#### Pearl Jam, "Spin The Black Circle" b/w "Tremor Christ", Epic

Big Balls. That's what it took to advance the album with these two cuts. Hey, maybe it's God's way of saying "A Conspiracy" from the Crowes wasn't such a radical lead track after all. Many may squawk, but most will play ---- and given this act's knack for knowing what's up around the bend, who knows? Speaking of 'Spin', Ron Valeri analyzes, "It's another 'Go', a song that none of us were that crazy about. But it's a good enough song from a great artist and I'm certainly not worried about it. And it's going to test for us, too. Maybe not like 'Jeremy', 'Black' or 'Dissident', but it will make the cut in my auditorium testing". Then there's WRDU's Tom Guild and "I find 'Spin' just a little too rough for our air, but I think 'Tremor...' is excellent. It's driving, it's melodic and it's everything I like about Pearl Jam"... Or, as WHEB's Scott Laudani put it, "It seems to have come a bit too early in my opinion. I don't know if they're a song factory or what. Certainly not your normal, basic, radio friendly, let's get lots of airplay and sell lots of records type song. But they do come across as quite confident and powerful".

# HARD ACTS TO FOLLOW

### Page and Plant, "Unledded", Atlantic

With "Gallows Pole" locked into the #2 slot and "Nobody's Fault" up 81-72\* — and Atlantic shipping close to two (count 'em) million albums, guess it's time to go looking for another track or two. And it's easy to find the two best ones, both conveniently located at the end 'o the disc. That would be 'Four Sticks' and 'Kashmir', though the three new tracks merit some sort of spike/accent play of course. Say you're leaning a bit mo' modern these days? Fear not, sez Carey Curelop, "They're fine 18-34 because of the legendary status of the band. There are definitely some heritage acts like the Talking Heads and Van Halen who fit nicely with what we're doing, and Page and Plant are working well here".

#### Melissa Etheridge, "I'm The Only One", A&M

The 28 track double cassette has been sitting on my desk for about two weeks now, and honestly, I agree with Marty Bender. This is the sort of live option stuff that should only arrive on CD so you can get in and out without dedicating your whole day to the damn thing. Trivial bitching aside, how nice of the record company to single out Melissa. As noted by KUFO's Dave (not that he'll play the track) Numme, despite her achievements to date, Melissa is indeed primed to ascent to the next superstar tier, whatever that may be for this quadruple platinum selling artist. Here's this week's Dave Rossi quote: "I watched every minute of the pay per view and her's was one of the best performances, along with the Nine Inch Nails and the Allman Brothers, who somehow didn't make the cut for the album. Her strength is in her live performances and the way she handled herself in front of so many people is just a reminder of what a major star she really is" ... Finally, from Austin Keyes at WRXK, "She's an artist of intense stature, one poised on the brink of superstardom. Yet, somehow, that fact stays somehow hidden from us in the industry who are supposed to know how truly areat she is.

### Flaming Lips, "She Don't Use Jelly", WB

Remember how fast Weezer took off? Say hello to the another record we think packs just as much goofy appeal, though far more quirky than 'Undone'. The video is stupidly endearing, and totally psychedelic, but as per the #2 requests with very minimal play at Chicago's Q101. the song itself is totally entertaining in its own right. True, there's an element of acquired taste here, but we dare you to watch/listen more than a couple of times without these guys worming their way into your brain. Plus, they're currently out on the road with Candlebox and that spells serious street validation.

# MORE ... HARD ACTS TO FOLLOW

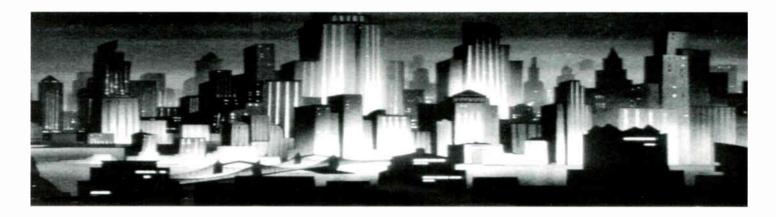

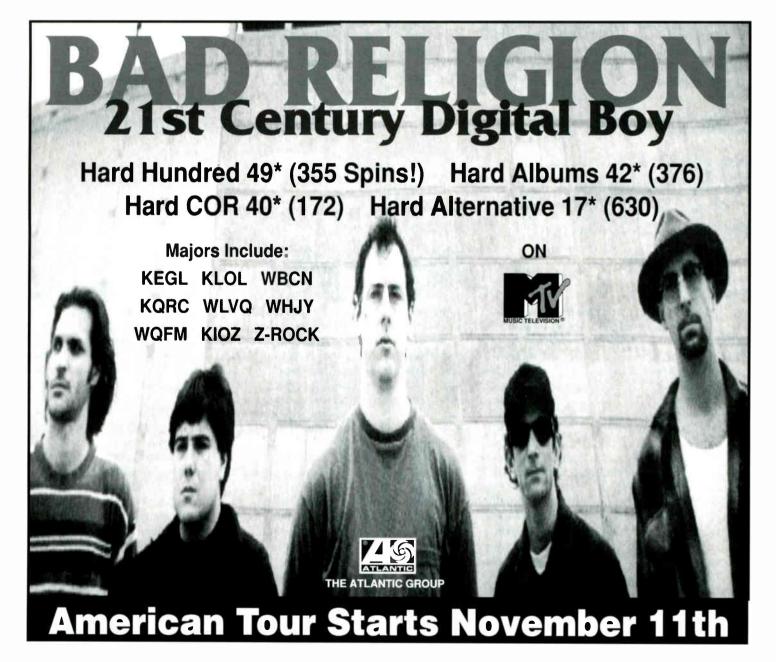

**Samiam, "Capsized", Atlantic** Months ago, Michael Linehan and I were talking about Green Day "blowing the Bay Area scene wide open" if the band happened. Now that we know "A", can "B" be far behind? Not if these NoCal favorites and Atlantic get their way. Samiam are legitimate contenders for hottest indie band honors (once removed by now, of course) and their street credentials most recently include touring with Interscope's Toadies and Bad Religion starting next week. More melodic than you might think from their pavement pedigree, "Capsized" sounds to us like custom made COR/Mainstream crossover stuff. Just remember what a catchy chorus did for Offspring, who by the way, sport a "Samiam" t-shirt in their nromo fotos

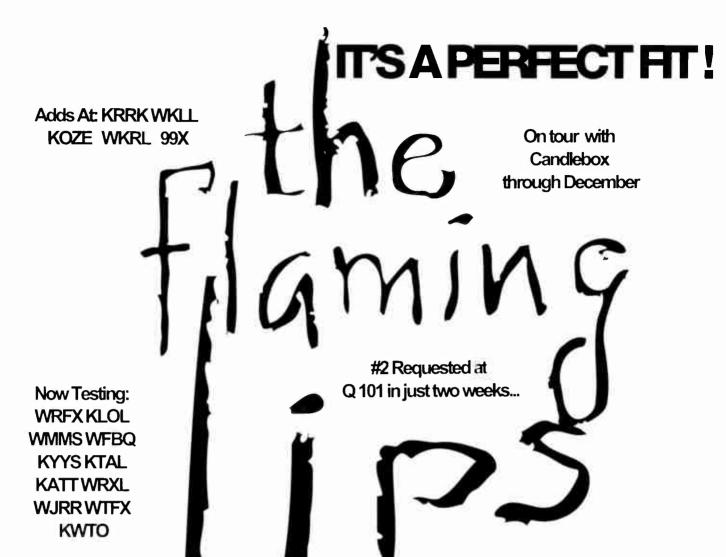

#### Guns N' Roses, "Sympathy For The Devil", Geffen

Big Balls part II. And the jury's definitely out on this one. The "why a remake so soon after 'Spaghetti Western" complaint seems the norm, but we did pick up positives on the quality of the performance itself. Dave Numme had one. "It's a little pushy but it's pretty cool. I think AxI sings like Jim Carroll on the vocals. They have fun with it and I think the audience will dig hearing it." This neat twist from Greg Stevens at KIOZ, "An easy song for us to play since we don't play the older Stones stuff. In fact, we haven't played the original in five years. When we played it yesterday for the first time, we did get calls about all the GN'R covers, but AxI's voice does give it an updated feel"... Or, as Marty Bender put it, "It's not overbearing like everything from 'Illusions', where everything was too loud or too long. We're OK with it, and we're not even anticipating a problem with dayparting"

#### WARNER MUSIC ELEVATES FOUR KEY EXECS

Danny Goldberg

On the heels of last week's announcement that Lenny Waronker had turned down the Warner Bros. Chairman/CEO position, the Warner Music Group appointed Atlantic Records President Danny Goldberg to fill the post when Mo Ostin officially steps down at the end of the year. Doug Morris, who has been elevated from Warner Music-U.S. President/COO to Chairman/CEO, commented, "With the recent changes at Warner Music Group-U.S., and the ensuing speculation following the departure of Mo Ostin and Lenny Waronker's decision to step down, it's comforting to have someone of Danny Goldberg's background experience

at the helm of Warner Bros. Records. As he did at Atlantic, Danny will provide the leadership, vision and team spirit that are essential to any enterprise. Add to that his proven understanding of music and his rapport with artists and you have an individual uniquely qualified to fill this key role at this critical juncture." Warner Music-U.S. Executive VP **Mel Lewinter** has been promoted to fill Morris' former President/COO position.

Val Azzuli

Meanwhile, over at Atlantic Records, Sr. VP/GM Val Azzoli has been named President, filling Goldberg's vacated position. In making the announcement, Atlantic Group Chairman/CEO Ahmet Ertegun commented, "Atlantic's current status as the #1 label in the business is due in no small part to Val's initiative and creativity. Not only has he done an outstanding job in overseeing the label's day-to-day operations, but he has been responsible for revamping a number of areas of the company, while developing key relationships with artists and managers. Atlantic has always been first and foremost and artist-driven company, and Val's wide-ranging

knowledge and experience make him ideally suited to be the label's new president." Doug Morris, who brought Azzoli to Atlantic, commented, "Since joining Atlantic just four years ago, Val has played a pivotal role in reshaping the company for a new era. With a back-ground in both artist and label management, he has further expanded his horizons to become a true all-around music person — a key figure in a new generation of dynamic executives who will lead our industry into the next century. With this appointment, Val becomes a cornerstone of our new U.S. organization, and he will undoubtedly rise to the occasion with characteristic skill and aplomb."

While the announcements of these four promotions have set aside some of the ongoing speculation over the WB corporate chain, there are still several key positions that are in question, the most pressing being the future of Warner Music Group Chairman/CEO **Robert Morgado**. An article published in the <u>New York Times</u> indicated that Morgado would possibly exit the company now that Richard Parsons has been named Time Warner President, a position that wanted.

#### KALODNER RESIGNS GEFFEN A&R POST

In what is probably the most concise press release to come across our fax machine in a couple of years, **Geffen Records** announced that after nearly 15 years as an A&R Executive with the label, **John David Kalodner** is resigning his position. Kalodner briefly explained, "It was time." Kalodner joined Geffen in 1980 as the label's first A&R person alter a six year stint at Atlantic. Kalodner's sudden departure from Geffen has fueled speculation that he will be joining Messers **Geffen**, **Spielberg** and **Katzenberg** with the launch of their new label.

#### **EMI ELEVATES NAPOLIELLO**

As we reported in last week's Noise, **Peter Napoliello** has been promoted to Sr. VP/Promotion for **EMI Records (EMI, Chrysalis, SBK)**, just a little over a month after joining the company. Reporting to President **Davitt Sigerson**, Napoliello will oversee the day-to-day operations of the promotion department, and all promotion staffers will now report directly to Napoliello, including Sr. VP/Promotion **Ken Lane**. "Peter's expertise is in strategy and artist development — the areas in which we need to get strong," stated Sigerson. "I know he will do a great job of leading out promotion efforts." Prior to joining EMI in September 1994, Napoliello was VP/Promotion for Gelfen.

#### WMMS OFFICIALLY DECLARED ALTERNATIVE

The format has been in place for a couple of weeks, and **OmniAmerica** officially confirmed that **WMMS** has changed formats from AOR to Alternative. "The fact that we are playing over 70% current material in all day parts, combined with our core artists, we had to acknowledge that the industry classification for our format is defined as Alternative," said **John Gorman**, OmniAmerica Operations Manager. "We felt a need to set the music straight and make a formal announcement at this time." OmniAmerica took over the Cleveland heritage rock outlet on April 15th of this year.

#### SHAMROCK'S KZFX FLIPS TO ALTERNATIVE

After spending some time in the industry rumor mill, Shamrock's Classic Rocker KZFX confirmed that the station is now Houston's New Rock Alternative. At 11:00am on Halloween, KZFX became KRQT "The Rocket" and launched their new format. GM Mary Bennett stated, "We conducted extensive research in Houston that confirmed a huge appetite for modern rock and a high level of dissatisfaction with the options currently available on Houston radio. While other stations have dabbled with it, Shamrock Broadcasting restates its commitment to the Houston rock radio scene with KRQT, Rocket Radio 107.5." Several former KZFX staffers will not join The Rocket, including PD Dan Michaels, morning host Mark Kessler, news director Jackie Robbins, morning show producer David Webb and promotions coordinator Charlie Crow. "The format change creates a direction and focus, but also the reality that we part with talented professionals and good friends," said Bennett. The station has retained Jacobs Media as consultants. "We're extremely proud to bring an innovative and cutting edge alternative to Houston radio," commented Marketing Director Andrew Huang. "The Rocket will totally focus on this important new music, as well as the interests and ideals of its listeners.

