TELEVISION DIGEST WITH CONSUMER ELECTRONICS

The Authoritative Service for Broadcasting, Consumer Electronics and Allied Fields

Television Digest has been keeping leading communication executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. Tack Nail, covering broadcasting, and Paul Gluckman, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of TVD provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. Television Digest also gives you the latest news on Marketing strategies... programming plays... personnel shifts...and current standings in the revenue and ratings picture.

Television Digest regularly includes statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, TVD provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

Assignments Affecting Borders

Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canada and Mexican borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Plus (+) and Minus (-) symbols designate offset carrier positions of channels. (L) indicates limited allocation under "Working Arrangement" of Canadian-U.S.A. Television Agreement of 1952 as modified; or a limitation for other reasons.
