hundred). Obviously, not too many arms need to be twisted on this one, since a great number of you are already on it. Thing is, "You Got Me Rockin'" is not considered a replacement track for "Love Is Strong" so don't feel you have to bail on it. There's always room for more than

one Rolling Stones track, especially when the album is as strong as Voodoo Lounge. Apparently Mick and the guys have got quite a lot of good years still in them, and are knockin' 'em dead out on the road. If after all of this, you still could use even more Rolling Stones gratification, check out the upcoming MTV awards - yep, the band will be there! Once again, the Stones have got everybody rockin'.

INOSAUR JR., "FEEL THE DPAIN," Sire/Reprise Atter close to ten years of working at this rock thing, Dinosaur Jr. (J. Mascis and Mike Johnson), seem finally on the verge of a great breakthrough. Of course the stage was set by their success along the alternative sidelines, resulting in critical acclaim, a sales base over a quarter of a million, and tons of exposure on MTV and rock radio, with the band's most noteworthy hit, "Start Choppin". With their quirky left of center approach, Dinosaur Jr. tapped into and captivated America's curiosity. Not a slick production, dirgy or esoteric kind of outfit. Mascis' Jr. is more like your neighbor next door. Misleadingly average Joe's with a strong rock sensibility, Dinosaur Jr. embodies a wider spectrum of guitar rock than first meets the eye (or ear as the case may be). On their forthcoming seventh release, Without A Sound, J. clicks up the volume on the marshalls and pounds the wah wah out of his guitar a bit more, although occasionally drifting back to a softer acoustic approach now and then (the vocals are much smoother all the way around). The first single, "Feel The Pain", is just what the MD ordered a fresh. light alternative rocker with guitar accents dancing to and fro, and raspy low key vocals imposed along the top. Banging back and forth between laid back, mellow verses and a harder swirling chorus. It's got buzz clip written all over it, so get your dose of "Pain" now.

hard Acts To follow

utha's Day Out, "Green," Chrysalis/EMI From the moment this record first hit desks over in the metal department last year, it was evident that this band had the potential to do great things at radio and beyond. Extremely young and talented, Mutha's Day Out broke out of their repressive hometown (Batesville, Arkansas) with an impressive arsenal of music derived from a variety of styles (rap, rock, hardcore), and a immense will to succeed. Now many months later, they have loaged a tremendous amount of road time opening for a diverse group of acts (they are currently out with Sugartooth and Godspeed), and chalked up some noteworthy crossover chart-time with the COR hit, "Locked". Their return engagement at AOR is earmarked by what is arguably one of the best songs on the record, "Green". A chameleon in tempo and texture, it swirls into being along an emotive vocal line (twangy guitar behind), then erupts into a sonic burst of guitars and a huge rock chorus of gospel/anthemish quality. A brief harmonica line reintroduces the second powerful verse, with the two vocalists (Mikal Moore and Brice Stephens), further elevating the effect with their distinct, yet complementary voices. Guitarist Chuck Schaaf tears through the mix with passionate, well tempered leads, mixed with a tasty touch of phase shifting. "Green" captures the band's versatility and power, with a maturity that defies their youth (they are all under 20)

ada, "All I Am," IRS These d days acoustic driven pop bands have really come into style, despite a trend toward a much heavier slice of music. A couple years back though, dada was one of the first new bands to defy the dirgy onslaught pouring onto the airwaves from out of the pacific northwest, with their delightful album, Puzzle. Their colorful charisma and edgy but captivating pop stylings sent them careening into the hearts of industry-ites and the press alike, with fans falling quickly into place behind the ever-infectious hit, "Dizz Knee Land" (to the tune of 300,000 copies sold in the U.S. alone). And now the trio return with American Highway Flower and it's first single, the sometimes REMish, "All I Am". The band have taken their ultra catchy pop twist and hardened it up with heavier guitar lines, and a thundering, brusque beat. The song blasts into being amidst a harder crush of guitars than usually associated with dada, but within measures the rough galloping beat, pours down into a much more typical dada style (with the Byrds-ish, duel vocal harmonies of bassist Joie Calio and guitarist Michael Gurley, floating by in an aura of sweetness). These softer breaks appear intermittently between a slew of tense and aggressive quitar spiels — slamming down a lyrical revelation of uncluttered self-awareness. No doubt "All I Am" is all it will take to send dada sailing up the charts and into buzz-bin land, once again.

Gin Blossoms, G"Chaisrine 16," MERCURY The KISS tribute album (<u>Kiss My</u> <u>Ass</u>) has certainly been tearing up the airwaves with its 11 unbelievable cover versions as rendered by a diverse roster adb Brooks (with a won-

of modern artists — from Garth Brooks (with a wonderful cover of "Hard Luck Woman"), to Toad The Wet Sprocket, the Lemonheads, Lenny Kravitz and The Mighty Mighty Bosstones to this mighty popular band, the Gin Blossoms. And while Anthrax's high powered version of "She" continues to rumble and crash all over COR and metal radio (along with Kravitz's "Deuce"), the Gin Blossoms now take center stage with their crunchy and uncharacteristic cover of "Christine 16" (a personal favorite). While typically a mellow sort of group, known for their lilting rockers "Hey Jealousy", "Until I Fall Away" and "Allison Road" ---- the Blossoms take a well swung stab at this sexy rocker. Guitars wailing, libido grinding, bass pounding and vocals railing, the GB's lend a great pop edge to the song, while retaining its bump and grind, rock 'til you drop quality. The guitars in particular sound great on this one. The band recently played the song live on Letterman with Gene Simmons and Paul Stanley helping out and it seemed the chemistry was excellent. With such a long history and roll call of the inspired, it has to be a thrill for those two, seeing bands like the Gin Blossoms "regroove" some of their great old songs.

This Picture, "HEART Of ANOTHER MAN," DedicATEd/ARISTA Formed in merry ol' England some six years ago, This Picture promises to be one of the country's most moving new

exports, since The Church. Having already embarked on a U.S. infiltration with their 1991 debut release, A Violent Impression, the band already claimed a small foothold in the alternative realms. With their newest effort however, (City Of Sin), the band should have little difficulty sweeping into the mainstream, given the more appropriate, wide angle lens view radio seems to be utilizing these days. A much larger spectrum of artists, exhibiting a wide breadth of style and ability, are now being embraced across formats, blurring the lines all the more. And it is this progression that should clear a path for the soul wrenching, ethereal quality of This Picture's sound. One can only muse over their nature --- with music cradled in melody one moment, purged through rough hewn emotion the next. Their best qualities seem almost at odds with each other, and yet somehow find clear resolution and depth when blended into songs like "Heart Of Another - the lead single. It is the haunting vocal layers Man" -(high and low) that ring truest, lamenting the selfdoubt embossed in vocalist Symon Bye's lyrics. Vibrant guitars and a strong rhythmic bed complete the airy mix with finesse. The full album promises to be quite exceptional.

PATTITUDE," TNT

With all the recent attention surrounding the KISS tribute, it only seems right that the man who gave the world "Beth", should also return to the fore. Peter Criss, the legendary cat

masked drummer for KISS, has literally been bouncing around the music scene ever since leaving the band in 1981. Playing locally here on the East Coast (the New York, tri-state region), Peter's post-KISS career has been tumultuous to say the least. Fraught with personal tragedy, failed marriages, cruel tabloid controversy and self-doubt, the man has managed now, to regroup once again — finally finding his way back into the embrace of thousands of die-hard fans who never gave up on him, and radio audiences digging on nostalgia and influential motivators like Criss and his former bandmates. With his new line-up solidified, young and raring to go (Mark Montague-bass, Mike Stonesinger/guitarist and Mike McLaughlin-guitars), Criss set about recording his debut effort for TNT, Cat 1. It quickly jumped onto metal charts, where it very naturally found a strong welcome. Now, "Bad Attitude" (featuring some axe-work from fellow KISS vet, Ace Frehley), storms towards COR/AOR with a huge power rock sound that recalls some grand ol' days. Attitudinal, aggressive, crunchy and belligerent it pounds like any self-respecting KISS classic would. But this is Criss the new coming and we expect there are a lot of folks out there willing to take a shot on a rock vet with one helluva "Bad Attitude"

**C** RACKER, "LET'S GO FOR A Ride," Vingin The follow-up to the mega huge hit "Low" and the later released "Get Off This" looks to be doing a bang up job with 15 adds rolling in this week (among them DMX, KDKB, KIOZ, KLOS, WCCC, WHMH, WRUF and WSHE), with continued airplay (DHA (who jumped on early). The careening quitars and boogi-

happening at WDHA (who jumped on early). The careening guitars and boogified chorus make this song an instant attraction, so no doubt in the weeks to come we'll be seeing a ton more stations takin' another ride with Cracker. The band's tour with the Gin Blossoms and Spin Doctors is winding down as you read, so we'll keep you posted on further tour developments.

The HATTERS, "SACRIFICE," ATLANTIC Some of Philly's finest (even though they actually transplanted to NYC), The Hatters are just getting things rolling with their extremely funky rock boogie, "Sacrifice". A slice of R&B, a dash of rock, a pinch of southern swing, a heaping dose of funk and a whole

Iot a soul, are what make The Hatters a unique proposition. Especially when you throw in a sparkling sense of humor. This week WGLF decided to take on the funky fresh cuisine of "Sacrifice", joining DMX who increased airplay by 20 spins. It'll take a bit of time perhaps, but this one should definitely catch on. Catch them out on the H.O.R.D.E. tour. too!

**Stabbing Westward, "Lies," Columbia** Another promising band in the noiseworks arena, who combine wild electronics, pulsing tribal rhythms and dark imagery with some of the more common elements of rock n' roll, is Stabbing Westward. With the penetrating power of "Lies" just starting to

spread across the nation, we're seeing adds rolling in from the likes of KEZE, KRRK, KZRR, WDRK, WRXK and WVRK (WRZK is already on). Slowly but surely bands like these are gaining ground in the mainstream races, and more than likely you will be seeing more response from your audiences because of it. Try it, you might like it.

**Killing Joke, "Millennium," Zoo** With a new kind of industrial age upon us, it seems, radio has really begun to crank up the machinery and offer us a much more challenging palate of music to listen too. One of the most prominent forerunners of the electronic revolution was this band. And newly

reunited members, Youth, Jaz Coleman & Geordie have certainly proven their mettle, with their newest release <u>Pandemonium</u> and its stellar lead track "Millennium". The crushing tune picked up new adds this week at KRRK and WOZN, with continued airplay happening at KEZE, KZRX, KILO and WAXQ.

Live, "I Alone," Radioactive While "Selling The Drama" continues to command Top Ten status, its followup, "I Alone" has begun to build momentum of its own. With 18 more adds filing in (including: KDKB, KIOZ, KSPQ, KUPD, WCMF, WGLF, WHCN, WHMH, WIYY, WRZK and WXTB),

along with 9 increases (totalling close to 30 stations on), "I Alone" crashes the Hard Hundred at 90" and the COR50 at 49". Understandably, if folks begin switching tracks in the coming weeks, we'll be seeing Live's latest take a rocket ride to the Top Twenty. As Pam Brooks from WHCN says, "Anybody who caught Live at Woodstock, knows that this band is primed for stardom, and 'I Alone' just continues the story." Right now, the story's building beautifully and the band continues to wow them out on the road.

WEEZER, "Undone-The Sweater Song," DGC They've already qualified as a buzz band around the industry with MTV sure to fall in line in the weeks to come, and now it appears radio's fallen under the spell as well. With a fresh haul of new adds (KEGL, KMOD, WBTZ, WGLF, WHMH

and X107), on top of 8 increases (including: KEZE, KRRK, WKLL, WMMS and WZZO with top five phones reported at WRZX), the band's just hit the Hard Hundred at 99\*. It's a peculiar little ditty, but it rocks like crazy (once you get past all the dialogue). The buzz is definitely on.

**S mirhereens**, **"Time Won't Let Me," RCA** It's still early going in the runnings for the first track from the forthcoming <u>Time Cop</u> movie sound- **S** track. A sci-fi action thriller, it's sure to generate a lot more attention when it finally hits the silver screen. In the meantime, the Smithereens will be trying to get the whole ordeal down to brass tacks with their remake of the Outsiders' "Time Won't Let Me". WHEB is the early bird, and they set a good example, because tracks just don't get much more radio ready than this one. And the Smithereens are already a proven contender at AOR. What's the hold up? Have you got "Time" yet?

**Southar, "Bonecrushen," Epic** Debut 59\* Hard Hundred/Debut 46\* COR. Not a bad way to end a Tuesday ya gotta admit. Well, Epic's certainly known for its quality roster, so add one more to the pile of could-be-huge success stories for '94. Judging by the development of this

project just so far, it appears they could have another mega-band on their hands. 18 new adds pounded in (among them KIOZ, KUPD, WAPL, WBZX, WGCX, WHEB WHTF, WKLL, WOZN, WXTB and Z-Rock), along with 27 increases and top five requests at WHJY. Total on: 50. And this folks, is just the beginning.

**G** REAT White, "All Right," Zoo It seems the newest track from Great White's brand new album (with all new style), is doin' "All Right" (excuse the easy word play). The add 8 more stations to the add pile (KCLB, KEYJ, KLBJ, KZAK, KZOZ, WHDQ, WKQZ and WRZK), with 13 increases in spin

time also landing. With close to 25 stations now groovin' to it's easy charm, "All Right" debuts at a healthy 81\* on the Hard Hundred, with the COR ranks sure to follow up in no time at all. If you haven't heard the band's new direction, you're truly denying yourself and your listeners a rather fine listening experience.

**STONE TEMPLE Pilots, "INTERSTATE LOVE SONG," SATLANTIC** Perhaps we should only list the stations who are NOT playing this wonderful song, since they certainly would seem to be the minority. Close to 140 stations are now clamped into hefty spin counts with STP's latest greatest, with

31 adds cruising in this week (among them: KBAT, KGGO, KQDS, KQRS, KSFX, WAPL, WGCX, WIMK, WMMS, WPLR, WPYX, WRCN, WVVV and WWWV). This on top of the almost 80 increases (with Top Five phones reported at CILQ, KEYJ, KICT, KUPD, WKDF, WRUF, WRXK and WUFX), equalled a 23-14\* move on the Hard Hundred/3-2\* Albums and 14-6\* at COR. All this and "Vasoline" just went 1\* on the AOR and COR charts. Any doubting Thomases left anywhere? Didn't think so. And you know, Austin Keyes from WRXK doesn't have any doubt either pointing out that, "This is going to be a big career record, as it's tested positive on all fronts." Sold out tour happening now.

**B**loodline, "STONE Cold HEARTED," EMI This tremendously talented bunch of musical progeny just played a gig in NYC to what we understand was rave reviews. If you get the chance to see them live, by all means do. Of course one has only to listen to this first track to fully com-

prehend the depth of what they are capable of. Apparently lots of you have already gotten a clue, since Bloodline pumps past 22 others with a move from 76-54\* on the Hard Hundred, with 16 new adds this week and 25 increases (with hot phones at KATS, KXFX and WTUE). All told just about 50 stations are on "Stone Cold Hearted", with more waiting in the wings. Simply put, and according to KATS' Jack, "Home Run Hit".

