Introduction

*Hispanic Radio Today* offers you a glimpse into the world of radio and its listeners. Currently there are more than 13,000 radio stations broadcasting around the country, of which almost 600 are Hispanic format stations.

*Hispanic Radio Today* illustrates that radio is a medium of steady popularity among Hispanic Americans. The information it provides will help demonstrate to advertisers that radio is the ideal medium for reaching Hispanic Americans anytime or anyplace.

This study examines radio from a national viewpoint, outlining its strength as a medium and analyzing listening behavior for 18 top formats. It is part of Arbitron’s commitment to giving radio stations, agencies and advertisers information about and insights into Hispanic America’s radio audience.

From listening locations to format preferences, Arbitron invites you to explore this fascinating snapshot of how Hispanics in America spend time with radio!

Radio Reaches All Ages

Battle of the Sexes

The number of Hispanic people listening to radio weekly is fairly consistent across genders for people 18-64, with Hispanic Men 18+ tuning in just slightly more than Hispanic Women 18+. Interestingly, older Hispanic people 65+ of both sexes are the least likely to tune in to radio each week.

Among Hispanic men, share of radio listening (97.6 percent) peaks among 18- to 34-year-olds. Hispanic Men 25-54, however, spend more time listening (24:30) than any other male group.

Share of radio listening (98.8 percent) peaks among younger Hispanic Women 18-34. Hispanic Women 65+, however, spend more time listening (24:00) than any other female group.

Hour-by-Hour Listening

Timing Is Everything

Radio listening among the Hispanic audience starts picking up at 6AM weekday mornings and remains strong through 6PM, after which it starts to taper off. Peak listening times on Saturday and Sunday center around the noon hour—from 9AM to 3PM. Listening is lowest on both weeknights and weekend nights from 12Midnight to 5AM.

Source: Maximizer/Media Professional, Spring 2001, Top 50 Hispanic Markets
Overnight Listening

Tuning In at Twilight

Among all age groups, Hispanic men listen overnight more than Hispanic women, with Men 25-54 more likely to be late-night listeners (35.3 percent) than other groups. Meanwhile, Hispanic Women 18-34 are more likely to tune in late at night (28.1 percent) than their older counterparts. Hispanic men are spending the same amount of time listening in all age groups. Hispanic women, however, vary in the time they spend listening, with 35- to 64-year-olds clocking in more time than any age group, male or female.

Where Hispanic People Listen: Weekdays

Radio Is a Moving Medium

On weekdays before 7 AM and after 7 PM the vast majority of Hispanic listeners are listening at home. Between those hours a giant shift occurs, with more than half of Hispanic listeners tuning in someplace away from their homes.

Weekday Listening, AQH Rating

Mon-Fri, Total Day (5AM-5AM)

Source: Maximizer/Media Professional, Spring 2001, Top 50 Hispanic Markets
Where Hispanic People Listen: Weekends

Strong Weekend Listening

Not surprisingly, listening on weekends is more likely to take place in the home than outside of it. Around-the-clock, the majority of Hispanic listeners tune in at home. Away-from-home weekend listening is highest from 12Noon through 7PM.

Weekend Listening, AQH Rating
Sat-Sun, Total Day (5AM-5AM)

Source: Maximizer/Media Professional, Spring 2001, Top 50 Hispanic Markets
Where Hispanic Men and Women Listen

Home Is Where Women Are Listening

Hispanic women in general are more likely to listen at home than are Hispanic men.

Hispanic Men 35-49 are most likely to listen at places outside the home. Women 65+ and Men 65+ are most likely to listen at home.

Source: Maxi$er/Media Professional, Spring 2001, Top 50 Hispanic Markets
Listening Location

At Home, at Work, or in the Car, Radio Goes Everywhere

Radio has the flexibility to reach Hispanic listeners at home, in their cars, at work, and at other away-from-home locations. Listening shifts along with people’s movements during the day. At-home listening peaks from 7PM to 12Midnight (68.6 percent). In-car listening is highest during commuting times (30.2 percent), and at-work listening is highest (43.3 percent) on weekdays from 10AM to 3PM. The majority of weekend listening (56.4 percent) takes place at home.

