Rising seventy stories above Radio City, in New York, is the RCA Building . . . the nerve center of the far-flung NBC networks . . . the hub of all the diversified activities in which RCA is engaged . . . the home of the Pioneer of Radio . . . Radio Headquarters.

Radio City and the RCA Building are Symbols of RCA Achievements.
Through RCA Communications, Inc., RCA operates 56 international circuits and is in daily contact with 47 countries around the globe via short wave, using apparatus designed and built by RCA Victor.

Through the National Broadcasting Company, RCA pioneered network broadcasting and over 50 per cent of the total broadcasting power in the United States has been supplied through RCA Victor.

RCA Victor Factories

RCA manufacturing facilities are world-wide, with plants at Camden and Harrison, New Jersey, and in Japan, China, Brazil, Chile, Canada and the Argentine.

Through the Radiomarine Corporation of America, RCA maintains a radio telegraph service and furnishes transmitting and receiving apparatus and direction finders for ships at sea and facsimile equipment designed and built by RCA Victor.

The Radio Corporation of America... an organization which traces its beginnings to the pioneering days of Marconi... is the only radio manufacturer which has maintained a position of leadership since the very inception of radio.

Today, RCA, with its associated companies, is the largest radio organization in the world, with a volume of business about three times larger than that of any other radio company.

RCA is the only builder of complete radio systems, the pioneer of every major radio development, the most favorably equipped organization to follow future trends with speed and authority.

YOUR SUCCESS AS A RADIO DEALER DEPENDS LARGELY ON THE MANUFACTURER WHOSE PRODUCTS YOU SELL. YOU WILL GO ON TO GREATER SUCCESS WITH RCA.
The Auditorium Studio at Radio City is the world's biggest broadcasting studio. It was designed and constructed by RCA engineers.

Radio City Music Hall, equipped with RCA Photophone High Fidelity sound reproduction equipment ... the highest development in the art of sound reproduction.

Mystery control desk in the world's largest broadcasting plant, ten feet designed and built by RCA engineers.

An NBC studio control room. Twelve hundred miles of wire was used in connecting up the technical equipment.

On 50,000 programs a year, millions of radio prospects hear this sales-making phrase ... "this is the National Broadcasting Company, RCA Building, Radio City." Every broadcast means added sales power for the RCA Victor dealer in each community.
Many of the airplanes heard on all-wave radio are RCA equipped.

RCA High Fidelity Photophone equipment has brought new developments in talking motion pictures.

A high-fidelity photophone equipment has brought new developments in talking motion pictures.

RCA Communications, Inc., also transmits and receives international programs for American broadcasting networks.

RCA pioneered the first power-operated dynamic-type loudspeaker and today builds hundreds of thousands of speakers in its own plants.

RCA Victor pioneered 15 millimeter sound-on-film amateur movie equipment.

RCATransmitter pioneered 15 millimeter sound-on-film amateur movie equipment.

RCA Victor pioneered 15 millimeter sound-on-film amateur movie equipment.

Many of the country's best theaters use RCA Photophone equipment to project their talking motion pictures.

Many of the police radios that are the modern community's efficient protection against crime, bear an RCA label.

When television ultimately comes, RCA will be the leader in the new art as it has been in every major development of radio.

THE LEADER IN EVERY PHASE OF RADIO AND SOUND REPRODUCTION
RCA MANUFACTURING COMPANY, INC.

THE ONLY ORGANIZATION MAKING EVERYTHING FROM THE MICROPHONE IN THE STUDIO TO THE RECEIVING SET IN THE HOME . .
HAS PIONEERED EVERY MAJOR ADVANCEMENT IN RADIO AND SOUND REPRODUCTION

The Next Big Step will come from RCA
IN EVERY COMMUNITY....
IN YOUR OWN COMMUNITY... RCA VICTOR stands out as the "RADIO STAR" in the minds of radio buyers....

Today, more than ever before, the public looks to RCA for Radio's Greatest Value. People know that if they want the best, they must come to RCA...the creator of the radio of yesterday, of today and of tomorrow....

The nation-wide popularity of Victor...its contributions to home entertainment over thirty-five years of development...its leadership in the building of fine cabinets...are sales advantages that no radio dealer can afford to ignore....