**P**ANTERA, "Planet CARAVAN," EASTWEST A Pantera show is virtually unparalleled in the universe of touring wild, aggressive, exhilarating and often hilarious. The band recently closed-out their sold out arena (sort of) tour this past weekend in Philly, and both they and Prong were in

rare form and antics abounded. One of the highlights of the show though, was the very mellow, psychedelic (great lights) "inhaling", presentation of "Planet Caravan". This you have to see some day. Nevertheless, the song sounds just as good on the air, as over 80 AOR stations can now testify. New adds: KCAL, WCCC, WGLF, WRKI, WRUF, WZMT. 41 increases (top requests at KATP, KEYJ, KXFX, WDZR, WKDF, WKLQ, WTKX). And a 35-25\* move on the Hard Hundred, with an impressive 27\* debut at COR.

**B**GIANT/550/Epic SoundTRAX As anticipation grows for the new Big Head Todd and the Monsters album, airplay on their soundtrack offering, "In The Morning", continues to soar. With over 50 stations now playing it, including new

acds at WCTZ, WKIT, WRUF and WWWV, it's not surprising that the <u>Blown</u> <u>Away</u> soundtrack is already scaling the Hard Hundred, with a move from 57-38\* this week. 43 increases help supplied the extra boost with Top Five requests now happening at KCLB, KRNA and KSFX. Great song, and only just a hint of what lies ahead from Big Head Todd and of course, the full soundtrack.

**B**<sup>BM,</sup> "Waiting In The Wings," Vingin Big, big money? Probably for Bruce, Baker and Moore, as the entire country seems to be rallying around their incredible new release. Over 80 stations are now spinning the single ever closer to the Top Twenty on the Hard Hundred (it's cur-

rently at 32\*), with 9 of them (KBAT, WFBQ, WHCN, WKIT, WONE, WPYX, WRXR, WSTZ, WWWV) just adding "Waiting..." and 48 of them upping the spin time. Apparently people were really missing that classic rock sound that these three individuals were so instrumental in creating way back when. With a comment like, "Just classic, no gettin' around it," from Tony Clayton at KSFX, "Waiting in The Wings" isn't waiting anymore.

**Mother Earth, "So Gently We Co," Capirol** One of the coolest ongoing success stories in the works, continues to be Toronto's I Mother Earth. Sonically capable of pounding average civilized people into pulp with their full tilt style, the band has instead wooed the radio world with the

soft and winsome, "So Gently We Go". Now on over 60 stations, with adds at KRNA, WKQZ, WNEW and WZMT this week, over 30 increases and requests at WTKX. Chartside IME rocks up to 40° on the Hard Hundred, while sliding a few higher to 29° at COR. Looks like the label's long-term commitment to this talented band is really beginning to pay off. Congrats!

**R**about some great Danes to add to the ol' musical mixture this week? After having already established themselves as a rock giant in their homeland, many parts of Europe and Japan, Royal Hunt are now looking abroad, to our rumpled shores for

their next success story. Drenched in early '80s classical metal stylings, high caliber guitar wizardry and anthemic song structures, Royal Hunt now hope to bedazzle the U.S' AOR ranks. If you like big production rock with lots of bells and whistles, a powerful voice up from and guitar arpeggios firing off like the Fourth Of July, check out "Running Wild".

Terry Evans performed songs from his debut Virgin/Pointblank album <u>Blues For Thought</u> at a recent show at The Troubadour in L.A. Execs pictured with Terry after the show are (front row): Virgin President/CEO Phil Quartararo and Executive VP A&R Kaz Utsunomiya; (Back row): Margi Cheske, Product Manager; Terry Evans; Pointblank President John Wooler; VP Radio Promotion Jeffrey Naumann; and John Boncimino of Full Circle Talent.

## BILL HARD & LISA RIEGEL

## Beinhorn Named Epic Staff Producer

Richard Griffiths, President of Epic Records, announced the appointment of Michael Beinhorn to the position of Staff Producer for the label. Living Colour's recording of "Sunshine Of Your Love," from the Epic Soundtrax album True Lies, is the first Beinhorn production for Epic, and the producer's first new project since the #1 success of Soundgarden's <u>Superunknown</u>. "Combining technical skill with superior musicianship, Michael Beinhorn has proven himself among the most talented and astute record producers of his generation," said Griffiths. "This appointment will allow Michael to create many more great records within the supportive atmosphere of the Epic family, and is indicative of Epic's commitment to being a truly artist-oriented company." Beinhorn began his career at age 20 as a founding member and keyboard player of the seminal NY avant-funk band Material (with Bill Laswell and Fred Maher). Beginning in 1981, Material recorded several EPs and two full-length albums, Memory Serves and One Down. Beinhorn and Laswell also produced a series of influential 12-inch singles, culminating in Herbie Hancock's 1983 Grammy-winning hit single "Rockit" and his album Future Shock. Following his departure from Material, Beinhorn went on to produce two acclaimed albums for Red Hot Chili Peppers, Uplift Molo Party Plan (1987) and Mother's Milk (1989, including "Behind The Sun," which he co-wrote). In 1992, Beinhorn produced Soul Asylum's Columbia label debut, Grave Dancer's Union. "I am excited and extremely inspired to have the opportunity to work with Richard Griffiths and the Epic A&R staff, not to mention a fantastic roster of artists," commented Beinhorn. "Epic to me has always been, first and foremost, an artist label and I am extremely proud to be part of their team."

THE HARD REPORT

KILO/Colorado Springs latest billboard campaign has people running for their phones... and dialing 911. The three billboards, designed to notify listeners that KILO's frequency has changed — feature a suicidal (and apparently lifelike) dummy perched on top and the sign reads, "Change to 94.3FM or I'll jump!" So far, the dummies have prompted three startled motorists to dial 911, warning police of a possible jumper.

KATS/Yakima announced that personalities Dave and Tom are joining the station for the 6-10am show. Dave Scott and Tom Turner previously hosted the morning show at KGON/Portland and at KKZX/Spokane. WMMS/100.8 "Buzzard Radio" rocked the river with the first annual "Buzzard Palooza" on Friday, July 22nd and Saturday, July 23rd at the Nautica Stage on the west bank of the Cleveland Flats! The two-day free concert was a smashing success. Buzzard listeners were treated to the sounds of Sarah McLachlan, Moist, Gods Child, Junkhouse, Fury in the Slaughterhouse, Collective Soul and others. Due to overcrowding and some rowdiness (in the tradition of Cleveland's original Moondog Coronation Ball and the Beatles first Cleveland show), Green Day were unable to play, but they plan to play another WMMS show soon.

# THE BOLDER 'BCO By Lisa Riegel

**KBCO** has gone through many changes over the years, but the departure of station veterans Program Director Doug Clifton and Music Director Ginger Havlat left some questioning what direction Boulder's heritage station would take. That question was answered when station consultant Dennis Constantine brought in former KRXQ PD (and one time KBCO staffer) Judy McNutt to take over the programming reins, and former KAZY APD Lois Todd for similar duties. With the promotion of ten year station vet Scott Arbough to MD, the changing of the KBCO guard was complete. The trio wasted no time injecting their own brand of energy and style to the station, which we're now hearing described as dynamic and uptempo, so that's where we began our conversation with KBCO's programming team...

I hear that the sound of the station is much more uptempo, and maybe a little bit edgier than it's ever been, is that accurate?

Judy: Now where did you hear that?

## I can't reveal my sources.

Judy: We decided that sleeping while the radio was on is not acceptable, so we switched over to tap your toe while the radio is on. We feel it suits our lifestyle much better.

## How edgy will you get? For instance, KBCO is the only station that reports to our Triple A section that's playing I Mother Earth's 'So Gently We Go.'

**Lois:** We don't want to put labels on anything. That particular song is just a great sounding song. It doesn't really get that edgy, and we are playing it at night only. It's not like we are going to play Metallica or anything like that.

**Judy**: We're playing everything that we possibly can play that passes through the KBCO filter — which doesn't filter out too much.

**Lois**: We really don't have any boundaries here. We are playing some STP cuts, and some Pearl Jam stuff, and the Barenaked Ladies, who we have coming in concert soon, and we're very excited. We're all trying to decide what to wear.

## Are you hearing any complaints from your longtime upper demo listeners? Are they comfortable with a more uptempo sound?

Judy: We haven't had any complaints from the upper demo listeners. As a matter of fact, quite the opposite. I've been taking a lot of phone calls — the listener line rings right here at my desk, so I can pick it up whenever I want to. We've been receiving tremendous positive feedback over the last few weeks and that's gratifying. Of course, we don't really care - no, I'm just kidding. But we're going to do what we want anyway. I know what you are asking, though. I think that you are probably wondering about the longtime, older KBCO listener who started out with us when we were playing Jimmy Buffet. This radio station has gone through several different life spans. Unlike a lot of radio stations who just go through one, this station has evolved several times. We started out in the '70s with that whole tonal thing, where we would even reject commercials that didn't fit the tonal quality of the station. Then in about 1980, or maybe '81, we started playing a lot more of what was then Alternative tracks. I think that we went a little overboard at that time. Because it was so new and so distinctly different, there was a little bit of a backlash. Also, at that time, we left behind that tonal, mellow, totally sleepy thing, and that huge sort of granola content went down. We balanced out the Alternative music and really got going on the variety aspect of the station. A few years later, I think that it slipped back into Granolaland for a little while. I don't know what's been going on for the past couple of years, but the feedback that I got a few months ago when I returned to Boulder, was that the station got predictable and kind of sleepy. So, we took a look at how we could make our palette more interesting. We squeezed some more paint on there, and now we are full color again

## Has the focus of the station's competition changed? Is KTCL more of a factor than they have ever been?

**Judy:** No, it's exactly the same. They have always had an influence on the market. It's a healthy influence that has a liberalizing effect on the community. I think that they are a very valuable radio station.

## With your playing much more uptempo music now, do you think you will be drawing audience away from KTCL?

**Lois:** I really don't see a lot of the younger. harder edged kids who have a lot of body parts that are pierced becoming a KBCO primary. They may sample KBCO, whereas maybe they never did before. 97.3 on the dial has always been the place to go for something progressive and new. If you wanted to hear something different or to get turned onto a lot of new music, you always went to KBCO, and that's the way that it is.

## Now that The Peak has been around for awhile, what's your read on that station.

Judy: I think that there's a place in town for an Alternative/Mainstream station.

## You walked into a situation at KBCO where veteran staff members had left, and some for a competing station. Was that detrimental to the morale station?

Judy: Everything has happened in such a slow evolution. Richard Ray left to do his own deal. He's doing Kid Radio, which is what he had wanted to do. Dennis, of course, is doing what he loves, and it was just time for him to do that. Maybe the Doug and Ginger situation when they left was —

## Lois: But Ginger didn't go to The Peak.

Judy: That's right. Ginger is a very talented lady. She was in one place for a long time, and for the most part, to grow, you have to go on. That's just the way that it is, and that's often the case with any industry. The people who are finding life hard right now are the long time veterans at the radio stations, where they have been at the same place for 15, 18, 20 years. Those are the people that have a struggle ahead of them, not the ones that move around learn to adapt and grow. Every time you work with a different group of people, you learn things and you grow and you move on and you apply what you've learned. It's a very valuable experience to move.

When you and Lois started at KBCO, was it a struggle for you getting the rest of the staff to work with you and your new ideas, since they had been with the same people for so long.

Judy: Don't be silly! These are wonderful, talented, open people. There was not one bit of struggle whatsoever. At first, it was a little chaotic because they had spent a bit of down time from when Doug left and I joined the staff, and also the company was struggling with getting their chops down on this duopoly situation, so there was a lot to contend with as a business all at once. Once we got a hold of things and got some stuff down on paper and got straightened out, then the people were the least of mv worries. As a matter of fact, without this staff, it would have been awful. They love this station and are dedicated to the highest ideals and principles of the station. I just walked in to a wonderful aroup of people with open arms, and that was fantastic.

## Both having recently come from harder rocking backgrounds, was it difficult to acclimate yourselves to the AAA music?

Judy: No, because I was a real closet music freak all along anyway.

Lois: Me, too. You can ask any of the reps, I would go to more of the Triple A type of shows than I would any of the harder shows.

## Other than KBCO, how closely had you followed what was happening with the format over the past couple of years?

Judy: I've always been a music person. Over the last six months, I've developed a very close relationship with a lot of the Triple A stations while working with my husband's compa-

nv. Communitech — he's a database marketing consultant. When I left 93 Rock, I didn't come directly to KBCO, I had about 8 months or so with Jeff's company. I start-ed out dealing with the stations that I had the relationships with, which were all the hard rock stations, but gradually I got to know the Triple A programmers just because that's where my music interests lie. Once I started doing things with the Triple A stations -I even started faxing out a weekly newsletter to them - they responded so warmly and so enthusiastically. Every time I sent out a little survey, I practically got 100% return. So I really began studying the Triple A format, which I don't even like to call a format. but that's a whole other discussion. The folks that are doing this type of radio, I started a real relationship with them and I really began to study the dynamics of what was going on before I ever even stepped into KBCO.

Lois: I just went to some conventions, as clandestine as I could, being the rocker. I started networking somewhat, mostly through Dennis Constantine, but this was really where I wanted to go. I wanted to jump into this format. There was a little bit more of a goal in my head.

## What elements of your program philosophy at KRXQ were you able to incorporate at KBCO?

Judy: A programming philosophy is a system. It's a living, breathing system, and my basic personality and my management style are really exactly the same. The details are different, but I'm a real people person, and if anything, that's even more suited to this type of format.

## Do you find the approach of the labels reps different with this format?

Judy: No, they are just as pushy as ever. Actually, to be honest about it, they are much more enthusiastic about what goes on with this format. Let's stop talking about formats, because it sounds like you are interviewing us about Triple A, and really, we're talking about KBCO, so I'm going to drop the word format from my interview now. I find from the national level on down, they are actually much more enthusiastic and supportive of the artists, therefore much more enthusiastic and supportive of this radio station. They go the extra mile to make sure that we get people in for Studio C. It's wonderful, actually. It's a little overwhelming at times.

Lois: It really is. They're open to ideas, too, from our end promotionally, and being creative with how we can expose their artists on the air even more. We're going to do a neat promotion with Mercury, for instance, for Milo Z. If you are going to get into labeling, you're going to hear, 'This isn't a Triple A artist,' but so what? It's great, fun music, and it works. So we're going to come up with a neat promotion and they are right there backing it up.

Judy: When Kay from PGD brought Milo Z. in to play for us, she said — I don't know if I'm talking out of school here, but what the hell, I'll take her out to lunch and make it up to her. She said that they played Milo Z. at their meeting and everybody was up dancing around and loving it and really feeling good. At the end they all looked at each other and said, 'Well, what format are we going to work this at?' When Kay told this story, Lois and I raised our hands and said, 'This one! Mr. Kotter, we'll do it!'

