OP PRIORITY

Presidents of the United States, "Lump," Columbia

The classified documents arrived. The bio, the press, the Clinton photo fax and other informational transmissions seeped into the office last week. The story is no secret anymore, but the basic evidence still bears evaluation. The smoking guns are three Seattle Gen X-ers destined to reinvent the perceptions of the Great Northwest's music scene. Missing in action are the characteristic overtures to angst, the pissy press quotes about anything and everything rotten within evesight, and the major-league production polish. The Presidents of the United States of America entertain rather than artistically interpret. Their eyes are fixed upon the idea of fun as rock and roll, rather than political motive or innuen-

do. And they perform on unconventional instruments. Chris Ballew plays the 2-string basitar, and Dave Dederer plays the 3-string guitbass (Jason Finn is listed as playing "no-string drums). While you would be hard-pressed to find these contraptions hanging from a hook at your local music store, the 2-string device has been seen and heard in the hands of Mark Sandman of Morphine at this point (Chris collaborated with Sandman while they were living in Boston). "Lump" is raucous and pesky with fervor destined to catch the ears of the easily-bored, rocking them to attentiveness. There's no denying the executive order, and there's nothing shabby about the radio frontrunner panel at this point, either. KLOL's Cindy Bennett freely admits "It may not be the best musicianship on Earth, but I love the overall sound." Also note the exceptional Before The Box add activity, with WXTB, WBCN, WMMS, X107, WAAF, WKLQ, KISW, KRXQ, KROQ and more.

COR

Rusty, "Wake Me," TAG/Atlantic

With every pass by our ears that "Wake Me" does, thanks to spins at WDRE, WMMR or some other radio station in our region, it becomes more and more apparent that neither this band nor this song deserves a pigeonhole classification. In the context of the Current Rock format, the band is a contender by virtue of their flexibility. WKQZ's Rick Church quietly states his case: "Oh man, it's Awesome!!!" KZAK's Steve Funk notes "It's working very well for us now. They're coming to town with Collective Soul soon. This song reacted well right away." Rusty cracked the triple-digit spin mark

at COR in the same week successive chart moves were made at Rock Alternative and Alternative. This Canadian band is becoming more strongly-positioned to cross into your radio realm with every waking week.

ROCK ALTERNATIVE

Collective Soul, "Smashing Young Man," Atlantic

The multi-format appeal of Collective Soul is as apparent now as it was when we first heard about "Shine". Rock Alternative stations like KORC, KUPD, WKDF, WXRA, WXRC and X107 added this latest single from their self-titled record this week, joining a growing list of co-conspirators. This tune sparked some honest critique from KQRC's Valorie Knight, who said "I think that there are better tracks, but with Top 5 sales in the market, you can't go wrong." Even though some might be used to more imme-diate material, "Smashing Young Man" is a strong track that has all the ele-

ments previous efforts have utilized to great success.

Mother Hips, "Shut The Door," American

You've been familiarized with much of the upcoming H.O.R.D.E. lineup over the past few months. Now it's time to groove into some of the musical depth that this year's festival offers. Joining the tour down the road will be this California band sporting their first record in three years. The first single, "Shut The Door" has an upbeat Charlie Watts-ish drum groove that serves as support for the classic '70s

guitar sounds. They're tripped-out rockers slipping into the stream at a time when the coast is pretty clear of anti-retro backlash from rock radio listeners. Sort of Spin Doctors-ish, but with a different edge, Mother Hips have a good shot at fitting into this H.O.R.D.E. scene like they've been there all along. Catch them on the road on their own headlining club tour, too.

Sweet Water, "Superstar," EastWest/EEG

Seattle hasn't sounded so sweet and fresh to the rest of the country since the pop inception of the whole grunge craze. It is safe to assume that stereotypes of the Great Northwest now cease to apply. Sweet Water step into a new territory their grunge brethren never seemed to tread. With consistent regularity at radio, "Superstar" seems to be working in short order. **KLOL**'s **Cindy Bennett** says, "I love it. The

song sounds great on the air. We've been on it for three weeks now, and early indications are it will do very well here." **KUFO**'s **Oave Numme** calls it "A steady builder."

Big Sugar, "Ride Like Hell," Silvertone

After spending the last few days on our hold button, the hook jury found for Gordie and Co. on the basis of Robin Trower-ish guitar, raw tempo and unpretentious rock and roll attitude. The band puts on a helluva show, and that energy is captured on disc with "Ride Like Hell." Summer's here, and a raspy rockin' pedal-to-the-metal piledriver is what the good doctor ordered. **DMX**'s **Dave Stoan** calls

Big Sugar "Big and sweet. This is just a great blues band in the tradition of good rock and roll. Good blues that really rocks."

Wilco, "Casino Queen," Reprise

The modern edge of Wilco is fused with a classic texture on this cut, a live-sounding rocker that showcases a side of this modern band we haven't seen before. Radio's talking about it. **WAVF**'s **Dave Rossi** notes, "Our history has been great with this band. We're on five tracks already, including this one. Wilco is not only one of the most overlooked bands in recent memory, but <u>A.M.</u> is one of the Top 5 albums of the year." **WZZQ**'s

Jack Lawson calls "Casino Queen" "A very good cut that sounds great and fits in well with our older classic stuff. It's The Stones meets CCR meets Alternative."

Mother Hips, "Shut The Door," American

You've been familiarized with much of the upcoming H.O.R.D.E. lineup over the past few months. Now it's time to groove into some of the musical depth that this year's festival offers. Joining the tour down the road will be this California band sporting their first record in three years. The first single, "Shut The Door" has an upbeat Charlie Watts-ish drum groove that serves as support for the classic '70s

guitar sounds. They're tripped-out rockers slipping into the stream at a time when the coast is pretty clear of anti-retro backlash from rock radio listeners. Sort of Spin Doctors-ish, but with a different edge, Mother Hips have a good shot at fitting into this H.O.R.D.E. scene like they've been there all along. Catch them on the road on their own headlining club tour, too.

Sweet Water, "Superstar," EastWest/EEG

Seattle hasn't sounded so sweet and fresh to the rest of the country since the pop inception of the whole grunge craze. It is safe to assume that stereotypes of the Great Northwest now cease to apply. Sweet Water step into a new territory their grunge brethren never seemed to tread. With consistent regularitv at radio, "Superstar" seems to be working in short order. KLOL's Cindy Bennett says, "I love it. The

song sounds great on the air. We've been on it for three weeks now, and early indications are it will do very well here." KUFO's Dave Numme calls it "A steady builder."

Big Sugar, "Ride Like Hell," Silvertone

After spending the last few days on our hold button, the hook jury found for Gordie and Co. on the basis of Robin Trower-ish guitar, raw tempo and unpretentious rock and roll attitude. The band puts on a helluva show, and that energy is captured on disc with "Ride Like Hell." Summer's here, and a raspy rockin' pedal-to-the-metal piledriver is what the good doctor ordered. DMX's Dave Sloan calls

Big Sugar "Big and sweet. This is just a great blues band in the tradition of good rock and roll. Good blues that really rocks."

Wilco, "Casino Queen," Reprise

The modern edge of Wilco is fused with a classic texture on this cut, a live-sounding rocker that showcases a side of this modern band we haven't seen before. Radio's talking about it. WAVF's Dave Rossi notes. "Our history has been great with this band. We're on five tracks already, including this one. Wilco is not only one of the most overlooked bands in recent memory, but <u>A.M.</u> is one of the Top 5 albums of the year." WZZO's

Jack Lawson calls "Casino Queen" "A very good cut that sounds great and fits in well with our older classic stuff. It's The Stones meets CCR meets Alternative."

TOP CHOICES

Our Lady Peace, "Naveed," Relativity

We've been spending some more quality time with this twister this week, and the fact still remains as clear now as it did when we first set you up with the news about it - This song is amazing. On the Alternative front alone, it spun 541 times last week. On Rock Alternative, it grew 36-34*, and linked with WNVE and WQBK this week as well. WAXQ,

Rock Alternative

WLZR, KUPD, WAAF, KNRX and WBZX are already in place. KILD's Rob Hunter says "We're banging it these days on the air, and it's working. They're a great radio band, and when you're opening for Van Halen, the exposure is all the more intense."

White Zombie, "Electric Head Pt. 2," Geffen

In terms of potential follow-up success, "Electric Head Pt. 2" stands to reap some rewards. No question about it, "More Human Than Human" was a huge hit. You're probably still playing it somewhere. And like a tanker steaming up the river, "More Human..." can pull this next single right along in its wake, at least initially. The sound is consistent with its

predecessor. The vibe is very clearly associated with the last one. What could possibly keep you from at least testing this record? **WMMS** is reporting Top 5 phones already. **KRDQ**, **WJRR**, **KTCL** and **CIMX** are also on board.

7 Mary 3, "Cumbersome," Mammoth

WRXQ and **WXWX** are the first ones to join **WJRR** and **WDIZ** on this Florida band making hurricaneforce guitar rock come alive for the fence-walking Rock Alternative contingent. 7 Mary 3 doesn't fall on either side of the line. That fact is that's what keeps them applicable across the board. Where you'll win is with the tune itself - an upbeat jam with a root-

sy, unpretentious rock attitude and a clever hook.

Sweet Water, "Superstar," EastWest/EEG

The upbeat Seattle band Sweet Water regularly sells out the Northwestern club circuit with their reckless alternative pop sound, and "Superstar" is selling well with radio, too. **KNRX's Malcolm Ryker** notes the tune is "Doing great. It's just blowing right out of here." **KUFD's Dave Numme** adds "It's building steadily with call-out research and reguests."

Sherry Sexton at WKOF chimes in with "It seems to be doing extremely well right off the bat. There's high familiarity in testing so far." KLBJ, WKLL and WLZR are among the adders this week.

THE HARD REPORT

Freddy Jones Band, "Hold On To Midnight," Capricorn

Freddys all over the country are reuniting with their rock and roll namesakes again with this mainstream effort from their new record North Avenue Wake Up Call. Radio's waking up, too. KATP. KJKJ. KORS, WDRK, WHMH and WZLS add this week

ioining WAPL and WXRX among the other early supporters. "Hold On To Midnight" has the classic Freddy J. chorus hook and the mid-tempo all-day feel of the earlier hits, and provides a great opportunity to play something new without ditching familiarity in the process.

Dandelion, "Weird Out." Columbia

A big week for this growing weed, as 14 rockers add this modern-sounding track, including Heritage signals KLPX, WIXV and WRCN. While the growth process at Alternative. Rock Alternative and COR has been steady, the number of Heritage stations coming to terms with this particular

record is also steadily increasing. This week's adds join a stable that includes KRNA. WAPL. WHCN, WRXL, KATS, KJKJ, WTUE, WFYV and others. "Weird Out"'s got a Smithereen-style groove, and an infectious hook. You'll find it relates to your nights with ease.

Edwin McCain. "Solitude." Lava/Atlantic

His appeal as a Hootie sound-alike might be aided by his teamwork with Darius on the vocal side, but all factors combined point to growth at Heritage radio for this newcomer singer/songwriter. McCain makes some new friends fast with his Marc

Cohn/Jeffrey Gainesish gristly voice and a subtle tempo. He's done plenty of face time around the southeast already, and is embarking on more tour dates through the east and midwest. It's regular business for McCain, who performed over 300 dates last year alone. "Solitude" is in the Top 5 Most Added column this week, led by WPYX, WOUR, WRDU, WRKI, WROV and others who join WNOR, WRXR, WBAB, WEGR, WXKE and WKOQ on the early side. Top 5 phones at WAVF and KJKJ, too.

Collective Soul, "Smashing Young Man," Atlantic

Catch this star as it continues to rise above the most ardent expectations of onlookers that at one time pegged this outfit as a one-hit wonder. Forget about it. Collective Soul has gathered no moss in the credibility deparment with this second album,

and "Smashing Young Man" is kickin' with the same stuff that propelled "Gel" and "December" to the upper portions of your playlists. Call it a fusion of any style that suits you. Collective Soul ishere to stay, and haven't missed a beat of consistency in songwriting quality. Talk about smashing? How about a debut of 44*, a #2 Most Added slot, and nods from WRCX, WROQ, KQRC among the others.

KLSX STARTS TALKING

"Real Radio" was unveiled in Los Angeles on Tuesday (8/1), when former Classic Rocker KLSX officially made the flip to a Young Talk format. Of course, the change had been rumored for weeks, but when we saw ex-housequest Kato Kaelin being interviewed in front of a giant KLSX logo on Entertainment Tonight last Monday, we figured it was a done deal. That's right, Kato is now a mid-afternoon DJ in L.A. In addition to the former hostile witness, the line-up includes the King of All Media. Howard Stern, in the mornings; former MTV gameshow host Ken Ober and the former Cindy Brady, Susan Olsen, following Stern; The Regular Guys (just two "regular" guys talking about stuff) afternoons; Mother Love in the evenings: comedian Carlos Oscar late evenings; and Voxx, the rock n' psychic, overnights.

GM Bob Moore said of the change, "This was an obvious and natural evolution for KLSX, prompted by the overwhelming popularity of Howard Stern's morning show, which is heard by a half-million listeners weekly. This massive audience has indicated that they crave entertaining, compelling radio to fuel and stimulate their senses." PD Warren Williams added. "We want to take the 'buzz' off the streets and talk about it --- we want to create a new category of Real Radio that mirrors the way we live now. The atmosphere will be casual — just like people were meeting around the water cooler at work. We envision this structure to be real life on the radio - Real Radio 97.1 There will be no history lessons or deep theory --- that's for AM stations that appeal to an older audience, it has no place on Real Radio 97.1.'

Watter Sabo is consulting the new format, and Perry Michael Simon joins as Director of Program Development. Simon was most recently at WDRE's Underground Network. KLSX has not abandoned music altogether, Los Angelenos can still get their classic rock fix on the weekends.