IF YOU WANT TO TAKE FULLEST ADVANTAGE OF RADIO'S OPPORTUNITIES...IF YOU WANT TO MAKE THE MOST SALES AND PROFITS...FOLLOW THE LEADERSHIP OF RCA VICTOR
THE PUBLIC RECOGNITION OF RCA VICTOR VALUE BROUGHT EXTRA MONEY TO RCA VICTOR DEALERS in 1935

Definitely... it pays to pioneer! In 1935, RCA Victor dealers proved it with sales figures. The industry's average retail price of consoles is estimated at $75.00*. The RCA Victor average retail price of consoles was $110.00. That is $35.00 more... 47% extra money for RCA Victor dealers. RCA pioneering... RCA Victor sales and advertising methods are sending more buyers to RCA Victor dealers. You will find it easier to sell RCA Victor quality of tone and excellence of performance... than other brands on price alone. You will make more money with RCA Victor.

FOR 1936 RCA VICTOR offers the best radio and greatest dollar value in every price bracket... more profit per sale than any other make!
Any one of these sensational features would be a powerful builder of sales. The Magic Brain . . . an exclusive RCA Victor feature, became the radio merchandising hit of 1935 and today people ask for it by name. The Magic Eye . . . another RCA pioneering achievement gives RCA Victor dealers another exclusive advantage that carries public acceptance of these products to a new high. Metal Tubes . . . the greatest tube advancement in 28 years have proved today's biggest selling aid.

RCA Victor combines all three . . . gives RCA Victor dealers the three outstanding features in radio!

Radio's Greatest Values become more convincing when other RCA Victor features are paraded before the prospect. Metal Tubes . . . and more of them . . . in every model. Brilliant new Selector and Colorband Dials. Striking beauty in modern cabinets that are scientifically constructed to enhance tone. Oversized speakers, Automatic Volume Control and Automatic Tone Compensation. Wider tuning range that brings thrilling world reception and more dollar-for-dollar coverage of broadcasting bands.

RCA Victor dealers profit by RCA achievements today. They will be the first to exploit the RCA achievements of tomorrow.
Since RCA is engaged in every field of radio and is the only organization in the world building all kinds of radio equipment, from the microphone in the studio to the receiver for the home, it is only natural RCA knows how to build a better radio instrument.

The Quality Leader

In Every Price Bracket

For every dollar spent, RCA Victor instruments give greatest value and hundreds of thousands of buyers have learned to look to RCA Victor for the best in radio.

To every model has been entrusted RCA Victor's reputation for quality... first, last and all the time... truly modern instruments with a combination of unequalled sales features.

And now RCA Victor rounds out its line by offering Magic Brain... Magic Eye models to retail under $100.00... to give RCA Victor dealers the quality leader in every price bracket.

RCA

12
Dominant in circulation... brilliant in color... startling in its Magic Brain... Magic Eye... Metal Tubes theme... RCA Victor national advertising reaches everywhere to bring more buyers into the stores of RCA Victor dealers. "Quality at low price" gets big emphasis in this campaign.

The 1936 campaign appears in 21 leading publications with a combined monthly circulation of 18,563,536 copies per issue. Millions of RCA Victor advertisements will appear in the first four months of 1936!

Every radio market is reached by these general, farm and class publications.

Radio's most thrilling program... "The Magic Key of RCA"... featuring the outstanding stars of opera, stage, radio and screen... will continue to spread its set-selling publicity from coast to coast over 57 NBC-WJZ stations every Sunday from 2 to 3 p.m. E.S.T... reaching more than 10,000,000 listeners every week!

(See inside this envelope for proofs of RCA National Advertisements and the schedule for the first five months of 1936)
KEEP YOUR BUSINESS BEFORE YOUR COMMUNITY

In every newspaper radio is big news... and radio’s biggest news always comes from RCA Victor.

See to it that the radio sections of your local newspapers carry news about RCA Victor and your business. Use the stories released to you from Camden. They are filled with the most interesting radio news of today and the developments of tomorrow. It will pay you to identify your business with radio’s liveliest news.

MAKE YOUR STORE STAND OUT as headquarters for Radio’s Greatest Values...

Everyone in your community looks to your local papers for news of things to buy and where to buy them. There is the place to tell them to buy from you.

And when you plan your newspaper advertising, remember that the RCA Victor trade-marks have more than $75,000,000 in publicity behind them. There is something that you can cash in on... something that you can make of real dollar and cents value.