## What artists are exclusive to KBCO? What can we hear on your station that we won't hear on KTCL or The Peak?

Lois: There are a lot of those type of artists, the more acoustic based — the Freedy Johnstons and the Paula Coles and even the Mazzy Star sound. The Peak, mostly because their energy level is pretty much at a 7, and 10 is the highest, they have to be real careful. At KBCO, there really are no boundaries. You can hear just about anything on this station. You hear Pat Metheny, into Little Feat, into something brand new, maybe a Milo Z., into new Spin Doctors, that type of stuff. The Peak, by design are a little narrower and they can't branch out like that. The same with mittee' has kind of a negative overtone. It sort of implies that none of us can make a decision. It's really just a group effort. It's very helpful to have other opinions, and in the end you have to decide things, and that's really Lois and Scott. Sometimes I'll go, 'Guys, I know that you don't want to play this because it's the single, but it's a really good song, so let's play this also.

## What's your feeling on getting the single before the album?

Judy: I like to have the whole album, but I'll take whatever I can get. I like that people send us things early and they can trust us not to play it before its time. They realize that we like to get familiar with the whole album, and the labels are incredibly flexible with us and very, very tolerant, and we really appreciate that. I know that the pres-

KTCL. There are a lot of artists that are ours and not theirs.

## Is the music at 'BCO still chosen by committee, or do you play a much more aggressive role in the selection process.

Judy: You are invited to our music meeting. The door is always open. We had Roger Maher at our music meeting last week. He had a vote. It's very important to us as open minded programmers to sit around and chat and listen. You never know what's going to come up. Many of our staff come to the music meetings, and they play things for us that we might not have gotten around to that they particularly like. Or sometimes we'll be listening to tracks, and they will cue us into one that they think is good. 'By comPhotos by Jeff Uhrlab 1994 sure is on to get everybody on a certain cut, and sometimes we don't go on that certain cut. We play whatever is best for us, and we try and back up our hot albums with extra tracks.

**Lois**: Typically, any big release, even something that we are just excited about, we'll put two or three cuts on.

## Lois, the war between KAZY and KBPI will probably go down in history. Was it as much fun to participate in as it was to watch?

Lois: Yeah

*Judy*: There was a war and no one told me? I would have protested! **Lois**: I learned so much from that competitive situation, and it's only going to help me with the rest of my time in radio.

## Do you miss that aggressive, outfor-blood kind of competition, or was that a stressful situation?

Lois: No, I don't miss it because I like my blood in my body. I'd like to keep it, please.

## In Jeff Pollack's recent interview, he was very complimentary to KBCO, but seems to be less than thrilled with FM 101.9 in L.A.

Judy: Give me a break! Whoa, what did Jeffrey have for breakfast that day! Everyone is slamming the L.A. station. They ought to give it a chance to develop. Whoever said that you have to arrive on the scene fully done? I think that's ridiculous.

## We've also heard comments that Triple A will eventually just meld with Classic Rock and all become one big format.

Judy: This radio station plays so much new music that's there is no way that's going to happen here. I suppose in some markets, the stations are leaning more classic. I know that they are doing that in Sacramento. Remember awhile ago, I said that I was really reluctant to call this a format? I challenge you to find any three stations that are alike. Just hold their playlists up. Some of them, you have to get a magnifying glass out to find them, in terms of current music, and others are like ours where we have a problem reporting everything because there is just so much that we are playing.

**Lois**: It depends on the market. If there is a hole for some Classic Rock there, then it only makes sense to play more of that. This is some of the most exciting music out there, and it's going to live for a long time in my opinion.

Judy: I don't even think that you can call this a format until everybody agrees on what it's called. I call it Triple A. Most people I know call it Triple A. Labels either have to be appropriate, or you have to not use them. The industry is scrambling to come up with buzz words, catch phrases, and a set of initials to go with everything. It gives me a headache just thinking about it. I'd rather just program great radio and think about my community. Once in awhile, it's amusing to get drawn into conversation that is more nationwide in scope, but it's not very practical on a day-to-day existence. It's a great marketing scam. I know that Wall Street and Madison Avenue are very interested in Triple A, and they were just real interested in Woodstock. That was a marketing scam from hell!

## Did either of you go to Woodstock?

Judy: We hallucinated that we did.

## Same thing.

Judy: I had a baby there, I didn't have to pay.

Lois: You weasel, I paid all that money! I bet you got to ride in the bus too, you slime.

Judy: Didn't you see me on MTV?

## I saw you on MTV, wasn't Kennedy waking you up?

Judy: That MTV was fascinating coverage, wasn't it? As the night went on, people got drunker and drunker, and they tended to repeat themselves, it was horrible. Kennedy pretending to show her breasts.

# Speaking of warm, this is going to be your first winter in a cold weather place in a long time, isn't it Judy?

Judy: Speaking of not warm, you mean. Yeah, I'm looking forward to it. My children are looking forward to a white Christmas, however, you don't always get one here. Sometimes, it's 75 in December, and you're out playing ring toss in the back yard.

## Then you're stuck all February and March with snow up to your ass.

Lois: Heh-heh, she said ass.

## SCOTT ARBOUGH:

You've been at KBCO for awhile, haven't you?

Scott: Ten years in February.

## What did you do before taking on the Music Director position?

**Scott**: Oh, everything. I have been a disc jockey here since February of '85. I've done local music. I had the Local Music Director position when we started using a lot of local music on the air. I became the Production Director about two years ago, and then I moved up to Music Director. Also, I have produced all of the Studio C CDs that we have done.

## How many of those compilations have you put together?

Scott: We are working on number 5.

## That seems like it must be a fairly involved process. Do you run into many legal headaches or red tape?

**Scott**: Well, it's not difficult it's just time consuming. Most everybody is real willing to go along with it. It's just that it requires getting the artist at the right time and the right place and getting all the paper work together. It's a time consuming little project.

## You and Ginger must have worked closely together over the past decade.

**Scott**: Oh, yeah, in fact we shared an office. Ginger and I are very good friends. I just invited her to come over for tomorrow's Janis lan Studio C taping because she is such a huge Janis lan fan. Now, I'm sharing the office with Lois.

## Did you know Lois when she was at KAZY?

**Scott:** Not really. I was Music Director at KTCL up until I came here at the end of '84, and she had just started working in the area about that time. I knew her name, but I never knew her personally.

You were at KBCO during the recent personnel changes, and Doug and Ginger leaving. Did that leave a weird vibe at

# Scott: No, in fact, it has actually revitalized the station. I'm kind of like the old timer now. For all those years, I was one of the newcomers because the station didn't have any new people. Now, I'm one of the old timers. It's been a strange kind of thing. We have revitalized the station tremendously. It's really beneficial to have some good competition in the market, also. It keeps us on our loes. And Judy, of course, has brought a whole new energy to the station. She's completely different than anything we've ever had before. It's very exciting.

the station?

## Judy is an amazing programmer.

**Scott**: I didn't really know too much about her before she came here. Because her work in Sacramento was pretty much in hard rock, but we really enjoy having her here. She put a whole new energy level into the station. We cranked up the notches here on every level, behind the scenes in particular. KBCO has always been kind of a mellow place to be, and it's been cranked up quite a bit.

## I don't think anyone could ever describe Judy as mellow.

**Scott**: No, Judy is not a mellow person. We're all fairly excitable here.

## I mentioned to Judy and Lois that I've heard the station is sounding much more uptempo than it has in the past.

Scott: The station is definitely more uptempo and more edgy, that's correct. KBCO has gone through so many metamorphosis since I've been here. We've been uptempo, we've been mellow, we've been acoustic, we've been hard rocking. It's nice that it's always kind of changing.

## Do you still handle the local music scene for the station?

**Scott**: Yes, I still handle all of the local music. We have a very vibrant local music scene here, and I've included local bands on all of the CDs that we have done. Some of those bands are getting real big right now. Big Head Todd & The Monsters were on our first CD, when no one knew who they were, and look at them now.

## What other kinds of promotions have you planned for the station in the coming months?

**Scott**: We're working on a listener appreciation concert. We have our annual rock and roll auction. Of course, the big promotional Studio CD will be out for Christmas. We are the major concert promoter in town. All of the shows are KBCO shows pretty much, except for the heavy metal shows and things like that. The A3 summit is taking a lot of our time right now. We have performances planned from all of the artists that are going to be there. Last year, we had some of the best sessions we've ever had during that weekend, so we are looking forward to this one

## Are your listeners very vocal?

**Scott:** We have a very loyal and very active listener base. We have a listener data base that we use to keep in contact with our listeners, and we continue to grow our data base. Every time we give something away, we keep track of our listeners, who they are and where they are, how old they are. We contact them for

research and all kinds of things. We try to stay very intuned to what they are doing and what they want, and we try to coordinate our promotions and our activities accordingly.

## Do you handle the majority of the music calls?

Scott: Yes, I do. Although, Lois takes some of them, but I handle most of them. It's nice with Lois here, because she has an ongoing relationship with a lot of the labels that I don't have, as of yet. It's amazing, I did the music at KTCL up until the end of '84, and here it's nine years later, and still a lot of the same people are still in the business that I talked to back then, so it's been real easy.

## That seems to be unique in the Denver market that people who get jobs there, want to stay there.

**Scott**: It's a hard place to want to leave. Unfortunately, Randy Robins from Capitol just got moved, and he's been here forever. Dick Merkle has been here since the mid '70s, and so has Michael Brannen. Of course, we've had people who have moved onto the national level. Michael Linehan used to be a Denver rep and now he's a big national guy for Reprise. All these people that I used to talk to are still in the business, it seems like, even if they aren't working local here.

## What do you like that's new and excit-Ing these days?

Scott: My favorite record this week is Milo Z.

## Judy and Lois both brought up that record.

**Scott:** This record came in and hardly anyone would play it because it doesn't fit any format. I suppose that's the reason that I like it the most. I get excited about those kinds of things that are different. They were talking about that too, huh? It should be an interesting record for people who want to program something that is different. Have you heard it?

## No, not yet. Dave Einstein is sending it to me as we speak.

Scatt: It's just like Tower Of Power meets Red Hot Chili Peppers. It's a big horn, funky thing with a kind of a modern sound, that's what I like. I like old music, too. That's one of the things that I like best about this format is that you can play David Wilcox and you can play something like Milo Z or Red Hot Chili Peppers or bands like that along side of it, and it seems to work. Triple A is a format that I think a lot of people really don't understand what it's supposed to be. It's not an acoustic based format, which I think that a lot of people assume that it is. It isn't for us, anyway. I don't want to put my words in other people's mouths, but for what KBCO has always been, people assumed that because it was Colorado, it was acoustic based. Sometimes there is some acoustic music in there. but for the most part, we play very little acoustic music. So, we can get as edgy as we feel like we want to. With KTCL in the market, they cover the extreme left side, so we don't have to go that far left, but we can still play a track from I Mother Farth if we like it. We share a lot of the same songs between the radio stations.

## KBCO had a very good Spring Book, up 5.0 to 5.6.

Scott: We've always gone up and down. We've been as high as the #1 station in the marketplace before. It's not a mass appeal radio station, though. Because of the variety of the music that we play, not everyone is going to go for it. At the same time, Colorado is kind of a unique place in that a large percentage of the people that are here have moved here from somewhere else — except for me, I was born here. I am one of the few remaining. So, you get a real progressive mindset of young people here in the area, and people can swallow it up. That's one of the problems that people are starting to scream about with the Triple A thing, is that it doesn't work everywhere. What one person would call Triple A in Boulder, could be called something completely different in another market. Classic Rock is what it is. Everybody knows what Classic Rock is, but what is a Triple A station? Just wherever you find your niche, I auess.

## Did you read Jeff Pollack's interview last week?

Scott: I read a little bit of it.

## Any observations?

**Scott:** Well, I guess that everybody has an opinion. I think that the Triple A format isn't for everybody — and that's the best thing about it. If it was for everyone, it would just be another one of the Top 40 homogenized formats. I think that because it doesn't appeal to some people, it makes it all that more appealing to others.

Colvin, "Cover Girl," Columbia The only thing that could have made these classic tunes better than they already were is the unparalleled vocals of Shawn Colvin. Just about every song on this album is receiving Triple A airplay, but the hands down favorite track here in the corporate cabin is the cover of Jimmy Webb's "If These Walls Could Speak." Don Ferrell KRVM, "Who can't like the single, 'Every Little Thing...'? Everywhere I go, people are whistling it and singing it. This is a fresh,

upbeat, happy album. You just have to love Shawn Colvin, she's an artist that sticks in your mind. We've had great response here at KRVM!" Colter Langan KMMS, "We immediately put it on the second it came in. My favorite tracks are `If These Walls Could Speak,' and `This Must Be The Place (Naive Melody).' This album should be a big breakthrough. Even though the songs aren't hers, she makes them sound like they are her originals." Jeff Bieri KRCC, "We have a lot of Shawn Colvin fans in our audience. Her cover tunes are very well crafted. I'm sure the album will have the long run it deserves.

Moving quickly to 14\* on the Album Chart, it's obvious the Triple A community is more than impressed with Edie Brickell's solo release, Picture Perfect Morning. This album shows a depth and feeling far beyond her previous efforts. Granted, she has some quality help from Barry White, two of the Neville Brothers and others, including her husband Paul Simon, but this album belongs to her. Her lyrics are strong, but most impres-

lie Brickell, "Picture Perfect Norming," Geffen

sive is her command of several musical genres. "Good Times" is an R&B song in the classic tradition, "Another Woman's Dream" is funky, while others range from pop to folk. One particularly interesting track is "Green," with lyrics and lush sounds reminiscent of Kate Bush. The opening track, "Tomorrow Comes," a rolling rocker, brings back memories of middle-period Fleetwood Mac. An intriguing collection of songs that should return Edie to the limelight. This week's adds include KFMG, KTCZ, WMMM, WBOS, KEKO, WEBK and KRVM.

