12 NRC Contest		23 Musings of the Members

- Key West, FL

From the Publisher ... Another 1590 station Locklear - Gulfport, MS (rejoins), Danny Kolhage bites the dust, this time WSMN-1590 in Nashua, NH ... see p. 13 for details, and p. 9 for Nashua resident Bruce Conti's take on the situation. This time skyrocketing land values seem to be the main culprit in hastening a station's demise ... always a sad commentary on the state of local AM radio in these times

Anyone going to Kulpsville '05 March 11-12? Contact Ken Chatterton (see back page) for more information if you'd also like to represent the NRC at this venerable gathering of radio hobbyists. ... Leslie

DX Time Machine From the pages of DX News: 50 years ago ... from the February 19, 1955 DXN: Scooter Segraves, Stuttgart, AR reported that he celebrated his 15th birthday on 1/24 by adding a new state via the WINH-1350 DX broadcast for the NRC, followed

WCAM-1310 on AN schedule. 25 years ago ... from the February 25, 1980 DXN: Dave Schmidt, Castle Hills-New Castle, DE, checked in with a Muse and reported more noise in his neighborbood, either from a light dimmer or a fluorescent light.

by DX programs from KTOW-800 and CFCN-1060, also

10 years ago ... from the February 20, 1995 DXN: Approximately 65 AM stations were planning to take advantage of 1991 FCC rule changes that allowed class B stations to upgrade their signals as long as they did not interfere with other stations. KFWB-980 Los Angeles was planning to ungrade to 50 kW from 5 kW.

## **The County Cross Reference**

What a time-saver! A complete list of counties, parishes, and similar political divisions in the U.S. and Canada. Two lists are included: alpha by county, and by state. Combiled by Bill Hale and designed and produced by Wayne and Joan Heinen. \$7,50 for members. \$10.95. non-member: overseas surface mail, add \$4.00 for first copy; \$.64 for each add'I copy/ For airmail, add \$8.00 for each 3 or fraction of 3, Order"CCR" from the NRC Publications center: NY residents, please include sales tax.

## AM Station Location Maps

7th edition - \$13.00 to members (\$18.95 non-members), ppd. Complied by Bill Hale, this must-have companion to the AM Radie Log and Nightlime Pattern Book shows the location of all U.S. and Canadian broadcast stations (except TIS/LPRT) as well as latitude/longitude coordinates, plus instructions by Dave Sundius enabling users to calculate distance and bearing to any station. This book is three-hole punched for a letter-size ring binder. Order from NRC Publications - Box 164 - Mannsville. NY 13661. NY residents, please add sales tax.

			come U1 1000	/44.	
		AMENI	MENTS TO C	ONGTRUCTION DO	
1260	KIMB	NE	Kimhall - Licen	sed for U1 1000/112	RMITS SUBMITTED , KIMB has a CP for U5 50000/112 from
			a new transmitt	er site at N41-15-08	W103-39-49, along with an amendment
			to that applicat	on to change the city	-of-license to Ogallala, Nebraska. This
			second amendn	nent requests U5 500	000/110 from two slightly taller towers
			at another site,	again from Ogallala.	the signify unit towers
				- 0	
710	WDEL	A	MENDMENTS	TO APPLICATIONS	<u>S SUBMITTED</u>
/10	WREM	ME	Monticello - Li	censed for D1 5000/	0, WREM applied to move to 780 kHz
			with UT 5000/6	0 CH 5000. The app.	lication was rejected as it seems that the
			applicalit, a Mr.	Allan Weiner of Ken	nebunk, Maine who some of you may
			cited for some k	ind of broadcast mis	for a short wave station in Maine, was conduct. This latest amendment certi-
			fies that there ha	s been no recurrence	of misconduct on the part of Mr. Weiner.
860	WFMO	INC	rairmont - Lice	nsed for U1 1000/12	WFMO has a pending application for
			04 50000/750	from four new 286' t	owers at a new site. This amondmont
			moves the site a	bout 7 miles to the we	est
1080	KGVY	AZ	Green Valley - ]	Licensed for D1 1000	)/0 KGVY applied to move to Turner
			Arizona with D	l 2000/0. This amer	adment now asks for D1 1700/0 from
			Tucson.		

1120	WXIO	GA Gordon - Licensed for D1 10000/0 CH 2500, WXJO had applied for D1
		10000/0 from a new 6-tower site, plus a city-of-license change to Smyrna,
		Georgia. This amendment requests D1 10000/0 from another site, this one
		with 4 new towers.
1150	КСКҮ	AZ Coolidge - Licensed for U4 5000/1000, KCKY has a pending application to
		change their city-of-license to Apache Junction, Arizona and lower their night-

time power to become U4 5000/190. This amendment requests U4 5000/ 185 from Apache Junction.

3

- 1230 KLIC LA Monroe Licensed for U1 1000/1000, KLIC has a pending application for U1 500/500 with a city-of-licensed change to Richwood, Louisiana. This amendment requests U1 1000/1000 from Richwood.
- 1250 WPEL PA Montrose Licensed for D1 1000/0, WPEL has a pending application for U1 1000/137 CH 1000 on 800 kHz. This amendment lowers the nighttime power by two Watts.
- 1250 KZDC TX San Antonio Licensed for U2 1000/1000, KZDC has a pending application for U4 50000/2000 with a city-of-license change to Bandera, Texas. This amendment changes the application to U4 35000/2000.
- 1270 WXGO IN Madison Licensed for U4 1000/58, WXGO has a pending application to move the city-of-license to Aurora, Indiana, build six new 194' towers for D3 600/0 operation. This amendment requests D3 330/0 from six similar towers at a different location.
- 1280 WWPG AL Tuscaloosa Licensed for U2 5000/500, WWPG has a pending application to change the city-of-license to Eutaw, Alabama while relocating to a new 3tower site and increase their power levels to become U2 7000/500. This amendment requests U1 7000/25 from that new site and CoL using only one tower.
- 1310 WJUS AL Marion Licensed for U1 5000/34, WJUS has a pending application for U1 1100/17 with a CoL change to Selma, Alabama. This amendment lowers the night power to 16 Watts from Selma.
- 1400
   KHCB
   TX
   Galveston Licensed for U1
   1000/1000, KHCB applied to move to League City with U4
   1000/1000. This amendment alters the directional patterns.
- **1560 WSQR** IL Sycamore Licensed for U1 198/18, WSQR has a pending application for D1 800/0 with a frequency switch to 1180 kHz. This amendment requests D1 900/0 on 1180.