No other radio has behind it the prestige... the public acceptance through the years... that belongs to RCA Victor. No other national advertising has more sales-making power than RCA Victor... none has the action-getting power of the combination hit of radio... Magic Brain... Magic Eye... Metal Tubes.

Use newspaper advertising to bring the force of all this advertising right to your store. Tell the people in your community that your store is headquarters for Radio’s Greatest Values. Tell them where to buy!
PROFIT BY THE BIG SWING TO RCA VICTOR....use newspaper advertising to direct buyers to to your store

TIE IN WITH THE GREATEST Sales-Making Campaign in Radio

In this envelope are ready-made advertisements, RCA Victor instrument illustrations, trade marks and insignia...all the material that you will need for your local newspaper advertising during the Gold Star Campaign.

The complete advertisements assure you of timely and effective advertising without the cost and trouble of preparing your own local copy. If you do want to prepare your own advertisements, there is plenty of attractive material available with which to build them.

Feature the Magic Brain...Magic Eye and Metal Tubes in your advertising. This combination works exclusively for RCA Victor dealers and you will find them the three best salesmen that any radio dealer ever had.

You will profit from this RCA Victor advertising in your newspapers...it will bring more buyers to your store
Tied in with the national advertising theme, these colorful billboards flash the biggest RCA Victor sales features and direct radio buyers to your store. They will help you establish your store as Radio Headquarters in your community.

**YOUR NAME** on these colorful billboards will send radio buyers to your store....

These big, bright, colorful RCA Victor billboards will tell people to buy from you. They tell a powerful story of Radio’s Greatest Value. They do another good selling job on the big three of 1936 radio: Magic Brain, Magic Eye and Metal Tubes.

Billboards are a most effective advertising medium in this day of universal travel. Thousands of people will see your RCA Victor advertisement displayed on the boards throughout your community. Every one of your radio prospects will either walk, drive or ride where he has a clear view of your posters when they are placed along well-travelled streets and highways in your trading area.

RCA Victor billboard posters tell a big sales story in a big way. Dominant in size, they will do much to win for you dominance in local radio sales. They tell the same, easily understood story of radio’s greatest value that is sending more people to RCA Victor dealers.
MAKE YOUR WINDOW AND STORE DISPLAYS as attractive as the great values you offer with RCA VICTOR....

To profit most from all RCA Victor advertising, and from your own advertising as well, make your store stand out as Radio Headquarters.

To make your windows produce more sales, use RCA Victor window displays. They are alive with interest and color. They stress radio's most sensational features...offer radio's greatest values...have consistently proved their ability to attract and stop buyers and bring them into your store to give you the opportunity you want to demonstrate and sell them on RCA Victor superiority.

The display illustrated above is one of a series to be made available to RCA Victor dealers throughout the year. Use it to spotlight your store...to identify it as local RCA Victor headquarters.

This colorful background will enhance the attractiveness of your store and it carries a message that will help you sell more RCA Victors.

Typical of the display material offered to RCA Victor dealers is this striking store display background. It is sturdily constructed, durably finished and skilfully designed to do a real selling job.

All RCA Victor display material and other selling helps are available through your RCA Victor distributor.
EQUIPPING YOUR RETAIL SALESMEN WITH THE STORY OF RADIO'S GREATEST VALUE

LINE FOLDER... This complete Line Folder pictures and describes every model in the RCA Victor 1936 Line, and contains a tuning range chart that is a real selling aid. Pocket-size, the salesman will find it convenient and effective to use both in store and outside selling.

RETAIL SALES MANUAL... This loose-leaf retail sales manual contains descriptions of sales features that the salesman will find useful in making his talks to prospects more convincing. Illustrations of all sets in the RCA Victor line are included. The manual slips easily into the salesman's pocket.

"WHY TO BUY" BOOKLET... This little booklet is a brief and convincing summary of why RCA Victor offers the prospect radio's greatest value. It's the thing for the salesman to use when the prospect hesitates about which radio he should buy to get most for his money. This booklet gives your salesman all the facts. The more he knows about RCA Victor, the more he will sell.