J. Cale, "Closer To You," Virgin Somebody once said, "Nobody does it better," and we're pretty sure they were talking about J.J. Cale. Jody Denberg KGSR, "I think he's a perfect Tripe A artist. We knew we would add this song before we even heard it. The fact that 'You're The One' is such a propulsive boogie with no pretenses made us smile." Bill Evans KFOG, "This is his usual stellar work. Let's hope the Triple A format does what AOR couldn't for his career." Zeb Norris

WXLE, "This is a wonderful return to style from one of America's greatest songwriters, and now there's a format that will play him. This is his best album in a long time. Dan Reed WNKU, "I'm really glad there's finally a format that he can call home, he's an engaging songwriter. His new song should satisfy everybody, it's very cool. Dennis Constantine, "If 'Long Way Home' is any indication, J.J. Cale's new album Closer To You is right in the pocket. The lead track is vintage Cale with its driving beat and understated guitar and vocal. Clapton has tried it, Edmunds has tried it, but Cale is the true master.

avid Broza. Second Street. November David Broza's unique interpretation of poetry and his impassioned flamenco tinged delivery propelled his

November debut, Time of Trains, to the top of Triple A playlists. As with that release, all of Second Street's cuts were composed with lyrics adapted from poetry. This is another stellar album from a fascinating artist who celebrates his diverse cultural background and the art of American poetry in his music. The first track up for consideration is the uptempo, melodic "When A Man

Holds A Woman." Dennis Constantine, "David Broza is back with his sophomore release Second Street. 'When A Man Holds A Woman' is the first single, and sounds perfect for Triple A radio. It has a great hook and is rhythmic and compelling.

rant Lee Buffalo Mockingbirds Slash/Reprise The band that brought us "Fuzzy," has released their second album, Mighty Joe Moon. The first sin-

ale aimed at AAA radio is "Mockingbirds," featuring Beatleesque harmonies and more angst than any gin-soaked cowboy can muster. Jody Denberg KGSR, "We're starting this at night, but I have a feeling it may spread out to other dayparts. Idiosyncratic and melodic — what a combination." Dennis Constantine, "It seems like 'Fuzzy' was on the charts just a

few weeks ago, and now we have Mighty Joe Moon from Grant Lee Buffalo. The single, "Mockingbirds," sounds very similar to the last effort. Falsetto vocals, a dark chord progression and 'fuzzy' guitar make this instantly recognizable to anyone familiar with the last hit." Colter Langan KMMS, "I love the sound of this new alburn. There will be big things ahead for Grant Lee Buffalo if radio stations will just give them a chance. They have an Alternative sound, but I dare anyone to put them up against Buffalo Springfield and say that it's not as important. I hope this new album will get the exposure it deserves.

alter Becker Down A: The Bottom Giant Steely Dan's Walter Becker has finally released his debut as a recording/vocalist, and the only question

we have is what took you so long? Dennis Constantine, "Walter Becker returns with an album called 11 Tracks of Whack on Giant, produced by Donald Fagen. Steely Dan fans rejoice! Sounding very much like you might expect, Becker combines smooth pop, jazz, and intelligent adult lyrics on such tracks as 'Down At The Bottom,' and 'Lucky Henry'." The first

single, "Down At The Bottom," is just the icing on the cake of this stellar release. Look for the album to cross your desk shortly.

Dreaming In Color A&M The Songcatchers are a collection of

artists from different ethnic and stylistic backgrounds who have formed to create a unique sound reflective of the American ethnic cultures. The primary focus is on the Native American culture, inspired by Lara Lavi, from the group Red Dog Zen, who provides the lead vocals on most of the tracks. Influences from R&B, rap, funk, and jazz lend a complexity and diversity to the music. Creative while maintaining traditional cultural feeling, only one track breaks the pattern of serious historical

perspective - "Getaway Car", a rocker that begins with tribal chanting and breaks into a funky groove. The single "Before, Now and After" is already picking up Triple A airplay, but there's obviously much to explore on Dreaming In Color.

Scenes From My Last Confession RCA This debut album on O Bran from Dillon O'Brian, an experienced session player for many well-known artists, is a

polished jewel. His personal, introspective lyrics are set to a variety of musical styles which flow seamlessly. Beginning with a beautiful love song which sets an almost religious (almost scared?) tone for the whole album, the music weaves in a Celtic flavor ("My Father's Son"), and concludes with a jazzy and mesmerizing number ("The Analytical Mind"). Reminiscent of early Billy Joel and Van Morrison at times, his plano style brings Bruce Hornsby to mind. The atmosphere and lyrical con-

tent are distinctive, however; Mark Dillon O'Brian is an artist with a bright future.

## o Prima Donna The Songs Of Van Morrison Polydor Van Morrison co-produced but did not perform on this album of ten of his songs, a selection made inter-

esting by the choice of songs that are not often heard and sound fresh. The album also has a cohesive quality not always found on tribute albums. Our favorites include Sinead O'Connor's vocal performance and Carl Geraghty's sax on "You Make Me Feel So Free," Cassandra Wilson's rendition of "Crazy Love," and Marianne Faithful doing "Madame George," which includes some great piano by Phil Coulter,

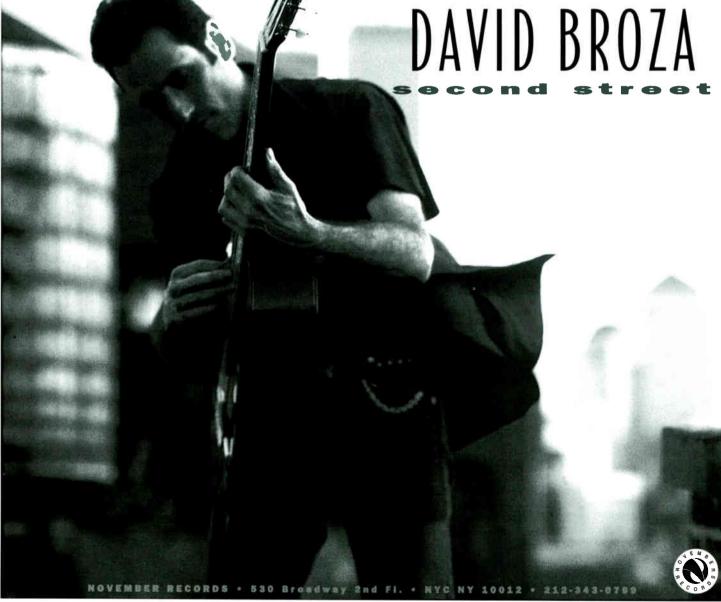

who also co-produced the album.

rous Artists Fast Track To Nowhere A&M This compilation puts the '90s into the '50s (or maybe vice-versa). Eleven of today's most respected acts have

interpreted rock and blues hits of that era. At least 4 of these fit nicely into the Triple A format, including Concrete Blonde's haunting rendition of Jody Reynolds' "Endless Sleep." Johnette Napolitano's vocals and jim Mankey's guitar work are outstanding. One track which should get plenty of airplay is Sheryl Crow singing Fats Domino's "I'm Gonna Be A Wheel Someday." The Wild Colonials do

a convincing version of Muddy Waters' "Evil," featuring the vocals of Angela McCluskey and some great horns from Scott Roewe. Finally, the Neville Brothers apply their classic style to the classic "Let The Good Times Roll."

## Nothing But The Truth Alligator

Davis, Blues Barbeque, KHEZ, Boise

Alligator's seventh "Son" album enhances his reputation as one of the leading-edge performers in blues. Son's razor-sharp chops and gritty, passionate vocals make this an intense and enjoyable listening experience.

## **G** .Love and Special Sauce Keh/Epic Records

iannan W/RAS Atlanta

G.Love and Special Sauce, a band with it's roots in Philadelphia and Boston, is rescuing OKeh Records from the Blues gravevard. G.Love (Garrett Dutton III) has created his own brand of music that has critics scrambling for words to describe it's appeal. Slacker rap, Caucasian blues, white boy blues...all are feeble names that have

been used to categorize this music. G .Love himself calls it "ragmop" a mixture of blues, soul, hip-hop and assorted genres that have helped inspire him. These songs talk about everyday life; the garbage man, a cold beverage on a hot summer day, and a fat, fast-talking car salesman "It's not bubblegum, but the messages aren't that heavy. I live what I write The song" Shooting Hoops" helps one visualize kids playing b-ball on the courts in south Philly, each one fighting over who gets to be the "doctor. G-Love sings "I could fake to the left, penetrate like Mike, or 360 in the air as Dominique might." This is a classic example of ragmop transcending musical boundaries. Ripley would be amazed with "Shooting Hoops, which combines the diverse styles of John Lee Hooker and Kurtis Blow. G. Love and Special Sauce have quitely taken the blues in a new direction, thus providing hope for this art form's future. Their music defines the term ragmop and soon will make it a house hold word, just the way Nirvana gave meaning to the utterance "grunge." And remember, when you look it up in the dictionary, Websters says "see G. Love and Special Sauce." Believe it or not!

## The Brian Setzer Orchestra Hollywood Records Time/Warner) ean Barker, Renaissance Endeavors, Madison, WI

Brian Setzer is definitely one of the cats. His latest meow is the Brian Setzer Orchestra - a big band that swings and rocks with the talents of some of the West Coast's finest session players and top shelf arrangements by heavy hitters like Billy May Setzer has always had a classic voice and enough guitar chops to get the job done, but on this record-

ing he makes some real music. The disc is entertaining from start to finish. Originals range from the snappy and cute, such as the opener "Lady Luck" to surprisingly tender, like the string laden "September Song." The lyrics even mention an old Sinatra song, which is a fairly good comparison. While Setzer is no Chairman of the Board, his does the simple justice and cashes in on the Harry Connick sound-alike prize. There are plenty of stylistic references to great past moments in music, including a few Peter Gunn quotes in "Brand New Cadillac" and a classy remake of the Bobby Troupe classic "Route 66." Maybe the Natalie Cole and Brian Setzer duo album is already in the works, who knows? Setzer's vocal delivery is strong and articulate, at the same time he manages to show enough of his tender side to make the ladies swoon in the tradition of the great crooners. Not many singers can come out of the closet as true vocalists - Brian Setzer deserves credit for making the transition and also just for making the project happen. Not enough can be said about the band. They score points on every cut. This is a real big band, not a Large Band a la Mr. Julia Roberts, but a big band with a battalion of thirteen smoking horns and a full rhythm section. The Brian Setzer Orchestra is touring now, let's hope they come off the road with material for another recording of this caliber.

## Strung Out On The Blues

Mighty Tiger Records Rich Gordon, Sunday Night Blues, WXRX, Rockford, IL

It's been a long time coming. A local favorite blues band has a CD out on Mighty Tiger Records. Howard and The White Boys started in Dekalb. have played the blues clubs here in Rockford and are now a mainstay at Legend's in Chicago, as Buddy Guy has become their blues godlather. The band consists of Howard McCullum on bass vocals, Dan Bellini on guitar and harp, Steve Asma on guitar and Jim Christopulos on drums. The disc is supported by keyboardists Dave Frebolin and Erwin Helfer. Horns are provided by John Brumbach on Tenor Sax, Dez Desormeaux on Baritone Sax and Rob Mazurek on trumpet. This CD was co-produced with the band by Fred Breitberg who has worked over the years with many great blues people at Chess and Alligator Records. Definitely, these guys are strung out on the blues and their habit is providing some great high energy, makes you wanna get up and move it, blues. For a band formed in 1988, they have learned their lessons well. This CD contains many superb originals, some delivered with a clever sense of humor and a couple of covers. paying tribute to the blues masters in the Howard and The White Boys Style. This is a strong performance from a band taking a giant step into the world of blues in the mid '90's. It is only the beginning, an impressive start on the way up. The future of the blues is in good hands with bands like Howard and The White Boys at the wheel.

# Programmer Profile

•

## Jim McGrath - WXXI - AM - Rochester, NY

**Tell us about your station and market.** *WXXI is a 6000 watt public radio station in Rochester, NY. It is unique in that it is one of the few public AM facilities in the USA. The main thrust of the programming is News/Talk but on the weekday overnights (10pm to 5am) it has music. The weekends only feature music. Three of the overnights are devoted to the Blues. Rochester is the city serviced by WXXI-AM, along with some suburbs, this due to night pattern imposed on AM stations. During the day our pattern has a 75 mile radio. The weekends have more music programs like the Blues with Doug Ourry and City Sounds, which features Blues about half the time. Blues Stage is also carried by WXXI-FM.* 

What is your show like? Blues Spectrum is the name of the program I do two overnights and the third night of the show is handled by Dan Bindert, a part time employee. My idea about the program is to let people know about all the great music that is out there now, while at the same time trying to let them know about the breadth of styles in the Blues, hence the name, Blues Spectrum. My on-air style is based on a regular commercial radio station announcer, playing a lot of music with sports, news, events calendar, and other such elements. With being on 7 hours each night, I have the luxury of not feeling time constrained by having those elements in the program. It is a much looser feeling than when the show started as a two hour Sunday night program. I do throw in facts about artists and releases, but I figure in overnight hours the folks are more interested in music than in hearing me go on and on. So breaks are short and sweet. The other show produced has been 90% Blues lately. It is a locally produced live performance program which has recorded many Alligator artists along with such people as Little Milton, Robert Cray and many local artists. A few of these recordings have ended up on NPR program Blues Stage. The engineer, Dave Oluberski and I go out an record a group live to two track DAT then cut up the performance into hour blocks and run it on WXXI-AM. We are up to 225 hours of programming as of May 1.

What artists seem to work well? The artists that work well are varied. Listeners seem to like Elmore James school of slide guitar that includes of course, Lil' Ed and Hound Dog Taylor right through to the ZZ Hill Down Home Blues sound. I try to give them all the styles within a couple of hours since few can listen all night, although some do. One of the most requested tunes for me is Lonnie Brooks Holding On To The Memories from Satisfaction Guaranteed.

Who do you consider to be your typical listener? Being public radio we have little or no research available, especially about overnights so my typical listener would be the caller. Although all types of folks call at all hours, I would have to say that my typical listener is African-American, female and over 35.

**Any blues programming tips?** Promotion is essential. In the movie Field Of Dreams, Kevin Costner was told "If you build it, they will come." In the field of broadcasting," if you play it they will listen" just doesn't cut it. Blues as well as any other program has to have promotion, both to the converted (the listeners) and to the non-converted (potential listeners).

**You also coordinate the Blues Chart at Living Blues magazine.** The Living Blues Radio Chart started in 1985 whin I approached Jim O'Neal, then head of the magazine, and asked if he would print one if I compiled it. He said yes and the rest is history. The whole idea is to get record people and stations together so that releases get to the people that really play the Blues, then the general reading public know what's being played during these programs throughout the world. I had been working at a small college station and found it very hard to get releases even though at one time I was the only blues program in Rochester. It started off pretty slowly (10-15 contributors monthly) but has grown over the years (60-75 contributors monthly). I'm really glad it was slow at the start since I was doing it by hand back then. Now I have a MAC that compiles it all.

**Favorite power tool?** My favorite power tool is actually a portable drill. Having been a licensed electrician at one point in my life, I came to value it when I needed to get into those nooks and crannies. Sorry I couldn't think of any wise ass answer here.

WEEK

## THIS CHART IS BASED ON THE REPORTS FROM THE FOLLOWING STATIONS:

44. (c.

## Offspring, "Self Esteem" (Epitaph)

How much arm twisting do we need to do? Offspring have become the breakthrough band of the year when their initial single - "Come Out and Play" - raced to the top of the charts. Just coming off six weeks at #1 in the Alternative chart, and having sprung its way to #2 on the COR chart, the follow up "Self Esteern" is heading your way and is already

charting at #46 with five adds at KISW, KNAC, KRRK, WHMH, and Q104 in New York, an add which was an easy decision for Vinnie Marino, who commented that, "These guys are huge! The listeners like it and that's what really matters. They aren't the only station whose listeners want to hear **Offspring**, KZRX and WMMS are also reporting top requests. The resurgence of the punk sound has reaped instant benefits for Offspring and Green Day, but the comical (and relatable) lyrics of "Self Esteem" and the poppy melody is as memorable as "Come Out and Play". So, don't be a sucker with no "Self Esteem" in your playlist - add the track today!

