OUR FINEST RECEIVER, CRITICALLY ACCLAIMED BY “STEREO REVIEW”!

“Using the Lafayette LR-9090 left us with a definite feeling that it has been designed and constructed to the highest current standards for a high-power stereo receiver.”

“It has the smoothness and freedom from handling quirks that we like—and expect—to find in a deluxe stereo component.”

“Comparing the performance and features of the LR-9090 with other receivers with similar power ratings, we found that it generally holds its own with any of them and clearly excels in certain respects.”

“Needless to say, it sounded as good as it looked and felt.”

INDEX: PAGE 20
A Powerful, Quality System

Start with Lafayette's LR-9090 receiver...add the T-6000 turntable and Criterion 3001 speakers...and you'll have the finest stereo system we offer. The result...great sound, versatility and flexibility for the future. Heart of the system is the LR-9090 receiver—praised by STEREO REVIEW. The precision engineered turntable provides the reliability of direct drive; the speakers contain a Helix Air Motion Transformer to give incredibly realistic mid and high frequency reproduction. Together, they provide great performance for your audio dollar. Ship. wt., 169 lbs.

Specifications For LR-9090

AMPLIFIER SECTION—Power Output: 90 watts per channel, minimum RMS, both channels driven into 8 ohms, from 20-20,000 Hz with no more than 0.1% Total Harmonic Distortion. Hum and Noise: AUX, -80 dB; Tape Play, -80 dB; Mag Phono (Lo) -65 dB; (Hi) -60 dB. Input Sensitivities (for rated output): Mag Phono (Hi) 2.5 mV; (Lo) 5.0 mV; AUX, 150 mV; Tape Play 1 & 2, 150 mV, MIC, 6 mV. Max. Input Voltages: AUX, 10 V; Mag Phono (Hi) 180 mV, (Lo) 360 mV; Tape Play 10 V; MIC (x2) 420 V. Tone Control Range: Bass, +10 db (50 Hz/100 Hz) Switchable Turnover 250 Hz & 500 Hz; Midrange +6 dB (1 kHz), Treble, -10 dB (2.5 KHz & 5 KHz). Audio Mute, -20 dB; Loudness, 50 Hz, +12 dB; 10 KHz, +3.5 dB; High Frequency Filter (-3 db), 7 KHz, 12 KHz/12 dB octave; Low Frequency Filter (-3 db), 15 Hz, 40 Hz/12 dB octave. Tape Output Level, 0.15 V output at rated input sensitivity.

FM SECTION—Phase Locked Loop Multiplex FM Tuning Range: 88-108 MHz; Usable Sensitivity Mono 10.3 Db, stereo 21.0 db; IHF (58) Sensitivity Mono: 1.8 uV*; Selectivity: (alt. channel) 80 dB**; Capture Ratio 1.25 dB; FM Distortion: (at 1 KHz) 0.2% (mono) 0.4% (stereo). Stereo separation: (at 1 KHz) 40 dB; S/N Ratio: 72 dB (mono) 67 dB (stereo). Spurious Response Rejection: 90 dB**; Image Rejection: 80 dB*; IF Rejection: 90 db**; Tape Output Level: 0.77 V. Antenna, 75 ohms unbalanced; 300 ohms balanced input for external antenna. (*At 98 MHz, 65 dB signal, 100% mod.; **At 96 MHz.) AM SECTION—Tuning Range: 535-1605 KHz; Sensitivity (IHF): 20 uV (ant. terminal)**; Image Rejection: 60 dB at 600 KHz. Selectivity: (alt. channel) 45 dB**; S/N Ratio: 45 dB; AF Response: to 3700 Hz, -5 dB. Tape Output Level: 0.3 V*; Antenna built-in adjustable female bar plus provision for external antenna. (*At 1 KHz, 1 mV input signal, 30% mod.; **At 1 KHz)

Save $200*

The Lafayette LR-9090 Receiver

Powerful 90 watts per channel minimum RMS (both channels driven into 8 ohms from 20-20,000 Hz with no more than 0.1% total harmonic distortion). The LR-9090 gives you virtually noise-free reception of the growing number of Dolbyized FM broadcasts. Even the weakest FM stations come in with clarity and separation; dual meters to lock in precisely on each signal. Triple tone controls let you customize the sound. You can hook up 3 sets of speakers, using any pair or combination of A/B, A/C, B/C. Dual tape monitors allow cross-dubbing from either to the other, plus built-in mike mixing of live and recorded sources. Dual-range High and Low Frequency Filters effectively quiet hiss, static and rumble. Tone and volume controls have professional-type, full-range click-tops for positive switching, except the Balance control which has center click-stop only. Other highlights include: FM Mute and flywheel control for convenient, noise-free tuning; Loudness Switch boosts treble and bass for sound realism at low listening levels; Audio Mute Switch cuts volume instantly; three AC outlets and two stereo headphone outlets. Dual overload protection and quick connect terminals. 20¾ Wx6½ Hx16¾ D. For 105-120 VAC, 50-60 Hz. Japan. Mail wt., 46.5 lbs.

Our Precision-Engineered
Model T-6000 Turntable

**SALE** **$179.95**

- Direct Drive Manual Operation with New 72-pole Frequency Generator Servomotor.
- Convenient Pushbutton Controls.
- Adjustable Speed Control for 33 1/3 and 45-RPM.
- S-shaped One-Point Suspension Tone Arm.

It's Lafayette's top-of-the-line turntable, engineered to give you the utmost in performance and sound. Its outstanding feature is the direct-drive 72-pole frequency generator AC servo motor, an advanced ball-bearing drive system that eliminates belts and idlers. Motor speed is the same as platter speed, resulting in close-to-zero wow and flutter and an ideal signal-to-noise ratio. You can operate convenient pushbutton controls with one hand. The S-shaped chrome-plated tubular brass tone arm is mounted on a highly sensitive one-point suspension system to provide ultra-low tracking forces and minimal record wear. Also featured: a massive 3-lb., 12" die-cast aluminum platter with strobos; lighted strobos to indicate speed regulation; separate 33 1/3 and 45-RPM adjustable speed controls; adjustable pitch, ±2.5%; cue and pause control; direct-reading, adjustable anti-skate control; hinged and detachable smoked dust cover; and a wood cabinet with direct-mounted components. 16¼Wx7½Hx19¼"D. U.L. listed. Japan Mail wt.: 32.0 lbs.

**NEW! XSV-3000 Cartridge—Pickering’s Finest**

For the T-6000 or other high quality single-play turntable. This easy-mounting cartridge is outstanding for its smooth frequency response. Tracks with superior ease at forces from ¾ to 3 grams. Mail wt.: .8 lbs.

**NEW! Criterion 3001 Speaker System**

**SALE** **$299.98**

- "Corona Field" Heil Air-Motion Transformer** produces sound of incredible purity, definition and depth of imaging.
- Adjustable to any listening environment.

A major breakthrough in speaker technology, Lafayette's Criterion 3001 with Heil Air-Motion Transformer is able to capture all the delicate subtleties recorded in the most complex musical passages. It boasts a music power capacity of 150 watts, yet is efficient enough to provide concert level sound with amplifiers delivering as little as 15 watts per channel. Bass response from the large 10" woofer is dramatically accentuated by a tuned port opening. The Heil Air Motion Transformer provides an incredibly realistic mid and high frequency spectrum. Truly a state-of-the-art transducer. Housed in a handsome walnut vinyl-clad cabinet with removable grille, it will afford you the ultimate listening pleasure for years to come. Dimensions: 14¼Wx24¼Hx14¼"D. Mail wt.: 45.0 lbs. each, 90.0 lbs. one pair.

