## Traveling Orchestra Tax and Traveling Card

THE Convention has decided upon imposing a tax upon traveling bands and orchestras. The reason therefor is that such organizations, next to theatre musicians, preempt the largest part of the activities of the Federation. This involves tremendous costs, and therefore to guard against the depletion of the general fund of the Federation and possible recurring deficits, it is now imperative that the members of such orchestras pay more for the upkeep of the organization than they formerly did.

It is through the direct efforts of the Federation as a whole that the interests of members of traveling bands and orchestras are primarily protected. The vast majority of employers when organizing such orchestras select such as are composed of members of the Federation by reason of the activities and the position of the Federation. The members of traveling bands and orchestras need continual protection against unscrupulous agents and employers. The collection of moneys due them for services rendered is a continuous activity of the Federation.

Without the activities of the Federation employers would vie with one another to place bands in uncontrolled competition with each other and members desiring engagements with such bands would do the same among themselves. Under general non-union conditions, and such would speedily develop without a Federation, it has always been and always will be so. Therefore, were it not for the national organization the standard of life of the traveling orchestra musicians would immediately become low and nothing would hinder the re-appearance of such impecunious conditions among them as was the lot of many, many musicians before the advent of the American Federation of Musicians.

The per capita tax paid by members of the Federation is less than 10 cents per month, a ridiculously small contribution of members of traveling orchestras to the finances of the Federation in return for all the activities the Federation continually exercises in their behalf.

Under the new rule strike benefits will be paid traveling orchestras when called on strike. The law hereinafter quoted will take effect on September 5th, 1932. Members are cautioned to fully conform thereto and pay for their traveling card and tax promptly, as otherwise the Federation will have no other alternative except to take notice that members failing to do so have terminated their membership, that is have become non-union.

As to the present conditions, the American Federation of Musicians bends all its efforts in the direction to maintain the basic scale of members. No one can gainsay that were it not for the Federation and its local unions the present economic conditions would have resulted in such fearful destruction of wages and working

conditions as to again create for the musicians the conditions under which they were forced to work before they became organized. The Federation came such of its members in good stead who were or are fortunate enough to secure employment as it guarded them against wholesale reduction in wages in spite of the existing mass unemployment. The organization will also prove of inestimable value and a veritable boon to them after the present economic depression has abated as then the Federation

All locals must report to the International Treasurer every traveling orchestra and names of members playing in its jurisdiction—penalty of Twenty-five Dollars in each case.

All cards are issued only by the International Treasurer to whom money must be sent direct—lowest amount \$2.00 for one month, highest amount \$12.00 for six months.

No deductions are to be made by members under Section H. This will be taken care of by the International Treasurer.

tour without cards, as well as \$2.00 for the current month. If such members are to fill a permanent engagement in the jurisdiction of the Local, then the Local shall in addition collect from each one of them, beginning with the second week, 2% of the weekly price of their engagement until further advised by the International Treasurer.

Furthermore, if the Local becomes aware that such members played a permanent engagement in the jurisdiction of another Local without paying the 2%, then the Local shall immediately advise the International Treasurer thereof.

A member who plays traveling engagements and fails to secure a traveling card and fails to pay his assessments shall be considered as having resigned from the Federation and the Local to which he belongs is obliged to strike his name from its membership list. If he is a conditional member, the Federation shall revoke his conditional card. To become reinstated as a member of the Federation, such resigned member must pay all arrearages due for traveling card or assessments or both and in addition thereto pay a National Initiation Fee of \$50.00, or in lieu thereof must meet such conditions as the International Executive Board at its option may determine.

D. Every Local will be obliged to report to the International Treasurer every traveling orchestra playing in its jurisdiction, also whether the members thereof carry traveling cards and if their assessments are paid up to date. A Local is responsible for its officers to investigate traveling orchestras and in the event it fails to have the stipulations of this law carried out, it shall be fined Twenty-five Dollars in each individual case.

E. In the event that members holding traveling cards are called on strike, either by the President or the Executive Board of the American Federation of Musicians, they shall be paid a weekly strike benefit of \$50.00 for a period of five weeks. However, if the contract for the engagement which they played is less than five weeks, then they shall be entitled to strike benefits for the unexpired term of their contract only.

F. In all cases in which members of traveling orchestras authorize the International Treasurer to deduct the amount of assessment due from the 30% of the price of the engagement on deposit with him, the Treasurer shall have authority at his own option to do so or insist that the assessment be sent him when due.

G. All amounts collected under this law must be immediately forwarded by the Local to the International Treasurer.

H. Members playing permanent engagements in the jurisdiction of Locals on which they have paid 2% shall be entitled to a refund on their paid-up traveling card in the sum of 50c per week for the time covered by the permanent engagement.

I. All laws of the Federation in contradiction to laws governing traveling cards cannot be applied to same.

**TRAVELING CARD**

No. \_\_\_\_\_ Expires \_\_\_\_\_ (Void After Date)

This Certifies That \_\_\_\_\_ of Local No. \_\_\_\_\_ or Conditional Card No. \_\_\_\_\_ is entitled to the privilege of playing such engagements as are subject to the 30% additional charge, up to and including the date of expiration of this card as stamped hereon.

All members playing traveling engagements must secure traveling cards, which shall be charged for at the rate of \$2.00 per month each. These cards shall be issued by the International Treasurer and may be for monthly, quarterly or semi-annual periods, as he may determine.

On engagements of more than one week at the same place, member must pay 2% of basic salary (plus the 30%) from and including the second week on.

and its locals must be ready to again making continued and insistent efforts to rehabilitate wage and working conditions.

### GENERAL INSTRUCTIONS

The important feature of this new law is that every member traveling and playing such engagements as are listed under the caption of Article XIII MUST be in possession of a "Traveling Card" (facsimile on this page). Do not confuse this with the Transfer Card. They are separate and distinct cards.

The cost of each card is \$2.00 for one month. Members may buy card for one or for six months or any number of months up to six. All traveling members before playing must secure such card from the International Treasurer, Harry E. Brenton, Box B, Astor Station, Boston, Mass. Cards cannot be secured locally. When applying for a card members must give name, local number, or Conditional Card number.

Particular attention of all locals is called to Section D, as same will be rigidly enforced, also to the instructions contained in Section C.

All members traveling under the 30% Law must have a Traveling Card or stand expelled.

### ARTICLE XIII.

#### Traveling Orchestras and Members. Traveling Cards.

ORCHESTRAS PLAYING TRAVELING ENGAGEMENTS IN HOTELS, CAFES, INNS, RESTAURANTS AND DANCE HALLS OF ANY KIND ARE SUBJECT TO THE FOLLOWING RULES:

A. Members of traveling orchestras must secure traveling cards from the International Treasurer which shall be charged for at the rate of \$2.00 per month each. The cards shall expire on dates stipulated by the International Treasurer, and may be for monthly, quarterly or semi-annual periods.

