

STATIC FROM HQ

Folks...this week a serious static...we have letters from several of the editors who tell us that although we have just recently gone weekly with DX News, support from you, our readers, has dropped to nearly an all-time low. While we are all busy, we in Louisville do make an effort to occasionally Muse, send reports to DDXD, IDXD and the other columns in the DX News. We hope that you guys (and gals) will take the hint and support the various editors with your reception reports, tips, tests and other goodies. Also, about tests...in years past we have had several people arranging most all of these but this year they are also busy and do not have time to carry the ball all by themselves—this means that tests must be arranged by all of the members if we are to have a successful season. If there is a local in your area you can approach about testing, why not do so soon and if you travel during the holidays and stop in at a station or two, why not ask the chief engineer or general manager about a special test for NRC? We really must work together to make a success of the season this year, which means that we are counting on you, the membership to make this happen! Thanks in advance!

CPC TESTS

Ted Fleischabe

- December 4 KADE-1190 Boulder, Colo. 0200-0300 with 1 Kw non-directional.

 Monday May use 52.1 watt PSA last 5 minutes of the test also. The Signer/Arranger is NRCer Bob Greenlee, who is station manager Prepaid calls to be accepted but HQ has no number as of this date. Address (new): 4840 Riverbend Road, Boulder, Colo. 80301.
- December 4 KRRR-1360 Ruidoso, N.M. 0400-0500. Test will include tones, Monday IDs and perhaps other items (details later--please!!) Veries To Arthur J. Borgemenke, CE, KRRR, Box 39, Ruidoso, N.M. 88345. Arr: Nolan for GWDXA.

DXCHANGE

RUSS EDMUNDS P.O. BOX 127 BOONTON, N.J. 07005

Greetings, again. Here's another edition of DXChange. This time, we start off by noting again that another excellent source for ham gear, radio gear, etc. is Ham Trader, c/o A. L. Brand, P.O. Box 3227, Sarasota, FL 33578 (winter address). The latest issue included over a dozen items of interest to NRC'ers, including R-390's, HQ-180's, an HQ-150 and so on. Another new publication in this vein is anticipated in the near future operating locally here in NJ. More details later.

FOR SALE - RECEIVERS

HAMMARLUND HQ-180, w/ mixer trimmer, clock, over 30 extra tubes, audio filter, trimmer headphones, manuals, tools plus an SM-1 antenna, all for \$350, pickup only. (Myron Grey, 1460 Park St. Atlantic Beach, NY (516)-239-3324.)

HAMMARLUND HQ-170 receiver. Excellent condition, complete with manual. \$45. (George Mulfinger, W4CNR, 25 Springdale Dr., Greenville, SC 29609. (803) 244-3998.) -- UPS collect.

HAMMARLUND HQ-180 AC, exc. cx., \$350 *. (Mike Sapp, 1902 York Dr., Woodbridge, VA 22191. (703) 491-1937.)

COLLINS R-390A/URR, good cx, \$425 * (Sapp)

DRAKE SPR-4, exc. cx., \$425 * (Sapp)

HAMMARLUND HQ-150, new tubes, good shape, \$125 *. (Rob Keeney, 9421 Taylor, Overland Park, KS 66212)

FOR SALE - ACCESSORIES

HEATHKIT SB-620 SPECTRUM ANALYSER, wired for 455 kHz. IF. \$125 * (Keeney)

B & W # 370 Single Sideband Receiving Adaptor. Exc. cx. See Reprint # R-18. \$55.UPS collect. (Mulfinger)

CV657A Single Sideband Receiving Adaptor for R-390A or other 455 kHz IF rxes. Made by TEMCO. Like new, complete with manual. \$75 UPS collect. (Mulfinger)

WANTED - MISCELLANEOUS

RADIO SHACK CATALOGS for 1961, 62, 63, 64, & 65. \$2 plus postage in good cx. Send postcard first to determine if I have already obtained these. 50¢ each for their flyers, 1961=66. Send card stating what you have. For personal collection. (Mark Connelly, WAIION, 52 Amsden St., Arlington, MA 02174)

Borrow of tapes of shows for duplication: Ed Micthell, WCOP, late 1961; Jefferson Kaye Sun. Nite Hootenanny, WBZ, 1963-66; Daytime shows, WBZ, May to July 1967; Dick Summer's Subway, WBZ, late 1967; British "pirate" stations, 1965-68. Advise details of what you have by letter. (Connelly)

"Received Late at HQ", hi.

CREDIT CARD APPLICATIONS---NRCers Ted Fleischaker and Rich Segalas, for them what don't know, collect charge cards--please send Ted two, applications for your local stores for this "worthy" project. Also, am still looking for some air checks of easy listening or classical music FMs--cassette only please--will trade for cassette of any format. Ted Fleischaker, 3023 Tremont Drive, Louisville, Ky.40205.

I will soon be working a special project. I would like to make a list containing the mailing addresses of all Mexican Stations. Anyone who knows the addresses of any Mexican Stations please send me the following details; FREQ.: CALL-LETTERS: SLOGAN (IF ANY): ADDRESS (U.S.) (IF ANY): ADDRESS (MEXICAN): PHONE (IF KNOWN): POWER: The list will be typed sometime in 1979 and will be made available to all BCB Clubs interested in publishing the list. Any charge for copies of the list will be decided on by the individual clubs according to their policies. Such a list hasn't been done in quite some time and is greatly needed.

(Albert S. Lobel, 10514 Caminito Baywood, San Diego, CA 92126)

Well, that's it until next time. I expect the next edition around the first of the year. 73,

WRTH 1979

Advance orders for the World Radio TV Handbook 1979 which will retail for \$14.95 are being taken now. This year, copies will be air freighted from Europe and re-shipped by UPS. The advance order price through Dec. 31, 1978 is \$12.00 including UPS charges. All profits over the wholesale price, air freight charges, and shipping costs will be turned over to the Handicapped Aid Program. All orders must be accompanied by remittance payable in U.S. dollars. Personal checks, money orders and bank checks are acceptable in the U.S. Canadians, please use International Money Order. Each Order must be accompanied by a stamped, self-addressed envelope. Canadians, please place an unattached postage stamp inside the envelope.

The deadline for orders at \$12.00 is Dec. 31, 1978. After that date, the price is \$14.00 and delivery from air freighted stock can not be guaranteed. Publication is not expected until at least February or March of 1979 but orders are required now to arrange for air shipment. Handicapped Aid Program and the National Radio Club accept no responsibility for this offer and inquiries or complaints should be addressed to Don Erickson.

Please make all funds payable to DONALD ERICKSON and mail early enough to arrive no later than December 31, 1978. Please mark envelopes "WRTH 1979" in lower left-hand corner and mail to: Don Erickson, 6059 Essex Street, Riverside, Calif. 92504.

THEY JOINED

Charles A. Taylor, NASA Box 7015, FPO New York, New York 09560 (Re-join) Michael W. Scheel, 3403 Jersey Ridge Road, #224, Davenport, Iowa 52807 (Re-joins)

Brad Lovett, 421 East College St., Coldwater, Ohio 45828 Jeff Kitt, Box 31, Neosho Rapids, Kansas 66864 (Re-joins)

ANARC 1979

The 1979 Association of North American Radio Clubs (ANARC) Superconvention will be held in Minneapolis, Minnesota on June 22-23-24. A full, all-wave agenda is being scheduled and participation is expected from manufacturers and international broadcasters. A more detailed list of convention activities will be released soon. For more information, send a large self-addressed, stamped envelope to: Association of North American Radio Clubs, 1979 Convention Committee, 3320 Grand Avenue South #305, Minneapolis, Minnesota 55408.

INTERNATIONAL

CHUCK HUTTON P.O. BOX 2087 DECATUR, GA 30030 (404) 633-1198 BEFORE 2300 ELT

Times are GMT. For ELT subtract 5 hours. Deadlines are usually Monday.

