**SLOW GROWTH ENDS RADIO LABIO. . .** After a little over a year, Spanish talk service Radio Labio has closed its doors. A slower-than-expected acquisition of affiliates hurt the web, and leaves two full-time affiliates searching for programming: KTRB, Modesto, CA and KUNA, Indio, CA.

**FAST GROWTH HELPS CRESCENT. . .** Crescent Communications plans to buy classic rock KFBI, Pahrump, NV (Las Vegas) from Americom for \$6 million cash to combo with AC KMZQ-FM, Henderson. Crescent recently announced its plans to buy a controlling interest in KMZQ-FM, as well as country KRST and sports-talk KRZY, Albuquerque from Commonwealth Broadcasting. *M Street:* What started as a small entity in San Mateo/Santa Cruz grew to a duopoly in San Francisco with the purchase of KSOL and KYLZ, and is quickly becoming quite a group.

**WASHINGTON THIS WEEK**

The Commission has approved the sale of Carlson Communications' classic rocker KRSP-FM, Salt Lake City, UT to the Simmons Family, but not before slapping the station and its sister, children's-programmed KKDS, with an \$8,000 fine for EEO violations. Simmons Family's standards KDYL and soft AC KSFI was also hit for \$8,000 for the same violations.

The NAB's Eddie Fritts has again urged the FCC to limit satellite Digital Radio Services to subscription-based services only. Fritz believes subscription only services will provide satellite service providers with "the economic framework that will permit them to deliver on their promise of providing niche programming . . . while helping to minimize the drastic harm . . . that will otherwise wreak on the over-the-air free terrestrial service. Minimally, Fritts has asked the Commission to consider introducing satellite digital radio at the same time as land-based digital radio. *M Street*: We wonder if Mr. Fritz and the NAB would have opposed the introduction of color television to preserve black and white broadcasts. Perhaps its time to embrace new technologies, not fight them.

The new telecommunications bill going through the U.S. House might as well be called the "telephone/cable act" as both radio and television ownership issues have been dropped from the bill. According to Radio Business Report, broadcast ownership issues have been separated out and will most likely be introduced as an amendment to the main bill. The NAB is working to get the ownership issue back into versions of the bill in both the House and Senate. Meanwhile, according to Inside Radio, the House bill zaps the current license renewal procedure by automatically granting renewals to broadcasters who have had no problems or complaints regarding FCC rules issues. Those that have had problems would go through comparative hearings. The new renewal procedures could go into effect immediately after the bill is signed.

The heads of the four largest public broadcasting organizations have proposed to Congress a plan to create a trust fund, similar to ones established for the American Red Cross and the U.S. Olympic Committee, to fund public broadcasting in lieu of the federal appropriations that have been threatened with extinction recently. National Public Radio, Public Radio International, America's Public Television Stations, and the Public Broadcasting Service have jointly proposed the plan which calls for funding from noncommercial spectrum leases and auctions, spectrum transfer and use fees, and contributions by commercial broadcasters. The latter has the NAB up in arms. In a statement, the NAB said sarcastically, "The public broadcasters' idea of a 'road to self-sufficiency' seems to be 'let's take it from somewhere else.'"

ELSEWHERE

The Park Lane Group is on a spending spree this week as they've agreed to buy adult standards KCIN, Victorville, CA and country KATJ-FM, George, CA from Island Broadcasting. They'll also add another station to their existing duopoly in the Chico-Redding area by picking up country KALF, Red Bluff from McNulty Broadcasting. Park Lane already owns news-talk KQMS and soft AC KSHA, Redding, and progressive KFMM and adult contemporary KPPL, Colusa. Terms weren't disclosed.

Gulfstar Communications is picking up a quick duopoly in Baton Rouge by buying country combo WYNK-AM & FM from Naragansett Radio, while merging news/talker WJBO (AM) and CHR WFMF into the Gulfstar fold from Baton Rouge Broadcasting Company. Terms on the two separate transactions were not disclosed.

In the Allentown market, Tele-Media Broadcasting gets a duopoly by purchasing HGF Media's oldies WQXA and CHR WQXA-FM, York, PA. Terms were not disclosed. Tele-Media already owns country WRKZ-FM, Hershey, PA.

EZ Communications' adult standards KSD (AM) and classic rocker KSD-FM, St. Louis paid a rumored \$3 million per year to pick up the rights to the new NFL St. Louis Rams, according to Inside Radio. The five year deal was being bid on by CBS' KMOX, Heritage Media's WIL, and KSD. KSD hot AC sister KYKY will also do score and quarter updates.

Arbitron had one of its best male 18-24 books ever as the sampling index of that demo was up 3 1/2 points to 82.7%. An index of 100 means that the sample is exactly proportional to that demographic's percentage of the population. Arbitron attributes the increase to raised diary premiums from \$2 to \$3 and changes to the mailer in which the diaries were placed to make them stand out in the mailbox.

Inside Radio reports Noble's Denver talker KHOW got hit with a 5-B note in the Winter book for a conversation one of their hosts had with a listener about how to fill out the diary, including a reference by the host asking, "So we're in there for the entire two hours?" The caller said, "Uh-huh." The host finished with, "Wow! OK, the check's in the mail."

Radio had another great month in March, with revenues up 10% for the month and 13% for the first quarter of 1995. RAB President Gary Fries predicts possible double digit growth through the rest of the year. The Southwest showed the biggest gains for March. Local was up 12%, national was up 20%.

According to Inside Radio, the Oklahoma Senate has condemned Westwood One's G. Gordon Liddy in the wake of the Oklahoma City bombing that took over 200 lives. The Senate voted 39-0 to ask broadcasters not to support Liddy or similar shows that "encourage hate and violence." Liddy has been criticized for recent graphic descriptions on his show regarding how to kill FBI agents.