# Oream Theater, "Lie" (EastWest)

With the release of Images and Words, Dream Theater became a regular at COR radio with the melodic power of "Pull Me Under". The song also found a good chunk of air-time in regular rotation on MTV, and with the support of the two and plenty of touring, the release sold at a brisk pace, coming up just short of gold. The upcoming release

of Awake has been highly anticipated and the start off track, "Lie", is already finding some fans of its melodic, churning groove at KBPI, who added it this week, where Natalie commented that "It did really well this week, we spun it 20 times and they already got requests over the weekend." They are joined by KILO, KZRX, WVCR, and WKLQ who also added "Lie" into their rotation. Even more enthusiastic is J. David Holmes of KUPD who started on "Lie" early and the song is pulling in #1 requests. If you want to find your listeners clamoring for the phone and pledging their complete loyalty and affection, calling you the ultimate programming god - okay, maybe we're going off the deep end a bit - but withtheir updated, progressive sound and metallic crunch, is keeping both musicians and fans alike happy, so don't tell a lie, just put it on the air.

## Live, "I Alone" (Radioactive)

This band from York, PA has been adored in the Alternative realm since the release of their first record, Mental Jewelry. Now with the release of Throwing Copper, and the track "Selling the Drama" specifically, the band has reached a new audience through COR and AOR radio plus MTV. But things are just getting started for this young band, with an

average age of 22, even though they have been playing together for ten years. The 8 adds this week at KIOZ, KSJO, KUPD, WBTZ, WHMH, WIYY, WRZK, and WXTB were enough to power "I Alone" onto the chart this week, and the mesmerizing, melancholy sound of Live will continue to grace our ears. In addition to the adds, early airplay is being found at KEZE, KRRK, WAAF, WMMS, WRZX, and KUPD, whose J. David Holmes feels that they have "A very interesting, unique sound - an honest sound - that people like. It is also giving 'Selling the Drama' new life with the acoustic version." With a response like this, you will be in good company when playing "I Alone"

## Mutha's Day Out, "Green" (Chrysalis/EMI)

Most of vou have been exposed to this young band from Batesville, AK from the rockin' tracks "Locked", "We All Bleed Red", and "My Soul Is Wet". All of those songs were packed with the bands youthful energy and exuberance, as the band has become known for in their frenzied live shows. On the latest single, the subtle and solemn side

of the band peeks through. "Green" deals with the death of a high school friend and classmate - the song became a graduation dedication at the school - and even with the slowed down pace, the emotional intensity is as powerful as any screaming guitars. With early adds at KZRX and WBTZ this week, and continued touring across the country, it's going to look like a certain Irish holiday with all of the "Green" all over the country.

# The Poor, "Poison" (550/Epic)

These blokes from Australia have been rockin' the COR airwaves with their chord heavy, simplistic style and party hardy attitude are injecting the fun back into music with "More Wine Waiter Please" and "Tell Someone Who Cares". Now they are back with "Poison", with its electric, frenzied groove, it is easily the fastest paced and most energetic

of the songs on the release - great party track to kick off the weekend. With plenty of spins showing up at KEGL, KIBZ, WBTZ, WBZX, KEZE, WUFX, WNCD, WVCR and Q104, where they have been clocking in heavy airplay since the release. Vinnie Marino tells us that "It's still doing well for us, and we've been playing them for quite awhile. It has that heavy AC/DC sound that we like a lot." The station did a boat cruise with the band and the demand was so high that they had to run two equally insane cruises - both of which sold out. For some fun, no frills rock n' roll take your "Poison" from **The Poor**.

Boy, they must be easy up there in the Pacific Northwest! Jon Ballard of KISW is seen here standing on his own street, in Edmonds WA, after a steady campaign of letters and petitions from the listeners of KISW. Hey, where there's a will there's a way.

More fun and frolic from KISW! For those of you who didn't want the mud of Woodstock '94, you could have opted for some good clean fun at Nødestock '94. With a live band - nude of course - and music piped in from Woodstock, the 2,000 fans bared all and had a blast as they show support for their favorite radio station.

Suicidal Tendencies outspoken frontman Mike Muir is seen here hanging out with Laura Ingle of KRXQ and a bunch of other unidentified foiks who look fairly bored. I guess you have to work for 93 Rock to have all the tun!

More Woodstock fun! Station listeners of KILO who wanted to report for the station from the mayhem at Woodstock had to simply show their support for the station. Here is one fan showing her KILO pride, ready and rarin' to go to Woodstock.

# DREAM TH

ream Theater, "Lie" (EastWest) The year 1992 turned out to be the breakthrough year for progressive rockers Dream Theater. With the release of Images and Words, the band managed to fuse their eclectic musicianship with riff heavy grooves, and melodic catchy songs to create a recipe for success that put the single "Pull Me Under" all over rock radio and MTV. The success of that track, and the follow up "Another Day", kept the band busy on a successful road tour as the album sales

climbed up to just under gold status. While their bounty may have seemed to come upon them quickly, the band is far from being an overnight sensation: many people may not be aware of their 1989 debut, When Dream and Day Unite, which received stellar reviews in the press (especially in Europe), but didn't make it over the proverbial hump in the States. After years of hard work, and the addition of James LaBrie on vocals, they were able to make it over that hill, kindling their appeal with consistent touring and even more critical acclaim. You would think that the band would be on cloud nine, having finally reaped the benefits of their hard work, but on the first single off of their upcoming full length release Awake, Dream Theater sound particularly angry as they delve into a web of deceit with crunching riffs on "Lie". The song showcases LaBrie's soaring vocals - but he also utilizes a throaty low range - along with the intricate layered guitar and keyboard sounds of John Petrucci and Kevin Moore. What makes "Lie" stand out from their previous work is the rich, heavy, gnawing rhythm, which will especially appeal to metal radio. On a sad note, however, longtime keyboard player Kevin Moore is departing the band to pursue other musical opportunities, but he was around for the entire recording sessions of Awake, so you and your listeners will be able to enjoy his work on this release. The musically crosstraining work of Dream Theater will be enjoyed by many aspects of your audience - the musician, your active core listener, and even the station hopping passive listener - so just call us up and tell us lies, or at least that you're playing "Lie".

#### Souls at Zero, <u>Six T Six</u> (Energy)

The last time we heard from this band, they were in the midst of a labor of love: on the road with Sacred Reich supporting NORML and the legalization of marijuana. But what this band is best known for is their lethal onslaught of power grooves that could flatten a cornfield within seconds, and the bombastic percussion of drummer **Shannon Larkin**. Unfortunately,

Larkin has left the fold to join the Ugly Kids, and this is his last work with the band, but stepping into his shoes is Jamie Miller, who was the drummer in Larkin's side project M.F. Pitbulls. The <u>Six T Six</u> EP is a teaser for us in between full releases, and after listening you will be searching for possible hidden tracks or a second CD, because six songs aren't enough to fill that **Souls At Zero** fix. The songs on this EP will numb your senses with full on attack of "Don't Ask" and "Underneath", and **Brad Divens** adds a distorted delivery to the vocals in "Flies" to fuel the abbreviated but potent attack. Also included is a demo version of "Hardline", and two punked out covers "I Against I" - originally done by Bad Brains - and "When the Shit Hits the Fan" - originally done by the Circle Jerks. This Baltimore based group first hit the scene as Wrathchild America, and despite a ton of radio support and airplay on Headbanger's Ball, the band was dropped after two releases. Now finding a home at Energy, the band started from scratch, and their music has channeled their aggression into a much more focused delivery. As a result they can devastate your ears in even less time than before! And we like that, so crank up <u>Six T Six</u> to keep the crowd moving until we can enjoy another full length release from **Souls At Zero**.

#### Tesia, <u>Bust A Nut</u> (Geffen)

Despite the fact that COR and AOR have claimed **Testa** as one of their own (and that will happen when every one of your releases goes platinum), anyone who has enjoyed the music of **Testa** over the years - as we have - can testify that this band knows how to rock. One listen to <u>Bust A Nut</u> will confirm that thought in a second. Check out "Solution", jam packed with chuming guitar grooves; "Shine Away" with intense six string jams in between the softer melody; the pulsating

rhythm of "Action Talks", and the quirky sounds of "Earthmover". Despite the fact that **Tesla** sparked the widespread interest in the unplugged craze with <u>Five Man Acoustical</u> Jam. the blue collar working ethic and laid back attitude of this Sacramento based group have spurned many rockers over the years - "Modern Day Cowboy", "Hang Tough, and "Heaven's Trail" - to endear them to many metal fans. With airplay already showing up at WDHA, WZRQ, XBDT, KLBJ, WCWP, KNDI, and WKLQ, many of you have already found some of the gerns on <u>Bust A Nut</u>. If they are true to form, **Tesla** will be hitting the road for months and transforming into their live mode, which showcases the band in their truest form, and where their spontaneous, spirited, songs come to life. Bring them to life on your airwaves, and spend some time with the kinetic sounds of **Tesla**.

#### Criss, Cat #1 (TNT)

The first taste of music from the legendary KISS drummer, "Bad Attitude", has been picking up enough adds and airplay to start rumbling near the Hard Hitters chart, which shows that the interest in **Peter Criss** has remained vitally strong over the years. At recent KISS conventions, hordes of fans came out to pay tribute to the previously unattainable **Criss**, and that should now continue with the release of <u>Cat</u> <u>#1</u> and a national tour that will have **Criss** and his new band

back in the public eye. The life of **Peter Criss**, which has been at times charmed - with the success in KISS and his resiliency after years of hardships - and at times cursed his bout with drugs and an ordeal with a homeless imposter, has seemingly come full circle with this release, and his fans have been waiting patiently for the good word. In fact, the most devout fans were able to check out an advance taste of this release - last fall a CD-5 featuring three songs from <u>The Cat #1</u>, including a revamped version of "Beth" and two additional tracks - were available by mail order only. But now we can all check out the blues-tinged rock of **Criss**, who along with showcasing his new band, among them, **Ace Frehley** as a guest on three tracks. With more songs to pick from, expect the phones to start ringing as many stations join KISW, WDCR, WDHA, WVVV, KQAL, WHJY, WRLC, WTPA, XBDT, KDJK, and WXCI on <u>Cat #1</u>.

## QUICK Picks

#### Bloodline, Bloodline (EMI Records)

For those of you out there who can appreciate the magic created when a group of accomplished musicians mesh together for a spontaneous jam session will enjoy this debut release from the band **Bloodline**. With a fusion of styles and even varied lineage - vocalist Berry Oakly Jr.

is the son of the late Allman Bros, bass player; quitarist Waylon Krieger is the son of Doors guitarist Robbie Krieger; and drummer Erin Davis is the son of jazz legend Miles Davis. That incredible heritage combined with the guitar heroics of prodicy **Joe Bonamassa** and the production of Joe Hardy (ZZ Top, Jeff Healey) form the base of Bloodline, whose smooth delivery, blues lined melodies, and relentless grooves are finding fans at all formats. KNDI, KQAL, WAIF, WKLL, WLFR, WXZR, and KZRQ are some of the metal stations who have starting spinning tunes from this electric union, so be sure to check this out, or the blood will be on your hands

#### Treacherous Human Underdogs, Vice (Rage)

Heralding from St. Louis comes this power trio (Leon Lamont Hinds - drums and vocals: Steve Bunton - quitars: Taron Davis - bass) whose hard-core metal style and gritty vocals come straight out with a no frills message about the darker side of reality. Some of the songs to check out include the groove of "Downhill" (be sure to edit first), "Vice", and "Squirrel". The

bands debut was produced by Melvin Gibbs, who is best known for his slot as the bass player in the Rollins Band, and the groove of Vice stands out as prominently as the anger. Metal radio has already begun to explore the world of the Underdogs with adds at KDUR, KLBJ, WFCS, WKNC, KMSA, WBAU, WCWP, WDBM, WGLS, WLFR, WNYO, and WTSR. With warnings from the street, and lyrics that are not easy to digest - and are not meant to be - Treacherous Human Underdogs will open your eyes and widen your mind.

## SINGLE Matter

#### Mutha's Day Out, "Green" (Chrysalis/EMI)

With as long as these boys have been out and about, touring all over the world, doing interviews, and creating as many stupid human tricks as they can think up, the parents of Mutha's Day Out will think their boys have run away for good. We hope they don't mind, because we have been enjoying the music, antics, and live shows from this energetic, young band. The latest sin-

gle, "Green", features a more somber side of the band, as the sentimental song is dedicated to a high school classmate who took his own life, and the song even became the 1993 graduation song for their school. While "Green" may not be as frenzied as earlier releases, the heartbreaking - and now becoming common - occurrence of someone that young losing their life fuels the compelling message, making the song just as strong as "Locked". With a new legion of fans in both the U.S. and Europe, Mutha's Day Out has consistently built into one of the success stories of the year. They may have developed out of their green status, but we're hoping that you are just beginning to turn a little "Green".

