## Foreword

### Change Remains Radio's Constant

Each year when a new edition of *The Radio Book* comes out, I flip through the pages to those stations and markets where I've been lucky enough to spend part of my career. For me it's a touchstone to the past and I'm sure it's an experience many others share. But it's also a reminder of how much things are changing in our business. When I land on a page I may find a longtime owner has decided to sell after turning down so many earlier offers – or a general manager may have finally gotten that promotion to a bigger market. Over the next year there will be even more change, as some of the largest radio groups reassess their portfolios and decide which stations would be best served by new ownership. It means new challenges and opportunities for employees at those stations. But for radio's post-consolidation survivors – it's become a business as usual. That change is what we can count on.

The staff at *Inside Radio* and *The Radio Journal* spend thousands of hours each year tracking formats, owners and personnel. Not just at the biggest of the big markets; but at the smallest of stations that dot America's most rural corners. Research director Cathy Devine leads a team that knows this information is more than just trivia. It gives readers powerful information that saves time, and we hope, helps them make a bit of money as well.

Since 1984 we and our predecessors at the *M Street Journal* have been tracking format trends. And you will find them in this edition as well. Through the years we have been able to follow the rise of news/talk, the resurgence of CHR and the ups and downs of country. The format data is a fascinating snapshot of where radio has been, and where it is heading tomorrow.

Also in this 16th edition of *The Radio Book* you can find –

- Information on more than 14,000 U.S. and Canadian radio stations, including call letters, frequency and contact information. They're listed by state and city of license.
- Listings of stations by market (look near the back, running alphabetically by state) – including both commercial and non-com stations, all listed by frequency.
- Formats, researched by the staff of the *Radio Journal* and *Inside Radio*. We don't merely accept what a station may tell us. We continue to take the time to research playlists and listen to the station's air product to make our determinations.

Our thanks and appreciation goes out to our advertisers and other supporters – including the many radio aficionados that tip us off to the smallest of changes through out the year. This book couldn't be published without their help.

Programming information is followed by M Street's **format** codes in square brackets. If this station simulcasts from another station, the call letters and frequency of the station that it repeats will be shown here. Please see the section **FORMAT CLASSIFICATIONS** for a complete explanation of our format classifications and their codes.

If the station is broadcasting in digital, there format will be noted with **HD**, ie **Country<sup>HD</sup>**. If the station is multicasting then its second (and in some cases third) format will be noted as **HD2: Second Format**, ie **Country / HD2: Oldies**. In some cases the stations regular format and a multicast are the same but the programming is different. In those cases we have also added the slogan for the multicast to clarify. For example, **Classic Rock / HD2: Classic Rock "Deep Tracks"**

Current **power** and **facilities**, as well as any applications for facilities changes or **construction permits** granted, are shown.

For AM stations, the day power is listed first, then the night power, if any, followed by the antenna configuration:

DA-D	directional, daytime only
DA-N	directional, nighttime only
DA-1	same directional pattern day and night
DA-2	different directional patterns day and night
DA-3	different directional patterns day, critical hours, and night

For FM stations, their effective radiated power (ERP) is listed followed by the antenna height above average terrain (HAAT). "DA" indicates a directional antenna is use. Both AM and FM stations show a "=" to indicate a station that shares time with another station on the same frequency.

## FORMAT CLASSIFICATIONS

### The M Street Database Format Codes

As the broadcast industry itself evolves, so do radio station formats. Classifications and definitions are amended from time to time to reflect current trends. Here is the current set of format classifications.

