TRY NATIONAL UNION'S New "80"

- ONLY Tube with corrugated plate
- higher output
- longer life
- greater safety
- better reception
- unconditional written guarantee

Hear "Capt. Dobbsie" every Mon., Wed., and Fri., 8 to 8:15 a.m. over Columbia Network
DURING a recent visit to this country, an English commentator, allegedly somewhat of a person in his own land, contrived to secure time on the air in which to express his profound impressions of America and Americans. For this valuable, albeit unrequested service we presume he was proportionately paid, and in American money—which, if our hypothesis be correct, he was not loathe to accept.

Happening to tune in on one of this learned gentleman's enlightening broadcasts, we were privileged to hear him bemoan the absence of "afternoon tea" in America, adroitly but nevertheless pointedly disparage certain American traits, and opine that the Radio broadcasting of paid advertising, as done in this country (much to his astonishment), is an outrage against the home. It was stated that the English home is considered too "sacred" to permit such a practice.

Broadcast Weekly is in no way prejudiced against this probably well-intentioned Englishman or his cultured country. But, where Radio is concerned, we cannot permit such unwarranted inference to go unchallenged, whatever the status or nationality of the spokesman. In no other country under the sun is home so hallowed, reverenced, and safe in the enjoyment of so many precious prerogatives and comforts as in the United States of America. Our colonial forbears dared death in an unexplored wilderness for the very purpose of establishing such a home, after persecution convinced them it was impossible elsewhere.

The people of no other country enjoy the number, diversity, or caliber of Radio programs such as make up the American's every-day ether fare. If the advertisers whose sponsorship make these programs possible were not allowed to buy time on the air most of them would spend the same money for advertising in some other form or medium; and the public, in addition to absorbing this amount in its merchandise purchases (although advertising does not increase the cost of commodities to the consumer), would also have a hundred million dollar program bill to pay direct.

Newspapers and magazines carry advertising—even in dear, old England. If advertising in one form violates the sanctity of the home, then media which carry so much as these can scarcely be excepted. Can you vision the homes of England, or of any other civilized country, without magazines or newspapers? Then wherein lies the justice or advantage in criticizing Radio for a far smaller advertising content than other forms of enlightenment and entertainment whose propriety and necessity are not questioned?

Newspapers run as high as 80 per cent to 90 per cent advertising. Less than 40 per cent of all Radio programs are commercially sponsored. And the sponsor is permitted but a few words of advertising during any fifteen-minute period. Competitive pressure results in some broadcasters occasionally giving the sponsor more latitude; but abuses can, must, and will be eliminated as this infant industry hits its stride.

In the final analysis, powerful as it is, Radio cannot force its way into any home. It can enter only at the invitation and by the act of someone in the home, and its stay can be terminated instantly at the slightest provocation. As a matter of fact, home standards have been violated more often and outrageously by the tenor of the programs themselves than by the sponsor's advertising, and some of the worst offenses have been committed by programs which had no sponsor and carried no paid advertising. And, as between a snappy American advertising talk and the trite and superficial impressions of a self-appointed foreign critic, not a few of us prefer the former
• • • It was in Cleveland that Gene and Glenn, who in private life are Gene Carroll and Glenn Rowell, started on the road to nation-wide fame. Previously they had broadcast over local stations in Cincinnati and Chicago, and each had played in vaudeville before the radio team was formed. Carroll, who plays "Jake," "Lena" and himself on the air, was born in Chicago, toured in vaudeville and musical comedy, and went into radio as a member of the team of Jack and Gene. Rowell, the piano player and "straight" man of the present act, hails from Pontiac, Ill. He, too, was in vaudeville, and came to the microphone as a member of a team called Ford and Glenn. The two teams met in Cincinnati, and Carroll and Rowell formed the present team of Gene and Glenn.

• • • For the first time, Amos 'n' Andy and Bill Hay all are being heard from outside the Chicago NBC studios. Hay, their announcer, accompanied them on a vaudeville tour which began in Toledo, October 13. During all previous vaudeville tours of Gosden and Correll, Hay remained in Chicago and did his speaking from there, Amos 'n' Andy then cutting in with the nightly episodes from the city in which they were playing. This time, however, the entire program except for the theme song, originates at a point outside Chicago.

