

VOLUME 41

NUMBER 1

"It must be remembered that there is nothing more difficult to plan, more doubtful of success, nor more dangerous to manage than the creation of a new system...." (Machiavelli, "The Prince", 1523)

That about sums up the situation here in North Jersey as we publish the first in what we hope will be a long series of issues of DX NEWS. The initial changes which we have found it necessary to make have nearly all been announced in the past two issues. The last few remaining ones will be found in this issue. The NRC has been turned over to us in what appears to our inexperienced eyes to be good condition. We suspect that we will be more able to appreciate the goodness of that condition as we go along.

We expect to continue with the same front-page format for DX NEWS as has been the rule for the past few years. We do intend to undertake some experimentation in the type of paper used for printing the first two or three issues. We are publishing this issue on a slightly lighter stock, which allows us to expand our one-ounce bulletins to 24 text pages. We are retaining, however, a heavier stock for the outside pages, and, for such pages as we may decide to run photographs. This will continue with the next issue. The difficult part of the test will be to see how much, if any, print-through we have. If you receive a copy which you feel has an objectionable amount of print-through, please let us know immediately, if possible, returning the bulletin, which will be replaced. We will only be replacing those bulletins which are partially unreadable due to print-through, and therefore we expect there to be none, hi.

The course of the transition to publishing and operating the club here in North Jersey will not be free of troubles, however. We expect to encounter some delays in processing of orders for PBs, logs, stationery, and most of all, reprints. We trust that we will have much of this squared away by the end of October. If you have any outstanding orders which have not been filled, and which are not filled by that time, please send us a follow-up on it, as we may have lost the original in the packing and unpacking. By all means, PLEASE BEAR WITH US.

Members from out of town will be welcomed at our Sunday business sessions, and if you will be in the area, please call one of the HQ numbers for information on the time and directions. (201-335-9182 or 201-838-5721).

We have been forced to abandon temporarily our plans to have DX NEWS mailed by a mailing service. The complexity of our current system, with five classes of mail, and a very changeable address list, have resulted in an unbearable cost estimate at present. We are working to reconcile that problem, and, if the P.O. goes through with its proposed plan to eliminate Airmail as a separate class (since 1st class usually goes by air anyway) and raise First Class to 10¢ per ounce, we will be able to convert to mailing service more easily, and probably obtain a First Class mailing permit. This would reduce the costs to the point where we could handle them. For this reason, we will be receiving our copy on Mondays or Tuesdays, delivering to the printer Wednesday mornings, and mailing on Sunday night or Monday morning. This schedule is, of course, tentative, and subject to almost immediate change if necessary. Again, bear with us. "Nothing worthwhile is ever achieved without enthusiasm." (Ralph Waldo Emerson)

These words were emblazoned on the symbolic photograph handed over from the retiring BPC to the fledgling NJPC at the Convention. Very few other quotations might be as apt, although I'm sure there were some in the gathering who felt that "Fools rush in where wise men fear to tread" might be more appropriate.

When we first received the fateful letter from BPC telling of their impending retirement, Page, Steve and I were most unsure of whether we should even bid. Ultimately, we decided to explore the possibilities with printers, etc. The process took nearly 2½ months, but we were finally able to elicit three viable printing bids from which to choose. We then fed piles of data into PT's pocket calculator to determine various parameters of such a projected operation. After that had been done, we decided to give it a whirl.

> "The hottest places in hell are reserved for those who, in times of moral crisis, remain neutral" (Dante)

With this in mind, we set out to find us a treasurer, and were most fortunate in adding John Sampson to the NJPC fold. Since that time, we've heard from other area members who have volunteered to help in whatever way they can. For this, we are extremely grateful.

For the past five years, the BPC has kept the NRC flourishing, and has brought it from the jaws of oblivion to the success it is today, technically, artistically, and even financially. All of us in the NRC owe them a debt of appreciation for their efforts. The members of the NJPC only hope that we can do the same. A special vote of thanks must go to GPN, whose guidance has steered the course of the NRC during that period. The club owes its existence to their dedication.

With this issue, a new era begins for the NRC. With a little luck, and a lot of hard work, this era can boast of the same growth which marked the previous one.

# YOU CAN HELP!

The costs of moving the NRC to North Jersey, as well as the costs of setting up new forms, letterheads, logos, and what-have-you associated with new club management have left us somewhat short of immediately-available CASH. We ask that all members whose renewal notices arrive in the next month or two make a special effort to renew promptly in order to ease us through this transitionary period.

THANK YOU.

ANNOUNCEMENTS &c FROM NJPC .....

- \*\* In the interests of international cooperation, and much less grief for us, we would like to request that our Canadian members please use <u>Can-</u> <u>adian Postal Money Orders</u> instead of personal checks, wherever possible. <u>Personal checks on Canadian banks somehow take up to three months to be</u> processed, so this change would be most helpful.
- For those of you who have not received your <u>New Member Packets</u> yet, there is a very good reason: WE HAVE NONE 1 NJPC is currently preparing a new, revised, updated NMK, which we hope to have ready by mid-November, so please be patient. We realise that some of you have already been patient on this, but we must ask you to please be patient-er, hi.
- \*\* If you have submitted <u>VERIES</u> to HQ but have not received them, we have four or five <u>endin</u> here which we have no names of who they belong to. If you might own these, please send us a description of them, and we'll return them to you.
- \*\* Effective Immediately, the price for the Patterh Book will be \$6.00, instead of \$5.95. While we realise the advertising value of a -.95 price on anything, it louses up bookkeeping to some extent. The price for non-members, which has heretofore been the same, will be increased shortly. We have, however, established a price of \$10.00 to all orders for the PB from professional sources (ad agencies, stations, consulting engineers, etc.). More on this later.
- \*\* Due to the slowness of mail delivery of the convention wrap-up article from Boston, as well as to mixups and complications in getting color slides made into b&w negs, the convention wrap-up will not appear in this issue. Maybe next time, hi.

THE FOLLOWING DATA appeared in Medium Wave News, the publication of Medium Wave Circle (Britain), Ken Brownless, editor. We reprint it here for your interest. It mostly tells us something we already know -- that the 1972-73 season was noticably worse than the two which preceded it, hi.

WRTH - World Radio-TV Handbook

Number of days when A-value was 5 and under (A); over 5 (B); and over 20 (C); for 1971, 1972, & 1973. (January thru June).

		A			В			С	
JANUARY	10	12	7	18	12	19	3	7	5
FEBRUARY	7	11	2	18	17	20	3	1	6
MARCH	10	7	4	18	21	17	3	3	10
APRIL	3	10	3	21	18	12	6	2	15
MAY	9	7	5	18	22	19	4	2	7
JUNE	8	6	4	19	22	18_	3	_ 2	_ 8_
	47	53	25	112	112	105	22	17	51

The differences between the above sets of figures is rather obvious, and tends to reflect a commensurate difference in cx. A casual glance at IDXD covering the same periods yields a similar pattern of cx prevailing.

#### A NOTE TO ALL MEMBERS FROM ERNIE COOPER

In this issue are at least six Musings which were sent in single-spaced. Some were typed, but most were hand-printed on lined paper. The opthomologist tells me I do have a touch of glaucoma and I must put two drops in each eye every day from now till the devil gets me. So, this is my policy towards single-spaced reports from now on - and it is simple. THEY WILL NOT BE PRINTED, but will instead be thrown into the waste basket, even if we're hurting for Musings. I want tocontinue as Musings Editor, but I will not run the risk of damaging my eves to type out single-spaced Musings.

#### WELCOME BACK, STRANGERS.

In this issue, and at this time, NRC is welcoming back into the DX fold several young old-timers who have been re-bitten or re-infected by that old nemisis, the DX Bug. It is very cratifying to see them returning to Musings and to NRC, and we want to extend the warm hand of welcome to you all. I won't mention any names here lest I omit someone in error, but - good to have you back, lads.

#### WE ARE NOW WEEKLY.

Remember, that we solicit your Musings, double-spaced, and please list your DX by date and frequency, and make them (Musings) so as to be of help to others. Mention program style - anything that will help somebody else log your catch in the future. And your Editor prefers the run-of-the-mill used-everywhere time, of A.M. & P.M., and E.L.T. When you use other times, like GMT or such, or use the 24-hour clock style in Musings, you force extra work on me to convert them so as to conform to the Musings policy of its crochety old Editor - me, ERC, hi. Why not make it easier, lads, than more complicated? But above all, please double-space - skip a line between lines, that is. Send along your verie signers too, on a seperate piece of paper, and please give frequencies and titles of the v/s. And - double space them, too! Please! CUN 7.