MAKING TIME PAYMENT SALES EASIER AND MORE PROFITABLE FOR RCA VICTOR DEALERS

A Simplified and low cost RETAIL FINANCING PLAN

Unless you are equipped to meet the requirements of your "time" market... represented by your potential deferred payment customers... you cannot expect to get your full share of radio sales from your territory. A good finance plan, that will bring in otherwise unobtainable business on a low-cost financing basis, allows you to take greatest advantage of today's selling conditions.

RCA Victor recognizes this fact... and has arranged with the C.I.T. Corporation... known throughout the industry... to finance deferred payment retail sales for RCA Victor dealers.

Under this arrangement you are supplied with all legal forms necessary to the handling of time payment sales... your profits are safeguarded... your paper is discounted promptly and you get your money almost as quickly as on straight cash sales. For full details about this service, consult your distributor's representative.
The service man is one of the most important cogs in outside selling. If your service man is also a good salesman he should try for replacement sales on service calls. If he is not a natural salesman he should be trained to "spot" good prospects for follow-up by your regular salesmen.

A good demonstration plan is to assign three demonstration sets to each salesman and have him keep these sets continuously out on demonstrations in his territory.

Supply your outside salesmen with Radio Logs to use as door openers in finding and contacting qualified prospects.

"Team up" a floor salesman and an outside salesman. Cards for each prospect the former qualifies should be turned over to the latter for follow-up the following morning.

Mail shortwave programs to owners of old sets over a period of several weeks to stimulate curiosity in broadcasting features they have been missing. Then have outside salesman make a personal selling call with a demonstration set.

Make an arrangement with your local editor to answer free all radio questions submitted to his paper by local set owners. Each question arms your outside salesmen with information about the age and condition of the set, and the name and address of the owner, for follow-up.

Arrange for group demonstrations before club gatherings to stimulate sales of RCA Victor Radio-Phonograph Models and Victor Library.

Use direct mail at frequent intervals to cover selected prospect lists obtained by phone canvass, school boy census, Use the User Plans, from directory and tax lists, and other tested prospect-finding methods... and follow up with home demonstration calls.

WILL PAY YOU BIG PROFITS IN 1936....

THE GOLDEN MARKET
FOR REPLACEMENT
SALES

Today 23,000,000 homes in this country have radio sets... of which 43% are sets at least five years old. This makes today's radio market primarily a replacement market, in which replacement buying has definitely eclipsed purchasing by new set buyers. With improved conditions making personal call contacts once more effective and resultful, the time is again ripe to use this method of selling to get your full share of radio business in your community.

Present set owners will rarely step into your store to give you the opportunity to sell them. The only way you can contact them effectively is to have your salesmen make personal calls on them and talk to them in the only place they can be found... in their homes. RCA Victor Outside Selling Plans are proved and tested plans that will help you locate, reach and sell the replacement prospects in your community.

Use of these plans as an integral part of your 1936 selling program will increase your opportunity for extra profits from service business... from sales of radio parts... and from sales of replacement sets. For full details on the operation of any of these plans, write to the Instrument Promotion Department, RCA Manufacturing Company, Camden, N. J.

And the now famous RCA Radiotron TUNE-UP Campaign
THE RCA RADIOTRON "TUNE-UP" CAMPAIGN

...will help you uncover more leads for sales of TUBES...PARTS...NEW SETS

The RCA Radiotron "Tune-Up" Campaign is a proved and tested business-getter that has been used by RCA Radiotron dealers in every part of the country to increase sales of tubes, accessories, and new sets. As a radio servicing plan, it has won immediate popularity with set owners because it offers a definite group of adjustments for a definite charge. At the same time, it is "natural" for the dealer who offers it because it places service work on a definitely profitable, business-building year 'round basis. RCA Victor dealers everywhere will find this plan one of the best and most effective ways of getting into the home to locate good prospects for replacement sets. It is a well-organized effort...it is strongly supported by a full program of RCA Radiotron national advertising and publicity...that popularizes the advantages of a standard radio "tune-up" at regular intervals. Put it to work for you...it will pay its way on service alone and bring you extra profits from the sale of parts and from the leads to new radio set sales that it provides. For further information about the operation of this plan, see your distributor's representative.

THE TIME IS RIPE TO START THIS PLAN IN YOUR COMMUNITY
Giving present owners the big reason why they should buy new RCA VICTORS

This folder does a big selling job... give a copy to every replacement prospect......

