From the publisher ... Brian Smith, 52, who served as CFZM-740 QSL manager and was very active in ODXA, died in mid-March after suffering a brain aneurysm. He was a paramedic with Toronto Emergency Medical Services. "...We've lost a great friend to the DX community. I never met Brian, but knew him well from his work with AM 740 and ODXA to provide nifty treats (special QSLs, etc.) to DXers over the years, and he'll certainly be missed," Scott Fybush commented on the NRC listserv.

Repair services offered ... From Rick Krzemien <helena4us@yahoo.com>: "I am a member of the NRC (2nd year) and ... I have an audio and twoway radio repair service in Helena, MT. I have a lot of experience with general coverage receivers and offer not only repair/refurbishing but also custom audio mods similar to Kiwa but going even more in depth, Murata IF filter installations and more. I have a fully equipped test and service bench and would like members to know service is available. http://www.bigskyaudiomt.com"

Unfilled positions ... We're still in need of volunteers for the following positions: a DXN publisher ASAP and one or more persons to edit future NRC publications developed by contributors or the club.

DX Time Machine From the pages of DX News

50 years ago ... from the March 21, 1959 issue of DX News: Harold Wagner, Lake City, PA, announced his resignation as the NRC's Executive Secretary, but he said that he would continue to publish DX News through August, 1959. Future ownership of the NRC would be transferred to a party or parties so designated, on the approval of Ray Edge, former owner. From the "lost listings" of November 15, 1958: Hal Williams, Seymour, CT reported that CFQC-600 sent a nice QSL card in the form of an old Canadian postcard with 1¢ postage and was delivered with no postage due. A verie letter in English from CFCL-580 returned his Canadian nickel.

25 years ago ... from the April 2, 1984 DXN: Bruce Winkelman described his new receiver, a mint condition R-390A from Dick Truax, saying that he was still learning what it could do ... and Bruce Conti, West Warwick, RI was the proud new owner of an ICOM R70 receiver.

10 years ago ... from the April 5, 1999 DXN: Blaine Thompson, Ft. Wayne, IN volunteered to take over the Courtesy Programs Committee chairmanship.

Station News

1580 WTTN **WI** Columbus. 3/10 1659. Good with oldies, legal ID: "You're listening to 1580 the Goose, WTTN Columbus-Watertown, "into CNN news. In the last DDXD-W I reported that despite an item in AM Switch that said this station had moved to Columbus WI, the station was still giving its legal ID as Watertown. This has since been rectified, as noted in this logging. (BD-WI)

