Pink Floyd, "What Do You Want From Me," Columbia

The first single from the upcoming double live album "Pulse" is this standout from the <u>Division Bell</u> CD performed live as it was before hundreds of thousands of screaming Floyd legions all over the country. Many played the track with success, though most would say without appreciable burn. It plays as a nice introductory offer to this live compilation which boasts a live "Dark Side of the Moon," in its entirety, in addition to many other tasty tidbits of live Pink Floyd. Heritage can't lose with Floyd, and

the extraordinary success of the past tour only reinforces the band's position as one of the greatest rock and roll spectacles of all time. A little audio reminder will set off fireworks for those who partook, and allow for further inspection of the Floyd catalogue by those who wished they were there.

After ten years of working the underground hard rock markets, the boys in **Corrosion of Conformity** have obviously found themselves a niche in the world of mainstream rock. With the first track "Albatross", they were able to introduce themselves to the mass audience, and with the single "Clean My Wounds" they added MTV into the mix. The latest sample from <u>Deliverance</u> is the powerful hook laden groove of "Seven Days". Unlike the onslaught of "power-pop" songs on radio, "Seven Days" burrows its way into your head

with a warm and fuzzy studio feel and almost emotional guitar licks. After just completing a U.S. tour with Megadeth, the band plans to join the summer touring trail with Monster Magnet, further heightening their viz. The critical acclaim for **C.O.C**. and <u>Deliverance</u> is a given, so give your good listeners "Seven Days" worth. Just look to **WDZR** in Detroit where **Joe Bevilacqua** states simply, "It sells. It tests. It requests. Just another part of the great C.O.C. story here!"

HERITAGE

U2, "Hold Me, Thrill Me, Kiss Me, Kill Me," Atlantic

An offering from this band is always welcome at rock radio, and judging from the early sneakin', this one will certainly get plenty of exposure. With this release from the Batman movie soundtrack, U2 sends this <u>Zooropa</u>-styled single straight to the air on **WBAB, WLZR, WRCX** and **X107** this week, not to mention bunches of spins not recorded <u>yet as adds</u>. The strength of this cut lies

in the imaginative efforts of the band to recreate a Batman-esque feel to the cut without producing a cartoonish spray of sounds and gimmicks. It's a strong U2 song with or without a movie.

Meet You There

MOTHER MAY

3 Out Of 4 Critics Agree On Mother May I

"Mother May I's debut is a study in writting pop songs with hooks that grab the listener." Alternative Press

"Mother May I has an ear for power-pophooks... the trio's careening, infectious melodies are powered by the Mascis/Neil Young gutar style of Damon Hennessy." - Guitar

"The jumpy and harmonic power-pop- tunes are anchored by a bottom-heavy bass but it's Damon Hennessy's seductive plaintive quitar that give Mother May I its subtle kick." - Entertainment Weekly

> "These songs are trite and there are no hooks." - Ft. Collins Coloradoan

Hootie & the Blowfish, "Only Want To Hootie & the Blowfish, "Be With You" (Atlantic)

While it may seem like Hootie & the Blowfish have exploded onto the radio scene this year, the band actually has been hard at work for some time now. Their heartwarming and soulful style has found a home on at least four formats, and at a time when most contemporary lyrics seem to dwell on the downside of sex, drugs, and rock n' roll, Hootie and the Blowfish seem to put a bit of romanticism and commitment back into their music. The

upbeat, acoustic laced "Only Want To Be With You" has already found plenty of airplay, along with pulling in #1 most added on 22 stations including **KCLB** whose (self proclaimed) generic **Ron Stryker** spouts off with, "It's a great depth track from the <u>Cracked Rearview</u> disc." Thank you Ron for that insight!

Live, "All Over You" (Radioactive)

Can Live do any wrong? We don't think so, and neither does radio. Just when you thought they couldn't match the momentum of the chart crushing "Lightning..", they keep their torrid streak alive with yet another excellent track. "All Over You" works thanks to the enduring imprint of that strong rhythmic base with the soothing vocal line flowing over the top. Kind of like a root beer float, if you know what we mean. With a debut at #31 this week, Live pulled in 27 increases, along with

11 adds including the ever reliable quotemaster **Joe Bevilacqua** of **WDZR** who asses that "This thing does retail like mad, it's non-stop! It's a great song for a COR station, I love the chorus, I mean it's automatic - they don't even have to work it!" Pulling in 22 spins this week at **KLOL**, **Cindy Bennett** reemphasizes the fact it's "doing well with great research. It has the biggest hook and there isn't a song on this album that couldn't cut it!"

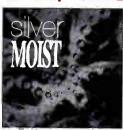

Magnificent Bastards, "Mockingbird Girl" (Elektra/EEG)

That the Courtney Love Executive-produced soundtrack will outperform the movie is a given by now, especially given the likelihood that "Mockingbird Girl" could legitimately wind up being a very successful single at the COR level in addition to the advanced Alternative activity. The song has been scooting up the Current Rock chart, up to #35 this week, with this subdued yet charismatic track with buzzing, edgy guitars, some feedback and a California attitude. And it sounds

great on WMMR, as it is a versatile segue for any rocker juggling the various rock food groups. The band features among others, Scott Weiland (from Stone Temple Pilots) and is hip enough to pull in 19 spins or better at KLOL, KRAB, KRZR, KUPD, KZRR, WBUZ, WDRK, WKLQ, WSFM, WZAT, WZZR, WAAF, WKZQ and X107.

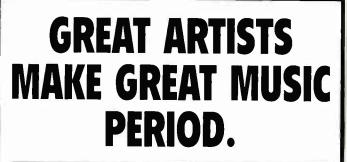

Moist, "Silver" (Chrysalis/EMI)

We have been big fans of these Canadians since the album first came out, and their airy, stately style continues to impress. Just think of it as the musical equivalent of those new Bud Ice commercials. This new track is potentially the most involving on the disc, doing damage with a deft combo of hook, melody and intensity. Vocalist David Usher really is the star of the show here, while his fellow Moist members do a neat job of wrapping those very saleable tones in a cool backing package. This

entrancing band continues to headline up north, and we can't imagine why the EMI braintrust didn't finagle a few dates with Queensryche. Radio wise, two more adds at **KEZE** and **KCLB**, whose **Ron Stryker** emphatically stated, "If you like the song, you play it. It's that simple!"

Big Sugar, "Ride Like Hell," Silvertone

ock Alternativ

This Canadian has got the potential to turn over some adds at Rock Alternative with this cut from the new release <u>500 Pounds</u>. And word is that this cat can rock 'em down on stage. Sugar takes rockabilly and blues through a grist mill of alternative attitude, and

pounds out a guitar groove screaming with classic influences. The live-sounding performance runs on the wild side, to be sure. It's a party track that will rock the boat in terms of providing a provocative fusion between a frontman with a reckless 'tude and a blues-based groove that doesn't stand a chance of sounding out of place.

Better Than Ezra, "In The Blood," Elektra/EEG

"Good" was indeed that. You wanna talk about great? This one's a hit. Everything we loved about the first one is present in an entirely new, extraordinarily provocative package. There's a poise to this track that suggests a trip to the Top is one which they've made

before. Composure, elegance, and good old-fashioned song sense are brought to a conclusion that is entirely 1995 in presentation and delivery. And that's what **KLOS's Carey** sums up in his comment, "We're already into it. It's done well, and researched well." It seems reasonable to assume that with the chart-topper "Good" beginning its descent, "In The Blood" folds right in as a good clean popcraft follow-up to one of the accepted new breed of bands you list, Heritage, COR, Rock Alternative or Alternative.

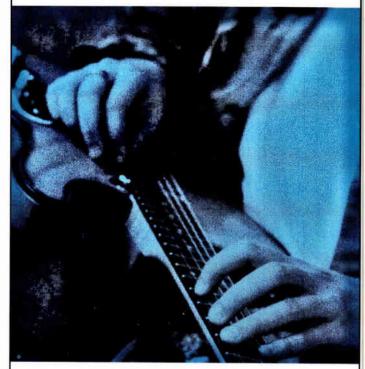

Weezer, "Say It Ain't So," DGC

From the band that releases some of the most talkedabout videos of recent memory comes another single from the already-successful campaign. They curl in 15 adds this week, including **WBCN, KBBT, KNNC, WMMS** and **WZRH**, and maintain some healthy

spins at **KOME (20-26)** and **KROQ (22-27)**. The tempo is much slower than earlier singles, and while Weezer is known for powerpunk pop tempos, this one would be welcomed for all-day play from an artist who's done the job of imaging themselves at this point, and stands to broaden their musical appeal to the masses with this effort.

Primus, "Wynonna's Big Brown Beaver," Interscope/AG

#1 Most Added this week with 21 new converts at Alternative, this one makes for ripe pickin's at Rock Alternative. Primus is an acquired taste, and the taste is catching on in great stead. For a sampling of some of the most distinctive music available to the alternative world, "Wynonna's..." will fit the bill to give you the edge that keeps you totally hip, and this track is listenable enough for a liberal daypart restriction. Adds at **91X, KEDG, KMYZ, KPOI, KRZQ,** and **WRZX** combined with the early airplay at **WBCN, KOME** and others lay the groundwork for the crawl up the Alternative and the Rock Alternative charts. RADIO SEES THE LIGHT AGAIN... THE JEFF HEALEY BAND SPECIAL LIMITED EDITION SERIES (VOLUME I) UNDER COVER

"The Jeff Healey Band has taken some classic Blues tunes and added the production elements of the '90s to create a fresh sound. We've gotten great response to 'As The Years Go Passing By,' a smooth, sultry rendition that weakens the knees and lights up the phones." CHRIS MAYS, KMTT/SEATTLE

"We've always had success with Jeff Healey in the past. "Highway 49' smokes. It is the Blues track that Clapton wished he had put on his album." PAUL PETERSON, KDKB/PHOENIX

"Cover To Cover is preceded by a 4-track CD Pro which gets cookin' right from the start. Healey's pyrotechnics abound and his voice sounds better than ever. He once again proves himself to be a guitar wizard, and a consummate reader of the Blues." DENNIS CONSTANTINE, CONSTANTINE CONSULTING FROM COVER TO COVER TO...

THE HARD REPORT

Hootie & the Blowfish, "Only Wanna Be With You," Atlantic

It's another smash-in-waiting for the Hootie crew, who have reaction on their side with a few other hits that get plenty of attention at the format as well as everywhere else. And if you're looking for a hit without necessarily embracing the complete alternative genre, Hootie is making it happen across the greyed format lines. With a significant sales story, summer touring galore and loads of video exposure, it would be hard to find a bad thing to say about this Carolina band working the magic with distinctive vocals and pop hooks. This track should be very successful for you.

Hootie & the Blowfish, "Only Wanna Be With You," Atlantic

Hootie notches another major event in its career by rolling out an impressive #1 Most Added number with 39 adds on this catchy gimme from the little debut that could. Only the stakes could be much higher for this track now

that the foundation is secure. Hootie has converted many a rock follower in the past year, and this melodic gem stands poised to climb the mountain again. Among the Heritage adds were WAQX, WDHA, WEBN, WKLS, WMMR, WPLR, WRCX, and WWDC. Hootie was also #1 at COR, #2 at Rock Alternative, and picked up action at AAA and Alternative. With the summer tour coming, the zealous video air and the huge sales story, Hootie is as familiar as it gets for a new band.