• • • Jeffrey Gill, vocalist formerly with KFRC, has been beautifully received in the East. He has just completed a contract at the Coronado Hotel in the lovely Club Caprice (St. Louis, Mo.). He went from there into the Park Casino in New York and we will be hearing his voice over the CBS airwaves starting in November. Contracts have been arranged for him to sing in London in February. Good luck to you, Jeffrey.

• • • Despite his 230 pounds, Jack Smart, character actor in the Town Hall Tonight show, is one of the best dressed men in radio. He goes in for ultra effects. These days he can be seen in a cocoa brown suit, linen shirt of the same color and a canary-colored necktie.

• • • Listeners to KFWB Hi Jinks are wondering where Don Smith came from— and how he "arrived" as leader of the Sunday Night Show so quickly? Smith was born in Seattle, attended the Washington State University. Graduated in the theater as soloist. Took over an emcee job, when regular emcee failed to show up. Was successful and held position for two years. Was called to San Francisco to open El Capitan Theater . . .

• • • Twenty-five people from eight different states took time off from viewing A Century of Progress to visit the Chicago NBC studios in search of Vic and Sade recently. They didn't get to see the broadcast (its in a studio which has no facilities for an audience) but they did get to meet Vic, Sade and Rush in the lobby.

• • • "Brick" Holton, featured singer on KYA's Bathady Party and former trans-continental broadcaster, is the brother of the late "Feck" Holton, whose ability was well known throughout the country. "Feck" was a composer, an arranger and pianist deluxe.

• • • There's one thing about broadcasting that Fields and Hall don't like. That's the rule which prohibits smoking in the studios. So Art Fields, the shorter member of this popular NBC song and patter team, has just worked up an act about hoboes that requires both of them to have cigars in their mouths while they are on the air. "This makes it all right for us to smoke cigars," explains Art. "because they'll come under the classification of sound effects."

• • • Charles Forsyth (KFI) will tell you "There IS a Santa Claus!" You see, a well-to-do friend of the sound effects expert borrowed his car, and when it was returned Charlie found his friend had installed therein one of the finest auto radios money could buy.

• • • Before Miss Mary Pickford agreed to go on the air as a professional radio artist, she turned down many offers of commercial sponsors. In some cases she refused to identify her name with certain products, in others she rejected lucrative offers because of the characters she was to portray. She signed her present contract only after the sponsors agreed to permit her to present dramatic plays and to have a final word as to the vehicle and the cast.

• • • The program building department of KOMO-KJR has among its members Miss Virginia Kiley, who is the only woman member of the Washington Institute of Architects. Miss Murray graduated from the University of Washington in 1930 as a graduate architect, with a Liberal Arts Degree.

Stayed there two years. Came to Paramount Theater in Los Angeles. Played at various night clubs . . . was special artist on former Hi Jinks. Both Jerry King and Jack Joy elevated Smith to his new role of emcee of the Sunday Night Hi Jinks!...
in Architecture. She is using her many abilities in helping program director, Willard Warren build pleasing programs for radio stations KOMO and KJR.

- Midge Williams, KFRC’s dusky contribution to the ultra-warbling of ultra-popular songs, is well on the way up the ladder. Recently a noted local music house, after arranging with her to plug a song for them, placed her picture on the sheet music cover. KFRC staff members are also agog over the fact that Midge has joined other ascending radio stars and is commuting to Hollywood week-ends, where the RKO picture corporation is auditioning her for singing roles.

- Al Pearce, radio’s most publicized fisherman, has proved himself an old “softie” with the rod and reel. He took his Fiddlers Three, Yogi Yorgesson, the Lee brothers and Derry of the Three Cheers on a jaunt to Mexican waters after the yellow-tail and tuna. The bunch reports that Al spent most of his time baiting other people’s hooks. And when he’d get a big yellow-tail on his line he’d give the pole to somebody else to land him.

- None of this hunt-and-peck system of typing for Amos ’n’ Andy. Charles J. Correll (Andy), who types the daily scripts while he and Freeman F. Gosden (Amos) work them out, uses the touch system and types so fast that Amos sometimes fears that the machine will catch fire. Andy also knows shorthand and plays the piano.

- Nobody knows any better than Lanny Ross what trials and tribulations the young, unknown artist has to face in his fight for recognition. A few short years ago Lanny was an obscure college boy with only a golden voice and unrealized ambitions. And that past is still very vivid in his mind. For that reason, Lanny is extending a helping hand to other young people who have talent and the desire to work and succeed.