GORLICK ELEVATED TO MCA SR. VP/PROMOTION

Mark Gorlick has been promoted to Sr. VP/Promotion for MCA. In making the announcement, Executive VP/GM Randy Miller commented, "I am very pleased that Mark is elevating to this position. His passion, tenacity and dedication have been keys to our success since he joined the company four years ago. It is great to see a colleague earn the recognition he deserves." MCA President Richard Palmese added, "In the years that Mark has been with MCA, his unique leadership skills and his hands-on

Mark Gorlick

management style have proven to be important factors in the breakthrough success of dozens of new artists, as well as the continuing vitality of our established acts. I am very pleased to congratulate Mark on this extremely well deserved promotion." Gorlick joined MCA in 1992, as VP/Promotion. Prior to that, he held the same position at Atco. which he joined in 1989 as National Director of Promotion. Before that, Gorlick spent eight years at Atlantic, first as a local promoter in the Denver, Seattle and L.A. areas, and then as West Coast Regional Promotion Director. He began his career as a college rep for CBS Records.

KLINE JOINS LAVA

Steve Kline has been named Director of National Promotion for Lava Records. Sr. VP/Promotion Valerie DeLong commented on the appointment, "Steve's passion, tenacity, and charisma together make him the ideal promotion executive for Lava. I feel incredibly honored to have him join our new label family." Kline was most recently NY Regional Promotion Manager for MCA. a position he held since 1992. Kline first joined Atlantic in 1983 as an intern in the promotion department. In '88, he was formally hired at the label as NY Local Promotion Manager.

Kevin Stapleford

Bill Hard & Lisa Riegel

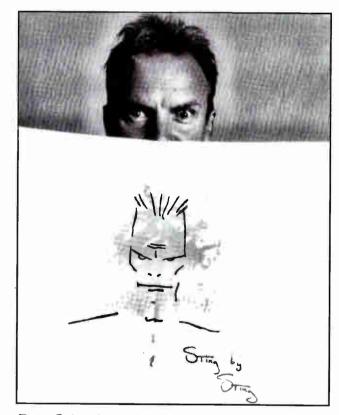

Last Friday (7/28), Kevin Stapleford surprised the industry by announcing his resignation from San Diego Alternative 91X. A 13-year station veteran - most recently as VP/Programming - Stapleford and the Noble out have been negotiating his contract since March. "The company and I had talked about certain things, and we agreed on lots of things and we disagreed on some major things," explained Stapleford, "Was I willing to commit myself for a year or two without being 100% happy? No." GM Mike Glickenhaus commented on the decision, "Kevin's played

a very key role in the development of 91X over the past few years. We certainly thank him and wish him the best. This was as amicable a parting as you can have when you agree to disagree." Stapleford has no immediate plans, other than to take a vacation before evaluating new opportunities. 91X will not replace Stapleford, and PD/MD Mike Halloran will absorb his duties.

LATE-BREAKING NEWS

STAPLEFORD EXITS 91X

Here's a happy crowd at the KQRC RockFest. Pictured (L to R) Mike & Tim (Sponge), Doug Sorenson (KQRC PD), Pam Edwards (Work), Charlie & Vinnie (Sponge), Susan Olsen (a.k.a. Cindy Brady), an unidentified trouble maker, Joey (Sponge), and Jay Friedstein (Work).

KQRC again attracted a crowd for their "Big Fat Free Money" Parade. KQRC threw a welcoming parade for Van Halen where over \$5,000 in cash was thrown out to all their adoring fans — the idea inspired by Van Halen's song "Big Fat Money"! Over 3,000 people showed up downtown at noon the day of the show to try and grab their share of the cash, which was tossed off the top of the Rock van. As you can tell from the pictures, what resulted was complete craziness! According to those in charge, it turned out to be one of the biggest and best promotions ever.

The **WFBQ-FM** Morning Show of **Bob Kevoian** and **Tom Griswold** will start broadcasting live at 5:00am central time, they currently begin at 6:00am. With this additional hour, the entire Bob And Tom Show will now total nearly 5 and a half hours every weekday. Part of the reason for this expansion has to do with the state of Indiana's archaic refusal to go on daylight savings time. The interest in hearing the Bob And Tom show is increasing in cities that are located in the eastern time zone. WING-FM/Dayton, Ohio now simulcasts the show, the eighth station now carrying the Indianapolis-based show. Look for more stations to sign on in the next few weeks.

Blues Traveler will do a free acoustic show courtesy of WBAB during the day at the area studio hall (Long Island Rocks In Bellmore) before they hit the Jones Beach stage at the Horde Festival that night.

Mancow Muller, host of Mancow's Morning Madhouse on Rock 103.5 encased himself in a 5,000 pound block of ice at the Rock & Roll McDonalds in downtown Chicago. Listeners stopped by to see Mancow through a tube in the block of ice and donations of \$1.03 were taken for Ronald McDonald Children's Charity. Mancow was suppose to emerge from the ice Saturday evening, but plans changed early Saturday when Chicago

police decided to shut down the event. The event had to be moved because

of safety concerns after the 3,000 plus crowd began to spill over into the streets. Mancow was moved to an alternate McDonalds location via a refrigerated truck. Once again police shut down the event and Mancow was taken out of the ice later that afternoon. Although the air personality had hoped to stay in the ice until late Saturday evening, the event still raised \$5,000 for the charity.

When he programmed WIOQ in Philadelphia from the mid '70s to mid '80s, Alex DeMers never had a consultant. In the midst of the hypertight Superstars stations of the day, 'Q was a real breath of fresh air, highlighted by musical variety and low-key, natural air personalities. When Alex left WIOQ in 1986, he took a look around, and saw the opportunity for a little independent thinking in the ranks of the consultants. It wasn't easy elbowing in amongst the name players, but at the nine year mark, DeMers Programming boasts a formidable client list and an enviable growth curve. Alex, Jeff Murphy, Harve Alan and Judy Haupt now work with close to thirty markets, including '70s stations in Philly, Portland and Phoenix; current driven outlets in Wichita, Columbia and

Louisville; Classic Rock in Raleigh, Dallas, and Cincinnati; and a mainstream roster that extends from heritage monster KSHE to WXRX/Rockford and their eighteen share. In addition to the required inperson and phone contact, Alex and Co. spread the word via the trademark DeMers Dispatch, an always interesting and informative newsletter headlined, "When You Need More Than Bullshit From a Guy In A Three Piece Suit." Based on how Alex handled our questions this week, we won't argue that point.

Why is your company's advice worth the money? What differentiates you from your competition?

Alex: Most of what I get back from our clients is that we are focused on their individual projects and their individual situations. We are not trying to apply a lot of the same solutions in every market. That's obviously a claim that everybody makes, but it's not our only selling point. We believe in the old-fashioned work ethic. We aet in the trenches and roll up our sleeves. Most of our clients see us as the hardest working guys in show business, if you will. The other thing is that we don't have a dooma ---- there isn't a 'DeMers approach' to Classic Rock or a 'DeMers approach' to AOR or Modern Rock. We don't have a brand name for anything. We really do buy into the 'every market is different' philosophy. A lot of that comes from my never having had a consultant. I never had an advisor. When I was looking at my opportunities as I was getting ready to leave WIOQ, it came down to talking to all of these guys and getting a sense of what they did. The one thing that I didn't like that consultants at the time all seemed to be doing, was having a solution without turning on my radio station. That bothered the hell out of me. To me it was like, 'Gee, what would happen if a guy actually went in and listened to the radio and told me what he thought?' As simplistic as that sounds, that's how the company started.

It seems the consultant business is tougher than ever before, and consultants are working hard to hang onto their existing clients. Some are having a tough time getting paid, and in certain instances, there are big name guys with marquee clients that they consult for free just for name value. What's your perspective?

Alex: The consultant business is going through a big shake-out. It has been going on for two to three years. For us it's been remarkable because that time period has been full of opportunities. We've doubled in the last two and a half years. What I think has happened is that a lot of people that came in with a show, as opposed to substance, are getting shaken out. What it's coming down to is that the people that are left are those who are really providing service for their clients. I've certainly heard the rumblings about people doing marquee work, and if someone were just getting into the business or breaking in. I could see them working with a huge radio station for free in order to parlay that into more paid business. I see that as a legitimate business practice that happens in any other business. Now there are people out there doing the 'consultant for a dollar' bit. I think it hurts everybody, and it makes it tougher. My feeling has been whether the client is in Philadelphia, Dallas, or Rockford, consulting is consulting, radio is radio. I have never focused my consultancy on a market rank or station image, it hasn't been a big issue

for me. When I first started this business, I looked at this as being a small company where I would do it alone, and be able to live in Pennsylvania. My goals were not that lofty. What has happened is, frankly, we've done a good job for a lot of people and word has spread. We've been able to grow a company out of it.

You share KSHE with Jeff Pollack. What's that like?

Alex: It's been really good. We work with Dave Brewer, Jim Owen and John Beck. Jim calls us 'the committee.' The big strategic issues are very much the group coming together on a point of view.

'You will take my advice.'

Alex: At the bottom. We see ourselves as advisors. To me, a good advisor comes in, renders his/her opinion, and certainly tries to persuade. Not every client is going to take your advice. If I recommend plan A and the client chooses plan B, what I am going to do is make plan B work the best that I can. I am going to throw in all of my resources and try to add my spin to plan B. Even though I may think plan B is not necessarily the best road I'll do my best. If plan B is the winner then, great-we all win. If plan B is the loser, it's time to say, 'Hey, let's look again at plan A.'

ave B. Even though Think plan B is not necessarithe ly the best road I'll do my best. If plan B is the win the ner then, great-we all win. If plan B is the loser, it's time to say, 'Hey, let's look again at plan A.'

Hall and Oates pay their seventies style respects to WIOQ's DeMers, Ed Sciaky, and Harvey In The Morning.

ou and Jacobs work together in Dallas.

Nex: That one is a little different to be honest. The SHE situation is much more of a partnership. We're he primary on 'ZPS, and Fred's company is primary in The Edge. On that one, Fred's opinion and his comany's opinion are sought on major issues, but when comes down to the guy that comes in for the maret visits, that's me, all the way up to helping them do heir television spots. Fred and I don't really have many ig meetings together.

/here would you say you slot in on the conultant dictatorial scale?

lex: Dictatorial as far as?

What would you say is your most successful format to date?

Alex: Again, we don't look at it that way. It is more station to station. We certainly made our mark initially in Classic Rock. Right now our client base is more AOR, traditional Rock than Classic Rock. We are also doing some '70s stations, and we are all along the Rock/Gold spectrum.

Does your concentration on Classic Rock stations concern you for your future down the line?

Alex: No. I think we are still in a transition period. Classic Rock itself is fragmented a couple of ways, which has frankly given us more opportunities. We are doing '70s in Philadelphia and in Phoenix. We are doing what you might call a Classic Hits or an Arrow type format in Portland. We see a lot of viability on the '70s/Classic Rock side across the country.

But couldn't the '70s format turn out to be the shortest shelf life format ever?

Alex: The '70s format as it is embodied by things like The Arrow — non-personality, background music --- then yes, it's limited. But whether it's Classic Hits, Classic Rock, or even strictly '70s based, I'm seeing a lot of opportunity and potential for growth there over the next ten years. I am probably out of sync with everybody on that, but I think that if you look at this last spin through on the '70s stations, a lot of the performers, particularly those that are non-Arrow, have done very well in the last book. That is because they are starting the maturation process. They are starting to add morning shows, features, and building a fun base to the radio station much like Oldies. In a lot of ways, it's the next level of Oldies. To go ahead with your question about our future, the Modern Rock side is becoming the mainstream. We have a number of clients that you could say are Modern leaning, or in one case, Modern. That is just determined by a local situation.

Of the current based clients, who's highest rated?

Alex: The winner is Rockford. At an 18 share, the station cooks. It's a very successful radio station with great managers. That's been a very strategic place from the start. These guys decided to go out there and own Rockford. They have done a tremendous job.

What has been your toughest turn-around?

Alex: The one I am in right now is WOFX. It is certainly going to be interesting.

You hired a good man in Neal Mirsky. Nice to see him bounce back from the cover jinx.

Alex: Yes, I am excited to have Neal on the team. Getting started up with a new client and making lots of changes to a radio station then losing your Program Director to a bigger market is tough. We went through the rating book without a local PD, and really without a true morning show. It was an uphill thing. We shot up quite a bit 25-54. Making those guys competitive in the face of 'EBN is certainly a daunting challenge. I think WZZU/Raleigh has been a real interesting tale for us. We have been in and out of that radio station on three occasions. It's one of those situations where it seemed

like every time we would get the mix and the PD together and we'd be balanced, the ownership would change and the station would fall apart.

Your thoughts about WEBN?

Alex: It's everything everybody told me it was. It's a monster. They're strategic without seeming to be, which is the grand illusion. It's like WMMR. The station might seem to be meandering and spontaneous, but underneath there's this mad genius driving the thing totally by research. That makes great radio stations.

Yes, but they have flip-flopped a bit in recent years. Do you think they are trailing any baggage as a result?

Alex: No. In that city, people are really willing to forgive 'EBN. Stations with that kind of heritage can make huge tactical errors and still survive very easily. One of the things that was very good for me, in terms of realizing the level of competition and what we were going to face, was the experience of having spent a year with KSHE. I was on the other side of it, and I could see the mistakes that we could make. We are sitting there evaluating research, and there is the audience telling us mistakes that were made and our numbers are going up. We were thinking 'God, it's great being KSHE!' I was thinking it must be great being 'EBN because when The Fox makes a tactical mistake it costs us, but 'EBN makes a mistake. 'Ah, that's WEBN.' Every property has its goals. Someone coming in and being cocky enough to say, 'We're going to knock off 'EBN.'? Forget it. That's not the game plan. You come in to be competitive and to turn a profit and be a successful radio station. I think The Fox is going to do really well working with Neal.

I would not want to be targeted 25-54 in Raleigh right now. There's John Duncan and WRDU to contend with, your classic rock station, and a rock leaning AC. Ugly.