Dokken, "Too High to Fly," Columbia

Rockin' Dokken is what they're doing. It is certainly the behavior pattern for a number of Heritage outlets this week, as they are taking up the chance to spin away from the hip new sounds into the hard rock fallback position previously equated with extinction. Dokken

draw the #2 position for Most Added, as WAOR, WEBN, WFYV, WRCN, and WIOT come in along with those running high at WRIF (12), WCMF (13), WKLQ (13), KQRC (20), WKZQ (25) and WUFX (13). Fight the backlash against the flannel-clad rockers making claim to the whole enchilada and give rock fans a chance to hear the band who never really pushed the edge of the hair envelope. Dokken in 1995 seems to be working just fine. WCMF's Dave Kane agrees. "We're doing very well with it. Great calls, killer sales. They might have been out of the scene for awhile, but they were paying attention."

Jennifer Trynin, "Better Than Nothing," Warner Bros.

Trynin picks up 9 Heritage adds this week, including nods at WGIR, WHDQ, WIXV, WPYX, WSTZ and WZZQ. This lead-off track from a strong debut record has a solid pop hook that's capturing attention on COR,

Rock Alternative and Alternative fronts. Trynin's an artist who explores the possibilities within and around various formatic cubbyholes. Her singer/songwriter slant makes upper demos applicable, the edge of the track keeps the feel within bounds at alternative, and the vocal style is both reminiscent of classic women rockers and distinctive in its own right.

Dave Matthews, "Ants Marching," RCA

This offering is picnic music for rock outlets looking for another angle to the Dave Matthews story. The results of the album's campaign thus far have been significant in both the radio and sales arenas. And with "Ants Marching" you get more of the musical wisdom

inherent in the band's live presentation. There's plenty of melodic contribution amongst the instrumentation — also the same tell-tale harmonica swirls that go brightly with Matthews' vocal. WMMR, WAOR, WDHA, WFBQ, WEGR and WSHE all add in this week, joining the ranks of WNEW, WWWV, WIZN and WBAB at the table.

HERITAGE

Magnificent Bastards, "Mockingbird Girl. Elektra/EEG

This contribution from the "Tank Girl" movie soundtrack is the latest in a series of strong tracks that made the grade at Alternative. Not bad for a movie that died on the vine almost as quickly as it began its run. With

this record, Weiland and his cohorts of this put-together band cultivate a remarkable sense of pop rock angst that translates well at both Heritage and COR. Although many COR stations are in earlier than the Heritage, calls like WEBN, WCMF, WCCC, WHDQ and WRCX have made the decision that this new rock signifier fits between the STP image and the pop-rock explosion of bands that haven't yet made the cut with the skeptical.

Wilco, "Box Full of Letters," Sire/Reprise

With a bit of a slacker attitude in the vocal and a feisty classic rock-ish track, the fusion is there for a melding of the sounds of vesterday and today that's standard requirement for a Heritage add. Wilco have a alt/edge mentality, and a pop-rock song sense that

makes them balanced for airplay at just about any rock signal. "Box Full of Letters" is a live-sounding track that reproduces the energy this band possesses in a concert appearance. The overall sound will sparkle on the air and provide you with an option to cover some new band territory by tracking one that hasn't ruled out the Badfinger influence while it pays heed to Social Distortion. Corning in this week are WAPL and WDRK, adding to WKLS, KFMZ and WAVF's support.

'LAV PD Tony Gates commented, "I'm pleased to keep the key 'LAV personnel as well as bring Ed Buchanan back where he belongs. His passion for radio combined with his knowledge of the music and history in the market make this appointment personally and professionally satisfying. In addition, Kristie Swan was promoted to Promotion Director. Her commitment to details and follow through in her capacity as Assistant Promotion Director more than established her ability to rise to the task at hand. Steve Labenz remains Assistant PD/MD and Rob Brandt retains his Production Director title."

Chicago area native Jim McGuinn's first brush with radio came via that WPGU thang while he was a student at Champaign/Urbana. Shortly thereafter, he also had a chance to check out that promo vibe via the MCA Midwest Regional college gig. Programming won out, with Jim heading off to Providence and classic rocker WWRX after graduation. From '88 through '90, Jim worked his way up from weekend overnights to Winnebago driver to mornings and music, though, as anyone who knows him will attest, classic rock is clearly not where this guy's at. Eager for his programming stripes, Jim headed north to WEQX/Manchester, which at the time had been through a number of PDs, and was attempting to crack the nearby Albany market with a limited signal and eclectic programming. The ensuing three and a half years saw the station's ratings jump nicely, ditto revenue, and WEQX's national regard increased accordingly. Though thoroughly addicted to Vermont, Jim and his wife Joy took the plunge last March, heading off to St. Louis and the underperforming Point. It's a little over a year later, the ratings are up, and this week's Pointfest event looks to be a monster. Is this a great country or what?

McGuinn

Who's appearing at Pointfest Friday?

Jim: I think it's the strongest line-up to date: Sponge, Collective Soul, Blues Traveler, Faith No More, Stone Roses, Toad the Wet Sprocket and Bush. What's great is that it's not all format exclusive stuff.

It's amazingly mainstream.

Jim: Yeah. As we do these things, it's nice to get the respect so we can do better and better bills.

Is that particular line-up by design or just the way the chips fell?

Jim: It's a combination of things. It's working hard to develop the right relationships to make it happen. It's timing. Q101 in Chicago is doing their show the next day. There's some convenience and consistency in getting a band that can do three or more shows in a row.

It's also interesting that Bill Gamble's station is owned by the same group that owns KSHE.

Jim: And it would be hard to find two stations more different in their approaches to rock music.

Didja ever think maybe Bill could have some effect on who you did or didn't get, based on his parent company?

Jim: Maybe. That's an interesting observation and one I hadn't thought of. Bill also has his hands full, because our show is on Friday, his is on Saturday, and two of the stations he consults in Minneapolis and Milwaukee are doing shows on Sunday and Monday. I'm sure he's busy trying to make things happen for all his markets.

Your first event, and the station's second, was last year. How did that go?

by Bill Hard

Jim: It went great. It was the first one that sold out. The headliners were the Violent Femmes and They Might Be Giants. When it sold out, it was like, 'Huh, that little station that plays weird music actually has some listeners.' This show is in the top five for fastest sell-out times in the history of the venue. Riverport holds 21,000. The <u>Post-Dispatch</u>, the big daily, turned over their whole features section to a preview of Pointfest. They were saying the line-up was better than Lollapalooza.

Is the St. Louis media Point friendly?

Jim: By and large, yeah. We've got a growing relationship with the daily. A lot of times the alternative stations will have a good relationship with the weekly. You have to have that. But when you can get more into the mainstream press, you can reach some cume that isn't already attached to your station. The weekly is talking more to the converted. Good press from

outside the alternative papers is when you start saying, 'Hey, maybe these press releases are starting to pay off.'

There's obvious cume-building inherent in an event like Pointfest. Is it something you do well with financially? **Jim:** It's good all around. We work with Contemporary Productions, the big promoter in this region.

Did they actually promote the show?

Jim: There isn't really any sort of 'promotion' in terms of having to buy ads or anything. They advertise through us and the ads we take out. They help us with the production, basically.

So you are in effect the promoters?

Jim: Yeah. They help us sign the contracts and pay the union guys. It's great for them, it's good for us. It's good for the bands. Our talent budget goes up every year. We're paying some of these bands at least as much as they would get if they were going to come through and do a date on their own.

How far in advance do you usually book?

Jim: A few months out. Anybody trying to put these things together goes through these periods of complete doubt, 'I'm not going to get any good bands, 'all the way to the situation we have here. We actually have more bands then we can use. We're having an after-show party at a club with Sponge, the Phunk Junkeez and Wax, because we couldn't fit them on the main stage. In terms of the financial thing, the Make-A-Wish Foundation will get a portion of the proceeds.

How much merchandizing to you have with an event like that?

Jim: We do shirts, and this year we're doing hats, too. Last year the shirts sold out. You know how promoters and venues work. They get 40% off the top. We don't make any profit from the T-shirts. The venue takes so much from these sheds. There are so many revenue streams for something like a big shed. They get parking and everything.

What's the biggest pain in the ass with an event like this?

Jim: The weirdest problem I've never encountered until this year is trying to make the bill work. I had so many bands that could reasonably argue they could to go in the prime slot. Eight bands, and seven of them could say 'Hey, we want to be the headliner,' and back it up with one claim or another. Having to juggle and massage and make sure people didn't pull out because they're going third — that was an unexpected problem I've never encountered before.

> Leading up to the headliner, what is the top four rank order?

Jim: It goes Sponge, Collective Soul, Blues Traveler, Adam Ant, Faith No More, Stone Roses, Toad the Wet Sprocket, and Bush.

So Bush is your headliner?

Jim: I guess so. They're on last.

That's a hell of a slot for a brand new band.

Jim: Yeah, but they're also very hot. They are the hottest band on the bill in terms of sales. There was also a circumstance around that. They are filming an MTV thing in L.A. that morning, so they had to go on late. That's the way it worked out. But you're trying to make the texture

seems right, and work with the flow. I didn't want Faith No More to go first. We've managed a balance. The great thing about this bill is that's there's something for everyone. There's Blues Traveler, Adam Ant — you've got so many different formats. Every band on the bill has a Gold record to their name at this point.

Congratulations. As Carey Curelop and Steve Young hypothesized, the labels bent over backwards giving you everything you wanted.

Jim: No. There's so much fighting and politicizing with this stuff, that some of the labels have been very helpful. With others, it's like, 'Here's the agent's name, and now we're stepping out of the way. Good luck.' Obviously, there are multi-format concerns with most of the bands I have on this bill.

In striking contrast to last year.

Jim: Yes. Much more than in previous years. We've got five or six bands KSHE plays and three or four that Q104, the CHR in town, plays.

How much heat did participating labels feel?

Jim: I didn't hear of any heat. I think the labels have to figure out how to make this work. If this is a gig that's beneficial to the band, it's worth doing. Sponge might play in front of 1,000 people on their own. Give them an opportunity to get in front of 20,000, make more money than they would and get a radio station to play the hell out of their record, when they look across the street and see they get four spins a week on the AOR, it's not a tough choice. With some of the bands there is some deal cutting. 'Jim has gotten them for Pointfest, we'll have them come by and play on your morning show.'

If you were Jim Owen, would you think about dropping a record, or suspending play on it, if that band did Pointfest?

Jim: He's handled each artist individually. Some of the records, he has just flat-out dropped. But some of the ones that are hits, he can't afford to. He's continued to play them. I'm sure the labels have done whatever they need to do to continue airplay.

Your former haunt Albany has turned into one of the most competitive mid-size alternative markets. Are you surprised by that?

Jim: It was always one of the most competitive rock markets. As alternative comes closer to mainstream rock, it would make sense that Albany would become a competitive alternative market as well. I haven't heard what 'QBK is doing, I've only seen it on paper. It seems they've done real well so far. 'DRE hasn't taken off like expected, and 'EQX is still 'EQX. You've got to hand it to those guys. In spite of all the inherent difficulties in being 50 miles out with a shaky signal and relatively limited outside marketing budget, they continue to do well. They had record revenue last year.

