RADIO STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL, (HEAVY AIRPLAY AT EVERY STATION WHICH REPORTED); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT. IT ADJUSTS FOR MARKET SIZE AND FOR HEAVY OR MODERATE AIRPLAY. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RADIO AIRPLAY FOR BOTH NEW AND ESTABLISHED RECORDINGS.

Our News & PA Dept. spent Mother's Day covering a rally sponsored by lesbian mothers and the burial of a time capsule by an anti-nuke organization. We were pleased to co-sponsor a benefit concert for the Clamshell Alliance featuring Andy Pratt and have been working with the Clams in preparing PSA's for the upcoming June 24th Seabrook reoccupation. We continue to watch with interest as the city of Cambridge takes on the state of Massachusetts over the

Greetings. More guest DJ's on the air WAAF's. Garland Jeffreys paid a visit for about an hour and did a very interesting show. Then Lenny LeBlanc from the LeBlanc & Carr Band came back to 'AAF to do a second stint as guest DJ, obviously addicted to the thrills of doing radio. Thanks of course to Garland and Lenny, and to Joel Ackerman from A&M and Tony Chalmers from Atlantic. We're asking people to come fly a kite with us for the American Heart Association. It's being billed as the 1st Annual WAAF-Heart Assoc. Kite-a-thon. Sponsors will pledge money on the amount of time the kite can stay in the air, and we'll have prizes for the best kite, funniest kite, etc., no strings attached. Our lineup now goes like this...

6 - 10 am - Tom Doyle
6 - 10 am - Patti Geier (N.D.)
10 - 12noon- Lee Arnold (P.D.)
12 - 3 pm - Paul Lemieux (Ass't. P.D.)

COMMENTS:

From the happiness in a forfeited game dept. - Greetings from balmy New Haven where the temperatures have finally risen above that magic 80 degree mark. I'm not sure why I was drafted to write this letter - except maybe to tell you about a few 'YHC springtime/summertime activities - The Wonderful Hibbitt Rippers softball team has joined the ranks of the Connecticut Media Softball League - scheduled games against WYZZ/WATR (the natural non-hitters) and WPLR (AOR not RBI) are helping to keep us all in top shape.

Plans to reconstruct the ever confusing maze-like interior of 'YHC are materializing (i.e. we just got some 2x4's and nails.)

Our TV/closed circuit facilities are covering the summer colleges at Yale - programming shifts permeate the air -

And soon, a training course will be introduced to help enlist new folk into the realm of radio.

Well, have a hot and happy summer, folks, see ya -

Peter, the Coach

COMMENTS:

"Q" has certainly had an incredibly exciting month. Our specials have included The Ringo Starr Simulcast, RED Speedwagon live from St. Louis, and the star-studded Todd Rundgren live from the Roxy broadcast. Many thanks to all the fine folks involved in these very special projects.

Lots of action on the interview front as well, with visits from the Starship, Grateful Dead, Allan Clarke, Brian Auger, David Spinozza, Dead East, Maria Muldaur, Genesis, Renaissance, Hometown Band, and others. Our more spectacular phone interviews have included Carly Simon, Foreigner, Bill Bruford (from Scotland) and Steve Howe (from England with a taste of the new Yes Lp).

"Q" was also proud to host the Fresh Air Fair here in Philadelphia -

We'd also like to welcome DIR to "Q" as we now participate in the "From the Bottom Line" series. And also a special welcome for our new Sales Reps. - McGavren Guild, Inc. Things are cooking.

COMMENTS:

We're keeping things busy after the book. We just gave away 2 trips to London for two as the climax to our Teel-A-Friend promotion. We received thousands of entries on it. This past week we gave away a trip for two to Waikiki to the first person who called us and identified the cut "I'm Here" off the new Wha-Koo LP BERKSHIRE. Thanks to Jim Larkin and Jon Scott at ABC. We're also sending two people to New York to see the Bruce Springsteen concert in June. More on that next time. We've started a new public affairs program created by our news director Francene Costello. We call it "Just A Minute in the Think Tank." It deals with a variety of topics which we read over a standard music bed. They air throughout the day and have proven to be very popular. SEE! PUBLIC AFFAIRS CAN BE FUN! That's all for now,

COMMENTS:

Several thousands of our listeners came out to our beach party last weekend to enjoy live R&R and fun in the sun. We've got another planned for next month. Really enjoyed finally getting to see Little Feat & the Elvis/Lowe/Mink show last weekend. A speedy recovery to our program director Mike Lyons who is in the hospital. Looks like an ulcer, hope I'm not responsible. Paul Resnick has just joined our staff. He'll be doing weekends and production. Love the new Seger & Petty albums. Neal

CINCINNATI

WEBN
 MARK SCHEERER

NEWS & PUBLIC AFFAIRS:

It's been a busy spring for the two full-time and one part-time WEBN news staff. Ten anti-abortion protesters sat in at a local clinic. Trespass charges were dropped by the clinic when defense attorneys received permission from the judge to introduce medical evidence on when life begins in an attempt to prove the demonstrators were trying to save lives. Cincinnati police launched a crackdown on gays in city parks, arresting over 60 on a variety of charges. Critics claimed it was more than a coincidence a human rights ordinance (containing a sexual preference section) was under consideration in city government. And, local rock promoters continued bumbling in their attempts to book an act into the 65,000 seat Riverfront Stadium for the first time ever. The city stands to rake in up to \$100,000 from such a show, but over two seasons, politics and ineptitude have stood in the way. The News Dept. is among many anxiously awaiting expanded quarters at the completion of a major remodeling of WEBN's studios and offices to the tune of a couple hundred thousand dollars. COMMENTS... A little hot air drew hundreds of people to the Ohio riverbanks a few weeks ago for the WEBN kite-fly. Over a thousand runners of all ages and dedication are

expected at the annual WEBN - Clifton Track Club Memorial Day Run. The five-kilometer race capitalizes on the skyrocketing interest in running here, as elsewhere. Spring Thing: '78 model WEBN T-shirts featuring "Frog At The Fish-in' Hole."