Alex: It's tough odds, but there are a couple of things working in our favor on the dynamic. One of them is John Boy and Billy, which we added to the mix almost two years ago. They have really done well for the station. Unlike a lot of the Classic Rock stations who have no numbers after the morning, WZZU's numbers have carried through the day. John Boy and Billy really have a Classic Rock morning show, which is also one of the reasons why we just put them in Dallas. They marry well to the Gold based format.

Plus, as well as Moby did back at The Eagle in Dallas in the mid '80s, you have to believe that John Boy and Billy will match that success.

Alex: Exactly the model we used. To me, Moby was so successful because he was very genuine, yet he had that country charm. John Boy has that.

How does your Raleigh duopoly with Brian Burns and G105 work out?

Alex: Their Alternative lean and their success is no accident. We have to think in strategic combinations now.

Recent changes in Philadelphia at 'MGK — John Harvey, who you have known for 20 years plus, is out of there. Was that difficult?

Alex: Yes. Frankly, the thing is that Harvey has to be one of the guys with the most integrity in this business. He is not a 'radio guy'. He has only worked for three Program Directors and two radio stations in 20 years. In a way, that is part of his problem. He really had a vision for what he wanted to do. The station and the market kind of passed him by. He had a ton of success for a long time, and the station had to make a move and did it. The thing that made it personally a little easier for me is the die was cast before we were signed.

Alex endures a little grin and grip action with neo power pop poster child Lene Lovich, her partner Max, and some way too happy DJ.

Do you see things getting tougher for 'RDU at this juncture?

Alex: I would think so. 'RDU is in a bit of a squeeze there. They have to make a decision as to which side of the fence to defend.

Do you see Triple A as a viable option in a market like Raleigh?

Alex: Yes, absolutely. Triple A was an option that came up several years ago when we were first working with the station. Ownership at the time did not want to take the risk. It would be a bit of a slow growth, but you have a market where the NPR mentality is maxed out. It would have to be a very home grown variation on Triple A. It just feels to me that there is a very high integrity quotient as part of that whole Chapel Hill mystique.

Has the station performed ratings-wise to your satisfaction?

Alex: No. The station is flat right now. There is a lot more that could be done, but we have just begun.

What did you think of Mottla's overhaul of WDRE?

Alex: I thought it was terrible. It was a tremendous mistake. Tom Calderone had done a very good job with the station. Speaking from more of a Philadelphia perspective, the station was extremely well-targeted for Philadelphia. I can't speak of the other markets, but given the three AOR/Heritage stations in Philadelphia and the old 'IOQ, I thought the former 'DRE was a potential home-run.

They had the billing, but they just couldn't get the numbers. Why do you think that might have been?

Alex: Philly is very, very provincial.

You think the network angle worked against them that much, huh?

Alex: I think, somewhat. In truth, I think they pulled the plug too early. Howard Stern became a national figure, but remember it took around two years. People say, 'That proves that Philly was able to accept the New York thing,' but look how long it took. With 'DRE, it was more of a New York thing, too. From a sales standpoint, not a listener standpoint, they were on the outside. The station was much more of a focused, someAny glaring market holes you'd care to mention?

Alex: To me, Philly doesn't have a Rock station. A real Rock station. By that I mean, Van Halen, AC/DC, Def Leppard, anything from the '80s.

Do you foresee that as an area worth investing in formatically? It seems to me that the immense glow on Alternative right now has eclipsed owners' and managers' desires to put a whole lot of edge in their sound if it's not Modern edge.

what adult-leaning product. They lost some good personalities. The station was more than just a jukepox. It has become a college radio station that's out of control.

How about an attaboy for Joe Bonadonna, h? Quite the turnaround there.

Nex: Joe and his team did a tremendous job. This s one of those where you and I could sit and talk for 15 hours about what they did. They've managed to capure the Philly mystique, playing on their heritage without sounding old — all with that almost Triple Ash mixture that Philly responds to. The other thing hat they did is that with Pierre Robert, they found a '90s farvey. That was another one of the problems for John larvey. Pierre really is the up-to-date version of his rct. His on-air warmth and genuineness just plays so big in Philadelphia. **Alex**: I think you're right, but I also think that is a mistake to overlook it, especially as a secondary play in duopoly/partner type situations. Building a traditional AOR based on '70s/80s product is still viable in certain markets.

Now let's talk Dallas. Three years ago, whoda thunk KTXQ would find themselves in the situation they are now in?

Alex: Honestly, this is one of those things that gets by-passed in our industry, as far as how that competitive situation came about. Here you have CBS with their market leading AOR very classic leaning. They come in and build the Arrow, basically to kill the Classic Rock station KZPS. This is not the first time KZPS has a soft Classic Rock competitor, by the way, which we also defeated. CBS ends up kind of double Classic Rocking. What eventually happens is we pick up The Edge, and during that process, Q102 ends up changing format. When people talk about the 'death of Classic Rock', they need to take a look at Dallas and go, 'This Classic Rock station has out-performed the Arrow 8 out of 9 books now, with a 3.1 to their 2.6. A #6 25-54 vs. 14th for Arrow, vs. 16th for KTXQ. Those kinds of stories don't come out when Classic Rock wins. Keep in mind, this is all before a high profile morning show, which we now have in John Boy and Billy.

Do you think the Arrow would have fared better had it leaned noticeably more female, as you're doing at WMGK?

Alex: They would have had a little more room to grow leaning female. In Dallas, they wanted to eliminate the Classic Rocker first but building the Arrow forced Q102 to change format. In several other markets, CBS realized their competitors were not so committed to Classic Rock that they could scare them out of the format. We've seen that happen, but what has been the next net result? The Arrow in Houston is up a tad, the one in Washington is up a little, but they really haven't done extremely well. The ultimate situation is happening this week, with KLSX going Young Talk. That is going to be seen as a 'great victory for Arrow; death of Classic Rock.' What I think happened is that what Classic Rock programmers once thought was the ultimate morning show ---- Howard ---- has turned out to be the ultimate poison pill in terms of music image. The strategy behind the Arrow being a music machine is valid in those cases, particularly against the Stern stations. That's what has happened.

You don't buy the company line that Howard and Classic Rock are a marriage made in heaven?

Alex: In market after market, I am seeing that people are going to these stations for Howard Stern primarily. He was a help in cume, but he then dominated the image. Then, after 11:00 when Howard is gone, the station is gone. They are left with no music image. 'YSP is practically a talk station, with basically three talk dayparts now.

You've certainly heard the Greaseman as much as anybody. Are you surprised that Infinity stuck with him?

Alex: I'm not surprised because I think that is the personality of Infinity. That is my sense of Mel Karmazin. When he believes in something, he goes to the wall

for it. I don't know enough about the Atlanta situation, because I haven't seen any big growth there. I know there is some growth at night in Philly. I love the Greaseman. He's a great act, but it's just not working.

Do you think everyone is premature in celebrating KLOS' current-driven ratings explosion?

Alex: A little bit, only because I have seen this happen in other markets where a station will make a change like this and it will explode. Feedback I have gotten from listeners in focus groups is there is a period of time where the younger and newer listeners, the movers, the leaders, are checking it out. They see that station X has changed. They come in droves. In the meantime, the old guys, to whom radio is about as important as a toaster, are still there. It takes a longer time to piss off those listeners, but eventually they get pissed off. What happens is you have a book or two where everybody is in for the party. That is what you are seeing with KLOS. Everybody is in for the party, and then there will be a fall-off. Whenever you make a change, that is going to happen. We had that happen for awhile with KSHE. We made a lot of transitions over a year ago and now we are back. There is a point where that audience kind of washes out and makes its decisions about you. It doesn't happen instantaneously. Unfortunately, in our business, a lot of people are going to jump on bandwagons they'll wish they hadn't.

Years ago, long before it was fashionable, Jim Owen took KSHE much more current, and it worked. Explain what's happening to make the conservative course the smart move now?

Alex: KSHE really faced the crossroads a year ago, the same situation as KLOS and the others. The difference is the decision was made to definitely lean more conservative, to be more Classic, although we certainly play a lot of contemporary artists. KSHE is a very conservative radio station at this point, and that's by design. We're currently #2 25-54 and #1 18-34. We're under no illusion that both of those demographic groups are going to stay with us forever, but we had to make a decision. Are you going to play this thing 25+ or not?

That's where the money is.

Alex: Yeah. So that decision was relatively easy.

Are you surprised that The Point has done as well as they have?

Alex: No. I think they have a pretty good product. They certainly provide a service.

On to Phoenix!!!

Alex: Compression is everywhere, but this is the mother of all compression. Phoenix is very, very tight. The key to winning in Phoenix is being extremely patient and having ownership and management that understands that this is not the kind of thing that you solve in a minute. There are no magic answers. We're involved with K-Hits there, a very Pop/'70s-based station. The key for us has been some very nice 25-54 growth. It takes a lot of time to get people to really pay attention to a radio station there. unlike some of the other markets, because the noise level is just so high, there are so many options in the marketplace. I see a lot of shifting on the Adult Contemporary side to come that could change the 25+ rankings. On the Rock side, I find that some of the combinations tend to fight each other. One of the reasons that KSLX has emerged is that it has been very consistent. I think that John Sebastian has kept them on course. There was a little bit of an erratic movement when we first came on with the '70s, but they quickly realized something that a lot of Classic Rock stations took a long time to realize, which is, 'That's not our fight. Let's be the Classic Rock station. We can't add Boz Scaggs. It's not going to work.' Unlike some other guys that I think shot themselves in the head, they said, 'Oh, no. We have to play our game and play it the best it can be. This is a brave new world. We are going to share more people.' That's the nature of this game. They do a lot of good tactical stuff.

Mark and Brian just had another unbelievable ratings showing at KGON. Why do they work so well in Portland?

Alex: They have a very open field. When you sit and punch around morning radio, they're really the only game in town in terms of morning shows. It's not like there is a Stern there, or two or three local shows that have developed a following. Portland has been kind of sleepy. Mark and Brian feel radical there still. In a lot of markets, like Vegas, they came in and they left. It just wasn't hip enough for Vegas. For Portland, Mark and Brian have been pretty hip. No one really has challenged them. 'UFO is going with a well known market personality, but a mostly music approach. It's very pleasant and works very well. They have a very successful station,

but Mark and Brian are clearly the marquee morning show.

Do you think Portland can support two alternative stations, The Beat and New Rock?

Alex: No. I think one of them will emerge. I think you have signal issues with New Rock, and they have new ownership. There is going to be strengthening in that product. Again, we have moved into a very crowded arena, kind of niching a niche. Our client, Earth 105, is more of a Classic hits, more of an Arrow like product. There aren't any live jocks there yet, there will be eventually.

You are facing pretty stiff 25-54 competition in KGON, and personality driven to boot.

Alex: Yes. One of the things that KGON has done is that they've married themselves to the market. Dick Sheetz is a great guy. There is a certain warm and fuzzy side of the Pacific Northwest psyche that KGON pulls off perfectly. Our station is much more of a music service. We are a hit machine. We've also got another '70s station in Portland, which is also popular, more of an Earth, Wind & Fire into the Bee Gees kind of thing. That makes it awful crowded.

Is it frustrating to have to make an identity for WZXL in Atlantic City when the Philadelphia stations bang in there?

Alex: We've done a lot of umbrella markets. We have that in Rockford and Lafayette. I love the challenge of that. It is one of the most fun aspects of my job. Developing a unique identity for the little guy is a specific kind of challenge that we happen to do very well. We have probably done about a dozen what I would call kind of edge markets like that. It forces us to come up with really clever stuff. For instance, our morning show in Starnford is totally driven by traffic reports, which for a Classic Rock station is unique in the country. It works gangbusters. It has given the station a unique position, it has made them a lot of money and it gave them a morning show up against Stern, Imus and the WNEW morning show. It really helped give them an identity and put the station back on the map after it meandered all over the place. With Atlantic City, we just came off of a very successful book. A lot of that is keeping it focused on what is local and what is happening down there and being involved in the community. Harve Allen is doing that station. That is one of the clients he brought to us. What he has been able to do is develop a real Atlantic City identity and get them involved in the

whole community, which is something that a lot of guys when they get into these situations they put in the same old stuff from market A, B and C. In these situations it doesn't work, because someone is doing the same old stuff and the listeners can hear it. You can't just sit there and do the 20 song music marathon in Cape May County because 'YSP is doing that.

What do you think of the new WNEW?

Alex: I've heard it very briefly. I happened to be cruising up there about a week after they made the change. and it still sounded very much in transition. If it's not in transition, then I'm not sure what they are doing. Hearing the Gin Blossoms and '#9 Dream' in any kind of proximity struck me as, 'What's this?' It's a little too weird for me. With holding onto all of the 'NEW baggage — the image, the personalities, etc. — they are creating a more difficult situation than perhaps they need to. It's very difficult to let go of those investments. 'NEW may be that magical station where it can do that. I think, though, that the lesson from WMMR was that you had to evolve, you had to make the change slowly, and you had to not really change what you called it. 'MMR is still 'The Home of Rock n' Roll,' even though they are playing Joan Osborne and Alanis Morissette. Having old Scottso come on with it just doesn't ring true to me. That's possibly because I went to college in New York. I consider myself one of the target listeners for that station. I'm sure 'NEW would remain a button on my radio, but it is a huge change. It doesn't feel focused enough for me.

SBR's Denver win sure makes a nice sales tool. The world is convinced that Rock Alternative can't lose. Are you picking up that vibe?

Alex: I have yet to be in a market where there isn't a music cluster that relates to this format that doesn't do well with a particular 25+ type. It's there. There is no question about it. How big it is and how much you can exploit it is very much open to question. Granted, SBR did well with it at The Peak, but the market had already been educated. These are the same guys that, along with Dennis Constantine, had basically created the image. mystique, etc. of KBCO. You have a whole generation of listeners brought up on that, and when you give them the distillation of 'BCO in The Peak, of course it works. But you take a bunch of listeners who grew up on WNEW, and I don't think there is the same type of distillation process. Honestly, though, for every station like The Peak you have stations like The River in St. Louis sitting there with a 1.5 share. There is a lot of smoke and mirrors in this business.

In how many markets have you managed to successfully cross the street?