B. A traveling card entitles a member to play in any jurisdiction such engagements as are designated as traveling engagements under the laws of the American Federation of Musicians and for which in addition to the local price 30% must be charged. If remaining on an engagement in the jurisdiction of a Local for a longer period than one week he must, from the beginning of the second week, pay 2% of his wage as a tax to the American Federation of Musicians.

C. If members of a traveling orchestra appear in the jurisdiction of a Local without traveling cards, the Local shall immediately collect from each one of them \$2.00 for each month that they were on

**NOTICE TO LOCALS**

At a meeting of a sub-committee of the International Executive Board in New York City, N. Y., July 9th, 1932, consideration was given to Resolution No. 20 as introduced at the 37th Annual Convention at Los Angeles, Calif., and which was referred to the International Executive Board and by the latter to the sub-committee with full power to act thereon.

The resolution was adopted in the following amended form:

Local unions may, at their own option, assess a tax upon their members on all engagements played by them.

In no case shall the tax exceed 4%.

All members filling engagements in the jurisdiction of a Local other than that to which they belong shall be subject to the payment of the tax provided such Local also enforces same upon its own members.

In such case the home Local of the members cannot impose a tax upon them. However, if the Local in whose jurisdiction the engagement is played does not tax its members, but the home Local to which the members playing the engagement belong does so, then the latter may collect the tax from its members even though the engagement is not played in its own jurisdiction.

In all cases where a Local maintains an engagement tax same also applies to its members if they play in neutral territory, except they play traveling engagements.

On engagements (traveling) of a week or longer played outside of the jurisdiction of a Local, the Local to which the members belong has no claim for tax on the engagement, as in such cases the tax law of the jurisdiction of the Local in which the engagement is played and the tax law of the American Federation of Musicians, applying to the engagement, governs same.

# OVER FEDERATION FIELD

By CHAUNCEY A. WEAVER.

Announcement of the election of President James C. Petrillo, of Local No. 10, to membership on the national executive board of the American Federation of Musicians, by the Los Angeles Convention, evidently touched a very responsive chord among Chicago musicians, and their enthusiasm found expression in a cordial welcome home. We glean the following significant story from the *Chicago Tribune*:

James C. Petrillo, president of the Chicago Federation of Musicians, returned yesterday from the convention of the national organization in Los Angeles, and announced that the 1933 convention will be held in Chicago next June. He was greeted by a one hundred and twenty-five piece band and escorted from the Northwestern Station. Petrillo was elected to the national executive board at the convention, and with four other members of the board, controls the affairs of 158,000 musicians in the United States and Canada.

If Los Angeles or any other portion of California ever runs out of boosting specialists we suggest they send for Brother Alfred Rackett of the *Chicago Intermezzo*, who devoted two full pages in his issue immediately following the convention with an adjectival fanfare which for rhetorical luridry and skyrocket hyperbole surpasses anything we have ever seen from the fountain pens of any real estate agents of the Golden State. With Bagley to write the ancient history and Rackett to paint its twentieth century glories, what a pair of California boosters those two fellows would make! Bear in mind, however, we have no dissent to offer to the sentiments which they so eloquently express.

It is a wonderful and memorable experience to gaze upon a California orange orchard for a season; but there is another thrill possible, namely, that of contemplating a growing Iowa corn crop, estimated by governmental authorities as of July 1, in the year of our Lord 1932, at 469,280,000—a gain over 1931 of 79,340,000 bushels. This means 40 bushels of corn to the acre. Think what a supply of corn bread, corn flake, and corn w—y that amount of corn would make!

One lady delegate graced the Los Angeles personnel—Winifred C. Ziegler. Although residing for the time being in Los Angeles, she bore credentials from her original home, Local No. 334, Waterloo, Iowa. She was a faithful attendant upon all sessions, took a keen interest in all that was going on, and then gave a most readable story of her impressions in the last issue of the *Los Angeles Overture*. Mrs. Ziegler is a pipe organist and pianist and conducts a studio at 3018 Field Avenue.

Prizes are being offered for campaign slogans by the major political parties. Well, here are a couple:

Four years more of Hoover—  
Won't we be in clover!

Or,

Frank Delano Roosevelt,  
Will hit the Rebs above the belt!

However, we do not care to compete in any line when the mercury is registering nearer one hundred than it is to ninety.

The Twentieth Century of Progress and the Thirty-eighth Annual Convention of the American Federation of Musicians will make two stellar events booked for Chicago next year.

Occasionally a silver lining appears on the far-extended depression cloud. For example, it is pleasing to note that the wonderful Chicago Symphony Orchestra has survived the conditions which threatened its disbanding and for another year at least will continue to function as one of the notable high-grade musical organizations of the entire world. Mr. Frederick Stock, whose capabilities have been looked upon with envious eyes by many other cities, will continue with the artistic galaxy he has conducted for so many years.

One of the pleasant features of the recent visit to San Francisco, while heading toward Los Angeles, was the opportunity for a visit with M. Bertrand Howard, formerly of Pittsburgh, delegate to many conventions, at one time a vice-president of the American Federation of Musicians, long time traveler and man-

ager of Sousa's Band, and now happily located at 935 Market Street, in the Golden Gate City, where he conducts a music store, and is experiencing a growing demand for his new "Howard Tuner," a new patent contrivance which makes possible a quick transition from high to low pitch and vice versa for clarinets and saxophones. His old time friends will wish him the most abundant success.

Our old friend W. A. Barrington-Sargent, of Boston, who missed the first national convention at Los Angeles since the present generation can remember, is not in poor health, we are glad to report. His composition muse is still keyed to concert pitch and a new march from his pen, entitled "In and Out," is making a big hit with the many fine bands of New England. May his prolific pen continue to enrich the annals of American musical composition.

It is claimed there are 222,225 speak-easies in the United States. A "speak-easy" is a place from which you are liable to emerge with a very thick tongue.

Another new convention visitor at Los Angeles was Mrs. "Bill" Douglas, of Local No. 78, Seattle, who accompanied the regular Douglas-Pellatier-Lavienne contingent. Mrs. Douglas, who ably assists her husband with his secretarial work in the home office, prepared an interesting resume of convention proceedings for publication in *Musicians*—copy of which we thankfully acknowledge.

An oboe is an ill-wind that nobody blows good.—Wisconsin Octopus.  
Perhaps Governor LaFollette will organize a commission to investigate the split-reed situation up there.

The Cleveland *Musician* announces the passing away of Cora A., wife of Frank J. Crandall, secretary of Local No. 4, after an illness of about two years. Mrs. Crandall was 48 years of age and had belonged to the local twenty-one years. The *Musician* speaks of her as: "An admirable little woman, good natured, always jolly and who seemed to radiate happiness wherever she went." Mrs. Crandall was a cornetist and had played in Cleveland orchestras many years.

