TOP CHOICES

Kevin Salem, "Lighthouse Keeper," Roadrunner

One of the greatest characteristics of Kevin Salem's recent <u>Soma City</u> album is the fact that the artist, manager and label actually open up the record with a legit mofo. "Lighthouse Keeper" begins the tour through the artistic vision of this guitarist/songwriter with clever guitar layering and melodic tone, while lyrically the song entices you with seductive visual images. The vocal Salem lays down is earthy and unique. Kevin keeps the whole ball 'o wax in the park in terms of pop

melodicism, but it's a far cry from being silky smooth. "Lighthouse Keeper" really works with Salem's vocal approach. Make a little time to listen to this in-house fave, and catch Kev and the boys on stage for the total close job. It worked for us.

Live, "White, Discussion," Radioactive

This single is the last in a series of successful radio ventures for this Pennsylvania band that took the entire rock world by storm with this record. By now you know some of the story surrounding the band's early days, at least enough to know that they've earned their position on the top of the heap for 1995. "White, Discussion" makes its debut at 39* on the Rock Alternative panel this week by virtue of 219 spins, and track transfers from "All Over You." Amazing bands cer-

tainly don't come around every month, and the opportunity to fill a slot with a proven winner like Live can't be denied. But the real question is, do you need to hear this from anybody?

Blind Melon, "Galaxie," Capitol

#1 Most Added at Rock Alternative, the only arena here at The Hard Report that the Melon boys edged out that band from Arizona this week. They've been walking the line between Rock and Alternative since we first laid ears on them, and this time out is no exception. Laced with more musicality and verve than the last record, "Galaxie" is a giant leap forward for this band in an artistic sense, not that that makes it an easier sell at radio. They've gone done and pushed

the boundaries again, but given their track record, why not? Adds came in this week from the likes of **WAAF, WDIZ, WKLL, WLLZ, WJRR, 91X, WMMS** and many others. "Galaxie" is guitar-driven Rock Alternative, no question about it.

Seven Mary Three, "Cumbersome," Mammoth

This band from Florida has turned out to be a killer for **WJRR** early on, with Top 10 results in their first wave of tests reported by **PD Steve Robertson**. What these guys have going for them is the requisite modern guitar-driven rock edge that can satisfy the most ardent commercial Alternative radio listener, and enough mainstream sound to temper the breaking band's unfamiliarity factor. Hometown rocker **WDIZ** also jumps in early on this band that captures the earthy

essence of the Tragically Hip and Midnight Oil without being copycats. Expect good, solid cross format attention here.

THE HARD REPORT

TOP PRIORITY

Freddy Jones Band, "Hold On To Midnight," Capricorn

This track certainly has the goods to succeed on a variety of levels. Like the last two hits, "Midnight" hits and sticks with barely a listen, and in the spirit of a good Gin Blossoms or Rembrandts tune, even the tone deaf are compelled to at least attempt to a high volume sing along with this melody monster. That's what made "In A Daydream" and "Take The Time" so special, after all. That and Capricorn's refusal to take no for an answer. But FJB obviously did their part, as well, as time release breakouts like theirs rarely take place without incessant touring and almost as much flesh pressing. But all that and more

happened, and now this "dues paid in full" band is back with a most worthy follow up. And how's this for a new wrinkle: Freddy Jones Band offers that elusive combination of new band image with a sound still perfectly suitable for the classic buffs in your midst, and it's one great little song you won't have to share with the Alternative outlet in town. Already kicking major butt at AAA, by the way.

COR

7 Mary 3, "Cumbersome," Mammoth

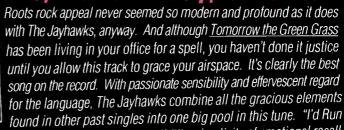

This band has a modern sound, to be sure. But this sound is reflective of certain familiar territory covered by bands like Tragically Hip, Midnight Oil, and early INXS. That is to say, the treble-heavy guitar and the driving beat are in complementary blend to the lyrical, imagistic lower registers of the vocal track. There is a live feel to the overall production that suggests powerful concert appearances are waiting in the wings for us all. Best of all, this Orlando band comes to you with the stamp of the champ from **WJRR**, the station that intro-

duced Collective Soul to the US of A. Obviously, that airplay pedigree didn't escape Mammoth's notice. "Big calls, big testing, killer results" according to Steve "Reach Around" Robertson. This is the record that The Hip should've made.

HERITAGE

The Jayhawks, "I'd Run Away," American

Away" channels both sadness and laughter with a childlike simplicity of emotional recall. The Wings-ish guitar and the Beatle-esque textural instrumentation found in the background of this song paint a vivid musical landscape. An artful tune, to say the least.

COR CUTS

Southern Culture On the Skids, "Soul City" (DGC)

All of a sudden the novelty records went away, and we got a little serious. O.K., now we're back to tell you that there's more fun to be had. This track will last about as long as a snowflake, anyway, so you should get in now and take advantage of the early buzz. "Soul City" pits the Dave Edmunds telephone-vocal against a hillbilly twang for 2:35 of redneck raucousness that just might set Jeff Foxworthy

out looking for a new job. They say that you might be a redneck if your dream house has wheels under it. "Soul City" might expand the metaphor to include the BMW and the Lexus with the double-wide. At least for a little while, redneckville could be a hip place to hang your hat.

Paw, "Hope I Die Tonight" (A&M)

A&M's dedication to this band is almost as strong as the band's music itself. Isn't that a beautiful thing? The label has good reason to be bullish, not to mix our animal metaphors. **Paw** has been gradually building support at radio since "Jessie" first hit in 1993, with non-stop touring and never fail recipe of two parts grunge and one part melody. They were successful in building an underground following

to the tune of 100,000 units sold last time out, and "Hope I Die Tonight" is off to a good start for the band with airplay at **Digital Music Express**, **KISW**, **WVCR**, **KNRX**, and **Q104** to go along with adds at **KLOS**, and **WDZR**. "What a big hit!" exclaims the required quote from 'DZRs **Joe Bevilacqua**, "The production is stellar. The vocals are great: They mix the perfect combination of emotion and grit. Gin Blossoms overtones with a little more of a kick in the ass!" **Paw** made their name last time around on the road, and A&M will have them on tour for the majority of the next year. You won't be able to avoid these Kansas boys as they nose their way up onto the charts.

Speedball, "Hog" (Energy)

This Detroit based band is creating quite a stir in their hometown with their Steve Thompson (Guns N'Roses, Metallica, Soundgarden, Madonna) produced debut, with 38 spins a week at **CIMX** producing both top five phones and top 200 sales. The song is buzzing with muscle and intensity, gassed up with pulverizing, grooving riffs that will run laps around most tunes. How's that for tipspeak?

Mix in a Harley reference, suggest a trip to the shore, a rendezvous with a somewhat flexible nubile (gender optional), and Energy could have a contendah here. They're currently blanketing midwest venues like a thermal inversion, so be aware or be square. Or something like that.

Redbelly, "Fire in the Hole" (EastWest/EEG)

If you thought that all of the viable bands with thick, dirgy guitars had to come from Seattle, right you are. Only kidding. The New York based Redbelly (as opposed to Ledbelly) have taken a step back in the direction of groups like Alice in Chains and Candlebox who have made their name on a brooding appeal rather that pop laden ditties. The nerve! "Fire in the Hole" is a perfect antidote to change

up the pace in any daypart without needlessly blasting out the ears. Huh? The darkly hypnotic "Fire in the Hole" glides along with hooky, chunky riffs; like a magic carpet ride on a rug made of concrete blocks. Another interesting tidbit (great for on-air F.Y.I.) is the guitar solo, which is Jimi Hendrix's "All Along the Watchtower" solo played backwards. Cool! An add at KNRX this week is just the first indication that, much like the creature in Alien, Current radio can't wait to journey into the captivating depth of Redbelly.

It's never a dull moment in the Primus camp. Reaching new heights of originality in their latest video for "Wynona's Big Brown Beaver" the band hooked up with the special effects team of Steve Johnson and XFX - they were responsible for the **Duracell commercials** to create caricatures of the band members. Pictured here are is the band - Larry Lalonde, Herb, and Les Claypool with Interscope's Jill Rose and Tom Whalley.

Why just give away tickets to the tenth caller when - like WKLQ - you can have a contest for the best picket sign to win R.E.M. tickets from MD Dave "The Beef" Wellington.
Pictured here are some of the eager participants and their works of art - including one that states "I'll eat Beef for R.E.M. tickets!"

Rock Alternative

TOP CHOICES

Kevin Salem, "Lighthouse Keeper," Roadrunner

One of the greatest characteristics of Kevin Salem's recent <u>Soma City</u> album is the fact that the artist, manager and label actually open up the record with a legit mofo. "Lighthouse Keeper" begins the tour through the artistic vision of this guitarist/songwriter with clever guitar layering and melodic tone, while lyrically the song entices you with seductive visual images. The vocal Salem lays down is earthy and unique. Kevin keeps the whole ball 'o wax in the park in terms of pop

melodicism, but it's a far cry from being silky smooth. "Lighthouse Keeper" really works with Salem's vocal approach. Make a little time to listen to this in-house fave, and catch Kev and the boys on stage for the total close job. It worked for us.

Live, "White, Discussion," Radioactive

This single is the last in a series of successful radio ventures for this Pennsylvania band that took the entire rock world by storm with this record. By now you know some of the story surrounding the band's early days, at least enough to know that they've earned their position on the top of the heap for 1995. "White, Discussion" makes its debut at 39* on the Rock Alternative panel this week by virtue of 219 spins, and track transfers from "All Over You." Amazing bands cer-

tainly don't come around every month, and the opportunity to fill a slot with a proven winner like Live can't be denied. But the real question is, do you need to hear this from anybody?

Blind Melon, "Galaxie," Capitol

#1 Most Added at Rock Alternative, the only arena here at The Hard Report that the Melon boys edged out that band from Arizona this week. They've been walking the line between Rock and Alternative since we first laid ears on them, and this time out is no exception. Laced with more musicality and verve than the last record, "Galaxie" is a giant leap forward for this band in an artistic sense, not that that makes it an easier sell at radio. They've gone done and pushed

the boundaries again, but given their track record, why not? Adds came in this week from the likes of **WAAF, WDIZ, WKLL, WLLZ, WJRR, 91X, WMMS** and many others. "Galaxie" is guitar-driven Rock Alternative, no question about it.

Seven Mary Three, "Cumbersome," Mammoth

This band from Florida has turned out to be a killer for **WJRR** early on, with Top 10 results in their first wave of tests reported by **PD Steve Robertson**. What these guys have going for them is the requisite modern guitar-driven rock edge that can satisfy the most ardent commercial Alternative radio listener, and enough mainstream sound to temper the breaking band's unfamiliarity factor. Hometown rocker **WDIZ** also jumps in early on this band that captures the earthy

essence of the Tragically Hip and Midnight Oil without being copycats. Expect good, solid cross format attention here.

Popa Chubby, "Healing in Her Hands," 550

This New York City R&B songster drank in some radio attention with "Sweet Godess of Love and Beer." While that tune made the rounds, we sampled a number of other tracks on the album, and among the other offerings, this one picked up our ears. Popa Chubby is nothing if not streetwise in his interpretation of R&B elements written well before the

big guy's arrival. Chub's gruff delivery is more rap-like in its intent, the guitar covers a meaner stretch than the traditional blues box patterns of the masters, and the arrangement is reminiscient of a regular rock and roll song. But the overall feel is very definitely R&B, in a low-key Aerosmith/early ZZ Top way. Chubrock for your blues/rock contingent.

Annie Lennox, "Whiter Shade of Pale," Arista

Nobody in the business has made more of the voice that she has been given than rock diva Annie Lennox, and on her latest record she springs to life with versions of familiar tunes we have been hearing most of our lives. The way in which she delivers these classics almost rewrites

their significance. On "Whiter Shade of Pale," the lyrics jump out across the air in a manner that could never again happen with the Procul Harem original. We're too used to the overall sound to hear it new again. The reborn spirit infused in this version is soulful, balanced, and very airable in the Heritage idiom. One listen will reawaken this one for you in a way you never thought possible for the mainstream rock world. You can now play this classic without the burden of justifying its hipness.

Gin Blossoms, "Til I Hear From You," A&M

What can you say about a first week like this? #1 Most Added at Alternative. #1 Most Added at COR. And #1 Most Added at Heritage. We can't say it was a shock, to say the least. With the vocal distinctiveness that practically without parallel in the current category, The Gin Blossoms

stand out at any time of the day. This track culled from the soundtrack to the movie Empire Soundtrack is destined for multiformat acceptance. There's nothing really too far out or insolent about the overall effect. Nice aftertaste, too. 'Play it all day long, immediately', urges this week's coverboy. Apparently, many are already, with nearly 200 spins generated in week one. Debuts at 41*, with certain status amongst the leaders soon to be realized.

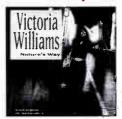

Billy Pilgrim, "I Won't Tell," Atlantic

We don't really know if Mike Campbell is on this track, but if he's not, he's probably due a check from somebody. The classic throbbing Petty guitar sound underscores BP's second serve, and it's a sound we've certainly come to love over the years, as Billy Pilgrim weaves a jangle that is enticingly familiar. Their simple melodies and characteristi-

cally rootsy musicianship have a comfortable feel about them, kind of a vibe you can count on. You'll seque this with a hand-in-glove connection to so much stuff in your library that you'll think it was tailor-made for your station. It's no secret you've got some country button-pushers coming and going in your world. Here's a country hook on top of a rock palette, gone over with a fine-toothed comb for extraneous elements. Pure songcraft elegance.

Victoria Williams, "Nature's Way," Atlantic/Mammoth

Perhaps this is one of those cases where you've been exposed to a particular artist, and recognize the inherrent hipness, but haven't yet heard anything ready for air on the mainstream level. Here's some good timing for you. She's touring with Soul Asylum around the country this month, and actually sings this Spirit cover with buddy Dave Pirner in a co-lead vocal situation. There's plenty of familiarity with the older audience, and a renewed hippy

interest to capitalize on with the younger ones. A solid and short selection for your perusal.

