Introduction

*Radio Today* looks at the evolving relationship between radio and its varied listeners. There are more than 13,000 radio stations currently broadcasting around the country. *Radio Today* illustrates that radio continues to be one of the most popular and pervasive forms of media among Americans. The information it provides will help demonstrate to advertisers that radio is the ideal medium for reaching across all segments of the American population anytime or anyplace.

Station Trends

Radio Rules
The impressive number of new radio stations added to the mix each year is testimony to radio’s never-waning popularity. Although the number of AM stations has remained fairly constant over the past 30 years, the number of FM stations has more than tripled.

In 2000, the total number of commercial and noncommercial radio stations rose to 13,307.

Number of Radio Stations in the U.S.

Radio Reaches All Ages

Battle of the Sexes

The number of people listening to radio weekly is fairly consistent across genders for people 18-64. Interestingly, the oldest and youngest age groups are the least likely to tune in to radio each week. Teenagers of both sexes tend to spend less time listening than any other age group.

Among men, share of radio listening (96.2 percent) peaks among 25- to 34-year-olds. Men 35-44, however, spend more time listening than any other group (23:15), while teenage boys 12-17 spend the least time listening to radio (12:45).

Share of radio listeners (97.2 percent) also peaks among women 25-34. Teenage girls, however, are listening to radio significantly less than their older counterparts, and when they do, they spend less time listening. Otherwise, listening patterns for women 18-64 don’t vary greatly by age.

Weekly Cume Rating

Time Spent Listening

Source: Arbitron’s American Radio Listening Trends
Hour-by-Hour Listening

Timing Is Everything
Radio listening peaks most noticeably during wake-ups and commutes at 7AM every weekday. Listening remains strong through 6PM, after which it begins to taper off.

On weekends, listening is at its highest between the hours of 9AM and 3PM.

Regardless of the day of the week, listening drops to its lowest levels while most people are sleeping—12Midnight through 4AM.

Hour-by-Hour Listening, AQH Rating

Source: Maxi$er 99/Media Professional, Spring 2000, Top 25 Markets, Mon-Sun, 5AM-5AM
Overnight Listening

Tuning In at Twilight
Overnight listening patterns remain consistent across age groups but not across gender. Men of all ages are more likely than their female counterparts to tune in to radio from 12M to 6AM.

Weekly time spent listening from 12Midnight to 6AM is fairly consistent for both men and women and among listeners of all ages. Men 18-34 do seem to spend slightly more time listening at night than any other group (4:00), while Women 18-54 tend to listen a bit less (3:30).

Source: Arbitron’s American Radio Listening Trends
Where People Listen: Weekdays

Radio Is a Moving Medium
Monday through Friday, the majority of radio listeners tune in at home in the mornings before 7AM and in the evening after 7PM. Between 9AM and 5PM a giant shift occurs, with 65 percent to 74 percent of radio listening occurring at places outside the home.

Weekday Listening, AQH Rating
Mon-Fri, Total Day (5AM-5AM)

Source: Maximi$er 99/Media Professional, Spring 2000, Top 25 Markets
Strong Weekend Listening at Home

Not surprisingly, listening on weekends is more likely to take place at home. Peak listening hours are before 11AM and after 8PM. Between those hours, away-from-home listening climbs, reaching a high of 50 percent between 5PM and 6PM; at that same time, at-home listening dips to its lowest point: 50 percent.
Where Men and Women Listen

Radio Is an Out-of-Home Medium for Adults 18-64

The over 65 crowd spends more time listening at home than any other age group. Interestingly, teenage girls spend a surprising amount of time tuning in at home, as well. Women across all age groups tend to listen at home more than their male counterparts.

Conversely, men are more likely to listen to radio away from home. Eighteen- to 54-year-olds of both sexes are the most likely to tune in at work or at some other location outside the home.

Source: Arbitron’s American Radio Listening Trends, AQH Rating
At Home, at Work, or in the Car—Radio Goes Along

One of the great strengths of radio has always been its portability. Radio has the flexibility to reach listeners at home, in the car, at work, or at other away-from-home locations. And listening location can shift dramatically, depending on the time of day during the week (Monday through Sunday, 6AM to 12Midnight).

At night (7PM to 12Midnight), at-home listening hits a high of 61.2 percent. In-car listening is more consistent across dayparts, with peak listening occurring during the times most people are commuting to and from work (36.8 percent). At work, 43.8 percent of listening occurs on weekdays between 10AM and 3PM.