Lots of exciting new music in the past few weeks. We're playing many other things that didn't make it in here, but these are most of the important ones. Patti Smith came to Eugene recently - don't miss her show - it was a transforming experience! (So was the live, unedited radio broadcast!) Positive anarchy!!

COMMENTS:

Sunday the 21st was KSAN's 10th Anniversary which we celebrated with an all day special based on our history, complicated by the fact that at the time we didn't realize it was history. So none of us were too sure about what actually happened. At the same time that we ran the special there was a party here and at the bar next door and in the street between the two. We had invited everyone who had ever worked at KSAN and nearly everyone was able to come. On Monday May 22nd I resigned as Program Director of KSAN. However, I will remain on-the-air full time.

RETAIL STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL (TOP 5 SALES AT EVERY REPORTING RETAILER); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD--FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT ON THE HITS. IT ADJUSTS FOR STORE CHAIN SIZE AND REPORTED POSITION IN THE TOP 15. A SINGLE WEIGHTING SYSTEM WHICH ADJUSTS FOR STORE CHAIN SIZE IS APPLIED TO THE BREAKOUT REPORTS. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RETAIL INTEREST FOR BOTH NEW AND ESTABLISHED RECORDINGS.

Great Week! In-stores with Pure Prairie League - thank you Don and Jeff from MCA. Stewart from W.B. brought us "The Root" (Root Boy Slim and his Sex Change Band), Albany loved them and I think Root had a good time talking with the fans. Barry, CBS student rep. stopped by with Charlie Daniels to say howdo. Also from our Promotion Dept. Just A Song and Q-104 treated two lucky winners to dinner, limo service and tix to the Grateful Dead concert in Troy.

COMMENTS:

"Tarney Spencer Band" soon to arrive on A & M Records is fantastic. Excellent musicianship and smooth vocals. One real strong cut is "It's Really You."

An old friend with a new effort has got himself a winner. ROCKET FUEL by Alvin Lee (on RSO Records) is good solid rock & roll. Wendy Waldman's new W.B. Lp STRANGE COMPANY is selling very well from people spotting it on our hit wall.

Buddy's Revenge - CBS turned us onto an hour slice of "Buddy Holly Story." A slant glorifying Buddy outta reality would be obvious, but credit is due CBS for opting instead to present him pretty much as he was. With musicians playing the main role, especially Gary Busey as Buddy, the film may be the only one this year to hold the valid distinction of rock & roll movie. If you think you're so hep, go see it. Hey guys - thanks for the service - Charlie at RCA, Maury at Arista, Michael at A&M, Scott at WEA (all 532 artists), Michael at U.A., which is somewhere between Sound & Capitol. Hey - am I complaining? Now get outta here.

ASYLUM RECORDS/Tampa, Fla. - John Beck

Artist(s): JOHN HALL; LITTLE FEAT
Place & Date: Gusman Hall, Miami, Fla. - 5/14
Type of Place: Old converted movie theater
Ticket Price: \$8.50; \$9.50
Capacity: 1750

Production Values:

Headliner	Opening Act

Lighting & Staging	Good

Reviewer's Reaction: John Hall's new band is a breath of fresh air after Orleans, a very tight rhythm section and some interesting tunes. The scene stealer was their percussionist, a very beautiful lady with charismatic moves. Little Feat came on stage and proceeded to blow the doors off the theater. Lowell was all over his guitar and daring the band to go the limit. John Hall joined the band with his percussionist and sax player for 3 numbers and brought the onstage fever to what seemed a climax. This was the last show on the current tour and it seemed the Feat didn't want to stop playing. There was an electric quality to the show, you could feel it backstage and in the audience. The concert lasted till 3:45 with Hall's band and Feat's road crew onstage playing anything not nailed down. The most enjoyable concert I'd seen in years.

SOUNDS GOOD/Douglas S. Brown Continued...

both were intriguing. He started his hour-plus set with himself on voice, guitar, and facial expressions, mesmerizing the audience with fairly obscure originals. Slowtrain opened weakly, backed Wainwright later, but he excelled solo through his natural charisma.

Reviewer's Reaction: Word o' mouth of Albert's recent one niter here brought a sizeable handful of folks 'round to catch this Texas blues guitarist... nobody, as they say, was disappointed. Collins moved the music from tasty to party and kept everybody goodtimin', no mean feat for an infrequent visitor in sweet home Chicago.