Ponder, if you will, the veritable

Brenner

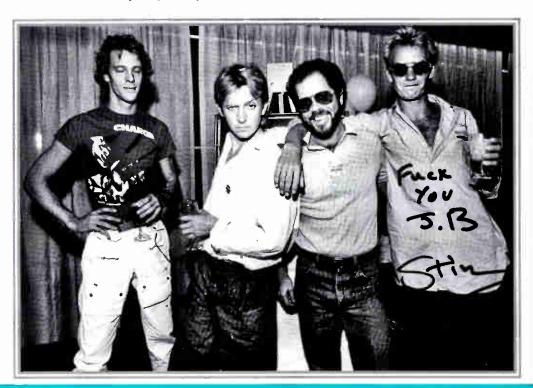

by Bill Hard

Do you feel slighted by all the attention paid to Alternative?

J.B.: You can't argue that Alternative is working. The format leaders at Alternative are incredibly in tune with their markets. They know what is selling and why. They've worked hard at creating events that have become annual attractions that serve them in many ways. Whether it's KROQ's Weenie Roast or the HFStival, these events are great opportunities for new and developing bands. It's nice to see so many album rock stations finally giving new bands the spins it takes to make them familiar. The interest in that format creates a healthy, competitive dynamic with-

in a record company. Any station or format is going to get attention from affecting the marketplace. And there's so much more musical overlap between formats these days that it's hard to tell who is selling what. We get excited when Soundscan shows a record going from 40 to 60 units in a market. Sure, that's not the tonnage that you'd like to see. But when we trace back how we grew projects like Blues Traveler, Sheryl Crow and Gin Blossoms, our early excitement was based on seeing small increases week to week in medium sized markets. That told us we had something. Once we know that, we keep on our agenda, regardless of the time factor, or of what particular format might have had more adds the week before.

parade of artists, formats, programmers and record companies that J.B. Brenner has seen in his twenty years with A&M. When he joined the label back in '75, the Captain and Tennile were riding high, along with Nazareth, The Ozark Mountain Daredevils, the first Styx album (on A&M), and Gino Vannelli. Seem like ancient history? As amazing as the label's rock discography since that time is the fact that Mr. Brenner is absolutely as vital and current a force as when he jammed his first PD on "White Punks On Dope," also a big record back in his rookie year. How does our man J.B. do it? Good looks, a sense of humor, and a regular diet of hit records. Why, look! Here's A&M atop the Most Added this week with that new Gin Blossoms track. But it's probably J.B.'s dogged pursuit of Sheryl Crow and Blues Traveler that most merits recognition as textbook examples of artist development and long term label commitment. But even with those two monster success stories under his belt, we still have to start off by asking the dreaded question...

Obviously the Blues Traveler and Sheryl Crow stories have so many interesting ramifications. It seemed Blues Traveler was dead in the water three months ago, but you've gone on to Top Five airplay and hundreds of thousands of units in sales. What told you that it made sense to keep pushing?

J.B.: Traditionally the band sells records. The word of mouth spread by the fans when a Blues Traveler record comes out gives you a great couple of weeks

of Soundscan, then the numbers tend to ao down. You will see sales spike around their tour. We saw that initial burst on this album. In the middle of November when Triple A started to switch over to 'Run-Around' as the emphasis track we started to work it at Rock radio. Between mid-November and mid-January we saw enough signs in enough markets that this record had picked up and was increasing week to week. The band was on tour in Europe so we knew it wasn't that. And the video

hadn't been made yet. It was clearly airplay on 'Run-Around' that started to pick the sales back up in places like Minneapolis, Philadelphia, San Francisco, and Atlanta. At that point, we really started to kick the record into gear and began to work it at Modern Rock and Top 40.

Regardless of the sales and related format activity, rock stations were telling us, 'We do not want to play this record. It's not us.'

J.B.: The record was not an ear pick for Rock radio. This is a great sounding pop song in a lot of different ways. Unlike some records, we had to create a story to get Blues Traveler across. In your interview with Curtiss last week he mentioned one of his big surprises was the way this band works.

What we were asking for from radio stations with which we did business was 'Hey, we worked the Gin Blossoms. We had two birthdays when that record was out.' It's not about 'Add it this week,' or 'We need a break.' It's about this being a hit record and stations depriving their audience of it. Research that was coming back, whether it was call-out or MTV's, was so incredibly positive that the track couldn't be denied. There were times when we never thought we would get KROQ or KLOS on this record. Now they are both banging it.

J.B. joins Blues Traveler on stage for a little harp work.

But you had to come to a point where you were concerned about becoming a nag.

J.B.: I guess. Except when you know you are right you can't back down. When we'd come to the lot every Wednesday morning and see an even better Soundscan number we knew we were on the right track.

At the end of the day Sheryl Crow has to be considered a huge success for the label. Now she's widely cited as a textbook example of over-exposure. Is that a bum rap or what?

J.B.: Some things came into play that we simply couldn't control — the fact that the Zeppelin tribute album came out at the same time as the Boys On The Side soundtrack, for example. I think the Woodstock situation happened at a key time when Sheryl was breaking through. I thought that event was important in breaking her, all exposure considerations aside. This was a woman who worked extremely hard, and did everything that was asked of her. Whether she was touring with Crowded House or the Eagles or Blues Traveler, she was out there

working and connecting. As much as this industry likes to knock people down once they get to the top, I think it's a little premature to start taking shots at Sheryl Crow.

Was there a point in time after the first track sort of mid-charted out that you were having second thoughts on the project?

J.B.: No, there was enough going in the marketplace. Triple A had picked up on 'Leaving Las Vegas' off the LP, and we started seeing sales

activity where that was on the air, and around her touring. The album was released in the summer and we used the time 'til the end of the year to develop a plan to start working 'Leaving Las Vegas' at Modern Rock, Rock, Triple A, then CHR and the video channels in the new year. It didn't do what we wanted it to do, but it worked well enough. Sheryl was on the road and there was enough interest from programmers to go deeper into the album. There were a lot of phone stories coming from different regions of the country on 'All I Want To Do'.

Who found that record?

J.B.: Al Cafaro felt very strongly about this track. And I know Mike Morrison was one of the first programmers to report major phones from his play at WXPN.

What mistakes would you say the record companies still seem intent on making in the '90s?

J.B.: I know the hardest thing for A&M is to get off a record. Before we make that hard call we want to make sure it's the right one. If we need to put three or four extra weeks into a project to make sure we aren't missing an opportunity on behalf of the artist then we pull back. The important thing in situations like that is to explain to radio that when they take a

shot on a record, we take a shot together. and that we will continue to recognize their support. When a particular track doesn't come home. there is a lot of room between success and failure, a whole middle around there called Artist Development, You want to be able to get the people who were involved early to continue to be involved in your next step. Trying to explain that to them can be a difficult situation.

Are you having to work a little harder for the new Gin Blossoms

than you might have thought?

J.B.: Not really. We're #1 Most Added at Alternative, Rock, Triple A, and CHR. The track is great and at the end of the day it will rank up there with 'Hey Jealousy' and 'Found Out About You.' It's the first track from the Empire Records soundtrack, coming in mid August, which was executive produced by former A&M promo rep John McHugh. Besides the Gin Blossoms, we'll be coming with the Edwyn Collins track, 'A Girl Like You', which is already happening at major Alternative stations. There's also new and unreleased material by Evan Dando, the Cranberries, Better Than Ezra, Cracker and Toad The Wet Sprocket. We'll also be releasing a great song by the new A&M act, Ape Hangers, called 'I Don't

Wanna Live Today.' We've had some big sound-tracks and we look for this to be our biggest yet.

If there was one thing you could change about radio's mindset what would it be?

J.B.: From their side of it there is probably more stuff coming at them now more than ever. Just when you think there could not be more labels, here come more fully staffed start-ups. I wish more programmers took long-term relationships into

Rock. Mike Rittberg and I deal with the Rock stations. Obviously he has been an excellent addition to the staff, especially to the younger skewing, more current, more active-type stations. He's got a great sense of what it is all about out there. We look forward to his continued growth in the department.

But have you given Mike enough real meat to work since he got there?

J.B.: I think that is starting to swing around. Mike came in at the tail end of the last Paw record and was here for the whole run of the Soundgarden and Extreme projects. He was a big part of the early success of Monster Magnet. We are about to go into the second track on that one. We have Paw set up and ready to roll in about a week, which will hopefully be their break-through record. On the New Rock side, we have Jack Isquith and Lorraine Caruso, who have done an incredible iob at keeping A&M at the forefront of

consideration, and remember what labels have been most supportive over time.

What has A&M done to deal with fragmentation at Rock radio? How effectively do you think you've changed to meet the needs of the marketplace?

J.B.: We have four Senior Directors placed regionally around the country — Chuck Blitziotis in New York, Mark Tindle out of Atlanta, Ross Grierson out of Chicago and Scott Finck out of Los Angeles — who are responsible for all formats in the regions they cover. Working with the local promotion managers in the markets, they are responsible for everything from Triple A to Top 40 to Modern

what is going on in the Modern Rock arena.

You guys have to love having a former heavy hitter indie in house.

J.B.: Absolutely. This was a great opportunity for Jack and for us.

Do you think it's tougher on independents these days than it has been in recent years?

J.B.: If it's not tougher, it will probably be getting tougher to support the number of them that are out there. It's become a lot easier to rely on technology than on individuals to track records. Whether it's using on-line tracking systems or BDS and

Soundscan it's easier to get the hard information about what a record is doing once it gets on. A paper add doesn't get you anywhere. In fact, that was one of the main reasons the format got a bad rap years ago. If it was questionable at that time whether medium airplay on a Rock station could sell records, then obviously an add with no airplay isn't effective, either. There was too much paper flying around.

But you have to admit that it was kind of fun. Call somebody up at 5:00 on a Tuesday afternoon...

J.B.: That was fun for the travel agency.

When was the last time you walked into KLOS with a record and it went right on?

J.B.: They were pretty excited about our Monster Magnet record when it came out. That was as close to out of the box as you want to get. At that point there was excitement about the band off a track that had been on a sampler we had out. It was something that Carey and Rita felt good about. So did

the airstaff who had come over from KNAC, where three tracks got played from the band's debut album. Mike, myself, the local person, Tami and our regional guy Scot made it number one on our agenda and radio reacted. KLOS just added the new Paw track a week early. They've been working very hard to tune things up and it shows in the great book they just had.

And now you've got current high profile stations in Los Angeles and New York. How much has having a station like Q104.3 added to your ability to spread a Monster Magnet nationally?

J.B.: Obviously, it was great to talk about Greg Mull and 'XTB, but now it's nicer to be able to talk about an 'XTB. a KISW. and an 'AAF. a Q104 and a KLOS on a new record knowing that those adds are real. When these people take a shot on a record you are going to get a good one. We will do whatever it takes to back them up and support them on an artist that they choose to support. It's great to have those type of stations in major markets.

managers, etc. For the most part, we like to be able to work these things out so everybody gets something. The sad thing about these situations is that it's the bands that get hurt. There is so much negative energy surrounding co-promote business. Besides the little mention the station gets in the newspaper ad, the battle is usually fought over the major advertising dollars spent by the promoter on who gets the official co-promote. The problem is that if the show goes neutral, neither station will promote the show like they would if it were theirs. A promoter doesn't like that because he doesn't feel he gets any

J.B. and Desiree Schuon are bookended by Andy and his celebrity lookalike.

And to deal with the co-pro hassles in those markets? How much have you been caught in the cross-fire there?

J.B.: It becomes very divisive both outside and within a record company. The battling going on in the market with stations fighting over co-promotes are similar to the battles that are being fought inside the label. We're like anybody else, we are trying to do the right thing for our stations. We try and be there for stations that are there for us. At times certain things come into play that we have no control over. Some battles we win, some we lose, some are ties and the manager makes the call. Every situation is different. It's not just the record company's call. It's also in the hands of local promoters.

bang for his buck that way. On the other hand, there are so many ways to make a neutral show yours by positioning it on the air without ever saving, 'We're the official station.' Too much negative energy is being spent on the official co-promotes instead of coming to us with. 'Hev. help us pretend it's our show. What can we do?' We'll deal with things

format from day one, what's your read?

J.B.: There is something to be said for this format where it's done successfully. It's been making money, especially in the target demos. It just seems to be a hard sell for consultants. With Alternative being the buzz word right now calling something Rock Alternative instead of Triple A probably makes more sense for a GM.

Do you think that it's just product positioning from SBR more than anything?

J.B.: It's branding.

Where does A&M rate the format in terms of ability to sell product?

J.B.: We see the format sell records. It has become an important part of the market plans put together by product managers and people in the marketing department. Most of these people have experience as either field promotion reps or sales reps. They've had first hand experience of seeing a record sell, whether it's off a 'BOS in Boston or a KMTT in Seattle. They are smart enough not to sit in an ivory tower and look at 12+ shares and think that is the

end of the day. Everybody talks about spins and more spins but sometimes we don't address what a quality spin is.

You obviously listen to KSCA. What do they do best?

J.B.: Offer an alternative to someone that perhaps has turned the radio off because they haven't been able to find anything they like. The hip adult listener, for instance, who is still looking for a 'KNX FM, which left the dial in '83.

Do you recognize most of the songs and artists?

J.B.: Usually. It's nice to be able to sample new things on the radio. They seem to be using the center stage theory of programming — start with something familiar, go left, go right, and end up back in the middle. I've been turned on to some great new songs from that station.

But you haven't felt the need to designate a specific AAA department head?

J.B.: Between our local staff and my over-seeing them we feel we have things covered. There were people at a lot of labels who looked at Triple A funny when it first came out, but we saw the format as a real opportunity. We had a lot of artists on our roster that never fit neatly into a specific category. They fell somewhere in between Alternative and Rock

and AC. Blues Traveler, Innocence Mission or John Hiatt would go on a lot of different types of stations. So when Triple A came out it was great because we had a lot of bands that leaned that way. It was the first format to chart the Gin Blossoms and Sheryl Crow, and to support acts like Squeeze and Del Amitri. It's been a grounding format for a lot of our artists and offers a platform that enables them to tour successfully and market their albums around the country.