Alex: It's very rare for us, but it's not like we have never been let go. We certainly have. My initial reaction is not to pick up the phone and call the other guy. I don't like the idea of walking across the street simply for vengeance or because you are angry. I have seen that happen. I've seen guys go across the street and rebuild the radio station because of some magic information they supposedly have, and they go down in flames. You need to take a breather. Certainly your perspective and experience in the market is of value to the competition, but what happens if you go across the street too quickly and you are still focused on the old guy? You are not focused on making the new client the best they can be for their

Fred Jacobs and Tom Calderone are major Alternative players. Jeff Pollack is also very aggressive in that format. You haven't made any overt moves in that direction. Why? Is it because you think it is a flavor of the month thing?

Alex: Modern Rock is huge. We have seen a lot of success with stations that are leaning Modern Rock. We've got Modern Rock CHRs, and we've got AORs that are transitioning Modern Rock music into mainstream. It's a legitimate musical movement. I've just have never positioned our company as format specific in that sense. We certainly are a Rock oriented consultancy. Our deal is that we come in and build the best machine for that situation. If that happens to be Modern, we are fully capable of that.

You can tune a piano, but you couldn't escape from REO Speedwagon at least not back in those days. Also pictured: Biff Kennedy and WIOQ MD Helen Leicht.

competitive situation. For

instance, this happened in Columbia, South Carolina. We had worked with The Fox there for years, there was an ownership shift and they decided that they wanted to hire Fred Jacobs. What is interesting is that we had just recommended hiring John Boy and Billy, as well as some other changes, and of course, they implemented all of that. We knew we were helping to create a huge monster. Rock 93.5 was across the street. A year or so later, they went through an ownership change and we got involved. Our market experience and knowing the players has helped. Our focus there now is Modern Rock, but if I had walked across the street immediately after leaving The Fox, my gut tendency at the time would have been to make Rock 93.5 a Hard Rock station. Having that breather gave me the opportunity to come in and do something much more aggressive.

Financial considerations aside, what's your main motivation?

Alex: Probably being able to work with so many people I admire. Dean Tyler, for instance, the General Manager of 'MGK. He's done a tremendous job in Philly, at 'PEN and 'MGK. He is a legend in Philadelphia. In Dallas, we have John Larson. We're also working with Jim Owen at KSHE. There's Neal Mirsky at The Fox, and Brew Michaels just joined us out of Portland at Earth 105. I know that when I go to the NAB this year and I throw my client dinner, it's going to be a Programmerfest, with a real sense of radio programing camaraderie. How often can you get together in a corner with people like John Larson or Jim Owen and share ideas? I love putting people together who are creative and have great ideas. This business is a lot of work, but it's working with people like that that also makes it fun.

TRIPLE ACE

eather Nova, "Walk This World," Big Cat/WORK Steve Cole/KSPN, "The lovely face and the lovely voice of Heather Nova combine to make a pretty attractive package for Triple A. On 'Walk This World', Heather refines the art of pant-singing over a chunky rhythm before soaring into the choruses, displaying a pretty decent set of pipes. Early office reaction is thumbs up." Zeb Norris/WXLE, "Having an attractive female repeat the word 'come' 500 times in a song is a sure-fire draw for male listeners. As Heather would say, the lyrics 'suck' you in. An obvious hit.'

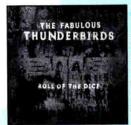

Cotter Langan/KMMS 'We love Heather Nova! This is one of those records that fall between Alternative and Triple A. She's got a voice that could hook in an adult listener and her music has got a familiar, comfortable tone. We're definitely going to do more with this album." Jody Petersen/WNCS. "Heather Nova has the appeal of a gifted, sexy, confident woman - a ready talent destined for greatness." Don Ferrell/KRVM, "With the surge of great female artists in the format, Heather Nova will surely make a name for herself. Her music is exciting, and we're already getting heavy phones." Jeff Hansen/KPFT, "We love the second version of the single and added it this week. It will add a lot to our mix here --- looking forward to the full album."

HE HOT CORNER

The Freddy Jones Band, "North Ave Wake Tup Call," Capricorn Colter Langan/KMMS, "We've been waiting for this record since their first one came out. We put "Hold On To Midnight' on the air the day we got it. Expect it to go #1 at most or all Triple A's." Jane Fredericksen/KTCZ, "This group is a natural for progressive radio. Their definitely a feel-good band with uptempo melodies ---- they've got that good summertime sound." Jim Asker/WRNX, "The Freddy Jones Band is one of the best things about the format. They put out won-

derful adult music. The band gets better and better with each album, and this record is chockful of great stuff for the format. I believe they have a legitimate chance at being the first true starts of the Triple A format." Shawn Taylor/WVAY, "Another great one from The Freddy Jones Band — we put it right into medium. This album is full of great tracks." Sybil McGuire/WMMM, "This new Freddy Jones stuff is great! Of the 14 tracks, I marked 8 tracks to play on the air. It's got blues-flavored stuff and harder guitar edge stuff it rocks. By the way, everyone here at Triple M has a hangover because we went from 13th to #2 in our demo!"

The Fabulous Thunderbirds, "Roll Of The Dice," Private Music In 1986, the T-birds signed themselves into the blues/pop record books with their Tuff Enuff album and established a sound that you just can't help but love. In the past nine years, they've continued to produce similar material with a high rate of success, despite a few line up modifications and a changing musical climate. As you can see, the persistence of founding member and vocalist/harmonica extraordinare Kim Wilson has paid off once

again. Kim's writing, pipes and harp just tear up this record. And what a support cast: Kid Ramos's guitar playing is unreal, Fran Christina (another original member) drives this band right off the disc. Mark Carrino holds down the bottom with a remarkable groove, and Gene Taylor pounds those keys like no other. Roll these cuts: "How Do I Get You Back?," "Do As I Say," "Roll Of The Dice" and the Disney classic "Zip A Dee Do Dah."

TOTO CONTRACTOR

Wake up to the new album by The Freddy Jones Band. Featuring "Hold On To Midnight"

Popa Chubby "Healing In Her Hands" OKeh/550 Music

Here it comes. Another gift from the "Sweet Goddess of Love And Beer" man — big boy Popa Chubby. This tune shuffles like a deck of cards. With a groove that is immediately laid down, this mother slides along for

the full 3:56. Already a proven success at Triple A, as well as AOR and Alternative, "Healing In Her Hands" will keep the Popa Chubby boulder rolling and perhaps be held responsible for a future avalanche.

Kevin Salem "Lighthouse Keeper," Roadrunner

Kevin Salem delivers us another powerful cut from his latest release <u>Soma City</u> — "Lighthouse Keeper." Raunchy and rockin', Kevin's gritty vocals back up a hook that is sharp as a razor. If the electric version is a little too edgy for you, check out the acoustic track recorded live at KSCA. Also included on the single EP are the haunting solo "I Am The Cosmos," the pop-leaning "Forever Gone," and the mournful "Ghost Town."

Our hats are off to Mark and Tom at Roadrunner for continuing to back this stellar release. Salem is an extraordinary songwriter and musician, and it's only a matter of time before he gets the recognition he deserves.

Gregory Gray

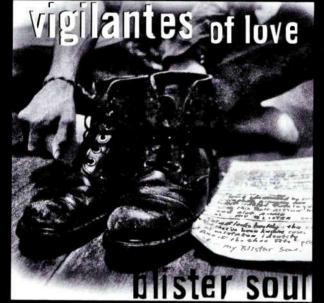

"The Pope Does Not Smoke Dope," EMI

"Cut the crap/Get real/Sweetheart/The Pope does not smoke dope/Even if he should." Painted on a landscape of dance rhythms, bass, keyboards and harmonica what a cool chorus. This is, of course, complements of our newest Irish buddy **Gregory Gray**. Gregory has had two previous major label releases (in '86 and '91), and now he's back in '95 on EMI with an album he recorded in the seclusion of his North Ireland living room. A

cross between Adam Ant and New Order with a slight Gaelic-Irish twist, Gregory has a sound that Triple is just starting to warm up to: **Keefer/KBXR**, "I listened to it a couple of times now. It's sort of a novelty tune, but it's like a creeper that sneaks up on you."

P.S.: The new **Michael McDermott** release has been pushed back to early January, in order to avoid the current overload of new music that we all have piled up in precarious stacks on our desks. We managed to get a sneak preview in our hot little hands, and we guarantee it will be worth the wait. McDermott's songwriting has never been better, and the whole album has a sweet, acoustic-leaning full sound. Stay tuned...

Health & Happiness Show

Instant Living (Bar/None) the second release from Health & Happiness Show, is a huge step forward for this band from New Jersey. They combine country, Celtic and British invasion influences to form a fresh and fun sound. There is a wealth of good tunes on the disc, including, "Sugar In Your Eyes," "Tossed Like A Stone," "You Is Fine," and "I'll Be Your Train."

THE FREDDY A BB North Ave Wake Up Call JONES BAND

Freddy Jones Band

The Freddy Jones Band's third album North Avenue Wake Up Call (Capricorn) should continue the band's ascent into the top ranks of the progressive world. The lead track "Hold On To Midnight" has already propelled onto the charts and with the full album landing this week, FJB should have a top 10 record on their hands very soon.

The best radio track is "Waitress," an uptempo rocker that makes one instinctually reach for the volume knob. Other tracks that have grabbed up are "Ferris Wheel" (my personal favorite and quite possible this album's "In A Daydream"). "Rain," and "Warm Like Home.

Chris Anderson

Hailing from Sarasota Florida, Chris Anderson seems to have grown up on music similar to that of his fellow Floridians. The Allman Bros. Anderson's resume includes being a member of the Outlaws, as well as quest appearances with The Allmans and Double Trouble, to name but a few. His solo debut Old Friend (Relativity)

showcases his phenomenal quitar technique, which has been described as a cross between Stevie Ray and Slowhand. On the Albert King original "You're Gonna Need Me" that kicks off the album, you can hear the SRV influence. The title song featuring The Allman's Warren Haynes, is the emphasis track and is noteworthy due to the dueling between Anderson and Haynes on slide guitar. Also check out Anderson's intro on "One Step Ahead Of The Blues," as well as "Crying For My Baby" and "When Will You Be Satisfied."

FUGITIVES Vance Gilbert

Vance Gilbert is an enigma to the folk scene. His blend of jazz, R&B and folk music distinguishes him from his peers, who all hail him as one of their favorite songwriters. His second album Fugitives (Philo/Rounder) Mance has just been released, and you should not miss it. "Scene Gilbert" Of The Crime " Of The Crime," "Pound Of Prevention," "Lightnin"

Rod" will all give you a good idea what Vance is all about. His cover of Smokey Robinson's "Just A Mirage" is also a gem.

Liquorice

Liquorice is a cool new band on 4AD, with an album called Listening Cap. With a sound somewhat reminiscent of Aimee Mann in her mellower mood, this band should find a home at progressive radio. "Trump Suit," "Team Player," and "Cheap Cuts" all sound like they work well on the air.

X singer and guitarist John Doe is back with a new band he calls The John Doe Thing and an album called Kissingsohard (Forward/Rhino). You should have a 4-track CDPro containing the lead track "Fallen Tears." With Doe's unmistakable voice and a driving beat, this song should do well with X fans and new converts as well. Also of note on the EP is "Going Down Fast" which is a softer tune.

Brvndle

Karla Bonoff, Kenny Edwards, Andrew Gold and Wendy Waldman make up the group Bryndle. Their self-titled debut on MusicMasters is a wonderful album of folk songs. This supergroup collaborated on many of the tracks on the album, including "Take Me In," "Under The Rainbow," and "We Walked This Road," but the standout is the Gold original "Streets Of Your Town."

Singles

There is a great song on the album skin and blister (Warner Bros.) from Seven Day Diary called "He Can." The vocals of Pamela Laws and Nancy Hess mesh beautifully, and the emotional lyrics speak right to the heart... The Goo Goo Dolls are ostensibly an alternative act, and their sophomore release A Boy Named Goo (Warner Bros.) has done well at that format. As with their last album, however, there is one mostly acoustic song that is getting some attention on the progressive side. "Name" has the potential to cross over and make this band a huge hit... Kate St. John, formerly of The Dream Academy and Channel Light Vessel, has a beautiful new album called Indescribable Night (Gyroscope/Caroline). While most of the record is too atmospheric for radio, the song "Pans Skies" just knocks me out. It's soft, but very adult-appealing.

WIYT 'Boston made the official switch from AC to Triple A on Tuesday (8/1), changing its "Lite" moniker to 92.5 The River. The station's music has been moving in the more progressive direction since PD Joanne Doody took the reigns in May, after 10 years with crosstown alternative WFNX. "With so many stations sounding so similar, we saw an opportunity to carve out a niche of our own," said Doody. "The River will incorporate a lot of new music, explore the forgotten tunes of the '80s and '90s, and serve up a steady stream of great music from the likes of R.E.M., U2, The Police, Bruce Springsteen, and more." The River's MD, and former WBOS programming assistant, **Mike Mullaney** added, "Stations seem to want to take their music to the extreme — <u>hard</u> rock, all oldies, or <u>all soft</u> stuff. There's a great deal of terrific music being ignored, and 92.5 The River will be the station to fill the void. Another new face will be running the show, GM Dan Lankford, who segues from WTTM in Trenton, NJ.

Constantine Consulting announced the appointment of James Dann to the newly created position of Director of Development. Dann joined the company in November 1994, following five years as the Denver-based promotion manager for MCA. In his new role, Dann will be working closely with Constantine client stations on presentation and imaging of the on-air product, as well as creative promotions and ideas. Dennis Constantine commented, "This new position takes advantage of James' expertise. By redefining his role here in our office, we enhance the service we provide to our family of stations." Said Dann, "I'm both pleased and flattered that Dennis has given me the opportunity to tailor my role here to the unique needs of our client stations. Though I'm not yet a card-carrying vegetarian, we've come a long way in our personal and professional relationship since I first worked him on records by The Horse Flies!"