Interep's "Value-Added Radio Advertising and Promotion" Conference held this past week in Chicago rallied advertisers around radio's efficiency and effectiveness in reaching consumers in many different ways. Advertising managers from companies like Goodyear and Wrigley, agency representatives, copywriters and network representatives gave presentations on radio's importance in a multi-media buy and its ability to target specific audiences. If you're interested in finding out more about the next seminar, call (212) 916-0700.

Interep and Arbitron co-sponsored a forum on CouponRadio technology in Detroit last week. The technology features the ability to broadcast data on the station's subcarrier that is captured on a listener "smart card." The card can then be swiped through a retail store's card reader for instant coupon savings.

M STREET BAZAAR. . .PEOPLE, PRODUCTS, AND PROGRAMMING

SBR Radio Company and Paragon Research have teamed up to market Rock Alternative, a mainstream rock format "rooted in familiar alternative music of the late 70's, 80's and 90's," according to a press release. The format is the same that was launched on KXPK, Evergreen, CO (Denver) last summer. Client stations will have access to format-specific programming, music, marketing, and research services. For more info, call (303) 444-7700.

The RAB reports almost 80% of the tables for this year's Radio Mercury Awards is sold out. Reservations are outpacing last year, when the event was sold out by the third week in May. The award show, to be held at New York City's Waldorf-Astoria Hotel on June 14, awards over \$200,000 for the best radio spots of the year. For more info, call (212) 387-2156.

More promotions at the ABC Radio Networks this week. Bob Stevens has been named Manager of Affiliate Marketing for the ESPN Radio Network. Amy Bolton joins the company as Manager of Affiliate Marketing for Talk Radio/Business Week. Sue Saville has been elevated to Senior Director of the East Region/Affiliate Marketing.

Jim McDonald's Wind River EBS Project reminds broadcasters that July 1 is the deadline to modify EBS decoders to accept the new short tone standard. If you'd like more info, call (800) 669-3993.

"Ask the Rabbi" is a new weekly interactive talk show that features Jewish law, practices, and tradition. For more info, call (718) 253-5891.

Jerry Brown's "We the People" program has been expanded to feature guest interviews during its weekday program. Recent guests include Oliver Stone, Dr. Joseph Califano, Republican Congressman Tim Hutchinson, and Democratic Congressman Glen Browder. For more info on the show, call Carol Renza at MediaRep Associates at (203) 264-2186.

The NAB has established a Summer Fellowship Program designed to bring a college student interested in a broadcasting career to the Washington, DC area to augment his or her communications studies with practical work experience. The program will provide up to \$3000 to work in the area with NAB staff and local radio and television stations. For more info, call (202) 429-5389.

**NEW GROUP, STRANGE NAME...** Three former Summit Broadcasting executives have formed a new group by purchasing the nine stations in the WP Radio group for an undisclosed price. Patterson Broadcasting is the name of the new group formed by Summit executives Jim Wesley, Jim Strawn, and Roger Heffelfinger. In the Honolulu market, the stations involved are gold-based AC KSSK, AC KSSK-FM, Waipahu, and jazz outlet KUCD, Pearl City. In the Allentown market, sports WIPI and oldies WODE, both Easton, PA. In Fresno, rocker KRZR, Hanford and hot AC KTHT, Fresno. In Savannah, news/sports WCHY and country WCHY-FM.

**TIT FOR TAT...** Tribune Broadcasting and Henry Broadcasting are swapping stations this week as Henry will pick up Tribune's adult standards KCTC and soft AC KYMX, both Sacramento in exchange for classical KVOD, Denver plus an undisclosed cash amount. The deal creates a duopoly for Tribune in Denver with adult standards KEZW, Aurora and soft AC KOSI, Denver. The deal would require a cross-ownership waiver because Tribune owns KWGN-TV in Denver.

**WASHINGTON THIS WEEK**

The FCC, in a Memorandum Opinion & Order (MO&O), granted the application of J.C. Bell, case trustee, for assignment of WHSY and WXRR, Hattiesburg, MS, to Blakeney Communications. On November 17, 1994, Design Media filed a petition to deny the assignment, contending that the combo and Blakeney's other station in the market, country WBBN, Taylorsville, MS, didn't comply with EEO rules. The Commission found that Design Media's allegations did not raise a "substantial or material question of fact sufficient to warrant a hearing or denial of the assignment application." The Commission also noted that the stations are silent.

Ricardo A. del Castillo, Tichenor Media System's VP/Operations, has been reelected to the NAB's Radio board. Radio Board members serve two-year terms.

**ELSEWHERE**

In a move that stunned much of the radio community, not to mention Cox Broadcasting, the Commission denied Cox's application to purchase its second FM in Atlanta, jazz outlet WJZF, La Grange, GA. Cox was taking a two-step approach. They asked to modify the station's signal so that it didn't overlap with WSB-FM. Secondly, they asked for a waiver of the cross-ownership rules if the signal modification were denied. The Commission ruled against both. The denial begs the question of the validity of Cox's LMA with the station since the Commission has ruled Cox can't own it. Cox currently owns two stations, LMA's two others, sells two additional stations, owns the ABC television affiliate, a cable system, and both of the city's major newspapers. According to Inside Radio, Cox's Executive VP/Radio Bob Neil says they'll keep the LMA going pending an appeal or a change in the ownership rules.