- Johnny Murray and his band of “Frolic-ers” received the surprise of their lives at a recent personal appearance in Bakersfield. Instead of the expected 7,000, they were greeted by a throng of 19,000 enthusiastic admirers.

- Tiny Rosen, who was Paul Whiteman’s trumpet soloists for approximately seven years, is being heard on KFRC’s Happy-Go-Lucky Hour, afternoon variety show. Rosen, who was featured by Whiteman in many of his transcontinental broadcasts, is also an imitator of no little ability.
CLAUDE SWEETEN, young musical director of KFRC, San Francisco, who is heard over the Columbia-Don Lee affiliated stations in the Blue Monday Jamboree, Features Parade, Saloon Merry-go-round, and other popular network features, has been playing the violin as long as he can remember.

Coming from a musical family—his father and mother both being professional musicians—it was only natural that he should follow tradition, and when only a youngster, started mastering the violin.

Sweeten was born in Menden, Utah, and attended Salt Lake City public schools. When he was eight years old, his mother made him take up the violin in a serious way, although he at first protested because it interfered with his youthful sports.

Encouraged by his family and friends, Sweeten made unusual progress and soon became known as a child prodigy in his home town. In 1911 he won first prize in a violin contest and that settled the question. It resulted in the youth of fifteen years being sent to the New England Conservatory of Music in Boston, Mass., where he spent three years studying under the direction of noted masters of the violin, making his professional debut in that city shortly after with a string ensemble.

This lead to a series of important engagements in Eastern and Pacific Coast musical centers. When he stopped off in Salt Lake City to visit relatives and friends one day, Sweeten was invited to become concert master of the Salt Lake Philharmonic Orchestra. Then he landed a job as musical director in a theatre there.

The World's War brought Sweeten to the San Francisco bay region in 1917, when he was stationed at Mare Island as a sergeant in the Marine Corps. He liked San Francisco so much that he returned when mustered out of service.

In 1922 he was invited to become musical director of the RKO-Golden Gate Theatre. His success was phenomenal and Sweeten held that position for more than ten years. Then radio called, and the maestro, who is only 38 years old, made his debut before the mike in 1927. Sweeten joined the Columbia Don Lee Broadcasting System in 1933 as musical director of KFRC.

Although his responsibilities are many, Sweeten finds time to indulge in a bit of golf, and when not with his wife and little daughter Shirley, he can be found hiking along the beach with his dog, a thoroughbred of the Hound breed.

He can write music too, but his greatest pride is his violin, which he made himself.

It took Sweeten six months to construct the instrument, and he almost lost a finger in the process.

VIVIAN JANIS, brown-eyed, vivacious songstress featured over the Columbia Broadcasting System with Leon Belasco's orchestra, was born May 29, 1913, in Omaha, Nebraska. Her father and mother were actors and she was a typical stage child. She troup ed all over the midwest and south while her parents played in various stock companies. During these travels, Vivian received her formal education in a dozen cities or more, and also her mother helped to tutor her. She was graduated from high school in 1930.

She started her career as a professional entertainer at the age of five. Vivian sang "It's a Long Way to Tipperary" as a production starring father and mother. Since then she has played "bits" in dozens of plays.

In 1931, after finishing school, Vivian was working in a Chicago night club. Dick Stabile, a member of Ben Bernie's orchestra, heard her sing, was impressed by her voice, and asked for an introduction. Stabile arranged for Bernie to hear Miss Janis sing. Bernie immediately offered her a contract which she accepted. She made her radio debut over Columbia as a guest star on Ben's program from the College Inn in Chicago.

After working several weeks in Chicago, Vivian went on a vaudeville tour with Bernie. In the fall of 1932 she joined the cast of the Chicago production of "Girl Crazy" and when the play ended she came to New York with Belasco's orchestra.

After singing in New York for a short time she was booked for another vaudeville tour—this time with her own act. Shortly after starting the tour she was offered a place in the "Follies of 1934," which she accepted, and returned to New York. She sings with Belasco at the St. Moritz and is heard several times a week on Columbia's sustaining programs.

Vivian is a small and attractive blonde. She has brown eyes and light, wavy brown hair. She lives with her parents and still spends much of her spare time studying. Recently she completed a course in stenography.