WH1 will relaunch <u>4 On The Floor</u>, its critically acclaimed roundtable music series, beginning this month. The show will feature a more frequent taping schedule (increased from bi-monthly to weekly) and a new host, **Anthony DeCurtis**, editorial director/correspondent for VH1 News.

It's with great enthusiasm that **Dave Leonard** passes the title of Music Director to me, **Louise Coogan**. This means that now I will be taking all music calls, opening mail, sorting, organizing, figuring and faxing, while Dave talks on the car phone, opens the e-mail, and makes all final decisions from a restaurant because someone is always taking him to lunch. I guess that makes Dave the Program Director.

As many of you know, "small market radio is the last vestige of slave labor" (a quote from our friend **Dave Einstein**). Therefore, Dave and I have many other responsibilities at WKZE. Our efforts are in management, our hearts are in the music and our loyalty is to the listener. We will continue to work with all of you in an honest straight forward manner toward our common goal of playing good music.

Thank you for being patient in my absence. Thank you to **Sarah Hermans** for the fine job she did while I was out of town. By the way, I strongly recommend taking a month off from work, it does wonders for the disposition. I'm back and anxious to speak to all of you during regular call hours (Thursday and Friday 1pm-3pm). You know I'm flex-ible, just imagine what a pushover I'll be after a month vacation.

So, it's official...Louise Coogan, Music Director, WKZE. Dave Leonard, Divine Decision maker, all around good guy.

long for folks to figure out that this is not just another new disc. It marks the for the band on Private, and they know what they're doing over there! The Fabulous Thunderbirds just acquired the talents of hot shot guitarist **Kid Ramos** and <u>Roll of the Dice</u> allows **Kim Wilson** to showcase his harp skills like never before - you'll notice that on your first listen! The T-Birds have also stepped up their songwriting abilities with several gems on this record, including "I Don't Wanna Be The One," perfect for radio play by programmers who play anything by **Eric Clapton**. This masterpiece was co-written by **Jerry Williams**, who wrote "Pretending," "Anything For Your Love," "Runnin' On Faith," and

"No Alibis from Clapton's huge **Journeyman** release. Other highlights on this record include "Takin' It Too Easy," "Mean Love" and "How Do I Get You Back?" But you'll find your own favorites when you spend some time with this one. Like the ancient symbol for a thunderbird (which graces the front cover), this new Fabulous Thunderbirds release rises head and shoulders above the rest and offers a fresh new mix of music from Kim Wilson and company that's sure to be one of their best. <u>Roll Of</u> <u>The Dice</u> is a sure bet! blues reviews

The Paul Butterfield Blues Band

The Original Lost Elektra Sessions

(Rhino/Elektra) By Bruce Bjorkman, KBZY/Salem, OR

a story filled with as much intrigue as a Dean Koontz mystery, and it's true! What's even stranger is the fact that this was the first **Paul Butterfield** album, already

> mastered, packaged and ready to ship, save for a last minute decision to totally re-record the band using better recording procedures. Then, almost like an Indiana Jones discovery, original Butterfield producer **Paul Rothschild** discovers the original three and four track master tapes in a warehouse in New Jersev. It is

a "find" well worth celebrating by blues history buffs and Butterfield fans alike. <u>The Original Lost Elektra Sessions</u> captures the raw, hungry performances of this now famous and revered southside Chicago blues band. Indeed there are many gems found in this motherlode of sixties revivalist blues, where you can hear the development of the band from this, the third take of their "first" session, to the finally released <u>Paul</u> <u>Butterfield Blues Band</u> and <u>East-West</u> albums. This recording speaks volumes about how far the recording industry has come since the 1960's, what with compression and dolby and digital tape, etc. Yet, even with some of the master's glaring "imperfections", this is a jewel that any lover of electric Chicago blues will want to have. The story surrounding the recording, told by Rothschild in the liner notes, is worth the price of the disc for historical value alone.

of the better new releases this month come from right here in Arizona; Hans Olson and Sam Taylor are two of the best unsigned blues talents in the country today. The Elvin Bishop and Davell Grawford CDs will be getting lots of airplay, as will the Paul Butterfield release. COVER Pick +

Seaweed, Spanaway (Hollywood)

STE COND

There is a recent onslaught of talented new bands cropping up these days, and one pick of the litter is Tacoma's Seaweed. This isn't the first we've heard from them. They already developed a reputation from three SubPop releases that they have to live up

to. "I was waiting for this!" WCWP's Chris Hoffman rants. "It has been years since I heard their old stuff, and this totally lives up to that standard!" Another good endorsement for the band is the add tally - #2 most added this week with 47 adds and early airplay at KFMX, KISS, KLOL, KMSA, KTOZ, KUNV, WBAU, WKLL, WKNH, WKTA, WMMR, WSGR, WSUP, WTPA, WVBR, WWVU, WXCI, and **WZBC**. Spanaway was produced by Adam Kasper (Soundgarden, Nirvana) and mixed by Andy Wallace (Nirvana, White Zombie), a veteran crew that was able to capture the band at their eccentric best. The band grew up on the rock of AC/DC and spent their teen years on the punk of Fugazi and 7 Seconds. Now they are reflecting those influences in their music, but spicing it up with their own comical personalities. Some of the more bustling components include the churning and frenzy of "Crush Us All"; the choppy-tempo and guitar harmonics on "A Common Mistake"; and the big drums that hold up the buzzing "Saturday Nitro". Found throughout the entire release are intertwining melodies that keep even the noisiest song appealing. There is plenty of cutting edge aggression on Spanaway (that will cross formats and genres) but the bottom line is that Seaweed rocks! Got 'Weed? If not, you are missing out on a sure sonic high.

Sven Gali, "What You Give" (RCA)

Can you say big drums? Can you say meaty guitar riffage? We think you can. While you may hear elements of some of your Hard Hitter favorites - the axe work of Pantera or the celestial percussion of Stabbing Westward - this Canadian group has an aura

all their own. "What You Give" is a multi-personality rocker with textured layers of sounds that shift from a fullthrottle attack to ethereal, flowing execution. Their debut release, Inwire, was produced by Kelly Gray (Candlebox), and will be hitting radio within the next couple of weeks. We are looking forward to the arrival of the rest of the album to see if it is as inventive as this initial offering. Simply stated, Sven Gali's "What You Give" is modern sounding but not alternative - and should add an exhilarating element to any hard edged radio show.

Spine, <u>Disruptive Influence</u> (Lower Lumbar Music)

With so much material crossing our desks it seems likely that many cool records could go unnoticed - but that shouldn't be the case with this 11 song collection from Spine. After paying their dues on the metal front - formina in '91 - the

Manhattan, Kansas natives have found a chemistry that creates guite the musical potion, making it easy for them to capture their formidable style on tape. The band has made the most of thrashing guitars, strident vocals, rock solid bass, and lightning fast drum beats to come up with a heavy-duty 37 minute album. Their rapid fire assault is particularly potent on "Half Life", "Mange", and "You Die, She Dies, Everybody Dies", but don't overlook the other turbulent tracks. If you are in need of a comparison, Death Angel, Pantera, and Slaver might come to mind when trying to relate their sound to others in the metallic genre. P.S. KDUR, WEOS, WRHU, WTFX, and WVBR have already reported some spinnage of the disc.

Integrity, <u>Systems Overload</u> (Victory)

After years of strictly working the underground scene and developing mosh pits out of word-of-mouth networking, the hard-core genre has begun to see more respect from widespread audiences than ever before. Despite this success, the indie labels are still the best place to go to for

the most lethal doses of hard-core to breed. Integrity lives with a level of aggression that combines breakneck tempos with the dark imagery and snarl of death metal. This is hardly for the weak at heart, with graphic lyrics and a musical assault that is borderline vicious. The band has found a new home at Hard Hitters radio with 27 stations spinning the Systems Overload disc - including two adds at KSJS and WXPL to go along with increased play at KZAK, WAIF, WBAU, WDWN, WLFR, WSMU, WTSR, and WWSP. Integrity is not a new player, their first release was the 1989 EP In Contrast of Sin and the current full length album is their third. Don't forget to explore the bonus tracks added at the end of the disc to showcase some of the band's raw demo material.

Ugly Kid Joe, "Milkman's Son' (Mercurv)

There is still plenty to talk about in the Ugly Kid Joe camp - they surged up to 6* on the Hard Hitters chart as Whit and company have been doing an onslaught of interviews. The band is probably still glowing from their European tour with Bon Jovi and Van Halen (after all, the

band got to play Priest songs with Glenn Tipton and go BMX biking with Ozzy and his kids in England). But American fans will be glad to hear that the Ugly Kids have hooked up with Souls at Zero for a full tour on this side of the pond. The latest CD-single features a double dose of the wildly infectious chorus in "Milkman's Son", and the hefty rhythms found in a slightly different version of "God". The versatile vocals of Whitfield set the tone for each song, whether it's the raspy drive of "God", or the fluent melody on "Milkman", but in adding Shannon Larkin's strength to the groove the band sounds tighter than ever. The mischief is just beginning with these party hungry Ugly Kids, so while you may on "Milkman's Son" expect more than cookies with each serving.

Now that the Joey Belladonna interview disc (a question and answer series conducted by RIP Magazines Katherine Turman) has arrived the self-titled full length Belladonna (Mausoleum) album is soon to follow. Let's play "Spot the Biggest Geek"! Some of your choices include Epic's **Cheryl Valentine**, **Brian Lima**, **Mike Martinovich**, and **Smitty**, WTZR's **Keith** and **Christine**, WJSE's **Leigh Taylor**, WGLS' **Andy Gradel**, the **Brahm**-ster of Love, members of **KoRn**, and of course our own **JFab** and **Holly Mc**. Actually this picture was taken in Wilkes-Barre, PA, where we all converged to watch KoRn pack an in-store at Gallery of Sound and rock the crowd while on tour with Danzig and Marilyn Manson.

The final dates on the current Monster Magnet (A&M) and Corrosion Of Conformity (Columbia) double billing are August 7th with a show in Lido Beach, New York; on the 9th with a stop in Boston, Massachusetts; on the 10th in New York, New York; on the 11th in Washington, DC; and finally, on the 12th in Philadelphia, Pennsylvania... The Goo Goo Dolls (Warner Bros.) wind things down on their current trek with shows August 7th, 10th, 12th, 14th, 15th and 16th in Pittsburgh, New York, Kitchner, Washington (DC that is), Hamilton, and London (Ontario). Čatch 'em if you can... The Circle Jerks (Mercury) stopped in Las Vegas for a show on their current tour only to have it cancelled because 90% of the roof collapsed at the club where they were supposed to play. Bummer. Instead of letting their fans down the band decided to plug in and perform in the clubs parking lot. A frenetic set was performed until the local police arrived and cut it short. Look for the band to continue their club (or parking lot) tour until the end of the summer... On the upcoming Crowbar (Pavement) tour - dates run from an August 6th kick off in Alexandria, Virginia to an August 23rd showing in Minneapolis, Minnesota - Shank 456 (Roadrunner) and Suffocation (Roadrunner) are the opening acts. SSSSS Did you know that the Fear Factory (Roadrunner) video clip for "Replica" has been added to the Box (select # 584)... Did you also know that Fear Factory frontman Burton C. Bell has been tapped to sing on the upcoming Geezer Butler project? Now you do. Plastic Planet, the album culled from the side-project (called G.Z.R.) will be released on TVT Records sometime this fall. Also taking part in the project are Ozzy drummer Deen Castronovo and guitarist Pedro Howse. 88888 Vital information - The hours of metal programming at KNDI/Honolulu has been cut from 52 to 38... WXPL/Fitchburg and WSMU/N. Dartmouth have returned to the Hard Hitters reporter panel. 88888 Peace.

Spine, Disruptive Influence (Lower Lumbar Music)

With so much material crossing our desks it seems likely that many cool records could go unnoticed - but that shouldn't be the case with this 11 sona collection from **Spine**. After paying their dues on the metal front - forming in '91 - the

Manhattan, Kansas natives have found a chemistry that creates quite the musical potion, making it easy for them to capture their formidable style on tape. The band has made the most of thrashing guitars, strident vocals, rock solid bass, and lightning fast drum beats to come up with a heavy-duty 37 minute album. Their rapid fire assault is particularly potent on "Half Life", "Mange", and "You Die, She Dies, Everybody Dies", but don't overlook the other turbulent tracks. If you are in need of a comparison, Death Angel, Pantera, and Slayer might come to mind when trying to relate their sound to others in the metallic genre. P.S. KDUR, WEOS, WRHU, WTFX, and WVBR have already reported some spinnage of the disc.

Integrity, Systems Overload (Victory)

After years of strictly working the underground scene and developing mosh pits out of word-of-mouth networking, the hard-core genre has begun to see more respect from widespread audiences than ever before. Despite this success, the indie labels are still the best place to go to for

the most lethal doses of hard-core to breed. Integrity lives with a level of aggression that combines breakneck tempos with the dark imagery and snarl of death metal. This is hardly for the weak at heart, with graphic lyrics and a musical assault that is borderline vicious. The band has found a new home at Hard Hitters radio with 27 stations spinning the Systems Overload disc - including two adds at KSJS and WXPL to go along with increased play at KZAK, WAIF, WBAU, WDWN, WLFR, WSMU, WTSR, and WWSP. Integrity is not a new player, their first release was the 1989 EP In Contrast of Sin and the current full length album is their third. Don't forget to explore the bonus tracks added at the end of the disc to showcase some of the band's raw demo material.