Reviewer's Reaction: Judas Priest opened a rocking evening with a fierceness rarely seen. The vocal ability of Robert Halford stunned the crowd. Though totally unheard of in Chi-town, Priest won quite a few fans over with their performance. B. T. O. was a sad case, basically because no one really came to see them. They perform adequately and try hard... but the party's over for them. Alvin Lee was so nostalgic in style and appearance! Straight out of the late 60's. Playing only a few bluesy tunes (including a fine rendition of "Hey Joe") 10 Years Later leaned heavily on fast boogie - but they failed to be boring... simply fun. No special effects - just R&R for the people!

Reviewer's Reaction: After much resistance to Patti Smith's albums and poetry, after much resentment of her lip-service to the likes of Jim Morrison and Jimi Hendrix (truly brilliant rock artists) and after much speculation as to whether or not Patti was a rock poseur or the legitimate article, I must admit to having been finally and completely seduced by the visionary art of this great performer. Seeing her last Friday night made everything clear to me: she really does understand rock music - its energy, humor, catharsis and power as an artistic and political force. And she's coming closer to the standards she admires: where Hendrix became progressively blinded by his ego, she is seeing more clearly; where Morrison hurt by critics and his audience, lost his inspiration, she is growing stronger. Let's add Patti Smith to the list of rock greats.

Reviewer's Reaction: This was the worst concert ever witnessed. Sound checks were never completed, sound quality was awful! There were one-hour breaks between acts. The concert was 45 minutes late in starting. The performers were drunk out of their minds. The opener did not come on stage until 4-1/2 hours after the start of the concert. By the end of the show the crowd had diminished to less than 500 people.

Reviewer's Reaction: Zevon's live performance is much more biting than the albums. I'd had the sense he was holding back in the studio, but in front of a receptive crowd Zevon and his band were as aggressive as his lyrics. He's a bizarre combination of John Belushi, Randy Newman and Mick Jagger on stage.

WCDB/Neil Siegel Continued...

Reviewer's Reaction: The Heads brought the new wave scene to Albany and devastated the Hullaballo crowd with fast paced music, top notch material and a feeling for the music that few performers are capable of. The Heads played about 6 songs from their upcoming album. From all indications it seems that the 2nd album will be as great as the 1st. Classic moments of the concert were "Love Goes To Building Fire," "Pulled Up," "Psycho Killer" and "The Book I Read." The Heads are the definitive new wave band. They definitely should not be missed.

WJSC-FM/Johnson, Vt. - Peter Neff

Capacity: 5000
Attendance: Capacity
Audience Composition: College age
Production Values: Headliner
Musicianhip: Excellent
Material Quality: Excellent
Showmanship: Smooth
Sound Quality: Good
Lighting & Staging: Good
Reviewer's Reaction: The show started with "Sugaree" at exactly 8:00 p. m. and they played until 12:30. The vocal solo of Donna Godchaux on "Sunrise" pierced the intense smoke and heat of the gym, the climax was "Terrapin Station." The sound technician's creativity imbedded "Terrapin" into the audience's conscience. Lastly, Garcia's rhythmical steel drum appearance aided the drum solo at the end of the show.

SPECIAL PROGRAMMING CONTINUED

Various Artists - Soundtrack/PRETTY BABY/ABC AA1076 (Jerry Wexler has done a wonderful job in recreating the popular music of the period which is the setting for Pretty Baby. It is a fairly straight musical line from then to now. The faithfulness to the spirit of the time is admirable.)

Various Artists/THE PUGET SOUND GUITAR WORKSHOP ALBUM/Kicking Mule KM 128 (Both the quality and the styles of play vary greatly on this Lp. Still it can be enjoyable in spots. That lack of unity is disrupting at its worst. Good liner notes and an instruction book can help deliver maximum benefit.)

IMPORTS

(Our imports are provided with the help of Intergalactic Trading Co., Portland, Ore.: Jem Records, P.O. Box 362, South Plainfield, N.J. 07080 - 201-753-6100.)

John Abercrombie - Dave Holland - Jack DeJohnette/GATEWAY 2, ECM 1105 (If the triangle produces the firmest support, then the triangulation of these three talents should translate into great musical strength. It does when the melodies are superior. For example, the middle of "Opening" and Dave Holland's "Nexus." Merit.)

The Bishops/LIVE!/Chiswick CH7 (Ten explosive songs are crammed into this miniature 10" Lp. The Bishops are house-rocking ear splitting rock and rollers who have two things going for them - a few top rank songs and a sense of essential rock & roll. Commers. Merit.)

The Boys/ALTERNATIVE CHARTBUSTERS/Nems NEL 5015 (New wave style without the defiance. The Boys are armed with humor, a strong sense of early '60s English rock scene and a pile of good pop songs. Light-hearted. Merit Plus.)

Michael Bundt/JUST LANDED COSMIC KID/Asylum AS AS 53 069 (Bundt's electronic music cruises around somewhere between spaced and a structured song format. It operates in a middle ground which might put off both sides of the equation. It is a twaine which rarely meets. Special Programming.)

IMPORTS CONTINUED

David Coverdale/NORTHWINDS/Purple TPS 3513 (Though David's harder songs have rock value, the ballads demonstrate a notable melody writing skill. A classy looking cover implies that inside music of a special character resides. Coverdale is better than your average minstrel. Merit Plus.)