The company that filed the petition to deny the sale of WJZF, La Grange, GA from NewCity Communications to Cox in Atlanta, Jacor Communications, has been granted permission to buy Pathfinder's classic rocker WPPT, Cincinnati for \$9 million. At the same time, the Commission granted permission to CR Acquisition, Inc. to buy adult standards WSAI from Pathfinder. Both sales had been held up for months because of petitions filed by local competitors who said Jacor already owns or controls much of the market. The grants come with conditions, however. According to RBR, Jacor can continue its sales agreement with CR's children's station WAOZ or WSAI, but neither station can be sold in combo with any of Jacor's owned stations--WLW, WCKY, or WEBN. It can also continue to sell its other SMA'd station, new rock WAQZ, Milford, but can only sell up to 30% of the station's inventory in combo with Jacor stations. Jacor volunteered to limit the sale of WSAI's inventory to 2/3.

Jacor doubles up in Jacksonville this week as it was the successful bidder on bankrupt urban outlet WHJX-FM, Brunswick, GA. Jacor picks up the station for \$4.5 million from George Reed, the receiver for Eagle Broadcasting. Jacor owns country WQIK-FM and talk WJGR in that market.

Trumper Communications paid \$1.85 million to double up in Salt Lake City with the purchase of adult alternative KUMT, Centreville, UT from Ragan Henry's U.S. Radio. Trumper just bought sports KISN and hot AC KISN-FM last month.

Inside Radio reports that the aforementioned WJZF got hit with a page 5B notice for a top-of-the-hour bumper that asks listeners to make a mental note of their "time spent listening to 104.1 FM."

**ELSEWHERE (cont'd)**

Radio Business Report is reporting that the dreaded ad tax has been shelved. The tax would have dropped the deductibility of advertising expense down to 90% from the current 100% allowance. House Ways & Means Committee Chairman Bill Archer (R-TX) took it out of the bill.

We raised a few hairs after our editorial comment last week regarding the NAB's stance on Digital Radio Services. The NAB believes digital radio services should be limited to subscriber-based only, or at the very least, be introduced at the same time as land-based digital radio. There are two sides to every issue, so we thought we'd pass along the comments of Frank Newell, owner of KJMO/KWOS, Jefferson City, MO, who faxed us a note saying, "Mr. Fritts should be commended for attempting to represent his constituents in their struggle for a "level playing field" with this emerging new technology." Newell argues that DBS will allow one licensee to serve the entire country without any local service obligations while current broadcasting companies have been limited with the number of markets they can serve. Newell asks, "If the FCC allows DBS to emerge while handicapping current licensees technical capabilities to deliver CD quality, who do you think will prevail?"

**M Street Correction:** In a story last week regarding the approval of the sale of Carlson Communications' KKDS and KRSP-FM, Salt Lake City to Simmons Family's KDYL and KSFI subject to fines and reporting conditions, we inadvertently attributed an \$8,000 fine to both KDYL/KSFI and KRSP/KKDS. The fine and reporting conditions should have applied only to KDYL/KSFI. KRSP/KKDS was only admonished.

**CANADA THIS WEEK**

The CHUM Satellite Network debuted with a full-time Canadian talk service this past Monday (May 8). Vice President-Special Projects Bob Laine expects the concept to enable AM stations not only to survive but to compete effectively, even in markets with heritage talkers. The web feeds nearly 20 hours on weekdays and 24 hours on weekends with respected Canadian and Stateside hosts.

The lineup includes anchor Lowell Green from Ottawa, Debbie Nigro (the "Working Mom on the Run), Master Gardener Jerry Baker, and Dr. Laura Schlessinger. Listen for Dr. Joy Brown in the near future. Overnights are covered by One On One sports, and Sports Collectors Radio airs on Sunday evenings. National (Canadian) news, comedy, drama, agriculture, home-improvement, and kids' programs are also featured.

The first full-time affils are CJCH in Halifax and CIFX, Winnipeg. CRFA Ottawa carries about 75% of the network's schedule and originates nearly 30 hours per week. Powerhouse CKLW, Windsor (Detroit) is also broadcasting some of the web's offerings. Dr. Laura Schlessinger is heard on 21 stations, including the top nine Canadian markets, and the "Renovations" home show is carried by 16. You can reach Laine at 416 925-6666 for additional info.

**M STREET BAZAAR. . .PEOPLE, PRODUCTS, AND PROGRAMMING**

Arbitron is rolling out a new service that allows stations to review actual diary comments without having to make the trip to Columbia, MD. Beginning with the Winter, 1995 book, radio subscribers can order the Diary Comments Report by county for their markets. The service is available in all 261 markets and is priced from \$200 to \$500. For more info, contact your Arbitron rep.

CBS Radio has added a new short form feature. "What's in the News," hosted by Christopher Glenn, is a two-minute feature focusing on one story in the day's news and examine it beyond the headlines. It replaces "Entertainment Update," which aired at 3:25 pm, ET.

Paul James has been upped to an anchor position at CBS News for its News on the Hour Broadcasts. James has been a writer for the service since 1993.

M STREET BAZAAR (cont'd)

The NAB has extended the deadline for Marconi Award nominations one week to May 19. NAB member stations can nominate stations in five categories: Station of the Year by Market Size, Station of the Year by Format, Legendary Station of the Year, Personality of the Year by Market Size, and Network/Syndicated Personality of the Year. To nominate or for more info, call (202) 775-3510.

ABC Radio Networks' American Country Countdown with Bob Kingsley presents "The Garth Brooks Special," a three-hour special featuring Garth's music and six years of exclusive interviews to air on Memorial Day weekend. For more info, call (214) 991-9200.

The Museum of Broadcast Communications' Radio Hall of Fame is planning an "all-star celebration of radio's first 75 years" to be held in Chicago the weekend of October 27-29. The festivities will include the 1995 Radio Hall of Fame Induction Ceremony on Sunday, October 29 at the Hyatt Regency Chicago. Tables are going for \$3000 to \$10,000. Individual seats are \$300 each. For more info, call (800) 860-9559.