FROM THE CAPRICORN ALBUM "WAITING FOR THE NIGHT"

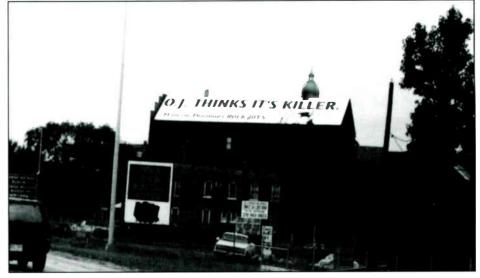

107/Hawthorne signed former WXRK/NYC air personality Meg Griffin for morning drive beginning Monday (11/7). Griffin, who spent the last 8 years at K-Rock, commented, "You go through 'withdrawal' from your 'music habit' when you're off the air. You really miss sharing with the audience. And at a time like now, when there's more good music than ever. I'm thrilled to work at a station where I can play it every morning...that's X-107 on your radio." Griffin's career also includes stints at WNEW, WPIX and WRNW, and as a VJ for VH1 and "New Grooves," a nationally syndicated rock video program. Griffin will continue to serve as staff announcer for the syndicated news program "American Journal." X-107 PD Steve Blatter said, "Meg is one of New York's most wellknown and credible rock radio personalities. Her knowledge and passion for today's rock, along with her ability to relate to her audience make Meg a solid addition to the X-107 on-air staff.

**WCX/Cleveland** Marketing/ Promotion Director Steve Legersky has joined Alternative WENZ, The End, as VP/GM. Legersky replaces the departing Bill Scull, who exits the station along with PD Rick Michaels. Jacobs Media consultant Tom Calderone will serve as interim PD for The End.

eMers Programming announced the addition of veteran rock programmer Harve Alan to its consulting team. Alan's 16 radio resume includes experience in AOR, News/Talk, Country, CHR and oldies. Most recently, he was Station Manager at KHEY-FM/AM and KPRR-FM in El Paso. Previously, he was OM for WONE and WAKR-AM/Akron, and Alan's experience includes PD stints at WAAF/Worcester and WCCC/Hartford. "the chance to become a part of one of the leading consulting firms in the country is a dream come true for me," stated Alan. "Alex and his team have long had a reputation for quality work, honest advice and personal service that I admire. I'm looking forward to the challenge of helping the DeMers stations be the best that they can be."

WZNF/Champaign Program Director Roger "The Dodger" Formanek has left the station for a similar position at Alternative KLZR/Lawrence, in North Kansas.

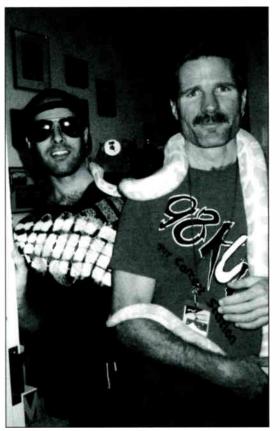

estwood One's Off The Record host, Mary Turner, has decided to leave the show after a fifteen year run. Turner, who is on the Board of Directors for the Musicians Assistance Program and a licensed drug and alcohol counselor, will be devoting more time to her work in that field. Thom Ferro, Exec. VP/WW1 Entertainment, commented, "Off The Record is the longest running and most successful rock interview program in the history of radio and will continue to be an important part of Westwood One's contemporary programming. The company will now embark on an intensive search for Mary Turner's replacement."

**Rock 103.5**'s resident bad boy **Mancow Muller** touched off yet another controversy with the unveiling of the new morning show billboard that proclaimed: "O.J. Thinks It's Killer. Mancow's Morning Madhouse." The station was deluged with phone calls protesting the advertisement, but Mancow stands by the board and the station has no immediate plans to take it down.

**Sass Jordan** joined **Rockline** host **Steve Downes** on the air last week, and in between taking calls, performed an impromptu song.

11 bands, 15 exotic animals and almost 5,000 listeners made up **KUPD's U-Fest**. Pictured with an albino python are (I-r): **Kenny Ryback**, The Promotion Dept., and **Curtiss Johnson**, KUPD.

## R

by Bill Hard

Once upon a time, WAAF was thought to do a great job of serving city of licence Worcester, as well as provide a harder edged alternative to Boston based stations. In the six years that Ron Valeri has piloted 'AAF, that perception has changed radically. Now, not only is the station Arbitron and AccuRatings validated as a 18-34 power in Boston, it's also one of the country's most respected COR signals. That was Ron's mission when new owners Zapis Communications upped him from promotions to PD six years ago, and despite a flanker format approach and less than perfect signal, Mr. V and his talented sales and air staff have more than

accomplished their goal. We caught up with Ron early this week, as he was whisking confetti off his shoulders and scraping pumpkin off his shoes...

## How did the Halloween bash this past weekend go?

Ron: Tremendous! We did something a little bit different this year, 'The WAAF Cash Bash' at the Roxy. We put 2,000 people in this absolutely gorgeous two-level club in the theater district. The place feels a lot like a mini Carnegie Hall complete with chandeliers. You had to win tickets over the air or on the street at one of our ticket blitzes, and you could not buy an invitation to get in. Entrants automatically qualified for a \$5,000 door prize, so at the end of the night after the bands had played, we gave away five grand and made somebody real happy. We had the obvious costume contest going on for cash and trips and that sort of thing as well, and it's amazing how people get up for this thing. We had costumes that were 8 feet tall, whether it was King Kong or a big dildo. I would say that a good 60-70% of the crowd came in costume.

#### Nice to get a successful promotion like that off in a market as promotionally competitive as Boston.

**Ron**: Yes, indeed. I'll digress here to make sure that I say a big thank you to Tesla and Collective Soul for performing for free for us.

# Did you get everything that you wanted label wise?

#### Ron: I was ecstatic.

#### And that's not even your biggest event.

**Ron**: That would be 'The WAAF Beach Dig,' which we do to close out our Spring book. As summer is approaching, we bury \$50,000 worth of cash, vouchers and keys to everything from jet skis to motorcycles to sports cars in the sand out at Salisbury Beach, which is on the north shore of Boston. It's a tremendous forced listening promotion and we usually get about 30,000 people at the site, which is a big state beach. 107 people are qualified to dig over about three weeks leading up to the event, and whether or not they dig up a valuable prize, they automatically win \$107 when they qualify.

How large an area do they dig in?

**Ron**: It's about half a football field, about 40 yards long. It eats up a good chunk of the beach, and is a pretty wild spectacle to see. Imagine people lifting their commemorative shovels, then the music and the starter gun as they all go charging in there like a cast of crazies. Then sand flies all over the place, and ten minutes into it they are all suffering from heat exhaustion.

#### Did you ever get any heart attacks?

**Ron**: No, we are very careful with plenty of Gatorade and complex carbohydrates and that sort of thing. Plus, we take a break every ten minutes or so. It's always tons of fun and we just had a great Spring book, so it obviously works.

# And you definitely feel that the cumulative listening things like 'The Dig' factor into hard numbers?

**Ron**: I'm not a huge contesting advocate, as much as I am a huge advocate of any vehicle that will elicit vicarious participation, and that's what is neat about that promotion. They may never win a shovel per se, but it's a lot of fun to listen to, and there's inherent drama in the whole thing. Some people even think we actually bury a sports car at the beach.

#### How long has the station been geared up to battle on the streets in Boston proper?

**Ron**: A little over seven years. When I came here, I was told that I was hired to help with the 'Boston mission,' which was just being launched. At that time, without any degree of trying, WAAF had a phenomenal cume in the Boston metro — this without even speaking to the people, never mind marketing to them. So, it didn't take a brain surgeon one day for the General Manager to sit down and say. 'Gee, I wonder what would happen here if we simply served the people who are only 30 miles down the road from us.'

#### And what was your plan?

**Ron**: This station always positioned itself as a multimarket medium, getting real ratings in anywhere from six to eight markets, depending on how it's hitting from book to book. But obviously, the lion's share of billings up in New England are done out of the Boston market. It's a \$110 million dollar radio market the last time I looked, and we knew if we could just take a small piece of that, we'd be happy campers. That became the mentality. It was 'Why the hell not? We already have listeners, so let's turn them into partisans rather than casual cumers, and then let's go get more casual cume for the radio station.' So, for the last six or seven years, we have been very aggressive in doing that on-air and on the streets.

#### What percentage of your business comes out of Boston?

**Ron**: A good 60% percent of it. You have to understand that our cume in the Boston metro is significantly larger than our cume in the Worcester metro, and that's just because of sheer population base. It's a further result of the fact that the way Arbitron defines the Worcester market is really an abortion to begin with. To give you an idea, the Boston metro is ranked #9, and it takes five geographical counties to comprise that #9 rank. The Worcester metro, which is ranked 99th, is really miskeding because it's not even Worcester County as defined by Arbitron, just the southern third of the county. To put that in perspective for you, if Arbitron — and they will soon — made all of Worcester County the metro, that would take us probably inside the top 60, if not the top 50 markets, just like that.

#### How is your signal penetration throughout the Boston metro?

**Ron**: Very good. We're definitely signal disadvantaged, but nothing that is that inhibitive in terms of helping people make money and helping our clients succeed. There's probably 20-25% of that five county region where you are going to have some problems listening to the radio station. You asked about our 'Halloween Cash Bash,' we held that at The Roxy in downtown Boston, and they came to us. They helped me pay for the production and they did a lot of unorthodox things to make the event work. Typically, it's the other way around, when you're begging entertainment venues and trying to convince them to give you their place in exchange for the bar. Not only did they do that, but they also turned around and said, 'How much is it going to cost us to help you with the sound and lights and hotel, etc.'

That's unusual. Is this a recent development, or have you enjoyed that sort of entree?

**Ron**: It's been an ongoing, positive evolution for the radio station, with the last 24 months being particularly enjoyable for us.

#### *Currently, how would you rate the Boston market on the competitive scale?*

**Ron**: Outside of Seattle, probably the most competitive rock market in America, and I can back that up for you, if anyone cares to challenge that assumption. Never mind the Boston metro alone, there are rock stations that get in out of Providence and into the northern part of the metro out of Manchester. We figure there are at least two or three too many rock stations.

## Give us a lifestyle sketch of the typical 'AAF listener.

**Ron**: The 'AAF listener is somewhere between 20 and 30 years old, and 65-70% of the audience is going to be male, the median age being right around 25 years old. He's very passionate about music, he's passionate about sports, and for every muffler installer, there is a software engineer. The qualitative is surprisingly better than people might believe and certainly better than our competitors want the prospective customer to believe.

#### Is that black T-shirt stereotype something that you still have to dispel?

**Ron**: Things have gotten better, but sure. The radio station is an edgy radio station, and a lot of the buys are driven by 26-year old females sitting in the back bay at the ad agencies. The last band in the world they want to listen to is Aerosmith, even in this town.

#### As per the Steve Blatter/X107 piece a couple of weeks ago, it's the stuff you're playing in hottest rotation that seems to be what those 25-34 men want to hear.

**Ron**: That's the case for WAAF right now. One of the goals of this radio station is to make sure that it never was strictly an 18-24 male radio station, and I could tell you that right now close to 50% of the audience demo is 25-34 year old men.

#### That's where the money is for COR.

Ron: There may be money that is easier to get there, but there is money across the board 18-34. One of the things that our sales department does very well is prioritize its time in terms of client categories. It takes the same amount of time to sell a \$6 commercial as it does a \$600 commercial, and it takes a hell of a lot more time to convert the Bank Of Boston buyer to think of you for CDs, than it does to take Newbury Comics and get them to buy their type of CDs. It's really an issue of you going in and getting your unfair share out of the client categories where you are best serving. Not to say that we don't chase every last dollar that is out there, but one of the things that particularly impresses me about the sales force here is that they have an uncanny knack for knowing where the easier buck is going to be, and then going in there and taking the lion's share of it away from the 'BCNs, the 'ZLXs and anyone else that wants to make a pitch.

#### How would you peg a 'BCN listener?

**Ron**: A 'BCN listener is a lot more passive today than they had been in years gone by. Their audience is more 30-40 year olds, not nearly as passionate about music, and with a different set of responsibilities and priorities due to age delineation. There's a lot of cross over though, and we still do a tremendous amount of sharing with them. They are our direct competitor, and really our only competitor, 'ZLX gives us a problem in their own way, and 'FNX has such a small signal and their audience is so diametrically opposed in terms of lifestyle taste that there is not a whole lot of sharing going on there. So, it's really 'BCN far and away, with a little bit of 'ZLX. We successfully ran WCGY out of the format very they even pull away a half a share point to a share point 12+, that makes a big difference in rankers in the long run for 'BCN, who are really down into the 4s and taking that ratings elevator down another floor all the time.

#### What do you think of the job that Buzz Knight has done at 'ZLX?

**Ron**: Tremendous. I had the pleasure of working with Buzz in Connecticut, and it's no surprise to me that he walked in and in relative short order, dramatically turned around that radio station.

#### Any idea how he did it?

Ron: Just taking a guess --- and I don't spend a lot of time listening I think that the one thing that he did was to create the illusion of depth for the listeners. It doesn't feel like a radio station that turns over the same 400 old songs over and over again, although in reality, that's probably what they are doing, but it doesn't feel that way. He's very good with special thematic weekends, and with special features throughout the week. I think that promotionally they picked the radio station up to a , great extent. They're pervasive in the market.

# Smart move for Oedipus to tape delay Howard to nights?

**Ron**: First of all, I don't know if I would attribute that to Oedipus, just given Howard's influence and size in Infinity, and his relationship with MeI. At least Oedipus claims that he is very pleased and wanted Howard Stern there, and yes, I think that it was a good move. Howard is

just a phenomena in terms of his ability to position you as bigger than ever before. 'BCN has always had wonderful heritage and a well deserved reputation, so they can't miss when they plug in a guy like Howard. You take a guy who can do everything from Letterman to the cover of a national magazine, and you put him on your radio station, it can't be anything but a benefit. It would be stupid to think otherwise. However, he is not taking Boston by storm.