Not much of a column this week so I'll repeat some reporting rules, much to everyone's delight, hi. (1) NEVER use both sides of the paper. In order to arrange the tips in frequency order, each sheet of paper is cut up into the individual loggings. This obviously becomes messed up if you put stuff on both sides of the paper. Think of how much I must enjoy copying by hand everything on the back side, and take a vow never to do this again. (2) put your name after every item. Same reason as number one. When I end up with a paper strip pile a foot tall for the column, it becomes difficult to remember whether Ephram Glotz or A. Bedoya typed their reports on onion skin or 20% bond. (3) please include the station calls, location, slogan, etc. for each item. I want the column to be as complete as possible, and previously spent a lot of time looking this up when you didn't include such info. I can't afford to do this all the time; for instance today I put in 12 hours at work and don't have the time or energy to do all that. (4) don't worry about late tips. Tips relate to time in two ways: knowing what can be heard in your area at any specific time, and knowing what can be heard on a more general basis. The first is quite obviously bewond the capabilities of IDXD-the second is what we are here for. Knowing what can be heard on a general basis is not terribly time related; therefore I have no reservations about printing tips that may be a month or two old. (5) not exactly a rule.... sometimes newer DX'ers are less than overpowering in their rush to send in reports to the columns. You probably think that your DX isn't really very good, you probably made a bunch of terrible mistakes, and that the more experienced DX'ers are sitting in judgement of you. Actually only two of three are true. (Just kidding, hi) Please remember that none of these are the case and that I look forward to receiving reports from everybody. I can't stress that point enough. (6) there are always too many rules involved in simple things. This is an important rule.

No name means it's from Mark Connelly

GRENADA Mourne Rouge, R. Grenada best ever 11/8 at 0030 with end of discussion program and then news. Foxy might be right about the power increase-their signal seems a bit good for a mere 500 watts. (Hutton)

VENEZUELA YVOV R. Perija good, well atop w/lively SS mx, several ID's 0600-0630 11/1; hrd on TRF. (DeLorenzo) All of a sudden a couple of reports on this one after nothing in years. They must have extended their schedule or increased power-CH

COSTA RICA San Jose TIRN, R. Nacional de Costa Rica suspected 575 W/enjoyable modern jazz pgm at good level, then SS talk, no slogans or ID's discerned, 0512-0520 11/4.

FOREIGN LOG

The International Radio Club of America has just completed publication of its seventh annual "IRCA Foreign Log". This handy DX guide contains listings of hundreds of stations located outside the U.S. and Canada, as heard by club members and reported in the club's bulletin, DX MONITOR.

The log contains information such as schedules, formats, and reception conditions. Station listings are divided into three sections: Europe & Africa, Latin America, and Asia and the Pacific. A special section dedicated to the new 9 kilohertz frequency plan is included, with a comprehensive listing of the new frequency assignments in Europe, Asia, Africa and the Pacific. Also featured is a section on medium wave propagation.

The log costs U.S. \$5.00 postpaid. The "IRCA Foreign Log, Volume 7" is available from IRCA, Dept. FL7, P.O. Box 17088, Seattle, WA 98107 U.S.A. MUSINGS

ERNEST R. COOPER 5 ANTHONY STREET PROVINCETOWN, MASS. 02657

The opinions expressed in this column are those of the individual members, and do not necessarily reflect those of the editors, publishers or NRC.

HAS A NEW RECEIVER

BILL WURTZEL - 32 West 31 Street - New York, New York - 10001 212-594-4892 11/7/78 ERNIE COOPER's Musing recently stated "The Iron Curtain still lives." Let me assure all the readers that he was referring to the steel gates which are for security on my windows. I am not now nor have I ever been a Communist. & hope I'm not on anyone's black list! In Nov. 6 DX NEWS an appeal has gone out for lost or missing issues of \$28 (7/17/78) which the Post Office has 'lost'. A poem of mine in which I say "The U.S. Post Office is awfully slow - It would come faster if broadcast on the radio" was probably read by their censors and not liked. So they helped themselves to a few issues. Late some night I should be expecting government agents to come by and interrogate me. This is only the beginning of my tearing apart our outmoded and antiquated beauracracies by poetry. I have over 1,000 poems and almost an equal number of limericks in which I tackle every subject under the sun. I am ready for a big publisher when I get the bulk of them typed up. I was recently in touch with BRUCE CONTT in Boston and he sent me two fine poems about WRBB. I sure hope he can come to visit me. The welcome mat is out - all my radios! I picked up a GE ten-band portable, used, for \$45. It is not great on AM but it does have a powerful amplifier which puts out a hi-fi sound. It's the model P4970A, also called the Monitor 10. It brings in WWVA L&C most mights. Long live Country & rock-n-Roll. Disco has gotta go! Recent DX includes: 11/7 at 1:15am WITS-1510 Boston w/a tele-talk program. The host gave a phone number of 426-2030, but my phone bills are running high so I didn', call. Some night I really will, & any DXers up listering are going to hear me. I picked up a het from Waltham, Mass., it turned out to be W-HET on 1330, about 1:30am 11/7 playing pop mx & NX. Dialing around I heard WOAI-1200 San Antonio, with the Garner Ted Armstrong propaganda program. I used to be an avid listener to him and his father Herbert W., some years ago & even read their literature. Most people who follow these speakers are looking for answers & they come on the air talking so logically and dealing with world events and subjects which interest people & before you know it you get hooked on them & their cause. Mostly it is people rebelling from their own church's teachings or upset about world conditions and people's attitudes who are attracted to these movements. I've said enough; now some humor. While in Colorado and visiting KADE

While in Colorado and visiting They served me lemonade

I said I came here

To drink Coors' beer The manager said Do you expect to be paid? I sent a postcard to BRUCE WINKELMAN
Asking about WHLO's power increase plan
He never answered me
And must be busy
Probably watching re-runs of Charley Chan.

LISTS SYRACUSE UNIVERSITY SPORTS NETWORK

RUSS EIMUNDS - Box 127 - Boonton, New Jersey - 07005

Just a few quick notes. Though too late for much of the FB season, I have the Syracuse University FB/BKB network: WNBF-1290 Binghamton; WNYC-830 New York; WSAY-1370 Rochester (FB only), WROC-1280 Rochester (BKB only), WSIK-570 Syracuse, WRNY-1350 Rome, WWNY-790 Watertown, WMSA-1340 Massena, WWND-1240 Schenectady, and WHPN-950 Hyde Park. I hope this will be useful. I caught the WADE-1210 TEST way u/WCAU last month per FRANK DAILEY's phone tip, 9/27, 1-1:15 w/rr. WSUM-1000 9/18 didn', make it. I missed WAVC-1350 on 10/9 as my 13-montheld son got in here and moved the dial after I'd pre-set it, rats. KFUO-850-TEST was heard w/public service programs 8 2:30+ 10/16, o/u KOA & unID strong TTer. This is the first time KOA was heard in several years, & I finally got a good tape. I tried KIUP-930-TEST, & heard TT o/u WFMD & WBEE, but nothing IDable. I also tried the WSKI TEST 10/30, but I haven't played the tape back as yet. Thus it seems that my only DX thus far is by remote tape! I'm still hoping to get a friend of mine who specializes in shooting up longwires with a crossbow over to get one up over the end of the lake! 73's.

