ON THE WIRE

NEW YORK AND LOS ANGELES

Mr. & Mrs. Carly Simon

HEAVY RUMORSVILLE: "Carly Simon has a contractual commitment for more records with us . . . She has no desire to leave the company." So said Elektra/Asylum chairman Joe Smith last year (Issue 263) when the erroneous word was out that Simon had signed with Columbia. In recent weeks a new flurry of rumors have been flying: first, Carly had inked with MCA, and now, with Warner Bros. Well, while no one at Warners would confirm the report (they wouldn't deny it either) and Joe Smith could not be reached for comment, it does appear that the latter news is true—Mrs. James Taylor has, indeed, signed a new deal with Bugs Bunny and his pals. More to follow . . .

NIGHTHAWKS TO MERCURY, NIGHTHAWKS TO COLUMBIA: The Washington, D.C.-based blues band the Nighthawks have been

Another group calling themselves the Nighthawks have been inked to Columbia. These latter Nighthawks hail from the midwest, are said to make rock in the power-pop tradition of the Raspberries, and have, at times, called themselves Junior Wild. When they make their Columbia debut they'll be known neither as the Nighthawks nor Junior Wild—got that?

THE TOM PETTY/DEL SHANNON SESSIONS: Is the name of a special EP to be issued by RSO this spring. Back in October, with Tom Petty

Del Shannon

behind the boards and the Heartbreakers backing the '60s rock star, Shannon cut four new songs (the planned single is "Liar"). Shannon has often been cited by Petty as one of his big early influences, and T.P. apparently took his first production chores to heart.

PREDICTION CITY: A couple of names that are going to be

has recorded an album's worth of new songs in Memphis. Already Rodney Crowell (on his upcoming Warners platter **BUT WHAT WILL THE NEIGHBORS THINK**) has recorded Sykes' work as have Messers. Edmunds and Lowe of Rockpile. Holly & The Italians are an L.A. group who flew to England, signed a singles deal with Oval (the 45's called "You Better Tell That Girl to Shut Up") and are now inked to Virgin over there. It won't be long before a U.S. deal comes their way.

ODDS 'N ENDS: Rolling

Stones Records artist Jim Carroll (the LP will be out next month) just had his **THE BASKETBALL DIARIES** published by Bantam paperbacks . . . Ric Ocasek of the Cars has finished up production work on the second Suicide disc. A single from the forth-coming album has already been issued on Ze/Island: "Dream Baby Dream" . . . Locals the Plimsouls have issued a handsome 5 song, 12" EP, **ZERO HOUR**, on Beat Records and produced by Heptones boardman Danny Holloway . . . Another local aggregation, Gary Myrick & The Figures, recently inked to Epic, are set to record their debut with former Cheap Trick producer Tom Werman . . . Tom Petty is recovering from a successful tonsilectomy—

T.P.

apparently much of his voice trouble during the recent T.P. & The Heartbreakers tour was due to his inflamed, swollen tonsils.

IN THE INK: L.A.'s new wavish rockabilly band the Kingbees have pacted with RSO . . . New York's the '80s have been signed to Capitol.

IN THE GROVES: New vinyl includes Bob Seger's **AGAINST THE WIND** and the Cretones' **THIN RED LINE**, both out now from Capitol and Planet respectively . . . From Epic in weeks upcoming: a new Jeff Beck, British band the Tourists, the Beach Boys' mid-March **KEEPIN' THE SUMMER ALIVE** and debuts by the Passengers and the Continentals . . . **GLASS ROCK HOUSE** is the title of the forthcoming Greg Kihn Band LP . . . The Little River Band has several projects due: a double live package, **BACKSTAGE PASS**, recorded in the U.S. and Australia, as well as **BIRTLES & GOBLE**, a duo disc by LRB members Beeb Birtles and Graham Goble. All this in the early spring.

IN THE STUDIO: Bob Dylan is back in Muscle Shoals with the same production team—Barry Beckett and Jerry Wexler

Jerry Wexler

—and his road band, recording a **SLOW TRAIN COMING** follow-up . . . Deith Richards put down guitar tracks on Screamin' Jay Hawkins LP, being produced by Allan Schwartzberg at Blue Rock Studios in New York . . . The Who are with Eagles producer Bill Symczyk recording their first Warners disc in London . . . Gary Moore in L.A. working on a new LP . . . Radio researcher Lee Abrams is producing a Florida combo known as **Critical Mass** . . . Jimmy Miller is producing Billy Falcon's MCA bow . . . The Pop, now a quartet following Tim McGovern's defection to the Motels, are recording their second Arista disc with XTC and Magazine producer John Lecke.

KRIEGER KICKS OFF LINE PRODUCTIONS: Former Doors guitarist Robby Krieger has formed Line Productions, a production house focusing on local L.A. acts. Apart from working on his own group, Red Shift, Krieger is working on tracks with the Willys and Fun With Animals. A Santa Cruz unit, the Humans, are also in his slated sked.

—Steven X. Rea

MERCURY executives gamble on NIGHTHAWKS

rosterized by Mercury Records. The group, who've been playing some gigs in the Lake Placid region lately, are touting themselves as "the official blues band of the Winter Olympics."

kicking around a lot this year are Keith Sykes and a band called Holly & The Italians. Sykes, a singer/songwriter with a couple of Vanguard LPs behind him (in the early '70s)

CHART ANALYSIS

BY GEORGE MEIER

One of the recurring themes from last year is the turntable hit. So many of the big radio records of last year did not generate comparable activity at the street level. Again we have to note a similar situation. Artists like J. Geils, Utopia, The Babys, ZZ Top and The Rockets have been out long enough to establish a pattern. As is obvious from the Centerfold, in their cases, radio is not translating to the street as well as one might like.