#### How have your numbers been of late?

#### Ron: Terrific.

#### I know that your AccuRatings are something to crow about.

**Ron**: The last few rolling averages that have come through the door have put WAAF consistently at #3 Adults 18-34 in Boston, and that makes us the top rock station. WBCN is #4 in the last rolling average, 'ZLX #5 and then 'FNX. 12+ in the last AccuRatings book, the station was ranked #9 out of 44-45 radio stations, and that's with a signal disadvantage. We'll talk a lot about AccuRatings because I don't think there will be too many people at least if they are being honest — who don't believe that AccuRatings does a far better job of measuring the listening audience among the 18-34 year olds than Arbitron does. Even with Arbitron in the Spring book, we were virtually tied 18-34 men with 'ZLX, they beat us by a tenth of a rating point, 100 people in the average

recently, who were really a copy cat of WAAF and try-

ing their damndest to take our position from us, but it

**Ron**: Significant. It would have posed the greatest threat formatically, first and foremost to WFNX, who are so sig-

nal disadvantaged that they would have had to just

pull up stake and leave town. WBCN would have felt some

problems there, and WAAF would have felt some prob-

# Jump THIS train!!

### MATT MANGUS, KEVIN THOMPSON/WRCN: "Success story of the year for us."

**JON TERRY/KIBZ:** "A lot of people didn't expect us to play this record but I don't see why not. It's that rock 'n roll boogie stuff that people like. Why give this record to any-body else? I think it sounds awesome."

**TOM GUILD/WRDU:** "I think it really sticks out on the air. Without any hype, a band you probably play every day, comes along with a new record that blows the rest of the "way overhyped" new bands out of the water. The energy and slide guitar on this track just kicks butt. Just a really strong hook that comes on at about 90mph and doesn't let up. Already Top 5 phones."

**MARTY BENDER/WFBQ:** "I dunno. It sounds like a standard. It's AOR structured, and it's got that bus right through there. It also gets them back into Twofer Tuesday rotation."

LARRY MAZUR/MANAGER DAVE EDMUNDS, CINDERELLA ETC: "Saw them at the House Of Blues in L.A. two weeks ago. It was one of the Top 10 shows of all time for me."

**BRIAN RIVERS/KJKJ:** "If you play "Slow Ride", "Fool For The City", and "I Just Wanna Make Love" play "Jump That Train". It sounds just like classic Foghat and it works just as well."

GARY JAY/WNCD: "We're doing fine with it. Nice phones middays and afternoons."

**DALE MILLER/KATP:** "Immediately explosive Top 10 phones. Brings back the heyday of AOR and all demos love it."

**NEIL KELLY**/ **KTAL:** "Top 10 phones, it's working great for us. Biggest Foghat song since "Slow Ride."

**RANDY JONES/KEYJ:** "Light to medium to heavy in three weeks. Top 10 phones!"

quarter hour. 'BCN was #1 men 18-34 and it was a statistical tie between 'ZLX and 'AAF for #2 in the spring book. We can make a lot of ching with those kinds of numbers.

#### You got nailed in the Fall. What happened?

Ron: Any statistician worth his salt, or anybody who can punch a calculator can open up to page 3A and figure out a proportionality index with men 18-24. I believe Arbitron talks about an acceptability range of .75 on the low end and 1.25 on the high end. Well, I believe that in that book, it was like a .69 or whatever. It wasn't even within their own arbitrary acceptability range for the weighting. I got a newsletter from DeMers and it was the head of research for Katz, and in big, bold letters on the front it says, 'Any radio station targeted toward younger males continues to get short changed by Arbitron. Don't buy the sample increase, don't buy any of that, it's all bullshit,' and they are absolutely right. Any time we have a down book, we're going to attack ourselves and we are going to look for our deficiencies of execution because Lord knows that we have them. But anytime that you see a radio station go from a 2 1/2 share to a 1 point whatever share, I promise you, it's an anomaly, and it ties right back to those proportionality indexes, whether it's demographically or geographically.

#### Or both.

**Ron**: And it usually is. And to make matters worse, the assigned diary value on a 24-year old guy will be a few thousand people, which is ridiculous. It also doesn't help that all the diaries go way up north to Gloucester, which is practically in the Artic circle.

#### And you had to feel some economic reverberations from that soft fall.

Ron: Of course we feel it. What is already twice as difficult for us becomes five times harder. However, coming off of that terrible book last Fall, in 1994 we are going to post some of the highest billing numbers the station has had in ten years. Credit obviously goes to the sales and promotion departments for their ability to sell around the ratings. WAAF has always had the philosophy that it's imperative that the station be ratings proof. We don't want to get into cost per point discussions if we don't have to. We don't want to get into ranker discussions if we don't have to, but you know, there are times where you just have to. Certainly, it's frowned upon around here. Our last couple of books have been really good, but take that spring book for a second. If one of our people is running around town pitching, 'Look, we are virtually #2 men 18-34 in the Boston metro,' we have an unhappy GM and Sales Manager. You live by the sword, you die by the sword, because folks, three months later, you might be #9. It can happen.

#### Let's talk about the state of the format for a second. What is your read on the current state of hard rock in radio?

Ron: It's as healthy as ever. I can only speak intelligently from our local level here. We do quite a bit in the way of perceptual trackers and format susceptibility studies, trying to measure the proclivity for the format, particularly among 25-34 year old guys, and every year it just gets better. I think COR needs to be scrutinized from several perspectives. We are here to superserve 18-34 year old men who like to rock. We don't really think about a format. We think about tactics to accomplish becoming their favorite radio station. The other angle that you have to consider is the sales department. What kind of belief and competency do you have over there? If you have a bunch of people that don't really know how to do anything but run around town with rankers, get out of this format because you are in trouble, and you won't make it. If you've got people who truly understand a conceptual approach or counsel/sell approach, and who understand what we are and are proud of being the dominant 18-34 male radio station in the market, you are going to make money. One of the beauties of the format is that people aren't going to come after you that quickly. You are a guerilla in the mix, and the hills you put your flag in are only going to be so big. Billing is one thing, but profitability of the radio station is the other. I'll tell you right now, this radio station is more profitable than a number of full signal Boston radio stations. I'm very bullish about the COR format.

## You're also bullish on serious rotation. Explain the need for 40 spins a week on your heavies.

**Ron**: We're a male CHR. From the minute that we moved away from a classic based traditional AOR into truly going after that 18-34 year old guy that's into rock n' roll, one of the first things we did to pump it up was to take 20 to 25 songs and rotate them with effective frequency. A CHR has a negative stigma of teens, and that's not what I am talking about. One of the other really impressive things about WAAF is that our teens are almost always under 20 to 15% of the whole audience. I'm talking about the tactics of hyper-tight rotations on the right songs, the powers. It's worked from day one, and I've been programing the radio station now for a little over five years.

#### Would you consider under rotating currents a common programing error for those trying to reach 25-34 year old male listeners?

Ron: Yes, but I believe it's a common radio mistake, regardless of format. If you are in the business of playing currents at all, you either play them or you don't. We all know how little time people spend with a radio station per week. Thinking about the quality of time spent, it's a passive medium by and large. I'm in the car with my buddy, my wife, whoever, and we are carrying on a conversation. In that setting, the radio station is a utility. It's on in the background, so I am only half listening for the short amount of time that I spend with the station. When you look at it from that point of view, you've got to bang those songs, or you are never going to familiarize them, and we all know how this works. If you can't familiarize it, you can't test it to find out if it's a hit. We have also found time and time again with our call out research that when you have a hit, it takes a long time, if ever, to fry it. Good songs typically don't burn, and that's the function of the fact that even though you play it six or seven times a day, they only heard it three times that week. Then you take into consideration that we have a lot of secret weapons here, a lot of hybrid hits, a lot of great music that only we play.

#### And for WAAF those might be?

**Ron**: It could be early depth cuts from Soundgarden, or maybe Type O Negative. Initially, nobody would touch Candlebox in this market, let alone the country, so we probably had a good six months of being the only radio station in Boston that played Candlebox, things like that. So, you have these wonderful songs like 'Change' and 'You' and you are hitting them seven times a day, but in reality, a guy is only hearing them two to three times a week. You can feel it through the request line, when the jocks go crazy when songs they just played an hour ago continue to get request after request.

#### When you arrived at WAAF, John Gorman was your consultant. How'd you like working with him?

**Ron**: Terrific. He's a genius, and I think that he has demonstrated how adept he is time and time again. Look at what's going on right now in Cleveland.

WMMS' switch to CHR reporting is a bit of a buzz on the circuit. Any thoughts on that? **Ron**: Right now it's irrelevant. There was a point where I was working Joel Denver real hard at R&R and we came very close.

#### Right, when you couldn't get AOR or CHR status.

**Ron**: Actually, I took my list out of AOR status to show Joel Denver that we were serious about acquiring a place on the CHR panel. Joel was astute enough, not to mention kind enough to include me in a number of CHR articles, even though I didn't have the status at the time. It's not as important now. We all know that CHR gets the lion's share of the promotional support and the attention from the labels, and that was my main goal then. That hasn't really changed, but what has changed is that the record companies have come to understand the COR format and now they're very supportive. That's how things like the 'Halloween Cash Bash' came about, and I get an arena status act to come in and play an intimate performance for us.

#### Given your rotations and the station's rep as probably the most serious product mover in the region, do you feel the companies give you your fair share of support?

**Ron**: They typically do, but at the same time, I have to be empathetic enough to walk a mile in their moccasins. I realize that there will always be a small amount of product that we may not get to, and that for some of the other guys in town, even one or two spins a week is better than no spins. I do have to understand that there are going to be times when something that makes entire sense from our point of view makes zero sense from their point of view. There will be many times that WAAF will got to a record company with a strong rationale as to why they should do something for us. If they refuse, all we ask is that they have an equally strong rationale as to why they can't get that accomplished. If their argument is logical and rational, no hard feelings.

#### You've always gotten what you want without having to spread your legs. You do have a reputation of being a tough add.

**Ron**: But a quality add. I added six records this week, boy that's real tough! And they're all going to get banged.

#### How did you hook up with your current consultant, Tom Barnes?

**Ron**: We had a change of General Managers, right when John was stepping back into some full-time programming with the oldies station in Cleveland. I think that spooked the GM a little bit, in terms of the amount of attention he felt I would get. It's really as simple as that. John Gorman and I are on very good terms. I really like the guy and admire him and we speak periodically, and I watch his radio stations very closely.

#### What sort of insight do you think that Barnes brings to the party?

**Ron**: I position Tom as a partner and a pal. We have tremendous synergy. He is a real trend surfer out there, always the first one to know about the next big thing. That's what I love about him. He's very, very hip to the format, and he's got a warm, empathetic way about him where he can bring value to the radio station above and beyond traditional consultancy.

#### Tom definitely has a soft spot for Alternative leaning hard rock, a la 100.3 and WRZX. Is that an issue that you guys go around about?

Ron: No, not at all. We're the type of people here that

if it takes Swahili dance music to become the favorite radio station among 18-34 Men in Boston, that's what we are going to do.

#### Have you made any programming modifications that have moved you a little more to the Alternative side of the street?

**Ron**: There has always been a grand plan at this radio station over the last five years to ever so carefully broaden. We are a flanker here, and one of the rules of a flanker is that you do want to remain narrow. But we don't want to over focus on the core at the expense of building greater cume and driving that 12+ audience up. That's where Tom is particularly helpful. Think of your audience as a bell curve, on a grid. If the left side, i.e. the vertical side of the chart is your nove to the right is the breadth of the format, obviously as you broaden, you

get greater and greater audience share, but there does come a point where, all of a sudden, boing!, you start crashing and burning because you alienate the core. Tom does a good job at helping you dance that line.

#### Clearly the challenge is anticipating what lies years, and not months down the line.

**Ron**: One of the common philosophies I've had with both consultants that I have worked here with is that hard rock and Alternative are on a collision course.

#### l agree, but plenty of programmers seem willing to debate that point.

**Ron**: Okay, I'll be arrogant here for one minute. WAAF isn't consistently winning in Boston by chance. You have to be open minded. Nine Inch Nails' 'Closer' is a great example. There were so many people in the format who said, 'No way that techno crap is getting on the radio station,' and now look at it. I will also sit here and say that a lot of mistakes have been made where you think that you have another Nine Inch Nails, and all you have is a song that is making your core go, 'What the hell is this?'

#### Yeah, and with all the talk about Alternative, there are stations like KISW who have no problem dominating The End.

Ron: We consistently beat WFNX.

#### Do they consciously counter program them?

**Ron**: I don't think so, and again, there is not a tremendous amount of duplication there.

#### **Does** the lack of duplication tend to take a little steam out of your confluence theory?

**Ron**: It all gets back to what is Alternative. They love to tell you that STP is Alternative, but it was KIOZ and 'AAF that broke Stone Temple Pilots' 'Sex Type Thing.' I'll bet that never made it to the CD player at an 'FNX music meeting. Obviously, yes, we are going to have more of an inclination to jump on 'guitar driven' Alternative rock.

# Do you pride yourself in adding those records early?

Ron: Yeah, and I think that we do a good job because

we listen to everything. If we have any bone to pick with the record companies, it's that we don't get serviced on everything. If it's something you would call a rock record — I don't care if it's Triple A rock, Alternative rock, classic rock, hard rock, metal, whatever you want to call it — it it has rock in any sense of the word, we wish that you would send it to us right away.