### Ernest R. Cooper; 438 E. 21st St., musings of the members Carrier Route 56: Brooklyn, N.Y. 11226

HARRY HAYES - 1418 Mount Royal Avenue - Apt. 2 - Baltimore, Maryland - 21217 Here is my first Musing from the Baltimore area. I admit it isn't

much but it will take time to get into the swing of things. I am attending classes at the Md. Institute of Art in the Bolton Hill section. My apartment is only 12 blocks from the school. This area with its crowded buildings and electrical noise is hard on DX. I brought my trustworthy Zenith Trans-Oceanic down with me. H ard on 9/5: 4:04pm, WSBA-910 York Pa. in weak w/rr. KYW-1060 @ 5pm weak. WGAY-1050 Md. strong. WRC-980 also strong. 5:15pm, WFMD-930 Md. fair w/ rr. WYRE-810 Md. good w/rr. 7pm, WRCP-1540 Pa. dominating w/tentative WPTS-1540 Pittston Pa. peaking over at times. (A former local is hard to mistake). 7:17pm WKEW-1520 in while WABC-770 was almost non-existant. Strange. 7:38, WISL-1480 Shamokin Pa. w/rr. 7:54, WPTR-1540 N.Y. 8:13, WDRC-1360 Conn. in strong at times. 9:06, CKIW-800. On 9/11 WCFL-1000 WIS-890 at good levels. WNEW-1130 NYC very strong @ 9:28. 9:30, WOWO-1190, WPOP-1410 Conn. strong at times. WMEX-1510 Boston in @ 9:49. 9/9- 4pm, WOL-1450 D.C. weakish. WPIK-730 Va. strong. 7:12pm WRAN-1510 N.J. fighting w/WAHT-1510 Pa. 7:25, WKBA-1550 Va. w/gospel. 7:30 WRPL -1540 N.C. on s/off. 9/13-7:15pm, WDAS-1480 very strong. WDON-1540 Md. s/off @ 7:15pm. 73s.

### CIAY ADAMSON - 103 West Main Street - LeRoy, New York - 14482

Checking the high end of the band for my log updating during the past month, the following stations were heard: 1600. 8/23- WAQI @ 7:30pm. WNEU @ 7:53. WWRL @ 8:08. WAAM @ 10:39pm. 8/24- WFRC @ 12:36am. 8/25- WINX 1:50am. 8/26- WNST @ 8:26pm s/off. 8/27- WCWC @ 1 s/off. 8/30- WHOL @ 6:30pm. 8/30-WMCR @ 6:32pm. 8/31- WARU testing @ 1:52am. 9/6- WTIN @ 7:45pm. 1590. 8/26-WEHH @ 12:35pm, WGGO @ 12:39pm. 9/7- WZUM @ 7:30pm s/off. 9/7- WAKR @ 7:35pm. WSMA @ 7:43 s/off. WCBC @ 8:39pm. 9/8- WAUB @ 4:30pm. 9/9- WQQW @ 2:23ap. 9/7 - WGOE @ 7:18pm. 9/11- WETT at midnight. 9/10- WISZ @ 10:11am. 1580. 9/14-WCRV @ 6:25pm, CBJ @ 1: 03am s/off, WEND @ 6:45pm. 9/15- WCIS @ 1:26am; WZKY PoP @ 3:52am; KLOU @ 4:02; WHEX @ 6:23pm, WANB @ 7:27 s/off (station #400). 9/16-WPGC @ 6:41pm. 9/17- WSUF test @ 12:46am. XEDM @ 1:30, WORV f/c @ 3; WKIG f/c @ 3:35. 9/18- WVKO @ 7:44pm s/off. 9/20- WBBR test @ 12:12am. 1570. WPCM @ 6:30 pm. WCIW @ 7:28 s/off. 9/22- XERF @ 12:28am, CKIM @ 2, WFIR @ 4:45pm, WBUX @ 7. 9/23- CHLO @ 1:54. 9/24- WYTI @ 6am s/on, CFOR @ 7:29pm. 9/26- WTCL @ 7:13pm, all times EDT. Equipment: M/Ward Airline PortableModel 1461 plus Add-A-Tenna with 30' IW. Total stations: 4;0. States: 37. Provinces: 5, plus Mexico, Cuba, Bonnaire, St. Kitts, Dominican Republic & Bahamas.

## BOB MENN - 430 West 39 Place - Hialeah, Florida - 33012

Well, I'm back after quite a spell of limited DKing. But, once you get started - it all falls back into place. I went on a vacation, and man oh man, what a difference a few hundred miles can make in DXing! No Cubans - no SS to jam the bands! Anyway, here are my finds: WJOE (Big Joe Radio) Port St. Joe, Fla. on the same frequency as a local but to the high side and clear; WBRD-1420 readable - but that's about all! WCCO early in the AM and clear - WFTW-1260 same as a local c/w but readable w/an ID; WIGM with a test on 1490. WGKR-1310 w/ more sales pitch than program. I had to follow up. WLOF-950 came in real good even with a directional in the busy afternoon. Even the FMs have been coming in good lately.

JEFF ROBERTS - 945 East Moore Street - Decatur, Illinois - 62521

Greetings, DXers! I added 50 new stations to my log this Summer which makes me wonder why some members keep their RXes off during the hot months. The highlight for me was on MM 6/11 when I logged KGA-1510 Wash. @ 2:30am w/a fair ID followed by a religious program. No trace of CJRS which spoiled every previous try for KGA. Also on 6/11 I caught KOIL-1290 Omaha on top w/rr @ 2:53 am. 6/24- WIZM-1410 Wis. on top w/rr & ID @ 3am. 7/9- KFTW-1450 Frederickstown Mo. in w/c/w @ 6:03am. WENK-1240 Union City Tenn. in w/strong rr @ 6:12am. I had pretty good openings into nearby states during SS, and there, not tream-dous distances, but interesting loggings interview of the state into interview more the WBUK-1560 Portage Mich. W/a more the terminant ins.

shocked me when they IDed @ 7:43am. Local WEIC didn't s/on until 8. KSCB was playing c/w. 8/1-SRS. WPAL-730 Charleston S.C. blasted onto an almost clear channel @ 6. They promptly faded away, before I could get any details. WLIL-730 Lenoir City Tenn. in w/NX from 6:10-6:15am, then into c/w. There's more, but now I want to thank the Boston Publishing Committee for their fine service to the NRC. Good luck to the NJPC! 73s.

99701

ROBERT E. FISCHER - Apt. 3F5 - Fairview Manor Apartments - Fairbanks, Alaska This is sny first Muse from the icebox (temperatures reach

-65° in Winter) of the USA. In daytime only the four local stations can be heard, even on the SPR4 w/SM2 antenna. I have noticed numberous mixing spurs w/the main culprits being KFAR & a powerful aerona utical beacon XR at Fairbanks intdrnational Airport. Seem New Yorkers aren't the only ones with mixing spurs! I think all the XRs are very close to city cenyer, as are the residential areas. KFAR, KFRB & KIAK ar AN. KJNP operates 6:45am-12:05am Alaska local time on Sunday, and 5:55am-12:05am rest of the week. Programming formats: KFRB: popular music, mostly oldies. (rock or MoR? -Ed.) C1 mx on Sun, 7:25pm-midnight. NFL Mon. PM FB. NX @ 7, 10, 12, 3pm, 5, 10:30 Alaska time. KFAR: MoR & Top 40 mostly, public service programs 7-8am. NX @ 7am & 6pm. KIAK: c/w, World Tomorrow @ 7pm daily, & 5:30 Sun. KJNP: Religious programs, mx & NX. We do have IST here - it doesn't make sense in Fairbanks because for 32 months of the Summer there is no darkness & sun is visible 21 hours of the day! It would be nice to put some of that daylight in the bank and withdraw it in Wintertime. I havent done much nighttime DX - I'm still in a motel until occupying apartment 10/10. Strongest nighttime signals are a few Anchorage stations, KING-1090 & KICY-850. All are guite weak. In general the nighttime dials are not exactly busting over with signals here.