#### AMENDMENTS TO CPs FOR PENDING FACILITIES

- 720 WQTH NH Hanover This new station, not yet on the air, has a CP for U4 50000/500 and an amendment requesting U7 50000/1700 CH 50000 from a new site as well as a city-of-license change to Claremont, New Hampshire. This latest amendment asks for U7 50000/2500 CH 50000 from Claremont. All three proposed patterns shoot due north.
- 1470KNFLUTTremonton This new station, not yet on the air, had a CP for U4 10000/1000,<br/>but was later amended to U2 1000/940. This amendment now requests U2<br/>1000/880.

#### AMENDMENTS TO APPLICATIONS FOR PENDING FACILITIES

- 750 NEW MN Duluth Original application was for U2 1000/1000. This amendment requests U7 7000/500 CH 5000.
- 830 NEW FL Hilliard Original application was for U4 10000/2500 from a 4-tower site. This amendment requests U4 50000/4000 from six towers at a new site.
- 890 NEW TX Mabank Original application was for U4 400/250. This amendment requests U4 600/250. This application is very precarious as Mabank is only 40 miles from the new KTXV in Frankston, Texas.

940

1050

- NEW NC Beaver Creek Original application was for U4 3500/750 from 6 towers. This amendment requests U4 250/250 from 4 towers at a new site.
- NEW MT Missoula Original application was for U2 1000/1000. This amendment requests U4 50000/450.
- 1060 NEW CA Arroyo Grande Original application was for U4 10000/1500. This amendment requests U4 10000/5000.
- 1140 NEW TX Shallowater Original application was for U4 3000/250. This amendment requests U4 5000/300. Shallowater is just northwest of Lubbock.

*			
1140	NEW	WA	<b>Aberdeen</b> - Original application was for U2 1000/1000. This amendment requests U2 5000/2500.
1230	NEW	тх	McNary - Original application was for U1 250/250. This amendment re- quests U1 1000/1000. McNary is about 50 miles southeast of El Paso, on the
			Rio Grande.
1230	NEW	тх	<b>Presidio</b> - Original application was for U1 250/250. This amendment re- quests U1 1000/1000. Presidio is about 200 miles southeast of El Paso, on
			the Rio Grande.
1050	NITIA	MD	
1250	NEW		Salisbury - Original application was for U4 483/483. This amendment re- quests U4 500/300.
1290	NEW	MN	Saint Paul Church - Original application was for U4 3626/250. This amend- ment requests U4 5000/300. Saint Paul Church is near Duluth.
1300	NEW	FL	Key West - Original application was for U4 2000/250. This amendment requests U4 260/260.
1300	NEW	MN	<b>Bemidji</b> - Original application was for U2 2500/500. This amendment requests U2 2500/600.
1400	NEW	CA	<b>Ridgecrest</b> - Original application was for U1 250/250. This amendment
			requests U1 1000/1000.
1400	NEW	MN	<b>Bemidji</b> - Original application was for U1 250/250. This amendment requests U1 1000/1000.
1400	NEW	ΤХ	Langtry - Original application was for U1 250/250. This amendment re-
			quests U1 1000/1000. Langtry is northwest of Del Rio on U.S. 90.
1450	NEW	AK	<b>Únalaska</b> - Original application was for U1 1000/1000. This amendment
			requests U1 5000/5000. This may be the first U.S. 'superpower' on a chan-
			nel, but who are they going to interfere with? Unalaska is wa-a-ay out in the
			Aleutian chain about 1000 miles west of Anchorage.
1450	NEW	AZ	Cameron - Original application was for U1 250/250. This amendment re-
			quests U1 1000/1000. Cameron is about 50 miles north of Flagstaff.
1450	NEW	CO	Eads - Original application was for U1 250/250. This amendment requests
			U1 1000/1000. Eads is in southeast Colorado north of Lamar.
1450	NEW	тх	Comstock - Original application was for U1 250/250. This application re-
			quests U1 1000/1000. Comstock is north of Del Rio on U.S. 90.
1490	NEW	CA	Del Norte - Original application was for U1 250/250. This application re-
			quests U1 1000/1000. Del Norte is on the California coast near the Oregon
4400		~-	border.
1490	NEW	CT	Uncasville - Original application was for U1 250/250. This amendment
1400	N 1 17 1 47		requests U1 1000/250.
1490	NEW	UI	<b>Richfield</b> - Original application was for U1 250/250. This application re-
1490	NEW	WV	quests U1 1000/1000. Jackson - Original application was for U1 250/250. This application re-
1470		** 1	quests U1 1000/420.
1600	NEW	HI	<b>Hilo</b> - Original application was for U1 5000/5000. This application requests
			U4 10000/10000 on 1590 kHz.
			APPLICATIONS FOR NEW STATIONS
1380	NEW	LA	Bossier City - Applies for U4 715/715.
1400	NEW		South Boston - Applies for U1 1000/1000.
1410	NEW		Midlothian - Applies for U4 360/360.
1590	NEW		<b>Opp -</b> Applies for U4 500/250.
			Opp hippites for OT 300/250.
			APPLICATIONS REINSTATED
960	WZRH	NC	Dallas - Application is to increase daytime power to 2400 Watts.
		APDI	ICATIONS FROM EXISTING FACILITIES DISMISSED
1050	КСАА		Long Linds - Application was to increase news to 1990 M/ He (
1000	ACAA	CA	Loma Linda - Application was to increase power to 1800 Watts from a new transmitter site. Station remained D2, 1400 /0
1190	WSDE	NIV	transmitter site. Station remains D3 1400/0.
1170	113DE	IN I	<b>Cobleskill - Application</b> to add a CH designation has been dropped from the application which requested CH and might accurate a Theorem 1.
			application which requested CH and night operation. The application for
1490	KRSN	NIM	U1 1000/20 remains in pending status.
1370	ANDIN	INIVI	Los Alamos - Application was to relocate their transmitter in order to share the tower of KSW/V810 Santa Fo New Maxim and share silve of the
			the tower of KSWV-810 Santa Fe, New Mexico and change city-of-license to
			Santa Fe.

#### PETITIONS FOR RECONSIDERATION FOR APPLICATIONS

1380 KRCM TX Beaumont - Station applied to move to Shenandoah, Texas with D1 600/0 as part of the Auction 84 window but the application was rejected. This amendment requests U1 480/65 from a new tower site.

#### NORTH OF THE 49TH PARALLEL

**CHUC-1450** Cobourg, Ontario has applied to move from AM to 107.9 MHz on the FM band with 1030 Watts of ERP at 203 metres.