Keith Jarrett/MY SONG/ECM 1115 (Jarrett and Garbarek together are an imposing duo. Each injects his melodious tones with a piece of himself. That is why they are more than just excellent players, more than just sidemen. They reach into your imagination to stir images. Merit Plus.)

Jean Yves Labat/UNDERWATER ELECTRONIC ORCH./Barclay 80257 (Working in the song format, Labat creates electronic rock tunes of some interest. They use a full range of electronic sounds generating dynamic rarely heard in this kind of music. The tunes are good too. Merit Plus.)

London/ANIMAL GAMES/MCA MCF 2823 (Whenever a new music emerges, punk music for example, there are leaders and there are followers. London is a group of followers. They have the thud and the posture but, they often sound like an imitation. Satisfactory.)

Pat Metheny Group/ECM 1114 (Cool and eloquent. Pat Metheny's music provides the kind of jazzy counterpoint that maintains a contemporary feel yet still relieves the intense tension of rock music. Flowful. Merit.)

The Motors/APPROVED BY/Virgin V2101 (Not punk. Through the haze of their first album, true melodic quality shown through. Approved By confirms that hearing with a series of out right rock and roll hits. Some of the songs even have a Beatlesque quality in them. Strongly Meritorious.)

Sad Cafe/MISPLACED IDEALS/RCA PL 25133 (Marked by a clean, exacting presentation Sad Cafe creates a warm, harmonized response. Their writing talents are a few degrees of perfection behind everything else. They are too good, it seems, not to develop in that area as well. Some outside material could give them a fast injection. Merit.)

Vangelis/HYPOTHESIS/Affinity AFF 11 (Reaching back to the less disciplined time of 1971 yields a recording of the two sided piece called, "Hypothesis." It is a long jazz piece of the spacious variety, quite different from his current fare and not as grand. Given that he has since changed course this "Hypothesis" must have been proven not viable. Special Programming.)

Various Artists/RARE ROCKABILLY/MCA MCFM 2697 (Reissue)

Eberhard Weber - Colours/SILENT FEET/ECM 1107 (The general mood of Weber's music is cerebral, though it has its moments. As soloists, both Charlie Mariano (sax) and Rainer Bruninghaus (piano) show their melodic wares helping the title track to rise above the mundane. Merit.)

CONCEPTS

RIGIDITY

Life isn't easy. There are few cases where a simple solution solves a problem. Last issue's Concepts dealt with the apparent bankruptcy of Top 40 radio. Audiences shifting, en masse, to the FM dial has caught Top 40 flat-footed, unable to adjust. Can you imagine that most Top 40 stations still don't know how to use albums effectively. Couldn't they see the switch to an album consciousness coming?

The answer is that they could but, that their response to it was the wrong one, the only one they were conditioned to use. They were trapped in a shrinking playlist syndrome. Ever since Bill Drake's tight playlist concept was successful, in the mid-sixties, the single Top 40 response to a competitive threat has been the tightening of the playlist one more notch. That has been their response over and over again as FM radio, and all competitive pressures, have pushed in on them.

But, life isn't easy and the bubble finally burst. They had tightened up to the point of strangulation.

The lesson teaches how necessary it is to avoid the kind of rigidity in thinking which leaves only one response to all problems. Tightened playlists were a great innovation for Top 40 radio in the '60s and for progressive radio in the '70s. They helped, in both cases, to focus the sound

of the formats, to make the respective formats better sources of communications.

However, just as too much medicine can kill a patient, so to can ever tightening playlists kill off radio. There has to be a balance.

Our real fear is about the future of album radio. We see evidence, in its beginning stages, of the same sort of rigidity developing that has been a factor in Top 40's difficulties. Lots of fine albums get little or no airtime while Xerox copy, 2nd and 3rd generation groups fill the air. For example, Lps like the current Lou Reed album or the Herb Alpert/Hugh Masekela album deserve more attention than they get. They are only examples among many.

We are not suggesting that these kinds of records should get equal play with the hits or that the hits are lesser musics. We are suggesting that there are 168 hours in a week and that that amount of time isn't compatible with rigid thinking in a music policy. We are suggesting that after a format has been tightened there is a point at which further tightening begins to work negatively.

Life isn't easy.

NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

MERIT ALBUMS CONTINUED

- Werewolves/RCA AFL 1-2746 (Working with a dense sound and accented rhythms Werewolves establishes their basic style. Through it flows nice touches like accordians, vibes and an Elvis Presley sound-alike. The writing runs hot and cold.)
- Michael White/THE X FACTOR/Elektra 6E-138 (Forgetting any commercial consideration, what kind of music would Michael White play? It is probably closer in feeling to the tracks he wrote than to the M.O.R. soul which creeps into the middle of each side. Hot when its hot.)