Our Most Popular Stereo Receiver
Lafayette LR-5555

SAVE $120
SALE PRICE $279.95*

- 55 Watts per Channel Minimum RMS, (both channels driven into 8 Ohms from 20-20,000 Hz with no more than 0.5% total harmonic distortion).

- Provides Power to Spare for Finest Sound Reproduction.

- Tuner Pulls in Even Weak FM Stations with Clarity and Separation. Dual Meters Allow You to Lock in Precisely on Each Signal.

- Triple Tone Controls Tailor the Sound of Music to Your Individual Preference.

- Provision for 3 Pair of Speakers.

Stereo fans everywhere have zeroed in on Lafayette’s LR-5555 and have made it our best-selling receiver. With good reason, for this is a superbly engineered (and strikingly attractive) unit that's loaded with high-priced features... without the high price. It provides more than enough power for three sets of speakers, so you can literally surround yourself with sound, using any pair or combination of A/B, A/C, B/C. On FM, precise separation gives you highest-fidelity stereo realism. Two tape monitors allow you to dub from tape to tape and, with variable tape mixing, you can add professional techniques for mixing sound, music or effects from any source. There's a High Frequency Filter that reduces or eliminates scratch and hiss. Tone and Volume controls calibrated with “click” stops give you positive-control switching throughout the entire range (except on Balance, which has center-click-stop only). Tone controls include Bass, Treble and Midrange. A special FM Muting Circuit cuts inter-station noise when changing stations. For full realism even at low listening levels, a Loudness Switch boosts bass and treble. An Audio Mute Switch allows you to cut volume instantly. And a Tone Defeat Switch puts all functions at flat frequency response automatically. Other features include an LED stereo indicator, quick-connect speaker terminals, stereo headphone jack, 3 convenient AC outlets and dual overload protection against damage to speakers or receiver. For 105-120 VAC, 50/60 Hz. 19¾x6½x14”D. Japan. Mail wt. 32.0 lbs.

High-Performance 3-Way Speaker System Lafayette Criterion 2001+
SAVE $50
SALE PRICE $149.90*

(Pair)

We sell twice as many Criterion 2001+ speakers as any other. Small wonder, for it was top-rated by a leading consumer magazine, and is one of the most sophisticated and exciting speaker systems you could ever experience. It produces concert hall reproduction when used with amplifiers and receivers from 15 to 70 watts per channel. Deep, rich bass sounds are achieved by a 10" woofer strengthened by three internal tuned ducts radiating through a base vent. A phenolic ring tweeter provides wide dispersion for crisp, sharp high-frequency tones. A matched exponential horn captures life-like midrange frequencies. Bass and treble are smoothly separated with suppressed distortion at crossover points. Midrange and treble controls allow you to adjust the sound to any room or listening environment. The handsome vinyl-covered cabinet is built of high-density particle board, with removable grille in a rich sculptured calf brown polyester knit that is virtually distortion-free. Built-in fuses protect speakers from power overload. System Response: 30-20,000 Hz. Power Handling: 70-watts Program. Impedance: 8-ohms; Dimensions: 14"H x 25H x 13 1/2" D. Japan. Mail wt., 42.0 lbs. each.

Lafayette LR-2020 AM/FM Stereo Receiver

- 20 Watts Per Channel Minimum RMS (both channels driven into 8 Ohms from 20-20,000 Hz with no more than 0.6% total harmonic distortion).
- Plenty of Power to Drive Two Pair of Speakers.
- Clean, Drift-free FM Reception.
- Unique Dual-purpose Tuning Meter Monitors Signal Strength and Locks in Stations.
- Noise Reduction (NR) Adaptor Connections Double as Second Tape Monitor.

Lafayette's LR-2020, with advanced audio entertainment features, puts a new world of enjoyment at your fingertips. Here is ample power for fine stereo listening through one pair of speakers...or two pair for a simulated 4-channel effect...or a second pair as remote speakers in another room. Sensitive tuning and special circuitry locks in on FM frequencies to provide clear, clean listening without drifting. As a unique feature, a switchable dual-purpose meter changes from FM center tuning to FM signal strength monitoring. A built-in Tape Monitor makes it easy to monitor and compare recorded material. A High Frequency Filter cleans up tape hiss and noise from record scratches. Flywheel tuning. FM Muting switch cuts inter-station "hash" when changing stations. A Noise Reduction Adapter switch allows you to add a Dolby** FM adaptor or a second tape deck. There's also a switch that will give you a 4-channel effect for simulated quadraphonic sound when you add a second pair of speakers. And to give maximum low-level sound fidelity, there's a Loudness Switch to enhance the treble and bass. Other features include a headphone jack, AC outlet, push-in speaker connections, and a dual antenna system with built-in ferrite bar and provision for an external antenna. All these fine features, plus great styling and a very affordable price make the LR-2020 a truly outstanding value!

CHARGE IT! Use Lafayette's new Revolving Charge... see Order Blank.
Build a Powerful, Versatile Stereo System
With The New Lafayette Coordinates.

Lafayette invites you to discover a whole new world of superb sound. The new LA-40 amplifier and LT-40 tuner provide power to spare and versatility enough for virtually any audio application. You can order either of these units as a separate component. However, they're so beautifully matched in capabilities and styling

NEW! Lafayette LA-40 Integrated Stereo Amplifier

This quality-engineered amplifier is built to give you outstanding and reliable performance that cleanly, clearly, faithfully reproduces the full spectrum of sound. Its 40 watts per channel minimum RMS (all channels driven into 8 Ohms from 20-20,000 Hz with no more than 0.3% total harmonic distortion) power output allows you to connect up to 3 pairs of speakers. You can literally surround yourself with sound. It features large power meters to monitor output; tape and dubbing monitors allow tape-to-tape recording while listening to another program source; a low-frequency filter that helps cut turntable rumble; and a precision 40-step volume control. Three AC convenience outlets on the back panel eliminate wiring problems. For 105-120 VAC, 50-60 Hz. U.L. Listed. 15% Wx5%Hx13% D. Japan. Mail wt., 17.3 lbs.

LAFAYETTE AAA 2-YEAR LIMITED WARRANTY

(For free copy of warranty, see page 20)

$80

NEW! Lafayette LT-40 AM/FM Stereo Tuner

When you build your stereo system, you'll want components that'll give you the highest reliability and performance for the money you spend. It features a Phase Locked Loop Multiplex Decoder for wide stereo separation and minimum distortion; 2.0 microvolt sensitivity to assure fine reception of even weak signals; and a 68 dB stereo signal-to-noise ratio for clean, clear reception. Signal strength and tuning meters make it easy to lock in on the strongest signals. An FM Mute cuts inter-station noise while tuning. Flywheel tuning lets you zip across the dial. For 105-120 VAC, 50-60 Hz. U.L. Listed. 15% Wx5%Hx14% D (with bar antenna). Japan. Mail wt., 11.8 lbs.

NEW!
Lafayette's Pip-Speak
The Mini Speaker With Maxi Sound.

Truly a Breakthrough in Speaker Technology!

INTRODUCING...PIP-SPEAKS
For Apartments, Offices, Vans, Boats, Anyplace You Want Big Sound in Tight Spots.