Does Brooks still keep trying to hire you back?

Jim: (Hearty laughter) We talk every week. The conversations don't center around things like that.

He can't afford you now anyway.

Jim: I love the guy and he's one of my best friends. I guess I'm the unpaid consultant, or something like that.

One thing about your tenure at 'EQX is that it taught you how to get an awful lot out of a very little. You had limited funds on all fronts. Was it strange walking into a situation where you had an open checkbook?

Jim: It's amazing. The support here is really good. I'd never had TV before. I never had the ability to say, 'I want this,' and actually do it.

How was the station doing ratings-wise when you walked in?

Jim: The station signed on and right out of the box got up to a 3.1. When I got here in March, '94, we had a 1.9. We had the feeling that we had to climb out of a hole.

Obviously you had major curiosity cume to start with. What caused the dip?

Jim: It was a lot of curiosity sampling. It was blowing off steam on the part of the alternative core who were frustrated for all those years in St. Louis, wishing there was a format for us. I guess the product wasn't compelling enough to get them to stick around.

Were the problems you encountered mostly musical?

Jim: I don't think the music was quite focused for mass appeal. Texturally, the station was too conservative in terms of appealing to 18-34s. Possibly they were aiming a little too high, both on the knowledge and age continuums. It was a matter of tightening, focusing and finding out what was relevant and what was not. We're in the middle of a very big wave of this kind of music. It's coming into a mass appeal acceptance level. There were lots of changes with the jocks, the staff, the feel and sound of the station. It was basically overhauled in terms of attitude on the air, production, image, marketing and music.

How about staff changes?

Jim: I've made three air staff changes, and changed Production Directors, so I guess you could almost say we've started from scratch. We now have a staff that is a tremendous team and is really involved in the station and music scene. The guy who does afternoons, Alex Luke, who is also the Assistant PD, came from the Edge in Dallas. where he was MD with Joel Folger. He's a terrific PD. Alex has a thirst for music. He's up on all the British imports and that kind of stuff, mixed with the CHR-derived formatics he learned with Joel. The combination of him and I, coming from the Triple A/AOR background, is where we've created the identity of the Point. One of the other moves is that we hired Scott Strong. He was PD for 'KSD for about six months, and he did marketing at 'MMS and KSHE for ten years. He's our marketing guy, for both the Point and the River. He's really brilliant and he has great knowledge of the marketplace. He was there when KSHE was going through their growth stage. He's great because he says, 'You know, I've seen it before.' He can see the same sort of surge and energy happening here that happened ten years ago, when the people at KSHE were our age.

How much time do you spend with SBR?

Jim: We are consulted through SBR, but they spend most of their time with the River. It's more of a consultancy in terms of John Bradley — he's a great guy. We talk about management, marketing. It's not, 'Hey, what's your list look like?'

That 4 share you just bagged in the Winter book is a big deal. Do you think it's real?

Jim: I have a good sense that the Point growth is real. I think KSHE will undoubtedly rebound. They are a great station with a lot of heritage. No one can touch them as far as awareness. One of the jokes you hear from radio stations in the market is that KSHE could shut off their transmitter and get a 5 share. They are that entrenched. We like that our growth has happened month by month. We didn't have one insane spiked month in the extrapolations. We could feel it surging, which is one of the greatest feelings in the world. It's like electricity in the air, in the building and on the streets. Everywhere you go, you seem to see your radio station turning up and being talked about. The Arbitron results, with our gains and KSHE's losses, match perceptual research we'd done in the market.

And you believe there to be a distinct correlation between your gains and their losses?

Jim: I hope so. In the perceptual research we did, it was likely this would happen. We were headed for an upswing, and they were headed for a downswing, particularly 18-34.

What were your demographic and daypart highlights?

Jim: 18-34 we are third for the second book in a row. We went 6.7 to 7.9. Among 18-34 in the afternoons, we have a 9.3. KSHE has a 10.0, and they've typically been around a 15 share with 18-34s in general. This is the first time we've been in striking range of a station that has a 26-27 year history and that has dominated this city for 15 years. It was awesome when we saw the growth of the Point, but then when we looked at how KSHE struggled in this book, it took a while to register. If this continues, it may be significant.

Jim: When I got here, both Q104 and KSHE were playing a lot of current rock product.

Harder-edged, too, right?

Jim: Yeah. KSHE was doing a good job of straddling that fence, being classic-leaning and playing the good current music. We had an Arrow that signed on and immediately drove a huge 25-54 wedge in the market. At that point, last summer, KSHE rethought their position and slashed their current list and started leaning a lot heavier into classic stuff. KSHE classics, real St. Louis music. They changed their marketing to very classic-based, too. In the first two books, it paid off. It went up to a 7.9 in the summer and fall. That was the highest they had been in a while. Whether it was because of them, or because Are you delivering any kind of sellable 25-54 at this point?

Jim: It's not amazing. 3.4 in this book. It's not bad. It's ahead of 'KSD. We're beating them 25-54.

You were one of the first programmers to buy into the Triple A format back at 'EQX. What's your vibe on your sister AAA station, The River?

Jim: One of the things I found with the Point is that my hands are tied as far as library by what happened in this market in the past. The River finds that as well. They're a unique Triple A. They are starting to find themselves in the market, and realizing the music that will work in St. Louis. Triple A is very market specific. Denver music and

Two factors in that market interest me. One is the 'KSD going alternative rumor. I know they just re-signed their big bucks morning guy Frank Opinion. But their ratings really aren't there.

Jim: There were a lot of rumors floating around. The group PD of their company went into R&R to deny those rumors a couple of weeks ago. They're marketing the station. They've refocused it. It's still classic rock. It seems to be aimed a little more 18-34 than it had been. The marketing is reflective of that. They've got a hip new spot on TV and they're advertising heavily. We hear rumors that they're going to change every day. But, if you were going to change the format, why would you spend hundreds of thousands of dollars promoting your re-tooled classic rock format?

What was going on in St. Louis when you hit town a year ago?

of the difficulties these Arrow stations have, the Arrow quickly did a bell curve and has now fallen remarkably. It peaked at a 5.6 and now is down to a 2.9, 12+. 'KSD fell as well in that span, from a 4.7 in Fall '93 to a 2.3 in Winter '95...

Are you concerned that when you pull something like a 4 share, that KSHE will more actively counter-program?

Jim: Certainly you're concerned. One of the things I believe in is that the price of success is more competition. You've got to be ready to deal with that. It hasn't happened yet, but that doesn't mean it won't.

Is there a hole in the market for a more currentintensive, harder-edged rock station?

Jim: There probably is a hole for that. How sellable that hole would be is the age-old question.

St. Louis music are very different. They are finding their identity in terms of formatic balance. In this book, they were only 1.9 to 2.1, but the growth was in real good places. 25-44, for instance.

How many stations have the baggage of flip-flopping Triple A, classic rock, and back to Triple A in their first year?

Jim: There's a lot of baggage they are working to overcome. They've been marketing heavily. Their TV spot was really good. They are reaching the right attitude on the air now, in terms of imaging and jocks. They're doing some good things and heading in the right direction. The question here, as it is with any market where there is a Triple A, 'So they're found their niche. Is that piece big enough?' Can they gain enough relative to 'KSD and KSHE to make it fly? That's what we'll find out. The early indications, six months into it, are strong.

What do you think of the state of Triple A?

Jim: I think it's going through the same kind of identity crisis that happened to alternative. Five years ago, alternative stations had 70 songs on their playlists and the thought of having forty was heresy. They spun records 15 times a week. Now we spin them up to 40 times a week. I don't know if Triple A will ever get that tight, but people are going to wake up and realize that you can't be a completely core, TSL, narrow-niched format. You miss the mark. You go over people's heads. It's good to see some dialogue going on in the various trades between programmers and label people saying, 'Hey, we want this format to grow and flourish. We might need to apply some of the traditional radio, successful formatics, albeit with our own Triple A twist on it. You're starting to see the rotations coming up and the playlists shrinking. They are finding the hits that work for them. They're not as afraid of crossover, in the old, 'Hey, it's a hit, now let's drop it' days. That's how it was in the old days of alternative. Hopefully it will continue to grow and find its niche.

When do you envision you will be sharing most of your music with so-called mainstream rock stations?

Jim: In some markets, it's happening a lot more than others. Here, it's not happening much at this time. During the day, KSHE is a classic rock station. You have to listen for a long time to hear a current before 7pm.

In contrast to how current driven the station was before, they had to defend against both the Arrow and KSD.

Jim: They were getting very current-intensive. It seems there has been total re-direction 25-54. It worked for two books, and then didn't in the last. Was that a fluke? Was it real? We don't know those answers yet. But in today's trend, we both went up. KSHE went 5.4-5.7 and the Point went 4.0-4.1, our sixth consecutive up month.

In the meantime while they are playing classic rock, you are banging White Zombie during the day.

Jim: We're still not playing it in middays or anything like that. The station is a lot heavier now than it was before I was here. The Point has never played the Beastie Boys. They weren't playing Alice in Chains or the Soundgarden's of the world.

If anyone were to ask if the Point were the guitar-driven, grunge-oriented station, or the pop/female..

Jim: We strike a balance all over the place. We're not as mono-textural/grungy as Q101. We're not as pop/CHR

as the Edge in Dallas. We probably sound something like a conservative 'HFS, or 99X. We lean on the AOR side of the format, but not necessarily on the all grunge, all the time side. We're playing the Buckley record, and the Blues Traveler record. It's a rock-based station, but it's not as uniformly hard or short-term novelty-driven as some of the other stations in the format.

Will you throw in cume builders like the Petty or the Etheridge?

Jim: Yes. We thought they would work, and it's been confirmed. Since we've been playing Petty and Etheridge, we've seen the biggest ratings growth. Everything we've gotten back research-wise has told us that was a good decision.

I'm told the Buckleys of the world take forever to test in St. Louis.

Jim: Yeah. It's a slow market in some ways. But when it finally comes, it comes. In the Streetside Top 40 from last week, the top ten had Hootie, Blues Traveler, and Dave Matthews in it. This was one of the first markets for Blues Traveler. I think we were the third non Triple A station to add 'Run Around.' It was 91X then us, and it spread from there. The record has done phenomenally. It has sold great here, even before it sold nationally.

And you feel you've played the point man role, so to speak?

Jim: Certainly with the Blues Traveler. Not the Hootie. We were bandwagon-esque on that one. I wasn't sure about it at first.

What are the biggest stretches you have on the radio? The risk records.

Jim: I actually don't think the risk records are the Melissa Etheridge's during middays. The risk records are how far can you push with the Monster Magnet and the White Zombie. Yeah, it's going to get phones. It's going to react. It's going to sell. But how is it going to do with the passive listeners?

And you wouldn't consider yourself top heavy with hard music?

Jim: Right. It's a component of the station. A year and a half ago, there was none of that. We were the all Sarah McLachlan, Tori Amos radio station. That sound is a component of the mix, but as we gain a lot from KSHE, that's one of the least successful genres in trying to entice someone away from heritage AOR stations.

