Introduction

Radio Today looks at the evolving relationship between radio and its varied listeners. There are more than 13,000 radio stations currently broadcasting around the country. Radio Today illustrates that radio continues to be one of the most popular and pervasive forms of media among Americans. The information it provides will help demonstrate to advertisers that radio is the ideal medium for reaching across all segments of the American population anytime or anyplace.

Listening Patterns

Recognizing Radio’s Reach
Radio reaches nearly 95 percent of the U.S. 12+ population each week. On average, Americans spend about 20.5 hours per week listening to their favorite stations. These numbers have remained steady across recent surveys despite a growing number of consumer media options. Radio clearly remains a popular media choice among consumers.

Radio Rules
The impressive number of radio stations broadcasting in the U.S. today is a testimony to radio’s never-waning popularity. Although the number of AM stations has remained fairly constant over the past 30 years, the number of FM stations has more than tripled.

In 2001, there were a total of 13,511 radio stations across the U.S: 11,047 were commercial stations and 2,464 were non-commercial stations. Arbitron surveys 13,209 of these stations.

Radio Reaches All Ages

Battle of the Sexes

The number of people listening to radio weekly is fairly consistent across genders for people 18-64. Interestingly, the youngest male and the oldest female age groups are the least likely to tune in to radio each week. Teenagers of both sexes tend to spend less time listening than any other age group.

Among men, share of radio listening (96.5 percent) peaks among 35- to 44-year-olds. This group also spends the most time listening (22:45). Men 65+ are the least likely to tune in each week (90.6 percent), followed by teenage boys 12-17 (91.9 percent). Male teens spend the least time listening (12:30).

Share of radio listeners (97.1 percent) peaks among teenage girls. Teenage girls, however, spend significantly less time listening to radio (16:00) than their older counterparts. Older women, 65+, are the least likely to tune in each week, but when they do, they spend the most time listening (21:15). Otherwise, listening patterns for women 18-64 don’t vary greatly by age.

Source: Arbitron’s American Radio Listening Trends
Hour-by-Hour Listening

Timing Is Everything

Radio listening peaks most noticeably during wake-ups and commutes at 7AM every weekday. Listening remains strong through 6PM, after which it begins to taper off.

On weekends, listening is at its highest between the hours of 9AM and 3PM.

Regardless of the day of the week, listening drops to its lowest levels while most people are sleeping—12Midnight through 5AM.

Source: Maximizer® 8.0/Media ProfessionalSM, Spring 2001, Top 50 Markets, Mon-Sun, 5AM-5AM
Overnight Listening

Tuning In at Twilight

Overnight listening patterns remain consistent across age groups but not across genders. Men of all ages are more likely than their female counterparts to tune in to radio from 12Midnight to 6AM.

Weekly time spent listening from 12Midnight to 6AM is fairly consistent for both men and women and among listeners of all ages.

Source: Arbitron’s American Radio Listening Trends
Where People Listen: Weekdays

Radio Is a Moving Medium

Monday through Friday, the majority of radio listeners tune in at home in the morning before 7AM and in the evening after 7PM.

Between 8AM and 6PM a giant shift occurs, with 65 percent to 75 percent of radio listening occurring at places outside the home.

Weekday Listening, AQH Rating
Mon-Fri, Total Day (5AM-5AM)

Source: Maximizer 8.0/Media Professional, Spring 2001, Top 50 Markets
Where People Listen: Weekends

Strong Weekend Listening at Home

Not surprisingly, listening on weekends is more likely to take place at home. Peak listening hours are before 12Noon and after 7PM. Between those hours, away-from-home listening climbs to between 49 percent and 51 percent.

Source: Maximizer 8.0/Media Professional, Spring 2001, Top 50 Markets
Where Men and Women Listen

Radio Is an Out-of-Home Medium for Adults 18-64

The over-65 crowd spends more time listening at home than any other age group. Interestingly, teenage girls spend a surprising amount of time tuning in at home, as well. Women across all age groups tend to listen at home more than their male counterparts.

Conversely, men are more likely to listen to radio away from home; 25- to 54-year-old men are the most likely to tune in at work or at some other location outside the home.

Source: Arbitron’s American Radio Listening Trends, AQH Rating
Listening Location

At Home, at Work, or in the Car—Radio Goes Along

One of the great strengths of radio has always been its portability. Radio has the flexibility to reach listeners at home, in the car, at work, or at other away-from-home locations. And listening location can shift dramatically, depending on the time of day during the week (Monday through Sunday, 6AM to 12Midnight).

At night (7PM to 12Midnight), at-home listening hits a high of 61.2 percent. In-car listening is more consistent across dayparts, with peak listening occurring during the times most people are commuting to and from work (37.7 percent). At work, 43.5 percent of listening occurs on weekdays between 10AM and 3PM.