BRIAN VERNON - Polaris 4 #432 - Thompson, RON CA4, Manitoba

In the Eastern Conference, Ottawa Rough Rider rights are owned by CFRA-580 (in EE) and CJRC-1150 (in FF) both in Ottawa. The latter is the only station carrying the games in FF. The following stations will carry Ottawa games in EE: CFRA-580 CJET-630 CFJR-1450 CKLC-1380 CHOV-1350. I'm sure there are lots of NRC DX FB fans! (Brian encloses a letter from the Saskatchewan Roughrider FB Club listing these stations carrying their games: CJME Regina, CKEI Prince Albert, CJME North Battleford, CHAB Moose Jaw, CKOM Daskatcon, CJGX Yorkton, CFSL Weyburn, CJSL Estevan, all Sask., and no frequencies given. -ERC)

ERNEST R. COOPER - 438 Bast 21 St. - Carrier Route 56 - Brooklyn, N.Y. 11226 A little DXing, but very little, as you will observe: MM 9/ 17- WSUF-1580, L.I., testing and oddly, o/similar-called WSRF @ 1:30am, and using c/w. Unn WMIR-1550 noted ETing on 1550 @ 1:41. 9/25- I woke up and did a little tuning - Question. Who s/off-1560 @ 2am, calls sounded like W-XX & they played the SSB @ 2:005. MM 10/1- Rather noisy morn, and an UnID TTer on 1550 @ 1:30-1:37 & on with varying pitches and OC spots too. A talker on 1265 @ 2:15, is St. Kitts ANing it now? And I spent a lot of time with a TT\_r on 1080 which at times got almost up to WTIC's volume, and they IDed about every half hour, & I got "Florida" and that's all - I think either WVCG or WFIV. Anybody know, Ron Schatz or Ron Schiller? Testers noted on 1330 1360 & 1460 around 2am. The FF on 1060 was like a block-buster today, and WEN-1050 was off. WMCA-570 & WENX-1380 are definitely MM ANS now, oh joy, oh ecstagy. UnID-940 with lots of oddtoned TT, but no IDs heard probably was WMIX, unn. My mother is home from the hospital, but needs much care, and time is at a premium. Several of you Musers have asked for replies from me lately - please bear with me - I just can't find the time, what with work and doing this work too. So, let's remember, we're on the WEEKLY grind now - we need your Musings to restore this column to its rightful #1 postion in DX NEWS - not only in longevity, but in DX info too! Muse!

ISSUE BEING CLOSED ONE DAY EARLY ON WED. OCT. 3 SO AS TO MAIL EARLY DUE TO THE NO-MAIL HOLIDAT IN NEW JERSEY ON MONDAY, OCTOBER 8. NEST DEADLINE IS THURSDAY, OCTOBER 11 and EVERY THERSDAY THEREAFTER! DOUBLE SMACE! JIM POTERBA - 949 Queens Drive - Yardley, Pennsylvania - 19067

How do! First off, I would like to give best wishes to the NJPC as they now take over publication of DX NEWS! Best of luck! Our latest DX: 9/5-Morroco-935 at good level 8:19pm, report sent. 9/6- RAI-845 killing everyone at 8:30pm, another report to a TA. 9/8- KCHA-1580 @ 1:45am on r/c, & WIMS-1000 w/s/ off 6:58pm. 9/10- WYYZ-1580, the newle in Jasper, Ga. noted w/ET using ERC's c/w 2am, and WDOE-1410 that night @ 7:29pm. WISI-900 for report 7:45pm. 9/13- Fine day for logging IAs, even though A-indices never got above 10! YVMF-1120 in for report (taped, three spots & ID) 8pm. ZEVI-780 for report 8:30. HIJP-890 for report 9pm, & XEW-900 o/all for tape report @ 11. We also had someone on 975 @ 10:45. but no IDs - perhaps Costa Rica? 9/14- WFSP-1560 s/off 7:28pm; WINH-1470 s/off 7:30. 9pm saw ORTF-1375 St. Pierre in for good report - country #47. 9/16 - HOL80-840 for second report 4:17am, CKLY-910 atom channel mess 5:35am, WLFH-1230 s/on 6:04, WKRT-920 w/NX 6:15am, WNIK-1350 m/am @ 6:30. 9/17- What s this? WCAU-1210 is off altogether (not on OC) and we finally logged Bordeaux-1205. This was lam, & @ 1:53 we returned hoping for Sierra Leone , but just a carrier o/ORTF no audio, drat. WBTS-1480 on r/c 3:15, & report off to YVOZ-1200 3:43am. 9/18-Montreal game running late, and report for CFLV-1370 o/u WSPD 1:30am. Veries: CBJ-690 WHHH-1440 (thanks, Wes) WAAB-1440 KLOU-1580 KRCI-1430 KTUI-1560 WSSV-1240 & WCHA-800. In closing, Let's make MUSINGS OF THE MEMBERS the best column in DX NEWS! Report this coming season, even if you don't have all that fancy DX, and let us know what you're doing! 73s & good DX.

ANDREW F. RUGG - 16 Lake Breeze Avenue - Pointe Claire 700, Quebec

I enjoyed the BOSTON Convention and it rekindled my enthusiasm for BCB DX. Recent veries are HIAT-650 pp, WRKO-680 WCCU-1240-pp WRIE-1330-pp CFGO-1440 & WQQW-1590. New loggings are sparse, with only CFGO-1440 on 7/2 and WWEL-1430 (ex-WHL) @ SSS on 9/16. Both are call changes. I made a few changes in my job situation which should permit more DX this Winter. Instead of being a travelling internal auditor, I have the deskbound job of "Staff Assistant" with "Domtar Newsprint Ltd." I will be in Montreal all the time & shouldn't have any problems squeezing in as many MM sessions as I want. Indeed, working "executive hours" I can catch up on my sleep and saunter in at 10 or Ham on MM. Former NRC member Phil Jacobs is back in Montreal. He has his PhD in Economics and is looking for a job. The new Lachute station on 630 should be on the air in a few months. I was in Lachute in August but it wasn't on yet. It is very difficult to verify HIME-; 180 "R. Mil." I have sent them three requests in the last 18 months. They read my name over the air & I get some letters from some of their listeners, but I never get a verie! The New York Rangers will win the Stanley Cup! 73.

RICH RICHMAN - WLFH - 341 South Second Street - Little Falls, New York - 13365 I'm finally on the other side of the RX. Since mid-July,
I've been the "evening man" at WLFH-1230, Little Falls, N.v. I'm on every night except Saturday. S/off is after Midnight NX. A f/c was conducted the morning of 9/15; I had no warning. WLFH's CE is Doug Kehrig. Little opportunith for DX as there is much interference on the dial from other apartments in the building I live in. One that was heard was WTRX-1330 Mich. conducting XR tests from 1:17 tunein to 1:35 s/off , 8/5. WLFH cuts power from 1,000w to 250 @ 7:15 during September. I visited WADR-1480 Remsen, N.Y. in July. Any NRCers who can hear WLFH. please write. 73s. (Please Dut on a DX TEST. Rich - ERC)

DAVE SCHMIDT - 8 Valley Terrace - Apt. 9 - Wilmington, Delaware - 19802

The situation with the house is still on, and hopefully the moving date will be around the 17th or so. We have got a new addition to the family as of 8/11, Eric. He's rather handy, sort of a DXer's alarm clock, hi' Recent veries: v/r- KRMG-740. v/1- WVAM-1430, WMRA-1460. I'm still in the process of running down last season's non-verifiers with some success. Once we get settled, look out CPC. I've sent a whole pile of articles to Alan Merriman over R. Free America that appeare in th Philadelphia Enquirer over Labor Day weekend. Should be interesting if this thing gets on. As of 9/16, nothing has been heard. A host of  $\frac{4}{3}$ roblems were mentioned on local NXcasts, a broken crystal, bad grounding and antenna problems. That should about do it for now. 73s.