Ugly Kid Joe, "Milkman's Son" (Mercury)

There is still plenty to talk about in the Ugly Kid Joe camp - they surged up to 6* on the Hard Hitters chart as Whit and company have been doing an onslaught of interviews. The band is probably still alowing from their European tour with Bon Jovi and Van Halen (after all, the

band got to play Priest songs with Glenn Tipton and go BMX biking with Ozzy and his kids in England). But American fans will be glad to hear that the Ugly Kids have hooked up with Souls at Zero for a full tour on this side of the pond. The latest CD-single features a double dose of the wildly infectious chorus in "Milkman's Son", and the hefty rhythms found in a slightly different version of "God". The versatile vocals of Whitfield set the tone for each song, whether it's the raspy drive of "God", or the fluent melody on "Milkman", but in adding Shannon Larkin's strength to the groove the band sounds tighter than ever. While the musical world has become inundated with hip and trendy sound-alike bands, the **Supersuckers** have made it their personal mission in life to bring to the general public music that is truly different. The material found on <u>The Sacrilicious Sounds Of the Supersuckers</u> is fun and frolicking, rambunctious yet rebellious - pretty much unlike anything else on the metal radio waves today. The major components of their happy-go-lucky, supersonic fun-rock are exuberant vocals, upbeat and lively guitar licks, and looping bass lines. The good-time material is melded together with a high-gloss sound and sardonic wit giving the music an edge that makes the band viable not only at metal radio but also on the Alternative and COR fronts as well. In perusing through the melodic kingdom of the **Supersuckers**, the fast-paced little ditty "Born With a Tail", the fluid-filled "Bad Dog", or the power-pop-punk influenced "The Thing About That" are among the album's elite. If you are looking to diversi-

fy a little, the bluesy groove of "Don't Go Blue" or the liquid movements of "Victim" should definitely fit the bill.

With the arrival of live EPs, both **Sick of it All** and **Orange 9mm** are seeing a surge in metal radio play. The new material isn't the only factor in their increased airplay, the duo just finished a touring stint with Quicksand (used primarily as a warm up for the extensive Warped Tour). The two hard-core bands, along with L7, CIV, Face to Face, No Use for A Name and many other street ready groups are heading out on the Warped trek. The tour has been described as the ultimate outdoor festival lifestyle event for the underground of today, making Lollapalooza look like a token

corporate monster in comparison. Be sure to check out this two stage event which also features exhibitions from top skateboarders, in-line skaters, and BMX bikers. On the music end of things is the pummelling and grinding "Maladjusted" from **Sick of it All**. Taken off the <u>Scratch the Surface</u> LP, the single (along with three live tracks "Shut Me Out", "No Cure", and the title track recorded live at the Palace in L.A.) arrived at radio last week. Although their name may suggest otherwise, judging by the sixteen new adds this week people never seem to tire of hearing more from **SOLA**. **Orange 9mm** also fared well in the adds with seventeen new stations in on "Suspect", a song with a careening rhythm that takes you along on a roller coaster ride. Just like their label mates, the live tracks were recorded at the same March performance in L.A. and highlight the band's ability to invoke power and intensity in a subtle manner. With these pound-your-head-in tunes from the EastWest hard-core division there are two new reasons for your listeners to stick to their radio.

choices

Catherine Wheel, "Judy Staring at the Sun," Mercury/Fontana

Giving out my Show of the Year award in August might be a little premature, but the clear frontrunner at this point is the Catherine Wheel show at WMRQ/Hartford's Big Night Out. What this band exhibited on the stage that night was nothing short of transcendent. The mixture of first-night jitters (the band hadn't stepped to the mike for 18 months prior) and the red-hot crowd really affected the energy level on both sides of the stage. Catherine Wheel are poised for arena-sized venues, and the time may be approaching for them to make the step to the next level. "Waydown" was the first step, a solid rocker that sounded good on the radio. "Judy Staring at the Sun" proves to be a better song in nearly every way. This one is a hit. From the "Waydown" quitar edge (mixed to lower volume in this tune, but still present) to the over-the-top chorus melody, "Judy Staring at the Sun" is the meeting point for every facet of the Wheel's musical repetoire. The guest vocal contribution by Belly's Tanya Donelly is a cherry on top. The Wheel rolled in 14 adds, including CIMX, WHFS, WMMS and KXRK, locking down #1 Most Added status.

BoDeans, "Good Things," Slash/Reprise

One of the facets of The BoDeans' repetoire that steps them above the waterline is that they also have an extraordinary live show. They have cultivated a voracious following of fans that swear by their performances. Combine this knowledge with this understanding - This band makes radio music. They've somehow been overlooked in that arena, save for a cou-

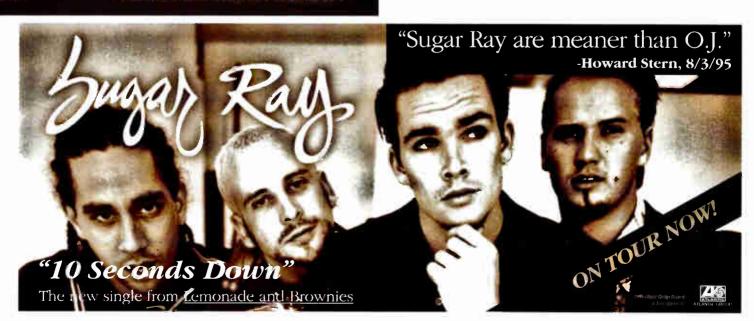

ple of tunes along the way. This song is one which worked for some of you during its tenure as a single from Home. From the upcoming live album Joe Dirt Car, "Good Things" comes in a smaller 4:44 version if you can't pry away 9 minutes for the album version. Here's a great song with some familiarity performed before fans who are singing the tune back to them. It's an electric vibe, **WKOC** is first aboard.

White Zombie, "Electric Head Pt. 2," Geffen

Alanis may be usurping the phone throne of Zombie at this point, but "More Human Than Human" ruled the roost prior to her ascent. The follow-up track has been growing before the box, partly due to the burn associated with the intense exposure of "More Human Than Human." It's a charged track that has everything going for it as a follow-up. A substan-

tial list of earlybirds got in well before the actual add date for the track. including KROQ, WMMS, KTCL, WJRR, CIMX, 0101 and WFNX,

THE HARD REPORT

pre che

Seam, Are You Driving Me Crazy?, Touch and Go

Touch and Go brings this Chapel Hill band (now based in Chicago) to the table as a soothing alternative to the regular diet of bludgeoning guitar punks. Not unlike some of their college-rock regional counterparts, Seam pay attention to the pop wave, but they've got some-

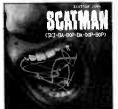

thing much more intriguing to say than mere reevaluation of the ground we've soundly covered in the form of other bands. Think about sleepy Teenage Fanclub with some of the textural appetite of Ultravox or J. Mascis. And give this renegade outfit the chance to trance you delicious. DMX is playing the track "Berlitz."

Innocence Mission, "Bright As Yellow," A&M

The slow vibrato and reverb of the fat guitar sound haunts the intro of this song that has been steaming up more windows of late, despite its relatively long simmering process. A Chris Isaak-ish hollow-body quitar sound roots the essence of this track into an

almost late-'50s context, and the siren vocal wail of singer/songwriter Karen Peris slithers around its legs with allure and grace. Here lies a way to play the upper-demo game, and keep yourself a real tempo-breaking gem to spice up your nights in the bargain. KJEE, KNRK, KPOI and WWDX add it this week, joining WDST, WEQX, Q101, WLUM, REV 105, WFNX and others, with 301 total spins.

Scatman John, "Scatman," RCA

At this point, we are catching this track before the pop explosion in the US of A. "Scatman" is already doing that trick worldwide - #1 Eurochart, #1 in Spain. #1 in Australia, #1 in Finland, #1 in Switzerland, and Top 5 in the UK, Ireland, France, Norway and Italy.

One listen should explain the phenomenon. You can imagine hearing this one in clubs throughout Europe with amazing ease. There are plenty of stories of the Great Atlantic Crossover to be found in our own musical libraries -Seal's "Crazy," Marley's "Buffalo Soldier," anything from UB 40, etc.. Get it now, 'cause it sounds like something your CHR will snarf up eventually. There ain't nobody else out there scattin', so you've got a distinctive sound to explore. And the melody line in the chorus is alarmingly catchy. KUKQ spun it 18 times last week.

Sugar Ray, "10 Sugar Ray, "10 Sugar Ray," Atlantic "10 Seconds

A slammin'-in-your-face-blowout-jamfest-upbeat-streetwise-funk-o-rama-knockyouonyerass-Beasties-meets-Aero-meets-Faith-No-More- Rage-remotecontrol-technotronic-flamethrowin'ophonic-sonic-chronicnasty-sultrysexed-eleven-amped throbbing massacre of massive proportion. It's a pretty good song, too.

Sun, 60, "C'mon and Kiss Me," Epic

Not much you can say about catchy alternative/pop rock made for the format. That's what this song is all about. The inviting drama unfolds before your ears by the first chorus. Careful - 110 volts could pucker more than your lips if you lock 'em down on

your JVC in hypnotic reply. Stay in the moment. Instead, kiss your list with the fruit from a few years of craft-honing that Sun 60 have logged up to this point. SW Network, WBRU and WZRH added it this week.

For Love Not Lisa, "Had a Lover," EastWest/EEG

An uptempo rocker that will work nestled up against a punkish newcomer, old school icon or a popternative performance with equal dexterity. The edge never outwrestles the song for control - the balance between song and attitude is nearly perfect. For Love

Not Lisa make a knockout punch with this track, one for which we predict certain chart success in short order.

DFL (Dead Fucking Last), Proud to Be, Epitaph

20 tunes that combine to clock in at under thirty minutes of pure, unadulterated pissed-off punk. Feel free to grab one off of the tree at your discretion. Watch for those 7 words Carlin once talked about. but know that you'll be hard-pressed to find anything more edgy and real than DFL. Produced by Adam Horovitz.

Greetings, compadre's. We've got mucho news, so on we go ... Human Highway, Neil Young's hightech, anti-nuclear comedy/fantasy/musical will be released this week. The video/lazerdisc features exclusive performance footage of Neil, and is the long-awaited release of Neil Young's 1983 feature film starring Dennis Hopper. DEVO, and others. Young directs the film, which was pulled from theatres after its original limited release. Also in the film are Charlotte Stewart (ERASERHEAD). Dean Stockwell (also co-director), Neil's manager Elliot Roberts, and Russ Tamblyn (co-writer). LA Times rock critic Robert Hilburn makes a cameo, as well. Young began making the movie in May of 1978 during a break from touring. The film was initially conceived as a state-of-the-art look at the threat of nuclear destruction. How's the movie? We haven't seen it vet, but director Bernard Shakey (actually, Young) says "Either you get it or you don't."... You may have missed it, but back on July 21st. approximately 2.900 alleged bootleg CD's. en route from Luxembourg, were intercepted by Customs agents at JFK Airport in New York. This was the first seizure under the new federal anti-bootleg statute, executed by the Fraud Division of New York City's Customs Office and representatives of the Recording Industry Association of America. A controlled delivery under the auspices of Customs was then made to Zapp Records, Inc. in Greenwich Village. At that location, an additional 5,500 allegedly unauthorized CD's were confiscated. The comaritive retail value of the cache was in excess of \$100,000. Artists' music that was found within the jewel cases included The Doors, Bruce Springsteen, Madonna, Led Zeppelin, REM, Nine Inch Nails and others. The anti-bootleg statute was created and signed by President Clinton as part of the General Agreement on Tariffs and Trade (GATT) in December of last year.

Up until then, only state statutes had been available to law enforcement and the RIAA's anti-piracy unit to protect artists' recording rights against bootleggers. Maximum penalties for violating the new law are imprisonment up to 10 years, and/or a fine of \$250,000... LIVE 105's second local band CD, Noisy Neighbors, outsold Bruce Springsteen's Greatest Hits. Pearl Jam's Vitology and Madonna's Bedtime Stories in the Bay Area during the week ending 7/23/95... Thanks to Amy and the **Futurist** gang for the hospitality surrounding the Warrior Soul show at Birch Hill over the weekend. "The Drug" is the track, and it is catchy as hell. It's good rockin' for nights on Alternative. and it might grow into a large one for you if you give it a chance... EBN and TVT Records are having a worldwide virtual press conference on Tuesday August 15th at The Kitchen in New York City. EBN's music is basically all generated from video footage. It's like nothing else out there. The record will be released on enhanced CD (which is also interactive), and an interactive press kit will be available for those concerned. Attend it remotely via http//www.tvtrecords.com... Birdbrain rocked Boston the other night, and their new CD is great. Go for "Confession" on August 15th... The Surfing Brides' "Everything's Fine" is catching on. Finally, some are hearing the hit we've been screaming about for months WDRE, KITS, KXRX and others. Re-examine this gem during a music meeting near you... Guess you know Catch The Verve on 120 Minutes this weekend. They'll

now. WNEW and KPOI add it this week, joining by now, but Nine Inch Nails will be opening for David Bowie this fall, with the first date probably being September 14th in Hartford, CT, according to buzz... be doing 3 songs live... And there will be a blitz date for the new Lenny Kravitz single, with no pre-announce-

ment. So keep your eyes open ... Pravda Records has made a compilation to celebrate their 10th anniversary. It features music from the wacky New Duncan Imperials, Wake Ooloo, Susan Voelz, The Willie Wisely Trio and others, and will be available on September 5th... This new record from Wayne Kramer called The Hard Stuff is rockin'. The guitar is excellent. When Epitaph comes for the first single "Crack in the Universe" in September, I don't want to hear anything about "He's too old" or any of that shit. Catch him on the road... Congratulations to The Javhawks for dominating the 16th annual "Minnies," The Minneapolis Music Awards. The band locked down Artist of the Year. Album of the Year for Tomorrow The Green Grass. Song of the Year for "Blue," and Best Male Songwriting award (Mark Olson and Gary Louris) ... WMRQ/Hartford previewed a new show called Flashback Cafe' over the weekend, and it was successful to the point that they will now continue with the feature on a weekly basis, Sundays from 9 a.m. until noon. The show features music from some of the founding mothers and fathers of the format, and highlights some little known but influential artists in the process... MOVES - WQBK/Albany PD Ron Bowen is out, and Dan Bender is named the new PD of the now-Jacobs-consulted Rock Alternative station ... KPOI/Honolulu has moved. Their new address is 1160 N. King St., Suite 100, Honolulu, HI 96817. Phone number is 808-847-7100, and fax is 808-841-3343... WREV/KREV's Arbitron numbers reflect a helluva book - .7-2.1 12+, and 1.4-5.0 18-34 adults among other victorious findings. The 12+ number is a correction from those listed in last week's Arbitron section ... MediaAmerica Inc has announced that Ira Berger has joined the firm as Managing Director ...