#### HEAR AND THAR

□ Let's talk Graveyard DX Achievements for a minute. Don't wait 'til you see a GY column to send in updates. So now that the Totals column has hit print, scan your 1230 logs for any updates and send them in. Visit the web page (see below), which has all the details, to see who holds the record and determine if you can best that distance.

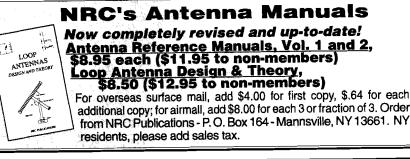

□ It has been reported that WKCU-1350 Corinth, Mississippi and KBYO-1360 Tallulah, Louisiana have gone silent, along with KCLR-1530 Ralls, Texas. But returning to the airwaves is KPZA-1590 Hot Springs, Arkansas with a Spanish format and IDing as "Que Pasa".

Thanks to Shawn Axelrod, Gerry Conkling, Perry Crabill, Wayne Heinen, and Jerry Starr.

#### **DDXD-West**

#### From the Vast Westland

- Welcome once again to the Vast Westland (and you thought that VW was a car!).
- Conditions have not been the greatest lately. Still, that did not stop Brian Leyton from bagging a
  1500+ mile signal, a personal distance record (see KSTP 1500 in "Regular Loggings"). This is just
  one of the fine loggings that you will find in this week's column, and all are greatly appreciated.
- What are you hearing? Why not share it with the membership by sending it on to your DDXD or IDXD editor. We look forward to hearing from you! 73 Bill

#### Reporters

- BL-CA Brian Leyton, Valley Village. DX-398 / RS Loop / 18" Box Loop.

#### Station News

- 1150
   KCCT
   TX
   Corpus Christi. Per Corpus Christi Caller-Times, station flipped to liberal talk on 2/8 featuring Air America programming. (DP-HI)
- 1280 KBNO CO Denver. According to the *Denver Post*, KBNO (Que Bueno) is #1 among adults 18-44 in the latest ratings. KBNO is non-affiliated and locally owned. This is a first here for a Spanish-language station, and they beat out the traditional leaders KOA and KYGO. The other Spanish competitors in the market weren't even close to the top. A link to the *Post* article can be found online at <www.radioquebueno.com/article6.html>. (PG-CO)

#### Regular DX Loggings (times in ELT)

- 690 CBU BC Vancouver. 2/6 0200. Out of the Sounds of Quebec program with "You're listening to CBC Radio One, six-ninety AM in Vancouver" and into news and local weather. (PG-CO)
- 860 CJBC ON Toronto. 2/3 0100. "Ici Radio Canada"..."Say-Gee-Bay-Say" at TOH into FF news. Strong signal. (RT-MN)
- 860 KKOW KS Pittsburg. 2/3 1900. Callsign ID, weather into CBS news with CJBC underneath. Disappeared shortly thereafter. (RT-MN)
- 870 WWL LA New Orleans. 2/4 0100. "The news, talk and sports information leader, AM 870 WWL New Orleans" into CBS news followed by "The Midnight Trucking Radio Network." (RT-MN)
- 870 KPRM MN Park Rapids. 2/4 1300. "You're listening to Rush Limbaugh here on KPRM 870 Park Rapids" into CBS news. (RT-MN)
- 870 WKAR MI East Lansing. 2/4 1800. NPR news, followed by "WKAR must leave the air by 6:15 during the month of February. We invite you to listen to WKAR 90.5 FM." (RT-MN)
- 880 CKLQ MB Brandon. 2/5 0103. Weather forecast for Winnipeg, Dauphin and "here in Brandon", followed by lottery numbers and C&W music. In and out with WCBS. Subsequent monitoring produced a callsign ID later on in the afternoon. (RT-MN)
- 880 WCBS NY New York. 2/5 0105. Weather forecast for the Hudson Valley, followed by a

time check, "The WCBS news time is 1:05." In and out with CKLQ. (RT-MN)

- KRVN NE Lexington. 2/5 0900. ID at TOH, "This is KRVN, Nebraska. It's eight o'clock" into news. In and out with CKLQ. (RT-MN)
   WLS IL Chicago. 2/6 0100. "News...opinions...passion...news talk 890 WLS" into ABC
- news. (**RT-MN**) 90 KQLX ND Lisbon. 2/6 1300. Slogan "Kicking Country" and callsign ID, followed by an
- invitation to listen to their FM outlet on 106.1 and on their website, into weather. Surprisingly good given that the NRC Log states they are 1 kw. (**RT-MN**)
- 900 CHML ON Hamilton. 2/7 0100. "When you need to know what's happening in Hamilton, AM 900 CHML Hometown Radio" into news. Splatter from WLS, may have said "Hamilton, Ontario." (RT-MN)
- 900 KTIS MN Minneapolis. 2/7 1200. "Grace To You" program, followed by "This is AM 900 KTIS Minneapolis-St. Paul, broadcast ministry of Northwestern College" into AP Network News. (RT-MN)
- 910 WSUI IA Iowa City. 2/8 0100. BBC's "The World Today" followed by ID at TOH, "AM 910 WSUI Iowa City-Cedar Rapids" into NPR news. (RT-MN)
- 920 CFRY MB Portage la Prairie. 2/9 1300. ID "CFRY 920 AM, 93.1 FM, Portage" into news with KWAD nulled. (RT-MN)
- 920 KWAD MN Wadena. 2/9 1307. ABC news, commercial for a photo studio in Wadena, ID'd as " superstation KWAD-KNSP" in semi-null of CFRY. (RT-MN)
- 930 WKY OK Oklahoma City. 2/8 2036. Good at times but mostly under a jumble of other stations. Ad for OK Hair Removal and ID as "Super Talk 930, WKY." A good logging even though they send almost no signal in my direction. (PG-CO)
- 930 CJCA AB Edmonton. 2/9 0220. "Gospel hits from yesterday and today, the new ninethirty CJCA." Solid most of the time in null of WKY. (PG-CO)
- 1110 WBCA AL Bay Minette 2/1 1938. Southern gospel, "WBCA Gospel Music Radio", Christian message IDs. New. (SP-WI)
- 1140 KSOO SD Sioux Falls. 2/51843. South Dakota mentions, calls, "Money Talk", ABC news. (SP-WI)
- 1190 KEX OR Portland. 1/31 0256. "Coast to Coast AM with Art Bell" with guest author Patrick Heron in Dublin; PSAs for Shriners Hospital, breast cancer, slogan "When News Breaks Out, We Break In...Newsradio 11-90 KEX... Newsradio 11-90 KEX Portland"; local weather and newscast. Very poor, QRM from KZOO-1210. (DP-HI)
- 1200 CFGO ON Ottawa. 1/26 1854. Spots, slogan "Sports Radio 1200", OHL hockey game. NEW. (SP-WI)
- 1240 KALY NM Los Ranchos de Albuquerque. 2/9 0757. Radio Disney ads; legal ID at 0959 by kid, then back to RD. Generally fair, mixing with others. (JW-CO)
- 1400 WKNW MI Sault Ste. Marie. 2/9 2259. Poor in graveyard jumble. Sporting News Radio programming, slogan "Talk Radio 1400", legal ID into national news, unID network. NEW! (Ed.-WI)
  - KSTP MN St. Paul. 2/3 0300. Thanks to a tip from Kevin in AZ, I decided to see if they would make it here to California. Rough copy, but did notice Coast to Coast before I went to bed. Recordings revealed ABC News at 0200 TOH, and at 0300, an "AM 1500, KSTP St. Paul—??" I think the last part was "Minneapolis", but it was hard to tell. This is now my second furthest reception after

