- Nielsen Cable TV Household Estimates alphabetical by DMA ........................................ F-9
- Nielsen Cable TV Household Estimates by State .............................................................. F-11
- U.S. Cable Systems by Subscriber Size ........................................................................... F-2
They’re setting the rules for the Internet.

We’re watching.

Internet copyright and intellectual property; taxation, fraud and e-commerce regulation; privacy, pornography and the First Amendment; antitrust and domain name administration...

Like it or not, rules are being set right now involving these and dozens of other crucial Internet issues. Some may be resolved by industry self-regulation, but others are proving just too attractive for lawmakers and regulators at all levels -- federal, state, and even local.

Washington Internet Daily covers and uncovers the rulemaking process as it’s happening, wherever it happens -- on Capitol Hill; at the Justice Department or in the courts; at the SEC, the Federal Communications Commission or the Federal Trade Commission.

Get It First Everywhere. Every day.

Get It Right

Washington Internet Daily