Rod Stewart's current European tour is being done without stage monitors. Instead, Stewart and his band have been fitted with special \$3,000 earpieces that allow them to hear individual mixes. Stewart's is the first major tour to use the new system, which allows each musician to set an individual volume level instead of worrying about standing too close to a loud stage monitor. The system also prevents feedback and allows the audience to hear a mix unaffected by speakers on the stage. "As far as I'm concerned it's the future standard of live monitoring," says Stewart's sound mixer Mick McNeil. The only problem with the system is that different countries assign different frequencies for wireless microphone systems, so Stewart's tour has to spend tens of thousands of dollars on equipment depending on where it goes. "It's an absolute nightmare," says Martin Noar, who invented the system. "Contrary to popular myth, pop groups would like to stay within the law. The uncertainty of the present system is driving touring bands into breaking the law....Rod Stewart is using at least 14 different systems on stage at the same time. They all need changing from city to city."

Hootie & The Blowfish will join Neil Young, Willie Nelson and John

Mellenc amp at the eighth Farm Aid concert taking place in Louisville, Kentucky on October 1. Previous Farm Aid shows have raised over \$12 million for family farmers. "We're still losing 500 small family farmers a week, and they don't make the headlines anymore," Nelson says. "It's time that we move them back to the front pages." Nelson is inviting fewer acts for this year's event. Each of the announced acts will invite another band to appear on the bill. Tickets will sell for \$25 each.

Darren "Dizzy" Reed of **Guns N' Roses** has been convicted of drunken driving following his arrest on a freeway in Thousand Oaks, California in February. Reed has been placed on three years probation and fined \$1,515. He'll also have to take alcohol awareness classes and perform 40 hours of community service. State patrol officers said Reed had a blood-alcohol level three times the legal limit. At Reed's trial, drummer **Sean Riggs** claimed he was driving Reed's Chevrolet Blazer, but police said they saw Reed get out of the driver's seat.

Jimi Hendrix' father has regained the rights to the guitarist's music and legacy. Under terms of an agreement negotiated in federal district court in Seattle, Al Hendrix will pay an undisclosed amount to the corporations that have controlled Hendrix' works for the last two decades. The Hendrix legacy is estimated to have a value of \$50 million to \$90 million. Al Hendrix was the sole heir when Hendrix died in 1970 at age 27. Hendrix sued his legal counsel in 1993 claiming his ownership rights had been mismanaged, cheating him out of millions of dollars. Hendrix' publishing catalogue had been sold for a one-time fee of \$50,000, and hundreds of reels of unmastered tapes were also sold for \$50,000. "I hadn't heard anything about it," Hendrix says. "I was always under the impression that I was the sole owner of the legacy." "My dad never felt that he had ever sold the rights. He had always said to anyone that he was the sole owner of the Hendrix rights," says Jimi Hendrix' sister, Janie Wright-Hendrix. "Although my dad received \$50,000 a year, my dad thought a portion of the money from royalties was being put into a trust account for the family." The agreement takes away producer Alan Douglas' ownership rights to any releases he's worked on since Hendrix' death, though he will finish work on a soundtrack album and documentary called "A Room Full Of Mirrors." "We are going to put out what we feel what the fans will be much pleased with, unlike some of the things that have come out," says Janie Wright-Hendrix. "If you look at the track record, the first five albums are the ones people continue to buy." The settlement also clears the way for a pending documentary about the late guitarist called "Room Full Of Blues" and a concert film called "On The Road". Hendrix' family will have the right to approve both films before they are made public.

A High Court judge in Britain has ruled that the rights to **UB40**'s "Don't Break My Heart," which went to number three in Britain in 1985, belong to a secretary in Birmingham, England. Deborah Banks wrote the song for a friend, singer Javid Khan, who then sold the song to UB40 for \$16,000. The judge ruled Khan had no right to sell the song and the group had no right to record it. Banks, a secretary, will receive \$160,000 in unpaid royalties and recognition of her writing talent.

Blood, Sweat & Tears lead singer **David Clayton-Thomas** has apologized for a comment he made during a concert in West Bloomfield, Michigan. Talking about the heat wave, Clayton-Thomas said it was "as hot as the last train car going to Auschwitz." He later said the remark shouldn't be taken as anti-Semitic. "Two-thirds of the band are Jewish," he says. "In the heat of the moment, I made a stupid remark." **David Bowie** will begin his first solo concert tour since 1990 on September 14 in Hartford, Connecticut. The six-week "Outside Tour," named after Bowie's upcoming <u>Outside</u> LP, will also feature **Nine Inch Nails.** Dates will mostly include outdoor amphitheatres and ticket prices are set at \$28.50. Bowie's band will feature guitarists **Carlos Alomar** and **Reeves Gabrels**, pianist **Mike Garson** and former **Gang Of Four** bass player **Gail Ann Dorsey**. Bowie's last tour was after the release of <u>Sound And</u> <u>Vision</u>.

Courtney Love walked off the stage halfway through **Hole**'s set at the Lollapalooza show in Pittsburgh after someone threw shotgun shell casings onto the stage. An announcer told the crowd: "One singular individual with a very sick mind threw something so offensive onto the stage that it was no longer possible for the band to continue. This was not a direct result of the behavior of the audience but the behavior of one very, very sick individual. Please respect this decision. Hole are very sorry." **Sonic Youth** then came on stage to finish the show at the Star Lake Amphitheatre.

A yellow and brown poster advertising a **Jimi Hendrix** concert at an R&B club in Newbury, England, on February 10, 1967, sold for \$3,500 at a London auction. The poster sold for seven times the price that auctioneers at Bonham's had predicted. Another poster for a west London club date sold for almost the same amount. A flyer for a **Rolling Stones** show in 1963 sold for \$1,700 while a **Yardbirds** poster fetched \$1,100. The items had belonged to the club's manager who printed his own posters and t-shirts in the 1960s.

It was an embarassing moment for **Sammy Hagar** when **Van Halen** played a concert near Chicago. While singing, Hagar stopped and said "For the first time in my life, I forgot the lyrics," then leaped into the song's chorus.

Green Day's "Basket Case" video has been nominated in nine categories in the 1995 MTV Video Music Awards. **Weezer**'s "Buddy Holly" is up for awards in five categories. **Michael Jackson**'s "Scream" received the most nominations with 11, while **TLC**'s "Waterfalls" was nominated in 10 categories for awards to be given out in New York on September 7. Green Day and Weezer are nominated for video of the year, while **Chris Isaak, Elton John, Lucas** and **Tom Petty** are nominated for male video, and **Des'ree, PJ Harvey, Annie Lennox** and **Madonna** are nominated for female video of the year. Nominees for hard rock video include those by the Stone Temple Pilots and Green Day, the **Meat Puppets**' "We Don't Exist" and **White Zombie**'s "More Human Than Human". Green Day, Weezer and the Stone Temple Pilots are also nominated in the alternative video category along with the **Cranberries**' "Zombie" and **Hole**'s "Doll Parts". Hootie & The Blowfish, **Portishead, Filter**, Des'ree and **Jeff Buckley** are nominated for best new artist in a video.

Steven Tyler of **Aerosmith** played drums with **Ringo Starr's All-Starr Band** for a couple of songs when the former Beatle played Boston.

Jon Bon Jovi says that even though he's a rock star, he still changes his two-yearold daughter's diapers. "I drive myself around and go to the supermarket and have a beer with my friends...," he says. "There's a great misconception that if you're in a rock band that you have 10 bodyguards walking around all the time and people blow your nose for you."

Z. the group that features **Dweezil** and **Ahmet Zappa**, is releasing a second album, called <u>Music For Pets</u>. "It came about because we have a lot of pets, and we said, 'Hey, man! They must be pretty bored. Let's make a record for them!" Dweezil says. "Then we pretended to do some very scientific research putting it together — and it worked. The pets have been listening to it, and, I tell you, they are in a really good mood." Dweezil says "pets are the consumers of the future."

REM have rescheduled the concert in Prague, Czechoslovakia, that was canceled because of **Mike Mills**' abdominal surgery. The July 11 concert is now scheduled for August 11. The band had to cancel the Prague concert the day it was to have taken place.

John Lennon's dope box will be sold at a London auction next month. Lennon's first wife Cynthia plans to sell the leather-covered box where Lennon kept his marijuana. It's expected to go for \$640 at the auction at Christie's. Also being sold are a folding mini-organ and a kimono presented to each member of the **Beatles** by Japan Airlines while the group was in Japan in 1966.

A water color painting of the head of a Florida panther by **Ron Wood** of the **Rolling Stones** has sold for \$1,800 at a London auction to raise money for the Tusk Charity to conserve the Rhino. Wood is a former art school student who began to start painting animals after going on a safari in Kenya in 1991.

Dee Dee Bridgewater, Al Jarreau and **Randy Crawford** will perform at a concert at the Vatican August 5 marking the 50th anniversary of the atomic bombs dropped on Hiroshima and Nagasaki. "The concert, to be attended by national and international figures...(will) highlight the message of peace that, 50 years later, comes from Hiroshima," a statement says. A message from Pope John Paul will be read at the concert, which takes place in the Paul VI auditorium where the Pope holds most of his weekly audiences.

Two neighbors of **George Harrison** have filed a lawsuit against him claiming defamation of character. Steven Gold and Scott Whitney are seeking damages and interest because of remarks Harrison made in July 1993 relating to a dispute over people cutting through his property to get to the Nahiku beach on the island of Maui. A judge in the case told the parties to reach a compromise on their own.

A t-shirt with a self-portrait of **Sting** has been put on sale by the **Elton John** AIDS Foundation. The drawing is the latest in a series of t-shirts put up for sale, including works by **John Lennon** and **Queen**. The new t-shirt was launched in London with Sting and Elton John performing the **Righteous Brothers**' "You've Lost That Loving Feeling." The foundation has raised over \$2.39 million in Britain since February 1993 and over \$7 million in the U.S. The t-shirt, signed "Sting by Sting", is being sold for \$24 at Hard Rock Cafes around the world.

Bruce Springsteen made a surprise appearance at a club date by the Pittsburgh band **Joe Gruschecky & The Houserockers** in Sea Bright, New Jersey, singing "Darkness At The Edge Of Town", "Murder Incorporated", and "Lucky Town" before 3,000 fans. Guitarist **Little Steven** and drummer **Max Weinberg** were part of the line-up. Springsteen is producing an album by the Houserockers called "American Babylon" coming out this fall.

Over 78,000 tickets were sold for the 1995 Montreux festival in Switzerland, 17 percent more than last year's event. The rock and jazz fest this year featured **Marianne Faithfull**, **B.B. King**, the **Specials, James Brown, George Benson** and **Ice-T**.

Bono will perform with Italian opera singer Luciano Pavarotti at a concert in Pavarotti's hometown of Modena, Italy, September 12, which will benefit War Child, a Londonbased charity raising money for Bosnian children. **Duran Duran** will also play at the show, to be broadcast live on Italian state television and subsequently released as audio and video recordings. Pavarotti and Bono are expected to sing "Miss Sarajevo" together. It's a song Bono wrote about the war in Bosnia.

American rap duo the **Outhere Brothers**, who have had the top album in Britain for a month with "One Polish, Two Biscuit and A Fish Sandwich", is now facing criminal charges of violating obscenity law. They were asked by their record label to re-record three tracks deemed obscene and offensive, but legal experts have been listening to the album with the Crown Prosecution Service to decide if the record's lyrics violate the Obscene Publications Act. A decision is expected soon.

Bjork has had to cancel several sold-out concerts in California because of throat problems. She hopes to reschedule them in the coming weeks. The last time Bjork toured America, there was an earthquake near Los Angeles. Then, when she went to Brisbane, Australia, and there was flooding. "It was the disaster tour. I kept wondering what was going to happen next," she says.

British singer and actor **Adam Faith** has separated from his wife Jackie after 28 years of marriage.

Mick Jagger's wife, Jerry Hall, will play the late Betty Grable in a BBC radio musical biography of the Hollywood actress which will be broadcast in September. **Annie Lennox** says she has no immediate plans to record a new album to follow up her <u>Medusa</u> covers LP, and she doesn't plan to go on tour. "That's why I try to do television appearances, so a lot of people can see me, so they can see that I do still sing," she says. "They can see me two-dimensionally as opposed to three-dimensionally."

A new set of stamps has been issued in Jamaica honoring **Bob Marley**. The stamps were issued in a ceremony at Jamaica House attended by one of Marley's daughters. "I am sure it will be in much demand by those involved in the field of stamp collection as well as the many fans and admirers of the late musician, worldwide," said Prime Minister P.J. Patterson.

Rage Against The Machine have announced planes for a benefit concert in Washington, D.C., on August 13 to raise money for supporters of convicted murderer Mumia Abu-Jamal, who is scheduled to be executed in Pennsylvania on August 17.

John ranked fourth with earnings of \$28.5 million and Clapton placed seventh with earnings that almost doubled to \$21.1 million. **Mark Knopfler** of **Dire Straits** saw a 68 percent drop in his earnings, as he made about \$88,000 a week. JOHN LENAC AND JULIE BAHRE KTOZ-FM, SPRINGFIELD, MO

What a weekend! It all began, Friday morning when The Fairesta started with thousands of people stopping by the Channel Z booth, signing up to win a trip for four to Disney World. Then, on Saturday morning at 9:00am, hundreds of people gathered in a convenient store parking lot to find out which one of our 105 gualifiers would have the right key to start up a Seadoo Personal Watercraft. And then, back to the fair! And then, off to Jordan Creek for Mary Jane Jones, one of our favorite rock bands from Augusta, Ga. Man, these guys fucking rock my socks, shoes and underwear! Thanks to WCHZ for setting us up with such a great Mid/Midwest/Couth/Southeast Exchange! Damn, Bass Pro is too cool! This past Wednesday, Happy from 550 and Mark Potter from Epic came down and that's where we went. Hey guys, I still haven't found my canoe, but thanks so much for coming down, it was a blast. We have to do a road trip in the camper! We also had a huge success with our Fox affiliate's host of The Fox Kids Club, Marko. Our morning show hosts Rick and Lola Rizer, along with a room full of kids helped him celebrate his birthday in the studio. Then, they all headed over to this place called The Discovery Zone, which is super cool for kids, for a day of fun. If you showed up with as can of food, you got \$2 off admission. It was so successful, they ended up taking cans all day and we picked up a few extra sponsors who were so impressed with the crowd, they figured they couldn't go wrong on our station. It's so hard being so good!