Circa '79: Top left: Heavy Lenny, Al Cafaro, Michael Van Orsdale, J.B. Front: Susan Heiss, Theresa Wright, Joe Jackson, Bill Hard

Did R&R splitting their charts have any practical impact on your world?

J.B.: The Active chart looks to compete a little better with the Alternative chart in terms of how quickly records can develop.

What do you think of stations like WFBQ, KQRS, WLVQ, etc. being dropped from the panel?

J.B.: They may have been dropped but they do great in the ratings and they are monitored. When KQRS or 'FBQ is going to play a record two or three times a day it is going to have an affect in the marketplace. As long as they are monitored and playing records we are going deal with them. Whether or not they report to R&R will not affect the way A&M deals with them.

But would you still consider them priorities at the label?

J.B.: Somebody is going to play a record first. A lot of people come in the middle (of a campaign), and some come in late. The spins by the late comers are going to sell you as many records as the early guys. They just won't shine the light to show you

the way. We've all seen records sell as many copies on the way down as on the way up.

Between Lea Pisacane, Diane Gentile, Pam Edwards, Tasha Mack and Laura Curtin, it seems as if women are the new gender of choice for rock radio promotion directors. Why's that?

J.B.: Probably just because they are hard working, talented promotion executives.

Did I ask that question in a politically incorrect fashion?

J.B.: I'm hoping that I am answering it in a polit-

ically correct fashion. Women hold many key jobs at A&M. Lori Holder-Anderson is VP/CHR Promotion, Jill Glass is Sr. VP/Marketing, Diana Baron is Sr. VP/Publicity and Jeri Heiden Sr. VP/Creative Services. It's simply a case of hard working talented people moving up in the organization.

Do you believe that Rock radio will ever change from its anti-female artist bias?

J.B.: I hope so. From Grace Slick to Janis Joplin, Chrissie Hynde, Patti Smith up through Melissa Etheridge and the current breakthrough of Alanis Morissette, it's hard to deny the fact that women continue to be a vital, creative force in rock music. I battled the bias with Sheryl Crow, with stations sav-

ing they could only play one female artist at a time. My argument to these guys was 'Here's a talented woman, on tour with the Eagles, and singing about getting a beer buzz in the morning. That's a dream date for your average listener.' We faced a similar situation with Blues Traveler. We were getting the rap, 'We're playing Dave Matthews. We can't play Blues Traveler.' It reminded me of five or six years ago when people were saying 'J.B., I'm sorry I can't play Soundgarden. We're playing Pearl Jam.' How silly does that sound five years later? The status quo continues to change, and successful sta-

tions will mirror that change. Listeners vote every week at the cash register. Pay attention to them.

Where do you position Sting in this day and age? Triple A and AC?

J.B.: Sting is in a class by himself, and it's a mistake to try and pigeonhole his music. We did very well with 'Fields Of Gold', and his tours are always an event. He is always looking to throw you a curve ball, like when he opened for the Grateful Dead. His work with the Rain Forest Foundation

has become legendary. He's currently working on a new album.

Are you concerned that the current emphasis on Alternative will create zillions of soundalike bands that will ultimately go nowhere?

J.B.: If you look back a few years when 'hair bands' were the in thing every label had to go out and find the next Guns N' Roses. I think labels are now trying to find the next Soundgarden, Pearl Jam and Stone Temple Pilots. The old term corporate rock has become corporate Alternative Rock. The key to success for any new band will be radio's commitment to the band and helping to develop the artists

they believe in. There has been a rap that a lot of the New Rock/Modern Rock/Alternative successes are based on songs and the loyalty to the bands isn't there. Album radio has been loyal - almost to a fault - to some of the bands they have been involved with over the years. I'd like to think that there is a happy medium somewhere in-between 'We're playing the hit song and nothing else' and letting the audience help you find the other hits on the records by the bands that you believe in. The ideal thing is to build a bonding relationship with a band that you hope will get bigger, and then you'll share their sucence is the same as the Blues Traveler audience. We actually contacted people who were on the Blues Traveler bulletin boards and asked what their favorite records were, how old they were and what stations they listened to. They matched up well with the Modern Rock listener. Whether it's through bounce-back cards at retail or giving away cassettes at similar genre-type shows to get the word out about bands, we are constantly striving to get to consumers in different ways other than radio. When you get radio, it makes it even better.

J.B. and Mark Tindall entertain the Soundgarden boys with an a capella version of "Spoonman".

cess with them over the years as they come through the markets.

Have you as a label come up with any sort of direct marketing that is working for you so that if radio is not interested you have some place to go?

J.B.: Our marketing department and product managers are challenging themselves to develop marketing plans that don't in any way rely solely on radio. Unless you are dealing with a major artist with a track record you have to try and build as many grass roots situations through fanzines and bulletin boards on the Internet. Lorraine Caruso came up with the idea to show Modern Rock programmers that their audi-

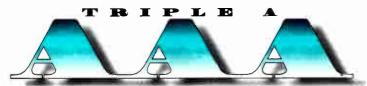

What will promotion as we know it mean by the year 2000?

J.B.: It will still be an important factor. With all of the computers and on-line system and the potential sales and tracking vehicles that you have available. there is still not a button to push to get a record heard or added. That is still where a lot of the grass roots work is going to be done - at the local promotion level where we are telling the tale of our new artists. Having a local staff that gets it, that buys into the deal is so important. The one thing about

our success in recent years is that we are all on the same page. We can't talk to each other enough. Things filter down in a way where everybody gets where we are going and why we are going that way. We're not slaves to a number of different agendas.

What would you consider A&M's forte?

J.B.: Through the years and different regimes the one thing that is synonymous with A&M is long-term artist development, a term which has changed over the years. You no longer have four or five albums to develop an artist. It's an unforgiving world out there. When we see that we have successes in certain markets, we are driven to spread those stories and make those artists happen everywhere.

TRIPLE ACE

Ben Harper, "Fight For Your Mind," Virgin The follow-up to last year's debut, Welcome To The Cruel World, showcases Harper's piercing lyrics highlighted by an innovative acoustic "live" sound — a true Triple A masterpiece. Jody Petersen/WNCS, "It was clear from his debut that Ben Harper is a musician's musician. We're more than ready to support his follow-up Fight For Your Mind. Music of this calibre pretty much adds itself." Greg Hils/WNCW, "This is a one of a kind original. Ben Harper is one of the brightest most powerful songwriters

performing today — and if never does a cover, that's okay." **Jeff Bieri/KRCC**, "This is a nice follow-up album to his debut on Virgin. In fact, there seems to a lot more material on this one that is ready for airplay. I'm looking forward to getting more familiar with it." **Greg Roberts/KFMU**, "The single, 'Ground On Down,' is great. Ben Harper definitely takes a new direction on this album, and it's one that I think will surprise many. It's very appealing." **Don Ferrell/KRVM**, "We're very excited to have this new album from one of our favorite artists. <u>Fight For Your Mind</u> won't disappoint, it's a great follow-up to last year's release. It was a definite add right out of the box." **Tom Krumm/KLRF**, "It's hard to pick a favorite on this album, but I really like the track 'Gold To Me.' It's a terrific song and what a way to pay a compliment — I think I'll borrow it sometime."

THE HOT CORNER

immy Buffett, "Barometer Soup," MCA The Prince Of Partying knows what his loyal followers want, and once again, Jimmy Buffett delivers that and more, from the first single "Bank Of Bad Habits, to the last track, "Mexico." Steve Cole/KSPN, "Our audience has a huge and long-standing affection for the music of Jimmy Buffett, who used to spend a lot of time in Aspen. His music seems to tap into the spirit of romance, adventure, and fun that the common man is able to relate to very well. Judging from a cursory listen to a few tracks on the new album Barometer

Soup, I'm sure the new release will be met with the same enthusiasm as his past work." **Greg Roberts/KFMU**, "The Parrotheads are once again on their perch as Jimmy Buffett makes a masterpiece. Come on, it's Jimmy Buffett — can he do no wrong?" **Dave Leonard/WKZE**, "The single works well for us. It absolutely reaches the demographics that we're going for. Yet another fun song from Jimmy." **Tom Krumm/KLRF**, "Barometer Soup' and 'Barefoot Children' are our early favorites. We love the carefree attitude he brings to his music."

Chris Anderson, "Old Friend," Relativity
Out of the smoldering ashes of one explosive blues record
rises its creator — Chris Anderson! A newcomer on the
blues soloist scene, but a seasoned veteran of southern rock,
Anderson spent time playing with the Outlaws during the
'70s and '80s and has played with many other reputable
rock/blues artists including The Allman Brothers, Bad
Company and Double Trouble. His vocals are very warm
and soulful and his quitar playing is a pleasure. After hear-

ing some of the greatest players to date — Stevie Ray, Gary Moore, Eric Clapton, etc. — Chris Anderson is a definite addition to that list. Every track on this release is of the bluest blue. Check out the Albert King tune "You're Gonna Need Me," "Trust Me," and the first single, as well as title track — a tune co-written with Warren Hayes of the Allmans and Gov't Mule — "Old Friend."

Dead Hot Workshop "1001," Tag/Atlantic

Attention all Triple A programmers — this is not a test, this is a must! You must play several cuts from the Tag/Atlantic debut of Dead Hot Workshop entitled 1001. There are more than 1001 reasons to do so, and fourteen of them are right on the CD itself. These guys are just a quality outfit. Nothing fancy or strange, but pow-

erfully emotional and very accessible. Their sound is a combination of the chunky vocals and guitar playing of Brent Babb, solid drumming and vocals provided by Curtis Grippe, more guitar — thickening up the mix — Steve Larson and bottom end — bassist G. Brian Scott. A special thanks should go out to an already successful band that are good friends of DHW and did us all a favor and helped put them on the map — thank you Gin Blossoms. Blast these: "A," the first single that is already having success at AOR and Alternative, the somewhat satirical, but oh so true lyrical "Burger Christ," and the AAA stress track "Vinyl Advice."

Luna "Penthouse," Elektra/EEG

With good intentions of rising to the <u>Penthouse</u>, Luna returns to the scene delivering an album of just that title, carrying hopes of a follow-up to their successful, critically acclaimed debut record <u>Bewitched</u>. Moods, vibes and music layered together, intertwining at times, separate at others are what the unique sound of Luna is all

about This record just illuminates some kind of strange aura (don't listen to it alone, it's scary what it does to your mind). Well not scary, but therapeutic and soothing. Float away with the emphasis track "Chinatown" and dream with "Moon Palace," the faster-paced "Double Feature" and percussive "23 Minutes In Brussels" are also strong material.

SINGLE SPOTLIGHT

Pretty & Twisted, "!Ride!," Warner Bros.

Pretty & Twisted are songwriter/vocalist/bassist Johnette Napolitano (Concrete Blonde), guitarist Marc Moreland (Wall Of Voodoo), and drummer Danny Montgomery. The trio's first single, "!Ride!" has all the ingredients for an across the board smash. **Steve Cole/KSPN**, "Johnette Napolitano is rapidly becoming the equal of Chrissie Hynde of The Pretenders in the race for the tough-but-tender street-smart queen of Triple A. '!Ride!' features Johnette's husky, sensual, lower-register in the verses before soaring into the melodic, impassioned choruses. Pretty & Twisted should be a force to be reckoned with at the top of the Triple A charts." **Keefer/KBXR**, "What a great song! I like the fact that Johnette is singing as opposed to wailing — not that I minded the wailing — I just think her voice is in great shape and this song has a strong melody to it." **Don Ferrell/KRVM**, "I love Pretty & Twisted. When Johnette Napolitano left Concrete Blonde, I wasn't sure what was going to happen, but this release has answered all of my questions.

This is fantastic stuff and a personal favorite of Officer Rusty, Eugene's finest motorcycle officer. We're very excited about getting the new album, so far all we have is the single. This is a great mixture of Wall Of Voodoo and Concrete Blonde, it's wonderful." **Jeff Bieri/KRCC**, "Usually we don't even touch singles with a ten foot pole, but this one from Johnette Napolitano and Marc Moreland went into rotation today. If the full length is comparable to the single, I'm sure she will have a best selling record on her hands."

A really, really happy **Robert Cray** is pictured with **The Rolling Stones** during *heir European tour, as **The Robert Cray Band** wind up their two week stint in the opening slot.

Ben Harper

Last week we talked about "Ground On Down," the single from **Ben Harper's** sophomore release <u>Fight For</u> <u>Your Mind</u> (Virgin). This is the song that should garner him the attention he deserves. People are starting to realize that Harper is one of the few newcomers that

we will be hearing from for years to come. Only in his mid-twenties, he already has a distinctive style of guitar playing and songwriting, and things can only get better from here. Now that the full album has arrived, support the single with tracks like "Please Me Like You Want To," with some of Ben's best lyrics to date, "Gold To Me," "Excuse Me Mr." and "People Lead," to name just a few. Every track on this album, including the twelve minute "God Fearing Man," deserves to be heard. Get the feeling I like Ben Harper a bit?

Ani DiFranco

Ani DiFranco has been putting out tremendous albums for years on her own Righteous Babe Records label. Courted by major and indie labels alike, Ani has opted for complete creative control over her albums by resisting the temptation to sign a deal. Her seventh album,

Not A Pretty Girl, sees her in fine form, playing her brand of what has been called "acoustic punk rock." The album holds many wonderful songs for Progressive radio, including the lead track "Worthy." "Cradle and All" will give you an idea of Ani's stunning guitar technique, as well as her lyric wit. It also holds one of my favorite lines, "I live in New York, New York/City that never shuts up." Be sure to also check out "Shy," and the title track.