Listening by Daypart

Who’s Listening When
Different age groups listen to radio at different times. Peak listening times for most men and women are weekday mornings from 6AM to 10AM and late afternoons from 3PM to 7PM. Teenagers are most likely to tune in on weekends and weekday afternoons, after school. The Monday-Friday midday time slot (10AM-3PM) captures the attention of more women than men. Monday through Friday, the most dedicated nighttime listeners are teens and young Adults 18-24.

People’s Favorite Formats

This section highlights 13 specific formats available to millions of people across the country. The information illustrates that every format is unique and attracts its own distinct audience. It also demonstrates radio’s effectiveness in targeting its audience and reinforces the fact that there is a format out there for everyone!

Here is a sampling of the facts you’ll find in the following pages:

Teens 12-17 strongly prefer to listen to music that is “current”—formats such as CHR (pages 21-22) and to a lesser extent Urban (pages 39-40) and Alternative (pages 19-20). As they get older, young adults 18-24 lean more toward Alternative music while maintaining a continued interest in CHR and Urban.

Adults 25-34 retain their habit of strong listening to Alternative (pages 19-20) but are open to a wide variety of new sounds and stations: Rock (pages 35-36) and Spanish (pages 37-38) are strong favorites, but Urban (pages 39-40), CHR (pages 21-22) and AC (pages 15-16) are popular formats, as well.

After age 35, format preferences start to change. Rock (pages 35-36) is the first listening choice, but formats that hark back to an earlier era—New AC/Smooth Jazz (pages 27-28), AC (pages 15-16) and Oldies (pages 31-32)—are increasingly popular.

Oldies (pages 31-32) is the format of choice for older baby boomers in the 45-54 age group, followed closely by New AC/Smooth Jazz (pages 27-28). Classical (pages 23-24) takes first place for Adults 55-64, with Adult Standards (pages 17-18), News/Talk/Information (pages 29-30) and New AC/Smooth Jazz (pages 27-28) strong contenders, as well.

Adults 65+ have a very clear favorite—59 percent of their listening is devoted to Adult Standards (pages 17-18). Classical (pages 23-24) and News/Talk/Information (pages 29-30) are also popular formats for this crowd.

Source: All data come from Arbitron’s American Radio Listening Trends.
**AC**

Encompasses all variants of Adult Contemporary: Soft/Light, Hot AC, Mainstream AC, Full-Service AC and Adult Rock.

**A Few Format Highlights**

Sixty-five percent of the AC audience are Women 18+, and 35 percent are Men 18+.

Approximately half of the AC audience is aged 25-44.

---

**Note:** Due to rounding, totals may differ.

**Source:** Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
AC

Thirty-nine percent of Adult Contemporary listening is done at work.

AC has the second highest AQH share after News/Talk.

AC has the highest share of listening in three dayparts: M-F 10AM-3PM, M-F 3PM-7PM and Weekends.

New Englanders are 44 percent more likely to tune in to Adult Contemporary when compared with other regions of the country.

**AC Stations**
**1,590**

**Total Stations**
**13,307**

---

**Note:** Due to rounding, totals may differ.

**Source:** Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
Adult Standards

Features a substantial amount of pre-Rock era music. Includes Easy Listening, Middle-of-the-Road, Nostalgia and Variety outlets.

A Few Format Highlights
Fifty-six percent of the Adult Standards audience are Women 18+; 44 percent are Men 18+.

Fifty-nine percent of Adult Standards’ listening audience are Adults 65+. No other format has such a large share of its audience in a single age group.

Note: Due to rounding, totals may differ.
Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
**Adult Standards**

Adult Standards listeners strongly prefer to listen at home. Sixty-four percent listen at home, while 24 percent listen in their cars.

The most popular dayparts for listening to Adult Standards are weekdays 10AM to 3PM and weekends.

Adult Standards has its largest following among listeners in the Mountain region, where they are 59 percent more likely to tune in than the average listener.

**Alternative**

Includes stations billing themselves as “Album Alternative” and “New Rock.”

**A Few Format Highlights**

Sixty-four percent of Alternative’s listeners are Men 18+, and 36 percent are Women 18+.

Alternative appeals most to the under-50 crowd—90 percent of the audience is aged 44 or younger. Adults 25-34 account for approximately one-third of Alternative listeners and are more likely to listen to Alternative than to any other format.

---

**Note:** Due to rounding, totals may differ.

**Source:** Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
Alternative listeners tune in wherever they can. These listeners spend more time listening in cars (36 percent) but they are also listening at home (31 percent) and at work (30 percent).