CATHY FAULKNER KISW/SEATTLE

Last Sunday, (7/30), the place to be was Moe, where Presidents of the United States of America did a video shoot for their current single "Lump". It was a fun sweaty time for all. This band is amazing live. Lots of fun, as is their CD. Selling like a son of a gun, keep an eye out for these Seattle hero's as they embark on a promotional tour, playing (hopefully) in a town near you. Please take the time to check them out, it's well worth it! Sweet Water is also doing very well for us. Their album Superfriends in stores now. The final local note is a big one. I don't know for sure whether the album will be titled Crooked Halo or Lucy... but... get ready for the new Candlebox. It's much more than I could have ever dreamed of from their second record. The guys have grown so much since their multi-platinum debut. If you trust my taste, know that you'll be pleased as punch to put in your playlist. The first single from Candlebox, "Simple Lessons"... Rocks!... coming soon!

TODD HALLER & RECKLESS ERIC CHANNEL Z/AUGUSTA

Hello! My name is Todd Haller and I'm a Music Director. Please help me because I didn't realize what I've gotten into. I hope to fill the shoes vacated by Julie, of course I know I won't look as good in them. Eric has dropped me into the ocean of music without a like preserver, so I'm looking for any wisdom you can enlighten me with. I'll continue to keep the same days for music calls that Julie established, except for the change in time. The new time will be between 10:30-12:30 on Tues. & Weds. The buzz around the Z.S.R.A. for the last couple of weeks has been the Lollapalooza show coming to the Lakewood Amphitheater in Atlanta, and we definitely took advantage of the buzz by rewarding our dedicated listeners. Thanks to Scott Davenport from Geffen Records who helped pack our listeners into a hot sweaty bus and supply them with tix to the experience of their lifetime. We all wait with baited breath to see Courtney stage dive!!! Over the weekend, we handed out stacks of CDs in our "CD Win It Weekend". Thanks to all the record companies and reps. who made it such a monstrous success. Our listeners were really chompin' at the bit. Just to let everybody know, the Red Wings aren't dead, they're just in the hibernation phase. At least that's what Andi Turco tells me! If so, I can't wait to see flying octopus in The Joe Louis Arena. (Guys please get your minds out of the gutters!!) Also, I want to thank Andi for the previews of Virgins two biggest artists. Lenny Kravitz and David Bowie. I'll be waiting by the mail box for both these CDs... Well I'm off to look for a place to live, because Kevin & Klein just booted me from their office. See ya!

MARTY BENDER WFBQ-FM/INDIANAPOLIS

So Michael Eisner calls me up a few months ago. He's feeling me out on the **Michael Jackson** thing. He backed off when the controversy hit a couple of years ago, but doesn't want to miss an opportunity if the <u>HIStory</u> thing starts to pop. I tell him to play it safe and take the **Jackson Five** angle... It's nostalgic, the songs are great, it's basically controversy free... And besides, the kids love it. He wants to fill the old "Captain EO" building with a ride and I suggest a fun, learning-type ride based around the song "ABC". Our phone connection starts to go bad and I start yelling "ABC, ABC, ABC... Go with ABC!" Then there is a long pause and the phone goes dead. Hey, what's the deal with that?

GUY DARK. WHDQ/CLAREMONT, NH

Fast-Forward to 1996: "Hi. This is Ted Koppell, tonight on Nightline, an exclusive in-depth interview with Pocahantas!"**The Deep Blue Something** tune sounds great on air, add it (like we did today), and I bet you'll get adult phones.

GREG ROBERTS KFMU/STEAMBOAT SPRINGS

By the time you read this I am basking under the hot sun, floating on a rubber raft, with a fruity drink in my hand (Kool Aid - What else!). Yes I am on an official vacation or a rescue mission as Toni puts it... to rescue my sanity. Please don't call for adds... there ain't none. Please don't call for rotations... there ain't none. Please don't call period. I will be back at the grindstone with fresh ears on 14th. Oh by the way... see you in Boulder. Yep! I'm going. Thanks Flying Fish.

ERIN CARMEN, WONE/AKRON

High on life and ready to rock!! What a great month this is going to be! **Corey Stevens** will be "Rockin on the River", and 97 lucky WONE listeners will be digging in the sand for some killer prizes at the WONE "Beach Dig"... Stay tuned for details! I'll be on vacation August 13-20. How am I treating myself?... to the best concert of the year... **Carlos Santana** and **Jeff Beck**. Oh yes!!!!!!!!!!!! Take a listen to **Wild-T And The Spirit**, very cool! **Edwin McCain** is also one of my favs! Until next time, have one for me!

J.D. DAVIS 97-ONE THE POINT

Here's the week... The "Pick-To-Click" for the week has to be **Heather Nova** - "Walk..." How someone who never had the luxury of electric power as a child could create such electricity is fascinating!!

CHRIS WOLTMAN

COLUMBIA RECORDS, 212-833-8505 The Presidents of the United States of America is the band ... "Lump" is the song. By now you have caught wind of the buzz that has been going on at Modern Rock radio where some of the big boys at the format are bangin' this record... This week WXTB, WKLQ, KICT, KRXQ, and WAAF officially came in; KISW is already at 18 spins - and now we are going for adds. These guys kick ass live and "Lump" is a track that will react immediately. I think this is gonna be huge! Dandelion continues its strong growth... KLOL, KZRR, and WIXV are a few that came in this week. MTV came in last week, Alternative radio is lookin' good, and Rock radio we have everyone from WRIF to WRCX to KLOS... The record sound great on the air and the guys are out on the road ... so the point is this - put the record on the air at night and you won't be disappointed. "Just Like Anyone" is the next track from Soul Asylum. We already have over 250 spins including 20 at WIYY, 30 at WAAF, and official reports this week from over a dozen including WNEW, WMFS, WAPL, and more. Also get ready for "Coming Back to Life" from Pink Floyd's Pulse CD. This has been one of my favorites since the beginning and will continue the roll with Floyd. The sales on Pulse also continue to roll with over 35,000 last week. Official dates on both Soul Asylum and Pink Floyd are August 15. That's it for now...

MICHELLE KRUPKIN

VANGUARD RECORDS, (310)-451-5727 Did ya see our USA Today write-up last Friday? WOW! Great review — Peter Case's "Torn Again" gets a Best Bet pick for the Weekend. "...one of the year's most satisfying albums. Detail-packed and literate, his stories linger." So true! His story at radio is doing more than lingering with WBOS and WXPN as recent converts to the Case (sorry, couldn't resist). So, now that you see this groundswell of activity, what are you waiting for? I'll be asking you the same question real time, so ya better be ready. In strange news, you may remember my picture in the trades a while back with a certain houseguest. Well, turns out he is soon to have talk show here in the #2 market. What does this mean the world is coming to? I mean photo-ops are one things, but does this mean that society's tapestry has a thread or two loose? You tell me,

VIRGIN MEGA-DEALS, 212-332-0421 I just listened to Wings Across America. Paul is cool. Yes. Paul McCartney and Paul Brown. I just got a CD of the Steve Miller Band's greatest hits. Watch Verve live on 120 Minutes Sunday Night 8/6. The Verve just completed a SOLD OUT tour across the USA. Fun for fans. The die-hards were loving the gigs. "On Your Own" is the focus track. We are gaining sales and momentum. Keep on Truckin' The new Whale track, "Pay For Me" is an uptempo. MODERN guitar cruncher, Please listen. They will tour with Tricky real soon! Maids Of Gravity are hitting the road this week. Lots of BDS spins at Rock & Modern Radio! "Only Dreaming" sounds great on the air. I heard it on Q104 in between Hum and Pearl Jam and it sounded crisp and fresh, just like a produce dept. Royal Trux are out on the road: rocking, writing, & developing hand-shaking skills. Please check out a gig! The Geraldine Fibbers are an amazing, powerful live act. Total Cosmic Twang Rock that really leaves a sonic impression. "Dragon Lady" is a fierce track that requires your ears and spins. Coming soon: Lenny Kravitz, David Bowie, Boy George, Girls Against Boys, BLUR & a new one from Smashing Pumpkins. Virgin is about to boil over! Be careful! Don't burn your ears.

PAVEMENT MUSIC, 708-916-1155 Let's talk about Milwaukee Metalfest and the most amazing live band, Internal Bleeding is that band. Listeners were so hyped to here their music, during some of the songs Frank was bodysurfed around while singing as well as moshing in the pit with the fans. Their debut disk comes out this October with touring to start in Sept. Malevolent Creation brutalized their fans with the most violent mosh pit ever. Expect the same from their shows as they tour the country, interested in checking them out? Crowbar heads out with Suffocation and Shank 456 for selected dates in Aug., then it's off the road to get started on the Down Project. I'm sure you all have heard all about it by now. Just remember this is not our release so we do not have any disks, singles or quest list so call EEG if you need anything!! The Crowbar contest is in full swing, I'm receiving about 20 cards a day. Many from different stations but here is the latest so far. In the lead is WRBC with WVUD running a close second, closing in is WELH, KVIK, and KDVS. That's the top 5 so far but so many others are so close that only a few more cards put them over the top. Just make sure your listeners fill them out and send them back. If you need more just call.

Meanwhile, I'm listening to the crushing new Benediction disk, The Dreams You Dread. You've got the title track on Death Is...III, which you should've added by now, if you haven't add it! Now! Or else, feel my horrible wrath, Ha! Ha! Ha! Oops, I mean, please add it. I'll also be servicing Sinister's new platter of punishment. Hate. Spin "Embodiment Of Chaos" from DIII, so your listeners can get a preview of this brutal disk. Keep an eye out for both Benediction and Sinsiter soon, along with Tribes Of Neurot (Neurosis' side project) for all you ambient freaks. Until these goodies are sent out however, push Death Is ... Plop, Plop, Fizz, Fizz, oh what a relief it is ... On the back of the Alka-Seltzer Cold package it says "may cause drowsiness" it should say "don't make any freakin' plans." I'm drooling my way through a bag of spearmint Halls coughdrops trying to figure out how to convince you to play Fleming & John. Their music and incredible live performance should be enough to convince anyone that this band belongs on their playlist. They've been described as "A less cutesy Letters To Cleo, a more polished Belly, F&J offer something more than many of the bands they're easily compared to and infinitely more talented than." Fleming & John's tour schedule is full up for the months of August and September, with dozens of shows throughout the Southeast. ThanX to WEBK, WBZC, WIVI, and WXZR for the new adds, and to WROX, WRLT, WRLG, WKDF, WZOW, WNCW, WAVT, WOXY, KFTH, and KDRE for the continued spins. Keep on spinning Circle of Dust. You know these guys are about to go big time. They're working on some new stuff and hanging out with important music people in their homestate of New York. Your hick half-brother Bubba called up your local radio station and requested Argyle Park because "They ain't got the 'Deliverance' soundtrack."

So, last week I honestly had my dialogue all typed up and ready to fax out. A funny little thing hit me on my way to the fax machine... **Belladonna**. Joey. Darrin, Joe, and Scott were here dragging my ass all over the place. I haven't been in so much fun and excitement in a while. In my missing dialogue, I yelled at all of you that do not chart singles. That's over. Thanks to all of you that have supported "Rob You Blind". You now have the interview disk I've been telling you about. Enjoy the interview and check out "Perfection" and "Mixed Emotions". The full **Belladonna** goes for adds August 14. I really need to find blue Jello, why is this so difficult?? the folks in Austin! And in Philadelphia, WXPN has been named "Development Radio Station of the Year" and the station with the best Development department among all of the Public stations in the US. Congratulations to everyone at 'XPN! How did we ever get into this weird business of depending on ratings to measure whether we're doing a good job or not? Triple-A stations are not exactly tearing up the charts. In Minneapolis, KTCZ went 4.0 to 3.1 and dropped out of the top five 25-54 stations. The same is true in Seattle, where KMTT dropped 3.0 to 2.7, and is eighth 25-54. In Denver, KBCO went up! The 3.8 to 4.1 rise was also good enough for fifth place 25-54 (fied with KXPK at 5.9). Judy McNutt has landed in Nashville with husband Jeff. He'll be actively working his database marketing company, while Judy has joined Bone Music Magazine, where she will be Director of Magazine Development. She'll oversee further development of Bone. a part of Tuned-In Broadcasting, owners of WRLT and WRLG. Bone is a fine magazine, and with Judy's expertise in marketing is going to be a big boom for them.

Yo, I'm burned out. Nothing a good night's sleep can't fix. Belladonna on Wednesday and Thursday. Dream Theater on Friday, and Morbid Angel on Saturday. All amazing shows if I might add. Well check it out. Next week we will be on the Internet. I will have our number listed. if I did not get your number call us with it. So Black Sabbath's full length should be on your desk soon. The problem with not enough CD's were sent, a stock clerk fucked up. Check out "A Day in the Life" by Bad Biscuit. Kyuss is back on the road for some more dates. You just love calling us for tickets. Motorhead fuckin' rules. Morbid Angel smoked the Roxy room in N.Y. Live Orange 9MM and Sick Of It All with b sides is in your face. So is the tour, and yes we have tickets. Belladonna's interview disk is on your desk. The full length should be by the end of the week. Earth Crisis and Integrity both on the road. SNFU also on the road. Universal Stomp is also on your desk. The full length kicks ass. For Love Not Lisa's full length should be arriving soon. Svengali goes for adds this week. Check them out, they have a unique sound. Sugar Ray, yea love this band. Till next week, Cva.