Edwyn Collins

Edwyn Collins has been racking up the adds at both Alternative and Progressive radio, as well as comparisons to David Bowie. His single "A Girl Like You" from Gorgeous George (Bar/None) is one of those songs that sound instantly familiar, and is reacting great wherever it is getting airplay. Also of note is the title track, "Out Of This World," and "If You Could Love Me."

Fabulous Thunderbirds

The Fabulous Thunderbirds are back! After Kim Wilson's sojourn into solo artist land, he has reformed the group to release their best album in years, Roll Of The Dice (Private). From the first noted of the title track, it's clear that the T-Birds have taken a back-to-basics

approach to the album. With Kim Wilson's phenomenal harp playing taking a more prominent place in the music, and the sizzling guitar work of the newest T-Bird Kid Ramos, the band sounds rejuvenated and ready to conquer the world. Standouts include "Roll Of The Dice," "Too Many Irons In The Fire," "I Don't Wanna Be The One," and, yes, "Zip A Dee Do Dah."

Kevin Welch

If there could be any one reason for the emergence of the "Americana" format, it's Country radio's failure to embrace artists like **Kevin Welch**. A hell of a songwriter, Welch will most certainly end up near the top of that chart, and it is hoped (OK, Zeb?) that Progressive stations will also pick up on him. Witness Welch's keen sense of life on tracks like "Troublesome Times," "Wilson's Tracks," "The Love I Have For You," and "Life Down Here On Earth."

Jimmy Buffet

It just wouldn't be summertime without a new Jimmy Buffet album. <u>Barometer Soup</u> (MCA) will please Parrotheads the world over with Buffet's signature sound of the islands. The single, however, is more of a rocker, with more guitar than steel drums. It's called "Bank Of Bad Habits," and it is an anthem

for the middle-age-crisis set. If you have many Parrotheads in your audience, try the title track. "Diamond As Big As The Ritz" and "Lage Nom Ai."

Singles

"Walk This World" is the title of the lead track from **Heather Nova's** forthcoming debut <u>Oyster</u> (WORK/Columbia). You may remember a live EP from Nova a few months back. Now we have the studio version of this great track that has serious crossover potential. **The BoDeans** live album <u>Joe Dirt Car</u> (Reprise) is preceded by an eight minute version of "Good Things," one of the smash hits that originally appeared on Black & White. There is, however, a nice edit that clocks in at just under five minutes, and should have the many legions of BoDeans fans running for their nearest record store with cash in hand. **Wakeland** is an exciting new band with an album called <u>Magnetic</u> (Giant). "Half Of You" may be my favorite single of the week. It's an upbeat, catchy song that is perfect for summertime airplay. **Viva Saturn** is the brain-child of vocalist/guitarist/songwriter/producer Stephen **Roback**. There's a track on <u>Brightside</u> (Restless) called "Send A Message" that our own **James Dann** described as **The Byrds** meets Buffalo Springfield with a decidedly modern edge.

David Byrne & Selena

By now the name of the slain Tejano singer is known, through tragic circumstances, well beyond her target pop audience. Be sure to procure a copy of her posthumously-released English language debut <u>Dreaming Of You</u> (EMI Latin) for the duet with **Mr. Byrne**. "God's Child (Baila Conmigo)" bears the unmistakable Byrne world music stamp, with **Selena** taking the role of the mysterious beauty of whom he sings. A brilliant four minutes that will appeal to David's fans at the format, though sadly, the only completed track of several on which they collaborated at the time of her death.

Ted's fight. AAA is not a viable format...yet. If AAA is going to live by the "book," We can't expect to sell this format to anybody by saying crap like, "Well, sure we don't have numbers, but wow, look at our qualitative." The fact of the matter is that buyers buy the book, not qualitative. Qualitative numbers can help to sway a buyer into a marginal buy, but qualitative alone won't do it.

A.A. is losing ground and it's happening very quickly. I believe that there are many reasons for this. Primarily, our pre-conceived ideas about what AAA is and isn't keeps us from being flexible in our approach. We seem to think that AAA is the new "un-radio," and that everything that we've learned about radio programming in the past 40 years is wrong. We couldn't be farther from the truth. Why do we think we can re-invent the wheel? We've got to toss out the granola, shed the Birkenstocks, and trade it all in for a shot of Cuervo and a big greasy cheeseburger.

There is some hope for AAA in my opinion, but many other stations will fall off before it blossoms, because of our reluctance to change. The real key to AAA is that it could be the category killer for classic rock. The classic rock library will burn, but it won't go away. What would happen when you put up a carefully selected 80% classic rock library with 20% AAA currents against a 100% classic rock competitor? I'll let you know what happens, but for now I can tell you that I've gone up 145% in persons 25-54 since I took the approach only a few months ago.

There is no "disenfranchised listener." Forget it. This is total bullshit. It creates the presupposition that there's this vast pool of listeners who haven't listened to radio in 20 years, that will suddenly emerge if you put a AAA signal on the air. If it's true, where were they when I needed them? Where were they when I spent every last dime I could muster to market my station to them?

Charlie Morris, KEKO/Tuscon

Then the argument comes up that AAA listeners don't participate when Arbitron comes calling. Presumably, they're too busy letting tonight's chardonnay breathe while preparing this evening's pasta primavera. If by some chance it's true that we've got a bunch of listeners that won't fill out a diary, then the hell with them. I don't need 'em. If you want to go fishing, you've got to go where the fish are biting. Unfortunately, in AAA we've got too many rules about what we do and don't do. We're fishing in the same lousy spot day after day and we blame the fish.

There are a few things that will save AAA though. Our passion for the music could turn out to be our friend, and not our enemy as it is now. There's a world of excellent new music in the AAA genre and it's up to us to discard our defensiveness about playing some of the old tried-and-true library material that can act as a cradle for supporting only the absolute best of the AAA music we hold so dear.

People have been saying that wee need a AAA victory in the majors before the format will take off, as if we're all looking for some heavenly sign that something's going to work, yet what happened at WNEW signaled that it ain't gonna happen unless we make it happen.

See y'all in Boulder.

WCBE/Columbus Music Director Jon Peterson is moving to Nashville to take over MD duties at WRLT effective August 14. Current Music Director David Hall has been elevated to Assistant PD. Jon commented on his new position, "I've driven through Nashville many times, and have always adored RLT's on-air sound and approach to AAA, so I'm thrilled at the chance to set up camp and work there! It will be great to work with Ned, David

and John, and I can't wait to join their programming team." In addition handling the music, Jon will also doing weeknights from 6PM until 10PM at WRLT. Tracking call times will remain the same, Tuesdays and Thursdays from 1PM until 3PM. As for WCBE, AMD **Emily Stout** will take calls Mondays 4-6PM and Thursdays 1-3PM. RE: Musical Darwinism

We've taken another step in the continuing evolutionary process of i100! Beginning Monday, July 31, you will notice a change on your spin reports. We'll be carrying 25 currents, which will get anywhere between 13-15 spins (maybe more), and also carrying between 15-18 "hot recurrents," each of which will get played approximately once per day. This will allow us to achieve three important goals of i100: 1) we'll be able to give your currents more spins without jeopardizing the integrity of the situation; 2) continue to add the "cream of the crop" of new music; and 3) keep our most recent currents in a fresher rotation.

In the upcoming weeks, we'll also be adding a local music category to our permanent rotation. Central New York is a breeding ground for new music, and we're anxious to increase the amount of quality local music we're playing.

Feel free to speak to us regarding any questions you have about these changes. We are both committed to the success of both AAA and i100!

Blues Plate Special by Peter

Nolan Struck & King Edward

Brother To Brother

Paula Records

by Peter Simon, host of the syndicated

"Peter Simon's Blues Jam"

Two Blues Brothers from Creole Country who have never done a record together, add combined careers of about seventy-five years and the end result is the latest release from the

Paula Records Blues Series, <u>Brother To Brother</u> by **Nolan Struck** and **King Edward**. This release is a great representation of southern blues roots with a Chicago slant. This should come as no surprise, with the likes of **Slim Harpo**, **Clifton Chenier**, **Willie Dixon**, and **Lonnie Brooks** exerting their influences on the two brothers during their respective careers. The lineup for this production has King on lead guitar and vocals, Nolan on bass, rhythm gunar and vocals, co-producer **Sergio Senadiz** pulling the harp duties,

Bruce Howard on drums and another co-producer Ralph Simon on bass. On the composition side of contributions to the CD we have Lowell Fusion, Little Walter, Fenton Robinson, and the third (and last) co-producer Bob Jones as well as Nolan and King. If I were a critic this would get two thumbs up. There is a consistent quality throughout this CD, no matter which of the fifteen tracks the band takes on. You won't find yourself utilizing your remote or walking back & forth to the CD player to jump tracks either, at least that's what happened to me... Enjoy!

Pinetop Perkins Live Top

Deluge Records

by Bruce Bjorkman, KBZY Radio/Salem, OR

C producer hopes that the act is "up" for the performance... The engineer

hopes that nothing screws up during what is hopefully a great performance. And everyone hopes that the crowd is both enthusiastic and appreciative. When all of these elements come together, it makes for a wonderful listening experience. The latest project on Deluge, Maine's independent blues label (home to such artists as **Zora Young**,

Eddie Kirkland, and Gary Primich), captures boogie woogie blues piano legend Pinetop Perkins. It will most likely become a rare jewel in Deluge's catalogue. Pinetop's performance is vibrant. Like Sunnyland Slim, once again when a veteran takes to the eighty-eights, he becomes young again and puts on a hell of a show. I wish I could say the same for the backup band, **The Blue Flames**. It sounds as though either the band didn't get time to rehearse with Top, or is totally intimidated. Top plays fluidly, working the bass riffs with his left hand and exuberant fills with his right. Well, this is a Pinetop Perkins recording, and the focus is supposed to be on him. So Deluge scores an A+, perfectly balancing the instrumentation on this release. It is one of the best live recordings I've heard in quite some time. The gemstone cut on this recording is the slow closing set ballad, "I Almost Lost My Mind." Top's soulful, sweet piano playing can easily bring tears to your eyes it's that good. Take a very serious listen to Live Top and you will come to understand, as I did, that there's nothing like sitting down and listening to a Master play. Live Top beautifully captures a Master at work.

Smokey Wilson

The Real Deal

Bullseye Blues

by Marty Spaulding, WRKR-FM/Kalamazoo, MI

These are a number of modern artists who deliver genuine, impassioned back-alley blues with every new recording. They don't seem to care if the lines of the song don't rhyme or if they hit a sour guitar note here and there, because they're not "playing" the blues... they are the blues. Smokey Wilson is one such artist. Not too long ago, Smokey gave us his debut national-label release with Bullseye Records' Smoke 'n Fire. To call that one a great recording would be an understatement. And now he's back with a solid follow-up which is properly titled The Real Deal. Like his first Bullseye release, the album has a number of great midtempo tunes that intertwine Smokey's wry, gutsy, narrative singing style with his sharp-edged guitar licks that beg for listening at high volumes. And again he charges through his solos whooping, laughing, and proselytizing the blues. The new release also has a few tasty acoustic solo numbers and some casual studio banter that gives it a real homespun feeling. It's difficult to recommend tracks from this because they are all absolutely great. In a time of copy-cat artists and overproduced stuff from bands that call themselves blues acts, it is refreshing to get something this natural and genuine. The album is called The Real Deal and that ain't no lie. This one deserves to be played regularly... and very loud.

is with great sorrow that we announce the passing of **Floyd McDaniel**. Floyd died in Chicago of a heart attack on Saturday, July 22, one day after his 88th birthday. Floyd was born in 1915, in Athens, AL. His jazz-influenced jump blues evolved over a 60-year musical career. His professional career began at the 1933 Chicago World's Fair, where he performed with a washboard jug band. He then went to New York, where he played guitar and sang with the Cotton Club Tramps Band at Harlem's famous Cotton Club nightspot. He next toured with Chicago's Four Blazes.

After taking time off to run the Rocket Lounge on Chicago's South Side, he joined the classic vocal R&B group the lnk Spots. Most recently, Floyd recorded his first full album, Let Your Hair Down with his band, the Blues Swingers. This Delmark release continues to receive critical acclaim for its revival of classic urban swing blues. Floyd was a humble gentlemen, a true modern link to the origins of the blues, and a genuinely wonderful guy. We wish it was possible to express how much we miss him already. OVER Pick

Warrior Soul, <u>The **Spa**ce Age Playbovs</u>

THE PROPERTY OF THE PARTY OF TH

(Mayhem/Futurist)

After an extensive and tumultuous career on Geffen records, the members of Warrior Soul are back where they belong, scouring the seedy streets of NYC. The band first appeared in 1990 with the darkly prophetic Last Decade Dead Century.

an album that won the band a chunk of intensely loyal fans with biting, potent lyrics, majestic riffs, and an injection of what was then post-punk (little did we know it would be pre-punk II) attitude. Band leader Kory Clarke relocated from Detroit to the Big Apple, and after ten years, he has emerged as the proto-typical rock star for the '90s: mad at everything, addressing everyday topics, but still seeming larger than life even without the extensive mane of hair. Some of you may be familiar with The Space Age Playboys album, because over the past year Warrior Soul have been taking over the European markets, with a particularly heavy dose of support from Kerrang!. Not to mention the fact that this release has been available as an import for industrious radio stations like **WSOU** and **WKLL**. If you particularly appreciate the rebellious full throttle side of Warrior Soul you are in luck, because from beginning to end The Space Age Playboys never quits; starting off with the blast of "Rocket Engines" and moving onto the decadence of "Let's Get Wasted", the sleeze of "The Image", and the reality of "Rotten Soul". The initial focus track, "I Wanna Get Some", has an anthemic cadence which is broken up to give way to a Brian May tinged guitar solo that carries the song to its exalted end. This album blasts like the band has been injected with new life, maybe because long time members Clarke and bassist Pete McClanahan have been joined by Scot guitarist X Factor, (who is rumored to be as eccentric and outspoken as the frontman), Peter Jay on rhythm guitars and drummer Scott Dubois. If you haven't been to the village recently, slip this one on and you will be transported in an instant to the land of attitude, decadence and all night parties - the domain of Warrior Soul.

