TELEVISION DIGEST WITH CONSUMER ELECTRONICS

The Authoritative Service for Broadcasting, Consumer Electronics and Allied Fields

Television Digest has been keeping leading communication executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. Tack Nail, covering broadcasting, and Paul Gluckman, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on Marketing strategies... programming plays... personnel shifts...and current standings in the revenue and ratings picture.

Television Digest regularly includes statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.