Rev. McIntyre's "Radio Free America" was on the air Wednesday afternoon, 9/19, but left the air the next day because of complaints of interference from WHIW-1170, Iakewood, N.J. R.F.A. used 1160 and now plan to move to 1613 kc/s. OMESTIC X IGEST

Wes Boyd 960 W. Liberty Girard, Ohio 44420

Radio Free America seems to be the big news DX-wise lately. To sum up several reports from TRS and DS, here's whats happening. Heard first time by TRS with OC-ET 2345-0050 on 9/12, and reports indicate, by way of RFA staff, that audio was run for testing 0130-0200. **RS** began at 1220 on 9/19 on 1160 kHz and was terminated at around 2200. An interference complaint from WHLW-1170 caused the voluntary ending of operations for the time being and the predictible legal hassling ensued. The most recent poop indicated a projected switch to 1608 kHz with RS tentativly set for 10/1. According to the RFA GM, during the 1160 operation, receptions were reported from places such as Bangor, ME, Dover, DE, Cape Cod, MA, and Pittsburgh, PA. During that day, no sign of RFA was noted here in Ohio and as of this date, 10/3, nothing has been heard on 1608. We would reccommend you keep looking for RFA, as even if they do reappear, the whole situation is predictably shakey.

### THE F.C.C.-MOVES-IN-MYSTERIOUS-WAYS DEPT.

Although we don't know exactly what, if any, changes it will cause, the FCC has decreed that stations no longer are required to have frequency monitors at their transmitters, assuming that transmitters at the current state-of-the-art are sufficiently stable to no longer require the hourly frequency readings. The one stipulation is at least monthly external frequency measurements. This may increase the numbers of experimental-period FCing. Time will tell just what this will mean to DXers but it could be the first FCC ruling to help out DXing in many a moon. More later as this ruling is clarified.

JON E. PRAEKINS - 6137 Service Street - Burnaby 1, British Columbia

After a lapse of three years I finally broke down & returned to DX. Sounds more like the return of a bad habit than anything else. Since I never joined the NRC before, I thought I would be best to introduce myself. I'm 21 and in my fourth and final year at UBC, working on a ESc in Computer Science. My RX is a souped-up Lafayette HA-230 with an SM. I usually DX only foreign and unusual domestics due to a lack of time & patience (i.e., getting up or staying up in the middle of the night doesn't agree with my metabolism), which might also explain why I will not be doing much reception repprting (to radio stations, that is, not DX NEWS). But I do have one report out at the moment: CEXQ-540. Aside from going to school, I have worked in Ottawa, Prince Rupert & Trail during the Summers & discovered that Vancouver isn't so had a place to live after all. if you don't mind the rain. Trail is a terrible place to DX (Cominco - the largest non-ferrous smelter in the world - has an electrolysis process that makes CJAT the only station on the dial you dan listen to without a tin ear), while Prince Rupert is beautiful for DX (only one 250w NSPer, CHTK, & CFPR signs on as late as Sam SM). While in Ottawa I got to see a good share of IRCA/NRC types: Eric Floden; Quentin Brown; Paul Daplyn; Jerry Osborne; Martin Vankuilenburg; Dave Whatmough (telephone only); Wayne Plunkett; Morris Sorensen; Henry Kauff; Brian Pitman (the latter three during my token appearance at the CIDX Convention). Here is Vancouver. I have found the Space Magnet to be an excellent DX tool and the HA-230 is much more lively an RX now that Paul Daplyn redesigned the circuit slightly (replaced one tube; rewired the tube socket; replaced one capacitor; realigned the RX because of the new tube's characteristics). Paul will write an article for DX Monitor if there are a sufficient number of DXers still with HA-230s or equivalent RXs & it'll probably be reprinted in DX NEWS. 73 & good DX.

#### JAMES E. CRITCHETT - 1103 North Street - Yreka, California - 96097

With as few reports as you receive, it hardly seems necessary to limit those reports to 20 lines; what will be used as fillers; not technical articles, which very few amateur DXers can understand, I hope. Come on, members, swamp Ernie with 20 lines. From 9/11-17 one reception report has been written, & one vefification received. The new "Kagy Radio", CKGY, Red Deer, Alta. is being reported, alternating w/KVOO from 4:46 to 6:07am 9/17. KLOK was off, & KCBQ used OC w/only two IDs heard during that time. CKGY said 24 hours, 1170. The verie is a v/f from WGAY for an ET on 9/1 on 860k. Disregard previous reports; the TPs can be heard here. KORL-650 in daily about 8am EST; KKR-830 alternating w/a Japanese; Freeman reports 2NR on 700; Chinese all on 1046; Japanese at 1997 17 was my best here. KMVI-550 off © 3:01; TIC-1060 and the recent at the same set of a start when a solution of 120. The set of also. I didn't hear more, concentrating on 1050 & 1170. This might be 20 lines; might be enough for weekly reports.

NANCY GANTZER - 3122 Simpson Avenue - Apt. 1 - Hoquiam, Washington - 98550

Hello everyone. DX from here in Western Washington includes 8/20, KLIX-1310 ID @ 2:04 w/WX & 0/off @ 2 05. The BPC should be congratulated for doing such a fine job publishing DX NEWS. Good luck to the new NJPC. Net May NRC will have a "new" member - Nancy Hardy. On May 18 I'll be marrying IRCA Special Features Editor Bill Hardy. We will be married in W. N.Y. and hope a lot of DKers will be able to attend the "DX Wedding." There will also be a special reception here in Washington sometime in June for our friends who live on the WC. More details in a later Musing. Until then, 73. (Seems like somebody a few years ago forecast the wedding of the NRC & IRCA---- ERC)

### RON SIBBITT - 45 Paisley West #1008 - Cooksville, Ontario - L5B 1E4

I was a member of the NRC about seven years ago, but got sidetracked on other things, now that I've got an HQ-180. I've become quite interested again in the NRC. Please let me know who to contact to rejoin, etc. I found an old DX NEWS and just took a chance that your address would still be OK. I'll be looking forward to hearing from you. 73. (Attention, NJPC -ERC)

MUSINGS OF THE MEMBERS even outdates the FRONT PAGE of N.R.C.! Let's keep it the first and foremost section in this Hist year of our existance. Try to stick to 20 lines, and remember, our deadline is Thursday each week. No report singlespaced will be honored by your Editor who finds it just too difficult to type in these latter days, so remember - single space - and - YOU'RE OUT. TIM KERFOOT = 34 Cross Street - Weston, Ontario - M9N = 2B9

In heard since last Musing: 9/16- R. Paradise-1265, 9-10pm, good signal, country #11 heard. 9/23-WCIS-1560, 2:28-2944am. CMCB-1560, 3:15-3:30am. Has this one increased power? They sounded too strong for 250w, but the ID was R. Reloj Nacional. Also, several unIDs were heard. 9/15, unID FF, w/Parisian mx around 1375k from 8:35-9:55pm, St. Pierre? 9/22- UnID station on 1550, 2:10-2:25 am, NX until 2:13, followed by commercial, then WX for San Francisco, then into cl mx. They were in again 9/23, giving time in Pacific zone @ 3. It was so obviously KKH1 but on both occasions severe electrical disturbances made ID impossible, hence, no log. Also, what station on 1560 carries UCIA games? On 9/23 there was a station carrying a UCIA-Chio State game audible 3:05-3:30am, cutting into CMCB.

## STAN MORSS - Route 3 - Bradford, Massachusetts - 01830

Veries - WWEL, ex-WHIL, a prompt v/l in four days. WKPQ, ex-WJAS, & now WKTQ, via PP/c. Nice write-up on R. Free America in Broadcasting and Advertising. An interesting and fairly quiet Convention - no fires on the hotel, as in the past, or visits from Police or House Detectives while I was there. No Coors, but they did have Carta Blanca beer at Worsthaus Friday night - none left Sunday, so I bried the Mon Lei from Hong Kong. Convention auction a real event -Sorry I won't be able to make Toledo

#### MIKE COLLINS - Stratford, Connecticut

Hi all. I just happened to tune in last Wednesday afternoon 9/19 &heard R. Free America, Carl McIntyre's pirate station from the Atlantic, the ONE DAY it was on. The signal in Stratford was surprisingly weak considering the station was running 10kw. It was listenable, but was substantially weaker than WLDB-1490 Atlantic City, which is only 1,000w. At night I went to Hartford & it was a 50-50 battle between R.F.A. & WJJD. (Stratford is on the coast). RFA's skywave to Hartford was strong. McIntyre closed the station down that night after he received a telegram from WHIM-1170 Lakewood, N.J. WHIM said RFA was causing severe interference. In Broadcasting, McIntyre said if the 1160 channel did interfere with an uone, he'd try 535 or 692 as alternatives, or go above 1600. It would seem 535 would cause severe hets with WLIX & WIMV. KPMC-1560 Bakersfield has joined CRS. WINF-1230 Manchester, Conn. is operating 4:30am-1:10am approximately, and is NOT AN. WICC-600 Bridgeport Conn. ends AN on 10/1 & will operate 5:30am-midnight. WHRF-1570 Riverhead, L.I. was off all day 9/24, Monday. As usual, WDEW Westfield, Mass. & WBUX Doylestown, Pa. could be heard weakly. WSUF is full power again on 1580, Patchogue, L.I. I heard one of those preachers on WWVA mention he pays \$135 a night for his nightly 15 minute slot. This comes to \$675 for a five-night week. I van be seen why paid religion is carried by some stations, especially 50kw clears like WWVA & KXEL. It brings in a greatideal of money. I am leaving WICC to accept a position with Assocaited Press in Hartford. WICC was a great experience & I will miss working there. 73.