#### In contrast to, say, Q104.3, you're a personality driven COR station. Is that by design?

**Ron**: A lot of it is by design, but obviously if you can't find the right people, you do need to change your strategy, or tactics I should say in this case. Both my morning show and afternoon show are very well received and their images in the perceptual research that we do continue to get better all the time. We have a slightly different situation than a lot of people. Q104.3 is programming to one market with a full signal, albeit a

huge one stretching from Connecticut to Long Island to New Jersey. We've got a situation here where if nothing else, we have to maintain our 25-54 dominance in Worcester, Mass, where we are #1 25-54 Men. We have to maintain that, while at the same time, staying top 3 men 18-34 in the Boston metro. Some things you'd do to attract and maintain those demos might seem to be diametrically opposed, especially in terms of personalities. But when you have the kind of heritage we do, and memories of great shows like Bob and Zip. (and I'm referring to Bob Rivers who is at KISW now, who spent close to eight years here with a heavy personality show), then there really is no turning back from that, nor do I want to. In morning drive, people only have so much available time to spend listening. And then you combine that with --- if you are an extremely narrow format - do you really want to put all your eggs in one like us basket? If you do nothing but a more music morning show, the only attraction to the radio station now is Guns N' Roses, Stone Temple Pilots and the Smashing Pumpkins. You have no way of transcending the format. But if you can get a guy like the Hill Man, who does mornings for us, they'll bring in curners who, frankly, don't even really love our music. They'll tolerate it, but what they really like are the personalities. And our research backs this up.

# With all the squawking that you hear from the PD ranks about the dirth of quality talent, how tough is it to keep a Liz Wilde on the ranch?

Ron: She's been here for over five years, so you tell me.

## Other than Razz going to Q104.3, has your staff been fairly stable?

Ron: Yeah, and it took NYC to get Razz away from us.

#### Are you satisfied and completed with the challenge at WAAF, or do you have a grand plan that involves other markets?

**Ron**: No, I don't right now. My plan right now is a greater sense of stability for WAAF in Boston metro. The last 24 months — that Fall book withstanding — have been very good to the radio station. If you lay out

your basic linear graph, you can see the station is a clear player among 18-34 year olds.

#### Besides, Fall books like that build character, right?

**Ron**: Yeah, there you go. It's Sesame Street, too. Once you get a few books under your belt you can go, 'One of these things does not look like the other?' And that is literally how we play it. Now, of course, with AccuRatings in the market, we can throw that on the desk too. If people want to balk at that point, we say, 'Fine, balk at it, but let me tell you about the company a little, from MTV on down,' and you take it for what it's worth. If they say that we are #9 in the market 12+ and Arbitron says that we are #14 or #15, so maybe we are #11. We'll take it.

#### In terms of your staff, what would you say that they like the most and least about working for 'AAF and for you.

**Ron**: I think what they like most about 'AAF is that it truly is a lot of fun, and it's one of the pioneers in the format. I think that what they like least about working for WAAF is that it is an enigma, that too many of their fellow industry types don't understand the impact of the radio station and the damn signal disadvantage. It seems like they need to try

three times as hard to get the attention that somebody else down the dial gets. Somebody else down the dial could fart and the press might show up to smell it. But we could re-invent the wheel, and still have to make three phone calls to get the TV camera over there. They will get the camera there, though.

#### How about working for you personally?

**Ron**: I think that they like the passion and commitment that I have to the radio station as a whole. I also believe they have a lot of confidence in my ability to execute the format.

#### On the down side?

**Ron**: What they don't like about me is that I'm a driver. I have low tolerance for anything close to a post office mentality. I don't care if I am only paying you \$5 an hour to do the job, I still expect a \$500 an hour performance, and I recognize that as a weakness in myself. Ownership holds us to the same standards of performance and winning that Infinity holds 'BCN to, and despite some disadvantages, the staff of WAAF still gets results.

"att Keating, "Scaryarea," Alias *No, we haven't* Mentered the early stages of senility. We're fully aware that we featured Matt Keating in the Hot Corner just last week, but we feel that this album is so strong that it deserved the first available Triple Ace cover spot, and so does WCBE's Jon Peterson, "Triple A has been reluctant to give songwriters from an Alternative background a chance (Mark Eitzel of American Music Club being a case in point). Matt Keating is a singer/songwriter with an Alternative background, whose

new release works equally well for Triple A. Strong melodies, innovative lyrics, and interesting arrangements, make this album perfect for stations wanting to please both younger and older demos." Dean Carlson KMTT, "Great lyrics! The guy is twisted, and that is fine with us." In addition to the single, "McHappiness," recommended tracks include "Boxed Inn," "Way To Go," "Never Fit In," "Late October," "All The Rest," and "A Naggin' Feelin'. Matt Keating is an outstanding singer/songwriter with all the right ingredients for Triple A.

and Navarro, "Walking On A Wire," Mercury Triple A veterans Lowen & Navarro are rereleasing 1990's Walking On A Wire, and they've added three new tracks. The first of these, "Rapt In You," is a joyous upbeat song celebrating love in the smitten stage. Moving from love to lust, "Turn Out The Lights (And Go To Bed)" is a fast-paced rocker about a guy anxiously waiting for his girl friend to show up. The third new track, "Goldmine," is a beautiful, laid-back acoustic ballad about lovers' quarrels.

With lush vocal and acoustic harmonies, these tracks are strong additions to an already strong album. Jody Peterson WNCS, "We just added 'Turn Out The Lights,' and when I heard it, I was stunned at how alive that track was. There's a dimension to Lowen and Navarro that really kicks." Bruce Stebbins WRNX, "We've been fans of Lowen and Navarro for a long time. These new tracks added to Walking On A Wire should prove to be their breakthrough." Jane Fredericksen KTCZ. "Rapt In You' is an up-beat song that works well for radio and has long been one of the staples of their live shows. It's great to finally have it on record." Dean Carlson KMTT, "It's great to hear them really let loose. We popped it right in. 'Turn Out The Lights,' and turn it up!'

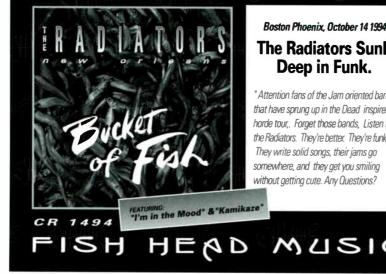

aurie Anderson, "Bright Red," Warner Bros. Listening to Laurie Anderson is like the dreamlike state you experience right before falling asleep. Her music balances delicately on the precipice of reality, tugging the listener closer to the swirls of the surreal. On her new album, Bright Red, she collaborates with Brian Eno, who produces and contributes keyboards and other touches to her already complex palette of sound effects. Other guest performances include Lou Reed (vocals on "In Our Sleep") and Adrian Belew (guitar on several

tracks). Although equally as strange and detached as her previous work, this album may be the most cohesive, as the tracks both stand alone and mesh well together. Her lyrics are simple and yet poetic, creating vivid imagery that ranges from humorous to horrific. Good standalone cuts include the opening track, "Speechless" (as close to a pop arrangement as her music gets), "Freefall," and "Beautiful Pea Green Boat." Jody Denberg KGSR, "Laurie Anderson is a staple of our late night programming. She is unquestionably one of the most ground breaking and influential artists of our time, and this is a breakthrough ecord artistically. It's commercial potential remains to be seen, but we're happy to play it."

# Triple Crown

**Boxing Gandhis.** "Boxing Gandhis." Mesa David Darling leads the Boxing Gandhis, a seven-member band releasing their self-titled debut album. With group vocals (which include David's wife Brie) sounding like Sly and the Family Stone and soul flavored music, the band maintains a funky, tight groove while delivering David's socially conscious lyrics. The album begins with three outstanding tracks: "If You Love Me (Why Am I Dyin')," an environmental plea that builds from a funky rhythm track to a rousing spiritual ensemble; "Lose My Language," another environmental song with a strong gospel feel; and "Stranded," soulful and emotional. Brie Darling takes the lead vocals on the last track, "Born For This," a sensitive and powerful song directed to a newborn entering this world.

Various Artists, Music From the Motion Picture "Love & A.45," Immortal Epic Soundtrax This soundtrack from the upcoming movie contains a highly diverse set of songs, from the metal madness of the Butthole Surfers to the country twang of Roger Miller's "King of the Road." In between are some interesting tracks for the Triple A format, including "Come On" by the Jesus and Mary Chain, a nice pop song with a fuzz bass, and a cover of the Nazareth hit "Love Hurts," by Kim Deal & Bob Pollard. "The Devil's Chasing Me" is an outstanding cut by format favorite The Reverend Horton Heat, a fast-paced blues rocker with some great bass and lead guitar playing.

Concrete Blonde, "Still In Hollywood," LR.S. Concrete Blonde, admired and acclaimed as one of the best alternative bands over the last decade, has broken up, but their music lives on. <u>Still In Hollywood</u>, a collection of non-album releases, outtakes, and live sessions highlights the band's career, demonstrating their talent and versatility. Led by vocalist and songwriter Johnette Napolitano along with guitarist James Mankey, the tracks vary from simple acoustic to hard-edged rock, but are consistently energetic and emotional. The first track, "I'll Chew You Up And Spit You Out," is raw and cynical, featuring the drumming of Harry Rushakoff and is the only pre-1990 song on the album. About half of the songs are covers, including some outstanding ones like Leonard Cohen's "Everybody Knows," Nick Cave's "The Ship Song," which features a duet with Steve Wynn, and a sparse acoustic version of Dylan's "Simple Twist of Fate." From their own writing, standouts include "Free," a powerful rocker that was a title cut left off its own album, a moving acoustic rendition of "Joey," and the dark and compelling "Bloodletting," an extended cut with eerie sound effects.

The Go-Go's, "Return To The Valley Of The Go-Go's," 1.R.S. The Go-Go's are back! After disbanding in 1985 to pursue individual interests, including Belinda Carlisle's solo career, they have reformed and released a 2-CD, 36-track retrospective which includes historical liner notes and pictures, as well as three new songs. The tracks are roughly chronological, beginning with several unreleased songs recorded mostly at rehearsal in their early punk period (1979-80). The first disk also features their breakthrough hits, "We Got The Beat" and "Our Lips Are Sealed" from the <u>Beauty & The Beast</u> album. Disk Two begins with the band at their popularity peak, with selected pop hits from <u>Vacation</u> ("Vacation," "Get Up And Go") and <u>Talk Show</u> ("Head Over Heels," "Yes Or No"), with B-sides sprinkled throughout. Several live tracks follow, including one from their brief reunion in 1990, "Mercenary," an unusual (for them) acoustic ballad. The three new tracks are richer and more refined musically, with excellent harmonies, notably in "Good Girl." These songs still sound like The Go-Go's, but a little more serious (mature?) than their previous work.

The <u>Reality Bites</u> soundtrack was recently certified double platinum, and RCA suits and the unsuited film's producer **Danny DeVito** gathered to celebrate the occasion.

Following a recent performance in L.A., RCA's **Dillon O'Brian** caught up with some RCA label friends and supporters backstage. Pictured (I-r): **Ken Krasner**, **Hugh Surratt**, **Ron Fair**, **Barry Mann** (songwriter), **Cynthia Weil** (songwriter), **Dillon O'Brian**; **Ria Lewerke**, **Dave Novik**, and **Nick Bull**.

Mammoth/Atlantic recording artist Victoria Williams recently performed a special showcase set atop midtown Manhattan's Rihga Royal Hotel before an audience of label executives and staffers (I-r): Atlantic Exec. VP/GM Val Azzoli; Mammoth President Jay Faires; Atlantic President Danny Goldberg; Victoria Williams; Warner Music-U.S. President/COO Doug Morris; and Warner Music-U.S. Exec VP Mel Lewinter.

### "The Sun Records Collection"

Rhino

Dave Johnson, host of the nationally-syndicated "Blues Deluxe" radio program

his early days of recording, Sam Phillip's slogan was, "We Record Anything **n** Anywhere - Anytime". While that motto probably garnered a few disappointing  $\mathbf{n}$ results, Phillips' Sun Records label is remembered today for an incredible stable cf musicians. This new 3-CD collection features a plethora of talent you know well. B.B. King, Howlin' Wolf, James Cotton, Carl Perkins and , oh yeah, that Elvis guy. Plus, there are plenty more tunes from folks that you've either never heard of, or perhaps forgotten. The Rhino production department has done their usual sterling job by providing an excellent booklet of rare photographs and liner notes. Accompanying the more than three hours of great Sun music are track listings complete with personnel, recording dates and chart positions. Sure you'll get a few hits that you already have in your collection, but there are many more gems that have been dusted-off and shined-up for this set. And mucho thanks to whoever got this set out during Sam Phillips lifetime, otherwise the included interview with the man wouldn't have been possible. I couldn't wait to unwrap the Sun Records Collection box when I received it and spent a lot more time than I usually allocate to new releases to listen ... and listen ... and listen (and to read the enclosed booklet). The final selection on CD #3 is the **Jesters'** "Cadillac Man". That's an appro-priate tune to cap off a "Cadillac" of a box set! **Rhino Records (toll-free): 1-800-**432-0020

# Elues Reviews The Beat Daddys

**"South To Mississippi"** Waldoxy Records Ed Tremewan/WFBE 95.1 FM, Flint, MI

**Indiana Tommy Stillwell** and Larry Grisham, The Beat Daddys, make another strong blues statement on this,

their second, album. "The Love Of A Woman," a slow blues piece, gives Grisham's raw and penetrating voice an opportunity to soar with emotion, while Stillwell's guitar cries mournfully on the long instrumental breaks. A powerful blues to say the least. The tender, "Delta Lady," and the up-beat "She's Got The Moves," are both love songs, each told from a different perspective, and give yet another view of the talents of these

musicians. "Train In The Distance" is another rocker that makes you want to get up and dance, there is no way to sit still with this one. For slide guitar aficionados, there is a one and a half minute gem slipped in between the other songs. Tommy Stillwell does a masterful slide instrumental of the traditional "Amazing Grace" on the National Steel guitar. It is indeed a treasure. From ballads to honky-tonk sounds, The Beat Daddys have worked hard to create a well balanced album. Recorded at the legendary **Muscle Shoals Sound Studios**, and backed by the Muscle Shoals Horns, the production quality and engineering on this CD is top notch. We will be hearing a lot more from The Beat Daddys in the future.

