TOTAL	\$15,319,634,379	\$13,099,414,195	\$22,490,029,441	\$50,909,078,015

Note: Dollar volume figures represent total considerations reported for all transactions with exception of minority interest transfers in which control of stations did not change hands and stations sold as part of larger company transactions. Although all sales have been approved by the FCC, they may not necessarily have reached final closing. Prior to 1978, combined AM-FM facilities were counted as one station in computing total number of stations traded. Now AM-FM combinations are counted as two stations.

*Figures represent group deals involving combinations of radio and TV stations, multiple TV stations, or multiple radio stations. In 1985, mergers of large groups with collateral interests could not be evaluated, since individual stations were not broken out of larger sales.