Paw, "Hope I Die Tonight" (A&M)

While we scarcely have had time to pull ourselves together after hearing about the story of "Jessie", the members of Paw have put together the follow up to <u>Dragline</u>, an album that notched up 100,000 in sales. This EP - featuring "I Hope I Die Tonight" - has landed with a thud at radio this week, with 20 adds in alleredy, and many others frantically checking the mail. It's no wonder, with their combination of hearty Midwestern earthiness from their Kansas homebase touched with a modern awareness that is common in a college town like Lawrence. The deep, distressed vocals of **Mark Hennessy** are the focal point on "Hope

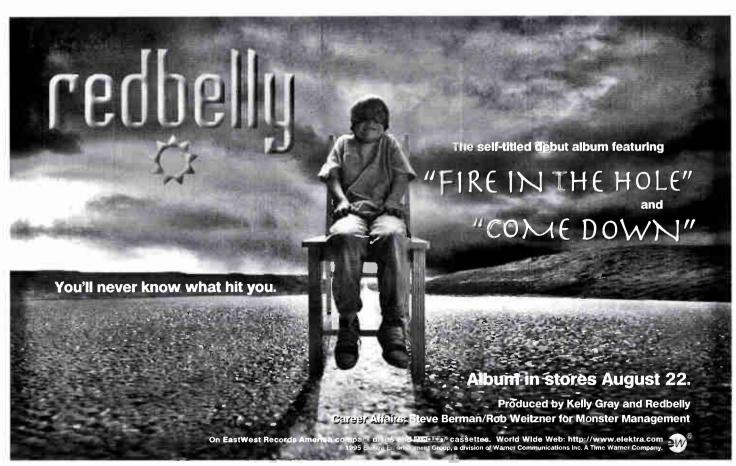

I Die Tonight", with the guitars switching from light and melodic fretwork to charged up grungified riffs as the tone of the song changes. Also found on this EP is a raucous cover of the Nirvana track "School" and the unreleased **Paw** track "Kid Cotton", both recorded live at a hometown show. So while gearing up for <u>Death To Traitors</u> and their appearance at Foundations Forum, radio can 'Paw' around with these tunes for awhile.

Klover, "Beginning to End" (Mercury)

Halling from the prolific Boston hard-core scene the team of **Chris Doherty** and **Brian Betzger** cut their teeth years ago in Gang Green, a punked out band that was a bit ahead of their time. With the addition of **Mike Stone** (vocals) to the current line up, **Klover** have established it's own identity; one, judging by the 24 adds that came in this past week, that we will be hearing about for quite awhile. The early airplay is just the start for "Beginning to End", a more updated track than their "Green" origins, because the band incorporate harmonic, pointed vocals and an exuberant tone in with the choppy guitars satisfying the both the

melodic and harder edged portions of your musical appetitie. This may be just the "Beginning" for this new band; they have the song, they just need the luck of a four leaf **Klover**!

TOP Dicks Cont.

Sheer Terror, Love Songs For the Unloved (Blackout!/MCA)

You won't find any hooky pop melodies. You won't find any fake English accent. This isn't pretty, but Sheer Terror will kick your head in with their bludgeoning brand of hard-core. You can't miss their New York brand of sarcastic humor, which is interspersed throughout Love Songs For the Unloved, but we have an idea that it's Paul Bearer's guttural voice (which would make mainstream radio run for cover) and the double barrelled drums that will keep the Hard Hitters lot happy. The single continues to climb up the chart with a new add at WKNC, and

14 increases this week, but the general consensus is that radio has been anxiously awaiting the full length Tommy Victor (Prong) co-produced album. True CBGB's-Sundaynight-hard-core at it's best; your aggressive side will adore the bluster of the opening title cut, the menacing and metallic guitar work on "Skinhead Girl", and the Bosstones tinge of "For Rudy the Kraut". Are you feeling unloved? Then soothe your psyche with Love Songs For the Unloved.

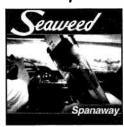

Redbelly, Redbelly (EastWest/EEG)

The thick almost forlorn style of New York's Redbelly may leave you thinking of another musical hotbed on the opposite coast, but this group - who happen to have a fondness for farm machinery (Redbelly is also the name of a Ford tractor model in the '40s and '50s) - cast a spell on the listener that uniquely their own. They travel down a melodious path that is both meaty and eloquent, with the gritty resonating vocals of Kirk Henry serving as the silver lining to the musical cloud they create. Check out "Fire in the Hole" the current single; sam-

ple the frolicking fretwork and chugging breaks of "Pain"; or "Grey", with it's combination of introspective tempos or blast of choppy wall of riffs. Other highlights include the catchy chorus of "Come Down", and the haunting moodiness of "Us", a track which casts a dark spell a la early Alice in Chains. So prepare to journey into the **Red-belly** of the beast with their self titled debut.

Seaweed, "Free Drug Zone" (Hollywood)

Growing up on a diet of AC/DC and spending those teen vears on a wild punk scene in the grungified Pacific Northwest of Tacoma, the band Seaweed are a cohesive blend of all those elements. After releasing some 7" records and EPs through local indies and the respected Sup Pop, plus touring the U.S. of A. with Bad Religion, Green Day, and Quicksand, Seaweed are ready to make the major label jump. "Free Drug Zone" is a non stop furious assault with pummelling drums and edgy crashing guitars flying around like arrows in a Robin

Hood movie. The vocals are emphatic but languid, a perfect counterpoint to the fury below it. While they may be describing a fantasy-land for potheads everywhere, hopefully the song will produce an equally euphoric experience for programmers.

For Love Not Lisa, "Had A Lover EP" (EastWest/EEG) After building street level talk on the hard rock front with

the 1992 release of a self-titled EP and a 7" For Love Not Lisa continued that buzz by making a sizable impact at metal radio in 1993 with the major label release of the Merge full length. Now they return with the three songs found on the "Had A Lover" EP - a sneak peek of what is to come on the band's upcoming full length album. The four-piece molds their music around indignant quitar tones, but it's the gruff vocals, chugging bass lines, and brisk drum beats that create the tenacious

mood that permeates the release. In previewing the disc, "Had A Lover" showcases the band's massive sound; while the layered, whirling sludge of "Good Intentions" makes it ideal for metal radio. Cue up track three to tap into "Some Big Heavy", the only track that isn't culled from the new record. Early response at radio includes an add at KNDI and reported spins on WVBR.

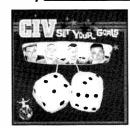

Earth Crisis, Destroy The Machines (Victory)

Even though last week was the official add week for Earth Crisis' Destroy The Machines we decided that a record with this much power and intensity deserves some ink. The songs that make up the release have been written at a higher consciousness level than most, with lyrics tapping into the faults of mankind and of the world in which we live. The music itself is pummeling: strident vocals, hammering riffs and a crushing foundation of bass and drums are the basic elements of each of the ten tracks. The standouts on this band's stirring musical list include

the title track, "New Ethic", and "Deliverance". 27 Hard Reporters are already on the disc, with 10 new adds coming in last week at KDUR, KXFX, WCDB, WFCS, WHFR, WKPX, WKTA, WVBR, WWVU and WXTB. Prepare to be pulverized.

CIV. Set Your Goals (Lava/Atlanta)

Considering 39 Hard stations are on one of the various tracks from the "All Twisted" CD-pro it would be safe to assume the band's history - past stints with Gorilla Biscuits, Youth Of Today, Shelter, etc - has already been absorbed by those at metal radio. Thus, the focus will then be on the material that makes up the 16 song Set Your Goals album. One listen tells you that these straight-edge rockers are bound to manipulate the radio waves with their cross-breeding of punk rock's fervent energy and hard-core aggression. In picking and choos-

ing, the harder tracks include "Do Something" and "State Of Grace," while "Choices Made" and the upbeat and peppy title track are those in the punk anthem vein. 39 stations are on this gem. Increases came in on KNDI, KZAK, WFCS, WKNC, WKNH, WMHB, and WSOU. Top five phones have been reported at WCDB, WJUL, and WTSR. 'Nuff said.

THE HARD REPORT

choices

Pretty and Twisted, "Ride," Warner Bros.

Johnette Napolitano took Concrete Blonde to the masses by virtue of a hauntingly distinctive voice that blended relatively mainstream songwriting ideas with profoundly dramatic arrangements. She was perfectly able to be dark and brooding while simultaneously evoking a universality of emotion. Listeners that possessed less attention to detail were provided the opportunity to jam alongside the rest who were exquisitely interested in the lyric. Certainly she brings this talent to the table with Pretty and Twisted, to the degree that the ensuing mix of music seems even more timely and appropriate for the format's radio airwaves than it did in the latest Blonde days. With "Ride," the pop chorus rattles past with a brushstroke of echoed electric guitar like a train, shaking up the dreamy tempo with a brilliance that deserves the exposure that only your megawatt cultural gatekeeping radio station can provide. 6 adds before the box, including KXPK, WEQX, WKOC and WSHE.

Soul Asylum, "Just Like Anyone," Columbia

The howling success of "Misery" and the buzz-bin build on "Hopes Up" at the format reads like a book for this veteran rock band hitting the songwriter's stride with their latest <u>Let Your Dim Light Shine</u>. The time is now. They write incredibly catchy, sexy, stimulating modern pop/rock tunes. The tracks are produced by the extremely articulate ears of master craftsmen. Then delivered to your door by snappily dressed emis-

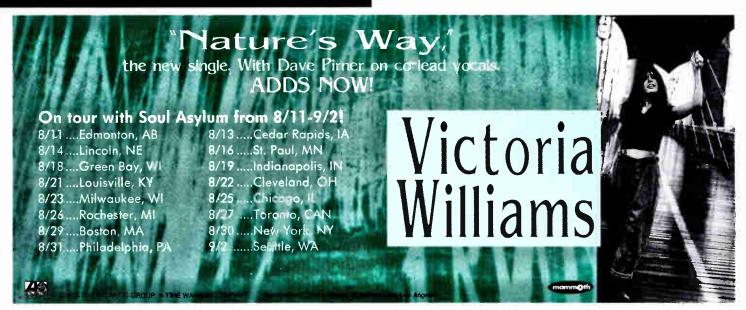

saries. The band's performances are out-the-window in terms of togetherness and presence. There's nothing you can dis about Soul Asylum with reference to commercial Alternative radio in 1995. This band, and this song, demand your full and immediate attention. It's the official follow-up track to "Misery." And it's already on at WHFS, WROX, KNRX, WBRU, WFNX and others.

Catherine Wheel, "Judy Staring At The Sun," Mercury/Fontana

With the immediacy of "Waydown," this follow-up track hits you right between the eyes on a number of levels. First, it is apparent that the Wheel have really hit their stride in terms of arrangements, production and songwriting prowess. Second, the hook here is so amazingly large and pop-electric that you'll instantly imagine it on the air. Thirdly, the requisite Wheel guitar edge never lets the tune drift south of accept-

able rock flavor. Not only do you have the ability to expose a truly marvelous band whose time has come for mass appeal exposure, but you've got a story even your part-time overnight jock can sound authoritative in telling - Belly's Tanya Donelly is wailing away on background vocals. This one's a keeper.

more choices

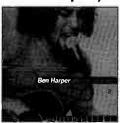

Jeff Buckley, "So Real," Columbia

An artist that blends coffeehouse chic with rock and roll vibe typically confines his or her recorded art to rootsy rockabilly-esque arrangements and relatively simple melodic vocals. When today finds many of the best singer/ songwriters confined to a cage of AAA vs. mainstream rock airplay potential, an artist like Jeff Buckley seems somehow inappropriate for the times. And that's the beauty of his

art, and of this next single from <u>Grace</u>. Buckley's vocal soars in rollercoasters of passion; his musical genius barely touches the lazer beam in transit to your ears. "Last Goodbye" built to an amazing story for all of us enchanted with the brilliance of his debut. Programmers from all walks of radio noted their pleasure in private listening, but spoke of difficulty finding a place for his music on the playlist. Many of them eventually came around. Because the facts are in hand, for all of the banter regarding conformity that is directly or indirectly injected into the airplay debate over Jeff Buckley, he is a radio artist. He created the hole. Nobody else compares.

Ben Harper, "Ground On Down," Virgin

This debut track from Fight For Your Mind, Harper's second album, is sure to raise some eyebrows. After a listen, it becomes apparent that Ben did more than just share the bill with a wide variety of performers over the years. The musical diversity inherent in his art has both enhanced his appeal to the fanbases of artists like Spearhead and John Lee Hooker, and proven that Harper has drawn from his

eclectic past. At the same time, he has taken music in a new and somehow familiar direction. "Ground On Down" is tempo-driven in comparison to much of the record, combining the rock edge we need with the singer/songwriter stroke we're proud to showcase.

The Jayhawks, "I'd Run Away," American

The new release from this rootsy midwestern band is one of the most memorable songs they've ever written. Letterman certainly thought so - he made his informal recommendation that "I'd Run Away" be the next single when the band appeared on his show earlier in the campaign. The Jayhawks strike chords of unpretentious communication with their use of simple imagery and earthy pro-

duction atmosphere. And when they nail you down with a hook like this track has, the end result shivers with emotion. No overuse of reverbs and other special recording jive can be detected in the mix. There is plenty of human range and emotion that would ordinarily get pulled out of the overall sound of radio records by virtue of this "glistening" process that normally takes place in the studio. Emotive and elegant in its sentimentality, "I'd Run Away" is runaway honesty.

Gregory Gray, "The Pope Does Not Smoke Dope," EMI

Life in Northern Ireland runs on the tumultuous side as a general rule, and singer/songwriter Gregory Gray manages to hermit himself away from the rancor in his cabin some miles north of Belfast. When early demos were uncovered by this virtual unknown, the label talent scouts granted Gray the opportunity to record the tracks at his home. Which, incidentally, was not wired

with electricity. So after the requisite pole-climbing, Gray was given 18 months to record this record on gear provided to him. The resulting work is exemplified by this first single, an entertaining premise that showcases Gray's Bowie side and cuts through as a potential A-lister for you.