### **Bobby Radcliff**

# **"There's A Cold Grave In Your Way"** Black Top

Steve Hoffman/"The Blues Experience," WDCU-FM, Washington DC

the term "razor-sharp guitar" has become a blues cliche, let's Since just say **Bobby Radcliff** wields his guitar like a serrated

knife. Inspired by the West Side Chicago school of blues, he slices with abandon, leaping from treble to bass notes and chopping chunks of chords into his string-bending leads. He plays so hard; he actually needed surgery to repair nerve damage to the fingers of his left hand. On <u>Cold Grave</u>, his best yet, Radcliff's furious tretwork never detours down the blind alley of flash for flash's sake. His music is drenched in the primal emotions of

pain and anger, not only because of his screaming guitar but equally because of the naturally gloomy timbre of his voice, which enables him to wrench feeling out of lyrics without resorting to the contortions that pass for singing among too many of his peers. The eerie tremolo in his voice recalls his idol, the late **Magic Sam**, and the anguish he emotes tultills blues' function as catharsis. Radcliff does few originals on <u>Cold Grave</u> but draws from such diverse sources that he creates his own unique repertoire. The tunes come from — among others — **Buddy Guy, Dinah Washington, Bill Doggett, Guitar Slim, Tyrone Davis, and Kool & The Gang.** The two later choices are telling. Rather than incorporate 50s R&B for a jump blues effect, Radcliff adds soul-funk influences to produce jumpy blues. This style, which he absorbed first-hand during early 70s ghetto gigs in his native Washington, D.C., gives his blues a distinctively staccato and dangerous —edge.

NOVEMBER 4, 1994

# From an article by Michael Donahue printed in the Memphis Commercial Appeal October 22,1994.

Albert King was supposed to pick up a new Cadillac the Monday he died, said his companion, Lou Ella Booker Grimes. "It was solid white with black leather interior and a half moon black rag root," said Grimes, who was wearing a gold "flying V" guitar-shaped pendant around her neck. King, the noted bluesman who died of a massive heart attack Dec. 21, 1992 at age 69, gave her the pendant. The Cadillac was later sold to someone else. But several of King's automobiles, guitars and jewelry, furniture, clothing and other personal effects will be auctioned Dec. 2-4 at Gestine's Gallery at 156 Beale.

#### Pearl Jam,

"Spin the Black Circle"/"Tremor Christ" (Epic) After spending a good chunk of the year battling the corporate Goliath of Ticketmaster, the boys in **Pearl Jam** found some time to record their latest release, <u>Life</u>, and from what we can hear, they have effectively chan-

nelled that anger into their music on "Spin the Black Circle", the first of two tracks that landed at radio this week. The frenzied pace of "Spin" pulled in 48 AOR adds this week and surprised a lot of programmers, including Dana Jang of KSJO, who said it was "definitely very intense, and it got people's attention!" The other option is "Tremor Christ", a quirky, cerebral melody that snagged another 37 AOR adds this week. Whether you play one, the other, or both, **Pearl Jam** are the biggest drawing band for the 18-34 demographic that COR targets, so this is a win/win proposition.

#### Sponge, "Plowed" (Chaos/Columbia)

The way that this band has been plowing up the charts, jumping up to #19 on the COR chart this week with 22 stations playing them including KEGL, Q104, KBPI, KUPD, KIOZ, KISW, KISS, KSJO, and WDZR, where they are already pulling in top five phones. An enthusiastic

Joe Bevilacqua goes on to say that they are "a great crossover band, 'Plowed' is a fresh sounding '90s record. They are soaking up requests better than a new roll of bounty!" A hefty buzz seems to be following them wherever they go, which right now is on tour, and the band recently had an appearance on MTV's Jon Stewart Show to boot. "Plowed" is a straight ahead upbeat track with a '90s feel and enough of a hook to keep your listener's feet tapping all day.

#### Samiam, "Capsized" (Atlantic)

Spawned out of the same Berkeley California scene that harvested Green Day, the troops in **Samiam** cut their teeth on a melodic brand of punk styled rhythms, but with more emphasis on the melody and hook than most of their brethren, which would leave them tailor made for the cur-

rent radio environment. Expect to see an add from Joe Bevilacqua and WDZR who enthused that "Capsized' reminds me of everything that has made the hyperactive punk scene so popular, it is in the same vein as 'Come Out and Play' and 'Basket Case' — this is a bonafide hit!" Also into the "Capsized" sound is KRRK's Matt Markel, who "loves the band. It's good, raw, full of energy rock with an alternative energy to it. I like the edgy sound." And so will your listeners.

#### **Criss, "Show Me" (Tony Nicole Tony Records)** The name **Peter Criss** is one that is still revered in hard rock music circles from his instrumental role in the formative years of KISS, particularly for the original power ballad, the touching "Beth". It has been a few years since we last heard from the feline rocker, but he has teamed

up with a young energetic group of musicians, and on the song "Show Me", you can hear a bit of the influence from his past with the writing style, and gut wrenching vocals, but the grinding rhythms more than nod to future development. With the legions of KISS fans in your listening audiences, the appeal of **Peter Criss** is still felt, but this time he aims to stand tall on his own two feet.

It was a day to celebrate over at American Recordings, and even Glenn Danzig is smiling because both the debut release - 1988's Danzig - and their most recent EP - 1993's Thrall-Demonsweatlive - were both certified Gold. The awards were presented after a surprise performance at The Whiskey in Los Angeles. Pictured (L-R) front row are: Kenny Di Dia (American); Joey Castillo (Danzig); Glenn Danzig; Renay Palome, Mark Neiter, and Mark Di Dia (American) back row: Mike Simms, Jill Ainsworth, Nick John, Alain Bosshart, Erika Nelson, Greg Abramson, Donna Chadwell, Kate Miller, Ken Bunt, Danny Ornelas, Eerie Von (Danzig); Melissa Dragich, John Christ (Danzia): Michelle Gutenstein.

We always enjoy running pictures from the always innovative and amazing band Queensryche. This shot was taken after their world premiere broadcast of the album Promised Land, at the Bad Animals studio in Seattle, hosted by KISW's Cathy Faulkner! This Queensryche picture from the launching of Promised Land, was taken at Seattle's Museum of Flight where 2,000 listeners of KISW and members of the Queensryche fan club had the chance to hear the new release on headphones - the best way to hear Promised Land! ## Mary Beats Jane. Mary Beats Jane (Geffen)

It is not typical for a debut record from an innovative up and coming band to be released into the teeth of the pre-holiday onslaught, but then Mary Beats Jane is no typical band. Hailing from the frosty domain of Sweden, this five piece (Peter Dolving - vocals; Urban Olsson guitar; Magnus Nyberg - guitar; Bjarne Olsson - bass; Peter Asp - drums) has flourished in the controlled socialist environment

of their homeland to dominate their own music scene and create enough of a buzz to not only expand beyond Scandinavia, but also grab the attention of Geffen Records. As you first listen to their self titled release, the sheer ferocity blows you away in an instant, but if you take the time to sift through the lyric sheet and absorb the messages, you will find that they have a lot to say about society, relationships and a variety of other topics: their music is more than a mere blast of anger. But don't worry, if you turn your stereo up to eleven, the power emanating from the speakers will devastate the next ten blocks (we hope you have insurance). The impassioned vocals of Dolving have the feel of Henry Rollins and Phil Anselmo, but with his own tortured flair. He is backed up by the furious twin guitar work of Olsson and Nyberg - who are at times trading off intricate licks or spewing out pummelling riffs - plus the rhythm section of Asp and Bjarne who steadily keep the mayhem under control. If the high speed hardcore influenced style is your forte, then turn to "Gunshot" or the blink-and-you'll-miss-it pace of "Blind" for a couple of songs that will put a smile on your face. For those of you addicted to metallic rhythms and thundering guitar grooves, don't look any further than "Neighborhood Psycho" and "Hollowhead". For a slower, more determined stomp, hop over to "Grind", a song in which the anger seethes through clinched teeth and wrings itself out. The first single, "This Life", has received a warm reception at radio, with 36 adds in the past two weeks and early airplay at KMSA, KISS, WMMR, WFCS, and WRLC, where Karen Tepsic is "holding my breath to see if the heavy initial response holds up". Another impressed programmer is Mark Byham of WFSE, who commented that it is "definitely '90s sounding, it's nothing like I have heard before". As the full release hits radio, their relentless nature should see this initial enchantment continue. In the words of Dolving, "Intensity is a state of mind. It's not a thing you choose. It's there or it's not." Without a doubt the potency is there, and with the unmerciful delivery and the awesome variety of quality tracks to choose from, there is no logical reason why this album won't be seeing a solid amount of airplay well into the new year.

## Butt Trumpet, <u>Primitive Enema</u> (Chrysalis/EMI)

For those of you who are looking for something a bit different from this punk resurgence trend that has been hitting the music scene, will be pleased to find that **Butt Trumpet** sounds like nothing else out there. Actually, that would probably be the understatement of the year, but the band goes

blazing through 17 songs in 40 minutes, and you will find yourself in stitches, as long as you're not easily offended. <u>Primitive Enema</u> was recorded and mixed in three days, with classic punk producer Geza X (Black Flag, The Germs, Dead Kennedys) at the production helm to secure their energized sound. With the exception of the pointed lyrics, a stand out on the record are the strong rhythms, due to the double bass lineup of **Bianca Butthole** and **Sharon Needles**. At any rate, they are fast, loud, and obnoxious, and with songs like "I Left My Flannel in Seattle", "Shut Up" and "Funeral Crashing Tonite", if they go unnoticed after one play, then you don't have any listeners. So stand back, because this fall is the time to blast the trumpets - well, the **Butt Trumpets** anyway!

## Trixter, Under Covers (Backstreet)

Unless your memory banks are on permanent empty, you should have no problem recalling the success that these young Jersey boys had with their debut release and the lighthearted "Give It To Me Good". While they quickly became poster boys for many teenage female fans, and were one of the first bands to don flannels (could they be trendsetters?), they were saddled with the pretty boy image back-lash

that has been so prevalent lately. Well, put aside your pre-conceived notions and slap on this release, because the name of the game is fun. <u>Under Covers</u> is filled with versions of some very familiar tunes, and while **Trixter** isn't attempting to forge any uncharted musical territory, they do plunge into these songs and churn out versions that are true to the spirit of the originals. The more metallic choices include their versions of Nine Inch Nails "Terrible Lie" and AC/DC's "Dirty Deeds", or even the "live" rendition (complete with the incomprehensible introduction) of the Beastie Boys' "Fight For Your Right To Party". Coming in at #4 most added this week with 20 adds, <u>Under Covers</u> is a playful addition that will insert an enjoyable diversion into your airwaves.

## Endzone, Punt (Really Big)

The industrial community of Allentown, Pennsylvania may be best known from Billy Joel's ode to the city, but the slamming rhythms of **Endzone** are striving to change all of that. Like trying to fit a square peg into a round hole, they set out to develop their fanbase with a set of original tunes in a market where the cover bands bring in the most dough. Despite the uphill climb, after a year **Endzone** now fills the same

clubs as the less innovative cover bands and sold 2,000 copies of their first demo tape. Dn their newest offering, <u>Punt</u>, you will find their hard-core style spiced up with a bit of funk and groove, but don't think for a minute that songs like "Behavior Problems", "Think", and "A.S.S" won't have any hungry pit swirling with action. Pulling in 14 adds this week, the unique sounds of **Endzone** have found some believers in the metal radio front already, but if you are in need of a copy just call Todd Heft of Vertigo Entertainment at (610)-433-8012 to get your hands on a copy of their vibrant self made undertaking, Punt.

## Sweaty Nipples, Bug Harvest (Megáforce)

TOP Picks CONT.

The Sweaty Ones - hailing from that pacific Northwest region - should be a familiar name from their first single "Demon Juice", as it made some inroads into metal radio and also saw some airplay on MTV's Headbanger's Ball. Armed with a unique sound,

a provocative name, and an over the top live show (which has gotten them banned from any city sponsored events in Seattle) they are set to reap the benefits from the media seeds that they planted earlier this year. For those of you who are not familiar with Sweaty Nipples, take some time to explore their full length debut, Bug Harvest, and take note of the aural kaleidoscope that will escape your speakers. Other than "Demon Juice", lend an ear to "Smiles!" with its bizarre melodies; the choppy, churning rhythms and deep, expressive vocals of "Swollen", or the anthemic, punk paced tune "Tequila". Produced by Kelly Gray (who turned the knobs on the multi-platinum Candlebox release), Bug Harvest cannot be easily compared to others, but it should be an easy pick for your plavlist!