1500

1500

WHO. NEW (and long awaited)! (Later post:) When I went to put it in the log, I recalculated the mileage, and discovered that KSTP is not my 2nd furthest reception, but rather it's in first place! At 1534 miles, it's 80 miles further than WHO. Does this distance imply that the signal made 2-hops to get to me? (BL-CA) (Congratulations, Brian! Ed.-WI)

- KSJX CA San Jose 2/3 0930. Presumed Asian language. Getting beat up pretty badly by the City of Beverly Hills TIS. Poor-to-fair. (BL-CA)
- 1640 KFNY OK Enid. 2/9 0619. Glenn Hauser's hometown X-bander heard with a generally fair signal in WKSH null, with WTNI signal subdued. Comedy routine, a full 3-1/3 sesquiminutes of commercials (Quicken Loans, NASE Benefit Plans, others), ID by a woman: "KFNY, KFNY, 1640 AM, 1640 AM, Oklahoma's Laugh Button, Enid-Oklahoma City", into All-Comedy Radio Network programming. By far the best overnight reception of this station here. (Ed.-WI)

1670 KHPY CA Moreno Valley. 2/8 0800. Singing legal ID, then long religious program with

8

sermon and music; announcements of local gospel events at 0845; all in SS, of course. Fair, mixing with KNRO. (JW-CO)

#### TIS, HAR, Etc.

1500 WPIE851 CA Beverly Hills. 2/3 0930. City of Beverly Hills TIS. They get out pretty well, all things considered. Only 7 miles away, but the Santa Monica Mountains are between here and there. I've seen the site on the Burton Way median, but it doesn't look like anything special. Regular daytime visitor here (BL-CA)

#### **DDXD-East**

Mike Riordan of Salt Lake City, Utah wrote regarding Saul Chernos' 1180 UNID in Issue 17, presumed to be KERI, Bakersfield, CA: "since December 29, this station has not been powering down after sunset. I called the CE of the station. He told me I am wrong in my assertion!" Indeed, this issue has been a big topic of discussion on the NRC AM Listserv; many there have reported hearing the station.

#### REPORTERS

- MKB-ON Mike Brooker, Toronto Grundig YB-400PE; Panasonic RF-2200.
- MC-NJ Mike Clancy, Jersey City DX396.
- MH-NC Mike Hardester, on I-40 West near Keanensville Toyota Highlander with imbedded windshield antenna.
- WJH-MD Bill Harms, Elkridge R8B, Homebrew K9AY.
- JR-NY Jim Renfrew, Byron Drake R8B, Beverages, Quantum Phaser.

#### UNID AND PRESUMED

- 660 UNID \_\_\_\_\_\_- 1/28 1845 and 1950 fast Morse code traffic noted under WFAN (NOT Radio Reloj!). I didn't have the recorder set up, but at times there may have been two or more operators on frequency, as noted by differences in tone. The NRC list had quite a bit of back and forth on this, as Fred Vobbe in Lima OH heard it, too. One of his sound clips turned out to be a CQ from K5GO in Arkansas, a station known for its 160 meters work ... but how did it get on 660? (JR-NY)
- 1590 UNID \_\_\_\_\_\_- 2/3 1225 Station ending religious talk program with male announcer. Mention of "now on the FBN Network...." garbled talk and into presumed program. Poor level. Probably a NC station, but several to choose from. (MH-NC)
- 1700 UNID \_\_\_\_\_\_-2/30702 French language station with talk between man and woman. Occasional mentions of "Radio Nacional ," but aside from that, non-specific chatter. About even with, occasionally over, WEUV. Also, occasionally, a Spanish-language station with talk would briefly surface. Poor. Mainly interested in who the French-language station might be. (MH-NC)

#### STATION LOGGINGS

- 930 WHLM PA Bloomsburg 2/3 0625 Popped in with two IDs by a male announcer as "News Radio WHLM." Mixing with WFMD, WBEN etc. Heard 22 years ago on 560. (WJH-MD)
- 1170 WFPB MA Orleans 2/1 1558 ID at 1558 by female announcer as WUMB-FM. TOH ID at 1601 by male announcer. I heard ID for WUMB and for WFPB 11-70. The announcements were in between blue grass musical selections. Over nulled WWVA which was trying to fade in. (WJH-MD)
- WCPM KY Cumberland 2/2 1813 Weather forecast by a female announcer, ID as "at this time WCPM ... end of broadcasting..." Into a barbershop quartet rendition of the Star Spangled Banner. Mixing with a station with a male preacher and WADO. (WJH-MD)
   WHAN VA Ashland 2/1 2005. Reprod in with an ID have a labeled barbershop with a station of the star Spangled Banner.
- 1430 WHAN VA Ashland 2/1 2005 Popped in with an ID by a male announcer as AM 14-30 WHAN into a MOYL song. Over all for a few moments. (WJH-MD)
  - CHKT ON Toronto 2/1 2100 ID as "AM 14-30 CHKT Fairchild Radio" once each by male and temale announcer. This was followed by the Afghan Program. (WJH-MD)
- 1460 CJOY ON Guelph 2/5 0302 Singing ID as "Good Time Oldies CJOY" into an oldies

selection. Over all. (WJH-MD)