She likes to take long walks, ride and swim. Her hobby is baseball, at which she excelled in school. If only she weren't a girl, Vivian says, she would like to be a professional baseball player. She's an ardent Yankee fan and a great admirer of Babe Ruth. She expects to see as many games this summer as her work will permit.
A Hope We Devoutly Wish Consummated

I enjoy your little magazine very much, and especially like the way programs are listed; think Classified Chain Programs and Station Directory on lack of cover a great improvement. I think we have many fine programs. Among my favorites are One Man's Family, Winning the West, Memory Lane, First Nighter, Death Valley Days, Myrt and Margie, Tales from Shakespeare, Palm Olive Hour, Firestone, Rudy Seiger's Orchestra and Hornik's Viennese Program. Am very sorry the University Explorer is off the air, and hope he will return soon. I think Captain Henry's Showboat is splendid. Hope the future will bring less jazz and crooners and more educational programs in the evening, and band music. So many of us cannot get day reception. I have taken "Broadcast Weekly" for several years, and as my check will show, cannot get along without it.

O. E. W., Eureka, Calif.

Another Chas. Hart Fan

I wish to enter my protest against cutting out Chas. Hart which we all enjoy as the best music, and are sick and tired of Doodlebugs and crooners.

I have taken your "Broadcast" for years and cannot live without it. I have to count my pennies. "Crosscut from the Log of the Day" is one of our best programs and I am sure that in every way and no one can complain that he lies a religious program. He gives us the finest programs without religion mixed in that some might complain of why cannot we have him when the children can hear and join in or, not too late in evening when busy people must be in bed to be ready for the work of the following day and am sure that at least half of his audience is deprived of hearing him now.

Very truly yours,
(Mrs.) Mary J. C., Berkeley, Calif.

This Reader Bids Spades

Why in the "h" do we have to have so many programs with men using cracked, silly voices and others using childish stuff? I like advertising and it is educational when done in a high class manner, but Heaven save us from all this confounded silly stuff. I enjoy comedy, but comedy is not silly "dry rot." We have lots of good programs and many I feel like I miss a lot of good stuff when I do not have time to hear them. I am not a chronic complaint writer, but "them thar are my sentiments" about that silly nonsense stuff.

Mrs. F. C., Montesano, Wash.

And Where is the Payoff!

"Radio performers practice from five to fifteen hours in the studio for every hour of actual broadcasting."

The above explains itself, and if some of these disgruntled persons who write their disgust of certain programs could think of the broadcasters, the time they put in to make others happy, they might be more lenient with their criticism.

If one could forget self and use patience regarding programs on the air, and when one does not please, turn to another station or shut off their radio, knowing others must be considered as enjoying it.

We are indeed blessed that we have radio programs at all, and free. I am a constant listener and turn to the programs that please, regardless of station. I could not do without the fine magazine, "Broadcast Weekly." I like the present form of program, made each half hour broadcast; is very easy to follow. Your editorials are much enjoyed, as well as all that the fine magazine contains.

A. B. A., Seattle, Wash.

A Deficiency of Good Music

Like others who have written you more fully, I observe a great deficiency of good music and an excess of the other kinds, and should like to see improvement. I also wish to complain of the change in the time of the Bible Story on Sunday from 11-12 to 12-1. The latter, I should think, is very inconvenient to most people, and I should be glad if the old arrangement could be restored.

F. A. T., Napa.

Stations Please Remedy This

Some time, when in want of a subject to write above, suggest to the announcers not to have music playing when they talk to the radio listeners; also about music being played loudly when vocalists are singing, as we prefer to hear the singing. Loud music drowns out the singer's voice.

J. P. Z., Saratoga, Calif.

Glenn Please Note

I enjoy your little magazine very much. I think it's the very best of its kind to be found. I enjoy One Man's Family, Death Valley Days, The Crockett Family and many others.

I have been looking for a picture of Glenn Hardy, KNX announcer, in the "Broadcast Weekly" for a long time. Can't we have it? In our neck of the woods he is known as the "Man with the Smiling Voice." We'd all like to see what he looks like.

Would like to see a picture of the Crockett Family from KNX, also Gene and Glenn of Gillette Blue Blades.

Best wishes for your magazine.

L. C. M., Areata, Calif.

We're Sorry, Too

I appreciate "Broadcast Weekly" so much and can hardly wait to read every word of it as soon as it is delivered.

There are many good programs. Sorry we can not get Crosscuts from the Log of the Day over KGO at 8:00 a.m. as I like it very much.