Former WMXV, New York, VP/Programming Bob Dunphy has started his own consultancy. Dunphy Strategic Media can help with marketing, programming, promotions, and client service. For more info, call (212) 581-1732.

Broadcast Programming welcomes a new consultant. L.J. Smith will handle some of the country consulting responsibilities. Smith was previously VP/programming at country WWFG, Ocean City and CHR WOSC, Bethany Beach, DE.

ABC Radio Network has appointed Dave Herring as a regional manager for affiliate marketing, small markets. Herring was formerly with Chicago-based Major Networks. Ricardo Borges has been hired as manager of marketing development for advertising sales. Borges previously worked for Greyhound Bus Lines, and will be responsible for developing ad sales presentations for the Dallas, L.A., and San Francisco offices.

Westwood One has appointed Robert Dunn to the Senior VP/Affiliate Relations post. Dunn comes from WHYN-AM & FM, Springfield, MA, where he served as VP/GM. He was also at WTIC-AM & FM, Hartford, CT.

Greater Media VP/Programming Andy Bloom is joining Coleman Research as Executive Vice President. Bloom replaces Pierre Bouvard, who left Coleman to become general manager at Arbitron.

**A "MOVE IN" FOR HOUSTON?...** Houston has a new station this week as Chameleon Radio Corporation moves KIOX 1270's tower and studios from Bay City, TX to Houston. The same principal players in Chameleon had been in an LMA with Salem Communications' KENR. The brokered programming that had been found on KENR moves over to KIOX, or as they are now calling it, K-FCC. How this move was accomplished is a mystery as we could not find an application or CP to move the tower closer to Houston or to change the city of license. Bay City is 50 miles S.W. of Houston and KIOX can not now cover its city of license. KIOX promised to get back to us with the details but as of press time we have not received their call.

**SONNY'S ULTIMATE REMOTE.** "Exile on Your Radio Dial" was the headline in the New York Post this past Tuesday as embattled talk show host H.I. "Sonny" Bloch decided the U.S. just wasn't for him anymore and fled the country to the Dominican Republic. Bloch has been under scrutiny from federal investigators for investment schemes advertised and allegedly endorsed on his show. He's also the target of class action suit from listeners. Bloch's daily show over his Independent Broadcasters Network has been airing from the Caribbean nation since last week. His New York affiliate, WOR, has dropped the show. On April 19, Sonny filed applications with the Commission to transfer control of his Florida stations, WGGG, Gainesville and WBDN, Brandon (Tampa), to Paul H. Bloch. Bloch's California station, KLXR, Redding, is reported to be off the air.

**WASHINGTON THIS WEEK**

Debate in the House subcommittee over the new telecom bill is finally over--and it's blatantly absent of any radio deregulation. There's still a chance for radio as the bill now goes to the House Committee, which will begin debate next week.

Margaret Escriva, President and GM of KWIC, Topeka, KS, has been named as this year's recipient of the NAB/BROADCAP Minority Fellowship Award. The award promotes further advancement and training for minority broadcasters. Escriva receives free tuition, room, and board at the NAB Executive Management Development Seminar for Radio Broadcasters in June at the University of Notre Dame.

The NAB is producing an alcohol-abuse reduction program this summer called "STAR"--Stations Target Alcohol Abuse Reduction. Inside Radio reports the campaign was produced with the support of Senator Strom Thurmond in hopes of heading off government bans of beer and wine advertising.

**ELSEWHERE**

The deal of the week is the merger of the GulfStar and Sonance Broadcasting groups, forming one of the largest groups in Texas. Brothers Steve and Bill Hicks will combine the two companies to operate as GulfStar. Inside Radio reports Sonance owner Bill Hicks is buying out his brother's interest in GulfStar. The deal will give the new company stations in Waco, Midland-Odessa, Lubbock, Killeen-Temple, Bryan-College Station, Victoria, Texarkana, Beaumont, Tyler, and Lufkin-Nacogdoches, as well as a recently purchased duopoly situation in Baton Rouge.

The \$711 million sale of Park Communications closed this week, according to Inside Radio, giving financiers Don Tomlin and Gary Knapp a big taste of the media business. Park's group of 22 radio stations, nine television stations, and 107 newspapers will stay intact except for the Richmond, Chattanooga, and Greenville markets. It has temporary waivers to sell off its radio stations in those markets because of TV ownership.

ELSEWHERE (cont'd)

The River City Group has picked up another station--this time it's talk outlet WSMB, New Orleans for \$750,000 from Winston Communications Corp. WSMB has been in an LMA with Keymarket-owned news-talker WWL and soft AC WLMG. As it was announced a few weeks ago, Keymarket is merging with River City.

A vandal is suspected of cutting the guy wires of the 370 foot tower of gold-based AC WCRZ, Flint, MI, and the STL of rocker WWBN, Tuscola, last week. The tower crashed to the ground approx. 3 am Sunday, May 14. Radio Business Report reports a 17-year-old has been arrested in connection with the crime. WCRZ's AM, talker WFNT was not affected. WWBN is back on the air from its remote van at the transmitter site. WCRZ should be back on this week.

Cox Broadcasting's market research company, The Eagle Group, has purchased Atlanta-based Arena Research for an undisclosed sum. Gaye Schneider-Israel will stay on as President, while Steve Israel will continue as EVP. Arena Research specializes in product research and focus groups.

M STREET BAZAAR. . .PEOPLE, PRODUCTS, AND PROGRAMMING

CBS Radio is offering a 10-part series called "Building for Big Changes," featuring Fortune magazine's Editor-at-large Marshall Loeb with advice for those who are about to make significant lifestyle adjustments, such as marriage or entering the workforce after college. For more info, call (212) 975-3774.