Politics makes strange bed-fellows, which may have something to do with the prolonged nightmare which has been disturbing the nation for so long a time.

Salaries of movie stars are being reduced to \$6,000 a week. Will some one kindly send us the photograph of a movie star who is actually worth that amount of money for that period of time?

Who should breeze into my office on a hot July day but "Bill" Hooper, president of Local No. 192 and for many years a national convention delegate from the Elkhart jurisdiction—just on his way home from Los Angeles. With his oldest boy he had made the trip out and back by auto. He had thoroughly explored California and was now heading for the sand dunes of northern Indiana. With his Buick laden with dust accumulations from the Great American Desert, and a growth of beard which looked like a segment of the aurora borealis, "Bill" was whistling "Home, Sweet Home," with variations, as he breezed out of Des Moines at four o'clock in the afternoon. From the rate of speed he was traveling we have an idea he reached Elkhart in time for supper.

The San Francisco *News* (Local No. 6) announces the death of Anton Logar, a member of the American Federation of Musicians from its beginning and before that a member of the old National League. He came to San Francisco with the original Hungarian orchestra in 1887. He served a long period as theatre musician and also as member of the Golden Gate Park Band.

Those partial to bed-time stories should find something of interest in the Republican and Democratic national platforms.

The most popular act of the entire congressional session was the final adjournment.

How the voters feel on the 8th day of November is what will count.

## Yes, You Pay Your Taxes

**I**N older days men could let their taxes go until the last minute. Some let them go longer than that, and some still do so, regarding the old-time kind of taxes.

But now we have new taxes and they have to be paid on the spot.

For example, the tax on electricity must be paid. It is a part of the light bill and the company shuts off the current if the bill is not paid. Thus the company becomes a most effective tax collector.

If you buy gasoline you pay the taxes or you get no gas. The company is a tax collector.

So we have corporations in the tax-collection business. But the fact that will register most with the average man is that taxes have become a burden nigh unbearable—and the average man sees but little to show for carrying the burden.

## Why Homes Aren't Owned

**O**FFICIAL figures show that a trifle more than half of the price of the average small home today goes into financing charges, interest and other charges that have nothing to do with the cost of materials or the wages of labor.

As long as such a condition prevails there will be millions of Americans who want homes, but can never have them.

There are efforts being made to bring the home-owning status nearer to realization, but it is greatly to be feared that the force able to strike down that enormous load of interest and allied charges has not yet entered the arena.

The greed of money thus far defeats the desire to own a home.

## Has the Tide Turned?

**T**HERE are predictions that better times are ahead. There are statements that the tide has turned. About these reports the best thing about them is that they do not come from political sources.

The worst thing about them is that the average man has thus far no evidence of any turning or of any impending improvement.

Editor and Publisher, organ of newspaperdom, is among those to remark that the tide has turned.

The evidence seems inadequate.

We are told that there has been a note of success in sales in a group of large cities of late. But May marked a terrific plunge downward, which somewhat takes the rosy tint from reported current improvement.

Ford's stepped-up production is pointed out. That can scarcely be accepted as a criterion.

The oil industry is reported out of the red. Again, that is not an indication. California oil, to be sure, has gone back to a dollar a barrel, because of self-imposed restriction of output. That means nothing in any discussion of general economic recovery.

The daily metal trade index is reported stationary since latter April. That may mean only that having hit bottom we are scraping along thereon, which many have suspected would happen.

Every American hopes optimistic forecasts can be accepted, but most Americans will not jump at any more "just around the corner" predictions. They will wait for returning dollars "until they can see the whites of their eyes."

Mark this down: There can be no genuine trend toward recovery in any important sense until wages stop going down and begin to go up.

There are no indications thus far that employment

is increasing. Until employment begins to increase there will be no returning prosperity, because the prosperity that concerns America now is the prosperity of the masses—the wage-earners.

There has been plenty of prosperity for a few. As always, they have profited by the adversity of the masses.

Take predictions with much salt. Wait for rising pay rolls and increasing employment. We shall KNOW then that improvement has come among us.

## Texas Repudiates Prohibition

**B**Y a three to one vote Texas has just declared for re-submission of the Eighteenth Amendment.

Texas has been rated as dry, though those who knew Texas knew that there was plenty of more or less concealed moisture.

The dries thought Texas was anchored to prohibition.

Senator Sheppard is a Texan. He was co-author of the dry amendment.

Some fifteen of its eighteen Congressmen have been rated dry.

But Texas votes and Texas votes wet.

The fanatical dries can no longer point to the great Lone Star State as among the adherents of their cause. Texas has shown what the people think. Unquestionably it has shown how they may be expected to vote when they have a chance to vote.

Texas has done a service to American freedom and likewise to the cause of decency.

Long before most people knew that a depression was imminent, the forces inevitably making for depression were at work. Most people will not recognize improvement until the forces making for it have been at work some length of time. There are indications that those forces are at work. Lowering of discount rates here and in England may be one faint marker. Certainly, too, the United States Government's program, just enacted, will have its stimulating effect. We can probably come back to something like normal conditions by stimulations of various kinds, but we cannot STAY BACK without a complete and drastic rearrangement of the relation of workers to industry in point of hours of work and wages per month and per year.

The Executive Council of the American Federation of Labor has just closed its summer session at Atlantic City, N. J., with a strong plea to local, State and Federal governments for adequate relief for destitute workers. The Council expressed the conviction that unless generous relief is provided, the situation among at least 13,000,000 jobless men and women, not counting dependents, may breed social discontent that would be prevented by prompt action at this time.

Q.—Who has been delegate to A. F. of L. conventions the most times?

## Out Beyond the Surf - -

*Where thought, unhastened by necessity or trepidation, sometimes penetrates to truth. Here, where the shallows throw no spray, let us ponder and enjoy the lessons of the art and the work and play of life.*

Surely the big barons of industry and the big czars of high finance have been lucky in this depression.

Very few have lambasted them for their sins.

Most of those who have gone on the war path protesting have gone to the political leaders, state and national, and also local.

The political leaders haven't known much what to do, for reasons that are fairly clear, but that gets only a little way when folks are hungry. Later they will be clearer.

It was and is natural for puzzled politicians to take refuge behind the cry of "world depression." Any port in a storm, and surely this has been a storm.

In the piping times of what we once called prosperity, the rulers of industry and money built up a structure of corporate profit-taking that provided the world's greatest drainage system.

Wages were kept too low, hours too long. The people were drained dry.

Finally the great structure, over-built, went smash. The beets all turned into turnips.

The blind rulers of industry and finance went too far. There HAD to be a crash.

Politicians, like perfect fools, had claimed credit for the thing that looked like prosperity. Retribution came in the form of demands that they care for the hungry when there was no more prosperity.

There has been, and there still is, much that politicians can do to improve the situation. But a people that fails to put the proper measure of blame precisely where it belongs and that fails to get action at that point is fooling itself into a repetition of disaster.