Chick, "Malibu," 550

With a Go-Go's bounce and a rock guitar edge, Chick create a completely top-down convertible ride summertime beachcomber party-all-night bingo with "Malibu.". The guitar sounds, drums and vocals are all captured wisely by engineer Jay Healey, who certainly had an earful of recording verite' philosophy during his recent Mellencamp recording duties. The captured qualities of sim-

ple sounds are combined with group vocal parts that sound like live cuts. The whole thing sounds like somebody interrupted a party in order to record the track. A very effective way to channel that over-the-top vigor surrounding these hot summer days and nights.

Grover, "Yeah, I'm Dumb," Zero Hour

Singer Angie Carlson cooked grooves with Mitch Easter in Let's Active in the late 80's. She moved to Chapel Hill and recruited Dave Burris and Chris Phillips for Grover, a band project that flies against the standard Tarheel tide of pop-punk stutter to reform the ever-present pop ties that bind many of today's successful songs and bands to the modern web of intrigue. Produced by Kevin

Salem, with assistance from Easter, "Yeah, I'm Dumb" from this gang of three packs a guitar wallop with the melodic overdrive inherent in larger label releases. Our prediction is that you'll eventually have to consider this one in your music meetings. In its early stages, it is crossing Top 10 on CMJ, and causing tour-oriented street buzz as well. Early on **WQNF** and others.

Skirt, "Wish," Phisst

Voices of modern pop reason from the streets of Atlanta, Skirt are a relatively new band that sound like they've got a unique spin on the local scene's regular fare. A chorused electric quitar rhythm gets tossed around under a modernist street-level opera vocal. Robin Wilson's lead vocal sounds like a female Midge Ure, and the enticing quitar hooks throughout the mid-

dle portions of the song act as a chorus unto themselves. Skirt are three women and a drummer man that play above their heads to the point of calling forth an urge for you to include them in your next music meeting as an opportunity to distance yourselves from the pack. The album's dark and compelling, with bright lines of vocal light peering through most of the time.

Lords of Acid,

"Do What You Wanna Do," American

Before you listen to this record, aet some of the factual elements in your decision-making brain first. They've Soundscanned over 115,000 pieces on this record, they've got a club following across the country that is formidable, and they are touring. Dance music might not

seem appropriate in context with the majority of your playlists, but if you have to wait until everyone else starts to play something before you find that it's applicable to your market, then you're probably missing out on some stories you can deliver to your audience as imagistic identifiers of your commitment to the edge. In that context, take a look at this one.

Seal, "A Kiss From a Rose," Warner Bros. The track is getting double exposure from the Batman soundtrack, and the result-

ing multi-demo appeal is getting rosier each week. Q101, WMAD, WMMS and WZRH added up. 332 spins overall.

Goo Goo Dolls, "Name," Warner Bros. 6 adds this week for the song that has a life of its own. **Q101** and **KPNT** are amongst the latest on a growing list for this potential monster. 330 spins this week.

Pennywise, "Same Old Story," Epitaph A big week for this one, with KEDJ, KNRX, WEDG, WMAD and WWDX among those picking up, joining LIVE 105, KXRK, 91X, Q101, KNDD and a host of others. 274 spins and counting.

Dance Hall Crashers, "Enough," (510)
The early indicators are strong. KROQ, Q101, and LIVE 105 are in the boat already. and **WMMS** joins 3 others in the add column. Over 200 spins at this point.

Blind Melon, "Galaxie," Capitol 32 adds at the format, including WHFS, Q101, LIVE 105, WFNX, KNDD, 91X, KXRK, WEQX and others.

Innocence Mission, "Bright as Yellow," A&M 7 adds this week including LIVE 105 brighten up the picture, indeed.

Much to discuss, so onto the news we go... Thanks to Jav Hart and the rest of the Capricorn gang for the entre' to the **311** show at The Academy in NYC the other night. This band filled the place with rabid 18-24's with nearly no area airplay. They rocked their worlds. You need to pay attention to the street level on this one - they've built a helluva following... Brian Eno, The Edge and Bono are slated to make a live appearance on stage to benefit War Child, and aid organization founded to focus public attention on the plight of children caught up in the horrors of war. They will join Luciano Pavarotti in Modena, Italy on September 12th. The performance will be recorded by Decca for release later this year. Money raised will be earmarked for Bosnian relief efforts. U2 have just finished recording on a joint U2/Eno record in Dublin, tentatively titled Always, Forever, Now, and slated for an October release... Thanks to Chuck and Dawn at Virgin, William at Vernon Yard. Marilyn and Ben from WDRE, Bruce from WXPN and Matt Cord from WMMR for the good time at The Verve's Philly show the other night. You might not get to see them for awhile (they're only doing a handful of dates in this country at the moment), so let me describe them: Time-machine travel to 1969 Fillmore-era rock and roll languidness (and modern vari-lighted lazeresque versions of the psychedelic period's light shows), and keep a foot firmly locked in 1995's modern rock revolution. Bruce Warren called them "Modern Rock's Traffic." They really have something going on. Pay attention to this band for what they are, not what they don't seem to be. Not every act on the road is a guitar onslaught bravery-

seeking slugfest. Thank God... UK quartet Elastica is filling the shoes of Sinead O'Connor on the remaining **Lollapalooza** dates. O'Connor dropped out last week due to her pregnancy. In other Lollanews, all-nighters are scheduled for the Dallas. Phoenix, L.A. and San Francisco shows in the form of ENIT, an additional series of live music, dancing, avante garde film and bacchanalian abandon that will last all night long following the conclusion of main stage activities. ENIT is named after a South American tradition of annual partying that was designed to celebrate friendship with extraterrestrial aliens. Among the artists scheduled to perform at the ENIT festivals are Mobv. Freaky Chakra vs Single Cell Orchestra, Keoki, Traci Lords and Porno For Pyros... This Scatman John thing is something to grab. It's on MTV already, and it is silly enough to go all the way. Very distinctive... Thirsty Ear Recordings will release Testimonial Dinner, a tribute to English pop icons XTC, in October of this year. Artists coverina XTC tunes on this record include Thev Might Be Giants. Sarah McLachlan. Joe Jackson, Freedy Johnston, The Rembrandts, Crash Test Dummies. Ruben Blades and others... The Billboard Award nominations are in, and plenty of stations and names from our panel have been nominated. In the Rock Radio Station of the Year category, KNDD, KROQ. WBCN. WKOX and WNNX were nominated in the large market category, and both KXPK and WMMS were picked as finalists in the medium market category. PD of the Year nominations went to Robert Benjamin/WHFS, Bill Gamble/WKQX, Oedipus/WBCN. Brian Phillips/WNNX. Kevin

Weatherly/KROQ, Doug Clifton/KXPK, John Gorman/WMINS. John Knapp/WMRO. and Brad Hanson/WMAD. Music Director of the Year nominees are Carter Alan/WBCN. Marco Collins/KNDD. Steve Masters/KITS. Marv Shumanis/WKOX. Bruce Jones/KXPK. and Trevor Scott/WMAD. Local Air Personalities nominated this year are John Loscalzo/WDRE, Masters/KITS, and Mark Parenteau/WBCN. Promotions Director of the Year noms went to Larry "Cha-Chi" Loprete/WBCN. Gabrielle Medecki/KITS. and Stacie Seifrit/KROO. Consultants of the vear nominees are Tom Calderone/Jacobs Media, Dennis Constantine, Bill Gamble, Fred Jacobs and Jeff Pollack. SW Networks' "Static" and Global Satellite Network's "Modern Rock Live" were nominated in the Network/Syndicated Program of the Year category. Congratulations to all of our nominees... **Huffamoose** is now in Los Angeles recording for **Interscope Records**, where they recently signed a multi-record deal... Street buzz has it that **The Caulfields** will be contributing to the sountrack for the upcoming movie The Babysitters Club with their song "Hannah, I Locked You Out." They are also slated for opening status on the **Del Amitri** tour, running for 6 weeks beginning this week... WJRR/Orlando is looking for two bands for a couple of events they have on Labor Day weekend. Both of these events (9/2 and 9/3) will receive upwards of 300 promos, on-air band interviews and radio spins of singles, according to PD Steve Robertson...

As of August 1st, Beggars Banquet/Thirsty Ear will separately pursue their respective label interests. Beggars Banquet will open a US of its own. Thirsty Ear will be distributed by Koch... ABC-TV has decided that long-awaited "The **Beatles** Anthology" will be expanded to include six hours over three nights in November. British television viewers will get to see all nine hours of the production, which will also be available in its entirety on home video. ABC Entertainment President Ted Harbert says he decided to expand the program after seeing a rough cut. However, Harbert has not yet heard the new Beatles songs, "Free As A Bird" and "Real Love" that were completed for the documentary, though he says the program will include "tons and tons of their music."

The Recording Industry Association of America says **Carole King**'s 1971 album "Tapestry" has now sold 10 million copies. The RIAA says King is the 19th artist to reach that mark and her album is the 27th to sell 10 million. The only other female solo artist to reach that sales level is **Whitney Houston**, whose "Bodyguard" soundtrack has now sold over 14 million copies, and whose self-titled debut LP has sold 12 million. "Tapestry" was a number one album for more than 15 weeks in 1971 and stayed on the top 200 albums chart for 302 weeks, until 1977.

Courtney Love of **Hole** has been criminally cited for investigation of fourth-degree assault for allegedly punching **Bikini Kill** singer **Kathleen Hanna** during the first of this year's Lollapalooza concerts on July 4. Hanna says Love punched her in the face while she was backstage as the guest of another band. Love has been ordered to appear in court in Ephrata, Washington, on August 14. If convicted, Love could be fined \$1,000 and sentenced to a one-year jail term.

Pearl Jam guitarist **Stone Gossard** helped build a house for a 74-year-old native American at the Pine Ridge Reservation in southwestern South Dakota over the weekend. Gossard joined volunteers of the Red Feather Development Group in framing out a new home for Katherine Red Feather, a tribal elder who has been living in a one-room trailer without running water or electricity. A community effort is building her a two-bedroom home. Gossard became involved at the urging of a high-school friend. "It wasn't just your average throw-money-at-the-poor-Indians BS," he says.

Michael Hutchence of **INXS** has been charged with common assault and using threatening words and behavior for allegedly assaulting a photographer at a British hotel in March. The singer has been ordered to appear in court in Maidstone, England, on August 22. Police say the photographer was taking a picture of Hutchence with his new lover Paula Yates, the former wife of **Bob Geldof** of the **Boomtown Rats**.

A British tabloid newspaper, The Star, reports that **Tommy Lee** of **Motley Crue** "was found on the brink of death from a heroin overdose shortly before wedding Baywatch babe Pamela Anderson."

REM's first concert in two weeks was marred by the deaths of two teenagers who drowned in separate incidents. The accidents occurred in the River Boyne, next to the Stane Castle northwest of Dublin, Ireland, where 70,000 people attended a concert that also featured **Belly** and **Oasis**. Stane Castle owner Lord Mountcharles said he was "very distressed" by the deaths. Over 20 people had to be rescued from the river during the concert. There was a similar drowning during a **David Bowie** show at the castle in 1987. Forty people were arrested at the show on minor charges ranging from drug and alcohol violations to fighting. Some of the proceeds from the concert will go to helping to restore the castle.

Robert Cray and **Eric Clapton** may team up again. The two co-wrote "Old Love" which was recorded by Clapton. "'Old Love' was a great thing to have happen," Cray says. "Working with Eric Clapton was great. We get along pretty well. Maybe there's a chance that we'll do something again. I saw him last week, there's a chance that maybe we can do some gigs."

Squeeze, currently on a tour of small British venues, will release a new album in the U.S. in January. The LP will be out in November in Britain, where a single will be out soon called "This Summer." Squeeze will spend much of the summer and fall finishing work on the LP.

Duran Duran lead singer **Simon LeBon** has accepted damages from an Italian magazine which printed a story in April 1993 claiming that he'd had an affair with an Italian woman in Rome. LeBon's attorney says the magazine, Novella 2000, apologized without reservation and agreed to pay LeBon's legal fees and undisclosed damages. The attorney says LeBon and his wife, the model Yasmin, were distressed and embarrassed by the printed report.

A remixed and remastered edition of "**Eric Clapton**'s Rainbow Concert" is just out. The new version features 14 songs, eight more than the original disc from a January 13, 1973, concert in North London. The show was Clapton's first in a year and a half following his appearance at the Concert for Bangladesh. The new LP includes versions of "Layla," **Cream**'s "Crossroads" and "Blues Power."

In February, **Hootie & The Blowfish** will release the follow-up to the number one LP "Cracked Rear View."

Two hundred thousand people took to the streets for a techno-music event as Berlin held its annual "Love Parade." People came from as far away as Japan and the U.S. to dance around giant sound systems in the name of peace. The first Love Parade was held in 1989. Since then, it's grown in size. Organizers were asked to minimize litter, so 3,000 "Trash Terminators" gave out cups of water.

Jesus Lizard lead singer David Yow has pleaded innocent to a misdemeanor charge of public indecency. He was arrested at the Riverbend Music Center in Cincinnati for dropping his blue jeans and exposing himself while urging the audience to "get naked." It was the second time he'd pulled the stunt on the Lollapalooza tour, having already done so in the band's hometown of Chicago. Yow is scheduled to go on trial August 25 and could be sentenced to 30 days in jail and fined \$250.