WE WE COME A NEW VIRGINIA MEMBER WHO'D LIKE TO HAVE NRCers VISIT HIM
MIKE DELTZ - 1412 Sterra Arch - Virginia Beach, Virginia - 23456

11/10

After two transfers in one year (Taxas to Tennessee to Virginia) I think I've gotten settled enough to write my first M se. I am 27, married, & in the Navy (nine years this month). Current equipment includes an SPR-4, DR-33, DA-5, & Sanserino Loop. I started DXing from this Va. location on 8/10/78. In the three months since then I've logged 429 stations, 34 states, two provinces, & 27 countries. A strange thing though, it took that three months to log IERF! They are a pest in Texas & Tennessee but certainly not here. I really look forward to each issue of DX NEWS as it contains a lot of helpful information, especially IDXD. Articles like "Logging 50 states from New England" by FRANK DALLEY and the LA split list are handy reference material. I'd like to invite any DXer in the Tidewater area to call or drop by any time between 3:30 p.m. and 9 p.m. weekdays or anytime on weekends. 73s & good DX.

WITH ONLY ONE DAY'S MAIL YET TO ARRIVE BEFORE DEALLINE FOR THIS ISSUE, IT LOOKS LIKE RATHER SLIM PICKIN'S. AS THEY SAY IN NEW YORK CITY, "WNYC-830" - "WE NEED YOUR CO-OPERATION" IF WE ARE TO BRING YOU LENGTHY AND INTERESTING MUSINGS SECTIONS. PLEASE, MORE OF YOU STEP FORWARD!

1

OSL BUREAU

Don Davis 107 Oakdale Dr. Warner Robins, GA 31093

Finally! I would like to thank all of the patient folks who have been waiting quite some time for this article. I hope everyone finds something interesting.

How the system works - There are some stations who just won't verify no matter what you do. Almost. Invariably a personal visit to a station with report in hand will get you your prized verie (if you ask nicely). However, making a trip to a station out of your local area is out of the question in most cases. This is where the QSL Bureau comes in. You are not alone in the verie game; a large number of members who collect QSLs are in exactly the same situation as you. If we were all willing to spend a couple of hours each month visiting our local stations with other member reports it is obvious that everyones verie total would be very close to 100%!

Mechanics of the system — After you have sent a verie request to your prized DX catch, give the station a reasonable amount of time to answer you. I was curious as to just what constitutes a "reasonable" length of time, so I took some arbitrary pages from my log book and came up with the following: 70.3% of the stations responding with a QSL took between 0 and 30 days; 13.3% took 31 to 60 days; and those stations taking longer than 60 days weighed in at 16.2% with most answering within 90 days. From this I think that 90 days is not an unreasonable length of time to wait before taking follow-up action. By follow-up action I am not talking about sending another report! Use the QSL Bureau. Use the list of station "managers" and find the person who has volunteered to manage stations in the area your holdout is located. Once you know who that is, send him a copy of your report, S.A.S.E., and a nice little note thanking him for making a super effort to support brotherhood via DXing. This involves some amount of effort on behalf of the volunteer "manager", as it will require a personal visit to the station using some diplomacy.

Volunteer!!! - The only way this thing will work is for all of you to sign up right now. Simply send me a note telling what stations, or what geographic area you would like to be responsible for. As an example: All metro L.A. stations, all stations within a 50mile radius of Macon, GA, etc. Once you do that I'll make sure that your name appears in print in periodic updaters in the clubs. I am setting this up as a nonpartisan operation, and this is being sent to IRCA, NRC, and WTVFDA.

Side Effects - Some additional benefits to be derived from this system will be of benefit to the entire club as well as the QSL collector. When visiting the station and requesting a verie, I have found that stations are more than happy to supply a quick note written on a piece of their letterhead stationary. This looks so much nicer than a PPC. Also, whenever I visit a station I aiways play "20 Questions" with the GM or whoever will talk to me. Some interesting questions you might ask are: "When is your frequency check?", "What are your hours of operation?", etc., etc. I find that taking along my NRC log really impresses station people. And when I ask them to make pencil changes or additions to their entry in my log, I've made a friend for life. Be sure, however, to send all of this new info to Joe Fela and John Callarman so It can do everyone some good. While you're at the station, a quick plug for the CPC and DXing in general wouldn't hurt a bit either.

The List - These kind (and patient) souls have already volunteered to manage their local-area stations. Lets hope we can regularly add to the list.

Elliott R. Strauss, 27 Devon Dr., West Orange, NJ

Please be considerate of the managers and the station personnel. It would be very embarrassing for someone to try getting a verie with a poorly written report. Get out a good road atlas and take a look at just where your station is located. It won't do any good to expect someone to chase down a station 300 miles away when he volunteered for a 25 mile area.

From the AP newswire at WRBB, sent in by Bruce Conti.

(Greenfield, Massachusetts) -- The Federal Communications Commission has granted a construction permit for a new AM Radio Station in Greenfield, Massachusetts. Poet's Seat Broadcasting, Inc. says it hope to have the daytime only station on the air within a year. The ten-thousand watt signal at 1520 kilohertz is intended to serve Franklin and Hampshire counties in Massachusetts and parts of southern Vermont and New Hampshire.

Principle officers of the firm are Scott Bacherman of Deerfield and Marc Berman of Buckland. The F-C-C approved the construction permit application this month (October).

BY DOUGLAS KOHL

LOW-COST LOOP ANTENNA **EXTENDS AM** RADIO RECEPTION

Easy-to-build air-core loop helps pull in distant stations on inexpensive radios.

EVEN IF you're vacationing too far from home for normal AM reception. you can still pick up home-town broadcasts with an ordinary AM radio. Alternatively, if you're staying at home, you can receive out-of-town sports broadcasts to keep tabs on your favorite team. Using an inexpensive external loop antenna will do the trick. Here's why it works and how to build one.

Because portable and desk-top AM acceivers employ relatively small, internally mounted ferrite-core loop antennas, they can deliver only enough signal for good reception of local stations. However, if an external loop with a larger effective cross-sectional area is substituted for the internal one, or used in tandem with it by mutual coupling, the working sensitivity of the receiver is increased in direct proportion to the ratio of the loop areas.

If the loops are used in tandem, no connections or modifications to the receiver are necessary. Signals will be coupled to the small internal loop induc-

tively when the two loops are placed in proximity to each other. If your home is of wood-frame construction and the walls do not have metal lath, you can, mount the large loop on a wall or even conceal the loop behind it. The loop can then be a source of fun as a mystery spot where your neighbor's \$5 transistor radio will work better than ever before!

Constructing a Loop. A typical large loop antenna is shown in the figure. It is made simply by williang a series of turns of wire on some supporting structure. The loop is tuned by a variable capacitor connected across it. The antenna can be supported by wooden pegs inserted into the wall or by a free-standing wooden cross frame. Insulated copper wire No. 20 or larger, should be used. Bell wire or even No 14 house wire will yield excellent results. Such a loop can be concealed if other members of the family consider it unsightly.

Plan to make your loop square, or at most, slightly rectangular. This makes it easy to compute the area inside the loop Construct your loop so that it is as large as possible. A 7-ft / 9-ft (2.1-x 2.7-m) loop, for example, is suitable if you have 8-ft (2.4-m) . alls. If possible, mount the loop on a wall which is in line with the distant adio stations you want to receive. The antenna is most sensitive to signals parallel to the plane of the loop, and least sensitive to signals propagating in directions perpendicular to it (striking the antenna broadsides)

To calculate how many turns of wire are needed, compute the area of the proposed loop and use the following formula: N - 242 3/ VA where N is the number of turns and A is the area in square inches (1 square inch 6.45 cm2). For example, suppose the planned loop will measure 6' 9" (2.1 m) on each side. Its area will be 6.561 square inches (4.2 m² or 42.330 cm²) and the number of turns required will be three. For your convenience, here are the loop sizes corresponding to an integral number of turns:

N	Length of each side			
3	80-11/16" (2.05 m)			
4	60-5/8" (1.60 m)			
5	481; (1.23 m)			
6	40-3/8" (1.03 m)			
7	34-5/8 (88 cm)			
8	30-5/16 (77 cm)			
9	26-7/8" (68.3 cm)			
10	24-3/16 (61.4 cm)			

Incidentally, you can make a small, portable loop on a wooden frame to take along on picnics, or on a boat A loon two feet square (0.3716 m² or 3716 cm²) will provide good results with a "pocket portable" receiver

Connect the loop ends to each side of an ordinary air dielectric variable tuning capacitor (one loop end to the rotor plates and the other to the stator plates). The capacitor, which can be removed from a junked AM receiver or purchased new (or surplus), should have a maximum capacitance of at least 360 pF. Multisection capacitors can be wired in parallel to extend the loop's tuning range. Be sure to solder all connections using rosin core solder.