It's a tribute to the Eton E-100's selectivity that there was very little slop from 590. **(GS-ON)** CT Bridgeport - 2/28 0000 - two IDs heard. News. Mixing with WCAO Baltimore 600 **WICC** in CJCL-590 slop. (GS-ON) QC New Carlisle – 3/8 0001 - Talk in FF heard under semi-local CKTB. Strong **CHNC** 610 enough to interfere with CKTB, which is usually solid and steady here. (GS-ON) **WIEZ** PA Lewistown - 2/230705 - ABC Sports with Michael Barnes, ID, followed by 670 "Rock and Roll Lullaby". (TF-NH) **WPTF** NC Raleigh – 3/17 1754 - Sean Hannity show and Hannity WPTF spot. Good 680 peaks in LSB (Due to WNZK-690 slop) in/out with CFTR. (HF-MI) **CFTR ON Toronto** – 3/17 1751 – "6-80 News; traffic and weather on the 1's" into local traffic and weather for Toronto. Good peaks in LSB (due to WNZK-690), in/out with WPTF. (**HF-MI**) MA Leicester – 3/9 0803 – fighting nulled WJR (and losing) with gospel talk, ID 760 WVNE as "you're listening to life changing radio...760 AM WVNE". (MKB-ON) +++ -3/8 1825 – Ad mentioning the Berkshires, "We're life-changing radio, AM 760 WVNE," clear but readable through WJR, unID with C&W also there. (DY-WV) 800 CJAD QC Montreal - 2/11 2000 - In with "CJAD News" on the hour. In & out with CKLW. (LW-NY) NY Penn Yan - 2/13 1800 - "WYLF 850" station ID, ABC News on the hour with **WYLF** 850 Richard Canton. Then into oldies music. 			program, "Sports from a Biblical point of view". Ordinarily this sounds like great log fodder, but just wasn't in the mood. Mixing with WCBS & need LSB to avoid strong high side IBOC abomination. (HF-MARE)
900	WUAM		Watervliet - 3/81821 - Cluster of political and public service announcements, ski conditions in NY and Vermont, local news, traffic, and weather at 1830 by female announcer, references to "Capital News 9" and CNN, faded by 1840, after very detailed weather forecast, hope they verify. (TF-NH)
	CHML		Hamilton – 3/18 1808 - Jim Rome Show; CHML Morning News promo. Copyable despite horrendous IBOC from both sides till 1813 when suddenly much betterpattern change? Upside IBOC then much weaker than low side. (HF-MI)
940	WKYK	NC	Burnsville – 3/6 2307 – C&W music, "Real Country" and "940 WKYK" ads, good over others. (DY-WV)
960	KMA	IA	Shenandoah – 3/15 0000 - Probably part of the mix before 0000, but heard
	WCDT	INI	KMA spot then & must have run a local program after as heard Iowa mentioned a few times. Mainly under the mix of WSBT, WFIR & WHYL test. (HF-MI)
	WSBT	IIN	South Bend – 3/14 2348 – "News-Talk 9-60 South Bend, your exclusive home for Fox News and Notre Dame football"; WSBTradio.com spot, Michiana spot & Safe Gas Indiana PSA. Mainly on top but mixing with WFIR before 0000, then add KMA & WHYL DX test to the mix. (HF-MI)
	WFIR	VA	Roanoke – 3/14 2349 – "News-Talk 9-60" spot; presume them with ABC
		+++	News at ToH. Mainly under, but occasionally equal to WSBT. (HF-MI) - 3/15 0032 – in mix with Radio Reloj, another SS station and WHYL DX test

Foreign DX Catches. All times are UTC

AM broadcast DXing remains a very accessible pursuit as evidenced by the equipment list at the end of the logs. Anything and everything from a barefoot analog portable to software defined radio technology, from random wires to terminated loop antennas, can produce interesting DX. Amaze your friends as Bogdan Chiochiu did by demonstrating the long distance signals possible simply by rotating a portable radio for a peak or null. Then recruit them into the club to further investigate the many fascinating aspects of our hobby.

Transatlantic DX

- **FRANCE** *France-Inter*, Allouis (47°10′N 02°12′E) MAR 7 0038 French drama program; fair. [Frodge-MI] MAR 9 0114 Woman in French; very poor and noisy. [Chiochiu-QC]
- MOROCCO *R.Mediterranee Internationale*, Nador (35°03′N 2°55′W) MAR 7 0030-0037 Woman in Arabic with French and Arabic pop music. By far the best LWBC at the time. Parallel a poor 9575 kHz signal, covered. [Frodge-MI] MAR 9 0115 Woman host taking listener request in both Arabic and French for Arabic and Western pops. The song I heard quickly after I tuned in was done by "Tiffany" followed by "Celine Dion" and "Habid Mussad" according to the female announcer. Very good at tune-in, though after a few minutes faded down to poor-very poor, perhaps because the A-index jumped from level 1 to 7. Initially very clean and hi-fi sounding in AM wide mode, the only longwave broadcaster with average or even above-average reception quality the past evening in the Montreal area! [Chiochiu-QC]
- LUXEMBOURG *R.Luxembourg*, Junglinster (49°40′N 6°19′E) MAR 9 0115 Roughly the same time before I suddenly jumped at Morocco's frequency heard this with pop music barely getting through beacon and a popping computer-like buzz. [Chiochiu-QC]
- ALGERIA *R.Algérienne*, Tipaza (36°35′N 2°27′E) MAR 9 0245 Arabic talk fading very slightly but annoyingly from fair to poor and poor to fair, but unreadable level due to interference from local UL beacon on 248 kHz and bad propagation overall. In fact, the problem wasn't as much the slight, albeit quite annoying interference, as the propagation which was quite mushy and noisy. [Chiochiu-QC]
- **SAUDI ARABIA** *BSKSA* Duba MAR 17 0255 Fair with group prayers parallel 1521 kHz. [Barstow-MA]
- 612 **MOROCCO** *RTM A*, Sebaa-Aioun (33°54′N 5°23′W) MAR 19 0549 Islamic prayer. Peaking to fair signal level. [Beu-TX]