Jim Owen has said repeatedly that the folky stuff is a tough sell in that market. **Jim:** Which is one of the challenges the River has. How many Triple A stations don't call Lyle Lovett a core artist?

And they don't?

Jim: No. Not at all. Lyle Lovett is like a fringe, image artist. The research totally confirms it.

Do you get involved formatically with them at all?

Jim: Not in any official way. Cattish Crouch is the PD and Vic Porcelli and Mike Richter are in the music department. Mike came over from KBXR/Columbia. They do a good job. They'll go, 'Hey what do you think of this record?' and I'll ask the same. It's not a formal thing

What's happening in St. Louis mornings?

Jim: Stern is not here. The biggest 18-34 morning show is on the CHR, which is Steve and DC, the two guys from Alabama.

Aren't those the guys who got in that big NAACP flap in Denver while ago? I trust they're behaving?

Jim: They do a good show. It's almost all obnoxious personality. KSHE has gone to a very music-leaning morning show. Ours is definitely music-leaning. The unique show about our show is that it's two women. Sarah Clark and Mary Ellen Owens.

Two chicks, huh, Jim?

Jim: I don't know anybody else doing that. With this format, the jocks are expected to be themselves. It's not like the old days of AOR where if you're a woman on the air you've got to be sleazy or stupid and laugh at dumb jokes. They are irreverent and wacky and edgy and fun. They are fun people. They do a great job of marketing the station and being involved at events.

How did they perform?

Jim: As of April, mornings had a 3.5.

Wow. And you found the team?

Jim: Mary Ellen has been the morning co-host since the start of the station. She's on her fourth partner. Sarah did middays and afternoons, then moved into mornings. They've both been at the station for at least two years.

Being a Chicago native, you're well-acquainted with Midwestern stereotypes. What held water with St. Louis and what didn't?

Jim: St. Louisans love St. Louisans. There's a lot of pride in this town. It's very traditional here. The running joke is that when you meed someone in town, their first question is, "Where did you go to high school?". St. Louis is slow to adapt to new trends, whether that be music or politics, fashion or whatever.

Speaking of that, people here noticed you finally came around and got a real alternative haircut. How come that took so long?

Jim: When you're living in Vermont, there aren't exactly alternative barbers. When I got here, Mary Ellen directed me to her hair stylist. I said, 'Dude, put me into the '90s.'

What is the most endearing thing about St. Louis to you?

Jim: One of the most surprising things was the amount of history you feel here. I live in a house that built in 1930. There's a lot of great architecture. St. Louis is either a small big town, or a big small town. It's accessible. You're fifteen minutes from anywhere. Traffic is easy. Crime is relatively minor. It's got all the conveniences and greatness of a big city, minus the things that are annoying. There are plenty of things to do. Every night I could go see a good band in town. A great live music scene.

That must have made it easy to get your Pointessential local talent CD together, eh?

Jim: For each volume, there are 230 submissions. The second one is about to come out.

How many copies do you sell?

Jim: For the first one we did 2,500 and they were gone

in three days. We did 5,000 of this one.

Anybody gone on to bigger and better things from the CD?

Jim: The great thing is that we viewed this as 'Let's get the best bands in St. Louis.' We had contributions from signed bands. Wilco and Sinister Dane. The Bottlerockets, on our second CD, just signed with Tag/Atlantic a bit ago. The great thing is that some bands on the first and second CDs are talking to tons of A&R people. I've talked to more A&R people in the last six months than at any time in my life, because of these Pointessential CD.

After all, you're the guy who broke...

Jim: Yeah, I know, the Spindoctors. Could I please be known for something else?

TRIPLI

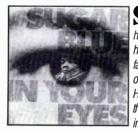

Peter Case, "Torn Again," Vanguard This is the album we all wanted Peter Case to make. Ever

since the Plimsouls called it quits — and even back when he was with the Nerves — and especially since the release of <u>Six-Pack of Love</u>, <u>Torn Again</u> is the one we've been waiting for. Larry Hirsch and Steven Soles are behind the knobs, mixing Case's incredible acoustic guitar prowess and full vocals with a variety of strings and a dead-on rhythm section. But as we've come to expect from this exceptional singer/song-

writer, it's the lyrics that take center stage. Taking you on an emotional rollercoaster — poignant and sweet, humorous and upbeat, affecting and dark — the often narrative lyrics immediately draw you in. The first single is "Baltimore," but we highly recommend "Anything," "Airplane," "Turnin' Blue," and our favorite, "Workin' For The Enemy," to start your off. **Merilee Kelly KSCA**, "I got a chance to see Peter Case perform acoustic at McCabes. The songs really stood up to the solo treatment, and it was even better to hear the full band version on the album. Love "Baltimore," love "Airplane" — in fact, love the entire CD." **Greg Roberts KFMU**, "This was added the day we got it. The reaction on the air from the listeners and the staff is that it's a breath of fresh air." **Tom Krumm KLRF,** "I like it a lot! It's great to have Peter Case back. He always has a bunch of good songs, and they're all over this new album."

THE HOT CORNER

Sugar Blue. "In Your Eves." Alligator Sugar Blue — this guy is unfuckingbelievable! He plays harp like the devil himself. It's not often that someone can play harp in tandem with lightening fast guitar runs, as a matter of fact it's like never, except if you're Sugar Blue. Not to "harp" on this, but Mr. Blue could trade solos with fusion greats Allan Holdsworth (guitar) or Chick Corea (keyboards) and totally hang, that's impressive! The vocals on this record are certainly nothing to be forgotten. Sugar Blue is as extremely soulful, pow-

erful and distinctive with his pipes as he is with his harp. Check out the diversity of this record: "Gucci Gucci Man" and "She" are almost hard rock, with heavy guitars and harmonica from hell. "Blue Pine" with Pinetop Perkins on piano is incredible traditional blues. The commercially "horry" "Lipservice and Lies" has great production and backing vocals — a Triple A sure-shot. And the jazzy/funky sounds on "Whirlwind" send the listener right into the eye of the storm. So lovers of great musicians and blues-heads unite! Play this!

Waltons, "Ceck's Crow," Sire Take a run for the border. Ok, look at your compass and head due north. We're going to Canada — home of a really cool (not because of the geographically cold weather) new alternative/AAA band called the **Waltons**. Their unique blend of commercial British-style pop (eg. **Elvis Costello**), 60's rock and the colorful use of many different instruments breeds their very distinctive sound. Perhaps without the quality songwriting and vocals of Jason Plumb this acoustic-driven, instrumen-

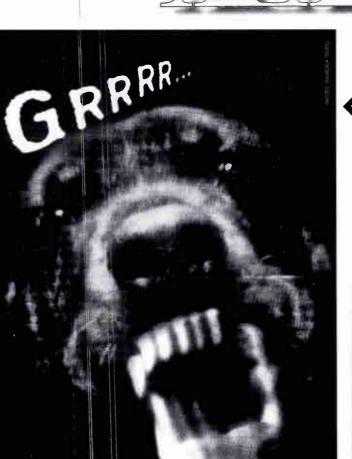

tally diverse album would fall flat. However, all of the parts are present, so yes, ladies and gentleman, we have a winner! Give a good listen to "End Of The World," "Wait Up For Me" and the floating sounds of "Sky's The Limit." But wait there's more: "You Ewe U" and "My Eye" are also worthy of the <u>Cock's Crow</u>.

U2, "Hold Me, Thrill Me, Kiss Me, Kill Me," Atlantic

Don Ferrell KRVM. "U2 is absolutely fabulous! They are hands down one of the best bands on the planet. These guys can sing anything. They could sing the Canadian National Anthem and it would be #1 hit, and this song proves it again. The excitement and anticipation of this song has been overwhelming. We are very happy with this new stuff from the boys of Ireland, who will always have a message for you. Cool sona title by the way." Greg Roberts KFMU, "It's nice to have the boys back making music." Sybil Gallagher WMMM, "U2! U2! U2! U2! I'm so happy Bonnie gets to work this record — not that she has to work it." Bruce Warren WXPN, "Batman Forever, U2 Forever!"

Buckshot LeFongue, "Some Cow Fongue" Columbia

Merilee Kelly KSCA, "Wow! Buckshot LeFonque gets so much reaction, it's so much fun, so play it." Greg Roberts, KFMU, "Huge phones! I was clued in to what KMTT was doing with this record, and when I put it on here, it was an immediate smash. When the sun is shining, you can't play a better record." Shawn Taylor WVAY, "Excellent! It has a great groove and is a real attention grabber." Dave Piszcz WERU, "A departure for Branford, and some real interesting work. In addition to 'Some Cow Fongue,' the pick of the litter is probably 'I Know Why The Caged Bird Sings.

TRIPLE CROWN

ASPER Jasper & The Prodigal Sons, "Everything Is Everything," Geffen

Jeff Bieri KRCC, "Jasper & The Prodigal Sons is a group that, yes, I would like to comment on. I think that this is going to be a great new band, in the tradition of the Counting Crows, but with a hip-hop element. Besides, where else can you get steel drums?" Jon Peterson WCBE, "Jasp ar & The Prodigal Sons rock my world. If you groove to G Love & Special Sauce, this is the real deal! Their hip-hop and acid jazz influences put them on Triple A's cutting edge." Don Ferrell KRVM, "This is a very groovy kind of record that your audience will fall in love with. If you played G Love & Special Sauce, you will be into this one as well. I think this one has the potential to be very big. We played Jasper here at KRVM, and got a very positive response. It's a little different, but what can you say? It still grooves."

"Hold Me, Thrill Me, Kiss Me, Kill Me" from the Batman Forever OST (Atlantic) comes to us a bit earlier than planned due to, you guessed it, a leak (is it me, or does this seem to be happening with alarming regularity these days?). Of course this record will have a huge week. This movie is highly anticipated, and U2 have become a Bono-

fide multi-format smash out of the box. The track is fairly intense, and heavy on the processed vocals and synths, but should react well with kids and adults alike. It already sounds great on the radio, and will be almost immediately familiar given all the exposure it is sure to garner. Look for it to be omnipresent in every form of media available to the consumer.

IASPER Jasper & The Prodigal Suns

Jasper & The Prodigal Suns is one of the hippest groups to come down the pike this year. Their album Everything is Everything (Geffen) is preceded by a 3 track CDPro which you should put directly into your CD player. Track #2 "Without You," with its lilting melody and beautiful lyrics, may just bring you to tears. If you're looking for an infusion of soul for your playlist, this is it. "Sincerely Jasper" is

also a great song, but it is heavy on the rap.

Peter Case

Peter Case returns this week with his second album on Vanouard called Torn Again. You should have the lead track "Baltimore." This song shows more of a pop side of Case than some of his previous material, while still maintaining his songwriting chops. The CD has been in our player all week, and we like many songs, includ-

ing "Workin' For The Enemy," which sounds like Dylan at his best. "Breaking The Chain," and "A Little Wind (Could Blow Me Away)."

Innocence Mission

Glow (A&M), the latest from The Innocence Mission, is a beautiful, lush album from a band that has a history with Progressive radio. "Bright As Yellow" is the official single, and should propel this band to much deserved crossover status (remember what "Fade Into You" did for Mazzy Star?). My favorite track on the CD

is "Brave." It has such a bright, happy sound. Others to pay attention to are "Go," "Keeping Awake," and "That Was Another Country."