Using the Loop. A loop antenna will provide some improvement in reception of all stations, not just the one at the frequency to which it is tuned. However for best results the loop should be resonated. Tune the receiver to the desired station's frequency and place it in the vicinity of the large loop. Orient the receiver so that its internal ferrite bar is perpendicular to the plane of the loop. Then rotate the shaft of the antenna's tuning capacitor until the signal peaks.

Enhanced reception will be experienced when the receiver is placed up to approximately one side dimension. of the loop in front of or behind the wall on which the loop is mounted Experiment with the placement of the receiver to determine the location that gives best results. The closer the receiver is to the loop, the more signal coupled to the internal ferrite antenna. For casual listening, as opposed to chasing weak DX signals, the degree of coupling between the loop and the receiver will not be critical. thanks to the large measure of improvement the loop provides.

EACITED OVER NEW N.R.C. DOMESTIC LOG LARRY VAN HORN - 7870A Corsair - Millington, Tennessee - 38053 901-872-7116 Welcome to another Musing from Memphis. Lotsa new DX this week. I sure am glad Summer is over and the cold nights of Winter have settled in. (It's 830 outside right now!). New problem at this house is a lot (mucho much) power line interference. I have called the base trouble desk twice now and they think I'm imagining this. Anyone have any other solutions short of a 38 calibre bullet through a transformer? (Yeah, how about a 45 calibre bullet, hi - ERC) It's like waiting for the great pumpkin on Halloween. The interference only shows up at ID time, too - Murphy's Law. I got a nice letter this week from Gayle & I are keeping our fingers crossed for them. I'm rounding MIKE HARDESTER. up info on the base now & will send it when I package it up. The greatest thing to DXing this year happened on the third of November when the NRC Donestic Log arrived. Thanks to all for the best publication ever. It sure has improved since that first edition in the 60's, oh how well I remember it. Current totals: 434/69 stations, 37/25 states, 3/1 provinces & 18/4 countries. Current tape total: 181 stations, 30 states, one province & nine countries. New DX to report: 10/26- UnID SS-575 w/male & female announcers, sort of a hollow audio folo by SS mx, 11:38pm. 10/27- CMKQ-820 Cuba w/Progresso net ID, mention of Habana Cuba by male amnouncer, WBAP nulled, 7:05pm. 4VEH-1035 Haiti 7:34pm, new country, if you can believe that one. I, has never put a good signal in here, but I finally got an ID w/male & female announcers, plus children's choir signing, lotsa KCTA & WHO QRM. 10/29- 1:50am, XET-990 Mexico w/"La T de Monterey" ID. 2:19, NEJ-970 Mexico w/R Mexicana ID in Chihuahua w/many ads. The station was under a station carrying Larry Hlack Show. Any ideas who has LBS this time of the morning? (Larry King, maybe? - ERC) 2:48am, CMCY-1040 Cuba w/continuous light SS vocals & instrumentals, then at the top of the hour, R. Caribe ID, nice, with WHO on SP. Well, I gotta run, so much for this week. One quick question - do tapes count toward the NRC Awards & if so what is the proceedure for submission for the awards? 73s.

JOHN HOOGERHEIDE - 105 Bayside Lane - Brandenburg, Kentucky - 40108

10/29- WGUN-1010 Decatur w/gospel mx @ 5:30pm. Good log in WWJC-850 Duluth w/WX @ 5:58. While taking log on HB-710 a fade occurred & up popped very loud WDSM-710 Superior w/c/w, nice log taken, 6:15pm. KWOA-730 Worthington Minn. good signal @ 6:43. And to continue drooling - how about KGHL-790 Billings, Mont. on RS 3 6:55 o/WAKY? Montana #1. Not done yet - KLOE-730 Goodland, Kans. was in at 7:10. Trying for KURL-730 (dreamer!) in popped HIZ w/fen Santo Domingo" and phone numbers. At 11:30pm, log on TIQ-1176 R. Casino, Limon, in EE w/U S. mx, poor signal. 10/30- WSAT s/off 1280 w/SSB @ 12:01am. who's split LA on 1575? Sounds Central American - noted @ 12:25am. PM DX was great also: WDIO-1060 @ 5 pm; WFNC_940 @ 5:30; WWWF_990 @ 6:15 s/off; KHOZ @ 6:30pm s/off, leaving KJSK & KBUL on 900; KAMI s/off @ 6:45; KMAR-1570 way atop @ 7:20, way past allowable s/off. SSB @ 7:30pm on 1580 was interesting - too late for KPIK & too early for KNIX s/off. QSLs: KOIL, KGO, WNII, KMBZ, WRIE. Totals now 841 & growing rapidly. 10/31- WBBO-780 atop WBBM @ 5:50pm; WHOS-800 6:15 s/off; WAVN-1220 Stillwater, 6:30 s/off. I tried 1580 for that 7:30 s/off & lo & behold, it was KPCA. Marked Tree, Ark. A call to station confirmed this. So one hour beyond legal s/ off time for both KPC & KMAR for any of you Diers who noted them on late. WSHY & WKOG-1560 both s/off 5:45pm 11/2. Did anyone notice WTTN-1580 forgot to pull AM plug? They were still on 8 7:15pm 11/2 & dominant. QSLs: KCBC, CHOO, WAMS, KQV, WFRL, KGBX & WFIA, KOA, WFNC. 11/4- KOFO/KJAN atop 1220 @ 6:15pm. WKDA-730 @ 6:30 s/off. I need help from someone in Wash. or Mont. On 900 @ 7:03pm EST, looping into NW, a woman announcer talking slowly w/NX & WX @ 7:04, KUEN or CKHI, or ??? Noy much left on at that time.

WELX-1110 IS TEMPORARILY OFF THE AIR
DAN GEBHART - 1005 Greenridge Drive - Kettering, Ohio - 45429

Hello from the Valley of Towers. Three local 5,000w ANs are located within 1 mile from the house. Summer activity DXwise was limited to building an unamplified loop. Not much listening has been done lately but the new loop has enabled WKVL-1340, WHOT-1330, WIS -560. WSUN-620 & WIOD-610 to be added to totals since Oct. 1. Not a bad way to start off the new season. Plans to combine the Atlanta Convention with a family visit to my sister in Atlanta were scrapped when the southern part of the Gebhart clan decided to come North for the holiday. WELX-1110 in Xemia, O. has been sold & is currently off the air pending approval of license transfer. The new owner hopes to be back on around Christmas. Cox Communications in Atlanta is trying to sall local interests in Dayton, O. GE is mentioned as a possible purchaser of either WHIO-1290 or the FM outlet. I talked briefly to the CE at WONE-980 & he will answer all correct reports but can only do so when time permits. He is also involved with sister station on FM lecated in a small town about 30 miles West of Dayton. WSAI-1360 in Cincinnati recently changed format from rr to c/w. After a fruitless three hour search in my parents' attic in search of my logs and veries from 1958-1962 I ave forever given up hope of ever locating those records. A warning to frustrated Dvers - Don't lose your records when you quit - you shall return".