That may be crying in the wilderness, but it is good, honest crying, and it happens to be true.

What there must be is a stopping of the excessive drainage of the wealth created by the masses into the pockets of the few.

We have heard much talk of high wages.

Well, we have never known high wages. To say we have had high wages is bunk. And the highest crime of all crimes in the last two years has been the crime of pounding down wages that never were high enough.

And while the five-day week is gaining tremendous ground in some directions there are thousands upon thousands who in the past 18 months have gone back to the barbarous 12-hour day! Not much is said about that because mostly it has happened in the dark spots, but it HAS HAPPENED.

There have been marches to Washington, but there has been none to Wall Street, which is just about the usually half-witted performance of men and women who are starved out of their common sense.

There is one outstanding reason for this. Government at Washington is a definite thing that can be located. Industry is a scattered thing, as the average man views it, not centered in a single spot. He goes where he can see a target.

But, be all these things as they may, in the end it is industry that has got to be fixed, IN INDUSTRY and not in Washington, save as Washington can play a proper coercive role and a role of proper leadership.

More unions and less yapping at the cross-roads would do more to right the wrongs of industry than is dreamed of in all thy philosophy, oh, thou curb-stone Horatio.—C. M. W.

## Unemployment Insurance Mirage

**T**HE mirage created by the desire for unemployment insurance has been just a bit dissipated by the Senate committee report which expresses a preference for voluntary action within States.

Unemployment insurance has found many supporters among trade unionists and perhaps the number is increasing. This depression is calculated to lead men to espouse remedies that normally would be rejected, without any change whatever in the basic soundness of the remedies.

Unemployment insurance is more than likely destined to become the very thing that insures unemployment, if ever we are forced to the experiment. Manifestly many employers favor it because it might be cheaper than the payment of adequate wages.

The labor movement will have lost something of its original fire and vigor if it deserts the fight for justice in favor of a scramble for palliatives.

The Committee on Memorial Service takes charge of the Convention.

Memorial Service

Always an impressive hour, the annual memorial services for former officers or delegates during the year were set for this time. Chairman Thos. O'Shea, of Local No. 60, Pittsburgh, said:

At this time it becomes our sad duty to set aside a short period of time for the purpose of honoring our departed delegates. Since the last Convention, death has removed from our midst many old and dear friends and many valuable members of the American Federation of Musicians.

The following program was then presented:

Andante Movement, by Von Dittersdorf, by Paramount String Quartet.

Eulogy of Brother G. S. Bender by Brother N. J. Falk, of Local No. 154, of Colorado Springs.

Eulogy of Brother Henry Waidmann by Brother F. J. Liebold, of Local No. 20, of Denver.

Recital of "After Death in Arabia," by Vice-President Charles L. Bagley. (Full text of poem appears in next column.)

Eulogy of Brother Joseph Weatherburn by Brother J. E. Jarrott, of Local No. 149, of Toronto.

Eulogy of Brother Dan Bruno by Brother Ed. Canavan, of Local No. 802, of New York.

Eulogy of Brother William G. Dodge by Brother Harry E. Brenton, of Boston.

Lento, by Dvorak, by Paramount String Quartet.

Following the closing musical number the Convention stood and remained in silence for one minute.

The Paramount String Quartet was composed of Morris Stoloff, first violin; Hans Wippler, second violin; Philip Kahgan, viola; Alexander Borisoff, cello.

The musical numbers were selected in fine taste and beautifully rendered.

The aforementioned quartet was organized by Nathaniel Finston, head of the music department of the Paramount studio, three years ago, and has concurred in all the principal cities of California, besides having made many notable Victor records.

He who died at Azan sends This to comfort all his friends: Faithful friends! It lies, I know, Pale and white and cold as snow; And ye say, "Abdallah's dead!" Weeping at the feet and head, I can see your falling tears, I can hear your sighs and prayers; Yet I smile and whisper this—"I am not the thing you kiss; Cease your tears, and let it lie; It was mine, it is not I!"

Sweet friends! What the women love For its last bed of the grave, Is but a hue which am quilting, Is a garment more fitting, Its a cage from which, at last Like a hawk my soul hath passed. Love the inmate, not the room—The wearer, not the garb—the plume Of the falcon, not the bars Which kept him from those splendid stars.

Loving friends! Be wise and dry Straightway every weeping eye. What ye lift upon the bier Is not worth a wistful tear. 'Tis an empty sea-shell—one Out of which the pearl is gone; The shell is broken, it lies there; The pearl, the all, the soul, is here. 'Tis an earthen jar, whose lid Allah sealed, the while it hid That treasure of his treasury. A mind that loved him; let it lie! Let the shard be earth's once more, Since the gold shines in his store! Allah glorious! Allah good! Now thy world is understood; Now the long, long wonder ends; Yet we weep, my erring friends, While the man whom ye call dead, In unspoken bliss, instead, Lives and loves you; lost, 'tis true By such light as shines for you; But in the light ye cannot see Of unfulfilled felicity— In enlarging paradise, Lives a life that never dies.

Farewell, friends! Yet not farewell; Where I am, ye, too, shall dwell. I am gone before your face, A moment's time, a little space. When ye come where I have stepped Ye will wonder why ye wept; Ye will know, by wise love taught, That here is all, and there is naught. Weep awhile, if ye are fain— Sunshine still must follow rain; Only not at death—for death, Now I know, is that first breath Which our souls draw when we enter Life, which is of all life center.

Be ye certain all seems love, Viewed from Allah's throne above; Be ye stout of heart, and come Bravely onward to your home! La Allah illa Allah! yet! Thou love divine! Thou love alway!

He that died at Azan gave This to those who made his grave.

The Committee on Good and Welfare continues its report:

RESOLUTION No. 34

Whereas, Under the present system it is impossible to convey to membership back home our deliberations in full, be it

Whereas, The proceedings of the Convention should be printed in a series of one or more issues of the International Musician with the exception of remarks of session that is made executive if the President so sees fit.

Moved and seconded to concur in the report of the Committee.

RESOLUTION No. 20

Whereas, Many locals are now assessing a tax on engagements done in their jurisdictions, and

Whereas, Two or more locals may lay claim to the right to assess a tax on the same engagements, thus resulting in double taxation, therefore, be it

Resolved, That where two or more locals lay claim to the right to assess a tax, that the local in whose jurisdiction the engagement was played, shall have that right.

CHAS. W. WEEKS, Local 111.

The following substitute is offered by the Committee:

Members playing miscellaneous engagements shall be subject to the tax law of the jurisdiction in which they play engagement; tax to be paid by contractor or leader into office of said local within forty-eight (48) hours after engagement has been played. Should the jurisdiction they enter not have a tax law, then their home local shall have the right to collect their tax for said engagement, provided the home local maintains such a tax law.