Waltons

The Waltons are back with their sophomore release Cock's Crow (Sire). The band has really matured as writers and performers since their debut, and you should find plenty of material to play with, including the emphasis track, "End Of The World." The sound of the song belies their Canadian roots (if there is a Canadian

sound, this is it), while pointing to their pop influences, which include a hefty dose of the Beatles. "The Longest Line" is intriguing for its many changes. "Heartless" sounds like a great Toad song. "You Ewe U" has a nice groove to it, as does "Something Wrong."

The Roches

Over the years. The Roches have built up quite a following as evidenced by the appreciative crowds at their shows. Their first release for Rykodisc, titled Can We Go Home Now, includes "Move," one of their best songs since the debut album. It has everything a Roches fan could want, sweet harmonies and a "homey" feel. If you have a history with this band, the song should do real well for you.

Natalie Merchant

Just before press time. I opened a package from Elektra that contained the long-anticipated lead single from former Maniac Natalie Merchant's solo debut Tigerlily. Wow! It was definitely worth the wait. "Carnival" is a spectacular song, rivaling anything Natalie ever recorded with 10,00 Maniacs. With backup vocals by Katell Keineg, and some wonderful guitar play-

ing by Jennifer Turner, this song is destined to be a smash. This should be an immediate add, but Lisa Michaelson has asked that we hold off official adds until June 5. Lisa says, "Play it as much as you want, but hold off on adds please."

You may have seen an album cross your desk called The Living Sea (A&M), which is the soundtrack to the Imax film of the same name featuring the music of Sting. What the producers have done is taken the studio versions of some of his songs, and embellished them with new intros, and/or sound effects. The album isn't really anything to feature as current material, but could make for an interesting drop-in now and then.

Robert Cray Some Rainy Morning

Blues Plate Special Mercury Greg Boeder, Music Director/KDDX and host of "Sunday Morning Blues Cruise"

Com: a man who has created his own niche in the blues with a style like none Kolent other. It was a pleasure to hear what Mr. Cray has put together on his most recent offering, Some Rainy Morning. Many of these songs are perfect for programmers to add to their playlist. How can you ignore strong songs like "Moan," "I'll Go On" and "Enough For Me?" I can tell you right now, you have listeners who want to hear this on your radio station! We first added "Enough For Me" even though it's over six minutes long, and once you hear the tempo change and guitar jam in the middle of this song, you'll agree. It's some of Cray's best work. "I'll Go On" is another masterpiece from Robert that I just can't get enough of, and for something different, listen to the story he tells in "Tell The Landlord" about the queen who beats the king! It's so uniquely Robert Cray, your listeners will recognize him instantly ... do them a favor and spice up your sound with a proven leader in the blues/rock field...Robert Cray is a true original. With the release of Some Rainy Morning, he has added to the already rich library of great blues that makes him one of the best out there today. Everybody knows that great songs don't need much accompaniment, after listening to this one all the way through (many times), I didn't even miss the horns! Great job, Robert!

E.C. Scott Come Get Your Love Blind Pig Records Paul Kenedy, Premiere Radio Network

The operative word here is "smooth." When the you listen to <u>Come Get Your Love</u>, the debut Blind Pig Records release from singer/songwriter E.C. Scott, you'll be surprised. There's more satin than grit here. E.C. Scott began, as many singers do, singing in church (the famous St. John Missionary Church) in her native Oakland. "We didn't get a chance to hear

rock & roll on the radio," says Scott. "I always wanted to sing blues like that, but it was so taboo. I shied away from that kind of music for many, many years." When she finally did step over that thin line between gospel and blues, Scott brought with her warmth and silkiness: singing with an authority that's more Ester Phillips than Koko Taylor. On "Come Get Your Love," Scott blends styles traditional and new for a true "rhythm & blues" CD. Scott dishes up a contemporary-sounding urban-funk blues on tracks like "Bright Side," (that also has a New Orleans feel) and the title track. She drenches her blues in pure soul for the haunting "I Ain't Never Loved Nobody" and the surprise track of the CD "Sugar On The Floor" (a pop fluff tune Kiki Dee did in the disco '70s). There's subtlety and humor in her songwriting as well; apparent on the two true gritty blues tracks "Before Quick Get Ready" and "Something Wrong Going On." Come Get Your Love. Smooth.

Smokin' Joe Kubek Band Crying For The Moon

Bullseye Records Bruce Biorkman, host "1490 Bluez Blvd," KBZY Radio

there ever was a doubt that the Smokin' Joe , Kubek Band was a top flite blues outfit, this release (their fourth for Bullseye) should more than dispel that notion. Crying For The Moon is without a doubt the best effort vet from this Dallas, Texas based band. It is by far their most diverse recording, featuring gut bucket blues, Texas jump blues, a smat-

tering of jazz and just all around great musicianship. This is a recording that seductively draws you in with a neck-snapping opening set — "In One Hand" (dedicated to the group's CPAs). One listen to this cut and you know Smokin' Joe and Bnois King mean bizness! But wait! The blues don't stop there. My personal favorite is "Changes Made." It's so low down dirty, with Bnois' wellpaved vibrato vocals, you'll have to run for the box of Tide after listening to it. One outstanding feature of this release is the liberal dose of instrumental pieces which truly showcase the power, confidence and ability of Kubek's band. From the funky barnyard shuffle titled "Corn Palace," to the title cut and the last song - a jazzy romp titled, "The Life You Save Could Be Mine" all are handled beautifully. Now, don't think for a minute that the band has gone soft. They haven't. You'll get sharp-edged gritty pieces like "You're My Brand" and "We Had To Wait" featuring Joe's special effects sustained reverb and chainsaw sharp stiding style. If you've been a fence sitter, so far as Smokin' Joe is concerned, this is the release that should push you off and into the front row with the loyal fans. I know that Crving For The Moon has done that for me! A great effort and superbly timed to match that upbeat moods of summertime listening.

Don 't forget, the city of Chicago hosts its annual Blues Festival on June 2-4. Hope to see you there. If you've never been, the fest is always a music lover's haven, pro Lockwood, Fenton Robinson, Luther Allison, Otis Rush, etc. crank their sets in the Petrillo Bandshell, while during the afternoons, class acts like Saffire, David "Honeyboy" Edwards Keb' Mo' and Sherman Robertson play at the Crossroads Stage and the Front Porch Stage. All this plus great food and drink is enough to satisfy even the most insatiable appetite

The Nixons, Foma (MCA

Hitlers

Straight from the heart of the Midwest comes the heart felt rock of The Nixons. This four piece impressed quite a few Hard Hitters programmers with their high energy cut "Foma", in fact they impressed enough to pull in 63 adds and the #1 Most Added slot their first week out. They are still cruis-

ing right along with a move up to #14 this week and the full release is just now arriving. If you liked what you heard on the song "Foma". then there will be plenty to enjoy on the album of the same name. The Nixons specialize in a hard working aggressive style that is rocking without pummelling, a from-the-gut intensity that is hard to match. One of their most compelling aspects are the gritty, passionate, and still melodic vocals of frontman Zac Malloy, but the band functions best as a complete unit. The unity of their songs and the way that their playing fits together like puzzle pieces to create a collection of contagious, upbeat, and passionate tunes will be what wins you over. If you are looking to move beyond the title track - which saw increased play at CFOX, KIBZ, KRZZ, KUNV, WDHA, WJUL, WKTA, WMMR, WXCI, WXZR. WZMB, KEYJ, KNDI, KQAL, WBAU, WMHB, WOZN, and WTSR - there is no reason to worry, with plenty more cuts to pick from including "Head", a sentimental and ardent song with a rollicking rhythm. Also be sure to give a spin to buzzing melody of "Sweet Beyond"; the driving delivery and yearning vocals of "Smile"; and the ebullient fretwork on "Drink the Fear", which belies the somber tone of the lyrics plus, the song features some guest soloing from Judas Priest ax-man Glenn Tipton. With all of the new music out in the marketplace now, it is refreshing to find the blue collar work ethic alive and well in The Nixons, for the spark and energy in their music will liven up any hard rock playlist.

King Diamond. The Spider's Lullabye (Metal Blade)

If there is one thing that you can expect, it's a warm welcome for the King from Hard Hitters programmers. Coming out this week with a bang, his latest offering. The Spider's Lullabye, pulled in a hefty 52 adds this week and a debut at #40 with airplay at KEYJ, KFMX, KISW, KLBJ, KUNV, KXFX, WHJY, WKKL, WKLL, WKNH, WKTA, WMMR, WSGR, WTFX, WTPA, WUNH, WVBR, WVXU, WWVU, XEQC, and Digital Music Express. If you are a fan of King

Diamond, then there is no replacement for his haunting, multiple octave vocals and sinister melodies. Our main question is how did he find time to write and record the release along with his touring and recording work with Mercyful Fate? But, as far as his fans are concerned, he can keep up this pace, and there is no other performer that can match the atmosphere created from each and every offering. The Spider's Lullabye is chock full of soaring vocals, intricate guitar work, and wicked layers of keyboards that will keep your listeners tuned in, not to mention, keeping you awake at night. If you haven't joined in the chorus, then be sure to chime in on The Spider's Lullabye.

Gwen Mars, Magnosheen (Hollywood)

Beaming down from space and onto the Hard Hitters chart are the celestial sounds of Gwen Mars. This Los Angles based three piece deliver with a focused intensity in their sonas. which can only be equated with a tornadic. swirling display of distorted guitars. When they were just getting started, Gwen Mars managed to impress Richard Podolor out of retirement (he did Steppenwolf's Born To Be Wild) to turn the knobs on their demo. Apparently a bare-

Iv tweaked version of that demo is what now comprises Magnosheen, capturing the band's spontaneous energy. The first single, "Cosmic Dick", is already getting enough airplay to land at #37 this week with increasing airplay at WBAU. WCWP. WVBR, WMHB, and XEQC. If you enjoyed their high intensity musical trip then be sure to continue the ride with songs like the Alice Cooper inspired "Ruined", the feedback laced "Heal Me", or the fermenting guitars of "Hollow", The meaning of Magnosheen is meant to be a mystery to most of us earthlings, but if it has anything to do with the astral aura surrounding the band and it's music, then this CD is aptly titled.

Green Apple Quick Step. Reloaded (Medicine)

It's been two years since this five piece released their debut album, Wonderful Virus, and in that time the band has done little but tour and record new material, all the while traveling through the highs and lows of a career in music. This album is the end result of their road trip's weary experiences, thus taking it from one end of the musical spectrum to the other. Offered up are tunes that range from plush acoustic stuff, which puts the spotlight on the

double vocal work shared between Ty Williams and Mari Anne Braeden to very heavy material that accentuates the dueling guitars of Dan Kempthorne and Steve Ross. along with the stixmanship of Bob Martin. The atmospheric, ethereal "Hotel Wisconsin" kicks off the album before moving on to the more sonic rockers such as the punk-a-fied "No Favors", the hard driving "Dizzy" and "Tangled", with it's rhythmic guitar and pulsating beat. The moody production comes courtesy of Nick DiDia and Stone Gossard, helping create an album with something for everyone. If the jury is still out on this one, ask anv of the eleven Hard Reporters that are playing the Reloaded sampler, with new adds at KLBJ, WWVU and WZBC, and spins reported on KNDI, KXFX, WBAU. WCWP, WHMH, WSOU, WTSR, and WTFX, this is only the beginning - the buzz is destined to get louder.