They're only as long and as wide as a man's hand. But there is nothing mini about the sound they pour out. Full, rich true-to-life sound worthy of speakers many times their size. Their tiny size lets you tuck them up on a shelf or bookcase (or even in a potted plant). You can surround yourself with beautiful sound, with no giant speakers looming from every corner. Ideal for dorms, apartments, offices, or as remote speakers for any room in your home. Perfect, too, for vans, cars and boats (with power booster). (See page 33 for Power Booster.)

Pip Speaks have a power-handling capacity of 45 watts music power, 8 ohms impedance, 80-20,000 Hz frequency response. Among other features: a super-accurate, soft-dome tweeter and specially designed, long-throw woofer with heavy magnet structure for sharp, clean highs and deep, rich bass. Quick-connect speaker terminals are included. Minimum power requirements: 12 watts (RMS) per channel. The die-cast aluminum housing measures only 4½W x 7½H x 4”D. Japan. Mail wt., 6.0 lbs.

Our Finest Cassette Tape Deck with Dolby
SALE $149.95**
PRICE $199.95

- Convenient Front Loading.
- Dolby* to Effectively Reduce Tape Noise.
- DC Electronically Controlled Motor.
- Auto Shut-off All Modes.
- Independent Bias and Equalization Controls.
- Memory Rewind.

Our best now costs less! Lafayette's RK-D200 cassette tape deck features the superior engineering and design that make for a truly high-quality component. It looks great, performance is superb, and convenience and ease of operation are built in. This unique design puts everything right in front: all controls plus the cassette loading compartment (so you can stack it with other components). The D.C. electronically controlled motor keeps wow and flutter to a minimum for precise recording. Dolby* circuitry substantially reduces extraneous noise and tape hiss. Automatic shut-off in all modes prevents wear and tear on your tapes. Independent bias and equalization controls assure peak performance with any tape formulation—standard, ferrichrome or chrome. Extra-large VU meters make it easy to set recording levels. And a fast-reacting, highly accurate LED peak indicator helps to prevent tape saturation. For automatic return to any spot on the tape, there's a memory rewind. And if there's an FM Dolby* broadcast you'd like to listen to (even if your receiver is not equipped with Dolby* circuitry), the RK-D200 has an FM Dolby* capability that allows you to listen through your tape monitor switch. Other fine features include a 3-digit tape counter, variable recording controls for left and right channels, and variable output controls that let you match output to other components in your system. One headphone jack and two microphone jacks (standard 1/4" size) are also provided. 171/4 W x 7 H x 12" D. For 110-120 VAC, 60 Hz. U.L. Listed. Japan Mail wt., 18.0 lbs. LAFAYETTE 90-DAY LIMITED WARRANTY (for free copy of warranty, see page 20).

80A55014 Reg. Price $199.95 Sale Price $149.95**

NEW! Popularity-Price Cassette Tape Deck
Lafayette RK-735 $99.95

- Auto Shut-Off in Play & Record Modes.
- Individual Left & Right Channel Recording Level Controls.
- Full 6-Function Operation.

Here's the perfect add-on for your existing stereo system. Lafayette's new RK-735 cassette tape deck is precision-engineered to give you recording of remarkable fidelity. Yet the price is low, making this a truly outstanding value. It's loaded with professional features. There's an automatic shut-off in play and record modes. Large VU meters, and separate left and right channel controls that allow you to set recording levels with ease. A 2-position bias control accepts either standard ferric oxide tapes or chromium dioxide tapes. A 3-digit tape counter makes it easy to index programs. And the push-button controls give you all the functions of Pause, Stop/Eject, Play, Fast Forward, Rewind and Record. Uses standard 1/4" jacks for a headphones and microphone are also included. All of that is encased in a compact, handsomely-styled, low-profile cabinet. 13 W x 3 1/2 H x 8" D. For 110-120 VAC, 60 Hz. U.L. Listed. Japan Mail wt., 9.0 lbs. LAFAYETTE 90-DAY LIMITED WARRANTY (for free copy of warranty, see page 20).

- Play and Record Functions With Selectable Automatic Stop.
- Locking Fast Forward Switch.
- Manual or Automatic Channel Selection.
- Locking Pause Control.
- Front-Panel Individual Recording Controls for Both Left and Right Channels.
- Front-Panel Individual Left and Right Channel Microphone Jacks.

A terrific value in an 8-track stereo tape deck that both plays and records! You can record your own library of 8-track tapes for playing at home or in your car. The RK-899 delivers superior, full-fidelity performance with low harmonic distortion, wow and flutter. A locking Fast-Forward switch allows you to choose whatever portion of the tape you want to hear. The two level meters are large and illuminated, and individual slide-type recording controls for left and right channels make it easy to record accurately. The automatic channel selector has a manual override that lets you play or record the whole tape or just a portion of it. A selectable automatic stop in both Play and Record modes lets you record only those tracks you wish to record without danger of tape overrun. Other fine features include front-panel jacks for two microphones and one stereo headphone; locking pause control, record switch with accidental record lock-out, manual cartridge ejection, and lighted channel indicators for a quick reference of the tape position. Two pairs of cables also come with the unit. The elegant cabinet is finished in walnut veneer vinyl. 16½"wx4Hx8½"D. Truly a magnificent addition to any component system! For 110-120 VAC, 60 Hz. U. L. $139.95*

- Two Built-In Condenser Mikes.
- Automatic Shut-Off.
- Special Sleeping Switch.
- 3-Way Meter.
- AC/Battery

You'll find it hard to believe that such terrific stereo sound could come from a portable. Every subtlety of sound records and plays clearly, brilliantly. Its features are usually found only in home cassette systems. Two ultra-sensitive condenser microphones are built in, as well as two acoustically matched stereo speakers. A three-way meter lets you maintain perfect recording levels and accurate radio tuning (and tells you when batteries are low). There's an automatic shut-off; Variable Monitor Control for adjusting listening sound when recording from the radio; stereo mixing capabilities; mike-mixing; Cue/Review for one-touch spot selection on a tape in play or record mode; and provisions for connecting the unit to a turntable. There's even a special sleep switch, activated by the length of tape used, that lets you record directly from the radio! 15¼x9½x4½". For 110-120 VAC, 50/60 Hz or 6 "D" batteries (not included). See page 14 to order batteries and tapes. U.L. Listed. Japan. Mail wt., 8½ lbs.

*Sale Prices end December 10, 1977. All other prices effective through March 31, 1978.
An Open Letter to Our Customers

We took a long time planning this new catalog because we wanted to show you more than just a group of new products. We wanted to show you the beginnings of a new look…a new Lafayette philosophy of service…a new commitment to serving your needs better.

This new commitment starts with this Fall/Winter 1977 Catalog, which contains some of the best values in electronic equipment ever offered. In addition, you’ll find the new Index, Ordering Information and Delivery Charts more convenient to use.

You will also find that we have a new order processing system to ship your orders faster and error-free. And you can count on our prices—they won’t change for the life of the Catalog (see below for pricing information). Our inventories are in-line, so when you order equipment, you’ll get it. And now you can buy with the convenience of our New Lafayette Revolving Charge.

If you should experience some problem, our new Customer Service procedures will ensure a prompt, courteous response. We are committed to serving you in new and better ways than ever before. And our commitment is firm.

Sincerely,

[Signature]

Vice President, Catalog

Important Information

Lafayette Customer Satisfaction Policy
We want you to be completely satisfied with anything you buy from us. When you receive your merchandise, inspect it carefully. If you aren’t satisfied, notify the catalog desk where you placed your order or our Customer Service Department immediately. We will exchange the item—or we will refund your money (or credit your charge account)—whichever you prefer.