Discussed by Delegates Teta, Broadberry, Kurth, Toohar, Graham, Hirschberg, Kapl, Weeks, Johnston and Thiemonge.

On motion, the resolution and the report of the Committee are referred to the International Executive Board with instructions that locals may tax members, and the question of tax in all its ramifications is referred to the International Executive Board with full power to regulate same.

Moved and seconded that when we adjourn we do so to re-convene at 7:30 P. M. The motion is lost.

Announcements are made.

By unanimous consent, Vice-President Bagley introduces the following Resolution:

Whereas, The officers, delegates and guests of this Convention were cordially received June 13, 1932, at Metro-Goldwyn-Mayer studios in Culver City, and most delightfully entertained,

The resolution is unanimously adopted.

Session adjourns at 5:25 P. M.

## Fifth Day

### MORNING SESSION

Biltmore Hotel, Los Angeles, Calif.,  
June 18, 1932.

Convention called to order by President Weber at 9:50 A. M.

The following communications are read:

Kansas City, Mo., June 13, 1932.

Joseph N. Weber, President,  
Biltmore Hotel,  
Los Angeles, Cal.

Please extend to the delegates assembled the best wishes and fraternal greetings of Local 34, Kansas City, Mo.

FRED S. JOSTE, Secretary.

St. Paul, Minn., June 11, 1932.

Jos. N. Weber, President of A. F. of M.,  
Hotel Biltmore, Los Angeles, Calif.:

My greetings to the Convention. May its deliberations be harmonious, progressive and productive of great good to the fraternity. May the spirit of optimism be ever present. May our faith in one another, in the principles of the American Federation, in the spirit of true unionism, in the knowledge that art will survive—keep us steadfast, notwithstanding that it appears to impose upon us at the present moment a position akin to martyrdom.

A. L. EGGERT.

San Francisco, Calif., June 17, 1932.

President, American Federation of Musicians, American Federation of Musicians' Convention, Los Angeles, Calif.

From tomb where I have rotted sixteen years for loyalty to organized labor I greet your convention. Governor Rolph obeyed dictates reactionary bankers and decreed that I die in prison despite my absolute innocence. I request that your organization arise as one man and protest this monstrous anti-labor decision which leaves my committee penniless and in desperate need of funds to continue fight for my freedom. The fact that I devoted my life to organized labor should overcome any petty slanders propagated against me. My thirty years' continuous good standing in International Molders' Union should move you to help me. International Molders' Union and Brotherhood of Locomotive Firemen each gave one thousand dollars. Delegates recent Railway Clerks' Convention donated two dollars each. As representatives of organized labor I implore you to send liberal donation to my committee, P. O. Box 1475, San Francisco, Calif. Let not future labor historians record your failure to help an innocent brother unionist framed up because he fought for labor. I beg of you not to let me die in prison without a fight.

TOM MOONEY.

The latter communication is referred to the incoming Executive Board.

The Committee on Measures and Benefits continues its report:

#### RESOLUTION No. 30

Whereas, standing Resolution No. 15 makes it mandatory for the A. F. of M. members to join the Craft Union of any other vocation the member may follow for a livelihood, and rightfully so, and

Whereas, it would be unfair to prosecute our members for such breach unless the fellow crafts-union making the complaint, carries a similar reciprocal law upon their law and instruction material, therefore be it

Resolved, that a new section be added termed Section D, to read as follows:

The charges by a fellow crafts-union against any of our members shall only be entertained when and where reciprocal laws are presented by the complaining crafts-union as evidence of good faith.

ADOLPH HIRSCHBERG,  
JOHN LOTZ,  
ROMEO CELLA,

Local 77.

The Committee's report is unfavorable to the resolution.

Moved and seconded to concur in the report of the Committee.

Discussed by Delegate Hirschberg.

President Weber makes an explanation.

On motion the resolution is recommended.

#### RESOLUTION No. 18

Whereas, the successful commercial enterprise of broadcasting is but in its infancy, although sufficiently developed to permanently employ at adequate living wages many of our best musicians without whom the enterprise could not successfully function, and

Whereas, due to methods of manipulations orchestras are being employed in key stations, where chain programs are classified as commercial or sustaining. For sustaining (non-commercial) pro-

grams the hookup station is charged an average of \$5.00 for 15 minute periods, and for commercial (sponsored) programs the hookup stations receives pay, usually from \$5.00 to \$10.00 per 15 minutes period, and

Whereas, the hookup process causes the elimination of the professional musicians available in the many jurisdictions where broadcasting stations require such services, thereby causing unfair competition, and

Whereas, legislation should be adopted as a sort of protective tariff for the defense of locals against the menace of intrinsically unfair competition at the hands of members of other locals, causing the abandoning of this all important field of activity to a few highly trained specialists in two or three of our large cities to the detriment of many musicians throughout the jurisdiction of the A. F. of M., therefore be it

Resolved, that we establish herewith a surcharge rate as hereinafter indicated, purposely kept low in order to obtain acceptance of the principle involved (that of compensating locals for destructive competition within their own jurisdiction by members of other locals) before attempting to levy charges in any respect comparable to the loss of local employment through such chain broadcasting. In each classification there are to be two charges, the lower price prevailing only where the hookup station regularly employs an A. F. of M. studio orchestra of three or more members, making this difference in price a powerful factor in bringing about the unionization of every hookup station, thereby creating hundreds of positions for unemployed musicians throughout the country. The surcharge for commercial (sponsored) chain broadcasts charge to be computed on a basis of 15-minute units, or fraction thereof, and to apply to every station (other than key station) of every hookup program as follows: For station having studio orchestra, \$2.00; for station without studio orchestra, \$3.00; surcharge for sustaining (un-sponsored) chain broadcast charge to be computed on a basis of 15-minute units or fraction thereof, and to apply to every station (other than key station) of every hookup program; for stations having studio orchestra, \$1.00; for station without studio orchestra, \$2.00; important note in above price list the term key station refers to the station actually feeding a specific program to the rest of the chain. The surcharge for every hookup station shall be collected by leader-contractor of key broadcast engagement (in addition to regular local price of engagement) and all such surcharges forwarded to the National Office for distribution among locals having jurisdiction over hookup stations, through the local officers delegated with the responsibility for such collection in his jurisdiction. A nominal deduction shall be made by the National office to cover expense of collection, the balance of the proceeds to be turned over to the respective locals to be expended for the unemployed either for actual dole or employment of the unemployed, at the discretion of the local and in conjunction with the sanction of the National office, and be it further

Resolved, Any feeding station employing non-union feeding orchestra as local broadcast orchestra, to be acclaimed unfair by the National office. Any hookup station receiving services from the non-union, unfair feeding station shall also be acclaimed unfair by the A. F. of M.

ADOLPH HIRSCHBERG,  
ROMEO CELLA,  
JOHN LOTZ,

Local 77.

The Committee recommends that the resolution be referred to the incoming Executive Board with recommendation that it do all in its power to relieve the situation.