Westwood One is debuting Paul McCartney's Oobu Joobu Radio Series over the Memorial Day weekend. The program, which was directed and hosted by McCartney, will begin with a two-hour special, followed by 13 one-hour weekly shows which wrap up Labor Day weekend. For more info, call (310) 840-4288.

SW Networks has launched "NetSpace," an on-line computer service providing a wide variety of music and entertainment programming and information on the World Wide Web. NetSpace also features a "Fun House" area which offers entertainment news, political cartoons, editorials, and satire. SW's WWW address is <http://www.swnetworks.com>.

If you're searching for feature programming for your 70's-based format, Small Planet Productions and The 70's Preservation Society have teamed up to offer "70's Minutes." The one minute features offer trivia and sound bites from movies, news broadcasts, music, and commercials, and are hosted by WPLJ, New York's Al Bandiero. For more info, call (914) 424-4722.

The Fresno-based Robert Thomas Group has started an ad rep division for independent program producers and syndicators. The division will rep several programs at a time to major agencies for spot buys. They also handle all the paperwork, scheduling, billing and production. For more info, call (800) 995-1779.

People's Radio Network tapped Don Keyes for the VP/Network Development slot. Duane Crites becomes Affiliate Relations Director while Bill Bartlett is Affiliate Relations Territory Manager.

Maria Bane has been promoted to VP/Business Administration at ABC Radio Networks.

Westwood One has upped Erle Younker to Director/Major Market Affiliations. He was Northeast Regional Manager.

One-On-One Sports Network has upped Rich Bonn to VP/Programming.

**HARD TIMES IN MINNESOTA.** . . . The budget ax fell at Minnesota Public Radio this week, leaving 36 employees, or 13 percent of its staff, on the street. According to the St. Paul Pioneer Press, the cuts came on the same day the Minnesota State Legislature approved a bill that would require the total compensation of MPR executives to be disclosed publicly. MPR President Bill Kling blamed the layoffs on federal spending cuts and higher costs of doing business at the station's for-profit catalog sales division, Greenspring Co. Kling's salary at MPR is \$67,000, but his salary as President at Greenspring, which isn't currently required to be disclosed, has been estimated to be between \$200,000 and \$500,000. MPR operates 28 stations and also operates PRI, Public Radio International.

**ABS TO JAM IN GREENVILLE.** . . . Richmond-based ABS Communications buys into a duopoly in the Greenville-Spartanburg market with the purchase of AmCom General's urban WJMZ-FM, Anderson, SC for \$5.3 million. ABS already owns rock outlet WROQ, Anderson. WJMZ-FM was to be sold to its present LMA partner, HMW Communications' new rock combo WXWX, Easley, SC, and WXWZ, Greer, SC, but that deal fell through.

**WASHINGTON THIS WEEK**

As a follow up to last week's story, the Commission has ordered Chameleon Radio Corp.'s KIOX, Bay City, TX, (which has applied for the call letters "KFCC") to return to its original transmitter site after Chameleon moved its studios and transmitter approximately 50 miles to the northeast to a location just outside of Houston, eliminating FCC-mandated coverage of its city of license. According to the station, the reason for making the move so quickly was the need to keep their programming on the air after an LMA with Salem Communications fell apart. After the resulting loss of its transmitter site in Bay City, KIOX proposed moving to the new site under Special Temporary Authority (STA) until the engineering could be done to make the new site permanent. The Commission granted the STA, but due to complications with the geographic coordinates of the tower on the application, the station's STA power change dropped Bay City out of the station's primary coverage. The Commission has rescinded the STA, and instructed KIOX to immediately return to its old location or shut down until a new site that allows the station to cover its city of license can be found. At this time, the station remains on the air and continues to try to work out a deal with the Commission.

FCC Chairman Reed Hundt "pulled the plug" on the Commission's 22-year-old Honeywell mainframe computer this week as the Commission switched entirely to a PC-based system. Although the new system brings the FCC into the 90's, much is to be done to solve the glitches in keeping track of all that paper.

The Commission handed out the Catherine Forster Public Service Award to ten of its finest. Three were awarded in the Mass Media Bureau. The award recognizes Commission employees who provide "excellent service to the public in the most efficient, uncomplicated, timely and courteous manner possible." The three were James Crutchfield, Supervisory Program Analyst in the Audio Services Division; Jackye L. Milne, Attorney in the Video Services Division; and Milton O. Gross, Chief of the Fairness/Political Programming Branch of the Enforcement Division.