## METAL Filings

In case you didn't notice the Dream Theater single, "Lie", is the metal cover pick for the week, but what you might not know is that four of you were so eager to play the new Dream Theater (EastWest) track that you added the tune a week early. Now it's time for the rest of you metal-heads to spin the first cut from the band's upcoming album, Awake ... You had better have your green on today! No, it's not St. Patrick's Day, Mutha's Day Out (Chrysalis/EMI) is going for adds this week on the song "Green", and we think that everyone should be in the spirit ... We know all you Souls At Zero (Energy) fans will waste no time in adding the band's <u>Six T Six</u> EP to your playlist. Six songs (hence the name) have been made available — featuring the stixmanship of ex-drummer Shannon Larkin — on the disc. Remember now the band have replaced Larkin with Jamie Miller. who will be the featured drummer on the bands next full length project ... If you happen to suffer from a bit of nostalgia then you will definitely add the Criss (TNT) album, Cat #1. Peter Criss, the original drummer for KISS, recruited a group of fellow musicians, including the likes of other KISS participant Ace Frehley, to put together the eleven song disc ... It's like this - you already have the Body Count (Virgin) Medley, but Born Dead, the new release from Ice-T, Ernie C., D-Roc, the Mooseman, and Beatmaster V ships August 29th. Take note the clean version of "Born Dead" ships September 16th... The eighth release from Bad Religion (Atlantic) comes in the form of the Stranger Than Fiction album. Twenty of you are already on the EP of the same name, giving the band a boost up to a #42 debut on the Hard Hitters chart. The rest of you had better find the light and add the record on September 5th and 6th .... Arcade (Epic) are geared and primed for the September 5th and 6th arrival of their album, Something cool to check out is the Let It Burn (Because I Don't Live There Anymore) Α... record brought to you by Greg Ginn and Cruz Records. Ginn is currently traveling stateside — check out dates and cities in the Hard Tour Guide... Coming soon from those in the Virgin Records' offices is a collection of b-sides compiled on the 13 track Pisces Iscariot. Look for it... In case you forgot to read the news column last week I want to fill you in on what's going on with the upcoming release from Corrosion of **Conformity** (Columbia). "Broken Man" has been tapped as the first single to grace the metal air-waves from the upcoming record, Deliverance. Add the track September 12th and 13th... Do I even need to remind that September 27th is the arrival date of the highly anticipated Divine Intervention album from Slayer (American)? Didn't think so!... MCA Records have welcomed Smashing Orange to their artist roster. The band will deliver their debut disc, No Return In the End, in late September/early October to the metal radio masses, while filling the retail shelves on October 11th... Even though the full length album (Stand By For Pain) isn't set to arrive until October, a coupla songs from Widowmaker (CMC International) will be delivered in September. Be prepared to get an appetizer via "Long Gone" and "Ready To Fall" around the 26th of the month... Another September 26th/27th add comes from Downset (Mercury). The band, who are currently holding down the bulleted #7 position on the chart, hand over a CD-pro for the single "Ritual", complete with a live version of "Anger" and a previously unreleased killer track, "Touch"... Make a note that a re-issue of Sheer Terror's (Blackout) Old. New. Borrowed and Blue EP will be shipped in late September, kinda as a warm-up to the new stuff that will be out in early 1995. By the way, Susan Greenwood will be working the product... Tyketto (new to the CMC International family) are currently preparing for the release of their album. Strength In <u>Numbers</u>. Look for it to invade your metallic world in October... Word is that CMC International have inked a deal with Warrant, still featuring the vocal work of Jani Lane. The band will begin production on their CMC disc in September, shooting for a February delivery ... Flotsam and Jetsam (MCA) are currently holed up in Nashville, Tennessee mixing their next album. The band recruited the knob turning skills of producer Neil Kernon for the record. Look to early '95 for the release ... Voivod (MCA) are currently writing new material and have found a replacement for the recently departed Snake in Eric Forrest. SSSS In the meantime, check out Gilby Clarke (Virgin) as he takes his Pawn Shop Guitar sound to the road with shows booked August 30th in San Bernandino, California; August 31st in Modesto, California; September 1st in Fresno. California; and September 2nd with a show in Las Vegas, Nevada... Coming off their outstanding performance at Woodstock, Nine Inch Nails (nothing/TVT/Interscope/AG) are taking off on a cross country tour beginning August 29th with a show in Cleveland, Ohio. Yngwie Malmsteen (CMC) takes his guitar finaglings onto the road with shows booked from September 7th (in San Diego, California) until September 24th (stopping in Denver, Colorado) ... The coolest triple bill of the fall happens to have Prong (Epic), Drown (Elektra) and Clutch (EastWest) touring together. Eight dates have been scheduled for the trio, from a September 22nd opener in New Britain, Connecticut until September 30th with a performance in Chicago, Illinois... If by some chance you will be traveling to Europe in the coming months be on the look out for Bad Religion (Atlantic) and Green Day (Reprise) as they wander the continent during September and October... By the way, Offspring (Epitaph)

will also be trekking 'round the European countryside with shows booked during the latter part of August and on into September... Bummer that it is, Soundgarden (A&M) had to postpone their U.K. and European tour that was set to begin August 25th, due to severe strain to singer Chris Cornell's vocal chords. Cornell is under a medical directive to stop all strenuous use of his voice immediately in order to avoid permanent damage. The band hope to return to the continent before Christmas. తితితితి Looks like a Criss (TNT) video for "Bad Attitude" is in the works with a slated debut in September... We've heard that before the album hits the streets the debut Widowmaker (CMC) video will travel the air-waves... Nine Inch Nails (nothing/TVT/Interscope/AG) have lensed a video for "Burn", the lead off track from the Natural Born Killers soundtrack. Look for it to air on Music Television any day now. How cool is it that Entertainment Weekly did a spot about the Black Train Jack (Roadrunner) vid for "Handouts", the one that featured MTV's Real World 3 bicycle messenger Puck Rainey. The article ran in the August 26th issue. MTV also did a spot about the mini-movie on The Week In Rock. 8888 Lots of cool things happening in the Metal Blade offices of late --- like the recent exchange of marital vows of Marco Barbieri (Dr. of Publicity/A&R) to Bonnie Henchal, and Ralph Paz (Natl. Dir./Retail Sales) with Ivette Ruiz. We must also mention the advancement of Brian J. Ames, who was recently promoted to Vice President Creative Services. Congratulations to all!... So, Ozzy Osbourne has won his lawsuit against Music Confidential magazine, who published a false, defamatory and misleading story stating the Osbourne suffered from a disabling medical problem. For the damages he suffered, Ozzy was awarded an undisclosed sum of money, which he is donating to two of his favorite charities (the Bridge School, that teaches developmentally challenged children how to communicate through music and the International Rett Syndrome Association). Also included in the settlement is a formal public apology to Ozzy and Sharon Osbourne and their family, which can be seen in upcoming issues of Billboard and Spin magazines. SSSSHey, Cheryl, Smitty, Martinovich and Co. the Prong (Epic) get-together was great fun. Thanx for having us.. Muchos gracious to Jessica Harley and Chris B. for the happenin' time at the Drown (Elektra) show last Tuesday. They rock! They rule! We love the record! We love the band! Enough said. 🕉 🕉 🕉 Peace.

Here we see our friend **Freeze Fresquez** of XBDT nestled between the members of **Drown**, who previous to this shot must have put on amazingly intense show for the locals! Pictured L-R are **Lauren Boquette** (you know, since there is a baseball strike, the D on his cap stands for Drown instead of Detroit. Really. Just ask him.), **Joseph Bishara**, Freeze, **Rob Nicholson**, and **Marco Forcone**.

Even though words can't really describe what **Lima**, **Poss** and **Smitty** were feeling as they gathered around Glen, a man sporting the latest in hip and trendy men's wear, the trio apparently were quite bummed they weren't the ones wearing the polyester.

Our first thought upon looking at this photo op was that there would be absolutely no way on earth we could ever do what **Brian Tilse** is doing with his mouth. Then we thought that **J.J**.'s facial contortions were just about as cool. Wow, to be in a picture with the plastic faced members of **Fight**! Those sharing a brew are KISS' **Jave Patterson**, his wife **Jennifer**, **Kelly Kaos** (KUTZ) and the other **J.J**. (KEYJ).

Considering it's been at least two months since we ran drunk McGathy photos we decided to bring you the latest installment of drunken debauchery. The head and shoulders seen in one state of inebriation or another are those of **Joanne Grand**, **Steve Prue**, a man named **Chainsaw**, **Leigh Taylor**, and **Lyle Chausse**.

This photo was taken at the same beer drinking gathering, where **Jave** and **Jennifer**, **J.J**. and other cool metal heads shared a some quality quiet time with Suicidal Tendencies' own Robert Trujillo and Jimmy DeGrasso.

This snapshot was apparently taken in the early part of the evening — everyone appears to be sober and standing on their own. Those who must have been waiting for the cocktail waitress to arrive are Hollywood's **Dyana Kass**, Columbia's **E.J.** Johantgen, CFOX's Lyle Chausse and his brother, Chad.

ada, All I Am, IRS There are very few bands whose material is as smart, melodic and wonderfully constructed as dada. <u>Puzzle</u>, their first record, was a deep record with musical chops that went way beyond the success of "Dizz Knee Land." And it's clear that, in the time between (the 300,000+ selling) <u>Puzzle</u> and their latest, <u>American Highway Flower</u>, the band's style has evolved nicely. The latest record retains the intelligent pop aura introduced in Puzzle, but here it's present-

ed with gritty elegance, resulting in a much darker, less glossy overall feel. The lead track, a crisply produced, lovingly biting song, in many ways serves as an accurate thumbnail of the band's overall picture, both lyrical and musical; sinuous guitars and melody lines combined with solid harmonies and a deft sense of humor. This is what dada is. Savor them. **WOXY's ever musically aware Julie Forman** agrees with us: "It's a great follow up to a fantastic release. It's been long awaited and will do very well for us."

**Grant Lee Buffalo, Mockingbirds** band's wonderful debut last year is truly a shame. But, it's definitely not too late to make good on recognizing the sheer genius this band possesses. Totally infused with warm, bright melodies, GLB's material is extremely visual and highly emotive, with an ability to stimulate your receptors in a way few artists can. In the year and a half since <u>Fuzzy</u>'s release, the band has

toured incessantly, including sharing bills with Sugar, Paul Westerberg and Pearl Jam, among others. And this road exposure has totally come out on record, as the songs possess a definite live feel. Grant Lee Phillips describes <u>Mighty Joe Moon</u> as "a creature of our own invention, who embodies the spirit of the band in his sheer defiance of law and reason," and says of the record, "it's like one long dream sequence." And an intense one at that. Added early at WHFS, KNDD, Q101, WOXY and WDST. KROQ (23 spins) and WXRT already on.

**I Phair, Super Nova, Matador/Atlantic** Talk about highly anticipated... We've all been waiting for this, and honestly, no hype is necessary. But then again, being the masters of hype-lessness that we are, you knew that was coming. Here are the facts: <u>Whip-smart</u> comes out on September 20th, she's on Letterman on the 29th, and the week after that she'll be gracing the cover of Rolling Stone. She's going to hit the road for a full month — her longest tour yet — from mid-October

to mid-November. She directed the video herself, and it's sure to be all over the place within a matter of days. The album retains all of the edginess we were introduced to on <u>Exile</u>, performed with assurance and a marked sense of style. What else would you expect? Sheer quality from one of the most relevant artists of the day.

**H** With their sixth album, this Aussie quartet nicely exhibits the concepts of dry, unpretentious pop that drives with energy and zeal. <u>Crank</u>, produced by Ed Stasium, moves briskly in its upbeat, direct delivery. "The Right Time" is intended to be a takeoff on the whole rock opera horror that happened in the late '70s, the song's setting being when the bike gang comes to terrorize the town. "A statement of intent" says vocalist Dave Faulkner.

This record marks their Praxis/Zoo recording debut (they've previously put records out domestically on A&M, Elektra and RCA). The Gurus have made a name for themselves over the last 10+ years among fans of all things pop, and they've showed nice diversity and evolution with each release. <u>Crank</u> could very well be the band's loudest, most live sounding record to date.

**Jabber jaw:** Good To The Last Drop. **Mammoth** A staple of the L.A. scene, Jabberjaw celebrates its fifth anniversary at the end of September. Here, in this Mammoth compilation, are many of the bands who have played/hung there paying homage to the coffeehouse so dear to their hearts. All of the tracks on the compilation are unreleased and unavailable anywhere else, including tracks by Teenage Fanclub, Beck, Hole, Helmet, Jawbox and some real cool indie

offerings from Girls Against Boys, Unwound and Hammerhead. Definitely something worth giving some attention to, as this makes a mighty nice purchase for your listeners.

**Nextension Constructed models Constructed mode** 

differing from the conceptual nature of the band's previous record. "I was overwhelmed by this record," says Jonathan L., "and for all of you who bring up Husker Du, Husker Du, Husker Du from the past (although you probably don't play any), do the sensible thing and play two of the core members at the same time. The Sugar is great, but don't pass over Grant's Nova Mob."

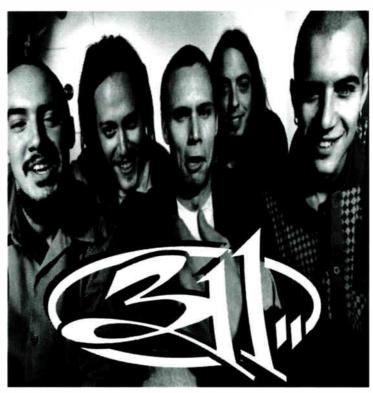

**Christa** The latest offering from the Church presents a novel concept to alternative radio — the release of two concurrent singles off an album. So you're given a choice of which track to hit, from a band that's got more than its share of fans. We've talked about the intricacy of <u>Sometime Anywhere</u>, a quality record that shines new light on the talents of the Kilbey/Wilson-Piper duo. For fans of the mellower, eerie side of the band, you

might lean toward 'Loveblind," while those with a fondness for the more upbeat, poppy side of the band will dig "Business Woman."

KNDD in Seattle recently held its Endfest, with a lineup that included 700 Miles, Dig, Sunny Day Real Estate, MC 900 Ft Jesus, House Of Pain, Afghan Whigs, Violent Femmes and James. Some fun facts about the festival included the local press quoting it as the "Alternative Festival" to Lollapalooza, Dig showing up late, due to the fact that they were strip-searched at the Canadian border, Gene Simmons played "Deuce" with Satchel, the crowd singing along to every song with the Violent Femmes, and the entire crowd sitting down in the pouring rain and ankle deep mud, as James was singing "Sit Down".

week's column, live from the Bud Tent - actually, not really, but we're This of the belief that a "Bud Tent" is more a state of mind than anything else. One of the most novel ideas to come about in the format in quite awhile is the on-air "Monday Morning Music Meeting Live" at KUKQ. It's a two-hour affair from 10AM to Noon every Monday, and it is the only meeting that will be conducted at the station. In other words, the music that goes on the radio station will be determined in that two hour pubic music meeting. Labelfolk and indies are allowed to promote their artists on the air to a panel Jonathan L., Larry Mac and Allison Strong. Plans are to include 3-5 label people per week, and that will be by appointment only. It will help if you're informational about the artist that you are promoting, as you are promoting to all of the Q's audience as well. Give Jonathan a call for more details... Epic has appointed Michael Beinhorn to the position of Staff Producer for the label, allowing him to showcase his creative talents in a extended capacity for the label. Beinhorn was a founding member of Material, and has an extensive production resume, including RHCP's Uplift Moto Party Plan and Mother's Milk, as well as Soul Asylum's Grave Dancer's Union ... And speaking of the Chilis, it's safe to say that those lucky enough to catch either of their NYC shows last week (both the Academy and Roseland) were absolutely blown away. Dave Navarro adds an entire-Iv new dimension to the band, as evidenced both in the new songs showcased and in his added guitar perspective in the older stuff. Cannot wait to hear this new record... KPOI announces plans to hold Hydrofest '94 which, at 250,000 people looks to be the hugest event this fall. Your band can play on centerstage for 90 minutes on Saturday or Sunday afternoon, October 15 or 16. The show will be held at Pearl Harbor Peninsula. the budget is \$2,000 per artist, with hotel rooms covered and sound system provided. To have your artist(s) included in this massive event, you should fax a rider and backline immediately to: (808) 524-3343... 311, in the wake of a gig for KTOZ and an in-store at a local record store, enjoyed an almost 600% jump in sales, from 28 pieces to 162. What does this tell you? Ask John Lenac if you can't figure it out... Q101 held a contest to give a local band the opportunity to be the opening band for Woodstock '94. Unsigned bands were asked to send tapes and CD's to Q101 where they were judged. Five of the bands were chosen to compete at a Chicago niteclub before a panel of judges. The winning band received a trip to Woodstock and also went on to the finals where they were judged along with the winner's of other cities. The winner of the finals was the opening band for Woodstock '94... Live's Throwing Copper has just been certified Gold ... Black Train Jack's "Handouts", which features the cycling talents of Puck Rainey from MTV's The Real World, is drawing quite a bit of attention this week. MTV's Week In Rock will run a piece on the video throughout the end of the week... KROQ's Kevin and Bean will take their morning show to New York City in September for a week's worth of broadcasts. In addition to their morning show, Kevin & Bean will host a series of backstage

reports from the MTV Video Music Awards which will be heard on dozens of Alternative radio stations across the country... Check out the amazing new video for Boingo's "Insanity," which features the claymation techniques a la the Tool videos ... Prime morning show material can be found on Sandra Bernhard's new record Excuses For bad Behavior, Part Check out "Manic Superstar" and a very cool offering of "Sympathy For the Devil." She's going to be all over national TV over the next couple of weeks, and the public is very likely to catch a case of Bernhard-mania... American Recordings has expanded even deeper into cyberspace, having become the first major to have a fully developed site on the Internet. In July the company went on-line with its own Internet address - http://american recordings.com - using Mosiac software which gives Internet users far greater capability to retrieve information, construct layouts, and participate in the communications revolution sparked by the World Wide Web. Internet users can access files on the label's artists. Audio and video clips, as well as artist photos, biographies, press releases, tour dates, and other information, are now available for viewing and downloading on the American Internet address... **Soundgarden** have canceled a European tour that was to have begun August 25 because **Chris Cornell** has strained his vocal cords. The band hopes to re-schedule the dates before the end of the year.

