## NEW YORK AND LOS ANGELES

### NEW YORK

**MAY McCARTNEY-MANIA:** A mere ten years after the release of Paul's first post-Beatles solo album comes *McCARTNEY II*, the second all-Paul disk. Columbia has already released "Coming Up," backed with a live version of same recorded on Wings' recent trek, as the single. Barring artwork problems the LP should make its appearance during the third week in May. At the same time Columbia will rerelease the first five LPs from the McCartney back catalogue which they've recently acquired the rights to. In case your memory's short that means *McCARTNEY*, *RAM*, *WINGS WILDLIFE*, *RED ROSE SPEEDWAY* and *BAND ON THE RUN*.

**JAM CUT TOUR AS BRIT 45 BREAKS IN AT #1:** Entering into the final leg of a successful U.S. tour, the Jam decided to forego plans to extend the tour and indeed returned home a bit prematurely upon learning that their new single, "Going Underground"/"Dreams of Children," released in the UK during their absence, had entered the charts at #1. So great was the media demand in Britain that the band felt it should concentrate its efforts on the home front at the moment. The single, whose jump into the #1 spot was no doubt helped by the inclusion of a bonus live disk with the first 100,000 store copies, is the first UK single to go in at the top since Gary Glitter's "I Love You Love Me Love" peaked on entry in November 1973. Polydor here has no plans to release the single as of this writing, though.

**BITZ AND PIECEZ:** Pink Floyd's *THE WALL* has passed the *GREASE* soundtrack as *Billboard*'s longest running #1 LP. As I write it's in its 14th week; *Grease* ran 12. Reports have *THE WALL* outselling its nearest competitor by a four to one margin . . . EP collectors (and programmers) should be aware of a forthcoming Bruce Wooley disk was recorded live on his recent US jaunt . . . J. Geils Band has been doing small club dates of late under the alias of Jimmy and the Juke Joints . . . Rumor has it that master tapes of the upcoming Judas Priest LP *BRITISH STEEL* were stolen from the band and ransomed back for 100 grand. Priest is so big in Britain that their just-completed tour was sold out four months in advance . . . Capitol will be releasing a posthumous Minnie Riperton elpee which will include a

number of tracks cut with Stevie Wonder . . . 999 has been causing promoters and security men grief by extending audiences invitations to join them onstage, which large portions of crowds in Cleveland and Detroit took them up on . . . Willie Nile hit the road late this month backed by a band of notable New York musicians including Patti Smith Group's J.D. Dougherty on drums, ex-Television bassist Fred Smith, Cryers' guitarist Clay Barnes and Peter Hoffman on keyboards.

**WET INK:** Jo Jo Zep and the Falcons, down-under combo, were in town for formal signing to Columbia. Their Peter Solley-produced LP is out here already. Also inked to Columbia are French rockers Shakin' Street, whose debut, produced by Sandy Pearlman in San Francisco, is due in mid-May, West Coast outfit the Romeos, ex-Shadow and Olivia Newton-John's producer John Farrar, and Barbara Dickson . . . David Chesky, the youngest bandleader ever to appear at the Newport Jazz Festival, also pacted to Columbia. His RUSH HOUR will surface in June, around festival-time . . . Epic/Precision's signed Pittsburgh's the Silencers.

**IN THE STUDIO:** The A's are in town with Rick Chertoff again producing . . . The Outlaws starting on a new one with Johnny Sandlin producing in early May . . . Jerry Garcia recording sans Dead in San Fran . . .

**SOON TO COME:** Kinks live elpee, due any day, will be called *ONE FOR THE ROAD* . . . Warner Brothers has Gang of Four's *ENTERTAINMENT*, Chaka Khan's *NAUGHTY* and two soundtracks, *ROADIE*, the film starring Meat Loaf and featuring Cheap Trick among others on the LP and the Ry Cooder soundtrack for *THE LONG RIDERS*, all due May 14; with Devo's *IT'S DEVO*, Carly Simon's *COME UPSTAIRS*, the Doobie Brothers' *ONE STEP CLOSER*, George Benson and Foghat coming a fortnight later. . . . —Dave Schupps