SATISFACTORY ALBUMS

- (Albums of acceptable quality, which, of themselves, require only secondary progressive radio consideration.)
- Elizabeth Barracough/Bearsville BRK 6973 (The reason Elizabeth's album often sounds like a demo is because much of it was recorded live in the studio. The worst damage done by the quicky recording is on Elizabeth's voice. Too often she is flat and not under control. The writing is good enough to deserve a better reading.)
- Lenny Carlson/SEARCH FOR THE FLOOR/Flying High FH 9501 (His mellow be-bop guitar lacks focused energy. So the album tends to sound hollow, even though Lenny can play. He is a victim of his broad influences. They rob him of that centered intensity which makes important musicians. Write: 103 Fondren, Ft. Worth, Tex. 76126.)
- The Heaters/Ariola America SW 50032 (Everything is a notch below being really ready. The writing, performances and the recording quality are rarely all good at the same time, though individually they have their moments. Further, the most interesting song, a thing called "Crossfire," goes unnoticed in a sequence which disregards it. The Heaters need some pulling together.)
- Ken Matthews/PARTNERS IN CRIME/Olde World 7703 (Mostly Ken's album is done in an old fashioned style. Even the few passable songs get the wrong treatment. Both the writing and the singing have a way to go. Write: 75 E. 55th St., Suite 503, New York, N. Y. 10022.)
- Iggy Pop/LIVE! TV EYE 1977/RCA AFL 1-2796 (Screeching sonics seem somehow in sync with the pop that is Iggy. Whereas Bowie's presence was felt emphatically on the studio recordings, it is much less a factor in Iggy's liveness. His performance is an affront to moms and dads everywhere. The sound quality makes radio play difficult.)

FRINGE ALBUMS

- (Good albums which are not progressive, yet hold some interest for progressive audiences.)
- Bohannon/SUMMERTIME GROOVE/Mercury SRM 1-3728 (It has been said here before, and this Lp only reinforces the feeling, Hamilton Bohannon is the cream of the R&B/disco crop. He is an originator and a skillful musician. His melodies are always appealing. He could be a top notch player in several different styles. Another fine album.)
- Lane Caudell/HANGING ON A STAR/MCA 3039 (It is all a matter of style. These arrangements are big pop extravaganzas which fit nicely with the big vibrato voice of Lane Caudell. The same songs, in a more earthy setting would not have crossed the fringe frontier. Solid pop.)
- Commodores/NATURAL HIGH/Motown M7-902R1 (Of the funky groups, Commodores command just as their name implies they should. They are pretty much self contained and not a front for some production deal. Their songs are good and their instincts are honest. Talent is a given.)
- Cooper Brothers/Capricorn GPN 0206 (A strange combination of dusty roads and super highways puts together a basic accompaniment and shimmering choral vocals. The crafty production fuses the opposite ends into one statement. But it is mostly a pop statement. On the borderline.)
- The Dramatics/DO WHAT YOU WANNA DO/ABC AA-1072 (The staying power of The Dramatics is a marvel. This album is nicely done in a production sense in spite of multiple producer/arranger combinations. But, the choice of the Hall & Oates tune as the title track is the Lp's single most notable element.)
- Isaac Hayes/HOTBED/Stax STX 4102 (The legendary Isaac Hayes intimacy is the overriding force in Hotbed. Hayes has the ability to sound like he is singing to you alone. He also has a super ear for a tune.)
- Elmo Hope/LAST SESSIONS VOL. 2/Inner City 1037 (Elmo Hope died a decade ago in relative obscurity. Yet, he was one of those fine piano players associated with the styles of Bud Powell and Monk. He is easy to listen to.)
- Charles Jackson/PASSIONATE BREEZES/Capitol SW-11775 (A smooth operator, Charles Jackson spins a pleasing brand of pop rhythm and blues music. A song like Rod's "Tonight's The Night" gets a fresh reading and draws him closer to possible use.)

FRINGE ALBUMS CONTINUED

- Quincy Jones/SOUNDS... AND STUFF LIKE THAT!/A&M SP-4685 (Quincy is an arranger, so his music has a tendency to add gloss. Sounds, a gem of an album, is like that. Tasty Always.)
- Thad Jones/GREETINGS & SALUTATIONS/Biograph BLP 12059 (Little of what Thad Jones does with a big band is original. The arrangements are largely borrowed ideas. His work here, with the Swedish Radio Jazz Group, does show a high degree of ensemble integrity. A fairly hot big band results.)
- Gap Mangione/SUITE LADY/A&M SP 4694 (Defying all categorization, the music of Gap Mangione is a puzzle. It is not rock or jazz or MOR or serious or frivolous and yet it is all of the above. Like a man without a country, Gap's music floats in a never-never land. Indifference becomes the strongest single emotion surrounding it.)
- The Memphis Horns/BAND II/RCA AFL 1-2643 (As is the case with many studio bands which come out of the closet, the play is very good but the direction is undefined. The Memphis Horns sound like several other groups. They need their own identity.)
- William D. Smith/SMITTY/A&M SP 4693 (Shift to side two which is percentage points less pop in its production approach. Smitty is a positive force for good music. Easy to digest.)
- Ben Webster/DID YOU CALL/Neesa N-6 (The mildest possible accompaniment supports the soloists as Ben's warm tenor winds around 8 melodies. With the bass virtually mixed out of the recording the feel becomes even lighter. A classy background sound.)
- Steve Wolfe/Nancy King/FIRST DATE/Inner City IC 1049 (Steve's quintet backs Nancy's 40's - 50's jazz singing style. In general, the choice of material is unfortunate, old chestnuts which have been roasted to death. Nancy needs to bring a new consciousness to scat singing. She needs to do it with a bed of contemporary music if she wants to be counted as any kind of significant force.)