The Tennessee state medical board has taken away the license of **Elvis Presley** and Jerry Lee Lewis' doctor, George Nichopoulous, for gross malpractice and unethical conduct with 13 patients. The board concluded that Nichopoulous overprescribed drugs to patients including Lewis, who was given the opiate Demerol "without a legitimate medical purpose" so that he could perform. Nichopoulos's attorney contended the doctor had only tried to help patients who were suffering from chronic pain, including a burn victim and someone who had undergone seven back operations. The board said the action had nothing to do with the 1977 death of Presley, in whose body were found traces of 14 prescription stimulants and depressants. A jury in 1981 cleared Nichopoulos of charges he indiscriminately and negligently prescribed drugs to Presley, though the board suspended his license in 1980 for over-prescribing drugs to patients, including Presley and Lewis. "The doctor himself agreed that some of his patients were addicts, yet he gave them their drug of choice," says board member Dr. Edgar Scott of the latest action. "That's certainly unethical." The board is considering whether to allow Nichopoulos to continue to practice while he appeals the decision. Jerry Lee Lewis' wife, Kerrie, says the ruling is a "crying shame," noting that Nichopoulos has been the family doctor for 20 years. "If they really knew Dr. Nick, they'd be kissing his toes," she says. "I've seen him take Jerry Lee Lewis from nothing. He is responsible for Jerry Lee Lewis being alive."

Boston are again without a record label after the lack of success of their album last year.

Paul McCartney left voice-mail telephone messages for hundreds of employees of the Gillette Co. in Boston urging them to help prevent the use of animals to test products. He thanked some workers who provided information to People for the Ethical Treatment of Animals. A spokesman for Gillette called the message "another stunt in a nine-year campaign against the company."

Elastica replaced Sinead O'Connor on the Lollapalooza tour, beginning with the Toronto date. "Months ago, we envisioned Elastica in our very first dream line-up for this year's tour," said a statement from Lollapalooza organizers. "At the time, their label felt it was too early. But when Sinead left, Elastica was the first name out of our mouths." O'Connor dropped out of the tour after announcing she was pregnant. Elastica will miss two Lollapalooza dates because of prior commitments.

Bluesman **Terrell** has written a novel but negotiations to get it published are "in lawyer hell right now." If the book does get published, it will be under the name C.A. Terrell, for Charles Alan. "When I moved to L.A. everyone just just called me Terrell and I ended up using that. But you can't use one name on a book," he says. Terrell divided the lyrics on his "Angry Southern Gentlemen" album into "chapters." "It's my own self-indulgence because I'm a frustrated novelist and wanted to see my words in the book form. I do think about writing songs and lyrics as stories. I always try to paint pictures with the words. When people listen to the music, they can vacuum the house or ride around in a car, or you can go further with it. Hopefully, there are different levels people get out of the music if they want to take the time."

Courtney Love of Hole claims Trent Reznor of Nine Inch Nails has a huge ego. "He considers himself the biggest recording star since Elvis Presley. He's got the biggest ego, the biggest entourage," Love said in an interview with a Chicago radio station. "He's like the P.T. Barnum of alternative rock." Love admits she and Reznor had a brief fling after Kurt Cobain's death. "When (Reznor) told me he liked Sade, I should have taken the hint and backed way off," she says. "He was like this really quick blip in my life that meant nothing, but it ruined so many things."

"Things have changed and I have to do something else for my own peace of mind and health," according to a letter in London's tabloid Sun newspaper. Speaking to the New Musical Express, frontman Mark Chadwick explains how he met "a couple of geezers" in a Scottish hotel bar after the band had played at a festival: "I sussed them straight away. Their questions were just so... intense. For someone with just a passing interest in my band, they knew more about The **Levellers** than I did! After half an hour I said, 'What the hell are you on? You're coppers, aren't you? I wanna see your badges." So they show me: Special Branch. I'm sitting in the hotel bar drinking with the fucking Special Branch. And they're going, 'Okay, we'll be upfront about this — how dodgy are you? Who do you know? What do you know?' And I'm going, 'Look, for fuck's sake I'm talking to you because I know who you were from the fucking off. How dangerous do you think I am?' And he goes: 'To be honest, we don't think you're that dangerous, but I'm doing my job.' They were just there to get the gen, to find out how subversive are The Levellers? Not that subversive — the geezer's gonna down a bottle of single fucking malt, stagger around and talk to the fucking Special Branch..."... I had anything going in the psychic areas. I just thought, 'Oh, I'd be normal if it wasn't for the fact that I was on drugs.' I realized that a lot of the voices were saying. JOHN LENAC & JULIE BAHRE

KTOZ/SPRINGFIELD

Ok, give it up everyone, John's married now. And Tracey looks soo beautiful in her wedding pictures, that now I wanna get married just so I can wear one of those dresses. Any takers? We had a very summer filled weekend at Channel Z giving away our 105 dayz of summer t-shirts, passes to Worlds of Fun and Oceans Of Fun (a very cool amusement park in Kansas City) and CDs from our fabulous prize closet. But the kicker was on Friday when Rain from Our Lady Peace called me up from their show in K.C. after opening up for Van Halen. We did a killer live interview, and gave away passes to the shows in St. Louis on Sat. and Sun. Man, Lisa, on the road with Our Lady Peace, hooked us up with that, and that was very great of her. Thanks Lisa! I certainly hope those boys bounce through our town soon! Thanks again to Mary Tripodi from Atlantic for bringing Collective Soul and Rusty into the studio last week. Rusty brought almost their whole stage in and did a completely electric set that sounded fantastic. The phones have been ringing off the hook for Rusty ever since! We're looking forward to this Saturday when our favorite Augusta band, Mary Jane Jones, plays one of their hard-driving, thrashing, pounding, sweaty, and delicious shows at Jordan Creek. Seriously, this band fucking rocks! Anyway, the show is apart of our MidXMidwest/SouthXSoutheast Exchange with our sister station WCHZ in Augusta. Love ya guys!

GUY DARK, WHDQ/CLAREMONT

The spirit of the **Replacements** lives on in "Flat Top" from the **Goo Goo Dolls**. If you didn't get it on the first listen, go back and give it another spin. Any mainstream or modern station that's not playing **Alanis Morissette** is simply saying to their competition: "Go ahead and beat us, we don't care." "You Oughta Know" is the definitive reaction record!

BRUCE WARREN

WORLD CAFE WXPN/PHILADELPHIA

Oy vay, this heat is killing me... So, does HITS' Julia Trainor got it going on with her new Most Toasted column or what? Check the vibe, man... In the buzz bin this week are Philly's very hot and ready to be signed **June Rich**. Think **Indigo Girls** times 5 and you've got a serious catalogue artist, not one of these smash-and-grab hype bands... Hey you fudgecakes! Remember we were among the first to turn you on to **Ben Folds Five** and after a couple weeks of great adds we're spinning with glee and hi-fives for **Ben** and crew. If you're not playing his record yet then we're gonna sick gem of a record on Warner Bros. **Nancy** should hit big with another country rock album... Speaking of country rock ya' gotta check out the edgier side of American with new records from **Tarnation** (4AD) and **The Geraldine Fibbers** (Virgin)... But

don't let the Fibbers distract you from the new Ben Harper record also on Virgin. Call Chuck E. Cheese at David Bowie's new home for details... The Greenberry Woods' Big Money Item is a hot ticket that would make Brian Wilson proud... And golly gee, if you haven't had ver fill of that Deep Forest sound look for Dao Dezi's World Mix Album on Metro Blue. Dao is now and is ambient techno Celtic music that will fulfill all of your listeners wildest fantasies. Chill out to "La Jument De Mishao". Jane Siberry's got a jazzy-cool new one ready to drop, but the rave of the summer will be Rob Laufer's Wonderwood, his debut on Discovery. Bigger than Freedy? I think so. Pop songs that will thrill you more than a sno-cone at a Bay City Rollers concert? Uh. definitely. This guy can write songs and we're behind every one of them. Finally, with less than a few weeks before his debut at Boulder write down the name Ben Arnold .. Nuff said hammerhead!!!!

DAVE O'BRIEN, WROV/ROANOKE

This past week, Howard Petruziallo, WROV's Assistant P.D. and all around good guy, left us to go to Atlanta. he will surely be missed - as a friend and as one of the most musically knowledgeable people I have ever met. Howard doesn't have a job yet so if you're in the Atlanta area give him one! I will be absorbing his music calls hours and will now take calls on both Wednesdays and Thursdays from 3-5pm est. Good luck Howard!

SHARON SCHIFINO. WH6JY/PROVIDENCE

Things to be happy about: Red Sox are on top of their division, Shula is still coaching my Miami Dolphins, Bush is coming, and WHJY takes over the Providence market 12+ once again!! One of the most rewarding things about working here is that we are all really dedicated to the success of 'HJY. Above and beyond that though is the fact that we're all friends, we hang out together and I think that really adds to the overall sound of the radio station. So let me indulge myself for a second to congratulate Bill Weston, Michelle Maker, Marty Farrell, Paul & Al, Amy Hagan, Geoff Charles, The Doctor, John Laurenti, and the rest of the 'HJY staff on a job well done!

Every once in a while a song comes along that spontaneously creates its own buzz. This is the case with "Lump" from the **Presidents of the United States of America**. We have yet to service a CD-pro on "Lump" but already every major Alternative station in the country is playing it. Phones are lighting up instantly and astute rock programmers such as Steve Young and Bryan Schock have already put this track in serious rotation. Everyone reading this should have a cassette on their desk. Go through the stack in front of you, pull it out and see what all the excitement is about.

The 13th Annual Rock 'N' Charity Celebration benefiting the T.J. Martell Foundation and the Neil Boggart Memorial Fund takes place August 10,11,& 12. You know the program, it's golf, billards, bowling, and the silent auction. For the last 12 years the rock community has vigorously supported this weekend. The commitment remains as strong as ever as does the need for money to support these two most worthy causes. Be there if at all possible and if you absolutely can't be there, then contribute something... preferably money.

As if the heat isn't hot enough, try a little "Fire in the Head" from The Tea Party! Already seeing intense sales action and radio success out of the Northwest, the fire is definitely spreading outwards toward the Texas Market. Denver, San Diego, Detroit, Charlotte, along with many others! Starting a tour this week in the Northwest with Keanu Reeves' band. Dogstar. Be sure to check out this incredibly talented band!... Queensryche is still tearing up the U.S. with their amazing tour. "Someone Else?" is also starting to tear up the spins. The full-band version is really making an impact at rock radio by being able to fit into any daypart. Package the two versions together for a nice change-up. We have some quantities of the single for some unique giveaways, so the fullband version can be available to your listeners. This song is an audience charmer...Those of you with alternative shows, be on the lookout for the release from Gregory Gray, "The Pope Does Not Smoke Dope." A way cool track to add some flavor to your show...Kudos to Curtis Johnson @ KRXQ, Dana Jang @ KSJO, and Dave Taylor @ **KHOP** for your time last week. Look for the "Annie-tour" to hit your town soon! Stay tuned ...

MICHAEL RITTBERG A&M RECORDS, 213-856-7168

Thank you to everyone for the first weeks support of the new **Gin Blossoms** song. We are quite excited to say the least. As most of you are quite aware we have been working "Run Around" for the past eight months. If you haven't played Blues Traveler yet, remember it's never too late to play a hit (Thank you - Dave Richards!). This week we are working the new Paw single "Hope I Die Tonight." Early adds include KISW, Q104, KNRX, WDZR. KATS, KLZR, KNDD, KZAK and KLOS! Have I mentioned how much I love this band? The Caulfields track "The Day That Came And Went" continues to grow every week. A nice mainstream rock track. Please keep your eye out for the first single from Dishwalla - "Haze." Shipping this next week to you is the new Monster Magnet single "Orb." Early adds are already in from KILO, KLPX and WFRD. We are fully behind Monster Magnet and are in for the long haul with this band. Thanks to everyone for your support/continued support of "Negasonic." Look for more tour dates in August with COC and then

off to Europe to tour and play the Redding festival with **Soundgarden**. More tour dates will come in September. Other cool music includes - **Del Amitri, Innocence Mission** and the ever so hip **Van Morrison**. Odds and ends - I'm glad radio is embracing the **Goo Goo Dolls** and **Primus**. When you see the **Circle Jerks** on the road please tell Keith Clark (drummer) hello - he does my taxes. A special welcome to the **Badlees!** C-ya at T.J. Martell. Hockey season is just around the corner which means another bad Kings trade is yet to come.

Kevin Salem's on the road in support of his second single, Lighthouse Keeper. I've already rambled on at great length about Kevin and this track; I'll spare you the banter. Just check this song out 'cause it really kicks some major buttage. Switching gears... hev AAA/PAR/Adult Rock! Greg Roberts of KFMU says that he's heard people talking about it at a softball game in Colorado. John Briggs of WXHC says that he's already been getting "What the heck is this and where do I get it?" calls, after playing it. KROK added it last week and is already spinning it 12 times a week. WRSI has been playing it for over five weeks. It's currently the track of choice for over two dozen stations. What is "it"? It's "Blue Canoe" by **Blue Mountain**. Whattya need a compass? Put this sucker in the water and watch it take off? Catch this great live band on tour right now with Matthew Sweet and Sun Volt. Thank you for staying at Comfort Inn.

TODD BISSON, ELECTRO-MAGNETIC INDUSTRIES (EMI) 212-492-1792

Ah the hazy days... Is it just me? I would have never expected that Sodom, NY to be a great place to buy cool vinyl. I imagine my surprise when I found Jerry Lewis' Just Sings! and the Mustang's Psychedelic Organ Pfreakout!. all for pennies. I'm going back! While on vacation up New England way, I got to hear MRQ, RSI (cool funk show), RNX, UVR, NCS (awesome signal), and QBK. Nothing demonstrates how far alterno/AAA has come then being able to hear cool music on the radio everywhere. Gregory **Gray** is upon us and the vibes is swell. Kudos etc. to CKEY. CBR, and BER for the way early spinage on "The Pope Does Not Smoke Dope." Mark my words, this one will take off like a novelty record, but won't hit that annoving-afterthree-weeks wall. Guru's Jazzmatazz Vol. 2 will be on your desks in days. Spend time with this album. What Spearhead, Massive Attack and US3 started, Guru will continue. We'll be working a single in early September. Call me with your opinion on which song it should be. If I take your advice you'll get the Fats Domino boxset for your trouble (such a deal). See you in Boulder on August 24th. I'll (hopefully) be golfing wit Leo in the AM and grooving to Michael McDermott's live show that night. It should be an amazing day... Best song in the week: PrezUSA's "Lump" (despite sounding like Dead Eye Dick's "New Wave Girl" minus the misogyny)...