<b>AAA</b>	<b>Adult Alternative</b> An eclectic playlist based on rock music but with some other forms of music such as blues, folk and jazz included. The target audience is generally from ages 25 to 54.	<b>CWO</b>	<b>Classic Country</b> This station plays no country music that's currently on the country charts in music industry trade publications. Exactly how old the music played on the Classic Country station is can vary. Some stations could reach back to the 30's while others might play only selections from the 70's and on.
<b>ACW</b>	<b>AC &amp; Country</b> Just what it says. A near 50/50 blend of music from the two formats.	<b>CWT</b>	<b>Traditional Country</b> The Traditional Country station aims for a sound that reflects country music before it was made contemporary" through the addition of drums and non-stringed instruments in the 70's. Traditional Country stations play music that's in current release that has this "traditional" sound along with older music with a "traditional" sound.
<b>ADC</b>	<b>Adult Contemporary</b> An adult oriented pop/rock station. The Adult Contemporary station will play many of the same records as are currently heard on mainstream CHR stations or were part of mainstream CHR in the 80's and 90's but will leave out those that are at the extremes of rock, rhythmic and rap. The target audience runs from 25 to 54 and may skew	<b>DNC</b>	<b>Rhythmic-CHR</b> A contemporary hit radio station that focuses on rhythmic music.
<b>ADH</b>	<b>Adult Hits</b> Promoted as "We Play What We Want" with playlists that draw from music from the 70's forward, and commonly branded as "Jack," "Bob," et al.	<b>DNX</b>	<b>Dance</b> Closely related to Rhythmic-CHR but focused more on pure dance club music.
<b>AMR</b>	<b>Americana</b> A blending of the rock music played on the AAA station with country and folk music.	<b>EIT</b>	<b>80's Hits</b> A blend of rock and pop music of the late 70's through early 90's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.
<b>BGS</b>	<b>Black Gospel</b> Gospel music and spirituals of the type heard in predominantly black churches. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>ETH</b>	<b>Ethnic</b> Programs primarily in languages other than English and/or directed to groups of specific national origin. These stations often utilize block programming in which programs in one language or of one national group target are followed by programs of a different language or national group target.
<b>BIZ</b>	<b>Business News</b> An all-news or news-talk station focusing on business and financial issues. This can be in the form of news blocks that cover current events in the business world and/or talk shows that dispense financial advice.	<b>EZY</b>	<b>Easy Listening</b> This format is distinguished by the programming of "lush" orchestral arrangements of standards and popular songs. Recordings of vocal performances of standards and soft sounding pop tunes may also be included in the programming.
<b>BLG</b>	<b>Bluegrass</b> A station whose playlist focuses on Bluegrass music. Some traditional sounding country music may be included in the programming as well.	<b>FLK</b>	<b>Folk</b> A station whose playlist focuses on Folk music. Some traditional sounding country music and softer rock music may also be included in the programming.
<b>BLU</b>	<b>Blues</b> A station whose playlist focuses on Blues music. Some older rhythm & blues or soul music may also be included.	<b>FNA</b>	<b>Format Not Available</b> This applies to a station that is involved in program stunting as part of a change to new format.
<b>CCN</b>	<b>Contemporary Christian</b> A station that sounds very much like an ADC-adult contemporary, CHR-contemporary hit radio or HAC-hot adult contemporary station with the significant difference that the records played are all of a religious rather than secular nature. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>FRM</b>	<b>Farm</b> A station that focuses on providing agricultural or agri-business news and information. This could be accomplished through news-blocks, talk shows or information that's interspersed with the airplay of country music.
<b>CCR</b>	<b>Christian CHR/Rock</b> Rock-driven alternative or harder rock Christian-themed music	<b>GOS</b>	<b>Gospel Music</b> Traditional gospel music and spirituals. The code may also be used as a "catch all" for a station that mixes both black gospel and southern gospel. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.
<b>CHR</b>	<b>Contemporary Hit Radio</b> A format that focuses on current popular music, often encompassing a variety of styles from rock through dance, that appears on the mainstream music charts in music industry trade publications such as Billboard and Radio & Records.	<b>HAC</b>	<b>Hot AC</b> Adult CHR might be another way of looking at this format. The Hot Adult Contemporary station plays much of the same music as the CHR station but avoids music that appeals only to the younger CHR listeners.
<b>CLA</b>	<b>Classical</b> Airplay of orchestral music, chamber music, opera and other forms of non-contemporary vocal music.	<b>INF</b>	<b>Surveillance/ Weather/Traffic</b> These are fully licensed radio stations that provide programming that is more commonly associated with Traveler's Information Service (TIS) radio stations. Their programming consists solely of one or more types of information with no other entertainment programming