Baby Animals lead singer Suze DeMarchi is marrying Extreme lead guitarist Nuno Bettencourt on an island off Portugal on August 27. A small group of family and friends will be invited to the ceremony. DeMarchi and Bettencourt met about two years ago. Pre-production for a third Baby Animals album should begin by the end of this year.

Drummer **Dave Abbruzzese** is leaving **Pearl Jam** after two years with the band. His departure is described as "amicable," but no reason has been given for Abbruzzese's departure.

A live album from **Nirvana** will be released in November, called "Verse Chorus Verse." It will include the band's MTV "Unplugged" appearance as well as two songs from the session that were not included in the television broadcast — "Something In The Way" and "Oh Me." Drummer **Dave Grohi** and bass player **Krist Novoselic** are putting together the posthumous album, which will include about 30 songs. "Verse Chorus Verse" was a working title for the "In Utero" album.

The **Black Crowes** will appear on "Late Show With David Letterman" on August 30. Letterman invited the group after learning they were in New York rehearsing for an upcoming world tour in support of the "Amorica" album coming out at the beginning of November.

The **Beach Boys** may go back into the studio with **Brian Wilson**. Producer **Don Was**, who's just finished work on the **Rolling Stones** album, is apparently interested in working with the Beach Boys and Wilson. Preliminary discussions are said to be doing well. If there is a record, it would be the first in over a decade from the Beach Boys.

Ray Charles and James Brown have helped to save a piece of Japanese history, by playing at a concert at a historic castle in Japan. The show also featured Dionne Warwick, Rick Wakeman and Boy George. Proceeds from the show will go to the recognized historic site and UNESCO, to protect other sites.

Jesse James Dupree asked Jackyl's record company to change the cover of the new album "Push Comes To Show," after it had shortened Dupree's mustache. Apparently someone at the label had overreacted when an executive said the mustache "had to go." "Jackyl are the kings of politically incorrect, and we're not about to let nobody start messing with us now," Dupree says.

**Robert Palmer** says he's excited about the upcoming **Power Station** album, which will include 12 songs. "It makes the first record look like amateur hour," Palmer says. "This record is scorching. There's just so much water gone under the bridge and the players have improved so much. When we were writing and rehearsing for the new Power Station, it occurred to me that I hadn't done that since I was a teenager — just getting up and throwing ideas around." Several artists say their art was stolen while on display at the Woodstock festival. Pieces by Milan Kunc and Scott Covert were among those being displayed between the entrance gates to the concert. The works were eventually to be auctioned to raise funds for environmental groups. Kunc says it couldn't have been easy to steal his painting, since it was 8-feet by 16-feet.

David Letterman now admits he wish he'd kicked **Madonna** off his show when she started swearing. "I was not pleased with how I handled that," Letterman told TV Guide magazine. "It deteriorated right from the top. I probably should have saved her from herself. The second time she cursed, I should have just said, 'OK, if you do that again, you're going to have to leave,' and then told her to hit the road." Letterman says he originally planned to play video clips of jokes he'd made about the singer. "It would have been great. I would have been happy to apologise, or make more jokes," he says. "Maybe I was intimidated because she's such a big star."

The Eurowoodstock festival in Budapest, Hungary, attracted less than half as many people as had been expected. A British judge has rejected a complaint by four people who wanted a refund and damages because they couldn't see the **Cure** at a concert in Birmingham, England, in late 1992. The four say say the speaker system was stacked in such a way that they could only see two members of the band, even though they'd paid the maximum price for second-row seats. The judge ruled against the four because they waited until the next day to complain instead of complaining on the night of the show. It may not be possible to clean up the garbage left over from Woodstock '94 until mid-September, because continued heavy rains have kept the field in a muddy state. "The waste is pretty well mixed with the mud and it's starting to smell," says Charles Shaw, director of the Ulster County Resource Recovery Agency. Shaw says 500 tons of trash have been cleaned up from peripheral areas, but the concert site itself remains essentially untouched. An effort to recover 25 percent of the plastic, cardboard and glass used during the concert was unsuccessful. "Everything's been contaminated with soil and unless they're washed by hand it's not accepted by any recycling center," Shaw says.

Carl Wilson and the mother of the Beach Boys' Brian Wilson have sued the publisher of Brian's 1991 autobiography and Dr. Eugene Landy for over \$15 million. The lawsuit, filed in Concord, New Hampshire, claims Landy "collaborated extensively in the authorship of the book, and, in doing so, altered and manipulated sources," Audree Wilson says she is falsely portrayed in the book as an alcoholic, an unfit mother and an emotional cripple, while Carl Wilson is described as an emotionally troubled alcoholic, a drug dealer and a manipulator who deceptively gained control of Brian's money. Audree Wilson is asking for more than \$10 million for damage to his reputation and lost income.

The judge in the Dominican Public who married the couple says he was unaware at the time that Presley had gotten divorced just a few minutes before the ceremony. **Suede** have spoken publicly for the first time about their forthcoming single, "We Are The Pigs," released by Nude Records on September 12th. Speaking to **Jo Whiley** of BBC Radio One's Evening Session, frontman **Brett Anderson** said: "It's an uprising song, about rebellion and guilt, and all those things that everyone feels in England. It points to underprivileged people crushing the skulls of the fidgety middle-classes." Suede have also revealed that their new album, scheduled for release on October 10th, will be tilled <u>Dog. Man. Star</u> and will be the band's first double LP. An announcement regarding the replacement for Suede's former guitarist **Bernard Butler** is expected soon. Unfortunately, they (The hotel management) tried to close it after a while, and an argument ensued. "The new Oasis single, meanwhile, is widely tipped to be "Cigarettes And Alcohol", taken from the debut album.

The new **REM** single, "What's The Frequency, Kenneth?," received a world exclusive play this week on BBC Radio One's Evening Session. A spokesperson for the band's record label, Geffen, told the New Musical Express: "Department heads have heard most of the tracks but not a full album's worth." The NME also reports that bookmakers are now believed to be accepting bets on which year, rather than which month, the record will eventually surface.

A fter two years in the wilderness, **Kitchens Of Distinction** have announced details of their fourth album, to be released on October 3rd by One Little Indian Records, the UK label responsible for **Bjork** and **The Shamen**. Rumors that Brix Smith, former guitarist with The Fall, was about to join Hole, were proved to be unfounded when Melissa Auf Der Maur, a 22 year old Canadian, was announced as the band's replacement for Kristin Pfaff. The former bassist with Tinker made her debut appearance with Hole at a secret London gig last week, prior to the band's Reading Festival show, and was reportedly recommended to Courtney Love by the Smashing Pumpkins' Billy Corgan. In a further twist, Brix Smith performed last week with

**Corgan**. In a further twist, Brix Smith performed last week with The Fall at their show in Edinburgh, Scotland. The band's label, Permanent/Cog Sinister, refused to speculate whether Brix was back for good or not, but a spokeswoman for the band told Melody Maker: "Brix and Mark (her ex-husband) are still great friends and she might join them from time to time. They're touring America soon, and Brix will probably play at least a few dates on the tour." Brix Smith had previously left The Fall after her marriage to vocalist **Mark E. Smith** broke up in 1989. Meanwhile, the band's Edinburgh show marred with violence, after Mark E. Smith allegedly jumped off stage, ploughed through the audience and attacked sound engineer Rex Sergeant. The band's spokeswoman told Melody Maker: "It was just a friendly skirmish between very old friends."

Former Wildhearts guitarist CJ has spoken to the Melody Maker about his recording project with Willie Dowling, who played keyboards on the band's albums. The name and line-up of the new band have not yet been confirmed, but CJ told the Melody Maker: "We've been writing together for a month and a half, and we're recording four tracks which will hopefully be out on an EP in October. It's very punky but from a Beatles sort of approach, lots of really nice harmonies but the guitars are aggressive. It's music for mature people with a teenage sprinkling on the top of it." Willie Dowling makes his final appearance with the Wildhearts at the band's Reading Festival show. **Soundgarden** have been forced to cancel all their European dates, including their scheduled appearance at the Reading Festival, after vocalist **Chris Cornell** was advised by doctors to rest his voice. The complaint, likened to that of Repetitive Strain Syndrome, can be treated by requires complete rest from singing. In a statement reported by Melody Maker, Chris Cornell said: "Our fans deserve the best show I can give, and I wouldn't any of them to be disappointed with the performance." No details of replacement shows have yet been announced.

A spokeswoman for the band the New Musical Express: "We aim to alert the

public to the danger of this new law which will, among other things, remove their right to peaceful protest." It is the latest in a series of protests which included a 100,000-strong march in London during July. "The Bill will destroy and restrict many rights of ravers, clubbers, the homeless, travellers and protest groups," added the NME.

n an article conceived of first-hand experiences, and entitled "Summer Of Our Discontent," the Melody Maker had criticised the organization behind the recent Woodstock '94 Festival. The paper's Andrew Mueller, who attended the festival, complained of inflated food prices, no provisions being made for the event of rain, the ban on alcohol consumption, the inaccessibility of the site, and the over-spillage of toilets on the final day. In a lengthy criticism, Muller wrote: "There would have been a riot if it had happened at Glastonbury. The whole atmosphere was like somebody decided last week, 'Why don't we put on a rock festival?'. People kept getting up onstage, telling us we were making history and how beautiful it all was. In reality, it was a bunch of people sitting in a paddock at a rock n' roll gig. But this was an incredibly good-natured and patient crowd, and the whole thing was absolutely a success with the punters." In a further development, Jeff Buckley has also criticised the event. Speaking to the Melody Maker, he said: "It's a media marketing smokescreen. It ain't about us, it's about them. I think the equivalent to Woodstock happened in basements in DC and New York and Los Angeles - punk parties where Black Flag played or Soul Asylum came in by a truck."

The highly acclaimed Dublin band **Sack** release their debut LP for Lemon Records this week. You Are What You Eat was produced by **Paul Noble**, and features all the band's singles to date: "What Did The Romans Ever Do For Us?," "Indian Rope Trick" and "In Absentia." kicks butt! Speaking of metal radio, if any radio reps need my new and improved office hours for the Fall, you will be able to reach me at 609-863-9457 on Mondays and Tuesdays from 3:30 - 5:00 beginning September 6. #### DUG, WPUP, ATHENS

Hiya. Friday night I got trapped in the middle of a vicious mood swing. Couldn't decide whether I was hysterically happy or suidicidally depressed. I spent the whole night feeling like fingernails were dragging down a chalkboard in the back of my head. When I was a kid my mother called them running fits. I've learned how not to run, but the blind panic still hits. If full moon hit me this hard, I'm not really sure that I wanna be around for a new moon... In '91 we took a flier on a new band named Single Gun Theory. We got top requests on our night time show, and decided to try it on the daytime CHR. Nowadays that is standard procedure (hell, we just decided to cross Weezer over...), but then it was a BIG deal. It worked incredibly well while the sun was up. The only other place that it did that well was some silly station in Atlanta that added it about three weeks later ... somplace called Power 99...seems like a year later they changed their name...wonder where they got the idea? Oh, well. The band did so well then that I'm adding the new song and telling everyone to do the same. Rant over... The chair I'm sitting in just did some strange "sproining" thing. You know, that frightens me ... I've been taking the long road home recently, down Lexington HWY. That means I pass the place where the old **REM** church used to be. Everyone seems to know that they lived there in the old days, before they became capitalized. They describe the place as a wreck that only stupid young people would have lived in. In '89 I lived behind it in a house that fit the same description. I got very used to things crawling over me when I slept, and the windows wouldn't close even in winter. I had a great view of the back of the church and the VW van sized hole in the roof. I also was awakened every morning at 6:45 when the THE HARD REPORT

work crews tore it down. It sounded very sad, hearing one of the oldest churches in the entire region die. The developers said they would incorporate the steeple into whatever they built. They didn't. It just stands there now like a great big red-brick phallus ramming into the sky. I'm going to go away now. I need to pack or something... Oh, I was wrong. Last week was actually the 12 month anniversary of the day I added "Bloom" from the **Gigolo Aunts**. Like anyone cares... I asked callers to cheer me up last night because I was depressed and lonely. They kept calling and hanging up for the rest of the night...

CHRIS WOLTMAN, COLUMBIA RECORDS Pink Floyd's "High Hopes" is truly exploding as it closes out everywhere...WMMR, WTFX, KSHE, WUFX and many more. The feedback is that this track performs all the way through from the first to the last note. The rotations are starting to increase, 33 to 24 BDS. and the requests are starting to pick up... Stabbing Westward's "Lies" is off to a very solid start this week with airplay starting out at KRRK, KEZE, WVRK, KWTO, WZAT and more. We are also getting some spins in Milwaukee, Charleston, SC, San Antonio and more as we build upon the foundation that we have laid with Stabbing's first track. As I've said before, this band rocks really hard as those of you who have seen them live already know... Give a listen to Toad the Wet Sprocket's "Something's Always Wrong"...going for official airplay September 6th, it's the perfect second track to follow up "Fall Down."... Make sure that you listen to White Zombie's "Children of the Grave" off of the Black Sabbath tribute record... Also, you have heard the talk about Corrosion of Conformity...I saw these guys play a few songs live the other day...they've got it all is all that I can say. Get ready for this release in October!.. That's it for now.

**Dave Lombardi, Warner Bros. Records** Something really funny happened here this week. It was hilarious, and boy, were we rolling! It seems some people out there at rock radio (people you know) were under the impression that the **gods child** record was over, that it had peaked. What a hoot! Now, if you've been paying attention (and, thankfully, some of you have), you know that we've got a great story developing with "everybodys 1": over 1000 spins reported in the trades, a 39-33\* move in the <u>Monitor</u>, yet another double digit add week, a wonderful (and growing) alternative picture, and a sales scene

that has seen our orders more than double in the last 10 days. Not happening? Duh! Wake up or try some other excuse, that's what we say. Seriously, we've heard comments like that in the past, regarding another project that developed remarkably similarly to gods child... Ironically, we're still getting adds on that record, as people figure it's been so long since they told us **Candlebox** wasn't going to happen that we've probably forgotten they said it. We haven't. By the way, on Monday 8/22, 118,000 Candlebox albums were ordered, so we're a couple weeks from double platinum. Of course, we can't guarantee identical results with gods child, but we can tell you we've seen these patterns before. And when the band hits the road, look out... We're goin' for a ride, folks, and our bus will fit all of you, so get on! I'm on, but I'm out.