### BOB HYMES - 120 Lynnhaven Drive- North Syracuse, New York - 13212

9/17. First, 1,000 pardons to ERC for sending this in manuscript, but my typewriter is not working as well as it should. Second, I see by looking at my small collection of old DX NEWSes I did not give an intro in my first (and only to date) Musing. I am 17, & a seniorat North Syrqcuse Central High School. I am very good in SS which should help me in those IA DX catches (when I get them, hi). I really don't have much of any DX to report this time, partly due to the fourweek vacation I took in July & August, & partly due to poor CX. However, one interesting note - on the return trip, while stopped overnight between North may & Mattawa, Ont. I heard two Syracuse stations, WNDR & WFBL. This was on 8/7 @ around 9pm. Nothing else of great importance received during that trip. Also, in ansser to a question of Mike Levintow: WMCR-1600 Oneida, N.Y. is on until 8:45pm during July. On yes, when I returned from vacation, I of course called WNDR and WFEL. Both were amazed at my report, & WFEL even sent me a copy of their day & night CMs. This Fall, I hope to get more time to devote to DX & boost my meager total of 154 stations. And finally, I want to congratulate Jim Poterba on his reception of super-local WSOQ. I'm glad they're doing somebody some good, hi. To me they're a big pain. I live about 15 miles from their XR which eliminates any Dossibility of DX from 1160 to 1280k. That's all I have to say except that I won't be in BOSTON for the NRC Convention. Maybe next year. 73 & good DX. C U next time, which I hope will be soon.

HARRY J. HAYES - 9 Henry Street - Wilkes-Barre, Pennsylvania - 18702

As we move into the Winter DX season I might as well unload this late Summer DX. As far as Summers go this one was worth keeping the log book open for, at least here. 7/26 8pm, WFIF-1500 Conn. in well w/c/w. 8:45, WQTW-1570 Pa. s/off "On @ Lane." 8/11-7:30pm, WAIK-1370 N.Y. in very well w/ MOR; "Island Broadcasting System." 8/15-I tuned to 960 @ 8pm & heard WEII Conn. MYL Pa. & WFIR Va. simultaneously. Thirteen minutes later I heard WATS-960 Pa. ID itself. 8/20-I stumbled across an MOR on 820 which turned out to be WAIT Chicago, heard @ s/off, 9:15pm. 8/21-7:03pm, WPDC-1600 Pa. 8/23-7:34pm, WTNJ-1300 N.J. 8pm, WTSN-1270 N.H. 8:07, CJCB-1270 N.S. The WX said temperature that ight to be in 30s! In Sydney that is. I am almost finished with the very tedious job of typing my logs over from the last three years. I made three copies along with my running log as an insurance against fire or other disaster. I have thought of doing this before but recent DX NEWS article put thoughts into action. A second benefit of a culmulative log over a running is that is eliminates a lot of case suffling looking for what is or not looged. The total now, 501 heard.

JAMES E. CRITCHETT - 1103 North Street - Yreka, California - 96097

With the approach of Fall & improved DX CX. I am beginning to realize the advantages of this DX location. First, though, I moved the SPR4 & 2<sup>†</sup> FWT Loop across the ouse to the bedroom farthese away from the power line. & reduced the static to some extent. But I am beginning to get more & more stations through the nearer ANs, such as WJR u/KFME-760, WBEM u/KCRL-780, CFCN u/ KPAY-1060. CFAX u/KNX-1070. KMOX u/KPNW-1120. etc. Starting with 9/1. WOAY-860 IDed twice in quick succession @ 4:32am EST, again @ 4:35, & then TT till 4:57. At 4:58. CJBC-860 began w/"O Canada". MM 9/3- WABC-770 IDed @ 4:02, w/KOB off. KEMI-790 is SPU: ID @ 4:58. KYME-740 IDed as testing @ 5:13 to 5:32, & CBL-740 ID w/NX @ 5:38. KOH-630 has been signing off @ 3:09 nightly, & XEMO-860 off @ 3:18. Wed. 9/5 @ 3:56am EST WREN-1250 ID u/KTMS, & @ 4 WWWE-1100 IDed u/KFAX. Fri. 9/7 @ 4:13 CFRB-1010 ID. Sat. 9/8, WHOO-990 finally made it through the static @ 3:41am. On SM 9/9 KTYN-1430 s/on @ 6 & gave the NX & WX for Minot, N.D. 9/10, @ 3:05 on 710 there was nobody - no KIRO, KMPC or even KETR; if WOR on, too weak. At 3:48 on 920 KARN was the only one audible: on 980 KFWB was off. as they are occasionally the second MM. At 4:45 CMQ-640 said "Cuba"; KFI was off; & although I heard no ID, I'm sure it was KORL that s/off @ 5 w/SSB u/WSM-650. KORL had a talk show until s/off; WSM on @4:43. I know most of this should go to Wes Boyd, but I don't want to take the tiffe for two reports & these items show what can be heard here in No. Cal. Might help some WC DXer. 73s. (This is the place for your DX catches, Jim - since 1946, hi -ERC)

GREGG A. CALKIN - Canadian Embassy - Apartado 587 - Madrid 1, Spain

My last Musing has been so many years ago I can't even approximate when it was. But I thought that a recent trip to the Balearic Islands might provide some brief notes of interest on the BCB situation in the Islands. From the capital, Palma de Mallorca, three stations are presently operating: R. Mallorca-800 FAJ13 (bam-midnight GMT); R. Popular de Mallorca-1268 FAK18 (6am-midnight GMT) & R. Juventud "Ia Voz de Balearea" on 1385 (6:55am-midnight). From Ibiza. R. Popular de Ibiza-1502 EAK24 was also noted daily in Palma at good level. The listed station in Menorca, R. Popular de Menorca, EAK58 was not pisitively IDed. however. 1430 produced two signals daily; the dominant R. Popular de Valencia-EAK5 & one weaker station which remained unIDed, but which might have been Menorca given its low power (400w listed). During the daytime, using a Nordmende portable, the band was diminated by Algerians, Marseille-674 & east coast Iberians in Barcelona, Alicante & Valencia. CX in Madrid over the past four months have been excellent cespite the Summer. Using an SW4A & Space Magnet many nights of excellent TA activity have been observed w/many signals from the USA & Canada. Colombia, Venezuela Brazil & the farthest in the form of R. El Mundo Argentine mixing w/CEA-1070! From the E, BEC-Muscat, Israel-737, S rai-782, Baghdad-760, Amman-800 & of course the Voice of Peace-1540 are regulars, the latter suffering severe het from DLF=1538. The old Caroline ship "Mi Amigo" incidentally is now running a programme entitled Radio Seagull from 8pm-5am GMT daily which is very strong here after the Spanish co-challes close & should easily make it to the USA. For now, cheers & best 73.

