WARREN'S CABLE REGULATION MONITOR

The Authoritative Weekly News Service Covering Federal, State and Local Cable Activities and Trends

Warren's Cable Regulation Monitor is directed to all professionals who have a strong interest in cable and the effects of cable regulation, particularly those decision-makers who would like detailed coverage of FCC rulemakings, precedents, complaints, waivers, Cable Act-related lawsuits and important timely news coverage.

Published weekly and mailed first class to reach most desks on Monday mornings, **Warren's Cable Regulation Monitor** offers you information so current and comprehensive, you, as a subscriber, will be among the first to learn of significant rate decisions, major developments and serious industry problems.

The Monitor details rate increases made by local cable systems, broken down into groups of comparable systems, and all subscriber complaints filed and FCC decisions resulting...to help cable operators and regulators determine whether their own proposed rate increases are reasonable in light of the 1992 Cable Act and subsequent rule-makings.

Warren's Cable Regulation Monitor coverage includes...

- Definitions of cable markets
- Must-carry and channel position disputes
- Program access complaints
- Overbuilds, SMATV, wireless cable, satellites and other technologies with an impact on effective competition
- Retransmission consent agreements
- Franchise renewals and franchising authorities
- certified by the FCC
- Customer service and technical standard disputes and waivers Activities of state associations and regulators

Become a Subscriber to the weekly information service focused entirely on cable and cable regulation. **Warren's Cable Regulation Monitor** will keep you up-to-the-minute with the constantly shifting ramifications of the 1992 Cable Act.

WHAT THE

What your viewers want now

WORLD NEEDS

is a message of hope, TV with meaning,

NOW IS LOVE.

and a safe place for families to share.

National polls show that most of America's families think television is way too violent, shows too much sex and contributes to the rapid decline of morality among our nation's young people.

That's why cable operators like you are turning to Superstation WPCB, the Christian alternative which offers much more than the simple message of God's love—

We have terrific children's programming like *Gerbert* and *Adventures in Dry Gulch* plus great family-building shows like *Marriage Plus* and *Family Enrichment*. Sports fans will love *Sportsweek*, an exciting weekly program with former pros giving expert analysis of the week's top sports stories! Teens will enjoy *Straight Talk*, and everyone loves *His Place*, the innovative slice-of-life program which discusses tough issues in the setting of a friendly diner...

There's much more besides, and it's exactly what your viewers want right now. Call David Skeba, Vice President of Programming today for more information about Cornerstone TeleVision's Superstation WPCB. Call (412) 824-3930.

TELEVISION DIGEST WITH CONSUMER ELECTRONICS

The Authoritative Service for Broadcasting, Consumer Electronics and Allied Fields

Television Digest has been keeping leading communication executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. Tack Nail, covering broadcasting, and Paul Gluckman, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on Marketing strategies... programming plays... personnel shifts...and current standings in the revenue and ratings picture.

Television Digest regularly includes statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

They're setting the rules for the Internet.

We're watching.

Get It First
Get It Right

Internet copyright and intellectual property; taxation, fraud and e-commerce regulation; privacy, pornography and the First Amendment; antitrust and domain name administration...

Like it or not, rules are being set right now involving these and dozens of other crucial Internet issues. Some may be resolved by industry self-regulation, but others are proving just too attractive for lawmakers and regulators at all levels -- federal, state, and even local.

Washington Internet Daily covers and uncovers the rulemaking process as it's happening, wherever it happens -- on Capitol Hill; at the Justice Department or in the courts; at the SEC, the Federal Communications Commission or the Federal Trade Commission.

Everywhere. Every day.