- WBPA KY Elkhorn City 2/50100 ID by male announcer as "WBTH Williamson, WPRT Prestonburg, WPKE Pikeville, WBPA Elkhorn City" and into CNN news. Fair in the mix. (WJH-MD)
- WPON MI Walled Lake 2/5 0203 TOH ID by male announcer as "You are listening to WPON, Walled Lake" into the song "Sweet Talking Guy". Popped in over the mix for a couple of minutes. (WJH-MD)
- 1490 WLPA PA Lancaster 1/22 2045 "We're Lancaster's original sports station. Sporting News Radio, WLPA." Occasional visitor rose up during a snow storm, stayed very clear for a minute, then disappeared back into the mess. Announcer said that the area would get 7-14 inches of snow. QSL received. (MC-NJ)
- **1520** WCHE PA West Chester 2/3 1200 ID by female announcer as "You are listening to WCHE West Chester." This was followed by an by male announcer with "WCHE, time is 12 o'clock." Mixing with WWKB. WTRI off the air. They were playing light oldies. New. (WJH-MD)
- 1570 WNST MD Towson 2/2 1905 dominating frequency (perhaps they forgot to switch off day power?) with promo for Super Bowl contest on <u>www.wnst.net</u> web site, "Sports talk 1570 WNST" ID into Sporting News Radio programming. (MKB-ON)
- 1580 WKKD IL Aurora 2/3 0200 ID before USA Radio News, then "Health Radio Network" call-in program. (JR-NY)
- 1700 WEUV AL Huntsville 2/3 0702 Morning obituary report, spot for Reed s Hardware, church announcements, several mentions of WEUP, and slogan as "The People s Station." Gospel music followed. Fair level with QRM from UNID French-language station, as well as Spanish language station. (MH-NC)

# InternationalBruce Continrcidxd@aol.comDX Digest46 Ridgefield DriveDX Catches. Times are UTC; for ELT, subtract 5 brs.

"WSMN signs off after more than 45 years," read the headline in the Nashua *Telegraph* newspaper as 1590 WSMN has left the airwaves for the unforeseeable future if not permanently, evicted to make way for a housing development (see IDXD in the July 12, 2004 *DX News*). While it leaves adjacent frequencies 1584 and 1593 wide-open for DXing in New Hampshire, it's less than welcome news for our friends across the Atlantic. Mark Hattam of the UK laments, "A pity since it was one of our semieasy catches on 1590." (More on p. 13 -pls.)

#### Transatlantic DX

- 549 **GERMANY** *DeutschlandRadio*, Nordkirchen & Thurnau FEB 6 0518 Parallel 1422 with classical music; slightly over Algeria. [Connelly-MA]
- 567 IRELAND RTÉ R.1, Tullamore FEB 6 0518 Traditional fiddle music; fair. [Connelly-MA]
- 747 **NETHERLANDS** Flevoland FEB 6 0515 Soft instrumental music with a synthesizer and a conventional orchestra; good, way over Spain-Canaries. [Connelly-MA]
- 783 MAURITANIA R.Mauritanie, Nouakchott FEB 11 0105 Good; lively Arabic vocal, then signed off, no anthem or announcement. [Conti-NH]
- 837 **FRANCE** Nancy FEB 6 0513 French talk; over others. [Connelly-MA]
- 864 FRANCE France Bleu, Paris FEB 5 0300 Good; woman in French, nostalgic vocals, through the top of the hour without a news break. [Conti-NH]
- 882 UNITED KINGDOM BBC R.Wales, Washford FEB 6 0512 English talk about medicine; poor to fair. [Connelly-MA]
- 909 **UNITED KINGDOM** *BBC R.5* synchros FEB 6 0526 English talk by man and woman mentioned car racing; getting by WABI. [Connelly-MA]
- 945 FRANCE Toulouse FEB 6 0527 French talk; in 940 CINW and 950 WROL slop. [Connelly-MA]
- 1062 **DENMARK** Danmarks R., Kalundborg FEB 6 0509 Celine Dion style vocal, woman in Danish; to good peak. [Connelly-MA]
- 1179 SWEDEN *R.Sweden*, Solvesborg FEB 6 0530 Classical music with a religious-sounding chorus; over Spain-Canaries. [Connelly-MA]

- 10
- 1206 FRANCE Bordeaux FEB 6 0459 Parallel 1377, 1557 with French talk by two men. [Connelly-MA]
- 1215 UNITED KINGDOM Virgin R. synchros FEB 6 0504 Folkish kind of rock vocal, maybe Neil Young; to good peak. [Connelly-MA]
- 1314 NORWAY NRK Kvitsøy FEB 5 0405 Excellent, straight off the wires without phasing; folk vocals. [Conti-NH] FEB 6 0442 - News in Norwegian; excellent, S9++, loudest TA. [Connelly-MA]
- 1359 **SPAIN** *RNE1* Arganda del Rey (Madrid) FEB 2 0114-0124 Assumed the one with man talking, also heard with music at 0128 and woman talking at 0130. [Harms-MD]
- 1377 FRANCE Lille FEB 6 0459 Parallel 1206, 1557 with French discussion, a bit of music, then news read by woman; to good peak. [Connelly-MA]
- 1422 GERMANY Deutschland Radio, Heusweiler FEB 6 0458 Soft classical music; fair. [Connelly-MA]
- 1431 **DJIBOUTI** *R.Sawa*, Arta FEB 2 0204 Presumed the one here with a huge carrier and bits and pieces of audio. [Harms-MD]
- 1530 SAO TOME E PRINCIPE VOA Pinheira FEB 11 0258 Sign-on with two cycles of the Yankee Doodle interval signal leading to top of the hour news, at 0306 African news in distinctive accented English with African musical interludes easily paralleled with 6035, 7340 and 9885 kHz; under nulled WCKY and presumed WVBF. [Conti-NH]
- 1548 **KUWAIT** *R.Sawa*, Kuwait City FEB 10 2245 Fair on brief fade-ins with audio, otherwise a strong het against 1550; US and Arabic pop music. + FEB 11 0150 Good; Celine Dion segued into an Arabic pop vocal, at 0215 still strong with an Arabic R&B vocal into presumed news. [Conti-NH]
- 1548 UNITED KINGDOM BBC R.Bristol, Bristol-Mangotsfield FEB 6 0454 BBC talkshow; over other. [Connelly-MA]
- 1557 FRANCE Nice FEB 6 0500 Parallel 1206, 1377 with musical interlude, then French news by woman; fair. [Connelly-MA]
- 1584 CEUTA RadiOlé, Ceuta FEB 6 0453 Spanish music; over SER. [Connelly-MA] FEB 10 2300 - Faded up strong over SER with flamenco guitar and a Mediterranean influenced Spanish vocal, local 1590 WSMN off the air. [Conti-NH]
- 1584 SPAIN SER synchros FEB 6 0453 SER net talk; under Ceuta. [Connelly-MA] FEB 10 2255 - Good to excellent over Ceuta with local 1590 WSMN off the air; talk parallel a fair SER 1575 signal. + FEB 11 0025 - Excellent; telephone talk. [Conti-NH]
- 1593 KUWAIT *R.Farda/R.Free Iraq* FEB 10 2315 Presumed; weak audio but strong het against 1590 WAUB Auburn with WSMN Nashua off the air. [Conti-NH]
- 1611 **VATICAN** *Vatican Radio*, Santa Maria di Galeria FEB 5 0614 Woman in Scandinavian language (assumed). Good signal peaks between 0610 and 0620, parallel to 7335 kHz. Briefly the 1611 outlet was stronger than 7335. I finally got some readable audio, the carrier has frequently been audible the last couple of weeks. [Beu-TX]