## Peach, "Dead Soldier's Coat" EP (Caroline)

When the Peach album, Siesta, was released earlier this vear, very few metal stations took notice, labelling them as just another alternative band. That will happen when your frontman was originally in the Posies. But with the focus on the four songs of this "Dead Soldier's Coat" EP, it seems that more metal stations have started to stand up and take notice (adds at 15 stations this week). With thick, buzzing rhythms and warped sounding licks to go with their overall dreamy yet murky sound quality. The single, "Dead Soldier's Coat", is off the Siesta release and will soon have a video hitting a TV near you, and the other three songs are unreleased and new to the airwaves, including covers of "Children of the Revolution" - originally done by T-Rex - and "Stop" - originally done by The James Gang. So if you are looking for a peach of a new band to add some diversity to your show, check out the songs on the "Dead Soldier's Coat" FP from Peach

## Woodstock '94 (A&M)

Easily the biggest musical event of the year was the 25th anniversary of the Woodstock festival, which featured lots of nudity, mud, camping sites, and parking problems, along with all of the great music that marked the three day festival. Just in time for the holiday mad rush at retail, the two CD sampling of the festival is ready to hit the streets. If you made it out there,

(you're crazy) this collection should help bring back the memories of the event. If you didn't make it, the songs included on this release is the next best thing to being there, with music from Nine Inch Nails, Metallica, Jackyl, Rollins Band, Aerosmith, and Green Day all included. The demand for this will be high, especially for Metallica and NIN at metal, with the high profile of this release. So slap on the mud, and think about peace because it's Woodstock time again!

## Bruce Dickinson "Shoot All The Clowns" (Mercury)

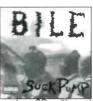

Don't think for a minute that it is time to put away your Bruce Dickinson album yet, it's just time to introduce yourself to some new songs that didn't make it on the Balls to Picasso release,

along with some remixed versions of the track "Shoot All The Clowns". After his surprising departure from Iron Maiden, many of us didn't know if we would be hearing from **Dickinson** again, but he and his new band were warmly received on the hard rock airwaves, climbing up into the Top 10 of the Hard Hitters chart, and well up on the COR chart. On this latest CD-pro, we are treated to two new songs, the epic length and sinister melody of "No Way Out - To Be Continued" and the upbeat song "The Breeding House", which is fairly reminiscent of Maiden with its quick, buoyant guitar work and the soaring vocals of **Dickinson**. With a continued draw and a charismatic personality, Bruce Dickinson will always be a sought after individual in the hard rock realm, and with new music to play, there is no reason not to "clown" around with your listeners this fall!

# + SINGLE Matters CONT. +

Bile, "Ura F\*cking Loser" (edit) (Energy) Leave it Bile to cut right to the chase and tell us all what they really think! After putting on one of the most talked about shows at Foundations Forum, they have been playing around the East Coast and leaving audiences shell shocked for hours. They are one of those bands who are able to deliver both live

and on CD, with a release that will have your neighbors believing that the end of the world has arrived. Due to the emphatic response to this song from radio stations, you now have an FCC safe version of "Ura F\*cking Loser", the latest single, to unleash on your defenseless listeners. In another example of their industrial wizardry, Bile channel their intolerance and hatred for the world into one blistering and pounding track - which we know is exactly what you are looking for out there at metal radio. So don't be a loser, just make sure that **Bile** spend some quality time with your listeners right away!

## Sphinx, "Jonestown" (Heart & Soul)

A few months ago, we first introduced you to the sounds of Sphinx, and do to their melodic hooks and killer live show (I talked to many a metal programmer who was blown away by their live performance) they climbed up into the Top Spins chart. This Chicago band has been one of the hottest draws on the city scene

for a few years now, and after finishing a tour of the South and Midwest they are back home and ready for you to check out their latest track "Jonestown", a rocker fueled by a cascading array of riffs and a melody that will both stick in your head and hit you in the gut, reminiscent of old Saigon Kick. If that isn't enough, spend some more time with "Out of My Head" or "I Know", which are both from the Test LP, or the acoustic version of "Jonestown", which takes on a completely new persona from the original. Sphinx easily have songwriting ability, the talent, and the hardworking attitude to make a hefty mark in the hard rock music world - be sure to grab them while they are on the way up, not after they already get there.

Godspeed (Atlantic), Bile (Energy), Merauder, Deadguy, Murder Dne and Core all performed at the Fastlane in Asbury Park, New Jersey. Did you hear about the honor student in a Boston suburb who was arrested for willfully interrupting and disturbing a school? Apparently the whole incident came about because Yvonne Nicoletti wore a White Zombie (Geffen) t-shirt featuring two fully clothed but large breasted women on it to school, and the female assistant principal told Yvonne that her shirt was "offensive and nearly obscene", and to go home and remove it. Yvonne (who has a 36D bustline) asked the assistant principal if her chest was also offensive, and she was subsequently told to leave the campus. Yvonne then planted herself on the school's "protest rock", removed her bra and began telling other students why she had been sent home, all while waving her bra around. Four police cars arrived on the scene and arrested her. Yvonne's parents felt her artistic freedom and First Amendment rights have been violated, and contacted the Massachusetts affiliate of the American Civil Liberties Union. Zombie frontman and designer of the t-shirt, Rob Zombie commented that, "This is another case of an outdated school system trying to break the spirit of an intelligent, free thinking student. High school administrators have got to get it through their time-warped, Ozzie & Harriet brains that students have a right to be themselves. తితితితో Many thanks to EMI main man **Michael Schnapp** for bringing the boys in Moist and their manager type Keith by the Hard hut. What a nice bunch of guys. And, WOW!, do they put on a good show — Can you say HUGE?! We can, and have no doubt these Canouvers have a bright future ahead of them... Muchos gracious to Super Sue Stillwagon for the tix to see the Killing Joke and Stabbing Westward show. What a great way to spend a Halloween evening. Peace.

echobelly

## Echobelly, "I Can't Imagine The World Without Me," Rhythm King

Talk about this band has been loud and prominent since before the summer, as this heavily-lauded record from England caught people's ears as an import. Here's the story — singer Sonya Aurora-Madan and guitarist Glenn Johansson hooked up

in a London bar in '93, and nine months later, they were the darlings of the British music press. <u>Everyone's Got One</u> is manufactured domestically by Sony, distributed by RED and spearheaded promotionally by the folks at McCluskey. Echobelly's music is filled with self-assurance, alternating between teeth-gritting sweetness and bravado, with a pronounced tip o'the hat to late '70s/early '80s new wave. But to dismiss the band as a simple throwback is to not view the whole picture — the band's quality lies in its expressiveness and strong sense of identity, which is purveyed in a palatable, modern pop context. Added at **KDGE, WDST**, and **WHTG**, where **Matty** says, "That single lives up to the hype that the press has been pushing. The vocals are unique as well as the Smiths/Johnny Marr influenced guitars. We've been receiving great reaction from it."

# CHOICE

*The Goats, "Rumble Fish," Ruff House/Columbia* 

Writing/performing intelligent, relevant hip-hop is what these Philly boys do best. They won their share of fans with 1992's <u>Tricks Of The Shade</u>, which displayed the band's ample levels of humor and musical originality. <u>No Goats. No</u> <u>Glory</u> utilizes many of the concepts introduced in the previ-

ous record — the lyrical acumen and the overall knowing, smirky nature — and this time presents it with more musical intensity and new ideas in the mix. And, as those who've seen them live can definitely attest, they possess a certain energy that you don't find in too many hip-hop oriented artists. Perhaps it's the live band nature of the Goats, that adds a new, different dimension to the recorded material. The record's been out five weeks and it's already scanned 8,000 records — very impressive with virtually no airplay. Watch them further develop.

## Portishead, "Sour Times," London

Yeah, we know we're late on this one, but the reaction has been so huge that we figured we'd print some of it. And besides, you know we just love a well-played lyre. **Jeanne Atwood** at **WDST** remarks, "We've been on it for about two months now and are playing it pretty heavily. When we play it, the phones light up with inquiries. The listeners love it and we love it."

Pinfield comments, "It's like nothing else that's out there. The listeners are very curious about this track." Heather Lose at WRLG says, "I've been getting calls on this one. Listeners haven't been able to get it out of their heads. Any Twin Peaks fan will enjoy." And WOXY's Julie Forman exclaims, "Oh man! So unique it'll stand out more than anything you're playing now. Was #3 phones this week. It's like Tom Waits meets David Lynch. Makes me want a cup of Joe and some cherry pie. Hunt down the Airbus Reconstruction mix.

Kill Creek, "Cosmetic Surgery," Mammoth A band possessing a tremendous sense of vigor and exuberance, Lawrence, Kansas' Kill Creek purvey an intense guitar onslaught over the course of <u>St. Valentine's Garage</u>, their hookladen Mammoth debut. Presented with rawness and brutal honesty, the band's material is filled with subtle ironies, though the spirit is high-charged enough to induce a straightbe load track is one of our one muscle and bide octane poles.

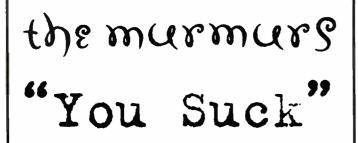

from-the-gut reaction. The lead track is one of pure pop muscle and high-octane polency, cohesive and catchy as hell.

The 360's, "Tripping With The Angels," RCA This band has been pretty active in the Boston scene for most of the '90s, and their debut RCA record (third overall) is a lesson in bare bones rock and roll attitude, presented with a strong air of selfconfidence. More than a touch of psychedelia is present in the mix, as the record flows with jarring earthiness. The Iead track is indicative of the poised and totally musically assured

nature of the band. Already on WFNX, WHTG and WRXS

It's been a tumultuous couple of weeks in the WEA organization, hasn't it? First Elektra, now Warners. Last week it was announced that Danny Goldberg will be Mo Ostin's replacement as Chairman/CEO of the company, and Val Azzoli was named President of Atlantic. Speculation surrounds much of the Bunny staff, though don't expect any major changes to happen until early next year at the very least. Questions do surround Warner Music Group Chairman/CEO Robert Morgado — an article published in the New York Times last week indicated that Morgado would possibly exit the company now that Richard Parsons has been named Time Warner President, a position that Morgato wanted. The Times also reported about Goldberg, Doug Morris, and Sylvia Rhone taking a stand against Morgato in a meeting two weeks ago, with all three threatening to quit if Morris was not given more autonomy. Wild .... Two new stations surfaced this week. In Houston, Shamrock classic rocker KZFX flipped to KRQT (The Rocket) on Halloween. The station is running jockless for the time being. A Beatles double album, "Live At The BBC," is to be released at the end of November. Producer George Martin put together the compilation of songs recorded for various radio shows of the British Broadcasting Corporation. The LP will include 56 songs recorded for broadcast in the early 1960s, 30 of which have never been officially released. Some of the songs were recorded live in Liverpool and Hamburg, Germany, while others were taken from BBC programs including "Saturday Club," "Easy Beat" and the Beatles series "Pop Go The Beatles" and "From Us To You," between 1962 and 1965. The album will have a total running time of over 130 minutes and include new versions of "Love Me Do" and "Ticket To Ride." The package will include a John Lennon-Paul McCartney song called "I'll Be On My Way," which Billy J. Kramer recorded for the bside of his debut single "Do You Want To Know A Secret." The album will also include "That's All Right (Mama)," "Johnny B. Goode," "Dizzy Miss Lizzy," "Roll Over Beethoven," "Sweet Little Sixteen," and previously unreleased songs "I Got A Woman," "Too Much Monkey Business," "Youngblood," "That's All Right (Mama)," "Lucille," "Hippy Hippy Shake" and "Glad All Over." The album also includes Beatles conversations with BBC DJs Brian Matthew and Alan Freeman. EMI, the BBC and Apple Records had been negotiating over the rights to the recordings since the late 1980s. The tracks were originally recorded on a two-track mono tape machine, but have been lovingly digitally remastered by producer Martin.

Drummer **Dave Grohi** of **Nirvana** has reportedly joined **Tom Petty & The Heartbreakers**, replacing **Stan Lynch**. He's expected to go on the road with the band early next year.

**Tom Scholz** of **Boston** has been ordered by a federal court to pay over \$1 million to former manager Paul Ahern for breach of contract. Ahern filed a lawsuit for royalties he said he should have been paid for Boston's 1986 album "Third Stage." A jury had recommended \$547,000 in damages, but the judge doubled the award.

**Pearl Jam's** "Vitalogy" album comes out on November 22 as a vinyl album and on December 6 as a CD. The LP takes its title from a 1927 self-help book singer **Eddle Vedder** found. The CD package will include a 35-page booklet that relates the 14 songs on the album to portions of the book.

Alison Moyet, Neneh Cherry, Everything But The Girl and Suede have recorded performances in London for a benefit television special that will air in January. In a program hosted by Holly Johnson, all the artists gave their services free to benefit Lifehouse, an AIDS caregiving group. "The show is a celebration for those who are living with HIV and AIDS, not a requiem for the dead," says the show's producer, Helen Terry. "The message is clear. HIV and AIDS do not discriminate. We are all at risk irrespective of race, creed or sexual preference. Protection and education are vital but life can be lived to the full, regardless of your HIV status."

The **Black Crowes** are complaining that some stores won't stock their "amorica" album because the cover photo shows pubic hair. Posters with the album cover were rejected by London's subway system. The cover photo was taken from the 1976 Bicentennial issue of Hustler magazine, which Crowes singer **Chris Robinson** thought illustrated the title concept mixing America, amore and amoral. The former **Cat Stevens** has been working on his first album since 1977. However, it's a mostly spoken-word album called "The Life Of The Last Prophet." Stevens, whose real name is Steven Georgiou, now calls himself **Yusuf Islam**. He recently filed a lawsuit against his record label, claiming they haven't paid sufficient royalties for sales of his back catalogue.