Last issue we pointed out that in spite of the decline of the big pre-Christmas records, Pink Floyd and Tom Petty, they continued as leaders largely because the powerful records needed to unseat them haven't materialized. That remains true this week too, although now there are some contenders which could establish the first truly 1980 chart. The last Quick Starter issue leads with strong starts for The Knack and Robin Trower. This front cover starts off with Linda Ronstadt, Heart and Elvis Costello, not to mention Zevon. All of these artists have the potential to alter the sound of radio.

Still, the Centerfold shows that Led Zeppelin, Starship, Fleetwood Mac, Little Feat and Blondie die hard. They maintain strength in a region or two which won't let go.

Regionally, some of the standard patterns remain in place. The Northeast, not unexpectedly, supports The Clash, The Pretenders, Steve Forbert and The Specials. The region also helps with The Romantics, but their strength is their Midwestern home turf. They even sell records there. Note the surprising top 10 sales position of Off Broadway in the Midwest.

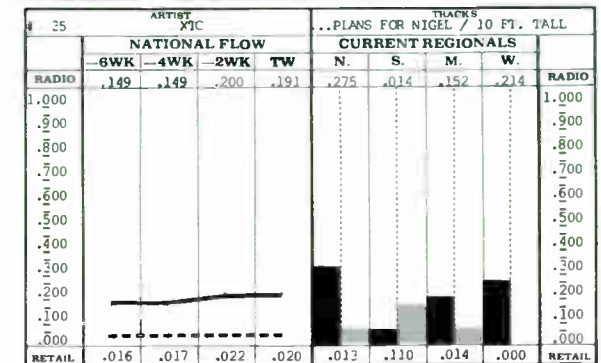

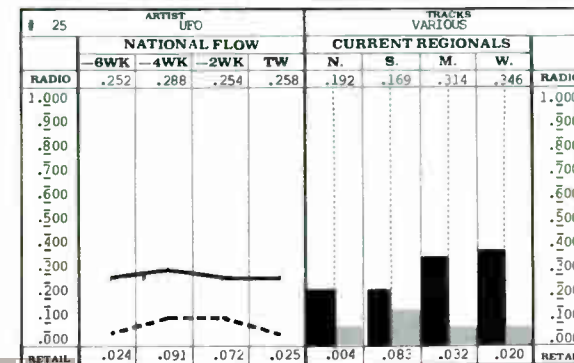

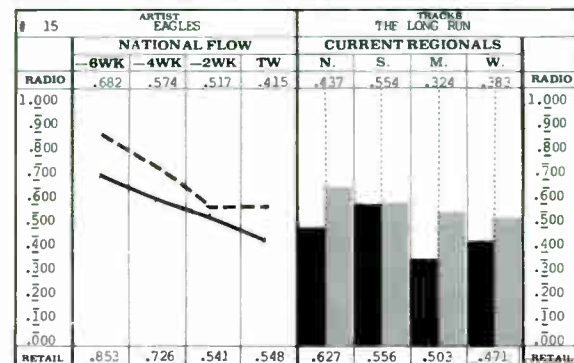

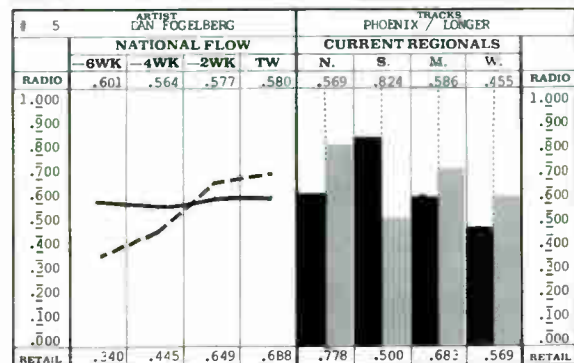

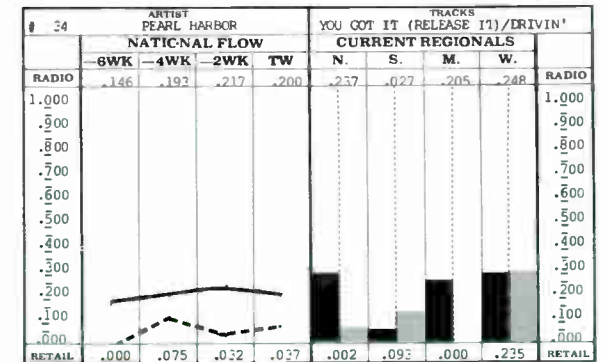

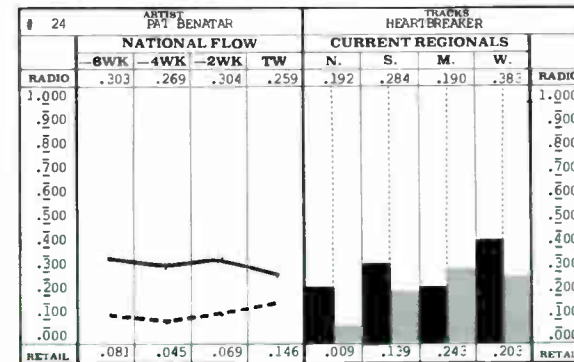

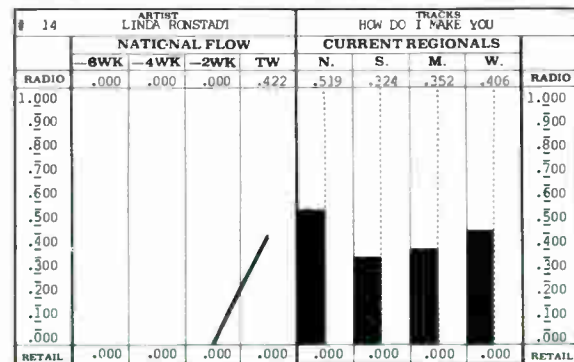