Beats The Hell Out Of Me, Rolling Thunder Music (Metal Blade)

A lot can be said about the chemistry found among musicians. And this particular group (Mike Pistrui - vocals; Tom Coffeen - guitar; Chris Bailey quitar; Aaron Stewart - bass; and Erik Rogan drums) has a chemistry unlike any other among the metal ranks right now, perfectly mixing all the right ingredients to create an impressive collection of tunes. Their musical interpretation and experimentation jumps from one mood to another — chunky, ultra-heavy grooves, strident vocals and an explosive bass/per-

cussion combo are the common factors on the record, but the looping, free-flowing rhythms are what take the listener on the surreal journey through the minds of this musical unit. "Track", "Kazooka" and "Oar" are quite memorable and have been heard out of our speakers more than once. We have no doubt Beats the Hell Out Of Me will rumble and roll their way onto the radio waves with this Ross Robinson produced effort, and are making great strides in that direction with 29 adds last week and mega-spins on the likes of DMX, KEYJ, KIOZ, KUNV, KXFX, WAIF, WBAU, WDBM, WKLL, WKNH WSGR. Beowulf, "2 Cents" (Restless)

Last year, while the mainstream was just discovering punk (for the second time) through Offspring, Green Day, and Rancid, bands like **Beowulf** were essentially doing the same thing that they had been for years - churning out hard edged punk at breakneck speeds with equal doses of furious guitars and melodic hooks to a devoted legion of fans. While the band hopes that this release will

change all of that, they are certainly not jumping on any bandwagons. The Restless release from this Venice, California band - <u>2 Cents</u> - is their fourth offering, going from the debut on Suicidal Records, which was produced by Mike Muir himself, to releases on Caroline and then Restless. The title track has been finding plenty of early friends with airplay at KSJS, WCDB, KZRQ, WKNC, KDUR, WSGR, KIOZ, and WHMH, and it's no wonder, with its jovial up tempo beat and get-out-of-my-face attitude, "2 Cents" is not only memorable with a catchy chorus and razor sharp riffing, but has teen anthem written all over it. With a combination like that, be sure to put in your own "2 Cents" - right onto the airwaves!

Corrosion of Conformity, "Seven Days" (Columbia)

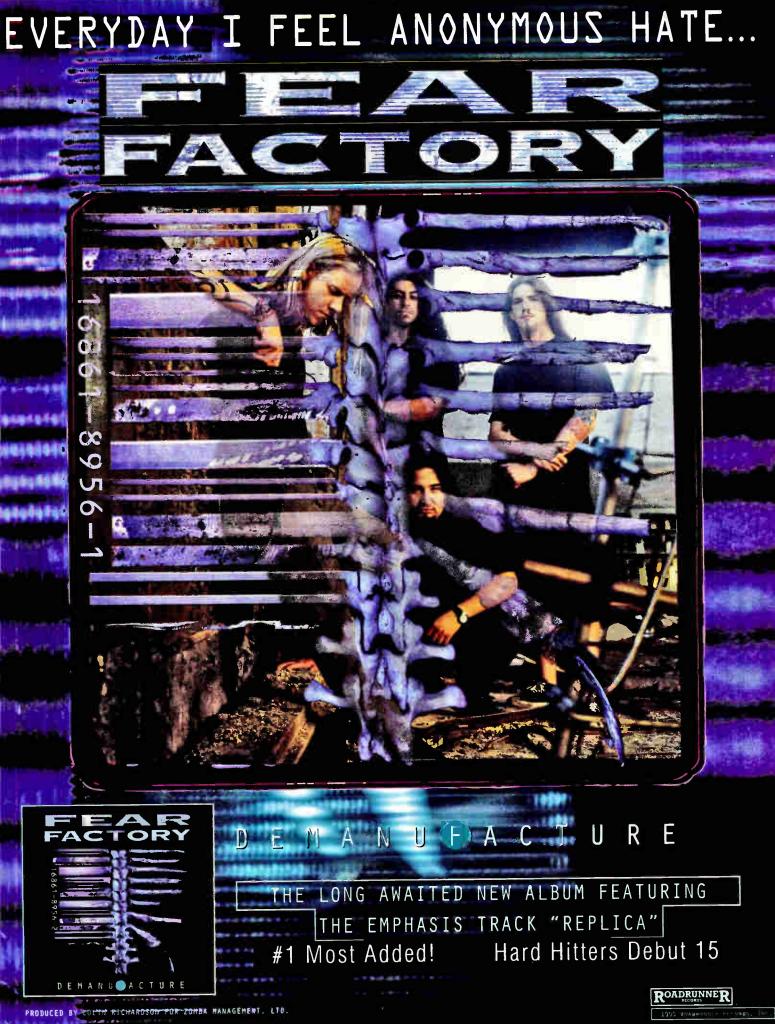

It has been quite a groundbreaking year for **Corrosion of Conformity**. Their latest release, <u>Deliverance</u>, has not only been embraced by the hard rock community with their warm toned, thick riffed delivery, but mainstream rock has found the time to play songs like "Albatross" and "Clean My Wounds", along with praising the abilities of this longtime hard-core influenced mainstay. The lat-

est track to focus on is the haunting "Seven Days", with it's grabbing guitar hooks and monolithic, rolling riffs. This song has been a Hard Report favorite since the album first came out, but if that isn't enough for you (or if you've been spinning this track since the fall release) then you can move on the non-album track "Fuel", which points directly to their punk roots with a vicious, pummelling delivery and distorted vocals a la "Vote With A Bullet". Just in case you missed **C.O.C.** on the Megadeth tour last year, the band will be hitting the road again, this time with those psychedelic rockers Monster Magnet, on a tour that should bring out the Hard Hitters programmers in droves. We don't think that you will need too much persuading here, but while God created the world in seven days, this time <u>Corrosion of Conformity</u> will be wrecking havoc on the airwaves with "Seven Days"!

We are trying our damndest to run photos of **KoRn** each and every week - this week's trade shot features the mug of the adorable frontman **Jonathan Davis** and an unknown autographed fan. Word is that WVUD's the Tink and Fight frontman Rob Halford were seen auditioning for The Return Of The Blues Brothers movie - nah, just kidding. But they just both look incredibly slick wearing their shades.

We're sure that you won't need too much convincing to add the full length release from The Nixons (MCA) today. Powered from the strength of the "Foma" single, the band find themselves firmly planted in a bulleted #14 position on the Hard Hitters chart, now comes the full length album of the same name. Add it and spin it. And, let your listeners know they can pick up their own copy cuz it's been on the retail shelves since May 23rd... First Gwen Mars (Hollywood) gave the metal masses the "Cosmic Dick" CD-pro, which helped propel the band into the 30s on the Impact chart, now comes the full length record, Magnosheen, which spawned the single. Add the album May 29th and

30th... The King has returned. This time he's doing the THE OVERDOSE FINGER PUPPET solo King Diamond (Metal Blade) thing, as opposed to the Mercyful Fate thing. Offered up for adds last week is The Spider's Lullabye - yes, we know, we're a week late, but good stuff like this deserves the print. The record hits the streets June 6th... Also going for adds this week is the very atmospheric Reloaded album from Green Apple Quick Step (Medicine). Corrosion of Conformity (Columbia) have been seen among the top ranks of the Impact chart in recent weeks, now the North Carolina foursome are back at it, this time with the release of the "Seven Days" CD-pro. The disc was shipped for adds May 29th/30th and contains an edit and an album version of the single, along with the non-LP cut, "Fuel". Add it today... This week's A.C. (Earache) impact track is "Shut Up, Paul". Next week cue up "Old Lady Across the Hall With No Life" ... The time is almost here for you Crowbar-heads to add the bands new album, Time Heals Nothing. U2, "Hold Me, Thrill Me, Kiss Me, Kill Me," Atlantic

The lead-off track from the new Batman movie has been spinning on several stations from leaked sources prior to the official release of the record. When the adds come flooding in this week, chances are you'll be one of them. After all, how could you avoid a familiar name amongst the new bands? And a tie-in to a probable Top 5 box office draw. This tune sounds like it came from the <u>Zooropa</u> sessions, but actually stands up better than most of that record. This song will surely last through the run of the movie, and could very well prove itself worthy of addition to the library of U2 tracks in the ol' computer banks on down the road. There are some purely riveting moments of musicality in this tune, and lots of pop passion. U2 fans will love it, and the rest of 'em will read it as a stable return to the alternatively fashionable fencewalk from Dublin's most celebrated sellout.

choices

Ajax, "Ex-Junkie," Zoo

The first listen to this catchy, danceable blitzer gives plenty of reasons for some spins if you've got a dance quotient to fill. It has a low-key talking female vocal combination which makes a sexy sonic blend over the music track. A little syncopated sampling of the hook line in the chorus and the hypnotically

brisk and consistent metric pace of the verse vocals meet needs in the percussion department, as well. You can listen to this one without really hearing the tune, and it still works from the club sound level. Now, take that second or third listen, juice up your veins with the vocal, and you'll find that a storyline unfolds word by word that trips you down memory lane, as told by someone who "didn't have a clue."

Ned's "Atomic Dustbin, "Stuck," Work

There's something dramatic about this effort in terms of its musical imagery and obvious British overtones. The sounds we've come to recognize from across the Big Blue are formed from affected vocals and productions light in the mid-range department. This is

a track that is true to form. And very infectious. "Stuck" is working wonders at **KXPK (10-14), WHTG (12-17), KRZQ (14-17)** and also picks up **KACV, LIVE 105, KMYZ, KNNC** and the **Radio One Network** this week. Coddle up to some old British sincerity with this new gem of a pop track from a great band with its first effort in more than two and a half years, a contained and rational effort with plenty of emotion.

more choices

Natalie Merchant, "Carnival," Elektra/EEG

The voice behind 10,000 Maniacs flies solo with this, a debut with strong chances for success. Merchant's vocals with the Maniacs took on wholesome responsibilities. At times, the delivery was smooth and almost passive. It was the key to their sound, and one of the reasons for crossover success. With "Carnival," the pace is familiar. But her delivery is spe-

cial — it's not any different in power, range, or clarity. There's just a greater edge, a stronger voice, both literally and figuratively. Jennifer Turner's sexy, smoky electric guitar paints some Raitt brushstrokes, and the octave double vocal on the bridge and some other lines echo Amos or O'Connor. But make no mistake. Merchant's not leaning on anyone here. She's running the show.

Thurston Moore, "Ono Soul,"

Preparing for Sonic Youth's Lollapalooza slot is easy for the format's faithful followers. With the noisefest leaders locked into the role of Most Respected on the tour, it would be safe to assume an add from Moore would be taken with as much or more respect. The art of noise-guitar painting is never more distinct than with Moore's SY contributions, and with this effort.

he textures howling feedback underneath a relatively jangly guitar track, and telephone vocals. "Ono Soul" is easier to play than many SY tunes would be to more conservative station programs. There are melodic guitar lines, and an identifiable, repeating chorus. Plus the essence of alternative cool that everyone needs amidst any program calling itself "modern." **LIVE 105** and **WFNX** add it this week, joining **KUKQ** and **DMX**.