SPECIAL PROGRAMMING

- (Spoken, poetry - comedy and extraneous musics.)
- Air/AIR TIME/Neesa N-12 (Not much air time is afforded abstract music. So, Air is somewhat limited in a radio sense. However, as their name implies they may be the freest of all in a liberated music sense. Descended from the line of Chicago abstractionists.)
- Bob Baxter/GUITAR WORKSHOP - FINGERPICKIN' BLUES/Kicking Mule RM 136 (This record is meant to instruct the future fingerpickers of America. In that regard, one is struck by the clean, articulate, unaffected play of Bob Baxter. The full range of the guitar is used in his demonstrations. San serif guitar playing and enjoyable tunes.)
- Lester Bowie - Phillip Wilson/DUET/I. A. I. 37.38.54 (Lester and Phillip trade impressions from inside the chemistry of the brain. Sometimes they trigger a reaction but mostly there is little contact. Obscure but with a sense of humor.)
- Marion Brown - Gunter Hampel/REED N' VIBES/I. A. I. 37.38.55 (Though it fills an avant space these duets are rather down to earth. As new music goes this Lp is pretty musical less an exercise in obscurity and more an attempt to reach people.)
- Anthony Braxton/FOR TRK/Arista AB-4181 (Read the liner notes to get the full impact of Anthony Braxton's creativity. He is an abstract writer as well as musician. It is hard to follow the thought process in both his writing and playing. His writing is verbose while his playing sparse. Outside.)
- Heldon 4/Aural Explorer AE 5001 (Previously reviewed as an import. These forceful electronic musicians prefer that ever repeating, ever evolving formula used elsewhere in the avant garde. They do play well though they don't excite. Write: 43 W. 61st St., N. Y., N. Y. 10023.)
- Mark Lang/TEXAS JOHN BOSCOE/Symposium SYS 2006 (More a musician than a technical player, Mark's tunes are easy on the ear. They can fill programmatic seams rather nicely. The title track moves to the foreground. Dist. by ASI, 711 West Broadway, Minneapolis, Mn. 55411.)
- Teo Macero - Soundtrack/BETRAYAL/Inner City 4001 (There is some movie music, a few songs and the title is done by Janis Ian. But the interesting music is the more modern orchestral stuff composed by Teo. He gets a metallic, menacing quality which seems to spell betrayal. Nasty stuff.)
- New Sunshine Jazz Band/TOO MUCH MUSTARD/Biograph BLP-12058 (Playing in the style of the early 20th Century N.S. J. B. even manages the shrill, brassy sound of that time. Their tunes are chosen from the pop tunes of the day. They are doing a serious version of what Tiny Tim did. Fun results.)
- Cecil Taylor/AIR ABOVE MOUNTAINS.../Inner City 3021 (So dense. Five minutes of Cecil Taylor's music is like listening to 10 minutes by anyone else. All levels and directions are explored simultaneously it seems. Driving.)

NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

MERIT ALBUMS CONTINUED

- Bad Boy/BACK TO BACK/United Artists UA LA 869-H (Hard rock is the hardest music to succeed at because there are so many top dog bands, like Led Zeppelin, who have done definitive forms of that genre. Bad Boy is adequate. Their writing and even their thrust has a tendency to sag at times.)
- Sandy Barber/THE BEST IS YET TO COME/Old World 7701 (All of the rhythms are hot and the songs are good. But, the centerpiece is the singing of Sandy Barber. She is a rooted R & B singer. The production usually isn't too pop.)
- Bellamy Brothers/BEAUTIFUL FRIENDS/Warner Bros. BSK 3176 (Smooth rockin' harmonies and nice songs make the Bellamy Brothers a catchy pair. A bonus is that Michael Lloyd's production has not cheapened them. Fighting that tendency works to everyone's benefit.)
- Black Oak/I'D RATHER BE SAILING/Capricorn CPN-0207 (Dede Richards has managed the impossible by getting Jim Dandy to sing in his natural voice. Dropping the phony vocal beefcake will go a long way in recouping Black Oak's credibility. Richards' arrangements transform the group's presentation into a powerpacked positive force. Good writing paves the road back.)
- David Bromberg Band/BANDIT IN A BATHING SUIT/Fantasy F-9555 (Without a particularly good voice, Bromberg has made himself quite a singer. He conveys the emotion or the drama of a song's situation better than most, in almost any idiom. Of course, he is a gifted writer. This Lp demonstrates his broad musical interests.)
- Bill Bruford/FEELS GOOD TO ME/Polydor PD 1-6149 (As one of the hottest imported records in a while, Bruford's effort comes with a high recommendation. The instrumental portions, which are much in the majority show some reason for the response. However, the songs, though they welcome back Annette Peacock as a vocalist, leave something to be desired.)
- Celebration/SOUNDTRACK - ALMOST SUMMER/MCA 3037 (Mike Love and Charles Lloyd joining forces is something to conjure. Although this is a weird way to introduce the group which results from that duo, it will do for now. The future of Celebration becomes a point of interest. Lloyd's talent hasn't often been properly exposed. Listen to "Island Girl" to get a sense of it. With Mike the means for that exposure might emerge.)
- Marshall Chapman/JADED VIRGIN/Epic JE 35341 (There is a slight streak of originality which runs through the arrangements. Sometimes that works against the album but, it still must be encouraged. Outside material plays an important role in the Lps acceptance.)
- Kerry Chater/LOVE ON A SHOESTRING/Warner Bros. BSK 3179 (Love On A String is an album of standard qualities. Decent songs are delivered comfortably in a no-surprises Steve Barri production. That special spark is missing in a very safe recording.)
- The Dirt Band/United Artists UA LA 854-H (The new Dirt Band signature signals a shift in the music, one which has been developing for a while. Since the folk music scene is pretty much dead, the band has shifted to a broader based country rock formulation - less banjo, more harmonies. It is a natural and necessary transition. A warm sound, which could use a contrasting rough edge, results.)
- DMZ/Sire SBX 6051 (It is not so much the music, it is more the attitude which works for DMZ. Flo & Eddie were a good choice as producers, nuts enough to deal with it yet, wise enough to contain it. DMZ is hardly a musical familiarized zone.)
- Charles Earland/PERCEPTIONS/Mercury SRM 1-3720 (Exuberant and creative, Earland's funk music takes on a character of its own. Charles proves that the formula is only a starting point, a notion which puts many pretenders in their place. Good show.)
- Dave Evans/TAKE A BITE OUT OF LIFE/Kicking Mole KM 134 (Dave comes to songwriting via his guitar playing. He hasn't worked as hard writing as he has pickin'. As a result, his songs run at about a 50-50 good to bad ratio while his playing is a consistent 85. Passable.)
- Lester Flatt & The Nashville Grass/HEAVEN'S BLUEGRASS BAND/CMH 6207 (Not helped by imprecise recording quality, Lester's album still manages some pleasing twists. He seems to be playing the only music he wants to and to be playing it without any commercial motivation. From the mountains. Distributed by The Record People, 65 Greene St., New York, N. Y. 10012.)
- Johnny Hammond/DON'T LET THE SYSTEM GET YOU/Milestone M-9083 (The quality of Hammond's hot jazz lowers with the addition of a lyric line. The lyrics and the music are at different levels of development. Still, Johnny's use of electronics and modern recording techniques keep him contemporary while many of his comrades have faded into obscurity.)
- Keith Jarrett/BOP-BE/ABC Impulse IA-9334 (Even when they are playing Be-Bop, Jarrett's piano adds an extra edge, an urgency to the music. Bop-Be moves in and out of the old and new jazz days with fluidity. The continuity between past and present is plainly obvious.)