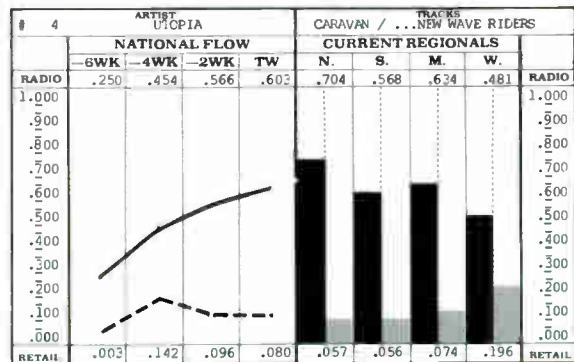

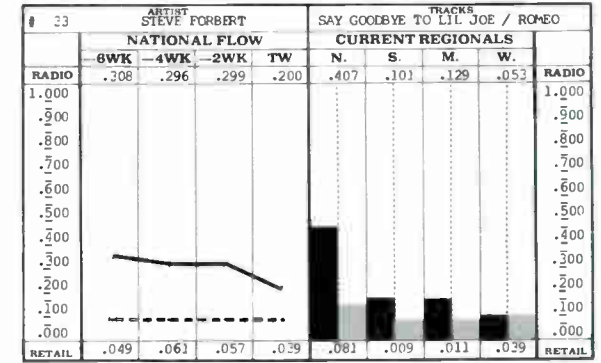

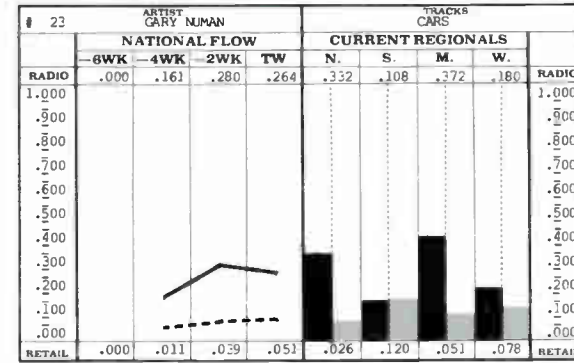

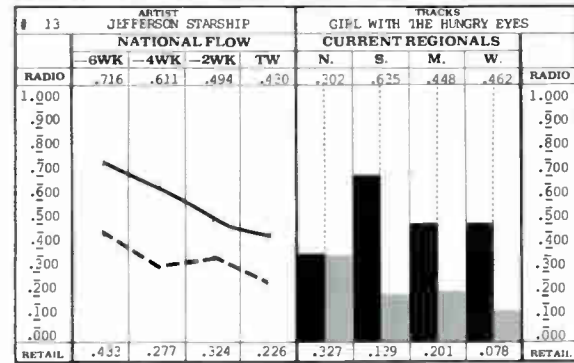

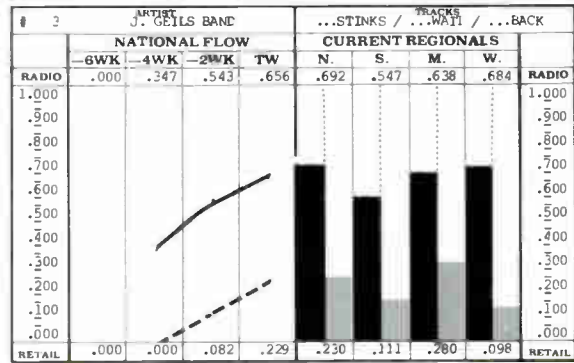

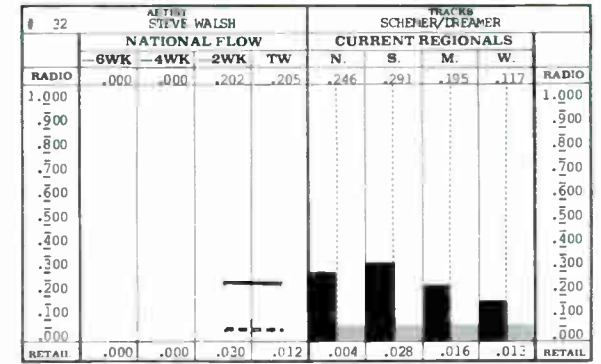

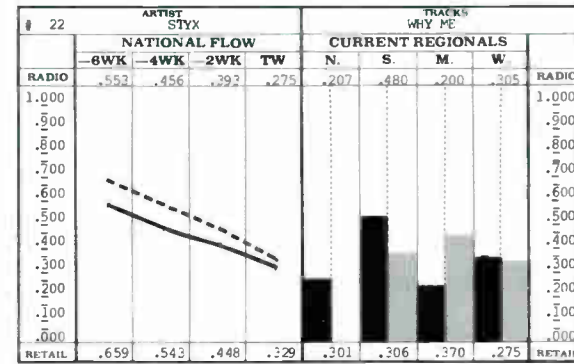

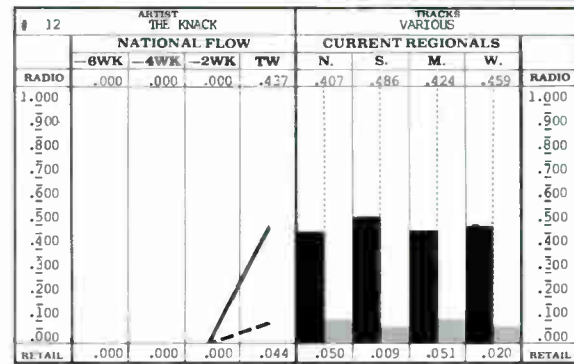

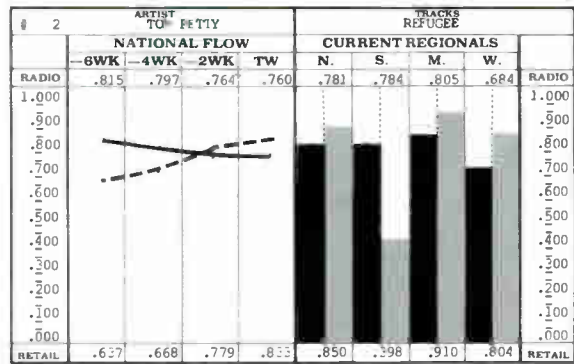

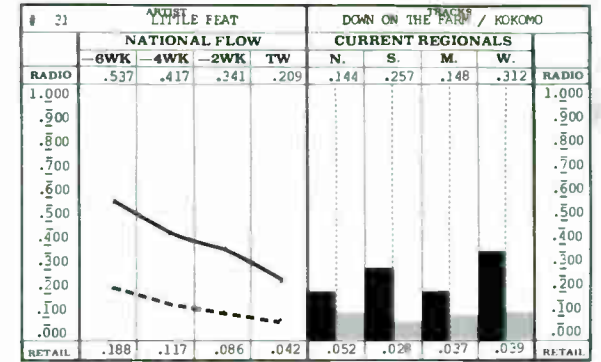

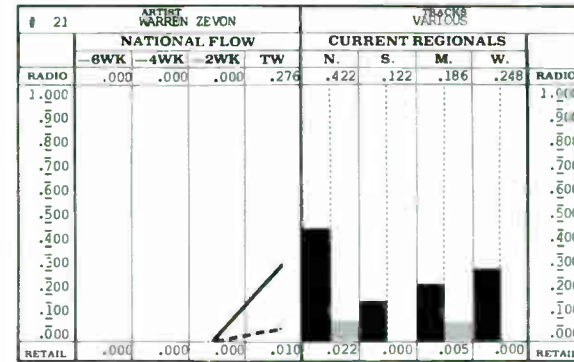

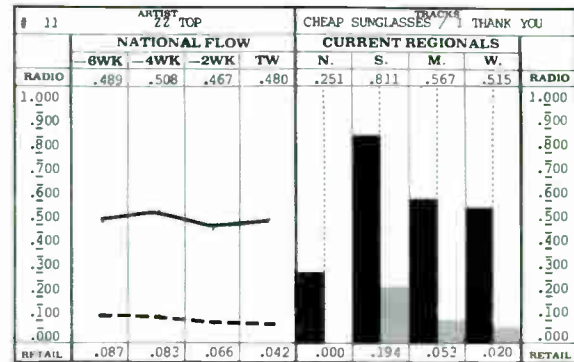

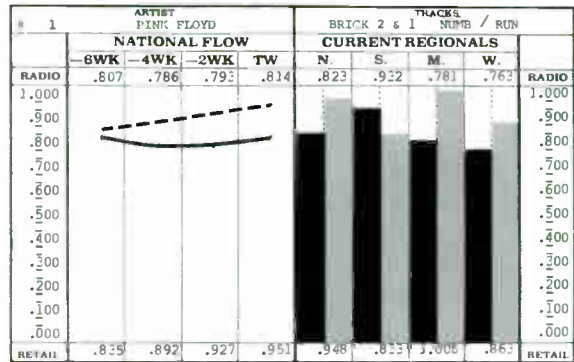

Following last year's Southern development, hard rocking Styx is doing better in the South than the Midwest. Of course, ZZ Top's radio strength comes from the South.