The format is generally manifest as a very young skewing CHR station with high energy disc jockeys, call-ins and a large proportion of novelty records.
<b>CPN</b>	<b>cp-new</b> Assigned to a new station that has been authorized to build its transmitting facility but has never been on the air.		
<b>CTY</b>	<b>Country</b> A station playing a variety of country music styles. Although this station will play music currently listed in music industry trade publication charts in Billboard and Radio & Records, the amount of older country music played on the station may vary greatly between 25% and 75% of the playlist.		

<b>MAC</b>	<b>Modern AC</b> Somewhat analogous to the Hot Adult Contemporary stations in that they take the music that is part of a younger skewing format and make it attractive to an older audience. The Modern AC station takes the current modern rock music at the core of Modern Rock stations and blends it with older modern rock music.	<b>QCX</b>	<b>French Classic Hits</b> The French language equivalent of the English language Classic Hits format blends both French and English language rock based music of the 1970's and 1980's. Applies only to Canadian stations.

Applies only to Canadian stations.
<b>OLD</b>	<b>Oldies</b> Popular music of the 50's, 60's and 70's. Current popular music is played in only rare exceptions.	<b>QQQ</b>	<b>French Variety</b> The QQQ code is a catch-all for French language stations whose format we're unable to classify and for those French language stations employing Variety programming wherein three or more format types are being programmed either simultaneously or in blocks. Applies only to Canadian stations.