Pan-American DX

- 535 **GRENADA** *GBN* St. George's FEB 4 0845 English sports coverage of cricket match between Australia and Pakistan. Good steady signal. [Beu-TX]
- 555 ST. KITTS & NEVIS R. ZIZ, Basseterre FEB 6 0521 Soca male vocal; fair. [Connelly-MA]
- 780 **VENEZUELA** YVOD *Ecos del Torbes*, San Cristóbal FEB 5 0348 Good; sign-off with choral national anthem, leaving YVMN *R.Coro* in clear with WBBM nulled out. [Conti-NH]
- 820 **CUBA** CMCA *R.Ciudad de la Habana*, Santa Catalina FEB 2 0359 Loud with an ID and then into an anthem. [Harms-MD]
- 870 CUBA CMDT R.Reloj, Sancti Spíritus FEB 4 0620 Time pips, one per second, followed by one long pip at the minute mark, followed by "RR" in Morse code. Faint, but audible underneath WWL. Listed as CMDT in Sancti Spíritus per 2005 WRTH. [Turner-MN] FEB 5 0210 -Defective transmission with unstable minute markers and warbling RR code IDs as if overloading the transmitter, through WWL and WHCU. [Conti-NH]
- 1100 CUBA R.Cadena Habana, La Habana FEB 7 0556 Lively Cubano-style music, male announcer at 0557, but announcement had echo effect, so even with tape playback, it was pretty much still a jumble. At 0558, male singer with acoustic guitar (last stanza of song was yodeling... strange). At 0601 I heard my first ID, "Transmite Radio Cadena Habana, la Prensa Oficial... Noticias." At 0602, signal faded under an unID religious station in English, but came back at 0603 with the end of a song and another ID, "Radio Cadena Habana" and a time check as "En todos territorio... los cuatro minutos." Last ID was heard at 0605, "Radio Cadena Habana." [Ponder-TX]

- 1570 **MEXICO** XERF Cd. Acuña FEB 4 1202 Presumed in graveyard-like jumble with choral version of Mexican national anthem. I believe all Mexican stations are legally required to play the anthem at 0500 or 0600 local time. I've heard it played at this time on other stations such as 730 XEX and 940 XEQ. Does the law, if indeed there is such a law on the Mexican books, also apply to borderblasters pumping out English programming for the Estados Unidos? [Brooker-ON]
- 1620 US VIRGIN ISLANDS WDHP Fredriksted, St. Croix FEB 6 0452 Good with Carib-English talk by woman mentioned "on 1620 AM and on 103.5 FM in St. Croix: carnival and Caribbean culture," talk about steel orchestra competition. [Connelly-MA]
- 1640 **DOMINICAN REPUBLIC** *R. Juventus Don Bosco*, Santo Domingo FEB 4 0304 Sounding of trumpets, ID by male announcer as "Radio Juventus Don Bosco... 1640 kHz... una voz para la civilización del amor." This was followed by music. Also heard preaching at other times. The signal was fair to good mixing with WTNI and with WKSH nulled. Thanks to Alf Aardal in Norway who first heard this one and informed the gang in #mwdx. [Harms-MD]

#### International News

GUYANA: The mediumwave transmissions of Guyana's National Communications Network (NCN) are due to restart shortly following repairs to damage caused by recent floods. Vital equipment has been sent from the USA, and as soon as it's installed the transmissions on 560 kHz can resume. Broadcasts on FM 98.1 MHz have continued normally. In addition to damage to the mediumwave transmitter, Broadcasting House was covered by some three feet of water which forced engineers to shut down operations and relocate the studios and control rooms along with all the electrical points above flood level, and there was a similar situation at the TV station which was under two and a half feet of water. [Media Network blog relayed by Steve Whitt, MWC, via Jim Renfrew]

73 and Good DX!

#### Promote the NRC and DX News and help us grow!

Planning to attend a DX or hobby gathering? Why not include *DX News* in your plans? Upon request, we'll send you a packet of up to 50 recent DXN's to be given free to attendees. Just send a postcard to NRC • P. O. Box 5711 • Topeka, KS 66605, or e-mail < plsBCBDXER@aol.com > . Packets are sent by Media Mail rate, so please allow 10-15 days for delivery. Help keep the NRC on the grow!

The NRC Nighttime Antenna Pattern Book, 5th Edition Is the perfect mate to the NRC AM Log, as the NPB provides DX'ers with up-to-date maps of <u>all</u> (except Class IV) stations with nighttime operations. Convenient to use: 3-hole punched for standard binders. Still only \$16.95 to U. S. and Canadian members; \$22.95 to U. S. and Canadian non-NRC members. Airmail to members in Europe (except Italy): \$29.00. All others, please contact us for exact pricing. Order from: NRC Publications - Box 164 - Mannsville, NY 13661 (NY residents, please add sales tax)

#### WSMN-1590 leaves air in Nashua, NH

#### By Scott Brooks, Union Leader Correspondent; via Jeff Kitze

NASHUA - Nashua's longest-surviving AM 2003, Houde said. radio station went silent this week.

WSMN 1590-AM, which had been broadcasting from Nashua for nearly 47 years, was finally evicted from its West Hollis Street offices this week. The station shut down with virtually no fanfare at 6 p.m. Monday, as producer Bill Piacitelli announced on air that ŴSMN was signing off.

Its departure leaves the Gate City without a destination for local news on the AM radio dial.

"Really, it's tragic for the people of this city that have now lost this medium as the means of communicating some very important issues," said Georgi Hippauf, host of the station's signature morning call-in show, Talkline.

The station's owners are currently entertaining several offers to buy WSMN, according to Paul Houde, a partner in WSMN Broadcasting LLC, which owns the station.

"We would hope that it would be a local group that could continue to broadcast," he said.

WSMN Broadcasting sold the land beneath the station last year to Bonnette Picard LLC, which plans to construct about 40 housing units on the 12-acre site within the next two years.

According to Houde, the property had become tion against the station's owners. far more valuable than the station.