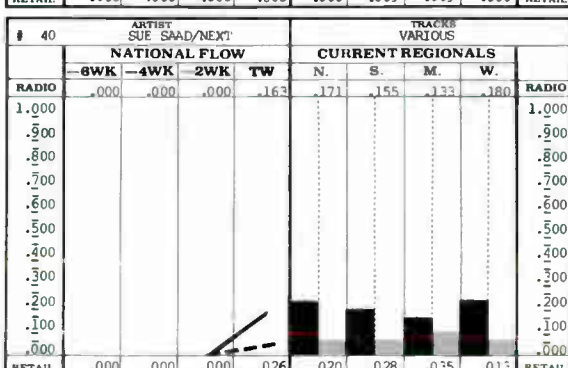

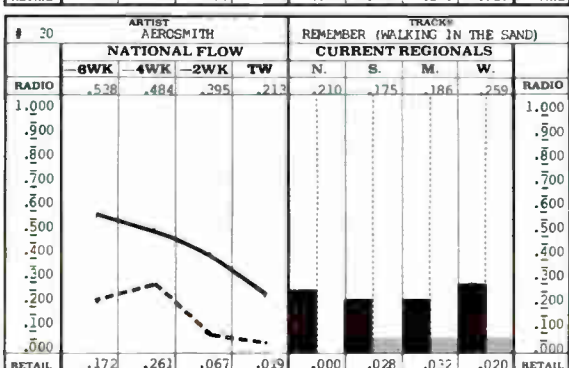

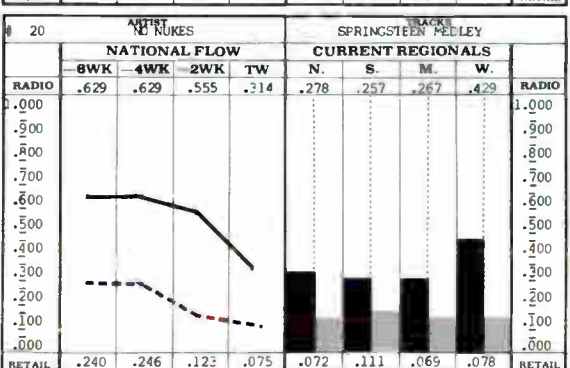

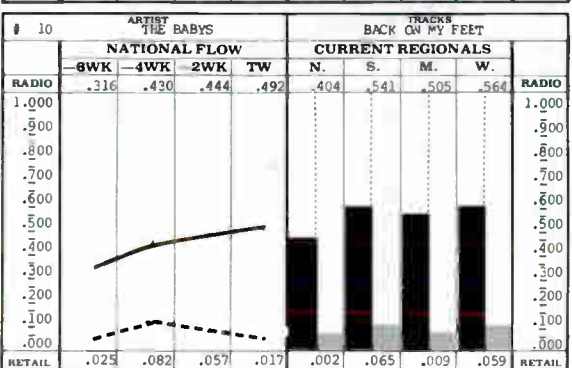

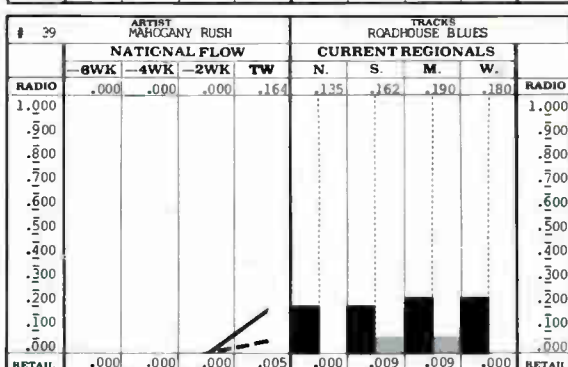

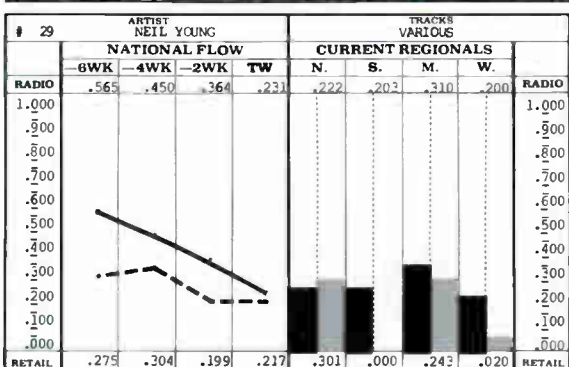

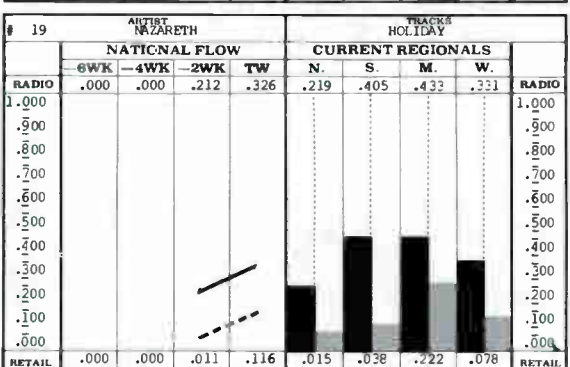

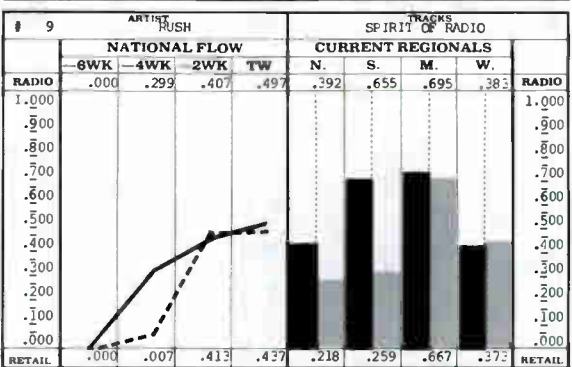

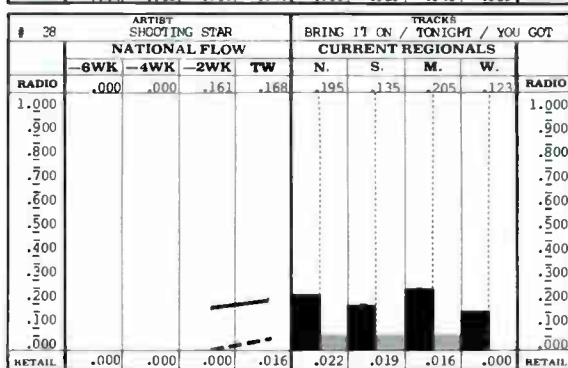

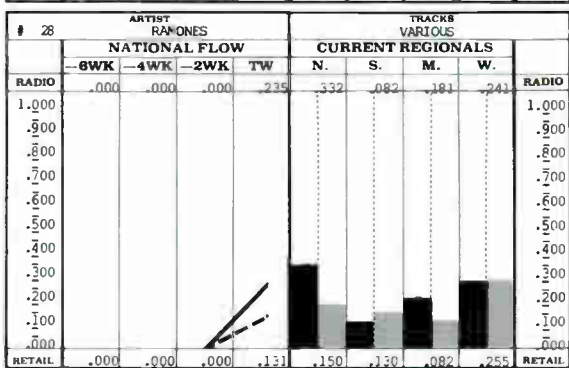

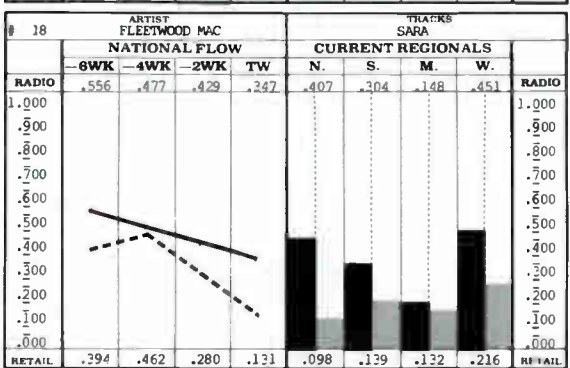

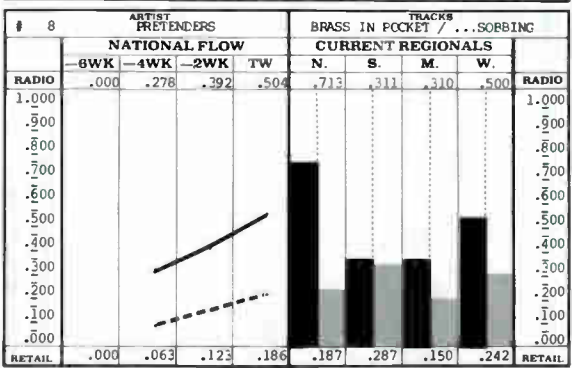

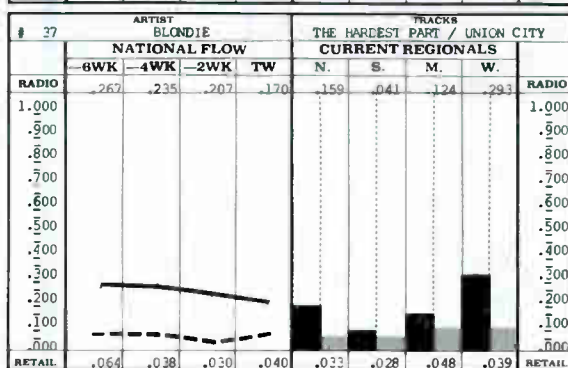

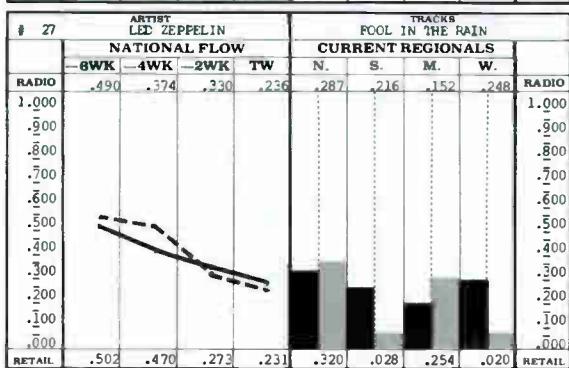

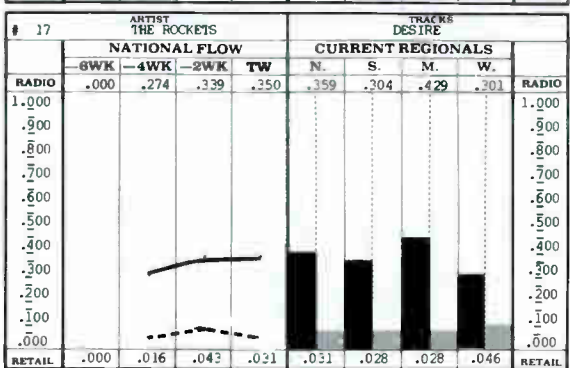

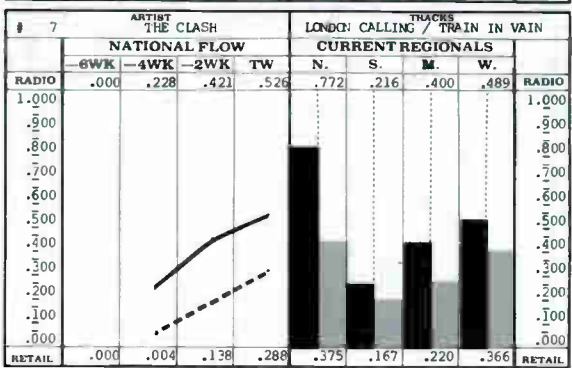

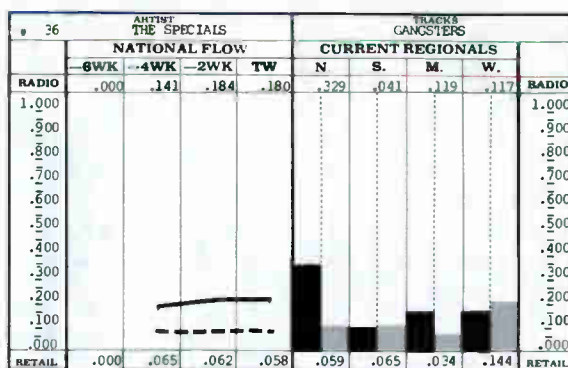

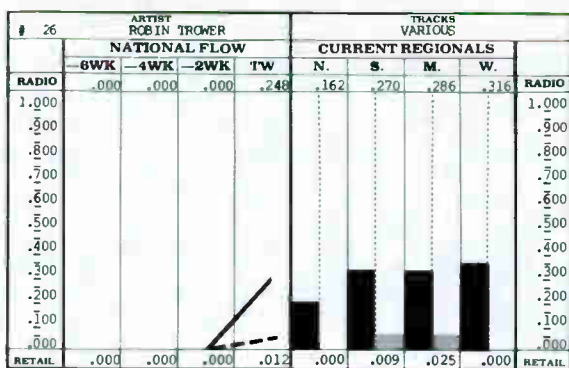

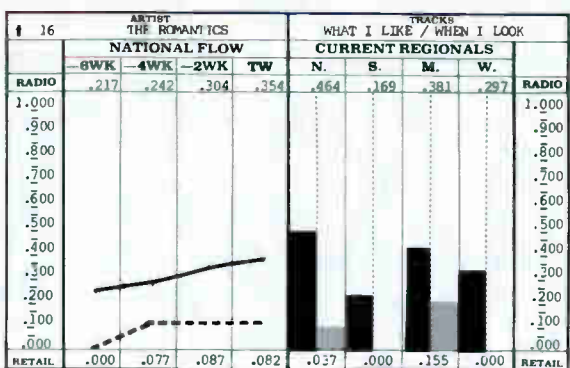

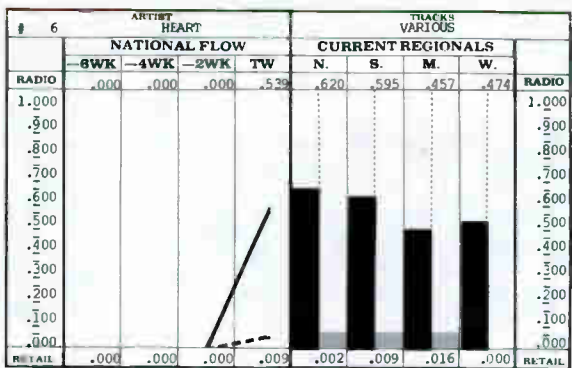

The West sustains the NO NUKES album life and supports Pearl Harbor & The Explosions on radio and in the stores.

Finally, it's interesting to note how Rush's sales tend to tilt toward the West while Tom Petty's southern sales have never been comparable to his strength elsewhere.

COMMENTIS:
 New Wave finally hits Houston! If this store sells it (formerly Disco headquarters) any store can sell it! Now all we need to bring this market to life is radio support - please, Paul Riann and KLOL give us a break. The adds your station has already have helped, but these people WANT and need new sounds for the eighties. Lets hear something fresh for a change!

COMMENTS:

Rick Johnson (our G.M.) and I were discussing the AOR scene in Chicago the other day and we both realized how tight the playlists are. There's a constant barrage of "Free Bird," "Won't Get Fooled Again," "Kashmir," and the like, as well as an overblown proportion of certain new releases like Off Broadway, and The Romantics. This may be alright for now, but a burn-out factor is inevitable - in fact Rick and I are bored with it already. The AOR's should try researching some other old tunes, as well as being a bit freer with the diversity of new releases played. Sure, it's great to push local talent, but let's be realistic. Thanks to Jeff McGuire and Scott Nono at Capitol for their help on the Cliff Richard contest. We had good chairwide response for the Mickey Mouse Phone Drawing.

COMMENTS:
 One sure-fire way to get those returns out (listen up Peaches) - DON'T PAY YOUR BILLS! After the judgement when they come to confiscate merchandise, steer them towards all those RA's stacked in back! Bless you WMET for identifying "Kamikaze Eyes" as Alda Reserve's "Pain is Mine." Finally customers know whose pain to ask for.

RADIO CITY

Our mobile society asks people to transplant themselves all of the time. "Pack the bags Martha, we're on the road again." Some statistics say that California absorbs 20,000 new people a day. For someone with a normal, 9-5 job transitions from one city to another are not all that easy. There are all kinds of family repercussions as well as professional adjustments. Through all of this you must do your job.

Unlike other kinds of work, radio programming requires not merely a set of skills, it also demands an organic feel for the locality for which a station is being programmed. That puts an added burden on a new arrival.

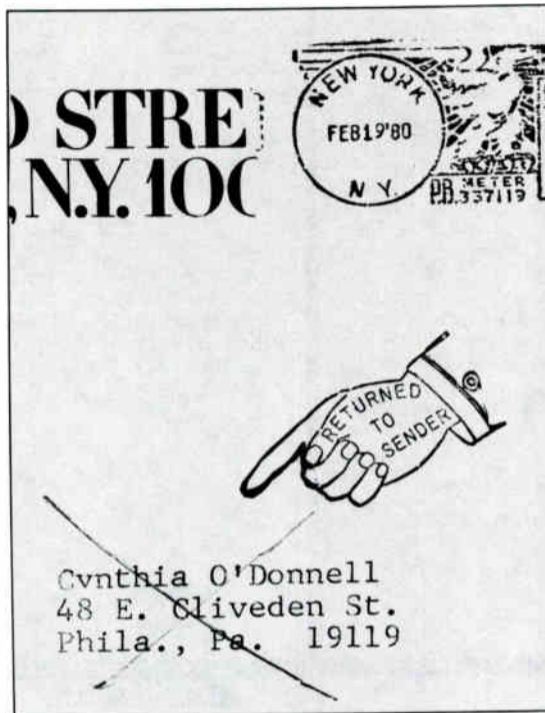

With all due respect to famous and non-famous program consultants, radio is essentially a local medium which requires that kind of feel. The best radio stations, also the ones with the biggest ratings, tend to be those which are tuned into the town they speak to. The station has to be tuned in before the audience will be.