## FORMAT CLASSIFICATIONS

---

<b>XAC</b>	<b>Spanish Hits</b> Also known as Spanish International, this format contains Spanish language announcing (predominantly) and a blend of contemporary Spanish musical styles including (but not exclusively) Ballada, Cumbia, Merengue, Regional Mexican, Romantica, Salsa and Tropical.	<b>XOL</b>	<b>Spanish Oldies</b> Popular Latin music of the 50's, 60's and 70's. To varying degrees, English pop music of the same period may be incorporated. Current popular is played with only rare exceptions. Announcing is predominantly in Spanish.
<b>XCC</b>	<b>Spanish Contemporary Christian</b> The Spanish language equivalent of the English language Contemporary Christian format. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>XRA</b>	<b>Ranchero</b> Ranchero is Mexico's country music. Stations with this format play this music to the virtual exclusion of all other forms.
<b>XCH</b>	<b>Spanish CHR</b> A station that focuses on current Latino popular music (although it may also program some English language dance music), and can often encompass a variety of musical styles determined by whatever is popular in the Latino community. Announcing may be bi-lingual.	<b>XRE</b>	<b>Spanish Religious</b> A station that offers Spanish language long form religious teaching or ministry programs. The station may use some music as filler between programs
<b>XCL</b>	<b>Spanish Classical</b> Like the English language Classical station this is a station playing orchestral music, chamber music, opera and other forms of non-contemporary vocal music. The difference is, the announcing's in Spanish.	<b>XRO</b>	<b>Romantica</b> This is the Spanish equivalent of soft AC in the English world. Romantica music is at the heart of this format but soft examples of other Latino music forms may also be included as well as soft English language adult contemporary records.
<b>XCZ</b>	<b>Spanish Classic Hits</b> Like the English language Classic Hits station this station concentrates its airplay on the music of the late 1960's through early 1980's only in this case the music is predominantly Latin.	<b>XSP</b>	<b>Spanish</b> The XSP code is a catch-all for Spanish language stations whose format we're unable to classify and for those Spanish language stations employing Variety programming wherein three or more format types are being programmed either simultaneously or in blocks.
<b>XDH</b>	<b>Spanish Adult Hits</b> This is the Spanish equivalent of Adult Hits in the English world and targets Hispanic 25-54 years olds.	<b>XST</b>	<b>Spanish Standards</b> Spanish and Latin popular standards mixed with soft Spanish and Latin popular music, mainly vocal.
<b>XDP</b>	<b>Spanish Sports</b> Sports talk programming in Spanish.	<b>XTJ</b>	<b>Tejano</b> Stations playing Tex-Mex music predominantly but some Regional Mexican music may also be programmed. The announcing is generally in English or is bi-lingual and often a flow between Spanish and English known as "Spanglish" is heard.
<b>XEZ</b>	<b>Spanish Easy Listening</b> This format is distinguished by the programming of "lush" orchestral arrangements of standards and popular songs. Recordings of vocal performances of Spanish language standards and romantica music may also be included in the programming.	<b>XTK</b>	<b>Span. Talk</b> Spanish language talk shows of general interest or varied topics. The talk shows can be of both the call-in and straight interview type.
<b>XJZ</b>	<b>Spanish Jazz</b> A station that programs music from within the full spectrum of jazz although there may be an emphasis on Latin jazz. Announcing is in Spanish.	<b>XTP</b>	<b>Tropical</b> This is a format of mainly Caribbean Latin music. While Tropical is at the center of the format, other Caribbean forms such as Cumbia, Merengue and Salsa may be incorporated.
<b>XXM</b>	<b>Regional Mexican</b> A blend of contemporary Mexican musical styles. Some English language music may be blended in as well. Announcing is primarily in Spanish.	<b>XUR</b>	<b>Hurban</b> A blend of Spanish and English urban music and may also include "reggaeton" or Spanish hip-hop music.
<b>XNT</b>	<b>Spanish News-Talk</b> A Spanish language talk station with a heavy news and information orientation. The Spanish News/Talk station has a news block in one or more dayparts.		
<b>XNW</b>	<b>Spanish News</b> Continuous news and information in Spanish for all of the hours the station is on the air.

## ABOUT RATINGS

---

Estimates of audience share labeled Arbitron represent 12+ AQH Shares, Mon-Sun, 6 am to midnight and may not be quoted or reproduced without prior written permission of The Arbitron Company - Copyright 2007, The Arbitron Company.

Estimates of audience share labeled Eastlan are Copyright 2007 by Eastlan Resources. Any reuse of their ratings are subject to approval by Eastlan Resources.

The M Street Radio Directory contains estimates of average-quarter-hour-audience size and market audience share from surveys taken by the above ratings companies. The figures we show are taken from the latest survey published before our deadlines. The particular survey used in each market is shown in **The M Street RADIO MARKETS** section, but not in the individual station listings. Ratings are not shown for stations that did not meet minimum reporting requirements or for stations that show up with ratings in markets outside of their primary market area.

The term “ratings” is used to describe the audience figures published in the M Street Radio Directory. However, “audience share” and “audience estimate” are more accurate terms. The published numbers express the size of a station’s audience in a theoretical “average-quarter-hour” (AQH) between 6:00am and 12:00 midnight in two ways: 1) As a percentage of all radio listeners twelve years old or older (12+) and 2) as a number of persons 12+ listening.

These figures highlight some relative strengths and weaknesses of the stations competing in a market but tell only a small portion of the story of competition in a market.

These 12+ Monday-Sunday 6:00am to 12:00 midnight AQH estimates are not the only audience data that ratings firms provide. Far more specific estimates that report the size of a station’s AQH audience at different times of the day and detail how radio listening differs by age and gender are available directly from the ratings firms. Also available are cumulative audience estimates which report how many people listen to a radio station over time periods longer than a quarter-hour. These more specific figures are not included because of their volume and because the ratings firms would have little to sell if they were published. For more information contact the ratings company directly.