FM HAS BEEN DX-ey

ERIC FADER - 23-35 Bell Boulevard - Bayside, New York - 11360

Hi folks, a quickle thistime. WSKI-1240-TEST heard well MM 10/30 w/TT & some mx around 12:47am. IDs & 802 area code phone number were heard @ 12:50. UnID TI-1490 12:57-1:03 tuneout. Newie WARK-1490 surfacing w/"WARK NX" @ 1:01. Cuban-550 w/jx & rr, 1:55. The past couple of days have had superb Summer-ish FM CX, so BCB has suffered. "Ah well," I always say. Also, BCB has been real staticky & spurry, definitely not good CX, so no great loss, hi. Back in 7. 73 - Phadz.

MOUNTAIN TOP DYING

ALLEN W. LUCKEY - 26 Gene Avenue - New Castle, Delaware - 19720

The last two weeks or so ago have been productive as far as DX is concerned. Several new catches were enjoyed. DDXD has a full summary. AU CX here lately at a good time as I've had some time to DX. I read with interest the reports of seashore DXing the last year or so by various DXers. I've tried it too and found it unusual the way certain stations can be heard over much longer distances. I remember a couple of years ago I received WAPE-690 along the N.C. coast w/good signal while traveling South. My favorite DKing location away from home though is on top of a mountain in Eastern Pa. With a cheapie car radio & broken antenna, reception was something less than astounding WBAL-1090, 150 miles, w/local-like strength; WBZ-1030 over 300 miles, w/armchair signal; KDKA-1020 300 miles w/good signal. I can imagine what a TRF would do up there. The most refreshing thing was the total lack of any man-made interference. As an added bonus, FM & TV DXing is unequalled. Imagine your FM dial covered with stations from one end to the other. This on the same cheapie radio with broken antenna. A forest ranger permitted me to fiddle with his portable TV. All 12 VHF channels had snowfree reception. The nearest VHF station was over 90 miles away. On UHF, a minimum of 15 channels. All this on rabbit ears, no less. The mountain is Big Pocono in the Tannersville area of Pennsylvania. Accessable by Route 80, it's worth a day's trip to experience this unusual DX location. This particular mountain is over 2,000' high. I also made an error in my last Muse regarding the Sony CRF-320. It was the model ICF-5900W I noted the image problem with. The CRF-320 is Sony's top of the line RX in the infermer series & sells for around \$2,000 whereas the 5900W is in the \$160 range. That's all for now.

LITTLE MAN, YOU'VE HAD A BUSY DAY KONSTANTINE RYCHALSKY - Box 4256 - Bridgeport, Connecticut - 06607

A re-intro: Single still; pushing 24 with eight years of DX (three w/ NRC). My day begins at 8am in Engineering Dep't. of an architectural window wall firm. Out at 6pm, part-timer in Quality Control Dep't. of a plastics manufacturer; out @ 11pm & hit the sack for another day in the life - five days a week, and, more often than not, Saturdays also. I am Second fleutenant in the Civil Air Patrol, Auxiliary of USAF, and Information Officer with local squadron. My spare time is spent with company bowling team. As time becomes scarce and valuable, one easily ends up doing three things at a time: eating supper with headphones on DXing, & reading DX NEWS during musical selections - etc. Now if I can find time to write a Muse, then there's no excuse for anyone else not too - since a serious illness in the family tops things off. Here are a few other hobbies of mine, however I always find the time to return correspondence, and you can write and ask why, hi: Sports (seasonal); Philately (for profit); Photography (Canon AE-1); Music (self-taught and composing); Records (majoring in Beatles bootlegs and rareities) etc. Oh yes, on the side I prepare working drawings of residential homes for a contractor/friend. DX of late: 9/27- KRMO-740 in 8 1:30am soon to fade for WKIS @ 2:09. KRMG werie is needed for a new state & never veried first report - not in long enough this time. Tomight WFAT-1620 NYC on @ 2:15am IDing as "Clear Channel 16-20", requested plane calls - I did, & netted a QSL. I will forward to NRC HQ for a laugh. 10/2-Daytimer WOMN for newie but no QSL yet; WUSS-1490 N.J. unearthed @ 1:30am - first night signal here, usually it's a daytimer - no QSL yet. (Trying for three years). Needed WVOJ-1320 scant @ 2am & needed WWDC in/out, mostly out, @ 2:20am. Both never veried first reports of years back and signal has hever been in long enough since. 10/5- WCMB-1460 Pa. a newcomer @ 2:11; ID @ 2:27, still no verie. 10/17- UnID TT 1090 till 1:25am, no ID @ s/off. 10/31- Unn WSAR -1480 Mass. in well @ 1:08 s/off - I heard NX report that a cylander landed at Grover Mils N.J., I didn't stick around to hear more, hi. Other news: WIS sent v/1 for Summer travel report, new state. Best catch of year was Disney World Radio, heard 20 feet outside their coverage area. No verie yet. 73zzz. (Oh - you DO sleep some time, ch? -ERC)

HE'S ON THE WEST COAST NOW GEORGE A. SANTULLI - 215 Pacific Oaks Road - Santa Barbara, California - 93017

Hello again from the "Transient NRCer". When I joined the NRC in 1964 I Died from New Jersey. Then from Memphis, Tenn. and now since July 1978 from here in Santa Barbara. I think if I add up all the stations I've heard from N.J., Tenn. & here, I might have about all there is! CX here appear to be pretty good. The LA stations are far enough away not to be much of a bother. I am in the midst of setting up my radio for the coming season. Where can I get hold of an M-2? After reading about it I sure would like to give it a try. (J. A. Worcester - R.D. 1 - Frankfort, N.Y. 13340 -ERC) As I get entrenched in local broadcasting circles I will attempt to get some DX TESTs from here. I've already talked to some stations & things look good. Locally, KTYD-990 is now KELS-990, FM remains KTYD-FM. Their format is religious mx. KTMS-1250 is a rocker, KKIO-1290 is c/w, KIST-1340 is a rocker & KDB-1490 is "Beautiful mx." My mind still cannot comprehend hearing stations like KFI-640, KMPC-710 and KHJ-930 in the daytime on my car radio! Now the big trick will be to hear those "pesky" Nes England states. How in the world am I going to hear Madne way out here? (You AIN'T! -ERC) Best DX to all. I hope this season is a good one.

LOTS OF REPORTS GOING OUT ELIOT R. STRAUS - 27 Devon Drive - West Orange, New Jersey - 07052

Hi gang! The DX continues to flow here with every session. Newies in the last week are WSMD-1560, WESC-1570, WSWV-1570, WSSA-1570, all info to DDXD. Veries in this week are WJDA-1300, WCLN-1170 & CKCB-1400 who said my letter was the talk of the day around there; they didn't think their kilowatt could make it here. Thirty-mine reports are out in the last 38 days, a good pace, but wearing me out at the typewriter and frazzling my wife's nerves. My antenna outside now is just a 500' LW, because anything longer causes WDR spurs over 50% of the channels - I got them on their fourth harmonic at 2840 kc/s. Totals to

(Straus, con'd.) date are: 1,380/588, with 26 new receptions and ten veries back since 10/1. I should be close to 625 in veries by the new year. I'll definitely be at RAY ARRUDA's on the 26th and hope to see many of you there. MM 11/6 wasn't too productive with no newies but I got a good report to ZIZ-555 @ s/on @ 5am, starting with song, "Morning Has Broken" @ 4:58, and then into s/on announcement and program sked for the day. That's about all the news fit to print for this week, so with further ado.....