If you aren’t satisfied with the merchandise after you have used it, let us know why and we will do whatever is reasonable to satisfy you.

About our Sale Prices
All sale prices end December 10, 1977. After that, all prices return to the Regular Price which is stated in the copy for the item. All prices are catalog prices and are not necessarily the same prices for the same items in our retail stores.

Warranty Information
Items with specific warranties are identified in the catalog in their description. Free copies of warranties relating to any item in this book are available by writing to:

Customer Service
Lafayette Radio Electronics
P.O. Box 616
Syosset, N.Y. 11791

How to Return Merchandise
- You may return merchandise to the Lafayette store where you placed your order, or to our Syosset warehouse.
- Merchandise returned to Syosset should be addressed to:
  Customer Service
  Lafayette Radio Electronics
  111 Jericho Turnpike
  Syosset, N.Y. 11791

If merchandise must be returned by truck, write to us first for instructions.

If merchandise can be returned by UPS or Parcel Post, wrap and tie the package securely. If possible, return merchandise in original carton. Your letter of instructions to us and copies of your order form should be enclosed with the merchandise. Tell us whether you want a replacement, a repair or a refund. If returned by Parcel Post, add 13 cents additional postage for return letter enclosed. Insure Parcel Post shipments. We will make an appropriate adjustment for mailing charges.

- Merchandise returned to us must be complete with all parts and instructions.
- Always refer to an item by both stock number and description when writing.
- Damaged Items—if damaged via shipment by truck, notify the transportation company at once so that you do not lose your right to file claim with the carrier. Then contact our Customer Service Dept. and we will advise you what to do next.
- Merchandise will not be accepted for credit or repair or replacement if altered or painted.

To return merchandise:
- Truck
- UPS
- Parcel Post

**YES [ ] NO [ ]**

(2) Have you recently purchased merchandise from any of the following catalogs:

- [ ] HEATH KIT [ ] RADIO SHACK
- [ ] J. C. WHITNEY [ ] OTHER

(Fill in Below)
In consideration of the extension of credit by Lafayette (Seller), Buyer promises to pay the purchase price, and the FINANCE CHARGE thereon of the merchandise described in the order form or on the adjoining page or other evidence of purchase made by Buyer from time to time. Whenever Buyer pays his entire New Balance as shown on the monthly billing statement, within 30 days from the Billing Date shown thereon, or if he has no balance as of such Billing Date, there will be no FINANCE CHARGE assessed. Otherwise a FINANCE CHARGE of 1 1/2% per month (ANNUAL PERCENTAGE RATE: 18%) shall be imposed on the Average Daily Balance of the Account subject however, to the modifications shown below. Buyer agrees that the FINANCE CHARGE and other terms of credit will be determined by his state of residence (An asterisk indicates that the alternate method described below will be used.)

TABLE OF RESIDENCE

ALTERNATE METHOD OF COMPUTING BALANCE ON WHICH FINANCE CHARGES ARE ASSESSED

* The Average Daily Balance is determined by dividing the sum of the balances outstanding for each day of the billing period, which balance shall include deductions for payments and credits, and shall include any unpaid FINANCE CHARGES and any amounts added to the account during such period, by the number of days in the billing period.

Buyer agrees to pay at least the minimum payment due as shown on the billing statement in accordance with the following schedule of payments.

**NEW BALANCE**

- $0.00 to $9.99
- $10.00 to $240.00
- OVER $240.00

**MINIMUM MONTHLY PAYMENT**

- ENTIRE BALANCE
- $10.00

1/24th of NEW BALANCE

Buyer may at any time pay the entire balance or more than the minimum amount. Buyer agrees that Seller may amend the terms of this agreement as to all purchases after providing Buyer with requisite notice. If the Buyer fails to make any payment when due, Seller may declare the full remaining balance immediately due and payable and Buyer agrees to pay court costs and reasonable attorney's fees, where permitted by law. If the account is referred for collection to an attorney who is not a salaried employee of Seller, Buyer hereby requests that Seller or its assignee be notified. For the purpose of establishing identification and credit hereunder. Buyer will promptly notify Seller's credit office, orally or in writing, of the loss, theft, or actual or anticipated unauthorized use of any credit issued hereunder, and if such notice is given orally, will confirm it in writing. Buyer hereby authorized Seller or its assignee to furnish information concerning Buyer and his account to all others who may lawfully receive such information for their own use, sale or other such purposes as they deem appropriate.

It is anticipated that this Instrument, together with sales slips or invoices representing purchases made hereunder, when fully completed and submitted will be submitted to General Electric Credit Corporation (GEC) of 507 Lexington Avenue, New York, New York 10022, at its local branch office for credit approval, and if approved, that it will be assigned to GEC.
There are two ways to order merchandise from this catalog:

1.) THROUGH YOUR LOCAL LAFAYETTE STORE'S CATALOG DESK.

It's convenient, and you save on shipping if your order is delivered to the store. Allow 7 to 14 days for delivery. Check your phone book for the Lafayette Store nearest you.

2.) THROUGH THE MAIL.

• MAIL ALL ORDERS TO: Lafayette Radio Electronics
  P.O. Box 428
  Syosset, N.Y. 11791

• CREDIT CUSTOMERS: Enjoy the added convenience of shopping with Lafayette's new Revolving Charge (see Order Blank for details). We also accept Master Charge and BankAmericard (Visa). There's no need to calculate taxes or Delivery or Handling charges. We'll ship the best way and add the charges to your account.

For Shipments by United Parcel Service or Parcel Post: Find your delivery zone by locating your state in the Delivery Zone Chart. Add the mailing weights of all the items you ordered. Find the total weight for your order in the "Delivery And Handling Charge Chart," below. Read across to the Delivery Zone for your state. Enter this amount on your order form and include payment.

UPS SPECIFICATIONS
Maximum weight per package, 50 pounds. Maximum weight of all packages from one shipper to one consignee in one day. 100-pounds. Maximum size per package, 108-inches in length and girth combined.

PARCEL POST SPECIFICATIONS
Weight and size of Parcel Post shipments may not exceed 84-inches in length and girth, or 40-pounds per carton.

AIR PARCEL POST SPECIFICATIONS
We will ship your order by Air Parcel Post upon your request. Size and weight limits: 70-lbs. and 100-in. (length plus girth).

SHIPPING WEIGHTS
All weights in this catalog are as accurate as we can determine. Use these weights and rate charts to determine shipping charges.

ORDERING INFORMATION

• CASH CUSTOMERS: Send your check or money order, including sales taxes and delivery and handling charges (see below). We'll refund any excess. Do not send cash or stamps. SORRY, WE CANNOT ACCEPT C.O.D. ORDERS.

• Taxes: We are required by law to collect sales taxes. Please indicate correct state and local taxes due in space provided on order form.

• Delivery and Handling Charges: United Parcel Service is our prime shipping method. This fast and economical service is available only when we are given a complete mailing address. We cannot ship to a P.O. box or P.O.D. route number via UPS. UPS serves the 48 continental United States. If you prefer another method of shipping, please specify which method on your order blank.

Note: Any item identified as "Not Mailable" (see text for each product) must be shipped separately by truck.

Therefore Delivery and Handling charges should be calculated separately for "Mailable" and "Not Mailable" items, using the appropriate chart for each. Be sure to include payment with your cash order.