Most homes which have radio today have sets three to five years old or older. The difference in reception and all-around performance between these old sets and the new 1936 receivers is so startling that the new sets practically sell themselves on a comparison basis.

Before you can persuade owners of old sets to make this comparison, however, it is necessary to make them realize the vast development that has been achieved in home radio since they bought the sets they now own.

That is the job this booklet helps you accomplish. It reminds the present set owner that times have changed since he bought his radio and so have radio design and engineering. It tells him that today's improved all-wave receivers will outperform in every particular... tone quality, selectivity, sensitivity, and operating convenience. It shows him how the new sets open up a whole new field of listening, and stirs his curiosity in the many broadcasting features he is missing because he does not have one of the new sets in his home.

Give a copy of this book to prospects who believe their sets are still giving satisfactory performance... to pave the way for easier, more effective comparison selling of the new RCA Victor models.

DEMONSTRATE THE DIFFERENCE

It is when the prospect hears one of the new RCA Victor models demonstrated against his old set that the realization of all that he has been missing dawns on him. Make it a part of your outside selling program to demonstrate the new RCA Victor against old sets in the home wherever this is possible... using this booklet to get you in and help you convince the prospect... and watch your volume of replacement sales rise. Remember, too, that the money today is in console sets... and that consoles must be demonstrated against existing equipment to sell. Wherever possible... demonstrate!

THE MAGIC KEY OF RCA CONTINUES ITS POWERFUL SELLING JOB...

In the short space of three months the Magic Key of RCA has won a place well up among the headline features of the air, commanding an audience of millions through the 58 crack NBC stations carrying the program from coast to coast. Its popularity is due to an unfailling, persistently varied array of brocdcast material, including leading stars of opera and stage, the screen and radio itself. In only a dozen broadcasts, features have been presented from Vienna and Addis Ababa, Berlin and Paris, a submarine under water and the China Clipper en route to the Orient. These are but a few of the features that make the Magic Key a whale of an entertainment job and a whale of a selling job...for you!

RCA VICTOR ADVERTISING Continues full force
The Magic Key of RCA by itself is not enough, though. There are ads in full color in leading national magazines, both monthly and weekly—full pages and inside front covers—supplemented by a huge farm-paper campaign. RCA Victor's so confident in the Line for 1936 that the Company is taking space in 21 magazines—to the sweet, set-selling, profit-making tune of 18,209,538 circulation!

Look this schedule over now. Begin now to tie in as the Dealer selling the merchandise the ads feature. Then—watch the results, the results that inevitably follow such a forceful campaign.

Guided by its "Magic Eye" the "Magic Brain" offers a new view of world radio

ALL 1936 RCA VICTOR "Magic Brain" Radios use the modern, more sensitive METAL TUBES.

The 1936 RCA VICTOR sets swiftly, silently tune in stations near and far

A WINK of the far-sighted "Magic Eye," and you vault nimbly from the calm, clipped accents of a London news commentator to the pulsing rhythm of a Venezuelan rumba hot off the marimba in steaming Caracas.

Another turn. The "Magic Eye" looks at nearer scenes. Your favorite NBC program is silently and exactly tuned. It is warm, colorful, natural. For the "Magic Brain" reports exactly what its "Magic Eye" sees. Once your RCA set is thus focused on any station, the adjustment is exact. High notes are clear and sweet. The basses are full, but not obtrusive.

This pleasant quality, which is the RCA Victor tone, is derived from 35 years of experience, during which the great Victor laboratories at Camden, N.J., have been a world center in development of sound reproduction. Hear the 1936 RCA Victor Radios at your dealer's. Look at the cabinets. Their lines are modernly simple. Old-time hand-rubbing has brought out the full beauty of the woods. See the new low-priced sets with "Magic Brain" and "Magic Eye." C.I.T. easy terms make prices convenient for you.

The "Magic Eye"... perfect, silent tuning

When your set is turned on a colored electronic shadow appears in the "Magic Eye." As you dial the open band at the bottom varies in width. When this band is narrowest the set is tuned for most perfect reception of the station you are tuning. No more blurring, or "off-center" tone. You have tuned in with your eyes... more sharply than the human ear could.

RCA Victor has all three—"Magic Brain" "Magic Eye" and Metal Tubes

RCA Victor sets now as low as $19.95

The "Magic Brain," the wizard-like master of the air waves, seems to take on a new "mental" agility through the unerring guidance of the "Magic Eye." You tune, by sight, to exactly the right spot to bring in each program clearly, warmly in the "studio tone" so pleasing to your ears.