DX IS GOOD IN THE MID-CAPE AREA

MARC Deleranzo - Box 466 - Centerville, Massachusetts - 02632

Greetings fallow radio freaks. The following is a summary of domestic DX activity during the fortnight of 10/24-11/6, a period of mostly AU CX; all foreign items were sent to IDXD. 10/25- WPWC-1530 Va. weak @ 6:29pm s/off just o/WCKY; WGTO-540 Fla. very good w/c/w 6:38-6:41pm; WILA-1580 Va. weak o/u WSRF @ s/off 6:44pm. WKYE-1550 Tenn. fair in jumble @ 7 s/off; WBSC-1550 S.C. then faded in L&C w/WX @ 7, loud for night pattern. 10/28-CKJD-1110 Ont. well atop w/rr 6:22pm. 10/30- WSKI-1240 Vt. fair on TEST @ 12:27am mentioning a phone call from Mississippi - seems hard to believe. KNX-1070 Cal. fair w/all-NX 1:42-1:48 for first WC reception this Fall; WKIS-740 Fla. "Kiss" fair w/light rock, ID, WX, 2:33-2:39; 7777-1550 L&C on ET-light trumpet mx 2:40-2:50, anyone hear ID on this? 10/30 FM- WRHC-1550 Fla. good, atop in SS 5:36; WCRJ-1530 Fla. fair; TGR-1520 S.C. L&C w/rr 5:42; WKBA-1550 Va. fair o/u WRHC @ 5:44 s/off; WTWB-1570 Fla. fair, alone (no CKLM) w/ad for Winter Haven Mall to 6 s/off; WTQX-1570 Ala. good, alone with three minutes of ads 6:08-6:11, & good at 6:15 s/off w/gospel tune; wMOO-1550 Ala. fair, atop w/NX to 6:14 s/off. This was an extreme Auroral disturbance (10/30): I could not hear any trace of CBE, CBJ, or CKLM until two hours after local sunset. 11/3- WINZ-940 Fla. fair giving program times 1:18am; WSRF-1580 Fla. "Surf-16" good w/album rock 5:10pm; WYHI-1570 Fla. good, atop 5:30 s/off-SSB; WFLI-1070 Tenn. good w/ads, rr 5:40-5:45. 11/4- WCOU-1240 Me. fair atop w/WX 1:29am; WYTI-1570 Va. fair in jumble @ 5:15pm s/off. 11/6- WCNC-1240 N.C. good on r/c-TT 12:17-12:27am; WNWS-790 Fla. "Newsradio 79" good w/talk show 1:10. That's all at this time. Total heard now is at 1,383 - all from within a ten mile radius with Hyannis at the center. So long from Cape Cod.

DON'T FORGET THE KADE-1190 TEST ON DECEMBER 41

BOB GREEN, EE - 5490 Tenino - Boulder, Colorado - 80303

Time again to Muse. I hope a lot of NRCers will listen for KADE's CPC TEST on Monday December 4th 2-3 EST. We will run kilowatt with tones, frequent IDs, & mx. We will accept pre-paid calls at 303-444-5600 and will return tapes sent to station. See CPC TEST data. The TV on Thursday 11/9 was awful, so I thought I'd see what a little transistor job hooked up to the McKay antenna would do for DX. Beginning at about 10:05pm ELT I noted the following: CKRC Winnipeg in null of local KHOW, great signal. KFT L.A. in solid; then deep fade and out. WSM-650 in like a local but not many other Eastern stations. KDGF-690 Coffeyville Kan. with solid signal. I don't know the might pattern of KRKE Albuquerque but on 610 they are dynamite here. The usual KOB-770 also in micely but KRKE has the signal. WGN-720 Chicago in weak along with WLW-700 Cincinnati and WMAQ-670. WKY-930 Oklahoma City, nice signal in u/KIUP-930 Durango, Col. On 940, favorite KIOA in with good signal. I can't find anything in KIMN-950's null. CKRM Regina "RM-98" in solid with good rock format. Null it and in comes KMBZ Kansas City. I forgot WDAY-970 Fargo, N.D. with good signal. KBCQ-1020 Roswell, N.M. in with good signal. KFAB-1110 Omaha in solid, with antenna pointed N/S. I turned it to Omaha and picked up solid 500 cycle het on 1110 (?). KMOX-1120 St. LOUIS in fair. KAYQ-1190 Kansas City in well. Null 1190 and I hear old-time religion on KRDS, Tolleson, Ariz. KCBC "KC-14" in on 1390 from Des Moines. KWGB, Great Bend, Kan. in on 1590. Null local KLAK-1600 and I find KCRG trying to come in solid. I ended the search at 11:10pm ELT. Graveyard frequencies were checked, with nothing taking over. I hope you join in on the KADE TEST. (Can you give us some CW IDs & some sweep tones too on KADE-TEST, Bob? -ERC)

GARY HOUDEK - R.R. - Munden, Kansas - 66959

Veries received include card from KIRO-710 Seattle TEST, R. Belize-834 w/a program sked stapled to the card, & a v/l from KUOA-1290 Siloam Springs, Ark. TEST. This station also sent information about John Brown University and a CM. The tours were sure nice at the Atlanta C. nvention. During the WSB tour the gentleman said WSB uses 75kw to produce their 50kw broadcast signal. There will be a new daytime station in Northern Kansas at Beloit. It will broadcast on 1190 w/2,500w. w/a directional antenna to the West. The KIUP TEST was heard L&C @ 4am. On 10/30 @ 5:07am WSPD-1370 Toledo O. was heard for a short time with an editorial. 11/4, KWKH-1130 w/mx, good signal @ 12:10am. More next time.

COME TO THE IRCA CONVENTION IN PEORIA! JOHN CLEMMER - 2937 West Gilbert - Peoria, Illinois - 61604

I had a great DX session on 10/30. WGST-920 Ga. was in @ 6:55pm for a rare Ga. catch. At 7:15 I noticed TRVN in, no trace of WCBS. This glued me to an excellent Western opening. At 7:25 on 1020 KCBQ Roswell N.M. popped in for State #34. KDKA was nowhere to be found. I went next door to 1030 & first thing I heard was "The SX Voice of Wyo., K-Two." Again not a trace of the usually dominant station from the East, WBZ. About 7:37 on 1580 I heard some c/w but no ID. Finally they IDed as KNIX Ariz. @ 7:49pm. KTWO was State #35 & KNIX #36. Three new states in about 1/2 hour restores one's faith in DXing even w/all the NSP stations, hit I recently got the new NRC Log & it looks great. Thanks to JOHN CALLARMAN. Thinking about going to ST. LOUIS for the '79 NRC Convention? Why not think about attending IRCA's convention which will be hild here in PEORIA the weekend before ST. LOUIS. I'd love to see you here! 73.

MOTHBALL MEMORIES

CHAPTER KCIII - "THE FASTEST TONGUE IN THE WEST" - by PETE KEMP

B. Mitchell Reed, billed as the fastest tongue in the West came to the Big Apple in early 1963 to hold down the 7 to 11 p.m. spot of WMCA, as one of the "Good Guys." WMCA although only 5,000 watts rivaled the big voices of WINS, WABC, WMCM in catering to the teen market. Other "Good Guys", many of whom are still in the New York area, included Joe O'Brien (now on WHUD-FM), Harry Harrison (presently the morning man of WABC), Jack Spector (currently doing an oldies thing on WCBS-FM on Saturday mights, having left WHN after they switched to country music and he wasn't cutting it as the Coney Island Cowbey), Dandy Dan Daniel (bouncing around various N.Y.C. stations and probably making a fortune with all the commercials & woiceovers that I've heard) and Dean Anthony holding down the graveyard shift. Other DJs on WMCA during that time include Eddie Baer, & Gary Stevens. HMR was clearly a model of fast-paced radio programming. His delivery was punctuated with cow bells, machine guns, and other noise makers, made him number one in New York. It seems a bit strange that "Your leader, BMR, the nuttiest on the New York Turf", started his career as Symphony Sid's successor on WOR's Birdland Jazz Show, and even had a Masters Degree in Political Science. Reed reactivated Smashbacks, Name it and Claim it, and winning a bright yellow Good Guy Sweatshirt all contributed to life in the early 1960's. BMR eventually left the Good Guys to explore new dimensions in California on KFBW and numerous other stations. The last time I heard his voice was on television, doing booth announcing for a popular variety show.