DIANE GENTILE, ARISTA RECORDS

Motorhead with Ice-T and Whitfield... Top 20 Cor/Roar Radio, #14 Top Soundtracks chart (sales), and #2 most requested at KRZR!! If you want the track to work, it will, but you've got to spin it more than 5 times a week. Many programmers playing "Born To Raise Hell" more than 10 times a week are telling me this track is completely accessible for mainstream listeners. Strong rotations at: KBPI, KILO, WAXQ, KLOL, WKDF, KBER, WKLQ, KRZR, KSHE, KZRR, WUFX, WHTF... White Zombie is now #1 track at metal radio. If you looked at Metal Radio charts, you'd see that many of today's mainstream AOR bands that are pounded on your AOR began with airplay at that format (i.e. Soundgarden). So here's where White Zombie has now crossed onto: WAAF. KISW. KIBZ, Z-Rock National, KZRX, KRAD, KNAC, WBTZ. The track is "Feed The Gods" - and if you played "Thunder Kiss 65" I urge you to consider "Feed The Gods" for airplay. There are 250 units a week moving in Detroit off of Z-Rock airplay on this track. Reactive? Definitely. Please bring This Picture "Heart of Another Man" into your music meeting ... Was privileged to see Bloodline last night ... Wow!.. Prediction: Sarah McLachlan's Fumbling Toward Ecstasy will go platinum. Have you heard "Good Enough" yet?.. How about Nine Inch Nails at Woodstock? Awesome.

#### MARK FISCHER, ATLANTIC RECORDS, 212-275-2085

By now, many of you have enjoyed the success of bands like Green Day and Offspring on your station. These records are highly requested and are selling at a staggering rate. Hence the reason you should pay attention to what your local Atlantic person is bringing in to you. The band? Bad Religion. The Record? Stranger Than Fiction. Bad Religion is the band whose sound has captivated PDs, MDs and fans alike through the awesome display of support for Green Day and Offspring. Be asking about this record. And while you're at it, watch MTV, because they're playing it. The band? Bad Religion! The record? Stranger Then Fiction! The add date, the Tuesday after Labor Day (9/6)! Why? Because you care about your listeners!... What band is getting requested at WXTB, WBZX, KEGL and was also just added at KJSO and WUFX, you ask? Savatage, "Handful of Rain!" If you haven't bothered to pay attention, 6,106 of your fans just went out and bought the record this week. Shame on you!... What band has been on the road with Collective Soul since April, and have been seen by many of your listeners? The Hatters! "Sacrifice" is the track that my good friend Dale Miller/KATP tells me is the reaction, hook driven record this band is needing. Perhaps The Hatters, warrant a look at the hook by you... Until next week, keep your feet on the ground and keep reaching for an Atlantic Record.

#### WAYNE PIGHINI, ATLANTIC RECORDS, 212-275-2112

It's Wednesday morning and I just got back from New Haven a few hours ago. Why were you in New Haven you ask? Well, this little band we have called Stone Temple Pilots played New Haven Coliseum. The sold out crowd went bananas as they mixed the set with both old and new songs. Jones Beach tomorrow and yes, that too is sold out... Jerky Boys 2...How about debuting at #12 SoundScan!! That, my friends, is out of control!.. Samiam with a most impressive performance in its first week. Markets doing the deed include New York, Phoenix, and Denver. Anyone not vet in tune with Clumsy is an obvious musical illiterate... Sales on Hootie and the Blowfish have increased for the third week in a row. The record has moved over 50,000 SoundScan and don't expect that to cool down any time soon... Bad Religion is right around the bend. Release date is less than two weeks away! In the back of your minds you all know how huge this record will be, so stop pretending it won't ... The **Overkill** tour is underway and all attending have walked away happy. Oh, by the way, W.F.O. continues to see support at the counter... Heimet live...'Nuff said

Check it out - coming in September - a four song EP from Martin Newell and Andy Patridge... Right now - The Uptown Horns - are happening! They performed at The Bottom Line in Manhattan and the place was packed. Bernard Fowler had one night off from the Rolling Stones tour - he decided to come and jam with The Horns! He performed "Imaginary People" and "Open The Door To Your Heart." He herded the audience together with his slick crooning vocals. He jumped on a table and strutted down it. The crowd roared. Peter Wolf (J. Giels Band) and Vernon Reid (Living Colour) performed the tune "Trust Me". A total R&B bonanza that deserves recognition ... Thanks to the following Adult stations: KBCO, WXZL, WKZE, WNCW, KRCL, KFMG. KFAN. KAOI. KKRV. KMTN. KSPN. WERX. WKVT, and WVAY. You guys know what's good! ΧΟΧΟΧΟΧΟ.

#### DAVE MAC, GUITAR RECORDINGS, 914-935-5241

Wes Nessman of KFMX says, "Nothing gets more phones for us than the new Buck Dharma!" Ian Taylor of WKVT says "I have gotten more phones on Buck Dharma than on most things in the past 6 months!" The Buck Oharma that they're talking about is on Guitar's Practicing Musicians. Volume 3. The record with the most smoked quitar on the cover. The record is getting air at KNAC, WIYY, WTTS, WDRK, WAPQ, WMTE, KDUX, WRFD, WABT and 30 others, with upward rotations. Be careful - if you mistakenly shuffled this CD into the production room, you could be missing out on some great reaction music for your audience. Pride and Glory are doing a raucous version of Black Sabbath's "The Wizard" on this record, as well as attention-grabbing cuts from John Christ (Danzig), Alex Skolnick (Savatage) and others. These are opportunities to energize your attitude, without the mess of breaking a new artist. If you're already playing rock and roll from these bands mentioned above, it makes too much sense to highlight this work produced by members of those bands. If you're playing "Don't Fear The Reaper," slip in our version... Oh, by the way, Doug Podell and Steve Young are "Overworked and Underpaid." Are you? SHERI SINCLAIR, ENERGY RADIO,

If you have not seen Natural Born Killers yet, you're high! The montage of characters, visuals and music is fuck'n unbelievable. This beats Reservoir Dogs, and that movie is my all time favorite!.. Anyway, Machine Head is shooting up the charts - go look right now! See, I told you this band will be big. Everyone is telling me that as soon as they spin "Davidian" over the air, phones are ringing off the hook. Their tour so far is going great, and thank you to those who did interviews with them... They will be playing Foundations, and Robb Flynn (singer) will be on the artist panel... Finally, everyone has the full **Obituary**. Sorry to those who didn't get it in time for the add date, but the mailman got caught in the rain. But now you may go full effect on this brutal record. If you need giveaways just call me... Madball will be back the first week in September for a club tour, I'll keep you updated. You know since the tracks on the Madball record are really short, please be my guest and play two or three songs in a row. I will be setting up phoners and interviews at shows... Buzzov-en are definitely appealing to a lot more people in radioland. Mr. Mike Depippa (WSOU) - I'm going to pull you by your little pony tail and make you experience Buzzoven live!.. #### CHERYL ZARLOW, ROTTEN RECORDS, 909-624-2332

We just completed a tour de'Louisiana in record time (thirty-six hours to be exact). Did I say record? Oh yeah, the reason for goin' in the first place was **Acid Bath's** debut record release party. The French Quarter was a must as well. Plenty o' alcohol, voodoo shops and weirdos (my kinda place). Anyway, them cajuns were ragin! Devoted locals got a sneak preview of the video "Toubabo Koomi" and thoroughly dug it. Despite acquired bruises from the slamfest and a few hangovers, the Mardi Gras (of sorts) was a complete success. Look for them live in Texas from Sept. 8th through Sept. 13th and in California from Sept. 15th through Sept. 30th... More dates in more areas will follow. By the way, they'll be with **DRI** on four of the above mentioned dates. Peace bewitch ya!

#### Jім, Alert, 800-772-7640

What a pleasure it is to be participating in the lively forum of manufactured facts and stunning innuendo known in the biz-ness as trade comments. This time we find ourselves focusing the Alert propaganda spotlight on the irrepressible **Kim Mitchell**. "Itch" is the latest release, and yes Virginia - it rocks. And radio agrees. We've got 35 votes of confidence from fine upstanding program directors across this great nation so far and more to come - I'm sure. All of your major retailers are on it. The entire catalog kicks in with each new release, so recurrents ("Go For Soda," "Battlescar") are always appropriate, and we've got the tour bus off the cinder blocks and are set to start rolling now - so watch for dates... That's it for now so nice to see you all again - blah, blah, blah - you're welcome.

DENNIS CONSTANTINE & JASON PARKER, CONSTANTINE CONSULTING, 303-440-5470 With the addition of Mimi Chen to the 7-midnight slot. the FM 101.9 airstaff is now complete. Mimi has been in the business for over a decade with stints at WMMR, KSAN, KRWR, and KSOL, in addition to having hosted a video show in the SF bay area. She brings her enthusiasm for and knowledge of the music to the hot LA nights. We are all happy to welcome Mimi to Southern California's Album Alternative. She will start in two weeks ... I've just returned from a week in LA listening to FM 101.9. It's a wonderful sounding radio station! Mike, Merilee and the crew have been working hard to bring Los Angeles a different sounding radio station. This station is evoking emotional responses in people, as we witnessed in last week's Hard Report when Jeff Pollack let everyone know his emotions about FM 101.9. I have a lot of respect for what Jeff has accomplished in the radio industry. What we are doing in Los Angeles is a break from many of the old radio sensibilities. That's what makes it stand out in the crowd of the 80 radio stations there. We believe in what we are doing, and we hope our listeners will enjoy the station!.. There's much to be discussed on the music front, so here goes: Adios Amigos: A Tribute To Arthur Alexander (Razor & Tie) clearly stands out as one of the best tribute albums of the year. With cuts from such format regulars as Elvis Costello, Robert Plant, Graham Parker, Roger McGuinn and others, you'll have a hard time picking a few for airplay... We now have 13 wonderful new tracks from Dada on American Highway Flower (IRS). "Ask The Dust" is classic Dada, building in intensity thoroughout. "Feet To The Sun" is more moody, and not quite as heavy on the guitar. The vocals on "8 Track Mind" sound somewhat grungy, kind of a cross between Alice In Chains and The Beatles. "I" is very reminiscent of "Dorina" from the first album, with its jangly guitar and falsetto vocal patterns... Stoned & Dethroned (American), the full-length from The Jesus & Mary Chain arrived this week. In addition to the single, adult leaning tracks include "Come On", "Between Us" and "She"... Walter Becker returns with an album called 11 Traces Of Whack on Giant (produced by Donald Fagen). Steely Dan fans rejoice! Sounding very much like you might expect, Becker combines smooth pop, jazz, and intelligent, adult lyrics on such tracks as "Down At The Bottom" and "Lucky Henry"... The Samples are back with Autopilot (W.A.R.?) and the track "Water Rush". It has the signature vocal harmonies of Sean Kelly, punctuated by power chords and cymbal crashes. With a fuller, rawer sound, they are set to take the format by storm ... It seems like Fuzzy was on the charts just a few weeks ago, and now we have Mighty Joe Moon (Slash/Reprise) from Grant Lee Buffalo. The single is called "Mockingbirds" and sounds very similar to the last effort. Falsetto vocals, a dark chord progression and "fuzzy" guitar make this instantly recognizable to anyone familiar with the last hit... David Broza is back with his sophomore release Second

the first single, and sounds perfect for AAA radio. It has a great hook, and is rhythmic and compelling ... Rise And Shine is the latest from Aswad (Mesa/Bluemoon) and continues the band's tradition of uplifting, upbeat reggae. "2 Makes 1" is a great place to start, as it epitomizes the Aswad sound. "World Of Confusion" is a smooth tune with a socially conscious message. Also try "Pickin Up", with its great horn line, and "Lay My Troubles Down", which brings UB40 to mind... Sinead O' Connor - didn't she give up on the music business and recording? Apparently not, as she is back with a new album called Universal Mother (Chyrsalis/EMI). The lead track "Fire On Babylon" is a vehicle for Sinead's voice. Set on top of a monotonous drum and bass line, her voice positively leaps out of the speakers. Try this one out on maximum volume... You will soon be receiving Scenes From My Last Confession (RCA) from Dillon O'Brian. a session man from my home town, Baltimore. Tracks like "Roots And Wings" and "Catholic Boys" are full of hooks and have that familiar sound. We're also partial to the slower strains of "Angel Of Mercy", "Two Friends" and "They Analytical Mind"... Buckshot LeFongue is the name of

Branford Marsalis' new funk/hip-hop band. Check out the track "Some Cow Fongue (More Tea, Victor?) This is some fonguey music... If "Long Way Home" is any indication, J.J. Cale's new album Closer To You (Virgin) is right in the pocket. The lead track is vintage Cale, with its driving beat and understated guitar and vocal. Clapton has tried it, Edmunds has tried it, but Cale is the true master. The bonus tracks keep coming. Arista has shipped a four-track EP from This Picture, with acoustic versions of the standouts from City Of Sin... High Street is working a new Subdudes track, and included on the CD Pro are alternate versions of some album tracks and live cuts, including songs recorded at KBCO and KGSR... Also from Arista comes Sarah McLachlin Live, with four live takes of songs from Fumbling Towards Ecstasy... And last but not least, RCA gives us four live tunes from Matraca Berg on the "Guns In My Head" single. Have fun with these, and labels, keep 'em going.

#### MUNSEY RICCI & JOHN LAROSA, SKATEBOARD MARKETING LTD., 516-328-1103

So John is on vacation and I'm in Los Angeles. There is a telephone number on my voice mail where I can be reached. For all the CMJ stations John has, give me a call till he gets back ... So yo, the new Demolition Hammer titled Time Bomb is in your face, add it this week. Don't ask questions about it. they're relentless ... The full length Peter Criss is also on your desk. There is a lot of great tracks on the record, check it out... Body Count is back, the medley hit last week and it's fuckin' relentless. The full album will be on your desk in about three weeks ... Don't miss the boat on the Treacherous Human Underdogs, the record was produced by Melvin Gibbs from the Rollins Band. It hits hard, so dig on it ... Wicked Maraya will be hitting the road this week, the 31st that is. We have tickets and giveaways ... By the way, they're heading out with Cyclone Temple... Gilby Clarke started his U.S.

tour on the 23rd. Give us a call for tickets... **Dangerous Toys** are on the road and in your face. The next single is "Hard Luck Champion." Check it out... I guess I didn't mention Woodstock in last weeks' comments. Well if you didn't go, there was not much missed. The bands were cool, but the whole pain in the ass to get anywhere in the mud was the pits. Well that's my thought on it... Till next week, Cya.