DELIVERY AND HANDLING CHARGES FOR SHIPMENT BY TRUCK
For all shipments exceeding United Parcel Service and Parcel Post Specs:

• Locate your zone in the Delivery Zone chart above.
• Find the total weight of the shipment in the chart below.
• Read across to your zone for shipping charges.
• Enter this amount on your order form, and include payment.

</tbody>
</table>

For each 100 lbs. over 200, add 30% of the 200-lb. rate.

EXPORT ORDERS
Minimum acceptable order $10.00 in United States currency. All prices are net FOB our warehouse and subject to change without notice. Allow 20% over merchandise value for shipping costs. Overpayments are promptly refunded.

Parcel Post to APO and FPO addresses are considered domestic mailings. Use zone 1 rates for New York, zone 5 for San Francisco.

Each order must be accompanied by payment in cash or U.S. dollar draft payable at a U.S. bank. Foreign currencies are not acceptable.

We reserve the right to reroute order by the best method where order does not indicate routing, or when method suggested is impractical or not possible. Enclose import license and/or consular declaration where so required by your government.
Atari's Video Computer System™ Brings You Hundreds of Great Video Games

A Versatile, Expandable Full-Color System

Stretch your imagination! Think of being able to play an almost infinite number of game variations in full color on your color TV screen.

- Hundreds of games!
- More than you'll find in the largest arcade in the world.
- Challenging games that test your skill ...that provide hours and hours of family fun...that never grow stale.
- Imagine these games accompanied by realistic sounds...guns shooting, bombs falling, airplanes flying, cars racing...mesmerizing sounds.

All this is available with Atari's new CX-2600 Video Computer Game. Purchase of the console also brings you the first of many optional game cartridges. With purchase, you'll receive the Combat™ Program cartridge with 27 game variations. More optional cartridges are available right now (see column at far right). And more game cartridges are planned for the future, giving you a limitless variety of games from which to choose.

The Atari Video Computer System™ represents a new and exciting revolution in electronic technology. The system offers a sophisticated electronic microprocessor—a video computer—that is
Atari's Video Computer System now makes it possible for you to turn your TV into an instant arcade. Never has so much fun been available in one package... and at such a low price! The Combat™ Game Program Cartridge, packed with your Video Computer System™ offers 27 game variations, including those pictured here.

Every one of these Atari Video Computer System™ Game Programs contains from 14 to 50 game variations—each pre-tested in consumer research studies to be sure they are the most challenging home television video games on the market. No one else offers even half as many game variations per cartridge. And more Game Programs are continually being invented and will be available to you!

**Combat™ Program**

Smoke Alarms

Smoke Alarm by Water Pik

$27.88

• Warns of Fire Before You Can Smell Smoke or See Flames.
• Battery Operation; Requires No Wiring.
• Indicator Light Tells You Unit Is Operating Properly.

It's an easy, low-cost way to safeguard your family from tragedy in the event of a fire in your home. Water Pik's Smoke Alarm is an early warning system operating on the ionization principle of fire detection. Even before you can smell smoke or see flames, the loud alarm goes off, telling family members to seek safety. It's battery operated so it's not affected by power failure or electrical fires. Special low battery indicator sounds for 7 days when batteries weaken. Easy to install, mounts on ceiling or wall with screws. A unique feature is a blinking red light that tells you the Smoke Alarm is operational. U.L. Listed. Six AA batteries and mounting screws included. 7 Diameter x 3"H. Mail wt., 2.0 lbs.

84A50009

First Alert by Pittway

$27.88

First Alert is a professional-quality home security alarm operating on the dual chamber ionization principle. At the earliest stages of fire—well before smoke becomes visible—the alarm goes off to give your family more time to escape. Easy to install and service. A test switch checks to be sure the unit is operating properly. A 9V Alkaline battery is included. The unit emits beeping sounds to indicate when a new battery is needed. U.L. Listed. 6 Diameter x 1\(\frac{1}{4}\)"H. Mail wt., 1.5 lbs.

84A50017

Captain Kelley Photoelectric Smoke Detectors by Gillette

Low as $29.88

Electric Model

Act Now and Receive a $5 Factory Rebate Directly from Gillette. (Coupon packed in carton must be mailed by November 30, 1977)

An early warning Photoelectric Smoke Detector in battery or electrical models. Both carry a three-year warranty. The solid state electronic circuitry of the battery model operates on a reliable, easily replaceable 12.6V battery specially designed for smoke detector performance and included with the unit. Unit has an audible low battery warning signal. The electrical model is also solid state with a patented test system. It operates on AC household current. It includes an "on" indicator light, and is virtually maintenance-free. Both units are programmed not to give a false alarm under normal conditions. Installs easily on wall or ceiling. U.L. Listed.

84A50025 Electric Model. Mail wt., 2.0 lbs. $29.88
84A50033 Battery Model. Mail wt., 2.0 lbs. $34.88

Important: A smoke alarm is a warning device and will not prevent fire or stop a fire once it is started. Users must still take all proper precautions for their own safety in the event of a fire.
NEW!
The Bearcat® 210 Automatic Scanning Radio
$299.99

- Receives All Public Service Frequencies Plus 2-Meter Amateur.
- Crystal-less Solid State Design.
- Automatic Search—to find new frequencies.
- Scans 20 Channels per Second.

Why be limited by crystals to a given band and set of frequencies? The Bearcat® 210 scanning radio lets you select from any public service band and from all local frequencies by simply pushing a few buttons. Pick any of the 10 frequencies you want to scan and punch them in on the keyboard. The large decimal display tells you which frequencies you’re monitoring. And, you can change frequencies as often as you like, quickly and easily. Automatic search lets you find activity on unknown frequencies. You can select a full or partial range of frequencies within a band and the Pushbutton Lockout lets you skip over frequencies not of interest to you. Bearcat’s patented track tuning automatically aligns circuitry to each frequency monitored without adjustments. A 2-second Scan Delay prevents missing transmissions when calls and answers are on the same frequency. Other highlights include: manual scanning, tone by-pass; big 3” front-mounted speaker; squelch control; electronically switched monopole antenna. “Space-age” chassis built of custom integrated circuits, with no crystals. It operates on 110-120 VAC. 50/60 Hz. or 13.8V DC, 6W. Comes complete with mobile mounting bracket and DC power cord for mobile operation. U.L. Listed. F.C.C. certified. Mail wt., 6.0 lbs.

Specifications
Frequency Reception Range: Low Band, 32—50MHz; “Ham” Band, 146-148MHz; High Band, 148-174MHz; UHF Band, 469-470MHz; “T” Band, 470-512MHz; Size: 10 3/8”W x 3 1/2”H x 7 9/16”D; Weight: 4 lbs. 8 oz.; Power Requirements: 110-120 VAC, 11W; 13.8 Vdc, 6W; Audio Output: 2W rms; Built-In Antenna: Telescoping (supplied); Sensitivity: 0.6uV for 12 db SINAD on L & H bands, U bands slightly less. Selectivity: Better than —60 dB @ ± 25 KHz; Scan Rate: 20 channels per second; Connectors: External antenna and speaker, AC power.

Toll Free Frequency Information
Call Betty Bearcat for up-to-the-minute information on all the hottest frequencies in your area. Dial direct any weekday, 8 A.M. to 5 P.M. E.S.T. 800-428-2326. (In Indiana, call 800-382-2072.)