Listening by Daypart

Who’s Listening When

Different age groups listen to radio at different times. Peak listening times for most men and women are weekday mornings from 6AM to 10AM and late afternoons from 3PM to 7PM. Teenagers are most likely to tune in on weekends and weekday afternoons, after school. The Monday-Friday midday time slot (10AM-3PM) captures the attention of more women than men. Monday through Friday, the most dedicated nighttime listeners are teens and young Adults 18-24.

People’s Favorite Formats

This section highlights 13 specific formats available to millions of people across the country. The information illustrates that every format is unique and attracts its own distinct audience. It also demonstrates radio’s effectiveness in targeting its audience and reinforces the fact that there is a format out there for everyone!

Here is a sampling of the facts you’ll find in the following pages:

Teens 12-17 strongly prefer to listen to music that is “current”—formats such as CHR (pages 21-22) and, to a lesser extent, Urban (pages 39-40) and Alternative (pages 19-20). As they get older, young adults 18-24 lean more toward Alternative music while maintaining a continued interest in CHR and Urban.

Adults 25-34 retain their habit of strong listening to Alternative (pages 19-20) but are open to a wide variety of new sounds and stations: Rock (pages 35-36) and Spanish (pages 37-38) are strong favorites, but Urban (pages 39-40), CHR (pages 21-22) and AC (pages 15-16) are popular formats, as well.

After age 35, format preferences start to change. Rock (pages 35-36) is the first listening choice, but formats that hark back to an earlier era—AC (pages 15-16), New AC/Smooth Jazz (pages 27-28) and Oldies (pages 31-32)—are increasingly popular.

New AC/Smooth Jazz (pages 27-28) is the format of choice for older baby boomers in the 45-54 age group, followed closely by Oldies (pages 31-32). Classical (pages 23-24) takes first place for Adults 55-64, with Adult Standards (pages 17-18), New AC/Smooth Jazz (pages 27-28) and News/Talk/Information (pages 29-30) emerging as strong contenders, as well.

Adults 65+ have a very clear favorite—65.5 percent of their listening is devoted to Adult Standards (pages 17-18). Classical (pages 23-24) and News/Talk /Information (pages 29-30) are also popular formats for this crowd.

Source: All data come from Arbitron’s American Radio Listening Trends.
AC

Encompasses all variants of Adult Contemporary: Soft/Light, Hot AC, Mainstream AC, Full-Service AC and Adult Rock.

A Few Format Highlights
Sixty-four percent of the AC audience are Women 18+, and 36 percent are Men 18+.

Approximately half of the AC audience is aged 25-44.

Note: Due to rounding, totals may differ.
Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
Thirty-nine percent of Adult Contemporary listening is done at work.

AC has the second highest AQH share after News/Talk/Information.

AC has the second highest share of listening in three dayparts: M-F 6AM-10AM, M-F 10AM-3PM, and M-F 3PM-7PM.

New Englanders are 51 percent more likely to tune in to Adult Contemporary when compared with other regions of the country.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
Adult Standards

Features a substantial amount of pre-Rock era music: Includes Easy Listening, Middle-of-the Road, Nostalgia and Variety outlets.

A Few Format Highlights

Fifty-eight percent of the Adult Standards audience are Women 18+; 42 percent are Men 18+.

Sixty-five and a half percent of Adult Standards’ listening audience are Adults 65+. No other format has such a large share of its audience in a single age group.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.

© 2002 Arbitron Inc.

2001 Radio Today
Adult Standards

Adult Standards listeners strongly prefer to listen at home. Sixty-four and a half percent listen at home, while about 24 and a half percent listen in their cars.

The most popular dayparts for listening to Adult Standards are weekdays 10AM to 3PM and weekends.

Adult Standards has its largest following among listeners in the Mountain region, where they are 59 percent more likely to tune in than the average listener.

### AQH Share of Listening by Location

**Mon-Sun, 6AM-Mid, Persons 12+**

- **At Home** 64.5%
- **In Car** 24.4%
- **At Work** 9.9%

18 2001 Radio Today
Alternative

Includes stations billing themselves as “Album Alternative” and “New Rock.”

A Few Format Highlights

Sixty-four percent of Alternative’s listeners are Men 18+, and 36 percent are Women 18+.

Alternative appeals most to the under-50 crowd—89 percent of the audience are aged 44 or younger. Adults 25-34 account for approximately one-third of Alternative listeners and are more likely to listen to Alternative than to any other format.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
Alternative

Alternative listeners tune in wherever they can. These listeners spend more time listening in cars (36.5 percent), but they are also listening at home (30.6 percent) and at work (29.5 percent).

Alternative listeners can be found tuning in 6AM to 10AM (5.4 percent) and 7PM to 12Midnight (5.3 percent) Monday through Friday.