**ELSEWHERE**

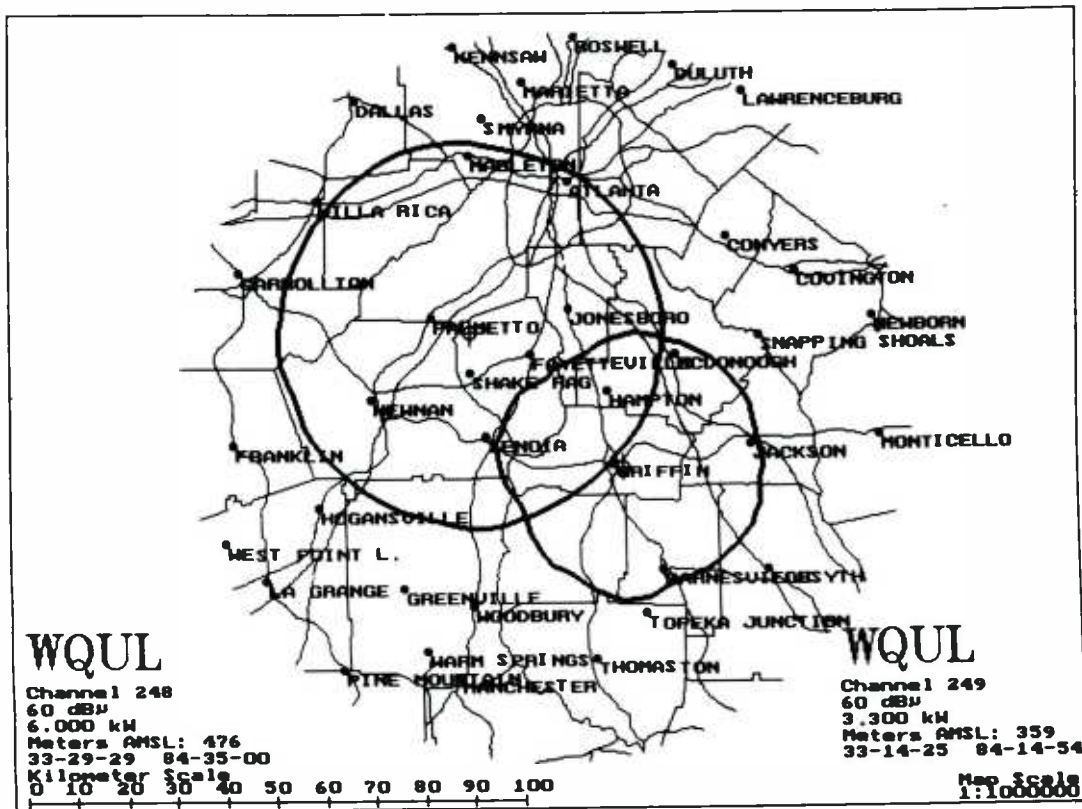

Arbitron has released its 1995 Edition of Radio County Coverage. The annual study provides Persons 12+ audience estimates for every county in the continental U.S. plus Metro counties in Alaska and Hawaii. The company noted significant improvement (i.e., reduction) in the number of counties clustering with adjacent counties to meet minimum diary requirements. The 1994 edition had 102 clusters of multiple counties, while the recent edition contains but 26. Arbitron Radio GM Pierre Bouvard noted that for many stations in counties outside the standard Arbitron radio markets, the County Coverage is the only source of listening estimates. The reports provide data for all counties by state. The dayparts available are 1) Monday-Sunday, 6AM-Midnight and 2) Monday-Friday, 6AM-7PM. The listening estimates include cume persons 12+ and cume ratings, average quarter-hour shares and ratings, as well as county and Metro breakdowns. Thom Mocarsky is available for additional information at (212) 887-1314.

ELSEWHERE (cont'd)

Washington, DC's WETA-FM is launching its own classical music format on the bird. The programming will be separate from WETA's regular programming and will be available during non-drive weekday hours, as well as weekends. According to the Washington Post, the programming does not require local studio staffing, so it can be used as for vacation relief or last-minute emergencies. The Corporation for Public Broadcasting is expected to help the venture with a \$400,000 grant.

Denver-based Jones Satellite Networks has purchased the 24-hour music formats of Chicago-based Major Networks for an undisclosed sum. The sale will allow Major to focus on its news and talk products while beefing up Jones' affiliate list. No word on the fate of the three formats, "Super Hit Country," "Adult Hit Radio," and "Lite Hits," as Jones has 24-hour programming competing with each of the acquired formats.

The Atlanta market gets a new player soon as Design Media's WQUL, Griffin, GA, changes its city of license to Fayetteville, GA on a new frequency of 97.5 MHz. Its new facilities of 6000 watts at 666 feet make it heard in most of the Atlanta market (see map). Alfred Liggins, who is an exec. at Cathy Hughes' Radio One group, is buying the station for an undisclosed sum and will probably go with an urban format, taking on Granum Communications' urban WVEE.

Despite reports of some post-strike Major League Baseball attendance erosion, a new study compiled by the Research Division of the Interop Radio Store demonstrates that radio coverage delivers a broader, more affluent audience than the tube. "Hit A Home Run With Baseball On Radio" found that "...radio indexes higher in all major upscale audience categories than baseball on television..." and more effectively targets college graduates, professional/managerial types, and \$75,000+ income households. Jane Sperrazza, VP/Corporate Communications, would be happy to go over this lineup with you. She's at 212 916-0524.

The NAB's Broadcasters' Employment Clearinghouse Jobline will be available 24 hours a day beginning June 1. In the past, the service had been operating only after business hours. The Clearinghouse collects resumes for referral to stations for jobs ranging from entry-level to managerial positions. The new job line phone number is (202) 429-5359. For more info, call Mike McKinley at (202) 429-5497 or e-mail at <mmckinley@nab.org>.

**M STREET BAZAAR. . .PEOPLE, PRODUCTS, AND PROGRAMMING**

Hawaiian Music Radio of Honolulu, along with partner KONG Radio, are distributing a new one-hour weekly program of contemporary and traditional Hawaiian music. "Hawaiian Music Radio" is taped on Sunday mornings at KONG and is targeted to the 25-54 age group, which makes up much of the 6 million people who visit the islands annually. The syndicators recommend that stations clear the program for Saturday or Sunday airing. The formats considered most compatible are nostalgia, MOR, easy listening, and soft AC. The series will feature high-profile listener response promotions. To sweeten the offering, the producers expect to involve station personnel in contests and drawings for trips to Hawaii. Teri McCreedy at 808 545-7473 can explain the enticing details.

Wolfman Jack is broadcasting on Friday nights from Washington's Planet Hollywood and is available live from the bird from 7 to 11 Eastern or on a two-hour CD version. Wolfman's oldies show is presented by Liberty Broadcasting and is currently heard on 41 stations nationwide. Digi-net Syndication at 813 253-4500 is handling the station clearance.