NEW!
40-Channel AM/SSB CB Base Station
Telsat® SSB-140
INTRODUCTORY LOW PRICE
$249.99*  SAVE $50

- 40 AM, 40 Upper Sideband and 40 Lower Sideband Channels.
- Digital Phase Lock Loop Synthesizer.
- Switchable Noise Blanker and ANL.
- SWR Calibration Control.
- MIC Gain Control.

Newest member of Lafayette's Telsat series, the SSB-140 uses the very latest technology. The digital frequency synthesis with Phase Lock Loop circuitry gives you precise on-frequency operation in both transmit and receive models. A 3-position switch selects AM, upper and lower SSB. Just press the mike button to talk; adjust the Fine Tune control for sharp AM and Clarified SSB reception. An LED digital read-out tells you the channel. Includes an RF output/ SWR meter and "S" % Modulation meter. Both are illuminated for easy monitoring. The advanced circuitry includes Noise Blanking and Automatic Noise Limiter pushbuttons to minimize noise; pushbutton and variable SWR Calibration for RF power output readings and SWR readings and adjustments. Also includes a modulation Control, Public Address button; and a Hi-Tone switch. RF Gain Control adjusts for a uniformly clean signal. And there's a

* After December 10, 1977, order at Regular Price

Specifications:
Receiver: AM—Dual Conversion superheterodyne; SSB—Single Conversion superheterodyne. Sensitivity: AM—0.05 uV for 10 dB S/N ratio; SSB—0.05 uV for 10 dB S/N ratio. Selectivity: AM-6 kHz at 6 dB down; SSB—2.0 kHz at 6 dB down. Audio Output: 3 watts at 8 ohms. Transmitter: RF Output Power: AM—4 watts max. at 13.8V DC; SSB—PEP 12 watts max. at 13.8V DC. Harmonic Suppression: 60 dB down AM; SSB. Power Source: 110-120 VAC, 50/60 Hz or 13.8V DC.

For Accessories, see Page 31 Illustrated are Microphone (83A22018) and Booster (83A22000).

40-Channel Base Station
CB Transceiver
Lafayette's Telsat® 1140

$139.99

- Digital Phase Lock Loop Synthesized Circuitry.
- Delta Tuning for more Accurate Reception.
- Hi-Lo Tone Switch.
- Distant/Local RF Gain Switch.

Lafayette's new Telsat 1140 boasts sophisticated digital phase lock loop synthesized circuitry to give you precise on-frequency operation on all 40 channels in both transmit and receive modes. A special "range-boost" feature yields high average modulation at average voice levels for more "talk power" and greater range. Highlights include automatic modulation control, automatic noise limiter/switchable noise blanker, variable Squelch, and a ceramic filter to reject adjacent channel interference. The channel indicator and large S/RF meter are both illuminated. Jacks for mike, headphone, external speaker and Public Address. Includes dynamic mike with coiled cord, FCC license application Form 505, 110-120 VAC, 50/60 Hz; operates on 12 VDC nominal negative ground system in emergencies. 12¼W x 4½H x 10½D. Japan. Mail wt., 11.0 lbs. 83A10062

**Synthesized 40-Channel Mobile CB Transceiver**
Lafayette HB-940

**INTRODUCTORY SALE PRICE $99.99**

- LED Digital Channel Read-out.
- Switchable Noise Blanker/ANL.
- SWR and S/PRF Meters.
- SWR Calibration Control.
- RF Gain Control.
- Digital Phase-Lock-Loop Synthesizer.
- Delta Fine Tuning.

It's Lafayette's finest 2-way AM mobile radio, with all the features that can make the world of CB more enjoyable and convenient! But come an emergency—on the road or on the water—that's when you'll really appreciate its Range Boost circuitry, so you can reach out farther to summon help. The digital Phase-Lock-Loop circuitry adds razor-sharp frequency control, and large, bright LED read-out pops the channel numbers. A built-in ceramic filter helps prevent adjacent channel interference, and ignition noise is silenced by a switchable Noise Blanker and ANL. Easy-to-use controls include a Delta Tune Switch and Tone Switch for fine-tuning and tonal adjustment on receive. There's a Variable Squelch Control, too, plus RF Gain Control for superior sensitivity and selectivity. A modulation control keeps you on top of your signal. Large, illuminated meter tells you S/RF and SWR condition. On the rear panel are jacks for external and public address speakers (speakers not included). Comes complete with dynamic mike and mounting bracket. 9¾Wx2½Hx7¼"D. Imported from Japan. Mail wt. 7.5 lbs.

**SALE PRICE** 83A10021 Reg. Price $149.00 Sale Price $99.00

**Specifications**

- Receiver: Sensitivity: 0.7 µV for 10 dB S/N. Selectivity: 50 dB down at ± 10 kHz.
- Spurious Response Rejection: 50 dB. Audio Output Power: 3 watts at 8 ohms at external speaker. Power Source: 13.8 VDC, negative or positive ground.

**Mobile 40-Channel CB Transceiver**
Lafayette HB-640

**INTRODUCTORY SALE PRICE $69.99**

- Digital Phase-Lock-Loop Synthesizer.
- Dual Conversion Superhet Receiver with RF stage.
- Range Boost Circuitry for Greater Talk Power.
- Distant/Local Switch.
- Hi/Lo Tone Control.
- Switchable CB/PA Modes.

The HB-640 CB transceiver is a low-priced unit with digital Phase-Lock-Loop Synthesized Circuitry for pin-point accuracy on every channel while transmitting or receiving. The dual conversion superheterodyne receiver with RF stage offers outstanding sensitivity and selectivity, while a ceramic filter helps prevent adjacent channel interference. To subdue background and low-level impulse noise, a Variable Squelch and Automatic Noise Limiter are built in. Automatic Modulation Control keeps you on top of your signal. On the rear panel are jacks for external and Public Address speakers. Comes complete with dynamic coiled cord microphone, mobile mounting bracket, and FCC licence application Form 505. Operates on nominal 12 VDC positive-negative ground system. 2¾Wx6¾Hx8¾"D. Japan. Mail wt. 5.0 lbs.

Telsat®
SSB-80

INTRODUCTORY
SALE PRICE $159.99*

SAVE $40

• Full 120-Channel Capability—
  40 AM and 40 Upper, 40 Lower SSB.
• 12-Watts P.E.P. SSB Output.
• Digital Phase-Lock-Loop Synthesized Circuitry.
• Built-in Range Boost Circuitry.
• Automatic Modulation Control.

Not only does this Lafayette Telsat CB transceiver give you triple the number of operating channels (from 40 to 120), but it increases your range of transmission because all the power that's legal can be concentrated in one sideband to provide 100% talk-power! And on receive, you can get greatly improved sensitivity and selectivity through SSB. Digital Phase-Lock-Loop Synthesized Circuitry provides amazingly accurate frequency lock-in of all channels. A Fine Tune Control assures clear reception of SSB transmissions. A built-in Range Boost Circuit and Automatic Modulation Control enable your audio signal to be heard under conditions which would be difficult for conventional transceivers. Other features include: variable squelch, automatic noise limiter, S/P-RF meter. There is a jack for an external speaker or headphones. $44.99. Imported from Japan. Mail wt., 8.0 lbs. 83A10039 Reg. Speciality Watches and Stopwatches

NEW! LCD Game Watch

- Hours/Minutes/Seconds
- Jackpot
- Games
- Day/Date
- Continuous LCD Display
- Game and Time/Day-Date Buttons.

