FREE PARKING
FREE ADMISSION

for more information, see our
website www.NWVRS.org

NEXT MEETING: JUNE 9th

The Northwest Vintage Radio Society

Post Office Box 82379

Portland, Oregon 97282-0379

The Northwest Vintage Radio Society is a non-profit historical society incorporated in the State of Oregon. Since 1974 the Society has been dedicated to the preservation and enjoyment of "Vintage radio" and wireless equipment.

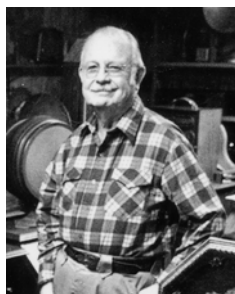

Membership in the Society is open to all who are actively interested in historic preservation. The dues are \$25.00 for domestic membership, due on January 1st of each year (prorated quarterly).

The Call Letter has been a monthly publication since 1974. It was originated with the founder, Bob Bilbie, and our first president, Harley Perkins. Through several editors and with the assistance of numerous society members, the Call Letter has continued to be a publication that informs members of the society's business and that supports the hobby of collecting, preserving, and restoring vintage radios.

Society meetings are held the second Saturday of each month at the Abernethy Grange Hall at 15745 S. Harley Ave. in Oregon City, Oregon. They convene at or about 10 AM for the purpose of displaying radios, conducting Society business, and exchanging information. Guests are welcome at all Society meetings and functions (except board meetings).

Other Society functions include guest speakers, auctions, radio shows, and radio sales which are advertised in the Call Letter and are held in and around Portland.

With each issue of the Call Letter, we remember Jim Mason, a charter member of the society who remained active until his death in 1999. A generous bequest from Jim's estate ensures the vitality of the Northwest Vintage Radio Society, and continued publication of the Call Letter.

Society Officers for 2012:

President	Mark Moore (503)286-5224	mark@pdxhistory.com
Vice-President	Mike McCrow (503)730-4639	tranny53@frontier.com
Treasurer	Cliff Tuttle (503)666-7005	kiptuttle@comcast.net
Recording Sec'y	Charlie Kent (503)281-9335	radiogallerykent@qwestoffice.net
Corresponding Sec'y	Jim Harper (503)538-8738	JLHarperclan@aol.com
Board member at large	Dick Bixler (503) 690-2557	rf2af@comcast.net
Call Letter Editor	Tony Hauser (503)438-0297	abhauser@aol.com
Librarian	Robert Robinson (503) 255-3585	srrobins@comcast.net

On the cover: Our May Show and Sale will include a special auction of the Spence radio collection!

The next *meeting* is June 9, 2012
Our Show & Sale is May 12, 2012

Visit our web site at <http://nwvrs.com>
 and on Facebook:
www.facebook.com/northwest-vintage-radio-society

Next *Call Letter* deadline: May 26, 2012

The *Call Letter* is the official publication of the Northwest Vintage Radio Society. Circulation is limited to the membership and guests of the Society. The Society is not responsible for the material contributed for publication, nor the quality, timeliness, or accuracy of the items or services offered for sale in the SWAP SHOP. By common agreement of the board of directors, the buyer assumes all responsibility for the satisfaction of any transaction.

From The Editor

by *Call Letter* editor, Tony Hauser

A busy month deserves a very full edition of The Call Letter.

As we all know, the month of May signals the return of our Spring sale in Aurora. This is surely not one to miss due to the addition of a special auction of the Tom & Marie Spence radio collection. The proceeds of the auction benefit the Society. See Mark Moore's message about this generous donation from The Spence's in this month's issue **and don't forget to bring along some extra cash for the auctions!**

This issue also includes minutes from both the monthly meeting and the latest Board of Directors meeting. Our own Sid Saul has contributed a brief addition to his most recent WRNO repair article.

Our VP, Mike McCrow, has been busy of late. He has completed the calendar of monthly Tech Talk features for the remainder of 2012 and has also submitted the rules for our new radio restoration competition. The entrants will be competing for the new Don Iverson trophy.

Sadly, Dick Bixler reports that Don's widow, Florence Iverson, has just passed away on April 24th. Those Society members who knew her well knew her as a loving and supportive spouse and mother.

Keep in mind that our next monthly meeting in Oregon City is not until June due to the May swap meet in Aurora. One last note; our Society will need someone to volunteer as Treasurer as soon as possible. Cliff Tuttle has announced a need for his replacement as soon as June of this year. If you have any interest in filling this vital position, please contact Cliff or Mark Moore.

Remember, the dial stops here.