New Englanders and those in the Mountain region are much more likely to tune in to Alternative than the average listener.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron's American Radio Listening Trends.
CHR

Contemporary Hit Radio emphasizes current hit music. Also known as Top 40. Includes stations specializing in “Pop CHR” and “Rhythmic CHR.”

A Few Format Highlights
CHR listeners are more likely to be women than men. Fifty-eight and a half percent of this audience are Women 18+.

Of all formats, CHR has the highest share of teen listeners (26 percent). Approximately three-quarters of its listeners are 34 and under.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.

Audience Composition
Percent of Format Audience by Demographic
Mon-Sun, 6AM-Mid
More CHR listening occurs at home (41 percent) than in the car (34 percent) or at work (21 percent).

This format has a greater share of evening listening (16.4 percent) than any other.

CHR performs best in the Middle Atlantic (122) and New England (124) regions.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
Classical

Consists of fine-arts music and talk. Includes classical compositions, opera, theater and commentary.

A Few Format Highlights

More than half (54 percent) of Classical’s listening audience are Women 18+. Men 18+ make up the balance of 46 percent. Adults 55+ account for 64 percent of listening to Classical stations; 35- to 54-year-olds make up an additional 27 percent. Clearly this is a format with great appeal for middle-aged and older adults.

Note: Due to rounding, totals may differ.
Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
Classical

More than half of all Classical listening is done at home.

Classical listening climbs slightly through the day, peaking in the evenings and on weekends.

New Englanders (220) are more than twice as likely to listen to Classical than the average listener.

New AC/Smooth Jazz

Includes Jazz, New Age and New Adult Contemporary formats. Primarily instrumental based but featuring some compatible vocals.

A Few Format Highlights

NAC/Smooth Jazz has slightly more Adult Women 18+ (53 percent) in its audience than Adult Men (47 percent).

Adults 35-44 make up the core of NAC/Smooth Jazz’s audience (24 percent).

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
New AC/Smooth Jazz

Listeners to NAC/Smooth Jazz tend to listen more at home (38 percent) than at work (33 percent) or in their cars (27 percent).

Listeners tune in to NAC/Smooth Jazz pretty evenly across the dayparts. Weekday mornings from 6AM to 10AM have the smallest audience.

NAC/Smooth Jazz has above-average shares of listening in the East North Central, Mountain and Pacific regions.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
**News/Talk/Information**

Includes news, business news, talk and sports formats.

**A Few Format Highlights**

Fifty-nine percent of the News/Talk/Information audience are Men 18+; 41 percent are Women 18+.

Almost a third of all News/Talk/Information listeners are Adults 65+.

© 2002 Arbitron Inc.
Religious

More than half (51 percent) of Religious radio listening occurs at home, and one-third (34 percent) occurs in cars.

The largest share of listeners tune in to Religious stations on the weekend.

The religious format has high audience shares in the South Central (185) and South Atlantic (150) regions.

Note: Due to rounding, totals may differ.

Source: Format definitions are from Arbitron. All data come from Arbitron’s American Radio Listening Trends.
**Rock**

Rock-based music from the mid-'70s to the present. Includes Album Rock and Classic Rock.

**A Few Format Highlights**

This is a format with tremendous appeal to men. Seventy-three percent of Rock's listeners are Men 18+. No other format can claim such a large share of adult male listeners.

Rock has a higher audience composition among Adults 25-44 (61 percent) than any other format.

Glossary

**Average Quarter-Hour Persons (AQH Persons)**
The average number of persons listening to a particular station for at least five minutes during a 15-minute period.

**Average Quarter-Hour Rating (AQH Rating or AQH PUR)**
The average Quarter-Hour Persons estimate expressed as a percentage of the population being measured.

\[
\text{AQH Persons} \times \frac{100}{\text{Population}} = \text{AQH Rating (\%)}
\]

**Cume Persons**
The total number of different persons who tune to a radio station during the course of a daypart for at least five minutes.

**Cume Rating or Cume PUR**
The Cume Persons audience expressed as a percentage of all persons estimated to be in the specified demographic group.

\[
\text{Cume Persons} \times \frac{100}{\text{Population}} = \text{Cume Rating (\%)}
\]

**Format Share**
The percentage of those listening to radio in the Metro who are listening to a particular radio station format.

\[
\frac{\text{AQH Persons to a specific format}}{\text{AQH Persons to all formats}} \times 100 = \text{Share (\%)}
\]

**Index**
A numerical comparison of one percentage to another, with an index of 100 being the norm.

**Time Spent Listening (TSL)**
An estimate of the amount of time the average listener spent with a station (or total radio) during a particular daypart. This estimate, expressed in hours and minutes, is reported for the Metro only.

\[
\frac{\text{Quarter-Hours in a time period}}{\text{Persons in Cume Audience}} = \text{TSL}