Alternative listeners can be found tuning in 6AM to 10AM (5.4 percent) and 7PM to 12Midnight (5.3 percent) Monday through Friday.

New Englanders are more than twice as likely to tune in to Alternative than the average listener.

Note: Due to rounding, totals may differ.
Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
CHR

Contemporary Hit Radio emphasizes current hit music. Also known as Top 40. Includes stations specializing in “Pop CHR” and “Rhythmic CHR.”

A Few Format Highlights

CHR listeners are more likely to be women than men. Fifty-eight percent of this audience are Women 18+.

Of all formats, CHR has the highest share of teen listeners (26 percent). Approximately three-quarters of its listeners are 34 and under.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.

More on CHR
CHR

More CHR listening occurs at home (41 percent) than in the car (33 percent) or at work (22 percent).

This format has a greater share of evening listening (16.4 percent) than any other.

CHR performs best in the Middle Atlantic (123) and New England (113) regions.

Spanish

Fifty-three percent of Spanish radio listeners do their listening at home.

For this format, more listening occurs on weekends than during any other daypart.

Listeners in the Pacific states are more than twice as likely to tune in to a Spanish-formatted station than the average listener.

Spanish Stations
578

Total Stations
13,307

Note: Due to rounding, totals may differ.

Audience Share by Region
Index Based on 94 Markets; 100 = National Average, Mon-Sun, 6AM-Mid, Persons 12+, AQH Shares
Urban

Includes Urban A/C and Urban Oldies.

**A Few Format Highlights**

More Women 18+ (56 percent) listen to Urban-formatted stations than Men 18+ (44 percent).

Like the CHR audience, Urban listeners are young: 78 percent of them are 44 or younger.

Note: Due to rounding, totals may differ.

*Radio Today* contains general statistics on radio and listening trends. All data included in this review are from Arbitron’s Spring 2000 survey.

Data for charts and graphs come from Arbitron’s American Radio Listening Trends, Maximizer 99SM/Media ProfessionalSM. The American Radio Listening Trends combine radio listening data in Arbitron’s 94 continuously measured markets with Arbitron’s own format information.

The markets listed below were determined using Arbitron’s Spring 2000 population rankings.

**Spring 2000 Top 25 Radio Metro Markets**

1 New York  14 San Diego
2 Los Angeles  15 Phoenix
3 Chicago  16 Minneapolis-St. Paul
4 San Francisco  17 St. Louis
5 Philadelphia  18 Baltimore
6 Dallas-Ft. Worth  19 Tampa-St. Petersburg-Clearwater
7 Detroit  20 Pittsburgh
8 Boston  21 Denver-Boulder
9 Washington, DC  22 Cleveland
10 Houston-Galveston  23 Portland, OR
11 Atlanta  24 Cincinnati
12 Miami-Ft. Lauderdale-Hollywood  25 Riverside-San Bernardino
13 Seattle-Tacoma
Glossary

**Average Quarter-Hour Persons (AQH Persons)**
The average number of persons listening to a particular station for at least five minutes during a 15-minute period.

**Average Quarter-Hour Rating (AQH Rating or AQH PUR)**
The average Quarter-Hour Persons estimate expressed as a percentage of the population being measured.

\[
\frac{\text{AQH Persons}}{\text{Population}} \times 100 = \text{AQH Rating (\%)}
\]

**Cume Persons**
The total number of different persons who tune to a radio station during the course of a daypart for at least five minutes.

**Cume Rating or Cume PUR**
The Cume Persons audience expressed as a percentage of all persons estimated to be in the specified demographic group.

\[
\frac{\text{Cume Persons}}{\text{Population}} \times 100 = \text{Cume Rating (\%)}
\]

**Format Share**
The percentage of those listening to radio in the Metro who are listening to a particular radio station format.

\[
\frac{\text{AQH Persons to a specific format}}{\text{AQH Persons to all formats}} \times 100 = \text{Share (\%)}
\]

**Index**
A numerical comparison of one percentage to another, with an index of 100 being the norm.

**Time Spent Listening (TSL)**
An estimate of the amount of time the average listener spent with a station (or total radio) during a particular daypart. This estimate, expressed in hours and minutes, is reported for the Metro only.

\[
\frac{\text{Quarter-Hours in a time period}}{\text{Cume Audience}} \times \frac{\text{AQH Persons}}{\text{Persons}} = \text{TSL}