Tony

NWVRS Meeting Minutes

by Recording Secretary, Charlie Kent

President Mark Moore called the April 14, 2012 meeting of the NWVRS to order at 10:00 a.m. New member Tom Filler and guest Rick Martini were introduced. The minutes of the March meeting as published in The Call Letter were approved as presented.

Leads and Needs

Charlie Kent needs more information on a 1905-1913 Western Electric 3-pin 201A tube.

Jack Honeycutt needs a tube caddy.

Jack Honeycutt needs advice on how to obtain a model number for a Silvertone console.

Bob Walters needs a grill cloth.

Treasurer's Report

Cliff Tuttle gave a Treasurer's Report stating our financial position.

Club Correspondence

James Harper shared the Federal Way Amateur Radio Club is having a pancake breakfast. Find out more from their website at <http://fwarc.org>.

James also noted we can advertise our Swap Meet/Sale for free on the Radio Attic website.

Merchandise

Ten members signed up for name badges which will be delivered at the Swap Meet/Sale. Polo shirts and hats will also be available for purchase at the May event.

Tech Committee

Rules for the Don Iverson Restoration Award Contest scheduled for November 10, 2012 will be available by the June meeting.

Website / Social Media Committee

The Committee will be meeting again on Saturday, May 5, 2012.

Old Business

The Memorial Service for Mike Parker will be on Saturday, April 28 from 10:00 am to 12:00 noon at Antique Power Land Truck Museum.

Swap Meet/Sale

Flyers are available for printing by members on our website. A new layout of the tables upstairs allows for two extra tables. All the tables, both upstairs and downstairs, are sold for the May 12 event in Aurora. Set up is Friday night from 4:00-7:00 pm. Set up continues Saturday morning beginning at 7:00 am, with the public opening at 9:00 am. The official hours of the Swap Meet/Sale are 9:00 am to 3:00 pm.

Announcements

There will be no meeting next month as we'll be at the NWVRS Swap Meet/Sale in Aurora.

The annual Trash Bash will be held at 8:30 am before the June 9 meeting. Bring your radio-related and electronic items to the trailer in the parking lot that is being furnished by the club. No CRTs please!

Monthly Feature

Members displayed and talked about radios and equipment with tuning-eye tubes.

June's Monthly Feature will be 'Wildcard (anything) Radios'.

Esteban Mendoza gave a presentation on restoring plastic radio cabinets. **At our next meeting on June 9, Craig Adams will talk about the early days of Portland Radio.**

As a courtesy to others, if you receive a cell phone call during the meeting or Tech presentation, please **immediately** leave the building before answering your call.

Sixty-two were in attendance. The meeting was adjourned.

NWVRS BOD Meeting Minutes

by Recording Secretary, Charlie Kent

Northwest Vintage Radio Society
Board Meeting
April 11, 2012

In attendance: Mark Moore, Mike McCrow, Charlie Kent, James Harper, and Dick Bixler. Excused: Cliff Tuttle

The Board of the NWVRS was called to order by President Mark Moore at the Mall 205 Elmer's Pancake House at 6:30 pm. The minutes of the February 8, 2012 meeting were approved.

Financial Report: No report was presented as Treasurer Cliff Tuttle was an excused absence. The club is seeking applicants for a new Treasurer. We currently have 128 paying NWVRS members.

Club Correspondence and Promotions: We are looking into linking our club with internet websites and organizations to promote our club and advertise our semi-annual Swap/Sale.

Reports from Standing Committees: *Call Letter* suggestions were discussed, including a color photo for the cover each month. Placing the date of the upcoming meeting at the bottom of the *Call Letter* cover was decided to be added.

The May **Swap/Sale** will have additional Oregonian advertising. [Since the meeting radio items have been offered to the club and a special auction during the Swap/Sale will take place of these items.]

Our club **Website** needs updating with new photos. A member application to NWVRS was decided to be added to our website. It was determined a meeting would be scheduled for last April/early May to discuss these website matters with committee members and website master Pat Kagi.

A vendor for club **Name Badges** has been found and names will be solicited at the April meeting.

Monthly presentations are scheduled as:

- Craig Adams – Early days of Portland Radio, June
- Liles Garcia – Building power supplies to power battery radios, July
- George Kirkwood – Unusual radios, August
- Esteban Mendoza – Wood cabinet restoration, September

A Tech Committee report on the Don Iverson Restoration Award announced five judges will mediate with one alternate judge being Mike McCrow. Rules and additional items will be discussed at a meeting in May that is to be scheduled.

New Business

A financial audit will be scheduled for later in 2012.

The next meeting will be on **June 6, 2012**. The meeting was adjourned.