Moved and seconded to concur in the report.

President Weber makes an explanation.

Discussed by Delegate Hirschberg.

To the Delegates of the Thirty-seventh Annual Convention of the American Federation of Musicians:

Your Committee on Finance begs leave to report that they have carefully examined the reports of the Auditors and the Treasurer and find that same while in some instance show what might be considered conflicting statements in the separate reports, both reports agree entirely in the matter of totals, the apparent discrepancies being merely typographical errors and right themselves on careful examination of reports.

Your Committee wishes to call the attention of the delegates to the efficient manner in which the Treasurer has conducted the affairs of his office and we wish to compliment him in the matter of handling the detail work connected with same.

The matter of deficits as shown in the reports causes your Committee much concern, and we therefore respectfully recommend to this Convention its serious consideration of the suggestion offered by President Weber that a 2% tax be levied on all traveling bands and traveling dance orchestras and engagements covered by Article XIII, Section 9, Hotel, Restaurant and Inn Engagements.

#### RESOLUTION No. 12

Whereas, During the past three years the income of the American people as a whole has decreased from Eighty-nine Billion Dollars to Forty-nine Billion Dollars annually, also business in the United States as a whole, based on the past five years, has decreased from an average of 115% in 1929, to an average of 55% below the normal average of 100% in 1932, and is daily dwindling to lower levels, and

Whereas, We believe the average total musicians' pay roll of the average Union affiliated with the American Federation of Musicians has been cut in half and is still decreasing to lower levels, and

Whereas, Locals have been meeting a heavy drain on their finances due to this economic crisis, and

Whereas, The President of the American Federation of Musicians has referred to a thirty thousand decrease in membership in his Annual Report, which is a drop of 20% in the Federation membership, with a consequent loss of one-fifth of the total per capita tax, and

Whereas, Delegates of the American Federation of Musicians have in the past ten years of inflated prosperity been most liberal in increasing salaries and general expenses of the American Federation of Musicians through Convention action, and

Whereas, Due to the general collapse of the inflated economic structure with its cruel reaction on thousands of our membership who are in dire distress and want, and if further Federation burdens are imposed upon the Locals, further unnecessary sacrifices will have to be made by Locals who cannot bear further Federation financial burdens, and

Whereas, In order to prevent further general deficiencies of the American Federation of Musicians that expenses be curtailed to meet present income;

Resolved, That the American Federation of Musicians in Convention assembled in Los Angeles recommend a downward adjustment of all existing expenses and obligations to conform to present income, and, be it further

Resolved, That a special Finance Committee, together with the Treasurer of the American Federation of Musicians, be appointed from the Convention to make a survey of all departments, functions and activities of the American Federation of Musicians in order to disclose and recommend where economies may be made without interfering with the general efficiency of the organization, and report their findings in written form and adoption by this Convention.

#### RESOLUTION No. 21

Amend Article X, Section 17; by striking out the entire section as it stands at present, and inserting in lieu thereof the following:

Members of the American Federation of Musicians may participate with musicians of the Army, Navy, Marine Corps, and of the National Guard when serving in a Federal pay status (designated herein as Service musicians) upon those occasions which, as herein defined, do not involve competition with civilian musicians nor interference with their employment opportunities; and Locals shall take action as herein directed.

The use of Service musicians is regulated by implied limitations upon the use of Federal personnel and by the following statute:

"Hereafter no enlisted man in the active service of the United States in the Army, Navy and Marine Corps, respectively, whether a non-commissioned officer, musician or private, shall be detailed, ordered, or permitted to leave his post to engage in any pursuit, business or performance in civil life, for emolument, hire or otherwise, when the same shall interfere with the customary employment and regular engagement of local civilians in the respective arts, trades, or professions." (Sec. 35, National Defense Act; June 3, 1916, 39 Stat. 188.)

This prohibition is not confined to performances involving actual competition with civilian musicians but extends to any performance which interferes with the employment opportunities of civilian musicians to their disadvantage.

The principles of these restrictions are regarded as applicable to the correspondingly similar armed forces of Canada.

Occasions and uses of Service musicians are classified as follows:

(A) Strictly military uses and occasions; that is, whenever and wherever Service musicians function as part of the national military and naval forces. Such uses and occasions normally consist of their duties on military and naval posts, stations, reservations, vessels, accompanying troops on the march, in the field, on military and naval parades, and on occasions attended by the President, the Secretary of War or Navy, and officers of the Services in their official capacity, but such occasions do not include social occasions and entertainments given by civilians with such officers as guests or guests of honor.

Such uses and occasions cannot involve the question of competition or interference with civilian musicians; concerning them Locals have nothing to do and upon proper occasion should co-operate.

(B) Patriotic and charitable uses and occasions, National in scope and non-partisan and non-sectarian in character, conducted directly under the auspices of a National patriotic or charitable society recognized as such by the laws of the United States. Such uses and occasions include:

(1) National patriotic occasions conducted by a National patriotic society recognized as such by Federal law; for example, national conventions of the D. A. R., and of the American Legion.

(2) National meetings of organizations composed of the Army, Navy or Marine Corps of the United States and nationally recognized as such; for example, the Grand Army of the Republic, the Spanish American War Veterans, the American Legion.

(3) Musical programs at any United States Hospital for the benefit of entertainment of its inmates.

(4) Charities and benefits for members of the Army, Navy or Marine Corps or their families conducted under official auspices or by organizations generally recognized as devoted to such purposes; for example, the Army Relief.

(5) National activities of National, non-partisan, non-sectarian organizations devoted to general charity and humanity; for example, the Red Cross.

If the facts and circumstances as known to or ascertained by the Local having jurisdiction, show the occasion to be such as described, the Local shall, when requested, grant a release; but if after careful investigation such is not found to be the case, the Local will deny the release. If, notwithstanding such denial, Service musicians do perform, the Local will immediately make to the commanding officer ordering or permitting such use of the band a written protest in which the reasons for the protest will be stated in respectful terms, and the Local will, at the same time, forward to the President of the American Federation of Musicians a copy of the protest and, as soon as practicable, will advise him of any results of such protest.

(C) Prohibited uses and occasions. These consist of all that do not fall within classes A and B. They are non-Federal and non-official; examples of these are:

(1) Civic parades, ceremonies, expositions, community concerts and community center activities; regattas, contests, festivals, athletic games, activities or celebrations, and the like.

(2) Functions for the furtherance, directly or indirectly, of any public or private enterprise, functions by chambers of commerce, boards of trade, and commercial clubs or associations.

(3) Any occasion that is partisan or sectarian in character or purpose.

(4) Functions of clubs, societies, civic or fraternal organizations.

(5) Functions for so-called charitable purposes of local, sectarian or partisan

character, or any so-called charity that is not of the National character indicated in B (5).

(6) Any occasion where there will in fact be competition with civilian musicians.