V. M., Bellingham, Wash.
Realizing that television production will be largely on film, due to studio limitations, the moving picture industry is planning to take advantage of tie-up possibilities because of potential tremendous demand. It is fair to assume that Hearst, because of his interest in radio, newspapers and the film industry, may tie up his radio station interests with the Metro-Goldwyn-Mayer Company as part of a television set-up. The logical tie-up for Columbia Broadcasting System would be Columbia Pictures. However, if the total production of Columbia Pictures would not be sufficient for CBS, it is very reasonable to assume that they might make a tie-up with Paramount Pictures.

National Broadcasting Company has, of course, close relations with RKO Pictures, but here also the output would not be sufficient to meet the demand, and with the Warner interests concentrated on KFWB, it would be a very sensible and logical thing for NBC to take over KFWB and make an arrangement with Warners as an outlet for their pictures.

Four hundred and thirty people attended and 170 were turned away at the first radio-sponsored religious dinner ever held in the Northwest. The Morning Reveries Fellowship dinner, sponsored by KOMO for listeners of the popular morning worship, was held in the First Methodist Church in Seattle Wednesday evening, October 10.

Morning Reveries, a daily devotional program heard over KOMO, recently completed its first year on the air. In celebration of that occasion, and in response to numerous requests from listeners, this Fellowship Dinner was arranged to give listeners an opportunity to meet in person the pastors and the singers who were heard on that program during its first year.

Fred Skinner, negro song stylist, who was such a sensation as guest artist on the Blue Monday Jamboree some weeks ago, has been signed by KHJ as a new staff artist and will be heard four times weekly over KHJ and other stations of the Columbia-Don Lee network in a program of distinctive entertainment.

Skinner is probably one of the most versatile personalities in the entertainment field. He is one of the "hottest" piano players on the Pacific Coast. He sings popular rhythm songs in a peculiar manner, which has proven a sensation wherever he has appeared. He whistles—beautifully. He sings sentimental ballads and concert numbers, accompanying himself at the piano, in a well balanced voice of unusual resonance and sympathy.

Born in Monmouth, Illinois, Skinner was reared in California and has traveled all over the West with various shows, singing in quartets, playing in orchestras. For the past two and a half years he has been doing radio and night club work in San Francisco. Recently he has been a featured performer in the floor show at the El Rey Club in Los Angeles.

Something believed to be new in radio is the program of Edward Stodel, widely known Los Angeles newspaper man and feature writer, who goes on the air over KFOX every Tuesday and Thursday at 8:15 p.m. in a program he calls "The Inside Stories."

Stodel takes various episodes of dramatic and historical interest, ranging from current events back to the Last Days of Pompeii, and reveals what he guarantees to be the "inside dope" on them. To help arouse radio audience interest, he invites questions and broadcasts the answers over the air.

As a newspaper reporter of long experience, Stodel claims to have information on many big stories that have never before been made public. He even undertakes to reveal certain secrets regarding the Black Widow spider, the degree in which it is actually poisonous, and so on.

"Just ask me anything," he invites, "and I'll tell you the right answer."

Are big league hold-outs coming to radio? The whispers on the street known as Radio Row would have you believe that the reason Charlie Winninger left "Show Boat" to go into "Revenge with Music," a Broadway musical comedy by Dietz and Schwartz, authors of "The Gibson Family," is because he asked for a big salary increase and didn't get it.

The MacGregor & Sollie Electrical Transcriptions Studios were selected by Commander Stephen King-Hall, of the British Broadcasting Company to record his San Francisco address which will be broadcast over the B. B. C. system from London. Commander King-Hall is making a tour of the United States studying broadcasting and economic conditions.

The MacGregor & Sollie Electrical Transcription Studios are producing a series of special programs for the Associated Oil Company. Gene Walker of the Associated Oil Company's advertising department is in charge.

Although MacGregor & Sollie are an electrical transcription studio, this concern recently put on a wire audition for the Montana Power Company with headquarters in
Butte, Montana. The Montana Power executives wanted to listen to the audition of the program and do a little kibitzing while the program was being rehearsed. So a loud-speaker was placed near the telephone in the MacGregor & Sollie Studios, a man put on the phone and the executives in Butte not only heard the rehearsal, but pointed out various little changes that they wished made while the rehearsal was in progress. After this the final record was made.

The word "flash" has been reserved for Press Radio News at stations KOMO-KJRR in Seattle.

Believing the word "flash" has been overworked in radio continuity, Birt Fisher, general manager of the popular Seattle, Washington, stations, gave strict orders today that from now on the word "flash" must not be used for commercial continuity.