NEXT WEEK: Sacramento member RICHARD WRIGHT talks of early Dixing days. Then: ANDY RUGG.

LIKE OLE MAN RIVER, THE SSes JEST KEEP ROLLIN' ALONG ERNIE COOPER - 5 Anthony Street - Provincetown, Massachusetts - 02657 617-487-9337 11/14/78 Nice v/1 & CM in from KIUP-TEST, but unfortunately it doesn'+ count in my totals as I verified KIUP way back in 1943 when they were on 1400 kc/s.! I had fine phone chats with DOUG ALLEN & STAN MORSS this week who said he was sending me a package of 23 snapping turtle eggs via parcel post! (The package arrived with 19 eggs and four baby snapperst) Congratulations, Uncle Sam - you're a mother! Now to DX: 11/7- UnID TTer on 1290 around 12:52am, no IDs heard. Unn WTE, was testing today on 860 with good signal, ID heard @ 1:18. PM, looking for CJCJ, instead I heard unn WIRD-920 u/WJAR @ 4:06pm. I noted the same NX on WOSU-820 & WNYC-830 @ 5:02pm, PBS no doubt as both are non-commercial stations. Andorra-818 was rolling in like high tide @ 5:03. Portugal-755 had a good signal too with an oratorio. 11/8, the morning after Election Day: These were noted on late w/ER: WGIR-610, WWNH-930, WAGM-950, WCOU-1240, WARA-1320, WBRL-1400, WPLM-1390. WBRL, N.H., was a new one, logged to 2:07am s/off w/America the Beautiful. I've been after him for years. Unn WKNY-1490 on top at end of their CBS NX @ 1:06am. 11/9- Unn WORC-1310 ANing @ playing "My Girl Bill" @ 2:44. An unID TTer topping 1490 2:49-3:30, no IDs given so far as I could discern. A loud OC keeping even w/WTIC-1080, no words spoken. In the eve, Arabic-type mx noted on 827 & 1115 around 5:35pm. 11/10- R. Farallones-1550 w/U.S. style disco @ 2am, the AU helped WPTR stay on its own 1540 frequency today; something their CE can't do by himself. Horrors, a loud Cuban on 740 ANing. R. Vision-830, Medellin, in nicely @ 2:28am. Old semi-local from my Brooklyn days, WKER-1500 heard s/off @ 4:44pm, no SSB. 11/11- WPIK-730, unn, heard s/off @ 5pm w/FM plug & no SSB, to s/on SM 3 6. SM 11/12- Venezuel an NA heard 3 1:07am o/u WBAL, too late for the ID though. Hi, Muzph! R. Suceso-1000, Colombia, excellent signal o/XEDY/WCFL @ 3am. MM 11/13- Unn CHUM may be off pattern as they were really digging into WHN @ 1:25am w/rr. WHET-1330 is now NSP, w/EZL. WDEE-1500 returned to the air @ 3am today. XEW-900 w/IDs as simply "Dobla-Vay" was topping that spot and Alling, noted around 3. Unn WKYM-810 already on RS by 3:50, this has to be a best bet for Puerto Rico along w/WKAQ-580. Unn WMOO-1550 ETing \$ 3:55. OCs were noted AN on 555, 715, 895, & 1125 kc/s. There are SS s/ons around 4 on 1190 & 1200, maybe we'll ID 'em during the week. Something sounding like WBAQ heard s/on, then NX to 4:05, on 1380 u/ WBNX CFDA. 11/14- AU CX returned with mucho gusto. Local WILD-1090 ended an ET @ 1:31. AN SSes like R. Piloto-1370 & R. Maracaibo-740 noted on AN, & logs taken on two new ones to me: R. Continente, Bogota, on 930 w/scant domestic QRM, & almost 100% in the clear on 960 was R. San Sebastian, in San Cristobal, Venezuela. I thought for about 1 hour he was saying "R. Sensacion" & I was going frenetic trying to find such in the WRTH, hi. But finally the mud in my ears broke and the true ID came ringing through. Remember, the DX week doesn', end on MON.!

STAN MORSS - Route 3 - Bradford, Massachusetts - 01830
WINH-1470 in well 3 SSS on 11/3, and verie is in already, 11/13. Unn WBMB-1060
noted on SSS on 11/7. 11/13- Local WHET-1330 noted ANing today, NSP now. V/1, WWWG-1460.

AND, THAT'S ALL THEY WROTE! WE DO THANK THE 17 WHO DID TAKE THE TROUBLE TO MUSE THIS WEEK, & WE KNOW HOW YOU MUST FEEL AT SEEING SO LITTLE SUPPORT FROM OTHER NRCERS. MAYBE NEXT WEEK WILL BE BETTER - IT CAN'T BE MUCH ELSE. PLEASE, NO PERSONAL MESSAGES TO OTHER MEMBERS IN YOUR MUTINGS UNLESS IT IS TO ANSWER A QUESTION OR HELPS OTHER DEERS AS WELL. DOUBLE SPACE!

We want you to know

Additions or corrections should be sent to Russ Edmunds. WB2BJH, P.O., Box 127, Boonton, NJ 07005. Info on the NRC ham net should be addressed to Dan Phillips, N4NU, address as per the membership list. Next list will be published in about a year. My apologies for the delay with this, but I had some typewriter problems, and had to stay late at work to borrow one in the secretarial pool. - 73's de RjE

BBC (-.../-.../-.-.) CALLING . . .

RADIO 1 in Albanian

RADIO 2 in between La Voz de los Andes and Radio Norge (except in Barnstaple)

RADIO 3 in Morse RADIO 4 inaudible after sunset

REMEMBER - from 0000hrs on 23 November (0001 in Bournemouth)

JIMMY YOUNG reads the Inshore Waters Forecast on 4777.3 kHz (142m - 267°) x 88.95°

(except for listeners in N. Ireland and Redruth)

the BBC's vast new transmitter in Tangiers.

Following an International Conference on Flagging transmitters for the needy. Transistor Sales, domestic broadcast frequencies are to ambitious plan to improve reception of Albanian Radio on Tyneside and in Torbay.

To meet the challenge of recalibrating the average 2.5 listeners in every home, the BBC has launched a £3 million campaign to promote rooftop dish antennae and irons to assist the hard of hearing.

listeners and is the biggest shambles of its kind in the FFZZZZGRRRWAAAAAAAAAAAAAGH . . .

Twenty-two million self-adhesive Albanian dictionaries history of broadcasting. Engineers will work through are to be distributed to every home with a diamond- the night of November 23 in a race against time to locate shaped radio, writes Allouis Daventry, Comptroller of listeners in time for the next morning's programmes. WRVS teams have volunteered to post soup to BBC

Unscheduled breaks in transmission lasting from a be changed overnight and go metric as part of an split second to several days are liable to occur on all BBC medium and long wave services until sunspot activity dies down towards the end of 1981.

In a special message to listeners about to be modified. Henry Ohm, Head of Vertical, Horizontal and Circular Tuning Dials at the BBC's new Hilversum Switching solid-circuit Boy Scouts are standing by with soldering Centre, which is to be moved overnight to Saarbrücken with the aid of a slide-rule, stressed the vital import-The new frequencies will mean much more interest- ance of connecting up every radio set before the big ing interference for the majority of Britain's radio changeover to the new modulation mode of THIS WEEK'S COMPOSER on 647 kHz / 464 m is the world-famous Albanian goatherd, Gregor Llambi Shtylla. The programme includes highlights of his Dirge

TEST MATCH SPECIAL will resume at 0114 hrs with blow-by-blow coverage of the final day's rubber of equestrian quoits between the Ghegs and the Tosks at Tirana.