Pan-American DX

- 530 unID MAR 11 0635 A man talking in Spanish, mentions of Mexico. Fair signal, antenna aimed south. [Houdek-KS]
- **CUBA** *R.Enciclopedia*, La Habana MAR 11 0640 Instrumental music, then a lady talking in Spanish. Fairly good signal, antenna aimed southeast. [Houdek-KS]
- **ST. KITTS & NEVIS** ZIZ Basseterre (17°19′N 62°44′W) MAR 9 0153 Sunday evening jazz program. Long fair peaks with slow fades that were quite deep. The fades are slower and the signals (both domestics and foreign) have less of a punch on longwave and the bottom

of the mediumwave band. Seems like sensitivity is more important than selectivity on those frequencies as the adjacent channel splash was very sweet (and always is)! [Chiochiu-QC]

- 600 **CUBA** CMKV *R.Rebelde*, Urbano Noris (20°35′N 76°08′W) MAR 9 0157 A player was passing out the ball (la pelota) to another player of the same baseball team. Surprisingly good and atop with some WICC interference but not that annoying overall as *R.Rebelde* was much stronger. DX Tool Box

Shared tips and information from NRC members, both new and old

Welcome to the DX Tool Box Column number 2.

Greetings once again from the Heart of the Continent.

As promised on the NRC site here is the article explaining how to modify or customize the forms to suit you and your DX'ing habits and needs. You can see the forms on the NRC site under Latest news on the right hand side.

These forms were designed by me to help fellow DX'ers. For those of you who don't have a good printer or lack easy computer access I would be glad to modify the forms or leave them the same and send you a printed copy. You could then photocopy the master form for your own use. The address is:

Shawn Axelrod 30 Becontree Bay Winnipeg MB R2N 2X9

Canada

Once you are on the Forms download page you will see the forms are first offered in a pdf format. These are not modifiable unless you have special software. Below the pdf's are the forms in MS Office format that most of us have on our computers. These MS Office formatted forms can be easily modified as I describe below.

The first form is the **Target DX Form**. The second form is the **Log Book Form** You can down load and save the sheet to your computer by right clicking on the link and Save Target as... Once you have it downloaded you can modify the form to meet your needs by renaming columns or adjusting the width of the columns. Once you have completed this you can use it on the computer or print off copies to have at your radio listening location.

If you wish to further modify the two forms above you can add a header or footer to the form. With the form open in Excel go to View then click on Header/Footer.

You can then click on Customize Header and set up a header to show up on the top of the sheet. In this area in Center Section I have put in my name plus the word Location. I can then write beside the word location where I am DX'ing from if I am not at home. This lets me know where I was when I logged the stations on that sheet.

Then you can go to Customize Footer and in the Center Section I have listed my equipment that I DX with. You can mark in Receiver, Antenna and put in your equipment or leave it black and mark in what you were using if you have multiple pieces of equipment.

After that click OK in the custom sections and OK on Page set up and the Header and Footer will be saved to the sheet.