As if! I guess you noticed all our progress on the charts and are thrilling along with us as **Peter Case's** "Torn Again" gets 3 R&R reports this week alone! We debut on the Album Net Adult Rock chart, are new and very active at R&R Progressive and just are all-around winners everywhere that Triple A counts! Peter's tour continues to grow as he will be Chicago, Philadelphia, Boston, New York, and then heads for Texas soon after. If you didn't see the glowing review in Entertainment Weekly (July 21 edition). call me and I'll share the A write-up. Look for a USA Today write-up this week as well. Peter is getting numerous mentions, and it's not just because he's a great guy. People are making for this exceptional release now more than ever, so don't even think just do it! In other showbiz news, I think the Kroft Superstars the **Bugaloos** are making a big comeback. Now does anyone know where we can find Harmony and I.Q.? Hint — all soon to be seen on Nick at Night call for important info available only from me!

As I swelter in the summer heat of Atlanta, I am reminded of all those winter days when I wished for summer. Boy was I an idiot. I hope everyone knows by now that there is less than one year to the Olympics here in town, and I hope everyone has place their ticket orders. The band that made "Bone" a household word is finally returning with their

new record, <u>Whit!</u> **Deadeye Dick's** new record was recorded by Don Smith, and it is a definite departure for the band. Whirl is a solid record and the first single "Paralyze Me" will ship the first week of August. Also everyone's favorite party band of all times, **Fleshtones**, have a new record entitled **Laboratory Of Sound**. It will ship late in August so keep an eye out for it. Until then keep cool.

I hope you don't mind if I use the four letter word to describe the Noian Struck and King Edward Brother To Brother release, the word is H-U-G-E!!! 117 stations (more by the time you read this) are playing the debut release of the "original Blues Brothers." Paula Records recording artist Nolan Struck & King Edward blasted on to the Hard Report's Blues Breakers Chart at #16. Our internal tracking shows Brother To Brother playing on over 117 stations, including syndicated Blues shows. Many of the reporting Blues Breakers stations are major rock stations! King Edward says, "When we play everybody moves! It ain't about black or white its about the Blues.' Brother To Brother's producer, **Bob Jones**, is ecstatic. over the early success of the album and said "I'd like to personally thank all the DJ's that hear and understand the Blues as I do and just keep spinning." A common theme from all the DJ's is that Brother To Brother is a "groove" record" and/or "a timeless sound." Miles Jordan of KCHO-FM in Chico, CA put it best "These are the True Blues Brothers!" The Brothers were born in south Louisiana where the music flows as free as the Atchfalava River. Raised on gumbo and a red, hot, smoking brand of blues from the likes of Slim Harpo and Clifton **Chenier**, The Brothers mostly had it in their blood. It is still there today! King lives in Jackson, Mississippi and Notan has called Chicago home for over half his life now. Notan has played with the great Willie Dixon. Buster Benton and Lonnie Brooks. King was a vocalist with Clifton Chenier and later was the late McKinley Mitchell. This is the first true release by the two. although King has assisted brother Notan on some of his past recordings. Notan Struck & King Edward are truly Brother To Brother. Thanks Blues Breakers reporters for spinning and reporting Brother To Brother by Nolan Struck & King Edward you have restored my faith! I am, Diggin' the grooves and Preachin' the blues!

Queensryche is just about to wrap up the Road To Promised Land Tour. They just passed through the NY area, with killer shows in Hartford, Camden (Philly), and the Garden State Arts Center in NJ. What's next for Queensryche? How about a CD-Rom, due in the fall. I'm not a computer guy, but this might make me go out and get one. The CD-Rom will also feature an unreleased track. Call us if you want more info on this or any other Queensryche stuff... The Tea Party are out on the road in support of their new disc The Edges Of Twilight. A few dates are with Dogstar (Keanu Reeves), most are headlining. Catch them if you can, but if not, they plan to be on the road for a long time, so you'll get the chance. If you need tour dates give us a call. Keep spinning "Fire In The Head," and the rest of The Edges Of Twilight. If you need another track, then try "The Bazaar," it has been working well with some stations... Speaking of new records, Whatever Makes You Happy, is The Dwellers EMI debut. It might just be what your listeners want. Check it out and let us know what you think. "Rocket Ride" is the single... One last thing, July is coming to an end, the pennant race is heating up, and the Yankees are only four and a half out of first. This is almost as good as listening to 8-tracks, while cruising with the top down in Schnapp's Caddy.

Everyone by now should have added and spun Shank-456's debut release The Big Payback. Being #1 most added I guess means the response to this record is pretty damn great. The emphasis track is "Overfueled," but also check out "Ain't Gonna C-me," "Lockdown" and "Enslaved." Fear Factory's Demanufacture still at #1 record, and slamming on their tour with Megadeth, KoRn. and Flotsam. How many more times can I thank you guys for supporting them?!?! We had 37 spins at WSOU this week, how great is that. WSOU also added Battlegrounds, the collection of cyberpunk hard-core. I only sent out limited copies of Battlegrounds, because I know that some of you enjoy turning shit upside down on your show. There is an audience for this type of music, therefore. I am using you to help me find them. Some of you also received the self entitled Karma To Burn's 10 inch, and yes, all four songs are instrumental. If you like Tool, Soundgarden, and Joy Division you will love this, so help us create the buzz before their debut CD (w/ possible vocalist) comes out later this year. Coming - Brujeria, Shelter, Life Of Agony...

Now finally we all know Misery Loves Co. is touring. Look for them on the west coast first for a brief stint. Then Misery Loves Co. will rip up the east coast. Now don't fret Misery Loves Co. will do a full tour so all you little boys and girls can get to see them, as will I for the first time, and I can't wait. Heard second hand that they are a must see. We also know that Extreme Noise Terror is touring. Thanks to everyone for a great tour. They will be back for another tour for the west so don't worry. Cathedral's new full length The Carnival Bizarre just came in. Doomie very very doomie. They went back to the basics and it's their best vet. They will tour. Fudge Tunnel's "In A Word" bring it in and watch it sell. Also Coalesce "002" and Silencer "Fear & Drinking" two very different Earache titles out August 8. At The Gates "Slaughter Of The Soul" everyone was asking about this band. Next **Old, Scorn**, and **Ultraviolet**. Techno? All new and possibly a three band rave tour. Keep your eyes open. **Napalm Death** new album, can they get any more devastating and different. Got an unmixed copy in house. They strayed a little from the typical **Napalm Death** but not that much. Call or write EaracheRec@Aol.com

SHI-HAD's momentum at radio keeps on growing. The music obviously speaks for itself! The tracks that people unanimously dig and agree on include "You Again," "Gimme Gimme," and "Bitter." For the few folks at radio that still haven't "officially" done anything yet with this band, why not? SHI-HAD deserves to be heard of!!! In the true spirit of those Life cereal commercials with Mikey...my mantra for this dialogue is to try SHI-HAD—-your listeners will like it!

Okav. my obedient ones, listen up. Grip Inc. and King Diamond are what you must spin for me. "Innate Affliction" and "From The Other Side" are the tracks. Over 40,000 King Diamond records sold in a few short weeks and like the Duracell bunny, it's still going. Support this or I will break your legs. Thanks to JJ @ KEYJ for having King in the studio this weekend. Broken Hope is getting ready for another tour. West coast with Suffocation and east coast with Six Feet Under. Xtra thanks to KCPR, KUNM, and WBAU for the relentless support. Have you heard? Oecoryah yet? Goo Goo Dolls on the road again. Killers touring the US in September. X-Cops are winding up their tour and GWAR is gearing up for Rag Na Rok. It's right around the corner. Beats The Hell Out Of Me opened for X-Cops in Cali and are playing with Tad and Clutch in August. They'll be coming your way soon so play 'em. Now. Hint. Coming: Six Feet Under, Masquerade, Channel Zero, GWAR, and Mental Hippie Blood. Next year: Sacred Reich, Galactic Cowboys, Cannibal Corpse, Crisis, and Fates Warning. On the road: Grip Inc., Goo Goo Dolls, X-Cops, Beats The Hell... and more soon. Dismissed.

I saw Katakiyam last night at the Wetlands in NYC and I must say that it was a religious experience; they're one of the best live bands in the world. If you get the chance to check them out, GO! Just ask Tom from WKNC, Matt from WBAU, or The Tink (WVUD), they were there (hi guys), they know! Kataklysm will be playing the CMJ convention along with **Deceased** and a host of other monster bands, go check these bands out! Death is Just The Beginning III is crushing all those who experience it... Don't believe me? Well, it's #1 at WKNC, WXUT, and WCSB, so ask them if you don't believe me; you've got 38 tracks to work with, use them all! Keep spinning Gorefest, Kataklysm, and Deceased, all of these bands still deserve plenty of support, keep 'em going. Meshuggah and Mindrot should both be in rotation by now, spin both of these, often. Destroy Erase Improve should be on the lips of everyone by the time you all read this, giveaways are available, just call, aww hell, you know that.

By the time you read this, I'll already be dead... No, not really. Have you ever heard of "Chronic Fatigue Syndrome?" Well, I have six of the eight major symptoms. It feel as if you've fallen about four seconds behind everyone else, and you're constantly trying to catch up. But, I love you all so much that I'm still calling you about Fleming & John. One day you'll look back on this and say "Wow, I was a part of it." It's like: Batman & Robin, Red Beans & Rice, Gin & Tonic, Fleming & John. There... Now do you see it? By the time you read this the add date will have passed, but it's not too late to save yourself! "I'm Not Afraid" to Alternative, and "Delusions of Grandeur" to AAA. Circle Of Dust is taking some time out to rest and write new material. Their new CD should be coming out in early spring. If you're spinning Monster Voodoo Machine, Skrew, Misery Loves Co., White Zombie, etc., then you should have Circle Of Dust on your playlist. Your best friend called up your local radio station and requested Argyle Park because "It makes me wish I was a baby again. You know... when it was still socially acceptable to crap your pants."

DENNIS CONSTANTINE CONSTANTINE CONSULTING

For people playing along with the "Guess what hour is from WNEW and what hour is from KSCA in last week's Hard Report, the answer: Hour 1 (the one that starts with the Beatles) is WNEW New York's Rock Alternative, and Hour 2 (starting with **Elvis Costello**) is from KSCA, Los Angeles' Triple-A. The word on the streets of Denver is that KTCL 93.3 has signed with Jacobs Media for The Edge format. The station has been running classified ads in the Hard Report that it is looking for new talent. It is expected that there will be some staff changes, but look for Program Director John Haves to stay in place. A signal upgrade to a full Denver 100,000 watt signal is imminent. In short order, 93,3 will become a major force in the Denver rock radio battle. Abitrons started rolling out this week. Congratulations to KRSH in Santa Rosa which had a 50% increase from the last book. They're #4 25-54 with 4.9 and #5 18-34 with 3.8. In Los Angeles, KSCA was down a bit going from 1.9 to 1.5 25-54, and 1.2 to 1.0 12+. The same is true in Seattle, where KMTT dropped 3.0 to 2.7, and is eighth 25-54. In Denver, KBCO went up! The 3.8 to 4.1 rise was also good enough for fifth place 25-54 (tied with KXPK at 5.9). With their ratings going up, I would guess that the folks at KBCO are now thinking they should aim 35+, which means they could be true to the image of the radio station. Since the arrival of new Program Director, Mike O'Connor, KBCO's music has become more focused, the station has added creative production elements, and the station is heavily using the line, "Progressive Rock." It's the obvious move for the station which now has four well-targeted, yet different, alternative stations aiming at their low-end. The only choice for KBCO is to be the station for the people that grew up with it, and be true to its "soul." If they do that, they could once again become the darling of Denver radio listeners. By the way, Lois Todd is moving to the morning show with Oz Medina. Lois will be less involved in the music on the station. In Philadelphia, it was the hottest day ever since they've been keeping weather records. Saturday July 15 was 106 degrees with 87 percent humidity. The "heat index" was 129 degrees, the hottest spot in America. And on that very day, WXPN in Philadelphia was holding the first day of their Singer-Songwriter weekend a free concert at Penn's Landing. Over 5,000 braved the heat to hear, um, hot sets from the BoDeans, Paula Cole, Susan Werner, Jude Cole and Wanderlust. On Sunday, the humidity broke, and the temperature was much more pleasant. Almost 10,000 people heard great sets from Jill Sobule, David Wilcox, Patti Larkin, Freedy Johnston, and Patsi Foster. The station sold hundreds of memberships to the station using World Cafe and New Music Sampler CD's as an enticement. All members of the station had a special area reserved for them with free refreshments. And finally, KGSR has once again walked away with The Best Of Austin Awards. The station was named the Best Radio Station in Austin. It also was named Best Station To Listen To At Work, and it won the award for Best Billboards, for their campaign, "Do Not Listen To 107.1 FM." Congratulations to Jody and the folks in Austin!

So do va think there are enough shows coming at us. 3 every week for the next month. You know I love that. Well check it out: Belladonna's full length CD shipped and is on your desk this week. It's got the classic Anthrax sound to it. **Black Sabbath** has edits coming your way. Earth Crisis and Integrity are two of the best hard-core records out. Kyuss is on the move up the charts. This album has more than just great songs, it has personality. Morbid Angel's tour is near sell out at every venue. SNFU, is in your face once again this week. Jell with this band for a bit. Sugar Ray's live (EP), need I say more. How can you not love this band? Universal Stomp's full album Full Swing is in Full Swing, they're back. Adds this week on **Bad Biscuit**, a great punk band. Talking about tours, Orange 9MM and Sick Of It All, are at it again. The live (EP's) go for adds this week, we have tickets for the show's. For Love Not Lisa's 3-song is on your desk. Add that as well. Till next week, Cya.