Shampoo, "Trouble," Atlantic

The more we listen to this catchy dance tune, the more it makes sense. This track makes its initial appearance on the Mighty Morphin' Power Rangers soundtrack, with a full record due out on IRS in August. If what you're needing is a track without a major burnush of darkness, easy-to-follow-at-home lyrics and a campy atmosphere, here's a pick. Already, some early action indicates a story worth noting in the U.S.

on top of the super resume already built in Europe. And "Trouble"'s brewing at **WCHZ, KXRK, WTKS** and **KDGE** already.

Dillon Fence, "Queen of the In-Between," Mammoth

This Carolina band nailed a spot on the Hootie tour, which should propel these guys into a much more recognizable spot in the ranks of the pop music providers flourishing at the format. Dillon Fence have been at it for some time now, and it seems that the rest of the world is just recently catching up to where they've been hiding out all along. The strength of

the production will clear even the most cluttered airwaves, and the melodic vocals are certain to etch a path in musical memory. There's almost a Who-like confidence thrown about on this effort, a rankled blast of guitars, bass, drums and vocals that anticipate each and every turn of the arrangement in a fashion only the seasoned can claim as characteristic.

Bad Religion, "Incomplete," Atlantic

With punk attitude and a torrid pace, Bad Religion pour d another slugfest sure to tickle the feet of your upstats neighbors. And, they're on the Pearl Jam tour. Which means exposure to all demos, all levels of rock listeners w o keep even a modest Alternative sound close to their hear, <u>Time</u> magazine cover or not. Add these cumers to the lor-

al Bad Religion contingent, and slamming this one into an uptempo soundslot isn't su h a bad idea. There are hooks and humor here, and plenty of relatability to the slammers as well. It's got the pop stuff you need for the air, and the tempo to play as a peak i yr the Selector rollercoaster ride.

This catchy pop rocket keeps its nose skyward, picking up a few adds this week, **WWDX** a d WMMS included, joining KDGE, KEDJ, KJEE, WEQX, WDST, KRRK and others.

Moonpools and Caterpillars, "Hear," EastWest/EEG

The Muffs rock Tower Records #144 in Woodland Hills with KROQ.

Caught backstage after a recent NYC appearance at Brownie's, ednaswap poses with the bigwigs at Eastwest/EEG. (I-r, back) ednaswap's Rusty Anderson, Carla Azar and Paul Bushnell; (front, I-r) Mark Snider, Local Promotion Manager, EEG; Mark Marone, Billboard; Matt Pollack, VP, Alternative Promotion, EEG; Annie Preven, ednaswap; Pete Rosenblum, National Manager College Promotion, EEG; Paul Brown, VP Rock Promotion, EEG.

Thursday night I peeled out of the parking lot at the earliest possible minute, given the fact that Thursdays are production days from hell, and got to NYC just in time for the start of the Circle Jerks show at CBGB's. Where else in the world could the Jerks play to rival an evening at CBGB's? Exactly. Who could have prepared me for what was to follow? Maybe Michael Idlis, but he kept it to himself during our pre-show conversation. After a couple of tunes, I began to squeeze forward to get a better view of the stage. Just in time for **Debbie Gibson's** appearance. She jumped onstage to sing with the Jerks on a Dead Boys tune from the upcoming record (and the first single) "I Wanna Destroy You," in a giddy, mall-rat fashion, complete with the requisite sloppy vocal cue on a chorus or two. After which she proceeded to stage-dive. No shit. True, she pondered the action while the sardine-packed crowd egged her on. And then she launched. Pigtails, Circle Jerks T-shirt and

all, headlong into the sea of mosh. A few excess fondles aside, she was handled with care by the quintessentially punk CB's crowd, and screams of "Debbie Gibson is Punk!" could be heard from some as they responded wildly. Everyone was laughing since the whole thing was too ridiculous, anyway. But maximum entertainment value. Which bodes well for the upcoming single campaign... Thanks to Diane Lockner, Mark Lipsitz and everyone at TAG for the hospitality at the lvy show at Tramps last week ... Also, thanks to Amy Birch at Relativity for the great Japanese dinner and the update on Our Lady Peace, as this act crosses over into Rock Alternative, Heritage and COR, and prepares for a June release of the new single "Naveed" at

Alternative, a great track that shows more of this band's talent... Muchos Gracias to Thomas Westfall and Zoo for the Matthew Sweet concert and impromptu mexican feast. Good to hang with Rob "Hey, aren't you that guy on 106.3?" Acampora at WHTG, too. Sweet raced down the Turnpike from a Letterman show taping, and got to The Count Basie Theatre in Red Bank, NJ with about 20 minutes to spare. And then let loose a real burner of a show ... We've heard the reports from the KMFDM/Dink show the other night at the Troc, and they are incredibly positive ... WOXY will provide the complete listing of the tunes they aired on the Modern Rock 500 to participating retail accounts for display after the broadcast... The H.O.R.D.E. lineup is as follows: Black Crowes, Blues Traveler, Ziggy Marley, Dave Matthews Band, Sheryl Crow, Victoria Williams, Dionne Farris, Wilco, Soul Hat, God's Street Wine. and Michelle Malone. The tour begins August 4th... Philips Media has debuted Doors and Windows, a new Rainbow CD featuring The Cranberries. The first of a series of Rainbow CD's is playable on Macintosh and Windows

PC's, CD-i players, and is MPEG-compatible. It can also be played on a standard audio CD player... Manic Hispanic, a band consisting of members of the Cadillac Tramps, Adolescents, The Grabbers, and Joyride, have released The Menudo Incident, a collection of traditional punk songs spiced with Mexican-American references. In addition to covers of "Wasted" by Black Flag, The Sex Pistols' "God Save The Queen," and Iggy's "I Got A Right," they spin-off "Los Angeles" by X to its Manic Hispanic title "East L.A." and The Clash's "Garage Land" to "Barrio Land," among other such deviations. It's available for play from Doctor Dream Records... Time Bomb Recordings has announced the re-release of The Vandals' Peace Thru Vandalism EP from 1983 and the When in Rome. Do As the Vandals LP from 1984. They're also re-releasing Social Oistortion's Mommy's Little Monster from 1982, as well as the Prison Bound LP. Call them at 714-376-2651

The Breeders have shelved their third record, Pacer, which was scheduled for release in early June. Vocalist and guitarist Kim Deal decided the nearly-finished recordings weren't up to speed in the song department. Deal may actually release a solo record while the group takes a hiatus ... The Stone Roses are in the midst of a 10-date tour, their first in the States... Soul Asylum will be touring with The Jayhawks (hometown pals)... In a follow-up to last week's Bad Brains news, it appears that they are now off of the Beastie Boys tour following the incident in Canada last week. It is reported, however, that parties are discussing the option of joining the tour for one or two select dates. As far as touring is concerned, the band is in a holding pattern following HR's outburst. The campaign continues, as the video for "God of Love" was aired on MTV's "120 Minutes," this past weekend, as well as on "Alternative Nation."... Speaking of the Beastie Boys, they are making the effort to personalize the impersonality of the arena shows that permeate their tour by introducing the "Carpet Compound," an area with a number of computer stations

through which concert attendees will be able to access the Beastie Boys' World Wide Web site, as well as previous excerpts from the upcoming Beastie's CD-ROM ... Sounds like Atlantic is dealing with them ol' leak headaches with the Batman soundtrack - specifically the Offspring cut and the early play of the U-2 track... Catherine Wheel's laest single "Waydown" now sports a new video, just cor pleted under direction of Mark Pellington. Pellington directed Pearl Jam's award-winning "Jeremy" videb. You can also catch Catherine Wheel on the Conan O'Brian show on June 8th ... And in video news, the new Mike Watt video shoot has been postponed following setbacks which arose from the clatter of legal fireworks over the previo is video. Despite initial clearances for the use of the name of the railroad line in the video, lawsuits were brought on everyone from the label to MTV regarding the depiction of a train man drinking while in control of a train. The show goes n

> for Watt, however, as he will now be doing the 2nd stage at Lollapalooza, and will join Soul Asylum for about 20 dates, as well... lur warmed up for their forthcoming show at the massive London Mile End Stadium with a secret gig at the 250capacity London Camden Dublin Castle last week (May 18). Tickets for the show were all sold within three hours and lucky fans were rewarded with a set which comprised "Pop Scene," "Come Together," "Coping," "Stereotype" (a new song), "Jubilee," "Advert," "bank Holiday," "Globe Alone" (a new song), "Fried." "Tell Me" (both songs from the band's early days when they were known as Seymour), "Park Life" and "This Is Low." Although most fans enjoyed the show, there was one nasty moment when a broken glass was thrown at Damon Albarn. Apparently, the member of the audience responsible objected to Albarn contributing a column to a magazine run by Chelsea Soccer Club (the singer is a supporter). Albarn also ioked with Graham Coxon that Blur's songs were better than those of Oasis. Members of Pulp.

Carlson bought the gun which Kurt Cobain used to kill himself, but refuses to talk about the suicide: "It's not open to discussion. CATHY FAULKNER, KISW/SEATTLE

Friday night, I went to the Crocodile Cafe in Seattle to "check out" this new band called "Super Friends." Wonderful... They're grown so much. Now, I support Seattle bands to the point you're sick of me: If you do nothing else that I suggest this year, DO listen to **Sweet Water's** first single "Superstar." HIT. Coming soon. (When have I steered you wrong?!) Saturday night, I attended the CD release party for **Green Apple Quick Step**. Though I've seen the band many, many times, they truly knocked me on my ass! Look for them on tour now. "Reloaded" in stores Tuesday. Sunday, **REM** at the Gorge - religious experience. Memorial day - No Music Hours!

AL SCOTT, KUFO/KBBT PORTLAND, OREGON

Man, it is tough to keep all these great concerts straight. Last Thursday it was a tear-ass gig with **Sugar Ray**. Those cats are nuts. Then on Friday night it was the **Sonic Youth/R.E.M.** show. Then Sunday night it was **PJ Harvey** and Tuesday night **Page/Plant**. I love this!! Check out this cool new **Oasis** tune, "Rock 'N' Roll Star." We added it on The Beat this week. That's about it. I gotta go buy some more earplugs. Hurry up and leave me alone!!!

CARTER ALAN WBCN/BOSTON

The 17th Annual Rock n' Roll Rumble reaches the last round this Thursday night. Two Boston bands have attained the exalted plateau of finalists in our local battle of the bands. Following sets by both groups, the Muffs will perform a quest set for the crowd at the Middle east. Thanks to Reprise for the help. Looking back, thanks to Coldwater Flat for the Unplugged performance on the air last week. "Virus Road" continues to build here. The upcoming Julianna Hatfield/Jeff Buckley/Coldwater Flat shows are gonna be great. Thanks to MCA for bringing the band by. Matthew Sweet destroyed Avalon last weekend and proved that "Girlfriend" and "Sick of Myself" are just the beginning-he's got a truckload of great songs and a killer rock band behind him. Monster riffs and solid singing made this a super show form the first note. Grab onto the Matthew Sweet tour if it hasn't passed through yet. By the way, "Sick of Myself" continues to resist burn and rocks the airwaves months after we added it! Green Apple Quickstep is my favorite recent add, "Los Vargos" is a monster. Can't wait till the band comes back to New England, last time they were third down on the bill to Fishbone and they had all of a half-hour to prove their stuff. Even so, they rocked! Thanks to Warner Bros. and Elektra for bringing Wolfgang Press and Baby Chaos by to play unplugged sets on Bradley Jay's Midday show. The latter band, from Scotland, has a hit in its "Buzz" single form the Safe Sex. album.