If you intend to print out any of the above 2 forms before you print go to:

View then Page Break Preview. This will show you just how they will look. If there is more than one page click on the dotted line and drag it to the edge or bottom of the form. This will then make it read Page 1. Now it will all fit on the single sheet of paper you print. Also check under:

File then Page Setup. Make sure it is on Landscape and not Portrait. This will give you a better print capacity.

The QSL Submission Form is in MS Word. You can down load and save the sheet to your computer by right clicking on the link and Save Target as... Once you have it downloaded you can modify the form to meet your needs by changing the wording spacing etc as you would in any Word document. If you change the form just make sure it stays as a single page. It is very easy to add a line or space and end up with a 2 page document.

Once you have modified any of the forms you can save them and they are all yours.

You can now use the form on the computer or print off copies to have at your radio listening location.

If you wish to change these forms into pdf's you can do so by going to a site called PDF Online. Their web site is:

http://66.89.113.16/doc2pdf/Default.aspx

All you have to do is follow the three easy steps on the page and then click on the button marked Convert to PDF. They will email you the converted PDF in less than 15 minutes. Actually I have never waited longer than five minutes. The pdf's you see on the NRC website of my forms were converted

at PDF Online so you can judge the quality for yourself.

I hope this helps and if you have some problems I will try to help out via e-mail if you wish. My email is: saxelrod@mts.net

Bits and Bites from the NRC listserv:

1- From: "Paul B. Walker, Jr." Subject: [NRC-AM] CBC Radio 1

Had the boom box on again, spinning the radio dial in the 2:30am central time span, LOTS of talk about Sweden during what I'd call "feature reports", usually done by a different "reporter", and the reports were never "tagged out" (a reporter using their name at the end I heard an ID at 239am central, "You're listening to ABC Radio National" The top of the hour comes and I'm slightly disappointed with a "CBC Radio 1 Overnight" mention. I'm gathering this is 50,000 Watt Non directional CBK 540 Saskatchewan, Canada. Hey, not bad for a \$10 Wal-Mart boom box! Lol Paul Walker Ord, Nebraska (55 to 60 air miles Northwest of Grand Island, Nebraska)

This message was selected for two reasons. Firstly it shows you that an inexpensive radio can still pick up some good DX on a good night. Secondly it teaches us to listen for a "real ID" as you never know what you may be listening to on that frequency. It went from Australia to Canada quickly.

2- From: Gary DeBock

Subject: Tecsun PL-600 LW-MW-SW Portable

Hello All,

One of the newest SSB models from China, the Tecsun PL-600 is obviously designed to compete with the Sony ICF-SW7600GR, with very similar size, shape and features. As a much newer model, however, it has superior digital features and a much lower price-- \$65.95 plus \$24 shipping, from the eBay seller "tquchina."

Although this model is seriously oversized for Ultralight radio qualification, it does have one stellar quality that would thrill any pocket radio transoceanic DX'er-- the ability to act as a compact SSB spotting receiver, with a sensitive and selective AM section. Its 4" x .4" loopstick is identical to that of the new PL-450, and provides highly directional nulling capability to identify transoceanic SSB carriers. In addition, its SSB fine tuning range covers about 5 kHz of total spectrum, giving it greater flexibility than the more narrow SSB tuning range of the ICF-SW7600GR (which is switched between LSB and USB). The BFO circuitry is also stable enough for routine copy of amateur radio SSB and CW signals.

As in the ICF-SW7600GR and ICF-2010 models, the PL-600 has a broad-banded, fixed loopstick which doubles as the LW antenna. These loopsticks have two fixed coils with no alignment system, making them a completely different type of antenna than the single-coil E100 and C.Crane SWP loopsticks, both of which can be replaced by a sliding-coil transplant providing greatly increased sensitivity. In the case of the PL-600 (and also the ICF-SW7600GR and ICF-2010), greatly increased sensitivity can be obtained by matching the stock coil inductances in a longer composite ferrite bar loopstick transplant, however.