10% DISCOUNT

To all members in good standing of the
Northwest Vintage Radio Society
for any purchase from

 **NORVAC** SALEM (503) 585-9810
ELECTRONICS, INC. 1545 Commercial Street

From The President

by Mark Moore

Greetings to our members,

You all know that May and October are our favorite radio months. This year, we have some exciting news about our first Sale and Show of the year on Saturday May 12 at the American Legion Hall in Aurora. The Sale opens at 9:00 am and at 1:00 pm, we will have a Giant Radio Auction. One of our former members and his wife, Thomas and Marie Spence, have donated their entire collection of radios and related gear from the 1920s, 30s and 40s to the NWVRS. They would like to see all of our members have a fair and equal chance at bidding on these radios. All proceeds will go to the Club.

There are over 45 items, many in excellent condition, there are others in good condition needing repairs. There is a rare 1940s Bakelite art deco Lamp Radio. There are 13 table model radios represented by Arvin, Atwater Kent, Emerson, Gilfillan, Packard Bell, Philco, RCA Victor, United Motors (Delco), Wards and Zenith. There are eight consoles including an Atwater Kent 72, a rare Capehart AM-SW-FM-Phono Highboy (phono missing), a GE Radio-Phono-Recorder, a General Motors Queen Anne, two Philcos and two RCA Victor R15s. There are eight table model speakers and horns: Atwater Kent, Peerless, Radiola and RCA are represented.

In addition, there is a Seeburg Symphonia Jukebox, made in the 1930s. It was the world's first light up jukebox and perhaps the most iconic jukebox ever produced. There is a Crystal Set made by Kilbourne & Clark Mfg. Co. of Seattle with Brandes Headphones. There is a Heathkit RF Signal Generator and some miscellaneous items and parts as well. All items sold as-is. No guarantees or refunds.

You won't want to miss this very rare opportunity to bid individually on these extraordinary radios and related gear. Former President Dick Bixler will handle the auctioneering chores, but don't expect Dick to lift or haul any radios (doctor's orders). Our regular auction of items donated by our sellers will follow this special auction. Make plans now to attend our Show, Sale and Auction. I look forward to seeing you there.

Don't forget, Portland Radio Historian Craig Adams will talk about Portland's early radio days at our next regular meeting at the Abernathy Grange Hall on June 9. Let me know if you have any questions or topics for him to cover.

As you know, our **2012 Spring Radio Sale** is coming up at the **American Legion Hall in Historic Aurora, OR** on **May 12 from 9 am to 3 pm**. We will hold an **Auction at 1:00 pm** of approximately 50 items including antique radios and related gear from the 1920s, 30s and 40s. Prominent Portland collectors and former members, Tom & Marie Spence, donated their collection of radios and miscellaneous gear to the NWVRS to help fund our educational activities. Their wish was that everyone should have a fair and equal chance to bid on these items. The items will be sold individually at auction to the highest bidder. All items offered as is, some items in non-working condition. View some of the items and look for more information at: www.nwvrs.com

Help spread the word. I hope to see you there.

Mark

From The Vice-President

by Mike McCrow

In memory of a true craftsman, our Society is having a radio restoration competition.

At the November 10th regular meeting, the Don Iverson trophy shall be awarded to the best example of craftsmanship in radio restoration. The tech. committee to preside over the competition includes Sonny Clutter, Blake Dietze, George Kirkwood, Esteban Mendoza, and Dave Wise. Your humble Vice President acting as alternate.

Here are the rules as approved by the tech. committee:

1. Restoration to have been started no earlier than November 1st 2011.
2. Restoration to be performed by contestant only. Reproduction items such as dial lenses, dial faces, knobs, radio backs, etc. are allowed.
3. Contestants should have before and during pictures of the radio. Also a written explanation of what was done to the radio electronically.
4. A tech. committee of five judges and one alternate shall preside over the competition.
5. Entries shall be judged on:
 - a. Cosmetic restoration and authenticity.
 - b. Electronic restoration and how it plays.
6. Each judge shall rate each entry on a 1-10 scale with 10 being the best possible for each category. The radio that receives the highest total will be declared the winner.
7. If a judge is entered in the contest he or she can not vote on their own radio. The alternate will take their place.
8. The alternate judges score will decide the winner in the event of a tie.

Let's make this a fun competition! Start getting your projects ready, November will be here sooner than you think.

See you in May!

Mike

From The Bench of WRNO

by Sid Saul

One Hot Signal Source

As you may recall from last month's, *From the Bench*, we were looking at a low volume complaint from a typical ac/dc radio. After our repair of the *wrong value* plate load resistor and returning the radio to service, we now have a *no-sound* complaint. It is time to make a quick

assumption. With the radio plugged in and all the tubes a-glow, the *audio* section working yes or *no*. Sounds like a Christmas poem!