**Roger McGuinn** has been writing songs for a new album, but doesn't know when it might be completed. "I don't crank them out every year," he says. "I used to do that, and it was kind of a waste of time. You get burned out and tired of doing it." McGuinn says he's more willing to include a cover version on one of his albums. Some of them are songs he wouldn't have considered a few years ago. "They're more acoustic, more folk-oriented, and the pendulum has swung in that direction," he says. McGuinn says he resists urging to reform the **Byrds**. "We could have made some money if we'd wanted to do it," he says. "But I really think their time is past. It would be just for the money. It would lack artistic integrity."

Russia is getting a taste of Western music, thanks to recent concerts by **Chris DeBurgh, Liza Minelli** and **David Byrne**, which have proved very popular. As the country emerges from cultural isolation, more artists are headed there to play. **Sting** is scheduled to perform in Moscow next month and **Elton John** is to follow in February. Negotiations are underway for other names to play in Russia including the **Rolling Stones** and **Stevie Wonder**.

John Dette, formerly of Evil Dead, has been confirmed as the new drummer for **Testament**. The band goes on the road November 17th with Dette and guitarist **James Murphy**, who joined Testament earlier this year. The band has just released the album "Low."

Film director John McTiernan has chosen **Sam Phillips** to appear in the next "Die Hard" movie after seeing her picture on the cover of the "Martinis & Bikinis" album. Phillips will play a terrorist named Katya in the film "Die Hard: With A Vengeance," which will star Bruce Willis and Jeremy Irons.

People too lazy to read can hear **Henry Rollins** read from his private journals about touring with **Black Flag** by buying the audiobook of "Get In The Van: On The Road With Black Flag." The double cassette or CD package runs approximately three hours. Berry Gordy, the founder of Motown Records, has also put his autobiography, "To Be Loved — The Music, the Magic, the Memories of Motown," on audiotape. "It's a little more interesting because it reaches the kids or people like me," Gordy says. "I was a high school dropout, and I didn't like to read intellectual books."

**Rage Against The Machine** and **Cypress Hill** were among the acts on the bill for a recent Latinpalooza concert in Los Angeles. Some moneys from the show were being donated to four activist organizations — the Leonard Peltier Defense Fund, the United Farm Workers, an organization that feeds Hispanic children, and a planned AIDS mural.

A tentative settlement has been reached that would resolve lawsuits by about 60 women who had filed lawsuit against **Chuck Berry** for allegedly videotaping women using the restrooms at his former restaurant and recreation park. Settlements would total \$830,000. Berry's attorney says the singer didn't make the videotapes and he "isn't sure who did it." **George Jones** says he's given up smoking as he recovers from triple-bypass heart surgery. "No more vices for George Jones," he says. He adds that he's also begun working on a treadmill and riding a bicycle. "I never did exercise much and that's where the biggest problem was," Jones says. "Now I do it and I enjoy doing it." Jones plans to resume performing with a concert in Hagerstown, Maryland, on November 10.

Drummer **Chris Reece** has left **Social Distortion**, after 11 years as the band's drummer. Reece plans to expand his work managing California band **Joyride** into a full-time career. "We'll really miss Chris," says Social Distortion singer **Mike Ness**. "He's like family. But it comes as no surprise. Chris handled all of our business in the early days — and he was good at it." The remaining members of Social Distortion are auditioning drummers in anticipation of recording a new album for release in the spring.

Wilbert Harrison, who had an R&B and pop hit in May 1959 with "Kansas City," has died of a stroke at age 65 at a nursing home in Spencer, North Carolina. "Kansas City" had been covered by the **Beatles** and James Brown. Harrison also had a top 40 hit in 1970 with "Let's Work Together," and he opened for **Creedence Clearwater Revival** on a tour that year.

Buddy Guy recorded half of his new "Slippin' In" album in Chicago with his band, then headed down to Austin Texas, to record more material with Stevie Ray Vaughan's band, Double Trouble. The LP, produced by Eddie Kramer, includes a version of Jimmy Reed's "Shame, Shame, Shame" and two Charles Brown tunes — "Please Don't Drive Me Away" and "Trouble Blues."

**Holly Johnson** has released a new single in Britain called "Legendary Children (All Of Them Queer)." The record lists a number of people Johnson believes to be homosexual, including Andy Warhol and **Boy George**. "The people I mention made a large contribution to the culture of the planet — not only heterosexual culture, but queer culture," Johnson says. "Basically it's my thank you to the gay community because there aren't enough life-affirming experiences for gay people."

The record label (American Recordings) that's home to the **Black Crowes, Slayer, Danzig** and **Johnny Cash** has reached a settlement in a lawsuit it filed with its overseas distributor (Phonogram Ltd.) The U.S. label had accused the European distributor of misappropriating over \$6 million in foreign sales of its recordings. Details of the settlement were not disclosed. "The parties have fully and unreservedly withdrawn their respective claims...including the allegations of fraud and dishonest under-accounting made by American against Phonogram," said a statement from American Recordings. After it filed the lawsuit, American signed an agreement with another distributor for Europe.

Former Blake Bables and Antenna member John Strohm has an album out with his new band Velo-Deluxe. The trio also includes Kenny Childers and Mitch Harris. "In the past, I always obsessed over getting everything to sound perfect, but I recently realized that every record I really love — from 'Fun House' to 'Zuma' — is totally sloppy and fucked-up sounding, " Strohm says. The new Velo-Deluxe album is called "Superelastic" (on Marmoth Records).

People for the Ethical Treatment of Animals are upset that **Madonna** plans to feature a bullfight in her video for "Take A Bow," from her new "Bedtime Stories" album. "We feel if Madonna glorifies one of the cruelest traditions and makes it sexy once again it could be troublesome to the progress we've made in educating the younger generation in Spain against bullfighting," a PETA spokesman says. "There is finally a strong anti-bullfight sentiment there." A Madonna spokesman says there will be no real bullfighting in the video and that "Madonna will make sure the bulls will live happily ever after." PETA remains unconvinced, citing a Madonna interview in the Spanish magazine La Vanguardia in which she says "I am attracted to brutality...The bullfights are really romantic because death is a part of life. Romance is about life, death and love."

Sinead O'Connor has contributed the song "Three Babies" to a compilation album called "A Woman's Heart 2 — The Fiery Musical Pulse Of Ireland." Mary Black, Maura O'Connell and Dolores Keane are among the singers on the follow-up to a popular compilation of female singers released five years ago.

Julian Lennon is to make his acting debut playing a bartender in "Leaving Las Vegas," a film starring Nicolas Cage.

A series of eight erotic drawings by **John Lennon** are being shown at the Ludwig Museum in Budapest, Hungary, for the first time since they were confiscated by Scotland Yard from the London Art Gallery in January 1970.

**Linda Perry** of **4 Non Blondes** will launch her own record label (Rockstar Records) next spring with an album by **Stone Fox**, a San Francisco rock band. Perry is also working with the rest of 4 Non Blondes on a new album for release in the spring.

Britain's Labour Research magazine reports **Peter Gabriel** had \$1.6 million in income during the year ending June 1993.

Joey Ramones has recorded a three-song single with his brother, Mickey Leigh. They're calling themselves Sibling Rivalry and their record is released on Jello Biafra's record label (Alternative Tentacles).

**Malcolm McLaren** has told the London Evening Standard newspaper that the late **Sid Vicious** never played a note for the **Sex Pistols**. "Sid's playing was so bad that we'd hide someone behind the speakers to play his bass parts. It was usually a roadie," says McLaren, the band's former manager. "We'd have to tape up the amp so Sid couldn't tell it was turned off, but the audience would have known soon enough — he made such a horrible racket they'd all have wondered what was going on." McLaren says Vicious was a great singer, but "a terrible musician."

**Godflesh** have asked controversial visual artist Andres Serrano to direct their video for "Crush My Soul." Serrano was responsible for the "Piss Christ" photograph of a cross in urine.

Toronto rapper **Snow** releases a new album later this month, called "Murder Love" (on EastWest Records). New York rapper **MC Shan** produced the LP, which includes the tracks "Rivertown" and "Sexy Girl."

British chart success **Des'ree** is opening for **Seal** for five weeks, in her first U.S. tour.

**Anthony Krizan** has replaced founding member **Eric Schenkman** in the **Spin Dcotors**, who will play a few dates, mostly in Florida and Canada, in late November and December.

**Bob Dylan** will have a new song called "Dignity" on his "Greatest Hits Vol. 3" album coming out in January. Dylan also contributes "Boogie Woogie Country Girl" to "Till The Night Is Gone," a **Doc Pomus** tribute album, which also features tracks from **Aaron Neville, Lou Reed, Los Lobos, Shawn Colvin, John Hiatt, Brian Wilson, B.B. King** and **Dion**.

**INXS** releases a greatest hits album this month (on Atlantic Records). "The Very Best of INXS" includes 17 songs by the band, including two new tunes, "Strangest Party" and "Deliver Me."

**Diana Ross** is looking for investors for a new version of the 1981 French film 'Diva." Ross is attempting a remake of the classy cult movie about a French opera singer that includes a thrilling chase through the Paris subway system. Ross's last film venture, "The Wiz," was a flop, which will not help her chances of getting funding for the new "Diva." Meanwhile, Ross has received a quadruple platinum record for sales in Britain of over a million copies of her "One Woman: The Ultimate Collection" album. At her record company's London offices, Ross recreated a photo made of her in 1964 while she was a member of the **Supremes**.

Lead singer **Maurice White** won't be touring with **Earth, Wind & Fire** any more. A spokesman says White has "had enough for now" after touring for over 20 years, and prefers to direct his energies towards producing.

Rapper **2 Pac** Shakur has been sentenced to 10 days in jail and 35 hours of community service for threatening a local rapper with a baseball bat during a concert in April 1993 at Michigan State University. Circuit Judge Lawrence Glazer in Lansing gave Shakur a 30-day jail term, but suspended two-thirds of it in exchange for community service.

Luther Campbell, former leader of the 2 Live Crew, has been ordered by a Florida judge to pay \$1.6 million to MC Shy D. Rapper Shy sued for breach of contract and misrepresentation, seeking proceeds from the "Gotta Be Tough" and "Comin' Correct In '88" albums. Circuit Judge Peter Capua awarded back royalties, punitive damages and interest in the civil lawsuit.

mental issues, or no telling what, and it was always intelligent and stimulating (at least on Joe's part). He was a true friend and like all who knew him, he will be truly missed...but never forgotten. I would like to publicity thank Tom Starr for his words about Joe last week. They were beautiful and so very, very true.

## KIM LANGBECKER

COLUMBIA RECORDS, 212-833-4989 I hope everyone had a rockin' Halloween! Special kudos to Val Serrano at KNAC and the crew who put together one helluva bash on the Queen Mary last Saturday night! Thanks for the great time ... I'm gearing up to go see C.D.C. in Seattle this Thursday. I understand the show in Denver was amazing - S.R.O. Thanks to the folks at KILO for making the drive up and for playing #\$@\* out of this band!.. And if that's not enough, Pink Floyd on Pay Per View! Incredible! Hope you had a chance to catch it! Speaking of Floyd, "Lost For Words" comes roaring in at #3 most added with great calls too numerous to mention... And with a growing legion of believers "Dignity" delivers again with another 25 including KSHE, KYYS, WJXQ - now at over 200 spins. C.D.C. continues to "fly" with "Albatross" coming in with another 15 stations bringing the total to 70 including Q104, WQFM, WDHA, KDJK, KLBJ, KRZR. Top 5 phones at KILO, KIBZ, KQXR, WROC... Soul Asylum deserves to be on your radio station! We are over 500 spins on this record moving from 46 to 36\* with over 100 stations total. The movie is out there and the video is on MTV getting great rotation. This is a core band for the format ... Alice in Chains continues to bring in great radio stations every week like WEBN, KEZE, WIXV, WKLQ, KRAB, WSTV, KBAT, WSTZ, KBAT, WTBB, KOCD taking a nice move to 32\* on BDS. Trust me, you can play more than one Alice track! Really!.. Toad the Wet Sprocket continues to show strong growth increasing to over 700 spins on BDS... And the Nativity in Black project has quietly sold over 70,000 pieces nationally. If you are not dealing with this you are doing your listeners a disservice. And as promised my weekly "you gotta listen to this record" speech ... FAT TUESDAY. FAT TUESDAY. FAT TUESDAY. Take it home, play it in the car, on your walkman, whatever but just give this record your undivided attention for 4 minutes out of the day. You will not be able to forget it!.. That's it. I'm off to the lovely Northwest. Have a really groovy weekl

**SCOTT DOUGLAS, VIRGIN, 212-332-0418** *Gilbey Clarke* guns outla the box with "Tijuana Jail" onto 30+ stations including majors in time riddles with heavy traffic. Has there been a time recently with so much great music? And the hits just keep on coming...Rolling Stones "Out of Tears" is proving itself to be a killer and we're shipping you a version of "Sparks Will Fly" that you can play for the PTA. What more can we do to make your life easier?..

Smashing Pumpkins belongs in the heavy hitter category as well. Pick your poison...."Frail and Bedazzled" or "Landslide", or both...play them and they will react... Now to the adult section of our show....Bryan Ferry "Mamouna" is a great song, period. And, his shows are selling out everywhere.... BBM "City of Gold" is "Crossroads" with more tempo and more of an edge... Lastly, call your favorite Virgin for a listen to the new Simple Minds which is coming in January. It rocks.