### LOS ANGELES

**LITTLE RICKY RETURNS TO HIS ROOTS—NITZSCHE PRODUCING RICK NELSON, NOT McCARTNEY & LOWE:** A syndicated radio news item about Paul McCartney and Nick Lowe producing Rick Nelson's upcoming first LP for Capitol (each overseeing a side) isn't true, although the project had been in the planning stages for months. McCartney came up

with the idea and called Rick, telling Nelson that the first song he learned to play on the bass was "Stood Up (Broken Hearted Again)." Lowe—another avowed Nelson devotee—was brought into the picture because of McCartney's very tight schedule. Unfortunately, other commitments, contractual wrangling among the various record companies involved, etc., made the planned platter too complicated a proposition. Producer Jack Nitzsche, no slouch himself (Graham Parker's *SQUEEZING OUT SPARKS*), is presently ensconced in L.A.'s Westlake Studios with Rick and a four piece band. The material's described by Nelson's manager as "straight-ahead rock 'n roll with an early rockabilly sound."

**SPEAKING OF LOWE:** Nick "Nicker" Lowe and his Rockpile cohorts are providing the musical backing for Carlene Carter-Lowe's third Warners album, being recorded in London as you read this. (They just put the vocals on a Keith Sykes' song.)

**WYSP & PEACHES TRYING TO RUSH PHILADELPHIA:** Rush, currently on the tail-end of their nationwide jaunt, hadn't planned to play Philadelphia, and WYSP and the Peaches Records chain don't like it! The radio and retail folks have put together a Rush promotion to get the Mercury rockers in town, complete with petitions and everything. Rush are trying to find a night off to oblige the zealous Philadelphians.

**"AH, THE BAHAMAS!"** So say Graham Parker & The Rumour and producer Jimmy Iovine as they lounge around the sky-blue pool soaking up rays in a rented sun-drenched spread. GP & The Rumour are recording their second Arista album at Chris Blackwell's Compass Point Studios, Nassau . . . Also camped out down there are the B-52s, putting the finishing touches on their second disc (Blackwell producing).

**OTHER STUDIO NEWS:** Craig Leon is not producing Moon Martin's third, as previously reported. Instead, Mr. Martin and engineer Warren Dewey will co-produce. Capitol's hoping for an early summer release . . . Pat Benatar recording at Sound City with Peter Coleman behind the boards . . . Tom Dowd is working with Chicago for their next LP . . . John Entwistle of the Who cutting a solo disc at Crystal Studios . . . Welsh guitar wiz Deke Leonard is back on United Artists and Martin Rushent is producing him at Studio Masters . . . Bob Ezrin guiding the Kings' debut

for E/A at the Producer's Workshop . . . And in France, Records' producer Tim Friese-Greene working with City Boy.

**INK SPOTS:** Jay Ferguson has been signed to Capitol . . . The Rivers have washed up at Island (a N.Y. combo recording with producer/engineer John Jasen) . . . Original Mirrors to Arista with a debut imminent . . . British neo-psychadelic unit the Psychedelic Furs have inked with Columbia . . . L.A.'s Hornets Attack Victor Mature with a publishing pact at Warner Bros. Music . . . Hard-rockers Riot join Capitol.

**SHORT SPOTS:** The Linda Ronstadt band of yore (Waddy Wachtel, Dan Dugmore and Co.) have come up with a name: Ronin, which is Japanese for "wandering samurai" and taken from the bestseller *SHOGUN*. The Peter Asher-produced *RONIN* debut on Mercury ships in May . . . Aussie producer Pete Solley (Wreckless Eric, The Romantics, The Sports) is set to do Steve Forbert's upcoming third Emperor record. Expect that to be a lot tougher than the hit (John Simon-produced) *JACKRABBIT SLIM* . . . Look for Chrissie Hynde of Pretenders fame to adorn the cover of an upcoming issue of *Penthouse*. Meanwhile the Pretenders did a benefit concert for the United Indian Development Association at L.A.'s (mainly) country venue the Palomino.

**VINYL SHOTS:** Forthcoming releases from some assorted diskies include: *LOVE IS A SACRIFICE* from Southside Johnny & The Asbury Jukes and *THE NIGHTHAWKS*, both from Mercury in May . . . Capitol has Sammy Hagar's new one and Carole King's *PEARLS* coming in May. *PEARLS* is comprised of old Goffin-King hits like "Goin' Back," "One Fine Day," "Locomotion" and "Oh No Not My Baby." Capitol also issues *AMY HOLLAND*'s self-named debut, co-produced by Doobie Brother Michael McDonald . . . Thin Lizzy-ite Phil Lynott has a solo LP, *DEAR MISS LONELY HEARTS* on its way from Warner Bros.