ISAAC EAVES - 10113 Pillot Street - Houston, Texas - 77029

I have continued to be somewhat active in DXing this Summer. However all activity has been from our weekend place 145 miles NW of Houston. In agaition to the out in, three 200' Lws have been added, in various directions. of course. The correct one can be selected by the antenna switch to feed into the RBB-1. I had to chase down some har ;-to-find tubes for this RX lately. but the excellence of its performance makes it worthwhile. Totals for a vear of listening stand at 330 heard. 194 Texans. 34 Mexicans, 13 countries. The call for 590 Austin, Tex. is still KTEC and not KLEJ. Ex-1240 KCRA Bryan, Tex. is now KTAM. Ex-KLEN-1050 Killeen. Tex. now has the call KIXE. Back in the SDring. KRGO-1580 Waco went to the new call KRZI. The new KHYM-1060, Gilmer, Tex. has been heard several times testing and then on RS w/religious programming. Some of the highlights of listening this Summer: 6/18- At 3:30am, ZNS-1540 good w/ TTer in background. At 4:06, KFBK-1530 Sacramento, fair, much QRN. 8/13-3:15am TGX-850 Guatemala fair. KOA had an OC, IDs after each record. We are assuredly permanently indebted to the BPC for the professional manner in which they guided our Club these several years. High standards indeed have been set for those who are "to follow in their train." We believe the NJPC will be challenged to further the hobby even more. So fellows, we appreciate you for a job well done and for the job yet to be done. Excelsior.

JEFF KOSNETT - 1108 Nor5h Plum Grove Road - Schaumburg, Illinois - 60172

Good late-Summer DX here in the land of the giant XR. WHN-1050 is coming in better - I heard most of the Mets' 9/8 double win vs. Montreal here as well as the same the next night. Other four Eastern trans, no problems with WCAU KDKA KMOX & my next-door neighbor, WCN. Also, 77% return on August reports but WGAR & WLW did not respond. Those that came in - WRVA WOW WAKR KOA KSL WSB WGY WFLI WSET & WGNT. DX: 8/29- XERF-1570 w/CHLO @ 1:15. The Mexican was in EE. 9/1- WMC-790 in for the first time o/u WAKY @ 10:15. At 10:40, XEW-900 came in pretty clear through WIS splatter in SS. 9/8- KFAB-1110, which I mentioned in 9/8 DX NEWS, came in fine for the first time here @ 11:15. Later, at 11:40, WGEM-1440 heard. ,, 9/10- One of my best graveyarders, WROZ-1400, in well w/MoR @ 12:45. At 2, XEG-1050 in EE, & @ 2:05, KNX "Newsradio" heard fairly well. This is my second WC station - KFI-640 is the other. KNX was much stronger than KFI was back in Feb. 9/12- XEMA-540 (maybe I should get a smobrerc) in L&C @ 11:05. Next MM, 9/17, I did my first AN session, & it was worth it as I got 14 new loggings and some real good catches were among them. 12:25, KWKY-1150 w/a f/c that ran for 13 minutes. CKOC was on, and they were o/u the f/c for its duration. The 1 o'clock NX got me II1. #43, WQUA-1230. 1230 is taugh for me because of the 1240 superpest that broadcasts in everything from Albanian to Zulu, but at this time they weren't doing too well. At 1:04. I heard WBOW ID. followed two minutes later by WUBE. At 1:20, WNDR's rr broke through WNDE's talk on 1260 for an ID. 1:46, KTIK-1280 w/rr battling CLMS' FF. CLMS was new here & KTIK was a complete surprise. They use frequent "Double K" slogans. 2:35, WFBC-1330 heard w/no sign of WHOT. 2:56, WSIR-1350 finally IDed after much c/w mx. 3:30, KQV & WING sharing 1410. 3:40, WHK-1420. WVON was off, or somewhere, because I got a clear ID from WMOC-1450 @ 4. At 4:47, no WIND, KTSA-550 weak but clear. Before I go to 30 lines, 73 to all. And, as they say in McAlester, Okla., KTMC- Keep The Musings Comin'! Schaumburg totals - 213/26.

RICHARD E. WAYMAN Jr. - 12 East Cak - Villa Park, Illinois - 60181

£.

FIASH! Big news from Big Richard. I got a DX-150A. It's really groovy & it picks up EVERTHING! I plan to construct an NRC Loop. I'm still waiting - come on, guys! I know you're all anxious to hear about my latest DX adventures. I got 20 new stations with the new RX. New pickups: WABC WNBC WWSW WOWO WIBA KIMN WSGN WCBS (#100) WSPD KFI CMQ WAAM WHAM WING CBF WHTH XEWA WBAY WTRU CMJP WOR WTSO WILS CJBC CEK XERF PJB WINS WTIC WKYX CBE WHK WIEV. That's all of 'em. School started, I have to get up @ fam (ugh!) which means I can't DX or else I get only two hours of sleep! I got Domestic Log and Pattern Book - are superfantabulous! Well, gotta run,write to y'all later. Meanwhile, write me - I'm trading SCs. Love to all.

PETER A. ROMEIKA - 17 Old Oaks Road - Rosemont, Pennsylvania - 19010

Not much to report since last Musing. I 9/17, I start an Amateur Radio course on Monday nights, for ten weeks. I now have the time to get it. I am still trying to find a job in radio-TV, hello Blake Lawrence! I switched back to the clear channel stations, but am still interested in the locals

and regionals. My latest count of stations verified is 64 with two countries heard, Canada & Bahamas. Nine new stations were heard this past Summer, with about half verified, from my home that is - they are WEEU WERW WASA WILM WAMS WHAZ WKPQ WFER WDOV. That's all for now from Rosemont, awealthy suburb of Philadelphia. Good DX to all & 73. ERC, how did you manage to log all those stations with that mess in New York? Let's hear it for the Pagles! (Flap flap! -ERC - don't forget, Peter - I started in 1932 BAN - Before All Nighters!)

JIM POTERBA - 949 Queens Drive - Yardley, Pennsylvania - 19067

Greetings, all: DX has been slowing down due to school, etc., but I'm still hearing things now & then! Latest loggings: 9/18- WKEW-1520 off, so good tape for WRAI @ 2am & WNCT-1070 to pattern change @ 7:15pm. 9/19- R. Free America is ON! After call from TRS on 9/18, I checked 1160k as soon as I got home (2:30) & found the pleasing tones of Carl McIntyre (?) coming through @ S7! TRS also tells me this was the one noted ETing on 1160 for about a week prior to this - another mystery solved. 9/20- WJOE-1080 r/c strong 2:50am, then a CW beacon on about 534 which I believe was Y-A-W - any help? That evening, a beautiful Southern TA opening showed clear audio from Portugal-665 & R. Clube Portuges-782, w/Rome-845 & Barcelona-737 also showing. Carriers on nearly every frequency. 9/ 22- WCHO-1470 @ good level behind WSAN 4:16am, & a mystery in WLIN-1360 running RS @ 5:45am. That night, WSRO-1470 strong w/s/off 6:58pm. 9/24- Poor MM here. XEX -730 taped for report @ 1:27am, KOMA-1520 reported w/WKBW off @ 3, & WOW-590 for report 3:30, CMKF-620 in u/domestics 2:30am. That evening strong Aurora continued, with: ZJB Monserrat giving WCBS a good battle (ZJB on 885), WSFX-970 in the U.S. Virgin Islands w/clear ID 10pm for country #50. 9/26- VOA-1180 Marathon in u/WHAM in early evening, & WHVR-1280 logged u/WADO 7:05pm. Recent veries: KCBS-740 CFBC-930 WPRO-630 Beacon NB-530 (a very pretty RCAF card!) CBY-990 CJET-630 KLOU-1580 CBU-690 (Prov. #9), WISI-900 WIAN-1390 WVMT-620 WVAR-600 WTTI-1530 KCHA-1580 WSSV-1240 WKRT-920 KWAY-1470 WNIK-1350 WDOE-1410 WHTS-1480 WINH-1470 R. Free America-1160 (guess my dollar mention did it, right, Dave Schmidt?) WVAM-1430 WDEV-550 KTUI-1560 KTHS-1480. 73s.

### THOMAS R. SUNDSTROM - Box 205 - Willingboro, New Jersey - 08046

Lots of things happening here. If things go as planned, you've already read of my continuing dialogue with Ir. Carl McIntire re R. Free America. A lot of activity on his yet-unannounced (at thattime) frequency of 1160. The 9/19 RSon 1160 was heard here, beginning @ 12:23pm, & s/off was 10:14pm R.F.A. did not return because of the WHIW complaints, a bunch of nonsense on WHIM's part. I expect RS to begin again on 10/1, date of court hearing, on 1608 as I've been informed. Otherwise, some equipment has been added to the "shack". A Heath IP-18 1-15 vdc power supply was built to power the SM-2 and other batteryoperated devices around here. I was quite impressed by Foxworth's SB-620 Spectrum Analyzer tied into his HQ-150; so one was built but Heath now is in the process of fixing it. Bob's worked; mine didn't. Bad parts, I think. And finally, a surplus BC-344D RX tuning 150-1500k was bought for \$10. It works, & I expect to have some fun in the first decent TA opening. 73.