Infinity Broadcasting President/CEO Mel Karmazin and Clear Channel Communications President/CEO Lowry Mays will keynote "Today's Trends, Tomorrow's Opportunities" Thursday, September 7 at the NAB Radio Show in New Orleans. The session will feature "frank assessments" of radio's prospects and challenges in tomorrow's media marketplace. For more info, call (202) 429-5300.

Ben Cohen and Jerry Greenfield, of Ben & Jerry's Ice Cream fame, will share their humor and enlightened business insights when they present the keynote address to broadcasters attending the RAB Radio Show on Friday, September 8, in New Orleans. (This writer has attended a similar session with Ben -- he's fascinating!) The September 6-9 conference at the New Orleans Convention Center will offer 60 sessions on management, programming, sales, and marketing for radio executives. Registration includes admission to World Media Expo, which combines exhibits of NAB, RTNDA, SBE, SMPTE and more than 400 other suppliers of broadcast equipment and services.

Following prior successes, the NAB is conducting its third group of European Radio Operations Seminars - this time in Barcelona, Nov. 5-7, 1995. European radio executives will be able to benefit from sessions covering radio management and programming; radio sales and sponsorship; and radio technology. Prior sessions were held at EuroDisney outside Paris and in Amsterdam in 1993 and 1994 respectively. For more info, call (202) 429-5300.

Jim Conway, the Chicagoland radio and TV legend for 50+ years, will be honored on Wednesday, June 7 at 6 p.m. at the Museum of Broadcast Communications at the Chicago Cultural Center. The museum's archives feature a massive collection of Jim Conway memorabilia. Call (312) 629-6023 for tickets for "An Evening with Jim Conway" at \$10. The event is free for museum members.

The Sixth Annual SkyLight Affiliate Conference is slated for Northwestern College in suburban St. Paul, MN on July 17-19. The three-day session celebrates the tenth anniversary of the SkyLight Satellite Network and will again be held in conjunction with "Music Minnesota," a conference for church musicians. Owners, managers, and staff members of affiliates may register by calling Ruth Litynski at (612) 631-5000.

Liberty Broadcasting's President/CEO Jim Thompson and Viacom's President/Radio Division Bill Figenshu have been tapped to head the steering committee for the Radio Advertising Bureau's 1996 Marketing Leadership Conference and Executive Symposium. Figenshu will serve as Chairman, Thompson as Vice-Chair for the conference, which is scheduled to February 15-18 at the Wyndham Anatole Hotel in Dallas.

ABC Radio Networks has named Jo Interrante to Director, Affiliate Marketing. Jo will represent the affiliate marketing department as the liaison between programming, news, and the 24-hour formats.

**FEDS 1, SONNY 0. . .** H.I. "Sonny" Bloch's legacy continues as he, along with his family and several colleagues, were indicted in suits filed by the Securities and Exchange Commission alleging he bilked listeners out of \$21 million. In a separate complaint, Bloch has been charged with putting \$1 million of investor's money in his own pockets--money that was supposed to be invested in the company that manages his radio properties. He's been extradited to Puerto Rico from the Dominican Republic. Details are on page 6.

**INTEREP AND RAB GET WIRED. . .** Jumping in with both "webbed" feet, two major players in the radio industry are launching services on the Internet that will provide radio stations with their own home page on the World Wide Web. Interep will provide home pages to client stations and teach them how to sell it as a value added, while handling the national "spot" sales itself. The Radio Advertising Bureau will offer most of its services on the web, and will help member stations get set up as well. Info and phone numbers are on page 7.

**WASHINGTON THIS WEEK**

The Commission has reaffirmed the dismissal of Red Rock Broadcasting's application for a new FM station at St. George, UT. Following the dismissal of its application by the FCC, Red Rock appealed to the U.S. Court of Appeals. While the appeal was pending, the FCC requested that the proceeding be remanded to the Commission for further consideration, in order to address more fully an argument made by Red Rock regarding the standard applied by the Commission for waivers of FM spacing rules and the FCC's basis for denying the request.

The Commission reiterated that the test of service for purposes of obtaining a de minimus waiver is whether the proposal will serve the public interest by providing service to listeners who currently lack service. The Commission found that a grant of Red Rock's application would not provide such service and therefore Red Rock's showing was properly found inadequate on that count.

FCC Chairman Reed Hundt will address the NAB Radio show at the "FCC Chairman's Breakfast" at 7:30 am on Friday, September 8 in the New Orleans Convention Center. Other FCC officials scheduled to appear include Commissioners Jim Quello and Susan Ness, Mass Media Bureau Chief Roy Stewart, Compliance and Information Bureau Chief Beverly Baker, MMB Enforcement Division Chief Charles Kelley, FCC General Counsel William Kenard, Chief Economist Michael Katz, and Audio Services Division Chief Larry Eads. For more info about the show's sessions, call the NAB at (202) 429-5300.

**ELSEWHERE**

The story of Harry Irwin "Sonny" Bloch darkened this week as the denouement of a federal investigation leveled 35 counts of fraud and conspiracy against the beleaguered talk show host. The SEC is alleging Bloch bilked \$21 million from listeners who invested in shaky wireless cable systems and accuses Bloch of mail and wire fraud, conspiracy, making false statements to a bank, and interstate transportation of investor money obtained by fraud. Four others related to the case have been arrested, as well.