**MORODER & BLONDIE PAIR UP AGAIN:** Disco-synthesist/producer Giorgio Moroder will be at the helm of the next Blondie LP, thanks in part to the success of the Moroder-produced hit single from the *AMERICAN GIGOLO* soundtrack, "Call Me." Mike Chapman, producer of the last two Blondie albums, is now devoting himself full-time to his own Dreamland Records roster of artists, which includes Shandi, Nervous Rex, Spider and Michael Des Barres.

**COMMENTS:**

Note of interest: In looking through our library lately, it's amazing how, as many careers progress, fewer tracks are able to get themselves established on each successive album. Does THAT tell us something? These comments are occasioned by the Pete Townshend album, one of the few 10-for-10 cut LP's recently released. And by Tommy Tutone, Dirty Looks, Spider, Scorpions, ad nauseum, many of the 2-or-less-of-10-cut-albums which are currently choking rock radio. Current faves include Point Blank (Highway Star renders Deep Purple obsolete), Robin Lane, Angel City,

(big party at Toad's in New Haven, on 5/5), Zappa's 45, Penny Mardones ("Might Have Been Love" is a killer!) and of course the incomparable Grateful Dead, and the aforementioned Mr. Townshend.

Names that should be in print- John Brody, John Allen, Terry Coen, (spelled correctly!), Marty Markowitz, Mike Bone, Steve Leeds, Fred Moore, and Joel Webber. More to follow...

The Brains Fan Club is going blotto down the hall, changing money with its sweethearts while dancing to the Nowtones.

Love, Paul

## CHART ANALYSIS

BY GEORGE MEIER

While radio has accepted Eric Clapton's new effort across the board, the wars go on in the trenches.

The battle for the South, which we have been reporting for a year, continues. A list of artists doing better on Southern radio than on radio elsewhere, includes: Journey, Pat Travers, Heart, Triumph and Boz Scaggs. By contrast, the list of records doing less well among Southern radio people includes: Marshall Tucker, Warren Zevon, and Grace Slick. The trade of Marshall Tucker's Southern rock for the rock of Journey is significant. Note, however, that both Travers and Scaggs, while strong on the radio, are not overwhelming Southern record buyers.

Other changes which haven't sunk in yet come out of the West. Linda Ronstadt's radio play is strong everywhere with some weakness in the Midwest. What hasn't been caught up to yet is her changing street acceptance. Her new sound is selling better in the Northeast and Midwest. This is the inverse of her standard pattern of strength in the South and West.

Ronstadt's current LP provides pointed evidence that there are regional differences which create tendencies toward one kind of music or another and which cannot be easily pushed aside.

Another interesting but unexplained change in pattern occurs with the new Van Halen LP. That band, which comes from San Francisco, has been strong on the West Coast. That's to be expected. This LP, however, is getting its weakest radio response as well as its weakest street response from its presumed base of support.

By the way, the West has been the weakest area of support for Pink Floyd, all along and now, as the album begins to loosen its grip, it is the West which is crumbling fastest.

As per usual, the Northeast contributes its special style to the big playlist in the sky. The region gives strength to the new Pete Townshend along with its regulars: The Clash, Squeeze, The Motors, Willie Nile.

Which all goes to prove, that as things change the more they stay the same. It's still a struggle for radio to stay close to the street.

 The Dixie Dregs' new LP DREGS OF THE EARTH is up to their normal high standards...in fact, it may be their best yet. In-store play ALWAYS works with this group. Several of our stores still play their old Capricorn stuff and are consistently re-ordering. Give the Dixie Dregs unique brand of rockabilly-bluesical-jazzgrass a test and see for yourself!

**COMMENTS:**  
 With Seger fever spreading over Chicagoland, the first chink in the brick in THE WALL has appeared. With the list increased to \$15.98, it will be interesting to see the results of the old "if it's a hit, it's a hit and people will buy it no matter what it costs" theorem. There will be a lot of bitching at the retail level over the increase but at least CRS afforded the opportunity of a buy-in. And if you check the racks of those hollering the loudest, you'll find Floyd priced for a \$15.98 list. How about THAT, fellow inflation fighters!

### COMMENTS:

Congratulations to Rounder for excellent release of Loudon Wainwright LIVE LP. It is in the same class with Tom Waits' NIGHTHAWKS. Perhaps the most unique LP of the year is reissue of 15 year old album by The Shaggs - it defies definition but after repeated listening something happens to the style that deserves attention.