Note: Statements that funds are not available for the employment of civilian musicians, or that if a Service band cannot be had other musicians cannot or will not be employed, or that the Service band is to play without remuneration of any kind, are all immaterial.

If Service musicians perform upon any occasion not falling in class A or B, the Local having jurisdiction shall protest to the commanding officer of such Service musicians, in all instances keeping the President of the Federation promptly and fully advised.

Locals, in granting or withholding releases and in making protests to commanding officers and reports to the Federation, will be guided by the principles herein enunciated and by no other consideration, and they shall diligently ascertain and report, fairly and accurately, all obtainable facts and circumstances.

In any case where a Local may be in doubt as to the correct application of these principles, or as to what action it should take in accord with these principles, it shall immediately make report to the President of the Federation and act in accordance with his instructions.

JOHN E. BIRSELL,  
Local 161.

The following resolution is considered:

#### ORGANIZED LABOR'S RADIO BROADCAST STATION

Whereas, The Chicago Federation of Labor, having pioneered in radio for the past seven years in the establishment of Organized Labor's Broadcast Station, WCFL, and Short Wave Station, W9XAA, known as "The Voice of Labor," located on Navy Pier in the city of Chicago, situated in the center of the North American Continent and in the heart of the world's greatest agricultural, industrial and musical area, and

Whereas, This undertaking has more than proven its worth as a medium through which "The Voice of Labor," as expressed by the American Federation of Labor and its affiliated National and International Unions, State Branches, City Centrals and Local Trade and Federal Labor Unions, has made itself heard and felt around the world, and

Whereas, The unanimous endorsements and co-operation of the American Federation of Labor, through President William Green, Secretary Frank Morrison, the Executive Council and the affiliated organizations, including the Railroad Brotherhoods, in their conventions for the past six years and appearances before the Federal Radio Commission and the United States Congress, have resulted in obtaining a construction permit from the Federal Radio Commission as of May 27th, 1932, to operate with increased power of 5,000 watts minimum to 50,000 watts maximum, on a national, cleared channel of 970 kilocycles, with unlimited time, and

Whereas, The Chicago Federation of Labor has officially and publicly announced that it holds this station, WCFL-W9XAA, as trustee for the American Federation of Labor and the entire labor movement of America, in conformity with the constitution and the by-laws as set forth on page 28, Article XIII, Section 17, and

Whereas, Organized Labor's radio broadcast station is ever ready, by day or night, having super-power on a national, cleared channel, with unlimited time, and is at the disposal of any and all National, State, or City Central Bodies in any controversy with their employers, because it was built by and is owned and controlled by Organized Labor for the purpose of seeing when, where and how the message of Labor shall go on the air, therefore, be it

Resolved, That the 37th Annual Convention of the American Federation of Musicians lend its moral support, as well as financial contribution, to the construction of the new building and the installation of Labor's up-to-date, national, super-power transmitter, which will make "The Voice of Labor" the keystone to furnish programs and entertainment to a chain of labor stations located throughout the United States.

Mr. J. W. Gillette, President,  
Local No. 47,  
American Federation of Musicians,  
1417 Georgia Street,  
Los Angeles, Calif.

Dear Mr. Gillette:

Kindly convey our greetings and best wishes to the delegates of the American Federation of Musicians, assembled in Los Angeles for their Thirty-seventh Annual Convention.

We endeavor by making the Kendall-de Vally Operalogues—suggested by the most familiar grand operas—to bring to the vast audiences of the motion picture industry musical entertainment which can be enjoyed by everybody. By so doing we hope to create a desire by the public to hear more music, thereby supporting the musical profession at large.

We trust that the members of the American Federation of Musicians will recommend the Kendall-de Vally Operalogues to their families and friends and demand from the manager of their favorite motion picture house that he include more musicals in his bill of entertainment for the coming year.

We wish to take this opportunity to thank the members of the Los Angeles Local for their enthusiasm and pride in the work they have given us in the past and expect to enjoy in the future.

With our best personal regards, we remain,

Sincerely yours,

KENDAL-DE VALLY OPERALOGUE COMPANY, LTD.

#### RESOLUTION OF APPRECIATION

Whereas, The deliberations of the Thirty-seventh Annual Convention of the American Federation of Musicians is fast nearing its close,

Be It Resolved, By the delegates here assembled:

That we shall never cease to be grateful for that kindly fortune which made possible our visit to the City of Los Angeles in the year of our Lord, 1932.

To be the guests of Local No. 47 is something more than an incident along the pathway of life; it is a stellar event; it is a memory whose sweetness cannot deteriorate, and whose fragrance cannot fade.

The notes of welcome sounded as we entered the gates of the city have constituted the prelude to an unbroken symphony of hospitality and good will which will echo in our hearts long after the scenes in which we heard them have been left behind.

This is no time for specific enumeration. Details are out of the question. Generalities must suffice.

To the officers and members of Local No. 47; to the Mayor of Los Angeles; to the special representative of the Governor of the Commonwealth; and to the officials of State and Community Labor Organizations, we have appreciated your words of welcome and we think you for the finesse and cordiality with which the promises made have been so richly and abundantly fulfilled.

Included among our list of debtors we give to Local No. 353, of Long Beach, a permanent place. Under the advantages of nearby location its membership have joined heartily with Local No. 47 in seeking to make our visit memorable.

The colored delegates upon the floor of this convention desire to record their deep appreciation of the efforts of Local No. 767 of this city to make their sojourn here enjoyable, and hope to be able to reciprocate at some future time.

We shall be reluctant to say good bye.

We have been privileged to stand upon historic ground. We have reveled amid scenes picturesque. We have tasted of fruits which we are confident the Garden of Eden could never have known. We have marveled at the dispensations of a weather bureau operated in accord with the eternal fitness of entertainment properties. But more than all we had contact with men and women who speak the language of brotherhood, who translate words into living deeds, and who have done so much to hearten us for the task which lies ahead.

In the sentiments herein expressed all visiting ladies to this convention most earnestly and cordially join.

CHAUNCEY A. WEAVER,  
G. R. BROADBERRY,  
JAMES T. KENNEY,  
HENRY PFIZENMAYER,  
C. L. BERRY,

Committee.

Whereas, We, the Colored Delegates to the 37th Annual Convention of the American Federation of Musicians, herein assembled, do hereby register our most hearty appreciation for the courtesy extended us at the hands of Locals 47 and 767, and

Whereas, We have enjoyed every moment of our stay while in the midst of this great metropolis of the extreme West, and

Whereas, The local committees have done all in their power to assure us the best conditions that have ever obtained at any Convention of the Federation, and placed at our disposal facilities necessary for our comfort and convenience, as well as for our entertainment, therefore, be it

Resolved, That we most cordially and heartily thank the officers and members of Locals 47 and 767 in their entirety for the wonderful reception and attention given us.