JCHN JOHNSON - 318 Washington Street - Hoboken, New Jersey - 07030

I'm still alive, & still DXing. A re-intro - I'm 63 years & have been DXing since 1925, Total heard about 4,823. How many of you members remember 6KW & PXX, both from Havana, Cuba in them days? Last year was very good to me - I got 70% of stations. The EX I use is a military version Mammarlund SP-600-JX-17. It is the best set I've ever used - sensitivity is between 1 & 2 microvolts & is of the quiet type, not noisy. To those of you who own SP-600s make sure all tubes are good also condensers & resistors, then align it accurately. It is only then if you follow the above that you will realize how good a set it is. To those who care to write me, my address is above. Until next time, 73s.

# JEFF FALCONER - Box 63 - Clinton, Ontario - NCM - III

I thought I'd write a few lines to let you know I'm still around iast week one of my friends who works at CFGO visited me. She said CFGO will be 50kw as of 11/1. Not much in the way of DX this Summer. However I did hear one of my closest unheards in WJJL-1440 Niagara Falls, 130 miles. Also WIRV-1550 w/ f/c 8/14 @ 3am, fairly easy. Recent veries: WIMS KATZ, v/1. KFBK v/q. I can hardly wait for Winter DX to start booming in. Until then 73s & good DX to all. Alan Merriman - P.O. Box 6 - Fairfax, Virginia 22030 Phone 703 - 354 - 2135

Greetings. Conditions continue to be rather poor, at least at this location. There was a good TA opening on 9/29 which I hope some of you managed to catch, I didn't. Here is all material that is on hand as of Friday, October 5.

REPORT FROM SPAIN-Gregg A. Calkin-Canadian Embassy-Apartado 587-Madrid-1, Spain

- 539 KUWAIT-Al Kuwait 9/9 s/on with IS as per WRTVH at 0226, opening announcements and AA program. Fair level.
- 629 GERMAN DEMOCRATIC REPUBLIC-Radio DDR, Erfurt, GG announced music program at 0108 9/9 tune: // 746 but stronger.
- 737 ISRAEL-IBA/Quadima, fair level at 1900 ending FF program and into AA with time pips; almost equal with the co-channel Spainiard 8/16.
- 746 ALGERIA-RTA/Tlemcen 8/28 1950 with music and long winded talk in FF; // 890. Weak.
- 755 ROMANIA-Lugoj 8/16 1913 tune with Italian Foreign Service program. Fair.
- 776.5- IRAN-R. Zahedan, 8/27 2035 Persian music program at weak level.
- 836 SPAIN-R. Peninsula de Huelva, 9/9 0208 s/off with local identification and anthem. Excellent.
- 980 ITALY-Trieste A 8/29 2130 s/off in Slovene and ID in Italian. Very good.
- 1133 YUGOSIAVIA-R. Zagreb 9/2 0200 3 tones and mention of R. Zagreb and Radio
- Beograd w/light music program. Zagreb or Tovarnik or both? Excellent. 1410 - MUSCAT-BBC Masirah Is., 8/15 0205 with BBC World News. Fair.
- 1430 SPAIN-R. Popular de Jean 8/15 0201 s/off after brief closing announcement. Fair. SPAIN-R. Popular de Lujo 8/15 0204 s/off with closing announcement and

anthem. Excellent.

- 1439 LUXEMBOURG-R. Luxembourg International until 0200 s/off daily; bills itself now as "Britain's only national commercial radio station".
- 1187 INTERNATIONAL WATERS-R. Seagull on board "Mi Amigo" excellent nightly from about 0100 when the Spainiards clear the channel until s/off 0500 GMT. Should make it to ECNA easily.

Now for material from this side of the pond.

٨

- 560 BRAZIL-R. Iguacu, Curitiba is off the air. (SCDX via MWC)
- 597 ENGLAND-Capital Radio sked to start 10/16 at 0500, will be 24 hrs.
- NORTH KORFA-Pyongyang in well 10/1 1038 with woman in KK, followed by singing. (FJP-CA) No sign of the South Vietnamese reported tentatively by Al Lehr to IRCA.
- SPAIN-RNE Sevilla w/poor audio and mx noted at 0431 and fair by 0440 on 9/17 w/severe 680 slop. (RC-ILL)
- AUSTRALIA-Fair signal, readable at times with good Aussie speech must be 2NR. Heard 9/14 and 9/15 around 1330 GMT. Alone 9/14.(CF-CA) JAPAN-Very nice signal heard here 9/15 when loop turned 90 degrees off the 2NR signal. Clearly JJ and probably JOKD but JOFB also on channel. (CF-CA)
- 719 ENGLAND-London Broadcasting to open 10/8 0600 w/ news 24 hours a day.
- NORTH KOREA-Kim Chaek in quite well 10/1 1036 with male KK talk. (FJP-CA)
- CUBA-Camaguey (presumed per RFS list), 10-1 noted on high side of CBL w/pop mx & very little talk from woman ancr, ex sig at times even with rx wide open (no het), w/La Voz de Cuba ID 0430. (TRS-NJ)
- JAPAN-JOIB Sapporo mixing with SS (presumed YNX with ranchero mx) with EE lessons 10/1 1110. (FJP-CA)
- SENEGAL-Dakar w/s/on 0600 and fade out 0620 on 8/18. Usual chanting and slight WJR slop. Best TA heard on 9/17/73. (RG-ILL) SUDAN-Ondurman noted on the air by 0310 CMT. (MWC) One to look for!
- 770 JAPAN-JOUB Akita with male JJ talk, wiped out by KOB TT 1008 10/1. (FJP-CA)
- INTERNATIONAL WATERS-R. Caroline hopes to be back here as a pop stn when diplexer is completed. This on board "Mi Amigo" w/R. Seagull. (DSWCI)
- HID MEXICO-XERSV Cd. Obregon, Son. w/ranchero music, R. Variedades ID 0140, 9/29. (FJP-CA)
- MEXICO-XEVQ Cuiliacan, Son. w/SS ballads, spots, ID at 0158 9/29; s/off 0200. (FJP-CA)