BRIAN ADAMS, KYYS/KANSAS CITY

Friday May 12th at 5PM, KYYS-FM in Kansas City kicked off it's first ever "We'll Play Anything for Money" weekend to benefit United Cerebral Palsy. With the help of volunteers from both UCP and KY-102 airstaff raised over \$10,00 during a 36 hour time period. Listeners pledged a minimum of \$25 to hear their favorite songs past and present. Several local used record stores loaned the radio station records that were absent from the KY-102 music library. Programming Assistant Brian Adams commented, "We played a lot of Frank Zappa, oldies like "Seasons In The Sun" by Terry Jacks, "Convoy" by CW McCall, and a ton of stuff from local bands. we were amazed at how generous our listeners are." KY has plans to do it ball again sometime in the future, and will also raise money for UCP during the annual "Rock 'N Roll Auction" held in the fall.

BRUCE WARREN. WXPN/PHILADELPHIA

"The only way I have thought of improving popular music so that I, for instance could enjoy it, would be to have lots of it, different kinds of it, in the same room."

John Cage.

1 Ben Folds Five- Soon to come on Passenger/Caroline, this Chapel Hill Trio is like what **Superchunk** would be like if it studied early **Todd Rundgren** and **Elton John**, with a little **Squeeze** and **Andy Pratt** thrown in. 70's piano pop with nifty punk attitude. **Billy Joel** wishes he was this cool.

 $2^{\text{Mae Moore-} \underline{\text{Dragonfly}}. Hopelessly in love with the voice, the melodies that surge with the soaring ele-gance of a butterfly in summer.}$

Beach Boys on crack. We swear by "Clare".

4 The Apartments- <u>A Life Full Of Farwells</u> (Restless)-Pathetic romantics take heed. Australian janglepop for broken hearts and hearts breaking. A cross between **The Chills** and **Burt Bachrach** and **Hal Oavid**.

5 Spearhead- All the pieces are in place, surged on by a powerful video and a powerful World Cafe performance. Be here now with "Hole In The Bucket", a song that sounds great on the radio and fits perfectly in between Shawn Colvlin and The Subdudes.

6 Vigilantes of Love- Bill Mallonee deserves to be arena-rock big. Five records on, <u>Blister Soul</u> scorches, starring Mallonee as American equivalent to **Peter Garrett** and **Midnight Oil**.

ZIsaac Hayes- <u>Branded</u> (Point Blank/VIrgin); **Lonnie Smith**- <u>Live at Club Mozambique</u> (Blues Note/ Rare Groove)_ As **James Brown** has said often: "Hit me two times".

B Catchers- <u>Mute</u> (Discovery)- Pastoral, light and fluffy in an early Cure, Echo and the Bunnymen and Martha and The Muffins kind of way. **O** Kendra Smith Five Ways Of Disapearing (4AD)- Smith is the queen of psychedlic folk-pop, with the **Dream** Syndicate and **Opal** all a part of her illustrious histiry. Five Ways is a gorgeous ray of light in an abysm I generic sea of singer-songwriters.

1 Othe Boo Radleys- "Wake up, Boo"- Whe e the Jam meets_The Beach Boys, the water is warm and the skies are sunny.

Thanks to SuperFrank, Bob Hathaway, and everyone at Warner Bros. for the tickets. On top of the **R.E.M.** tickets, we also gave away tickets to the sold out Offspring show tomorrow night here in Springfield. People were salivating like Pavlovian dogs at the mere mention of Offspring tickets. Offspring are massive here in Springfield, everywhere, and the Channel Z faithful are dying to see this show. Tuesday night, The Shrine Mosque could be even more insane than an English soccer crowd. Much thanks to Wendy Naylor, Mike Jacobs, and Epitaph for all of their effort in making this show and the tickets possible. We'll give you the full report of the show next week. Kevin Kline is no longer with us. Julie Barry is our new night **Queen** and Music Director. She can be reached for music calls Tuesday and Wednesdays from 2:00 PM to 4:00 PM. We're very excited to have her and she is anxiously awaiting your call.

KIM ROSSI, KMMS/BOZEMAN

Just want to take a moment to thank Eric and the gang at A&M for inviting me out for the Cruel Sea show in Seattle. The room was small, the energy level was high (as was the band's light man), and the crowd was definitely digging it!! I now have a new favorite song from these Australian dudes - "Naked Flame." It's sort of spooky reggae. The stuff they played from their latest Australian release was absolutely smokin!! Sooo Eric, when are they going to release it state-side? Another "Howdy" to the gang from "The Mountain." You've got a great sounding station!! And I'm not just saving that 'cuz you let me hang with you guys. Keep it up and Seattle will be yours!!! Here in the Bozone, a few things that have been working rather nicely for us are: Sonia Dada (major phones), Matthew Sweet's "Walk Out," The Rembrandts, Little Feat, and Jill Sobule's "Good Person Inside" (The line about "Hands as big as Montana" gotta love it!). If your looking for a great reaction track, check out the Ultra Bluesy "Glory Box" or "Roads" from Portishead. Every time I spin one of these, I get a hankerin' for anything covered in soft... deep... red velvet. Ooh!! Almost forgot... caught Green Apple Quick Step at the Rock Candy. They packed (and I mean packed!!!) the place. I knew this band was good when I heard "Dizzy" off the **Basketball Diaries** soundtrack. I just didn't know how good. To Tammy at the Mountain: even though we can't successfully play golf, don't forget... breasts hold many musical powers we have yet to fully comprehend. Use them wisely!

Hello: Regrettably, WPUP and I have come to a parting of the ways, over what could be termed "philosophical differences." Station lineup and music duties are currently up for grabs, and i'm sure you will have a new person to hear from soon. I'm currently exploring my options, and would be happy to hear of anything you know of. I can be reached ar 706-335-2457. Geez, what a bunch of cliches. I'm going to go away now...

SCOTT "LO/JACK" DOUGLAS VIRGIN 212-332-0418

It's going to be great to see everyone in New York next week for the McGathy soiree! We've got a lot of stuff happening there with King Crimson and Brother Cane... too cool. We are starting to build a nice little buzz on the Maids of Gravity. KISS, WBCN, KLBJ, and a few others are playing "Only Dreaming" right now although our emphasis has until now been totally at the modern rock format. This is a great rock song with a lot of flavor. It's not grungy so it will definitely sound different on the air. Give this some serious consideration. King Crimson's "People" has a definite Talking Heads feel ... maybe a little more toward the Jerry Harrison side. It's very cool and the most radio friendly Crimson in years. See this show!! They are stellar!! Station sounding boring with the same old songs? Grunge-classic-snoozorama? You can be among the first on your block to say, "I got it back with Lo/Jack" and add these records! Brother Cane is a fucking killer, suckah, smash, hit, smoker, top of the pops, I don't give two shits what you call it but there is no doubt you will play it! Besides being good friends to all. Brother Cane has the shit. Lo/Jacks to: Tim Parker, Amy Winslow, Heavy Lenny, Chuckle Gravity, Elana Teune, and Bob "Perception is Reality" Richards. Have a great Memorial Day weekend ... spend some time with the family 'cause nobody ever dies wishing they'd spent more time at the office!

Pink Floyd...<u>Pulse</u>..."What Do You Want From Me" is in your hands today. It's truly and amazing project, wait till you see the entire package that will be instore on June 6. There's not much that needs to be said... the music says it all... official airplay now!! I guess you can look at the stats and see how well **Dokken's** "Too High To Fly" is doing...Every week things keep getting bigger and this week is no exception with another 25+ radio stations including WiYY, WEBN, and KLOL to name a few. The

sales... truly explosive with debuts at Musicland at #36, National Record Mart #13, and Harmony House in Detroit #3. This first leg of their tour was a sell-outthe summer leg is being booked as you read this. Corrosion of Conformity "Seven Days"- this track kicks some very serious ass!! It's amazing to look at BDS and still see the airplay on "Clean My Wounds" which is still Top 10 at KLOS, KLPX, WAAF, KEGL, and more. That song proves the point that this band writes tunes that rock hard and research through the roof. They start the tour with Monster Magnet May 31- I think that qualifies as a pretty serious show--- so get ready for "Seven Days" to keep the roll going right through the summer. Mad Season "River of Deceit" is starting to research. and trust me when it does it will go through the roof. The point is, if you continue to play it you will see. If you don't have a copy of the live version of "River of Deceit" let us know so we can get you one... it's amazing.

Stop, Hey what's that sound? Everybody look what's going round! Massive Attack, baby. Maids of Gravity's "Only Dreaming," had a great week wise new supporters... WBCN, KTOZ, KKNB, WRLG, WHTG, KACV, WCHZ, KBTZ, KLBJ, REV 105, WFNX, WDOX, KWOD... looks like gravity does have control over those who listen. The band is on tour with God Live Under Water, Make sure you check it out a live gig. My boys have arrived. The Verve. "On Your Own" is the lead track. You have plenty of time to listen, test and add on June 5th. The Verve have toured the USA three times, in addition to Lollapalooza side stage takeover! Their debut album soared to #9 on CMJ & #5 on Gavin College chart in 1993. (prior to the current British invasion) The Verve has had extensive coverage in Rolling Stone, SPIN, Melody Maker, NME, Sassy, Alternative Press, and tons of great fanzines. The time has come to redeem yourself for A Storm In Heaven, and break A Northern Soul wide open. Be a leader, not a follower. Please call for extra copies/press-clippings/info to educate you air staff and listeners. I am so fucking excited about this project. I beg for Verve discussion. Call me. Please give "People" by King Crimson a test. Why has their tour sold out at every show? Why not own this audience and get involved? You have the technology to be faster, stronger, and better than before.

Fear Factory was #1 most added, had an outstanding high debut on the charts, and an incredible DJ and audience response. If you were one of the stragglers who have not started playing Demanufacture, it is now uncool to be fashionably late. I am going to work very hard to maintain a strong presence for this band at radio. That does not mean I haven't started yet. I've done nothing but adopted FF as my own for the past few months. The single is "Replica," and for those who can not play anything too heavy please concentrate on "Dog Day Sunrise." FF will be on the road this summer for a huge US tour. But first they will be heading over to Holland to play the Dynamo with label mates Life Of Agony, Nailbomb, Madball, Machine Head, Dog Eat Dog, and Type O Negative (they might as well call it the Roadrunner festival). I wish I was going, but noooo!!! I am going to stay here and work all my records to all you crazy people. Don't forget- Deicide is currently on the road with Broken Hope ... Suffocation should be gaining more and more spins and will tour this summer... Death's headline tour starts very soon, so keep playing Symbolic as though it's going out of style ... Coming this summer Shank, Shelter, Karma To Burn, Life Of Agony... (Does it ever stop?!)