As a stock model, the SSB-equipped PL-600 should be a great choice for Ultralight radio DX'ers needing a "spotting receiver" for transoceanic DX possibilities. Strong TA or TP carriers on a PL-600 should indicate a great chance for stock Ultralights like the E100, C.Crane SWP or DT-400W to receive their first transoceanic DX signals. As one of the lowest priced, relatively competent SSB portables on the market currently, the new Tecsun PL-600 can really help the beginning TA or TP DX'er discover the thrills of transoceanic DX at a very reasonable cost.

Here is proof that good things come in small packages and they don't have to cost a fortune to work well. In these trying economic times inexpensive can be a good thing.

This month's DX Tool Box web site is:

The FCC AM Radio Database at

http://www.fcc.gov/mb/audio/amq.html

Here you will find a search engine to look up the AM radio stations on air from 530 to 1700 kHz except for the TIS/HAR stations. You can look stations up by frequency, state, city, callsign etc. It can be a great tool for looking up UnID stations. There are stations from Canada, the USA, Mexico and other locations in the Americas in the database. There is a lot of information that a DX'er can use when DX'ing the AM radio band on this site.

73 for this time Shawn Remember On A Clear Day You Can Hear Forever

Need more information about AM DX'ing? Mail a First-Class stamp to NRC Publications - P.O. Box 473251, Aurora CO - 800473251 and ask for the NRC Publications Catalog.

Networks

Network listings for team sports stations

Here is Major League Baseball (MLB) flagship information for the 2009 season from my Internet searches. I have not located network lists for the Houston Astros (the 2007! list is still online) and the San Diego Padres (is there a network?).

Most of the information comes from the individual team sites on mlb.com. On each team web page, click on "Schedule". then "Regular Season", then "Broadcast Information". And remember that each of these network lists is subject to change, even if the web page does not explicitly say so.

As for announcer names, some of the MLB sites have not changed the text since last year, so I cannot tell if the names are current. And sometimes the site does not distinguish between radio announcers and TV announcers.

Team Effort ...

That's what makes the NRC so great! And all information, contributions, and editing for DX News, DX Audio Service e-DXN, and all publications is done by unpaid volunteers as part of a team. Perhaps you have a little time to give to your club ... if so, please write to John D. Bowker - P. O. Box 5192 - Sun City Center FL 33571-5192, and let him know what talents and time you can offer to the club. Updates to the NRC AM Log are always needed. Why not write to John today?!

Walt Breville – Wentzville MO

The time for me to renew to *DX News* somehow snuck upon me with my "last issue"...; enclosed is my \$33.00 check. I'm glad to see it's an even number instead of something like "\$32.95" the way the retailing world does, like a bunch of stupid lemmings drowning themselves in the sea. Aurora brings back memories, as I was in the Air Force stationed at Lowry Air Force Base. I read it's not there anymore, closed in 1994. I was there in 1962. No smog whatsoever in Denver then; I was shocked to go thru there on a trip just 15 years later, to see smog. Also shocked to read that many of your local stations use IBOC. Only two use it in the St. Louis market - KMOX, and day timer KFUO-850. DXing is more challenging for me in recent times though because of some hearing loss understanding IDs & names with noise or QRM background. Did get a couple good catches in December - CKRM-620 Regina, and the Omaha 1490 from 350 air miles Gee, I hope a new publisher is found so *DX News* continues in the printed form! Best 73s (Walt thanks for dropping us a line and we too hope a new publisher comes forward – Wayne Heinen) (Me, too! -pls.)

Not sure about renewing?

Consider these benefits of a membership in the National Radio Club: 720+ pages per year of varied and comprehensive DX and radio information in DX News ... reduced prices for publications ... responsive editors ... and the friendliest bunch of DX'ers in the world! Why not send that renewal check to P. O. Box 473251 - Aurora, CO 80047-3241 today!