MERIT ALBUMS CONTINUED

- B. B. King/MIDNIGHT BELIEVER/ABC AA-1061 (The setting is established by the Stewart Levine - Crusaders production connection. Tightly controlled rhythm and consistent songwriting give B. B.'s singing and playing a solid foundation. The resulting combination is a funky kind of blues in which no chances are taken but, no mistakes are made either.)
- Carole King/WELCOME HOME/Capitol-Avatar SW-11785 (From "Up On The Roof" to "Welcome Home" is quite a cultural leap as we become privy to the hippping of Carole. Several good songs put Carole back into contention.)
- Earl Klugh/MAGIC IN YOUR EYES/United Artists UA-LA 877-H (An elegant kind of mellow issues from this Earl Klugh - Booker T. Jones collaboration. Earl's acoustic guitar rings with articulation and Booker T.'s production fills the background with a complementary accented context.)
- Patti Labelle/TASTY/Epic JE 35335 (All David Robinson productions are tightly wound affairs. They also tend to rely on a few sure fire hits of the past to insure quality. That combination of elements appears again as Patti Labelle does some of her best pure singing. The foundation is solid and the performance sometimes special.)
- Phil Manzanera-301/LISTEN NOW/Polydor PD 1-6147 (Previously reviewed as an import. Opening with the striking title tune raises expectations. However, the body of the album falls into an intriguing but, low-key style. It is very pleasant without being captivating.)
- Charlie Mariano/OCTOBER/Inner City 1024 (Though the same high level is not maintained throughout the Lp, Charlie Mariano shows again that he is capable of creating enhanced music. "Nagasaki" is a melodic gift. The playing is accomplished and the rest of the tunes are decent.)
- Ken McIntyre Sextet/INTRODUCING THE VIBRATIONS/Inner City 2065 (McIntyre's Sextet is a contemporary acoustic jazz band. Which is to say that the music is hot without the use of electricity. Surprisingly, the music was written in the 50's. They slur the melody line in unison creating a very spacey effect.)
- Pablo Cruise/WORLDS AWAY/A & M SP-4697 (While their writing is generally good, sometimes better, their playing is resilient and creative always. All they really need is a song or two like "Don't Want To Live Without It" to assure a success. Worlds Away should continue the cruise.)
- Pousette-Dart Band/3/Capitol SW-11781 (Quality material has become an issue in the Pousette-Dart Band. Remembrances of the punchy first album provide a point of comparison which 3 might not stand next to too well. Sleepy.)
- Lee Ritenour/THE CAPTAIN'S JOURNEY/Elektra 6E-134 (The Captain's Journey is a lesson in recording quality and in playing ability. Yet, Lee has still not been able to make music which sounds like his own. Again, this album sounds like guitar riffs over a studio band. It is all perfect but, it has no soul.)
- Spellbound/EMI America SW-17001 (Spellbound goes for all of the marbles with the big harmony formula. Top notch execution and decent songs make the goal attainable. Near the too saccharine barrier.)
- The Stranglers/BLACK & WHITE/A & M SP-4706 (Here The Stranglers go beyond being merely thundering punkers. Through the thick veil many ideas, original ones, add color to what is normally more of a gray experience than one which is Black & White. Interesting.)
- U. K. Squeeze/A & M SP-4687 (Previously reviewed as an import. This John Cale production has its ups and downs. Partly inconsistent writing and partly unenthusiastic performances cut into Squeeze's basic rock.)
- Tys Van Leer/NICE TO HAVE MET YOU/Columbia JC 35345 (All of the classical training is evident in the Van Leer style yet he is able to work comfortably in the 3 minute song format. That is quite an accomplishment considering that most other classicists are verbose and uneditable. The first and last track on each side find the groove.)
- Wendy Waldman/STRANGE COMPANY/Warner Bros. BSK 3178 (Wendy's writing takes a step forward. With the hardened sound she places her music closer to the center of the rock 'n' roll mainstream. It is not great music because it invents nothing new. Still, Wendy now trods the turf with other luminaries.)
- Joe Walsh/BUT SERIOUSLY, FOLKS.../Asylum 6E-141 (That raspy Walsh guitar rip-saws through a song often pulling it together rather than tearing it apart. His good tunes are enhanced by the quarterization.)
- Max Webster/MUTINY UP MY SLEEVE/Capitol ST-11776 (Steady improvement finds acceptability in this Max Webster album. Though they are making musical strides they still need a point of distinction. Energized play and decent songs are only the beginning if a band wants to be more a mere footnote in the rock encyclopedia.)