KOMO and KJRR both subscribe to the Press Radio News Bulletins, and head the Press Radio Bureau teletype conferences in the Northwest. The news is teletyped to eight Washington and Oregon radio stations from an automatic perforator at KOMO.

Fredrick Stark, on the musical director's staff of the Don Lee Broadcasting System stations in Los Angeles, has autographed thousands of autograph books in his varied career as conductor of symphonies, concert orchestras, and radio musical units; but last week he inscribed his strangest autograph.

He was golfing at the Fox Hills course—and suddenly, to his disgust, he found himself in the rough. There amid the grasses was a huge white stone—moving. Stark thought first of a sunstroke and then turned to examine the stone that moved. He discovered a huge turtle, some two feet across, whose shell had been painted white, and on which had been written hundreds of names of the great or near-great. Stark added his own John Henry, inscribing with a hard pencil which cut through the paint and revealed the permanent enamel of the turtle's shell. Friends in the Stark party estimated the turtle's age at close to 200 years.

Eddie Codel, late "handy man" at KNX, has gone back to the sacred halls of learning. He left early in October to be a junior at the University of Minnesota where he spent his first two years at textbook and football. While taking a year off in Hollywood, he was press writer at KNX; did some remote control announcing from the Roosevelt Hotel; and even played some dramatic parts in the "Bill, Mack and Jimmy" transcriptions. Eddie, of Scotch ancestry, wended his way back to the University a la flivver with a bus load of "paying guests." The deal was so successful that he was torn between a choice of going back to school or starting a transcontinental bus line. Education won. Or so it seems.

Americans would not be happy under any of the broadcasting systems now in vogue in Europe, John S. Young, National Broadcasting Company announcer, declared on arriving in New York recently after an extensive survey of broadcasting methods in Europe.

Broadcasting in England is a semi-governmental monopoly, he pointed out. The British Broadcasting Corporation is responsible to Parliament, which provides funds, and also to the Post Office Department, which furnishes the license.

German broadcasting, Doctor Young said, has changed from an aggregation of privately owned companies into a publicly owned system which takes its instruction from the Minister of Propaganda.

Russian broadcasting, while furnishing excellent music, exists to inculcate Communist ideals among the people, he observed. As for France, there is a "mixture of elements, some analogous to England and some to America." Both direct government operation of broadcasting through the post office and operation by private companies are in force in France.

Hobbies and avocations are odd things. Often they are indicative of personal characteristics of the hobby horse rider. They are recognized as important now because the radio program builder-uppers have devoted many air hours to hobbies.

Josef Koestner has two widely different hobbies. They are raising flowers and studying locomotives. He can give explicit directions on how to raise poppies or how to construct a steam locomotive.

Mme. Ernestine Schumann-Heink's maternal instinct comes to the fore in her liking for the kitchen. She is never happier than when she can make a batch of noodles or some wiener schnitzel.

Edwin C. Hill has no hobby of record, but he likes to "smell" the news again by slipping down to the New York police lineup to survey the baddies as they are given the double O.

Jessica Dragonette collects bookplates, in fact she has an unusually artistic one of her own executed by Elisha Brown Bird.

Charles Previn, the Silken Strings maestro, gets a big kick out of reading detective stories, this despite the fact that he has read most of the old masters in three different languages.

The Voice of Experience has only one hobby, that being his work. He thinks enough of it to devote to it about 16 hours a day. His only relaxation is an occasional visit to the more important prize fights and wrestling exhibitions.
Christmas Suggestion

... and it's not too early to start thinking about your Christmas gifts. A one-year subscription to Broadcast Weekly will make an ideal Christmas gift to any friend or family. A constantly recurring joy, for each issue is different during the fifty-two weeks of the year. Here is something that makes an ideal little remembrance, that carries the spirit of the season, and is useful as well. You may also include your own subscription on this offer.

Subscribe at These Prices

One one-year subscription ........................................... $1.50 each
Three or more one-year subscriptions .......................... 1.00 each

PACIFIC PERIODICAL CORPORATION,
1114 Mission Street, San Francisco, Calif.

Gentlemen:

I enclose herewith $........... for ..............one-year subscriptions to Broadcast Weekly. Kindly start all subscriptions with the Christmas issue, unless otherwise marked, and mail Christmas card to each party advising them of this gift from me.