Hispanic People’s Favorite Formats

This section highlights 18 specific formats available to millions of people across the country. The information illustrates that every format is unique and attracts its own distinct audience of Hispanic consumers. It also demonstrates radio’s effectiveness in targeting Hispanics and reinforces the fact that there is a format out there for everyone!

Here is a sampling of the facts you’ll find in the following pages:

Hispanic Teens 12-17 strongly prefer music that is “current—formats such as CHR (pages 19-20) and to a lesser extent Urban (pages 47-48) and Alternative (pages 17-18). As they get older, young adults 18-24 maintain a continued interest in CHR, Alternative and Urban, while beginning to show interest in other formats such as Spanish-language programming (pages 25, 37, 41, 43 and 45) and Rock.

Hispanic Adults 25-34 retain their strong listening to Alternative (pages 17-18), Spanish-language formats (pages 25, 37, 39, 41, 43 and 45) and Rock (pages 35-36), but now display an even stronger interest in AC (pages 13-14). Overall, they are open to a wide variety of new sounds and stations, with Country (pages 23-24), Urban (pages 47-48) and CHR (pages 19-20) being popular formats as well.

After age 35, format preferences start to change. Rock is the first listening choice, but formats such as AC (pages 13-14), Country (pages 23-24), Religious (pages 33-34) and Oldies (pages 31-32) are also popular.

Hispanic Adults 45-54 display dramatically different listening preferences than their younger counterparts. New AC (NAC)/Smooth Jazz is by far the most popular format. Other favorites include Oldies (pages 31-32), Religious (pages 33-34) and News/Talk/Information (pages 29-30).

Older Hispanics in the 55-64 age group show a solid interest in Adult Standards (pages 15-16) and News/Talk/Information (pages 29-30). However, Classical emerges as the new favorite (pages 21-22).

Hispanic Adults 65+ have a very clear preference—almost 43 percent of their listening is devoted to Adult Standards (pages 15-16). Classical (pages 21-22) and News/Talk/Information (pages 29-30) are also popular formats for this crowd.

*Based on 12+ Hispanic Population*
Sources

*Hispanic Radio Today* contains general statistics on radio and listening trends. All data included in this review are from Arbitron's Spring 2001 survey.

Data for charts and graphs come from Arbitron's American Radio Listening Trends, Maximizer/Media Professional. The American Radio Listening Trends combine radio listening data in Arbitron's 97 continuously measured markets with Arbitron's own format information.
Glossary

**Average Quarter-Hour Persons (AQH Persons)**
The average number of persons listening to a particular station for at least five minutes during a 15-minute period.

**Format Share**
The percentage of those listening to radio in the Metro who are listening to a particular radio station format.

\[
\frac{\text{AQH Persons to a specific format}}{\text{AQH Persons to all formats}} \times 100 = \text{Share (\%)}
\]

**Index**
A numerical comparison of one percentage to another, with an index of 100 being the norm.

**Average Quarter-Hour Rating (AQH Rating or AQH PUR)**
The average Quarter-Hour Persons estimate expressed as a percentage of the population being measured.

\[
\frac{\text{AQH Persons}}{\text{Population}} \times 100 = \text{AQH Rating (\%)}
\]

**Time Spent Listening (TSL)**
An estimate of the amount of time the average listener spent with a station (or total radio) during a particular daypart. This estimate, expressed in hours and minutes, is reported for the Metro only.

\[
\frac{\text{Quarter-Hours}}{\text{Cume Audience}} \times \frac{\text{AQH Persons}}{\text{Persons}} = \text{TSL}
\]

**Cume Persons**
The total number of different persons who tune to a radio station during the course of a daypart for at least five minutes.

**Cume Rating or Cume PUR**
The Cume Persons audience expressed as a percentage of all persons estimated to be in the specified demographic group.

\[
\frac{\text{Cume Persons}}{\text{Population}} \times 100 = \text{Cume Rating (\%)}
\]

**Index**
A numerical comparison of one percentage to another, with an index of 100 being the norm.