MERIT PLUS ALBUMS

(All Merit and Merit Plus Albums are recommended for serious progressive radio consideration, recognizing that not all of these recommendations are suitable for all stations. The Merit Plus Albums distinguish themselves with an extra vitality.)

Ry Cooder/JAZZ/Warner Bros. BSK 3197 (For lots of reasons this album took guts to make, though Ry most likely was not aware of any of them. Cooder is not a shallow pop musician, in case you hadn't noticed. Jazz is a remarkable album not only because of its top notch music but also because of Ry's liner notes which takes the time to give people a view of music's added dimension. Most popular artists don't bother.)

801/LIVE/Polydor PD 1-6148 (Previously reviewed as an import. Manzanera, Eno and company start with a live album. Isn't that like them? These fellows specialize in bent rock. They deliver it but, in very palatable form highlighted by a few extraordinary melodies and strong play.)
Kinks/MISFITS/Arista AB 4167 (Misfits sheds a few degrees of hardness but, retains the new discipline first exhibited in their last Lp. Ray Davies remains a fountain of solid songs and, as such, a fresh breeze in an often stale air. One listen to "A Rock 'n Roll Fantasy" will hook you for sure.)

Mink DeVille/RETURN TO MAGENTA/Capitol SW-11780 (Doc Pomus' liner notes accurately point to the timeless quality in Willy DeVille's music. At the same time that Willy is part of the new wave he has a kinship with the R&B singers of the 50's. Strong songwriting makes it all possible. Find the "Skokiaan" riff.)

MERIT PLUS ALBUMS CONTINUED

Graham Parker & The Rumour/THE PARKERILLA/Mercury SRM-2-100 (Parker's live performance starts where his studio albums leave off. The studio Lp's could not embody the exhilaration, the sheer rock 'n roll joy, which permeates these grooves. That is saved for the stage.)

Bob Seger & The Silver Bullet Band/STRANGER IN TOWN/Capitol SW-11698 (There is no doubt about it, Bob Seger has ascended to a higher level. Each album contains a few super songwriting accomplishments. Tunes like "Still The Same" and "Till It Shines" genuinely enrich the pop song format. Side one is a Strongly Meritorious side.)

Gary Stewart/LITTLE JUNIOR/RCA APL1-2779 (Gary Stewart seems under-recognized. His country music is pure bred stuff which has not been adulterated by the pop demons. Every song is enjoyable as heard through the Stewart vibrato. And his song choices come from sources as diverse as Hank Williams to Ry Cooder.)

Tarney-Spencer Band/THREE'S A CROWD/A & M 4692 (The recording quality on Three's A Crowd participates equally with the other elements in making The Tarney-Spencer Band stand out. It gives their good songs and vital presentation the best chance to be heard. You'll whistle the Lp's presence.)

Bonnie Tyler/IT'S A HEARTACHE/RCA AFL 1-2821 (It is plainly obvious that Bonnie Tyler is an extraordinary singer. Not merely because she sounds something like Rod, but because she reads a lyric line with the best of them. You don't learn that by imitation, you have to feel it inside. The arrangements give her plenty of room, sometimes too much. They are the only soft spot in the album.)

Paul Winter/COMMON GROUND/A & M SP 4698 (It's hard to believe that "Icarus" has found its way onto yet another Paul Winter Lp. This time it is placed in a context equal to it. Paul's publishing company is named Living Earth Music, an expression of his current state of mind. Common Ground, at times, has the hypnotic effect of a tribal rite.)

MERIT ALBUMS

Gary Apple/FIRST ONE'S FREE/Mon 7625 (Consistency is the story in Gary's album. His music feels natural throughout and it is presented with the same enthusiastic play from beginning to end. It lacks only something special to draw it out of the pack.)