With the "Magic Eye" thus looking out for your enjoyment you will find a fresh delight in radio reception. With this far-seeing guide you tune your RCA Victor radio silently, instantly and with bull's-eye accuracy.

The modern, more sensitive metal tubes make all 1936 RCA Victor Radios capable of higher fidelity. Through the ingenious union of "Magic Brain" and "Magic Eye," and metal tubes, the full capabilities of your RCA set are always at your service.

The charm of RCA Victor tone is consistently carried out in the cabinets. These are fashioned on simple modern lines, from woods beautified by the age-old method of patient hand-rubbing. Nor is the function of the cabinet as a part of a musical instrument overlooked. Cabinets are formed and proportioned to lend added quality to speaker performance.

Easy to Buy. The newest 1936 RCA Victor Radios include a variety of "Magic Brain" and "Magic Eye" sets at new low prices. C.I.T. convenient terms reduce the cost to a few cents a day. RCA Victor values are based on 35 years' experience in development of sound reproduction. Hear the "Magic Brain" sets at your RCA Victor dealer's.

New "MAGIC BRAIN"
New "MAGIC EYE"
New METAL TUBES

RCA Victor radios offer finer performance at value prices!

These exceptional new sets bring greater power...more stations...silent tuning and many other outstanding features!

All who hear them are excited over RCA Victor's great radio achievements — the "Magic Brain" — its new companion — the "Magic Eye" — and RCA Metal Tubes! But these are only three of many reasons why America is buying the new sets like wildfire!

Here are others! Increased sensitivity on short waves...5 to 20 times greater than ever before at 16 meters and below. More stations, better volume are yours! With the "Magic Brain" every broadcast emerges with warmth and clarity. And, whether your program is from a domestic station or the far reaches of distant lands, the "armoured watchman" tube throws off much irritating interference!

The "Magic Eye" makes tuning more accurate and simpler than ever. And, in addition, it brings you the pleasure of silent tuning.

Ask your RCA Victor dealer to tell you about the ingenious new range dials...cabinets that scientifically beautify tone...oversize speakers. Have him show you the RCA Metal Tubes...exquisite cabinets. Priced within everyone's reach, these RCA

THE "MAGIC EYE"...brings you silent tuning
The "Magic Eye," an electronic "beam"...tells when you are precisely in tune. Turn the set on, a colored shadow appears on the "Magic Eye"... Dial, and it gets larger or smaller as if focusing on an object. For most perfect reception, the shadow is smallest. You have tuned in with your eyes...more sharply than any human ear could.

Table Model T6-1. A 6-tube superheterodyne. Tuning range 540 to 18,000 kc. $49.95.

The "Magic Eye" "sees" better than you can hear.

The electronic "beam" of the "Magic Eye" has an amazing ability to "see" sound. By watching the "eye" and tuning so that the shadow at the bottom of its "iris" is narrowest, you tune silently to the exact point of best reception, more accurately than any human ear could.

At RCA Victor’s modest prices you can have a "Magic Brain" "Magic Eye" radio today!

Five new Metal Tube sets from table model at $49.95 to radio-phonograph at $99.95

You can make this interesting test at any RCA Victor Dealer's. Step in and try it. With volume at zero, tune the set silently by the "Magic Eye." Then turn up the volume. Note the warmth of the RCA Victor tone as the program flows in clean-cut, full-bodied, vibrantly alive. Clear, flute-like high notes will delight you. You will thrill to the beat of rich, mellow bases. You will realize how faithfully the "Magic Brain" reports what the microphone hears.

As you examine these 1936 sets you can judge for yourself the new degree of excellence which has been obtained by the improved "Magic Brain." See, too, how simply the "Magic Eye" guides this wealth of ability at reporting what's on the air.

Cabinets designed to enrich tone

And while you make your test you will see that in lines and finish, RCA cabinets are worthy to stand beside your most cherished furniture. Their proportions also serve another purpose. Each cabinet has been planned as part of a musical instrument, and hence lends added clarity to speaker performance.

For 35 years Victor has been a world leader in development of sound reproduction. As you listen your ears will tell you how well this vast experience has been used. For you will hear that unique quality—the RCA Victor tone.