But instead of relocating WSMN's three towers, Houde said he and his partners decided to sell the station, too.

"It was time, simply," Houde said. "You have members who are getting along in years; it was time. And with the sale of the property, it was logical."

Stephen Bonnette, a partner in Bonnette Picard LLC, said WSMN was supposed to vacate the property by the time they closed on last year's land deal.

By then, however, the station was already in court with its programming operator, Red Rock Publishing, which was refusing to vacate the building. Red Rock's contract expired in November cated to Hooksett last year.

WSMN Broadcasting gave Red Rock owner Tom O'Brien the option of buying the station or leaving the property. O'Brien refused to do either, claiming the station owners failed to maintain the station's infrastructure.

It's a shame, O'Brien said, because he had planned to buy the station and relocate it within Nashua when he began operating WSMN in 2000.

"The station's dead because they bled the thing to death over the last so-many years," said O'Brien, whose company is based in Largo, Fla.

Houde denied O'Brien's accusations, saying, "Mr. O'Brien is entitled to his comments. Obviously we don't agree with those comments."

WSMN Broadcasting and Bonnette Picard LLC sued O'Brien in Nashua District Court to force him to leave the property. The court sided with the station, and O'Brien later lost an appeal to the state SupremeCourt.

Had O'Brien left when asked, the station would have had new ownership by now, Houde said. All offers to buy the station have come in after the state Supreme Court ruling late last year, he said.

O'Brien said he plans to seek further arbitra-

Ed Brouder, a board member with the New Nampshire Association of Broadcasters, said he doubted that WSMN would return to the airwaves. Prospective buyers may shy away from AM radio, whose audience has largely turned to FM stations, he said.

At the same time, he said, it would be difficult to find space in Nashua on which to install the radio towers an AM station requires.

"I hate to see any local voice extinguished, because it's always harder to come back," he said.

Nashua's only remaining AM station is WSNH, which recently converted to an all-sports format when it became an ESPN affiliate. WHOB-FM, which had been broadcasting from Nashua, relo-

DX'ing 'smart', with shared tips and requests by NRC members

Welcome to another edition of Target DX. This time, the focus is auroral conditions which have been a topic of discussion on the listserv this season. Remember to send your questions or your suggestions for future topic-oriented columns to me either via the NRCDXAS listserv, by off-line email or by regular mail!

#### Q- What are auroral conditions, and why should they concern me as a BCB DX'er?

A- Many of us tend to toss around this term lightly, not realizing that for many DX'ers newer to the hobby, the terms aren't self-explanatory. Many of us can recall learning about the Northern Lights ( or *Aurora Borealis* ) in grammar school science classes. These displays are caused by energy from the sun coming into contact with the earth's geomagnetic field and combining to form a number of reactions. The same condition also causes highly variable and often very localized effects on radio signals in many bands.

On the BCB, the effect is that during periods of auroral conditions, which often coincide with displays of visible aurora, certain signals on certain paths may seem to disappear. This is because instead of the signals being reflected normally by one of the skywave reflective layers, they are absorbed by other layers induced by the aurora. In the Americas, these effects are the most pronounced in the Northeastern and North Central parts of the continent, although in particularly severe conditions, the effects can be noted throughout most of the US and all of Canada ( the US Southwest is generally the least affected ).

'Normal' nighttime skywave reception is dependent on ionospheric reflection and distance between transmitter and receiver. This distance determines which paths are viable, and also what elevation angles ( if we assume a flat earth — it's much simpler that way, hi — the earth can be thought of as the base of an equilateral triangle, and the signal path from the transmitter to the reflecting point in the ionosphere would be one side, and from the same point down to the receiver would be the other side. The angle created where either side meets the base is the elevation angle ) apply to each. Fortunately, there are a finite number of reflecting layers applicable. In an aurora, a layer of absorption may appear between the reflecting point and either the transmitter, the receiver, or both. This absorption may occur on multiple potential signal paths involving multiple reflective layers, because each path may have to pass through it.

When the auroral absorbs some signals, others, which might normally be either weak or inaudible come to the top. The usual situation has signals coming from stations generally to the North being absorbed first, then, if the aurora is more severe, stations from the East or West may be affected. In the most severe conditions, some stations from the South may even be affected. But remember that only those signals which are propagated by skywave are subject to absorption. Locals or semi-locals may in fact appear stronger than usual as their groundwave signals will dominate.

Thus, many DX'ers refer to auroral conditions as meaning that Latin American and/or Southern US stations might be expected to predominate. By varying degrees, this is true. A key predictor of auroral conditions is the A-index, which measures activity in the earth's geomagnetic field.

Q- During a recent period where auroral conditions were forecast, I only noted enhanced reception at the lower end of the diaI, mostly from Cuba. Northern and Midwestern stations (WBBM, WGN, WLS, WJR, CBA, CKBW, CKAC, CHNS, etc.) were still coming in with good signals. In addition, none of the usual sources have been reporting anything out of the ordinary?

A- First off, it is not all that unusual for the lower end of the band to exhibit auroral conditions. while the upper end does not. This is because auroral absorption ( as well as nighttime ionospheric [ skywave ] propagation ) is frequency-sensitive. Absorption of frequencies in the BCB occur from low to high as the MUF ( Maximum Usable Frequency ) rises thru the band as a result of geomagnetic activity. Second, however, what you were experiencing wasn't really classic auroral conditions. As you observed, neither needs to be a day where the A index exceeds 50, or as many as three consecutive days where it exceeds 20, and even these numbers are not firm. What was most likely responsible is a geomagnetic substorm, which selectively and briefly ( owing to small size and duration ) disrupt normal conditions.

Finally, it should be noted that it is also not uncommon for these types of events (and also classic aurora) to be 'uneven'. It may be helpful to think of an area of auroral absorption as if it were a patch of fog, irregular in shape, size, and location, and all of these are in a state of constant movement. In addition, the frequency-sensitivity noted earlier will also apply. Add the fact that for any given transmitter and receiver location set, there may be multiple nighttime skip paths which are possible, and the absorption, owing to all of the above variables, may not always affect them all.

Depending upon the location of the absorptive material relative to these signal paths, none, some, all-but-one or all of the possible paths may be blocked by areas of absorption. But move either the transmitter location or receiver location as little as 50 miles and everything can change. This is one cause for situations where stations from some cities may be absorbed while other cities in the same region may not be, or only partially be absorbed. The same is true with the passage of time, because as the area of absorption moves relative to a specific stationary receiving site, different geographic groups of stations may be subjected to absorption or not. This is particularly the case with smaller storms and with substorms.