In a separate action, Bloch has been named in a criminal complaint alleging he fraudulently sold securities in his radio stations during his broadcasts. The suit claims of the \$3.8 million raised for shares in Broadcast Radio Group, Inc., which controls the licenses for WBDN (AM), Brandon, FL; WGGG (AM), Gainesville, FL; and WCNX (AM), Middletown, CT, over \$1 million was diverted to personal accounts. His wife Hilda, Bloch's Independent Broadcasters Network, a Florida corporation owned by Bloch's wife, and Broadcast Radio Group have also been named in the suit. Bloch filed applications with the Commission recently to transfer control of Broadcast Radio Group to his son, Paul. The suit further claims the shares were not registered with the SEC and the materials used to entice listeners to invest were false and misleading. If found guilty of any of the charges, Bloch may face hearings as to his qualifications to remain a Commission licensee.

ELSEWHERE (cont'd)

Bloch fled the country to the Dominican Republic last month and attempted to do his daily show from an apartment in Santiago. According to Radio Business Report, Bloch's Independent Broadcasters Network has replaced his two hour daily show with "Financial Forum with John Shipman." "Today's Business Journal," a one-hour weekday show Bloch hosted, continues with Bob Hensler as host. Because of the indictments, Bloch's assets have been frozen, forcing employees of his stations and network to wonder if they will ever see a paycheck. According to Inside Radio, U.S. authorities, with the help of Interpol, have extradited Bloch to Puerto Rico, where he awaits transport back to the mainland.

Former CBS Radio News correspondent Dallas Townsend, Jr., a 44-year veteran of CBS, died in Montclair, NJ, from complications following a fall. He was 76 years old. Townsend wrote and anchored the CBS World News Roundup from 1956-1961 and 1963-1982. He is survived by his wife, Lois, four children, and ten grandchildren.

Z Music Television, the only 24-hour contemporary Christian music video network, has decided to get into radio and will provide daily Christian music new updates. The one minute "Z-News" segments feature news and artist soundbites, and are hosted by Z TV's Graham Barnard. For more info, call (615) 871-6985.

Interp jumps into the Internet with both feet on July 1 by launching RadioSite, L.C., a new company which will develop and maintain free Home Page sites for radio stations on the World Wide Web of the Internet. RadioSite will provide stations with new opportunities to interact with listeners and to generate new off-air revenue streams from advertising sales. Interp will work closely with stations on developing home page content, including audio clips, programming, and personality info. The company will also sell national advertising on RadioSite pages. For more info, call (212) 916-0700.

The Radio Advertising Bureau is also offering to put stations on the Internet with their own home page. RAB will offer the ability to download spots from their 5,000 spot library, as well as instant info from their co-op and instant background libraries. For more info, call (214) 753-6700.

The NAB has announced that more than 100 radio stations and radio personalities have been selected as finalists from a record number of entries in this year's Marconi Radio Awards competition. The awards will be presented at a September 9 dinner which wraps up the four day NAB Radio Show at the New Orleans Convention Center.

Marconi nominees were selected in 22 categories by a special task force of broadcasters, who narrowed the nominations to a maximum of five per category. General managers and program directors of NAB member stations will receive profile booklets and ballots in July. Following the August 4 cutoff date, KPMG Peat Marwick in Washington, DC will tabulate the results.

Space doesn't permit covering the 22 categories, but the nominees for "Legendary Station of the Year" are KGO, San Francisco; KSL, Salt Lake City; WBZ, Boston; WOR, New York; and WSB, Atlanta.

Speaking of awards, forty finalists were announced for the 1995 \$200,000 Radio-Mercury Awards, which will be presented at the Waldorf in New York on June 14. The program rewards excellence in radio advertising, and this year's nominees represent 37 ad agencies, production companies, and radio stations nationwide. The Radio-Mercury Gold Award, signifying the commercial judged best overall, is worth \$100,000 to the winner. Dick Clark, host of the black tie event, will present the Gold Award.

The Michigan Association of Broadcasters' "Annual Meeting and Management Retreat" is scheduled for August 27-29, 1995 at Mackinac Islands' famed Grand Hotel. Featured speakers will include management consultant Dr. Sean Joyce and broadcast sales consultant Jason Jennings. The "Lunch & the Law" panel features Cong. John Dingell, John David from the NAB, attorney David Oxenford, and Gary Fries, President/CEO of the RAB. To keep things in perspective, there's the traditional MAB Golf Scramble and Golf Tournament on the hotel's new breathtaking, challenging 18 hole course. Call (800) 968-7622 to register for the retreat.

In an "everybody wins" situation, the Sports Byline USA talk show is selling its logo tee shirts, hats, and sports radios as well as tee shirts, sweatshirts, and team jerseys commemorating ten teams which participated in the old baseball Negro League. This is the 75th anniversary of the league.

A portion of the proceeds will be donated to the Negro Leagues Baseball Museum in Kansas City, MO. There has been a recent reawakening of interest in the Negro Leagues through an extensive series (no pun intended) produced by Ken Burns on baseball on Public TV. Josh Gibson, Buck O'Neil, and Satchel Paige were among the more prominent of the Negro League's players who moved into the Majors in the 40s and 50s.

Women's sports are also enjoying long-deserved recognition. The Miller Lite Women's Sports Journalism Award for radio was recently presented to Cecil Taylor, co-host of the weekly "Women's Sports Hour" on Prime Sports Radio. The program, which is heard on Saturday mornings via 27 affiliates, had originated as a local talk show on KSKY-660 in Dallas. Taylor's winning entry was a February interview with Pepper Davis, the baseball player portrayed by Geena Davis in "A League of Their Own." Taylor was a finalist for the 1989 award as well.

"Native America Calling," will debut June 5 as the first national call-in radio program focused on Native issues. The one hour daily feed will be available for live use by all public radio stations at no cost for the first eight weeks. The series is a collaboration of the Alaska Public Radio Network, the Native American Public Broadcasting Consortium, and Airos. The programs are hosted by prominent Native Americans who have developed a following in their individual locales. Public stations are encouraged to call Pam Belgarde at 505 277-7999 for additional info.