HOMEWARD BOUND features sheepdog whistles and the Great Gong of Yanina on disc in an interlude of uninterrupted music to hum over the passes.

NB Attention all shipping, especially in sea areas Dutch Blight, Fishnet, Doggybag and Cannon. The Meteorological Office will issue gale warnings to shipping after dusk on November 23 on Radio Reloi Costa Rica on 4832 and on the Overseas Service of Paramaribo Surinam on 4850, except for listeners in the Irish Sea who have their own programme of light music from Stavanger.

EFFECTS ON CAR RADIO

From 0000hrs on November 23, listeners on the move will achieve optimum reception of BBC medium wave broadcasts by using a 40-inch loop antenna with 26 turns to the main winding, tuned with a twingang variable capacitor (two sec tions in parallel) of about 748.25 pF Motorists with side-valve engines should incorporate a switch to allow tuning between 500kHz and 1881 kHz at speeds not exceeding 44 mph. Under average wind conditions, listeners on a line north of The Wash should have a choice of listening between about 0100 and 0102 hrs between Radio 1, Barcelona and a Greek military station transmitting repeats of The Archers from near the Turkish

FM TRANSMISSIONS

High-quality broadcasts will continue to be transmitted from the BBC's THF-band station on the roof of the Café Royal, and relayed via Wemvoe, Pontop Pike and Moel-y-Parc in Morse. These broadcasts are free from interference from All-India Radio, Ajaccio, Nippon Hoso Kyokai, Radiodiffusion Gabonaise and the Hospital Churchvessel "De Hoop" and will therefore be used for the Open University, Junior Choice and BBC Radio Leicester for listeners in Hull

DO I NEED A NEW SET TO LISTEN TO BBC RADIO?

Extensive market research by the BBC indicates that most listeners with a typical AM, CW, USB and LSB receiver with phase-lock and triple mixing drift cancellation capability should have little trouble with the new radio changes, at least in Herne Bay. For those in difficult reception areas such as London, the Midlands or the North of England, it might be worthwhile purchasing a more up-to-date radio with a trans-oceanic beat frequency oscillator and not less than 144 superheterodyne diodes or, alternatively, learning Danish. In parts of Carlisle, reception may be improved by tuning in to Famagusta during the

REMEMBER

THE NEW WINTER RADIO FREQUENCIES ARE HARMLESS TO PETS AND ON MOST HOUSEHOLD RECEIVERS THE ALPHA-ACTIVE ISOTOPES OF NEODYMIUM, SAMARIUM, EUROPIUM, GADOLINIUM, TERBIUM AND DYSPROSIUM ARE UNAFFECTED.

*USE this simple circuit diagram to re-tune YOUR set on November 23:

From "Punch" 11/1/78 via R. J. Loewen.

REPORTERS TO KIUP'S DX TEST INCLUDE:

Rob Keeney, Overland Park, Kansas, Robert Wien, San Jose, Calif., Clarence Freeman, Yreka, Calif., James J. Wallace, Columbus, Ohio, Edward R. Cotton, Chesapeake, Va., Brian P. Sherwood, Elmhurst, Ill., Hugh P. Hector, Canoga Park, Calif., James B. Dotson, Charleston, W. Va., Norman L. Maguire, Albuquerque, N.M., Michael A. Heppe, Houston, Miss., Gerry Thomas, Pensacola, Florida, Gary Houdek, Munden, Kansas, George Kesteven, George W. Link, Jr., Highland, Calif., Karl Jeter, Atlanta, Ga., and Ernest R. Cooper, Provincetown, (List from Chuck Kelly, C.E. of KIUP via Wayne Heinen)

CORRECTION TO THE LOG Richard N. Allen tells us KRMG-740, Tulsa, Oklahoma is not affiliated with the Oklahoma News Network (ONN). KRMG only joins the ONN for University of Oklahoma "Sooners" football games.

REPRINT LIST SUPPLEMENT

This supplements the April, 1978 NRC Reprints List and includes many of the articles appearing in DX News since that time. Suggestions for articles to be included are welcome. Please use the order form which accompanies this listing. Also note that reprint $\underline{R4}$ has been expanded from 3 to 9 pages.

ANTENNAS

A27 SOME THOUGHTS/MORE THOUGHTS ON BEVERAGE ANTENNAS. J. Clements and C. Hutton. Originally two articles, this report gives some valuable additional thoughts on construction and use of Beverage antennas. Goes well with A7, AlO, All and Al6.

RECEIVING EQUIPMENT AND TECHNIQUES

- MODIFYING THE TRF. A compilation of five articles for improving this fine portable receiver. Included are "Modifying the Realistic TRF to 10 kHz Readout" and "Additional Tips for 10 kHz Readout" by Charles Barfield and Gerry Thomas. "A Real External Antenna Jack for the TRF" by C. Bobbitt and "Modifying the TRF for SM-1 Use" by B. Sherwood are included as is "Tilting T-Bar Antenna Tuner for the TRF".
- R23 DIVERSITY RECEPTION, C. Hutton. Using more than one antenna and receiver in an effort to reduce fading and interference of one frequency. This article deals briefly yet concisely with the basics of "DR" and how it can be applied to Medium Wave DX.
- R24 TIPS ON REMOTE TAPING, R.J. Edmunds. Are you going to be away during that rare DX test? This article explains several methods you can use to turn your receiver and recorder on while you're otherwise occupied. Useful with R9 and A26.

DOMESTIC DX

D12 CANADIAN FAMILY LIFE...IT'S TWINS. Many radio station "families" exist in Canada. This article explains why and give station groupings as of November 1, 1978. Not only are low-power relay transmitters listed, but other stations with better DX potential.

FOREIGN DX

- Note: Articles F4, F6, F7, F8, F9 and F10 are based on the ITU plan in effect prior to November 23, 1978. These are to be updated. Contact HQ if you wish to volunteer to redo an article.
- F11 ITU FREQUENCY ALLOCATIONS AND THEIR IMPACT ON TA DX'ING, M. Connelly. Trying for TA's on their new frequencies? What are your chances of logging a specific station? This reprint lists all region 1 medium wave frequencies and what should be heard under good conditions. Goes with F1.

PROPAGATION

- P22 REVIEW OF SOLAR ACTIVITY FOR THE MEDIUM WAVE DX'ER, R. J. Edmunds. A concise explanation of the Fredericksburg A-index as well as its use in the hobby is given in this article. Goes with P1, P6, P7, P10, P12, P13, P19 and P20.
- P23 MEDIUM WAVE IONOSPHERIC PROPAGATION, R. Schatz. This article takes a different approach to propagation and presents new terms and theory. It is designed as a prerequisite to a future article on "Terminator Transit Mechanix (TXM)".

RECEIVER REVIEWS

- RR9 PANASONIC RF-4800 REVIEW, Grant Manning. Article evaluates the overall performance of this multiband receiver. Includes schematic and the technical specifications provided by Panasonic.
- RR10 HQ-180 SERIES RECEIVERS, Dallas Lankford. Reviews technical details and includes personal comments on the popular Hammarlund HQ-180 receivers. An ideal supplement to the NRC Receiver Manual.
- RR11 SONY TR-6500 VS THE TRF, Charles Barfield and Gerry Thomas. Thinking of buying either of these popular inexpensive receivers? This reprint compares them side-by-side and gives impressions.
- All orders go to NRC Publications Center, P.O. Box 401, Gales Ferry, Conn. 06335. A full list of NRC Reprints/Publications as of April, 1978 can also be obtained from the Publications Center.

REPRINTS/PUBLICATIONS ORDER FORM

Available from NATIONAL RADIO CLUB PUBLICATIONS CENTER, P.O. BOX 401, GALES FERRY, Connecticut 06335. Payment in U.S. funds only. Inquire for rates for overseas airmail shipments.