A revolution in modern electronics. It's the Monte Carlo watch from Unitrex—a highly accurate timepiece and a complete casino in one distinctively attractive wristwatch! It tells you hours and minutes in a continuous liquid crystal display. Push the display button once for day and date, twice for minutes and seconds. Push the game switch and select from three exciting games of chance—Jackpot, Craps or Roulette. On Jackpot, when 3 digits stop at the same number, flashing "Js" announce that you've won. On Craps, the center two digits eventually come to rest between 1 and 6, as with actual dice. The Roulette wheel is simulated by the two right-hand digits that stop between 01 and 36. Since all numbers are generated at random, you never know when you'll win. Push the button again and the built-in memory circuit recalls the correct time. Other features include a 4-year calendar with month setting, and a back light for night viewing. Powered by min batteries (included). Silver-tone case with adjustable strap. Mail wt., 1.0 lbs. 82A02061 $49.99

NEW! Solar-Powered LCD Calculator/Watch

- Full Scientific Calculator.
- Continuous LCD Display.
- Dual Night Viewing Light.

The latest innovation in scientific technology—a combination calculator and watch, compactly housed in a silver-tone case with strap. The watch has a continuous LCD display of hours, minutes, seconds as well as a month-date calendar and dual night viewing lights. The advanced circuitry contains a solar panel which converts light into energy and recharges the batteries (included). The calculator keyboard, which can be activated by the point of a pen, features algebraic logic, scientific notation, trigonometric and logarithmic functions, store/recall memory, $\pi$, power of number keys, register exchange, reciprocal and square root keys. Mail wt., 1.0 lbs. 82A02087 $249.99

NEW! Cronus "4" Digital Electronic Stopwatch

- 1/100-Sec. Accuracy to 60 Min.
- Six-Digit Read-Out.

The accuracy of the Cronus 4 is nothing short of incredible! Just one-100th of a second to a full 60-minute hour! And you can use this stopwatch to time a wide variety of activities. Single-event timing tells you length of uninterrupted time from beginning to end of an event. Time-in/time-out lets you determine elapsed time from beginning to end of an event which may have interruptions or time outs. Precise six-digit electronic read-out. Battery-powered (batteries included), with low-battery indicator. Mail wt., 1.0 lbs. 82A06005 $39.99

Cronus Olympian. Same as above, minus the time-in/time-out function. Batteries and low-battery indicator included. Mail wt., 1.0 lbs. 82A06013 $29.99

7-Jewel Swiss Stopwatches

1/5th Second & Decimal Timer. An anti-magnetic hairspring stopwatch with unbreakable mainspring. Its scale is 1/5 second to 60 seconds, 1/100th min. (decimal scale) from 0 to 60 minutes. Mail wt., 0.4 lbs. 82A06252 $24.99

1/10th Second Timer. Large hand registers to 30 seconds. Recorder scale registers 0-60 minutes. (Not illustrated). Mail wt., 0.4 lbs. 82A06260 $24.99

All watches warranted by manufacturer (for free copy of warranty, see page 20).
Phone-Mate Deluxe 300
Automatic Telephone Answering System

- Gives 20-second Announcement, Records up to Thirty 30-second Messages.
- Easy Hook-up—Simply Plug into Standard Telephone Company Phone Jack.
- Lets You Hear Who’s Calling without the Caller Knowing You are There.
- Announce Only and Dual Tape Features.

Keep your telephone on call 24 hours a day, 7 days a week. The low-priced Phone-Mate Deluxe 300 protects your privacy—lets you go where you want, when you want and still get all your phone calls. System answers phone on first ring and gives announcement in your voice, then records caller’s message. If you are on premises, you may listen to calls without touching the phone to “screen out” unwanted calls, but if you choose to talk, simply pick up the phone. With the Announce Only feature you can give a message to each caller without recording incoming messages. Dual tape system permits playback of incoming messages in sequence without listening to your outgoing message each time. Completely compatible with any kind of phone and telephone system, Phone-Mate is battery operated for safety and reliability, and is not affected by power failures. Comes with four Eveready Alkaline energizers (good for a year of average use), microphone, instruction manual. Meets Bell system conformance and certification standards. 9½x11½x3½” Mail wt., 9.0 lbs. Warranty by manufacturer (for free copy of warranty, see page 20).

Phone-Mate 9000
Self-Contained Remote System with Voice Actuation

- C-VOX™ (Voice Actuation) Records as Long as Caller Talks.
- Coded Pocket Tone Key Allows You to Call In and Pick Up Messages.
- Monitor Incoming Calls at the Flip of a Switch.
- Ring Adjust—Set Machine to Answer Any Ring up to Five.

Call your Phone-Mate 9000 and pick up your calls by remote control. A coded pocket tone key activates the system. This new-concept answering system features exclusive C-VOX™ voice actuation that allows callers to leave messages as long or short as necessary, but lets you set the time limit. This eliminates blank tape or dial tone between recorded calls by stacking them. It accepts approximately 60 messages on a standard cassette. A monitor allows you to hear who’s calling without the caller knowing you’re there. An Announce Only feature lets you deliver an announcement without recording incoming message, and you can adjust the length of your announcement from 15 to 55 seconds. A dual cassette system lets you play back messages without listening to your own announcement between calls. Other features include: Tangle-pruf™ cassette tape transport, Message Waiting Light, automatic recording level control, fast forward and fast rewind, and ring adjustment. Plugs into standard telephone jack. 110-120 VAC, 60 Hz. Meets Bell System conformance and certification standards. 12½x10x3½” Mail wt., 15.0 lbs. Warranty by manufacturer (for free copy of warranty, see page 20).

Phone-Mate 8000

NEW! Phone-Mate 8000 (not shown)
This lower-priced answering system offers all the features of the Phone-Mate 9000, except for the remote call-in feature. Mail wt., 14.0 lbs. Warranty by manufacturer (for free copy of warranty, see page 20).

$189.99
NEW! Lloyd's Ultra-Slim Businessman's LCD Calculator
- Wallet-Style Case Included.
- 2000 Hours of Continuous Operation.
- Only ¾" Thick.

Offers extra-large 8-digit LCD display (Liquid Crystal Display) and fully addressable 4-button memory. Slim profile and lightweight make for easy portability in pocket or briefcase. Other features include a square root key, change sign key, % key with add-on/discount feature and clear/clear entry key. Up to 2000 hours on one set of batteries (included). Wallet-style case is also included: 2½"W x 4½"H x 3¼"D. Japan. Mail wt., 0.4 lbs. 82A20089 $15.99

Optional AC Adapters
For Canon Multi-8. Mail wt., 0.5 lbs. 82A20113 $4.99
For Casio CQ-2. Mail wt., 0.5 lbs. 82A20105 $4.99

NEW! Casio CQ-2 Alarm Clock-Calculator
- All-In-One 8-Digit Calculator, Digital Alarm Clock and Stopwatch.
- Four Basic Math Functions Plus Time and Date Calculations.
- Shows Hours, Minutes, Seconds, AM/PM, Day and Date.
- Records Elapsed Time.