- 863 FRANCE-ORTF Paris s/on 0500 9/29 folo by ID Ici Paris by man. (PT-NJ)
- 870 BRAZIL-R. Jornal do Commercio, Recife is 24 hours. (SCDX via MWC)
- 880 CUBA-CMAF Pinar del Rio, good R. Progresso, Cadena Nacional ID hrd 1000 9/9 with loop facing SSE. Music proved to me that TGJ Doesn't have a monoply on marimba music. Light opera mx here as well, looping SW likely 1YC as YC net is usually hard core classical. (JP-BC)
- 890 JAPAN-JOHK Sendai, faint 10/1 1021; faded under WLS, (FJP-CA)
- 945 ECUADOR-HCDE2, R. Ifesa, Guayaquil noted 9/10 with anmts 0405, 0415,0430 otherwise all mx. Good sig on peaks, but also long fades. WPEN off. (TRS
- 1034 PORTUGAL-CSB2 Porto Alto w/PP mx and male ancr at 0422. Stronger by /NJ) 0445 w/slight WHO slop (date?) (RG-ILL)
- 1035 HAITI-4VEF Cap Haitien, excellent signal in SS 1021-1035 9/9. (JP-BC)
- 1040 CHINA-Peking 9/9 looping NNW, whereas SS QRM (which faded out around 1035) looped SSE (no separation). Would guess language was JJ and know the mx was, with the exception of fill mx 1058-1101, which was decidedly European -North American symphony stuff (I wouldn't know The Fast Is Red if I heard it). Announcers were male with exception of just before 1058 mx where a female took over for 30 seconds or so. (JP-BC)
- Booming in 10/1 1030 with male talk; WHO very faint under at 1117. (FJP-CA)
- 1070 FRANCE-Paris on top at 0505 9/29 with nx by a man. Was // Strasbourg-1160 also on top. LA's very weak. (PT-NJ)
- 1079 SPAIN-EFE31 Vigo is now here, ex 1133. (DSWCI)
- 1133 SPAIN-ECS8 Sevilla is now here, ex 1025. Sked 0600-0100. (MWC)
- 1178 OKINAWA-VOA with a good signal til 1400 on 9/15. Suspect antenna change then as sharp drop. This possible only after KOFI fade out, but good to hear that VOA "from Okinawa" announcement again. (CF-CA)
- 1187 INTERNATIONAL WATERS-R. Seagull with EE and Eurorock 2000 to 0500 GMT. From 0500 to 1800 is in DD with good mx and the slogan R. Atlantis. Adr c/o Caroline House. The Hague, Holland. (DSWCI)
- 1200 VENEZUELA-YVOZ R. Tiempo, Caracas 9/23 way over WOAI w/WCAU off. 0515+. Lots of mx and announcements. (TRS-NJ)
- 1205 FRANCE-ORTF Bordeaux fair w/mx at 0450 on 9/17. Slight WOAI slop. (RG-ILL) SIERRA LEONE-Noted with good sig 9/19, 21, 23, 24 and 25 with mx and both male and female ancrs. They seem to alternate languages, EE one night and vernaculars the next. S/off is in EE with National Anthem. (BB-MA)
- 1210 COLOMBIA-HJFF Ia Voz Amiga, Piera noted 0445 0515 w/all talk. A woman joined in after 0500. Good to excellent sig with WCAU off (date?) (TRS-NJ
- 1265 ST KITTS-With the return of darkness at a reasonable hour R. Paradise is again making it to the WC. Hrd 9/14 to 0305 s/off. Many fades, usually restricted to ID times, hi. (CF-CA)
- 1322 CYPRUS-BBC Relay, Zyyi is now here, ex1421(?) 0300-2315 w/ World Service
- 1358 SPAIN-EFE4 Palencia is here ex 836. S/off 2305. (MWC) /(DSWCI)
- 1385 SPAIN-EFJ50 Calahoma here ex 1133. (DSWCI)
- 1403 USSR-Russian Commonwave noted tentatively at 0300 9/29 in RR. Listed as two Ukrainian stns here. (PT-NJ)
- 1439 USSR-Mayak IS noted here on 9/29 way under Luxembourg at 0330. This is listed as unknown European area. (PT-NJ)
- 1457 ALBANIA-Program in EE noted here at 0345-0400 on 9/29. ID in EE at 0359 as R. Tirana. Apparently this freq is now being used by R. Tirana as well as a R. Peking relay. EE program and excellent signal should make this a easy country for those who need it. (PT-NJ)
- 1546 ENGLAND-BBC R. Bristol, tone and carrier on at 0357 on 9/29. BBC metalic pips at 0359 and s/on at 0400. Up tempo mx folo by news. (PT-NJ)
- 1569.5-COLOMBIA-Ia Voz de los Fundadores, Manizales, new name for R. Sensacion. 1570 - SHARJA-Noted s/off at 1900. (MWC) /(DSWCI)
- 1586 GERMAN FEDERAL REPUBLIC-WDR Langenberg, 10-1 peaking at fairly good level 0345+. All pop mx, GG. Much better by 0410 tune out. Strongest TA hrd. - Audio finally pulled through at 0454 on 9/17. (RG-ILL) /(TRS)
- 1615 GREECE-Radio Station Phokidos is here (at 1613 Amfissa?) (MWC)
- 1619 GREECE-Anatolikis, Kritis, Candia is new stn here. Off 2003 GMT. (MWC)

Thats everything that has been received here. I would like to see some more reporters. Surely some of you are hearing something. Even if you only have a item or two, send them along. We are weekly after this issue so we need reports badly. DX & REPORT! Thats an order!

## VERIFICATIONS.

- 701 ANDORRA-R. Andorra, mountain/lake/ antenna card in EE in 8 days for SS report and 2 IRC's. Full data QSL. (GC)
- 710 FRANCE-ORTF Rennes-Thourie, friendly letter from Pierre Durand, Le Charge des Relations Publiques in 2 weeks for FF report and 2 IRC's. (GC)
- 746 HOLLAND-NOS Lopik attractive folder QSL in 2 weeks air for mint stamps. Date and frequency given. (GC)
- 728 SPAIN-R. Peninsula, Campo De Gibraltar sent card with aerial view of Gibraltar channel. All details in one month for last day on 728. (GC)
- 791 FRANCE-ORTF Limoges, full data card in 9 days air. For mint stamps. (GC)
- 809 SPAIN-EAJ5 R. Sevilla, personal letter with verie statement and date. 3 months total; 2 weeks after f/up, both with mint stamps. (GC)
- 818 ANDORRA-Sud Radio, beautiful card of station with full data in 2 weeks. Also folder on station and stickers for report in FF. 2 IRC's. (GC)
- 820 COLOMBIA-La Voz del Rio Cauca, Cali sent letter, sked and pc from Willy Vargas Gomez, Gerente. 4 months, 1 month after f/up. (GC)
- (Out of order)
- 600 COLOMBIA-HJHJ R. Libertad v/1 in 4 months from Roberto Esper Rebaje, Gerente. (JO)
- 700 COLOMBIA-HJCX R. Sutatenza, Cali v/1 and v/q (usual folder) from Sara G. Zamudio C, Secretaria, Gerencia General, in 3 weeks. (JO)
- 720 CUBA-Ia Voz de Cuba, SS v/1 by direct mail as opposed to embassy dispatch. Took the usual 10 months and said they 've been swamped with correspondence lately. Reports for R. Enciclopedia 670 and 690 were enclosed with this report and the Dept of Relaciones Internacionales said that reports for this station should be sent to Avenida 26 #877, Nuevo Vedado, La Habana.
- 834 BELIZE-R. Belize sent card w/frequency and date 3 months after /(JO)f/up. Reply by air including friendly letter from G. Sandiford. (GC)
- 836 SPAIN-EFF4, La Voz de Palencia, Palencia replied in 4 days by friendly letter giving date and verie statement; signer Fernando Matia Conceiro, Director. Mint stamps sent and 2 pcs also received with QSL. (GC)
- 872 SPAIN-EAJ101, R. Zaragoza sent friendly letter and colorful pennant from the Dept de Oyentes. Date, frequency and verie statement given. (GC)
- 930 MONTSERRAT-R, Antilles sent v/f and colorful CM and stn folder in 3 weeks. Signer was Dr. Hans Rose, General Manager. (JO)
- 940 COLOMBIA-HJGB R. Eco sent v/1 by air in 15 weeks. Signer was Alfonso Manzanares who mentioned that there were now 72 Todelar stns. (JO)
- 953 SPAIN-EAJ39, R. Miramar, Barcelona sent friendly but vague letter from Marcelino R. de Castro, Director. 2 months for mint stamps. (GC)
- 1025 SPAIN-R. Juventud de Barcelona sent friendly personal letter from Jose L. Surroca Pratdesaba, Director in 9 days for mint stamps. (GC) SPAIN-R. XX San Sebastian sent pennant with QSL message on reverse in 1 month for SS report and mint stamps. (GC)
- 1160 FRANCE-ORIF Strasbourg sent QSL card signed by Andre Boursaux, L&Ingenieur en Chef Regional de l'ORTF. 13 days air for 2 IRC's. (GC)
- 1187 INT WATERS-R. Seagull sent interim reply on R. Caroline stationary promising more detailed answer later. Signed by R. Noakes. (GC)

A few more veries but will finish them next week. All veries are from GC Gregg Calkin or JO Jerry Osborne.

BB-MA Bill Bailey, R390A, SP600, 6 Beverage antennas

- CF-CA Clarence Freeman
- FJP-CA Father Jack Pejza
- JP-BC Jon E. Pearkins, HA230, Space Magnet
- PT-NJ Page Taylor, SX-130
- RG-ILL Roger Giannini, R388, SM2
- TRS-NJ Tom Sundstrom, HQ-150, HQ-140X, DX150A, SM2, Longeire

Sorry I left the exact locations of the reporters off. I forgot to write the info down and I don't feel like digging through the trash can to find it all, hi. When you send in reports please include your initials after each item to make it a little easier for me. Also, give a little thought to what you are going to say before you type or write it out so I don't have to reword your reports. 73