## CHRIS WOLTMAN, COLUMBIA

It seems like traffic never stops, this week is no exception. **Pink Floyd's** "Lost For Words" comes out with a bang!! I have more people say to me "Finally you are going to release this track." For the people playing this track you know how great it sounds on the air

## **Industry**Comments

and you also know how this track is/has been researching. At KQRS the research has been phenomenal for weeks. Big Guys in this week .... WIYY, KYYS, WSHE, WRCX, WRIF to name a few... C.D.C. looks great! Every week the growth on "Albatross" confirms what we already know. 15 new quality stations including WQFM, KLBL, WDHA, KTAL, WKDF, WFYV, KRZR to name a few. We have over 70 stations in three weeks!!! It's all starting to come together with a combination of quality airplay, a band that works their ass off on the road, MTV - which added "Albatross" into active last week - and a real belief and commitment to COC... Bob Dylan's "Dignity" is kicking ass. Another week of cover 15 stations including KYYS and KSHE. Oedipus sums it up by saving that this is "one of Dylan's greats."... Both Soul Asylum's "Can't Even Tell" and Toad the Wet Sprockets "Something's Always Wrong" took great moves in B.D.S. Soul Asylum 46-36\*, Toad 26-21\*. Every week these tracks keep getting stronger and more stations make the room for music that should be on the air. Black Sabbath Tribute record - check out the sales....already over 60,000 strong. Make sure you listen to Fat Tuesday's "Winter Storm" - it's an amazing track...just listen to it.

DAVE LOMBARDI, WARNER BROS. RECORDS There's more rumors flying around here than at a Fleetwood Mac reunion, but in spite of what you heard, or what you read, or said, the Tom Petty video still isn't finished. So there ... In the meantime, stock up on Gods Child ("Stone Horses" galloped to a strong first week); Candlebox (Cover Me" is the fastest breaking song yet from the album); "Money Talk" by the Pretenders is the best female-vocale song at format, if you haven't noticed (and many of you haven't). Whats Chrissie gotta do anyway, screw somebody in Pearl Jam? Cerrito, give me a cal. I. And as for those Flaming Lips: to avoid that confounded chafing (you know, Warner Bros. reps on your ass about this one), give it a test or break down and add it! The music lovers at KRRK, WKLL, KOZE and 99X did, and in a week or so I'll tell you about the phone action there, because it will happen. The band's touring with **Candlebox** (sold out, by the way) and it doesn't matter if you get the Lips of not, because the kids do... Go see Pulp Fiction. Twice, at least. I'm out.

**PAM EDWARDS, CHAOS, 212-833-8293** From their lips to your ears... "Top 5 phones for the last month, #5 best testing record on the station" -Bob Richards/KBPI... "Research locks strong" - Carey Curlop/KLOS... "This is gonna be huge" - Duane Doherty/KEGL. What's the song? "Plowed" from **Sponge**! The same record that took the biggest move of all new records on the BDS chart this week. The same record that WQFM, KTXQ, KNCN, KTUX, KKEG, WSTZ, KUGR, and Z-Rock added this week. The same record that counts WBCN, KISW, KISS, Q104.3, KEGL, KQRC, KSJO, KUPD, KIOZ, WSHE. WMMS, WRCX and 50 others as early supporters... The same record that is cutting through amazing superstar competition and holding its own... Get "Plowed".

## JON NARDACHONE

ATLANTIC RECORDS, 212-275-2135 It's hard to believe I'm still alive ... Six days, seven towns, 1600 miles and two bottles of amphetamines with the hardest working band in America, Savatage, is something that might have killed an average man, but those who shared the experience in Los Angeles, Las Vegas, Phoenix, Albg., Abilene, and Dallas are by no means normal!!! Thanx to the following superhumans for keeping me safe and sound ... my partner in crime, Devastation's Rob Conner, a man of many words who managed to give Zachary Stevens the "black flu", Alex Skolnick a headache, and Jon Oliva a coronary... Janie "let's dine in Jersey Hoffman, the king of the kind bud, KNAC's Malcolm Ryker, the king of L.A. Testament, Slayer, Oream Theater, Rush, Core, Korn, Monster Magnet, Flipper, Clutch, Black Flag, and of course Lynyrd Skynyrd...

EJ JOHANTGEN, COLUMBIA, 212-833-4989

Now I have. Korn!!! So let's talk about how they are top 10 requested and the album came out a couple of short weeks ago. Or how about the fact that in every city they've played, they sold a substantial amount of records. What about Korn selling off of airplay? Just ask KNAC, KRZZ, WKLQ, WTPA, WYCR, KZRX, WSOU, or WIYY. We're already selling records off a spin here and a spin there. Think about it and make sure that you choose not to be a korn flake!... Now that you have all received Devil Head, start spinning "Too Much Protection" and write that puppy down as an add!....Coming up release wise for your holiday listening pleasure are Fight's "Christmas Ride" and Thanksgiving weekend (Rob rules) automatically since you all supported the LP and EP yet you must show your love for Korn in order to receive their limited edition red vinyl if "Christmas Song". ## MARK ABRAMSON

ROADRUNNER RECORDS, 212-219-0077 What is the measure of true success? How about if a band came out of humble beginnings with a sound foreign to the expected. This band then went to a format that never heard of them and over a long and painful process started to gain speed. Then over a 10 month process even prove themselves to be a rare record that works better than most new bands ever dream of. All this with a sound unlike anything ever heard on radio today. Should we judge a band like this on some chart numbers or how the reality reacts. I would say that a band that works everywhere (sales, phones, research) should be treated as a success. Type O Negative. We are still working this band. A band that works this well, will succeed. Period. If you are not aware of this band, you should make yourself aware of them. If you are aware of it and have not added it yet, you need to investigate what this bad is really about. If you have added it you should already be tasting success. Type O Negative. A once in a lifetime record. On tour through February with Danzig - pay attention. You will do your station a great justice... Also, prepare for Kevin Salem in January. You should all check out Low Pop Suicide's new release on World Domination Records, it's brilliant.

John DI MAIO, RADIOACTIVE, 212-489-4820 A moment of silence my MCA colleague Gary Spivack, whose beloved Colorado Buffs fell to the dreaded Huskers. If your really sympathetic, you'll add The Fatima Mansions "The Loyaliser", which should lift him out of his funk. Me too.

## BUD HARNER, MESA/BLUEMOON RECORDINGS 818-841-8585

You all should have your **Boxing Ghandis** CDs by now. I now your all going to add it just to get me off your backs! This is one cool disc and the band sounds just like the CD live. Funky, hooky, groovin' music with lyrics that aren't about someone's last love affair. Hell, I'm going to put it on again right now. Going for adds next Monday and Tuesday.

## MARNI HALPERN

ROADRUNNER RECORDS, 212-219-0077 Front Line Assembly is finally joining the metal brigade! Keep spinning "Vigilante", "Millennium" and "Divide of Mind". Then check out the rest of the brilliance this record has to offer... There will be a new single from Machine Head along with three B-sides which I will discuss with you soon enough. But I will for the life of me never understand why people will fuck over their friends for personal gain or vanity... All I can say is what comes around goes around honey. And you will get yours.

MARIA ABRIL, METAL BLADE, 805-522-9380 Mercyful Fate #1 added....thank you. Make it #1 overall now Fates Warning on tour with Dream Theater. ## CHAINSAW

MECHANIC/FUTURIST, 212-226-7272 Ok, it appears that some people haven't been able to tell the difference between me promoting my bands and me simply conversing about bands. I never once told anybody not to play one band just to fit mine in. At least that is not what was intended to come across. I apologize to anyone who may have read that into what I may have said. I wish the best for any band with the conviction of my success. My personal opinions about a musical style are my own and shouldn't be taken as propaganda for my bands. Any of you who know me, know that I like joking about lots of bands, most of which are the bands I promote... Now with that said, let's get down to business, play my bands, ya rat bastards! Leeway, Overdose, Pushmonkey, Seed ... At The Gates on the way.

## GREG DERBAS, PAVEMENT, 708-916-1155

You'll all be happy to know that we are not putting any new material out his year. That's right. I know your all swamped with a gagillion titles on your desk, but hear are a few that might catch your ear. Of course they are all mine ... First off is New Idol Son, Reach. If you are not playing "Butterfly", you must be wacked out on drugs. The response has been phenomenal. These San Fran boys will be making their move with a video in the works and an upcoming tour with The Organization ... How about B-Thong. The bashers from Sweden definitely hit below the belt. Just ask WMWM, KMSA, WFCS, WDBM, KWUR, and WNYO to name a few. Check out "Schizophrenic Pavement" of "Fatal Accusation". Don't deny your listeners. Remember you there for them... Headlock's "Too Much Power" should be all over your airwaves. The

## MICHAEL BRIGHTON R.E.X. MUSIC, 615-370-8813

So this is the deal, I'm sitting in Philadelphia and I'm thinking I don't want to spend another hellacious winter scraping ice off my T.V. screen and shoveling the snow off the rug under the hole in my roof...I want to ride my Harley twelve months out of the year...I want to buy a pickup truck with a real bedliner and a gun rack and a roll bar...l want to meet grown men named Billy and Bobby and more importantly I want to eat meat seven days a week...pulled pork sandwiches and brisket for breakfast, and a nice fat steak for lunch...l want corn biskets...I want to steal freshly baked cherry pies off the back of window sills... I want to tip my hat to old ladies, and sit on the porch drinkin' hootch while I whittle little statues of Johnny Cash ... where the 'H' am I going to be able to do all this...they say down south is the place you want to be so I loaded up my truck and moved to Tennessee...Nashville, Music City U.S.A... My first month at R.E.X. and it's a blast, we've got absolutely thee best roster of any indie label out there. If you're not on Six Feet Deep yet ask yourself why? Australia death metal band Paramecium in your mailbox now ... Circle of Dust release on the streets in full effect in January ... Latest signing Fleming & John lead off this year's sampler disc, full length out in February. If you want one, call me at the label... ## DENNIS CONSTANTINE & JASON PARKER CONSTANTINE CONSULTING 303-440-5470

KBCO has moved into their plush, new studios in Boulder at the corner of Folsom and Pearl Street, right next door to the very first KBCO studio location ( now the home of Public Radio Station KGNU). The new studios feature a very cool modern architecture design. The lobby look into the new C Studio performance room. It's gorgeous! The station spent the weekend playing CD's while they were unpacking boxes. The theme of the weekend was. "The Disc". A list of great albums, old and new, was compiled, and the discs were playing in their entirety. It was a great sounding weekend of music... The November issue of Los Angeles magazine has named KSCA (FM 101.9) as the Best Radio Station in Los Angeles. To quote,"....KSCA is the only radio station true to its moniker - album alternative. Listening to new-comer is like setting your own music on random play. When's the last time you heard Elvis Costello's "Watching the Detectives" while snarled in rush hour madness? And knowledgeable, low-key, adult deejays give lots of info on who's playing back-up for whom, and the in-studio guest are giving KCRW some stiff competition. Sure, occasionally they spin too much Joni Mitchell but her songs are short!"... With Wildflowers (Warner Bros.) Tom Petty has finally released the album we have been waiting for. There are too many great songs to mention, but a few of our early favorites are the title track, "It's Good To Be King", "Cabin Down Below", and "Crawling Back To You". This album should be around for a long time. so don't rush off the single, "You Don't Know How It Feels". Back it with a couple others and enjoy!. Concrete Blond is gone but not forgotten. Still in Hollywood (RS) is a collection of unreleased material from Johnette and crew. Highlights include a wonderful version of Leonard Cohen's "Everybody Knows" (Originally on the Pump Up The Volume' OST) that everyone should be playing. "Probably Will", "Mandocello", and "100 Games Of Solitaire"

Nice to have some new music from this now defunct band. <u>The First Day</u> (Virgin), last years collaboration between **David Sylvian** and **Robert Fripp** was one of the musical highlights of the year. Now the two have a live album coming called <u>Damage</u> (Virgin). You should have a two track sampler with the studio version of "The First Day" and the live "Blinding Light Of Heaven". The latter is a great night song, and there will be more gems on the full album... **Buddy Guy** is one of the most explosive blues men on the planet. His singing and guitar playing can range from reckless abandon to sweet touch, and everything in between. His new album, <u>Steppin' In</u> (Silvertone) is a great blues album. Songs like "Someone Else Steppin' In", and "I Smell Trouble", have long been a part of

Buddy's live show. The Jimmy Reed Shuffle "Shame, Shame, Shame" is definitely a standout, as are Charles Brown's "Trouble Blues" and the Buddy original "Cities Need Help"... Thomas Dolby's new one, The Gate To The Minds Eye (Giant) is the soundtrack to a video/album in "The Minds Eye Series". "Nuvogue" is a fun, jazzy tune reminiscent of Cab Calloway. "Valley Of The Minds Eye" is a technopop love ballad. "N.E.O." is the most interesting track on the album. It is a spoken word tune by an Italian Astrophysicist named Feorella Terenzi... The Black Crowes are back with Amorica (American), their third album. Along with the ever-present Faces and Stones influences, they have added some funk ala Sly and The Family Stone. "Sonfiction" is the focus track for AAA, it's a spacey confessional with some nice guitar and piano work. "High Head Blues" is more of a rocker, with obvious drug references (we like those, don't we?) and "Descending" is a fine ballad ... Capitol is getting ready to release a 3 CD from The Band called Across The Great Divide, along with their greatest hits, it also includes some rarities you'll find in a sampler on your desk ... Chuck Berry's "Back To Memphis" and **Dylan's** "Don't Ya Tell Henry" were recorded live in 1975 and unavailable on disc until now. "Orange Juice Blues" (Blues For Breakfast) is a rare Richard Manuel demo recorded as The Hawks in 1967. These should be treats to any **Band** fans... The CD pro for Jeffrey Gaines "I Know A Man" (Chrysalis) has eight live acoustic tracks included. Now we have live options for "Hero In Me" (recorded in Finland), "Nursery Rhyme" (recorded in KBCO's Studio C) and others as well as the wonderful version of Peter Gabriels' "In Your Eyes" (recorded for WXPN's "World Cafe")