We especially extend to Vice-President Chas. L. Bagley, whose earnest desire has been to see that all details of preparing for this Convention were carried out, our highest commendation and congratulations.

To President Gillette and his most efficient staff and committee, together with the individual membership of both Locals, we extend our sincere thanks for the gracious manner in which they have exemplified real, true hospitality.

Captivated as we find ourselves by the romance of such a great country, wreathed in all the beauty that nature in all its bounty can ordain, believe us when we say that the happy hours of this Convention will live long in the memory of every Delegate.

And now, as this Convention draws to adjournment, and we find ourselves about to bid farewell to the "Garden Spot" of these United States, permit us to again thank you, and wish for all the members of these Locals mentioned health, wealth and much prosperity.

Member McCann states they are willing to be put on their good behavior; that they don't intend to break the law, but resent deeply that they stand expelled, even though the National Board has suspended the enforcement of this judgment; he claims it is a blemish on their records.

Member Wolf joins in the statements made by Member McCann. Delegate Boyd appears as a character witness for Member McCann.

The case is reopened.

On motion, the Board sustains the appeals and sets aside the original decisions in the case without prejudice to the rights of Local 802 to proceed against any of its members who belong to an organization which is politically or otherwise active to either impose its will upon Local 802 or is active in any wise in seeking to influence the decisions of the Local in any matter pertaining to the interests of the Local or the A. RESOLUTION No. 2

Resolved, That the booking agencies, promoters and bureaus be required to file with the Treasurer of this Federation, a surety bond in an amount of not less than \$1,000.00 or for such larger amount as the Executive Board may direct and the Executive Board is hereby empowered to promulgate such rules governing our dealings with booking agencies, promoters and bureaus as they see fit from time to time.

Laid over for further investigation as to the feasibility and advisability of the proposed legislation.

Consideration is given to

RESOLUTION No. 18

Resolved, That we establish herewith a surcharge rate as hereinafter indicated, purposely kept low in order to obtain acceptance of the principal involved (that of compensating locals for destructive competition within their own jurisdiction by members of other locals) before attempting to levy charges in any respect comparable to the loss of local employment through such chain broadcasting. In each classification there are to be two charges, the lower price prevailing only where the hook-up station regularly employs an A. F. of M. studio orchestra of three or more members, making this difference in price a powerful factor in bringing about the unionization of every hook-up station, thereby creating hundreds of positions for unemployed musicians throughout the country. The surcharge for commercial (sponsored) chain broadcasts charge to be computed on a basis of 15-minute units, or fraction thereof, and to apply to every station (other than key station) of every hook-up program as follows: For station having studio orchestra, \$2.00; for station without studio orchestra, \$3.00; surcharge for sustaining (unsponsored) chain broadcast charge to be computed on a basis of 15-minute units or fraction thereof, and to apply to every station (other than key station) of every hook-up program; for stations having studio orchestra, \$1.00; for station without studio orchestra, \$2.00; important note, in the above price list the term key station refers to the station actually feeding a specific program to the rest of the chain. The surcharge for every hook-up station shall be collected by leader-contractor of key broadcast engagement (in addition to regular local price of engagement) and all such surcharges forwarded to the National Office for distribution among locals having jurisdiction over hook-up stations, through the local officers delegated with the responsibility for such collection in his jurisdiction. A nominal deduction to be deducted by the National Office to cover expense of collection, the balance of the proceeds to be turned over to the respective locals to be expended for the unemployed either for actual dole or employment of the unemployed, at the discretion of the local and in conjunction with the sanction of the National Office, and be it further

Resolved, Any feeding station employing non-union feeding orchestra as local broadcast orchestra, to be acclaimed unfair by the National Office. Any hook-up station receiving services from the non-union, unfair feeding station shall also be acclaimed unfair by the A. F. of M.

The Board holds the resolution to be unenforceable by reason of the conditions extant in the entire radio field as well as in the several jurisdictions, but the President is instructed to continue his efforts to have Congress, through legislation, regulate the radio situation favorable to us in matters relating to music.

The Board considers

RESOLUTION No. 22

Resolved, That the National Executive Board and officers be instructed to modify and revise said joint agreement whereby locals of the A. F. of M. will get necessary protection for their interests.

On motion, referred to the President's office.

Recess taken at 6 P. M.

Session resumed at 7:30 P. M.

A report on publicity in reference to Living Music Day is read to the Board.

Consideration is given to

RESOLUTION No. 23

Resolved, That services of Federation members cannot be rendered if transmitted by wire to a radio station, which is reselling, donating or utilizing these services for commercial purposes unless by special agreement with the Locals into whose jurisdiction these services are transmitted.

On motion, referred to the President.

The Board considers

RESOLUTION No. 24

Resolved, That all chain or hook-up radio broadcasting shall be controlled by the National Offices of the A. F. of M., from the point of origin and laws enacted to forbid stations of an unfair standing to take part in transmission of programs performed by members of the A. F. of M.

Further, all agreements with radio stations by members of the A. F. of M. shall carry provisions whereby stations listed as unfair to a local union shall not have the right to take part in the transmission, through a chain hook-up, of programs played by members of the A. F. of M.

RESOLUTION No. 44

Resolved, That where a station uses non-union musicians and they have been declared unfair, then any station which may hook-up with unfair station shall also be declared unfair.

The Board considers that legislation of this nature is unfavorable, and therefore inexpedient at this time.

On motion the sum of \$50 is donated to be applied to the assistance of Tom Mooney through the medium of funds under control of either a State Federation of Labor or the A. F. of L.

The Board instructs the Secretary to convey to Brothers Frank Carothers its best wishes for a speedy recovery.

Further consideration is given to charges preferred by Local 20, Denver, Colo., against Local 753 of the same city. On motion, the charges are sustained and the charter of Local 753, Denver, Colo., is revoked.

The request of Theo. Csiky for a remission or reduction of fine of \$100 standing against him is taken up. On motion, the request is denied.

Al Besemer applies for membership through the medium of Local 6, San Francisco, Cal. On motion, a fee of \$25 is designated, conditional upon his availing himself of the opportunity within 30 days from day of notification.

Consideration is given to

RESOLUTION No. 20

Resolved, That where two or more locals lay claim to the right to assess a tax, that the local in whose jurisdiction the engagement was played, shall have that right.

In connection therewith the Committee on Measures and Benefits recommend the following substitute:

Members playing miscellaneous engagements shall be subject to the tax law of the jurisdiction in which they play engagement, tax to be paid by contractor or leader into office of said Local within forty-eight (48) hours after engagement has been played.

Should the jurisdiction they enter not have a tax law, then their home local shall have the right to collect their tax for said engagement, provided the home local maintains such a tax law.

On motion, the entire subject matter is referred to the sub-committee to be appointed by the President to act in the name of the Board in consideration of the subject of the tax on traveling engagements, with the same full power to act.

The question of licensing of booking agents is discussed at great length.