There is a neat trick that can help answer this question. Our *plugged-in* soldering iron is a good 60 cycle signal source, putting it within hearing range and the volume control an easy place to identify a working audio circuit. There are three terminals grouped together on the control. The high side being furthest from the chassis grounded end. Turning the volume control up, then touching the iron to the high side of the control, a loud 60 cycle growl from the speaker should be heard.

If yes, we pretty much have confirmed that the *dead radio complaint* is not located in the audio section. If not heard, we move the hot iron to the grid terminal of the power tube, in this case pin 5 of the 50L6. A growl should also be heard from the speaker, but less loudly than before. Why less? We are only amplifying with the power tube instead of both the first audio and power tubes. If no sound comes through, the problem is in this stage. Replace the tube with a known good tube and try again. If no sound, we measure both voltages and resistance on this stage. The negative voltage lead is connected to common negative. This is easy to locate, as it is always the negative side of the filter caps.

The positive lead checks the 50L6 terminals for *normal* voltages found from our schematic or tube manual. The checks here would include cathode, plate, screen and control grid voltage. Incorrect values would steer us to nearby component failures.

Of course the output transformer or speaker may be the problem. A *rule out* test of the audio transformer and speaker is made with our old analog (*digital will not do*) ohmmeter. Unplugging the radio and placing the ohm scale on Rx1 or Rx10. Locate the primary side of the output transformer. The wires are sometimes red and blue. Touching the meter leads to the ends of these wires will produce a scratchy sound in the speaker. If yes, we can assume the transformer-speaker is not the cause of our *no-sound* complaint.

Special thanks to Blake Dietze for hosting our Wed Radio Night Out meetings and providing radio hobbyists a place to grow. See you next time.

Swap Shop

FOR SALE: Thousands of tubes, hundreds of radio parts, panels, meters, surplus, etc. R5-D3 electronic surplus, Bob Lee, 9770 S.E. Stanley Ave., Milwaukie, OR 97222, (503) 513-0410

FOR SALE: ***Vast majority of my collection of 20+years. 20's to 70's; Catalin, plastic, wood, metal; console, table, portable; modern; tube, transistor, hybrid; **buy 10 items and get a 25% discount!** Contact me with your needs/wants. Tony Hauser, abhouser@aol.com

WANTED: ****50's & 60's VM & BSR record changers. Also, a speaker for an A-K model 42 that fits into a Pooley cabinet. Can pick up items at the May swap meet. Homer J. "Jim" Myers, Walla Walla, WA, 509-525-6264

WANTED: **Hi fellow members of The Northwest Vintage Radio Society, I am in need of one or two 12A8 tubes. If you would check/recommend for one I would appreciate it. Many Thanks! Raymond Holland, 6015 NW Perthshire Rd, Vancouver, WA 98663-1175, 360 695-6349, (C) 360 989-5981.

WANTED: **lid for Atwater Kent model 37. Antique Radio Classified from 1986-1987. Dan Howard strains@msn.com,

Leads and Needs

Questions about restoration of vintage radio? Visit Radiolaguy's web site often for this information plus lots of other interesting displays, photos, virtual museum plus lots of other information on vintage radio and television. Oh, yes, there are items for sale as well and NVRS members get a substantial discount on most of these items. Thank You, Sonny the Radiola Guy

Visit my vintage radio web site: <http://www.radiolaguy.com>

NEED: **VTVM (Vacuum Tube Volt Meter). Prefer an Eico 232, or one of the RCA Voltomyst (Junior, Senior, etc.). Maybe you have something similar that would work. I will only be using it for alignment of old AM radios. It must be in good condition, functioning properly (calibrated), and have all the original or necessary probes. A complete owners manual would be nice but, would not be absolutely necessary. I believe they are available from BAMA. Contact me at rebaf5450@hotmail.com or call me at 541-997-1601. If you have any questions, please contact me. Thank you, Joseph Faber, 173 Florentine Ave,

LEAD: **A friend has the need to sell two radios: 1)Philco model 48-1290 Push button am/fm/sw w/phonograph Console (Dark color) pretty nice cabinet. Tubes 7af7,6au6,6z6zt,6so76T,7f7,7e7, 6ba6, 6va6, 7fa, 7a7. 2)Airline Model 84KR 2723A am/fm auto record changer (pretty rough cabinet) blond color. Tubes 6sk7, 6sa7, 6sk7, 6sq7, 6v6gt, 5y36t.