What could be more practical for the busy homemaker, business person or engineer than this amazingly versatile all-in-one calculator/clock/calender/stopwatch? As a calculator, it performs four basic functions up to eight digits with constant and floating decimal. It calculates time up to 99 hrs., 59 min., 59 sec.; dates from Jan. 1, 1901 to Dec. 31, 2099. As a crystal quartz timepiece, its digital display is accurate within 15 sec./month. The calendar is permanently programmed and requires no adjustments for lengths of months or leap years. Four separate alarm settings. The stopwatch measures normal, net and elapsed time to 1/100th sec. up to 9 hrs., 59 min., 59.9 sec. Powered by batteries (included) or AC through optional adapter (sold at left). Pocketsize 1⅜"x5⅜"x⅛". Japan. Mail wt., 1.0 lbs. 82A20048 $59.99

NEW! Canon Multi-8 Dual Display Calculator
- 8-Digit Function Display.
- 8-Digit Memory Display.
- Performs Basic Functions & Constant, Percent, Square Root and Mixed Calculation.

The revolutionary Canon Multi-8 is the world's first dual display pocket calculator. By displaying memory contents, you no longer need to do mental arithmetic or use extra memo paper. Set the Mode Selection Switch to SINGLE mode and the Multi-8 operates as a conventional calculator, showing answers in the lower display. In MEMORY mode, memory content is in upper display, calculations show in lower display. In PROCESS mode, the first entry is visible in the upper display and the second entry and function mark are in the lower display to show entire calculation process. Large blue fluorescent display shows eight significant digits with floating decimal. Other features: Sign Change Key, Percent Plus/Minus, Reverse Key, Memory Plus, Clear and Recall Keys. Operates on three "AA" batteries (not included, see page 14) or AC Adapter (optional, sold at left). 6⅝"x3⅜"x⅛". Japan. Mail wt., 1.0 lbs. 82A20055 $29.99
NEW! Texas Instruments
Key Programmable 57
Super Slide Rule Calculator
• Computer-Like Programming Functions.
• 50 Multi-Key Program Steps
  Store up to 150 Key strokes. $79.99
• 8 Multi-Use Memories.
• Two Levels of Subroutines and Ten Labels.
• Six Forms of Branching, Three Types of
  Unconditional Branch.
• Two Conditional Loop Features.

The TI Programmable 57 is a powerful slide rule calculator that you can program right from the keyboard—ideal for high school or college students and professionals new to programming! Eight multi-use memories provide addressable locations to store and recall data. Fifty fully-merged program steps store up to 150 keystrokes. Once stored, the program can be executed repeatedly by supplying new sets of variables. Computer-like programming functions include; complete editing and error correction; 6 forms of branching; 2 levels of subroutines and much more. TI’s unique AOS** algebraic operation system makes problem-solving easy. Enter problems from left-to-right as stated algebraically. Super slide rule calculator provides advanced functions of x, logarithms, trigonometry and statistics. Nine levels of parentheses and the ability to store up to 4 pending operations allow you to handle complete equations easily. Bright 12-character LED display. Operates on rechargeable battery pack or AC adapter/charger (included) input 110-120 VAC, 60 Hz. Also included: Making Tracks Into Programming learning guide, program record forms, quick reference guide, carrying case. 3⅛x1⅜x5¾". Mail wt., 1.0 lbs.

Kings Point®
SC-60 "Senior"
Scientific
Calculator
• 50 Functions, 66 Keys.
• Displays 14 Characters: 10 Digits for Mantissa, 2 for Exponent, 2 for Sign.
• Three Addressable Memories, Including One
  Accumulating Memory.

The SC-60 does it all! It handles transcendental functions Sin, Cos, Tan, Arc, common and natural logs; squares, square roots, reciprocals, factorials. It has e key for all functions, sign change key, x-y factor reversal, minus and overflow indicators. Three addressable memories, including one accumulating memory for storage and retrieval, plus separate memory for 2-level parenthesis operations. It uses algebraic problem entry, does chain calculations with any sequence of functions, enters problems in degree or radian mode (with radian light). Performs statistical functions of arithmetic mean, standard deviation, variance, square root of sum of squares, combinations, permutations, binomial coefficients, gamma functions and normal probability function. Handles numbers from 10^-99 to 10^99. Also: automatic floating decimal, memory exchange key, low battery indicator and display cutoff. Bright red LED display. Includes rechargeable battery and 110-120 VAC, 60 Hz recharge/adapter. Carrying case and instructions. 3⅛x1⅛x7". Mail wt., 2.5 lbs.

Calculators

Deluxe Printing Calculator
NEW! Unitrex Classic 50 with Digitron Display
$119.99

An ideal desktop printing calculator for home, store or office! The Classic 50 shows entries and results on a large, green digitron display ...or prints them on tape for easy checking or reference ...or does both simultaneously. The fully addressable 4-button memory has keys for M+, M-, MR and MC. A memory accumulation setting allows all calculated results to be automatically accumulated in the memory. Unit uses algebraic logic, performs chain or mixed calculations. The Classic 50 features automatic constant in all functions, selectable decimal to 2, 4 or 6 places, "add mode" and full-floating decimal. The high-speed keyboard includes keys for percentage, mark-up to calculate selling price, exchange for reciprocal calculations, sign change, and a backspace key which allows you to clear back one digit at a time for corrections. Plus a 5/4 switch, item count, non-add key for reference numbers, and power-on, memory, overflow and error indicators. Two color ribbon and whisper-quiet Seiko impact print head. 9½x3½x11½", 110-120 VAC, 60 Hz. U.L. Listed. Imported from Japan. Mail wt., 8.0 lbs.

Printing Calculator with Display
NEW! Unitrex Classic 40
$99.99

• 4 Button Fully Addressable Memory.
• Full 12-Digit Capacity.

At a remarkably low price for a desktop printing/display calculator, this Classic 40 is an exceptional value. It offers you all the features of the Classic 50 model above, less the memory accumulation setting, mark-up key, exchange and sign keys, and the backspace key. 9½x3½x11½", 110-120 VAC. 60 Hz. U.L. Listed. Imported from Japan. Mail wt., 8.0 lbs.

Compact Printing Calculator
NEW! Sharp EL-1057
$59.99

• Full 10-Digit Capacity.
• Very Compact, Desk-top Design.

It's our lowest-priced printing calculator, but with the quality and features for which Sharp is famous! Dimensions are only 6x3½x9½", allowing it to take up surprisingly little desk space. A high-reliability Seiko 2-color printer enters your calculations, silently, as fast as you can make them. The easy-to-operate keyboard includes a percent key and non-add/subtotal key convenient for printing dates, codes, etc. Other features: decimal selector for "add mode," floating decimal; complete underflow system to protect most significant numbers; overflow error check; automatic printer motor shutdown; paper advance key. 110-120 VAC, 60 Hz. U.L. Listed. Imported from Japan. Mail wt., 6.5 lbs.
ULTRA PONG™ DOUBLES by ATARI

With Games... Games... Games!

$47.88

SEE PAGES 22-25 FOR OUR OTHER EXCITING VIDEO GAMES

There's never been a video game like this. New Ultra Pong™ Doubles brings you thirty-two exciting paddle game variations for two or four players, in brilliant color, and with exciting action sounds. You can play Pong, Super Pong and Hyper Pong. Plus four different Hockey games, four Barrier Pong games, and four Barrier Hockey games. And you can play each game as Singles (2 players) or Doubles (4 players). Your TV becomes a whole arcade that will provide hours and hours of family fun. Ultra Pong includes: a console unit with ON/OFF power switch and game select/reset button; four hand controllers; a TV/Game switch box that connects to antenna terminals. Powered by four "C" cell batteries (batteries not included; see Page 14 for battery ordering information), or optional AC Adapter. 14½Wx3¼Hx11½"D.

And the ultimate surprise with this ultimate color Pong game... its price!