You won't find much disagreement about that from the programming people who have been moving into new markets recently. They bring their programming skills with them, it is the sociology which causes sleepless nights. **John Duncan** (WABX) says you have to be prepared to "stay up, non-stop for two months . . . you can't sit on your duff and expect to pick it all up by osmosis." His Detroit competitor, **Dick Hungate** (WWWW) echoes Duncan's thoughts, "You came into town and immediately hit the streets. Try to get a vibe of the city. What makes the whole town tick? What's the mood of the people? What's the social and economic picture? You get the feel of the city (by) talking to people, one to one, everywhere you go . . . restaurants, bars, movie theaters or standing on the corner waiting for a bus."

The sociology of the town is the thing. **Charlie Kendall**, (WMMR), who knows something about moving, says, "I start with the Chamber of Commerce. They have complete map guides, census guides, ethnic breakouts . . . all of the information that I'm going to need as a human being first and as a programmer second . . . The second thing I do is head to the library and go over microfilm from about the past year or two of major stories so that I get the gist of what the political climate is, of what the major problems of the community are because that's my job as a human being and as a broadcaster. Until I know where the sociology of my community is, until I know what it's coming from, there's really not much I can get into."

It sounds like a honorary doctorate from Local U. is due any successful radio programmer.

Another relatively new Philadelphian is WYSP's **Steve Sutton**. The pure media man he is leads him to recommend that, "you watch a lot of television. You learn how to pronounce localities, how to spell them, and where they are. Invariably, they show up on weather maps . . . Media is a reflection of the community. And that's not just a bullshit line that guys like you and me throw out to the straight

"AS A HUMAN BEING FIRST AND AS A PROGRAMMER SECOND" ...KENDALL

press. It's true."

Tony Berardini (WBCN), moved from one coast to the other while **Trip Reeb** (WCMF), moved from Philadelphia to Rochester. Both had an advantage in that they had some time to adjust. Still, Berardini claims that, "Murphy's Law immediately comes into effect. Everything that can go wrong, will go wrong."

In Tony's case, he was hired out of the Bay area because he was a rock n' roller. First as a jock and then as a music director he found that Boston is into rock n' roll but it is "a different shade of rock n' roll. As opposed to the Sammy Hagers and the Ted Nugents, it was the Elvis Costellos and The Ramones . . . It was not the heavy metal motif." For Tony, the lead time before taking on the programming responsibility was very important. Trip Reeb was also fortunate in his move to WCMF, though in a shorter time frame. He arrived in town two weeks before he took over. "That's what really made it easy. The first thing I did was visit all the concert halls, the retail outlets and as many local clubs as I could." The object was "to get acclimated to the record buyer and the record listener . . . to seek out their entertainment as much as possible. Just as Tony's experience in Boston had forced an adjustment, Trip's search confirmed and denied the common stereotypes of the Rochester area.

He says, "I think the best thing to do is to go into a place and discount anything that anybody tells you, including the people in the radio station because they

get slanted by what they hear on the telephone and they assume that's what's going on. Find out for yourself." In Rochester "it's amazing how many people will tell you (that the last time Springsteen played here) he couldn't even fill a 3000 seat hall. Well, the last time he played here was two and a half years ago."

On the other hand he was told that Good Rats are big in Rochester. "I believed that the Good Rats were really popular in Rochester when I went to a club the first night I was here and three different girls, all about 18 or 19 years old, came up to the D.J. spinning records to ask to hear albums by the Good Rats."

It is the stereotypes which have to be overcome when going into a new market. **W4's Hungate** notes that, "Most people have virtually everything that they're not familiar with stereotyped. When I went to New York I thought that as soon as you step out on the sidewalk you're going to get stabbed. And then you get out there and figure out it's a great place. I was told Philadelphia was one of the armpits of the world, but interestingly enough, mainly by people who had never been to Philadelphia. When I came to Detroit, I really thought I was taking my life into my own hands (only to discover) that the people are very warm. There's that midwestern neighbor syndrome working." Detroit is not "a burned out shell of a town."

Duncan speaks directly to the strongest stereotype of Detroit, "The biggest preconception I suppose I had . . . was that it's a gearhead town, hard core rock and roll, chainsaw rock. Although that's a strong element here, it's certainly not the only thing that's going on. There's a lot of new music, there's a lot of support for local bands . . . bands like The Mutants and the Torpedoes." He didn't mention The Rockets and The Romantics.

Charlie Kendall had a similar experience when coming to Philadelphia from Boston. "At first, because of the historical similarities, I thought there would be lots of sociological similarity. There is not. Philadelphia tends to be more like Cleveland or Pittsburgh or the midwest than Boston does . . . Philadelphia has a little more of a metallic edge to it, musically speaking, but, that metallic edge translates into a sociological thing. Philadelphia's more suburban, more of a spread out city than Boston."

The personal as well as professional transitions which are needed to move from Boston to Philadelphia or Philadelphia to Detroit or Philadelphia to Rochester pale by comparison to the transition one must make to go from Detroit or St. Louis to Los Angeles. The move for **Ted Ferguson** and **Ted Habeck** to KWST is not merely hop, skip and jump. Habeck found an L.A. that is "very shattered. Musical tastes change from The Valley to Orange County to the City of Los Angeles to Hollywood." It makes for a very interesting, if not puzzling, programming problem. Ferguson glibly says it for all when he says all that you need to do is "research the market, talk to as many people as possible."