Another cause for such a phenomenon, which is also frequency-sensitive, and appears sometimes in conjunction with larger storms is sporadic e-skip, where particles form, disintegrate and re-form to create highly temporary and selective reflection of signals which would otherwise be absorbed. The name of this phenomenon is derived from the fact that these particles form at about the same altitude as the 'normal' nighttime e reflecting layer.

#### Q- Can auroral conditions be observed during the daylight hours?

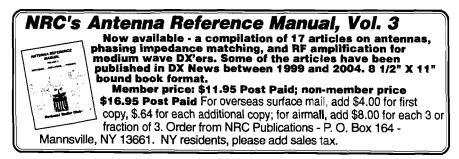

A. Since auroral absorption affects only signals which would otherwise propagate via skywave, and since the majority of daytime receptions occur via groundwave, auroral absorption observable by day would be extremely rare. In theory, since in midwinter some skywave is possible during the day at BCB frequencies, if the aurora is severe enough and the receiver and transmitter locations are far enough North, it should be possible.

### Q-Why is it that sometimes during auroral conditions some stations to the North, usually in one specific area, will be quite strong while the rest of them are either weaker or inaudible?

A- There are two possible answers to this. First, during larger auroral disturbances, various particles in the ionosphere group together at roughly the same altitude as the normal E-layer, and form 'clouds' of Sporadic-E. These areas act as a temporary, and often mobile, reflecting layer, and may even disappear only to reappear later, which accounts for the name. The phenomenon is not fully understood, but it is frequently observable. Another possibility, which again is usually only noted during severe auroral events, is a seemingly-enhanced groundwave. This is a result of the elimination of the usual signals from the Northerly directions because of the auroral absorption. By removing these normally dominant signals, sometimes groundwave signals from stations which are usually covered may become audible.

Q- Why, when conditions are extremely auroral, do I pick up not only stations to the South, but also lots of CW (code) and other noise that sounds like a dozen TV sets are running in the next room ?

A- Similarly to the second part of the previous answer, often these noises are covered by the skywave signals which have been absorbed by the auroral activity. In some cases, rather than ( or in addition to ) groundwave from stations not normally hears, the result is noises which are not heard under normal conditions. Under such conditions, it is also not at all uncommon to hear numerous external mixing products or even harmonics of local stations which again would not normally be audible if it weren't for the absorption.

## Musings

of the Members

#### Dave Schmidt NRCMusings@aol.com P. O. Box 3111 Scranton, PA 18505-0111 Times are local per Muse; submit double-spaced <u>only.</u>

Thoughts from NRC members ... the opinions expressed in this column are those of the individual writer and do not necessarily reflect those of the editors, publishers, or the National Radio Club, Inc.

Here is the NRC column which, when we mention Pirates, why do I always cheer on the Phillies? When sending your items along, please keep them radio and DX related, something of general interest to our members. Almost no column this week but a couple came through via Email to make it possible. A tip of the toupee to them! Here we go:

#### Paul McDonough, Natick, MA

I read with interest Bruce Conti's list of low powered unlicensed stations in the Boston area on p. 5 of the Jan. 31st *DX News*. I was born and raised in Boston so I've been tracking these stations for years. I just got confirmation that one of the stations has left the air. Allston-Brighton Free Radio went off the air around Jan. 1st. ABFR was a community AM station on 1630 kHz. It was originally on 1670 kHz, but I noted its frequency change last July. I hadn't heard it around the December holidays and became concerned. I found a connection to ABFR who said that the station had financial problems, and the equipment was sold and the rented space gone. The station had started in 2000. The station had diverse programming (in EE mostly) with music, gospel, and political segments. It was not one of the usual Haitian Creole stations so prevalent here in the Boston area. I used my car radio (Subaru), a Drake R8 and Quantum Loop from Natick, and a Sony 2010 with Quantum Loop from Dorchester to track these stations. (And thanks for the report, Paul; items like this are always of interest. It looks like they're really going to crack down on these guys!-DWS)

#### Doug Beard, KF0VF - 604 7th St. - Springville, IA 52336-9612

Two muses in one season? What have I become? The new baby in the house is a 40-year-old Heathkit GR-81 3-tube 4-band regenerative receiver. Everybody with steady fingers should have one; regens are truly amazing. After tests and about ten repairs, I blew an entire Saturday evening seeing what it would do. My only complaint about this rig is low sensitivity on the low end of the broadcast band, something that is a result of Heathkit's decision to use a low-impedance primary in the antenna coil. The highlight on the broadcast band had to be logging CKPR-580 and CFCO-630. My location is five miles east of WMT-600. This thing is selective. I admit to some assistance; WMT is still operating under their STA for about 2000 watts daytime and 500 watts nights into their short tower (65.9 degrees) as the taller pair are being replaced. Per my call last week to WMT, they expect to have the new towers up and running by early spring, depending upon how accurate the groundhog was. This is strictly a replacement operation; no change in their pattern. The towers were 60 years old, and one was getting dicey. The ground fields are being replaced, too, and the fellow I spoke with believes the field strength improvement will be noticeable to their more distant listeners. About half of one of the new towers is up now. Concerning CKPR, this was the fifth time I've heard that station this season. This exceeds my loggings of them in the preceding 31 years from here. Several other DXers have reported them recently. What did they do, buy CKY's transmitter? Local KMRY-1450 is promoting itself as "HD-1450." Funny; the two times I've heard it - during the day - the IBOC was shut off. Here's a public 'thank you' to GLENN COOPER and FRANK MERRILL for their responses to my earlier muse. They are gentlemen.

#### Dave Schmidt - P O Box 3111 = Scranton, PA 18505

Pirate activity has always been sort of a 'dark' issue here; not much has been reported in the last few years, but we would like to have it when available. In my travels, I've run into many people that had their own little station on the air and who are well-known in the broadcast field and engineering (including a few who were caught!). The pirates are going to continue to come and go:

if they offer something that isn't available through any other means then they stand a chance of being around for a while. Back in the '70's, I knew of about 6 stations that were on the air via cable systems and doing well. These days, internet radio offers a little diversity, but that will probably be squashed out with XM radio (which I admit I little diversity, but then I'm our office as use baye a receiver). And a lot of which I admit I

listen to a lot when I'm in our office, as we have a receiver). And a lot of pirate activity is on FM nowadays, as I have heard one for years operating on 87.9 in Monticello, NY near the Raceway, playing mostly Spanish modern religious music. Keep those reports coming; always appreciated! 73

Expiring? Time to renew? Not sure when? Need to call or e-mail someone or join the listserv? Check the back page - it's all right there!
